If your watch is wrong we will make it right for you. Put new reliability into it so that you can swear by, and not at, your timepiece.

In new watches we handle as a specialty

### The Duber-Hampden Watches.

Celebrated for their good time keeping quality and the fineness of their cases. Other Watches, also Clocks and Jewelry of all kinds in stock.

General Repairing and Engraving.

Eyes tested and fitted with Spectacles and Eye Glasses.

F. KANTLEHNER.

### DEATH BY ELECTROCUTION.

While Fixing a Trolley Motorman Harrison Was Killed.

The first serious accident on the D. Y. A. & J. electric line at this point occurred Tuesday night at 9 o'clock when Motorman Herbert J. Harrison, of Ann Arbor, was killed and Conductor Fred Pullen was badly burned on the leg. The two men were in charge of car No. 6 due here at 8:50, going east. They had had trouble with the wheel on the trolley for some distance, and when they arrived here the two men got on top of the car to fix it. Neither of them had rubber gloves on, but Pullen had on a pair of rubbers and that is what doubtless saved his life. They neglected to cut off the ground current from the car and as it was a wet night when they started to fix the trolley electrical displays from the high tension wire were soon leaping and flashing about. Suddenly, when both men had their hands on the trolley pole, the immense voltage of the high tension wire struck the pole and both men were knocked on top of the car. A ladder was procured and Harrison's limp and almost lifeless body was taken down.

Dr. G. W. Palmer was summoned and although he worked over him for two hours the poor fellow did not recover consciousness but died about midnight. His remains were taken to Ann Arbor on the midnight car. Pullen revived and also left at the same time.

Herbert J. Harrison was 33 years old and leaves a wife and three children. Fred Pullen is a single man. Before removing to Ann Arbor Mr. Harrison lived at Inkster and the funeral will take place there Saturday morning at 10 o'clock.

Coroner Watts, of Ann Arbor, will hold an inquest next Tuesday.

### ST. PATRICK'S DAY

Entertainment and Social by the Ladies of St. Mary's Parish.

Next Monday, March 17, is St. Patrick's Day, and the ladies of St. Mary's parish will not let the day go by unnoticed or uncelebrated. Therefore, in the evening at the opera house there will be an entertainment and social to which the public generally is cordially invited.

The program for the entertainment is under the efficient management of Mrs. J. E. McKune, and will consist of recitations by Mrs. Jas. S. Gorman, the Misses Margaret Eder and Mary Hindelang, and Master James Schmidt, essays by the Misses Mabel McGuinness and Nellie Savage; vocal music by the quartette, Miss Mary Dunn, of Detroit, who has on previous occasions delighted her hearers in Chelsea with her excellent singing, Louis Burg, Miss Estella Conlan, Master Garrett Conway, and the Misses Hatfield, Helen and Paulina Burg; instrumental music by Mrs. Geo. P. Shaffan, Mrs. J. Edward McKune, Miss Mary Clark, Mr. and Mrs. K. Otto Steinbach. There will also be selections from Mr. J. D. Colton's graphophone.

After the concert refreshments will be served and a social time enjoyed. This part of the entertainment will be in charge of Mesdames John D. Watson, Frank Carringer, J. P. Foster, Wm. Wheeler, C. Hummel, H. T. McKune, Jacob P. Miller, Louis Hindelang, Clara Stapish, Gilbert Martie, George Hindelang, Agnes Young, Joseph Helm, C. Spinnagle, and the Misses Mary Doll and Margaret P. McKune. Mrs. Philip Kensch and Mrs. John Greening will preside at the coffee table.

### Gave a Fine Concert.

The following item is gained from the contents of a personal letter to the editor from Rev. George B. Marsh, of Tipton, Leawee county, formerly of Chelsea: Despite heavy roads and unpromising weather an audience which packed the M. E. church, Tipton, greeted Miss Margaret Nickerson Friday evening, Feb. 28. Miss Nickerson assisted by her sister, Miss Cora, and Miss Alva Haight, of Adrian, presented a most delightful program of vocal and instrumental music. The pleasure of the large audience was very manifest and should they come again Miss Nickerson and her friends will receive a most cordial welcome. The young ladies were accompanied to Tipton by Rev. and Mrs. J. I. Nickerson, of Adrian, and the party was entertained at the parsonage by Rev. and Mrs. Geo. B. Marsh.

Now's the time, spring time. Take Rocky Mountain Tea; keep the whole family well. A great medicine for spring sickness. 25 cents. Glazier & Stimson.

### A QUIET ELECTION.

The Workingmen's Ticket the Only One in the Field.

The charter election in Chelsea Monday was a quiet affair. The Workingmen's ticket was the only ticket in the field to vote for and the total vote cast was only 278. Of these a number forgot to even put a mark at the head of the ticket. The result was as follows:

President—Frank P. Glazier, 287.  
Clerk—W. Henry Hasselwardt, 244.  
Trustees—Wm. J. Knapp, 243; Orrin C. Burkhardt, 234; A. W. Wilkinson, 240.  
Treasurer—Fred W. Roedel, 245.  
Assessor—Schuyler P. Foeter, 239.

The Abbott voting machine was also put up inside the railing and all but four who voted went and tried the machine. The result it showed was 274 votes, which with the four who did not vote made the total of the 278 votes cast. The machine registered everything accurately and in two minutes after the last vote was cast the complete return was ready to be announced.

In the evening a large number of the voters assembled in the new office building of the Glazier Stove Co. and listened to music from the Chelsea Band and enjoyed the cigars and oranges that were distributed among them with a liberal hand by Mr. Glazier.

### CHARTER ELECTIONS ELSEWHERE.

The election in Manchester resulted in a victory for the entire citizens' ticket. Dr. E. M. Conklin was the only one on the young men's ticket to win out and he was elected trustee by two votes. The village officers elected are: President, E. E. Root; trustees, Henry Landwehr, Warren Kimball and Dr. E. M. Conklin; Clerk, Geo. Niele, Jr.; treasurer, Geo. Wurster; assessor, N. Schmidt.

In Grass Lake M. G. Carleton, late editor of the News, defeated C. E. Babcock for the presidency of the village.

### The Late Henry M. Twamley.

The funeral of the late Henry M. Twamley, who died at his home in Chelsea March 6, was held at the Congregational church Sunday afternoon and was very largely attended, on account of the respect in which he was held by all who knew him. The services were conducted by Rev. C. S. Jones and the remains were placed in the vault in Oak Grove cemetery. Henry M. Twamley was born at North Lake, Jan. 28, 1839. He was one of a family of four children, only one of whom, Mrs. Frank A. Burkhardt, of Lyndon, survives him. His mother died when he was 17 years old, and he was converted just previous to that time, joining the church at North Lake. Jan. 1, 1867, he was married to Miss Eugenia Peatt, of Dexter. To this happy union two children, Harry, of Detroit, and Mrs. F. C. Glenn, of North Lake, were born.

Mr. Twamley lived on the farm on which he was born until 1894, when he came to Chelsea, which had since been his home. He was a trustee of the village for two years, 1899-1900, and was elected a justice of the peace of Sylvan township in 1900, but failed to qualify.

Mr. Twamley was a quiet unassuming man, but was warm and genial in his nature, of sterling worth, a good citizen, a kind and loving husband and father, and a true Christian.

### Death of Mrs. Hiram Elmer.

Mrs. Emaline Elmer, widow of Rev. Hiram Elmer, died at the home of her son W. H. Elmer, in Winona, Minn., Feb. 20, 1902, aged 89 years. Mrs. Elmer was well known to many of the older residents of this vicinity. Her husband was pastor of the Congregational church here from 1855-1859. He also preached in the Congregational church at Lima, prior to its union with this church. He married Mr. and Mrs. Thos. S. Sears, Mr. and Mrs. C. H. Kempf, and other old residents, and the latter gentleman placed a window to his memory in the church when it was built. They had visited here several times since their departure so many years ago.

### Can't Keep It Secret.

The splendid work of Dr. King's New Life Pills is daily coming to light. No such grand remedy for liver and bowel troubles was ever known before. Thousands bless them for curing constipation, sick headache, biliousness, jaundice and indigestion. Try them. 25c at Glazier & Stimson's drug store.

Get your spring seeds of all kinds of H. L. Wood & Co.

## Wall Paper Opening

We wish to announce that our spring stocks of Wall Paper have nearly all been received, and that we are at home to all who are interested in Wall Paper. We have bought for this season's trade the exclusive line of one the largest eastern factories, and in addition the choice selections from some of the best jobbers. This places us in a position to offer the finest line of Wall Hangings we have ever shown.

Keen competition among the factories has made prices the lowest we have ever known them. You will find papering less expensive and more satisfactory than you have ever known it.

### A Red Stripe 12c.

Rich coloring, handsome effect for hall or dining room.

### Light Green Gilt 12c.

Snitable for parlor or dining room. Striking contrast for light and dark shades.

### Dark Tan Gilt 12c.

Decorated with crown pattern. One of the richest patterns we are showing.

