## Chelsea Savings Bank.

Capital and Resources Feb. 2, 1901, \$333,490.01.

Best and strongest bank in Western Washtenaw. Owns and offers in amounts suitable for the investment of small savings and large sums

German Empire Government 3 1/2 per cent. Bonds

100 mark, 500 mark and 1,000 mark bonds. Interest payable April 1st and October 1st each year. Interest coupons cashed at CHELSEA SAVINGS BANK. The above investment yields 4 per cent interest, while the U. S. Bonds yield less than 2 per cent. These bonds are appreciated by our German friends in view of the obnoxious tax law applying to real estate mortgages, rendering it more and more difficult to place money in mortgage loans within the state of Michigan that will pay more than 2 1/2 per cent after deducting taxes.

This Bank pays 3 per cent interest on Money deposited with it according to its rules.

### BOLAND IS ACTIVE

And the Ann Arbor People Begin to Realize They Will Have Two Electric Roads to Detroit.

Judging from the following from the Ann Arbor Argus of Monday, the people of that city have at length come to the conclusion that the electric line project of W. A. Boland is not a myth but a reality, which will soon be an accomplished fact:

"Wm. A. Boland seems to be very active. Here in Ann Arbor the agents of the company have not been idle. It is reported that they have secured options on the coal yards of Louis Rohde, Michael Staebler and the properties of Mrs. Balfranz, W. W. Wetmore and others. The proposed route over the Wetmore property will cut off only a small corner. This route evidently indicates that the company will not open West Ann street, which is so much desired by some of the property owners.

The company has received six carloads of ties over the Michigan Central, which are being unloaded at Tolbert's lumber yard. Marcus Cook, the agent of the company, is making strenuous efforts to secure all the teams he can, to haul these ties on to the roadbed. This all indicates that Ann Arbor will see a lively summer of electric road building. Before snow flies Ann Arbor will have two roads to Detroit.

### Lyndon.

Mrs. Jas. Shanahan is still quite ill but is improving slowly.

Wm. Howlett is moving back on his farm again from Ann Arbor.

Ernest Rowe, who bought the John Cassidy farm, has his goods all moved and is now ready for business.

John Breitenbach has been sawing wood in "Ireland" the past week, and has a lot of sawing to do in America yet.

The annual meeting of the stockholders of the Lyndon cheese factory which was to be held on Monday last was adjourned until April 15.

Miss Anna McKune, Miss Edith Gorman and Miss Genevieve Young, of St. Joseph's Academy, Adrian, spent Easter at their respective homes.

Mr. Orson Beeman who went to Hot Springs, Ark., on April 1 to care for his brother Charles, who was very sick, returned last Monday to Stockbridge accompanied by the latter who is still very low.

### PLANO MACHINERY DELIVERY

The Full Program Prepared for Saturday Was Knocked Out by the Rain.

Saturday last, April 6, was the day that had been set apart for the annual delivery of Plano harvesting machinery to purchasers in the vicinity of Chelsea, and the local agent, A. G. Faist, had made every preparation to fittingly celebrate the occasion. The Plano Mfg. Co. had provided the Plano banners for placing on the wagons, the Chelsea Cornet Band had been engaged to furnish music, E. E. Shaver was to photograph the parade of 58 wagons loaded with the machinery, and the purchasers were to have a dinner at the Boyd house.

But the rain came and destroyed all these fair plans. Still it did not prevent a great many farmers from coming to town late in the afternoon, after the weather had cleared up a little, and taking home with them the machines they had purchased. Monday and Tuesday still more came and the delivery is now just about completed.

From March 1 to April 6, A. G. Faist, the local agent for the Plano harvesting machinery, H. A. Schable and W. J. Miller had made 53 sales of different kinds of harvesting machinery—binders, mowers and rakes.

Jeas H. Smith, of Detroit, the general agent of the company, and Messrs. Lyons and Hewes, of Jackson, were present Saturday to assist Mr. Faist in making the delivery.

### STILL MAKING CONTRACTS.

The Detroit & Chicago Traction Co. Makes Several More Important Ones.

The Detroit & Chicago Traction Co. Saturday let a contract to J. N. Bick, of Toledo, for grading nine miles of its electric line, between Grass Lake and Chelsea, requiring some 40,000 yards of dirt. It also let a contract to Robert Mitchell, of Battle Creek, for grading to the approaches to the overhead bridge near Michigan Center, some 8,000 yards of dirt; also a contract for 10 bottom dump cars, to the Western Wheel Scraper Co., of Aurora, Ill., for hauling ballast. A steam locomotive will be purchased to haul the gravel train.

### Lima.

Mrs. M. Hammond is on the sick list.

Mrs. H. Vickers has been seriously ill.

Work on the electric road is progressing.

John Steinbach has purchased a new team.

Maude Perry has gone to Durand to spend the summer.

Mrs. Fannie Freer has been to Detroit to visit her son Nelson.

Will Finkbeiner is moving into the house just vacated by C. Finkbeiner.

C. Finkbeiner has bought a farm near Eaton Rapids, and moved there last week.

Mr. and Mrs. Frank Guerin and children from Chelsea, spent Sunday with Mrs. O. B. Guerin.

The Lima and Scio Farmers' Club will meet Wednesday with Mr. and Mrs. Clifford Parker and discuss Mrs. Nation.

There will be many changes in Lima this spring, and some great improvements.

Besides the electric road and free mail delivery, the basement of the church will be made into a room for socials and entertainments; T. Morse will build a new barn; George Steinbach will build a new barn and move into his house on the corner; T. Covert, sr., will move into the house now occupied by Mr. Steinbach; Jacob Hinderer will build an addition to his house, and we understand one of our number will commit matrimony.

"I Followed Mrs. Pinkham's Advice and Now I am Well."

A woman is sick—some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds back something, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and this completely mystifies the doctor.

Is it a wonder, therefore, that the doctor fails to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician. This is the reason why hundreds of thousands of women are now in correspondence with Mrs. Pinkham, at Lynn, Mass. To her they can give every symptom, so that when she is ready to advise them she is in possession of more facts from her correspondence with the patient than the physician can possibly obtain through a personal interview.

Following we publish a letter from a woman showing the result of a correspondence with Mrs. Pinkham. All such letters are considered absolutely confidential by Mrs. Pinkham, and are never published in any way or manner without the consent in writing of the patient; but hundreds of women are so grateful for the health which Mrs. Pinkham and her medicine have been able to restore to them that they not only consent to publishing their letters, but write asking that this be done in order that other women who suffer may be benefited by their experience.

Mrs. Ella Rice, Chelsea, Wis., writes: "DEAR MRS. PINKHAM:—For two years I was troubled with falling and inflammation of the womb. I suffered very much with bearing-down pains; headache, backache, and was not able to do anything. What I endured no one knows but those who have suffered as I did. I could hardly drag myself across the floor. I doctored with the physicians of this town for three months and grew worse instead of better. My husband and friends wished me to write to you, but I had no faith in patent medicines. At last I became so bad that I concluded to ask your advice. I received an answer at once advising me to take your Vegetable Compound, and I did so. Before I had taken two bottles I felt better, and after I had taken five bottles there was no happier woman on earth, for I was well again. I know that your Vegetable Compound cured me, and I wish to advise every woman who suffers as I did to try Lydia E. Pinkham's Vegetable Compound. Believe me always grateful for the recovery of my health."—MRS. ELLA RICE, Chelsea, Wis.

