BLANKET SALE!

Last June we arranged to take Carson, Pirie & Scott's lot of Sample Blankets at a big discount from regular wholesale prices. These we now place on sale at first wholesale cost and some at even less than wholesale price. Every pair of this lot of 126 pairs of bed blankets have been carried on the road by one of their traveling men and is slightly soiled or ruffed up. Not a blanket is materially damaged.

No two pairs alike and we can get this one lot only. So don't wait. We shall open the sale with a full sample line of wool and cotton blanket ranging at regplar prices from \$10 00 down to 59c.

We are safe in quoting the prices at about 1-4 off regular prices (and some even lower.)

We offer a case of sample of Bed Comforters at less than 1-4 off regular prices. No two alike.

Newest styles in Black Silk Waists at \$4.25, \$5.00 and \$6.00.

New Cloaks and Suitings arriving every day.

Odd lot of children's heavy underwear 25c value, 2 pieces for 25c.

Women's medium weight union suits, regular 69c value, for 44c.

Fancy 10c Outings for 8c.

12½c Outings for 10c.

All colors of Shetland floss at 10c skein.

HAWKS & ANGUS

Secured Franchise After Hot Fight at Jackson Monday Night.

By a vote of 12 to 3 the common council, at a special session Monday night, passed the Hawks & Angus franchise over Mayor Palmer's veto. The decisive vote was a surprise to even the adherents of the Detroit street railway men. Two weeks ago the franchise was declared adopted by a vote of 10 to 6. The mayor vetoed it on the ground that a two-thirds vote was required by the charter. Two aldermen, Crone and Tuttle, who had previously voted against the franchise, changed front, the latter declaring that while he was still opposed to two city systems, 857 voters of his ward had made life not worth living for him, and he deferred to DRUGS ! their wishes. It was the hottest fight ever waged in Jackson.

LARGEST TAXPAYER

IN CHELSEA Frank P. Glazier Pays \$1,376.73 Into the Village Treasury.

Yesterday, Village Treasurer, Hummel received a cheque for the largest amount ever paid by one individual into the village treasury for taxes. This was a cheque for \$1,376,73 from Frank P. one sixth of the entire village tax. This amount together with county, state and school tax paid by Mr. Glazier, makes three thousand dollars, and makes him the largest taxpayer in Washtenaw county, especially when the fact is taken into consideration that he pays taxes on large the new country down in "York State." blocks of real estate in Detroit and Tole-

do as well as on western lands. Most of the improvements contemplated by Mr. Glazier last spring are completed or well under way, including the memorcorner of Main street and M. C. R. R.

May Cut Out Ann Arbor.

There is a report coming from Dexter that the latest plan of the Boland people is to leave Ann Arbor in the cold and run the electric railroad from Dexter via Whitmore Lake to Salem and Plymouth. This, it is claimed, would greatly shorten the distance between Jackson and Detroit. A prominent citizen of Dexter was in the city yesterday. When asked this report he said that if it was true, there would be a lot of kicking in Dexter. CREISEA TELEPHONE NUMBER 8

Among the feats of a wild man on exhibition in Wichita, Kansas, the program stated that he would eat chunks of raw liver. He failed to do this, and the spectators wrecked the tent. A learned police justice upheld the act, stating that when people pay good money to see a man eat raw liver, they have the right to see him eat raw liver or know the reason why.

The formal invitation has been issued to Christians of all nations to take part in the world's conference of the Evangelical alliance at Hamburg, Germany, Aug. 27 to 31, 1902. It is signed by Count Beinstoff and two pastors for the German committee, by three pastors and four laymen for the local committee of Hamburg, and by the presidents of the three German branches of the alliance, eastern, southern and Saxony.

S. H. Goodwin, aged 71 years, of Hastain, Benton County, and Mrs. Maude E. Mayfield, aged 17, of Higginsville, were married by Probate Judge Gibson, recently in Warrenburg, Mo. The couple were accompanied to the city by George Mayfield, father of the bride, who gave his consent to the marriage. The couple left immediately after the ceremony in a carriage for their home at Hastain, a distance of fifty miles. The groom is a widower and farmer. The bride is a widow, having first married at the age of 15. She is a large woman, of smooth fea-

and boys were in the tent. Five elephants, a dozen ponies, and two men were knocked over. Ella, the trick elephant, got up first and then fell dead. Barker, the trainer, says she died of fright. There was a heavy rain storm at the time and almost incessant thunder and when the four other elephants revived they were managed with difficulty. Ella was eight years old and was bought from Hagenback. The other elephants were greatly distressed and tried to revive the dead one by slapping her with their trunks. One poked hay into her mouth.

Philadelphia capital is to build a trolly line to connect Washington, D. C., with the famous old-time watering place at Point Lookout, on the north of the Potomac, where the river widens into Chesapeake bay. The airline distance from the dome of the capitol to the beach at Point Lookout is less than 80 miles, but, because numerous small tributaries must be being in the neighborhood of \$9,000 avoided, the trolley road will be about interest each year retained by the 98 miles in length. The company is treasurer. Former treasurers have capitalized for \$1,000,000. In the days returned this money, and last fall, before the war Point Lookout was a favorite resort. It was the ante-bellum Atlantic City. The hotels along the beach then ranked as among the finest under the impression that he was beon the seaboard. Congressmen and ing accused of a grave charge. senators, ambassadors, and even presidents, sought relief from official cares at this ideal place, which was a winter resort as well.

One evening Princess Olga have been worth \$10,000. Semonoffski eloped with one of these musicians, an ugly, repulsive man, 49 years of age. Prince Semonoffski and his two sons gave chase, but did not overtake the fugitives till next evening. They administered chastisement to the man, which he is likely to remember for his life, and gave the princess a loaded revolver, telling her she had dishonored their name. She committed suicide immediately, and was buried without much ceremony in the remote village where she was overtaken with her gipsy lover.

While a number of workmen were executing repairs at the Palais du Luxembourg they discovered a number of valuable paintings concealed behind a tapestry. The quaestor of the senate had them examined, and it was found that they are portraits of the three arst presidents of the old Parliament | and will recover. of Paris and of De Thou, the famous ago. It is thought that these portraits were placed behind the tapestry during the Revolution in order to preserve them, and that they have rema

Chelsea Standard. WILD TIME WITH BURGLARS

Armada and Richmond the Scenes of Excitement.

ONE OF THE THIEVES WOUNDED

The Early Morning Disturbed by a Dyna mite Explos on, Shooting and Chase Thieves-A Good Shot by the Village Druggist-Other Michigan News.

Burglars' Work Frautrated. Between 2 and 3 o'clock Saturday morning the village of Armada was startled by an explosion, followed by a fusillade of pistol shots. An investigation showed that burglars had entered the D. H. Barrows general store, where the posteffice is located, and exploded dynamite in cracking the safe. The charge was so heavy that the door was blown off, tearing its way through the ceiling and out into the street, a distance of about fifty feet. Right opposite the postoffice is the drug store of E. F. Phillips, who lives upstairs. Mr. Philips realized immediately what was up and grabbed his revolver. Then he commenced to pour lead into the store across the way. Having emptied his revolver he seized his shotgun, the burglars now being in the street, where they opened fire on the citizens as they ran. Phillips raised his gun and fired at the retreating forms. One of the crooks was seen to fall, but his companions picked him up quickly and started for the railroad track. Again the man fell, and it was concluded that he was seriously wounded. The other two men, however, managed to get him on board a handcar, and while one of them kept up a fusillade on their pursuers, the other worked the lever, and in a little time they had got out of range. The burglars reached Richmond, to which place notice had been sent by phone. When the handcar came along it was fired at by Sheriff Batty and Marshal Fenton, the two unburt burglars escaping by running across the fields.

When the officers got to the car they found one man, badly wounded, whom the others had brought this far and lessened their own chances of escape by so doing. The fellow was taken to the lockup and given medical attention and was told that his wound was fatal. At first he refused to say anything about himself or pals, but this morning he told Rev. Fr. Kilroy and others who he was. He says his name is John Graham and his age is 22. He tures, and looks much older than the said his father, who bears the same name, lived at 112 Root street, Cleveland, O., three years ago, when he was home last. He gave a description of Lightning struck the tent of a cir us his associates and said he did not in Eau Claire, Wis., killing one ie- know their right names, but that they phant and injuring two others. he went by the names of Bob. Jim and bolt struck the menagerie tent just be- Woodsy, the latter being 39 years old fore 8 o'clock, when about fifty men and having a heavy black beard. He has evidently told the truth about himself, as a telegram sent to his father's address was returned undelivered, with the information that the family had moved. Although posses were sent out to scour the country. the other burglars escaped.

Richmond Graham, the wounded burglar, died Sunday afternoon. No word has been received from friends and he will probably be buried in the Potter's field. A horse and buggy was stolen from a farmer named Klusendorf, four and a half miles south of Armada, Saturday night, supposed by the two companions of Graham in the robbery of the Armada postoffice. There is no further clue to the latters' whereabouts. The horse and buggy were found in a cornfield 8 miles north of Detroit Monday.

Cut off a Rich Plum.

The overruling by the Supreme Court of Judge Wolcott's decision, giving county treasurers the right to loan the county's money as their own funds. will deprive Kent county's treasurer of about \$18,000 extra salary, there when County Treasurer Proctor was criticised by the newspapers for retaining his interest money, he became very sensitive and committed suicide

Valuable Horses Killed.

A peculiar and serious accident occurred on the Pere Marquette Railroad at Plymouth Friday morning, A freight train was backing to the siding just west of the station, when one of the cars suddenly tipped over. two women, two girls and eight men and boys. The women and girls escaped without injury, but the men and boys received severe cuts and bruises. The horses did not fare so well. Two of them are dead, two others cannot

A Bad Brake.

