AN O. E. S. VISITATION.

A Delightful Evening Spent at Grass Lake by Olive Chapter and Other Stars.

Tuesday evening was a pleasant occasion to the members of Olive Chapter and other members of the Eastern Star resident in Chelsea and vicinity. It all came about through an invitation extended to the officers and members of Olive Chapter to pay a fraternal visit to Grass Lake Chapter, No. 159, O. E. S., and do the degree work. When the whole push assembled in Grass Lake shortly after 7 o'clock p. m., it was found that there were over 50 who had gone up to test the hospitality of the village by the sad sea waves. The test was not in vain for the reception extended to the visitors was of the most royal and hearty kind.

The work done by the officers of Olive Chapter was excellent and received words of praise from the speakers at the banquet which followed. Their marching and floor work was warmly applauded.

After the chapter was closed the members were formed in line with visitors at the front and marched to the banquet tables where a bountiful and delicious collation was served. An orchestra of eight pieces played several selections during the banqueting hour. When all appetites were appeased a brief program of toasts were proposed by Miss Herma Malnight toastmistress, and were responded to as follows:

Address of Welcome—W. K. Crafts, Grass Lake.

Response—Mrs. M. Boyd, Chelsea.

"The Stars"—Mr. Livingston.

"The Sisters"—E. A. Croman.

"The Brothers"—Mrs. E. L. Cooper.

This was the bright, particular speech of the evening. It was brimful of humorously sarcastic hits at the "good qualities" of the men and brought forth much well merited applause.

"The Candidate"—Mrs. Geo. Preston.

The program concluded, which was a most happy one, being just long enough not to be tedious, the company repaired to the reception rooms. After a brief period of visiting, good byes were exchanged and the Chelseaites took their departure for home a tired but thoroughly pleased crowd of people.

The members of Chelsea Tent, K. O. T. M., and Columbian Hive, L. O. T. M., will meet at their hall at 2:30 p. m. Sunday and from there will march to the town hall, where the following order of exercises will be observed:

Song.
Prayer by Rev. C. S. Jones.
Song by Quartette.
Address by Roland O'Connor of Saginaw.

Music by Band.
Benediction by Rev. F. A. Stiles.
The procession will then form and march to Oak Grove cemetery where the graves of deceased members will be decorated.

Too Frank.

A clothing merchant in lower Broadway had a big lot of clothes that he had bought at a bargain, and by putting a price of \$15 on each he thought they would sell rapidly, for they were of exceptionally good value for that money. He put one of the suits on a form and set it in front of his store with a sign about its neck which one of his smart clerks had painted on a piece of cardboard. This announced the price. Then he and his clerks prepared to do a rushing business. The hours passed and no one came in to buy the suits. This caused the merchant to wonder, and at length he determined to go out and take a look at the sample suit and sign. This is what he found on the sign: "These suits \$15. They won't last long." Pedestrians passing by saw the sign and smiled at its frankness. The merchant tore down the sign from the suit, and the clerk who had designed it started out to look for another job.—N. Y. Herald.

Gin Sling for Gin-ger.

Some Americans not over familiar with French, while in Paris not long ago, entered a confectioner's shop and asked in English for some ginger. What they wanted was the candied variety, of course, common enough in confectionery shops in New York. But at the first syllable of the word the Paris shopmen looked at each other in amazement and then at the women asking for it. After some parley it was made known to the Americans that though the ginger was not in stock it would be sent for—evidently a most unusual procedure, judging from the gestures and exclamations and significant glances upon the part of all connected with the establishment. The Americans waited and waited; still the ginger was not forthcoming. They were just about to depart when what they were waiting for arrived. It was served in liqueur glasses with crushed ice, and it was gin.—N. Y. Evening Sun.

STUDENTS WANT TO KNOW

Large Number Are Inquiring What It Costs to Get an Education in College.

LIGHT THROWN ON IMPORTANT QUESTION

Actual Expense of a Year at University of Michigan Practically What Each One Makes It—Some Details That Will Be Found Interesting and Profitable.

[Special Correspondence.]

University of Michigan, June 4.—What does it cost to go to college? This is a question that is being asked by a large number of students who are just completing their high school careers.

The actual expense of a year at the University of Michigan is practically what each individual makes it. Michigan literary students can, by careful economic management, get through a year, paying all expenses in cash, for about \$200, which is an average expense of a little over \$5 a week for the college year including vacations. Somewhat more than this is spent by the majority of students and several times \$200 by a few. The average expenditure, however, falls between \$250 and \$300, the latter figure covering all necessary expenses in a liberal manner.

Detail of Expenses.

The expenses are composed of a number of items, the most important of which are university fees or tuition. This tuition, which is from \$10 to \$25 less for students from the state than others, is composed of a matriculation fee, annual dues, laboratory expenses and a \$10 diploma fee. It ranges from \$30 for a Michigan sophomore or junior lit. to \$110 for a non-Michigan freshman medic. These figures, owing to the liberal policy pursued by the state towards education, are lower than those of other institutions of the same rank. For example, tuition at Harvard and Yale is \$150 and \$155 respectively; at the new University of Chicago it is \$120, and the least expensive course at the Northwestern university is \$69.

Books and Stationery.

The next item of expense after college fees is the cost of student supplies, such as text books, reference and note books, stationery, pens, ink, etc. This item is large or small, according to the disposition of the individual student. In figures it ranges from \$10 to \$30 per annum, the latter amount being a liberal estimate.

Cost of Board.

Probably the largest single item for students in Ann Arbor is table board. This costs from two to four dollars a week. For the former price, plain, substantial food can be had in abundance. Room rent is another item that will vary with the tastes of each individual. Rooms are generally in suites, and rent as low as 50 cents or as high as five dollars a week. At present a comfortable, well furnished suite, with furnace heat, can be had for two dollars, which is but one dollar apiece for two students chumming together.

Fuel and Lights.

Where the cheaper class of rooms are rented the cost of fuel and lights must be taken into account. This expense varies from five to ten dollars a year per student. Then there are matches and soap which foot up between 25 cents and a dollar.

The laundry and washing bills are no small item in the course of a year. Although no larger here than elsewhere they must be remembered and included in the estimate.

Subscriptions.

Another class of expenses is college subscriptions. Here the student spends only a few dollars or many, as he sees fit. There are lecture courses to be attended, entertainments to be heard, ball games to be witnessed, class athletics to be aided, college publications to be subscribed to, organizations to be joined, social events to be attended, and dozens of other things to be enjoyed and supported. A purely personal item, and yet one not to be overlooked in estimating the expense of a year at school, is the cost of clothing. It is an item which will increase to a greater or less extent the total cost of college expenditure.

Transportation.

Transportation to and from Ann Arbor is still another source of expense. This will be large or small according to the distance traveled and the number of vacations spent at home. Lastly, there are the incidentals. Under this head would come postage, newspapers, car fare, collections and the hundred and one other things that become necessities from time to time.

A Student's Experience.

