## PINGREE TO BE HERE

And Address the Farmers' Institute Saturday Night.

## THE PROGRAM IS FULLY ARRANGED

And Presents a Goodly Array of Speakers Who Will Interest the Audiences.

The farmers' institute to be held in the town hall, Chelsea, tomorrow and Saturday, under the auspices of the farmers' clubs and granges in this section of Washtenaw county, will be one of the most important meetings of its kind ever held here, both from the varied topics that will be discussed and the ability of the speakers who will be present. An added attraction will be the presence of Governor H. S. Pingree on Saturday evening, who will speak on his favorite subject, "Equal Taxation." It was hoped to have had Hon. James O'Donnell, of Jackson, here the same evening, but a prior engagement prevented him from coming, and his place on the program will be taken by A. F. Freeman, of Manchester. Below is given the program in full as it has been finally decided on by the committee:

**FRIDAY, FEB. 16, 1:30 P. M.**

Prayer—Rev. J. I. Nickerson.  
Address of Welcome—President George P. Staffan.

Response—President O. C. Burkhart.  
Music—Lima Farmers' Club.  
Paper—What is the most successful way of conducting a farm. L. D. Watkins, Manchester.

Discussion led by Wm. E. Stocking, Lima.

Music—Mandolin Club.  
Paper—The sugar beet industry. Prof. J. D. Towar.

**EVENING SESSION, 7:30 P. M.**

Presiding officer, N. Laird.  
Prayer—Rev. C. S. Jones.  
Instrumental Music.

Recitation—A lecture on woman.  
Music—Western Washtenaw Farmers' Club.

Paper—Economy.  
Discussion led by Mrs. F. Storms and Mr. M. A. Lowry.

Music—Western Washtenaw Farmers' Club.

**SATURDAY, FEB. 17, 10:30 A. M.**

Presiding officer, Charles Johnson.

Prayer—Rev. F. A. Stiles.  
Music—Lima Farmers' Club.  
Paper—The sheep industry of Michigan.

Roscoe Wood, Saline.  
Discussion led by M. L. Raymond, Grass Lake.

**AFTERNOON SESSION, 1:30 P. M.**

Presiding officer, A. H. Wilson.

Discussion by Revs. C. S. Jones, F. A. Stiles and J. I. Nickerson.

**SATURDAY EVENING.**

Presiding officer, President O. C. Burkhart.  
Music—Male Quartette.  
Address by Governor Pingree on "Equal Taxation."

Music—George E. Davis.  
Address by A. F. Freeman, Manchester.

## Had No Use for Spies.

Blissfield, Lenawee county, has a Good Government League which considers it one of the duties incumbent on its members that they should keep a watch on the saloons. One night recently the Rev. Frye, pastor of the Evangelical church, with George Rothfuss and Officer Palmer were out performing this duty, when some graceless persons proceeded to shower them with eggs. The minister lost his rubbers trying to get away, and the constable was chased all the way home. Evidently the Blissfield citizens are not yet fully prepared to believe that all the ways of the Good Government League are exactly according to their ideas of honorable action.

## L. O. T. M. FINANCES.

What the Order Has Done During the Past Year.

The report of the past year's business of the L. O. T. M. of Michigan just made to the state insurance commissioner by the great record keeper, Miss Emma E. Bower, of Ann Arbor, shows the following figures: The balance on hand at commencement of the year was \$32,498.35, and at the close \$35,641.05.

Funds were collected from members as follows: Membership fees, \$17,322.95; dues, \$22,541.25; mortuary assessments, \$168,933; reserve assessments, \$8,891.24. The total receipts were \$270,392.35.

Disbursements during the year were as follows: Death claims, \$164,875; permanent disability claims, \$5,025; paid to officers, \$3,799.91; to office employees \$3,594.66; miscellaneous expenses, \$19,577.53.

And yet there are some people weak enough to think that women cannot conduct business in a successful manner.

## THE COUNTY'S INSANE

Judge Newkirk Has Secured More Humane Arrangements for Their Care.

Judge Newkirk is entitled to the everlasting gratitude of those unfortunate who through any cause whatever become insane and have to be temporarily confined in this county before room can be secured for them at the state asylum. He has been persistent in his efforts to secure a proper place for their confinement, other than in the county jail, and has finally succeeded in making a contract with the Wayne county house, whereby they will accept insane from this county, pending their acceptance at the state asylum, for periods not exceeding sixty days each, at \$3 per week. Insane from this county will be sent there from now on until other arrangements shall be made.

## Manchester.

The personal effects of the late Goodrich Cooklin were sold at auction last Saturday.

Mr. and Mrs. Dennis, of Sharon, were the guests of her sister, Mrs. J. A. Smith, Sunday.

Mrs. R. M. Teeter has been confined to the house several days by a slight attack of bronchitis.

Work is slowly progressing on Joseph Lowery's new house, and it will probably be ready for occupancy early in the spring.

Mrs. Homer Fisk, of Saline, who has been quite sick the past three weeks at the home of her father, Chas. Walworth, is slowly improving.

Revival meetings were begun at the Baptist church last Sunday evening. Pastor McLean will be assisted by Rev. Buffum, of Iron Creek.

The house owned by Mrs. Jacob Filber and now occupied by J. E. Teeter, has been contracted for by Mrs. Glatz. Papers have been made out but not yet signed.

The W. R. C. have commenced preparations for a fair to be held about next December. Several quilts are in progress and plans are being made at an early date that nothing may be omitted to make the fair a successful one.

Members of K. O. T. M. and L. O. T. M. have been divided into two parties, the "rustlers" and the "bustlers", and are having a contest to see which side can gain the greatest number of new members in a given time. A banquet will be furnished at the expense of the losing side.

The morning train from Jackson was delayed here several hours last Friday in consequence of a break in the engine. A telegram was sent to Adrian for another engine, but the despatch had to go by a roundabout route as the high gale of the night before had damaged the lines in some places.

## THE WEEK'S NEWS

### Happenings of the Past Seven Days in Brief.

### ROUND ABOUT THE WORLD

### Casualties and Fires, Personal and Political Notes, Business Failures and Resumptions, Weather Record.

### INTELLIGENCE FROM ALL PARTS

#### CONGRESSIONAL.

There was a tilt in the senate on the 7th between Senators Dewey and Pettigrew over a letter from President Schurman, of the Philippine commission, read by the New Yorker, flatly denying a statement made by the South Dakota senator that he (Schurman) "had tried to bribe the insurgents and failed." The financial bill was further discussed. In the house the diplomatic and consular appropriation bill, carrying \$2,743,908, was passed substantially as it came from committee.

Further discussion of the financial bill occupied the time in the senate on the 8th. A favorable report was made on the bill to create a department of commerce and industries, the head of which is to have a seat in the cabinet. In the house the bill establishing tariff rates upon goods from Porto Rico into the United States and vice versa was reported.

Senator Jones (Ark.) introduced in the senate on the 9th a free silver coinage substitute for the pending currency bill. Senator Allison presented the credentials of his colleague, John H. Gear, reelected senator from Iowa, for a term of six years from March 4, 1901. In the house no business was transacted during the day. In the evening 35 private pension bills were passed.

With only a dozen senators present a Doer sympathy resolution introduced by Mr. Allen was passed in the senate on the 10th before the vote was reconsidered. A minute later the vote was reconsidered and the resolution went over. The financial debate was continued. The house was not in session.

#### DOMESTIC.

In Chicago the temperature dropped 50 degrees in 15 hours, the greatest fall in the city's history, and the wind blew 62 miles an hour, a velocity exceeded but once.

Collinsville, Ill., was struck by a terrific windstorm, wrecking houses and injuring many persons.

Republican incumbents of Kentucky state offices below that of lieutenant governor have asked the federal court to prevent their unseating. This complicates the situation, as Mr. Taylor is still obdurate.

Superintendent Frye reports opening 1,875 primary schools in Cuba, with an attendance of 100,000 children.

The thirty-second annual convention of the National American Woman's Suffrage association opened in Washington, Susan B. Anthony presiding.

Three masked men robbed the bank at Malden, Mo., of \$5,000.

The transports Indiana, Pathan and Sherman arrived at San Francisco from Manila with a number of officers and sick and discharged soldiers.

James Walter Kennedy, aged 40, probably the strongest man in the world, died in Boston. His greatest lift was 4,210 pounds.

In a quarrel James Robinson fatally shot his wife and himself at Whitman, Neb.

Kentucky's republican legislature met at London and the democratic body at Louisville. Acting Gov. Taylor has not as yet signed the peace agreement.

The Union League club of Brooklyn, N. Y., presented to Admiral Dewey a gold medal, commemorative of his great achievement in Manila bay.

Commander Richard Wainwright has been designated by President McKinley as superintendent of the United States Naval academy.

Thirty-nine young Chicago men left for South Africa to act as ambulance corps to the Boer army.

The exchanges at the leading clearing houses in the United States during the week ended on the 9th aggregated \$1,807,583,776, against \$1,520,387,159 the previous week. The increase compared with the corresponding week of 1899 was 5.4.

James B. Brown (colored) was hanged in Jersey City, N. J., for the murder of Policeman Gebhart.

A tornado passed over Custer, O. T., wrecking four buildings and killing James Abney and wife.

There were 245 business failures in the United States in the seven days ended on the 9th, against 171 the week previous and 217 in the corresponding period of 1899.

The remains of Gen. Lawton were buried in Arlington cemetery after an imposing funeral. The president, his cabinet, diplomats and 3,000 soldiers took part in the exercises.

Will Golson (colored) was hanged in Birmingham, Ala., for the murder of Deputy Sheriff Robert Warneck.

The sale stable of W. H. Randall at Durand, Ill., was destroyed by fire and 15 valuable horses perished.

Building contractors in Chicago estimate the number of men made idle by their lockout at 7,000.

The United States ship Nero has completed the survey for the Pacific cable after one year's work.

The government exports of domestic products in January amounted to \$64,329,593, against \$74,729,763 in January, 1899.

Fourth ward citizens in Chicago talk of adopting lynch law in self-protection against burglars and highwaymen.

Senor Quesada, the Cuban commissioner in Washington, has returned from a trip through the island and says everything is peaceful and prosperous.