W. J. Gray, a brakeman on the Pere Marquette railway, was arrested at Saginaw by the local police and taken to Pontiac, charged with forgery. For some time pay checks issued to employes of the Pere Marquette road have been missing from the trainmaster's office at Saginaw. It is claimed that over \$350 worth of themwere cashed at a bank in Pontiac, the name of the person in whose favor they were drawn being forged as an the checks.

William Hecker, an employe at the mill of Crookshank, Somers & Co., Ionia, went under the building to shift a belt. He was caught and wound-around the shaft, which pulled him up and pinned him between the shaft and the door. He was released

Sentury and a half stock train on the Michigan Central Farmers of Kalkaska county in ad-

Smallpox in Two Towns.

The second fatal case of smallpox in Grand Traverse county ended Tuesday night when the little daughter of Frank Vinton, of Williamsburg, died. The family has been quarantined three weeks. Vinton got the disease at Mancelona. An Indian family at Bates has contracted the disease and one person bas died.

The public schools at Three Rivers are closed because a case of smallpox happened in the tenth grade of the First ward school. A boy named Clyde Avery, a son of Oliver Avery, has been ill several days. The schools are temporarily closed, and the lessons given out through the papers. Other children of the same family are in the first, third and ninth grades. Much apprehension is felt.

In a Serious Position,

Rosa P. Smith, of Howell, a guest at a Frankfort hotel, gave birth to a child Monday forenoon. The hotel proprietor, upon her non-appearance for breakfast, broke into her room and found the infant in a satchel. Investigation by the coroner's jury showed that it had been born alive and that the child had bled to death. The jury's verdict held that the woman was responsible for its dath. No warrant has been issued for her as yet, but she is kept under surveillance. Rosa P. Smith is a prominent young woman of Howell, a graduate of the high school, active in church circles, and has been in the employ of the Livingston Republican for seven years. a prominent young man of the village is said to be the father of her child.

Branch County Assessments. The state tax commissioners have fixed the value of a share of stock in the Southern Michigan National Bankat \$154, which makes the total assessment \$260,600; the Coldwater National Bank at \$117, the total being \$139.000; the Branch County Savings Bank at \$127, the total being \$63,500. The Coldwater & Quincy Cement Co, have been assessed \$500,000, which is more than double former assessments. The Coombe Milling Co. have been raised from \$67,000 to \$75,000. The Union City Cement Co. was raised \$20,000. J. B. Branch & Co., dry goods merchants. Sons, also dry goods merchants, were raised \$5,000. The Coldwater Gas Light & Fuel Co. was lowered some

MINOR MICHIGAN MATTERS.

A bonus has been raised and a flour mill will be built in Luzerne. Three thousand students have regis-

tered at the U. of M. this year. Manistee has invited the state troops to camp there again next summer.

Burglars stole all the blankets and bedding in the Grand Marias pest

Rosa P. Smith, of Howell, is in cuswith iufatilicide. Lumbering operations have been

commenced around Standish for the coming winter. Judge Jere Wilson, Schley's leading counsel before the court of inquiry,

was buried Thursday. Frank Penowski, of Bay City, aged 12, fell into the river Saturday morning and was drowned. Ald, Frank Rhead, of Lapeer, was

hrown from his buggy Friday night, receiving a broken leg. The Methodist Protestant society of

Flint has let the contract for its new church, which will cost \$5,000. The condition of ex-Gov. Cyrus G.

SIGNS OF REMORSE SHOWN

on the Assassin's Arrival at the Auburn Prison-Revived With Brandy -In His Cell With the Death Watch Awaiting the Date of His Electrocution

Leon F. Czolgosz, President McKinley's assassin, occupies a cell in murderer's row at Auburn prison. Here he will remain under the constant watch of two guards until October 28, when he will be marched to the death chamber and put to death. Until that time Czolgosz will be permitted to see no one except a priest, whom he hasconsented to receive.

In anticipation of the arrival of the murderer at Auburn, a crowd numbering nearly 1,500 people surrounded the prison Thursday night. At the time of the prisoner's arrival, however, shortly before 3 o'clock, only about 300 men and boys remained. Pale and trembling, Czolgosz was dragged from the train by the brawny guards. He was handcuffed between two deputies. Twenty local policemen attempted to keep back the crowd which surged about the assassin, clamoring for his life. The onslaught was so sudden that the police scarcely had time to draw their clubs and revolvers. The prison gates swung open and the assassin was pushed through, but not B. G. Stockton, of Flint, who has before some of the crowd had rained blows on the officers and their prisoner.

The distance between the gate and prison steps was quickly covered. As the assassin reached the steps his legs gave way, and, moaning and shricking. he was dragged into the office and

Scant ceremony was accorded him. The handcuffs were quickly removed and he was dragged into Warden Mead's office. He was in a state of absolute collapse. Dr. John Gauin, the prison physician, was summoned. He arrived in a few minutes and gave the assassin a drink of brandy. This revived him somewhat and two keepers told him to stand up. He tried to rise, but fell to the floor. He was up in a moment, bowever, and two keepers stripped him of his clothing, replacing it with a suit of prison stripes. Five keepers then hustled him to his cell, where he will remain until marched to the death chair. Upon reaching his cell, the prisoner partially recovered from his fright and by morning had assumed his manner of stolid indifference.

On his way from Buffalo to Auburn. William H. Dickinson was struck Czolgosz is said to have expressed rehowever, that he was alone in the plot.

To Be Electrocuted Oct. 28.

Leon F. Czolgosz was brought into court Thurs lay afternoon for sentence. In answering the formal questions the assassin stated that he was born in Detroit. His replies were so low that they were scarcely audible.

"Have you any legal excuse why sentence should not be pronounced against you?"

Czolgosz could not or pretended he could not hear the question put by the clerk. It was repeated to him twice, and then he said something in an inaudible tone. The judge intervened and explained what was meant by the question.

"First, you may claim syou are insane. The next is have you good cause to offer against sentence being pronounced against you?"

The judge also stated legal reasons the prisoner might have against sentence being pronounced.

"I have nothing to say about that," was the reply. Justice Titus then asked that the prisoner be allowed to say something

in exculpation of his crime. The prisoner began to speak. His voice was so low that he could scarcely be heard. Judge Titus was obliged to repeat it sentence by sentence, so

that the court might hear. "I have nothing to say," whispered Czolgosz.

According to the law of this state. Oct. 28 is the earliest date that could be fixed for the execution of Czolgosz. Accordingly Judge White sentenced Czolgosz to be electrocuted during the week beginning October 28, 1901.

Seth Low Confident.

Seth Low, president of Columbia unirersity, has announced that he will resign from the university as soon as he is notified of the action of the Citizens' union and Republican committee in nominating him for mayor of New York. He believes that chances for an anti-Tammany victory were never so bright before. Already checks are being sent in by men prominent in business and finance. Men who contributed to the large fund of the Citizens' union four years ago are again coming to the front.

Ask Shaffer to Explain.

Samuel Gompers, president of the American Federation of Labor, and John Mitchell, president of the United Mine Workers, are out with an open letter to President Shaffer, of the Amalgamated Association, inviting that gentleman to prove the assertions he made in connection with his statement as to the settlement of the steel strike-to wit, that Gompers and Mitchell extended no aid, and neglected to interest themselves in the affairs of the steel workers.

A Forgotten Town,

Daleville, a town of about 1,000 inhabitants in Delaware county, is probably the only town in Indiana which was not included in the last census. For some reason it has been entirely overlooked and is not even mentioned although the township in which it is located is given.

That are yellow with the ripening grain, They find in the thick, waving grasses Where the scarlet-lipped strawberry

They gather the earliest snowdrops
And the first crimson buus of the rose.

They toss the hay in the meadow;
They gather the elder bloom white;
They find where the dusky grapes purple. In the soft-tinted October light.
They know where the apples hang ripest.
And are sweeter than Italy's wines;
They know where the fruit hangs the thickest.
On the thorny blackboses. On the thorny blackberry vines.

They gather the delicate seaweeds
And build tiny castles of sand;
They pick up the beautiful sea shells—
Fairy barks that have drifted to land; They wave from the tall, rocking tree-

where the oriole's hammock nest swings,
And at night time are folded in slumber
By a song that a fond mother sings.

To those who toil bravely are strongest; The humble and poor become great; And from these brown-handed children Shall grow mighty rulers of state. The pen of the author and statesman— The noble and wife of the land—

The sword and the chisel and palette Shall be held in the little brown hands.

Whitened Kair,

BY H. S. ROGERS.

Copyright, 1901, by Daily Story Pub. Co.) Conductor Shaffer of No. 5 let himself down from the rear end of his train as it came to a standstill. He cast an inspecting glance along the line of cars and at first hardly noticed the white-haired man who came creeping out from under the car near which be has standing. It was evident that gone differently may be I would have the stranger had been stealing a ride. had a passenger run by this time. One d he was dirty and begrimed; but evening Mary and I had a little spat-In spite of the unattractive appearance | didn't amount to much, but we thought of the man there was something un-It did-and that settled it. Then I usual in his appearance that would cause anyone to look at him a second time. The skin had the pink tint and smoothness of youth, yet the hair above the face was as white as winter snow. The men looked at each other a moment and then the stranger turned quickly as if about to move away. Said Conductor Shaffer:

"Joe Jordon, by thunder!" "Hoped you wouldn't know me,

"I'd know you in the kingdom come, loe. But, Lord, how you have

Joe appeared a bit uneasy and moved from one foot to the other restlessly. "What you doing under that train?"

"Riding the rods." "From where?"

"Other end of the division." "Where were you going?"

"Didn't know and didn't care. Just tot out because I was getting young fellow hanging around the tramped."

"You are a regular bum, then?"

"Yep, pretty much." "Just you get right in the smoker there and after I work the train I will young fellow found a car door unsealed

tome in and talk to you." After Conductor Shaffer had done his work he went forward and sat down by the side of the queer looking

"Kind of getting up in the world some, ain't you, Shaff?" "How ?"

