### BASEBALL SEASON OPENS.

First Game to Be Played Saturday After-  
noon, April 25.

The Junior Stars had intended to play the opening game of baseball of the season at the K. of P. park tomorrow afternoon, but were disappointed in getting a team to play with. Consequently the game will be played at the park on Saturday afternoon at 2:30 o'clock. The Ann Arbor Juniors will be the opposing team and a good game is confidently looked for. It is hoped that all who can do so will make it a point to be present. The ladies are particularly invited and special accommodations will be made for their comfort. Through the liberality of the business men handsome souvenir advertising programs have been gotten out and are being freely distributed. Should the morning be wet the game will be played on last year's grounds on Wilkinson street. The lineup of the Junior Stars will be as follows:

Pitcher—Chandler Rogers.  
Catcher—LaMont BeGole, captain.  
1st base—Gus BeGole.  
2nd base—Ray Cook.  
3rd base—Arthur Raftery.  
Short stop—Clayton Schenk or Russell McGuinness.  
Right field—Wirt McLaren.  
Center field—Howard Holmes.  
Left field—Paul Bacon.  
Umpires—Geo. A. BeGole and Frank Leach.

### THE BOLAND ROAD

From Jackson to Detroit to Be Completed This Year.

Definite information is again given out that the Boland electric line is really to be built from Grass Lake to Ann Arbor and from there to Detroit, and that it is to be built this season. The preliminary contract for the building of the line has already been signed.

The Jackson Press of Monday night, which has not been regarded at any time as particularly friendly to Mr. Boland or his road, gives out the news as follows: The electric railroad, which has been known as the Boland line, will be in operation between Jackson and Detroit before the close of the present season. This information is given positively, and on the highest authority.

N. S. Potter returned from New York Sunday. Monday he announced to the representative of the Press that the preliminary contract for the consolidation of the Jackson & Ann Arbor electric road and the Detroit, Plymouth & Northville, also an electric, has been signed. The contract contemplated the provision for the necessary funds for the completion and equipment of the road to Ann Arbor, also for the building and construction of the remaining section of the road east of Ann Arbor to a point on the Detroit, Plymouth & Northville, to make a connection over that line with the Detroit United system, giving an entrance into Detroit.

The arrangement includes a traffic arrangement with the Jackson & Battle Creek road, whereby a continuous road will be provided from Battle Creek to Detroit. The entire system will be under one management, and make one of the best equipped and best constructed electric systems of the country. The promise of electric traction between Detroit and Chicago is thus in a fair way of fulfillment.

Funds are already pledged which will permit the construction and completion of the entire system before the end of the year.

### The Southern Problem.

The union service held at the Congregational church last Sunday evening was particularly well attended. All the Protestant ministers in the village were on the platform, in addition to the speaker Mr. W. L. Cash. Miss Gladys Mapes and T. S. Hughes sang nice solos and the choir gave some extra selections of music. Mr. Cash, who is a Negro student from South Carolina, at Oberlin college, gave a most interesting address on "The Southern Problem," in the course of which he showed the great upward progress that has been made by his race since the close of the war. He is a good speaker and held the attention of his hearers closely, at times provoking them to laughter by his quiet humorous sallies.

### CHOOSING SEED BEANS.

Those Grown Last Year in This Section  
Not Fit to Use for Seed.

The bean crop of Michigan for several years past has exceeded in quantity that of any other state in the union, and it is becoming a recognized fact that in quality there are no beans in the world that are so satisfactory as the grade known as "Choice Hand-picked Michigan Pea Beans;" they are the best for cooking, the most tender in quality and the finest flavored to be found anywhere. This reputation should be maintained, which can only be done by keeping up the high standard of beans raised in the past few years.

During the past year there were very many inferior beans harvested, and there will be a temptation on the part of many farmers to sow these instead of the good stock. If the sowing of such beans becomes general the grade will be most unfavorably affected, and it is possible that the quality of the beans raised in this state may be made to deteriorate so much from the use of poor seed in a single season that it will take many years to bring them back to the present standard; should this take place, the good name of Michigan beans may be lost for all time; if that good name is maintained for a few years longer it is most certain that our farmers will command a premium for their product. Our soil and climate are exactly what is needed, and if the growers of beans will do their part Michigan will grow as famous for its beans as it has been for its pine, its salt and its copper.

In the University Museum at Ann Arbor is a nubbin of corn some three inches long taken from a South American grave in which it was probably placed as a fair sample of the crops grown by the aborigines in the times long gone by. Our great ears of many rowed corn have been produced from such a beginning by a continued selection of seed with results that are known to all farmers.

Our wheat and our potatoes usually deteriorate in quality, "run out," farmers say. This state of affairs is due to the fact that the largest kernels of wheat and the best potatoes are not used for seed; it is the run of wheat and the small potatoes that too many farmers use, and the result is as stated.

The same will be true of the bean crop unless the seed is selected; farmers are therefore urged to sell their off-grade beans or feed them to their stock, but to sow only the best obtainable, and if any farmer has no good beans, he should by all means secure from other sources the few bushels of first-class stock that he will need for seed.