Commerce of the United States with Cuba, Porto Rico and the Hawaiian, Philippine and Samoan islands continues to show a rapid gain.

Martin Jordan, his wife and their five-month-old boy were asphyxiated by gas from a leaky pipe in their home in Chicago.

James Sweeney, upon being acquitted by a jury of murder, was hanged by a mob at Port Arthur, Tex.

Elijah Cone, aged 72, city editor of the Daily News, was drowned in the river at Fond du Lac, Wis.

Gov. Taylor, of Kentucky, decided that he would not sign the agreement reached by the representatives of the two parties in conference. He, however, issued a proclamation sending the troops home and reconvening the general assembly at Frankfort. Shots in the vicinity of Taylor's home gave rise to the belief that an attempt was made to assassinate him.

The conference of the National Anti-Trust league opened in Chicago.

Roland B. Molineux, tried in New York for the killing of Mrs. Katherine J. Adams by poison, was found guilty of murder in the first degree.

The extra session of the California legislature has adjourned sine die.

#### PERSONAL AND POLITICAL.

Mother Elizabeth Strange, founder of the order of Sisters of Mercy in this country, died in Pittsburgh, Pa.

Nebraska republicans will hold their state convention in Lincoln May 2.

Ex-Senator William M. Everts celebrated his eighty-second birthday at his home in New York. He is totally blind.

Col. Richard W. Thompson, secretary of the navy in President Hayes' cabinet, died in Terre Haute, Ind., aged 91 years.

Beriah Brown, probably the oldest newspaper man in the west, died in Anaconda, Mont., aged 84 years.

Rev. John Wesley Merritt, D. D., one of the most distinguished Methodist clergymen and theologians in the country, died in Concord, N. H., aged 92 years.

J. Walter Kennedy, once a famous sculler, died of pneumonia in Boston.

Missouri republicans will hold their state convention in Kansas City May 15.

Gilpin Moore, the inventor of the sulky plow, died at Moline, Ill.

#### FOREIGN.

The famine in India is becoming worse and the government is giving relief to 4,000,000 sufferers.

An entire family of Indians, six in number, with the Scotch name of McTavish, were charged with being witches and killed by a vigilance committee in British Columbia.

Thirty-one Japanese girls employed at a spinning mill at Koryumura were killed in a fire.

Irish leaders in the house of commons attacked the British policy that led to the war.

Reports from Manila declare that the bubonic plague continues to spread in that city.

The branch of the People's bank of Halifax at Danville, Que., was robbed of \$5,000 by burglars.

Latest advices received in London say that Gen. Buller was holding the same positions he had won and defended against Boer attacks on his way to Ladysmith. Boers attacked Nordweni, in Zululand, destroyed the public buildings and took numerous prisoners. The British losses reported to date are 10,244.

From advices received in London Gen. Buller is believed to be in a difficult situation and the relief of Ladysmith almost out of the question. Boers were threatening Kimberley, and were assuming the offensive at Modder river and other important points. Gen. Joubert had sent 6,000 men across the Tugela, probably to outflank Buller.

Russian troops are being concentrated on the Afghan frontier.

At Nagoya, China, 60 girls were burned to death in a factory.

Advices from Mania announce a complete cessation of war in southern Luzon.

Gen. Buller has for the third time found the Boers too clever in battle and has been driven back across the Tugela river after a fight, the importance of which has not yet been made known.

Information was received in Manila that Gen. Pio del Pilar, the insurgent leader, died of fever in the Morong mountains and that his forces had been disbanded. The rebels in Albay, Luzon, were using burning arrows in fighting against Americans. Guerrilla warfare continues south of Manila.

#### LATER.

Speeches were made in the United States senate on the 12th on the financial bill by Messrs. Wolcott, Elkins and Butler. In the house a bill was introduced forbidding contributions by corporations to political campaign funds and a bill was passed permitting transit of goods in bond across the continent without paying duty. The executive, legislative and judicial appropriation bill (\$23,874,871) was reported. A bill was favorably reported for the creation of a department of mines and mining, with a secretary, to be a member of the cabinet.

The fire losses in the United States in January amounted to \$11,775,300, against \$10,718,000 in January, 1899.

The funeral of Col. R. W. Thompson took place at Terre Haute, Ind., many prominent persons being present.

The bank at Las Cruces, N. M., was robbed by burglars of \$3,000.

A dispatch from Manila says that the United States gunboat Princeton has raised the American flag over Batan and Calayan islands, the most northern of the Philippine archipelago.

Burglary insurance rates on stores in Chicago have been raised 50 per cent.

Soldiers fired on strikers at Francois, Martinique, killing eight, mortally wounding five and injuring 11.

Five negroes and four white men were publicly whipped at Newcastle, Del., for various offenses.

There is no change in the political situation in Kentucky. The republican legislators met in Frankfort and the democratic in Louisville. Judge Taft heard arguments in Cincinnati on the contests, but reserved his decision.

One-third of the business portion of St. Paul, Kan., was destroyed by fire.

Samuel C. Forker, who represented the second district of New Jersey in the Forty-third congress, died in Edgewater Park, N. J., aged 79 years.

The ninety-first anniversary of the birth of Abraham Lincoln was celebrated throughout the country.

Mrs. Maria Smith (colored) and her six children were burned to death at their home near Stoney Creek, Va.

Official announcement having been made that Lord Roberts is personally in command of the British forces at Modder river, there is reason to expect important developments in the campaign in South Africa. An early invasion of the Orange Free State seems imminent.

#### MINOR NEWS ITEMS.

Woman sailors are employed in Denmark, Norway and Finland.

Reports from 45 colleges show discouraging religious conditions in but three.

Booth-Tucker says God uses America as a connecting link between other nations.

The dowager empress has abolished study of European sciences in Chinese schools.

Miss Susan B. Anthony recently celebrated her eightieth birthday anniversary.

In German cities merchants are not allowed to put up signs unless the wording is true.

Prince Henry of Prussia was robbed by bandits while on his way to visit the king of Siam.

The Salvation Army has again failed to get a foothold in Mexico. Religious progressions are forbidden.

A new railroad from Salt Lake City to southern California is likely to be built by the Southern Pacific.

Thomas Yates, of Toledo, O., is the only living American who took part in the charge of the Light brigade at Balaklava.

Albert H. Hilton, of New York, has filed a petition of bankruptcy. His debts are over \$2,500,000 and he has 10,000 creditors.

The oldest consul of the United States in continuous service is Horatio J. Sprague, who became consul at Gibraltar in 1848.

Col. George T. Perkins, of Akron, O., has presented that city with 80 acres of land valued at \$100,000 as a playground for children.

Miss Susan B. Anthony has willed her extensive collection of books on woman's suffrage to the National library at Washington.

The centennial anniversary of the graduation of Daniel Webster from Dartmouth college will be observed by that institution next year.

James Whitcomb Riley declares that in spite of his long experience on the lecture platform he has never been able to conquer stage fright completely.

The female Society for the Relief and Employment of the Poor is probably the oldest woman's association in America. It was founded in Philadelphia over 104 years ago.

## JOUBERT ADVANCES.

### Marching with 6,000 Men to Outflank Gen. Buller.

Boers Cross Tugela River and Occupy Strong Positions — Lord Roberts Reaches Modder River — Engagement at Rensburg.

London, Feb. 12.—There is a Durban report that the Boers have taken the offensive and are marching, under Joubert, to cut off further retreat by Buller. The Boers are said to be moving on two important points simultaneously. According to the Durban report, a Boer column estimated at 6,000 men has crossed the Tugela and is now advancing with a view to outflanking Buller. Where the crossing was made is not stated.

#### Command Tugela Bridges.

London, Feb. 12.—The Pietermaritzburg correspondent of the Daily Mail, telegraphing yesterday, says: The Boers have occupied Bloy's Farm, south of the Tugela, which is under an hour's ride from Chieveley, and have turned the homestead into a hospital. On the farm are hills commanding both bridges over the Tugela, as well as Forts Wylie and Molyneux, and from which a view of Bulwana and Ladysmith is obtainable. There is much apprehension here regarding the Boer movements, and the authorities are on the alert.

#### Not Confirmed.

London, Feb. 12.—There is no confirmation of the report of a sortie from Ladysmith. The latest dispatch from there, dated Wednesday last, reports that all was quiet then and that instructions had been issued to beware of the possible approach of Boers in the guise of a British relief force.

The general situation is much more threatening than it seemed to be a week ago. Proofs of the terrible strength and mobility of the Boer artillery, together with the rumor that Gen. Joubert is taking the initiative with the object of cutting Gen. Buller's communications, are in no way reassuring. Even the most sanguine persons begin to see that it is quite hopeless to expect the relief of Ladysmith, while it is clear that, if it is possible for Buller to reach Ladysmith, it is equally impossible for the garrison, exhausted by sickness and privations, to cut a way out.

#### Startling News from Kimberley.

Startling intelligence comes from Kimberley in the Cape newspapers just received by mail in London. It appears that since January 3 the rations at Kimberley have been for the most part horseflesh, so repugnant to women and children that many refuse to eat. It also appears that the death rate has been heavy and that the privations of the garrison have been increasing steadily.

#### The Engagement at Rensburg.

Rensburg, Saturday, Feb. 10.—The Boers outflanked the British here Friday. A considerable force of the enemy was threatening the British communications between Rensburg and Slingersfontein 12 miles away, and during a reconnaissance by some Inniskillings and 20 Australians from Slingersfontein, the Boers were discovered attempting to get a gun in position to shell the British camp. The Australians, having come into very close contact with the enemy, took cover under a hill about 9,000 yards from the camp. Thereupon the Boers took up a position with a view of preventing their retirement. Some burghers got within 200 yards of the Australians and called upon them to surrender. They replied by fixing bayonets and shouting defiance. Sergt. Edwards and two men made a dash and, galloping under a hot fire, took word that the Australians were safe and confident of holding the enemy at bay and of getting out after dark, which eventually they did. The Inniskillings prevented the enemy from getting their guns in position. The Australians lost one man killed and three wounded.

