FOR STATE SENATOR.

F. P. Glazier, of Chelsea, Was Unanimously Nominated for the Tenth District.

It took less than an hour to do the business of the Tenth district Republican senatorial convention at Jackson Saturday. H. J. Prettyman, of Ann Arbor, was its chairman, and W. J. Riley, of Jackson, its secretary. After the usual committees had been appointed a recess was taken to give them time to make out their reports. When these had been made nominations were in order.

W. W. Wedemeyer placed the name of Frank P. Glazier, of Chelsea, in nomination. He urged Mr. Glazier's claims to the nomination as a staunch Republican who had done much for his party and as a good representative business man who would look carefully after the interests of his constituents and the state institutions that are located in the two counties of Jackson and Washtenaw.

On motion of Mr. McCain, there being no other nominations, it was made unanimous.

Mr. Glazier was brought before the convention and thanked them for the honor done him, and promised if elected to use his best endeavors for the welfare of the district.

Onions Topped by Machinery.

R. A. Snyder is always on the lookout for labor-saving devices for use in his large onion growing business. He has this year added to his equipment an onion topping and cleaning machine, which certainly does get over a large quantity of onions in a day. The working of the machine is briefly described as follows: The onions are brought in crates from the field where they were grown to the place where the machine is set up and while one man takes the bulbs from the wagon and empties them into the hopper of the machine, another stands and feeds them into it. The topping and cleaning is done by two rapidly revolving iron cylinders running in opposite directions. As the onions roll down the inclined chute over these rollers the tops and roots are drawn in and ground off. At the bottom of the chute they pass to an endless screen and carrying belt which cleans them of the outer skins and dirt and lands them in crates again. A boy stationed to the right of the machine picks out any onions he sees that have escaped being topped, and the man who takes the onions from the machine gives them a still further scrutiny. The machine, when running along smoothly, will clean up from 800 to 1,200 bushels of onions a day. Power to run the machine is furnished by a 2 horse power gasoline engine. It is the only machine of its kind in use in Michigan.

Almost Gratifying Revelation.

The talking machines using flat records which were sold, in past years, in competition with the graphophones using cylindrical records were famous for their scratch and numerous other disagreeable features. But the advantage of flat indestructible records, if they could be made acceptable in quality, were long since recognized and in the hands of the Columbia Phonograph Company, pioneers and leaders in the talking machine art, this type has been perfected and the records so greatly improved that they are now a most gratifying revelation. The supply of these goods has been unequal to the demand but plans are now perfected to produce them in unlimited quantities and orders will be promptly filled.

The Disc Graphophone is made in three types, selling at \$15, \$20 and \$30. Seven inch records 50c each, \$5 per dozen; 10 inch records \$1 each, \$10 per dozen. The Graphophone and Columbia Records were awarded the Grand Prize at the Paris Exposition of 1900.

The Columbia Phonograph Co., 238-240 Woodward avenue, Detroit, headquarters for graphophones and talking machine supplies of every kind, will send you catalogues on application.

Nominated Henry N. Tefft.

The tenth senatorial district Democratic convention was held here today. E. C. Morrissey, of Jackson, was its chairman, and M. J. Martin, of Ann Arbor, secretary.

After the noon adjournment a ballot was taken in which 44 votes were cast. Of these Henry N. Tefft, of Jackson county, had 23; W. D. Harriman, of Ann Arbor, 8; Jas. L. Lowden, of Ypsilanti, 7; Dr. Hyndman, of Norvell, 6. A motion to make the nomination of Mr. Tefft unanimous was put and carried and the convention adjourned.

Lyndon.

H. Stofer is gathering Mrs. Greening's apples on shares.

H. Winter has bought the apples in M. Stapish's orchard and is doing the gathering of them himself.

Mrs. Ganley and Mrs. Holmes, of Detroit, visited their brother John McKune and family last week.

The Misses Margaret and Nellie Narey, of Jackson, visited their grandmother Mrs. Moran on Saturday and Sunday last.

Geo. Runciman and D. Cooper contemplate buying a corn husker of large capacity this season to do their own and neighbors' husking.

Farm work is pressing most farmers almost to distraction these days. Beans, apples and corn are in order for attention all at once and the farmer doesn't know which to tackle first.

B. W. Sweet and wife, J. Clark and wife and H. S. Barton and wife attend the grange county convention held at Ann Arbor on Tuesday last. Mr. Sweet, Mr. Barton and Mr. and Mrs. Clark were delegates from Eureka Grange, No. 2.

The pupils of Miss Inez Leek under Miss Leek's direction gave a repetition of the recital recently given in Waterloo at Gregory on Saturday evening last with some new selections. The entertainment was fine and the audience was large and well pleased with the musical program.

The bean crop as a factor in farm accounts this season is almost a minus quantity. The loss of the bean crop to most farmers this year is a serious matter. In many cases it has been planted, tilled and harvested with high priced labor and when just ready to secure is almost completely wiped out by the long continued wet weather.

Geo. Bull, of Unadilla village, was arrested by Sheriff Finley and taken to Howell jail Saturday on a charge involving his niece Miss Ina Smith, aged 18 years. Wm. Smith, the girl's father preferred the charge. About three years ago Bull shot his wife in Ann Arbor, and was sent to Ionia for a term of years, but was released on parole. He says he is not guilty of the present charge.

Notice.

The township board of Lyndon will meet at the town hall, Lyndon, Saturday, Oct. 11, at 1 o'clock p. m., for the purpose of receiving scalps of animals on which bounty is to be paid, and for the transaction of any other business which may come before same.

Dated Lyndon, Sept. 30, 1902.

E. GORMAN, Clerk.

Lima.

John Strieter has moved to Ann Arbor. Arl. Guerin spent Saturday and Sunday in Jackson.

Ernest Rieck, of Detroit, spent Sunday with Estella Guerin.

Irving Storms will leave here Thursday for Iowa, to spend the winter with his son Rev. A. B. Storms.

Lewis Yager, jr., had an arm broken and was badly bruised Saturday night, the result of jumping off an electric car before it had stopped.

The chicken pie social at the M. E. church last evening was so largely attended that the ladies were about cleaned out of provisions. It was 7 o'clock before the crowd began to gather and then the people from Chelsea, Ann Arbor and the neighborhood came in swarms. There must have been nearly 200 people present.

A rattling Republican rally was held at the town hall Tuesday evening. Fully 150 people were present, the hall being well filled. W. W. Wedemeyer gave a good address to his old friends in the town of his birth. Jas. E. Harkins, candidate for county clerk, and a quartet gave some excellent vocal selections which pleased everybody.

Grass Lake Farmers' Club.

The meeting of the Grass Lake Farmers' Club with Mr. and Mrs. C. T. Conklin, at their home on Summit street yesterday was a very happy occasion. Over 50 people were present and thoroughly enjoyed their hosts' genial hospitality, the bountiful dinner provided and the excellent program that followed it. Mrs. Addison Davis read a good paper; Mrs. E. L. Cooper gave a select reading; Mrs. Leroy Brower introduced the women's subject "Can the mother rule the world?" and M. L. Raymond handled the men's subject "The influence of the employer on the employee." Both subjects were well discussed.

Says an exchange: "Every newspaper man has at some time or other in his business experiences met the man who 'takes more papers than he can read.' He was in town this week. He wiped his nose on the awning, paid 25 cents for an almanac, bought a cake of 5 cent soap for which he paid half a dollar, put a nickel in the slot at the postoffice, and kicked because the mail did not appear, watched the clock sign in front of the jewelry store for 30 minutes, waiting for it to strike, and still he takes more papers than he can read. We think he does."

O ye people! have ye wasted the golden moments of never returning time in taking a substitute for the genuine Rocky Mountain Tea made by the Madison Medicine Co. Glazier & Stimson.

COUNTY GLEANINGS.