### Light Embossed Tan 15c.

Floral decorations; very dainty effect for parlor.

We will be very pleased to show you the new styles and patterns whenever it is convenient for you to call.

# UNIVERSITY OF MICHIGAN.

## Report of President Angell to the Regents Is in the Hands of the Printer.

THIS YEAR ENDED SEPT. 30, 1901.

Summary of a Document That Covers  
Important Features of a Great  
College—Plans Being Made for Ad-  
vance Along the Line of a Higher  
Commercial Education.

[Special Correspondence.]  
University of Michigan.—The report  
presented by President Angell, of the  
University of Michigan, to the regents  
of the year ended September 30, 1901,  
is now in press. Below is a summary  
of the report.

The university has lost by death during  
the year, William J. Cocker, who  
died July 10, 1901; Prof. Burke A. Hinsdale,  
died November 20, 1900; Carroll D.  
Hinsdale, who died July 20, 1901; and  
J. H. Vance, assistant librarian, who  
died December 23, 1900.  
The attendance for the past year was  
greater than ever before. Not counting the  
summer school, the attendance was 3,482,  
an increase of 170 over the preceding year.  
The increase in the summer school of  
the students in the total to 3,710. There was  
an increase in every department except that  
of pharmacy, the largest being in the en-  
gineering department. There were 138 more  
students from Michigan than in the pre-  
ceding year; the total number from Michigan  
was 1,114. Though the number of students  
in the universities of neighboring  
states continues to increase and though  
the number of such institutions is in-  
creasing, there is no falling off in the  
attendance at the University of Michi-  
gan from those states. On the con-  
trary, there is a marked increase. The  
university had students from every  
state except Delaware and Louisiana, from  
the Hawaiian territory, from Porto Rico (11),  
from the Philippines (2), and from the  
following countries and provinces: On-  
tario, New Brunswick, Jamaica,  
South Africa, Mexico, Switzerland,  
Germany, China, and Japan. The  
number of women in the university was  
an increase of six over the previous  
year.

**Only One Degree.**  
Beginning with last year, instead of giv-  
ing four kinds of bachelors' degrees, the  
university has conferred only one—the  
degree of bachelor of arts. This degree  
is the graduating class of the literary de-  
partment of the university. This degree  
is given for the completion of 120 hours of  
work as would have secured some one  
of the four degrees under the old statutes.  
There are several reasons why this change  
has been made. The requirements for the  
degree in the first place, the ancient  
degrees are no longer regarded as giv-  
ing a better or more honorable training  
than that given by the sciences, by his-  
tory, or by certain other studies. Secondly,  
the members of our leading universities  
have for some time given the degree  
of bachelor of arts without requiring a  
knowledge of Latin and Greek for it.  
The significance of the degree has  
been lost. The larger liberty of elect-  
ing one's course is justified by the choices made  
by the students at the beginning of the  
present semester.

**Higher Commercial Education.**  
The courses in higher commercial educa-  
tion have been more fully organized.  
The faculty has been strengthened by  
the appointment of Dr. E. D. Jones,  
professor of the University of Wisconsin,  
as assistant professor of commerce  
and industry. An instructor in forestry,  
Charles A. Davis, has also been ap-  
pointed. It is hoped that this appoint-  
ment may be the beginning of a great  
work in reclaiming the pine barrens of  
the state.

**Various Departments.**  
The department of medicine and sur-  
gery, though having higher entrance re-  
quirements than before, has a larger at-  
tendance than ever before known in its  
history. The requirements for admission  
will doubtless be still further raised in the  
future.

The law department continues a steady  
growth, and is now the largest in the coun-  
try.

The homeopathic college continues to  
grow about the same number of stu-  
dents.

The pharmacy department shows a slight  
falling off in the number of its students.  
The dental college has grown so rap-  
idly that the number of its students is  
an embarrassment to it. The elevation of  
the standard for admission has never in  
the past caused a decrease in the number  
of its students.

The total number of degrees granted was  
1,000.

The engineering department had the  
highest rate of increase of any of the de-  
partments of the university. It was un-  
able to meet the calls upon it for its grad-  
uate work in summer. Work in marine en-  
gineering is attracting the attention of  
many students.

**In the Hospital.**  
The university hospital, 2,012 patients  
were treated, among them representatives  
from 70 countries in this state. Farmers  
and their wives formed by far the most  
numerous class; they numbered 428.  
The homeopathic hospital, 1,612 pa-  
tients were received from 77 countries of  
the world.

The summer school offered courses in the  
literary, law and medical departments. In  
the literary department 300 were enrolled;  
in the law department, 50; in the medical  
department, 141. One hundred and  
thirty were students already enrolled in  
the university.

vision for a psychopathic ward to be erect-  
ed in connection with the university hos-  
pital.  
**New Buildings Needed.**  
Within the next few years needs for new  
buildings will have to be met as fol-  
lows:  
1. In addition to the electric light plant  
must be made.  
2. The enlargement of the physical labora-  
tory must be provided for.  
3. The engineering department must have  
much more room.  
4. The laboratories of botany, zoology,  
and psychology need larger and better  
rooms, which can be furnished only by a  
new building.  
5. The literary department is greatly in  
need of more recitation rooms. Since Tap-  
pan hall was built in 1894, the literary de-  
partment has increased by more than 400  
students.  
6. The library needs more room, especial-  
ly for seminar purposes.  
7. The dental college is greatly over-  
crowded and its building is antiquated.  
8. A new heating plant for the university  
hospital would be an economy.

**MUSEUM OF INDUSTRY.**  
Plans for Advance Along the Line of  
Higher Commercial Education.  
Following out the well-known policy  
of the university in keeping abreast  
of the times and meeting the increas-  
ing demands of a highly developed  
civilization, plans are now being per-  
fected for the next step in advance  
along the line of higher commercial  
education. It is to be in connection  
with the recently established commer-  
cial course and is to consist in the  
founding of a museum of industry.

This will include samples of all the  
chief raw materials of commerce, such  
as cotton, timber, metals, grains, etc.  
Primarily it will be for use in the  
higher technical commercial courses  
and is to prevent the discussions in-  
volving specific industries from becoming  
abstract.

**The Object.**  
That is only the primary object les-  
son, the greater one being the eventual  
establishment of a sort of permanent  
exhibition of all the raw materials pro-  
duced in the state, together with the  
manufactured products of our various  
state industries.  
At the present time a large number  
of the manufacturers of Michigan  
buy raw materials in New York and  
elsewhere, when these materials could  
just as well be purchased within the  
boundaries of the state. The idea in  
establishing this museum is that if a  
better opportunity were given to the  
business men to see samples of the  
goods for sale by the citizens of their  
own state, it would tend to keep the  
money of the commonwealth within  
the limits of the commonwealth, and  
so rebound greatly to the general pros-  
perity.

**To Aid Business Men.**  
The museum of industry will differ  
from most museums in that instead of  
bearing on abstract science it proposes  
to aid the business man by exhibiting  
to him the things which will be of ben-  
efit in his daily transactions.

The museum, it is hoped, will include  
in time a complete collection, illustrat-  
ing all Michigan industries which num-  
ber at present over 1,400.  
The plan had its inception in the  
mind of Edward D. Jones, professor  
of commerce and industry. Through  
his efforts a beginning has already  
been made by procuring from the Pan-  
American exposition, on payment of  
freight charges, the contents of over  
125 exhibits. These will form a nu-  
cleus and will probably be set up tem-  
porarily in Tappan hall. Prof. Jones  
hopes to obtain the cooperation of the  
people of the state in the project, with  
the idea in view of securing large addi-  
tions at a small cost from the St. Louis  
exposition. It is even hoped that in  
time as the value of the museum is  
demonstrated and its size increases, it  
may be sheltered by a building of its  
own.

## TIED TO THE TRACK.

A Boy in Ypsilanti Rescued from a  
Terrible Death by a Michigan  
Central Railway Employee.

Edward McDonald, a Michigan Central  
employee, was thunderstruck to find  
a boy of eight or nine years of age,  
tied to the track in Ypsilanti in such  
a way that he would have been killed  
or frightfully maimed by a passing  
train. It was then 4:15 o'clock, and  
the 4:05 east-bound passenger, which  
was several minutes late, rushed by  
over the track a few seconds after he  
had cut the lad's bonds.

The boy did not appear frightened  
by his predicament, and refused to  
tell his own name and the names of the  
parties by whom he had been placed in  
such jeopardy, although he admitted  
that the latter were boys of his own  
age, and that they were all playing  
some kind of a game.

**Death of a Bride.**  
A touching sequel to a most happy  
wedding which was solemnized in the  
township of Richfield resulted when  
Mrs. Myrtle Curtis, a bride of but  
seven days, was suddenly stricken  
with peritonitis and suddenly passed  
away within a week after she had taken  
the solemn vows.

**Big Lumber Deal.**  
The Hester estate, of Detroit and  
Baraga, has closed a deal whereby it  
obtains control of one of the largest  
tracts of standing timber in northern  
Michigan. The land was purchased  
from D. J. Norton, of Ontonagon, and  
has 20,000,000 feet of timber. The  
price was \$115,000.