### Not a Luxury.

From the Salem, Oregon, Sentinel: About 20 years ago persons who were privileged to hear Edison's first crude phonograph thought it a wonderful thing, but little did they dream that these machines in improved and perfected form would within a few years be available to every home. Then the records were made on tin foil and it was impossible to preserve them. Later the recording was done on wax and by delicate handling the records were good for considerable service. Today the records are perfect, being molded from hard wax. With proper handling they will last for years. The Columbia Phonograph Co. is turning out first class gramophones so cheap that no family can afford to do without the pleasure and satisfaction of owning one. The writer has had one in his family three years and looks upon it now as a necessity rather than a luxury.

The Columbia Phonograph Company, 37 Grand River avenue, Detroit, headquarters for gramophones and talking machine supplies of every kind, will send you catalogues on application. 36

# ECZEMA

Psoriasis, Scalded Head, Milk Crust, Tetter, Ringworm, etc.

Speedily, Permanently and Economically Cured, when All Else Fails, by

# Cuticura

The agonizing, itching, and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair, and crusting of the scalp, as in scalded head; the facial disfigurements, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures, blood purifiers and humor remedies of the civilized world.

## Complete External and Internal Treatment

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation, and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent to cool and cleanse the blood. This complete treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humors of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all other remedies and the best physicians fail. As evidence of the wonderful curative properties of Cuticura Remedies and of their worldwide sale, we quote from

## The Hon. Mr. Justice Finnmere's Letter.

"I desire to give my voluntary testimony to the beneficial effects of your Cuticura Remedies. I have suffered for some time from an excess of uric acid in the blood; and since the middle of last year, from a severe attack of Eczema, chiefly on the scalp, face, ears and neck, and on one limb. I was for several months under professional treatment, but the remedies prescribed were of no avail, and I was gradually becoming worse, my face was dreadfully disfigured, and I lost nearly all my hair. At last, my wife prevailed upon me to try the Cuticura Remedies, and I gave them a thorough trial with the most satisfactory results. The disease soon began to disappear, and my hair commenced to grow again. A fresh growth of hair is covering my head, and my limb (although not yet quite cured) is gradually improving. My wife thinks so highly of your remedies that she has been purchasing them in order to make presents to other persons suffering from similar complaints, and, as President of the Bible Women's Society, has told the Bible women to report if any case should come under her notice when a poor person is so afflicted, so that your remedies may be resorted to."

ROBERT ISAAC FINNMERE,  
(Judge of the Natal Supreme Court.)

## KAFFIR BREACH OF PROMISE.

How the Act of Parents Prevented the Union of Children.

Considerable amusement has been afforded the inhabitants of Cradock, Cape Colony, by a breach of promise case in colored circles, which is described by the Westminister Gazette. The members of the party—mostly women—were arrayed in brilliant colors or pure white. Plaintiff, named Caroline May, wore a black dress with scarlet silk blouse and round her neck a gold chain, which hung in loops to her waist, where it was fastened with a sovereign pendant and trinkets. Defendant, a fine, swarthy, intelligent-looking fellow, bearing the name of Andrew Africa, was attired in gray flannels and spotless linen, with a coronation medal and ribbon on the lapel of his coat.

The aggrieved maiden told the court that she claimed \$100 damages for loss of comfort and home life. Defendant had given her an engagement ring and arranged with her father as to the number of cattle he was to pay for her, and she, at defendant's request, left the domestic situation where she was employed. Africa wrote her many love letters. Her mother bought the wedding dress and outfit, which included the following articles: Plates and forks, cups and saucers, twenty pounds of butter, six pounds of fat, a butter pot, a sugar pot, pictures and frames.

Defendant asserted that as his father could not come to terms with the girl's father as to the number of cattle to be paid for the girl herself, impatient at the delay, broke off the match. Without the consent of both parents, according to native custom, they could not marry.

The resident magistrate accepted the defendant's version and dismissed the case. He said the trouble was really between the parents and not between the youth and the girl.

## THE FIRST PUBLIC SCHOOL.

In Dorchester, in 1639, Citizens Were Taxed for Its Support.

The first public school in America to be supported by direct taxation "upon the inhabitants of the town," was established at Dorchester, Mass., in May, 1639.

In 1636 David Thompson had settled upon Thompson's island, off the coast of the colony town, and in 1638 he gave the island to the town on the payment of 12 pence yearly rental. Having transferred the island to the town, the town council met May 20, 1639, and adopted the following order:

"It is ordered the 20th day of May, 1639, that there shall be a rent of £20 a year imposed forever on Thompson's island, to be paid by every person that hath propriety in said island, according to the proportion that any such person shall from time to time enjoy and possess there, and this toward the maintenance of a school in Dorchester. This rent of £20 a year to be paid to such schoolmaster as shall undertake to teach English, Latin and other tongues, also writing. The said schoolmaster to be chosen from time to time by the freemen, and it is left to the discretion of the elders and the seven men for the time being whether maids shall be taught with the boys or not. For the levying of this £20 yearly from the particular persons who ought to pay it according to this order, it is further ordered that some man shall be appointed by the seven men for the time being to receive this, and on refusal to levy it by distress, and not finding distress, such person as so refuseth payment shall forfeit the land he hath in propriety in said island."

Here, the first teacher was the Rev. Thomas Waterhouse.