"Kind of elevated from a freight run

benths until I got this passenger run. ou seem to be still on the slow reights in your line, Joe. What on earth has happened to your hair?" "It's a pretty long story, Shaff, un-

Twenty miles to the next stop."

Well, you see, it is like this, Shaff.

It's five years since I drouged out. Not

to the roof of the car that we could scarcely move, and as I lay there not daring to even turn a hand or foot it was fearful. The odor from the insects that he had crushed and from the ripe it is not surprising that I soon became unconscious. And that no doubt saved my life and reason. "It was some time the next day when I awoke, and there was daylight

in the car. I looked about and there was not a tarantula in sight. I called to my companion, but there was no answer, and I was too weak to get over to him. After a time I heard people

moving outside and made an outcry that attracted attention. At last the car was opened and I was released. . I won't trouble you with all those details, but they found the body of my companion. It was swollen to horrible size and a fearful thing to see. I lay in a hospital three weeks and when I came out my hair was like it is now, than thirty."

Mary Parr was married?"

"Nobody; just knew it was all."

"Well, you are the blamdest idlot That girl has just been sitting around waiting for someone, and most people think it is you. My wife was saving to me only the other day that if Mary was pining for that Joe Jordan she better look out or she would end up an ing."

"Reckon most people would think she was losing time waiting around for an old whiteheaded tramp, Shaff."

The queer looking tramp sat a long time watching the scenery rushing by. but it is doubtful if he saw any of it. next time he looked up and remarked:

get back on the old I. N. & W.?" "'Ain't done nothing to queer your-

self, have you?"

"Not that I know of."

"Well, the old man always spoke mighty well of you, and if there is nc'hing doing for you on that road, I have got a pretty good pull over here myself. You drop off at home with me, and we will see about fixing you up a bit before you tackle him."

Friederichshof Is Hers. Friederichshof, at Cronberg, the al-Frederick died, is one of the most beautiful country seats possessed by the royalty of Europe. It is natural some of the most romantic country head again. scenery in Germany. Upward of \$1,000. 000 was spent by its recent occupant in improving house and grounds. The young princess who is soon to occupy it is one of the sweetest-faced members of German royalty. She is the fifth and youngest child of the late Empress Dowager, and was the favorite during the last few years of her life. She was born April 22, 1872, and was named Margarethe. Her marriage to Prince Frederick Carl of Hesse occurred in January, 1893, and she has three sons

Some Hotel Figures. Statistics are not very entertaining but there are some stories of hotels that they alone can tell, and that of the supplies is one of them. For instance, during the year 1900, one of those big hotels spent for meats, \$200.-000; for poultry, \$113,000; for vegetables, \$80,000; for fruit, \$42,000; for eggs, \$12,000; for butter, \$57,000, and for the flowers used in decorationsand there are flowers on the tables every day-\$30,000. The initial investment in silverware was \$250,000, and with losses that, charitably, are credited to the souvenir craze, and the general wear and tear on table service about \$40,000 a year is spent in keeping this supply up to the hotel's stand-

Progress in Ocean Travel. In 1840 the Cunard steamship Britannia, built of wood, propelled by paddle wheels, maintained a sea speed o about 81/2 knots. Her steam pressure was 12 pounds per inch. She was 207 feet long, about 2,000 tons displacement, her engines developed about

hegan beating the air and fighting the tarantulas. We were pressed so close

fruit was in itself overpowering, and BUT THE SEA WAS SEVERE.

Retrograde Movement" Subject Investiguted-Jewett Contradicts Schley-The Day's Proceedings-Condensed Ta's Told by Log of the Merrimac

Washington, Oct. 1.-Capt. James M. Miller, who commanded the collier Merrimac off Santiago in May, 1898, gave testimony before the Schley court of inquiry aimed at the contention of darkness. A hunt was made for the Admiral Schley that he could not coal prowlers, but no trace could be found his ships in those waters the week before the sea fight.

The examination was conducted in accordance with clause No. 6 in the recept. May 27, thirty-six days before Cervera's fleet left the harbor, Schley turned the squadron under his command back toward Key West, declaring it was necessary to coal his ships. This "retrograde movement," as it has come to be called, is one of the chief complaints made against the admiral. Capt. Miller was called by the department to show whether or not the movement was necessary; whether, in fact, the state of the sea and weather compelled Schley to leave Santiago to replenish the bunkers of his vessels. It was a vitally important point ,and Capt. Miller was kept on the stand an hour.

First the judge advocate general obtained the information that in the opinion of the commander of the col-Her it was possible to coal ships at that time. Later the counsel from Schley hammered away at the witness and tried to extract from him the statement that it was dangerous to try to coal at sea. Capt. Miller held his ground against the assaults of the legal lights on both sides and confined although you know, Shaff, I am less his story to the facts set forth in his log book. This record showed that "I have had some darned queer ships coaled both before and after the stories told me, Jue Jordan, but that date when Admiral Schley sent the distakes the calle. Who told you that patch to the department that it was necessary to go to Key West to coal.

Jewett Contradicts Schley.

When Capt, Jewett, commander of the Minneapolis, took the stand he stated that he did not give Schley the information as to the presence of the Spanish fleet at Santiago. The counsel on both sides became involved in old maid, because the Lord only knew another wrangle over the admission of whether he was in the land of the liv- conversations between naval men, and Solicitor Hanna of the navy department, in addressing the court, declared it was apparent that all the officers did not consider it necessary to tell Schley for the reason that they accepted as true the report of the department that Cervera was hiding in the harbor. Mr. When the conductor came along the Hanna took the ground that they had no reason to doubt the department's "Say, Shaff, do you reckon I could information, and intimated that Schley was the only one who was skeptical on that point.

Capt. Miller is a little man with a determined mien and a short-cropped beard which makes him look like Gen. Grant. He told about loading 5,000 tons of coal at Hampton Roads and arriving at Cienfuegos May 23, having made a speed of nine or ten knots. He had orders first to coal the Iowa. By referring to the log of the Merrimac Capt. Miller said he coaled the Iowa. the Castine and the Dupont May 23. The following day, the 24th, he coaled ace wherein the late Dowager Empress the Massachusetts. On the way from Cienfuegos to Santiago the Merrimac's engines broke down the evening of the 26th, and she was towed by the Yale. therefore, that envious eyes should be He coaled no ships May 26, but the now cast at Princess Frederick Carl of next day he coaled the Texas, which Hesse because, by the will of her de came alongside, and the evening of ceased mother, she comes into posses that day he coaled the Marblehead and sion of this estate. Private Deprend, who was doing guard duty beside the vault in which the body of President McKinley rests, was mysteriously attacked Sunday night by two men. Capt. Biddle, in command of a company of regulars, thinks an attempt was made to blow the vault to pieces, as one of the men carried a white package. While one of the strangers engaged the attention of the sentinel the other struck him over the head and also attempted to stab him. A gash "L" shaped and about two luches long each way was cut through the clothing, including the overcoat, and a small scratch was made on Deprend's body. The blow was so hard that Deprend was knocked down a small hill and was unable to gain his feet before the men disappeared in the of them. The vault is but a short distance from the west edge of the cemetery and the men evidently escaped from there into the fields and woods nearby.

Massacred by Filipinos.

A disastrous fight between United States troops and insurgents occurred Saturday in the island of Samar, near Balangiga. A large body of insurgents attacked Co. C. Ninth Infantry. only 24 members of the company escaping. All the others are reported to have been killed.

The company was at breakfast when attacked and made a determined resistance, but the overwhelming numbers of the insurgents compelled them to retreat. Of the survivors who have arrived at Bassey, 11 are wounded.

Gen. Hughes, from the Island of Samar, reports the arrival of Sergt. Markley and one private from the fight at Balangiga. The men say that the officers of the company, who were at first reported to have escaped, were killed, with the majority of the company. The troops were attacked, while unprepared, by 400 bolo men, of whom the Americans killed about 140. Many of the soldiers were killed in their quarters before they had time to grasp their rifles.

The German Lutherans are building a fine church at West Branch.

ENVIRONMENT OF AUTHORS.

People Preminent in Literature Who Have Sought Congenial Surroundings,

The workshops of American authors have much to do with the quality of tudes which could befall a communion what they produce. Differing temperaments require different conditions in which to accomplish the best results. This is peculiarly shown in the case of the great American writers balm were west Waterloo visitor last of the day. For example, Harriet Prescott Spofford does her best work sitting under the trees writing on a pad resting on her lap.

Margaret Deland has a perpetual bit of summer introduced into her high, is richly embossed in three pan-Boston home. A small glass conservatory, filled to overflowing with gay jonquils, is where this brilliant writer does her best work.

Winston Churchill, author of "Richard Carvel," lives in St. Louis in the winter and in Vermont in the summer. He does his work in a very businesslike way in an office at the top of one of the city's skyscrapers. Here, surrounded by the roar and din of the city's traffic, he wrote the charming century it disappeared from the story of long ago, when cable cars and church in a most mysterious manner,

Bret Harte generally writes out of doors, but always while smoking. He said the first lines always took a cigar and sometimes two cigars.

In the city of Atlanta, in a homelike little cottage embowered in rosebushes and apple trees, Joel Chandler Harris writes his inimitable tales of "Uncle Remus and Bre'er Rabbit."

FIRE AMONG THE REDWOODS

Impressive Sight Presented by the Tall Young Trees When Aflame.

Perhaps the most startling phenomenon of the fire was the quick death of childlike sequoias only a century or two of age, says John Muir, in Atlantic. In the midst of the other comparatively slow and steady firework, one of these tall beautiful saplings, leafy and branchy, would be seen blazing up suddenly all in one heaving, booming, passionate flame reaching from the ground to the top of the tree, and 50 to 100 feet or more above it. with a smoke column bending forward and streaming away on the upper free-flowing wind. To burn these green trees a strong fire of dry wood beneath them is required to send er limbs gradually catching fire and igniting the next and next in succession, the whole tree seems to explode A few years ago there was a great almost simultaneously, and with awquenched, leaving the green spire a black dead mast bristled and roughened with down-curling boughs.

