### NEWKIRK AT THE HEAD

Of the Ticket Nominated by the Republican County Convention.

The Republican county convention held at Ann Arbor yesterday was a most harmonious one and the delegates with few exceptions were strongly in favor of harmony between the factions now existing, and a unification of the Republican forces in the county for the coming campaign. To this end a resolution was introduced and passed, with only three dissenting votes, that a committee of five be appointed, with Capt. E. P. Allen as chairman, to confer with an equal number from the other side in the interest of a settlement of the existing differences, and fix up a joint ticket that will be acceptable to both sides; whatever action is taken to be done before Oct. 1 and no candidate to be removed from either ticket without his consent. Those speaking in favor of this idea were E. F. Johnson and W. W. Wedemeyer, of Ann Arbor, A. F. Freeman and A. J. Waters, of Manchester, J. K. Campbell, of Augusta, and F. W. Green, of Ypsilanti, the only speaker in opposition was O. E. Butterfield.

The convention was called to order at 11:36 a. m. Capt. E. P. Allen was made temporary chairman, and A. A. Pearson, of Ann Arbor, secretary.

On taking the chair Capt. Allen made a brief speech and then appointed the regular committees on credentials, permanent organization and order of business and resolutions. F. P. Glazier, of Chelsea, was chairman of the second named committee. The convention then adjourned until 1:15 p. m.

It was 1:35 when the convention again got down to business. The report of the committee on credentials showed 186 out of 191 delegates present, the absent ones being the five delegates from Northfield. The temporary officers were made permanent and the order of business was adopted. Two tellers were appointed, but every nomination made was unanimous and they had nothing to do. The nominations made were:

H. Wirt Newkirk, Ann Arbor, judge of probate; Cassius M. Warner, Ypsilanti, sheriff; John Kalmbach, Sylvan, clerk; Cone G. Sperry, Pittsfield, treasurer; Frank A. Stivers, Ann Arbor, prosecuting attorney; John Reno, Freedom, register of deeds; Carl T. Storm, Ann Arbor, and Eugene Holbrook, Ypsilanti, circuit court commissioners; Dr. Harry Britton, Ypsilanti, and Harris Ball, Ann Arbor, coroners, George F. Key, Ypsilanti, surveyor.

The following delegates were named to the tenth district senatorial convention, yet to be called: Prof. E. F. Johnson, delegate-at-large; first representative district, C. E. Hiscock, E. J. Helber, Wm. Judson, Nathaniel Laird, Fred B. Braun, Emanuel Jedele, Wm. Riemenschneider, George Peatt and O. E. Butterfield; second district, A. J. Waters, J. K. Campbell, Amariah Hitchcock, George Boettner, Sherman Cook, Stanton Ferguson, M. F. Clements, M. F. Case and J. B. Forsythe.

After the business of the convention had been concluded Judge H. Wirt Newkirk, the nominee for re-election to the office of probate judge, was called upon for a speech. He thanked the convention for the honor it had done him and stated that if in the interest of harmony in the party a committee should be appointed by the Antis to meet with the committee appointed by this convention, and these committees should see fit to remove his name from the ticket, they had his full permission to do so. He did not consider that any one man was ahead of the whole Republican party. He then defended his position in two questions on which he had been attacked by the Antis and gave a history of the two cases in question, namely, the Richards case and the taking of Leonard Gruner's testimony in the Ellis estate case. He was loudly applauded at the close of his brief but manly and straightforward speech.

At the representative convention for the first district of Washtenaw county held in the supervisors' room, E. F. Johnson was chairman, and A. C. Schumacher secretary. George S. Wheeler, of Salem, the present representative, was unanimously renominated.

### ROBBED ON THE TRAIN.

Mrs. Charles Gildart, of Kansas, Lost Her Railroad Ticket and Money.

Mrs. Charles Gildart, of Thayer, Kas., arrived in Chelsea Friday morning on the early train to spend some time with her sisters Mrs. M. M. Campbell and Mrs. D. N. Rogers. She had a very unpleasant experience at Chicago Thursday night when she took the train for Chelsea. The car she first entered was full of men and she walked through it to another car in which she could get a seat in more congenial company. When she got seated she found that her purse containing a sum of money, her railroad ticket and trunk check had been stolen from her. A telegram was received here Saturday afternoon from Niles, Mich., stating that a purse had been found on the railroad track near there containing a baggage check for Chelsea and a small key. It was identified by Mrs. Gildart, from the description, as her property, and has been forwarded to her, but the railroad ticket and money are gone.

### The Tri-County Farmers' Picnic.

The tri-county farmers' picnic at Whitmore Lake Saturday was the most successful one of a long series. It was a regular field day for the politicians and they were out in full force. Speeches were made during the afternoon by Col. A. T. Bliss, W. C. Maybury, Congressman H. C. Smith, James W. Helme, of Adrian, M. G. Loennecker, Arthur Covert, A. J. Sawyer, Col. H. S. Dean and Capt. E. P. Allen.

Universal regret was felt and expressed at the serious illness of Rev. Fr. L. P. Goldrick, of Northfield, who was to have been chairman of the day, and the whole audience rose to their feet in response to the request for a silent prayer to God that he would save the life of this well beloved priest.

The officers elected for the coming year were L. D. Loveland, of Oakland county, president, Jay Jordan, of Whitmore Lake, secretary, and the same vice presidents as last year.

### Cheap Fire Insurance.

At the meeting of the directors of the Washtenaw Mutual Fire Insurance Co., held at Ann Arbor Thursday, the following losses by fire were allowed:

J. A. Wortley, Sylvan.....	\$ 12 00
George Boyden, Dexter.....	26 56
E. M. Smith, Sharon.....	5 06
James Armstrong, Dexter....	1,040 00
J. B. Herrick, Salem.....	10 00
W. Irving Moore, York.....	2 00
Chas. Allmendinger Est, Lodi..	230 00
Chris. Allmendinger, Lodi....	486 84
John McElroy, Northfield....	662 86
Frank Hoff, Northfield.....	128 90
Geo. D. Herrick, Salem.....	3 00
C. G. Lehman, Sharon.....	50 67
E. A. Alchin, York.....	4 00

Total..... \$2,664 38

The assessment this year will be \$3 per thousand. Last year it was \$2.50, while the year before it was \$4.30.

### The State Dog License Laws.

The first case to test the validity of the new state dog license law was recently tried at Saginaw and a decision was rendered by the trial judge that needs only the affirmation of the supreme court to wipe the new law off the statute books.

The plaintiff sued to recover damages for the killing of his Newfoundland pup by the dog warden of Carrollton township, and he based his case on the ground that dogs are personal property. The court held that this ground was well taken and awarded the plaintiff damages in the sum of \$50. The case will be carried to the supreme court by the dog warden and will probably come up for hearing some time in September.

### Republican Convention Delegates.

The following were the Sylvan delegates to the Republican county convention, elected at the caucus held Saturday: F. P. Glazier, B. Parker, Theodore E. Wedemeyer, John Kalmbach, William Bacon, Tom W. Mingay, E. A. Ward, Marvin Merkle, Martin Wackenhut, Henry Gieske, Frank Kruse and W. F. Riemenschneider.

The delegates to the first district representative convention elected at the same time were: R. D. Walker, A. W. Wilkinson, D. N. Rogers, E. G. Hoag, William Bacon, C. M. Davis, H. S. Holmes, Saxe C. Stimson, Albert Guthrie, Philip Schweinfurth, O. T. Hoover, A. R. Welch.

Edward S. Washburn, aged 56, of Kansas City, president of the Kansas City, Fort Scott & Memphis railway, died at Rye Beach, Me.

#### FOREIGN.

An all-day cabinet session was held at Washington and a note to Germany and Italy as to China was prepared.

There are signs of increasing friction between the Russian and Japanese forces in China. Russia proposes to the powers that the allies withdraw their troops from Peking.

Japanese troops routed the Chinese at Teh-Chou and killed 1,500, among the slain, it is reported, being Prince Tuan, chief of the Boxers. The report that Li Hung Chang is held a prisoner is denied.

Lord Roberts reports that only a few Boers remain in the country occupied by his troops, and that Kruger's army is in flight toward a mountain north of Delagoa Bay railroad.

Admiral Watson, aboard the Baltimore, left Greenock, Scotland, bound for home.

The czar of Russia refused to interfere in behalf of the Boers in the Transvaal war.

A dispatch from Tientsin announces the safe arrival of a party of refugees from Peking. Washington authorities have discovered that all recent messages to Gen. Chaffee at Peking were suppressed on the way. Gen. Chaffee is preparing for a winter campaign and is arranging to maintain 15,000 soldiers in China.

The British had Gen. Botha hemmed in at Helvetia and London thinks the war is practically at an end.

Great Britain views with suspicion the peace plans of the United States and Russia, but the London papers admit that the withdrawal of the armies of the two nations may force the other powers from Chinese soil.

Gen. Chaffee has been ordered to hold his troops in readiness to evacuate Peking and when the czar gives the word the Russians and Americans will march to Tientsin. Li Hung Chang says if the foreign troops are withdrawn from Peking he will take vigorous measures to restore order.

The United States and Russia have formed a compact for the settlement of the existing Chinese question and Great Britain, France and Japan have agreed to the proposals. The Russian minister and troops have been ordered to leave Peking and the United States minister and troops will go to Tientsin. A belated message from Minister Conger says that the foreign troops in Peking marched through the imperial palace.

#### LATER.

Washington officials think chances for the continuance of the concert of the powers are diminishing. Continued silence at Peking, which has not been heard from for ten days, causes anxiety at London. The kaiser is said to have ordered that a Chinese city be bombarded for every German killed. Germany is said to have rejected the Russian plan for withdrawal of troops from Peking.