There is a demand for good residences in Manchester.

Milan stores now close at 8 o'clock p. m. except Saturdays.

The people of Gregory will have a lecture course of five numbers.

The principal stores in Howell now close every afternoon at 6 o'clock, except Saturday, and will do just as much business as they did before.

An oil well on the Sharp farm in Howell township, Livingston county, when down a depth of 150 feet spouted oil 40 feet into the air. This is the second oil well found on the farm.

Titus F. Hutzel, superintendent of the Ann Arbor Water Co., lost the first two fingers of his left hand Tuesday by getting them entangled in a chain tackle which he was adjusting.

The pupils of Miss Inez Leek, assisted by Will Kennedy, vocalist, and Miss Lulu Gildart, reader, both of Stockbridge, gave a recital at Gregory Saturday evening, which was well attended.

Another check forger got in his graft in Ann Arbor Saturday night and worked off a check for \$17 purporting to be signed by G. F. Allmendinger on Fred W. Buss, the harness maker, receiving \$12.25 in change.

Chas. Bleicher, an old and respected resident of Webster, dropped dead in his barn Monday afternoon about 5 o'clock while attending to the evening work on the farm, the cause being heart disease. He was 75 years old.

W. H. Stimpson, of Boston, and B. G. Lovejoy, of Manchester, will carry on an extensive business this fall and winter in purchasing and shipping poultry to Boston. They will have packing houses both at Manchester and Jackson and will have buyers in all the surrounding towns.

Saline Observer: A few of the indignant citizens of West Main street, assembled in convention Tuesday morning at the harness shop of Frank Spears, and unanimously adopted the following resolution: "Resolved that we, good and loyal citizens of this grand republic, our heirs and assigns, do hereby set our fist upon the trusts and that we will not eat meat, butter, eggs nor other articles in the trust, nor burn coal or other fuel until said trust is busted."

Chicago & Alton Inaugurate Novelty Between Chicago and Kansas City.
A grill room chair car has been introduced into service by the Chicago & Alton between Chicago and Kansas City. In the fore part of the car is a small kitchen connected with a little room 10 by 8 feet. The grill room is fitted after the style of a small American dining-room. Other rooms will be finished after the English and German styles. The grill rooms of the cars put in service are finished throughout in mahogany, with small, well-stocked and ornamented side-board and round table at which six people can be seated. The kitchen is isolated and the diners are in close touch at all times with the steward-cook. The decorations are elaborate. The tableware, including the china, is made to correspond with the general decoration, whether American, English or German, as the case may be. This innovation adds to the enjoyment of traveling, as a meal consisting of anything from a sandwich to a champagne supper can be ordered at any hour of the day or evening.

SENT TO THE FRONT.

Gov. Stone Orders Out Remainder of Pennsylvania Militia.

Full Force of the National Guard on Duty in the Mining Region—First Time Since Homestead Riots.

Harrisburg, Pa., Oct. 7.—Gov. Stone late Monday night ordered out the entire division of the national guard of Pennsylvania to duty in the anthracite coal region. The soldiers will be in the field to-day. Gov. Stone called a conference of the general officers of the guard, at which it was decided to place these troops in the field.

The troops now in the field are the Fourth, Eighth, Ninth, Twelfth and Thirteenth regiments of the Third brigade, and the Governor's troop, Sheridan troop and Second Philadelphia city troop. The troops which will be sent to reinforce those now on duty are the First regiment, Second regiment, Third regiment, Sixth regiment, Battery A, First troop Philadelphia cavalry, who compose the First brigade; Fifth regiment, Tenth regiment, Fourteenth regiment, Sixteenth regiment, Eighteenth regiment and Battery D, who constitute the Second brigade.

The Order.

The order calling out the guard is as follows:

"Headquarters National Guard, Adjutant General's Office, Harrisburg, Pa., Oct. 6.—In certain portions of the counties of Luzerne, Schuylkill, Carbon, Lackawanna, Susquehanna, Northumberland and Columbia, tumults and riots frequently occur, and mob law reigns; men who desire to work have been beaten and driven away, and their families threatened. Railroad trains have been delayed, stoned and tracks torn up. The civil authorities are unable to maintain order and have called upon the governor and commander in chief of the national guard for troops. The situation grows more serious each day. The territory involved is so extensive that the troops now on duty are insufficient to prevent all disorder. The presence of the entire division of the national guard of Pennsylvania is necessary in these counties to maintain the public peace.

"As tumults, riots, mobs and disorders usually occur when men attempt to work in and about the coal mines, he will see that all men who desire to work and their families have ample military protection. He will protect all trains and other property from unlawful interference and will arrest all persons engaging in acts of violence and intimidation and hold them under guard until their release will not endanger the public peace; will see that threats, intimidations, assaults and all acts of violence cease at once. The public peace and good order will be preserved upon all occasions and throughout the several counties, and no interference whatever will be permitted with officers and men in the discharge of their duties under this order. The dignity and authority of the state must be maintained, and her power to suppress all lawlessness within her borders be asserted."

Will Cost Over \$1,000,000.

This is the first time since the Homestead riots in 1892 that the entire division of the guard has been ordered out for strike duty. The cost to the state of this tour of duty will probably exceed \$1,000,000.

Beyond the order issued by him, Gov. Stone refused to make any statement regarding the strike situation. It can be said positively, however, that the action of the governor was not inspired or recommended by President Roosevelt. It was entirely of his own volition, and only after a careful and conscientious survey of every detail of the situation. Since the failure of any amicable basis of settlement, or truce between the warring forces of capital and labor, attention has been attracted to Gov. Stone as the central figure from whom to expect official action. The governor, it can be said with authority, for some time before the conference at Washington, had been considering what was the best step to take, but he determined to make no move until he felt that the proper time had arrived.

Now Up to the Operators.

The statement by the local coal operators to the president that if they had a sufficient force to protect those desiring to work, there would be a relief of the situation and a flow of coal into the markets, may have had something to do with this action. So far as the governor is concerned, however, he will not discuss the matter. One of the coal operators said that "anarchy and lawlessness" prevailed in Pennsylvania, and that if they had a sufficient military force they could furnish all the coal that was needed. As one prominent official life here put it: "It's now up to the operators. They have the entire military force of the state at their disposal under orders from the commanding officers. Now let them mine the coal."

ENCAMPMENT BEGINS.

Veterans of the Grand Army of the Republic Gather at the National Capital.

Washington, Oct. 7.—The ceremonies incident to the beginning of the thirty-sixth encampment of the Grand Army of the Republic, which commenced here Monday, were varied in character and mostly only semi-official. The only formal proceeding of the day was the dedication of Camp Roosevelt, the tent city on the white house grounds, which will be the headquarters of the several corps organizations during the week. The ceremonies there consisted of a number of addresses by men of national reputation, the chief speech being delivered by Secretary Hay. For the rest the old soldiers busied themselves largely in renewing the acquaintances of 40 years ago and in manifesting their appreciation of the welcome extended to them by the capital city. Of this welcome, they found generous evidence on every hand.

The events of the day outside of the dedication ceremonies at Camp Roosevelt, included a fine regatta on the Potomac, an attractive automobile parade, an interesting procession by the red men of this city and neighboring cities and campfires in the evening. Commander-in-Chief Torrance and his staff kept open house all day at the Ebbitt house and received many hundreds of callers. Many trainloads of people have arrived during the day, and it is now quite certain that the anticipations of an exceptionally large attendance will be realized.

At night the veterans and their friends were entertained by an exhibition of fireworks on the Washington monument grounds. The principal scene represented was the rescue of the diplomatic legations at Peking in which 300 persons were engaged. The attendance numbered thousands, and the different features of the spectacle were enthusiastically received.

