W. W. Union Farmers' Club.

The meeting of the W. W. Union Farmers' Club at Mr. and Mrs. O. T. Hoover's, in this village, last Thursday was attended by over 50 members. M. L. Raymond presented the question "How shall we carry on our primary elections to secure good and honest men to represent us in office?" and Mrs. W. E. Stocking the question "What will the 20th century woman be in home and business life?" Both were good papers and were well discussed. Miss Nellie Mingay also gave a recitation. The next meeting of the club will be held Friday. April 19, with Mr. and Mrs. Emil Zincke, of Lima.

A New Musical Society.

The St. Cecilia, a musical society lately organized and directed by Miss Frances Taylor, of Ann Arbor, held its first meeting Tuesday evening at the home of Mrs. A. A. VanTyne. An interesting program was given by the members, and a short talk upon "The use of the breath and tone placement," by Miss Taylor, All voted it a very pleasant and profitable meeting. Mrs. VanTyne added greatly to the enjoyment of the evening by serving a dainty repast. The St. Cecilia expects to hold a similar meeting the last Tuesday in each month.

Noted Boston Woman Describes its Symptoms and Terrors.-Two Severe Cases Cured by Lydia E. Pinkham's Vegetable Compound.

"I am so nervous! no one ever suffered as I do! There isn't a well inch in my body. I honestly believe my lungs are diseased, my chest pains me so, but I have no cough. I am so weak at my stomach, and have indigestion terribly, and palpitation of the heart; am losing flesh; and this headache and backache nearly kills me, and yesterday I had hysterics.

"There is a weight in the lower part of my bowels, bearing down all the time, with pains in my groins and thighs - I can't sleep, walk, or sit, and blue - oh goodness! I am simply the most miserable of women."

This is a most vivid description of a woman suffering with nervous prostration, caused by inflammation or some other diseased condition of the womb. No woman should allow herself to reach such a perfection of misery when there is no need of it. Read about Miss

Williamson's case and how she was cured. Two Bad Cases of Nervous Prostration Cured.

"DEAR MRS. PINKHAM; — I was suffering such tortures from nervous prostration that life was a burden. I could not sleep at all, and was too weak to walk across the floor. My heart was affected so that often I could not lie down at all without almost suffocating. I took Lydia E. Pinkham's Vegetable Compound and it worked like magic. I feel that your medicine has been of inestimable benefit to me."

MISS ADELE WILLIAMSON.

"I had nervous prostration terribly, caused by female weakness. I suffered everything; was unable to eat, sleep, or work. After a while I was induced to try Lydia E. Pinkham's Vegetable Compound, and I really began to improve on taking the first bottle. I continued to take the medicine, and am now better in every way, and feel like a different person. I am simply a well woman."

Its Establishment Due to the Defenders of the Alamo.

They Died That Freedom Might Live Forever in the Land They Loved _Fought as Nobly as the Heroes of Thermopylae.

[Special San Antonio (Tex.) Letter.] HE battle, or rather, the siege, of the Alamo, which began on the 23d of February, 1836, culminated on March 6 of the same year, in the slaughter of 190 Americans, at the hands of not less than 3,000 trained Mexican soldiers, under the command of the president of Mexico, Gen. Antonio Lopez de Santa Anna, who was the Gen. Weyler of his day.

The defense of the Alamo was not only one of the most heroic deeds emblazoned on the pages of history, but it marked an epoch, the importance of which has not yet been fully realized. At that time Mexico, a thoroughly organized nationality, with 7,000,000 population, was engaged in a supreme effort to wipe out of existence 30,000 scattered Americans, who had settled in Texas, on the invitation of the Mexican government, which found itself, after a century of failure, unable to hold the country against the attacks of the native Indians.

The importance of the battle of the Alamo is based on the fact that the stubborn defense of the garrison enabled Gen. Sam Houston to collect his scattered forces and annihilate Santa Anna at San Jacinto, on April 21, 1836. But for the Alamo, the Mexican despot would have carried out his threat of subjugating the province and putting all the inhabitants to the sword. It was the Alamo that made San Jacinto, one of the decisive battles of history, possible. Indirectly it secured the establishment of the republic of Texas, which later on was annexed to the United States. Few people realize the immensity of Texas or the greatness of its resources. Its northern and southern boundaries are 670 miles apart, while from east to west it measures 825 miles. It extieth degree of longitude west from Mexicans. Washington. Texas has a population of millions and cities of upwards of 50,000 inhabitants, with every invention and convenience of modern improvement.

light hair, blue eyes, with reddish beard and whiskers, well proportioned, a fine-looking figure, Penned up, and doomed to die with Travis and his little band, were David Crockett and James Bowie, men of heroic mold, whose names are household words wherever the English language is spoken, men who had they lived in the middle ages would have been classed with Godfrey de Bouillon and Richard, the Lion-hearted.