\$5000 REWARD Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank, of Lynn, Mass., \$5,000 which will be paid to any person who will show that the above testimonial is not genuine, or was published before obtaining the writer's special permission.—LYDIA E. # THE MICHIGAN BOYS WIN.

Defeat University of Chicago in the Final Contest of Central Debating League.

GET CASH PRIZE AND CHAMPION TITLE.

Three University Graduates Elected as Mayors—Important Operations at the Hospital—Baseball and Football—Roast on Chicago—Other Notes of Interest.

[Special Correspondence.]  
University of Michigan, April 8.—The Michigan debaters triumphed over the University of Chicago last Friday night in the final debate of the Central Debating League at University hall, Fine Arts building, in Chicago. By winning this contest the Michigan orators secured a cash prize of \$150 and the title of champions of the league, composed of the universities of Chicago, Michigan and Minnesota. The Chicago team received \$50 as winners of second place in the league. Michigan upheld the affirmative of the question: "Resolved, That the United States should subsidize its merchant marine." The vote of the judges was two to one in favor of the Wolverines. Alumni from both institutions were out in full force and the Michigan men gave their "U. of M. Bah, Bah!" lustily after the announcement of the judges.

The Michigan team was composed of G. W. Maxey, E. Sonnenschein and H. F. Jacobs, all members of the Michigan law school. The members of the Chicago team were G. W. C. Ross, T. J. Riley and S. George Levy. The judges of the debate were Gov. Shaw, of Iowa; Judge Clementson, of Wisconsin, and Prof. C. H. Spooner, of St. Louis.

**Elected Mayors.**  
In the recent state election three graduates of the university were elected mayors of as many Michigan cities. Michael B. Danaher, a graduate of the literary department in the class of 1878, was elected mayor of Ludington on a citizens' ticket. John W. Patchin, a law graduate of 1884, was elected mayor of Traverse City by the republicans. The republicans of Ann Arbor elected Dr. Royal S. Copeland mayor. Dr. Copeland graduated from the university in 1889. He is now professor of the diseases of the eye, ear and throat in the homeopathic department. He is a native of Washtenaw county, having been born at Dexter. At this place he received his early education. Later he attended the normal college at Ypsilanti and taught school in the county.

**Important Operations.**  
Two operations rather out of the ordinary have been performed at the university hospital within the last few weeks. One was a case of skin grafting and the other of opening the eyes of the blind. Goldie Gibbs, a five-year-old girl of Marion, Mich., was brought to the hospital with the skin on her back and sides entirely burned away. Strips of skin were cut from the arms of her father and transplanted to the back of the child. The success of this operation is being watched with the greatest interest. It is hoped that the grafted skin will in some measure, at least, take the place of the skin burned away and relieve the child of the intense pain she has been suffering since the accident.

**The Blind Made to See.**  
The eyes of the blind were opened when Charles Bacon, whose home has been in "the thumb" of Michigan, were operated on. Mr. Bacon, who is now over 22 years of age, was born blind. When 14 years of age he was sent to the school for the blind at Lansing, where he proved to be a good student. Some years ago Dr. Carrow, of the university, discovered him while making an examination of the pupils in the school and told him that he believed it was possible to give him sight by means of an operation. The parents of Mr. Bacon, however, would not consent to an operation, so the matter was dropped until he became of age. Some weeks ago he came to the hospital for treatment. One eye was operated on by cutting an opening just below the cataract covering and making an artificial pupil. When the bandages were removed the patient could see.

Then the second eye was operated on and with equal success. Since receiving his sight Mr. Bacon has found it necessary to learn the names of things anew. This he has been able to do by shutting his eyes, running his hand over the object and then opening his eyes to see how the object affects the sense of sight.

**Athletics Begin Outdoors.**  
Baseball and football have both started in earnest. The candidates for the varsity baseball nine are playing games with themselves daily and the football men began outdoor practice for next fall's schedule last week.

Mr. Yost, of Leland Stanford university, who is to coach the U. of M. football team this year, has been looking over the material at hand and snapping the men to get down to

work and do some hard training before the weather gets too warm.

**New Officers Elected.**  
Several Michigan students received offices at the annual election of the Students' Christian association held recently. Among these were Richard D. Hollister, president, Ann Arbor; Edith I. Clarke, woman's vice president, Detroit; Frank L. Kleinfelt, treasurer, Saginaw; Austin L. Lathers, managing editor of the Bulletin, Ann Arbor; J. Stuart Lathers, business manager of the Bulletin, Ann Arbor; George S. Burgess, vice president, Brighton; S. Gertrude Chubb, vice president, Coldwater; Marinus Den Herder, vice president, Grand Rapids; Guy M. Dunning, vice president, Lansing; Arthur B. Lawson, vice president, Howell; Alice M. Brooks, vice president, Kalamazoo.

**New Fraternity House.**  
The Beta Theta Phi fraternity have decided to have the building occupied by them as a fraternity house torn down and a new building, to cost about \$25,000, erected in its stead. The work will begin in the coming summer. According to the specifications, the new structure will be of white limestone and will be no disgrace to the other fraternity houses in the neighborhood.

**Cadillac Boy Honored.**  
Robert L. Stanley, a junior law from Cadillac, has been elected delegate to the annual meeting of the Northern Oratorical league to be held at Iowa City May 3. As he is already vice president of the league, and the president, who was a Wisconsin man, resigned some months since, Mr. Stanley will in all probability preside at the Iowa meeting.

**A Roast on Chicago.**  
The April number of the Inlander appeared last week with a 20-page satire on Chicago, written in verse. Two friends meet and discuss the windy city. The first scores the discordant roar, the smoke, the pestiferous air, the highwaymen, ashes from the street, lack of architectural adornment, decay of morals, etc., etc. The other defends the city. He calls attention to the fact of its rapid growth, the means that are being taken to remedy the faults and the possibilities of the future. The article is illustrated. It is causing considerable of a demand for the magazine.

**Capture All Offices.**  
At the annual election of the University of Michigan Oratorical association the laws had everything their own way, the lists not even showing up for a contest. Eugene J. Marshall, the colored orator from Detroit, was selected to receive whatever honor is coming to Michigan in the shape of an office in the Northern Oratorical league. The following was the result: President—H. S. Kessler, Bertha, Neb. Vice President—E. E. Cooley, Trinidad, Col. Secretary—J. A. Haver, Emporia, Kan. Treasurer—H. O. Ledgerwood, Springfield, Mo.

Delegate to Northern Oratorical League—R. L. Stanley, Cadillac, Mich. Representative on Northern Oratorical League—E. J. Marshall, Detroit, Mich. Representative on Central Debating League—E. G. Hoffman, Fort Wayne, Ind.

**Going to Glasgow.**  
Dr. Robert Wenley, professor of philosophy, will represent the university at the five hundredth anniversary of the establishment of the University of Glasgow in Glasgow, Scotland, in June.

**An April Fool Party.**  
The evening of April 1 the senior laws held an "April Fool" party, at which everything went on the "cart before the horse" plan. It was exceedingly amusing.

**BLIND AND DEAF.**  
Supt. Clarke of the Flint School Makes Some Suggestions in His Biennial Report.

Superintendent F. D. Clarke, of the Michigan school for deaf at Flint, has completed his biennial report. He points out that there are defects in Michigan's system for caring for unfortunate children, no provision having been made for the care and education of the doubly afflicted. It sometimes happens that the same child has two of the afflictions, one only of which entitle him to admission into one of the special schools maintained by the state. It often happens that a child is both blind and deaf, blind and feeble-minded, or deaf and feeble-minded, and in some cases all three of these heavy burdens have fallen upon the unfortunate child.