One hundred weddings broke the Sunday record at St. Joseph, Mich.

Great Britain believes the South African war is near its end. Lord Roberts is reported to have issued a proclamation annexing the Transvaal, and Kruger and Steyn are thought to be preparing for flight.

In August the aggregate internal revenue receipts from all sources were \$29,421,391, an increase of \$1,409,103 over the same month last year.

Thirteen persons were killed and more than 30 injured by the wreck of an excursion train at Hatfield, Pa.

The social democrats of Wisconsin named a full state ticket, with Howard Tuttle, of Milwaukee, for governor.

Filipinos fear being murdered by robber or rebel bands, and therefore they hesitate to accept office under the Taft commission, which assumed control on the 1st.

North Carolina negroes are leaving the state by the hundreds since the last election.

The total circulation of national bank notes August 31 was \$324,223,810, an increase for the year of \$82,152,018.

The percentage of the baseball clubs in the National league for the week ended on the 2d were: Brooklyn, .614; Pittsburgh, .543; Philadelphia, .505; Boston, .505; Chicago, .496; Cincinnati, .471; St. Louis, .466; New York, .402.

J. A. Carthew, the English wheat expert, estimates the world's crop for 1900 at 2,224,000,000 bushels.

During August the total coinage at the United States mints was \$7,774,160, as follows: Gold, \$3,050,000; silver, \$2,536,000; minor coins, \$188,160.

The public debt statement issued on the 1st shows that the debt increased \$2,922,396 during the month of August. The cash balance in the treasury was \$285,419,696. The total debt, less the cash balance in the treasury, amounts to \$1,397,688,802.

England withholds a reply to the Russian note pending the receipt of news from Minister MacDonald at Peking. Germans, Austrians and Italians may stay in Peking when Americans withdraw. Russia's policy is said to have been shaped so as to balk Germany's plans. Li Hung Chang has asked the Chinese government to appoint four others to aid him in peace negotiations.

Six United States and five British warships are at Bar Harbor.

President McKinley's visit to Canton has been delayed by Chinese affairs.

Police stopped an incipient race riot in New York.

Ex-Gov. Lorenzo D. Lewelling, of Kansas, died of heart failure at Arkansas City, Kan., aged 54 years.

Two patrolmen were killed and 11 seriously burned by crossing of electric wires in St. Louis.

Enoch Moss (colored) was hanged at Bastrop, Tex., for the murder of Neal Lane (white).

Labor day was celebrated in the large cities throughout the country. The entire democratic ticket, headed by Jeff Davis, of Pope county, for governor, was elected in Arkansas.

Fire wiped out the business portion of Potosi, Wis.

Regular army and navy veterans in camp in New York elected William E. Morris national commander.

Engineer Ryan was killed and nine passengers injured in a wreck on the Northwestern railroad at Freeport, Ill.

Ali Mahomet Bey, who with a force of rebels sought to usurp Persia's throne, was defeated in battle and placed in a dungeon.

In an engagement on the island of Bohoe 120 Filipinos were slain. The American loss was one killed and six wounded.

Lord Roberts has issued a formal proclamation announcing that the Transvaal will henceforth form a part of her majesty's dominions.

Francis Frohm, a desperate criminal, was riddled with bullets by a party of farmers near Elizabethville, Pa.

Zachariah Montgomery, who was assistant attorney general of the United States during Cleveland's first administration, died at Los Angeles, Cal.

The Deutschland, in her westward trip, broke all ocean records and proves to be the fastest ship afloat. Her time was 5 days 12 hours and 29 minutes.

## TOILERS ON PARADE.

A General Observance of Labor's Annual Holiday.

Thousands Participate in Parades in Many Cities—Bryan and Roosevelt Deliver Addresses in Chicago.

Chicago, Sept. 4.—Organized labor marched Monday, with thousands of men in line in excess of the numbers of other years, to demonstrate the numerical growth of the labor movement in Chicago. With wives and children, the workmen legions also flocked to Electric park in the afternoon and listened to a number of notable orators. The parade started at 9:50 o'clock and was witnessed by large crowds from one end of the route to the other. The men, as a rule, were plainly dressed, the gaudy uniforms seen on other occasions of a like nature being missed. At the reviewing stand the parade was witnessed by many notable persons, among them William J. Bryan, democratic nominee for president; Samuel Alschuler, democratic nominee for governor of Illinois; Mayor Harrison, Gov. Roosevelt, the republican candidate for vice president; United States Senator William E. Mason and Judge Richard Yates, the republican candidate for governor of Illinois. Bryan and Roosevelt came in for a noisy and hearty reception by the marchers. Later in the day Mr. Bryan addressed a large audience at Electric park, his speech being devoted to a review of labor's victories, with much advice regarding party issues. Gov. Roosevelt also spoke. He discarded politics entirely, confining his remarks to a dissertation on the beauty and influence of fellow-feeling and the possibilities of association. Addresses were made by others, including Messrs. Yates and Alschuler, rival candidates for governor.

Two Parades in Milwaukee.

Milwaukee, Sept. 4.—Two Labor day parades were held here Monday, the Federated Trades council parade and that of the Building Trades council. There were about 60 floats and fully 10,000 men in line. Both parades went to picnic grounds, where the day was devoted to addresses and games.

At Other Points.

Following is an estimate of the number of men in line in Labor day parades in various cities:

Chicago	18,158	Topeka	2,500
St. Louis	25,300	Milwaukee	4,000
Cincinnati	15,300	Streator, Ill.	4,000
St. Paul	11,900	Evansville	3,000
Minneapolis	5,000	Des Moines	2,500
Springfield	5,000	Terre Haute	1,200
Louisville	9,000	Centerville, Ia.	1,000
Indianapolis	8,500	Atlanta	5,000
Pittsburgh	7,000	Memphis	2,700
Detroit	6,000	Nashville	2,500
Denver	5,000	Knoxville	1,600
Cleveland	8,000	Charleston, S.C.	1,500
Dayton	4,108	Madison, Wis.	400
Columbus	3,000		

Labor day was observed in Washington, D. C., for the sixth time, the legal character of the holiday having been established by congress in 1894. All government departments were closed, but there were no street parades or public demonstrations.

The various local labor organizations celebrating the day by speech-making and athletic games at the various river resorts outside of the city.

In St. Louis shops and factories, municipal offices, banks and exchanges were closed all day, and most of the mercantile houses after 12 o'clock. The day was celebrated by a labor parade in which more than 25,000 men of all trades participated. Cool weather prevailed and made marching bearable.

Labor day in Kansas City, Mo., was a field day for politicians. Joseph Flora, republican candidate for governor, and Hon. A. M. Dockery, democratic candidate for the same office, spoke to large crowds of local union men and their families at a Labor day picnic in one of the parks. It being a legal holiday, banks, municipal offices and most of the business houses were closed.

A drizzling rain seriously interfered with the celebration of Labor day in Cleveland, O. Notwithstanding a steady downpour there were probably 8,000 men in line, representing more than 90 unions. At the conclusion of the parade thousands of workmen and their families went to scenic park, where President Samuel Gompers, of the American Federation of Labor, delivered an address. A big picnic and all kinds of athletic sports and games followed.

Labor day was celebrated in Cincinnati by a parade of workmen estimated from 12,000 to 15,000. It was the best appointed procession ever seen on Labor day. The streets were lined with interested and applauding spectators.

The day was observed as a holiday in Columbus, O., all the big concerns shutting down to allow their employees to participate in the festivities. The morning was given up to a parade of unusual size and having social features. In the afternoon a picnic at Andrews' grove, with speeches by former Attorney General Frank S. Monnett and others, made up the programme. Rain interfered with the exercises somewhat.

Labor day was more generally observed in Pittsburgh than for many years. In the morning there was a large parade, participated in by labor organizations from all parts of the county, and in the afternoon there was speechmaking and athletic sports at Schenley park. In the evening there was a display of fireworks at Schenley park. All the mills and factories were closed, and business as a rule was suspended throughout the city.

Monday's Labor day parade was the best in St. Paul, Minn., for several years. The weather was delightful, and a great crowd witnessed the parade and afterward attended the picnic at Fort Snelling, where Gov. John Lind and Capt. S. R. Van Sant, republican candidate for governor, delivered an address.

In Springfield, Ill., the proceedings opened with a monster parade, participated in by 10,000. In addition to this, scores of floats were seen. After the parade exercises were held in the fair grounds, and that place was filled to overflowing. A long programme of athletic sports was carried out, and dancing was indulged in all day in one of the buildings at the grounds.

## TERRIBLE DISASTER.

Railway Collision at Hatfield, Pa. Thirteen Killed and Over Thirty Injured.

Philadelphia, Sept. 3.—Thirteen persons killed and over 30 others injured is the appalling record of a rear-end collision between an excursion train and a milk train on the Bethlehem branch of the Philadelphia & Reading railway Sunday morning at Hatfield, Pa., 12 miles north of this city.

The killed: Miss Annie Sherry, aged 21 years, South Bethlehem; Robert Miller, 21, South Bethlehem; Richard Bachman, 40, South Bethlehem; Ira Ehret, 38, South Bethlehem; William Ehret, brother of Ira, South Bethlehem; Joseph Mordecai, 22, South Bethlehem; Charles McPonagle, Allentown; Thomas Day, Allentown; Mamie Kaelin, 14, Telford; Godfrey Kaelin, father of Mamie; William Blackburn, Ambler; Harold Landis, Hatfield; Ackerman, Philadelphia.

