WENT FOR MCKINLEY

Tuesday's Balloting Was a Regular Republican Landslide.

DEMOCRATS CARRIED WASHTENAW

Bliss Elected Governor, and Smith Re-Elected to Congress by an Increased Majority.

Returns from every county in Michigan show remarkable gains in the vote for McKinley. By 98,000 plurality he carries the state, Bryan not receiving a plurality in a single county. Even the five counties that gave Maybury pluralities did not serve the head of the national Democratic ticket with a like courtesy. Bliss is elected governor by 82,000 plurality, and the whole state ticket is elected with him. Every congressman from Michigan is a Republican and the Smith family can again have a reunion at Washington. The next house of congress will be Republican by 51 majority as against 12 in the present congress.

In the state legislature there is not even a "Donovan, of Bay" in the senate, every member elected being a Republican. In the house there are 87 Republicans and 11 Democrats, one of these being Donovan of Bay.

Congressman Henry C. Smith carried the second district by 3,469. The majority by counties was as follows: Jackson 81; Lenawee, 1,288; Monroe, 200; Washtenaw, 558; Wayne, 1,892.

Hugo R. Loeser, of Jackson, defeated Charles A. Ward, of Ann Arbor, for state senator in this district, by 421 majority.

McKinley carries Washtenaw county by 289. Maybury carries it by 432 and Ward by 210, while Smith for congress has 558. Whitaker is sent to the legislature by 656 and Stumpfenhusen by 558.

The whole Democratic county ticket was elected by pluralities that range from 191 for Watkins to 1,577 for Huston. Blum has 1,535, Mann 1,449, Duffy 1,421, Gillen 1,083.

SYLVAN.

The Republican national ticket received the handsome plurality in Sylvan of 95. Maybury for governor ran ahead of his ticket and Bliss received 59 plurality over him. The rest of the Republican state ticket was carried by pluralities ranging from 93 for lieutenant governor to 100 for Perry F. Powers for auditor general, (being a newspaper man he seemed to have a few more friends than the other fellows on the ticket).

Congressman Henry C. Smith was thought to be deserving of a second term by a good many besides those who voted the Republican ticket and carried Sylvan by 185 plurality over his Democratic opponent.

For state senator Hugo R. Loeser, R., got 389 votes, Charles A. Ward, D., 276 votes, and Charles R. Perrine, Prohib., 19, giving Loeser a plurality of 119.

For representative George S. Wheeler got 314 votes, Byron C. Whitaker 266, and Andrew J. Sawyer 89. Wheeler's plurality 48.

The full vote on the county ticket for the township was as follows:

The Prohibition national ticket had 17 and the county ticket had 9 who favored it, although Judge Noah W. Cheever for county treasurer got 21 votes. The People's Party ticket got three straight votes and the Social Democrat ticket had one lone follower, but not a single devotee could be scared up to vote at the shrine of the Socialist Labor Party.

Lima gave a very mixed vote so far as preference for the several candidates was concerned. McKinley got 26 plurality, Bliss 9, Smith 26, Loeser 33, Whitaker 20, Newkirk 12, Gillen 8, Kalmbach 20, Huston 12, Mann 30, Duffy 2.

Lyndon was Democratic and gave Bryan 57 plurality, Maybury 52, Loeser 35, Ward 47, Whitaker 36, Watkins 51, Gillen, Blum, Mann and Duffy 48 each.

AT WORK ON THE ROAD.

W. A. Boland Has His Men and Teams Busy Grading East of Chelsea and at Other Points.

It begins to look more and more as though the street cars are coming to Chelsea in the very near future. W. A. Boland, who secured the franchise on Middle street from the council Oct. 17, was in Chelsea Monday making arrangements to commence the work of constructing the railroad and closing up the options on some pieces of property east of the village which are necessary for the right of way. These include rights of way through the old Congdon property and Charles Downer's place. On Tuesday morning Mr. Emmons, the contractor, from Jackson, was on hand with teams and scrapers and commenced work. Men and teams are also at work east of Dexter and the intention is to commence work at half a dozen different points on the line as fast as men and teams can be secured. These gangs will work towards each other until they meet.

This side of Jackson six miles are already graded and the work has been so well done that \$300 more per mile has been expended than the estimates called for. This is a good feature as it evidences what Mr. Boland's desires regarding the good equipment of the road.

That Mr. Boland is thoroughly in earnest in his intention to build a road from Jackson to Ann Arbor all these incidents prove conclusively: First, his purchase of the Jackson street railway system which might have been secured by the Detroit & Ann Arbor men had they made one bid more than Mr. Boland; second, his securing the franchise through the village of Dexter and giving what the D. & A. men did not want to give, a line through that village; and third, he has secured franchises and rights of way in all the villages and towns through which the railroad will run.

Mr. Boland has the best wishes of the citizens of Chelsea who desire to see an electric railroad come here for the success of all his plans.

HAVE TO WORK HARD

American Soldiers Who Do Garrison Duty in Philippines.

Pen Picture of Cavite Viejo, the Oldest Town in the Island Group—Former Home of Emilio Aguinaldo.

(Special Philippine Letter.)

THE town we are in is called Cavite Viejo, meaning Old Cavite, and it is said by the natives to be the oldest town in the entire Philippine group, not excepting Manila or New Cavite. It has a population of about 8,000 inhabitants, and is situated on an arm of Manila bay, about 20 miles from Manila. On a clear day the latter can be plainly seen with the aid of field glasses.

The two things of most importance in this town are the old ruined church and the house that was at one time owned and occupied by Aguinaldo, the rebel chieftain. The church, which is reported to be over 300 years old, is in very bad condition, owing to the bombardment of the Spanish gunboats in 1896. The picture gives a fair view of the church and the convent in its present state.

The convent is also in bad condition, and cannot be used for any purpose whatever, but the front part of the church is still used for religious services. Large holes can be seen inside where cannon balls went through the three-foot stone walls.

The church, like the rest of the Philippine churches, is not supplied with seats or benches like those in the "States," but instead has a stone floor on which the worshippers kneel, or squat down on their heels. The services are somewhat similar to the Cath-

any, was at one time polished, but this was soon worn off by the soldiers' rough brooms.

On the ceiling of this room is one of the finest large oil paintings that the writer has ever seen. It is called "Filipino Liberator." The picture is of oval shape and measures 15 by 30 feet, being done in several colors.

It represents a Filipino senorita in full native dress sitting on stone steps by the sea shore looking out over the water. In the distance can be seen the rising sun coming over the mountains with the sunbeams glistening on the waves. With her right hand the senorita holds aloft the tricolor Fil-

AGUINALDO'S FORMER HOME.

ipino flag, while at her feet lies the Spanish flag with the pole broken in two places. To the left of the flag lies two broken handcuffs and a ball and chain which, to all appearances, she had just cast off. The features of the senorita are of the oriental type, and are said to be a likeness to Aguinaldo's

THE OLD CHURCH AND CONVENT AT CAVITE VIEJO.

olic services in the churches of the United States, but instead of an organ they have a brass band.

The natives as a rule are very religious and say their prayers four or five times a day, in fact every time the church bells ring. No matter what work they are at or how interesting the subject they are discussing when the bells ring they stop instantly and say their prayers. One peculiar thing about the hombres (men) is that as soon as the church services are over they go directly to the cock pit and for several hours enjoy themselves at their favorite sport, cock fighting.

Along the shore for a distance of about 400 yards near the church are large earthworks or trenches, the work

sister. It is certainly evident that the picture was painted before the American occupancy of the islands, because if it hadn't been there would have been another flag there.

Altogether there are four rooms in this part of the house, the others being used at one time for a sitting-room, dining-room and a kitchen, all having the walls and ceilings painted with fancy designs, such as native fruits, flowers, birds and butterflies.