It is possible for a student to get through a year on less than \$100, as is proved by the experience of one student who entered the university in 1898. His story is as follows: "My home is in northern Michigan, near the town of ——. My father is a farmer. When I told him that I wanted to go to the university he replied that he could not afford to send me. 'But,' he added, 'I have been told that some of the students at Ann Arbor manage

ly hard work to pay their own way. Perhaps you can. It will do no harm to try. I will give you \$100 and pay your fare to Ann Arbor and matriculation fee. When your money is gone I will send you enough more to bring you home. Only you must not run in debt."

"I gladly took this offer and in the fall of 1898 I entered the University of Michigan in the literary department. It would be interesting to tell all that happened to me there, but the important thing is that I staid the whole year through without spending my hundred dollars. I have some of it yet. My expense account was as follows:

Board and room (not paid for in work)\$11 51
Books, stationery and supplies..... 10 96
University fees 30 00
Subscriptions and entertainments..... 1 72
Light 5 74
Washing 6 74
Total\$69 50

"For my board and room, fire and light (except at the beginning and end of the year and for a short time in the spring) I paid by manual labor, taking care of furnaces, waiting on table, and doing occasional odd jobs of various kinds. Of course I could have spent a good deal more if I had had it, and probably it would have been better for me to do so. But I would not take a good deal for my year's experience."

Another Account.

The actual expenses of a second student who was compelled to watch every cent to come out even at the end of the year were \$158.17. The items that made up the amount are:

Board\$ 71 80
Room rent 28 15
University fees 30 00
Laundry and washing 7 90
Books and supplies 5 00
Subscriptions, contributions, entertainments, etc. 4 17
Newspapers, etc. 1 34
Light 83
Incidentals 1 17
Barber 2 15
Repairs to clothing, etc. 3 25
Amusements 2 41
Total\$158 17

Was Economical.

During the same year a third student spent \$253.75. He had all the money he wanted, but was of an economical disposition. His expenses itemized were:

Board\$115 50
Room 48 00
Books 45 25
Fire and light 7 00
Laundry, etc. 10 00
Entertainments 20 00
Fees and incidentals 40 00
Total\$253 75

Costs Women More.

The expenses of women students are, as a general rule, a trifle heavier than for the men. This is the case because they cannot rough it with as little inconvenience as the men. Perhaps from \$250 to \$300 a year would be a fair estimate of a year's expenses for a woman. R. H. E.

CONTRACT AWARDED.

State Board of Agriculture Completes Arrangements for the New Dairy Building.

The state board of agriculture at a meeting held in Lansing awarded the contract for the construction of the new dairy building at the agricultural college to August Mohnke, of Grand Rapids, for \$11,855. The board had under consideration the employment of professors for the ensuing year. It is stated by Chairman E. J. Allen that there would be no changes in the college staff for next year, although assistants for the professor of agriculture, the professor of electric engineering and the superintendent of the woman's department will be employed. The necessity for more instructors has been occasioned by the increased attendance at the college.

AGAINST SUNDAY BALL.

The Michigan Supreme Court Says It Violates State Statute and Disturbs the Peace.

Last year Rev. Mr. Sweet, of Owosso, accused Sheriff Scougal, of Shiawassee county, of neglecting his duty in permitting a baseball game to be played on Sunday. The sheriff sued the clergyman for slander and the jury awarded him \$1,000 damages. The minister then appealed the case to the state supreme court and that body at Lansing handed down a decision reversing the decree of the circuit court. In the course of the opinion the supreme court says that Sunday baseball is against the state statute in that it constitutes a disturbance of the public peace.

Found Dead in Bed.

Ex-Mayor John Steketee, head of the wholesale dry goods house of Steketee & Co., and for many years vice consul for the Netherlands, of which country he was a native, was found dead in his bed at his home in Grand Rapids. He had been suffering from kidney trouble. Mr. Steketee was knighted several years ago by the queen of the Netherlands on account of generous kindnesses to his countrymen.

Twice Married.

Arthur Jeffery procured a license in Flint to be reunited to Jennie Jeffery. This is Mr. Jeffery's third venture into the matrimonial field. The bride of to-day was also his bride six years ago, she having secured a divorce from him about three years ago. Jeffery then married another woman, but secured a divorce from her.

A Cloudburst.

A cloudburst spread panic among the inhabitants of Amherstburg, tore up trees and sidewalks, flooded houses and created havoc. Hundreds of chickens and other fowl were drowned. Crops were washed out and bridges and culverts swept away by the deluge of water.

MICHIGAN STATE NEWS.

A Severe Storm.

A heavy storm prevailed throughout Michigan. At Ludington during a terrific rainfall the observation tower at the life-saving station was struck by lightning. Surfman Robinson was severely shocked and nearly all his clothes were torn from his body by the lightning. At Coral a wagon seat was struck by lightning and set on fire. The flames spread to two adjacent buildings and they were totally destroyed. J. S. Newell's residence was also struck by lightning and burned to the ground. At Flint James Lund was struck by lightning and killed.

Health in Michigan.

Reports to the state board of health from 73 observers in various portions of the state for the week ended May 26 indicate that inflammation of the kidneys and diarrhea increased and inflammation of the bowels decreased in area of prevalence. Consumption was reported at 161 places, measles at 106, typhoid fever at 25, scarlet fever at 65, diphtheria at 24, whooping cough at 20, cerebro-spinal meningitis at 5 places and smallpox at Detroit, Colon, Cato, Marshall, St. Charles, Grand Rapids, Brant, Springwells, Durand and Wyandotte.

A Mine Fire.

Fire broke out at the twentieth level in No. 2 shaft in the Hecla branch of the Calumet & Hecla mine on the Keweenaw peninsula. The shaft was promptly closed down, all the men escaping, and a force of men was sent down in No. 3 shaft adjoining to putty up the doors to prevent the fire from spreading. One consisting of 12 men was almost overcome with the gas from the burning timber and started for the ladders in order to escape. One man, Will McKee, fell behind, had to be abandoned and lost his life.

Died Suddenly.

Henry Pruyn, an old and widely-known resident, died at his home four miles east of Niles. He had been afflicted with kidney trouble for some time, but was feeling better than usual and was sitting in an armchair when he expired. He had intended enjoying his fiftieth wedding anniversary the next day and was discussing the matter a few moments before he expired. He was 71 years old and leaves a widow and four children.

Republican Convention Date.

The republican state central committee met in Grand Rapids for organization and elected Homer Warren, of Detroit, treasurer; Dennis E. Alward, of Clare, secretary, and made Detroit the campaign headquarters. Grand Rapids was named as the place for holding the state nominating convention, and June 27 was fixed as the date. D. P. Markey, of Port Huron, will be temporary chairman.

National Banks.

The reports made to the comptroller of the currency show that the average reserve held by the Michigan national banks, exclusive of Detroit, to be 23.33 per cent. The individual deposits were \$38,047,722; gold coin, \$35,438,505; legal tender notes, \$3,249,862; loans and discounts, \$35,438,505; total resources, \$56,086,643.

Granted a Pardon.

Upon the unanimous recommendation of the pardon board Gov. Pingree has granted a pardon to Benjamin C. Nunn, who was serving a life term in Jackson for being an accessory before the fact to the killing of Curtis Wright in Beaverton township, Gladwin county, on July 10, 1897.