#### Boer Loss Quite Heavy.

Boer Head Lager, Ladysmith, Feb. 9.—It is reported from the upper Tugela that in yesterday's fight, while driving the British across the river with heavy loss to them, the Boers had four men killed and eight wounded. On retaking the kopje 22 Boers were found killed.

The convoys have been successfully gotten to Slingersfontein to-day, the British escorts having had several brushes with parties of from 20 to 30 Boers infesting the region. Lieut. Col. Page, with a section of artillery and 150 horse, got one large convoy through by shelling the enemy out of the road.

In Wednesday's brush two correspondents, Mr. Hales, of the London Daily News, and Mr. Lambie, of the Melbourne Age, fell behind. Mr. Hales, who was slightly wounded, was captured by the Boers, and Mr. Lambie was killed. The British took two prisoners.

#### Roberts at Modder River.

Modder River, Feb. 10.—Lord Roberts is here. Upon appearing before the troops on Friday he was enthusiastically cheered. He visited the camp of the Highland brigade this morning and complimented Gen. Macdonald and his men on the steady conduct at Koodoosberg drift.

## The Mystery of Bust at Sea.

It is a puzzling fact that the decks of sailing vessels show dust at night, even if they be washed in the morning, and no work is done during the day. This is like indigestion, which creeps on one unawares. However it comes, the only way to cure it is by the use of Hostetter's Stomach Bitters, a remedy which never fails to cure dyspepsia in all its forms, as well as prevent malaria, fever and ague.

#### A Definition.

Little Mike (who has an inquiring mind)—Foder, phwt is a autograph? McLabberty (promptly)—Autograph, is ut? Sure, that's phwt they write on yure tombstone whin yez are run over by wan av thim dommed hareless carriages!—Puck.

#### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

#### Merely a Suggestion.

Husband—What's the matter with the biscuits this morning? Wife—It's the fault of the yeast. It failed to make the rise. "Why don't you use an alarm clock?"—Chicago Evening News.

#### Glimpses Across the Sea.

is the charming title of a charming book from the facile pen of Mr. Sam T. Clover, the well known author and newspaper editor. The "Glimpses" are particularly pertinent just now when so many people are considering about going to the Paris Exposition, and many people will be glad to know that the Chicago, Milwaukee & St. Paul Railway has purchased an edition of Mr. Clover's work for distribution.

In sending your address for a copy please enclose six cents to pay postage. Geo. H. Heafford, General Passenger Agent, Old Colony Building, Chicago, Ill.

#### A Strange Animal.

Terrified City Milkman—Good gracious! What's that? Mary, bring the gun, quick. There's a wild beast in the yard. Mary (who was once in the country)—Why, you old silly, that's a cow. "You don't say so?"—Tit-Bits.

#### Cleanliness in the Dairy.

Cleanliness counts in no place for more than in the dairy. The milking should be done in a clean place; all vessels used should be washed morning and night in hot water with Ivory Soap, rinsed and well aired. Milk should never be kept in a cellar with vegetables, as an unpleasant taste will be imparted. Attention to these details will insure a supply of wholesome milk and butter. ELIZA R. PARKER.

#### Penetration.

Edgar—Carolyn, I'm neither contrary nor obstinate. Carolyn—No, Edg, you are just a natural-born kicker.—Indianapolis Journal.

Many People Cannot Drink coffee at night. It spoils their sleep. You can drink Grain-O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect drink. Made from pure grains. Get a package from your grocer to-day. Try it in place of coffee. 15 and 25c.

#### An All-Year Resort.

The Crescent Hotel, Eureka Springs, Ark., opens March 1, 1900. A most desirable, attractive and convenient resort for health and pleasure seekers. Ideal climate, pure sparkling water, best accommodations. Through Sleepers via Frisco Line. Write for particulars to Manager Hotel or to any representative of Frisco Line.

If a man admires his wife, it is more important than if the neighbors say she is a lovely character.—Atchison Globe.

## EVIDENCE OF ENTERPRISE.

High School at Ludington Takes Charge of the Citizens' Lecture and Music Course.

AS ON THE UNIVERSITY APPROVED LIST.

Papers on Condition of Educational Interests—Art Gallery Rearranged—Orators to Wear Caps—Faculty for the Present Year—Other Notes of Interest.

[Special Correspondence.]

University of Michigan, Feb. 12.—The high school at Ludington, Mich., gave evidence of enterprise and executive ability this winter by taking charge of the citizens' lecture and music course of Ludington and transforming it into a high school entertainment course. So successful was the plan that the managers, after clearing a considerable sum for the school, were able to give an extra number free to all holders of course tickets.

With a part of the money thus realized the school has purchased a fine double stereopticon for use in the department of literature, history and science. It is prepared to expend some of the remainder upon pictures for the high school recitation-rooms.

The Ludington high school has been on the approved list of the University of Michigan for a number of years. Since 1895 eight students from this school have entered the literary department of the university upon diploma. The number of students in all departments from Ludington last year was 11.

Training of Teachers.

"The Training of Teachers" is the title of a monograph by Dr. Burke A. Hinsdale, professor of the science and art of teaching. This is one of 19 monographs on educational subjects which have been prepared and collected under the direction of Prof. Nicholas Murray Butler as a feature of the exhibit in education to be made by the United States at the Paris exposition. The object of the 19 papers is to afford a complete view of the present condition of educational interests in the United States.

Baseball Schedule.

The baseball schedule of the university will include four games with the University of Chicago, five with the University of Illinois, three with Cornell university, two with Northwestern university, two with Beloit college, and one game each with Indiana university, University of Pennsylvania and Purdue university.

Columbia university, New York city, has requested a football game for Thanksgiving day, 1900, to be played in New York city. Michigan, however, will probably play the University of Chicago in Chicago on this date.

Art Gallery Rearranged.

The art gallery as rearranged presents a very different appearance from what it did last year at this time. The pictures are no longer crowded together in a disordered manner, but are arranged systematically and hung in such a manner that the most valuable works of art are conspicuous. The new or the south room contains the best pictures. Most of them are of the modern school of painting. They are not arranged on the walls with regard to their schools, but to suit the lighting of the room.

To Wear Caps.

At the last meeting of the oratorical board a proposition was discussed to furnish caps to representatives of the university in the oratorical contests, the same as is done in some of the eastern colleges. The proposition was generally indorsed, and will probably be carried out. The basis to determine who are entitled to wear the caps will probably be arranged something upon the plan by which athletes determine who are entitled to wear the M sweaters.

The Faculty.

The faculty of the university for the current college year consists of 233 persons. Of this one is president, 53 are professors, 11 junior professors, 16 assistant professors, one resident lecturer, 12 nonresident lecturers, 56 instructors, 52 demonstrators and assistants in instruction and 26 librarians and other officers of administration. Twelve of the 233, including one professor, are women, four of the total number are absent on leave.

Medical Library.

One-half of the third floor of the bookroom in the general library has been given over to the medical library, which now contains about 10,000 volumes. The books have been shelved and catalogued according to the decimal system. All the books shelved in the general library building are being catalogued by this system as rapidly as is convenient.

Contest in Oratory.

The preliminary contest in oratory, held under the direction of the Northern Oratorical league, begins Monday evening, February 19. There are six of these class contests to be held, after which comes the university contest. The winner of the final will represent the university in the league contest.

There are between 50 and 60 contestants for the preliminaries.

Want a Paper.

Dr. W. A. Dewey, of the homeopathic department, has been requested by the secretary of the international homeopathic congress to be held in Paris July next to prepare a paper for presentation at the congress. The paper which Dr. Dewey expects to prepare will embody research work conducted within the last year or two.

Junior Hop.

The twenty-fourth annual junior hop was given by the fraternities of the university in the Waterman gymnasium. Guests were present from all parts of the west—Chicago, Detroit, St. Louis and the larger cities of Michigan furnishing the majority of them. When the grand march began at ten o'clock there were 225 couples in line. The decorations were magnificent. In addition to the masses of laurel and bunting, four powerful calcium lights of delicate color were turned on the dancers.

Notes.

The deep well drilling on the campus is now down over 1,200 feet. The drill is in limestone and gains only about ten feet a day.

Dean Harry B. Hutchins, of the law department, will deliver the commencement address before the law department of the Iowa state university, June 6.

A case of mounted Pennsylvania owls has been received at the museum. The collection is the gift of H. W. McClure, of Ann Arbor.

MANUAL TRAINING.

State Superintendent of Public Instruction Secures an Appropriation to Make Investigation.

State Superintendent of Public Instruction Jason E. Hammond, who is a sincere advocate of the advantages of manual training in the public schools, has succeeded in getting a small appropriation from the board of state auditors to assist them in making an investigation of the subject. The board set aside \$100 to pay the necessary expenses of Chief Clerk A. Hamlin Smith, who has gone to visit several schools in this and adjoining states where manual training classes have been conducted, and he will incorporate the results of his observations in a report, which will doubtless be valuable addition to the general information on the subject.

THE GAME LAWS.

Monthly Report of the State Game Warden Shows They Are Being Rigorously Enforced.

State Game Warden Grant M. Morse in his monthly report filed with the secretary of state says that the courts of the state are generally imposing heavier fines for violations of the game and fish laws, which indicates a disposition to enforce the laws strictly. During the month of January there were 146 complaints for violations of the game and fish laws, resulting in the commencement of 111 cases, 57 of which were for violations of the game laws and 53 for violations of the fish laws. Sixty-two persons were convicted, two were found not guilty, four were dismissed and 43 cases are pending. The total amount of fines and costs imposed was \$910.97.

Engine a Hoodoo.

The Grand Trunk engine which exploded near Edwardsburg the other day is said to have been a hoodoo. It was only two years old, but in that time it had killed a man and a woman who were driving across the track, and killed its fireman, and finally burst its boiler and caused the death of its engineer and conductor. These casualties were all in Cass county, while at other places on the line the machine is said to have caused numerous other deaths.

Moved to Anger.

At Cheboygan there is a certain blacksmith who is ordinarily a peaceable man, but he was moved to anger the other day when a farmer entered his place of business and asked him if he could shoe lively farm critters. The blacksmith replied that he had never yet struck anything in that line that he couldn't, and the farmer said that his wife was sick and he wanted some one to come out and shoe the hens. And then the fireworks went up.