The east wing of the building (not shown in the picture) is at present occupied by the officers, the hospital, the orderly-room and the commissary office. To have an idea of the size of the building one must remember that there are 90 men quartered in the first half. The company had some heavy fatigue duty fixing up the lower part of the house. They put a tile floor in it and had two native prisoners make seven large bamboo dining tables with seats. Then they built a large bake oven in an outhouse and put stone walks all over the grounds. A large cistern furnishes rain water for all purposes. A nipa shack in the back yard was repaired and cleaned up and is now a first-class canteen.

The lower part of the quarters is now used as the guardhouse, dining-room and company shoe and barber shop.

The company barber, while on a visit to Manila a short time ago, invested in an Edison graphophone, and every evening the company has a vocal and musical concert with the latest songs and music from the states.

The duties of the company are considerably harder than they were in the States. They do a guard every third day and have to drill two hours a day when off duty. Every night a detail of 12 men patrols the outskirts of the town for a few hours.

It is rumored that in a short time there will be a native police force in town, which, of course, will make the soldier's duty much lighter.

On August 26 the long-looked-for "flag-raising" took place at the president's house. Although it was raining there were about 200 natives present. At ten o'clock sharp Capt. McQuiston, then in command of company M, pulled the rope which unfurled the flag; the native band played "The Star Spangled Banner" and all present took off their hats.

The captain then made a short speech, which the president interpreted in Tagalog. An hour afterward, when the rain had ceased, the band serenaded the company and played a piece of music that the bandmaster had composed himself and named the "Fourth Infantry march." A. A. LORBER.

WOMEN'S BUILDING.

Handsome New Structure at the State Agricultural College Dedicated with Appropriate Ceremonies.

The handsome new Women's building at the state agricultural college was dedicated in Lansing by the Michigan Federation of Women's Clubs. The ceremonies were appropriate and impressive. The dedication was followed by a banquet, at which an elaborate menu was served and toasts responded to by leading members of the state federation.

Addresses were made at the dedication by Miss Maud R. Keller, dean of the woman's department of the Michigan agricultural college; Mrs. Anna M. Palmer, of Saginaw; Mrs. Marie B. Ferry, of Lansing; Mrs. Mary Evans, president of Lake Erie college at Painesville, O.; Mrs. Nellie Kedzie, professor of hygiene and domestic economy, and Mrs. Mary A. Mayo, of Battle Creek.

Mrs. Lorraine Immen, of Grand Rapids, presented the woman's department with 50 valuable books as a nucleus for the library which is being established. At the banquet leading club women and members of the state board of agriculture were the principal speakers. The attendance upon the exercises was very large, over 400 prominent women and educators being present.

The Federation of Women's Clubs elected officers as follows:

President, Mrs. Belle M. Perry, of Charlotte; vice presidents, Mrs. Josephine M. Gould, of Owosso and Mrs. Ella W. Shank, of Lansing; Recording secretary, Mrs. Ella M. A. Ellison, of Battle Creek; corresponding secretary, Mrs. Ella W. Gordon, of Howell; treasurer, Mrs. Carrie E. Torrey, of Rochester; directors, Dr. Eliza A. Mosher, of Ann Arbor; Mrs. Clement Smith, of Hastings, and Mrs. Andrew Howell, of Detroit.

SCHOOL STATISTICS.

Annual Report of the National Commissioner Makes a Good Showing for Michigan.

In his annual report for the fiscal year ended June 30 last W. T. Harris, the commissioner of education in Washington, says:

The school property in the state of Michigan at the close of the school year, 1898-99, was \$19,746,443 and that the amount raised by state and local taxation for the support of these schools was \$5,640,517.

The report shows that there were 498,665 pupils enrolled in the elementary and secondary common schools in the state, which was 21.81 per cent. of the estimated population. The average daily attendance was 350,000. There were 3,471 male teachers in these schools, whose average monthly salaries were \$44.80, and 12,093 female teachers, whose salaries averaged \$35.35 per month. The total expenditures for the schools, including sites, buildings, etc., salaries and other expenditures, and excluding payment of bonds, was \$5,883,369, an average daily expenditure of 10.4 cents for each pupil.

A table devoted to city schools show that there are 29 systems in the state. The total expenditures for these schools was \$2,580,715. The total enrollment in the city schools was 136,332 pupils and the average daily attendance was 100,012. The teachers in city schools numbered 233 males and 2,712 females. There were 13 schools devoted to theology, law and medicine, with 1,919 students.

WILL NOT COMPLY.

National Salt Company Must Answer for Not Filing Articles of Association in Michigan.

Previous to commencing business in Michigan the National Salt company paid the secretary of state the statutory franchise fee, but has steadfastly refused to file its articles of association here or appoint a Michigan agent upon whom service of process can be made or file with the state department reports setting forth its condition. All other corporations are required to do this, and Attorney General Oren has prepared a petition for a mandamus to compel the salt company to comply with these provisions of the law. The company promises a vigorous fight.

Thought He Was Praying.

Benjamin Wilson, who was arrested at Onenka charged with burglary and attempted robbery, committed suicide by hanging in the county jail at Manistee. Early in the morning when the turnkey made his customary rounds of the cells he found Wilson apparently kneeling at the window. Thinking him engaged in prayer the turnkey did not approach him. He reported the fact to the under sheriff, who went in and found Wilson hanging by the neck, dead.

Health, But Little Gold.

Parke Griswold, of Vermontville, and Fred Skinner, of Kalamazoo, have returned after three years in the Copper river country of Alaska. They left with a large Michigan party, which is now separated. The two went 200 miles toward the source of Copper river and have many tales of adventure and hardship in their search for the yellow metal. They return in good health, but with no great fortune.

Calhoun County Soldiers.

The soldiers' relief commission made its annual report to the board of supervisors in Marshall. The sum of \$50,000 has been paid out in the county during the past year by the government to the old soldiers of Calhoun county, and the receipts of the commission were \$3,010.64 and expenditures \$1,671.66.

ART IN THE HOUSEHOLD.

Valuable Hints Concerning the Hanging, Drying and Arrangement of Lace Curtains.

Hanging lace curtains and draping them is a severe strain on anyone except a professional. The work done by the professional is often not so

AN IDEA FOR THE PARLOR.

satisfactory as that done by the amateur, as the work of the former is often too stiff and shoppy looking to suit anyone with an eye for graceful lines and effects. If the curtains are new they are often easier to manage than the old ones which have been carelessly stretched. In stretching curtains too much care cannot be taken in getting them straight and even. If the curtains have a decided pattern, particularly in the border, it is wisest to put a pair together on the frame. Pin corresponding points in the pattern together at close intervals, and see that the edges are even and the same. Much hard work can be saved by these precautions and a much more satisfactory piece of work can be done.

There is a tendency just now toward the plain muslin ruffled curtain hanging in straight lines from the top of the window to the sill. These are very dignified looking curtains and look best in a room furnished along the strong colonial lines. They are used alike in parlor, dining-room and bed-chamber. Many people of extremely good taste have the curtains of an entire floor just alike, and many persons of unlimited means select the muslin curtains in preference to the expensive laces which savor rather of fancy work and are too dainty for

FOR A DOUBLE WINDOW.

the quaintly dignified furnishings which are in so much favor just now. Many people prefer a draped back curtain, and if the outlook from the window is particularly pleasing, it seems wicked to shut it out or else look at it through the foggy lights of the muslin curtain.