PHOTOGRAPHING BIRDS.

The More Common and Unsuspicious Are Most Difficult to Take.

Strangely enough, it is not always the more rare and shy birds which are most difficult to photograph, but, effective in removing all impurities from on the contrary, very common and the liver and bowels. Small and easy to usually unsuspicious species, when take. Never gripe or distress. Glazier approached with photographic intent, are exceedingly wary. This is the case with the familiar robin, and also with the kingbird or bee-martin. says A. H. Verrill, in Frank Leslie's Popular Monthly. Time and again have I spent an entire afternoon endeavoring to photograph this saucy flycatcher, but without avail, and it is only very recently that I succeeded in inducing one to sit for his porother hand, blue jays, which are notoriously wild, I have had no difficulty with, provided the time chosen was late summer or early autumn. 1 fing that at this season they readily approach within range of my lens if their cries are imitated while in hiding. Many birds have habits which greatly facilitate matters once they are learned.

GIRLS AS BANK TELLERS.

Do Better Work and Are More Trust-Bank Cashier,

Behind each of the 13 windows in the savings department of the Royal cream bread. Remember Trust bank, 169 Jackson boulevard, ing out the money of several thousand depositors, reports the Chicago Chronicle.

The young women have been employed there for some time, though it is the only bank in Chicago where they do that kind of work. They have proven faithful and accurate in their work and the manager of the bank says that men will never displace them.

"They are always at work on time," said Cashier Edwin F. Mack, "and when closing time comes they do not rush to get out for fear of working a minthe bank's time in telling each other of their experiences the night be-

WANDERINGS OF A CHALICE. Antique Communion Cup That Once come a Prize for Horse Racing.

Surely one of the strangest vicissicup is to become the prize in a horse race; yet such has been the fate of one which once belonged to the Episcopal church of Clontarf, and after & disappearance of many years' duration has at last been restored to its original purpose. The incident is related in the Clontarf Parish Magazine, says the London Telegraph. The chalice of solid silver stands about four inches els, with figures representing music, plenty and fashion; has no shank, but is supported on three balls, each held by an eagle's claw. It is considered to be of Dutch or Hanoverian workmanship, and was evidently not originally intended for sacred use. On it is the inscription: "The gift of Charles Melville, sen., Esq., to the church of Clontarf, April 8, 1721."

Some time in the early part of last typewriters were an unknown quan- and all trace of it was lost until quite recently, when Col. P. D. Vigors, of Bagenalstown, discovered through a correspondence with Rev. J. Bloom, of Whitechurch, Stratford-on-Avon, that the cup was in the possession of Mr. J. R. West, of Alscot Park, in whose family it had been for many years. And, more extraordinary still, it is clear, from an inscription on the bottom of the chalice, that it was presented as a cup at the Cheltenham races in 1833, and was won by a horse there. The inscription underneath reads: "Cheltenham, July 18, 1833. Won by Exile, 5-year-old." The chalice will, it is to be hoped, be spared further wandering and will remain safe in Clontarf.

> Difference in Taste. Wife-Mr. Black has no more taste

in the matter of dress than a giraffe. Husband-Why do you say that? "Because his wife had on the most beautiful gown last night, and when I admired it he said he thought it was dreadful."

"But, my dear, he had to pay \$500 for it."-Detroit Free Press.

STEPPED INTO LIVE COALS

"When a child I burned my foot frightfully," writes W. H. Eads of Jonesville, Va., "which cause i horrible leg sores for 30 years, but Buckleu's Arnica Salve up a current of air hot enough to dis- wholly cured me after everything else till inflammable gases from the leaves failed." Infallible for burns, scalds, cuts, and sprays; then, instead of the low- sores, bruises and piles. Sold by Glazier & Stimson's, 25c.

WHAT'S YOUR FACE WORTH?

Sometimes a fortune, but never, if you ful roaring and throbbing a round have a sallow complexion, a jaundiced tapering flame shoots up 200 or 300 look, moth patches and blotches on the feet, and in a second or two is skin-all signs of liver troubles. But Dr. King's New Life Pills give clear skin, rosy cheeks, rich complexion. Only 25 cents at Glazier & Stimson's drug store.

TOT CAURES NIGHT ALARM

Senator Chas. A. Ward, who is engaged in the practice of law in Ann Arbor, was in town on legal business this week.

The Michigan Central will soon be incorporated under the general state law. A notice has been sent out to its stockholders that on December 10 they will vote on a proposition to surrender their special charter and reincorporate under the Michigan law of 1897.

Last week's Dexter Leader stated that the ralls on the Boland line through Chelsea were being taken up, and would be relaid at Dexter, while a different style rall would be put down here. Nothing of the kind has occurred, and the same ralis still adorn our streets.

The county officials who have anything to do with the sentence of prisoners to the county jail have received a jar from the state board of corrections and charlties, the secretary of which writes: "Your report of the inspection of the jail is received, for which accept thanks. Jail is too small because 80 per cent of its inmates are 'drunks, disorderlies and vags,' who had better be given long terms at hard work in the Detroit house of correc-

It is The Standard's sad duty today to chronicle the death of Miss Ora Monroe aged seventeen years, which occurred early Wednesday morning, October 2d 1901, after an illness of twelve days. Miss Monroe has been a resident among us nearly a year and a half, acting as operator for the Chelsea Telephone Co., and during that time has made many friends by her kindness and obliging ways. Her remains were taken to Howell this morning for interment.

Report of school in district No. 4, Syl van, for the month ending September, Attending every day, Ruth Phelps, Linda and Oscar Kalmbach, Helen Kern. Standing 90, Joseph Knoll, Inez Ward, Irving Wolf, Albert Forner; 85, Linda Kalmbach; 80, Nora Forner, Helen Kern. Linda Kalmbach and Nora Forner have not misspelled a word in written spelling during the month. Allie Guthrie and Nora Forner each spelled the eighth grade down. Inez Ward the fifth grade three times. Mrs. L. A. Stephens, teacher.

24, October 1, 8, 15, 22 and 29. The following statute is of special importance at this season of the year: "Any person who shall enter a vineyard, orchard or garden during the months of July, August, September or October without the-consent of the owner, and pick, take, carry away, destroy or lojure any of the fruit, vegetables or crops therein, or in anywise injure or destroy any bush, tree, Detroit 7:30 p. m. the same day. vine or plant, shall be guilty of a misdemeanor and, on conviction thereof, shall be punished by imprisonment in the county jall not more than 90 days or by fine not less than \$5 nor more than \$100, Grand Rapids at 7:30 and Jackson 10:15 or by both such fine and imprisonment p. m. the same day. in the discretion of the court."

Migration of Criminals.

"Only well-to-do persons and criminals migrate with the seasons," said an old detective recently, "and the cause of the latter going is on account of the movement of the former. It is a peculiar thing, but a fact, that thieves and other criminals spend the leave the city, and may be found scattered along the seashore. While a great many robberies have been reher, at the home of the bride's parents, leased from the eastern penitentiary have left the city. There is nothing here for them except to break into va- Prize Alminac. Glazler & Stimson. cant houses. This is not very profitable, and there is a big risk. They prefer to go with the crowd. Wait until cool weather comes and see if there is not an increase in arrests."-Philadel-

Heron Builds Nests High, Heron colonies are rare enough to excite interest in their location and the peculiarities of the nest-building of these birds. They live and rear their young year after year at the same place unless some catastrophe in bird life or the intrusion of unwelcome residents cause them to move. There are three known heron colonies in New England. One of them is on the plantation just to the north of Sebec lake. On a point of land reaching out into the pond is a growth of tall silver birches and there are at least 100 nests in the tops of those trees. The trees are tall without limbs for 40 feet or more from the ground. It is a well-known fact that herons never build a nest in a tree with limbs much less than 40 feet from the earth. The nests are constructed from small sticks. The nest is at least two feet across .- Nature.

this country recently on his way home m Paris to the South Sea Islands. Though a native of the French capital Barceaux has little in common with the inhabitants of any great city. except the desire to make money and plenty of it. At his island home in own hand under him, so that his head, be no more remembered," and Psalms Tahiti, in Paris and in New York, he he known as a dealer in pearls, which he buys from the native pearl divers and sells to the jewelers of the great eapitals.

M. Barceaux stopped off in Chicago for a few days and made an excursion up into Wisconsin to look into the pearl fisheries of the inland rivers and creeks of which he has heard so much.

Pe. sonally M. Barceaux looks least of all like the popular idea of a Frenchman. He is a huge fellow, more than six feet tall, and both his hair and his beard are yellow. He speaks English with only the slightest accent. Incidentally he told interesting things about the brown skinned divers who bring up the pearls-bearing bivalves from the bottom of the South Pacific.

"As I suppose everybody knows," he said to a reporter in Chicago, "pearls are now the most fashionable and popular of jewels and have immensely increased in value within a few years. Also I believe they are yearly growing harder to get, so that the increase in price is perhaps nat-

"The most remarkable thing about the pearl fisheries in the South Sea islands is the beautiful character of

WISCONSIN PEARL HUNTERS A' WORK.

the men who daily risk their lives in the work. Often they are abused and imposed upon by the whites, and yet, almost without exception, they retain what might be called an ideal Christian attitude of mind. If a dealer cheats one of the native divers, for instance, the native will not attempt to 'get even' in any way. He will, however, go to the man who has defrauded him, and state the case in a mild and gentle way, thereafter refusing to have any business dealings with tie delinquent. As nearly as I can judge these natives are ideal gentle-

"There was a crabbed old Scotsman who came out to the islands a few years ago to buy pearls. He thought it legitimate to take advantage of the natives in any way be could and once he swindled a native chief out of more than half the value of a considerable collection of pearls. The chief said nothing, but waited his opportunity. Finally, one day the Scotsman wanted to be rowed over to a neighboring island and could find nobody to make the trip but the old chief. who at once, when asked, agreed to take him over in his cance. Once out on the water the chief freed his mind. telling the Scotsman that he knew he had been defrauded and saying that a man who came from a Christian country ought not to stoop to rob a poor heathen. The Scotsman grew angry and abused the native shame

HUS HANDICAPPED THE NATIVE SWAM ALMOST TWO MILES. ly, as he himself, afterward ad-To this abuse the chief made answer, maintaining a dignified

feet from the bottom they dive off the stone head foremost, and so reach the

SOUTH SEA ISLANDERS DIVING FOR PEARLS.

bottom, where they grope around for the precious shells. The first shell a diver secures he places under his left arm, the second he holds in his left hand, and the others, if he is fortunate enough to get more, he carries like an arm'ul of stove wood in his left arm. Then, swimming with his right arm and his feet, he comes to the tor and is lifted into the boat.

