Municipal and School District Coupon Bonds

At a price that will net the purchasers 3 1/2 per cent per annum interest. Interest cou-
pons cashed and maturing principal payable at Chelsea Savings Bank.

So burdensome have the tax regulations become that many former investors in
farm loans are buying well selected School District and Municipal Bonds instead,
which are exceedingly safe and easily collected.

We have a well organized arrangement for making careful and judicious purchases
and are constantly in the field to purchase.

This Bank pays 3 per cent interest on Money deposited with it
according to its rules.

Seventy-Two Ladies from Dexter and
Grass Lake Visit Columbia Hive.

There was a great gathering of "Bees"
in Chelsea Tuesday afternoon and evening.
They swarmed on the streets in the after-
noon, enjoyed the pollen of a good sup-
per at 6 o'clock, and then hived in the
Maccabee rooms for the evening. There
were 40 ladies from Dexter and 32 from
Grass Lake, who had come to Chelsea at
the invitation of Columbia Hive, No. 284,
to spend a pleasant, social evening and
they did it.

At 6 o'clock an elegant supper was
served in the vacant store in the Staffan
block, to which 175 ladies sat down and
did ample justice. After supper they re-
turned to the Maccabee hall where
Columbia Hive opened in regular session
and adjourned the meeting until next
Tuesday evening. A very entertaining
program of music, recitations and speeches
was then in order. The Misses Lillian
Gerard, Ethel Bacon, Mesdames J. S.
Cummings and A. J. Congdon sang. Mrs.
Lucy Stephens and Mrs. M. Boyd gave
excellent readings. Noble Ashley, deputy
grand commander K. O. T. M., gave a
good address, and Hiram Lighthall, com-
mander of Chelsea Tent, also made a
brief speech. Ice cream and cake were
then served and about 10:30 o'clock the
merry party of Bees separated with the
wish that fraternal gatherings such as
these could come oftener than they do.

WASHTENAW SUPERVISORS

Are Engaged in Their Annual Session—
The Democrats Are in the Lead.

The annual meeting of the board of
supervisors convened in the court house,
Ann Arbor, Monday. D. E. Beach, of
Lima, was elected chairman. The ques-
tion of the annual visit to the county
house was decided in the affirmative by a
vote of 15 to 11.

When the board met yesterday morning
Chairman Beach announced his standing
committee. Supervisor Bacon, of Syl-
van, is a member of the committee on
criminal claims No. 2, and on contagious
diseases.

Dan Barry, of Northfield, was chosen
as drain commissioner. Marvin Daven-
port, with the help of the Republicans on
the board, was put back in his old job as
janitor, from which he was ousted last
year. James Taylor, of Chelsea, was
chosen to succeed himself as poor com-
missioner, and Prof. A. D. DeWitt, of
Dexter, was elected school examiner.

The assessment rolls of the cities and
towns will be taken by the supervisors as
the basis for the equalization of taxes.

HUSTLERS VS. RUSTLERS.

Knights and Lady Maccabees of Chelsea
Engaged in a Friendly Contest.

The K. O. T. M. and the L. O. T. M.
of Chelsea, are at present engaged in a
hustle for new material. The mem-
bers of Chelsea Tent and Columbia Hive
are equally divided into two sides, 60 men
and 50 women on each side, under the
names of the "Hustlers" and the "Rust-
lers," and they are putting forth a big
effort to see which side shall secure the
most names for membership. D. H.
Wurster and Mrs. Lila M. Campbell are
captains of the Hustlers, and W. H.
Heselschwerdt and Mrs. Martha Shaver
are captains of the Rustlers.

Up to the present the names of 28 men
and 2 women have been secured by both
sides. The fewness in the number of
women candidates is accounted for by the
fact that a thorough canvass was made last
spring. The K. O. T. M. are being assisted
by Deputy Great Commander Noble
Ashley, of Detroit.

The canvass will end Oct. 24, and then
whichever side has secured the least num-
ber of candidates will set up a banquet to
the winners.

A well-preserved life-size marble statue of Apollo has been dug up near Athens. The workmanship is of the fifth century before Christ.

Scores of sheep and hogs have been killed recently on the borders of Virginia and South Carolina by animals which seem to be half dog and half wolf.

Naval officers complain that naval reserves took but little interest in summer cruises, and conclude that they would not be valuable in case of trouble.

At Japanese auctions bidders write their offer on a slip of paper, and drop it into a box. When all the bids are in the box is opened and the highest bidder named.

What Will Become of China?
None can foresee the outcome of the quarrel between foreign powers over the division of China. It is interesting to watch the going to pieces of this ancient but unprogressive race. Many people in America are also going to pieces because of dyspepsia, constipation, blood, liver and stomach diseases. We are living too fast, but strength, vigor and good health can be regained if we keep off and cure the above diseases with Hostetter's Stomach Bitters.