In the design given herewith are illustrations of some of the modes in greatest use just now in curtain draping. The amateur will, with a little hard work and care, be able to hang these curtains just as well as the paid upholsterer. The curtains, to look well, should both be as wide as the window. Cross each curtain nearly together, allowing about six inches on each curtain at the outside. That is to say, the unruffled edge should come out beyond the ruffled edge of the other curtain about six inches; this should be exactly the same on each side of the window. It is impossible to give exact measurements, as much depends upon the width and texture of the curtains.

Just now it is not considered quite so stylish to finish curtains with the ruffle at the top. Run a hem in the tops of your curtains wide enough to admit running the rod in very easily. Be sure not to put your hem in until you have basted your curtains together, if you are going to cross them. Be sure that your curtains are straight across the top, and drape them back as high or low as you like them. If a small room with only one window, a good effect is obtained by draping one side higher than the other. If the rosettes are alike, pull your cur-

tains back into position and tie lightly with a strong string, and make your rosettes out of the fullness which falls from the back below the string. I always pin my rosettes, but many sew them. They may not come right the first time, but with a little time and perseverance you will soon be an expert and find curtain draping a pleasant and satisfactory piece of work.

The lace curtains which have been in use so many years will probably be used and liked by many for generations to come. Just now the artists who devote their time to house furnishings and decorations are not inclined to use the style of curtain which our mothers and grandmothers have liked so well. Many people of perfect taste cling to the so-called old-fashioned curtain and as yet there is little indication of their falling into disuse. These curtains are usually hung in straight lines from the top of the window to the floor, and if they are of heavy texture it is useless to try to drape them gracefully. If they are of a particularly handsome pattern they do not show their beauty if draped. The cotton cord and tassel is the best to use, as ribbon looks too fussy.

For bed-chamber ruffled curtains made of figured chintz, silkoline, silk and several new materials are now offered in the shops, all of which make very pretty and dainty curtains and nearly all wash very satisfactorily. To my eyes bare windows are far preferable to windows curtained with soiled or faded curtains. Try to keep your curtains clean and better buy inexpensive ones and send to the laundry than to have fine ones which you feel you must take care of yourself, and then neglect to keep them free from soil. It is a good idea to put your curtains up so they can be taken down, rod and all, and given a good dusting every few weeks. You will be surprised to find how much dust you will shake out and you will also find

FOR DEN OR BOUDOIR.

that your curtains will last much longer, as dust rots any material very soon if allowed to collect.—Radford Review.

CUT BY A PRESIDENT.

A Scar of Which an Old Pennsylvania Lady Is Extremely Proud.

There was an old lady among the group of visitors at the white house the other morning and she was extremely frank in her reminiscences. It was obviously her first visit to the place, and she eyed everything with the greatest interest, relates the Washington Post.

"I've always been wanting to see this place ever since Jim Buchanan came here to live," she said to the tall, blue-eyed young man who was with her. "Old Jim," we used to call him in Huntington county, Pa. I lived just half a mile from his father's butcher shop when I was a little girl, and many and many's the time I've bought meat from 'Old Jim.' Do you see that scar?"

And she held up a still white and plump hand.

"Well, James Buchanan gave me that. I went into the shop one day to get a steak, and just as he was bringing the cleaver down I poked my finger right in the way of it. He tied it up for me and I cried all the way home. I guess I wouldn't have shed so many tears if I had known I'd been chopped by a future president. But we didn't think 'Old Jim' would amount to much in those days. We didn't think he'd ever do more than sell meat in his father's shop. But you can't tell what a man's going to be by the way he starts out. And I guess"—and here the old lady's eyes gleamed with pride—"I guess there aren't many people who can show a scar that a president of the United States gave them."

Shoes Match Dress Material.

Shoes and stockings usually match the dress not only in color, but also in material as regards shoes. With black dresses we see black silk stockings, inserted with black lace, and black satin shoes with diamond buckles on the toes. Gold and silver shoes are not infrequently seen with evening dress, though satin is always more becoming to the foot.

McKinley is the first president since Grant to serve two terms in succession.

Michigan cannot be styled a doubtful state by any means judging by the result of Tuesday's vote. Bryan did not carry a single county. The people generally are evidently not much afraid of imperialism.

This was a quiet campaign and presaged the slump to the Republican ticket that took place. The campaign when the slump to Cleveland occurred and he was elected was just like it. There was a big "silent vote" then and there was a bigger one on Tuesday.

The Republicans of Washtenaw received just what was expected—a thorough beating. Now, perhaps, before another two years roll around cooler counsels may prevail and the present breach in the party lines be closed up. If this is not done defeat will be again invited.

LAMENESS IN HORSES.

Some Information Which is Worthy of Consideration.

The following, from a correspondent of the London Farmer and Stockbreeder, is worthy of consideration:

Among the causes of lameness are weakly conformation of bones, muscles, etc., tissues being too frail to stand the strain; the fetlock may be too long, causing an extra strain on the tendons; the hock may be too angular, predisposing the animal to curb, or too straight up and down, predisposing to spavin; the hoof may show too high a heel, favoring contraction; or too low a heel, favoring corns, puncture, bruises, inferior shoeing—that is, fitting a shoe while too hot; having the shoe press upon the sole instead of the walls; overtaxing muscles, tendons, and ligaments by pulling a heavy load over rough and muddy roads; constant jerking and blows from the wagon pole and harness—all these are causes of lameness.

How to discover when a horse is lame or where he is lame is not so easy a matter as some may imagine. It is best to observe the animal first standing. If the horse points persistently—that is, places the foot in front of the normal position—the lameness is very apt to be below the fetlock. If the knee is affected it is often kept in a bent condition, while the shoulder and fetlock lameness the toe generally rests upon the ground. After examining the horse standing, allow him to go in a slow trot to and from the observer, holding the halter strap about a foot and a half from the head. Watch carefully the animal's head and ears while he is trotting toward you. He will attempt to protect the lame leg by throwing the most of his weight on the sound one, and if the lameness is in front will nod his head when the weight is thrown upon the sound one. When the animal trots away from you, if the lameness is behind, he will attempt to protect the lame leg by throwing his weight heavier on the sound one.

Having determined which leg is lame, the next thing is to locate the seat of the lameness. If there is any doubt about whether the animal is using its legs properly, take a sound animal and trot it up and down, and compare its actions with those of the lame one. Shoulder lameness is evident by limited action of the entire shoulder. The animal seems anxious to keep stationary, and in bringing the leg forward does so by an outward swinging motion. The horse that is knee-lame aims to keep the knee as stiff as possible, and in moving the leg forward bring the shoulder muscles into play. The leg is advanced in a dragging manner, the toe hardly leaving the ground, and the leg is bent as little as possible.

Fetlock lameness is manifested by a short, jerky step, the animal stepping on the toe or often hopping on three legs. Lameness caused by sore or enlarged tendons is similar to shoulder lameness, and is best examined with the animal at rest, as then the swelling, heat or pain is generally detected along the course of these parts.

It is more difficult to diagnose foot lameness. The best thing is to pick up the foot and tap it lightly with a hammer and notice the flinching when the sore spot is touched. If the animal is nervous it will require great care to distinguish between the actual pain and the nervousness.

Hip lameness is known by a peculiar hopping gait. The animal while trotting turns the hock of the lame leg in and stifles out.

Stifle lameness shows itself by the difficulty the animal experiences in elevating this part and bringing it forward, which is usually done in a dragging fashion. The stifled animal either has the lame leg stretched out behind or stands firmly on the sole. In the first case he cannot back, and in the latter he cannot move the lame leg forward.

Lessening the Cost.