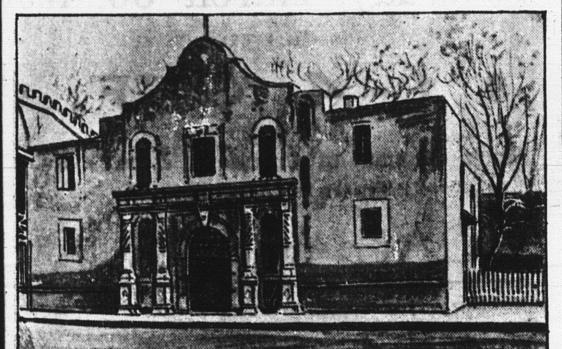

Shortly after midnight on Sunday morning, March 6, 1836, the eleventh day of the siege, the Alamo was closely surrounded by the entire Mexican army. At daylight the charge was sounded, but the Texans were ready, and the assaulting columns were hurled back by the withering fire of the defenders. A second assault was

made, but again the Mexican soldiers reeled and fell back in dismay before the deadly shower of grape, musket and rifle balls. Then there was a pause, and for a while it seemed as if the Mexican soldiers could not be induced to renew the attack. A third assault, due mainly to the threats and promises of Santa Anna was made. At length the exhausted Texans could no longer keep back the hundreds of Mexicans who took the place of those who were killed or hurled down from tends over ten degrees of latitude, the scaling ladders. Then the plaza of and from the sixteenth to the thir- the Alamo swarmed with infuriated

But the fiercest fight was to come when the Mexicans undertook to dislodge the surviving Texans who took refuge in the church and convent. sheep, besides vast mineral wealth, fell into the arms of Uncle Sam, was due, indirectly at least, to the heroic determination of the hero of the Alamo and his intrepid followers, to neither retreat nor surrender. Another great result of this wonderful battle was the war with Mexico, in which the Texans once more "glutted their ire" on their former oppressors, and more than wiped out the old scores of the Alamo and Goliad, at which last-mentioned engagement 330 Texans under Fannin, who surrendered with the guarantee that they were to be treated as prisoners of war, were horribly massacred in cold blood by their inhuman captors. This explains the war cry of the Texans, when at San Jacinto they shouted: "Remember the Alamo! Remember Goliad!" to the dying Mexicans, whom they butchered like sheep, who on bended knees and with uplifted hands pleaded in vain: "Me no Alamo! Me no Goliad!"

The Mexican commander, Gen. Anlonio Lipez de Santa Anna, was born in 1798 in Jalapa, Mexico, and early in life assisted in throwing off the Spansh yoke. In 1833, after having revolutions, he was elected president, which was only another name for revolutionist, but a man of immense energy, considerable military ability, given the Cubans by the Spaniards.

The Mexicans forced their way inside the church, which was a seething mass of enraged demons, stabbing and hacking each other, until finally there were no Texans left capable of offering resistance. The feeble garrison could not hold out against such overwhelming numbers.

Travis, who had so nobly redeemed his promise neither to retreat nor surrender, mortally wounded by a musket ball, impaled with his sword a Mexican lancer who attempted to dispatch him, and they did together.

Crockett, after performing prodigies of valor, took refuge in a small room, the baptistry of the church, and clogged up its door with dead Mexicans before he was killed.

Bowie, who was sick unto death with fever, was in one of the small rooms adjoining the chapel, during the final struggle. He was lying on his pallet, his head in the lap of a kind-hearted Mexican woman. The Mexican soldiers rushed in and tossed about on their bayonets the body of the dying

Bonds Gone.

It has come to light that George Graham, of Berrien Springs, is short \$30,000 worth of negotiable bonds, left in a strong box vault of the First national bank at Niles. Graham applied to the receiver for the bonds and he stated that they could not be found. This evidently accounts for the report which emanated from Washington that Cashier Johnson is short \$130,000.

Death of a Jurist.

Judge James B. McMahon died in Ludington of pneumonia. He had been circuit judge of the Nineteenth circuit since 1885 and was one of the most prominent barristers and one of the most brilliant orators of Michigan. He was graduated from the University of Michigan in 1875, was probate judge in 1880 and later assistant United States district attorney.

In the Toils Again.

Caleb Lincoln, of Union City, went to Jackson and was held up and robbed of \$25 or \$35. Alonzo Perry and Harry Lett, both colored, were arrested, charged with the crime. Perry is the man sent to prison from Lansing for perjury in the Lauzon murder case a few years ago, and was pardoned by Gov. Pingree at the close of his term of office.

Bank Cannot Resume.