Inconsistency.

"Who is that man over there with the white, scared face?"
"That's the fellow we met at the funeral yesterday, who was telling the wife of the deceased to cheer up—that her husband was better off."
"What is the matter with him now?"
"The doctor told him he was going to die."—Indianapolis Sun.

A CONGRESSMAN.

Cured of Catarrh of Long Standing.

Ex-Congressman A. T. Goodwyn.

Ex-Congressman A. T. Goodwyn, from Alabama, writes the following letter: "The Peruna Medicine Co., Columbus, O. Gentlemen—"I have now used two bottles of Peruna, and am a well man to-day. I could feel the good effects of your medicine before I had used it a week, after suffering with catarrh for over a year." Respectfully, A. T. Goodwyn.

Catarrh in its various forms is rapidly becoming a national cure. An undoubted remedy has been discovered by Dr. Hartman. This remedy has been thoroughly tested during the past forty years. Prominent men have come to know of its virtues and are making public utterances on the subject. To save the country we must save the people. To save the people we must protect them from disease. The disease that is at once the most prevalent and stubborn of cure is catarrh. Public men of all parties recognize in Peruna a national catarrh remedy of unequalled merit. Send to Dr. Hartman, Columbus, Ohio, for a free book on catarrh.

TOIL UNDER GROUND

Miserable Lot of Coal Miners in the Anthracite Country.

They Have to Work for Little or Nothing and Many Have to Live Like Beasts—The Company Store Evil.

(Special Philadelphia Letter.)

The situation of the miners in the anthracite coal regions is of especial interest at this time, for the present strike concerns not only these men and their families, but also users of anthracite coal all over the country. Practically all our coal of this variety comes from 376 miles of wildly mountainous, desolate country in the eastern central portion of Pennsylvania. At the bottom of the narrow valleys are the swift streams, black as ink from salts of iron and coal dust, in

IN A MINER'S HOME.

many instances paralleled by railroads which often have barely room for a coal train. The aspect of the landscape is depressing in the extreme. All the timber, except laurel, has been cut for mine props. Sulphurous smoke and washings from the culm piles have destroyed vegetation. The dreary fall days settling down over this terrible region, where nature's works have been so distorted as to give an aspect of horror to the land which was once widely beautiful, add to the melancholy of the strikers, who, although winter is rapidly approaching, attempt, by the only means of which they are cognizant, to extort living wages from their employers. The villages all present the same general appearance. A description of one answers for its neighbor. The main distinguishing feature is the width of the valleys in which they are built. Where these are narrow, one long street straggles up the hillside. When there is more room, two or three of these streets often run nearly parallel. Houses seem piled on top of houses, varied by an occasional coal breaker, which rises among them. Frequently, in winter, storms of sleet and snow, bringing the mercury down 30 degrees in an hour, sweep over the poor cabins, the poverty and squalor of which cannot be conceived unless one has witnessed them. But the view of the exterior of the miserable hovels is hardly a preparation for the sight of the unkempt wretchedness of their inhabitants.

Dirty, ragged, uncombed men and women throng these villages. The

WHERE POOR MINERS LIVE.

worse the quarter the greater, apparently, the number of children swarming its streets, piled with reeking waste and garbage of every description. Sanitary regulations are unknown. The "patch" is the worst of the two sections into which each of these villages is divided. Its substitutes for houses are said to be unlike almost anything else evolved by man in his desire for a home and a habitation. The occupants usually build these sheds themselves, paying ground rent. This portion of the town lies outside, beyond the breakers, and is the abiding place of Polacks, Italians and Sicilians, representing the lowest of their kind in their own country and brought here to replace a very different class of men who were unable to live upon the wages to which they had been reduced.

The aristocratic members of the

mine community live "in town." The houses (owned by the company) are all similar and set two and two, each separated from its neighbor by a picket fence. There is no attempt at architectural difference or beauty. Four unpainted walls, a roof slanting at the same angle as all its neighbors, with a sufficient number of doors and windows for egress and light, and there you are. Chickens in one yard, ducks and geese or goats in the next constitute a slight variation in scene. Here dwells the law-abiding element of the town, the better-paid class, which is composed chiefly of Scotch, English, Irish and Welsh colliers. The lessees of the houses pay \$10 or \$12 per month rent, and if a building is large probably a number of boarders are kept. In the cellar is the coal bin, filled monthly by the company at a fixed rate on their books. The roughest chairs and table and fewest possible number of cooking utensils are found in the kitchen. The sleeping rooms contain the crudest beds and bedding, or, perhaps, a heap of straw on the floor. Sixteen to twenty men often sleep in one room, with a hot fire burning all night. Hundreds of them lie down in their clothing, only removing their boots and coats. Those men who wash and change their clothing on returning home, keeping as clean as they may, meet with but poor success, for as there are no sewers there are no bathrooms, and a degree of cleanliness which might be enjoyed in the worst city districts is unattainable there. In an occasional house sickly plants or vines may be seen at a window.