If the winter season is to be a profitable one the only safe course to pursue is not to feed fowls that are non-producers. It is unfair to credit the whole flock with loss when some of the hens have done good service and at the same time supported a lot of drones. Even the young pullets that do not fall into the ranks of the layers should not be retained, as beauty of plumage is no factor in the matter of egg production. The old hens that have finished the molting process should give a good account of themselves if not fed too highly, and as it is not difficult to get them overfat the matter of feeding should be considered very carefully. If the hens do not lay in winter it will be because the poultry-house is not warm, or they may lack a variety of food. Of the unprofitable ones that receive good treatment the most useless are the surplus males. Get them out of the way as soon as possible. Serve them on your table, or even give them away if necessary, as they are worth but little in market, though they always have good appetites and do more than their share to increase expenses.

C. E. fair Dec. 6 and 7.

Rev. L. Koelbing and family expect to remove to Sidney, Champaign county, Ill., about Dec. 9.

John Kalmbach has moved his family to Waterloo where they will remain for the winter with his wife's parents, Mr. and Mrs. E. Lutz.

The fire department made a hurried run to C. H. Chandler's house Saturday night and found a chimney blazing away quite furiously.

Hon. G. A. Gearhart will lecture Tuesday evening next, Nov. 18, in the People's Popular Course, on the subject "The Dawn of the 20th Century."

There are 76 Sunday schools in Washtenaw county, with 7,253 scholars enrolled and 1,015 officers and teachers. The average attendance is 5,361.

The ladies of the Congregational church will please bring all articles to be sent in the missionary box to the church, Thursday afternoon of next week, Nov. 15.

The Washtenaw county fair managers besides paying all premiums in full have paid out of the year's income \$499.26 for permanent improvements. A good showing truly.

When you go to Detroit these days set your watch back 28 minutes or you will be too fast. They have adopted standard time down there as every city and village in Michigan should do.

Mrs. Mary R. Stiegelmaier, wife of William L. Stiegelmaier, of Ann Arbor, was fatally burned by gasoline on Sunday at noon. She lingered in intense agony until 10 o'clock Monday night, when she died.

Hawks & Angus have completed the first mile of grading on their electric line west of Ann Arbor. On Tuesday they received three carloads of rails at Ann Arbor which are being delivered along the road. This looks as if they meant business.

Mrs. Lewis Winans and Mrs. William Campbell have had a beautiful Barry granite monument placed on their lot in Oak Grove cemetery to the memory of their husband and father Lewis Winans. Hand & Cole, of Ann Arbor, executed the job.

Geo. E. Davis will sell at auction on the Becker Pratt farm, one mile south of Sylvan Center, on Tuesday next, Nov. 18, all the farm stock and implements belonging to Fred Gilbert. Among the stock are 13 horses, 18 head of Durham cattle and 126 sheep. Sale begins at 10 a.m.

Dexter Leader: Geo. S. Jewell brought a freak of nature to our office Monday in shape of a perfect pumpkin plant, roots, stalk and green leaves, which he found growing inside of a ripe pumpkin. There was no opening in the pumpkin for light or air, but it was fully matured and perfect in every respect. Who can explain it?

The will of the late Thomas Jewett has been filed for probate. It disposes of \$2,000 personal property and \$6,000 real estate. He bequeaths to his wife the life use of his property. After her death his daughter Mrs. Clara Fletcher is to receive \$1,000, his grandsons Ellsworth and Alton Fletcher and Roland Waltrous and his granddaughter Mabel Fletcher \$100 each. His daughter Mrs. Ada E. Waltrous is to receive the balance.

The ladies of the Baptist church and congregation are making extensive preparation for their fair to be held Wednesday, Nov. 21. They are planning to make the supper one of the best they have given. It will consist of roast turkey, chicken, and the other eatables usually found on a Thanksgiving dinner bill of fare. The price of the supper will be 25 cents. The proceeds of the fair are to be used by the society to aid in paying their subscription toward repairing the church building.

The Dexter Leader says, "It is fast becoming a settled fact that wheat is no more a profitable crop in Michigan and the farmer must set his stakes for other lines to succeed. Some argue that the soil by constant raising of wheat has become poisoned against it and is breeding insects and the like that destroy the crop, while others claim the wheat growing qualities of the soil have all been exhausted and thus the crop is a failure. Let the cause be as it will, the failure is here and looks quite favorable for another year."

Saturday was the 41st birthday of Rev. C. S. Jones and Friday was Mrs. Jones' birthday. The C. E. society to celebrate the former event perpetrated a surprise on Mr. Jones Friday night, which was one of the most successful on record. Not a word did he know of it until the party of young people trooped into the house and took possession. The hours flew pleasantly by with music, friendly chat, and the enjoyment of the refreshments the young folks had provided. A handsome golden oak Morris chair was presented to Mr. Jones, and Mrs. Jones was remembered with a silver cake fork.

St. Joseph's church, at Dexter, realized \$2,000 as the result of the fair held there last week.

The Dexter township Sunday school convention will be held at the Baptist church, Dovers, Wednesday, Nov. 21.

Saline has granted P. W. Shute, of Ypsilanti, a franchise to pipe the streets of the village for lighting with acetylene gas.

The Pinckney Dispatch would like to see the spur of the Hawks-Angus electric line, which will run to Dexter, extended to Pinckney.

Washtenaw Times: Evert Scott says he tried to vote a prohibition ticket in the second ward Friday, but the machine wouldn't work.

Rev. J. C. Katerhenry, of Francisco, preached in the German M. E. church at Ann Arbor, Friday evening also Sunday morning and evening.

The editor of an exchange the other day was blessed with a baby boy. A little sister after examining the baby, went to her father and asked: "Did we get him on advertising, too, papa?"

Lafayette grange met with Mr. and Mrs. E. A. Dancer, in Lima, today. A class of six were initiated into the mysteries of the order. The question discussed was, "What advantage would be given by farmers taking a more active interest and participation in local legislation?"

Adjt.-Gen. Case has issued an order for bidding members of the national guard using any portion of their uniforms on hunting expeditions or while engaged in any civil occupation. Some of the men have been wearing the uniform leggings while out hunting.

The supreme court has affirmed the decision of the Washtenaw circuit court refusing to grant a divorce in the case of Catherine Reichart vs. John George Reichart, of Scio. This is a case that was celebrated in the annals of the circuit court for the sensational nature of the testimony at the trial.

The annual report of the superintendent of the Pontiac asylum shows that there were under treatment at the beginning of the fiscal year, 543 males and 522 females. Fifty males were admitted during the year and 585 females. There were discharged during that time 131. The weekly cost of maintenance per inmate was \$2.92.

Monday was a holiday with the school children. The teachers were away making their annual visitation of the schools in other cities. Prof. W. W. Gifford, the Misses Florence Bachman, Mary Van-Tyne, Libbie Depew, Anna M. Bessel, Webb and Beatrice Bacon went to Ann Arbor, Miss Rogers and Miss Fletcher went to Albion, Miss Hemans to Jackson, Miss Creech to Ypsilanti.

Some medical students at the U. of M. seem to be doing their best to be expelled from the college. A few days ago the cap of a skull was stolen from the dissecting room. For this act three sophomore students were expelled. Halloween night while the attention of the guards around the campus was drawn to another part of the grounds, a window in the medical building was opened, the headless corpse of a woman taken from the dissecting room and propped up against the folding doors in University hall. It was discovered and removed before the time for classes to meet arrived. The medical faculty have nearly reached their limit of patience and if any of the culprits are run down there will be a decrease in the enrollment list of the department.

Brave Explorers

Like Stanley and Livingstone, found it harder to overcome malaria, fever and ague, and typhoid disease germs than savage cannibals; but thousands have found that Electric Bitters is a wonderful cure for all malarial diseases. If you have chills and fever, aches in back of neck and head, and tired, worn-out feeling, a trial will convince you of their merit. W. A. Null, of Webb, Ill., writes: "My children suffered for more than a year with chills and fever; then two bottles of Electric Bitters cured them." Only 50 cents. Try them. Guaranteed. MICHIGAN AT THE HEAD.