Charles A. Johnson, the fugitive cashier of the First national bank of Niles, was captured in Columbus, O., by a secret service officer. He is charged with having stolen \$150,000 and admits his guilt. As the bank will be unable to resume business a permanent receiver will be appointed to close up its affairs.

Counties Have Settled.

The last of the 88 counties has settled its account in full with the auditor general for the quarter ended December 31, 1900. This makes the fifth consecutive calendar quarter in which all the counties in the state have settled their accounts in full.

SURRENDERS TO POLICE.

John L. Wood Wanted in Michigan Confesses to Misappropriation of Township Funds.

Eureka, Cal., March 23. - John L. Wood, who is wanted in Michigan for embezzlement, has delivered himself up to the police. Wood says he was treasurer of Goodar township in Ogemar county, Mich. He was also engaged in the lumber business, owning and operating a small mill. In the course of his business he used about \$1,200 of the township funds, believing he had ample assets to cover the amount taken. When a call for funds came, his failure to coilect debts due him made it impossible to meet the obligation. Since his exposure was made on the 7th of last July, Wood had not heard a word from his home, where he has a wife and family.

Aged Banker Dead.

Detroit, Mich., March 21.-Albert Ives, the oldest banker in Detroit, died at his residence here early Wednesday aged 91 years. In 1847 he established the private bank of A. Ives & Sons, which failed last fall. Mr. Ives, who had retired from active business, was kept ignorant of the failure, and up to his death believed the institution to be flourishing. He was born in Wallingford, Conn., and came to Detroit in 1837.

Reach Malta.

Malta, March 26.-The steamer Ophir, bearing the duke and duchess of Cornwall and York on their tour of the world, arrived here Monday morning. The warships in the harbor were manned and dressed. The sun shone brightly and the crowds were early astir, pouring into Valetta and filling the terraces and ramparts commanding a view of the harbor.

The Brewer Funeral.

Pontiac, Mich., March 23. - The funeral services of Hon. Mark S. Brewer, ex-civil service commissioner, who died in Washington, D. C., last Tuesday, were held here Friday in the First Presbyterian church. At the conclusion of the ceremonies the body was interred in Oak Hill cemetery.

EXPLOSION IN A MINE.

One Man Kiled and Many Others Are Injured in a Colliery in Pennsylvania.

Connellsville, Pa., March 26.-The first and most fatal mine explosion to occur in the new Klondike region of Fayette county happened Monday. One man was kfilled instantly, five will die, and ten are burned and crushed so terribly that it is doubtful if they will recover. The body of the dead man is missing, the injured men have been brought to the Cottage state hospital, and as a result of the explosion the mine is on fire. The cause of the explosion was an accumulation of gas in the heading of the Gates mine, one of the new mines opened up this winter by the American Steel & Wire company, which has lately been merged into the United States Steel corporation.

The Gates plant is located just across the Monongahela river from Masontown. The fire boss of the new mine is Michael Caffaghan, but recently appointed. He made his rounds early Monday morning as usual, and found no gas. At 8:50 o'clock a blast was prepared in a heading parallel to the main heading. A group of 16 miners had gathered in a cross entry about 600 feet from the bottom of the shaft and 50 feet from the face. The charge of powder was put into the blast as usual and touched off by Michael Goble, the "blaster." In the meantime a pocket of gas had accumulated at the face and gradually drifted out toward the heading. It is supposed that the slight fall or a sudden issue along the floor of the heading caused the presence of the gas. The same instant that the fuse was touched off there was a blinding flash which suddenly filled the entry in which the miners had taken refuge. The American miners who are able to tell anything of the accident say that there were really two explosions.

The news of the explosion spread rapidly, and soon the people were flocking to the mouth of the mine. A wild crowd gathered at the pit mouth. Meantime in the black depths of the mine groans, prayers and imprecations filled the black tunnel. A row of new mine cars stood near the scene of the blast, and the men stood near them laughingly waiting for the boom of the explosion of the blast. In an instant they were mixed in a horrible mass of writhing burned bodies and wrecked pit wagons. The rescuing party were remarkably quick in the work of going to the aid of the entombed men. When all the burned miners were brought to the surface they numbered 16. Six of them were taken to their homes at Gates. The others were placed in an empty box car which was half filled with clean straw and brought to this place, and soon all the available physicians were attending to the wounds of the sufferers.

BATTLE IS REPORTED.

Kitchener Tells of an Engagement in Which Boer Prisoners and Guns Are Taken.