In his opinion there should certainly be provision made for these doubly afflicted children, either by building another cottage in connection with the Flint institution, and employing the additional help needed, or by such additional provision at the home for the feeble-minded as the management of that institution deems necessary.

**Late Election Returns.**  
Later returns from the state show that Justice Montgomery has been returned to the supreme bench of Michigan by fully 70,000 plurality. The candidates for regent, Frank W. Fletcher, of Alpena, and Henry W. Carey, of Manistee, are not running far behind the head of the ticket. Little cutting was done on the state ticket. Justice Montgomery carried every county except Jackson and St. Joseph.

## TO ASSUME CONTROL.

Civil Government for the Philippines Will Be Established About July 1.

Washington, April 9.—The news from Manila regarding the establishment of civil government is in accord with information already made public here that the new Philippine government will be established about July 1. Immediately upon the passage of the army appropriation bill the entire Spooner amendment was cabled to the Taft commission and the commission was directed to prepare a plan for the government of the islands in accordance with the law. This plan has not yet been completed, but it is expected to be about the time of the return of the commission to Manila, and it will be cabled here for approval or amendment. The civil government proposed will not be very elaborate, but sufficient to meet the present requirements.

One of the most interesting features is the question as to who will be in supreme authority under the president. The law says that "all military, civil and judicial powers necessary to govern the Philippine islands shall be vested in such person and persons as the president shall direct." The language has been weighed very carefully, and the designation "person" followed by "persons" is taken to mean that the president shall name some one to have supreme command under his own direction, and that the persons shall be those acting under that command. Judge Taft, it is understood, is to be the governor of the islands, but it will be necessary to have some one in Washington to act as the medium of communication between the president and the governor. There will be a great deal of business with which the president cannot burden himself, and some cabinet officer will be selected to have charge of the Philippines as well as other insular affairs.

Authority over the islands probably will be exercised by the president through Secretary Root, as the secretary already is familiar with the governmental machinery of the islands. More than this, the law specifically asserts that the military as well as civil and judicial powers shall be exercised in the islands, and it is not believed feasible to divide the responsibility, as for many years to come there must be joint and harmonious action by the civil and military authorities. There already has grown up in the war department since the Spanish war a division of insular affairs which has had in charge all matters pertaining to the civil operations, not only in the Philippines, but in Cuba. At present Lieut. Col. Edwards is in charge of this division, and his familiarity with conditions in the Philippines, he having spent a great deal of time there, makes him a valuable official.

The fact that the actual control of the islands will remain in the war department does not mean that Gov. Taft will have his power curtailed. Necessarily the president will remain the court of last resort for everything relating to the islands, but the governor and his counsel will exercise the broadest authority, and much that heretofore has been submitted to Washington for determination by the military governor and the Taft commission is expected to be settled by the governor, council and the executive assembly, should one be thought necessary. The general belief expressed here is that the governor and council will be about all the government necessary.

## A GIGANTIC SCHEME.

Plan of John Claffin to Consolidate Large Retail Dry Goods Stores About Complete.

New York, April 9.—The Journal of Commerce says: It may be stated on authority that the plan to consolidate large retail dry goods companies on which Mr. John Claffin has been at work for some time, has now been definitely completed and a syndicate has been organized to finance it. This would seem to indicate that the securities of the new company will be offered for public subscription. J. P. Morgan & Co. are the head of the syndicate and will, it is understood, underwrite the issue. The capital of the new concern will be about \$20,000,000, including the common and preferred shares and bonds.

The names of the companies which will be taken into the new company have not yet been officially stated, but friends of Mr. Claffin feel confident that his two New York stores, namely, the Adams Dry Goods company and McCree's Twenty-third street store, will be included, while there is some talk that Lord & Taylor's two New York stores and also the Joseph H. Bauland & Co., of Brooklyn, may be invited into the new concern.

## Hearing Advanced.

Washington, April 9.—The United States supreme court has advanced the hearing in the case of Ewing versus the United States, fixing the time for argument for the 28th of October next. The case involves back pay claimed to be due postmasters, amounting to the aggregate to \$5,000,000.

## TUESDAY EUCRE CLUB.

It Was Late Because the Gowns of All of Its Swell Members Hooked Up the Back.

Mrs. Stanley's eucure party was scheduled to begin at 2:30 in the afternoon. Ten minutes after that time she rushed madly down the stairs to seek aid in the kitchen. Her silk gown opened in the back and no matter how supple and athletic a woman may be, she cannot hook up a gown that opens at the back. The second girl stopped spreading sandwiches when her mistress backed up to her. "Do hurry now, Martha," Mrs. Stanley panted.

## MARTHA HOOKED UP THE WAIST.

"It's past time and the people are liable to arrive at any minute."

Martha hooked up the waist by main force and then discovered that she had not begun right at the neck. Then she did her work over again and this time the two edges came out even at the belt. Then Mrs. Stanley hurried into the drawing-room, glanced into the mirror, pulled a curl in place and sat down, trying to look as if she had been serenely waiting for some time to receive her guests. It was three o'clock before Mrs. Murphy burst into the room in a feverish way, then looked around, surprised to see that it was empty save for her hostess. "I thought I was late," she gasped. "But I couldn't get a maid to hook up my dress. I sent a bell boy about forty times after one, and they didn't come, and I was afraid I would keep the whole party waiting. Isn't it awful to have clothes that open in the back?"

Before Mrs. Murphy had finished the tale of the troubles of a woman who lives alone in a hotel and has her waists button at the back Ella Wylie came in. Her usual aristocratic composure was sadly marred by a flush on her cheek bones and an angry spark in her eyes. "I hope I'm not late," she said, "but I'm just ready to kill my young brother. The maid had to go off to the dentist's to have a tooth pulled and mamma went to her club and, of course, papa is downtown at business, and I told George that he must be sure to stay around the flat this afternoon so I could have him button up my dress. He wanted me to dress before lunch so he could go over to the park to skate, but I wasn't going to sit around two or three hours before time. I did my hair and got all dressed and slipped on my bodice, then I put my head out of the door and called to George. He didn't answer. I called louder and louder, but he didn't come. Then I hunted all over the place—no George. Finally I saw him skating down on the sidewalk in front of the building with some other boys. I put my head out of the window and I commanded him to come upstairs and button my dress. He laughed and said he'd come if I promised him a quarter. I said I wouldn't pay him anything, then he raised his price to 50 cents. Of course I had to give in and he made me throw the money out of the window to him before he would come up. I was mad enough to eat him, but, of course, I was at his mercy, little imp!"

Other women came drifting in now. Most of them wore gowns that closed in the back and most of them had some difficulty in getting into them. Mrs. Gardner, who was incased in a princess gown which was buttoned from the nape of her neck to her heels, said that her nurse maid had just given her notice because of this gown. The nurse had struck after the fifty-sixth button and then the cook had been called in. The cook's hands had not been immaculately clean and a large grease spot marked the beginning of her labors. Mrs. Delaney then told of a man who had applied for a divorce from a wife who had all her gowns opened in the back and who insisted that he should stay home from business to close them for her. Madge Stern, whose father is a judge on the bench, said that she believed the man would be sustained on the ground that this was habitual cruelty. By this time all the guests had come save Mrs. Blewett. The women sat about the tables with the cards dealt,

only waiting for her appearance to begin the game. At 3:30 a cab was driven up to the door, Mrs. Blewett tumbled out, rushed into the hall, meanwhile tearing off her cloak and hat. She bolted into the drawing-room and began pouring out her apologies.