Over Fifty-Eight Per Cent. of the Students at the University Were from This State.

PROPORTION IS HIGHER EVERY YEAR.

There Are Also Foreign Scholars from All Over the World—Intercollegiate Debates Arranged For—Collection of Photographs from Egypt—A New Invention.

[Special Correspondence.]

University of Michigan, Nov. 5.—Over 58 per cent. of the students in the university last year were Michigan students. During the past 30 years the proportion has varied from 44.32 per cent. of the total enrollment in 1880-81 to 50.19 per cent. in 1898-99. For the past seven years the proportion of students from the state has been higher every year than for any of the preceding 23 years.

In the literary department the Michigan residents have outnumbered the foreign students every year for the past 30 years. The percentage has varied from 55.69 per cent. in 1888-89 to 69.36 per cent. in 1898-99.

Foreign Students.

The non-Michigan students have come from all over the world. In 1870-71 26 of the states and territories of the United States were represented by students. During the last college year there were students from 42 of the 45 states, from Oklahoma territory, Indian territory, New Mexico, Arizona, the District of Columbia, the Hawaiian islands, and Porto Rico. At one time or another every division of country now belonging to the United States has been represented by students.

Every year for the past 29 years there have been students in the university from foreign countries or the colonies of foreign countries. In 1871-72 there were 29 students who registered from places without the United States and its territories. Four years later this number had increased to 45. In 1889-90 there were 88 foreign students registered. They came from 15 different countries and provinces. The largest number of different countries represented in any one year was in 1893-94, when 19 sent 60 students. For the last five years the number from outside the United States has not been as large as for the 15 years preceding 1895.

Countries Represented.

The following are among the foreign countries and foreign possessions that have been represented: The provinces of Ontario, Quebec, Nova Scotia, New Brunswick, Manitoba and British Columbia, Mexico, Guatemala, Nicaragua, Costa Rica, United States of Columbia, Argentine Republic, England, Scotland, Ireland, Norway, Sweden, Russia, Germany (Prussia, Bavaria, Baden), Belgium, Switzerland, Italy, Hungary, Turkey, Roumania, Bulgaria, Armenia, Syria, Egypt, Liberia, Natal, China, Japan, Burmah, Australia, New Zealand, Bermuda islands and the Barbadoes islands.

Intercollegiate Debating.

Students of the university will participate in at least two intercollegiate debates during the present college year. The first of these will be with a team from the University of Minnesota, January 11, 1901. The debate, which is a semi-final in the Central Debating league schedule, will be held in University hall, Ann Arbor. The subject selected is: Resolved, That it is unwise for the states to attempt to tax personal property. If the Michigan team wins it will then debate with the winning team in the contest between the students of the University of Chicago and Northwestern university. This debate, the final in the Central Debating league series, will be held in Studebaker hall, Chicago, April 1, 1901. The question to be debated is: Resolved, That the United States should subsidize her merchant marine. Another debate in which Michigan will take part is with the University of Pennsylvania, March 8, 1901, in University hall, Ann Arbor. The question for this occasion is: Resolved, That United States senators should be elected by popular vote. Michigan has won nine of the twelve intercollegiate debates in which its representatives have participated.

Oratorical Meetings.

The preliminary contest to the annual debate of the Northern Oratorical league held in Iowa City May 3, 1901, will take place in University hall, Ann Arbor, March 16. The students receiving the highest markings in the University debate will represent Michigan as orator and alternate in the league contest and receive testimonials of \$75 and \$50 respectively. The winner will be awarded the Chicago alumni medal. The representatives of the University of Michigan have won seven of the ten contests held under the auspices of the Northern Oratorical league. The institutions having membership in the league are Northwestern university, Oberlin college, State University of Iowa, University of Chicago, University of Michigan, University of

Minnesota and University of Wisconsin.

Dr. Julius O. Schlatterbeck, assistant professor of pharmacognosy and botany, has just received a collection of nine photographs from Alexandria, Egypt, illustrative of the methods employed in smuggling hashish across the Mediterranean sea. Slides will be made from photographs and will be used by Dr. Schlatterbeck in connection with his lectures on Cannabis Indica, the plant from which the narcotic drug hashish is obtained.

A New Invention.

Dr. Roy S. Copeland, of the homoeopathic department, is feeling justly elated over a new oscillating aural massage apparatus which he has just secured. He hopes to secure surprising results. There is a glass bulb that will, when placed on the ear, vibrate on the drum so as to shake the stiffening out of the muscles. The bulb will do the same for the eye. There are a number of things that can be done almost unintelligible to a layman, until after he has been benefited by the operation. The inventor of the apparatus has worked for years on his ideas. Dr. Copeland on his recent visit to New York called on the inventor and learned from him just what the inventor intended the apparatus to accomplish. The doctor will watch the results with interest.

Basket Ball Teams.

The women's basket-ball teams are being organized for the present year. The freshman girls will be worked into one team and the sophomore girls into a second. The practice games will be played in the women's gymnasium.

Caused a Stir.

One Hallowe'en episode created an unusual stir about the campus early in the morning. At about four a. m. some person or persons obtained admission by a window to the cellar of the anatomical laboratory, stole the headless body of a young woman stored there, wrapped it loosely in a sheet, carried it across the university grounds and propped it up against the front entrance to University hall. When discovered by the watch, it was hurriedly removed, but not until its gruesome presence had caused quite a sensation.

A NARROW ESCAPE.

A Little Girl at Daggett Rescued from a Mountain Lion by Bravery of Her Father.

The three-year-old daughter of Paul Perrigo, Jr., a foreman lumberman of Daggett, had a marvelous escape from being devoured by a full-grown mountain lion. The lion was one brought from Idaho some time ago when it was a cub and kept in a cage in the yard. It was tame enough to allow a man to enter the cage and feed or pet it.

Mr. Perrigo entered the cage to give it water and his little girl followed him. The lion jumped past him, grabbed the child by the front of the dress and started off to the corner of the cage with her. Mr. Perrigo grabbed a club and succeeded in rescuing her. The animal jumped on him and lacerated his arm. The child's nose was broken and her face terribly lacerated, but she will recover, although she will be disfigured for life. The animal was shot.

ODD FELLOWS GAINING.

Membership in Michigan Has Increased Over Two Thousand During the Past Year.

At the annual meeting in Bay City of the Michigan grand lodge of odd fellows invitations for the next convention were received from Grand Rapids and Battle Creek. The latter place was selected. The proposition to revise the constitution was indefinitely postponed. Secretary Whitney's annual report showed the total membership of subordinate lodges December 31, 1899, to be 27,042, a net increase of 2,275 during the year. Treasurer Pritchard's report showed cash on hand at the beginning of the year, \$7,523.27; receipts during the year, \$15,786.90; disbursements, \$14,317.35; balance on hand, \$8,992.82. The total amount paid out for relief work by the grand lodge last year was \$49,236.25.

Loses Much Property.

The new plan of building sidewalks adopted by West Bay City has brought out that dozens of houses are encroaching on the streets, and also that about half of the fences are from six to 18 inches on city property. This state of affairs has existed so long that the city has doubtless lost possession, and the only way to regain it would be to resort to condemnation proceedings, and this would cost as much as the property could be purchased outright for.

Pardoned.

Gov. Pingree has pardoned the three men sent up from Calhoun county in May, 1895, to Marquette prison for sodomy. Their names were George Paddy, who received a sentence of 12 years; Edward Harrington, who got 11 years; and John Collins, whose sentence was ten years. The governor has also pardoned William L. Churchill, who was sentenced from Montmorency county in September, 1890, for 15 years for murder in the second degree.