A center of interest was the grounds south of the white house. There, on the Ellipse, under the shadow of the Washington monument, are located tents which are to be used as the headquarters of the different corps and other divisions whose members constitute the grand army. Among the organizations thus represented are the Army of the Potomac, the Army of the James, the Army of the Cumberland and the Army of the Tennessee. All these tents were occupied during the day, and all proved powerful magnets to the veterans.

ARMY MANEUVERS.

Attack and Defense of a Position a Most Interesting Problem for Soldiers at Fort Riley.

Fort Riley, Kan., Oct. 7.—While fully as practical as any of the preceding maneuvers, Monday's exercises contained a larger element of the spectacular than any that have preceded them, and it is not likely that any of those still to come will equal the work of Monday. Major Leach, of the engineers, commanding the Blues, defended a position with what all the military critics concede was very great skill. General Kobbe, leading the Browns, made dispositions for attack that were praised fully as highly as Maj. Leach's defensive disposition. Moreover, Gen. Kobbe pushed home his attack with a fierceness and energy that, had the combat occurred in actual warfare, must have caused heavy losses to both sides. At the close of the fighting Gen. Kobbe had been badly crippled, but he was coming on to make a final rush for the trenches. His men were dashing down a slope fully exposed to the rifle fire of an entrenched line, and after descending this and passing through a ravine, his men had still 300 yards of open ground to cross before reaching the entrenchments. The critics say that this was hardly possible. Still, Gen. Kobbe had two full imaginary regiments in reserve, and even though repulsed the first time, his game was far from being played to the finish.

TREASURER IS GONE.

Custodian of Public Funds an Alleged Absconder and Defaulter in Sum of \$17,949.

Honolulu, Sept. 30, via San Francisco, Oct. 7.—William H. Wright, treasurer of the territory of Hawaii, is alleged to be an absconder and a defaulter to the extent of \$17,949. It is believed that he is stowed away on the steamship Alameda, which left here last Wednesday at noon. Secretary of the Territory Henry E. Cooper has been appointed treasurer temporarily by Gov. Dole. Under the territorial act the treasurer is not required to give bonds, and the legislature at its last session failed to make any provision for bonds.

German Opinion.

Berlin, Oct. 7.—The coal strike in the United States is attracting more and more attention here. The newspapers print rather full accounts of the conferences at Washington. The press takes sides with the miners and censures the operators for their unyielding attitude.

MICHIGAN STATE NEWS.

Love Ends in Tragedy.

Driven to desperation by the prospect of being forever separated from her lover, in the expectation of marrying whom she had nearly circled the globe, Alexandra Joseph, a young Syrian girl, in a supreme effort to escape from the United States immigration agent who was about to deport her, threw herself from the window of a Michigan Central passenger train near Newport, that was running 50 miles an hour, and was instantly killed. The tragedy was the culmination of years of effort on the part of Joseph Abodeely, of Cedar Rapids, Ia., to lead his old sweetheart to the altar. But when he had saved enough money to pay the girl's passage to the United States and she had come as far as Montreal, she was refused admittance to the United States on the charge that she was afflicted with trachoma.

Establishes Title.

In the suit involving the old Marquette, Houghton & Ontonagon railroad grant Judge Wanty, of the Marquette federal court, has handed down a decision settling title to a thousand acres of choice lands in the upper peninsula. It is a victory for the Michigan Land & Iron company, whose ownership of the tract as a successor to the railroad company is affirmed. Homesteaders will receive liberal financial consideration. This decision brings to an end a costly litigation that has been going on for many years.

Select a Candidate.

After an animated discussion in Detroit, the democratic state central committee selected L. T. Durand, of Saginaw, as the party's candidate for governor. The new nomination was made necessary by the withdrawal of Judge George H. Durand, of Flint, a brother of the new nominee. Judge Durand was stricken with paralysis five weeks ago and his condition has remained such that all thought of his going through a campaign or filling the office of governor had to be abandoned.

Crop Outlook.

The weekly crop report of the Washington weather bureau says for Michigan: Excessive rainfall has delayed all field work, flattened much corn and spoiled many late beans; corn maturing very slowly, and much cut green and unripe; late potatoes continue to show rot and indicate light yield; buckwheat, apples and late peaches yielding well; early sown wheat and rye germinating finely; pasturage excellent.

Health in Michigan.

Reports to the state board of health from 83 observers in various portions of the state indicate that during the past week scarlet fever and smallpox increased and diphtheria decreased in area of prevalence. Consumption was reported at 219 places, measles at 20, typhoid fever at 96, whooping cough at 21, scarlet fever at 66 and smallpox at 16 places.

Held for Killing Girl.

Amanda Lovell, 18-year-old daughter of Peter Lovell, of Lake Linden, was run down by a hay rack and so severely injured that she died. Columbus Edgerton and G. M. Matson, who were in the vehicle, were arrested charged with manslaughter and held on \$2,000 bonds each to await trial.

A Brutal Murder.

Henry Keiss was shot and killed by Neil Sinclair in front of John McEachern's saloon at Eckerman. Keiss was foreman of Lake's lumber camp eight miles from Eckerman. Keiss was killed because he attempted to settle a quarrel between Sinclair and his brother and another man.

Alger Is Senator.

Gov. Bliss tendered to Gen. Russell A. Alger the United States senatorship made vacant by the death of Senator James McMillan, and Gen. Alger has accepted the appointment and has received his commission, signed by the governor.

News Briefly Stated.

Dr. George E. Metcalf, a prominent veterinary surgeon, died in Detroit from hydrophobia. Four months ago the doctor was bitten on one of the thumbs by a dog he was treating, but he paid no attention to what seemed merely a laceration of the skin. Ithaca's new bank will open for business about October 10.

Van Buren county stands first in the acreage set to peppermint this year. Dr. Sheldon Pitcher was arrested in Detroit on suspicion of having caused the death of Miss Grace Alma Wilderspin by an operation.

The cash balance in the state treasury at the close of business September 30, was \$4,413,983.55.

The school census shows 9,319 young people of school age in Bay City, against 8,542 last year, a net increase of 477.

The state board of corrections and charities has passed a resolution favoring an amendment to the constitution to provide for indeterminate sentences for criminals.

SARGENT IS SENT.

Commissioner of Immigration Is an Embassy of President Roosevelt to President Mitchell.

Washington, Oct. 7.—There was only one development of importance in the coal strike situation Monday. Frank P. Sargent, commissioner of immigration, and for many years chief of the Brotherhood of Locomotive Firemen, had a long interview with President Roosevelt, and left Washington very soon afterwards. Mr. Sargent indicated that the interview concerned the coal strike, but he would not discuss the matter. From the fact that he always has been influential with labor organizations it is generally believed that he is intrusted with a message to President Mitchell, of the miners' union. It is also said that Mr. Sargent is to meet Mr. Mitchell in Philadelphia and deliver the message of the president urging that the miners end the strike in the interests of the public.

While many propositions have been under discussion it is almost certain that the administration is taking up only one plan at a time. The present plan is that outlined in the dispatches Saturday and Sunday, and contemplates an end of the strike by the action of President Mitchell and his associates, and a full investigation of the mining conditions later.

No hope is entertained that anything can be accomplished through the coal operators since the attitude they took at the conference Friday. Should the movement now on foot fail there seems to be no other plan which presents a feasible solution of the serious problem. While it is generally believed that President Roosevelt has sent a direct appeal to Mr. Mitchell, there was no confirmation of such action obtainable at the white house.

BUYING COAL ABROAD.

Thousands of Tons Purchased for Shipment to America—Prices Highest Ever Known.

London, Oct. 7.—A telegram from Newcastle announces that 100,000 tons of coal have been sold on the Newcastle coal exchange for America.