Valuable Discovery.

Henry Van Horn, a well-digger of Ionia, is at work upon a flowing well upon the farm of Henry Pierce, near Ionia, and has struck coal and iron in unusual quantities. At 60 feet he struck a vein of 42 inches of iron ore. At 150 feet he went through 14 inches of slate coal into a ten-foot vein of excellent quality of hard coal, then into a 14-inch vein of soft coal.

Candies Are Pure.

Commissioner Grosvenor, in the January bulletin of the state pure food and dairy commission, says that the department has recently analyzed 220 samples of confectionery selected to cover the principal varieties found on the markets of Michigan, and has failed to find adulterations on which prosecutions could be successfully brought.

# Woman and Her Ways

THE SERVANT PROBLEM.

This Woman Would Solve It by Providing Pleasant Quarters Outside of the Kitchen.

"Where do I think charity and philanthropy ought to begin?" repeated the woman who was pouring the tea. "Why, with one's servants. Servants' sitting-rooms; there you have the key to the whole servant problem. I mean that next in necessity to your own drawing-room and the kitchen itself come rooms where your servants may receive their friends."

"A friend of mine—a woman of ideas as well as means—has fitted up a room on the second floor, a pretty room at the side of the house, and given it to the servants in which to receive their friends. It is not merely carpeted and furnished with six chairs. It was made artistic at a very moderate cost. A breadth of matting was run around the wall just above a couch covered with red denim. The walls were denim-covered and hung with a good carbon copy or two. The floor was stained and laid with cheap, effective rugs—one of them being made of coarse canvas, fringed at the ends, lined with the same and marked with a paint brush with blotches of old blue and dull red. Pillows were placed on the couches; here and there were stained pine shelves for books, finished at the top with ordinary picture molding. White dimity curtains were at the windows, and a bit of pottery stood on a shelf above the door. The room was arranged at an expense which was hardly to be mentioned, and it was very artistic and comfortable.

"In this room the servants took turns, arranging their evenings to suit themselves. They might entertain your milkman, the green grocer's boy or an honest young laborer—that was their lookout. The guests came up the back stairway, and the room was theirs.

"After a time there may begin to be a difference in the sort of callers who come. Well-appearing, well-trained servants, disciplined to soft voices and silent feet, are not likely to have very objectionable friends. But if they do, refined surroundings will help point out their objectionableness sooner than anything else. Make your home attractive to your servants and they will put up with anything rather than leave you."—N. Y. Commercial Advertiser.

FOR THE BRIDE-ELECT.

Linen, Book and Rose Showers Are Becoming Popular All Over the Country.

The bride of to-day is being made the recipient of many social honors. All her girl friends pay her tribute by these pretty entertainments, and the popular maid must be ready for her wedding several weeks before the event transpires, for at each of the functions she is supposed to wear one of her trousseau gowns. Most of these affairs are luncheons or breakfasts, each with a special feature. A "linen shower," for instance, consists of each guest bringing a piece of linen, a doily, centerpiece or bureau scarf, whatever one chooses, and as the party leaves the table the pieces are thrown at the bride-to-be.

For a "book shower" each guest brings a book appropriately inscribed to her friend, with a sentiment which the giver fancies. Of course, each hostess can use her own ideas in planning her entertainment, and in her invitations puts in one corner what each guest is to bring for the honored one. "Teaspoons," "cups and saucers," "plates" and "sofa pillows" are all acceptable. These contributions go toward furnishing the bride's new home with memories of her girlhood days and friends. The "rose shower" should be left for the last affair before the wedding, and as the bride departs an immense bag filled with rose petals is burst over her head, and each maid throws a handful of the fragrant blossoms, signifying the hope that her future may be rose-strewn. The bag is made of tissue paper, and the girls will all have been saving their rose petals for weeks for this occasion.—Chicago Times-Herald.

The Craze for Crystal.

The sparkle of crystal for the moment rivals the shimmer of silver on my lady's toilet table. In trays, boxes, bottles, everything to which it can be adopted, appears the cut and engraved crystal, with, of course, more or less silver ornamentation.

MRS. LOWE HONORED.

Georgia Lady Appointed to Represent the Club Women of America at the Paris Exposition.

Mrs. William Bell Lowe, of Atlanta, Ga., president of the General Federation of Women's Clubs, has received notice of her appointment as honorary president for America of the woman's board of the Paris exposition, and has notified Mme. Poquard, leader of the woman's department of the exposition, of her acceptance.

Mrs. Lowe is one of the few southern women who have become conspicuous during the past few years in the women's club movement, and she is now the official leader of that movement in America. Although it is only a short time since she became identified with

MRS. WILLIAM BELL LOWE.  
(President for America of the Woman's Board of the Paris Exposition.)

the General Federation of Women's Clubs, of which she is the president, Mrs. Lowe has been long known in the south as a wealthy and philanthropic woman. She has a handsome home in the aristocratic quarter of Atlanta, and there dispenses notable hospitality amid the most luxuriant surroundings.

First attracted to club life during the Cotton States and International exposition, she became imbued with the idea at once, and it was at her home that the Woman's club of Atlanta was born. From this beginning the Georgia Federation grew, and Mrs. Lowe was unanimously elected its president. In 1898 she was elected presiding officer of the general federation at the Denver convention. The work of spreading the club idea among the women of the south fell to her lot, and few have any complaint to make of the success she has made in this somewhat stubborn field. Mrs. Lowe has crossed the meridian of life, but she is still youthful in appearance, and though not a large woman has an imposing appearance and is an excellent and impressive speaker. She is of rather slight stature, her eyes are blue, and her brown hair is tinged with gray. She wears eyeglasses, dresses with elegance and taste and has the charming, easy manners that pertain to the ladies of the south. How she is held in estimation of the members of the general federation may be gathered from the fact that she—a southerner—could find friends enough to elect her the executive head of this tremendously large body of American women, the vast majority of whom live in the north.

Before her marriage Mrs. Lowe was one of the most beautiful and popular belles in the south. She has a son and a married daughter.

Honey an Excellent Food.

Scientific men say that honey is a much more healthful sweet than sugar, and has many valuable properties. It is nutritive, and when used freely with bread makes an excellent food for children. It is a laxative, and may be used advantageously in place of medicine by persons of sedentary lives. Being also the daintiest and most delicious of sweets—an extract of blossoms—it is hardly possible to eat it to an injurious extent. It needs no digestion, as sugar does, and even acts as a digestive aid.

Little Rhyme for Brides.

Married in white, you have chosen all right;  
Married in gray, you will go far away;  
Married in black, you will wish yourself back;  
Married in red, you will wish yourself dead;  
Married in green, ashamed to be seen;  
Married in blue, he will always be true;  
Married in yellow, you will live in a whirl;  
Married in pink, you will live out of town;  
Married in brown, your spirit will sink.

Gold and Silver Purse.

Of sterling gold are the links of the wee purse. The gold mount is particularly handsome. These little purses are also seen in sterling silver and in steel. The steel are handsomer than the silver, but, of course, the golden purse is far and away the most gorgeous of them all.

## MICHIGAN STATE NEWS.

Wood Alcohol.

George Lafamboy, who was found unconscious in a bathroom in Grand Rapids, with his brother, Prof. A. Lafamboy, dead in a tub of hot water, died without having regained consciousness. He was apparently suffering from a powerful narcotic. The doctors who attended George Lafamboy in the hospital believe that both the men were killed by wood alcohol poisoning. They think Prof. Lafamboy poured the alcohol into the water when he entered the bath tub and that the fumes asphyxiated both men.

Demands the Money.

When the United States acquired the St. Mary's Falls ship canal for the state of Michigan there was \$60,000 in the fund collected from vessel owners for the use of the canal. Three years ago the legislature transferred it to the state's general fund and it was used for state purposes. Now the general government demands the money, contending it was part of the property acquired with the canal and never belonged to the state.

Health in Michigan.

Reports to the state board of health from 73 observers in various portions of the state for the week ended February 3 indicate that measles increased in area of prevalence. Consumption was reported at 179 places, measles at 88, typhoid fever at 36, scarlet fever at 80, diphtheria at 37, whooping cough at 28, cerebro-spinal meningitis at 3 places and smallpox at Watervliet, Benton Harbor and Masonville.

Help the Sick Poor.

The White Cross Visiting Nurse association, with central office in Chicago, is now prepared to furnish skillful trained medical-surgical nurses to the sick poor in their own homes in country towns and cities; the nurse to work under the direction of a local committee. Conditions made known on application to the president, Dr. S. Sherin, 1017 West Van Buren street, Chicago, Ill.

Grand Lodge of Masons.

At the annual meeting in Detroit of the Michigan grand lodge of masons the report of Grand Secretary Conover showed that the past year was the most prosperous in the history of the state. There have been 2,098 new members raised, 729 admitted on demits, 126 restored to membership, 449 demitted and 659 have died. The total membership is now 41,917, a gain of 1,530 in the year.

Crop Outlook.

The agricultural department crop report for January says for Michigan: Winter wheat shows little change since December report; during January weather has been unfavorable; in most winter wheat counties ground has been nearly bare the entire month, and alternate freezing and thawing has occurred; plant is small and the fields look poor, especially on high land.

The Old Story.

Mrs. Joseph Kowalski locked her boy and girl, aged three and five respectively, in her house in Sault Ste. Marie during her absence and the house caught fire and both children were burned to death. Their bodies, burned to a crisp, were found by firemen who broke into the dwelling.

Railroad Earnings.

According to an earnings statement issued by Railroad Commissioner Osborne the total earnings of Michigan railroads during the year 1899 were \$36,092,123.27, which is an increase of \$4,549,795.34 over the earnings of the year 1898.

# THE CHELSEA HERALD

T. W. MINGAY, Editor and Proprietor.

PUBLISHED EVERY THURSDAY  
for \$1.00 per year strictly in advance.

Entered at the Post Office at Chelsea, Mich., as  
second class matter.

THURSDAY, FEBRUARY 15, 1900.

Among the names of those sent to the senate by President McKinley, on Monday, to be confirmed as commissioners of the United States to the international exposition at Paris was that of William G. Thompson, of Detroit.