DAVIS LOSES A TOE.

Minnesota Senator in a Fair Way to Recover.

His Surgeons Are Confident of the Result of His Illness—Say His Leg Will Not Have to Be Amputated.

St. Paul, Minn., Nov. 6.—Senator Cushman K. Davis, chairman of the foreign relations committee of the United States senate, passed a comfortable night and was resting well Monday morning. His attendants say he appeared to be better before going to sleep Sunday night and that his rest seemed to have refreshed him.

Dr. Murphy, the famous Chicago surgeon, arrived during the morning and was immediately in consultation with the regular physicians in attendance on the senator. A thorough examination was made of the injured foot and it was decided that while a further operation was advisable it would not be necessary to amputate the foot.

Monday evening Dr. A. J. Stone, the physician in charge of United States Senator Davis, said that the slight operation on the senator's foot in the afternoon showed it to be in much better

SENATOR C. K. DAVIS.

condition than either he or Dr. Murphy had expected to find it, and that only the simplest kind of an operation had been necessary in order to clear away a passage for the pus that had collected under the foot. The former operation had been over the top of the foot and this one was under the foot in the same manner as the first. The senator had revived from the slight operation in good shape, and he considered him "the liveliest corpse in the United States senate to-day." He insisted there had been no question of amputation and that Senator Davis was getting along very nicely in every way.

The operation Monday afternoon included the amputation of one of the senator's toes. The patient stood the shock well, and Dr. Murphy, who performed the operation, reports that his condition is slightly more favorable.

A UNIQUE EVENT.

Men of All Parties March in "Mother Hubbard" Parade at Wheeling, W. Va.

Wheeling, W. Va., Nov. 6.—Wheeling's "Mother Hubbard" parade the evening before presidential elections, when the members of the marching clubs of all parties come together and join in a great demonstration in honor of the woman's suffrage candidate for president, is unique, and original with this city. Monday night's affair, in honor of Mrs. Catt, was the largest on record, fully 2,000 marchers being in line. The real woman's suffragists, however, had on this occasion entered an emphatic protest against the demonstration; but the opposition seemed to add to the favor with which the public looked at it. Over 30,000 people lined the streets and laughed at the queer and ridiculous costumes the marchers wore.

DRYHOUSE BLOWS UP.

Explosion Wrecks Building of Winchester Repeating Arms Company at New Haven, Conn.

New Haven, Conn., Nov. 6.—An explosion took place Monday in the dryhouse connected with the works of the Winchester Repeating Arms company. The walls of the building were blown out and the window lights in adjacent buildings were shattered. No one was in the building at the time and very few in the other shops of the plant, owing to the fact that the explosion occurred at noon.

Corbin Going Abroad.

Washington, Nov. 6.—Adj. Gen. Corbin has arranged to take a month's leave of absence in order to recuperate his health, which is somewhat impaired as a result of the constant strain to which it has been subjected for the past three years, dating from the beginning of military preparations for the Spanish war. He has engaged passage on the American liner New York, sailing from New York on the 14th instant, for Southampton, and expects to return to this city and resume his duties by the middle of December. He will spend a week each in London and Paris.

HOLD DAILY CONFERENCES.

The Foreign Envoys Are Getting in Closer Touch on the Chinese Question.

Washington, Nov. 6.—Minister Conger's last advice to the state department indicate that satisfactory progress is being made by the ministerial corps at Peking toward the arrangement of a basis upon which negotiations shall be had with the Chinese government for a final settlement. The ministers have passed upon the question of punishments, and also upon several other important points, which are to figure in the negotiations. The results have not been made public. The Russian minister is understood to be participating actively in the discussions, and the proceedings are harmonious. So far these have been confined to the effort to secure a perfect agreement by all of the ministers upon the basis of negotiation, and up to this time no effort has been made to deal directly with the Chinese government. It is the understanding that when the ministers themselves have agreed upon their programme there will be little difficulty in securing its acceptance by the Chinese government, which is indeed powerless to offer serious resistance to the united demands of the powers.

Berlin, Nov. 6.—Regarding the present status of affairs in Peking, an official of the German foreign office made the following statement Monday afternoon.

"Conferences are occurring daily between the different ministers representing the powers in Peking, with a view of gaining a basis upon which they can proceed jointly and harmoniously. For this purpose lively telegraphic communications are just now passing between Peking and the different home governments. As yet the complete accord has not been obtained which is required to take a ray from Li Hung Chang every vestige of hope that he can achieve success by negotiating separately with any particular power. Only after such a thorough accord has been obtained will the representatives of the powers be ready to enter into actual peace negotiations with the Chinese plenipotentiaries. Whether the note of the powers to China will be a joint one or whether each power will hand in a note identical in form has not yet been decided."

Peking, Nov. 6.—The foreign envoys met again Monday morning and virtually agreed as to the points of chief importance. It was decided to leave minor differences to future discussion.

London, Nov. 6.—Dr. Morrison, wiring to the Times from Peking, says: "Vice Admiral Alexieff has addressed a communication to Li Hung Chang asking China's intentions regarding Manchuria and inviting her to resume the government of that territory under Russian protection, which, he says, will be of mutual advantage to China and Russia."

Hong-Kong, Nov. 6.—Reports from Canton say the East river rebels have moved up the river, and boats are now running from Pak-Lo to Huchan. It is considered probable that the rebellion will shortly die out. The reformers admit that the rising was premature and that they had not a sufficient supply of arms.

As the French demand the execution of the leaders in the Shek-Lung riots placards have been posted throughout the town urging the people to slaughter the foreigners if the demands are pressed.

WANTS BATTLESHIPS.

It Is Said That the Czar of Russia Will Order Five to Be Made in America.

New York, Nov. 6.—Russia is to place orders with American shipbuilders next year for five new battleships. News of the bare fact is made known by Joseph Spencer Kennard, one of the commissioners from this country to the Paris exposition, who arrived here Monday on the steamer Touraine. The contracts for the five battleships will involve more than \$20,000,000. Russia had the cruiser Variag constructed here, and the battleship Retvizan, the first battleship built here for a foreign country, is now being completed at Cramp's yard.

A Day of Disasters.

Toronto, Ont., Nov. 6.—Several fatalities occurred during the parade in honor of the South African volunteers Monday. Eliza Magee, aged 70, was knocked down by a buggy and instantly killed; Jennie Theckel, aged 18, was struck on the head by a falling board, and her skull was fractured. She died later. George Shaughnessy fell from the roof of the armory and had both legs broken and was injured internally. He will die. Charles Taylor, assistant chef of the Queens hotel, had his hand completely blown off by a giant fire-cracker.

Road Won't Be Built.

St. Petersburg, Nov. 6.—Prince Khilkoff, Russian minister of railways, authorizes the denial of the assertion of a leading German newspaper that Russia is planning to construct a railway from Samarkand to Hankow via the Kashgar valley, Lake Kukur and the Wei Ho and Hoang Ho valleys or any other route. He asserts that the intervening mountains are all but impassable and that such a line would cost billions of dollars, though it possibly may be built a hundred years from now.

AN AUSPICIOUS OPENING.

The Cuban Constitutional Convention Begins Its Sessions at Havana.

Washington, Nov. 6.—A cablegram received at the war department late Monday afternoon from Gen. Wood, military governor of Cuba, reports the enthusiastic opening of the constitutional convention at Havana. The dispatch is as follows: "Havana, Nov. 6.—Adjutant General Wood, D. C., Convention opened promptly at two o'clock. Immense enthusiasm and cheering for the United States. Absolutely harmonious. Every evidence that satisfaction of the people was complete."

"Military Governor."