## THE WOMEN OF CEYLON.

They Are Graceful, Have Musical  
Voices and Are Adepts in the  
Arts of the Household.

The dominant characteristics of  
feminine beauty in Ceylon are, as  
will be seen from our illustration,  
softness of contour and delicacy of  
feature. In both of these respects  
the Cingalese belle has advantage  
over the womenfolk of the more  
northerly races. All the lines of her  
figure are more rounded, and there  
is nothing of the stilted gait in her  
walk which mars the pedestrian  
gracefulness of Punjabi and Pathan  
beauties. Her voice, too, is sweeter  
and more musical; it is pretty to  
hear a Tamil mother sing lullabies  
to her baby. As regards natural in-  
telligence, there is not much differ-

TAMIL WOMAN IN HOLIDAY DRESS.

ence between the various races, but  
those who ought to know, credit the  
Cingalese lady with a more affection-  
ate disposition, and with less pronen-  
ess to quarrel. She is, like all other  
Asiatic females, very fond of per-  
sonal ornaments, especially jewelry,  
and although her taste may appear  
faulty in some details, no doubt her  
native admirers would offer similar  
criticism on seeing an English lady  
in ball costume of up-to-date fash-  
ion. At all events, these gentle-mannered  
women make dutiful daughters  
and faithful wives when kindly treated,  
as is said to be usually the case.  
Thoroughly domesticated by early  
training, they devote all their  
thoughts to the details of household  
work, and do not consider it in the  
least derogatory, as some western  
wives appear to do, to cater for the  
tastes of their husbands. It is not  
much matter for surprise, therefore,  
that contentment reigns in most  
Tamil families.—London Graphic.

## MARYLAND CHICKEN.

When Properly Cooked It Is a Del-  
icious Dish, Fit for the Table of  
King or Prince.

If chicken is to be cooked for  
breakfast, a delicious variation of the  
common fried broiler is a dish called  
Maryland chicken. It is really the  
most appetizing form possible of  
southern fried chicken. Dress, clean  
and cut up a young fowl; sprinkle  
with pepper and salt and roll in flour.  
Dip in a beaten egg, to which have  
been added two teaspoons of water.  
It is not possible to egg chicken by  
laying it in the egg; instead hold each  
piece in the hand, turning it every way  
so that it can be thoroughly wet, and  
pour the mixture over it with a spoon.  
Then lay in finely sifted bread crumbs  
and cover thoroughly with them. Ar-  
range the pieces of chicken in a drip-  
ping pan, so that as much surface  
as possible will be exposed to the heat,  
and set in a hot oven. When it has  
been in for five minutes pour over it  
one-quarter of a cup of butter, being  
careful to baste each piece. Twenty  
minutes will cook it if the oven is hot  
enough; each piece will be inclosed in a  
crisp brown crust. Lay the chicken  
on a platter and make a cream sauce,  
using the melted butter in the drip-  
ping pan for a foundation. Set it on  
top of the stove and allow the butter  
to become hissing hot; then add two  
tablespoonfuls of flour and a liberal  
seasoning of pepper and salt. When  
stirred smooth, pour in one cup of  
cream. Beat till very smooth with a  
wire whisk, then strain over the chick-  
en. Garnish with parsley.—Good  
Housekeeping.

**Guess Again, Perhaps.**  
"But," protested the Angry Creditor,  
"you said you guessed you would pay  
me to-day."  
"I know I did," explained the Humble  
Debtor, "but you see, I am such a poor  
guesser."—Baltimore American.

## WASHING FINE LACE.

It Is the Most Delicate Task Which  
the Average Woman Is Called  
Upon to Perform.

There is no better rule to give for  
having one's laces spotless than to  
keep them always clean, and to be  
more careful of them than of gold  
and precious stones.

An earthenware slab is the first  
thing needful. Sometimes there are  
old platter trays which are perforat-  
ed, or even, with small pieces, the in-  
side of an earthenware butter dish  
would do. Whatever is used first get  
your slab. It should be, according  
to rule, eight to ten inches square,  
and pierced with small holes about an  
inch apart. The next requirement is  
a piece of book muslin or bobbinet  
large enough to cover the slab, and  
tied securely in the back. To make this  
possible, the material is hemmed all  
around and a double tape run through  
the hem, by means of which it is  
drawn up.

Next take the lace and fold it quite  
small, place it on the slab and cover  
it smoothly with the muslin or bob-  
binet; pull snugly over the lace and tie  
it in the back. An earthenware tub,  
or one of metal, should be used for  
washing, and into this pour a gallon  
of cold water, to which three ounces  
of soap have been added. If it is pos-  
sible to allow the time, the lace should  
soak in this water for 12 hours. Be-  
fore taking it out it must be washed  
with the palm of the hand for at least  
five minutes. Then it goes into a tub  
of perfectly clean water, and is washed  
in the same way for two minutes.

Boiling is the next process, and a  
copper boiler should be used. A gal-  
lon of water, in which four ounces of  
soap have been dissolved is poured  
over this, and the lace is allowed to  
boil for two hours at least. Again  
the slab is placed in the tub, and over  
it is poured a gallon of hot but not  
boiling water, in which have been  
dissolved two ounces of soap, the lace  
being again washed with the palm of  
the hand as before.

Now take the lace from the slab,  
reverse it without unfolding, replace  
on the slab, cover with the muslin, tie  
tightly with the tapes at the back,  
and wash at least five minutes with  
the palm of the hand. Put again in  
a tub of clean cold water and wash  
it until it is quite free from soap.  
If it is badly soiled it can be placed  
in the sun instead of being left so long  
boiling, and can remain until it is dry.  
Starching laces seems a desecration,  
but here is the way to do it if  
one must. To one ounce of starch add  
two tablespoonfuls of cold water, and  
when the starch is dissolved pour  
over it one pint of boiling water. This  
is for "val" lace, Cluny, Maltese and  
old Devonshire. For Honiton, point  
and antique laces one ounce of starch  
should be mixed with 1½ pints of water.

With the lace still on the slab, the  
starch is thrown over the center and  
from there will saturate the whole  
surface. With the slab placed in a  
slanting position the starch will drain  
off in about 15 minutes. Then place  
the slab with the lace on it flat on a  
table, and with a clean, thick cloth  
four or five times doubled, pat until  
all superfluous moisture is absorbed.  
—N. Y. Times.

## LADY HENRY SOMERSET.

Recognized Leader of the Feminist  
Movement and Temperance Agi-  
tation in England.

Lady Henry Somerset, who has just  
advised her young women proteges  
in an English industrial school so to  
perfect themselves that nobody can  
say of them: "Oh, they do very well  
for women," is probably the fore-  
most leader of the feminist move-  
ment in Great Britain. Lady Henry's  
own name is Isabel Somers. She is  
the daughter of Earl and Countess  
Somers, and is now just 50 years  
old. In 1872 she was married to Lord  
Henry Somerset, M. P., who is second  
son of the duke of Beaufort. In  
1890 she first achieved considerable  
importance by her election to the  
presidency of the British Women's  
Temperance association, now the lar-  
gest company of its kind in England.  
In 1892 she was elected vice presi-  
dent of the World's Women's Chris-  
tian Temperance union, and in 1898,  
on the death of Miss Frances Wil-  
lard, she succeeded that famous  
woman as president of the interna-  
tional association, which numbers  
over 500,000 members in various parts  
of the world. Since 1895 Lady Henry  
Somerset has interested herself in  
practical reforms. She founded in  
that year the Industrial Farm colony  
at Duxhurst, which has grown to  
remarkable dimensions. This great  
philanthropic is very rich. She suc-  
ceeded to her father's vast estates in  
Hertfordshire, Worcestershire,  
Surrey, and London, and since 1884  
she has used her wealth for the good  
of her fellow men.

## ONE EDITOR.

"Is there any way in which I can  
ever reach the top of the ladder?"  
asked the discouraged poet.  
"One!" responded the great editor.  
"Tell me, quickly!"  
"Change your occupation from bard  
to hod-carrier."—Chicago Daily News.

## SOME WONDERFUL CROPS IN WESTERN CANADA.

The Territorial Government Reports  
Show Results Beyond Belief.

Regina, Assiniboia, Canada, January  
10th.—At the Agricultural Statistics  
Branch of the Department of Agricul-  
ture for the Territories, reports are  
now being received from grain thresh-  
ers throughout the Territories, for  
statistical purposes. The reports are  
somewhat delayed this year, owing to  
the extensive crop and the delay in  
getting it threshed. The Department  
of Agriculture is leading the way in a  
new departure with regard to the  
collection of crop statistics. In the  
older provinces, crop estimates are  
based entirely on the opinion of per-  
sons interested in the grain business  
who ought to be, and no doubt are,  
well posted upon the probable yields.  
Still the reports are simply a matter  
of opinion, in which a mistake may  
easily be made. The Territorial De-  
partment, however, has adopted the  
system of returns of crops actually  
threshed, upon which to base their  
reports. The accuracy of the reports  
cannot, therefore, be gainsaid, for  
they represent a compilation of actual  
threshing results. In this connection,  
it might be mentioned that the De-  
partment is organizing a system of  
growing crop returns, which will be in  
operation next summer. The infor-  
mation thus obtained, with estimated  
acreage, will be available for business  
men, banks, railway companies, and  
other interests which have to discount  
the future in making provision for the  
conduct of their business.