The wrecked train consisted of ten day coaches and was the first section of a large excursion made up of people from Bethlehem, Allentown and surrounding towns to Atlantic City. This section carried only those persons who lived in Bethlehem and Allentown, and left the Union depot in Bethlehem at 6:05 a. m., exactly 35 minutes behind the milk train. The latter train consisted of two milk cars and two passenger coaches and had stopped at every station on the road from Bethlehem en route to Philadelphia. At 6:45 the milk train drew up at the milk platform at Hatfield, and in less than two minutes the special excursion train, running at the rate of 35 miles an hour, crashed into the rear of the milk train.

The locomotive plowed through the two passenger coaches and crushed them as if they were eggshells. The milk car immediately in front was also badly wrecked. Four persons, Godfrey Kaelin, his daughter Mamie, Harold Landis and William Blackburn, on the passenger-car of the milk train, were almost instantly killed. Fortunately there were few persons on this train.

The excursion train was a picture of indescribable horror. The locomotive was a mass of bent and broken iron, and firmly held the bodies of its engineer and fireman beneath its great weight. Behind the engine, six of the ten cars were also a mass of wreckage. The first car was broken in twain, and the other five cars were thrown on their sides, completely demolished.

Nine persons were killed in the first two cars and the others in these coaches were badly maimed. As soon as the crash came a terrible cry rose from the smashed cars, and those who had not been injured quickly crawled or jumped from the cars and went to the assistance of the injured. Many were pinned down by wreckage and had to be freed by the liberal use of axes. With three or four exceptions the dead were killed instantly, the others dying on their way to the hospitals.

All the injured were first taken to a shed at the Hatfield station, and the dead were removed to a barn. Messengers were sent to the nearby villages for physicians, and a relief train was telegraphed for from Bethlehem. With 15 doctors and half a dozen nurses a special train was sent from Bethlehem, but before it reached the scene of the wreck it was signaled to return to Bethlehem, as a special carrying nearly all the injured had started for that place. On the run from Hatfield to the hospital three of the injured died. Great trouble was experienced in keeping the relatives away from the injured on the train so that the doctors gathered from near Hatfield could attend to the wounded.

The special train arrived at Bethlehem at 11:30 and was met by fully 5,000 persons, all clamoring to get a bit of news of the wreck or trying to learn whether loved ones were among the victims. The news of the wreck reached Bethlehem at eight o'clock, and spread like wildfire. All the policemen of the town were gathered at the station, and it was with great difficulty that the injured were moved to the waiting ambulances and other vehicles which conveyed them to the hospitals. All during the day people from Allentown, Catasauqua and other places came pouring into Bethlehem and confusion reigned throughout the day. The second section of the excursion, made up of persons from towns other than Bethlehem and Allentown, left soon after the first section, but was flagged before it reached Hatfield. As it could not get through on account of the blocked tracks, it was returned to Bethlehem and there was great rejoicing at the narrow escape of its occupants from the catastrophe.

The coroner of Montgomery county visited the wreck early and spent the entire day at the scene. He at once directed the removal of the dead to Lansdale, a short distance south of Hatfield. He promises a rigorous investigation into the horror.

There are conflicting stories as to responsibility for the accident. One version is that the engineer of the excursion train had been warned at Souderton, the station above Hatfield, that a milk train was a few minutes ahead of him. Another story is that the train dispatcher's office in Philadelphia was at fault. The trainmen refused to talk of the accident.

Fifteen hundred tickets had been sold for the excursion to the seashore, and it was to have been the last of the season.

## MEER COURTS WAR.

### Afghan Troops Reported Ready to Invade Russian Soil.

Abdur Rahman Holds the Balance of Power in Asia and May Seek to Ruin Russian Plans in Northern China.

[Special Correspondence.]

ALTHOUGH Europe is always prepared to hear of startling military operations, and usual every foreign office was thrown to genuine consternation a few days ago when the news came from Afghanistan that the ameer was mobilizing his forces on the Russian frontier.

There is no doubt that the completion of the Trans-Siberian railroad, which makes Afghanistan easily accessible to Russian troops, has caused the jealousy and hatred of Abdur Rahman, the warlike ruler of the Afghans, and the actual outbreak of hostilities between the czar's frontier guards and the ameer's troops may occur at any moment.

Much light has been thrown on the issues which led to the present crisis by Dr. Lillias Hamilton, late medical adviser of the ameer's family, who left Afghanistan in June, and has recently arrived in London, and whose opinions, epitomized in the following paragraphs, are entitled to respectful consideration.

Dr. Lillias Hamilton was at Abdur Rahman's court more than ten years.

SCENE ON TRANS-SIBERIAN RAILROAD NEAR AFGHAN FRONTIER.

A medical adviser to the ameer the English physician naturally learned much of the man. Consequently, his knowledge of the prince's private prejudices and probable action under emergency is second to none. Dr. Hamilton details a conversation he had with Abdur Rahman when the latter had heard of the proposed Trans-Siberian railroad and realized what such line of communication between Russia and Siberia might mean for Afghanistan, Baluchistan, Khiva, Bokhara and those other minor states which have during the entire century played grain to the Russian-English hostilities, and while slowly disappearing between the steady encroachments of both, have retained their liberty only because neither felt sufficiently strong to absorb them without the consent of the other.

"What every country wants now," says the ameer, "is a navigable sea, but a navigable sea, one that is icebound for eight

months out of the 12. That sea, that navigable sea, is what Russia wants. There is she to get it? Away south, through Afghanistan and Beluchistan, again, what every country wants is bread—bread for its people. From whence are the Russians from? The snow-covered plains of the north get wheat and grain of all sorts? From Herat, from Bamian, from Kandahar, from Kabul and then India. It is the law of nature—every living thing turns toward the sun."

In other words, Abdur Rahman, who has had 20 years of active fencing with the statesmen of both countries, "onto" both, and will not be caught tripping by either.

But if the ameer fears Russia he has had an intimate acquaintance with the Briton also, and will not be lured into an entangling alliance with that empire.

"When my difficulties with Russia commence, as they assuredly will," he

has said on being approached by a British ambassador recently with a proposal to make an alliance offensive and defensive against Russia, "I know exactly what the reply of your government will be when I apply to you for help. 'We are sorry for you, and would gladly help you,' you will say, 'but you have not allowed us to make railways in all directions through your country, so now, although we are quite aware that we made a treaty promising to give you every assistance against any invader, we are unable to send you either men or arms. We have not any means of transport.'"

"I am," he said, "like a gnat in a case, in a net. I see before me nothing but ruin, for at each entrance to my home there stands a foe—a wolf, a bear, a lion, all ready to devour me. But Afghanistan will not go down without a struggle, and when the opportunity is afforded I shall demonstrate in such manner as to 'stagger humanity' the power of the Afghans." The ameer is up on the news of the world. He must have read Oom Paul Kruger's defiance of Great Britain with interest, and doubtless had his own reflections on the ultimate outcome of the world-struggle now impending, in which Asia, from the Holy Land to Hong-Kong, will probably be made the battle ground of the nations.

The British government officials, adds a commentator in the Cincinnati Enquirer, take great interest in the ameer's attitude, as such a blow he might deal Russia would be of far-reaching effect in the Asiatic situation. There appears to be little doubt that the czar means ultimately to absorb all Manchuria. It is said that the Russian forces in China, now esti-

mated at 45,000 of all classes, may be increased to the fabulous number of 240,000. The czar and the kaiser have openly declared war against China. While the remainder of the powers might be induced to withdraw, it is certain that both Russia and Germany contemplate forcing large concessions from Li Hung Chang. England, the United States and Japan are openly and avowedly against partition. In the world war is acknowledged on all sides to be imminent. The ameer of Afghanistan could easily make such a flank attack on the Trans-Siberian railway as to prevent reinforcements from reaching Manchuria. Moreover, the winter season is drawing on in Asia. Many of the Siberian rivers freeze up in September. Lake Barkal and the Ameer and Shikha rivers, important waterways forming part of the great trunk system, will soon be navigable only by great labor. If the Afghanistan troops could push on through Turkistan and invade Berghana, the larger part of the reinforcements ready for China would have to be turned aside to meet them, and Russian schemes on Manchuria, for this year, at least, would be completely frustrated. The ameer thus holds the balance of power in Asia, much the same as the emperor of Abyssinia does in Africa, and is courted accordingly by all parties concerned.

Abdur Rahman has a regular army, variously estimated at from 50,000 to 80,000 troops of all classes. The system is based on European models and the soldiers drilled by both Russian and English officers. In addition to this the ameer's forces are greatly supplemented by local levies of horse and foot, corresponding to English and American militia systems. These forces have been increased 100 per cent. in the past four years. In 1896 Abdur Rahman introduced a levy of one man in every seven and issued arms and ammunition for practice free of cost to the various volunteer organizations. Cannon, rifles and ammunition of the most approved type are manufactured in the royal arsenal at Rabul. The Afghan cavalry is perhaps the most formidable branch of the regular service, as British and Russian veterans of former wars testify. There are 80 squadrons of regular horse, drilled into efficiency since Roberts marched to Kandahar by British officers, who seem to deem it no dishonor to train a possible future enemy of their native land. From his 4,000,000 subjects the ameer can easily raise 100,000 effective men, and may suddenly take such a part in the Asiatic chess game as will surprise both the lion and the bear, both of whom at present watch his movements with the keenest anxiety.

## MILK FOR CITY BABES.

Beautiful and Life-Improving Charity Originated by a New York Jewish Philanthropist.

Babies are apt to have a hard time of it in the summer at best, but when they are city babies and their parents are poor, life is harder still—so hard that many of them die who would have lived if they could have had the proper food.