"I have lived in Tahiti sixteen years. All my children have been born there and it is home to all of us. Even is belle Paris has not such attractions for me as my far off island home. Life and property are perfectly secure there. In fact, the only demoralizing influence is the greedy and domineering white man. No where else in the world have I found such unselfishness and such gentle manners."

The New Reporter Again .- "Always," said the astute city editor tc the new reporter-"always be on the lookout for any little touch of humor that may brighten up our columns." in a story about a burglary in a butcher shop, which commenced: "Mr. Hiram Cleaver, the well known butcher, lived. is losing fiesh rapidly these days,"-Baltimore American.

DEFEATS OF OBLIVION LAST SUN-

DAY'S SUBJECT.

Job. zziv. 20-"The Righteons Shall Be in Everlasting Remembrance" Psalms exil. 6.

[Copyright, 1901, by Louis Klopsch, N. Y.] Washington, Sept. 29.-In this discourse Dr. Talmage shows how any to his great surprise, the native chief one can be widely and forever recolswam at once to his side, told him to lected and cheers despondent Christian lie over on his back and placed his workers; texts, Job xxiv, 20, "He shall cxii, 6, "The righteous shall be in everlasting remembrance."

Of oblivion, and its defeats I speak today. There is an old monster that swallows down everything. It crunches individuals, families, communities, states, nations, continents, hemispheres, worlds. Its diet is made entists will tell you that it has for up of years, of centuries, of ages, of ages been on fire. cycles, of millenniums, of cons. That monster is called by Noah Webster and all other dictionaries "Oblivion." It is a steep down which everything rolls. It is a conflagration in which everything is consumed. It ison dirge which all orchestras play and a period at which everything stops. It is the cemetery of the human race. It is the domain of forgetfulness. Oblivion! At times it throws a shadow over all of us, and I would not pronounce it today if I did not come armed in the strength of the eternal God on your behalf to attack it, to route it, to demolish it. Why, just look at the way the fami-

lies of the earth disappear. For awhile they are together, inseparable, and to each other indispensable, and then they part, some by marriage going to establish other homes, and some leave landing the exhausted and almost un- this life, and a century is long enough conscious Scotsman on the sandy to plant a family, develop it, prosper beach, where he left him and went to it and obliterate it. So the generations give warning to his friends. After vanish. centuries come down as far as the

highest spires and domes and turrets

The Roll of Armies. Call the roll of the armies of Baldwin I. or of Charles Martel or of Mariborough or of Mithridates or of Prince Frederick or of Cortes, and not one answer will you hear. Stand them in line and call the roll of the 1,000,000 men in the army of Thebes. Not one answer. Stand them in line, the 1,700,000 infantry and the 200,000 cavalry of the Assyrian army under Ninus, and call the roll. Not one answer. Stand in line the 1,000,000 men of Sesostris, the 1,200,000 men of Artaxerxes at Cunaxa, the 2.641.000 men under Xerxes at Thermopylae and call the long roll. Not one answer. At the opening of our civil war the men of the northern and southern armies were told that if they fell in battle their names would never be forgotten by their country. Out of the million men who fell in battle or died in military hospitals you cannot call the names of a thousand, nor the names of 500 nor the names of 100 nor the names of fifty. Oblivion! Are nal blessedness he might wear? What the feet of the dancers who at the ball of the Duchess of Richmond at Brussels the night before Waterloo all still? All still. Are the ears that heard the guns of Bunker Hill all deaf? All deaf. Are the eyes that saw the coronation of George II, all closed? That evening the new reporter turned All closed. Oblivion! A hundred being on this earth that knew we ever

In some old family record a descendspell out our name and from the fad-

TALMAGE'S SERMON, Patagonia. Tell me something about his features? What did he do? What year was he born? What year did he die? And your great-randmother? Will you describe the style of the hat she were, and how did she and your great-grandfather get on in each other's companionship? Was it March weather or June? Oblivion! That mountain surge rolls over everything. Even the pyramids are dying. Not a day passes but there is chiseled off a chip of that granite. The sea is triumphing over the land, and what is going on at our Atlantic coast is going on all around the world, and the continents are crumbling into the waves. and while this is transpiring on the outside of the world, the hot chisel of the internal fire is digging under the foundations of the earth and cutting its way out toward the surface. It surprises me to hear the people say they do not think the world will finally be burned up when all the sci-

Why, there is only a crust between us and the furnaces inside raging to get out. Oblivion! The world itself will roll into it as easily as a schoolboy's india rubber ball rolls down a hill, and when our world goes it is so interlocked by the law of gravitation with other worlds that they will go too, and so far from having our memory perpetuated by a monument of Aberdeen granite in this world there is no world in sight of our strongest telescope that will be a sure pediment for any slab of commemoration of the fact that we ever lived or died at all. Our earth is struck with death. The axletree of the constellations will break and let down the populations of other worlds. Stellar, lunar, solar, mortality. Oblivion! It can swallow and will swallow whole galaxies of worlds as easily as a crocodile takes a heavenly citizen. It is not half as down a frog.

Yet oblivion does not remove or swallow everything that had better not be removed or swallowed. The old monster is welcome to his meal. This world would long ago have been overcrowded if not for the merciful removal of nations and generations. What if all the books had lived that were ever written and printed and published? The libraries would by their immensity have obstructed intelligence and made all research impossible. The fatal epidemic of books was a merciful epidemic. Many of the state and national libraries today are only morgues, in which dead books are waiting for some one to come and recognize them. What if all the people that had been born were still alive? ancestors of ten centuries ago, and people who ought to have said their worth remembering. The first useful thing that many people did was to die. their cradle a misfortune and their grave a boon. This world was hardtury. So many things have come into the world that were not fit to stay in we ought to be glad they were put out. The waters of Lethe, the fountain of forgetfulness, are a healthful draft. Alexandria, and the second on top of The history we have of the world in ages past is always one sided and cannot be depended on. History is fiction illustrated by a few straggling

> Why We Should Be Remembered. Now, I have told you that this oblivion of which I have spoken has its defeats and that there is no more reason why we should not be distinctly

facts. . . .

and vividly and gloriously remembered and New Yorks and Londons, and only five hundred million billion trillion quadrillion quintillion years from now than that we should be remembered six weeks. I am going to tell you how the thing can be done and will be

We may build this "everlasting remembrance," as my text styles it, into the supernal existence of those to whom we do kindness in this world. You must remember that this infirm and treacherous faculty which we now call memory is in the future state to be complete and perfect. "Everlasting remembrance!" Nothing will slip the stout grip of that celestial faculty. Did you help a widow pay her rent? Did you find for that man released from prison a place to get honest work? Did you pick up a child fallen on the curbstone and by a stick of candy put in his hand stop the hurt on his scratched knee? Did you assure a business man swamped by the stringency of the money market that times would after awhile be better? Did you lead a Magdalen of the street into a midnight mission, where the Lord said to her. "Neither do I condemn thee. Go and sin no more?" Did you tell a man clear discouraged in his waywardness and hopeless and plotting suicide that for him was near by a laver in which he might wash and a coronet of eterare epitaphs in graveyards, what are eulogiums in presence of those whose breath is in their nostrils, what are unread biographies in the alcoves of a city library, compared with the imperishable records you have made in the illumined memories of those to whom you did such kindnesses? Forget years from now there will not be a them? They cannot forget them. Notwithstanding all their might and splendor there are some things the glorified of heaven cannot do, and this ant studying up the ancestral line may is one of them. They cannot forget an earthly kindness done. They have no ly rivals to Canada and the United After the Game-Bucklin-"Did ed ink with great effort find that some cutiass to part that cable. They have States in the European apple trade Throball make a home run today? person by our name was born some- no strength to hurl into oblivion that Tasmania, especially, has been found Lentz-"No; unfortunately for him- where in the nineteenth century but benefaction. Has Paul forgotten the a first-class apple-raising

arp cold? Has the vi ighwayman on the road to Je forgotten the good Samaritan with a medicament of oil and wine and a free ride to the hostelry? Have the English soldiers who went up to God from the Crimean battlefields forgotten Florence Nightingale? Through all eternity will the northern and southern soldiers forget the northern and southern women who administered to the dying boys in blue and gray after the awful fights in Tennessee and Pennsylvania and Virginia and Georgia, which turned every house and barn and shed into an hospital and incarnadined the Susquehanna and the James and the Chattaboochee and the Savannah with brave blood? The kindnesse you do to others will stand as long in the appreciation of others as the gates of heaven will stand, as the "house of many mansions" will stand, as long as the throne of God will stand; Defeat of Oblivion.

Another defeat of oblivion will be found in the character of those whom we rescue, uplift or save. Character is eternal. Suppose by a right influence we aid in transforming a bad man into a good man, a dolorous man into a happy man, a disheartened man into a courageous man, every stroke of that work done will be immortalized. There may never be so much as one line in a newspaper regarding it or no mortal tongue may ever whisper it into human ear, but wherever that soul shall go your work upon it shall go, wherever that soul rises your work on it will rise, and so long as that soul will last your work on it will last. Do you suppose there will ever come such an idiotic lapse in the history of that soul in heaven that it shall forget that you invited him to Christ; that you, by prayer or gospel word, turned him round from the wrong way to the right way? No such insanity will ever smite well on earth known that Christopher Wren planned and built St. Paul's as it will be known in all heaven that you were the instrumentality of building a temple for the sky. We teach a Sabbath class or put a Christian tract in the hand of a passerby or testify for Christ in a prayer meeting or preach a sermon and go home discouraged, as though nothing had been accomplished, when we had been character building with a material that no frost or earthquake or rolling of the centuries can damage or bring down.