Reports from Cardiff say that 25 steamers have been secured for early sailing from South Wales ports for New York and Boston, and it is said that American purchases during the last week at Cardiff alone totalled 100,000 tons, of which 80,000 tons were for New York. The purchases at Swansea last week totalled 20,000 tons. It is estimated that the Wales sales of coal for America aggregate 200,000 tons since the rush began. It is not expected that sufficient anthracite will be obtained to supply the American demand.

Anthracite coal is now quoted at the highest price which it has ever reached in this country. A prominent dealer on the coal exchange said: "I should not be surprised if retail coal in London reached \$10 per ton during the next few weeks." A report of a big Swansea anthracite company said: "While we are selling every ton of hard coal we can spare for America the increase in price is affecting us adversely in another way. We have spent \$5,000 yearly during the last ten years to popularize anthracite for house use in England. We have kept up stove stores and agents in London and elsewhere and we were just beginning to make headway and now this big jump in prices threatens to put back our crusade for several years at least."

THOUSANDS NDATTEND.

Latter Day Saints' Conference One of the Most Successful Ever Held.

Salt Lake City, Oct. 7.—The annual conference of the Church of Jesus Christ of Latter Day Saints, with one exception the largest ever held, closed Monday afternoon. The Mormon church has missions in every civilized country in the world, and nearly all of them were represented at the conference just closed, while Utah, Idaho, Colorado, Arizona, New Mexico, Canada and Mexico, where the church flourishes, were represented by thousands. It is estimated that 40,000 people have attended the conference meetings. The growth of the church, as shown by missionaries and the church reports, has been remarkable in the past year.

Ex-Governor Dies.

Columbus, O., Oct. 7.—Ex-Gov. John B. Neil died after an illness of ten months from cancer of the throat, aged 50. A wife and one daughter, Mrs. A. B. Benney, of Pittsburg, survive him. In 1880 President Hayes appointed him governor of Idaho, which office he held for four years. He served through the civil war, being mustered out as colonel.

Japan Strengthening Her Navy.

Yokohama, Oct. 7.—It is currently reported that the Japanese government, within the next six years, will build four battleships, six first-class cruisers and various lesser craft at a cost of \$10,000,000 annually for the six years. The battleships are to be built in England and the cruisers in England, France and Germany.

WILL IMPORT COAL.

Morgan to Bring 50,000 Tons from Wales—Prospects of the Detroit Conference.

New York, Oct. 6.—J. Pierpont Morgan, acting through the International Mercantile Marine company, the shipping combination, has decided to purchase 50,000 tons of coal in Wales and ship it to this city as rapidly as possible for distribution to the poor and public institutions. If more coal is needed to relieve the famine that will result if the strike is continued, Mr. Morgan will bring it from Wales. News of the Morgan gift was given out in a statement issued Saturday afternoon at the Morgan banking house by Mr. Steele, one of Mr. Morgan's partners. From the statement it would appear that the International Mercantile Marine company is the donor of the coal, but there is no doubt that Mr. Morgan personally is going to the expense of perhaps \$500,000 to relieve the coal situation.

While all who heard of the project agreed that the coal, which should arrive here before the very cold weather sets in, would avert much distress, there were many in the financial district, as well as in other parts of the city, who wondered what had prompted Mr. Morgan to do this. In some circles it is believed to be a slap at the presidents of the coal roads, who have so obstinately refused to consider any terms for the settlement of the strike save unconditional surrender on the part of the miners. On the other hand it is believed that Mr. Morgan is supporting the mine operators in their stand, and that his distribution of coal to the poor and to public institutions, such as hospitals and schools, is really a clever coup to disarm in a measure public opposition.

Detroit, Mich., Oct. 6.—The conference on the coal question to be held Thursday will, it is hoped, be productive of good results. No definite plan for the settlement of the strike will be submitted for consideration of the convention by local promoters. It is expected that among the delegates will be some very able men, and that by an interchange of opinions some practicable and effective scheme will be worked out. It is believed, too, that the convention, by its crystallization of public sentiment, cannot fail to have an important effect quite apart from the definite practical plan of procedure that it is believed will be evolved.

It is probable the convention will declare in favor of a special session of congress to enact legislation providing a detailed plan for the government taking possession of and operating the mines under the principle of eminent domain, if the miners and operators do not speedily get together on terms of settlement.

It is expected that at least 1,000 delegates will be in attendance. Up to the present about 50 cities have promised to send delegates, and the replies from the governors of five states—Michigan, Maine, New Hampshire, Indiana and Minnesota—have also been favorable.

FOUND GUILTY.

Banker Snyder Convicted of Bribery in the St. Louis Traction Franchise Case.

St. Louis, Mo., Oct. 6.—The jury in the bribery case of R. M. Snyder, financial agent of the Central Traction company, Saturday night brought in a verdict of guilty and fixed his punishment at five years in the penitentiary. The decision hinged largely upon whether Snyder was for the last three years a resident of Missouri or of New York. The crime charged against the defendant, who was formerly a Kansas City banker of wealth and prominence, was bribing members of the St. Louis municipal assembly to pass an ordinance granting the Central Traction company a valuable franchise.

PRESIDENT EXHAUSTED.

Strain of Coal Conference Tells of Him—Doctors Order Him to Avoid Business for a Week.

Washington, Oct. 6.—Secretary Cortelyou, upon being asked as to condition of the president, said the conference held Friday was a severe strain upon the president. While in the judgment of his physicians his progress toward recovery has been satisfactory, and continuous, they feel that to avoid the risk of a set-back he should be relieved of any undue tax upon his strength. Therefore for the next week or ten days only such matters will be brought to his attention as it may be imperatively necessary for him to consider.

A Fatal Blow.

Grand Rapids, Mich., Oct. 6.—William D. Barringer, a cooper, was murdered at an early hour Sunday morning by Thomas A. Stewart, a negro barber on South Market street. Barringer is alleged to have made an insulting remark to Stewart's wife, and her husband felled Barringer with a blow on the jaw, from which he died almost instantly. Stewart is in jail.

A Medicine for Old People.

Rev. Geo. Gay, Greenwich, Kas., is past 83 years of age, yet he says: "I am enjoying excellent health for a man of my age, due entirely to the rejuvenating influences of Dr. Miles' Nervine. It brings sleep and rest when nothing else will, and gives strength and vitality even to one of my old age."

"I am an old soldier," writes Mr. Geo. Watson, of Newton, Ia., "and I have been a great sufferer from nervousness, vertigo and spinal trouble. Have spent considerable money for medicine and doctors, but with little benefit. I was so bad my mind showed signs of weakness. I began taking Dr. Miles' Nervine, and I know it saved my life."

Dr. Miles' Nervine

Saved me from the insane asylum," Mrs. A. M. Heifner, of Jerico Springs, Mo., writes. "I was so nervous that I could scarcely control myself, could not sleep nor rest, would even forget the names of my own children at times. I commenced using Dr. Miles' Nervine and it helped me from the first, and now I am perfectly well."

ITEMS OF LOCAL INTEREST.

W. H. Heselschwerdt has bought Carl Mensing's house on West Middle street.

There will be a teachers' examination at the court house, Ann Arbor, next Thursday.

Two cattle were killed by one of the D. Y., A. A. & J. cars Friday, about 3 1/2 miles this side of Ann Arbor.

The Glazier bank building is now so far completed that the Chelsea Savings Bank expects to get into its new home Nov. 1.

The members of St. Paul's church are requested to meet at the town hall Saturday evening, Oct. 18, at 8 o'clock, to transact some important business matters.

The grand chapter Order of Eastern Star is in session at Bay City yesterday and today. Mrs. Ruth Waltrous and Mrs. S. G. Bush are attending it as representatives of the local chapter.

The 50th anniversary of the dedication of the first State Normal building was held in Ypsilanti Sunday and Monday. A large delegation of old graduates were present at the interesting exercises.

The K. of P. Carnival at Ypsilanti is the biggest thing of its kind that has ever been held in that city. Yesterday's parade was a cracker-jack. Large crowds of people are in attendance. It will close tomorrow night.