London, March 26.-The war office has received the following dispatch from Lord Kitchener:

"Pretoria, March 25.-Babington's force, including Shekleton's column, attacked Delarey, 1,500 strong, southwest of Ventersdorp, and having defeated him followed him up rapidly with the result that the Boer rear guard was driven in and their convoy, including the guns captured at Vaal's bank. Our troops displayed great gallantry and dash. They captwo 15-pounder guns, one pompom, six Maxims, 320 rounds of big ammunition, 15,000 rounds of small ammunition, 160 rifles, 53 wagons and 24 carts, besides taking 140 prisoners. Our losses were slight. Many Boers were killed or

Cape Town, March 26.—It is said the Boers lost very heavily in attacking the garrison at Lichtenburg last week. Upwards of 70 burghers are reported to have been shot at one spot among the wire entanglements.

London, March 26 .- The colonial secretary, Mr. Chamberlain, when asked in the house of commons Monday if it was possible to change the offer of peace terms to the Boers, said the negotiations were closed and there was no intention of reopening

them. The Pretoria correspondent of the Standard says that it is obvious that some months must pass before Boer resistance can be crushed.

NO STRIKE LIKELY.

Operators Agree to the New Wage Scale Demanded by the United Mine Workers.

Pittsbrgh, Pa., March 26.-Patrick Dolan, district president of the United Mine Workers association, announced Monday that after a conference lasting more than three weeks, the operators conceded the demands made by the miners in the new wage scale, and a fair settlement for the Pittsburgh district has been effected. A disagreement seemed inevitable on Satu and a call was issued for a convention to be held Thursday next to consider the advisability of striking, but all the convention will have to do will be to ratify the scale as signed. The miners' rfficials will take up the Beaver and Irwin district scales this week

A Large Auction.

The largest farm auction ever held in this county was held on Wm. Boyden's farm, 2 miles northeast of Delhi, March 20, conducted by Auctioneer Geo. E Davis, of Chelsea, assisted by Charles Bullen, of Parma.

As your scribe was curious to see the whole of this great sale he took the 7:15 train arriving at the farm about 8:40, and already about 200 men were on the ground From a large platform wagon, Auctioneer Davis was selling the accumulation of small tools resulting from 70 years life on a 600 acre farm, as fast as five men could hand them to him, and a clerk could take them down in shorthand. It took many a double team to draw just these small articles away. At 10:45 these goods were all sold, and then came the march down the lane, south, on each side of which for 20 rods was a row of tools, packed close together. This circuit was made just as the bell rang for dinner. By this time over 1,000 people had arrived and 12 men were detailed to serve lunch.

After lunch Auctioneer Davis made a happy little greeting to the crowd and again took up the line of march to the north through two rows of wagons, carriages, farming implements and machinery of every description, each row 20 rods long. At the end of these rows, and the last to be sold, stood a low platform wagon, on which 29 ladies who had witnessed the sale were standing. As Davis stepped upon the platform he said "This is the largest load of sweetness I ever saw," and as he extended his hand to throughout the grounds. Double rows assist another blushing young lady to join them, he added "Never in my life did I buildings. Foliage and flowers there want to be set back to 20 years old so will be in great profusion. In the horbadly as now," then he offered them all ticultural embellishment of the grounds at auction and after some spirited bidding they were struck off to Cash Valentine at \$1,500 apiece.

Next came the fine flock of registered Merino sheep, thoroughbred Shorthorns and horses. Auctioneer Bullen conducted this part of the sale, grade cattle bringing from \$60 to \$90, bull calves eligible to register, from \$100 to \$110.

The sale amounted to between \$4,000 and \$5,000. This was the 23d sale Davis had had since Jan 1, and he had 21 sales from October to Christmas.

HORTICULTURE EXHIBIT.

Will Be One of the Principal Features of the Exposition.

Horticulture, viticulture and floriculture are linked together in one great class. In the midst of a country of orchards and vineyards the Pan-American Exposition will have abundant material close at hand and of the finest quality from which to make an exhibit worthy of the great event. The extensive floral decorations of the grounds constitute a rich display in floriculture, and several acres, including hundreds of beds, are devoted to the exhibits made by leading florists of the country. Flowers in profusion will welcome the earliest visitors and breathe out their fragrance and display their incomparable beauty the season through. Thousands of trees and shrubs flourish of thrifty trees surround the principal the Pan-American will far surpass the efforts of all former expositions.

In the handsome and commodious Horticultural Building all the popular fruits of the different countries represented in the Pan-American Exposition will be displayed. With a suitable refrigerating room upon the grounds, it will be possible for the management to make a daily fresh display of fruit. Throughout the term of the Exposition, when certain fruits are at their best, special displays will be made of certain varieties. The exhibit from southern California will be particularly large, and New York and other states will be represented befittingly. Bottled productions will also have a place here, the wine growers of the Chautauqua, central New York and Hudson river regions having applied for space for extensive exhibits. The opportunity for a timely display of choice native fruits will be improved. Dried and preserved fruits will be exhibited here. Articles and appliances used in horticulture will also be shown in this division.