## Sonnet.

Poor soul, the center of my sinful earth,  
My sinful earth, these rebel powers that thee  
array,  
Why dost thou pine within and suffer  
death,  
Painting thy outward wall so costly  
gay?  
Why at so large cost, having so short a  
lease,  
Dost thou upon thy fading mansion  
spend?  
Shall worms, inheritors of this excess,  
Eat up thy charge? Is this thy body's  
end?  
Then soul, live thou upon thy servant's  
loss,  
And let that pine to aggravate thy  
store;  
Buy terms divine in selling hours of  
dross;  
So shalt thou feed on Death, that feeds  
on men,  
And Death once dead, there's no more  
dying then.

## Lamp Oil for Spiders.

Spiders are met with in the forests of Java whose webs are so strong that it requires a knife to cut through them, we are told. A spider weighing four pounds, which has taken up her residence in a cathedral at Munich, regales herself with a large supply of lamp oil. A Texas spider weaves a balloon four feet long and two feet wide, which she fastens to a tree by a single thread, then marches on board with her half dozen little ones, cuts the thread, and away goes the airship to some distant point on the prairie.—Pearson's Weekly.

## Juryman's Clever Ruse.

A story is told of a juryman who outwitted a judge, and that without lying. He ran into an assize court, a desperate hurry, quite out of breath and exclaimed:

"Oh, judge, if you can, pray excuse me. I don't know which will die—my wife or my daughter!"

"Dear me, that's sad," said the innocent judge. "Certainly you are excused."

The ladies mentioned are still in excellent health, and the juryman hopes that the solution of the problem may be long deferred.

Miss Gannon, Sec'y Detroit Amateur Art Association, tells young women what to do to avoid pain and suffering caused by female troubles.

"I can conscientiously recommend Lydia E. Pinkham's Vegetable Compound to those of my sisters suffering with female weakness and the troubles which so often befall women. I suffered for months with general weakness and felt so weary that I had hard work to keep up. I had shooting pains and was utterly miserable. In my distress I was advised to use Lydia E. Pinkham's Vegetable Compound, and it was a red letter day to me when I took the first dose, for at that time my restoration began. In six weeks I was a changed woman, perfectly well in every respect. I felt so elated and happy that I want all women who suffer to get well as I did."—Miss GUNLA GANNON, 350 Jones St., Detroit, Corresponding Sec'y Mich. Amateur Art Association. —\$5000 forfeit if original of above letter proving genuineness cannot be produced.

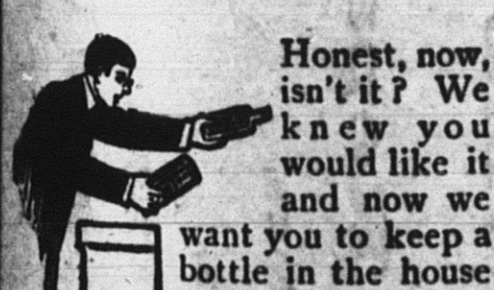

It is clearly shown in this young lady's letter that Lydia E. Pinkham's Vegetable Compound will surely cure the sufferings of women; and when one considers that Miss Gannon's letter is only one of hundreds which we have, the great virtue of Mrs. Pinkham's medicine must be admitted by all.

### Dr. Caldwell's Syrup Pepsin

Try it on the baby too—it will cry for more.

Hon. Thos. F. Tipton, Bloomington, Ill., writes: "When in Monticello last spring trying a law suit, Mr. Root, a friend of mine, told me of Syrup Pepsin and advised me to try it. I did so and used a bottle and have used several bottles since. It has given me great relief, and I would not be without a bottle at hand, as I think it a very valuable preparation for the stomach, and have no objections to your using my name as an endorsement of this, which I do. I had tried many doctors and about every remedy that was prescribed by friends, and must say that Dr. Caldwell's Syrup Pepsin has done more good than all I have ever tried."

**Reached Billions.**  
The imports into the United States exceeded one billion dollars in the 12 months ending with March, 1903. This is the first time in the history of our foreign commerce in which the imports in 12 months have exceeded \$1,000,000,000. Meantime the exports have grown with like rapidity. In the 12 months ending with March, 1903, the total exports were \$1,414,786,954, against \$1,001,590,683 of imports, giving an excess of exports during the 12 months of \$413,196,271. Exports never reached a half billion dollars' value in a single year until after 1870. In 1880 they passed, for the first time, the three-quarters of a billion-dollar line; in 1892 they for the first time exceeded \$1,000,000,000, and in the 12 months ending with March, 1903, they were \$1,414,786,954; and should the exports of April, May and June average as high as those for March, they would bring the total exportation for the fiscal year past the \$1,500,000,000 line.

**The Killing of Gov. Goebel.**  
Henry Youtsey, who has told of the conspiracy to kill Gov. Goebel, of Kentucky, involving Gov. Taylor and other leading politicians, and who declared that James Howard, now on trial, fired the fatal shot, Thursday made other startling statements in the presence of a crowd which packed the court room. He told of making an arrangement with Mason Hockersmith, colored, to kill Goebel. Hockersmith wanted to interview Gov. Taylor before doing the shooting and witness went to see Taylor to arrange for the interview. Taylor told witness he could not afford to risk a negro and witness returned and told Hockersmith what he said. Johnson, who had been selected to do the killing, left here January 25. Howard, he said, knew when he arrived here that he had been selected to do the killing.