"I hope you'll forgive me, but I waited and waited for my sister-in-law to come home and hook my waist. She went downtown to do some shopping and I was alone in the house. I tried about forty times to hook my waist up, but I twisted my arms till I just about broke in two, but it didn't do a mite of good. I just couldn't reach the middle hooks. We haven't any near neighbors, so I telephoned for a cab and I started over—"

"Why, Mrs. Blewett, your dress isn't hooked up now!" Madge Stern said. She sat where she commanded a rear view of the belated guest.

"Why, no, of course not!" Mrs. Blewett answered. "I was just going to say that when the cab came I put my cloak on over my dress and thought I would get hooked up here. I couldn't think of anything else to do."

Mrs. Blewett was made presentable from both front and back view and in cross section, then the game of eucure was begun.—Chicago Daily News.

## PUTS BABY TO SLEEP.

Combined Rocking Chair and Cradle Invented by a Philanthropic Canadian Genius.

Here we have an invention intended for household use, comprising a chair and cradle in one article of furniture, the two being combined in such a manner that the cradle telescopes into the under portion of the chair when not in use. Samuel S. Arnold, of Toronto, Canada, has been granted a patent on the idea. A third rocker is provided, which lies close to one of the main rockers when the chair only is in use. The cradle portion rests on slides attached to the front and rear legs of the chair, and is operated as easily as the pulling out of the drawer of a desk can be accomplished. When it is desired to use the cradle the end board is grasped in the hand and pulled outward until pins at the inner ends of the grooves strike the ends of the sides, thus preventing the cradle from becoming detached. The baby is

## HAPPY COMBINATION.

then placed in position, and the nurse seats herself in the chair, in a convenient position to care for the child and at the same time devote her attention to reading or sewing. The inventor has also made provision for twins by designing a double cradle, which pulls out on either side of the chair, one telescoping into the other when closed up. The arrangement is simple and does not materially increase the weight of a chair, besides taking up much less space than the two articles would if separated.—Louisville Courier-Journal.

## Wow-Wow Sauce for Beef.

To make wow-wow sauce chop fine sufficient parsley to make two tablespoonfuls. Rub it on a plate with a spatula, adding a few drops of vinegar until it is like a paste, then add three pickled walnuts chopped fine, and three gherkins chopped fine; four olives, also chopped. Put a tablespoonful of butter into a saucepan; when melted add a tablespoonful of flour; mix; add half a pint of good stock. Stir until stock is boiling. Take from the fire; add a tablespoonful of vinegar, a tablespoonful of mushroom ketchup and let it simmer for ten minutes. Strain and add the parsley and hot mixture, and turn it into the sauce tureen. It is eaten on boiled or corned beef.—Ladies' Home Journal.

## How to Polish the Windows.

The action of the sun, moisture and the carbonic acid in the air on the soda or potash in the glass produces an opaqueness more or less pronounced. To remove this wet the glass with dilute hydrochloric acid, and after a few minutes go over the glass with powdered whiting. Pour the acid slowly into the cold water, using four ounces of the acid to 12 ounces of water (one pint and a half). Polish with chamois or soft paper. It must be remembered that this acid will attack metals and should not be allowed to touch them, nor should the bottle be left open an instant longer than necessary, as the fumes are very destructive.—Ladies' Home Journal.

#### Electric Railway Notes.

There is talk of extending the electric line that runs from Ypsilanti to Saline as far as Clinton Lenawee county.

An experimental trip with an electric car was made on the Detroit & Chicago Traction Co.'s line from Jackson to Michigan Center, last Thursday afternoon.

Between 50 and 60 Italian laborers are at work on the D., Y., A. A. & J. electric railroad within the village limits of Grass Lake. An additional force will be added soon and the work pushed to completion.

Commissioner Osborn has granted a petition for a grade crossing for the D., Y., A. A. & J. electric road with the spur track of the Michigan Central at a gravel pit near Leoni, the crossing to be protected with interlockers, and signals.

C. H. Frisbie, representative of the Chicago & Detroit Traction Company, in an interview with the Battle Creek Moon, says the company will commence the construction of that portion of the line between Jackson and Battle Creek about May 1 at the Jackson end of the line. Work will be rushed through as speedily as is possible and consistent with the building of a first class line.

Jackson Patriot: Travelers on the Michigan Central east have noted numerous tents pitched along the line between Jackson and Francisco. These tents are occupied by laborers for Hawks & Angus on their electric railroad. Between Francisco and Grass Lake there are about 70 men at work on the road and between Grass Lake and Jackson there are 180 men working.

The D., Y., A. A. & J. railway has run up against an injunction to its passage across a certain piece of property in Grass Lake township. When Edmund P. Robinson died he left a will bequeathing the use of his farm to his widow until the son, Edmund F., should reach the age of 21 years, when it should revert to him. The widow, Mrs. Lucy Robinson, has given to the company a long lease of a right of way for an electric road through the farm. Henry M. Hobart, guardian of Edmund F. Robinson, has filed a petition in the circuit court of Jackson county, in which he insists that Mrs. Robinson had no right to lease the property and that if the ground is prepared for an electric railway it will be greatly damaged. A temporary injunction has been granted.

The date of the Washtenaw county fair has been fixed for Oct. 1, 2, 3 and 4. Among the special attractions will be horse races and automobile or horseless carriage races.

The subject for discussion at next Sunday's meeting of the Business Men's Class of the Congregational church will be "Is the granting of pardons to prison convicts a menace to society?" H. S. Holmes will read the opening paper.

A movement is on foot among several leading members of the house of legislature looking to the abolishing of the primary school fund. It is proposed to pass a bill to amend the constitution and submit it to the vote of the people in 1902.

Easter Sunday was joyfully celebrated in the churches of Chelsea with appropriate services. Beautiful floral decorations and music, good sermons by the pastors, and bright children's exercises were the features. The services at all the churches were largely attended.

Yesterday afternoon at 2 o'clock, at the residence of the bride's parents, Mr. and Mrs. Arnold Kuhl, in Sharon, Mr. Godfrey Fitzmaier, of Freedom, was united in marriage to Miss Emma Kuhl. The ceremony was performed by Rev. J. B. Meister, of Rogers' Corners.

A. G. Faist, agent in this vicinity for the Plano Mfg. Co., has sold this season 53 harvesting machines of this company's make. They were delivered to the purchasers last Saturday and the early part of this week. The rainy weather Saturday spoiled what was supposed to be a grand delivery and parade of Plano machinery.

James Ryan and John Denehy, jr., who are charged with the murder of Thomas Fitzsimmons on the Ryan farm in Hamburg, March 12, had their examination before Justice Schwartz, at Hamburg, Tuesday and Wednesday of last week. They were bound over for trial at the circuit court of Livingston county, bail being fixed at \$8,000 each.

Harry W. Clark and Roy E. Seeley, representing the Superior Mfg. Co., of Ann Arbor, have been in Chelsea the past two days and will be here the remainder of the week placing on exhibition their fine line of gasoline Welsbach lamps. They make special offers of a free trial of the lamps in their advertisement which appears in another column of this paper.

On May 7 the county treasurer will begin the sale of lands upon which the taxes for 1898 and prior years remain unpaid. Every property owner should examine the published lists for all the years advertised, and apply to the county treasurer to pay the delinquency if any of his lands are found to be listed for sale. A few minutes and possibly a small sum of money spent now may save hours of worry and any number of dollars after the sale is over.