The crop reports already to hand  
show some remarkable cases of ab-  
normal development. In the Regina  
district, many returns are given of  
crops of wheat running from 40 to 45  
bushels to the acre.

J. A. Snell, of Yorkton, threshed  
28,000 bushels of oats from 450 acres,  
an average of 63 bushels per acre for a  
large acreage.

W. R. Motherwell, of Abernethy,  
threshed 2,050 bushels of wheat from  
a 50 acre field, an average of 53 bush-  
els per acre.

In the Edmonton district, T. T.  
Hutchings threshed 728 bushels of  
wheat from a ten-acre plot, an average  
of nearly 73 bushels per acre.

S. Norman threshed 6,950 bushels of  
oats from 60 acres of land, an average  
of 116 bushels per acre.

The publication of the actual yields  
of grain threshed will likely open the  
eyes of the people to the great capabil-  
ities of the western Canadian prairies.

## \$25.00 TO CALIFORNIA.

Everyday, During March and April  
Phenomenally Low Rates to the  
Pacific Coast and Interme-  
diate Points.

Colonist Excursions open to all. Later on  
at intervals during the summer special  
round trip excursions to the Coast at less  
than One Cent Per Mile, going one way, re-  
turning another. An exceptional opportu-  
nity to visit any part of the Pacific or the  
Great West for pleasure, education or busi-  
ness. People with interests at various points  
will show you attention. Address a postal to  
W. G. Neimyer, General Agent Union  
Pacific, Southern Pacific Rys., 183 South  
Clark St., Chicago, Ill. Write on the back:  
"Send details low rates to California," add-  
ing your name and address, also those of  
any of your friends, and you will receive in-  
formation of fascinating inter-  
est, great practical value, of educational  
and business worth. Whether or not you  
are now thinking of taking this delightful  
trip, or looking to better your condition in  
life, it will pay you, your family and friends  
to write a postal as above. As the colonist  
rates open to all are good during March and  
April only, send your postal to-day.

# FREE LANDS

The Devils Lake Reservation opens up for home-  
stead filing 10,000 acres of excellent  
cropland. No stamps, no stones, no drawbacks, no  
poor, plenty of water, sufficient rains. The only  
and the best of the reservation. Every available  
quarter indicated, with excerpts from homestead  
laws, and everything you should know relative to  
the country and filing. Send for it by mail, you  
upon receipt of \$2.00, sent to J. G. HUSTON,  
Minneapolis, North Dakota, LAND DEALER.

## Uncle Sam's Mail Service

requires physical and mental ability of a high degree to withstand its hard labor. The high tension to which the nervous system is constantly subjected, has a depressing effect, and soon headache, back-ache, neuralgia, rheumatism, sciatica, etc., develop in severe form. Such was the case of Mail Carrier S. F. Sweinhart, of Huntsville, Ala., he says:

"An attack of pneumonia left me with muscular rheumatism, headache, and pains that seemed to be all over me. I was scarcely able to move for about a month when I decided to give

### Dr. Miles' Pain Pills

and Nerve Plasters a trial. In three days I was again on my route and in two weeks I was free from pain and gaining in flesh and strength.

Sold by all Druggists.

Dr. Miles Medical Co., Elkhart, Ind.

## THE CHELSEA HERALD

T. W. MINGAY, Editor and Proprietor.

PUBLISHED EVERY THURSDAY

for \$1.00 per year strictly in advance.

Entered at the Post Office at Chelsea, Mich., as second class matter.

THURSDAY, MARCH 13, 1902.

### School Notes.

Miss Jessie Everett visited the High School Wednesday morning.

Ruth Barch of the eighth grade is out of school on account of sickness.

M. Boyajian, an Armenian, lectured to the scholars of the lower rooms Monday.

The High School baseball team are now practicing daily and there is every prospect for a good team.

A choir has been organized in the school which is to sing at chapel one or two mornings in each week.

The Chelsea High School Athletic Association will present Captain Swell and Christmas Boxes, and a fine musical program tomorrow (Friday) evening at Ar-better ball, Manchester.

One day last week Chas. Rogers, 16 years old, pole vaulted 7 feet 2 inches. The boys of the High School would like to arrange a track meet for some date the last of March, with some other school.

### Lockjaw From Cobwebs.

Cobwebs put on a cut lately gave a woman lockjaw. Millions know that the best thing to put on a cut is Bucklen's Arnica Salve, the infallible healer of wounds, ulcers, sores, skin eruptions, burns, scalds and piles. It cures or no pay. Only 25c at Glazier & Stimson's drug store.

### School Report.

Following is the report of school in district No. 4, Sylvan, for the month of February:

Attending every day, Ruth Phelps, Myrtle and Irvin Wolf, George Burgess, Lynn Kern, Lida Guthrie, Standing 95, Ruth Phelps; 85 Joseph Knoll, Albert Fahrner, Glessner Whitaker, Fern Kalmbach, Oscar Kalmbach; 80 Theodore Wolf, Henry Forner, Helen and Lynn Kern, Irvin Wolf, Myrtle Wolf, Lawrence and Albert Heselchwerdt, Fred and George Knoll, Willie Hasey, Harrison West, Helen Kern, George Hasey, Joseph Knoll, Nora Forner, Oscar Kalmbach, Albert Fahrner and Lida Guthrie did not miss a word in spelling during the month; Inez Ward, Fern Kalmbach, Albert Heselchwerdt, Irvin Wolf, Willie Hasey and George Knoll missing but one. Nora Forner spelled the eighth grade down; Albert Fahrner the fifth. Promoted from fourth to fifth grade, Albert Fahrner, Lida Guthrie, Fred Knoll, Henry Forner, Willie Hasey, Harrison West, Irvin Wolf, Inez Ward, Lawrence Heselchwerdt, Fern Kalmbach; from sixth to seventh, Theodore Wolf, Helen Kern, Bertha Young, Albert Heselchwerdt, George and Joseph Knoll, Myrtle Wolf.

Mrs. L. A. Stephens, Teacher.

Rocky Mountain Tea taken now will keep the whole family well. If it fails, bring it back and get your cash. 35 cents, Glazier & Stimson.

## ANN ARBOR THEATRICALS.

### Bells of New York.

"The Bells of New York," with its tuneful music, its lyrical jingles, its pretty girls, gorgeous costumes and clever comedians will be at the Athens theater, Ann Arbor, Friday evening, March 14. The music is of a higher quality than is usually found in productions of its class. It has been stated that the real reputation and tremendous vogue were won by a single song and a single character. This character was the Salvation Army lassie, which was so extremely original, so delightfully coy and demure, that it fascinated the audiences of New York and London. Aside from this the lyrics that Hugh Morton has contributed to it are splendid throughout, and such songs as "Follow On" and "When We are Married" are of exceptional merit. Altogether "The Bells" provides an entertainment which is unequaled and its long life and prosperous career is not to be wondered at.

### A Standard Attraction.

No company travelling today has a more enviable reputation than the well known and popular company bearing the name of "Kennedy Players" who will appear at Athens Theater, Ann Arbor, all next week, at whose head is the popular comedian, Mr. John J. Kennedy, and the beautiful young artist Miss Nellie Kennedy. The company is large and well balanced, containing in its roster some of the very best artists in the theatrical profession, and is perfectly equipped with all the attributes and embellishments necessary for a first-class performance. The following is the repertoire for the week: Monday, "Cheek"; Tuesday, "The Midnight Express"; Wednesday, "The Two Thieves"; Thursday, "The Irish Detective"; Friday, "Sapho"; Saturday, "Ten Nights in a Bar Room"; Saturday matinee, "Tom Sawyer." One 30 cent reserved seat ticket will admit two ladies or gentleman and lady to the best reserved seat Monday evening if bought at the advance sale before 7 p. m. Monday. Seats on sale Friday morning at the usual place.

### Voices From the Jungles.

The graphophone has rarely carried a more interesting vocal repitition than it brought back from the Uganda jungles in the songs, colloquies and miscellaneous catcalls of the native races inhabiting them. It was a happy conception of Sir Harry Johnson, the explorer, to bring home with him their voices as well as their photographs, and the Royal Geographical Society, which he recently addressed, had the opportunity of listening to the most striking performance of "nigger minstrelsy" on record.

### Francisco.

Michael Rank was in Jackson Monday. Mrs. Ed Robinson died Friday of old age.

Michael Schenk spent Tuesday in Grass Lake.

Charles Kalmbach spent Sunday in Chelsea.