Only a little over three weeks until charter election day, March 12, and so far there is not a ripple discernible on the surface of the political pot of either of the parties. But then, it doesn't take long to bring political matters to the boiling point in Chelsea, when once the fire is lighted.

Lincoln's Birthday was observed with Republican banquets in several Michigan cities. The most notable ones were at Grand Rapids, Jackson, and Pontiac. At Jackson Congressmen H. C. Smith, of this district, and James H. Southard, of Ohio, and Rev. Charles O. Reilly, D. D., of Adrian, were among the principal speakers.

Great Britain will take active measures to protect the empire against any attacks from a foreign foe. The volunteer artillery is to be rearmied, a mounted infantry volunteer corps formed, two additional army corps raised, twelve additional infantry battalions will be enlisted and the existing cavalry forces will be augmented by seven regiments. Great Britain's army will then amount to nearly 600,000 men.

The state board of pardons has righteously refused to grant pardons to 13 convicts at Jackson prison who are serving terms of imprisonment ranging from five to 20 years, all for serious offences, five of them being for criminal assault. It is refreshing to see the board take a tumble to itself and quit pardoning these miserable fellows whose crimes against women and property are a disgrace to humanity.

Nothing more convincing of the uselessness of the beet sugar bounty law, which was recently knocked out by the supreme court, could be found than the statement issued by Land Commissioner French last Monday. It stated that the nine beet sugar factories of Michigan during the month of January, turned out 7,431,108 pounds of sugar and received 35,396 tons of beets. The total output of the season to Feb. 1, 1900, was 30,106,113 pounds of sugar, and the number of tons of beets received was 210,971. That the business is a profitable one is shown by the fact that there is plenty of capital still available that would like to go into the manufacture of beet sugar. If the state had continued the payment of the beet sugar bounty the sum of \$200,000 would have been required for this season's output. It was a wise decision that knocked out the bounty law.

In presenting the qualifications of Prof. Delos Fall, of Albion College, as a fit and proper candidate on the Republican ticket for the position of state superintendent of public instruction, the Albion Recorder says: "Born, reared and educated in Michigan, he is thoroughly familiar with our whole educational system. His life work has been that of a teacher. Previous to graduation from the University of Michigan, he taught in the country schools of Washtenaw county and in the high school at Ann Arbor. After graduation, he was for three years principal of the high school in Flint, from which place he was elected to a professorship in Albion College, where he has won an enviable reputation, not confined to Michigan, as an educator.

"In educational circles he is known as an author, as a writer for various papers and magazines, and as an interesting, in-

structive and forceful speaker on the platform.

"Professor Fall has expressed to us his conviction that one of the most important problems in the educational work of Michigan is that which has to do with the rural schools. He believes in better school houses and better facilities, longer terms of school, more permanent tenure of position, and better pay for the really good teacher; trained teachers, expert supervision and a more intelligent and hearty co-operation on the part of the patrons of the school. These are some of the salient features of his creed concerning this important phase of educational work. He is in close touch with all the higher institutions of learning in the commonwealth, and at the same time is a loyal son of his alma mater."

The Herald has known of Prof. Fall and his good work in the cause of education in this state for nearly 20 years and has no hesitation in adding its endorsement of his candidacy for the important position to which he aspires, and hopes to see him win the nomination from the state convention hands down.

## FARMERS' INSTITUTE ROUND-UP.

Prominent Speakers Will Discuss Various Interesting Subjects at Ann Arbor, Feb. 28-March 2.

Prof. Smith, of the Agricultural College, has just completed the program for the fifth annual round-up farmers' institute, which will be held in Ann Arbor, Feb. 27, 28 and March 1, 2. The array of prominent speakers, the subjects to be discussed and the prospects for a large attendance, owing to the half fare rate granted by all the railroads of the state, give promise of making this the best institute ever held in the state.

Beginning Tuesday afternoon in Newberry hall, the first session of the round up will be devoted to the discussion of soil problems, and the speakers will be Dr. R. C. Kedzie, Prof. C. E. Marshall and Prof. J. D. Towar of the M. A. C., and C. C. Lillie, Coopersville, and Roland Morrill, Benton Harbor.

In the evening "Higher Education" will be discussed by President Angell, U. of M., President Snyder, M. A. C., Principal Leonard, Ypsilanti, and by members of the various boards of control.

"Farm Crops" will be the general topic for Wednesday forenoon, to be discussed by this year's institute workers; and "Fruit" for the afternoon. At this session Prof. L. H. Bailey, of Cornell, will speak on "The New Time Ideas in Fruit Growing," and will be followed by Roland Morrill, Benton Harbor, S. H. Fulton, South Haven, J. N. Stearns, Kalamazoo, and Prof. L. R. Taft, M. A. C.

University hall will be occupied on Wednesday evening by those who come to hear Dr. Frer on "Liquid Air," and Prof. L. H. Bailey on "The Trend of Agricultural Education."

Thursday will be beet sugar day. In the morning, while those not especially interested in beet sugar are visiting the university, the beet sugar manufacturers will have a conference with Dr. H. W. Wiley, chief chemist of the United States department of agriculture. In the afternoon the entire attention of the session will be devoted to this topic, and Prof. L. H. Bailey, Dr. H. W. Wiley, and Eugene Field, Bay City, will be the speakers. Dr. Wiley will also speak on Thursday evening on "The Manufacture of Sugar from Beets." Another prominent Thursday evening speaker will be ex-Governor Cyrus G. Luce, on "The Farmer as a Citizen."

Cattle and swine will receive attention Friday forenoon, sheep and horses Friday afternoon, and dairy, feeding and breeding problems will be discussed by men who have been successful along these special lines.

The woman's section will be a prominent feature of the round-up, afternoon sessions having been arranged for Tuesday and Wednesday. Besides addresses by Dr. Eliza Mosher, Ann Arbor, and Miss Julia King, Ypsilanti, the following topics will be presented:

"The relation of good cooking to the health of the family," Miss Belle Crowe, M. A. C.; "Instruction in plain sewing in the home," Mrs. Haner, M. A. C.; "Well bred children," Mrs. Mary A. Mayo, Battle Creek; "Habit and manners," Miss Maud R. Keller, M. A. C.

## LOCAL ITEMS.

The Methodist ladies are busy this week sewing the carpet for the smaller rooms of the new church.

The W. H. M. S. of the M. E. church will meet with Mrs. M. J. Noyes next Thursday afternoon at 3 o'clock.

The social given by the Reading Circle of St. Paul's church at the home of Mr. and Mrs. G. Hutzel last evening, was well attended and netted about \$20.

Rev. J. E. Jacklin, associate editor of the Michigan Christian Advocate, will preach at the new M. E. church Sunday evening, Feb. 25, the day the church is to be dedicated.

The Chelsea Dramatic Company by earnest work and constant rehearsals has brought their production of John A. Fraser's great war drama "Santiago, or the Red, White, and Blue," to a fine state of perfection. In spite of the numerous other attractions that are billed for next week the entertainment deserves well at the hands of the community as it is for the benefit of the Senior class of the high school. Tickets are now on sale by the members of the class and at Kempf & McKune's store, where reserved seats can be secured without extra charge.

The state board of pharmacy will hold a meeting for the examination of candidates for register, in St. Cecilia Building, Ransom street, Grand Rapids, on Tuesday and Wednesday, March 6 and 7, commencing at 9 o'clock a. m. on the 6th. All candidates must be present at that hour. Candidates must file their applications with the secretary at least one week before the examination, and must furnish affidavits showing that they have had the practical experience required. Applications for examination and blank forms for affidavits for practical or college experience may be obtained from the secretary, A. C. Schumacher, Ann Arbor.

## MANY AUCTION SALES.

George E. Davis Will Wield the Hammer at Four Sales Next Week.

George E. Davis, Chelsea's well known auctioneer, has a list of sales for the next two weeks, such as does not often fall to the lot of a single Michigan auctioneer.

Next Monday, Feb. 19, he will sell for John Wenk on the Daniel McLaren farm in Lima, three miles southeast of Lima Center, 8 horses, 5 milch cows, 7 head of young cattle, and a lot of farming tools. The sale will commence at 1 o'clock p. m.

On Tuesday, Feb. 20, at 1 p. m., he will sell for Henry Neel, who has decided to quit farming, on the Garrett Yereance farm in Lima, three miles east of Chelsea and four miles west of Dexter, 9 head of live stock, 43 sheep, and all the farming implements and tools.

On Wednesday, Feb. 21, he will have a mammoth sale for William Wolf, on the Thomas S. Sears farm, half a mile north-east of Chelsea. The stock comprises 7 fine horses, 7 cows, 3 steers, 2 calves, 75 sheep, 10 pigs, 9 wagons and vehicles, 8 sets of harness, all the farming tools, also 250 bushels of corn, 50 bushels of oats, a quantity of hay and a dog. The sale will begin at 9:30 a. m., and lunch and hot coffee will be served at noon.

Thursday being Washington's birthday he will take a holiday, but will start in again Friday, Feb. 23, and sell for Wm. J. Gray on the Mark Lowry farm in Sylvan, three miles south of Chelsea, 6 horses, 6 fine Jersey cows, a Champion binder, 2 mowers, a lot of farming tools, and 200 bushels of corn, etc. This sale will begin at 10 a. m., and lunch and hot coffee will be served at noon.

## Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fog into mental power. They're wonderful in building up the health. Only 25 cents per box. Sold by Stimson.

## Electric Roads and Local Trade.

Speaking of the vague unrest that possesses some business men in small towns over the possible bad results to their trade from the advent of electric roads, the Detroit Free Press of recent date had the following:

Before they get it the people of the smaller towns are fearful that the electric railroad, which is going to connect them with some larger city, will kill off all the local business, and they fight the project for all they are worth. The road comes, and after a few months nothing more is heard of such predictions, but instead the merchants have to engage extra clerks to take care of the increased business brought them by the electric. Here is an item from the Rochester Era, a paper published in a village, which has but recently had electric railroad communication with Detroit: "Many of the Troy farmers take advantage of the trolley to come to Rochester to trade. Farmers living eight miles from this place, and who have never been here before, now come here to do their trading."