Munson Burkhardt is having a two story building 26x28 in size erected on his property corner Main and Park streets. It will be used as a freezing room and ice house in connection with his ice cream business.

A few of the intimate friends of Mrs. It Wunder gave her a surprise party one day last week, it being her birthday anniversary. The gathering was also in the nature of a farewell party as Mrs. Wunder has decided to go to Jackson to reside, her only child, Miss Mary Wunder, being employed in one of the stores there.

A regular meeting of Olive Chapter, No. 108, O. E. S., will be held Wednesday evening, Oct. 15.

Peet Brothers under the auspices of Chelsea Tent, K. O. T. M. M., at the opera house next Monday evening, Oct. 13.

This month has two new moons. The first came with the first day of the month and the second one comes the last day.

The Ladies' Society of St. Paul's church met last Friday with Mrs. Feldkamp on Orchard street. The society has decided to give a supper at the town hall Saturday of next week.

At the recent meeting of the state board of corrections and charities at Lansing a resolution was adopted favoring an amendment to the constitution legalizing indeterminate sentences of prisoners.

A ladies' handbag was found on North Main street, Chelsea, near Letts' bridge, last Saturday night. Owner can have same by proving property and paying for this notice. Call at the Herald office.

The long drawn out suit of John Shadford, of Ann Arbor, vs. the D., Y., A. A. & J. Railway Co., has been settled at last. The judgment amounts to over \$3,000 and satisfactory arrangements have been made for its payment.

All hope for even a semblance of a bean crop has been abandoned by the farmers in this vicinity. Most of them will be fed to the hogs. The farmer who still has his last year's crop of beans on hand will undoubtedly receive a big price for them.

William McEntee, a resident of Lyndon all his life, having been born on the farm where he died, passed away Monday, aged 55 years. The funeral services were held at St. Mary's church yesterday, Rev. W. P. Considine officiating. Burial was in Mt. Olivet cemetery.

At the Democratic first district legislative convention held in Ann Arbor Thursday Byron C. Whitaker, of Scio, was nominated to succeed himself. The second district convention held in Saline the same day placed John P. Kirk, of Ypsilanti, in nomination.

The Ypsilanti K. of P., band, of 17 pieces, headed by W. N. Lister, was here Monday morning advertising the street carnival which is being held there yesterday, today and tomorrow. They played several tunes on Main street then went on to Grass Lake and Jackson.

Oscar Grieb, the 12 years old son of Mrs. Wm. Grieb, of Freedom, died Wednesday of last week, of inflammation of the bowels. The funeral services were held Friday at Zion's church, Rogers' Corners. The remains were buried in the burial ground of the church.

Often as the subject of the use of cards and the etiquette of calls is discussed there are certain points to be taken up and explained, and the Delineator for November supplies a useful chapter on this head, in which reference is made to the various usages that govern society in large cities and in towns.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

Whitaker & Wacker have 20 fine thoroughbred Black Top yearling rams for sale.

"The fastest selling article I have in my store," writes druggist C. T. Smith, of Davis, Ky., "is Dr. King's New Discovery for consumption, coughs and colds, because it always cures. In my six years of sales it has never failed. I have known it to save sufferers from throat and lung diseases, who could get no help from doctors or any other remedy." Mothers rely on it, best physicians prescribe it, and Glazier & Stimson guarantee satisfaction or refund price. Trial bottles free. Regular sizes, 50c and \$1.

It stands alone, it towers above. There's no other, its nature's wonder, a warming poultice to the heart of mankind. Such is Rocky Mountain Tea. 35 cents. Glazier & Stimson.

M-A-N-W has arrived at your druggist's. 25c will get M-A-N-W, Merriam's all night workers, the ideal stomach and liver pill. For sale by all druggists.

THE DRAUGHT'S BLACK-DRAUGHT THE GREAT FAMILY MEDICINE

The Draught's Black-Draught has saved doctors' bills for more than sixty years. For the common family ailments, such as constipation, indigestion, hard colds, bowel complaints, chills and fever, biliousness, headaches and other like complaints no other medicine is necessary. It invigorates and regulates the liver, assists digestion, stimulates action of the kidneys, purifies the blood, and purges the bowels of foul accumulations. It cures liver complaint, indigestion, sour stomach, dizziness, chills, rheumatic pains, sideache, backache, kidney troubles, constipation, diarrhoea, biliousness, piles, hard colds and headache. Every druggist has The Draught's Black-Draught in 25 cent packages and in mammoth size for \$1.00. Never accept a substitute. Insist on having the original made by the Chattanooga Medicine Company.

I believe The Draught's Black-Draught is the best medicine on earth. It is good for any and everything. I have a family of twelve children, and for four years I have kept them on food and healthy with no doctor but Black-Draught. A. J. GREEN, Illwaco, La.

THE ONION CROP IN MICHIGAN.
 The onion crop report of the Jerome B. Rice Seed Co., of Cambridge, N. Y., dated Sept. 20, has the following to say of the crop in Michigan:
 "Michigan, which started out with the finest crop prospects of recent years, suffered greatly from heavy rains in June, and it is doubtful if the state will produce over 40 or 50 per cent of last season's crop. In our visits to the various fields, some very good onions were observed, but generally the stock was inferior, the bulbs being rather under-sized, with a large per cent of thick necks, and apparently not good storage stock. A large per cent of the crop was (Sept. 15-20) still standing in the fields, and a considerable proportion of which would require three or four weeks of favorable weather to mature.

A Republican rally is to be held at Ypsilanti next Monday evening, Oct. 13, at which Senator Alger, Hon. Wm. Alden Smith and Hon. Charles E. Townsend will be the speakers.

A goodly number of the members of Columbia Hive, L. O. T. M. M., paid a sisterly visit to Crystalline Hive, Dexter, last Thursday afternoon and evening and had a very pleasant time.

There will be no preaching in St. Paul's Evangelical church next Sunday as the pastor will be in Delray attending a missions-fest. The Sunday school will meet at 11 a. m. and the Young People's society at 7 p. m.

Wm. Kilts, of Webster, who hired a horse of John Naylor, of Ann Arbor, last May, drove it to Chelsea and tried to sell it to Tommy McNamara for \$25, was sentenced to 18 months in Jackson by Judge Kinne Tuesday.

Tomorrow, Oct. 10, is Pioneer Day in the schools of Michigan. It is to be observed in memory of the work of the early settlers of the state and their heroic labors while endeavoring to establish the various settlements in the wilds of Michigan.

The Prohibitionists of Washtenaw county have nominated James P. Wood, of Chelsea, for state senator; Loren D. Carr, of Ann Arbor, for representative in the first district, and North Gass, of Ypsilanti, for representative in the second district.

The entertainment by the Peet Brothers at the opera house next Monday evening, Oct. 13, under the auspices of Chelsea Tent, K. O. T. M. M., will be a good one and should be greeted with a large house. These entertainers are better prepared than ever this year to amuse their audiences and are receiving good notices everywhere they go. Prices 10 and 20 cents.

The October term of the circuit court opened at Ann Arbor Monday. Most of the civil docket was put over until after election, it being decided to recall the jury on Nov. 10. In nearly all of the 22 criminal cases pleas of not guilty were entered. Resolutions on the death of Geo. W. Turnbull were read and spread upon the record.

The Detroit To-Day, the pioneer penny paper of Michigan, which its contemporaries gave just two months to live started on its third volume Oct. 1. The edition was a 16-page paper and the number of subscribers who received it was over 30,000. To-day is a very independent sheet and has won many friends and some enemies by its course.

At the home of Mr. Del. Baldwin, in Sylvan, last evening at 8 o'clock, in the presence of the relatives of the contracting parties, Mr. Alvin Baldwin was married to Miss Vivian McDaid, by Rev. F. A. Stiles. A sumptuous wedding supper was served. Mr. and Mrs. Baldwin will go to housekeeping in a few weeks on their farm in Lima.