Miss Lena Kruse spent Tuesday in Chelsea.

Mr. and Mrs. Fred Notten visited Mrs. Caroline Kalmbach Sunday.

Mrs. R. Kruse is slowly recovering from her injuries received from a fall.

Mr. and Mrs. John Webber, of Grass Lake, visited at U. Webber's Sunday.

Mrs. Philip Broesamle and Fred Artz visited Mrs. Fred Notten, Friday.

Miss Martha Riemenschneider is undergoing treatment at the hospital in Detroit.

The children of the German M. E. church are making zealous preparations for Easter services.

Mrs. Fred Riemenschneider, of Chelsea, is spending a few days with Philip Riemenschneider and family.

Mr. and Mrs. Wilbur McLaren, of Lima, visited Mr. and Mrs. Michael Schenk, Saturday and Sunday.

Mr. and Mrs. Philip Oesterle, of Chelsea, spent Sunday with their uncle and aunt, Mr. and Mrs. Croman.

W. B. Murray entertained a company of 50 friends Thursday evening. Games, music and ample refreshments were the order of the evening which was greatly enjoyed.

### Would Smash the Club.

If members of the "Iny Fever Association" would use Dr. King's New Discovery for consumption, the club would go to pieces, for it always cures this malady—and asthma, the kind that baffles the doctors—it wholly drives from the system. Thousands of once-hopeless sufferers from consumption, pneumonia, bronchitis owe their lives and health to it. It conquers grip, saves little ones from croup and whooping cough and is positively guaranteed for all throat and lung troubles. 50c, \$1.00. Trial bottles free at Glazier & Stimson's.

## ITEMS OF LOCAL INTEREST.

The spring duck season is now open, and until April 10 you may shoot the birds.

There are now four cars on the D. Y. A. A. & J. railway, between Ann Arbor and Jackson.

A Chelsea man has made figures on the number of widows and widowers within the village limits and finds there are 80 widows and 17 widowers. That is an average of 5 to 1.

The Christian Herald, the denominational paper of the Baptist church, which has been published by Rev. and Mrs. L. H. Trowbridge, of Detroit, for the past 33 years, has been sold to A. H. Finn, who is well known in Baptist circles and will continue its publication.

The Washtenaw Times says: "The supervisor of Sylvan sent in a list of 134 dogs in the township and said that the taxes had not been paid on the canines. As the dogs are not described the sheriff refused to go out and shoot them." It's a great pity in some cases that the sheriff is so stubborn.

Dexter Leader: Considerable interest is manifested in the outcome of some surveys, which it is claimed were recently made through Webster township. There is a belief that the Boland line may go northeast from Dexter, touching Wiltmore Lake, South Lyon, Plymouth and Detroit. It is asserted that the people in that section want the road and will put up both cash and right of way to get one.

For wedding invitations, visiting cards, business cards, letter heads, note heads, bill heads, statements and envelopes at lowest prices, for the grades of material and quality of work, come to the Herald office. We keep the best as well as the cheapest grades of stock, so as to meet the demand of all comers. You can always get your job work done neatly, promptly and at a right price, at the Herald office.

The Ann Arbor Music Co.'s concert for the benefit of the Maccabee piano fund at the opera house last evening was a good one. The house was comfortably filled. The bright, catchy music pleased the audience greatly, and generous applause and hearty encores were frequent. The selections by the Chequamegon orchestra were well chosen and equally well rendered. Walter Crego is an old favorite in Chelsea as a solo cornetist, and his work found warm favor. Miss Roberts' solos were very pleasing. DeLyle Peterson's cello solo was good, and Mell Gillespie was given an encore for his banjo solo.

H. L. Wood & Co. have a fine fresh stock of Garden, Flower and Field Seeds at the right prices.

### Lima.

The power house is now in running order.

Ed. Parker was in Ann Arbor last Saturday.

Ira Freer spent Saturday and Sunday in Jackson.

Mrs. Mary Yager spent Thursday in Ann Arbor.

Henry Luick and John Grau went to Detroit Saturday.

Mrs. Helene Doyle, of Chelsea, called on Lima friends Thursday.

Mrs. Wm. Corwin, of Chelsea, is visiting her sister Mrs. John Grau.

Mrs. A. J. Stedman, of Ann Arbor, visited at Irving Storms' Friday.

Andrew Henselwood, of Detroit, will spend the summer with Leander Easton.

Miss Monks, of Chelsea, will spend the summer with Mr. and Mrs. Linval Ward.

Mrs. Lighty Stabler and son, Roy, visited Chelsea friends Saturday and Sunday.

Mrs. J. Staebler, of Chelsea, has been spending a few days with Mr. and Mrs. Fred Wenk.

Mr. and Mrs. Henry Luick attended the surprise party at Jay Smith's in Scio, Wednesday evening.

The Epworth League society of the M. E. church will give a cantata at the church Easter Sunday evening, entitled "The Glory of the Garden."

The winter term of school in the Ebenezer Smith district will close March 14. Miss Pearl DeWitt, of Ann Arbor, has had charge of the school.

The Lima Epworth League society will give a Klondike social at the M. E. church parlors Friday evening next, March 21. The bill of fare will be a generous one, including hot frankfurts, warm biscuits, etc. A fine program will be a particular feature of the evening. Everybody cordially invited.

We sat at the table together. She cast a shy glance over at me. She certainly looked like an angel. Oh Charley! Please order me Rocky Mountain Tea.

Glazier & Stimson.

## Lovers of Good Coffee

Know where to get the best. That's why we do the Coffee business of the town. Our policy is to give the best, and that always wins success.

We blend Coffees solely with regard to their drinking quality in the cup, rather than follow the old formulas. Every lot is uniform. Tastes exactly like its predecessor.

### STANDARD MOCHA AND JAVA 25c.

a pound, is the popular grade and is recognized as the best for the price. It can't be beaten! It has that "golden brown" color when cooked—one of the tests of good coffee. Strength all right, too.

A cup with a smack of cream added, makes a rich, delicious drink; in fact, puts the finishing touches on the meal. We are selling pounds and pounds of it to steady customers in Chelsea. They wouldn't buy it if it wasn't all we claim.

### ACME BLEND

is an excellent coffee in the cup. It is pronounced by users equal to any 20c coffee. A high grade blend at a modest price—15c a pound. The reasons for its success? Fine quality, rich flavor—perfect roasting—low price!

#### ITEMS OF LOCAL INTEREST.

Born, Monday, to Mr. and Mrs. E. G. Hoag, a son.

A large amount of cement work is to be laid in Chelsea this year, and it is needed.

Sam Mohrlock will work for Henry Pierce on his farm in Sylvan the coming season.

The Jackson Association of Congregational churches will meet in the church here April 23 and 24.

Howard Brooks has commenced the excavation for the cellar of his new house on West Middle street.

Rev. E. E. Caster was called to Detroit Friday to conduct the funeral services of an old family friend, Mrs. James B. Swift.

Rev. Father Wetman, the distinguished Jesuit priest from Detroit, will officiate in St. Mary's church next Sunday, March 16.

Leander Tichenor has built 19 handsome rowboats this winter. Mr. Tichenor's fame as a boat builder is more than a local one.

The Y. P. S. C. E. second annual Easter banquet will be held at the Congregational church, Wednesday evening, March 26.

Next Sunday evening Rev. C. S. Jones will speak on "Great Books as Life Teachers," showing the influence of literature on life and character.

Mr. and Mrs. J. O'Connor and family have moved back from Detroit and will make their future home on the Looney farm in Sylvan.

The well-known Finley farm in Scio township of 400 acres, which has been the joint property of the three Finley brothers for 55 years, has just been sold.

Mr. Earle G. Killeen, who has a class in vocal culture in Chelsea, has been engaged to sing the role of Bitterolf in Tannhauser at the May Festival of the Choral Union at Ann Arbor.

Cards are out announcing the marriage of Miss Inez Leach to Mr. Lawrence Bagge, at the home of Mr. and Mrs. Mason Whipple, in Lima, next Wednesday, March 19, at 8:30 o'clock p. m.

Several carloads of large cedar poles for the Boland syndicate are in the M. O. yard here, which would indicate that we shall soon see the work progressing on the equipment of the line with poles, wires, etc.

Joseph E. Seckinger has resigned his position with W. P. Schenk & Co., and has accepted one with Neil Hayes & Co., shoe merchants, of Adrian, Mich. He will leave for his new field of labor next Monday.

The Christian Eberbach property on Packard street, Ann Arbor, has been sold to a syndicate for upwards of \$20,000. It is reported that a large sanitarium is to be built on the property which is admirably situated for such a purpose.

The entertainment given at the opera house a couple of weeks ago under the auspices of the High School Athletic Association will be produced at the Arbuckle hall, Manchester, tomorrow evening, by the same talent that put it on here.

Chas. J. Johnson, who has been connected with the John F. Eby Co. printing firm, of Detroit, has been appointed receiver of the Ann Arbor Printing Company, and will assume charge of the concern. His bonds were fixed at \$15,000.