Some years ago a rich man in New York, Nathan Straus, got to thinking about this, and decided that he would do something which would save the lives of these poor babies and the heartaches of their poor mothers. Nature was doing the best she could for the babies, under the circumstances, but the circumstances were hard. Mr. Straus talked to doctors about it and found that a large percentage of the deaths of babies in the summer was caused by the impurities in the cow's milk which they drank. So in one of the poorest districts of New York, says the Little Chronicle, he opened a free milk depot where mothers could, on the order of a physician, get milk from which the impurities had been removed by the process named after its originator, the famous French doctor, Pasteur. Milk treated by this process is said to be "Pasteurized." The first year this experiment was tried more than a thousand sick babies were fed on this milk and the way in which they got well and thrived on it was amazing. There grew to be such a demand for this milk that other places for distributing it were opened up in various parts of the city and it is expected

ONE OF THE MILK BOOTHS.

that a million bottles of Pasteurized milk and what is called "modified" milk will be sold and given away this summer. For those who are able to pay for it the milk and the prepared food for infants is sold at one cent for six-ounce bottle. The visiting physicians of the board of health and all physicians who are doing charitable work among the poor have blank orders on the milk depots which they fill out for those of their little patients who need this food and whose parents are unable to pay for it.

Heretofore these milk depots, with the exception of two which were kept open all year, have been in places which were rented for the summer. This year two permanent booths have been put up, one in Central park and another in the park called Tompkins square. Here milk will be sold for one cent a glass to everyone who wants it and in bottles for the babies. As you can see from the picture these milk houses will be pretty little places, and everything about them will be as neat as a new pin. They are built of wood on brick foundations. Inside you see glazed tiles, concrete floors, marble counters and brass trimmings, which are kept polished so bright that you can see your face in them. In the floor is a drain and the walls and furniture every day get a bath of hot water from a hose so that the germs which form in spilled milk are never allowed to grow up and do anybody any harm.

All the milk distributed from these depots comes from farms in New York state in which there are herds of healthy cows and as soon as it gets into New York city it is taken to a sterilizing laboratory, a place where it is put through a treatment which kills or makes harmless the germs which exist to a greater or less extent in all milk. The sterilizing apparatus consists of a copper boiler with a set of cylinders in which the bottles stand for 30 minutes in water heated to the boiling point. Then they are placed in a tank of running cold water and cooled quickly to prevent them from souring. After this the bottles are put into ice water and kept there until they are sent to the depots where they are kept in ice boxes.

The cost of all this work—and there are now 15 of these booths—is borne by the founder of the charity, Mr. Straus, and it is his intention to leave money so that the good work may go on after his death.

## HINTS FOR ECONOMISTS.

How to Freshen Tulle and How to Do Over Various Other Dainty and Perishable Fabrics.

Some useful hints for the furnishing of defaced hat trimmings are given by the Millinery Trade Review. Wonderfully good results can be obtained by a little effort in this direction. To steam out crumpled crape, pin the pieces flat on a thickly covered board, lay a wet cloth on top and pass a very hot iron over the surface, close enough to draw the steam from the wet cloth, but not allowing the iron to rest the slightest bit on the crape. Let the crape remain on the board a few minutes to thoroughly dry before taking up.

To steam out tulle, have, if possible, one of the new fan-shaped attachments to put in the spout of a kettle; this enables one to keep far enough off the heating flame to avoid danger of ignition. Failing this, have a large kettle or pan of water boiling, turn the gas low, and, taking one end of your tulle between two hands, pass through the steam, gently stretching and smoothing, and rolling up as you go. In this way you can steam yards and yards of tulle without letting the steamed portion drop over, and when done you have a roll of fresh, crisp tulle.

Mousseline de soie and chiffon can be done the same way, but sometimes it gives better results by being lightly pressed under a damp rag.

Velvet must be steamed only over a wet cloth thrown over a hot iron. Do not brush velvet while wet.

If velvet is very much marred, and does not steam out satisfactorily, you can "miron" it by laying it flat and smoothing the iron over it the way of the nap. Velvet and plush can be done the same. Plush gets quite the appearance of miroir antique or "panne" velvet.

To clean white and gray wings, shake gently in a box of cornmeal, then brush and shake the meal out, so as not to crumple the feathers. Aigrettes wash in soap lather; rinse and shake dry in the sun or near a hot stove.

Ribbons are steamed by passing over a wet cloth thrown over a hot iron. To insure the steam going thoroughly through the creases, hold a wad of dry cloth over the ribbon, with it smoothing out the creases. This works much better than a brush. Use clean white cotton cloths. Some taffeta ribbons will not come out well by anything but pressing, with a wet cloth over. If stiff, pull out on the bias. Treat silks the same way.

Freshen black silk lace by sponging with alcohol. Cream and white silk laces, if very dirty, can be cleansed by shaking in benzine or naphtha (taking care there is no fire or light near). After they are dry dampen with alcohol and pin out to dry.

Cotton laces are cleansed by shaking in a lather made of ivory soap paste; rinsed either in plain or blue water; or for ecru in weak tea or coffee, and pinned out to dry, being lightly pressed with a cool iron on the wrong side when dry.

**How to Clean Oil Paintings.** Artists sometimes use a raw potato for this purpose. Cut off the end of the potato and rub the painting very gently with the cut end. As fast as the potato becomes soiled cut off a thin slice and continue to use it until the whole surface is clean. Another method is to rub the soiled surface with the finger wet in warm water. If the dirt is very hard and old use oil instead of water. Let it rest for a few hours so that the dirt may be softened, then wash off with a sponge and tepid suds.—Ladies' Home Journal.

**Watermelon Cake.** Red Part—One cup red sugar, half cup butter, one-third cup sweet milk, two cups flour, whites of four eggs, one teaspoonful of baking powder, and one cup seeded raisins.

White Part—Two cups white sugar, one of butter, one of sweet milk, 3/4 of flour, whites of eight eggs, and two teaspoonfuls baking powder. Use a cake tin with a tube in the center. Put the red batter around the tube and the white around the edge of the tin. It requires two persons to fill the tin properly.—Good Housekeeping.

**How the Fuss Started.** "That hand-me-down suit you're wearing," remarked Rivers, "reminds me of an unripe watermelon." "Why?" asked Brooks. "Because it's so different. One isn't cut to fit, and the other isn't fit to cut." It was then that Brooks plugged away at him.—Chicago Tribune.

**Forgot the Others.** Mabel—There are now over 4,000 avocations open to woman. Clara—Dear me! What are they? Mabel—Let me see. One of them is marriage and the other is—is Dear me! I've forgotten the others.—N. Y. Weekly.

**Strong Imagination.** She—Mr. Jingle's writings show a great deal of imagination, don't you think? He—Yes, they show that he imagines he can write poetry.—Philadelphia Press.

## READY TO STEP OUT.

### Russia's Declaration of Purposes Concerning China.

Not Seeking for New Territory in the Empire—United States Says Concurrent Action Will Bring About a Settlement.

Washington, Sept. 1.—The state department has just made public the text of the Russian proposal and its own response, as follows:

Department of State, Washington, Aug. 29, 1900.—The Russian charge yesterday afternoon made to me an oral statement respecting Russia's purposes in China, to the following effect:

"That, as already repeatedly declared, Russia has no designs of territorial acquisition in China; that equally with other powers now operating there Russia has sought safety of legation at Peking and to help the Chinese government to repress the troubles; that, incidentally to necessary defensive measures on Russian border, Russia has occupied Niuchwang for military purposes, and, as soon as order is re-established, will retire troops therefrom if action of other powers be no obstacle thereto; that the purpose for which the various governments have cooperated for relief of legations in Peking has been accomplished, that, taking the position that, as the Chinese government has left Peking, there is no need for her representative to remain, Russia has directed Russian minister to retire with his official personnel from China; that the Russian troops will likewise be withdrawn, and that when the government of China shall regain the reins of government and afford an authority with which the other powers can deal, and will express desire to enter in negotiations, the Russian government will also name its representative. Holding these views and purposes, Russia expresses hope that the United States will share the same opinion."

**Reply of United States.**

To this declaration our reply has been made by the following memorandum: Memorandum in response to the Russian charge's oral communication, made on August 29, 1900, to the acting secretary of state, touching the purposes of Russia in China: "The government of the United States receives with much satisfaction the reiterated statement that Russia has no designs of territorial acquisition in China, and that, equally with the other powers now operating in China, Russia has sought the safety of her legation in Peking, and to help the Chinese government to repress the existing troubles. The same purposes have moved and will continue to control the government of the United States, and the frank declarations of Russia in this regard are in accord with those made to the United States by the other powers.

**Should Not Be Difficult.**

"All the powers, therefore, having disclaimed any purpose to acquire any part of China, and now that adherence thereto has been renewed since relief has reached Peking, it ought not to be difficult by concurrent action through negotiations to reach an amicable settlement with China by which the treaty rights of all the powers will be secured for the future, the open door assured, the interests and property of foreign citizens conserved and full reparation made for wrongs and injuries suffered by them.

**Greater Part of China at Peace.**

"So far as we are advised, the greater part of China is at peace and earnestly desires to protect the life and property of all foreigners, and in several of the provinces active and successful efforts to suppress the Boxers have been taken by the viceroys, to whom we have extended encouragement through our consuls and naval officers.

"This present good relations should be promoted for the peace of China.

"While we agree that the immediate object for which the military forces of the powers have been cooperating, viz: the relief of the ministers at Peking, has been accomplished, there still remain the other purposes which all the powers have in common, which are referred to in the communication of the Russian charge and which were specifically enumerated in our note to the powers of July 3.