There is no sublimer art on earth than architecture. With pencil and rule and compass the architect sits down alone and in silence and evolves from his own brain a cathedral or a national capitol or a massive home before he leaves that table, and then he goes out and unrolls his plans and calls carpenters and mason and artisans of all sorts to execute his design and when it is finished he walks around the vast structure and sees the completion of the work with high satisfaction, and on a stone at some corner of the building the architect's name may be chiseled. But the storms do their work, and time, that takes down everything, will yet take down that structure until there shall not be one stone left upon another. But there is a soul in heaven.

Graven on God's Hand. There is another and a more com-

plete defeat for oblivion, and that is in

the heart of God himself. You have

seen a sailor roll up his sleeve and

show you his arm tattooed with the figure of a favorite ship, perhaps the first one in which he ever sailed. You have seen a soldier roll up his sleeve and show you his arm tattooed with the figure of a fortress where he was garrisoned or the face of a dead general under whom he fought. You have seen many a hand tattooed with the face of a loved one before or after marriage. This custom of tattooing is almost as old as the world. It is some colored liquid punctured into the flesh so indelibly that nothing can wash it out. It may have been there fifty years, but when the man goes into his coffin that picture will go with him on hand or arm. Now, God says that he has tattooed us upon his hands. There can be no other meaning in the fortyninth chapter of Isaiah, where God says, "Behold, I have graven thee on the palms of my hands!" It was as much as to say: "I cannot open my hand to help, but I think of you. I things is better than an income of a t cannot spread across my hands to bless year.-Hume. but I think of you. Wherever I go up and down the heavens I take there two pictures of you with me. They are so inwrought into my being that I can not lose them. As long as my hands last the memory of you will last. Not on the back of my hands, as though to announce you to others, but on the palms of my hands, for myself to look at and study and love. Though I hold the winds in my fist, no cyclone shall uproot the inscription of your name and your face, and though I hold the ocean in the hollow of my hand, its billowing shall not wash out the record of my remembrance. 'Behold, I have graven thee on the palms of my hands!""

"I have seen enough to assure me hat he is a noble, generous man," returned Ulin, raising her head.

"And," added Ezabel, "if you could know him better you would find your impressions strengthened. But he will not be here long. As soon as he re-covers from his wound he will leave

"If I am not mistaken," ventured our heroine, "Julian is at home in this

"Most certainly be is, my daughter. From his earliest childhood he knew no other home but this."

"And he was on his way hither when he overtook me in the hands of the Arabs "Yes."

"And will my presence cause him to eave you?"

"I think not, lady. But you will tive yourself no uneasiness on that acount. If Julian feels that he had beter be away from you, he will go for his own sake. And, remember—the ruly noble soul finds joy in the genrous sacrifices which it may be called pon to make. I hear Ben Hadad's voice. He is calling me."

She arose and left the chamber: and when she returned sae was followed by Ben Hadad. Now that Ulin saw the hermit by the light of the day she was we-struck by his venerable appearance. All that could be noble and honorable and lovable in old age seemed combined in him; and as ne bent his gaze upon her and extended his hand in welcome, she felt her heart go to him with all its trust and confidence.

"My child," he said in tones of tenderest solicitude, "Ezabel has told me your story and I have come to bid you an affectionate welcome to my cave. Rest here and feel that you are at home. Your mother paid me for this long ago. Come-follow me to e sunbeams can greet you.

well as she was able and then rose to most forgotten the circumstances. ollow him. He led her to the main ave, where she found Hobaddan and

"This is my home," said the old man, as he led the maiden to a seat; and here have I lived more years than to fill up the allotted age of man. il these trees and shrubs I have rained up from the tender sprout, and hese vines I have taught to clothe he gray old rocks. And I have been nost fortunate in my life. I have been ble to protect many who needed proection and my days have been lengthned out to protect more."

Ulin was touched by the deep pathos the hermit's words, and for a whole our she sat and listened to his converation. At the end of that time he led er back to the cave where Ortok, the lack slave, had prepared dinner. She d not feel hungry, but she sat down ith Ben Hadad and Hobadden and zabel—she and Albia—and partook

Thus passed three days; and Ulin ad become so used to the place that already seemed like home. She had arned to love the hermit; and she d learned to love Ezabel; and she ad learned to respect and esteem the but-hearted Hobaddan and to conerse with him freely. Once she asked te lieutenant what had become of ulian's band. Would they not be teking him?

And he explained to her that he had ommunicated with them—that they new of their chieftain's safety and ad gone away into the mountains of ebanon, where comfortable abiding laces for them were plenty.

When Ulin retired to her own apartent she sat by herself, with her head owed upon her hands, taking no noce of her serving-maid. At an early our she retired; but it was a long me ere she slept; and when she did eep she was troubled with strange reams. She dreamed of the unfortuate Helena, and awoke with a cry pain. And then she dreamed a more easant dream—a dream of something hat had haunted her waking thoughts a dream of the Scourge and Damas-

CHAPTER XVIII.

Something More Than a Dream. On the following morning, when lin entered the main cave, Julian as there to greet her. She extended er hand to him and smiled as she Poke. The youthful chieftain was mewhat pile, but his large, lustrous es burned with a deeped intensity d the white brow offered a strange intract to the waving mases of golden ir. The maiden's smile faded away den she met the earnest gaze that as fixed upon her, and her hand ebled before she withdrew it. He oke to her a few words of cheer, exessed his gratitude that she had and a place of safety; and hoped the future might have no more

from a deep reverie.

"Julian, I mean," returned the maid quickly and with enthusiasm. "Does he not look handsomer than ever?"

A Story of

the East...

SYLVANUS COBB, JR.

Ulin bowed her head and made no reply. "Is he not beautiful to gaze upon?" pursued Albia, without seeming to notice her lady's abstracted mood.

"Hush, Albia, say no more now. am busy with my own thoughts." "Pardon, sweet mistress. I meant no wrong. I thought-we owed him so much-and he has suffered in our behalf-that you might-"

"Albia, say no more. I know you meant well. You mistake me if you think I am not grateful. There say no more. I love you, and would not hurt your feelings. Go out into the grove and walk awhile."

Ulin bowed her head again as she spoke, with her hand upon her browupon her brow for a moment-and then pressed upon her bosom. And thus Albia left her. When the freed girl reached the

grove in front of the cave she found Julian and Osmir in close conversation and before they noticed her she had heard enough to excite her curiosity; and with a freedom that was natural to her, she asked them what had happened.

"Osmir thinks," said Julian, with a smile, "that one of the Arab robbers has followed us and tracked us to this place; but I laugh at him."

"I may be mistaken," rejoined the other, "but still I think I am right. I have seen the fellow twice; once by the river at the entrance of the wood, and once further away. It was one of the rascals wuo escaped us."

"And if it is the Arab, what can he faltering. want?" asked Albia.

"If it be one of those fellows," returned Julian, "he may wish to join our ranks."

"Oh," added Osmir, "he may hope to steal something."

"Very likely," assented the chieftain. 'However," he concluded, after a brief pause, "we may as well keep a sharp lookout."

"Selim and I are on the watch," said Osmir; "and if we catch the rascal. we'll secure him."

thoughts which he was not willing to ence here had caused you to leave where the air is fresher, and where express in her presence, but she did your old home, I should be most unnot mean to fret herself; and before The maiden thanked Ben Hadad as she rejoined her mistress she had al- know how near and dear this place

> At noon, and again in the evening, did Ulin meet Julian; but they did not converse freely together. She could not meet the gaze of those lustrous eyes without tremb..ng, and she sought to avoid that which so much moved her. If he had approached her and spoken freely with her on some subject of general interest she would have joined him readily; but he did cret which I had purposed never to

Morning came again, and again the maiden met the man who had saved her from the Arabs. This time he greeted her in few words, and soon turned away to speak with Hobaddan. He did not seem well. He looked paler than on the day before, and there was an expression of pain about the mouth and eyes. Ulin was uneasy. Perhaps his wound was giving him new trouble. As soon as the morning's meal had been eaten, she sought Ezabel and asked her if Julian was suffering from his wound.

"No," replied the old woman. "I do not think it is his wound. I have noticed his appearance and have asked him what it meant; but he puts me off with a smile and a blessing and tries to assure me that all is well. I do not like to see him suffer. He is like a child to me and I love him tenderly. Ah, the world little knows what a noule, generous soul dwells within that manly form."

"If I thought he was suffering from mr account," said Ulin, "I should be

"How on your account?" said Ezabel, quickly.

"I mean in consequence of the wound he received while fighting for my de-

"I hardly think it is that. Something beside the wound troubles him. It may be that the short captivity in Damascus worries him. He may have heard sometning there that gives him unpleasant thought."

At noon Julian did not appear when the rest ate their dinner. He was out by the river. Late in the afternoon Ulin met Ezabel again and the latter seemed sad and dejected.

"Julian is going to leave us," exclaimed the woman, in answer to an inquiry from Ulin.

"Leave us!" repeated our heroine, with a start.

"Yes; so he told me only an hour since." "When will he go?"

"Early in the morning." "But he will shortly return?" "I fear not. I asked him that and he only shook his head."

"Does he give any reason for his going away?" "None that you need to know, my child. In fact, he gives me no reason directly. I am left to draw my conclu-

sions from accidental remarks." When Ulin retired to her chamber she was in a frame of mind not easily analyzed. She spoke to Albia conerning the chieftain's unexpected de-

ian feels that there are enough dwell-ers in the hermit's cave without him. I may be mistaken; but his manner, for a day or two past, has seemed to indicate that he was not perfectly at case here."