The Michigan Central Railway Co. has decided to double-track its road from Jackson to Niles, and will this year build from Jackson to Marshall, 82 miles. A party of surveyors has started out surveying the road and setting grade stakes. The road is now double-tracked from Detroit to Jackson.

New plate glass fronts have been put into Mrs. Fred Girsch's and Conrad Spinnagle's stores on South Main street, occupied by John Parker and Fred Vogelbacher, respectively. C. W. Maroney did the work and furnished all material. All the stores on Main street now have plate glass fronts in them.

Died, at Mohawk, Oregon, March 5, the infant daughter of Mr. and Mrs. Peter Wirkner, aged 5 months. The bereaved parents have the sympathy of a large circle of relatives and friends in this section in their affliction. Mrs. Wirkner's maiden name was Miss Rose Doll, a daughter of Mrs. Henry Doll of Lyndon, and sister of Mrs. Margaret Hindelang, of Chelsea.

The Ann Arbor Daily Argus has instituted a voting contest as to who is the most popular business or professional man in Washtenaw county. The winner of the contest is to receive five of the best seats in the house for the comic opera "The Belle of New York," at the Athena Theater, Ann Arbor, tomorrow evening, March 14. The three men who have the highest number of votes so far are Dr. O. A. Griffin, Ann Arbor, 87; F. P. Glazier, Chelsea, 38; L. C. Weinman, Ann Arbor, 28.

Born, Saturday to Mr. and Mrs. George Chapman, of Sylvan, a son.

Wm. Heselochwardt has bought the Lewis Hayes farm in Sharon, paying therefor \$24,400.

The Royal Neighbors will hold their next meeting Wednesday evening, March 19, at 7:30 o'clock.

There are \$237,262.29 on deposit in the two banks of this village according to their published statements.

W. R. Lehman, township treasurer of Sylvan, settled with the county treasurer Thursday. He returned a clear roll.

The play of "East Lynne" is to be produced in the near future by the young people at the Baptist church in Lyndon.

Seymour Kendall, who has been working the Rose farm in Sharon, will move to his own farm in Sylvan and work it this year.

Pomona Grange and Lafayette Grange have a joint meeting at the home of Mr. and Mrs. O. C. Burkhardt in this village today.

Miss Lily Bohnet has recovered from the operation she underwent at Ann Arbor and has returned to her parents' home in Sharon.

John G. Adrion has put a new front smokehouse into his meat market. It is 2 feet wide, 5 feet long and 6 1/2 feet high, and does its work to perfection.

Fred Maulbetsch, who several years ago lived at Jerusalem with his parents, was married in Ann Arbor, Thursday evening to Miss Maude Perkins.

Mrs. Lucy Robinson, widow of the late Edmund Robinson, died at her home in Sharon Friday, aged 75 years. The funeral was held at the house Sunday afternoon.

The Lima Farmers' Club is meeting with Mr. and Mrs. Rufus Phelps, of Scio, today. The question for discussion is "Resolved that education has a tendency to suppress crime."

The Jackson & Suburban Traction Company started Friday to drive piles at Wolf Lake for the foundation of the Casino proposed to be built there on property to be purchased from Mrs. B. F. Tuttle of this place.

Rev. E. E. Caster attended the Ann Arbor district conference of the M. E. church at Ann Arbor, Monday and Tuesday, and made an interesting address on "The Function of Prayer." Thirty-five pastors from the district were present.

In several places in the state wild geese have been noticed flying northward in large numbers the past few days. Inasmuch as these birds are supposed to lay over almost anything else as weather prophets, it looks as if spring were really close at hand.

Tomorrow (Friday) evening the Business Men's Class of the Congregational church will serve a supper from 5 o'clock until all are served, to which everybody is invited. After supper an entertainment will be given in the church. Tickets for both 25 cents each.

Ann Arbor Commandery, Knights Templar, proposes to give an Easter ball which will be a formal affair, confined strictly to Knights Templar, their ladies, and the participants in the opera Pinafore. Besides dancing, songs from Pinafore and specialties from Florodora and the Messenger Boy will take up the evening.

The Michigan Central has cut its freight rates between Detroit and Ann Arbor in two so as to meet the competition of the D. Y. A. & J. electric line. The rates heretofore have been the same on both the roads but the cut has established the following schedule on the steam road: First-class freight, 8 cents a hundred pounds; second-class, 7 cents; third-class, 6 cents; fourth-class, 5 cents.

Prof. R. H. Pettit of the Michigan Agricultural College has given out the information that in all probability Michigan will experience a plague of 17-year locusts during the summer of 1902. This is the time of the recurrence of the pests and the larvae which have been lying dormant since their last appearance will appear and farmers are warned not to set out trees until late in the year, when the plague is over. The ravages of the pests are chiefly confined to the roots of trees and shrubs. Forest trees suffer as well as orchards.

#### The Vice of Nagging

Clouds the happiness of the home, but a nagging woman often needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters, the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used it, and become healthy and happy. Try it. Only 50c. Glazier & Stinson guarantee satisfaction.

#### TIME TABLES.

### D., Y., A. A. & J. RY

Taking effect Feb. 18, 1902.

On and after this date cars will leave Jackson going east at 6:00 a. m. and every hour thereafter until 10:30 p. m.  
Leave Grass Lake 6:30 a. m. and every hour thereafter until 10:30 p. m.  
Leave Chelsea 6:54 a. m. and every hour thereafter until 10:54 p. m.  
Cars will leave Ann Arbor going west at 7:20 a. m. and every hour thereafter until 11:20 p. m.  
Leave Chelsea 8:04 a. m. and every hour thereafter until 12:04 midnight.  
Leave Grass Lake 8:30 a. m. and every hour thereafter until 12:30 midnight.  
The company reserves the right to change the time of any car without notice.  
Cars will meet at Grass Lake and at No. 3 siding.  
Cars will run on Detroit local time.

O. W. RUGGLES, General Passenger and Ticket Agent, Chicago.

### RAILWAY GUIDE

### The Choicest Meats

Are none too good for us to buy and you to eat.

Tough Steak is dear at any price, you do not get it at our market.

We always keep the best of everything—Beef, Pork, Veal, Mutton, Ham, Sausages of all kinds, Poultry, Kettle Rendered Lard, etc.

Come and see us, we will treat you right.  
Chelsea Telephone connection.

### J. G. Adrion.

### DON'T BE FOOLED!

The market is being flooded with cheap imitations of the famous **ROCKY MOUNTAIN** TEA. To protect the public we call attention to our trade mark, printed on every package. Demand the genuine. For sale by all druggists.

## TRADE WITH ORIENT

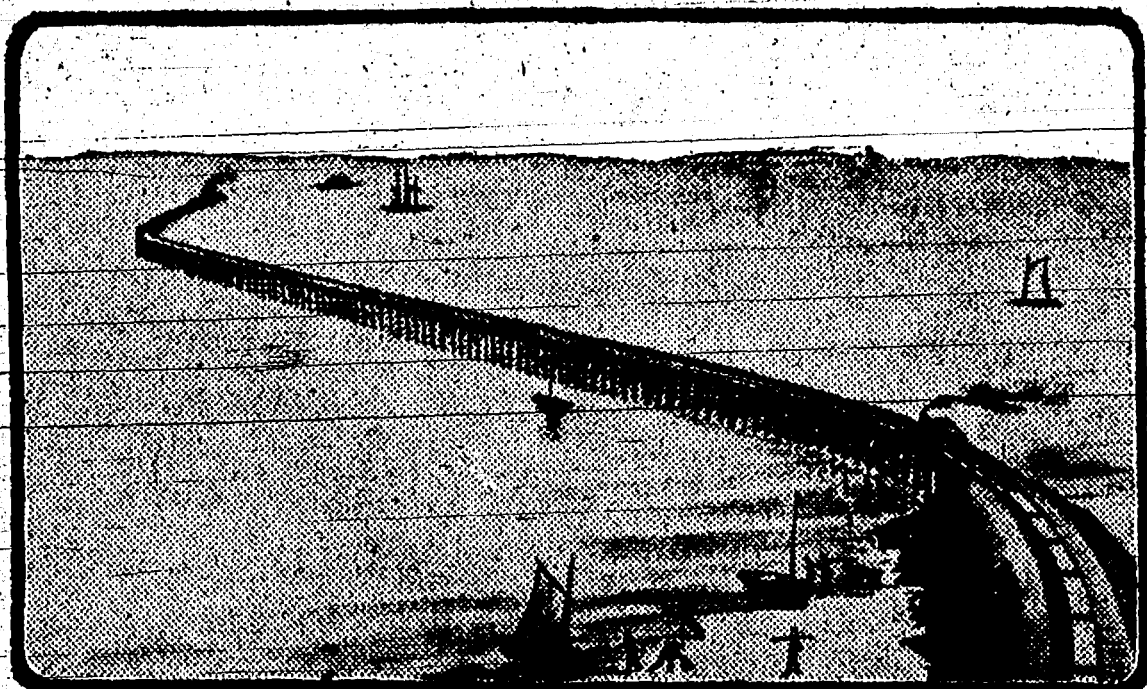

It Is Giving a Wonderful Impetus to Pacific Coast Ports.