## A Frightful Blunder

The Michigan Crop Report of Feb. 1,  
says: In reply to the question, "Has wheat  
during January suffered injury from any  
cause?" 270 correspondents in the southern  
counties answered "yes" and 95 "no." In  
the central counties 116 correspondents  
answer "yes" and 36 "no," and in the  
northern counties 85 answer "yes" and  
30 "no." The prevailing opinion is that  
wheat has suffered some injury. Con-  
ditions have been unfavorable, yet the  
outcome depends very largely on the  
weather that follows. Live stock through-  
out the state is in fairly good condition,  
feed being plenty.

## ABOUT THE CLUBS AND CLUB-LIFE IN CHICAGO

More than \$2,000 a front foot is the price the Union League club, of Chicago, will pay for a piece of property, 50 by 100 feet square, adjoining their clubhouse on Custom House place.

To walk down the narrow, dark street, scarcely more than an alley, on one side of which rises a mammoth 15-story building a block in length

through to Dearborn street for its entire length, and on the other side grimy old buildings, in which may be found vice in its most revolting forms or given over to missions and small manufacturing concerns, one wonders at the price paid. And, yet, \$106,000 for a 50-foot lot on this street is to-day a bargain in Chicago real estate.

A little more than a dozen years ago what is now costing thousands could have been purchased for hundreds. The advance is due to the growth of Chicago's business district and the gradual crowding out of the criminal classes. A dozen years ago there were but few really presentable business buildings south of Jackson street on Dearborn; to-day, Dearborn from Jackson south to Polk street is lined with some of the handsomest office buildings in the city, and the building of these have forced the criminal classes that once infested this section of the city to vacate and move further south, and the improvements of Dearborn street have had a tendency towards the betterment of the narrow streets on either side of it until they, too, are becoming a part of the real business center of Chicago.

### Expectations Realized.

In years gone by strangers visiting in the city to whom the clubhouse of the Union League has been pointed out have often remarked at the incongruity of its surroundings, while the people of Chicago have wondered at the selection of such a location for so handsome a structure.

When the clubhouse was erected it was on the very edge of what was considered the real business district, but directly opposite the federal building. Members of the club argued that they were not building for a year, but for many years; they had faith in the growth of the city, and realized that before a great while their clubhouse would be situated not on the edge, but in the center, of the business district, and their faith has certainly been fully rewarded so far.

The portion of the city in which the clubhouse of the Union League is situated have the club to thank for many of the improvements made in that portion of the city. When the clubhouse was built Jackson street was paved with cobble stones, over which rattled the heavy truck wagons to and from the freight houses. To-day Jackson street is a boulevard connecting the great park systems of the South and West sides, over which travel the finest turnouts of the city, and much of the influence that was exerted to make it such, came from inside the walls of the Union League clubhouse. Directly opposite the clubhouse there is being erected to-day one of the finest federal buildings in the entire country, and the members of this club are entitled to the thanks for much of the influence that secured the necessary action by congress making its construction possible. In these, and many other ways, have the members of the club benefited that portion of the city in which they chose to erect their clubhouse.

### A Demand for Club Rooms.

Chicago has never been a club city in the same sense that New York, London, Paris, etc., are club cities. The Chicago man has appreciated his club as a place where he could meet his business acquaintances or secure a good noon-day luncheon. He has also appreciated his club because of the concerted influence which it has brought to bear tending to the betterment of his city, but to him it has never been a home.

In former years the demand for permanent rooms by the members of Chicago clubs has been small. In each of the prominent clubs there have been a small minority of the members who have made their clubs their homes, and have been accommodated with apartments in the club houses. That this demand is increasing, and that Chicago is becoming more of a club city in the eastern meaning of the term is evidenced by the Union League's contemplated addition to its club use, which when completed will be devoted largely to accommodations for this class of its members.

But the growth of this demand for permanent quarters on the part of club members at their clubs has not been so marked in the Union League as in some of the other clubs of the city, notably the Athletic and the Chicago. The membership of the Union League club is confined more to the prosperous business men of the city, men of advanced years, than to the younger element of the city's population, and they are too much enamored of their homes to care for sleeping quarters elsewhere.

The Athletic club is finding a steady demand for the sleeping accommodations in the Michigan avenue clubhouse at the present time, and what but a year or two ago promised to be something of a white elephant on the hands of the club is proving of the greatest value at the present time.

### The Maximum Membership.

For the first time in its history the Union League club reached the total membership allowed by its by-laws. It to-day has 1,200 resident members and in addition a long waiting list. Of nonresident members it has a total of 228, of army and navy members a total of 31, and of honorary members 13. Making a total membership of 1,472.

To give an idea of the receipts and expenditures of the big clubs of a city figures from the treasurer's report of the Union League will serve as well as any. As the membership of the club is larger than that of any other club in Chicago the totals are proportionately larger, but the average receipts and expenditures per member will be very nearly the average of any of the prominent clubs of Chicago.

This report shows that the club took in during the year 1899 the sum of \$180,201.55, and that the expenses of the club for the year, including an estimated depreciation of house furnishings, was \$144,045.09, leaving a net profit of \$36,156.46.

By far the heaviest item among the receipts was that of dues, it being \$102,223.36, while initiations, which are \$200 for resident members and \$100 for non-resident, amounted to \$30,100. The receipts of the club restaurant for the year amounted to \$25,348.97; from the sale of wine, \$5,013.01; from the sale of cigars, \$5,294.36; from the billiard room, \$1,741.65, and from room rentals, \$9,776.80.

For salaries the club paid out, \$59,208.90; in taxes it paid \$6,884.13; for art there was appropriated \$2,044.47; for political action there was appropriated \$3,066.70; to the fall festival there was given \$3,828.29, and to the profit and loss account there is charged only \$152.20, which is the form of uncollectable office tickets given by members of the club. WRIGHT A. PATTERSON.

### HUNTS BEAR; FINDS SILVER.

A Wyoming Farmer Discovers a Very Rich Vein of Ore in a Cave.

J. S. Altenhaus, who lives in the big Horn mountains in northern Wyoming, while out hunting recently came upon the tracks of a big silver-tip bear, and followed the trail to the mouth of a mountain cave. The hunter prepared a torch and entered the cave. A deep-throated growl and the shining of phosphorescent eyes betrayed bruin's position, and a close and cool shot ended his career.

In removing the skin of the bear the attention of Mr. Altenhaus was attracted to a mineral vein showing on the cavern wall. Securing samples of the rock, an assay was afterward made, which gave returns of 40 per cent. lead and 200 ounces of silver to the ton. The vein is about four feet in width, and extends for the full length of the cavern, some 300 feet.

The lucky German has started a correspondence with Berlin and Leipzig capitalists, and in all probability a company will be formed and the property developed. Mr. Altenhaus named the claim the "Silver Tip."

Some snakes will eat eggs; others are inordinately fond of milk.

## INCREASE OF FARMS.

A Gain of Nearly Five Hundred in the Past Year in the Upper Peninsula of Michigan.

While upper Michigan is primarily a mining and lumbering region and derives the great portion of its wealth from those industries, it is getting to be an agricultural country, and the increase in the number of its farms is more rapid with every year.

According to reliable statistics there was an increase in the year 1899 of nearly 500 farms, which was two-thirds the increase for the entire state. These farms cover over half a million acres, of which one-third or thereabouts is improved land. A good part of the unimproved land is covered with hardwood timber, which is getting more valuable year by year, and from which the farmers already derive a good income by cutting and selling it for stove wood. Cutting and hauling wood to market is almost the sole occupation of farmers in this section in the winter.

The principal agricultural counties are Menominee, Chippewa and Delta, all of which possess farms as fine as any to be found in lower Michigan or Wisconsin, but there is also a considerable farming territory in the mining counties. Houghton county, the copper country, has between 250 and 300 farms and nearly 20,000 acres under cultivation. Marquette has over 800 farms, but its improved acreage is smaller.

## DIE IN A WRECK.

Nine Persons Lose Their Lives by a Collision of Trains Seven Miles South of Escanaba.

By all odds the greatest wreck ever known on the Peninsula division of the Chicago & Northwestern railway occurred at Ford river switch, seven miles south of Escanaba. Nine people were killed and six were injured, two fatally. The accident was caused by a freight dashing into the rear of the Felch branch accommodation, telescoping the passenger coach, combination baggage and smoker and refrigerator car.

The train instantly caught fire, and four bodies, beyond the power of the rescuing party to save, were burned. A rescuing party, including every doctor in Escanaba, was hastily sent to the scene, and all injured and dead were brought to that city. The dead are:

W. L. Hill, Escanaba, baggage man of the accommodation train; William Dillon, Escanaba, brakeman on the accommodation train; Miss Seymour, section six, Delta county; Charles Martin, Escanaba, civil engineer; George R. Black, Escanaba, civil engineer; Sam Green, Negaunee, agent of the Upper Peninsula Brewing company; two unknown men; unknown woman, body charred beyond recognition.

### In the Philippines.

Three years ago the 18-year-old son of William Shuart, of Brooklyn, disappeared, and no trace of his whereabouts could be obtained. Recently a letter was received from him, dated in the Philippines, where he is serving with the Twelfth infantry, and saying that he was in the hospital convalescing from typhoid fever. He served throughout the Spanish war with an Ohio regiment, and then went to the Philippines.

### Rare Document.

A very rare and interesting document is in the possession of A. J. Hall, of Mason. It is in the form of an old English deed conveying a parcel of land to one Simon Ruckham. The paper is dated the eleventh day of September in the second year of the reign of Queen Anne (1704) and is written out in full on sheepskin. The deed measures 18 by 24 inches and bears all the seals and stamps of the time.

### Remains of a Mastodon.

Gilbert Delisle, of La Salle, was in Monroe exhibiting a couple of molars taken from the remains of a skeleton recently unearthed on his farm. The grinding surface of the teeth measured seven by four inches and a tusk, over ten feet in length, was taken out at the same time. The bones were badly decomposed and only a general idea of the immense proportions of the monster can be obtained.