Havana, Nov. 6.—The Cuban constitutional convention was called to order by Governor General Wood in the Marti theater at two o'clock Monday afternoon. Many evidences of friendship for the United States were given during the session. All proceedings were harmonious, and the delegates appeared satisfied with the outlook for the island's future. The following resolutions, signed by a majority of the delegates as senders, were presented to the temporary president of the convention just as it was adjourning for the day, and doubtless will be passed at the next session:

"The undersigned delegates propose that the assembly adopt the following resolutions:

"First—That a committee of the assembly proceed immediately to call on Gen. Wood and manifest the satisfaction with which the delegates have seen him carry out the delicate mission entrusted to him. "Second—That the same committee request Gen. Wood to telegraph to the president of the United States as follows: "The delegates elected to the constitutional convention, assembled at their inaugural meeting, greet with profound gratitude and affection the president of the United States of North America, and they are satisfied with the honesty demonstrated in the fulfillment of the declarations made in favor of liberty and independence of the Cuban people."

TRAGEDY IN ILLINOIS.

Wife of Farmer Leaves Man with Whom She Eloped—He Follows and Kills Her.

Lacon, Ill., Nov. 6.—W. J. Linn went to the home of Joseph Shafer, who resides ten miles west of this city, Monday morning and when the door was opened shot Mrs. Shafer dead. He also shot at Mr. Shafer, but missed him. Joseph Shafer is a farmer.

A month ago a young man giving his name as Jack Gordon, but whose real name is W. J. Linn, and who worked as a farm hand in the neighborhood, eloped with Shafer's wife. A few days later the couple returned and that night Linn was waited upon by a band of white caps, who dragged him from the house and ordered him to leave the country or suffer the consequences.

He went to Peoria and a day or two later the woman followed. Saturday Shafer went to Peoria and induced his wife to come home with him. Monday morning Linn appeared at the Shafer home and when the door was opened he shot and killed Mrs. Shafer. A second shot aimed at the husband missed its mark. Linn was arrested a few hours after in Wyoming, 12 miles distant, and is now in jail in this city. There is strong feeling against him and some talk of lynching.

ON A LONG TRAMP.

Austrian, Walking on a Wager from Vienna to Golden Gate, Pushing Wife in a Chair.

Antwerp, Nov. 6.—Anton Hamslian, an Austrian, who has a wager with an American newspaper that he can walk from Vienna to the coast and from New York to San Francisco in 250 days, passed through here Monday, wheeling his wife and children in a Bath chair. He left Vienna September 12 and sails for New York this week. He is accompanied by a friend who busies himself with selling post cards to assist in the expenses of the trip. It was this friend who walked from Vienna to St. Petersburg, wheeling his family, in 50 days.

Sugar Trust Defeated.

Washington, Nov. 6.—The federal supreme court has affirmed the decision of the lower court in the case of the American Sugar Refining company vs. the state of Louisiana. This was brought on a writ of error from the supreme court of Louisiana and involved the right of Louisiana to exempt from the operation of a general license tax on manufacturers, planters and farmers who refine their own product. The court held that it had been the policy of both the states and the general government to enact legislation in favor of home products.

Dowie Is Mobbed.

Edinburgh, Nov. 6.—Four thousand students bombarded "Dr." John Alexander Dowie's meeting here Monday night and caused great disorder. The mounted police had to be called to restore peace, and amid considerable disturbance they cleared the streets. During his speech the notorious "general overseer" of Zion, from Chicago, said that he was born in Edinburgh, educated at Edinburgh university and was still a British subject. He added to these remarks that all doctors and medical students were fools.

TRADE REVIEW.
Dun's Commercial Agency Presents View as to the Business Situation.

New York, Nov. 3.—R. G. Dun & Co.'s Weekly Review of Trade says: "The period of suspense is nearly over. Business has been longing for a free field in which to leap forward, but restricted buying largely to wants for immediate consumption. Some evidence appears of willingness to take speculative chances in the movement of a few standard goods, notably of iron and steel. The actual resumption of operations in the anthracite coal fields has added largely to the working force, and closing down of a few small steel plants is only in the nature of concentrating operations at more advantageous points, and has not much reduced the number of men employed. The weather in some sections has favored business, but at New York has been unseasonable, accounting for much of the loss of 15.3 per cent in bank clearings here, as compared with last year, though the week shows a gain of 20.3 per cent. over 1898. Encouraging signs multiply in the iron industry. Reports are current that American concerns have contracted for machine shops in Bremen and numerous bridges abroad, including some in Africa.

"There was some recovery in wheat, started by the statement that Argentina would not be able to export freely this year because of the injury to the growing crop. Corn did not join the advance to any extent, and provisions were generally quiet, except for a corner in October pork which compelled traders on the short side to cover contracts at \$20 when the month ended.

"Failures for the week were 198 in the United States, against 183 last year, and 23 in Canada, against 25 last year.

HOW WEAK CHILDREN ARE MADE STRONG, VIGOROUS AND WELL

Mr. and Mrs. Thomas Hallows, of Peckham St., Globe Village, Fall River, Mass., have cause to thank Dr. Greene's Nervura for restoring to health, and probably preserving the life of their little son. Almost from infancy Everett Hallows was troubled with indigestion and nervous troubles, and nothing seemed to help him. Finally Dr. Greene's Nervura was recommended and tried with success. A few bottles were sufficient to effect a cure, and to-day the little one is enjoying the best of health. By the use of Dr. Greene's Nervura the sickly child was transformed into a happy, hearty, robust boy.

Dr. Greene's Nervura for the Blood and Nerves

Thousands of other children can thank Dr. Greene and his wonderful remedy for the strength and health they enjoy. Children to whom it is given have less sickness, better health, better growth, and longer and more vigorous lives. Parents should realize that it is their duty to give it to every child who is not in perfect health. There are no diseases more dreaded by parents than fits, epilepsy, and St. Vitus' dance. Yet no child would be troubled by them if Dr. Greene's Nervura were given when the first symptoms appear.

Charles L. McBay, a highly esteemed police officer, who resides at 14 Myrtle St., New Bedford, Mass., says:

"About two years ago my little daughter became run down in health and suffered from St. Vitus' dance. Soon after she was prostrated by rheumatism, which severely affected her low limbs.

"After trying various remedies without obtaining relief, she began taking Dr. Greene's Nervura blood and nerve remedy, and experienced immediate benefit. She continued its use, and after taking five bottles her rheumatism was practically cured. Her appetite returned, her pains disappeared, she was again able to walk without lameness, her general health was restored, and she was able to attend school and to play like other children."

Dr. Greene's Nervura blood and nerve remedy, is the prescription and discovery of the well-known Dr. Greene, of 35 West 14th Street, New York City, who is the most successful specialist in curing all forms of nervous and chronic complaints, and he can be consulted in any case, free of charge, personally or by letter.

BOERS ARE ACTIVE.

Continue Their Attacks on British Forces—Losses of the Latter in October.

London, Nov. 3.—The South African situation is improving and Lord Roberts will shortly return to England with a majority of his staff. Arrangements are being made in Cape Town to send the first batch of refugees back to Johannesburg and accommodation is being provided at Bloemfontein for a garrison of 7,000.

Nevertheless the activity of the Boers continues. On October 26 a commando of 300 captured a garrison of 30 men at Reddersburg, but afterward released them. Trains from the south to Pretoria are attacked by the Boers almost daily. On October 24 the burghers occupied Koffyfontein. On the other hand Gen. Knox has inflicted a reverse on Gen. De Wet's forces near Parys, capturing two guns, one of them a weapon lost by the British in the Sannas Post affair.

The daily tale of British casualties is heavy. During the month of October the British lost 167 killed in action, including 15 officers, 71 who died of wounds, 367 who died of disease, 22 who died of accidents and 97 captured or missing, a total almost equal to the monthly average for the duration of the war.