Michael Keelan died at the home of Mr. and Mrs. Ed. Whipple, Sunday evening of Bright's disease, aged 35 years. He had been a sufferer for a long time, and was taken down with the attack which ended fatally about a week previous to his death. He and his wife had come to Mr. Whipple's home one evening to stay with Mrs. Whipple in the absence of her husband, when Mr. Keelan was taken sick and could not be removed to his own home. The funeral services were held at St. Mary's church Tuesday morning and the remains were interred in Mt. Olivet cemetery. His wife, two sisters and a brother survive him.

Stockbridge is soon to have two rural mail delivery routes.

Harry Richards has moved on the Schenk farm at Francisco.

Born to Mr. and Mrs. R. B. Waltrous, of Lima, Monday, a daughter.

The Michigan Central section men now get \$1.25 a day instead of \$1.10 as formerly.

The Grass Lake Congregational church is now free from debt, for the first time in 15 years.

Plans are maturing for an inspirational state teachers' institute to be held in Jackson about May 1.

The funds of the city of Ann Arbor were overdrawn \$27,507 on March 30. How do you like that, my cat?

A new rural delivery route has been established at Grass Lake. It is 24 miles long and takes in Triest and North Waterloo.

The whole Democratic ticket in Manchester was elected April 1. The apathy shown by the Republicans in not getting out to vote is said to be the cause.

Washtenaw Republican: Prof. Charles E. Foster has the ability and the experience necessary to keep up the high standard of efficiency now existing in our district schools.

Prof. R. N. Wenley has been chosen to represent the University of Michigan at the exercises which will commemorate the five hundredth anniversary of the founding of the University of Glasgow. He will sail for Scotland in June.

The Ann Arbor common council pays high for burials. At a recent meeting it allowed the city dog catcher \$11.30 for burying 7 dogs, 11 cats and 3 chickens. Can't see why they paid him for burying chickens. Most niggers will bury a chicken for nothing and are glad to get the chance to do it.

There is a theory that if a woman truly loves a man, she will forgive him, no matter what he does. We doubt it. Every woman has something against the man she loves and tells him about it. A woman's love is like a plated article; looks like silver, until the man wears off the plate. It is usually the man's fault, however, that the plate wears off.

An Ann Arbor woman heard her husband's voice inside a saloon on Sunday. She knocked at the side door but was not admitted by the man who came to the door. She then stoned the place until the barkeeper let her in and she walked her "hubby" off home. Monday she issued a complaint against the saloonkeeper for keeping open on Sunday.

The annual meeting of the Jackson Association of the Congregational church will be held at Union City next Tuesday and Wednesday, April 16 and 17. E. G. Hoag, Thomas Holmes, D. D., and Mrs. Thomas S. Sears are the delegates appointed from this church. Rev. C. S. Jones will read a paper on "The relation of the Christian Endeavor to the local church."

A Marshall minister was walking along the street the other day when he saw a crowd of boys sitting in front of a ring with a small dog in the center. When he came up to them he put the following question: "What are you doing to the dog?" One of the little boys said: "Whoever tells the biggest lie wins him." "Oh," said the minister, "I am surprised at you little boys, for when I was a boy I never told lies." There was silence for a while until one of the boys shouted: "Hand him up the dog!"

Nine-tenths of the business man of today are asking themselves the question, "Does advertising pay?" What is the remaining tenth doing? Reaping the harvest of dollars and cents—the result of well-written, judiciously placed advertising. It consists of the successful minority who have the sound judgment, the acute business sense to know that in good times and bad it is an eternal truth that it pays to advertise. It consists of many of the merchant princes of this broad land—men who have earned their way to fortune by the aid of printer's ink and newspaper space.

### Farms for Sale.

I have several farms in which I am interested that are now for sale. Enquire of H. S. HOLMES, Chelsea.

### He Kept His Leg.

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and my leg was as sound and well as ever." For eruptions, eczema, tetter, salt rheum, sores and all blood disorders Electric Bitters has no rival on earth. Try them. Glazier & Stimson will guarantee satisfaction or refund money. Only 50 cents.

## ARE STILL IN DOUBT.

### Government Officials Puzzled Over China-Russian Relations.

#### No Further News Received in Washington Regarding the Reported Interruption of Intercourse Between Countries.

Washington, April 9.—The Chinese minister was an early caller at the state department Monday to seek information as to the report, based on advices to the state department, that there had been an interruption of the diplomatic intercourse between Russia and China. Mr. Wu had not been advised of any such developments, and the information before the state department was so contradictory that it did not permit any clear explanation of the real state of affairs.

The doubt arises from the fact that Mr. Rockhill's latest dispatch does not mention any such disarrangement, and the officials feel bound to accept this as pretty strong evidence that prior intimations of discord have not taken actual form. Yet the dispatch received from Mr. Squires, the American charge d'affaires in the absence of Minister Conger, appears to have been quite explicit that the difficulty already had made itself manifest. It is thought possible at the state department that the circumstances to which Mr. Squires refers occurred prior to the receipt in Peking of the last Russian note, and that the trouble may have been adjusted subsequently.

The state department maintains an attitude of doubt and expectancy, and is not yet prepared to admit that there has been an interruption of intercourse between the two countries, either limited or complete.

Aside from the telegraphic advices, there are some attending circumstances which indicate that at least some strain or partial interruption of intercourse has occurred. The fact developed in Washington about a week ago that Russia had delivered to China what amounted to an ultimatum on the signing of the Manchurian agreement. This followed the usual course of ultimatums, and fixed a definite limit of days within which China could act. It also conveyed the clear intimation that unfavorable action by China would lead to a severance of diplomatic relations between the two countries. The limit of time fixed is believed to have been one week, and to have expired last Wednesday.

China did not sign within the time limit, and the next day, Thursday, Russia addressed her note to the powers which has been accepted as removing the pressure over the Manchurian agreement. This at first seemed to be a waiver of her prior intimation of an interruption of diplomatic intercourse, and yet there was no such explicit waiver, and the latest advices from Peking reporting that an interruption has now actually occurred seem to be directly in line with the threat previously conveyed.

The peculiar state of diplomatic relations between the Russian foreign office and the Chinese minister at St. Petersburg give further evidence that friction has occurred. The illness of Yang Yu was the cause ascribed for his failure to sign the agreement. There is good reason to believe that the Russian authorities did not regard this sickness of Yang Yu as occurring in good faith, but looked upon it as a device to avoid action. The St. Petersburg dispatches now state that Yang Yu's sickness has now increased since his last interview with Count Lamsdorff that he may have to withdraw. This is accepted here in well posted quarters as a delicate intimation that the Russian government has expressed its disapproval in such a way that Yang Yu's withdrawal will follow in consequence. But there appears to be an outward avoidance of any rupture. It is said that Yang Yu's term ended about a year ago, and that he then asked to return to Peking. The government acceded, and Quai Chun was appointed as his successor. Owing to the Boxer uprising Quai Chun did not go to St. Petersburg, but remained to become a member of the tsung-li-yamen. Should Yang Yu retire now, it will be claimed that it is in accordance with the prior programme.

In case there proves to be an interruption of the relations between Russia and China, it is not expected to disarrange the negotiations between the powers and China, or between Russia and the powers. It probably would be confined to a termination of the close entente long maintained between Russia and China.