The exhibits of nursery stock, including orchard and ornamental trees, shrubs and evergreens, will be unquestionably among the finest, if not the finest, ever made. The most prominent nurserymen in the country have interested themselves and will aim to outdo any former show of the kind. No less interest is taken by the leading florists, who are arranging exceptionally fine displays. Many large beds of flowers were planted some months ago, and they will aid in beautifying the scene from the early days of the Exposition. MARK BENNITT

Score a Victory in Their Track Meet with Men from the University of Chicago.

THE CONTEST WAS HELD IN ANN ARBOR

Student Coming from Cuba-College Paper by Women-Narrow Escape from Fire Caused by an Explosion -Immediate Needs of University for Permanent Improvements.

[Special Correspondence.]

University of Michigan, March 25. -Michigan has again been victorious. This time it was in a track meet with ten picked men from the University of Chicago. The contest was held in Ann Arbor, March 16. The score in points was Michigan, 55; Chicago, 17. The only event in which a Chicago man won first place was the 40-yard hurdle. In the one-half mile run Howard W. Hayes, the Michigan man, lowered the University indoor record by three seconds and the world's indoor record by 11-5 seconds. He made the distance in two minutes and three seconds. A summary of the events follows:

Forty-Yards Dash-Nufer, Haslam, Fishleigh and Hahn ran for Michigan without competition.

Four Hundred and Forty Yards Run-Nufer, Michigan, 5; Horton, Chicago, 3.

cago, 5; Robinson, Michigan, 3. Time, High Jump-Snow, Michigan, 5; White. Michigan, 3. Height, 5 feet 5 inches. Robinson injured his ankle in the high

jump and had to retire. Four More Meets.

Athletes will enter in four more meets before the close of the college year. May 8 the annual 'varsity outdoor meet will be held at Regent's in a field day. As many men as can qualify will be sent to New York city May 25 to contest in the eastern intercollegiate track games. Later a team will be sent to Chicago to win the western intercollegiate meet. Last year the men from the University of Michigan Secured the largest number of points in this latter con-

A Cuban Coming.

The university has been promised a live Cuban for a student next year. Anton Carballiera, who is now in Grand Rapids teaching Spanish, will take up college work in the fall. His father was a Spaniard and his mother a native of Cuba. After the close of the ten years' war his parents and himself were thrown into prison. His father was subsequently shot and his mother escaped with him to Jamaica, where he was apprenticed to a eigarmaker. When the last war broke out Carballiera went to Cuba, enlisted in the services of the natives and became a member of the staff of Gen. Gomez.

College Paper by Women.

The May number of the Inlander, the college library publication, is to be published by the women of the university. It is to be different, however, from any previous women's edition, in that it is to contain no article on coeducation, it is to have no halftones of the women who have been most closely identified with coeducation at the university, and it is to have no articles by these persons. It is simply to be a high grade magazine got out by the girls of the university. Among the features planned is drawing of the Michigan college girl. This is to be obtained by a study of 100 typical college girls. This number of the magazine will consist of 64 pages. An edition of 2,000 has been ordered.

A Big Explosion.

The general chemical laboratory had a narrow escape from fire recent ly. A student was distilling benzaldehyde with a naked flame when the glass fask cracked, and the chemical exploded. Benzaldehyde is highly inflammable, and when the ganon being experimented with took fire the entire distilling room became filled with flames. Only by an immediate and generous use of water was the building saved from destruction.

Needs of the University.

The immediate needs of the university for permanent improvements are a trifle under \$400,000. The items making up the larger portion of this amount is \$250,000 for a science hall. scientific laboratories which at presfor adding boilers and dynamoes to duce to 21/2 cents, and the case, which dental department, having outgrown order, is pending.

its present quarters, desires a new building at a cost of about \$50,000. The heating and ventilating apparatus at the general library is out of repair, and nearly \$20,000 is needed for this purpose. Lastly, the heating plant at the university hospital is proving inadequate, and something over \$25,000 is needed to erect a new building and fill it with boilers. R. H. E.

SOLDIER BOY IS FALSE.

A Michigan Nurse Finds That the One She Married in Tennessee Already Had Two Wives.

A suppressed decree of the Washtenaw circuit court made in December last has just been discovered in Ann Arbor. When the Spanish war broke out Miss Alice Larned, a trained nurse of that city, enlisted under the banner of the Red Cross society. At Chattanooga, Tenn., she met John F. Reynolds, a soldier of the Fifth Illinois regiment and, believing in his words of love, consented to a marriage, which took place on July 31, 1898.

On the third day after the marriage ceremony was performed she was transferred to Nashville, Tenn., and there happened to pick up a newspaper, to learn that she had been deceived by the man she had trusted. She read that John F. Reynolds had another wife. She investigated, and not only confirmed the newspaper report, but ascertained that he had two former wives living and undivorced. She has not seen Reynolds since.