The princess asked no more questions, but busied herself with her own thoughts.

As the sun was sinking from its daily course, Ulin wandered out into the grove alone, and as she approached the spot where she sometimes sat with the hermit, she saw Julian, seated upon a bench beneath an orange tree. At first she thought of turning back, and retracing her steps; but an impulse which was no result of her will. but rather an instinctive emotion, as though some secret force, led her on; and almost before she was aware of it she came so near that the youth heard, her stop and looked up. He started when he saw her and a flash of joy, like a quick passage of sunlight, was upon his face. In a moment, however, the look was gone, and a shade of sadness succeeded. The maiden could not now have withdrawn even had she been so disposed in the first place. Following the strong impulse, she advanced to the shadow of the orange tree and p'aced her hand upon Julian's shoulder; and it thrilled the youth like an electric shock.

"Kind sir," she said, scarcely able to speak above a whisper when she commenced, "Ezabel tells me you are going away."

"Yes, lady," Julian replied, rising as he spoke; "I have so determined."

"And you go soon?" "In the morning." "This is sudden, sir."

"No, lady; no more so than my movements are apt to be."

> CHAPTER XIX. Ulin and Julian.

Ulin hesitated and trembled, and finally sat down upon the bench from which the chieftain had arisen. In a few moments she had recovered berself so that she could speak without

"Good sir, I have one question to ask you," She went on hurriedly, as though the old impulse still led her: You had not planned to leave the cave so soon?"

"I had planned nothing about it. lady."

"But-if I had not been here, with my servant, you would have remained longer?"

"Lady, do not ask me such questions."

"I must ask them, sir, for I want Albia fancied that Julian had to know. If I thought that my preswas to you. If one of us must go, let me find some other resting place."

Julian started and trembled like an aspen. A moment it was so, and then he turned upon the maiden a look so earnest and so deep and so full of tumultuous feeling, that she shook be-

"Lady," he said, speaking almost in a whisper, "you shall know the sereveal to mortal being. The words are forced from me. Let me speak them now; and then let them be forgotten. When I heard that the king of Damascus had shut up a fair maiden within the Palace of Lycanius, and that he meant to make that maiden his wife, I felt my heart grow sick within me and I resolved, if the fair one was held against her will, that I would set her free. I led my brave men to the palace and overcame the guard which the king had set. Heaven was opened, but in the blessed realm I was offered no abiding place. I saw the loved spirit of light within the cave which had been the home of my childhood; but my love I dared not speak. How could I, the enemy of Damascus, and the branded robber, tell my love to the daughter of the king's prime minister. Lady, I dare not trouble you more."

(To be continued.)

THE INDISPENSABLE MAN. Prudent Business Men Now Get Rid of

That Pomposity.

Some of the most successful business men in this country make it a rule to dispense with the services of how important his position may be. as soon as he comes to regard himself as "Indispensable," says Success. This may seem harsh and even unbusinesslike; but, if we look into it, we shall find that there is wisdom in this pracment a man looks upon himself as ab-

faculties which have helped him to rise to that indispensable point. He becomes arrogant and dictatorial, and bound to be more or less demoraliz- od of testing the vitality of seed corn ing. Many concerns have been seriously embarrassed by the conduct of managers, superintendents, or heads of departments, after they had reached positions where they thought no one else could take their places. This undue appreciation of one's own importance is as disastrous in its results as utter lack of self-esteem. It is really evidence of a narrow mind, and ignorance of general conditions; for the man who is up to the times. thoroughly posted in regard to the world-wide trend of the twentieth century, will realize that there are few people in the world no matter what their talents or ability, who cannot be replaced. It is a very rare characindeed, that is imperatively nec-

Uniformity and Vitality of Sord Corn. A. D. Shamel, instructor in farm crops at the University of Illinois, has the following to say about the uniformity and vitality of seed corn: Uniformity.-As a rule little atten-

tion has been given to the character

of the seed corn; little examination

has been made of the proportion of

corn to cob, of the purity of color, the

space between rows, the filling out of ends, the length, circumference or shape, or of any of the important points that go to make up a good ear of corn. It has been found by seed corn growers that the length, circum ference or shape of the ear can be varied at will by selection, and there is every reason to believe that these characteristics can be so fixed that practically all of the ears in a fleid grown from pedigreed, uniform seed corn will be of approximately uniform size and shape. Further, it has been found that the number of rows of kernels on the cob, the filling out of the ends, or other characteristics, can be improved by planting from seed hav ing these characteristics. It has been demonstrated, that it is not good practice to plant small kernels of grain of any sort. Therefore, it is not good policy to plant the tlp kernels. As the butt kernels usually vary greatly lu size from the kernels on the rest of th. ear, it is a good plan to shell off and discard both the tips and butts of the ears selected for seed. Again, as the butts of the ears mature first and the tips last, it is probable that these parthave been fertilized by poilen of an early or late variety from some neigh boring field; so by shelling off the butts and tips, part of the danger o mixed seed can be avoided. In general shell off the small and the extremely large kernels, so that the portion o. the ear remaining for seed has kernels of approximately uniform size. With most varieties of corn, about one-hal. inch of butt kernels and one inch o

tip kernels should usually be shelled Vitality.-Owing to a late spring or early frosts, it frequently happens that the seed corn does not fully mature. In this condition the ear is likely to mold and decay, thus destroying the vitality of the grain. As the majority of farmers in Illinois allow the seed earthy matters). If either be lacking corn to remain in the general crib den and violent changes in temperature, such corn. full of moisture, will freeze, and consequently the life of the germ may be weakened or destroyed. The seed corn in central Illinois, selected from the crop of 1898, was so much injured in this way that the university tests of the vitality of seed corn sent in by farmers from this section of the state, gave an average of only 76 per cent germinating. Such seed was not fit to plant, but as no provision had been made by the farmers for drying and properly preserving seed corn, and as this was the only seed available, it was planted with a

resultant poor stand, light crop, and loss of profits. Immature seed should not be planted for several reasons: First, such kernels do not contain as much plant food as those which are fully developed, and thus do not provide as much nourishment for the young plants which, consequently, do not get so vigorous and healthy a start as those from mature seeds. Second, the sxcessive moisture in the immature seeds renders them liable to begin to germinate in the fall in the crib, and thus use up a part of their strength; or a sudden drop in temperature may freeze the corn and destroy the life of the

Seed corn should test 95 per cent vitality; i. e., of the reed planted in the seed bed 95 per cent should grow. If the seed does not give this test of vitality, a poor stand will be the result. Nor is it wise for the farmer to try to make up tor poor seed by planting a greater number of grains, because of seeds which give a low test of vitality many of those which do any man in their employ, no matter grow lack strength and vigor and will consequently produce weak plants. Furthermore, an uneven stand will surely result, some Lills being overcrowded (frequently with weak plants) and other hills being left with perhaps no plants at all because of the tice. Experience proves that, the mo- unequal distribution of the seed that will germinate. Seed of low vitality solutely necessary, he usually ceases will inevitably tend to the production to exercise to the fullest extent the of a poor crop. It is important, therefore, that the farmer make a test of the vitality in order that he may know the quality of his seed. A most his influence in an organization is simple, effective, and practical methis as follows: .Fill common dinner plates nearly level ful. cf fine sand pour water over the sand until it is more than saturated, shake gently to level the sand, allow it to settle, and then drain off the surplus water. Push 50 kernels into the sand in each plate, turn a smaller plate over the sand to prevent too rapid evaporation of moisture, and set both in a warm place. Keep the sand moist and in seven days all of the hearthy kernels should sprout. By counting the kernels sprouted, the per cent of good seed can early be computed.

The Bureau of Forestry. The result of the work of the Division has been to turn practical for-"O, my mistress," cried Albia, when and Ulin were alone, "how noble man he is!"

"Who?" asked the princess, starting "Who?" asked from a dose reverse.

"On my mistress," cried Albia, when parture and the girl expressed the ter, indeed, that is imperatively nectors and the man who actually reaches this point does not brag of it, nor act as if he considered himself most important trees, commercially, have been made, from which can be pounds of gain.

"What do you mean by that?" asked Ulin.

"What do you mean by that?" asked Ulin.

calculated their probable future yield. heap methods of harvesting the present lumber crop without injuring the productivity of the forest have been put in operation. The work of treeplanting, particularly in the almost treeless Western states of the plains, has been furthered; the relation of the forest to the volume of streams, erosion, evaporation and irrigation have beeen studied; matters connected with irrigation and water supply have been investigated; hopeful 'progress has been made in the direction of regulating grazing in the Western reserves in a manner fair both to the important interests of cattle and sheep owners and to those who look to the reserves as a source of continuous supply of wood and water; and studies of forest fires were conducted with a view of reducing the great yearly loss from this source, a loss which has been estimated at \$50,000,000. Field work is going on this summer in seventeen states. There are in all 179 persons engaged in the work of the bureau. Of his number 81 are student assistantsyoung men, largely college students. who expect to enter forestry as a profession and who serve during the summer on small pay for the sake of the

experience gained. Something About Bones This may seem to be a somewhat trivial subject for consideration in the swine department of the paper, but it is taken up for the reason that it is of first importance to breeders and especially to young beginners, who may not have given the matter attention. A good deal has been said in this department regarding the results of corn feeding to young animais, but as yet we have not touched fully upon the effect that corn feeding as a wellnigh exclusive ration has upon the ony frame. We often have breeders complain that their hogs seem to be weak in the legs and that they tend to break down at the fetlock joints, so that their "dew claws" touch the ground when they walk. This condition is too often considered to be some disease, but is in fact a condition of the bone, which has been brought on by errors in feeding and management of the young growing pig. Then it has been mentioned here that the cause of paralysis or "dropping down behind," as farmers often term it, is due to the same feeding and methods of management. To develop a normally composed, strong bone the animal requires from birth a full supply of all of the requisites for bone formation. Bone consists of a certain proportion of both organic and inorganic matters (vegetable and the bone is rendered proportionately (bow legs) where the bones bend out of shape and the animal is usually weak, dwarfed and deformed. In this disease there is a tack of earthy material and excess of organic matter. The trouble known as "big head" or "osteoporosis" is akin to rachitis (rickets). There is, however, a very