But the better class of the population is being crowded out. A man now considers himself very fortunate if he has steady work at two dollars per day, who formerly earned \$100 or \$125 per month. The cheap importations from southern Europe have displaced him. August was the rush month of the year and wages were comparatively good, but 180 working days is said to be the yearly average for a man. The laws of Pennsylvania are supposed to make company stores an impossibility, but still they exist and flourish. It is not a matter of surprise that but a small balance is due a man at the month's end, when rents, provisions, tobacco, powder or perhaps medical services have been

ANTHRACITE COAL SHAFT.

furnished by the company at high rates. The miner is compelled to purchase his powder for blasting from the company, at a price 100 per cent. higher than that of the open market. His miner's lamp is filled with oil bought from the same source at an exorbitant price. If bits of slate are found in the coal he sends to the surface its value per ton is reduced by the "docker," from whose judgment there is no appeal.

The condition of the women in the "patch" is deplorable. They have a dazed, helpless look, and are the burden bearers of the semblance of a home. Many are sold to their husbands, when 12 years old, into a life of hopeless drudgery. The girls work hard at five years old. Murders are frequent and seldom punished, especially if the murderer is a good worker. Court trials are expensive. When the Polack first arrives he purchases a revolver, the Italian a stiletto, or, if very poor, he puts a razor edge on an old file. Working always in the dark blights a man mentally, morally and physically.

At the present rate of consumption our supply of anthracite coal is expected to last 200 years longer. Increased care is being taken that the waste in mining shall be as light as possible. It is estimated that in 1898 the value of coal mined in this limited area was \$75,000,000, more than half the value of the bituminous coal mined in the whole country. No other anthracite is mined except in Wales, which annually produces one-twenty-fifth as much as we do. Varieties of Scotch, Belgian and Westphalian, sold for anthracite, are of the bituminous class. One reason for anthracite being high in price is that it is hard to mine. It lies mainly along three rivers, the Susquehanna, with large centers at Scranton and Wilkesbarre; near the Lehigh, with a prominent field around Mauch Chunk, and along the Schuylkill, with Pottsville as chief shipping point.

VICTIMS OF A TORNADO.

Nine Persons Killed and Many Injured in Biwabik, Minn., and Vicinity.

Biwabik, Minn., Oct. 8.—The tornado which raged in this vicinity Saturday evening was the most violent ever experienced hereabouts. The storm cut a pathway 150 feet in width through the northwestern corner of this town, completely wrecking the buildings struck. The shafthouses and buildings of three mines which stood in the path of the storm were reduced to kindling wood. The property loss is estimated at from \$75,000 to \$100,000 and the known fatalities number nine, with a score or more injured—some severely, others only slightly. The storm swept in a northwesterly direction after leaving here and struck a little Finnish settlement near Pike lake, where a number of buildings were wrecked, in one of which an entire family, consisting of husband, wife and four children, were instantly killed. So far their names have not been obtained. It is believed that when the more remote districts are heard from further casualties may be reported.

The list of those killed and injured, so far as learned, follows:

Killed.—Mr. and Mrs. Marowitz. William Hilstrom, family of six near Pike lake, names not known.

Severely Injured.—Andrew Anderson, a locomotive fireman, severely scalded, will recover; F. Murray, locomotive engineer, severely scalded and otherwise injured, will recover; Andrew Debbis, laborer, severe scalp wound, will recover; John Morrison, foot badly crushed. About 25 others were more or less severely cut and bruised.

The house in which the Marowitz family lived was completely wrecked and the body of Mrs. Marowitz was found fully 400 feet away, every bone in her body broken and her clothing completely stripped off. The body of her husband was found Sunday in the debris of their home, horribly mutilated. William Hilstrom was struck on the head by a falling tree and his skull crushed. He afterwards died at the hospital.

The engine house of the Duluth, Mesaba & Northern railroad was completely wrecked and a number of locomotives and cars were shifted from the tracks and pounded into scrap iron. The engine on which Murray and Anderson were when the storm broke was blown from the track and the men were pinned beneath it and horribly burned by the escaping steam. Other men at work near them had narrow escapes. Several cars blown from the D. M. & N. tracks were found in Duluth mine pit, hundreds of feet away. Many of the buildings destroyed were owned by the mining companies and tenanted by their employees. The duration of the tornado was less than five minutes, but it was preceded by an unusually severe thunder and rainstorm, and the heavy rain has flooded many of the open pit mines and they will be unable to operate for some time.

FLOUR MILLS TO CLOSE.