News Items Briefly Told.

Cheboygan will celebrate the Fourth this year by laying the corner stone of the new \$18,000 armory which the local military company is to erect.

Gov. Pingree has pardoned Anthony J. Terry, convicted at Greenville of assault and battery April 6, and sentenced to 90 days' imprisonment.

Cracksmen robbed the safe in the post office at Olivet, stole two teams and escaped.

Mrs. Mary Gilman Drummond, sister of the late Senator Francis B. Stockbridge, died in Kalamazoo, aged 83 years.

WILL RUN FOR YEARS.

Unless Signs Fall the Ludington Mills Will Manufacture More Lumber This Year Than Ever.

Figures and statements have been given out recently by Ludington mill owners which appear somewhat startling in view of the reliable estimates made only a few years ago regarding the timber supply of this region. The result of these expert prophecies has been a pretty general impression that another year would see about all the mills in this section closed. Such an opinion is far from being correct.

Unless all signs fail the three Ludington mills will manufacture more lumber this year than there has been cut here in many seasons past. Owing to unfavorable logging conditions last winter a slight shortage may develop toward the end of the season, but the supply is assured and only needs favorable winter weather to get it to mill.

The manufacture of hemlock and hardwood lumber has largely supplanted pine. The Stearns mill, cutting 150,000 feet daily the year round, and employing 500 men, will run for eight or ten years longer. The Cartiers have just spent \$10,000 on mill improvements and have standing timber enough to run their mill from five to seven years.

NOT GUILTY.

Col. Sutton Cleared of Charge of Complicity in Michigan Military Clothing Frauds.

Col. Eli R. Sutton, of Detroit, regent of the University of Michigan, and a prominent republican politician, was acquitted of complicity in the state military clothing frauds, on account of which various members of the state military board and himself, had been indicted. The jury considered the case only an hour and 40 minutes. Both Sutton and his wife burst into tears at the announcement. Sutton's counsel also wept, and Mrs. Sutton kissed each of the jurors. Col. Sutton, although not a member of the military board, was closely associated with Quartermaster General White and Inspector General Marsh, as friend and legal adviser, and he admitted having advised the sale of the state's goods, which were afterward sold back to the state in a fraudulent manner. The trial of Gen. Marsh for alleged fraud and embezzlement resulted in conviction, and he has an appeal pending. Gen. White fled to South Africa.

WILL TEST THE LAW.

A Port Huron Man Will Fight the Ordinance That Keeps Saloons Away from Schoolhouses.

John Gustke, who is conducting a saloon next to the Harrison school, in defiance of a city ordinance that prohibits the keeping of a saloon within 300 feet of a school, was arrested, charged with selling liquor without a license, and was held to the circuit court for trial. Gustke has filed a bond, which the council refused to act on owing to the location of the saloon, and having no bond he cannot get a license. When arraigned in court the defendant waved aloft a roll of \$500 in bills for his license which the county treasurer had refused to accept. The case will be fought out to determine the ordinance's validity.

NOT UNTIL OCTOBER.

The Case of the People Against Arthur F. Marsh to Be Heard by the Supreme Court.

It is now practically settled that the case of the people against Arthur F. Marsh, convicted of conspiracy to defraud the state in the purchase of state military supplies will not be heard at the June term of the supreme court, and will therefore not be submitted to the court of last resort for consideration until October. Attorney General Oren, who now has charge of the case for the people, has given his consent that the case go over the term.

ATHLETIC ASSOCIATION.

Three High Schools Have Organized and Will Hold a Field Day in Battle Creek This Month.

The high schools of Marshall, Battle Creek and Kalamazoo have organized an association to be known as the Kalamazoo River Athletic association. Carl Smith, of Kalamazoo, was elected president and Claude Curtis, of Battle Creek, secretary and treasurer. It was voted to hold the first annual field day of the new association at Battle Creek on Friday afternoon, June 15, under the rules of the Inter-scholastic association.

Girl's Queer Action.

Goldie Gardner, 16 years of age, jumped from the rear of a passenger coach on the Big Four train 1½ miles north of Niles. Although the train was moving at high speed the young lady was not injured in the least. Picking herself up and brushing away the dust from her clothing she walked back to Niles, first waving a farewell salute at the train.

CITIZEN POSSE ON GUARD.

The Deputies Thus Far Sworn In at St. Louis Are Assigned to Duty with Riot Guns.

St. Louis, June 5.—The citizen members of the posse comitatus had their first experience with active service Monday, when several companies were assigned for guard duty at the Park avenue, Easton avenue and Southern electric powerhouses of the Transit company. Arms were given out to about 900 of the deputies Sunday and the day was spent drilling them. As a result the deputies presented a military appearance as they marched away to their respective rendezvous with guns at a right shoulder.

Every power house and car shed of the St. Louis Transit company is being guarded by Sheriff Pohlman's posse comitatus. In all about 900 men are on duty. A force of from 50 to 60 men has been stationed at each power house and remained on duty throughout the night. At seven o'clock this morning an equal number of men relieved those on duty and will remain on guard until seven o'clock to-night, when the night guard will again take charge. This mode of procedure will continue until the strike is settled. The posse is armed with Winchester repeating shotguns. Shells loaded with buckshot will be used in case of a disturbance. While on guard duty the members of the sheriff's posse will be subject to strict military discipline. The following orders have been issued:

"General Orders, Headquarters Sheriff's Posse, June 4.—To All Commanders of Detachments: You will take every care of your men, maintain good discipline and place under arrest anyone under your command who commits a serious breach of discipline.

"When ordered to report to Chief of Police Campbell or any of his captains, and you thereupon receive from him or any of them an order to make such disposition or use of your men as you believe to be inconsistent with their duty and authority as members of a 'posse comitatus,' you will nevertheless obey such order, and forthwith report the matter to me. Your men will pay no attention to trifling annoyances from citizens, but will submit to no abuse, promptly arresting any offender.

"In quelling any riot or disturbance and in dispersing any unlawful and threatening assemblage of persons you will use your utmost endeavor to arrest the ringleaders and instigators, turning them over to the police for incarceration. You will use only the necessary force in the performance of such duty, but will meet violence with violence; and, if fired upon, you are expected, with due regard for the safety of innocent bystanders, to make sure that the criminals reach the jail or the morgue if necessary. J. H. CAVENDER, "Commanding Posse."

OREGON ELECTION.

Returns Indicate Defeat of Fusion and Success for the Republican Ticket.

Portland, Ore., June 5.—The returns of the election in Oregon are still incomplete, although figures so far indicate the republicans have won by from 5,000 to 8,000 plurality. They have suffered losses, though not enough to imperil their control of the legislature. It is estimated that C. E. Wolverton (rep.), for justice of the supreme court, will have a plurality of 8,000, and J. W. Bailey (rep.), for food and dairy commissioner, is elected by 6,000. In the Second congressional district the plurality for Moody (rep.) is estimated at from 5,000 to 7,000. From the First congressional district, which has always been close, no returns have been received, except from one county, and Tongue (rep.) was running ahead of his ticket. As United States Senator McBride's term expires next year, the contest over the legislature, which will choose his successor, has been one of the most important fights in the campaign. It looks now as if a republican would be McBride's successor.