**Further Need of Troops.**

"These are: To afford all possible protection everywhere in China to foreign life and property; to guard and protect all legitimate foreign interests; to aid in preventing the spread of the disorders to other provinces of the empire, and a recurrence of such disorders; and to seek a solution which may bring about permanent safety and peace to China, preserve Chinese territory and administrative entity, protect all rights guaranteed by treaty and international law to friendly powers, and safeguard for the world the principle of equal and impartial trade with all parts of the Chinese empire.

**Favor Joint Occupation.**

"In our opinion these purposes could best be attained by the joint occupation of Peking under a definite understanding between the powers until the Chinese government shall have been reestablished and shall be in a position to enter into new treaties with adequate provisions for reparation and guarantees of future protection. With the establishment and recognition of such authority, the United States would wish to withdraw its military forces from Peking and remit to the processes of peaceful negotiation our just demands.

**Will Order Withdrawal.**

"The result of these considerations is that, unless there is such a general expression by the powers in favor of continued occupation as to modify the views expressed by the government of Russia and lead to a general agreement for continued occupation, we shall give instructions to the commander of the American forces in China to withdraw our troops from Peking after due conference with the other commanders as to the time and manner of withdrawal.

"No obstacle in this regard can arise through any action of the United States, whose policy is fixed and has been repeatedly proclaimed.

"ALVEY A. ADEE, Acting Secretary, Department of State. Washington, Aug. 29, 1900."

You will communicate the foregoing to the minister of foreign affairs and invite early consideration and response.

**Corbett Whips McCoy.**

New York, Aug. 31.—The long-promised and long-looked-for meeting between James J. Corbett and Charles ("Kid") McCoy, under the auspices of the Twentieth Century club at Madison Square Garden, is over, and in less than five rounds Corbett proved himself to be the better man.

## REPUBLICAN TICKET.

For President—  
WILLIAM MCKINLEY, of Ohio.  
For Vice President—  
THEODORE ROOSEVELT, of New York.

For Governor—  
AARON T. BLISS, of Saginaw.  
For Lieutenant Governor—  
O. W. ROBINSON, of Houghton.  
For Secretary of State—  
FRED M. WARNER, of Oakland.  
For State Treasurer—  
DANIEL MCCOY, of Kent.  
For Auditor-General—  
PERRY F. POWERS, of Wexford.  
For Commissioner State Land Office—  
E. A. WILDEY, Van Buren.  
For Attorney-General—  
HORACE M. OREN, of Chippewa.  
For Superintendent Public Instruction—  
DELOS FALL, of Calhoun.  
For State Board of Education—  
JAMES H. THOMPSON, of Osceola.

For Member of Congress, Second Congressional District—  
HENRY C. SMITH, of Lenawee.

The ticket nominated yesterday was a good one. From probate judge to surveyor they are all good, clean men.

"General" Apathy seems to be in command of the Republican forces all through Michigan to judge by the newspaper reports. It is time the "general" was superseded by something that has more vim and snap.

The Republican county convention held at Ann Arbor yesterday was one in the interest of harmony in the ranks of the Republican party of Washtenaw county if the offer of peace made to the Antis is accepted and acted upon in the spirit in which the mass of the convention tendered it.

If anyone thinks that after the abuse that has been heaped upon him by his opponents Judge Newkirk has no friends left, they should have been at yesterday's convention and heard the satisfaction expressed by the delegates to the convention at the manner in which he has conducted the duties of his office and the confidence they have in him.

In 1896 Colonel Watterson described Mr. Bryan as "a dishonest dodger, a daring adventurer and a political fakir." Furthermore, he expressed his disgust by going to Paris and remaining until after the election. So it will be perceived what an unpleasant dose the Colonel is trying to swallow this year. And there are others in a like predicament right here in Washtenaw county.

One may be a little surprised at the confidence displayed by intelligent men everywhere regarding the probable success of the Republicans this fall. It is to be regretted that this confidence tends to apathy, but intelligent people cannot conceive how business men, laboring men, farmers, mechanics, and in fact all citizens who are enjoying such a full measure of prosperity can vote to overturn that prosperity. And while this is inconceivable, it cannot be impressed too often upon the minds of those very persons who are enjoying the prosperity which is the fruit of Republican rule, that they must see to it in the November elections that their votes are cast and counted in order to continue the blessings which are now being enjoyed.

## LOCAL AND COUNTY ITEMS.

Born, Tuesday, to Mr. and Mrs. Adam Eppler, a daughter.

George P. Glazier is digging his celery crop this week. So also is S. Laird. The crop is a very fine one this year.

St. Mary's library which now contains 1,000 volumes is being re-catalogued by John Hindelang, under the direction of Rev. W. P. Considine.

Tuesday afternoon Chauncey Stephens started up a new McCormick corn binder on the farm of William Coe, in Lima, which he had sold to that gentleman.

The ladies of the Congregational church will hold their annual thank offering Wednesday, Sept. 19. Supper will be served from 5 to 7:30 p. m. A cordial invitation is extended to all.

Deputy County Clerk Philip Blum, of Ann Arbor, was in Chelsea last Thursday looking up the political situation in so far as the Democratic nomination for county clerk is concerned. He is a candidate for that office.

The missionary tea given at the M. E. church Tuesday evening by the W. F. M. S. was a grand success. It was well attended and netted the society \$37, placing their receipts for the year at about \$64, which is the largest amount ever raised in one year by this society.

Robert Smith, of Belleville, was arrested Thursday at Monroe by Deputy United States Marshal Matthews, charged with passing counterfeit nickels made of babbitt metal. Most of the spurious coins were passed in nickel in the slot machines in the saloons. Nine of the coins were passed off on a blind man by one of the counterfeiters.

Matters are closing up in the Chelsea M. E. church this year in the best shape in the history of the church. The members and friends deserve much credit for the noble way they have conducted the business of the society this year. They will be able to commence the new conference year with a clean sheet, and prosperity is expected in all lines of church work.

Chauncey Crytz, of Scio, at one time postmaster of that hamlet, has in his possession a United States sub-treasury order for one cent. He remitted one cent too much to the government when settling up with the post office department and in due time received back order No. 250,081 drawn on the sub-treasury at Chicago with as much formality as if it were for a hundred dollars.

Our neighbors over at Stockbridge think it is about time they got something from Ingham county in a political way. Only once since 1860 has there been a county official from the township, and that once was in 1896, when the successful candidate for register of deeds was a Stockbridge man. If Brother Gildart pulls the nomination for probate judge his way, they may yet get something this year.

The last quarterly service for this conference year will be held in the M. E. church next Sunday. Lovefeast to commence at 9:30 a. m. sharp, to which everybody is invited. Sacrament of the Lord's Supper in connection with the public service at 10:30 a. m., at which service a member will be received into the church. Every member of the church is requested to attend these services, as they are the last for this conference year.

It is said a Marshall bachelor, out of patience with the flies which invaded his room, secured two sheets of sticky fly paper which he placed on chairs near a window. Returning late that evening he forgot the Tanglefoot and sat down in one of the chairs. He soon got up and proceeded to pick the paper off the south end of his trousers. As it was a bad place to get at he took the pants off and while cleaning them unconsciously sat down in the other chair.

Charles Williams, of Ann Arbor, disappeared from his home Aug. 4, and was subsequently taken in charge by the Detroit authorities while wandering in Woodmere cemetery in a demented condition and confined in St. Joseph's retreat, Dearborn. He escaped from that institution and Monday night was taken in charge by the Jackson police while wandering aimlessly around. He has been returned to the Retreat. His wife has filed a petition with the probate court to have him adjudged insane and sent to an asylum.

Sacriligious thieves forced an entrance into St. Joseph's church, Adrian, of which Rev. C. O. Reilly, D. D., is pastor, last Saturday night and endeavored to rob the steel chest of the silver service it contained. The big doors of the carved wooden frame that encases the chest were pried off, but the steel bolts of the chest foiled the robbers in their attempt. The lock and hinges were so sprung that workmen had to saw the bolts and chisel off the hinges. The tools used by these marauders were left lying on the floor, they having been frightened away while at work.

The infant child of Mr. and Mrs. Michael Keelan died yesterday of cholera infantum.

The Chelsea Manufacturing Co. has moved into its new factory building and is now doing business at the new stand.

A number of Chelsea people have attended the excellent races of the Ann Arbor Driving Club at Ann Arbor the past three days.

Congressman Smith has appointed as his congressional committee for Washtenaw county E. J. Helber, of Ann Arbor, O. T. Hoover, of Chelsea, and Fred W. Green, of Ypsilanti.

Wallace G. Palmer, of Benton Harbor, son of Rev. Horace Palmer, of Unadilla, was married in Ypsilanti yesterday to Mrs. Ruth Carpenter Lathrop, daughter of P. W. Carpenter, formerly postmaster of that city.

On account of Gov. Roosevelt's speech at Jackson, the Michigan Central will run a special train to that city Friday, Sept. 7. Train leaves Chelsea at 1:02 p. m., returning leaves Jackson at 5 p. m. Fare for round trip 64 cents.

The last of the very pleasant union Sunday evening services will be held in the Methodist church next Sunday evening, at which the Rev. J. I. Nickerson, will preach his last sermon before going to conference. It should be one of the best services that has been held. Be sure and attend.

The special treasury agent who worked up the case against Robert Smith, the young man arrested at Monroe, Thursday, on the charge of passing counterfeit nickels, says the slot machines make more counterfeiters than anything else at the present time. He has a dozen cases to present to the next grand jury at Detroit, in which the defendants are farmers' sons who have gone into the manufacture of nickels for use in the machines.