Minneapolis Firms Will Shut Down for an Indefinite Period—Shortage in the Demand.

Minneapolis, Minn., Oct. 8.—Nearly one-half of the flour mills operating in Minneapolis will close for an indefinite length of time. The Washburn-Crosby and the Pillsbury Milling companies report that 40 per cent. of their mills will close, and it is also reported that the Consolidated Milling company will discontinue operations, although it is not learned how many mills will be affected. The officials report the cause due exclusively to the marked shortage in demand for flour. The foreign trade, it is declared, is practically dead, while the present stock of the mills will be sufficient to supply the domestic trade for some time to come. It is contended generally that the coming election and political excitement have to some extent brought about the sudden decline in demand, and it is probable that none of the mills will resume operations until after it is over.

Visited His Birthplace.

Salem, Ill., Oct. 8.—W. J. Bryan rested in the city of his birth and spent the Sabbath with relatives. He arrived here about noon and dined at the residence of Mrs. Mollie Webster, his cousin. Thirty of his relatives gathered at the residence and partook of the dinner. In the afternoon, accompanied by James C. Dahlman, the national committeeman from Nebraska, who has charge of the special car in which Mr. Bryan travels; B. F. Shively, the newspaper correspondents and old friends residing in this city, he went to the farm and looked over the scenes of his boyhood. At night he attended the Cumberland Presbyterian church, accompanied by relatives.

Want Surplus Used.

Dallas, Tex., Oct. 8.—Gov. Sayers will turn over \$30,000 cash to the relief committee for the mainland sufferers by the September gulf hurricane. A movement has been started to petition Gov. Sayers to use \$150,000 cash of the \$2,000,000 surplus in the state treasury to aid Galveston and coast sufferers generally and to petition the legislature to indorse this action of the governor if he takes it.

CLEVER MINING MAIDS.

They Went to Dawson as Actresses, Then Became Gold Seekers and Now Are Capitalists.

Two San Francisco girls, who went to the Klondike two years ago, have returned to their native city with a bag of gold and are preparing to make a European voyage.

Misses Dottie and Gracie Browning, after being graduated from the public schools, studied for the stage. Both were possessed of fine voices, and grand opera was the goal of their ambition. Gracie Browning secured a position with the Bostonians, but just after the contract a death occurred in the family, and she gave up the position. About a year later the two sisters went together in vaudeville, touring eastern circuits under different managers.

While playing with a company in Davenport, Ia., the manager took the funds of the company and decamped,

THE MISSES BROWNING.

leaving the performers stranded. The plucky girls returned to their homes in California, and, after a few days' rest, determined to try their fortunes in the gold region of the far north. Their reputation as vaudeville artists had preceded them to Dawson City, and they found the managers of theaters more than ready to give them engagements.

The Misses Browning say they made very good terms with the managers, but believed that fortune would come quicker by mining. Consequently they saved what they could from their salaries, started a few claims and prospected on their own account. The two girls worked with pick and shovel, and, as the claims turned out well, they soon hired men to do the rougher part of the work.

"It was hard work at first," say the fair miners, "but we did the best we could and came out all right. We have two claims, Nos. 9 and 10 on Bonanza creek. We have another claim on El Dorado creek, from which we scarcely ever get less than 20 cents to the pan, and last New Year's day we picked a big, shining nugget out of the frozen ground. We have another good claim on Sulphur creek, and just before we left Dawson we sold a quarter interest in a claim on Dominion creek for a snug little sum."

"Two years in Dawson City is an awfully long, lonesome time, and after we had washed out the dumps from our claims and banked the clean-ups we thought it best to take a trip back to civilization. Before we left we sent two men down into the Tanana country prospecting. Good reports have come from that district, and we have a chance of striking something profitable there."

"We came out by way of St. Michael and went over to Nome. That camp is a disgrace. About all we could hear of was murder, suicide and disease, and we were glad to get away from it. While there, however, we took up a claim on Anvil creek, in the Golovin bay district, and staked some Dawson friends to take care of it for us."

"After all that I think we have earned a holiday. We came to San Francisco to return some kindnesses to our friends in the city, who cared for us before we started in the world for ourselves. As soon as that is done to the satisfaction of all, and the money we have brought out is safely invested, we will start out to see the country on the other side of the Atlantic."

To Destroy Unpleasant Odors.

In order to free a room from unpleasant odors boil mixed spices in vinegar 20 minutes or longer. If enough are used they will destroy all unpleasant scents, even such as fried fish, onions, etc., and the room will have a delightful and invigorating fragrance.

HAPPY LITTLE BABIES.

How Children Are Cared For in a New York Institution Which Is a Model of Its Kind.