### Big Business.

The old-line fire and inland marine insurance companies wrote \$379,545,664 of business in Michigan last year and collected \$4,544,436 in premiums. They incurred losses aggregating \$2,826,278, and the state taxes amounted to \$127,058. The figures for the marine companies were: Asks written, \$17,800,085; premiums received, \$168,188; losses incurred, \$389,477.

### Aged Negro Frozen.

James Scott (colored), who lived alone about six miles from Saginaw, was found lying in a ditch by some school children. Both arms and legs were badly frozen, and he could not recover. He had lived in Kochville township for 40 years.

### Many Divorces.

During the December term of the Calhoun county circuit court in Marshall 30 decrees of divorce were granted by Judge Clement Smith—the largest number at any one time in the history of the county.

## VICTIM OF A MOB.

Man Acquitted of the Charge of Murder Is Hanged to a Telephone Pole in Port Arthur, Tex.

Port Arthur, Tex., Feb. 12.—James Sweeney was lynched at one o'clock Sunday morning. Sweeney was a cotton foreman, and had killed Charles Crumbach, a fellow laborer, by jamming a bayonet through his neck. The crime was committed on the afternoon of February 1, in a room with no witnesses present, and is said to have resulted from a saloon fight that took place a few hours previously. Monday Sweeney was indicted for murder in the first degree. He was placed on trial at Beaumont, Tex., Friday, and Saturday night the jury returned a verdict of "not guilty." As soon as he was released Sweeney returned to Port Arthur, arriving here at 12:30 Sunday morning.

Word had been telegraphed ahead that he was coming, and a mob met him at the depot, marched him uptown and strung him up to a telephone pole without ceremony. In the first attempt the rope broke. The second attempt was made successful by tying Sweeney's legs so his feet could not touch the ground and drawing the rope taut. Their work accomplished, the mob, which was made up of Port Arthur citizens, dispersed quietly. Sheriff Langham, of Beaumont, was notified of the mob's work and immediately started for Port Arthur. He returned to Beaumont Sunday with "Jack" Martin, a boss stevedore and a fellow workman of Crumbach's, in custody. Martin is believed to have been a ringleader in the lynching.

Port Arthur is the southern terminus of the Kansas City, Pittsburgh & Gulf railroad. The town was built up with the advent a few years ago of that railroad, and most of its citizens are northern people.

## FILIPINO TACTICS.

Insurgents Harass American Garrison, Shooting Blazing Arrows Which Fire the Towns.

Manila, Feb. 12.—Of late insurgents in Albay province, Luzon, have adopted harassing tactics against the towns which the Americans have garrisoned. They camp in the hills and maintain a constant fire upon the American outposts. When the troops sally against them they scatter, returning when the Americans retire. They shoot burning arrows, and have thus burned a large part of the town of Albay. Indeed, most of the larger towns in that province are practically deserted, except by the garrisons. Scarcely any of the inhabitants return to their homes. They are camping in the interior, and it is supposed armed insurgents prevent them going back. It is reported that there is much suffering among them, owing to lack of food.

Guerrilla warfare continues south of Manila. Two attempts have been made to ambush the Americans. Col. Schwan, while returning to Manila with his staff and an escort of a hundred cavalry from Batangas, was attacked by the insurgents. The latter were dispersed, but the Americans had five men wounded.

Lieut. Col. Beacom, with six companies of the Forty-second infantry, had a two hours' fight with Gen. Pio del Pilar's command, which attempted to ambush the Americans along the trail through Morong province, near the lake. Here also the insurgents were dispersed, but the Americans had several wounded, among them a captain.

## THE PASSING OF DAWSON.

The Anticipated Rush for Nome Is Expected to Practically Depopulate Famous Klondike City.

Minneapolis, Minn., Feb. 12.—A Tacoma, Wash., special to the Times says: Late Dawson advices say little will be left of the Klondike metropolis after the Nome rush in May and June. Merchants are closing out their places of business, and instead of every building being crowded "to let" signs are frequently seen. Business is dying and most of these dealers are going to Nome. Men are working on creeks for five dollars per day rather than take higher wages payable after the clean-up on the bedrock, because they want their money in hand when the ice goes out. Many of these will go down the Yukon in scows or canoes. One of the greatest enterprises connected with the immigration is the movement of the Palace Grand theater, Dawson's largest dance hall and playhouse. Charles Meadows, the proprietor, has let the contract for moving the building 2,000 miles to Nome, the contractor putting up heavy bonds guaranteeing its safe delivery. The building will be floated down the Yukon on four barges, and thence towed to Nome. Other buildings will follow.

### An Editor Drowned.

Fond du Lac, Wis., Feb. 12.—Elijah Cone, city editor of the Morning Daily News, was drowned Saturday evening. Absence from his desk was noted Saturday, and search instituted. Sunday morning his body was found in Fond du Lac river, near the Second street crossing. It would appear that he had fallen off the river bank, which is unprotected. Cone was about 72 years old, a graduate of Yale.

## TO RAISE THE SIEGE.

Roberts Making Preparations to Relieve Kimberley.

Sad Conditions Exist in the beleaguered City—Gen. Buller Explains—British Lose Heavily at Bastard's Nek.

London, Feb. 13.—Lord Roberts has gathered 35,000 men, with whom, according to the best military opinion in London, he purposes turning the left of the Magersfontein lines near Jacobsdal, entering the Free State, compelling Gen. Cronje to raise the siege of Kimberley, and thus making his first step toward Bloemfontein.

Lord Roberts tells the correspondents that when he gets down to business they shall have ample opportunities to send news. His chief press censor has issued new rules, and in future all written communications are to go unchecked. Only telegrams will be censored. For the next few days little news is likely to get through, but later there will be more freedom. Thus says the censor, and the last clause may be interpreted to mean that something is about to happen.

### Kimberley in Sore Straits.

Kimberley, 20 miles away from the Modder river position, is in sore straits. Details of the December death rate show that in a population of 14,000 whites and 19,000 blacks the mortality was 60 whites and 138 blacks per 1,000. The infantile death rate was 671 per 1,000 among the whites and 912 per 1,000 among the blacks. Enteric fever was prevalent. This frightful state of things in December cannot have improved much, if at all, since, and the fighting power of the garrison must have been greatly diminished. Meanwhile the bombardment by the Boers has increased, and there is imminent danger of the town falling under the very eyes of Lord Roberts. It is believed in circles close to the war office that he will move at once.

### Buller Explains.

London, Feb. 13.—The war office has received the following dispatch from Field Marshal Lord Roberts, dated from the Modder river, Sunday, February 11: "I have received a telegram from Buller as follows, dated Friday, February 9: 'It was necessary after seeing Vaal Krantz to intrench it as the pivot of further operations. But I found, after trying two days, that, owing to the nature of the ground, this was impracticable. It was exposed to the fire of heavy guns in positions from which our artillery was dominated. It is essential to troops advancing on Ladysmith by Harding or Monger's drift to hold Vaal Krantz securely, and accordingly we are not pressing the advance by those roads, as I find we cannot make it secure.'"

### British Loss Heavy.

London, Feb. 13.—Dispatch from Chieveley Camp says British have been again driven out of Bastard's Nek. Casualties very heavy.

## AGAINST THE TRUSTS.

Conference Called by the Anti-Trust League Is Opened Up at Chicago.

Chicago, Feb. 13.—Monday morning the anti-trust conference called by the Anti-Trust league came to order in Central Music hall in this city. President Lockwood, of the executive committee, called the meeting to order.

Mayor Harrison welcomed the delegates on behalf of the city. He denounced trusts in general as dangerous and threatening the integrity of the nation.

Former Judge William Prentiss, of Illinois, was elected temporary chairman and addressed the convention.

At the afternoon session good progress was made with the set speeches, of which six were delivered. The resolutions committee was in session from four until six o'clock. But little progress was made, however. A set of resolutions had been formulated covering the following points: Government ownership of all railways and telegraph lines; the abolition of all special privileges by legislative enactment; placing on the free list of all trust goods, and direct legislation by petition from the people. The discussion in committee was carried out on these lines. An amendment was offered for the taxation of all franchises, but was voted down on the ground that such action would simply legalize special privileges.

At the night session of the committee on resolutions the single tax advocates made a determined effort to capture the organization, but failed.

### Will Protest.

London, Feb. 13.—The Berlin correspondent of the Standard says: According to a dispatch from Brussels, Belgium and France intend to protest against any treaty which would completely hand over the Nicaragua canal to the United States alone, as their treaties with Nicaragua stipulate that they shall share in the control of all waterways connecting the oceans.

### Distress Increasing.

London, Feb. 13.—The Indian office has received a dispatch from Lord Curzon, the Indian viceroy, in which he says that the distress arising from the famine is steadily increasing and that those now in receipt of relief number 3,784,000.

**IN LINCOLN'S MEMORY.**

Many Exercises in Honor of the Great  
War President at Chicago  
and Other Cities.

Chicago, Feb. 13.—Celebration of Lin-  
coln's birth anniversary took a new  
significance in Chicago Monday. The  
name and fame of the great emanci-  
pator were extolled by scores of orators,  
flags flew from buildings down-  
town and in the suburbs, and business  
of the federal, county and municipal  
governments was suspended. The cere-  
monies in Memorial hall gave to this  
day its added importance to Chicago.  
There was instituted there a celebra-  
tion that will be perpetuated as long as  
there are descendants of the men who  
fought for Lincoln's principles. Here-  
after on the 12th day of each February  
patriotic Americans will gather there  
and pay tribute to the memory of the  
immortal war executive.

The fifteenth annual Lincoln day ban-  
quet of the Marquette club was given at  
night at the Auditorium hotel, covers  
being laid for 500. The speakers in-  
cluded Hon. George Adams, Chicago; Gov.  
D. L. Russell, North Carolina; Hon.  
Murat Halstead and Hon. Bartlett  
Tripp.

Chicago, Feb. 13.—Lincoln day was  
generally observed in the larger cities  
of the country Monday. In Illinois  
meetings were held in the principal  
cities and towns, at which eulogies of  
the statesman and emancipator were  
pronounced, in many instances by men  
who knew Lincoln personally.