KILLS HIMSELF.

Criticism of His Acts Said to Be the Cause of a Michigan Candidate's Suicide.

Grand Rapids, Mich., Nov. 2.—County Treasurer Henry B. Proctor, nominated by the republicans for state senator from the Seventeenth district, committed suicide Thursday by taking laudanum. Campaign criticism of alleged irregularities in the administration of the county treasury are thought to have impelled him to take his life. His deputies stoutly maintain that there is no shortage in his accounts. An investigation will be ordered.

All Return to Work.

Wilkesbarre, Pa., Nov. 3.—The officials of the Lehigh Valley Coal company and the laborers employed at their Dorrance and Prospect mine who went out on strike Thursday reached an amicable agreement Friday and all the men returned to work. The striking laborers employed at the Delaware colliery of the Delaware & Hudson company also returned to work Friday, the company compromising with them. It is said that some of the operators in this section will pay semi-monthly in the future.

Heavy Shipment of Cotton.

New Orleans, Nov. 1.—Eight steamships were cleared at the custom house here Wednesday for Liverpool, Barcelona, Genoa and Hamburg, with 76,767 square bales of cotton and 4,921 round bales. This is the largest amount of cotton ever cleared from any one port in one day. These vessels will also carry large quantities of wheat, corn, cotton seed products, etc.

New Orleans, Nov. 1.—Final reports to the Times-Democrat's correspondents place the cotton crop for 1900 at 9,790,000 bales.

Coal Goes Up.

New York, Nov. 2.—It is announced that prices of anthracite coal have been advanced 50 cents a ton over the nominal price of the July circular by the anthracite mining and carrying companies. The change covers the whole country beginning Thursday.

Big Order for Iron.

Berlin, Nov. 2.—The Westphalian Zeitung says that the North German Lloyd Steamship company has ordered more than a thousand tons of structural iron in the United States for its workshops and foundry, as against Westphalian competition.

How shall a mother who is weak and sick with some female trouble bear healthy children?
How anxious women ought to be to give their children the blessing of a good constitution!

Many women long for a child to bless their home, but because of some debility or displacement of the female organs, they are barren.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the parts, curing all displacements and inflammation.

Actual sterility in women is very rare. If any woman thinks she is sterile, let her write to Mrs. Pinkham, Lynn, Mass., whose advice is given free to all expectant or would-be mothers.

Mrs. A. D. Jarret, Belmont, Ohio, writes:
"DEAR MRS. PINKHAM:—I must write and tell you what your Vegetable Compound has done for me. Before taking your medicine I was unable to carry babe to maturity, having lost two—one at six months and one at seven. The doctor said next time I would die, but thanks to Lydia E. Pinkham's Vegetable Compound, I did not die, but am the proud mother of a six months old girl baby. She weighs nineteen pounds and has never seen a sick day in her life. She is the delight of our home."

Mrs. Whitney's Gratitude.
"DEAR MR. PINKHAM:—From the time I was sixteen years old till I was twenty-three I was troubled with weakness of the kidneys and terrible pains when my monthly periods came on. I made up my mind to try your Vegetable Compound, and was soon relieved. The doctor said I never would be able to go my full time and have a living child, as I was constitutionally weak. I had lost a baby at seven months and half. The next time I continued to take your Compound; and I said then, if I went my full time and my baby lived to be three months old, I should send a letter to you. My baby is now seven months old, and is as healthy and hearty as any one could wish. I cannot express my gratitude to you. I was so bad that I did not dare to go away from home to stay any length of time. Praise God for Lydia E. Pinkham's Vegetable Compound; and may others who are suffering do as I did and find relief. Wishing you success in the future as in the past, and may many homes be brightened as mine has been."—MRS. L. Z. WHITNEY, 4 Flint St., Somerville, Mass."

DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price.

By dealers, agents, etc., and in a few instances as a premium for subscriptions to papers. Announcements of these comparatively worthless reprints are very misleading. They are advertised to be the substantial equivalent of a higher-priced book, while they are all Reprint Dictionaries, phototype copies of a book of over fifty years ago, which was sold for about \$5.00, and which was much superior to these imitations, being a work of some merit instead of one Long Since Obsolete.

The Webster's Unabridged Dictionary published by our house is the only meritorious one of that name. It bears our imprint on the title-page and is protected by copyright from cheap imitation. As a dictionary lasts a lifetime it will not be better to purchase the LATEST AND BEST,

Probate Order.

STATE OF MICHIGAN, County of Washtenaw, ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Thursday, the 1st day of November, A. D. 1900.

Present, H. Wirt Newkirk, Judge of Probate.

In the matters of determining who are the lawful heirs of Abigail Adams, deceased, and entitled as such to inherit lots number forty-nine (49) and fifty (50) in Ransom S. Smith's first addition to the city of Ann Arbor, Michigan, also who are now entitled to said lots.

On reading and filing the petition, duly verified, of Noah W. Cheever, as agent and attorney for Charles K. Adams and Ellen J. Butts, who are now the owners of said lots, praying the court to determine who are the heirs of said Abigail Adams, deceased, and entitled to the said lots as aforesaid.

Thereupon it is ordered, that Friday, the 30th day of November next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said Abigail Adams, deceased, and all other persons interested in her estate, be required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, in said county, and show cause, if any there be, why the said petition should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and a hearing thereof, by causing a copy of this order to be published in the Chelsea Herald a newspaper printed and circulated in said county three successive weeks previous to said day of hearing.

Another Word to the Ladies.

EDITOR HERALD, Chelsea, Mich.: We understand there are still a few ladies in Chelsea and vicinity who did not take advantage of our recent offer to send an elegant silver-plated sugar bowl absolutely free of charge to any married lady who would simply ask for it, so we will renew the offer for a short time only. We sell these bowls regularly at 40 cents each. Retail jewelers ask 50 to 75 cents for such goods. They are exquisitely beautiful creations in high-grade silver plate. To further advertise our ware we will send one, post paid, to every married lady who has not received one. This announcement should be cut out and returned to us with your request. (This is important). Also please enclose a stamp or two to help pay cost of mailing. QUAKER VALLEY MFG. CO., Morgan and Harrison Sts., Chicago.

A Wonderful Offer to Women.

We have received word of a most remarkable offer which is to be made to women by The Delineator, of New York.

Taking the fact that next year begins a new century, The Delineator offers to distribute \$17,500 among 1901 women. The plan is so cleverly arranged that a woman living in a small town or village, has just as good a chance to win one of these 1901 prizes as a woman living in a city—because the prizes are given for the number of subscriptions secured in a town in proportion to the population of that town, instead of being given simply to those who send the largest list of subscribers—which, of course, are most easily obtained in big cities. Another clever feature of the plan is, that all the cities and towns of the United States and Canada have been arranged in seven classes. The cities of the greatest population are grouped in Class 1, and as these cities are not very many, the prizes offered are twenty-eight; the highest prize being \$500, and the lowest \$5.00. The total amount of prizes given away in this class is \$1,000. The remaining smaller towns and villages fall into six other classes, and as the number of towns in a class increases, because, of course, there are more small towns than large ones, the amount of prizes given away to a class increases, so that in Class 7, there will be \$4,000 distributed among 601 winners.

Furthermore, to everyone who fails to win one of the 1901 prizes there will be paid an extra commission on subscriptions, provided they equal one out of every two hundred inhabitants of the town from which the contestant sends them.

This is altogether a very liberal offer, and one which the famous old Delineator is well able to make good. From our point of view, we do not see why such an offer needs to be made by the Publishers of The Delineator, for we believe it already has nearly half a million subscribers. Its strong hold upon the affections of American women has come in the past generation, from its practical advice about dress details and home matters.