One of the prettiest and most comforting sights in New York city during the hot weather is to be seen in the Mothers' and Babies' hospital, at Lexington avenue and Fifty-second street, where from 30 to 35 little babies are being taken care of, according to the Golden Rule. At any rate, whether they would put it that way at the hospital or not, it seems to a visitor that "Do unto a baby as you would be done by" is the true secret of their success.

Mrs. Lucy Robinson, the head nurse of the hospital, says there are just three important points in the care of the baby—food, dress and handling.

In the first place, if the baby is being fed from a bottle, the milk given it should always be pasteurized—and that word means, as we have explained before, that the milk should be put through a purifying process which was originated by a man named Pasteur. Every two hours between three in the morning and nine at night the baby should have its milk, but during the night it should have nothing except a drink of cold water, now and then. She says few people seem to realize that babies get thirsty, just like anyone else, and that, unless they have plenty of water, they are sure to be feverish and fretful. It must be water that has been boiled, though, and the bottles that hold the baby's milk must be boiled, too, after each using, so that any possible germ of disease will be destroyed. Then the little one's mouth should be washed out with water that has boracic acid in it, every two hours; there must be two baths a day in luke warm water, and the baby must not flounder about nor get frightened, but be carefully held in the water a few moments and then wrapped in a soft, fleecy blanket and patted—not rubbed—until the blanket has taken up all the moisture. Next, a nice powdering, all over, with corn starch, and then some comfortable, plain garments put on over the feet—never over the head to bother a baby and get it to crying. No stiffly starched embroidery, no thick seams to cut the soft flesh, no shoes, no stockings on the little chubby feet; the "little colties go bare, bare, bare," and kick to their heart's content.

Mrs. Robinson says, too, that children have been deformed and crippled for life by being held in wrong positions when they were little. The baby's head must never hang down, nor must the weight of the body be allowed to come upon the delicate muscles of the stomach and bowels. The little head and back must be supported, and the hips should rest firmly in nurse's hand. It is a good plan, however, to consult the baby's own taste in this matter of position. The little girl in our picture, for instance, is never more happy than when laid

HOW TO HOLD THE BABY.

over her nurse's shoulder and held there with strong gentle hands. But another baby might not agree with her at all.

A small Chicago maiden, who visited the Mothers' and Babies' hospital in New York, this summer, has come back to her family of dolls with new ideas. She allows no one to hold them except in proper fashion; she puts on their clothes over their feet; makes a pretense of bathing them twice daily, and talks a great deal about pasteurizing milk and boiled water. It sounds amusing, now, but, after all, perhaps some warm day, a long time from now, a little jolly, crowing baby will lie and wave his dimpled feet in comfort and joy all because his mamma went to visit that hospital when she was a little girl and practiced on her dolls the good things she learned there, so that she never forgot them.—Chicago Little Chronicle.

When Prosecuting Attorney John P. Kirk nominated Tracy L. Towner for judge of probate at the recent Democratic county convention, he said, "No man should be elected to the office of probate judge who is not an attorney. For those who have business to do in the probate court, in such a case, would be obliged to employ an attorney to instruct them as to what their rights were, which would be an unnecessary and additional expense." If a Democratic attorney, who is prosecuting attorney and has a good deal of business in the probate court, sees the matter in such a light as this, it is a good point for all classes of voters to consider. The situation this fall is this: There are three candidates for judge of probate—two are merchants, one is a lawyer—therefore, vote for the lawyer, H. Wirt Newkirk, who has already shown himself to be the best judge of probate Washtenaw has ever had.

If there was no Presidential campaign now on we would probably witness the same unification of views over the action of the President of the United States in upholding the honor of the American flag and the dignity of the American nation that was witnessed when we went to war with Spain two years ago. It is simply because one party desires to play politics that it derides the party in power for doing what every right thinking man knows should have been done, and what only the most partizan person dare to criticize. A pretty good plan to follow is: In foreign affairs there should be unity; partizanship should be left to domestic policies. The party that opposes any action taken by an administration to uphold the dignity of Americans abroad and to make the flag of the nation respected wherever it floats, will not be successful.

The state legislature is now in special session, called by Governor Pingree, to act on measures to secure an amendment to the constitution to provide for the equal taxation of all property at its actual cash value and to repeal or amend the special charters of railroads.

During the Spanish war the Flag was worn and flown by all Americans. Let them wear and fly it now to show they intend to uphold the administration in keeping the fruits of the war with Spain.

It is Earl Li's time to sit high now and Prince Tuan's time to hunt cover. But Li should have his yellow jacket riveted on before the wind changes again.

Washtenaw Republican: There is considerable likelihood that within a few weeks a big printing and publishing establishment from a neighboring city will locate in Ann Arbor. The growing unpopularity of the Ann Arbor Printing Co., the newspaper and printing trust, makes such a venture certain to succeed in the University city.