#### A New Governor.

Shanghai, April 9.—Yu Yin Lin, governor of Hu-Pei province, has been appointed governor of Kwang-Si province, in succession to Huang Hui-Sen, who has been ordered to resign. This is interpreted to indicate that the reactionists of Sian-Fu intend to introduce the Boxer movement in the southern province.

#### Indemnity Figures.

Peking, April 9.—According to expert opinion China would be able to pay from £20,000,000 to £30,000,000 without crippling her financial resources, while the amounts which the powers at present demand aggregate from £50,000,000 to £100,000,000.

## WANT THE MONEY.

### State Asked to Furnish the Funds for the Michigan Building at the Buffalo Exposition.

The Pan-American exposition commission of Michigan at a meeting in Lansing elected George E. Keating, of Bay City, assistant secretary, and transacted considerable miscellaneous business. It was decided that there will be but five employes in addition to the secretary and his assistant in the building. It was decided to defer action on appointments until another meeting, when the 100 or more applications will be gone over.

Vinton & Company, of Detroit, who have the contract for the construction of the Michigan building, have already commenced work, and a number of cars of material have been shipped from Detroit. The building will be 80 feet square, and it is expected that it will be filled with Michigan exhibits. Five thousand dollars was set aside for an agricultural, horticultural and dairy exhibit, which department will be in charge of A. W. Jewett, of Mason. Secretary Smith has gone to Buffalo to secure additional space in the agricultural and horticultural building, and to look after the construction of the Michigan building. Members of the commission had a hearing before the house committee on state affairs, and urged that an appropriation of \$5,000 be made for furnishing the Michigan building. The commission also desires the passage of a resolution by the legislature in order to make the appropriation of the legislature available before June 30.

### NOT COMPULSORY.

#### Kalamazoo Judge Orders School Authorities to Admit Children Who Are Not Vaccinated.

Judge John A. Adams, of the circuit court at Kalamazoo, has issued a peremptory injunction, requiring the local school authorities to admit the children of George W. Matthews, a mental healer, who were excluded from the schools because their parents refused to have them vaccinated, on the grounds of religious belief.

The decision is the result of a test case entered into in a friendly spirit between Matthews and the school authorities, with the understanding that the other side take the case to the supreme court.

The supreme court, it is understood, has up to this time rendered no decision bearing upon the legality of a rule requiring compulsory vaccination of school children. The local authorities propose to push the matter.

### Married Again.

Among the marriage licenses recently issued was one to Frank E. Tietz, of Volinia, and Mary E. Tietz, of Decatur. In May, 1880, this couple was married in Volinia. They lived together for many years, but an estrangement came and they separated and were divorced. In October, 1891, Tietz was united in marriage in Cass county with Mrs. Emma Tooley, with whom he lived until her death. His first wife remained unmarried, and the other night the former husband and wife appeared before Rev. F. C. Colvin and were married, and will commence life anew.

### Must Be Elected.

The question as to who will be judge of the new Thirty-seventh district, to be composed of Calhoun county, has assumed a new phase. John C. Patterson and H. E. Winsor, of Marshall, have been hustling for the appointment, supposing that the governor would make the appointment, but now it is discovered that according to the constitution the new judge will have to be elected. The governor has the power to make appointments to fill vacancies, but not to appoint a new judge in a newly-created district.

### Hospital Closed.

Mercy hospital, better known as Emergency hospital, closed its doors in Iron Mountain by order of Bishop Eis, and the nuns have been ordered to leave the diocese. This is the result of an ecclesiastical scandal which occurred last January, when Ellen Hogan, a novice in the hospital was arrested on an insanity charge preferred by the mother superior. Miss Hogan was adjudged sane by the probate court. The mother superior also charged her with theft.

### Left to Get Married.

Miss Lucy Havens, whose home is near Gallien, left Laporte, Ind., for Union City, Ind., where she was to marry on the stage of the opera house Dr. Samuel Deeter. Deeter is an eccentric individual. He is 73 years of age and Miss Havens is 36. Miss Havens enjoys distinction in that she weighs 400 pounds, and she was recently exhibited as a freak in southern Michigan towns.

### Railroads Prosperous.

Railroad earnings in Michigan during February were, according to a consolidated statement issued by Commissioner Osborne, \$2,843,368.41, an increase of \$57,709.56 over the corresponding month one year ago. The earnings for January and February, this year, were \$5,877,752.30, an increase of \$103,757 over the corresponding period of 1900.

## MICHIGAN STATE NEWS.

### State Election.

Robert M. Montgomery, of Grand Rapids, republican, has been reelected justice of the supreme court by about 40,000 majority, and Frank W. Fletcher, of Alpena, and Henry W. Carey, of Manistee, republican candidates for regents of the state university, have also been elected by a majority almost as large. Probably the most fierce fight in the state was over the removal of the county seat from Paw Paw to South Haven, Paw Paw being the winner. Republican mayors were elected in the following towns:

Ann Arbor, Traverse City, Sault Ste. Marie, Benton Harbor, St. Joseph, Ludington, Marquette, Grand Haven, Pontiac, Mount Clemens, Adrian, Big Rapids, Gladwin, Gladstone, Bay City.

Democrats elected mayors in the following towns:

Petoskey, Ionia, Cadillac, Marshall, Manistee, Menominee, Jackson, Albion, Niles, Hudson, Eaton Rapids.

### Suit Dismissed.

The case of ex-Attorney General Fred A. Maynard, who was indicted by the late grand jury of Ingham county on a charge of falsifying pay rolls in his office, has been thrown out of court by Judge Weist on the ground that the statute provides as to what shall be considered public money and also designates the officers who shall receive and disburse the same. The court stated that the indictment should have been brought for fraud in order to hold.

### Health in Michigan.

Reports to the state board of health from 73 observers in various portions of the state for the week ended March 30 state that measles, typhoid fever and pneumonia increased and scarlet fever decreased in area of prevalence. Consumption was reported in 183 places, measles at 26, typhoid fever at 38, scarlet fever at 82, diphtheria at 21, whooping cough at 10 and smallpox at 83 places.

### Fire at Ionia.

Fire which started at nine o'clock at night destroyed the warehouses and elevator in Ionia of Page & Co., entailing a loss of \$55,000, half of which falls upon the Grand Trunk Railway company, which owned the elevator building. Fifteen thousand bushels of grain and \$5,000 worth of wool were burned in the warehouse. The property was insured for \$12,000.

### Must Lower Fares.

In an opinion handed down the supreme court sustains the action of the railroad commissioners in ruling that the Michigan earnings of the Wabash Railway company exceeded \$3,000 per mile last year, and directing the company to reduce its passenger fares to two cents per mile in this state. The company will appeal to the federal supreme court.

### Carried to the Polls.

Intense bitterness was manifested in Jerome over an election on the consolidation of the four school districts in the township. Women were taken from sick beds and carried on stretchers to the polls, and several suits for libel are expected to grow out of the contest. The proposition carried by a vote of 112 to 109.

### Tragedy at Mayville.

In an insane fit Christian Leix, aged 35, cut the throat of Jacob Mooth, aged 16, and then ended his own life with the same instrument. Mooth was employed by Leix on his farm at Mayville, and was dead when found. Leix, who leaves a wife and three children lived about three hours.

### News Briefly Stated.

A tornado swept Genesee county, doing much damage to farm property. Gov. Bliss has signed the Detroit bicentenary bill authorizing the common council to raise \$25,000 by taxation for the celebration.

The post offices at Republic and Thompsonville have been advanced to presidential offices, and the salaries of the postmasters fixed at \$1,000.