**The Mergerites Win a Point.**  
United States Circuit Judge W. H. Sanborn granted the petition of the Northern Securities Co. and the Northern Pacific and Great Northern railroads for a modification of the recent decree of the Circuit Court sitting at St. Louis against the merger, to permit the payment by the railroads of the regular May dividends to the securities company. They maintained that the money would ultimately reach the same individuals whether paid to them direct or through the medium of the Northern Securities Co. On all other points of the decree no modification was asked. This releases \$4,000,000 for dividends.

**After Another Trust.**  
The understood purpose of the administration to institute prosecutions of the coal roads under the interstate commerce act and the Sherman anti-trust law, in case the hearing to be given by the interstate commerce commission to complaints filed against these roads in New York should develop sufficient evidence of violation of the statute by the roads, has not been accepted with pleasure in financial circles. The decision in the merger case, and the power of the commission to enforce its decisions is sure to cause a dissolution of this trust. Hence the displeasure.

**Venezuela Pays.**  
Venezuela, carrying out the provisions of the protocols signed by Minister Bowen, with the allies has met the payment due to Germany on March 15. Thirty per cent of the customs will be delivered to the Caracas branch of the Bank of England Saturday and the payment due to Italy on April 15 is ready. This is in spite of the fact that all the Venezuelan merchant vessels have not yet been returned and those that have been returned had no cargo aboard.

**To Keep Up Price of Coal.**  
Of the 45 collieries of the Philadelphia & Reading Coal & Iron Co., all but 11 are shut down, owing to the employees being locked out by an order of the company. At the 32 idle operations, many of the employees on Saturday refused to work nine hours as demanded by the management of the company. President Baer, of the Reading Co., declined to discuss the lockout of miners in the Schuylkill region. It was learned that the company has a large supply of coal in storage.

**Miles' Report Hot Stuff.**  
Secretary Root has decided that Lieut.-Gen. Miles' report of his inspection of the troops in the Philippines will not be made public now, and perhaps never. Mr. Root said that all reports of this nature were confidential and intended for no eyes but those of the chiefs of the army. It is alleged that the general has made many sharp criticisms of the uses made of soldiers in building roads; the beef supply, etc.

**Thirteen Were Killed.**  
A furious cyclone is reported to have struck the town of Hanceville, Ala., at 2 o'clock Monday morning, killing 13 persons and injuring 25 others. Hanceville is a town of about 1,000 inhabitants in Blount county, directly north of Birmingham about 25 miles. Henry McCoy, a prominent farmer, and his entire family of seven persons, are reported among the dead, also a farmer named John Griffin, and son. No other names have yet been secured.

Loftus E. Johnson, son of Mayor Tom L. Johnson, of Cleveland, raced his auto on Woodward avenue, Detroit, Sunday, and will have to appear in the Recorder's Court to answer for violation of the city ordinance.

**Russia's Richest Man Dead.**  
The richest man in Russia, Nikolai Terestchenko, died the other day in Moscow, in his 35th year, leaving a fortune of \$100,000,000. For more than fifty years he had been one of the curiosities of Moscow. He slept only four hours in the twenty-four, two hours at night and two hours after luncheon. At 2 o'clock every morning he had mass said in his room. At 6 o'clock he began work with his secretaries, eating nothing until noon, when he took an egg or a bowl of soup. He had only one solid meal a day, and that was at 10 o'clock at night.

**His Own Rival.**  
When Margaret was eight months old she and her mother came home from the Philippines, leaving her father in Manila. Now she is two, and refuses to adopt papa, who, just returned, is trying to get acquainted with his daughter. Finding her busy with pencil and paper one day, he asked, "Writing a letter, baby?" Without deigning to look at him Margaret answered: "Go way, man! I'm w'itin' to my dear papa in 'Nilla."—Chicago Little Chronicle.

**They "Waited" and "Saw."**  
Warren's Corners, N. Y., April 20th.—"Wait and see—you're better now, of course, but the cure won't last." This was what the doctors said to Mr. A. B. Smith of this place. These doctors had been treating him for years and he got no better. They thought that nothing could permanently cure him. He says:

"My kidneys seemed to be so large that there wasn't room for them, and at times it seemed as if ten thousand needles were running through them. I could not sleep on my left side for years, the pain was so great in that position. I had to get up many times to urinate, and my urine was sometimes clear and white as spring water, and again it would be high-colored and would stain my linen. The pain across my back was awful. I was ravenously hungry all the time."

"After I had taken Dodd's Kidney Pills for four days my kidneys pained me so bad I could hardly sit down. On the morning of the fifth day I felt some better, and the improvement continued until I was completely cured."

"This is months ago, and as I have had no symptom of a return of my old trouble I am sure I am permanently cured."

## "POOR DIGESTION LANGUID AND TIRED."

An Interesting Letter Concerning Peruna.

Miss Della Janveau, Globe Hotel, Ottawa, Ont., is from one of the oldest and best known French Canadian families in Canada. In a recent letter to The Peruna Medicine Co., of Columbus, Ohio, she says:

"Last spring my blood seemed clogged up, my digestion poor, my head ached and I felt languid and tired all the time. My physician prescribed for me, but a friend advised me to try Peruna. I tried it and am pleased to state that I found it a wonderful cleanser and purifier of the system. In three weeks I was like a new woman, my appetite had increased, I felt buoyant, light and happy and without an ache or pain. Peruna is a reliable family medicine."