When Reynolds came back with his regiment to be mustered out of the United States service he was arrested for bigamy, and on February 10, 1899, he was convicted and sent to an Illinois prison on an indeterminate sentence. There was little trouble for Miss Larned in getting a decree from the court in Ann Arbor annulling the marriage.

His wife was not informed of his death for fear of the effect the news might have on her health. Limbert has been in the west and before his death spoke of large property interests in the neighborhood of Colorado Springs. He had a large amount of money on his person, also valuable papers. The family does not know why Mr. Limbert came back after so many years unless he felt that his end was near and he wished to be with them.

MICHIGAN EDITORS.

Press Association Holds Its Annual Meeting in Lansing and Selects New Officers.

The Michigan Press association held its third annual session in Lansing. Among other business transacted the association instructed its executive committee to arrange an excursion to the Pan-American exposition at Buffalo during the early summer. Treasurer E. S. Andrews reported a cash balance on hand in the treasury of \$245.69. The following officers were elected:

FEERING IN JAIL AGAIN.

Man Who Secured a Pardon from Ex-Gov. Pingree Charged with Assaulting Three Women.

Joseph Moran was one of the convicts whom Gov. Pingree pardoned during the exodus from the prison during the last days of the governor's official career. He was sent to the prison March 7, 1891, for eriminal assault upon Mrs. Eastman, an aged lady of exemplary life, living alone in a small house in the outskirts of the city. The police now have Moran under arrest for a similar atrocious crime, and there is no room for doubt of his guilt.

Moran went to the home of Mrs. Mary H. Kress, wife of the county orain commissioner in Jackson, broke down the door and grabbed the detenseless woman, who is 59 years of age and was alone in the house. He was armed with a knife, and in the struggle which ensued Mrs. Kress was cut in the hand. Moran then repeatedly assaulted her. After accomplishing his purpose he proceeded of a deliberate search of the house, taking a revolver, with which he kept the territied woman in subjection, and secured \$20 in money. He also went to the house of John and Ed Fessenden, in the northwestern part of Jackson, during the absence of the men, and on being refused admittance, burst open the door and assaulted the two women. Though this was at once reported to the police, no action was taken, the description of the assaulter being defective, the police claim. Moran was fully identified by Mrs. Kress and the

Mrs. Kate Green, of Coldwater, Has Seen One Hundred and Eleven Years and Is in Good Health.

Mrs. Kate Green, of Coldwater, celebrated the one hundred and eleventh anniversary of her birth, and is without doubt the oldest person in Michigan. SAW HER BROTHER.

Mrs. William Black Recognizes in a Biograph View in Detroit One She Supposed Dead.

Mrs. William Black, of Detroit, saw a picture of her long-lost brother, Allen McCaskell, in a biograph view at Wonderland the other afternoon. She said:

"Something made me look up when the picture of the Fourteenth regiment evacuating Peking was shown. There, before my very eyes, was my brother, walking along and smiling. It is a very clear picture, and the figures stand out in bold relief against the white background of the Chinese wall. My brother is a tall man-six feet two-so that I couldn't mistake him. Over a year ago he had yellow fever, and was in the hospital a long time. He sent me a picture from Manila and a box of handkerchiefs. Since then I haven't heard from him, nor has any of the family, and we thought him dead. He enlisted as a volunteer at the time of the Spanish war, and was all through the campaign of Cuba. After that he joined the regulars and went to the Philippines, and then to China."

SOCIALIST DEMOCRATS.

Meet in State Convention in Detroit and Select Candidates for Judge and Regents.

The socialist democratic party met in convention at Tinnet's hall in Detroit to nominate candidates for the supreme bench and regents of the university. Delegates were present from St. Clair, Saginaw, Flint, Battle Creek, Ann Arbor and Detroit. The convention was the largest held in years, 33 delegates responding to the roll call. For the supreme court, George East-:nan, of Detroit, was nominated, defeating James H. McFarlane, of Flint, by a vote of 22 to 11. There were three candidates for regent-W. H. Smith, of St. Clair; D. J. Jeannerett, of Ann Arbor, and Henry Danbeen, of Flint. The two former were nominated, but one ballot being necessary in each case.

Wasn't Drowned.

C. J. Pickett, of Bay City, has received a letter from his nephew, Charles E. Jaycox, of Jackson, who is supposed to have been one of the victims of the steamer Rio de Janeiro disaster at the Golden Gate. The letter came from China. Jaycox says he had taken passage on the Rio, but at the last minute decided to remain in China and asked to have his name removed from the steamer register, but it was not done, and it was supposed he was lost.

Indian Reservations and Other New Districts to Be Opened Up This Year.

the Great Saskatchewan Valley, and the Fertile Plains of Assiniboia.