Post offices have been discontinued as follows: Aetna, Newaygo county, mail to White Cloud; Bertrand, Berrien county, mail to Niles. Nelson A. Brown, formerly a well-known business man of Battle Creek, committed suicide by inhaling gas.

There was a cash balance in the state treasury April 1 of \$2,789,730.25. David Henning died suddenly in Battle Creek, aged 80 years. He was born in Ireland and came to this country a poor boy. He was worth \$1,000,000 at the time of his death.

The fire in the Republic mine is out and work has been resumed. Samuel B. Collins, member of the house of representatives from the First district of Jackson in the legislature of 1899-1900, died at his home in Jackson.

The post offices at Homestead and Shields have become domestic money order offices.

Ernest Seams, a well-known citizen; George Winborn, an old resident, aged 70 years, and William Reiser, a widely known retail liquor dealer, aged 70 years, died on the same day in Niles.

### Miscellaneous.

Half the world seems to have found congenial occupations. Servant girls are trying to teach; natural teachers are tending stores; good farmers are murdering law, while Choates and Websters are running down good farms; and good farmers, in turn, are farming still in congress. Artists are spreading daubs on canvas who should be whitewashing board fences. Shoemakers write good verses for the village paper and natural statesmen are pounding shoe lasts, while other shoemakers are cobbling in legislative halls. Good mechanics and electricians are trying to preach sermons, and wondering why their congregations continue to sleep, while the Beechers are failing as merchants.—Success.

### The Twentieth Century.

The twentieth century began January 1st, 1901, and will end with 2000. People did not begin to reckon time from A. D. 1, but waited until about the 550th year of the Christian era. People who begin to take the great health restorative, Hostetter's Stomach Bitters, immediately after the first outbreak of dyspepsia, malaria, rheumatism, constipation, nervousness or kidney trouble will date their cure immediately from then.

### Got is Standing.

Miss Coy—Do you really think a girl can find out who her husband will be by consulting a fortune teller? Miss Wise—Perhaps not, but I found out who my husband wouldn't be by that method, not long ago. "Really? What fortune teller did you consult?" "Bradstreet."—Philadelphia Press.

### There is a Class of People

Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over 1/2 as much. Children may drink it with great benefit. 15 cts. and 25 cts. per package. Try it. Ask for GRAIN-O.

**A WOMAN'S HEART.**

**Mrs. Samuel G. Dyer Tells a Harrowing Tale of Suffering.**

McCarron, Mich., April 8 (Special).—Mrs. Samuel G. Dyer, of this place, has given the following interesting letter for publication:

"For years, I suffered intense pain in the region of the heart. I doctored with the best physicians. Some of them would relieve me for a short time, but the pain always returned. My heart was so bad that I would have to sit up in bed for hours to get relief. I would lie awake almost all night. I am 62 years of age, and no one can understand how much I suffered with this Heart Trouble.

"About a year ago, I heard of Dodd's Kidney Pills, and commenced to use them. From the first my condition improved. The pain in my heart gradually grew less, and my general health much better, and now I can say positively that I am entirely cured. I can sleep all night, and enjoy almost perfect health. I thank God for the cure that has come to me through the use of Dodd's Kidney Pills.

"I have thought long over the matter of giving this letter for publication, and am now doing so without any solicitation whatever, and simply because I feel it to be my duty to express the profound gratitude I feel for my recovery, and to let others who may be suffering as I was know how they may find a cure. I know that nothing else but Dodd's Kidney Pills cured me, because I have taken no other medicine for over a year. I feel better now than I have for many years, and it is all due to the use of Dodd's Kidney Pills.

Mrs. Dyer's case and its cure has attracted a great deal of attention, and her letter is a splendid tribute to the curative properties of Dodd's Kidney Pills.

**MICHIGAN LEGISLATURE.**

Daily Summary of the Proceedings in Senate and House at the Forty-first Session.

Lansing, Mich., April 5.—No business of importance was transacted in the senate yesterday.

Lansing, Mich., April 6.—The senate has passed bills providing for a mining appropriation of \$12,500; providing an additional salary of \$1,800 for the three members of the state board of auditors; providing for paying the expenses of circuit judges when away from their own counties trying cases; amending the insurance law so as to reduce the income of the state from this source by about \$8,000; changing the name of the Ionia reformatory; authorizing the state board of auditors to reimburse David Waldron, of St. Johns, for damages for the death of his son while acting as conductor of the capital elevator; for giving compensation to the board of state auditors; allowing county election canvassers to reopen ballot boxes in certain cases; for paying the expenses of circuit judges; to exempt fire insurance companies from taxation on business that they reinsure; providing that the state land commissioner may withhold lands from homesteading.

Lansing, Mich., April 8.—A resolution passed the senate asking the governor for the return of the bill which increased the salary of the chief of the vital statistics department of the secretary of state's office to \$1,500 a year, as the governor notified him that he would be forced to veto the measure if he did not do so. Bills have been passed permitting mining companies to incorporate for \$5,000,000; appropriation for industrial school for boys, \$179,000; dog tax bill.

Lansing, Mich., April 9.—In the senate bills have been passed for the appointment of a state apary; amending the law relative to the revival of commissions on claims against estates of deceased persons; amending the law relative to judges of probate requiring new bonds of executors; empowering common carriers to sell perishable freight when the charges are not paid; amending the law relative to the care of highways.

**House.**

Lansing, Mich., April 5.—Resolutions of sympathy on the death of the late Representative Samuel B. Collins, of Jackson, have been adopted by the house. Bills have been passed amending highway laws relative to the use of crocks in front of private grounds for draining purposes; making eight hours a legal day's work in the mines of the state; prohibiting the adulteration of ground feed; changing date for sending out deer licenses from December to July; prohibiting desecration of the flag; requiring game warden to file \$500 bond.

Lansing, Mich., April 6.—In the house bills have been passed providing for pensions for the wives and children of disabled policemen in the city of Saginaw not to exceed \$600 a year; to establish the Dockerville high school district, Sanilac county.

Lansing, Mich., April 8.—In the house bills have been passed: Appropriating not to exceed \$1,100 for stone base on capitol grounds; providing for the appointment of a state apary for the food commissioner (allowance limited to \$500 a year); State Agricultural society appropriation, \$4,500 a year; State Horticultural society appropriation, \$1,500 a year; making cities, towns and villages primarily liable for damages resulting from contagious diseases; providing boards for the examination and licensing of plumbers in all cities of the state having over 30,000 inhabitants; prohibiting the admission of evidence against insane persons where the facts if true would be equally within the knowledge of the incompetent. The purpose of the bill is to prevent the filing of unjust claims against insane persons.

Lansing, Mich., April 9.—Bills have been reported favorably in the house for an appropriation of \$75,000 for the school for the blind; appropriating \$40,000 for the Michigan asylum at Kalamazoo; appropriating \$11,000 for the industrial school for girls at Adrian; raising the age limit of school children from five to six years.

**DIES AFTER LONG ILLNESS.**

**John M. B. Sill, Former Consul General of United States to Corea, Passes Away at Detroit.**

Detroit, Mich., April 8.—John M. B. Sill, minister resident and consul general for the United States to Corea, from 1893 to 1897, died at Grace hospital Saturday. For a year or more in fact, since his return from the orient, when his health was shattered—Mr. Sill has been failing, and since Christmas has wasted rapidly away.