Adia Brittain, of Sekitan, O., writes: "After using your wonderful Peruna three months I have had great relief. I had continual heaviness in my stomach, was bilious, and had fainting spells, but they all have left me since using Peruna."—Adia Brittain.

**Suffered Terribly—Doctors Failed.**

**Dr. Miles' Nervine Cured Him.**

Weak, nervous, fretful, pesty children require a treatment such as only Dr. Miles' Nervine affords. When neglected these symptoms lead to epileptic fits or spasms. Every mother should strengthen her own and babies' nerves with Dr. Miles' Nervine, a true specific in all nervous disorders. Read the following:

"When my little boy was 18 months old he had cramps in his feet and hands. They would be drawn out of shape for two or three days. At first liniment seemed to help but in about two weeks nothing did any good the doctor gave him. We called another doctor but his medicine did no good so we changed to another who called it spinal disease. By this time the child's body was drawn out of shape; his backbone was curved to one side and his hands and feet out of shape. His sufferings were terrible, and he was having from two to six fits a day. I was taking Dr. Miles' Restorative Nervine for nervous trouble and saw it was recommended for fits, so I thought I would see if it would help him. All three doctors had given him up. One-half bottle stopped the fits and his limbs straightened, and another bottle cured him. He is now a strong, healthy boy going to school. I have waited to see if the old trouble returned, before writing you, but it never has. I cannot praise Dr. Miles' Nervine enough, as I know it saved my boy's life."—Mrs. ULIAN NELSON, Lansing, Iowa.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The other evening a little four years old lad living on Jefferson street with his grandparents put the family cat under a bushel crate intending to keep her there all night. Grandpa came along shortly afterwards and let her out. Next morning the little fellow saw the overturned crate in the stable and asked: his grandpa if he had let the cat out. Grandpa answered in the affirmative and asked why the cat had been put under the crate. "Cause," said the little chap, gravely, "I wanted to set her." He had seen his grandpa put hens that he wanted to set under a crate.

Offices are sold officially in China. We do it less ostentatiously in America.

Some people sleep in church because their consciences are quieted by going there.

It is a sign you are growing old when you read the obituary before the marriage notices.

The annual mortality among the relatives of office boys comes with the spring. Play ball!

A new comic weekly has been started in New York. Isn't there sorrow enough in the world now?

At all events, it will be some weeks before Venezuela will be in a position to float another European loan.

A new book tells "How to Make Money." What people want to know, however, is how not to get caught at it.

Hotel clerks who are already supplied will be pleased to learn that diamonds have gone up 5 per cent in price.

Hetty Green has surpassed all of the New York millionaires in eccentricity by refusing to pay taxes on her pet dog.

The man who coined the word "anywhere" probably needed it to describe where he had been after lodge meeting.

# THE MICHIGAN NEWS

## What Is Doing In All Sections of the State

### The Prophet's Vision.

Mrs. Ellen G. White, the prophetess of the Seventh Day Adventists, has decreed that the Review and Herald office, recently destroyed by fire, shall not be rebuilt in Battle Creek and that the publishing business and headquarters of the denomination must be removed to some place on the Atlantic coast. The offices and headquarters have been located here just fifty years. The Lord is displeased because the office has been doing commercial work for gain, instead of doing the denominational work. The men who run the affairs here have become worldly and have adopted worldly policies in business. Not another brick must be laid in Battle Creek. The burning of the office was the judgment of the Lord. There are nearly 10,000 Adventists in this city, but it is not known how many will obey the mandate of Mrs. White. If all should leave the best business men here say it would not affect their business much, as they purchase little from outside firms.

### A Narrow Escape.

Charles A. Jackson, of Benton Harbor, nearly lost his life by asphyxiation Sunday, and Mrs. Jackson was almost overcome. Passersby heard Mrs. Jackson, who was in a dazed condition, trying to open the door, which was later forced from the outside. The mysterious part of the case is that one gas jet in the store where Jackson was found was turned on full force, a circumstance which no one is able to account for. Mrs. Jackson was occupying a room over the store and inhaled part of the gas. An investigation will be made. Jackson has for many years conducted the only pawnshop in this city, and both he and his wife are quite wealthy.

### Davis Was Falsely Accused.

Eight witnesses were sworn Saturday in the investigation by the superintendent of the poor of charges against Overseer Davis, of Ithaca. Among them were Mr. and Mrs. Dawson, who worked at the farm for the last five years of Davis's former term. They, as well as the rest of the witnesses, testified that the charges were false in every particular. The hearing will be closed early in the week. There is little question but the board will exonerate Davis, who declares he will not rest until he has punished his political enemies, to whom he attributes responsibility for the charges.

### The Trust Controls.

It is learned from an authoritative source that the Michigan and Bay City sugar beet factories, now practically controlled by the trust, and the German-American, which is to be turned over to the trust, will be placed under one management, Worthy L. Churchill, president of the Bay City company, being placed in charge as manager and president of the three factories. In addition, Churchill is president and manager of the new factory being built at Tawas, which will make four factories under one head.