Immense Dry Docks Now in Course of Construction in San Francisco Bay—Commerce Follows Flag.

[Special San Francisco Letter.] TWO immense dry-docks, larger than any in the west, and as large as any in the world, except the one at Newport News, Va., are being built in San Francisco bay—one for commercial purposes and the other for government ships. The first of these is being constructed at Hunter's Point, three miles south of San Francisco, and the other at Mare Island navy yard. These large docks have become necessary owing to the increased size and draft of merchantmen and warships. The rapid increase of our trade with China and Japan, and our acquisition of the Philippines, necessitates larger vessels for commerce and a more powerful navy to protect it. The difficulty is for ample dockage facilities, especially on this coast. The largest dock in use in the west is in this city. It is only 500 feet long, and barely large enough to accommodate ships of the largest class. The same company is building a drydock 750 feet in length—large enough to accommodate the biggest vessel in the world, which is 704 feet in length. The construction of these docks at this place will obviate the necessity of vessels of the larger class in these waters making a long trip to the eastern docks, or crossing over to Hong-Kong. There are also two docks of this size in the east, and there is one at Hong-Kong.

The one building at Hunter's Point is being cut out of stone and has a natural foundation of granite. It is believed that it will be the best drydock in the world. It will have a width at the coping of 122 feet, and at the bottom a width of 74 feet. The depth is 36 feet. The entrance to the dock will be closed by a floating caisson built of structural steel. The machinery employed is of the most expensive and massive, and the heaviest vessels can be docked with ease. Three centrifugal pumping plants will be used, with a total capacity of 180,000 gallons of water a minute. It is estimated that the dock can be pumped dry in an hour and 20 minutes. There is 40 feet depth of water at the entrance to the dock, sufficient to float in the deepest draft vessel. The dock will cost about \$500,000, and will be finished within six months. Three hundred men are employed.

The government drydock, being built at Mare Island navy yard, is of the same dimensions, and it is estimated that it will cost \$1,800,000. The

LONGEST WHARF IN THE WORLD, SANTA MONICA.

reason for the greater cost is that it has an earth foundation, or rather that piling is driven 60 feet in the mud, upon which to lay a foundation, and a great deal of dredging will be necessary; also a greater quantity of cement must be used. The entire structure will be of cement, mixed with quarried stone. The depth of water is ample, and when finished it will be one of the best naval drydocks in the world. It will be completed in about two years. In the meantime, government war vessels of the larger size will necessarily be docked at Hunter's Point (when that dock is finished. Foreign warships visiting this port will also necessarily be repaired at Hunter's Point, as the drydock at Mare Island is exclusively for American warships.

Thus it will be seen that while our increased Asiatic commerce has necessitated greater docking facilities, and larger vessels, that growth demands also larger warships to protect that commerce, and a larger dock for those war vessels.

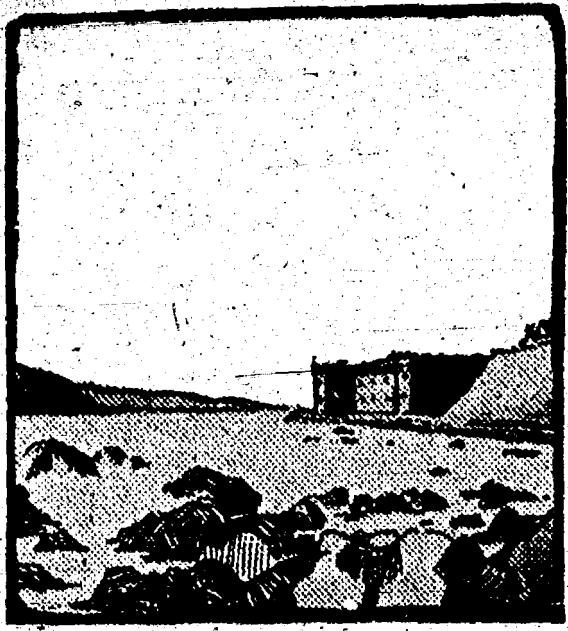

The dock now in use at Mare Island navy yard is 500 feet long, and was built 15 years ago, at a cost of about \$3,000,000.

The one at Newport News is the largest dock in the world—being 827 feet long, 162 feet wide at the top and 110 feet at the bottom, with a depth of 30 feet. As is well known, the late C. P. Huntington began its construction, foreseeing the need for increased facilities, and to prevent the necessity of longer sending our larger battleships to Halifax. In this connection it may be mentioned that the two ships now being built at Croton, Conn.,

(for the Asiatic trade) the largest in the world, can only find dockage accommodation in these large docks. It is likely, however, that one of the docks in the northwest will be lengthened with this view.

The Pacific coast is destined to become a more important central point of maritime operations at no distant day. The change that has recently taken place in Japan has considerable influence in the Asiatic problem, as affecting the Pacific coast, and the United States in general. Japan has within the past few years experienced a revolution in ideas, and those people adopt with eagerness American methods of commerce and learning. Our recent treaty with that power is especially favorable to the increase of the extensive trade between the countries, which necessitates more carrying vessels of larger capacity.

Pacific coast military defenses are also being strengthened in order to protect our increasing commerce, for Great Britain is continually strengthening her fortifications on the northwestern boundary, and is encroaching upon us in the mid-Pacific. She occa-

GOLDEN GATE, SAN FRANCISCO.

sionally grabs another island, and longingly looks toward the Golden Gate. California has a coast line of 850 miles in extent, and it will require a fleet of warships to protect the several fleets of commercial vessels that are employed in supplying this coast with the commodities of life. As the population increases, the trade with Asia will become more valuable, and worth fighting for. France, Germany, and Russia have also possessions in the mid-Pacific—holding them, and awaiting events. Said a naval officer to me: "It is well to be prepared for anything—a friendly nation of to-day may be an enemy to-morrow."

The Golden Gate is guarded by about 100 guns of the largest caliber, and 200 sea-mortars. The strait that connects the ocean with the bay is 3½ miles long and one mile in width at the narrowest point. Masked batteries are planted at convenient intervals, which it is believed can sink any warship that comes within range. One of these bat-

## ON A POWDER BOX.

Three Miners a Thousand Feet Underground Saved from Being Killed by a Mere Chance.

By mere chance three miners were saved from being blown into bits a thousand feet under ground in the Iron Belt mine at Ironwood. The men were employed on the night shift, and after eating their dinner went into a warm drift to smoke. Two boxes of powder had been placed on the steam pipes and formed convenient seats for two of the miners, and the other laid down beside them.

Later the skip tender passed by and was started to see that the filling of one of the boxes was on fire and that the men were asleep. He hastily alarmed the sleepers, and there was a wild scramble for the shaft, which was just reached when the powder—40 pounds, half dynamite—exploded.

The force of the explosion was terrific. The men were knocked down and bombarded by flying rock. One sustained a fractured shoulder and elbow and a dislocated hip; another will lose an eye, and the other miner and the skip tender were cut about the face. The filling is supposed to have been set on fire by one of the smoker's pipes.

## FOUND DEAD IN BED.

Young Swedish Bride from Ishpeming Blew Out the Gas in a New York City Hotel.

Mrs. Anna Pearsons, 19 years old, whose home was in Ishpeming, was found dead in bed at Keller's hotel in New York city, having been accidentally asphyxiated by illuminating gas. The victim was a prepossessing young Swedish woman. She came to America about six months ago and proceeded to the Swedish colony at Ishpeming. There she met Leonhardt Pearsons, a miner, and after a short courtship, married him about three months ago. Becoming homesick, it was arranged that she take a trip home. Mrs. Pearsons was a country-bred girl and unacquainted with illuminating gas, so before she retired, Mrs. Keller, the wife of the proprietor of the hotel, explained the working of the gas fixture, but she blew out the light.

## FARMER IN TROUBLE.

Sued by Husband and Wife, One Charging Alienation and the Other Breach of Promise.

Charles Holliday has commenced suit in Niles for \$20,000 against Lagrange R. Anderson, a Cass county millionaire farmer, for alienation of his wife's affections.

Holliday's former wife, who resides in Marcellus, recently instituted suit against Anderson in the Van Buren county circuit court alleging \$100,000 damages for breach of promise to marry her. Mrs. Holliday alleges that at the solicitation of Anderson she secured a divorce from her husband, and then Anderson refused to marry her as he had promised. An order of attachment has been levied against enough of Anderson's property to satisfy the demands of the complainants.

## GETS MILLIONS.

Hotel Manager Falls Heir to a Big Sum of Money Left by an Uncle in Germany.

Fred Emerick, who for the last three years had managed the new Mackinac hotel at Mackinac Island, has fallen heir to \$5,000,000, a share of the estates of an uncle in Germany who recently died. The whole estate is valued at over \$50,000,000. The elder Emerick was probably the best-known European agent in the fur business. For 30 years he was a partner of John Jacob Astor. He never married.