MRS. JOHN SHERMAN DEAD.

The Venerable Lady Fails to Rally from the Stroke of Paralysis Suffered Sunday.

Mansfield, O., June 5.—Mrs. Sherman, wife of former Secretary of State John Sherman, died a few minutes past midnight this morning. She suffered a stroke of paralysis Sunday. Mr. and Mrs. Sherman returned to Mansfield from Washington a week ago Friday, expecting to spend the summer quietly at their cozy little home here. Mrs. Cecelia Sherman was born here in 1829. Her father, the late Judge James Stewart, was at that time a lawyer with a limited practice. Her mother died while she was a baby. December 31, 1848, she married Mr. Sherman, then a rising young lawyer of the city. No children were born to them, but they adopted several daughters.

Drowned—After Baptism.

Memphis, Tenn., June 5.—Less than three minutes after receiving the sacrament of his pastor James Phillips was on Monday drowned in the waters in which he had been baptized in the presence of helpless and horrified brethren of his congregation and other spectators. After the final benediction Phillips had gone aboard the steamer Wichita to put on dry clothing. He had scarcely stepped aboard the steamer when he fell backward over the side of the boat and was swept down by the rapid current.

Corn, steers, hogs, beef, mutton, bacon, hams, lard, hides, cotton and hay all advanced in price during April. The farmer is still getting a share of the general prosperity.

Both the middle of the road Pops and the Bryan annex Pops are waking up from their nightmares and making up their minds to go back to the old parties. Populism is merely a symptom of bad times, anyway, and cannot live under the present prosperity.

Shovels cost 6½ cents each more last year than in 1896. Corn was 14 cents a bushel higher, so that to the farmer who bought two shovels last year the only additional cost would be his extra profit on one bushel of corn. Even then he would still have a cent left to put in the baby's bank.

Senator Chandler's resolution to exclude from the Congressional Record all speeches not actually delivered on the floor is a step in the right direction, but it is scarcely humane to those conscientious senators who persist in sitting right through the sessions and listening to everything that goes on.

Rev. William H. Lloyd, of Northville, in his memorial sermon on the subject "The Mission of War," declared that "war is a means in God's hands whereby the world is rid of despotism, better social order secured, and inequalities among men put away, and it is ordained for the overturning of evil of every kind." In other words, like thunder and lightning it is a means of clearing up the stormy atmosphere that leads to civilization.

Warden Chamberlain Monday filed in the supreme court an application for a writ of prohibition against the prison board to stop the present proceedings against him until the next term of supreme court. It is set up in the application that the law making the governor an ex-officio member of the board of prison control is unconstitutional on the ground that the legislature had no power to make a state officer a member of the board. Yesterday the supreme court denied the writ. The trial was proceeded with today.

At 7:30 o'clock p. m. the church was filled with people who listened with great attention to Prof. Goodrich's fine address on the objects and work of the Epworth League. There was a large representation of the C. E. society and B. Y. P. U. present.

Women Going Back to Their Needles

There seems to be a revival of interest in needlework as an art. The Ladies' Home Journal asked for photographs of sofa pillows, and the response to the request was almost overwhelming—pictures literally pouring in. The judges who awarded the prizes for the best examples of this variety of needlework were greatly surprised at the artistic excellence of most of the specimens offered. Better work, and apparently very much more work, is being done with the needle than ever before. The Journal will have several pages showing fifty of the best of these sofa-pillows.

PERSONALS.

Gov. Sayers of Texas is one of the champion golf players of that state and is devoted to all outdoor athletics. Mrs. R. Day, wife of the former secretary of state, is an excellent musician and has composed some music of a high order.

Admiral Schley believes in war. He says: "It is necessary once in a while to have a good, stand up fight. It clears the moral atmosphere."

Among the delegates to the International Council of Women was Dr. Ida Kahn, a Chinese woman, who was educated at Ann Arbor by American missionaries.

Tim Healey, the cattle king of New Mexico, has more money than he knows what to do with. He has an income of \$87,000 a year, and lives in a hut that cost about \$60.

Martin L. Sweet, former mayor of Grand Rapids, Mich., and for years accounted the richest man in the State, is now earning his living by tending the city garbage crematory.

The engagement ring of the Princess of Wales is set with six different stones, the initial letters of which form the name of "Bertie," the pet name of the prince among his own family and friends.

William Dean Howells does not believe that he was born with literary talent. "I came," he says, "of a reading race, which has always loved literature in a way. My inclination was to read, rather than to write."

President Kruger, like other men, has his weakness. It is for green carpet slippers, which he dons the minute he crosses his own threshold. In regard to laundry expenses he is said to be extremely economical.

Justice Shiras of the Supreme Court wrote a letter of advice to a young lawyer the other day, in the course of which he said: "Above all, deserve, secure and keep the confidence of your clients. You will find this your best capital."

Ex-Gov. Warmouth, the first northern governor of Louisiana, has lived down the bitter unpopularity which at one time nearly cost him his life and is now one of the leading sugar planters of the State and a most successful lawyer.

Ex-Gov. Hogg, of Texas, is a wonderful story teller, but either from carelessness or design makes many grammatical errors in his conversation. He wears a twenty-two-inch collar, sports a wide open shirt front, a frock coat and looks western in the true sense of the word.

Sir William Crookes, the English scientist, took up photography early in life, and for some time intended to devote his career to that work.

Minister Garcia-Menou, of Argentina, is spending the summer at Nahant. He is an expert yachtsman and most of his time is put in upon the water.

One of Gov. Roosevelt's admirers has presented him with a rare old Damascus blade supposed to be that carried by Gen. Blucher at Waterloo.

Senator W. B. Bate, of Tennessee, has fallen a prey to the bicycle habit and spends his vacations a wheel through the picturesque portions of his State.

Gen. Joseph Wheeler is most conscientious in taking a certain amount of exercise every day. He is fond of riding, but believes that walking is better for him.

Mataafa, the Samoan claimant to royal honors, has some ear for music and a remarkable memory. He knows by heart all the old Moody and Sankey hymns.

Raphael Joffey will make a tour of the principal cities of the United States, beginning in the early part of November, appearing in recitals only. He will limit the number of appearances to fifty.

Senator Carter, of Montana, is said to be one of the best experts on metals in all the West. He can tell at a glance whether a specimen is genuine and whether it is worth "looking at."

RECENT INVENTIONS.

A combined tent frame and cot has been patented having cross pieces attached to the uprights at each end of the tent to carry side strips, to which canvas sheets are fastened to form the cot, the height being adjusted by sliding the crosspieces on the posts.

Hessian Fly in Wheat.

A farmer in the central part of the state thinks he has discovered how to keep the Hessian fly out of his wheat at moderate expense. Just as the wheat was coming up last fall, he scattered salt all over a half field, leaving the other half without any. He used about a bushel of salt to the acre. He says it worked like a charm. The part of the field salted has a good stand of wheat, entirely free from the fly, while the other half is badly damaged.