The annual Woman's Associational Missionary meeting of the Washtenaw Baptist churches was held at the Baptist church in this place Friday. There were 40 delegates present and nearly all the churches in county were represented. Two sessions—morning and afternoon—were held. Some very interesting papers were read and they were well discussed. The officers for the ensuing year were also elected.

The state tax commission met with the supervisors of Ypsilanti city and Ann Arbor, Lima, Pittsfield, Saline, Scio, Sylvan, York and Ypsilanti townships on Tuesday at Ann Arbor. The commission reviewed the assessments of the Hawks-Angus and Boland electric lines in those places and raised the assessment of the Hawks-Angus line \$210,000, and of the Boland line \$73,100. In Sylvan the Hawks-Angus line was raised from \$40,000 to \$68,700, and the Boland line from \$20,000 to \$58,700.

THE DARK AND THE BRIGHT SIDE OF NEW YORK CITY

Last year a beautiful white yacht lay for weeks in the cove to the rear of President Roosevelt's house at Oyster Bay. The place is called Cold Spring Harbor, and the most beautiful about Long Island it is. By-and-by it was known that a stranger had come aboard the yacht, and she steamed away and the wealth of the land was congratulating Mrs. George Gould upon the birth of a daughter.

This year another white yacht lay in the same place. She was the Helenita, a floating palace more than 200 feet in length. The storks must have learned the way; for just the other day they carried to Mrs. Frank Gould a baby that will be known as Helen. It is a happily happening name; it will remind everyone of the elder Helen Gould, whose life is devoted to good works and who possibly has more friends than any other woman in the east. But the baby bears her mother's name as well as her aunt's. For the mother was Helen Kelly, daughter of Eugene Kelly, the banker. Mr. Gould is a very young father; it is only a short time ago that he enjoyed his "coming-out" party, when he became 21. He received from \$10,000,000 to \$15,000,000 from the estate of Jay Gould; his wife has perhaps nearly as much in her own right, and they are in many ways a fortunate pair.

More fortunate in their youth than John D. Rockefeller, with all his millions and his ruined digestion. Of Mr. Rockefeller's recent loss in the burning of his country house at Tarrytown, you must have read. The popular idea of this house was that it was a vast affair, suitable to the grandeur of the richest man in the world. But there is nothing grand about either Mr. Rockefeller or his abodes. He is himself a soft-voiced, patient-looking, rather sickly and faded little man. The burned house, though standing in a splendid estate, was itself a trifling relic of the "gingerbread" style of architecture to which its owner had from time to time added a few rooms as he needed them. In New York Mr. Rockefeller lives almost as quietly—not upon Fifth avenue with the other millionaires, but on a side street, in a house which is fine enough but would never be noticed in that neighborhood.

Crime in New York City. For 20 years, until it was obliterated to make room for a new apartment house, a little back yard upon the West side and the rear window of the house it served were pointed out from the windows of elevated trains flying past as the scene where Brooker Hatch, caught in a degrading amour and seeking to escape, leaped for a footing in a tree that stood below, and was dashed to his death on the flagging.

For so long a time and longer, unless it too mercifully yields to rebuilding, will the sordid little saloon be pointed out where Nicholas Fish, heir to vast wealth and a great name, was killed in a revel with strange women in the early afternoon. It was the crowning tragedy of a month that has fairly reeked murder.

The Fishes have vast wealth. Stuyvesant Fish is president of the Illinois Central; his wife the deputy leader of New York society; his daughter a belle just "out." Nicholas Fish was a banker of solid standing. His son, more fortunate in his death, was that Hamilton Fish who was almost the first American to die in the Spanish war. Young Hamilton Fish was a youth of enormous physical strength and unbridled passions. He was constantly getting into brawls where his vast strength and utter recklessness made him a dreaded antagonist. Policemen used to fear an encounter with him more than even with the redoubtable "John L." himself. "John L." could usually be reasoned with. They said of young Fish, when his manly beauty was laid low, that he was fortunate thus to die. Just about that time a small breathing place upon the East side, named for the statesman of the family, the "Hamilton Fish Park," was thrown open to the people. The coincidence gave rise to the prevalent error that it was meant to honor the soldier dead; and so about the name of the headstrong youth is already growing up a legend of manly deeds and almost superhu-

man prowess. He will not be easily forgotten.

The Mormon Murder Mystery. Hot upon the heels of the Fish murder came the most singular crime that has astonished even New York for many a day. A poor drab of the streets, whose pathetic fate revealed that happily in her childhood home nothing was known of her but what was good, was killed under circumstances of fiendish brutality and premeditation by the grandson of Brigham Young, the Mormon apostle. The killing took place in the very heart of the crowded "Tenderloin," the gayest and cruellest portion of the city. The respectable apartment house where the young woman was killed was also the home of several Mormon missionaries, who preach the Latter Day Saints' gospel in New York, polygamy and all. The father of the murderer himself had hired three apartments in the place—rumor has it for three wives who wish separate quarters. And, strangest of the strange, under the same roof lived three or four of the brightest newspaper reporters in New York, not one of whom suspected the criminal, or, for that matter, had so much as seen him—so little does the New Yorker know of his neighbors.

It needed but the hint of religious mania suggested by the young man's written notes of Scriptural passages upon "blood atonement" to set New York shivering to stories of the avenging Danites and the Mountain Meadow massacre. It would have taken little to start a panic fear of mysterious murderers killing in the name of an abhorrent creed.

It would have taken little to start a panic fear of mysterious murderers killing in the name of an abhorrent creed.

A City Where Strange Things Happen. Of course strange things happen in New York. There is room for them. The place is big. It may seem strange, for instance, that there are in the town from 5,000 to 10,000 professing Mormons. The fact is unknown or ignored except when some exciting news calls it to attention. This news usually takes the shape of the conversion of some beautiful young woman of refinement and social standing. There are fewer men converts. The missionaries are all men. They have plenty of money. They hold services in several churches, and in a great Brooklyn theater. They are strongest where the population is of the purest English stock. Upon the foreign born, except Germans and Swedes, they have no influence. I have never heard of an Italian convert.

In the main the Mormons are quiet enough. They have to be. This is a city of usually well behaved people. Even the Fish case might give rise to exaggerated notions. For there are few saloons in New York where women are seen drinking. Such a sight is in London common. Charley Murphy, the new head of Tammany Hall, is no saint; but in the four saloons which until lately he controlled, no woman was ever permitted to drink. The great East side, which is the city, is orderly and religious. The gilded viciousness that flaunts itself in the Tenderloin would fade soon enough but for the constant stream of money poured into the hoppers of the mill of vice by strangers in town.

And while the scion of one ancient and honored house, though a man in gray hair and sober years, is carousing and paying the price with his life, the great work of charity, of rescue, of neighborliness, of hope, goes on.

The "Servant Girl Problem." From time to time the telegraph announces the solution somewhere, somehow, of the "servant girl problem." The latest solution, in New York, may interest you.

It is an apartment house, where you can have—if you like and care to pay \$16,000 a year rental for it—5,000 square feet or less of a floor space. Each tenant has his library, bedrooms, parlors and dining-room as usual, but no kitchen, no servants. His meals are

shot up to him in a little elevator designed to keep them hot; his drinks sent up in another arranged to keep them cool; the waiters who are to serve them come in another elevator reserved for servants. In this ride the chambermaid and cleaners, the valets and lady's-maids who are to be kept on tap, as it were; ready to flit to any point when called for.