Game Warden Morse in his August report says: "Water fowl has been protected through to the open season with less slaughter than in any previous year in the history of game protection in Michigan. Partridge and quail have suffered very little, and the fields and forests are filled with large coveys of young birds in the best of condition, which the warden hopes to be able to protect through the remaining 50 days of the closed season."

## LOCAL AND COUNTY ITEMS.

Sylvan township Democratic caucus will be held in the town hall next Saturday afternoon at 4 o'clock.

R. A. Snyder got 773 bushels of onions off one acre of land Monday, and it was not his best yielding ground either.

Regular services will be resumed both morning and evening at the Congregational, M. E. and Baptist churches next Sunday.

Rollin Schenk, son of W. P. Schenk, had his elbow put out of joint Saturday by a hard fall he received while wrestling with another lad.

Born, Tuesday, in Jackson, to Mr. and Mrs. John Farrell, an eight pound daughter. John says his old pet Roxie's nose is entirely out of joint now.

James S. Gorman is the delegate from the local branch of the C. M. B. A. to the meeting of the state grand body at Mt. Clemens Tuesday and yesterday.

The sisterhood of the Congregational church will serve ice cream in the Winans store, on North Main street, next Saturday evening. Drop in and get a dish.

The chicory factory at Ann Arbor will begin its winter operations about Oct. 10. We have not heard of anyone in this locality who is raising chicory this year.

Among the articles of incorporation filed with the secretary of state the past week were those of the Chelsea Power and Improvement Co., of this village. It is capitalized at \$10,000.

The preliminary meeting of the Bay View Reading Circle will be held at the residence of Miss Elizabeth Dupew, Monday evening, Sept. 10, at 8 o'clock. It is important that all members be present.

Friday was the last chance fishermen will have for eight months to go after the wily trout; that is to do it legally. The open season ended with August 31, and the rods will have to be laid away for a long time.

Miss Olive R. Rogers, of Albion, was appointed teacher of the eighth grade of the Chelsea schools at the meeting of the board held Saturday morning and assumed the duties of her position Monday. She is a graduate of Albion college.

A free musical recital is to be given at the Baptist church, Lyndon, tomorrow evening, by the pupils of Miss Inez Leek, assisted by Miss Marjorie Wasson, a vocalist of the Normal Conservatory of Music, Ypsilanti.

The Democratic county convention to nominate county officers will be held in Ann Arbor next Wednesday. The convention to nominate a candidate for representative to the state legislature for the first district of Washtenaw county, will meet at the court house Saturday, Sept. 29.

C. B. Grant, an agent selling a patent door hanger, stopped at the Chelsea House for the week ending Aug. 25, and on that day skipped out without settling his bill. The officers were put in possession of the facts in the case and on Saturday last he was arrested in Jackson. Upon ponying up the money for the amount of the bill and other expenses he was allowed to go.

Rev. Fr. L. P. Goldrick, the popular and highly respected pastor of St. Patrick's church, Northfield, was taken seriously ill with a severe attack of appendicitis Monday of last week. Thursday evening he was so weak that a consultation of physicians was held and the outlook for his recovery was very gloomy. His condition was much improved Friday and brighter hopes were entertained. His chances for recovery are now looked on as very bright.

A Williamsfield, Mich., farmer recently hired a very inexperienced boy out of the reformatory to help about the place. One morning he told the lad to salt the calf in the pasture. The boy took about a quart of salt and rubbed it all over the calf, working it into the hair. A gang of colts in the pasture scented salt and got after the calf. They licked the hair off of the calf's back and tried to lick off the hide, too. The farmer tried to catch the calf and wash it off, but the creature, thinking he wanted to lick, too, kept out of the way. The boy, calf and the farmer are all unhappy. The colts are the only ones who had any fun out of it.

The dates for the Washtenaw Fair at Ann Arbor are Oct. 2, 3, 4 and 5.

Hon. Theodore Roosevelt will speak at Jackson tomorrow afternoon at 2:45 o'clock.

Isaac B. Hall, of Manchester, has been granted a renewal and increase of pension at \$12 a month.

A new cement sidewalk is being laid along the east side of the Wallace property corner of East and Jackson streets.

The Wolverine Mutual Live Stock Insurance Co., has been granted a license to do business in the state by Commissioner Stevens.

Evart Scott, E. F. Mills and Miss Emma E. Bower were elected school trustees to succeed themselves at the Ann Arbor school meeting held Monday.

The two rural mail delivery routes which run out of Ann Arbor will cost the government \$1,000 more than they bring in for the first year's service.

Holmes & Gilbert started up their apple drying works Monday, but as yet the apples are not coming in very fast. They have put up another kiln for use this season.

The Detroit conference of the M. E. church will meet in annual session at Pontiac next Wednesday, Sept. 12. Rev. J. I. Nickerson will leave here Tuesday to attend it.

According to the estimates made it will take over \$63,000 to run the Ann Arbor schools for the year 1900-1901, and \$19,140 to finance the Ypsilanti schools for the same time.

The subject for discussion at the Business Men's Class of the Congregational church next Sunday is "How can young men get a start in life?" D. W. Greenleaf will be the leader.

The Portland Observer is already talking about "signs" as to the kind of winter we are going to have, and is of the opinion that because the blackbirds are both numerous and tame it will be a hard one with lots of snow.

A disease which baffles veterinarians is killing off the sheep in the state. The symptoms of the disease are a slight cough in the early stages, followed by loss of flesh, more severe coughing and the final death of the animal.

Herman Jede, of Dexter, a son of Jacob Jede, died in Ann Arbor Friday morning after a brief illness of 24 hours with inflammation of the bowels. The funeral services held at Dexter Sunday afternoon were largely attended.

Fully 500 people attended the performance given by the Whitneys Monday evening. There was nothing very striking about it, however. The best acts were those of Neola, the juggler, Zuro, the contortionist, and the revolving ladder act by Walbourne and Jenkinson.

Edward L. Dormer, an old man in Ann Arbor, who has for several years eked out a pitiable existence by selling pencils on the streets, fell down the stairway of the Athens Theater Friday morning and broke his thigh. He is 83 years old and his father was one of the early settlers of Ann Arbor.

Democratic campaign clubs have been organized in Ann Arbor city, Ypsilanti town, Augusta, Milan and Bridgewater, and a movement is on foot to establish clubs in other towns. M. C. Peterson, of Ann Arbor, was in Chelsea Thursday trying to work up the necessary enthusiasm to get a club started here.

Pinckney Dispatch: Those who are using the gasoline air light system in this village received notice this week that their insurance policies would be cancelled Thursday unless the light was discontinued. The Hartford was the company that made the "kick" and those using the light withdrew and took out policies in another company.

Chelsea youngsters are again taking to the practice of jumping on and off moving railroad trains. After the tragic deaths of John Corey and Emory Wight last year and the breaking of another man's ribs and arm, the practice was abated until recently, and now it is again becoming very common. Some day the parents of these boys will see some of them brought home dead or maimed for life and will realize when too late that it would have been wiser to have put a stop to this dangerous practice.

## The Bravery of Woman

Was grandly shown by Mrs. John Dowling, of Butler, Pa., in a three years' struggle with a malignant stomach trouble that caused distressing attacks of nausea and indigestion. All remedies failed to relieve her until she tried Electric Bitters. After taking it two months, she wrote: "I am now wholly cured and can eat anything. It is truly a grand tonic for the whole system as I gained in weight and feel much stronger since using it." It aids digestion, cures dyspepsia, improves appetite, gives new life. Only 50c. Guaranteed, at Stimson's drug store.

Antipathy to green paint led a Chicago horse to turn in a riot alarm from a newly colored patrol box. Several patrol wagons and a big squad of patrolmen answered the call, caused by the horse gnawing at the alarm box.

The farmers of Ness county, Kansas, have clubbed together and bought 1,000 pounds of bisulphide of carbon, to be used in driving the prairie dogs out. There is no doubt about its driving the prairie dogs out. The trouble is that the population may have to go with them.

Every German cavalry regiment is now supplied with two boats made of waterproof canvas, which, when not in use can be folded up. Each boat will carry from six to eight men, and two boats bound together form a raft capable of bearing from twenty-five to seventy-seven hundred weight.

E. H. Town, who lives at Chubbs Crossing, comes to the front with probably the longest unbroken row of corn in the state of Vermont. On his farm is a big, cone-shaped knoll. Commencing at the base, Mr. Town drilled round and round, corkscrew style, clear to the summit, to so get one continuous row that covers the whole piece.

The average annual rainfall of the Indian continent, calculated upon data extending over the last thirty years, is forty-one inches. In 1896 the deficiency was five inches. In 1899 (when the monsoon broke that regulated the harvests of 1900) the deficiency was over eleven inches, or 27 per cent. Such a deficit is unparalleled in Indian records.

Mollie Big Buffalo is one of the prettiest and cleverest Ponca Indian girls who was ever graduated from Carlisle. When she returned from school two years ago she began to preach to her people about the cruelty of the white men. She visited the president of Mexico and he promised her 6,000,000 acres of land in the state of Chihuahua. Her agents secured the land later.

Consul General Mason, at Berlin, reports that liquid air has been tested at Vienna and found less effective than dynamite, gun cotton, explosive gelatin or giant powder. It was mixed with silicious marl and solar oil and put in paper cartridge shells. When fresh the cartridges were powerful and well adapted to coal mining, but they lose gas by evaporation rapidly and become after a little time ineffective.

Japan has embarked in a new enterprise, that of artificial pearl growing. A special kind of oyster is selected, and by a course of treatment it is made to produce a pearl. This business is carried on in Miye prefecture, and recently the crown prince and princess visited the site of the oyster beds at Ise. Through the prefectural governor twenty-seven pearls of various sizes were submitted by the owner of the beds to the royal personages.