At the meeting of the Lima Epworth League last Sunday evening a committee of ten with Arl Guerin as chairman was appointed to make arrangements for the Fourth of July celebration to be held at the Center under the auspices of the League. And speaking of Fourth of July celebrations brings to mind an incident that happened at the last celebration of Independence Day held at Lima Center. A large crowd of people was present, everything was going along finely, when an interruption took place. Among the decorations was a large American flag strung across the road. About the middle of the afternoon a man came driving along from the west. He stopped in front of the flag and said, "I hate to order an American flag to be lowered, but I must order this one down. It is strung over our telephone wires and interrupts communication." He had driven all the way from Jackson to find that obstruction. The flag was lowered.

Much Work of Importance by the Fifty-Sixth Congress.

Record of the First Session Shows Passage of Many Laws Covering Vexed Questions—A Brief Summary Is Given.

Washington, June 4.—The record of the first session of the Fifty-sixth congress is now practically closed, and it is possible to survey the important work it has accomplished during the last six months. It has been a busy congress—the busiest, according to veteran officials, in many years. In some respects the work has been less exciting than that of the preceding congress, which covered the dramatic period when war was declared against Spain, and also the period of reconstruction and treaty-making with Spain following the successful close of the war. But in work actually accomplished and started toward accomplishment the record of the present session stands well in comparison with the most energetic congresses.

Our new territorial possessions have received much attention, and while there has been no definite action as to the Philippines or Cuba; a form of government and a means of raising revenue has been provided for Porto Rico, and a comprehensive territorial form of government has been given to Hawaii. The financial act has made important changes in the laws relating to the parity of metals, the bonded indebtedness, national banks and the security of the treasury by a gold reserve. The Nicaraguan canal bill has passed the house and is on the calendar of the senate ready for attention when congress reconvenes. The anti-trust bill is similarly advanced. The anti-trust constitutional amendment has a defeat recorded against it. The Pacific cable measure has passed the senate and is awaiting final action in the house.

Legislation Partly Advanced.
The Nicaraguan canal bill and the shipping subsidy bill are notable instances of legislation partly advanced during the present session, but not enacted into law. The canal bill has passed the house and has been made the special order in the senate beginning December 10 next. The shipping bill is on the calendar of each house with favorable recommendation from a majority membership of the senate and house committees.

Anti-trust legislation has come prominently into attention in the house at the close of the session, the house having passed a new anti-trust bill and defeated a constitutional amendment.

The senate has passed a bill for a cable to the Philippines and beyond, to be constructed and maintained under government control, but no action has been taken on it in the house.

The restriction of oleomargarine has been productive of considerable agitation, mainly in committees, and a radical restrictive bill has been reported to the house.

Some Unpleasant Features.
The exclusion of Brigham H. Roberts from a seat in the house because of his polygamous status, the refusal of the senate to admit Mr. Quay on the appointment of the governor of Pennsylvania, and the sensational charges, investigation and developments in the senate in the case of Mr. Clark, of Montana, have added some exciting personal phases to the session. Investigations have been protracted, including the inquiry into the Coeur d'Alene mining riots in Idaho, the various inquiries on polygamy growing out of the Roberts case, and more recent the senate investigation of the postal and other irregularities in Cuba.

Appropriations.
The total of appropriations cannot yet be stated with exactness, as five bills are pending, but it is approximately \$700,000,000 for the session.

Treaties Acted Upon.
The senate in executive session has been occupied to a considerable extent with important treaties. Of these the treaties with Great Britain and Germany closing the tripartite government in Samoa and awarding to the United States the island of Tutuila, with its valuable harbor of Pago-Pago, has been ratified, while the commercial reciprocity treaties with France and British West Indian islands and the Hay-Pauncefote treaty, concerning the interoceanic canal, go over without action.

The Financial Act.
Of the legislation actually accomplished and now on the statute books, the financial act is regarded as the chief achievement of the year. The noteworthy feature of the debate on this measure in the house was that party lines were broken to some extent, a number of democratic members from the eastern and New England states joining with the majority in passing it. In the senate also party lines were not entirely regarded, Senators Lindsey and Caffery voting for the measure and Senator Chandler against it. As it became a law by the president's signature, on March 14, it makes specific the declaration of the gold standard, provides a treasury reserve of \$50,000,000, establishes a division of issue and redemption of the treasury, provides for the redemption and reissue of interest-bearing bonds of the United States, and makes new regulations as to national banks, their circulation, establishment in small communities and the tax they pay. The act also contains a specific declaration that its provisions "are not intended to preclude the accomplishment of international bimetallicism."

Porto Rican Revenues.
Porto Rican legislation has been the most fruitful theme of controversy in and out of congress during the session. The discussion first turned on the revenue bill, levying a duty of 15 per cent. of the Dingley rates on Porto Rico goods. The majority of the ways and means committee urged the constitutionality and necessity of this course, while the minority, reinforced by Mr. McCall, of Massachusetts, a member of the majority, maintained that the constitution of the United States extended to Porto Rico, and that congress was inaugurating a new and dangerous precedent by giving the island any other law than that of the rest of the country. Excitement ran high under the spur of widespread public attention. The debate in the house was signaled by the division of the majority, which for a time made the result doubtful, but the bill ultimately passed.

The contest in the senate was animated but less acute. The senate changing the entire scope of the measure by adding a complete form of civil government. In this form, raising revenue and establishing an island government, the measure became a law. Subsequently it was amended so as to limit corporate franchises, and on the president's recommendation an act was passed appropriating for the use of Porto Rico the \$2,056,455 collected from island sources since its acquisition.

Our New Possessions.
Next in importance in the accomplished work of the session is the act "to provide

a government for the territory of Hawaii." The debates on it in the senate and house aroused little division save on matters of detail. The act provides a system of government much like that of territories, with a governor appointed by the president, a legislature of two houses, franchise rights practically the same as those of voters of the United States, with the additional qualification that a voter shall "be able to speak, read and write the English or the Hawaiian language." Administrative and judicial officers are provided, and the island is given a delegate to the house of representatives of the United States, chosen by the people, with a right to debate in the house, but not a right to vote.

The Philippines and Cuba have occupied much attention in the way of debate and the adoption of resolutions of inquiry. The Spooner bill, providing that when all insured against the authority of the United States shall be at an end then all military, civil and judicial powers shall, unless otherwise provided by congress, be carried on under the direction of the president, formed the basis of the senatorial debate on the Philippines, but was fruitless of action. The only legislation as to Cuba is of a comparatively minor character, relating to Cuban shipping.

Pensions.
The general pension laws have been materially changed by the present congress, largely as a result of the efforts of the Grand Army of the Republic, which secured the passage of a bill amending the law of June 27, 1890, so as to permit the "aggregating" of disabilities, and changing the provision as to widows so that a widow may receive pension when she is "without means of support other than her daily labor, and has an actual net income not exceeding \$20," etc.

"Free Homes" Act.
The "free homes" act has at last become law. It provides for the patenting of homesteads on the public lands acquired from the Indians on the payment of the usual fees and no other or further charges. This opens to free homestead entry many millions of acres of public lands in the west, heretofore sold at stated figures per acre.