You have the absolute privacy in your own rooms which deadened walls and the absence of any but your own family give. But you can give a sumptuous banquet for 20 people without the slightest bother at an hour's notice; you can have a valet in three minutes and for as long as you like without either hiring him or looking up his references. You can, if you prefer, dine in the restaurant and admit no one to your rooms, living there like a recluse. Or you can keep as many servants as you care to upon the one condition that they do not live in the flat. When their work is done they go elsewhere to sleep. It is not thought that many will avail themselves of this privilege except possibly so far as to keep a valet or a maid.

This Aladdin's lamp arrangement—when you push a button in the wall and get whatever you wish—does it not? For people who have the money. For the rest of us the first "problem" is to get it.

OWEN LANGDON.

PLAN TO BEAUTIFY PARIS.

American Syndicate Submits a Huge Project to the Council of That City.

Sidney Watkins, the Yankee engineer, has been expounding a gigantic project to the Paris municipal council. It is said he is backed by a powerful American syndicate and he offers to take the old fortifications, now disused, and demolish the walls, at his own expense. On the 500-foot belt of ground thus provided all around the city he would dig a grand canal communicating with the Seine river, build an auto speedway, a horse and riding track, and a bicycle track, unrivaled anywhere. These would occupy one side of the strip, and all the Watkins syndicate wants in return for the tremendous cost is the privilege to build, sell, and rent luxurious residences and hotels right at the water's edge, making the other side like the Venise grand canal. They also want a perpetual franchise for a gondola service. The plan is considered here as far from impossible, although it is surely the boldest plan yet submitted to beautify Paris.

WANTS UNIVERSAL LANGUAGE

British Scientist Suggests That All Nations of World Learn to Speak Italian.

Two or three points of general interest developed at the sessions of the British Association for the Advancement of Science at Belfast. Sir Frederick Bramwell, setting aside manufacture of a universal language as impracticable, suggested that a living language should be taken and all important nations of the earth—the United States, Germany, France and England—should agree that no person in these states over whom the government has control, directly or indirectly, should after the expiration of, say 20 years, be eligible for any appointment, from prime minister to a policeman, unless, in addition to his own language, he is able to read, write and converse in Italian. Its adoption would not create any international jealousies. It is, closely based on the Latin and is highly melodious.

GIVEN CLARINET BY SHAH.

American Sculptress Gets a Compliment and a Souvenir from Persian Ruler.

Rosalyn Verian, an American sculptress, was permitted to make a bust of the shah while he was in Paris. She got three sittings, but the monarch was not satisfied with the result. He patted her cheek and said: "You are a very pretty and fascinating girl but you can't make a good likeness. What can I give you as a souvenir? Here, take this and go away, because I am busy." Then he picked up from the table a clarinet which a member of his suite usually plays, handed the strange present to the astounded girl, and left the room.

Not a Bigamist. She—Marry you? Well, I should say not! Why, you have no family to speak of. He—Of course not. Otherwise I wouldn't be in a position to marry you.—Chicago Daily News.

MISS LAURA BIGGAR.

Miss Biggar, who was left half a million by the will of Henry M. Bennett, the Pittsburg capitalist, and contested the document to secure the whole estate, is charged with conspiracy to falsely prove herself the widow of the millionaire. Justice Samuel Stanton, who said he had married her to Bennett, and C. C. Hendricks, an attorney, are also charged with conspiracy. Miss Biggar was the companion of Bennett in the last years of his life, and alleged that a child was born to her, which died 15 days after its birth in a sanitarium. The case will be tried at Long Branch, N. J.

LONG LIFE AND MERRY ONE.

Americans Who Are Strenuous Outlive the Africans Who Are Indolent.

It seems that we are all wrong about the hurtful and life-shortening effect of American "hustle." Our national motto may be said to have been: "A short life, but a strenuous one." We are willing, as a people, to have the span shortened a little if only we could have something worth while, something active and effective, going all the time. But it seems, according to the latest bulletin of the census bureau, that the fast life is also the long one, says Harper's Weekly. Our "median age"—that is, the age which is such that half the population is under it and half over it—is more than seven years greater than it was a century ago, and increases from decade to decade. We are surpassing easy-going foreign countries in this respect; we are surpassing even the loose-jointed, indolent, beautifully relaxed, never-worrying African in our

MANY USES FOR ALCOHOL.

Germany Is Encouraging Its Application for Fuel and for Power Purposes.

The kaiser of Germany is encouraging every effort toward the use of alcohol for lighting, fuel and power purposes, and under the stimulus of prizes offered to inventors and engineers it is being largely utilized in various ways. Alcohol is economically made from a number of products in Germany, and consequently the supply of it is very large. At a recent exhibition demonstrating the use of alcohol there were shown a number of motors, farming implements and similar things propelled by an alcohol flame. There were also lamps which displayed great efficiency. In a report recently made to Washington, Consul General Guenther writes from Frankfurt that the chief of the fire department of Hanover has recently invented an alcohol firing apparatus, used in connection with an automobile fire engine, which is said to be very satisfactory.

LEGAL RESIDENCE A PACKING BOX.

The piano box residence of James Thomas Bailey, at the foot of Hanover street, Baltimore, Md., is known as No. 501, from which place he registers and votes. For about seven years the man has made the box his home, except for a very short period during the coldest part of the winter, when he goes to the home of a daughter, in Linden avenue. Bailey catches crabs, fishes, makes baskets and does other odd jobs for a living, and is one of the best-known characters in the southern part of Baltimore. He is as happy as a clam in his primitive mansion near the water.

midst; for whereas the median age of our American whites is 23.4 years, that of the devil-may-care colored person is but 18.3. Lately much confusion has arisen in the minds of many Americans over the statement made by certain eminent neurologists that it is next to impossible for a man to "overwork," provided his bodily functions are kept in good order by temperate and wholesome living. Other physicians, to be sure, tell us that hurry and worry spell death. We have accepted the latter judgment, with the qualifying reflection that no matter what science tells us, it always seems to have "another thing coming." This census bulletin which links the long life with the fast one appears to be the other "think."

Thieves Take Opium. After a gun (crook) has grafted for some time his nervous system becomes affected and he needs a stimulant, writes an ex-member of that profession in Leslie's Weekly. Most of us grow addicted either to opium, chloral, morphine or whisky. Even at this early period I began to take a little opium, and when a grafter is doped he is very reckless. I will say one thing for opium, however. That drug never makes a man careless of his personal appearance. A grafter who drinks will go down and out as a bum, but an opium fiend never forgets to dress well.

SHOWING THE WAY.

Most of our readers know all about
 aches and pains of a bad back;
 few people are free from sick
 kidneys, as the kidneys are the most
 important organs of the body and
 "wrong" at times no matter how
 the general health may be.
 trouble is so few understand the
 indications of kidney trouble. You
 nervous, tired out and weary, have
 twinges and twitches of back-
 pains, but lay it to other causes;
 ally the annoyance and suffering at-
 tant with urinary disorders, reten-
 tion of the urine, too frequent urina-
 tion, makes you realize the serious-
 ness of it. At any stage you should
 take a remedy that will not only re-
 lieve but cure you. Read the following
 profit by the lesson it teaches:
 C. J. McMurray, a resident of Free-
 port, Ill., address 47 Iroquois St., says:
 have greater faith in Doan's Kidney
 Pills to-day than I had in the fall of
 1897 when I first took that remedy and
 cured me of an acute pain across
 the back and imperfect action of the
 kidneys. Since I made a public state-
 ment of these facts and recommended
 Doan's Kidney Pills to my friends and
 acquaintances, thoroughly believing
 I did both from observation and ex-
 perience that they would do just as
 they were represented to do. I am
 still pleased to reendorse my state-
 ment given to the public shortly after
 I first began to use the remedy."
 A FREE TRIAL of this great Kidney
 medicine which cured Mr. McMurray,

THE WELL-BRED WOMAN.

Perfection of Her Training Is Indicated by the Way She Sits Down and Arises.