According to Prof. O. L. Howard, chief of the bureau of entomology at Washington, the honey industry has shown marked development in recent years, and there are to-day more than 300,000 persons engaged in it, the value of the product being \$20,000,000. There are 110 aparian societies and eighty journals devoted to the industry. Much of the honey is exported, England being the chief purchaser. Nor has the limit by any means been reached.

A farmer in Clay county, Iowa, had a bin containing about 800 bushels of wheat. When he got ready to market the grain, he discovered that a hen had established her nest on the wheat, and that to remove the grain would "break her up." He decided not to disturb her, but to wait until she came off with her chicks. In the meantime the price of wheat advanced until the farmer discovered that he had gained over \$100 by allowing her to sit it out.

"The worn-out farms of Virginia, principally in Albemarle and adjacent counties, of late have been turned to good account by their owners, who have directed their attention to violet growing. The violet industry is spreading rapidly in that section, and the growers, the most successful of whom are women, employ small Negro boys to carry on the work, which, while not laborious, is tedious, for the violets require constant attention. The greater part of the yield is taken to Philadelphia dealers.

The new Croton dam at the Cornell site is built in an approximately north and south line across the bed of the Croton river, about three and a quarter miles above its junction with the Hudson. It will cost about \$5,000,000, and be the largest and most extensive yet built on this continent, and in extreme dimensions and volume of masonry probably second to none in the world. Its height is certainly the greatest of any in the world, and the total amount of masonry of all kinds is about 870,000 cubic yards.

## UNDERNEATH THE GROUND.

Things of Interest Beneath the Feet of Those Who Visit the University Campus.

### DESCRIPTION OF FAMOUS BIG TUNNEL.

Used to Carry Steam Pipes and Electric Light Wires to the Several Buildings—Several Small Tunnels Branch Out and Make Connections with Structures.

(Special Correspondence.)

University of Michigan, Sept. 4.—But few of the people who visit the university campus, walking along the shaded walks, admiring the buildings, the groves of trees and the flower gardens, know how many things of interest there are beneath their feet. Down some ten feet below the walks, gardens and grass plots are tunnels connecting the different buildings.

#### The Big Tunnel.

First, there is the big tunnel which starts at the power house, goes west across the campus until it nearly reaches the museum, then turns and passes into the basement of University hall. From there it goes to the basement of the law building, at the northwest corner of the campus. Leaving the law building it starts east, passing beneath the homeopathic and dental buildings until it almost reaches the gymnasium. There it turns a right angle and goes south toward the power house from which it started, passing through the basement of the medical building.

This tunnel is over half a mile in length. It is high enough and wide enough so that a person can walk through it with ease. It is shaped somewhat like a horse shoe. The bottom is flat, the side walls slightly curving and the top arched. The floor is of cement, and the walls are of brick.

#### Purpose of the Tunnel.

The purpose of the tunnel is to carry the steam pipes and electric light wires to the several buildings on the campus. All the heat, light and power used in the different buildings being generated at the one power house.

#### Carry Live Steam.

Along the wall of one side of the tunnel is arranged iron braces which hold the large pipes that carry the live steam. Close to the walls and along the top are the dozen and more wires through which the electricity is transmitted.

#### A Warm Place.

During that portion of the year when steam is being used on the campus for either heating or power purposes the tunnel is an exceedingly warm place. The persons who then visit it find no difficulty in taking a hot bath. The tunnel is lighted by incandescent electric lights fastened along the top at regular intervals. These lights are wired in groups of about half a dozen with a switch at both ends of the group. The person passing through the tunnel, on reaching a switch, turns on the group of lights ahead of him and turns off the group of lights back of him. In this way he can make the entire circuit of the campus.

#### Small Tunnels.

There are at several points, branching out from the main tunnel, small tunnels. These go to the buildings not reached by the former. But a short distance from the power house there is a small tunnel that branches to the left and goes to the engineering shops. A tunnel of quite generous dimensions connects the basement of the medical building with the basement of the pharmacy building. At that point where the big tunnel is the nearest the gymnasium building it is tapped by a tunnel from that building.

#### Passes Under a Street.

There is now building a small tunnel connecting the gymnasium with the new homeopathic hospital. This passes under one of the streets of Ann Arbor. It is only four feet high and less than three feet wide. In length it is over 500 feet. After the steam pipes and electric wires are placed there will be very little room left for traveling purposes. In fact, the persons who make the journey underground between these buildings will have to go on all fours.

#### Never Get a Peep.

Few of the 3,000 and more students in the university and the thousands of visitors who walk over the campus each year ever get a peep at the inside of these tunnels. Many do not even know about them. Of those that do, but few can get by the persons who guard the entrances. At one time visitors were admitted with considerable freedom, but they did not seem to be able to resist the temptation to open and close the switches in the lines of wire going to the different buildings. Perhaps it might be the library switch that would get opened, the result being that the entire building would be in total darkness until word could be sent to the power house and a man sent into the tunnel to locate the trouble.

## FOR GOOD ROADS.

Permanent Organization Formed in Saginaw to Keep the Highways in Better Condition.

At the Masonic temple in Saginaw an interesting session of the good roads convention was held. Hon. Martin Dodge presided. The following resolution was adopted:

"The members of the Michigan good roads convention in session in the city of Saginaw, Mich., this 23d day of August, 1900, do hereby organize and constitute ourselves into a permanent association for the promotion of good roads in the state of Michigan, and to secure such national and state legislation and cooperation as will hasten the time when the people the country over may be emancipated from the thralldom of impassable roads."

It was decided to call the organization the Michigan Good Roads and Improvement association, and the cooperation of all was invited "to the end that the greatest advancement in road building and repair may be secured in all the several road districts in Michigan, and that good roads, the greatest blessing on earth, shall be enjoyed by all the people all the time."

A committee on permanent organization was appointed as follows: S. G. Higgins, Saginaw, president; E. O. Shepard, Charlotte; John McAvoy, M. W. Tanner and C. H. Peters, Saginaw. The object of the committee is to formulate a plan for temporary formation, arouse interest, appoint temporary officers and call a general state meeting later.

## REGISTERED PHARMACISTS.

Annual Report of the State Board Shows There Are Over Three Thousand in Michigan.

The annual report of the state pharmacy has been filed with Gov. Pingree. It says:

The balance in the hands of the secretary at the beginning of the fiscal year was \$246; the receipts from renewals of certificates of registered pharmacists for the year were \$3,016; receipts for the renewal of certificates of assistant pharmacists, \$338.50; receipts from 172 applicants for certificates as registered pharmacists, \$516; receipts from 103 applicants for certificates as assistant registered pharmacists, \$103; total receipts, \$4,017.50. The secretary paid over \$3,596 to the board's treasurer, leaving a balance in his hands of \$427.50. The treasurer reports a balance of \$1,905.77.

During the year 240 applicants for certificates as pharmacists were examined, and 76 were granted certificates. There were 76 applicants for certificates as assistant pharmacists, and 44 passed.

Forty-seven complaints of violation of the laws governing the practice of pharmacy were received. Thirty-nine complaints were made for violation of the law.

Six cases were dropped by order of the board for want of evidence; 16 convictions were secured, the total fines and costs assessed being \$308.95. There are now 3,100 pharmacists registered in Michigan and 556 assistant pharmacists.

## ACTS AS BAROMETER.

A Wart on the Right Cheek of a Man in Northville Is a Good Weather Indicator.

William Creiger, of Northville, has on his right cheek a wart which acts as barometer for the entire neighborhood, and in the matter of accuracy is declared to be far ahead of the weather bureau. During dry weather it is small and rather dry. When a storm is coming 20 hours' notice is given Mr. Creiger by this wart swelling to two or three times its normal size. During the late drought Mr. Creiger was the object of much prominence, as everybody wanted to know when rain would come in order to save their corn and potatoes. The day before the rain did come the wart began growing larger and Creiger was sure the drought would be broken, and it was.

## MUST SERVE HIS TERM.

Convict Violates the Provisions of His Parole and Has Been Returned to Prison.

Warden Chamberlain received word in Jackson that Melvin Howard, paroled in 1899, and who had since broken the conditions of his parole by absconding himself from the state, was under arrest at Stevens Point, Wis. He was arrested for robbery and shot an officer who attempted to capture him.

Howard was sentenced from Van Buren county for 25 years for manslaughter, and had served 13 years when paroled. His good time allowance reduced the term which he still had to serve to three years, however. Now he has been returned to prison to serve out his full term.

#### Electric Locomotive.

The experiment of using an electric locomotive to replace the ordinary steam one in railroad traffic is to be tried in Michigan. The Grand Rapids & Indiana railroad has secured a heavy electric motor from the east and will use it to pull the trains on its line between Petoskey and Harbor Springs. Railroad men will await the result of the experiment with considerable interest.

#### Second Highest.

William W. Taylor, a Grand Rapids boy who went to the Philippines a year ago as a private in the Fourth infantry, has been given a commission as second lieutenant and transferred to the Twenty-second infantry. He took the competitive examination at Manila with 13 others and stood second highest in the list.

## MICHIGAN STATE NEWS.

#### Found in a Cave.

The gang of counterfeiters which has operated in southwestern Michigan and northern Indiana for the last three years was located through the arrest by Sheriff E. H. Ferguson of Clyde Churchill and Richard and Joseph Brant, of Sodus. They were taken before United States Commissioner James O'Hara, and were held to the federal grand jury in Grand Rapids in October. Churchill confessed to the crime and implicated the Brant brothers as his partners. The mint, supplied with molds and other necessary tools, was discovered in a cave, the main entrance of which was in an old woodshed near the Churchill home.