hogs which does not appear in such aggravated form as any of the other conditions which are known as actual diseases of the bones. We refer to general lack of strength which has been suspected for years and was at length proved to exist by Prof. Henry of the Wisconsin Agricultural Experiment Station and others. Different lots of hogs were set apart and fed with the idea of ascertaining whether the food makes changes in the material produced from it in the body. Corn was used as an exclusive ration for some of the hogs and for others a mixture of foods rich in protein (nitrogenous matters.) The foods used to furnish protein were peas, dried blood, middlings and skim milk. The result of extended experimentation in this direction was that the hogs fed on corn meal (carbohydrate food) had more fat and less lean meat than those fed on the protein ration. The latter lots had most blood, larger livers and less leaf lard than the cornfed hogs. The bones of the protein fed hogs were far stronger than those of the corn fed lots. A breaking machine was used to test the strength of the bones making it possible to determine this exactly in each case. In one of the Wisconsin trials the bones

of the corn fed pigs broke at 380 pounds on the average, and those of the pigs fed milk, blood and middlings at 503 pounds. These weights are for each 100 pounds of dressed carcass and show in favor of the mixed ration by 32 per cent. In other experiments it was found that where pigs are fed an exclusive ration of corn that something can be accomplished in offsetting its effects upon the bones by mixing hard wood ashes or bone meal in the food. Three lots of pigs were fed on corn as an exclusive ration. One of the lots got corn alone, one of the other lots got bone meal and corn, and the remaining lot corn and wood ashes. The result was that while none of the pigs were fully nourished the condition of those getting wood ashes or bone meal was much superior to that of the lot fed corn only. The latter

became so fat their jowls and bellies nearly touched the ground. On slaughter the different lots showed no difference in proportion of fat to lean or in size or weight of internal organs. The bones, however, were very different. The average breaking strength of bones of pigs fed corn only was 301 pounds; of those fed corn and wood ashes, 581 pounds; of those fed corn and bone meal, 680 pounds. On burning the bones it was further found that there was 50 per cent more ash (inorganic matter) in the bones of pigs fed bone meal or wood ashes

## THEY CALLED THE BIRDS.

But the Sportsmen Discovered, to Their Chagein, That They Were Answering Each Other.

On this particular day in fall the birds | Sun. had not been flying well and the gun- Baron Takasaki, chief of the poets' ners who had been out since early bureau in the imperial palace, declares morning were one by one leaving for that his majesty's facility of writing their homes. On his way home over and love of poetry increase with his the marshes one of them was on the years. There is scarcely an evening lookout for grass birds and when he that he does not take a practice spin beheld a flock about to alight he at over the cinder path to immortality once crouched down in the tall grass dashing off from 27 to 30 of the 31by the edge of a creek and began call-syllabled couplets called Wa-Ka. Jan. 1, Jan. 29, March 5. April 2,

It happened that another gunner whistling of what he supposed were game have been fully complied with. grass birds, and, quickly raising his gun, he, too, picked up his whistle and began to call. First the man in the tall grass would whistle, then the man in the adjoining stand would answer, until it got so dark that had the birds flown past either gunner they could not have seen them. Presently the gunner who was crouching in the tall grass ventured to rise and scan the marshes, when to his surprise and chagrin he saw the gunner in the stand do likewise. Neither wished to ac- by her lord and master. The quality knowledge that he had been deceived of her work, however, is said to quite by the other's whistle, so they quietly equal Mutsuhito's best. disappeared in different directions without exchanging a word.

### TAKE OUT JOCKO'S BRAIN.

Recent Experiment of Scientists Shows Effect on Monkey of Loss of Gray Matter,

No convincing proof has yet been given that any particular portion of the brain is exclusively concerned in intellectual operations, says the Pop- sion one of the rarest of all, says ular Science Monthly. Goltz, the the Chicago Inter Ocean. Mr. Moelmost prominent representative of ler's curiosity is a United States the dwindling band who still refuse stamp of the issue of 1862 and its to believe in the localization even of the motor functions, has lately published an interesting paper containing the results of observations on a monkey which was carefully watched for 11 years after the removal of in the field at that time, as many a the greater part of the gray matter Chicago man and woman can very of the middle and interior portions clearly recall. When letters were of the left hemisphere of the brain. mailed from the front in those times The character of the animal, whose it often happened that the only canvery noticeable up to the time of its Army of the Potomac." death. It learned again to use the Mr. Moeller thinks that his stamp right limbs, but there was always a is very valuable, and in view of the certain clumsiness in their move- prices that have prevailed for cerments. In actions requiring only tain stamps in late years it probably one hand the right was never will- is. Some of the English one and two ingly employed, and it evidently cost cent stamps are now selling for as the animal a great effort to use it. much as \$100 and \$200 apiece, and Before the operation it would give American stamps used by the army either the right or left hand when in Porto Rico and Cuba during the asked for it. After the operation it recent Spanish war are being sold at always gave the left till by a long 25 cents each. course of training, in which fruit or lumps of sugar served as the rewards of virtue, it learned again to give the right.

## HOW GRANT LOST HIS HIRAM.

It Was a Friend's Mistake That Deprived the General Forever of His Real Name.

Not many Americans know that Hiram U. Grant was the eighteenth president of the United States. Yet it is true, for "Ulysses Simpson" was never legally the name of our greatest general. This interesting fact is brought out by Franklin B. Wiley, in Ladies' Home Journal, in "Famous People as We Do Not Know Them." The story of how it came about was told by a member of congress-Thomas L. Hamer-who recommended young Grant as a candidate for West Point in 1839. Mr. Hamer had long been a friend of the Grants, but when he came to make out the application papers for Ulysses he could not recall the boy's full name. So, deciding that he was doubtless named for his mother's family, he wrote it "Ulysses Simpson Grant." Thus was it recorded at West Point, and though the attention of the officials was several times called to the error they did not feel authorized to correct it. The name was gradually adopted, and by it Grant was, and always will be, known. But as for any son Grant," that does not exist.

Less Crime in Ireland. A gratifying decrease in crime in freland is shown in the report of the general prisons board for the year 1900. During the year 32,924 criminal prisoners were committed, showing a reduction of 3,198 on the number of committals in 1899. The decrease in the number of convicts during the half century has been very remarkable. In 1855 the total was 3,427, and last year the number was only 329. The decrease is due, says the report, not only to the fewer number of sentences and penal servitude imposed, but also to the smaller average length of such sen-

NEW RECORD FOR POETS.

hat for Endurance Made by the Emperor of Japan, Who Thus Becomes Champion.

His Majesty Mutsuhito, emperor of A well-known sportsman who has Japan, is unquestionably the chamrecently been trying his luck with a pion long-distance poet of the unigun in a neighboring state in which the verse. Compared with his literary "open season" has begun, tells a story feats of endurance those of Emperor which illustrates the skill some gun-ners acquire in the use of the bird car Hammerstein, of New York, are whistle, says the Chicago Chronicle. mere child's play, says the New York

Baron Takasaki invariably acts as referee on these occasions and the who was about to give up his day's finished couplets are handed to him to work heard the sharp and repeated determine whether all the rules of the

Although Takasaki has been chief of the poets' bureau since 1892 he was still alive according to the latest exchanges from Japan, and he is authority for the statement that during his and this was kept up for a long time, incumbency the emperor has composed more than 37,000 wa-ka couplets.

The empress, too, is very skillful in the production of couplets, but her best record-two twice a week, wa-ka style, according to Baron Takasakimust appear ridiculous when contrasted with the world-beating figures set

## RARE STAMP OF CIVIL WAR.

Chicago Man Possesses a Valuable One That Is of Interest to All Philatelists.

While there are undoubtedly hundreds of specimens of rare stamps in the possession of Chicago philatelists, Robert Moeller, of 400 Austin avenue, thinks he has in his possesespecial value consists in the fact that it went through the war of the rebellion.

The post office facilities were not always of the best with the armies little tricks and peculiarities had celing apparatus at hand for the been studied for months before the stamp was a pen and ink. That was On the other hand, disturbances of face is written "T. A. P., 23 Dec., movements on the right side were 1863." The letters stand for "The

## AN IDEAL TELEPHONE.

Wonderful System in Two European Cities That Does Away with Newspapers.

It would be difficult to say whether Stockholm or Budapest possesses the best telephone system, but it is quite certain that these two towns are the best served in the world.

Stockholm possesses an installation of about 40,000 telephones. In other words, nearly every shop and private house possesses an instrument, and the system is so extensive that conversation is not only possible, but easy, over a radius of about 50 miles around

Budapest, in addition to being regularly served with ordinary telephones, possesses a unique system, the Telefon Hirmondo, which practically performs the function of a newspaper. News is received at all hours of the day in the central office, and, after being edited and condensed, is repeated over the wires to some 7,000 subscribers, who can listen to it in their own sitting rooms at stated intervals during the day. The system has proved not only a public convenience, but also a great commercial success.

Number of Horses in the World. There are in the whole world about 75,000,000 horses and 11,000,000 record of the birth of "Ulysses Simp- mules and asses. They are distributed as follows: Europe, 39,400,000 horses, 3,200,000 mules, etc.; America, 22,800,000 horses, 4,700,000 mules, ète.; Asia, 9,100,000 horses, 1,300,000 mules, etc.; Africa, 1,000,000 horses, 1,900,000 mules, etc.; Australia, 2,300,-000 horses. In the United States there were, January 1, 1900, 13,500,-000 horses and 2,000,000 mules and