"My dear," said the old lady, "it is worse than a crime; it is ill bred."
 Nothing points out the well-bred woman more quickly than the position she takes when she sits down. The stamp of vulgarity is marked upon the woman who sits with her knees spread far apart; lack of refinement is shown by knees crossed offensively; lack of ease by stiff and constrained positions of the shoulders; a general carelessness and indifference by the very common fault of "sitting in the shoulders," that is, of doubling the spine so that the upper rather than the lower part of it rests against the back of the chair.

The body should be placed well back upon the seat, chair, sofa or whatever it may be. The feet should rest on the floor, one somewhat in front of the other, because it is easier to rise from that position. The head must be kept well up and the chest poised slightly forward.

The lower part of the spine may be pressed against the frame of the chair, but if one, after sitting awhile, should need to rest a little more, the shoulders may also touch upon the same support. The hands should remain as they naturally fall from this position, hanging at the sides, or they may be placed easily over the arms or back of the chair, or allowed to lie reposefully on the lap.

To rise properly from a correct sitting position there should be several preparatory movements.

The chest is first poised far forward and at the same time the foot is drawn back under the seat. The foot drawn in should be the one opposite from the direction to be taken in starting up.

As you rise throw the weight firmly upon the foot in the rear. As the body comes to its full height change the weight to the forward foot, so that the other foot merely touches the floor very lightly. This brings you to a standing position, ready to walk easily in the direction you are going.

Ugly sitting positions and awkward movements in rising will disappear if these principles are followed.—N. Y. Herald.

THE COUNTESS DUDLEY.

Wife of Ireland's New Lieutenant Governor Once Trimmed Millinery in London.

Countess Dudley, formerly Rachel Gurney, has not always been favored of fortune. She who is the new mistress of the vice-regal lodge in Dublin and therefore first lady in Ireland, once upon a time trimmed hats as apprentice to a London milliner.

Lady Dudley and her good-looking husband, the new viceroy of Ireland, afford the English nobility one of its prettiest romances. It is the old story of love and poverty. Lady Dudley was well born, although not of such titled stock as Earl Dudley boasted. The Gurneys were an ancient Quaker family of bankers in Norfolk and the father of Lady Dudley was very wealthy until his daughters grew to be young women. Misfortunes came when Rachel and her sister, Lady Troubridge—she who writes plays—were respectively 17 and 19 years old. Their mother brought the two to London and sought to eke out the modest living which her husband, still in Norfolk, managed to give her, by placing her daughters in a milliner's shop.

Luck came first in the person of Adeline, duchess of Bedford. The dowager duchess bought a hat one day of an exceedingly pretty girl who happened to be Rachel Gurney, and as she wore it continued meanwhile to think of the charming girl who sold it to her. She looked into the shop another day and still another, asked a few leading questions and discovered Rachel Gurney's story. Thereupon she determined to adopt her.

The Gurneys concluded they could support one girl if the other were well provided for and permitted Rachel to become the legally-adopted daughter of Adeline, duchess of Bedford. Lady Troubridge's marriage was indirectly the result of her sister's going into the haughty Bedford family. The late duke was devoted to the child, whom he found in his old age.

It was, however, as a comparatively dowdless bride that Miss Gurney came to the young earl of Dudley. Her position in society was secure, her beauty and charm universally recognized. She was and is known as a particularly vivacious and attractive woman with a great gift for entertaining. Lord Dudley had money enough and to spare. He married the girl with whom he happened to fall in love.

PE-RU-NA NECESSARY TO THE HOME.

A Letter From Congressman White, of North Carolina.

PE-RU-NA IS A HOUSEHOLD SAFEGUARD.

No Family Should Be Without It.

PERUNA is a great family medicine. The women praise it as well as the men; it is just the thing for the many little catarrhal ailments of childhood.

The following testimonials from thankful men and women tell in direct, sincere language what their success has been in the use of Peruna in their families:

Louis J. Scherrinsky, 103 Locust street, Atlantic, Iowa, writes:

"I will tell you briefly what Peruna has done for me. I took a severe cold which gave me a hard cough. All doctors' medicines failed to cure it. I took one bottle of Peruna and was well."

"Then my two children had bad coughs accompanied by gagging. My wife had stomach trouble for years. She took Peruna and now she is well."

"I cannot express my thanks in words, but I recommend your remedy at every opportunity, for I can conscientiously say that there is no medicine like Peruna. Nearly everyone in this town knew about the sickness of myself and family, and they have seen with astonishment what Peruna has done for us. Many followed our example, and the result was health. Thanking you heartily, I am."—L. J. Scherrinsky.

Mrs. Nannie Wallace, Tulare, Cal., President of the Western Baptist Missionary Society, writes:

"I consider Peruna an indispensable article in my medicine chest. It is twenty medicines in one, and has so far cured every sickness that has been in my home for five years. I consider it of special value to weakly women, as it builds up the general health, drives out disease and keeps you in the best of health."—Mrs. Nannie Wallace.

Peruna protects the family against coughs, colds, catarrh, bronchitis, catarrh of the stomach, liver and kidneys. It is just as sure to cure a case of catarrh of the bowels as it is a case of catarrh of the head.

HON. GEORGE H. WHITE.

Congressman George Henry White, of Tarboro, N. C., writes the following letter to Dr. Hartman in regard to the merits of the great catarrh cure, Peruna:

House of Representatives, Washington, Feb. 4, 1899.

The Peruna Medicine Co., Columbus, O.:
 Gentlemen—"I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."

Very respectfully,
 George H. White.

Peruna is an internal, scientific, systemic remedy for catarrh. It is no palliative or temporary remedy; it is thorough in its work, and in cleansing the diseased mucous membranes cures the catarrh.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

THE COMING DAIRY COUNTRY
 Probably the richest farming country open for settlement to-day on the American continent, is the fine hardwood belt extending along the Minneapolis, St. Paul & Sault Ste. Marie Railway ("Soo" Line) in northern Wisconsin and Michigan. Acknowledged by good authorities on dairying to be the best dairy region in America. A land of Clover and Blue Grass well supplied with streams, lakes, and springs of pure water
 W. D. HOARD, Editor of Hoard's Dairymen, says:
 "I believe that northern Wisconsin is going to prove the most successful dairy region of the northwest, something like that of St. Lawrence and Lewis counties in New York."
 "The peculiar salubrity of the air, the moderate heat of summer, the abundant and pure water, the good soil and luxuriant growth of grasses, all conspire to make it an ideal dairy region."
CHOICE LANDS AT LOW PRICES.
 If you want a home in the "Great Clover Belt" write for free illustrated folder to D. W. CASSEDAY, Land Agent "Soo" Line, Minneapolis, Minn.

Mexican Mustang Liniment
 Over-pleasure is as hard on the muscles and joints as over-work. The best thing to do to get the body right after a long bicycle ride is to rub the sore, stiff parts well with Mexican Mustang Liniment. No better remedy made for bruises, cuts and chafing.

GOWNS OF HIMALAYA CLOTH

The first gown is of gray himalaya, of so dark a shade as to be almost black. It is trimmed with applique bands of black satin and bands of turkish embroidery. The latter forming the girde. The fronts of the bolero are turned back to form little revers, faced with green silk and embroidered with black. The plastron is of cream taffeta, with cravat of black satin. The skirt is finished with a deep flounce, trimmed with the black satin bands, and headed by the embroidered band.
 The second gown is of reddish-brown himalaya. The bolero is made with groups of radiating plaits, and is trimmed with applications of panne of a deeper shade. The sleeves are box plaited, the plaits opening out at the bottom to show the darker panne underneath. The waistcoat and the wristbands are of dove-gray cloth, trimmed with applicators of white panne, which are embroidered with black, and with embroidered mandarin yellow silk pastilles. The girde is of black duchess satin. The plain skirt is composed of five breadths.