New York, Feb. 13.—The ninety-first  
anniversary of the birth of Abraham  
Lincoln was celebrated in this city Mon-  
day by patriotic societies, republican  
clubs and social organizations. Busi-  
ness was generally suspended. The ex-  
changes, the public schools and most of  
the courts were closed. At Delmonico's  
at night the Republican club celebrated  
the event with a dinner. Congressman  
Cousins, of Iowa, delivered an address,  
and speeches were made by Attorney  
General Griggs and Rev. Samuel Schul-  
man, and a poem was read by Edwin  
Markham. At Berkeley lyceum in the  
evening there was an entertainment,  
the proceeds of which will go towards  
the fund of \$80,000 needed for the  
Hampton institute in Virginia. A great  
chorus of students from the institution  
was present.

Philadelphia, Feb. 13.—The anniver-  
sary of the birth of Abraham Lincoln  
was observed as a legal holiday for the  
first time in this city Monday. All of  
the federal departments and courts, the  
prothonotary's office and the common  
pleas courts, with one exception, were  
closed. The various banks and brokers'  
offices and the different exchanges re-  
mained closed all day, and there were  
no sessions of the public schools. The  
most important event of the occasion  
was the Lincoln day celebration at  
night under the auspices of the young  
republicans. A reception was tendered  
Congressman John A. T. Hull, former  
governor of Iowa and chairman of the  
house committee on military affairs.  
There were other celebrations at night  
throughout the city, and Col. A. K. Mc-  
Clure delivered an address in the Pres-  
byterian church at Wyncote, a suburb,  
on "Lincoln as I Knew Him."

Boston, Feb. 13.—There was no gen-  
eral celebration of Lincoln's birthday  
among the business houses of this city  
Monday, but the stock exchange sus-  
pended business and one or two other  
institutions gave a holiday. Flags were  
displayed on public buildings and  
grounds.

**A BIG FUNERAL.**

Remains of Col. R. W. Thompson  
Are Interred at Terre Haute—  
Hundreds in Attendance.

Terre Haute, Ind., Feb. 13.—The  
funeral of Col. R. W. Thompson oc-  
curred Monday afternoon. Many dis-  
tinguished men were here from all  
parts of the state. Gov. Mount and the  
state officers, including the members  
of the supreme court, attended in a  
body.

The remains lay in state at the First  
Methodist church for two hours and a  
half. All the schools of the city were  
dismissed so as to allow the children  
an opportunity to view the remains,  
and during the time of the funeral all  
business was suspended. There were  
no church services. The exercises,  
which were very simple, were held at  
the house and consisted of the read-  
ing of the Methodist Episcopal burial  
service and singing by a quartette.  
Many of the local organizations took  
part in the long funeral procession, in-  
cluding company B, One Hundred and  
Fifty-ninth regiment of volunteers, the  
masons, of which he was for many  
years a member, and the Thompson  
club.

A feature of the procession was the  
appearance in it of the Jackson club,  
the local democratic organization.

**Riots in Martinique.**

Port de France, Martinique, Feb. 13.  
—The situation on this island is very  
unsatisfactory, owing to the rioting of  
the striking laborers. Many white res-  
idents of Francois, where there were se-  
rious occurrences last Monday, have  
left that place and have come here for  
protection. The race war is causing  
great alarm, as the negroes outnumber  
the whites many times. As a result of  
the rioting in Francois, 13 persons are  
dead, five more are dying, while six are  
suffering from wounds.

**Sore Hands 8 Years Cured.**

Pain So Intense Would Nearly Twist Fingers From Sockets. Hands Puffed Up Like a Toad. Water Ran Through Bandages to Floor. Had to Walk the Floor Until Would Fall Asleep. Fingers Would Peel Like an Onion. Doctors Could Not Cure.

Eight years ago I got sore hands, commencing with a burning sensation on my fingers and on top of the hand. When I rubbed them, you could see little white pimples. I felt like twisting my fingers out of their sockets. I had high fever, and cold chills ran over me, and so I kept it going until I was tired out. Nights, I had to walk the floor until I fell asleep. My hands peeled like an onion, the finger nails got loose, and the water ran out, and wherever there was a little pimple there the burning fire was—that happened at least ten times. I am running a blacksmith shop, horse-shoeing, and I would not shut up the shop for anybody, but it was hard. My hands puffed up worse than a toad. When I drove horse nails, the water from my hands ran through the bandage, on to the floor. My customers refused to look at my hand. I had a friend take me to the doctor; he gave a solution of something to bathe my hands. I went to another doctor, I think, for a year. I found your advertisement in a Utica newspaper, and I got the CUTICURA remedies. As soon as I used them I began to gain, and after using a small quantity of them I was entirely cured. I would not take fifty dollars for a cake of CUTICURA SOAP if I could not get any more. I would not suffer any more as I did, for the whole country.

Feb. 22, 1898. CASPER DIETSCHLER, Pembroke, Genesee Co., N. Y.

**Millions of Women Use Cuticura Soap**

Exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, viz., TWENTY-FIVE CENTS, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world.

Dexter village is now free from scarlet fever.

Manchester township board may purchase two Abbott voting machines.

The government allows the Grass Lake post office \$300 a year for rent and fuel.

Ann Arbor Masons will give a dance at the Masonic temple, Monday evening, Feb. 26.

During the month of January James O. Raymond, the Grass Lake rural mail carrier, handled 5,760 pieces of mail matter.

Grass Lake News: Four cans containing 12,000 brook trout were put off at Grass Lake Thursday for planting in hereabout streams.

George Lamb, of Dexter, has filed a bill for divorce from his wife, Mary, through A. J. Sawyer & Son, his attorneys. The ground is desertion.

H. T. and Edgar Phelps, of Webster, compose a new hardware firm that will occupy the T. S. James' old stand, in Dexter. They will commence business at once.

Nelson J. Kyer, of Ann Arbor, has purchased the fine milling property and water power, which is located near Delhi, known as Osborn's mill. The purchase is a tract of over 50 acres.

After a brief existence of less than three months the Ypsilanti Daily Telegram has succumbed to the adverse circumstances of lack of patronage. The financial returns did not warrant a continuance of its publication.

Postmaster Pond, of Ann Arbor, has received official notice of the establishment of two rural mail delivery routes. One goes to Dixboro and the other to Saline. The population served on the routes is over 1,000.

Luchian Hoover, of Whittaker, was bound over to the circuit court Tuesday by Justice Joslyn, of Ypsilanti, on the charge of carnally knowing a feeble minded girl named Hattie Harrington, aged 14 years, also of Whittaker. Bail was fixed at \$500.

Manchester Enterprise: John and Samuel Kuhl, of Sharon, while digging for skunks one day last week, found an animal the like of which they had never seen before. They captured it alive and have it in a cage and those who have seen it claim it is an opossum.

Through the death of Mrs. Adah Trendwell, of Ann Arbor, the Washenaw Pioneer Society is given a fine relic in the shape of an oak chair which is known to be 269 years old, and how much more ancient there are no records. It is in a remarkable state of preservation, remaining as good as ever. It will be placed in the log cabin.

Here is a list of the plunder the two thieves who were captured in the Craft's school house 1½ miles northwest of Grass Lake, had in their possession: Five boxes cassettes, 54 spools silk thread, 11 jack knives, 2 pairs cuff holders, 1 cake barber's soap, 8 boxes school crayons, 2 pairs mittens, 1 glove, 3 pocketbooks, 12 yards veiling, 24 thimbles, 1 razor, 3 tooth-brushes, 3 lead pencils, 1 box corn salve, 2 pairs shoes, 1 pair over-shoes, 1 pair mackinaw stockings, 1 shirt.

Charles Stebbins, of Dexter, has filed his answer to the suit brought against him by Mrs. Mary Miller as next friend of Deviney Allport, alleged incompetent, to set aside a deed given to Stebbins by Allport for his share in the John D. Allport estate. It is a sarcastic document and does not place the actions of Mrs. Miller, her sister Mrs. Farley and her brother-in-law James M. Farley in a very favorable light as regards their treatment of Allport. Unless the case is settled many of the Allport dollars will find their way into the lawyers' pockets.

**Keep Your Old Hens.**

It is now between seasons, as it were. All yearlings should be in full moult, and the young pullets are hardy yet developed enough to lay eggs.

There is, therefore, nothing to depend on for eggs but the old hens which have not begun to moult. They should be fed for eggs as long as they show no symptoms of moulting. It is trying time for the poultryman—expenses going on, and no return except from the old hens. They are more valuable for eggs than if sold for fowls. The price of eggs always advances in October, and if one has an established trade for eggs, as one should have, the old hens will help him out and keep his customers going.

They will bring quite as much later as dressed fowls, and then it will pay best to sell them, because they will not lay after moulting until spring, and then eggs will be much cheaper.

It is in just such little ways that poultry can be made to pay. This is what is called making stock earn their keep.—Country Gentleman.

**Fresh Earth.**

Every year the earth that forms the floor of the poultry houses should be removed, to the depth of three or four inches, and fresh earth put in place of the old. This is very necessary to the health of the fowls, as the earth, after forming the floor of a house for a year becomes filthy, from droppings and germs that produce disease. A neglected house is a sure breeder for cholera and other ailments to which poultry are heir. When the fresh earth is put in, it is well, also, to make a thin lime wash, add a gill of crude carbolic acid to every gallon of the wash, then apply with a spray pump, forcing the mixture into all the crevices of the building, roof and sides. This is an excellent purifier and germicide, as well as a destroyer of lice and mites, upon whose presence in the house it is usually safe to rely on. The litter should be placed on top of the fresh earth floor. This litter serves to carpet the floor, keeping the birds' feet warm as well as serving as a medium in which to mix the small grain, to encourage the fowls to scratch and thereby obtain the exercise they so much need. Four inches of litter are a plenty, as too much rather discourages the efforts of the fowls, and they do not take as much exercise as if a smaller amount of litter was present.—M. Summer Perkins, in Poultry Monthly.

**Farm Notes.**

Better breeds, better roosts, better feeding, less stuffing, less vermin and cleaner houses, would be worth millions of dollars to American farmers, and they are all easy of adoption. It is quite as easy to overfeed a flock of pullets as it is to stint them; the happy medium between the extremes is to feed what the fowls will eat clean and still want a little more.