The presiding elders of the Michigan conference of the M. E. church have appointed a committee to appear before the legislature next winter and urge the passage of laws which will put a stop to the Sunday marriage excursion business which has grown to such great dimensions at Benton Harbor, and has lately begun to spread to other lake shore cities having steamboat connection with Chicago. "Today," the bright new penny paper that is being issued in Detroit by the Schermerhorn Bros., is a clean, crisp and well edited paper. Its news notes are short and to the point and are singularly free from the padded, fakey style of so many of our modern daily papers. Its dispatches have no date on them, because the paper is, as its name "Today" implies, full of today's news. Aside from its quality, its price 25 cents a month or \$2 a year by mail, will recommend it to a large class of evening daily newspaper readers. "Today" has made its appearance on the streets of Chelsea and the Herald wishes it the best of success.

A baseball game was recently played on the fair ground in this village between Grass Lake and Chelsea boys. The Grass Lake correspondent of the Jackson Patriot in his account of it says: "By superior playing they (the Grass Lake boys) did the Chelsea kids up to the tune of 7 to 6, which did not please the fellows of Chelsea, so they wanted to fight right away, but the boys from here would not disgrace themselves by fighting so they got their rig and returned home to celebrate their victory. The boys here say if the Chelsea fellows come up here that they will throw them in the lake and let the fish devour them." We always wondered what the fish in that lake fed on, the mystery is now explained.

NOTES FROM THE PARIS EXPOSITION.

"The Singer Manufacturing Company, of 149 Broadway, New York, show their usual American enterprise by having a very creditable exhibit, located in Group XIII, Class 79, at the Paris International Exposition, where they show to great advantage the celebrated Singer Sewing-Machine which is used in every country on the globe, both for family use and for manufacturing purposes. The writer was highly pleased with this display and observed with much satisfaction that it was favorably commented upon by visitors generally.

The Grand Prize was awarded by the International Jury to Singer Sewing-Machines for superior excellence in design, construction, efficiency and for remarkable development and adaption to every stitching process used in either the family or the factory.

Only One Grand Prize for sewing machines was awarded at Paris, and this distinction of absolutely superior merit confirms the previous action of the International Jury at the World's Columbian Exposition, in Chicago, where Singer machines received 54 distinct awards, being more than were received by all other kinds of sewing machines combined.

Should it be possible that any of our readers are unfamiliar with the celebrated Singer Machine, we would respectfully advise that they call at any of the Singer salesrooms which can be found in all cities and most towns in the United States."

CALIFORNIA'S SPLENDID SHOWING AT THE PARIS EXPOSITION.

Following is an extract from a letter recently written by Mr. Wm. H. Mills, of California, while in Paris in charge of the Southern Pacific Company's exhibit at the Exposition. It is remarkable for two reasons, first, as evidence of the great interest which is everywhere manifested in that wonderful State; also for the valuable information it contains, and for which it is here reproduced:

Paris, July 19th, 1900.

The panorama picture of the Mariposa Grove is admitted by all, including photographers, to be the most wonderful photographic reproduction that has ever been made. Only yesterday a Committee representing the greatest Fruit-Growing Association of France to the number of fifteen, visited the office. They were in charge of their President, who is the largest individual fruit grower in the Republic. They came here to get an illustration of the industrial and climatic conditions under which our fruit is grown (designations). The out-door cultivation of fruit in France is extra-hazardous and is fast being superseded by the artificial means of wall and glass.

The gentlemen who were here yesterday explained that the most profitable cultivation was that wherein all the factors of success were in the hands of the cultivator. I have used this argument many times for the promotion of the policy of irrigation. I have said that when the moisture can be controlled, both with reference to moisture and drainage, civilized culture will have been achieved; that at that point only it becomes an art; but where natural conditions are depended upon and are not under the control of man, the cultivation has not risen to the dignity of an art. Its main factors are at the hazard of chance.

When I explained, however, the conditions under which fruit was grown in California, it became apparent both to myself and my audience, that the natural conditions in California are as nearly perfect for the production of fruit as it is possible to be, and that at all events there are economies with us which will give us the fruit markets of the world. You may accept this conclusion as demonstrated by our exhibit and observation here. California is hereafter to be the orchard of the world, for reasons which will be more easily made apparent in a personal interview.