To the Editor. Dear Sir: The past three or four western Canada. Tens of thousands have taken advantage of the offer made by the Canadian government as well as of the exceedingly low prices asked for lands by the railway, colonization and other companies. The experience of those who have been settled there for some little time is of a highly gratifying character. So much so that the Canadian government, who has control of the immigration into western Canada, has decided to open up some new districts this year in the well-known Saskatchewan valley, and also in the fertile plains of Assiniboia. These districts are probably the most productive in the entire west and in close touch to largely settled communities, as well as being situated on some of the most important lines of railway. They are within easy reach of markets, schools, churches and other social advantages. In some of these districts lands may he homesteaded as well as purchased outright at very low prices. Now as to what can be done on these lands. The evidence of the settlers in the neighborhood of the lands now about to be opened for settlement (some of them being located in one of the best Indian reservations) goes to show that the very best results have followed even most indifferent methods. Cases are given where farmers having gone there with most limited means, barely enough to erect a small house and break up a little land, have in three orfour years' time become prosperous. all debts paid and money in the bank. The soil in the districts mentioned, Assiniboia and Saskatchewan, is a rich black loam, 15 inches to three feet deep. As a settler says: "It appears like the accumulation of decayed vegetation and ashes for centuries (the subsoil is a stiff putty clay)." On this soil it is possible to raise from 40 to 50 bushels of wheat to the acre: oats. 75 to 100 bushels, all of which bring good prices at the local market. For mixed farming these new districts are probably among the best in western Canada. Stock fatten easily on the wild grasses. Hay is plentiful, and prices splendid. Another settler writng to a friend in Iowa says: "The climate is all that could be desired, plenty of rainfall in summer, with no hot, dry winds. On the 28th of September I saw prairie flowers in full bloom, sweet corn, potato and fomato vines that had not been touched a particle with frost, and the winters re milder than those in the state from which I came. After the holidays the winter sets in clear and cold, with plenty of snow for good sleighing; no high winds or blizzards are known. Horses live out all winter and pick their own living, while cattle we all winter in open sheds and around the hay ricks. Wheat, oats and barley are the principal grain crops. Potatoes and all other roots and vegetables do well, the yield being enormous as compared to those in the states. Wild fruits, such as strawberries, raspberries, cranberries, gooseerries and all varieties of currants field in abundance. As a reader of your valuable paper for a number of fears, I feel that I should inform you of the progress and advancement being made in Canada within the past few years and the inducements and advantages that will follow settlement in western Canada. those who desire information can do as I did, and apply to any agent of Canadian government, whose ae, I see, appears in advertiseents appearing elsewhere in the colans of your paper, and when writsak particularly about the Sastchewan Valley or Assiniboia Dislets. Yours truly,

Scores of Buildings Are Demolished -Twenty-Five Persons Killed and Many Injured—In Other States.

Birmingham, Ala., March 26 .- Shortly before ten o'clock Monday mornyears have demonstrated to a large ing a fearful tornado, traveling in an number of Americans the value of the easterly direction, swept over the grain-growing and ranching lands of southern part of this city. The number of killed is estimated at 25, of whom five are white. The destruction of property is placed at a quarter of a million dollars. Eighteen bodies had been recovered up to seven p. m., and scores of injured have been removed to the hospitals. Among the dead are Dr. G. C. Chapman, of the firm of Tally & Chapman, who conduct a private infirmary in this city, and the wife and infant child of Hon. Robert J. Lowe, chairman of the democratic state executive committee. Following is the list of identified dead and fatally injured:

The Victims.

Dead-Dr. G. C. Chapman, Mrs. Robert J. Lowe, infant chin of Mrs. Lowe, J. Alexander, little daughter of B. B. Hudson, F. Myro (colored), collector of Union Mutual association, of Mobile; Carrie Hudson, Maggie Blevins, Carrie Henry, Lizzie Glen, cook for B. B. Hudson, unknown carpenter, struck by flying lumber, Fatally Injured-Mrs. R. H. Thomas, Mrs. W. H. Thomas, Mrs. D. D. McLaughlin, Mrs. J. Ferguson, Mrs. Mylum, Carrie Elin (colored).

The known injured number 34.

Path of the Storm.

The storm struck the city in the extreme southwestern corner, and plowed its way eastward, leaving a path 150 feet wide through the entire southern section, extending from Green Springs on the west to Avondale on the east, and continued its course until its fury was spent in the mountains beyond Irondale, a small town six miles east of the city.

On Faggot's hill, south of Avondale, a number of persons were seriously injured and many houses badly damaged. The residence of Miller Harbin was blown down, and Mr. Harbin, his wife, child and father-in-law, were severely injured. Jennie Shelton and Mrs. J. J. Henden were also hurt, and a number of other persons suffered slight bruises. Twelve houses were demolished and trees, outhouses and fences in the path were leveled. Onward the cyclone swept, and at Irondale again repeated its work of destruction. Houses and fences were leveled to the ground, and up to this writing several bodies had been recovered. A number of injured persons and a big property loss are reported.