Another measure passed of some general interest permits the secretary of agriculture to restore game birds which are becoming extinct, and provides means for the restriction of traffic in dead animals, birds, etc., from state to state. The latter provision being in part designed to limit the destruction of song birds for the sale of their plumage.

Other Legislation.
Among other miscellaneous acts of the session are those for the preservation of the historic frigate Constitution and for extending the work of the twelfth census. Considerable general legislation is carried on appropriation bills. These provisions include the amendment to the military academy bill making the commanding general of the army a lieutenant general, and the adjutant general of the army a major general; also the amendment to the sundry civil bill appropriating \$5,000,000 for the St. Louis exposition. Both of these bills are still pending. The naval appropriation bill adds two battleships, three armored cruisers, three protected cruisers and five submarine boats to the naval strength, and may include special legislation as to armor plate and a government plant. The other appropriation bills in the main carry the usual government supplies. The Alaska code bill, giving a complete civil system of laws to the territory, has passed both houses, and undoubtedly will become a law.

Other measures which have passed one house or the other, but are still pending, including those for the election of senators by the people; authorizing the president to appoint a commission to study commercial conditions in China and Japan; for increasing the efficiency of the army by making service in the staff corps temporary; extending the eight-hour law; increasing the annual allowance to the militia of the country from \$400,000 to \$1,000,000.

ROAD AGENTS AT WORK.
Highwaymen Plunder Three Coaches in the Yosemite Valley—Secure Quite Large Sums.

Raymond, Cal., June 4.—The second robbery this season of Yosemite valley stages took place Saturday morning when three of the Yosemite Stage company's coaches were held up and robbed, as well as one private carriage and two United States soldiers who were ahead of the detachment of the Sixth cavalry on the way to the valley to guard the reservation against sheep and cattle trespassers. The robberies occurred near Grub Gulch, a few miles from Raymond, the terminus of the railroad. The robbers first stopped Sergt. Buchanan and another trooper who had been sent out in advance of 67 men of troop F, Sixth cavalry, to select a camping place, and made them hand over their guns. Then they made the troopers dismount and wait until the stage came up. The first stage that appeared was stopped by one of the robbers, who handed the driver a card reading "Black Kid." The robber then took a hat belonging to T. H. Griffiths, a passenger on the stage, and collected \$150 from the passengers, after which he ordered the driver to go on. Each stage was held up successfully, the robbers getting \$350. The mail and express matter was not molested.

Christian Scientists Found Guilty.
Milwaukee, June 4.—Mrs. Crecenzia Arries and Miss Emma Nichols, two Christian scientists, were found guilty of practicing medicine in violation of the state medical law. In giving his decision Judge Neelen cited the decision of the United States supreme court in the Mormon case, holding that a man's religion is subordinate to the laws of the land and that he cannot go contrary to the laws of the state. An appeal was taken.

Will Demand Nine-Hour Day.
Philadelphia, June 4.—The union machinists of this city at a meeting Sunday decided to demand of their employers on Labor day (September 3) that they reduce the hours of labor from ten to nine a day, with a minimum of wages of 28 cents per hour. Where the demands are not granted the men will strike. There are about 6,000 machinists in this city, and of these 50 per cent. are organized.

MEET IN MILWAUKEE.

Women of Much Note Assemble in the Cream City.

They Are in Attendance at the Convention of the General Federation of Women's Clubs—Color Question Bobs Up.

Milwaukee, June 5.—Fully 4,000 club women and three times as many trunks have arrived in preparation for the convention of the General Federation of Women's Clubs. Most of the delegations caucused on the train, and

(President of the General Federation of Women's Clubs.)

the result is numerous presidential possibilities. It is evident Mrs. Lowe can have a renomination if she wants it, but as she solemnly declares she will not accept it, the New York delegation is working solidly for Mrs. William Tod Helmuth, of New York city, though Mrs. Charles Denison, of the same city, is mentioned as the probable recipient of Mrs. Lowe's support. The Colorado women would like to boom Mrs. Sarah Platt Becker, but she will not consent as long as there is even a slight possibility of Mrs. Lowe changing her mind. The Massachusetts contingent came in with their support given to Mrs. Annie West, of Boston, their state chairman of correspondence. New Jersey arrived with a candidate in the person of Mrs. Emily Williamson, of Trenton, and the name of Mrs. Brock, of Lebanon, Pa., is also numbered with the aspirants.

Colored Clubs Shut Out.
The "color question," as it crops out in Mrs. Josephine Ruffin, of Boston, a delegate from a colored club, was temporarily settled Monday by the board of directors tabling its application for membership. This will leave Mrs. Ruffin to continue as a delegate from two organizations of white women, the New England Press association and the Massachusetts Federation. The Massachusetts women are much embarrassed over the issue, and the board of directors, on the other hand, feel they have taken the wisest course possible in refusing to establish the precedent of accepting a club made up mostly of colored women, as in the New Era club, of Boston, of which Mrs. Ruffin is president.

The Indiana controversy was settled by the national board recognizing the state federation already formed with Mrs. Rose Budd Stewart, of Fort Wayne, as president. The dissenting clubs will be recognized in the general

federation as individual clubs, but if they wish state affiliation it will have to be with the state federation as formed.

At the morning session the position of wage-earning women to the federation was discussed, and the women reached the conclusion to urge working women to form clubs, which would be received upon the same footing with other clubs.

Troops Are Ordered.
Austin, Tex., June 5.—An encounter occurred Monday morning between two factions of feudists at San Augustine, Tex., and resulted in the killing of the sheriff and two other men. The dead are Felix G. Roberts, correspondent of the Galveston News; Sheriff Noel Roberts, and Sidney Roberts. A dispatch was immediately sent to Gov. Sayres urging that militia be ordered to the town. The governor ordered the Stone Fort Rifles, a military company of Nacogdoches, to proceed to San Augustine.

OUT OF QUARANTINE.

Gen. Otis Is at Last Permitted to Land in San Francisco—An Interview.

San Francisco, June 5.—After five days in quarantine at Angel island, Maj. Gen. E. S. Otis, who arrived last Wednesday from Manila, was allowed to land Monday. Several cases of smallpox on board the transport Meade were the cause of the quarantine, and Gen. Otis and all on board had to submit to vaccination. Gen. Otis was brought over from Angel island on a special steamer furnished by Gen. Shafter, who went to meet the returning general, accompanied by Surgeon Maj. Arthur and Capt. Wilson. The party was driven to the Occidental hotel, where Gen. Otis spent the afternoon receiving callers and preparing for his departure east. It had been decided to receive Gen. Otis here with full military honors, but for some reason this ceremony was omitted.

Asked what would be the effect of the war if the report of Aguinaldo's death were truth, Gen. Otis said that the war was practically ended, that Aguinaldo's followers were deserting him fast, and those who now remain with him are generally of the lower class. Most of his officers have left him, though some still remain in touch with him. Some of those who have left him are now engaged in business in Manila and others are hiding in the mountains. Many of his closest followers are very friendly toward the United States, and that as soon as the natives in general gained confidence in the friendly offices of the Americans, there would be little difficulty in bringing them to terms. Asked as to the commercial value of the islands, the general said they were vastly rich, especially in hemp, sugar and tobacco, and that as soon as the situation became more quiet business of all kinds would increase tremendously, as it is now doing.