The reason for the foregoing narration I will now present: We had exhausted the interest of the exhibit in showing the fruits, the pineapples, the dates, the prunes, the peaches, the pears, the apples, the vegetables in all their varieties, etc. The day was extremely hot and the interview had become monotonous. I called the company into an attitude in which they could get a good view of the panorama of the great tree groves of California. I have never heard more genuine expressions of surprise and admiration. The President of the Association, a man of fine mentality and dignity of character, said, through the interpreter to me, that the picture was the most beautiful presentation of a forest he had ever seen and the forest was the most beautiful of any that had ever been shown abroad. The forest as expressed in that picture is infinitely superior to any forestry expression possible here. The largest pine tree I saw in Germany was less than twenty-four inches in diameter, and not to exceed seventy-five or eighty feet high. After what we had heard them of the favoring conditions of climate and soil, we introduced them into the heart of one of our greatest forests by the best representation which can be placed upon paper. You can have no adequate conception of how it broadened and dignified and ennobled our State. We had shown them panorama pictures, pictures of prime orchards in bloom, pictures of orchards, one of which is a most marvelous presentation, the panorama itself being six feet by fourteen inches and representing five hundred acres of prime orchard. We had shown them twenty-one square miles in one panorama of a fruit orchard in Vaca Valley. We had shown them large fruits and large vegetables, and all these things had appealed to them as exceptional. The panorama of the great forests of California, including the greatest trees that grow in the State, conferred upon the entire exhibit probability and confirmation.

Probably Not.

Elsie—Yes, dear, my husband is a doctor, and a lovely fellow, but awfully absent-minded. Ada—Indeed! During the marriage ceremony, when he gave me the ring, he felt my pulse and asked me to put out my tongue. "Well, he won't do the latter again,"—pare Moments.

TO HAVE A NEW CAPITAL.

Chinese Imperial Court Will Not Return to Peking—Fear of Allied Forces the Alleged Cause.

Washington, Oct. 9.—The effort to induce the Chinese imperial court to return to Peking has failed, after a week's persistent effort on the part of the powers. News to that effect was brought to the state department Monday by the Chinese minister, who received it via St. Petersburg from Viceroy Liu Kun-Yih and Chang Chih-Tung, under date of October 4. Minister Wu received the message Sunday night. It was as follows:

"The departure of their imperial majesties for Shensi (province) was due to distressing conditions at Tai Yuen Fu. There is a scarcity of food supplies in the province of Shansi on account of long-continued drought; and the provincial capital (Tai Yuen), is almost deserted, the trades people having left on account of the disturbances caused and continued for months by the Boxer rebels, who had invaded that province with the encouragement of Gov. Yu. Their majesties, therefore, were obliged to proceed to Shensi, where telegraphic communication with Shanghai and other parts of the empire is opened, and rapid communication with their majesties may, therefore, be carried on; thus court and official business may be transacted more expeditiously by their presence in Shensi rather than in Shansi. The reasons for the temporary postponement of their majesties' return to Peking are the presence of the allied forces there, on account of which solicited fear is doubtless entertained, besides a dread of the outbreak of epidemic diseases, which usually follow after great disturbances, destruction of property, and military operations. It is hoped that the powers will be considerate in their judgment in this matter."

The important feature of the message is the confession that the court is restrained by fear of the allied forces from returning to Peking. The movement takes the emperor and empress dowager about 300 miles further away from Peking, though, according to the statements contained in the message, by reason of direct telegraphic communication with Shanghai the court practically will be nearer for purposes of negotiation with the outside world than it was at Tai Yuen. Minister Wu has been informed also that Viceroy Yu, of the province just vacated by the court, has been impeached because of his anti-foreign tendencies, which is the first step toward his degradation.

The only disquieting feature of the move comes from Japanese advice, stating that the new point of location is strongly fortified, which is some indication that the imperial family is still in flight and is seeking stronger defenses; but the friendly viceroys and Minister Wu do not share in this view.

Berlin, Oct. 9.—The somewhat optimistic view of the Chinese situation which prevailed in Germany last week has been unfavorably affected by the reports that the Chinese court has resolved to settle permanently at Si Ngan Fu, capital of the province of Shensi. This the Berliner Tageblatt regards as "indisputable evidence that the Chinese court is as anti-foreign as ever." "The failure of the court to return to Peking," it says, "makes a farce of the proposed 'peace negotiations, inasmuch as the Chinese government could annul the whole procedure at any moment by revoking the credentials of Prince Ching and Li Hung Chang." Without claiming any official authority for its attitude, the Tageblatt comments favorably upon a proposal to declare Emperor Kwang Su deposed.

Peking, Oct. 9.—Gen. Yamaguchi will retain 10,000 Japanese troops, 2,000 of them at Peking and others at Taku and along the line of communications. Eight thousand Germans will pass the winter in Peking, and 1,500 Russians. The number of British troops who will be retained has not yet been decided. Sir Alfred Gaselee will probably keep a brigade. The allies are storing supplies for six months. Count Von Waldersee's headquarters will be in the buildings in the imperial pleasure grounds outside the Purple City.