Bessemer, Pratt City, Ensley, North Birmingham and other suburban towns were visited by the storm, and in each much destruction was wrought, but no loss of life is reported. Many houses were demolished at Pratt City, including a number of churches. At Powderly there was also much damage and destruction, and at Cleveland Mrs. George Hatt was struck by lightning and will probably die.

In Georgia.

Rome, Ga., March 26.-A rain and hailstorm here Monday morning blew in the fronts of several business houses and ruined their stocks. No fatalities have been reported. Six inches of rain fell in four hours, according to the weather observer. At Chambers, six miles from Rome, the gale blew down J. A. Rounsaville's home, and wrecked the cotton mill and three barns belonging to Rounsaville & Brothers. Many head of live stock were killed. It is feared much injury has been done to fruit trees. The rivers are rising rapidly. Thousands of feet of lumber are in danger of washing away and large forces of hands are at work moving it to places of safety.

Train Blown from Track. Columbus, Ga., March 26.-A mixed train was blown off the Central of Georgia railroad tracks one mile east of Buena Vista, 37 miles from Columbus, late Monday afternoon by a tornado. The train consisted of an engine and tender, baggage car, two coaches and 12 freight cars, and was going 15 miles an hour when struck by the wind. The engine was lifted from the track, the tender was turned over, the baggage car, two coaches and three freight cars were thrown on their sides. The rest of the train, however, remained on the track. No one was killed.

In Michigan, Kalamazoo, Mich., March 26 .- A cyclone struck the town of Pavilion, a small village 25 miles southeast of Kalamazoo, which wrecked a number of houses, uprooting trees, tore down telegraph poles and did much other damage. One woman who was ill in one of the houses blown down is reported fatally hurt, and many others injured.

In Ohio, Sandusky, O., March 26 .- A severe windstorm passed over the western part of Erie county late Monday afternoon. The principal sufferer was the settlement of Mustasch, on the shore of Sandusky bay, where several roofs were blown from houses and trees were blown down.

an ever used Peruna for any catarrhal derangement but what it became indispensable in her household.

Letters from Women.

Every day we receive letters from women like the following. Women who have tried doctors and failed; women who have tried Peruna and were cured.

Miss Katie Klein, 6125 Bartmer avenue, St. Louis, Mo., writes:

"Peruna has done me more good for catarrh than the best doctors could. I had catarrh so bad, but after taking Peruna it is entirely gone, and I feel like a different person.'

Miss Anna Prescott's Letter.

Miss Anna Prescott, in a letter from 216 South Seventh street, Minneapolis, Minn., writes:

"I am sincerely grateful for the relief I have found from the use of Peruna. I was completely used up last fall, my appetite had failed and I felt weak and tired all the time. My druggist advised me to try Peruna and the relief I experienced after taking one bottle was truly wonderful.

"I continued its use for five weeks, and am glad to say that my complete restoration to health was a happy surprise to myself as well as to my friends."-Anna Prescott.

A constant drain of nervous vitality depleting the whole nervous system causes the mucous membrane surfaces to suffer accordingly. This is the condition called systemic catarrh. It very nearly resembles, and there is really no practical difference, between this condition and the condition known as neurasthenia, or nervous prostration.

When the bills for our daughter's trous eau began to arrive, we fairly gasped. But our heart's darling, whom we were so soon to lose, consoled us.

Certain of the Spartan women, it is re-corded, hesitated. "If we cut off our hair and give it to the soldiers to string their bows with, how are we to get along?" they protested. "Why we can string our beaux with false hair!" exclaimed the others warmly.-Detroit Journal.

Peruna will be found to effect an immediate and lasting cure in all cases of systemic catarrh. It acts quickly and beneficially on the diseased mucous membranes, and with healthy mucous membranes the catarrh can no longer exist.

Peruna a True Friend to Women. Mrs. F. J. Lynch, writes the following from 324 S. Division street, Grand Rapids, Mich .:

The Peruna Medicine Co., Columbus, O.: Gentlemen—"I earnestly recommend Peruna to any suffering woman, as it cures quickly. Last year I had a most persistent cough which nothing seemed to cure. Two bottles of Peruna did more for me than all the doctors seemed to do. In a couple of weeks I found myself in excellent health, and have been enjoying it ever since. Hence I look on Peruna as a true friend to women."-Mrs. F. J. Lynch.

Peruna is equally efficacious in curing catarrh of the throat as in curing systemic catarrh or catarrh of the stomach. Catarrh is essentially the same wherever located. Peruna cures