Gen. Otis would not state whether or not he favored the retention of the islands, by this country, and in response to such a query he merely said: "We have got them now. What are we to do about it?"

Gen. Otis left for Washington at night and will report to the president at once. He could not state when his report of the situation would be ready, but he would first make a verbal report to the authorities in Washington and later hand in an extended written report.

FILIPINO LOSSES.

Gen. MacArthur Sends Statistics of the Killed, Wounded and Captured During the War.

Washington, June 5.—Secretary Root made answer to the senate resolution inquiring as to the number of Filipinos killed and wounded and the number of prisoners taken since the insurrection began. Having no detailed information on the subject, the secretary cabled the inquiry to Gen. MacArthur, commanding at Manila, and received the following response, which was submitted to congress:

"Manila, June 4, 1900.—Adjutant General, Washington. With reference to your telegram of 22d ultimo, Filipinos killed, 10,789; wounded, 2,104; captured and surrendered, 10,424; number prisoners in our possession, about 2,000. No systematic record of Filipino casualties at these headquarters. Foregoing compiled from large number of reports made immediately after engagements is as close an approximation as is now possible, owing to wide distribution of troops. More accurate report would take weeks to prepare. Number reported killed probably in excess of accurate figures; number reported wounded probably much less, as Filipinos managed to remove most of their wounded from field, and comparatively few fell into our hands. Officers of high rank and dangerous and suspicious men have been retained as prisoners; most other men discharged on field as soon as disarmed. Propose to release all but very few prisoners at early date.

"MACARTHUR."

THE BOER WOMEN.

According to the Envoys They Are Not Permitted by the Men to Fight in the Trenches.

Cleveland, O., June 5.—The Boer envoys and their party received a number of callers at the Hollenden Monday morning. At 1:30 p. m. they gave a reception, several hundred people attending. Abraham Fischer, when questioned concerning the published reports that Boer women were fighting in the trenches, said:

"The women of our country offered to share the hardships of the men, fight with them, and if need be die with them for the Fatherland. But the men would not allow it. They are willing to die for liberty, but would not permit their wives, daughters, sisters and mothers to fight in the trenches. Of course, there are women who have volunteered for hospital service, but the reports that our women are using the rifle in the trenches is not true."

Return to Work.

Buffalo, N. Y., June 5.—Monday morning between 2,000 and 2,500 car repairers, yardmen and freight handlers of the Erie, Lehigh Valley, Lackawanna and Western New York and Pennsylvania railroads, who quit work six weeks ago, reported for duty. Many places had been filled, but it is probable that before long all of the strikers will be at work again. With the exception of the freight handlers, most of the men receive an increase of pay.

WILLING TO YIELD.

Burgomaster of Pretoria Said to Be Only Waiting for a Demand to Surrender the City.

London, June 5.—An undated news agency message from Pretoria, via Lourenzo Marques, says: "Pretoria is now invested by the British. No resistance will be offered. The city will be surrendered by the burgomaster as soon as a formal demand is made." This message purports to come in cipher. President Kruger commands the telegraph eastward from Pretoria and telegraphic news from Pretoria to Lourenzo Marques has ceased, but the messengers of newspaper correspondents continue to pass to and fro on the railway. The latest to arrive at Lourenzo Marques bring events at the Boer capital down to a late hour Friday night.

Another dispatch brought to Lourenzo Marques by messenger, and dated at Pretoria, Friday, at midnight, says: "The war council assumes the powers of the government. Its members declare that the capital may still be successfully defended. One commander declared: 'With the help of God, the hour will still come when Great Britain will acknowledge the independence of the two republics. A tremendous change will yet come over the situation.' Gen. Delarey said that Pretoria would be defended to the utmost, adding: 'There is every chance that we will yet beat the enemy out of the country.'"

President Kruger is somewhere to the eastward, but is in constant wire communication with the leaders here. There is, however, a deep feeling of anger against him on account of what is now called his unnecessary flight, and because he and the officials took all the gold and left their subordinates unpaid.

Of official intelligence regarding what is transpiring outside Pretoria there is little or nothing. Lord Roberts is silent. Nevertheless, by piecing together items from various correspondents, it would seem that Lord Roberts' immediate army is all employed north of Johannesburg, except one brigade, which is at Johannesburg and that six columns are converging on Pretoria.

The Boer operations to break Lord Roberts' communications have been completely baffled and the Boer columns are in danger of being surrounded by the British forces at Ficksburg, Senekal, Heilbron and Lindley. Gen. Rundle, instead of throwing himself against the Boers entrenched at Beulphberg, moved toward Ficksburg and established communication with Gen. Brabant. The Boers marched parallel with Rundle, intending to seize a strong position on the Ficksburg road, but Gen. Rundle got there first. The 1,500 Boers who were in this movement are now reported to be going elsewhere.

IS DEDICATED.

New Mexico's New Capitol Building Formally Opened in the Presence of a Big Crowd.

Santa Fe, N. M., June 5.—The new capitol of New Mexico was dedicated Monday afternoon with imposing ceremonies. This quaint old city was thronged with visitors. Houses and streets were especially decorated. A grand military and civic pageant was reviewed from the capitol steps by Gov. Otero. At three o'clock the governor's salute was fired and the monster flag raised on the lantern cupola. The dedicatory exercises were held in the hall of the house of representatives. Chief Justice W. J. Mills presided and made an address. Archbishop Peter Bourgade offered the dedicatory prayer, Hon. F. A. Monzanes, of Las Vegas, delivered the building over to Gov. Otero, who made an eloquent response, in turn placing the building in charge of the custodian committee, for which Territorial Secretary George H. Wallace made the address. Ex-Gov. L. Bradford Prince delivered the oration of the day.

Sergeant-at-Arms of Democratic Convention Declares Kansas City Hotels Not Too High-Priced.

Kansas City, Mo., June 5.—Col. John I. Martin, sergeant-at-arms of the democratic national convention, is in the city and will establish permanent headquarters here within two weeks time. Speaking of the charge that local hotel keepers are making exorbitant charges, Col. Martin said: "The charge is Tommy rot. Five dollars a day at the leading hotels is a reasonable rate. Kansas City's hotels are as good as any in the land, and they are entitled to charge a five-dollar rate." The subcommittee of the national committee will meet here on Thursday, June 14, to consider among other matters the question of hotel rates.

Gomez Salutes Wood.

Havana, June 5.—Gen. Maximo Gomez arrived here Monday morning. He was met by representatives of various political societies and an enthusiastic crowd and was escorted to his house. On passing the palace Gen. Gomez stood up in his carriage and saluted Gov. Gen. Wood, who was on the balcony.

AMERICAN BULLETS.

Said to Have Stricken Low Aguinaldo, Filipino Leader.

Dispatch from Manila Tells of Shooting of an Officer Thought to Have Been the Head of the Insurgents.