### Three Were Drowned.

A triple drowning occurred Sunday in Excelsior township. The lake where the tragedy occurred is six miles east, and about a mile north of Kalkaska. Mr. and Mrs. John Victor and Miss Maggie Fultz, Mrs. Victor's sister, were out in a fishing boat, and the boat capsized. The unfortunate people went down when within six rods of the shore. All were from Kentucky.

### STATE NEWS IN BRIEF.

Norway needs a hospital and will build one.

An independent telephone exchange is to be established at Vernon.

A thief robbed an Adrian man's henery of thirteen fat chickens.

Adrian capitalists are figuring on starting a national bank in that city.

The township of Watertown went "dry" at the recent local option election in Clinton county.

The largest hardwood flooring mill in the world is a Michigan concern located at Wells, in Delta county.

J. H. Logan, of Fenton, plans to establish an automobile line between that city and Flint.

Labor is very scarce at Niles, and the factories are unable to get as many men as they want.

The 10-year-old son of William Fulsher, of Hart, lost an eye by the explosion of a toy cannon.

A. S. Knapp has been appointed postmaster at Attica, Lapeer county, Mich., vice Wm. S. Ridley, removed.

Secretary Wilson, of the department of agriculture, will visit the copper country in the near future.

Emery Wethey was horribly crushed to death in the Jenks Co.'s boiler shop, Port Huron, Saturday.

In Berlin township, Ionia Co., not a single vote was cast against a proposition to raise \$1,000 for highway improvements.

But three cities west of the Alleghenies furnished more recruits for the navy in proportion to population than Saginaw during 1902.

Amos Wagely, while engaged in an altercation with John Petoskey in Cross village, received what may prove fatal stab wounds. Petoskey made his escape.

Prof. Fall, superintendent of public instruction, has appointed a commission of seven to bring about uniformity in the courses of study in Michigan high schools.

Daniel Shine, a woodsman, whose home is in Paris township, Kent county, was killed and his body mangled by trains on the Grand Rapids & Indiana railway at Kalkaska Tuesday night.

Mrs. Johnson Hackney, of Mt. Morris, is suffering from a third break in the same leg. Some time ago she broke the limb; later she fell, breaking it again; this time, she was still on crutches, owing to the last fracture.

The Grand river is higher than at any other time in several years. It entered the boiler room of the Auto Body Co., and all the water-propelled mills at North Lansing are shut down. Some houses along the banks are surrounded.

James O'Neill, of Owosso, attempted suicide with Paris green on Tuesday night and physicians fear he cannot recover. The cause was remorse on account of turning from his home his wife and the children of her former marriage.

J. H. Molesworth, 34, of Chicago, fired three shots at the mother of his sweetheart, in Saginaw, whom he accused of alienating the young woman's affections. Then he took one shot at himself, and there will be a funeral. The mother will be able to attend.

A second burials sack, this one covered with a substance which looks like blood, has been found in a shed in the yard in Grand Rapids, in which Charlie Pohlman, the lad who was shot and placed on the railroad track, was last seen alive.

The Menominee breweries want Marquette and Menominee farmers to raise more barley. They are willing to pay Chicago prices, and even better, for the grain, and each brewery could take care of 50 times as much as is now raised.

William Armstrong, of Plainwell, has applied for a divorce. Mr. Armstrong's first wife died in May, 1901. He advertised for a housekeeper and Mrs. Ella Butchle responded, and after a few weeks' acquaintance they were married publicly at a G. A. R. and W. R. C. social function.

John Higgins, a resident of Albion, who, during the past few years has made a small fortune in horseradish, has purchased five acres of land north of that city and will plant the whole of it in horseradish. Heretofore he has obtained his supply wherever he could find it.

Herman Hedges, who is a coal miner, and his wife, who married him six weeks ago, attended a dance Saturday night in Amelith. Hedges got ugly for some reason and used a revolver, shooting his wife dead, a constable through the foot and wounding two other men.

Joseph W. Stockwell, of Flint, serving eight years in Jackson for blackmail, was dismissed Monday.

According to a semi-official statement from the board of assessors, the assessed valuation of Battle Creek will be raised this year from \$12,800,000 to over \$15,000,000.

Lewis E. Morehouse, of Detroit, was found guilty of jumping a board bill at the New Williams hotel in Jackson, and sentenced by Justice Bidwell to 30 days in jail. At the expiration of his term other warrants already sworn out against him, charging him with swindling, will be served.

It has just been discovered that the election at which the issue of \$17,500 in bonds for waterworks was authorized was illegal because of faulty notice and other technical irregularities. Two thousand dollars of the appropriation has already been spent. A special election will be held to reauthorize the bond issue.

The Benton Harbor News editorially considers the question whether the game of flinch should be considered sinful, and its conclusion is this: Any game played with the "church pack" can be easily played with the regulation cards. If it is wrong to play with the latter it is worse to play flinch, for to the card playing sin the other sin of hypocrisy is added.

Some months ago a general exodus of people from Bay City to the state of Washington began. Now every mail brings letters discouraging others from going to that country. Men en route for Alaska are stranded there by the hundreds, and there are many more idle persons in the cities on Puget Sound than anywhere in Michigan.

It has just leaked out that Isabel, daughter of Superintendent of the Poor Alex. McCara, of Flint, and Will Evans recently made a visit to Lansing and were united in marriage by Rev. Mr. Lake. At that time the young lady was attending school and the marriage was kept secret. The secret leaked out, and as a result the bride left school and went to house-keeping with her husband.