#### Severe Electric Storm.

The entire lower peninsula of Michigan was swept by a severe electrical storm and the damage to crops is immense. From all parts of the peninsula come reports of standing grain beaten to the ground and practically ruined. Scores of barns were struck by lightning and burned, with their contents, so that the loss to the farmers is very heavy. But one fatality was reported. Ferdinand Holtz, a young farmer, was struck by lightning near Mount Clemens and instantly killed.

#### Health in Michigan.

Reports to the state board of health from 97 observers in various portions of the state for the week ended August 25 indicate that inflammation of the bowels, pleuritis and whooping cough increased and measles decreased in area of prevalence. Consumption was reported at 179 places, measles at 24, typhoid fever at 90, scarlet fever at 50, diphtheria at 15, whooping cough at 20, cerebro-spinal meningitis at 5 places, and smallpox at Adams, Houghton, Nottawa, Cass City and Lake Linden.

#### Confesses to Murder.

Joseph Oehlhoffen would not believe that his son Frank killed himself, as the coroner's jury in Benton Harbor decided, and his suspicion rested on Will Redlawski, 16 years old, who had been acting strangely since the death of young Oehlhoffen. Now Redlawski has confessed that he shot Oehlhoffen with a small rifle. Young Redlawski was arrested a short time ago for the robbery of a mail bag and attempting to pass forged checks.

#### Crop Conditions.

The weekly crop report of the Washington weather bureau says for Michigan:

Heavy rains have damaged considerable oats, peas and spring wheat in shock in upper peninsula and northern counties, otherwise weather has been very favorable, especially to corn, potatoes, sugar beets and pastures, which are all in fine condition; beans nearly ripe, rather poor; soil in good condition for plowing, which is well advanced; apple prospects vary greatly—fall varieties indicate fair yield, but winter apples will be light.

#### Falls Into the River.

During the street fair and carnival in Niles William Hogan, an aeronaut, nearly lost his life. In ascending, the ropes of the parachute caught in a network of wires. Hogan cut these ropes too late. His balloon veered and dragged him against a high brick building. Hogan fell from his balloon in a faint and landed in the St. Joseph river, being quickly rescued by two men. Hogan was severely injured.

#### Has the Money.

The check of the United States government for \$305,000 in payment of a portion of the supplies purchased by the state during the Spanish war, has been presented to the state treasurer and was placed to the credit of the general fund. The check has been in Gov. Pingree's custody for several weeks. The state will now begin to draw interest on the amount.

#### Buys Timber Land.

The Escanaba Woodware company has purchased from the United States Woodware company 8,120 acres of hardwood timber land in Menominee county. The deal involves \$60,000. The Escanaba company will plant a new town two miles north of Perronville, erect a sawmill, planing and lathmill, and build a logging road at a cost of \$100,000.

#### News Briefly Stated.

A big windstorm took the roof from Beadle's store and Williams' laundry in Saranac.

Louis H. Moon gave force to his argument in a quarrel with his wife in Barryton by stabbing her in the neck with a pair of shears.

Mrs. Charles Roberts, formerly of Lansing, was captured by the Boxers at Koo Fan, China, where she went with her husband eight years ago.

Elaborate preparations are being made for the coming reunion of the Northeastern Soldiers' and Sailors' association, to be held at Ithica September 11 to 14 inclusive.

Martin Mosher, 91 years old, an old resident, was found dead at his home in Jackson.

Joseph Chapman was convicted in a justice court in Lansing and sentenced to 75 days in the Detroit house of correction for using indecent language.

## THE NAME OF OLD GLORY.

The following new poem by James Whitcomb Riley was read by the author at the Iron Brigade banquet of the G. A. R. encampment in Chicago:

Old Glory! say who.  
By the ships and the crew  
And the long, blended ranks of the gray and the blue—  
Who gave you, Old Glory, the name that you bear  
With such pride everywhere  
As you cast yourself free through the rap-  
turous air  
And leap out full length, as we're wanting  
you to?  
Who gave you that name, with the ring  
of the same  
And the honor and fame so becoming to  
you?  
Your stripes stroked in ripples of white and  
of red,  
With your stars at their glittering best  
overhead—  
By day or by night  
Their weightfullest light  
Laughing down from their little square  
heaven of blue;  
Who gave you the name of Old Glory?—say  
who—  
Who gave you the name of Old Glory?  
The old banner lifted and faltering then  
In vague lips and whispers fell silent  
again.

Old Glory, speak out. We are asking about  
How you happened to "favor" a name, so  
to say,  
That sounds so familiar and careless and  
gay  
As we cheer it and shout in our wild, breezy  
way—  
We, the crowd, every man of us, calling  
you that—  
We, Tom, Dick and Harry, each one swing-  
ing his hat  
And hurrahing "Old Glory!" like you were  
our kin,  
When, Lord! we all know we're as common  
as sin!  
And yet it just seems like you humor us all  
And wait us your thanks as we hail you and  
fall  
Into line with you over us, waving us on  
Where our glorified, sanctified betters have  
gone.  
And this is the reason we're wanting to  
know  
(And were wanting it so—where our own  
fathers went we are willing to go).  
Who gave you the name of Old Glory—oh,  
ho!  
Who gave you the name of Old Glory?  
The old flag unfurled with a billowy thrill  
For an instant, then wistfully sighed and  
was still.

Old Glory, the story we're wanting to hear  
is what the plain facts of your christening  
were—  
For your name, just to hear it,  
Repeat it and cheer it, 's a tang to the spirit  
As salt as a tear—  
And seeing you fly, and the boys march-  
ing by,  
There's a shout in the throat and a blur in  
the eye  
And an aching to live for you always, or  
die,  
If, dying, we still keep you waving on high.  
And so, by our love  
For you, floating above,  
And the stars of all wars and the sorrows  
thereof,  
Who gave you the name of Old Glory, and  
why  
Are we thrilled at the name of Old Glory?  
Then the old banner leaped, like a sail in  
the blast,  
And fluttered an audible answer at last.

And it spake, with a shake of the voice, and  
it said:  
"By the driven-snow white and the living-  
blood red  
Of my bars and their heaven of stars over-  
head—  
By the symbol conjoined of them all, sky-  
ward cast,  
As I float from the steeple or flap at the  
mast  
Or droop o'er the sod where the long  
grasses nod,  
My name is as old as the glory of God.  
So I came by the name of Old Glory."

## MET WITH FAVOR.

Russian-American Peace Proposal Will Probably Settle Trouble—Robbers Executed.

Shanghai, Sept. 1.—The Chinese authorities have captured a band of armed robbers 12 miles from Shanghai. It has been determined to behead eight of these miscreants, and one will be starved to death in a cage, according to the Chinese custom. The trouble at Amoy is at an end. The Japanese troops have left the city, but strong detachments of Japanese and British remain to guard the consulates.

London, Sept. 1.—The press has official authority for announcing that the American-Russian proposal in favor of the withdrawal of the allied forces from Peking, with the view of facilitating negotiations for the conclusion of peace, has not only met with considerable favor at European chancelleries, but is almost certain to be adopted. In the meanwhile, the question of employing Li Hung Chang as an intermediary is meeting with more and more favor and, as the press has intimated in recent dispatches, will, in all probability, be settled affirmatively as soon as Li Hung Chang is able to obtain the necessary authority.

#### Conditions in Samoa.

Washington, Sept. 1.—The navy department has received a letter from B. F. Tilley, commanding the United States naval station at Tutuila, describing the promising conditions in the American section of the Samoan islands and recounting the impressive ceremonies attending the unveiling of a monument to the American and English dead who fell in the short engagement there in April, 1899.

#### Mrs. Wright Dies.

Watseka, Ill., Aug. 29.—Mrs. Dr. Charlotte Wright, cause of the tragedy at Gilman, died in the jail here. This makes four deaths resulting from the existence of the Wright hospital and riots. John Myers, Michael Ryan, Desie Salter, Mrs. Dr. Wright, George Willoughby, one of the injured at Gilman, is expected to die at any time.

### MEN'S LIFE BLOOD

Nothing can be more demoralizing to young and middle-aged men than emissions at night or secret drains through the urine. They wait a man for business, married life or social happiness. No matter whether caused by evil habits in youth, natural weakness, or sexual excesses, our New Method Treatment will positively cure you. CURES GUARANTEED. NO CURE, NO PAY.

No Names Used Without Written Consent.

W. A. Muir, of Lima, O., says:—"I was one of the countless victims of early vice at 15 years of age. The drains on my system were weakening my brain as well as my sexual and nervous system. For ten years I tried scores of doctors, electric belts and patent medicines. Some helped me, none cured. I was giving up in despair, in fact, contemplating suicide when a friend advised me as a last resort to give the New Method Treatment of Drs. K. & K. a fair trial. Without confidence I consented and in three months I was a cured man. I was cured seven years ago—am married and happy. I heartily recommend Drs. K. & K. to my afflicted fellow men."

Present, H. Wirt Newkirk, Judge of Probate. In the matter of the Estate of Angeline Clarken, deceased.

On reading and filing the petition duly verified, of Martha Meade, praying that a certain instrument now on file in this Court purporting to be the last will and testament of said deceased may be admitted to probate and that administration of said estate may be granted to David Ruesch, the executor in said will named, or to some other suitable person.

Thereupon it is ordered, that Friday, the 14th day of September, next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the devisees, legatees and heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the Chelsea Herald a newspaper printed and circulated in said county three successive weeks previous to said day of hearing.

H. WIRT NEWKIRK, Judge of Probate.