Mr. Sill, who was born in Black Rock, N. Y., in 1831, was minister to Corea during the Chinese-Japanese war, and his legation was the refuge of many of the Korean court dignitaries after the sensational assassination of the queen of that kingdom. He occupied a prominent position as an educator, having been superintendent of the Detroit schools and principal of the state school at Ypsilanti. He was the author of two grammars, which are in wide use. He is survived by a wife and two children.

**Wants Carter Admitted to Bail.**

Washington, April 9.—A motion was made in the United States supreme court Monday by Hon. Jeremiah Wilson for the admission of Capt. Oberlin M. Carter to bail. Solicitor General Richards gave notice that he would resist the motion on behalf of the United States and he was given five days in which to prepare a brief. Capt. Carter is now serving a five years' sentence in the Leavenworth penitentiary for defrauding the government.

**Dropped Dead.**

Saginaw, Mich., April 9.—Capt. L. P. Hunt, a member of the firm of Prescott & Hunt, of this city, extensive boat owners, and who was captain of the steamer Rhoda Emily, plying between Cleveland and Duluth, dropped dead on a Michigan Central train near Oxford, Mich., Monday. He was on his way to Cleveland to take charge of his boat. Capt. Hunt was 63 years of age, and was born in Rochester, N. Y.

**Easter Greeting**

**To the afflicted.**

**If every one in the world were healthy and happy what a glad day Easter would be. But the sun rises every Easter morning on a multitude of sick and afflicted. The Easter lilies gladden the hearts of the sick and well alike.**

**But to the sick something more than the Easter lily is necessary to bring that hope and cheer which every one expects on Easter day. The well need no physician, but the sick need a remedy.**

**Nearly one-half the people in the United States are suffering from some form or phase of catarrhal ailment. These ailments take different forms at different seasons of the year. In the springtime catarrh assumes a systemic form, producing nervousness, lassitude and general languor.**

**Systemic catarrh deranges the digestion and through deranged digestion it impoverishes or contaminates the blood. Thus we have blood diseases and nervous derangements through systemic catarrh.**

**Peruna is a specific for these cases. No other remedy yet devised by the medical profession is able to successfully meet so many phases of spring ailments as Peruna.**

**Men and women everywhere are praising Peruna as follows:**

<p><b>A First Class Tonic.</b></p> <p>Wm. A. Collier, Assistant Paymaster U. S. **Take a Straight Line.**

Two or three things regarding ourselves we must be sure of. First, we should be absolutely sincere. A man has a right to claim that for himself. He has a right to know whether the claim is true. A man knows whether he is a liar in word, and he has an equal right to know whether he has mixed motives in his actions. What harm can come to a sincere man who lets himself go on the path of his sincerity? He is simply following out, in practical life, the axiom in geometry: "A straight line is the shortest distance between two points." There never was a more false assertion applied to life than the statement: "The longest way round is the shortest way home." Even rifles are judged efficient by the flatness of their trajectory. The curve that is allowed for in the discharge of an arrow at long distance is dismissed in the discharge of a bullet from a modern weapon of precision.—Rev. T. R. Slicer, in Success.

**THE ALCOHOL QUESTION.**

The New Century Study of the Effect of Alcohol in Small Quantities on Mental Operations.

[Published for the County Superintendent of Scientific Temperance.]

One of the most important of the recent findings of science is the effect of alcohol on the brain and mental operations.

Dr. Franz Schouenberger, of Bremen, Germany, said in a recent number of an educational paper:

"Science has established that alcohol destroys first and most those parts which are most delicately and most recently developed. These are those wonderfully delicate brain cells upon whose proper formation the difference between men and beasts chiefly depends. These delicate structures are undeveloped in the very young child, or are only just beginning to unfold. The child is at first, therefore, deficient in speech, reasoning power, intellect, judgment and all the higher moral sensibilities which govern our thinking, feeling and willing. How the drunkard by paralyzing these brain structures, can sink to the level of the animal, and lower, is well known. Whoever, then, gives wine and beer to a child injures these delicate structures in their formation, and thoughtlessness, fightiness, passion, coarse sensuality and all base characteristics attain domination."

Prof. Victor Horsley, an eminent brain specialist and surgeon, professor of chirurgy in the University of London, in a recent lecture, said:

"The time occupied by the nervous system in observing and recording the simplest thing is called 'the reaction time,' and is so appreciable that in all minute and accurate records astronomers have to measure their reaction period and to account for it. This plan in all forms and varieties has been very largely employed by Prof. Krepelin, whose investigations have been so thorough and complete that they explain the somewhat contradictory results obtained by other observers, and have established on a thoroughly scientific basis the direct influence of alcohol on the higher centers of the brain. The effect is that very speedily after taking the dose of alcohol the reaction time is shortened; but this shortening—that is to say, this apparent quickening of the cerebral act—lasts only a few minutes, and then marked slowing sets in, and for the rest of the time during which the alcohol acts, varying from two to four hours, according to the individual, the cerebral activity is diminished. The diminution is shown by a noteworthy lengthening of the reaction period; in other words, it takes longer for a person who has had a small quantity of alcohol to think."

"A further method employed by Krepelin was to estimate the ability with which the addition of simple numbers is carried out, and also the learning by memory of twelve places of figures; and in all these tests the slowing of intellectual vigor is shown. In regard to the occasional acceleration observed at the commencement in some experiments, Krepelin made the remarkable observation that during this period of acceleration, that is, during the first few minutes after taking a dose of alcohol, he had the impression that it was much easier to learn figures, but when he came to examine the records he found that so far from having achieved his intellectual task more easily, it had, as a matter of fact, been accomplished more slowly. This observation was confirmed also by two other investigators in the same laboratory, on whom a similar experiment was performed. This was a striking instance of the deceptive effects of alcohol on the higher intellectual centers of the brain."

**Probate Order.**

STATE OF MICHIGAN, County of Washtenaw ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office, in the city of Ann Arbor, on Monday, the 26th day of March, in the year one thousand nine hundred and one.

Present, W. L. Watkins, Judge of Probate. In the matter of the Estate of Vincent Crittenden, deceased.

Olga L. Crittenden, administratrix of the estate of said deceased, comes into court and represents that she is now prepared to render final account and receive judicial settlement thereof as such administratrix. Thereupon it is ordered, that Friday, the 19th day of April, next, at ten o'clock in the forenoon, be assigned for examining and allowing such account, and that the devisees, legatees and heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the city of Ann Arbor, in said county, and show cause, if any there be, why the said account should not be allowed. And it is further ordered, that the administratrix give notice to the persons interested in said estate, of the pendency of said account, and the hearing thereof, by causing a copy of this order to be published in the Chelsea Herald, a newspaper printed and circulated in said county, three successive weeks previous to said day of hearing.

W. L. WATKINS, Judge of Probate.

[A true copy.] GEORGE H. GUNN, Probate Registrar.

**Mortgage Sale.**

BY a mortgage bearing date May 18, 1880, and recorded on the 21st day of May, 1880, in the office of the register of deeds for the county of Washtenaw, in the state of Michigan, in liber 67 of mortgages on page 168, Joseph Dunnebacke and Bertha Dunnebacke, his wife, duly mortgaged to Edmund Z. Derbyshire, and that certain piece or parcel of land situated, lying and being in the township of Ypsilanti, in the county of Washtenaw, and state of Michigan, and described as follows, to wit: The southeast quarter of the northeast quarter of section twenty-seven, township three south of range seven east, Michigan. The said mortgage was afterwards duly assigned by the said Edmund Z. Derbyshire to Benjamin D. Kelly and Emily M.