Vessel spars, formerly secured in Michigan, must now be brought from the Pacific coast. At the Davidson shipyard in West Bay City a fir tree has just been worked up, the timber in which, delivered at the yard, cost \$216. Six of the sticks just received cost over \$1,200, of which \$500 was for freight. This is more than double what similar timber brought when it was to be had in Michigan. The finishing adds in the neighborhood of 50 per cent to the cost.

## TELEGRAPHIC BRIEFS.

## NEVER SAW SUCH LARGE YIELD

The Climate is Healthy—The Weather is Pleasant in Western Canada.

Writing from Stirling, Alberta, one of the agents representing Canadian Government free homesteads, Mr. M. Pickrell, formerly Beechwood, Ky., says of Western Canada:

"In the first place we will say the summer season is just lovely. As to the winter, well, we have experienced finer weather than we now enjoy. We have just returned from Northern Alberta, and will tell you that we found the weather to be mild, the air dry, fresh and invigorating. Considering everything we say that the winters here are pleasant, healthy and enjoyable, what they are in the States. Here gets cold and continues so till spring—there are no disagreeable winds. South Alberta it is some warmer—to four inches of snow may fall in a few hours a Chinook wind comes along, evaporating the entire snow leaving terra firma perfectly dry. In fact, we did not believe this part of the country was so warm as we came and saw for ourselves. We now know what we herein write to be just as we write it. There has not been a day this winter that I do not work out doors. Farmers here are calculating on starting the plow the first of March.

"As to farm wages, we would advise a man to come here with the expectation of living by his own work, but all who do want a home advise to have nerve enough to get and come, for there never has been and may never be again, such a good opportunity for a man to get a home almost free.

"As to the crops, I have been in the fields before harvest, saw the grain put up and the grain harvested, and never saw such large yields. I saw oats near Edmonton over six feet tall that yielded 80 bushels per acre, and talked to a farmer near St. Albert who had a field year before last that averaged 110 bushels per acre and weighed 43 pounds to the bushel. All other crops would run in proportion—as potatoes and vegetables, the turnage was enormous. I have such reports as the above from all sections that have visited, and that has been even community between the Edmonton district and Raymond, in the Lethbridge district.

"As to stock raising, I would advise a man to locate in this place, any place, in South Alberta, but mixed farming I would say go farther north, say near Lacombe, Wetaskiwin or Edmonton, where it is quite so dry and where there is some timber to be had. I will say that where have I ever seen a better opportunity for a man, whether he has money or not, to obtain a home. Where can be found a more productive soil, better water and a better governed country than Western Canada affords. Inducements to the homeseeker are unexcelled. I met two men near Ponoka on the C. & E. R. who borrowed the money to pay for their homestead, and in four years those two men sold their farms—for \$2,500, the other for \$3,000. I saw a man near Wetaskiwin who landed here with 25 cents six years ago. His is now worth \$8,000. The advantage for ranching are excellent. In fact, do not believe this section can beat. Markets are good; as to living a family can live as cheap here as they can in the States. The average yield of oats in this neighborhood last year was 70 bushels per acre; wheat averaged 35, barley 40, and the best crop was good. In consequence of the successful cultivation of the beet a large beet sugar factory is being erected at Raymond, seven miles from here.

"In conclusion I will say that N. W. T. from Manitoba to a long distance north of Edmonton produces most wonderful crops. Lakes and rivers abound with fish, and game is plentiful. And that this is unquestionably the country for a man to come to if he desires to better his condition in life. I would advise the prospective settler to look over the Lethbridge, Lacombe, Wetaskiwin and Edmonton districts before locating.

"I will locate in the Edmonton district next fall and several families from the States will locate with me. In the meantime I will receive mail here and will be pleased to give the interested all the information desired."

## CHAPTER VIII.—(Continued.)

There was no use prolonging a conversation so hopeless. She was both angry and scornful, and she sought out her mother and found her resting in her own room. "I get tired soon in the day, Jane," she said, "I think it is the London air, the strange life, and the constant change. No one seems to know what a day will bring forth. Do you see Stephen?"

"Yes, I can't be, I suppose?" "You know it can't be, mother." "I was hurt at the question. It was wrong to Cluny, and she said with some temper, 'it could not be under any circumstances. The man is mean, he has just threatened me. If I had been a woman I would have given him his threat back in his teeth. I would rather be Cluny's wife, if Cluny was not a crown.'"

The next day Cymila went to Jev-House and reported on his return, for her employment. There were two or three servants there, and she had no idea when the family would return.

About a week after Matilda's departure Cluny called early one evening and asked Jane to go with him to Milton's house in Petty France. They sauntered through St. James' park, and soon lost sight of all humanity, and were conscious only of each other's presence. So much so, that they never noticed a figure which emerged from behind a clump of shrubs, and stood looking at them. It was the Lord General. His face was grave, but not unhappy, and when he saw Cluny and Jane he stood still a moment, and then quietly withdrew into the shadow he had made. A smile was round his mouth, and his lips moved in words of blessing as he took another path to the lake he wished, and there was a feeling of pleasure yet in his heart when he entered the sombre apart-

things which makes spring so delightful. Early in the morning Jane's friends called for her, and they went away together full of youth's enthusiasm and anticipation. They took the road to the river, and to the sound of music and the falling and dipping of the oars they reached Richmond and soon spread the contents of their hampers upon the grass under some great oaks in the secluded park.