Vigan, Luzon, June 2. Via Manila, June 4.—Maj. March, with his detachment of the Thirty-third regiment, overtook what is believed to have been Aguinaldo's party on May 19 at La Gat, about 100 miles northeast of Vigan. The Americans killed or wounded an officer, supposed to be Aguinaldo, whose body was removed by his followers. Aguinaldo had 100 men, Maj. March 125. The American commander reached Labagan, where Aguinaldo had made his headquarters since March 6, on May 7. Aguinaldo had fled seven hours before, leaving all the beaten trails and traveling through the forest along the beds of streams. Toward evening, May 19, Maj. March struck Aguinaldo's outpost about a mile outside of La Gat, killing four Filipinos and capturing two. From the latter he learned that Aguinaldo had camped there for the night. Although exhausted and half starved, Maj. March's men entered La Gat on the run. They saw the insurgents scattering into the bushes or over the plateau.

A thousand yards beyond the town, on the mountain side, the figures of 25 Filipinos, dressed in white, with their leader on a gray horse, were silhouetted against the sunset. The Americans fired a volley and saw the officer drop from his horse. His followers fled, carrying the body. The Americans, on reaching the spot, caught the horse, which was richly saddled. Blood from a badly wounded man was on the animal and on the ground. The saddle bags contained Aguinaldo's diary and some private papers, including proclamations. One of these was addressed: "To the civilized nations." It protested against the American occupation of the Philippines. There was also found copies of Senator Beveridge's speech, translated into Spanish and entitled "The death knell of the Filipino people."

The officer shot was either Aguinaldo or his adjutant, and as the horse was richly caparisoned it is a fair presumption that it was Aguinaldo.

LAND IN MANILA.

Destination Reached by Philippine Commissioners.

Manila, June 4.—The United States transport Hancock, from San Francisco April 17, arrived here Sunday morning with the members of the Philippine commission. The members of Gen. MacArthur's staff welcomed the commissioners on board the Hancock. At noon the commissioners landed and drove to the palace, escorted by Gen. MacArthur's staff, a band and two companies of the Twenty-sixth infantry, with artillery. At the palace the commissioners were welcomed by Gen. MacArthur in a short and forceful address. After Judge William H. Taft, president of the commission, had replied, the commissioners returned to the Hancock, where they will remain until they have selected suitable dwellings on land.

Judge Taft, speaking regarding the powers and future work of the commission, said:

"We have full instructions and extensive powers. The latter we shall not exercise until we have had ample time to acquire sufficient knowledge of the situation to enable us to proceed to enact legislative changes and reforms, preliminary to the establishment of a stable civil government. Until we assume authority Gen. MacArthur will continue to perform the duties and exercise the powers formerly performed and exercised by Gen. Otis; and, even after we take active and full part in the government, Gen. MacArthur will continue as the executive head until, on our recommendation to President McKinley, it shall seem to the president that the time has arrived for the appointment of a civil executive and for making the military forces merely auxiliary in carrying on the civil government, to be available only in cases of emergency for the suppression of lawless violence too formidable to be overcome by the regularly organized police."

"We are aware that there are several issues of deep interest to the Filipinos, upon which it is our duty to take action. Some of these involve judicial investigation and decisions upon legal rights. Others call for the careful exercise of political power in order to secure equitable adjustments. Upon the latter class of issues we cannot now speak."

"Representing the sovereignty of the United States in the Philippines, which it is the purpose of our government to maintain, we are here to do justice to the Filipinos and to secure for them the best government in our power and such a measure of popular control as is consistent with the stability and security of law, order and property. We are civil officers, men of peace. The field of our work is necessarily confined to regions where the armed enemy has ceased his operations. We cannot deal with armed men. Gen. MacArthur and the army will do that."

"When those now in arms shall have laid them down, relying as they certainly can, upon the justice, generosity and clemency of the United States, we shall give them all a full hearing upon the policy to be pursued and the reforms to be initiated. We purpose to inaugurate as comprehensive a school system throughout the islands as circumstances will allow. I am surprised that Manila has not received news regarding the Spooner bill, a measure calculated to help us greatly in our work here."

It should be understood that the foregoing declaration of Judge Taft is in no sense intended as a proclamation.

New Binding Twine, 9½c Lb.

AT 11-7-3 CENTS. Consequently we divide this profit with you and will supply any that when this twine is out you can rest assured that we will try to make you as low prices as possible, but, nevertheless, we would suggest that you get your order in at once for any part that you may want of this lot. A Submerged Presbyterian.

The Scottish American tells a story of a minister who, after the service, greeted a stranger and asked him what denomination he belonged to. "I suppose," responded the other, "I'm really what you might call a submerged Presbyterian." "A submerged Presbyterian!" exclaimed the minister. "It should be glad if you'd explain." "Well, I was brought up a Presbyterian, my wife is a Methodist, my eldest daughter is a Baptist, my son is the organist at a Unitarian church, my second daughter sings in a Church of England choir, and my youngest goes to a Congregational Sunday school." "But," said the minister aghast, "you contribute, doubtless, to some church?" "Yes; I contribute to all of them," was the answer. "That's what submerges me."

If you want a special inside price on binder twine, either Sisal, Standard or Manila, cut this notice out and mail it to Sears, Roebuck & Co. (Binder Twine Department), Chicago, stating about how much twine you will require and how soon you will want it, and they will save you money by quoting you a price that will either secure your order or compel the party who supplies you to sell to you at a lower price than he otherwise would.

A Resourceful Phrase.

A kind-hearted clergyman was lately compelled to dismiss a clever gardener, who used to purloin his fruit and vegetables. For the sake of his wife and family he gave him a character and this is how he worded it: "I hereby certify that A. B. has been my gardener for over two years, and that during that time he got more out of my garden than any man I ever employed."—Collier's Weekly.

"DEAR MRS. PINKHAM:—I have seen so many letters from ladies who were cured by Lydia E. Pinkham's remedies that I thought I would ask your advice in regard to my condition. I have been doctoring for four years and have taken different patent medicines, but received very little benefit. I am troubled with back-ache, in fact my whole body aches, stomach feels sore, by spells get short of breath and am very nervous. Menstruation is very irregular with severe bearing down pains, cramps and back-ache. I hope to hear from you at once."—CLARA KOPP, Rockport, Ind., Sept. 27, 1898.

"I think it is my duty to write a letter to you in regard to what Lydia E. Pinkham's Vegetable Compound did for me. I wrote you some time ago, describing my symptoms and asking your advice, which you very kindly gave. I am now healthy and cannot begin to praise your remedy enough. I would say to all suffering women, 'Take Mrs. Pinkham's advice, for a woman best understands a woman's sufferings, and Mrs. Pinkham, from her vast experience in treating female ills, can give you advice that you can get from no other source.'—CLARA KOPP, Rockport, Ind., April 13, 1899.

The Eagle's Heart.

Mr. Hamlin Garland's most recent work is a vigorous story of Western life, entitled The Eagle's Heart. In this brilliant story he draws a remarkably strong picture of the adventurous life in cowtowns and mining settlements, and shows every phase of the aggressive existence of miner, plainsman and cowboy. An absorbing love story is skillfully woven into the fabric of peril and adventure. The Eagle's Heart, superbly illustrated by Mr. Harrison Fisher, will begin in The Saturday Evening Post for June 16, and run through the summer numbers of the magazine.