London, Oct. 9.—The Shanghai correspondent of the Times, wiring October 7, says: "It is reported that French troops hold Lu Ko Chiao, on the Lu Han railway. The Russians and Germans hold the Pei Tang forts and have also taken Tong Shan and the Kai Ping mines, thus monopolizing the coal supply in North China." "It was expected that Count Von Waldersee would maintain an even balance between the powers, whereas the actual result of the operations places all the strategic positions in the hands of other nations. A strong feeling prevails that the situation is daily becoming more gloomy."

London, Oct. 9.—"Five thousand triads," says a dispatch to the Daily Telegraph from Canton, dated October 7, "have defeated the imperial troops and occupied several places between Mirs Bay and Deep Bay. They are now moving southward. The viceroy dispatched Admiral Ho and Gen. Tong to oppose them."

Iowa Crops.

Des Moines, Ia., Oct. 9.—The official preliminary estimate of the crop yields of Iowa for the current year show: Corn, area, 8,618,660 acres, average, 41 bushels to the acre, total product, 353,365,000 bushels, which is greater by 18,000,000 than ever before harvested in the state. The total of all cereals will be 531,349,020 bushels, which is 10,000,000 in excess of any previous year, and 131,000,000 above the average yearly output the past ten years.

KNEW ALL ABOUT GENIUS.

A Poet's Wife Describes It and Shows She Is Thoroughly Posted.

"I have just finished a sonnet," said the poet, according to the Atlanta Constitution. "Thank heaven!" exclaimed the wife, "that'll buy a beefsteak and a sack of flour!"

"And here is an ode for the state fair," said the poet. "How fortunate! Ham is 15 cents a pound, and we haven't had any in six weeks!"

"I have also written a love song which is as tender as an April rose." "What a dear, sweet soul you are! I'm sure that's good for a can of lard and a gallon of molasses!"

"Woman!" said the poet, sternly, "do you know what genius is?" "Yes," she said, thoughtfully. "Sometimes it's telling the butcher to call again, shutting the door on the baker, hidin' from the house rent man, and singing, when Sunday comes, 'I would not live always; I ask not to stay!'"

"I could 'nt Sew another Stitch to Save my Life."

A gorgeous costume flashed beneath the brilliant lights of a ball room. The queen of society is radiant to-night.

The nervous hands of a weak woman have toiled day and night, the weary form and aching head have known no rest, for the dress must be finished in time.

To that queen of society and her dressmaker we would say a word. One through hothouse culture, luxury and social excitement, and the other through the toil of necessity, may some day find their ailments a common cause.

Nervous prostration, excitability, fainting spells, dizziness, sleeplessness, loss of appetite and strength, all indicate serious trouble, which has been promoted by an over-taxed system.

For the society queen and the dressmaker alike, there is nothing so reliable as Lydia E. Pinkham's Vegetable Compound to restore strength, vigor, and happiness.

Mrs. Lizzie Anderson, 49 Union St., Salem, N. J., writes:

"DEAR MRS. PINKHAM:—I feel it my duty to write and tell you how grateful I am to you for what your medicine has done for me. At one time I suffered everything a woman could. I had inflammation of the ovaries, falling of the womb, and leucorrhoea. At times could not hold a needle to sew. The first dose of your Vegetable Compound helped me so much that I kept on using it. I have now taken six bottles and am well and able to do my work. I also ride a wheel and feel no bad effects from it. I am thankful to the Giver of all good for giving you the wisdom of curing suffering women. I recommend your medicine to every woman troubled with any of these diseases."

Mrs. Sarah Swoder, 103 West St., La Porte, Ind., writes:

"DEAR MRS. PINKHAM:—It gives me great pleasure to tell you how much good Lydia E. Pinkham's Vegetable Compound has done for me. I had been a sufferer for years with female trouble. I could not sew but a few minutes at a time without suffering terribly with my head. My back and kidneys also troubled me all the time. I was advised by a friend to take your medicine. I had no faith in it, but decided to try it. After taking one bottle I felt so much better that I continued its use, and by the time I had taken six bottles I was cured. There is no other medicine for me. I recommend it to all my friends."

\$5000 REWARD Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank, of Lynn, Mass., \$5,000, which will be paid to any person who will show that the above testimonials are not genuine, or were published before obtaining the writers' special permission.—LYDIA E. Robbed the Grave.
A startling incident is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed at Stimson's drug store.

Another Word to the Ladies.
EDITOR HERALD, Chelsea, Mich.:
We understand there are still a few ladies in Chelsea and vicinity who did not take advantage of our recent offer to send an elegant silver-plated sugar shell absolutely free of charge to any married lady who would simply ask for it, so we will renew the offer for a short time only. We sell these shells regularly at 40 cents each. Retail jewelers ask 50 to 75 cents for such goods. They are exquisitely beautiful creations in high-grade silver plate. To further advertise our ware we will send one, postpaid, to every married lady who has not received one. This announcement should be cut out and returned to us with your request.