It is reported to be the intention of F. R. Emerick, after receiving his share of the fortune, to construct the largest summer hotel in the world on Mackinac Island, to cost \$1,000,000.

## Head Blown Away.

While hunting in the woods near Montreal river falls north of Hurley, George Kominski, aged 18, was killed by the supposed accidental discharge of a gun. Kominski and John Junger had been together but had separated for a few minutes in pursuit of a fox. Junger heard a shot and went where Kominski was and found him with the top of his head blown off with a charge of buckshot.

## Caught an Eagle.

A logger set a trap for wild cats near Iron Mountain, and when he went out the next morning was surprised to find that he had not only caught a wildcat, but an eagle which measured seven feet from tip to tip. The eagle had evidently attacked the animal after the latter was trapped, and become entangled in the trap itself.

## Michigan Plumbers.

The Michigan Master Plumbers' association at its tenth annual session in Ann Arbor elected officers as follows for the ensuing year: President, S. H. Morgan, Detroit; vice president, James M. Quinn, Ann Arbor; secretary, William I. Bolt, Detroit; treasurer, John A. Wheeler, Kalamazoo.

## LONG RETIRES.

Tenders His Resignation as Secretary of the Navy—Moody Is Appointed Successor.

Washington, March 11.—The third change in the cabinet of President Roosevelt occurred Monday when Secretary Long submitted his resignation in a graceful letter, it being accepted in one equally felicitous by the president. The change was made complete by the selection of Representative William Henry Moody, of the Sixth congressional district of Massachusetts, as Mr. Long's successor in the navy department.

This change has been expected for a long time. Mr. Long had intended to retire at the beginning of the late President McKinley's second term, but he consented to remain until certain lines of policy in which he was involved were more satisfactorily arranged. Then when President Roosevelt succeeded, though anxious to return to private life—for Secretary Long will never again enter public life—a strong feeling of loyalty towards Mr. Roosevelt induced the secretary to defer his retirement until it was convenient for the president to make a change. Recently Mr. Long has been in Massachusetts making arrangements with his old legal connections to reenter the practice of law, and he has had his house at Hingham put in order for his occupation. When Mr. Long entered the cabinet originally he was an active member of the firm of Hemingway & Long, a well-known legal firm of Boston. He always has maintained a silent connection with the concern, and will again become an active partner.

Mr. Moody's selection for the post of secretary of the navy was the outcome of an interesting contest. There were no less than a half dozen aspirants, but the struggle finally narrowed down to the two representatives in congress—Mr. Foss, of Illinois, chairman of the naval committee of the house, who had the energetic support of his western colleagues, and Mr. Moody, for whom Senator Lodge made the winning fight. It was for a time in doubt whether Mr. Moody would not be placed in some important foreign mission rather than in the navy department, but he preferred to stay at home.

The news that Representative Moody, of Massachusetts, had been offered and had accepted the navy portfolio reached the capital shortly after noon, and Mr. Moody, who was on the floor of the house, was showered with hearty congratulations. For several minutes he held a regular levee in one of the side aisles on the republican side. Democratic members noticed the demonstrations and crossed over to join in the ovation, his congratulations from that quarter being fully as hearty and sincere as those from his own side of the house.

## A GREAT STRIKE.

Teamsters and Freight Handlers Stop Work in Boston—Eight Thousand Men Involved.

Boston, March 11.—After nearly six weeks of skirmishing the dreaded labor war between the organized teamsters, freight and express handlers of Boston, and the two great railroad corporations, the New York, New Haven & Hartford and the New York Central & Hudson River, the latter locally known as the Boston & Albany, broke out Monday. The outlook is that unless powerful agencies are speedily invoked to compel peace, the struggle will have a far-reaching effect. The strike, which is a sympathetic one, already involves 8,000 men in and about Boston. Stopping work because of the discharge of union men who refused to handle nonunion moved freight, the various organizations now on strike made every effort Monday to extend their sphere of influence of affiliated bodies, while the corporations energetically tried to fill the strikers' places and to receive and dispatch goods offered them. Both met with some measure of success.

## GREAT TIDAL WAVES.

Wipe Out Whole Villages and Kill Scores of People Along Central American Coast.

San Francisco, March 11.—The steamer Newport, from Central American and Mexican ports, brought the first news of a disaster—between La Libertad and a point 30 miles north of Acapulco. In the morning of March 4 three tidal waves burst over all that length of coast, and when the Newport sailed 53 bodies had been recovered. The waves went over the barriers that had been built along the coast and swept up to La Libertad and Acapulco. The towns were not damaged, but several fishing settlements were destroyed. At Acapulco a number of children were among the missing, while many mothers had been carried away.

## A High Honor.

Minneapolis, Minn., March 11.—Judge Eli Torrance, commander in chief of the G. A. R., has just been officially notified of his appointment as a member of the board of visitors to the United States military academy at West Point.

## FIGHT ON MERGER.

The Attorney General Asks for Dissolution of the Northern Securities.

St. Paul, Minn., March 11.—The attorney general of the United States, as directed by President Roosevelt, Monday afternoon at five o'clock filed in the federal circuit court a bill in equity intended to nullify the recent merger of the Northern Pacific, Great Northern and Burlington Railway companies. The action is brought under the Sherman or anti-trust law of 1890, and supported by the decision of the United States supreme court of March, 1896. The attorney general asks that the Northern Securities company be compelled to surrender the shares of stock in the Great Northern and Northern Pacific companies. He asks further that the officers and stockholders of those two railway companies be perpetually enjoined from recognizing or accepting the Northern Securities company as the owner or holder of any of the shares of their capital stock. These demands are made for reasons, briefly stated, as follows:

That the Northern Pacific and Great Northern railways were the only transcontinental competing lines across the northern tier of states from the great lakes to the Pacific.

That in 1893 an attempt was made to consolidate the two companies, but that the attempt was defeated by a decision of the United States supreme court on March 30, 1896, in which it was held that the practical effect would be the consolidation of two parallel and competing lines.

That the merger of the companies named by the transfer of stock to the Northern Securities company is only an attempt to evade the decision of the United States supreme court of March 30, 1896.

That the Northern Securities company has effected a combination in restraint of trade and commerce in violation of the anti-trust law of July 2, 1890.

That the Northern Securities company was not organized in good faith; that it has not and never had any capital sufficient to warrant such a stupendous operation; that its subscribed capital is only \$30,000.

## TORNADO AT OMAHA.

Buildings Unroofed and Skylights Broken at an Early Hour—No Loss of Life.

Omaha, Neb., March 11.—A storm from the northwest swept through the northern portion of Omaha at one o'clock a. m. Sleet and hail followed by a veritable hurricane did considerable damage. Several buildings were unroofed, windows broken and sidewalks torn from their fastenings and hurled into the street. Five large skylights, each weighing more than 500 pounds, were blown from the Coliseum building. The Monmouth Park M. E. church, at Thirty-fourth street and Larimore avenue, was blown to pieces, as was the building occupied by the Rutherford marble works. The roof at 2410-2412 Cummings street was blown to the street at the same time a bolt of lightning struck the flat building at 2410 Cummings street, shattering the rear portion of the building. A row of flats across the street from the Coliseum was badly damaged. No loss of life is reported.

## CHILDREN ALL DEAD.

Three Boys and Two Girls Perish in Burning Home of Man in New York State.

Binghamton, N. Y., March 11.—"Dig one large grave; children all dead." So reads a telegram received Monday by his sister in this city from Thomas Scanlon, whose five children were burned to death at Shinnhoppe, Delaware county, Sunday night. They were Mary, aged 13; Thomas, aged 11; Nellie, aged eight; Dennis, aged four, and Michael, aged 2 years. The bodies will be brought here in one large coffin for burial to-day. No details of the accident can be secured. Shinnhoppe is a small settlement near Hancock, comprised of only a few houses and the Finch-Ross Chemical company's works, where Scanlon was employed. The family removed there from this city five months ago. It is presumed the home was burned at night while Scanlon was away and that all the occupants except Mrs. Scanlon perished.

## Negro Lynched.

Little Rock, Ark., March 11.—A Gazette special from Foreman, Little River county, says: A negro, giving his name as Horace McCoy, accused of assaulting a white woman and a negro, was hanged by a mob at 11 o'clock Sunday night. About 3:30 o'clock Sunday the negro assaulted a negro woman. She was badly cut about the head and shoulders in the struggle, but succeeded in getting away. Later the negro met Mrs. John Lemons, whom he also assaulted. A desperate fight followed, the negro cutting Mrs. Lemons dangerously about the head, neck and shoulders. He was captured about dark, and at 11 o'clock Sunday night was taken out by a mob and lynched.

## Will Meet in Louisville.

Louisville, Ky., March 11.—The national committee of the people's party has been called to meet at the Willard hotel, Louisville, April 1, to consider matters which will come before the allied party's national convention in this city on April 2.