After a happy, leisurely meal, they spent the rest of their holiday in wandering through the palace, until its melancholy, monastic grandeur subdued them almost to silence.

It was like passing from death unto life to come out of these caverns into the light and glory of the western sun, to feel its warmth, and see its brave colors, and hear the cuckoo, like a wandering voice among the trees. Soon they were at the river stairs, and as they passed through the city they were instantly aware of great excitement. It was impossible not to feel that something of great moment had happened, or was going to happen; and when Jane entered the hall at Sandys and saw Doctor Verity's hat and cloak there, she expected that he had come with information. The next moment Mrs. Swaffham came hurriedly forward.

"Mother," cried Jane, "what is the matter? What has happened?" And Mrs. Swaffham answered:

"The strangest thing that ever happened in England."

Even while she spoke they heard Gen. Swaffham coming up the steps, the clatter of his arms emphasizing his perturbed feelings. He had scarcely entered the door ere Doctor Verity came into the hall crying:

"Is it true, Israel? Is it true?"

"Quite true."

"And well done?"

"Well done. I am sure of it."

Men and women went into the parlor together, and a servant began to

"I stood at the door watching him, my men being in the lobby. He went to his usual seat, but in a very great and majestic manner, and for a little while he listened to the debate. Then he beckoned Major General Harrison and told him he judged 'it was high time to dissolve this Parliament.' And Harrison told me this afternoon, that he advised Cromwell to consider what he would do, for it was a work great and dangerous, and who, he asked, 'is sufficient for it?' And Cromwell answered, 'The Servant of the Lord, he is sufficient,' yet he sat down again, looking at me as he did so, and I looked back straight into his eyes that I and mine could be depended on.

"In a few minutes the question for passing the bill was put, and the man could be restrained no longer. He stood up, took off his hat, and looked around the House, and it quailed under his eyes, every man in it shifted on his seat and was uneasy. He began to speak, and it was with a tongue of flame. He reproached them for their self-seeking and their hypocrisy and oppression, and as he went on, there was the roar of a lion in his voice, and the members, being condemned of their own consciences, cowered before him."

"Did no one open their mouth against him?"

"No one but Sir Peter Wentworth. He said, 'My Lord General, this Parliament has done great things for England,' and Cromwell answered, 'The spoke in the wheel that creaks most does not bear the burden in the cart.' Then Sir Peter told Cromwell his abuse of the Parliament was the more horrid because it came from the servant of the Parliament, the man they had trusted and obliged."

At these words Dr. Verity laughed loudly—"Cromwell, the servant of such a Parliament!" he cried. "Not he; what then, Israel?"

"He told Wentworth to be quiet. He said he had heard enough of such talk, and putting on his hat, he took the floor of the House. I watched him as he did so. He breathed inward, like one who has a business of life and death in hand. I could see on his face that he was going to do the deed that had been the secret of his breast for many days; and his walk was that quick stride with which he ever went to meet an enemy. He stood in the middle of the House, and began to accuse the members personally. His words were swords. He flung them at the men as if they were javelins; shot them in their faces as if from a pistol. He told them that the Lord had done with them. He said they were no Parliament, and that he had been sent to put an end to their sitting and their prating.

"And at these words Cluny Neville spoke to the Sergeant, and he opened the doors, and some musketeers entered the House. Then Sir Harry Vane cried out, 'This is not honest, and Cromwell reminded him of his own broken promise, and they began to go out, at first slowly, and then in a hurry, treading on the heels of each other.'

"What of Lenthall? He has a stubborn will."

"He sat still in the Speaker's chair, until Cromwell ordered him to come down. For a moment he hesitated, but Gen. Harrison said, 'I will lend you my hand, sir,' and so he also went out."

"But was there no attempt to stay such dismissals? I am amazed, dumb-founded!" said Doctor Verity.

"Alderman Allen, the Treasurer of the Army, as he went out said something to Cromwell which angered him very much; and he then and there charged Allen with a shortage of one hundred thousand pounds, and committed him to the care of a musketeer for examination. I tell you, there was no gainsaying the Cromwell of this hour. He was more than mortal man; and Vane and the others knew, if they had not known before, why he was never defeated in battle."

"After the Speaker had left, what then?"

"His eye fell upon the Mace, and he said scornfully to some of the Ironsides, 'Take that bauble away!' Then he ordered the musketeers to clear the House, he himself walking up to its Clerk and taking from under his arm the bill which had caused the trouble, and which was ready to pass. He ordered the man to go home, and he slipped away without a question. Cromwell was the last soul to leave the Chamber, and as he went out of it he locked the door and put the key in his pocket. He then walked quietly back to his rooms in the Cockpit."

"He will need God on his right hand and on his left," said Doctor Verity. "More than we can tell will come of this—implacable hostility, rancorous jealousy, everlasting envy and spite. The members—"

"The members," interrupted Gen. Swaffham, "have tied themselves, hands and feet, with cords of their own spinning, and Oliver Cromwell holds the ends of them. They will not dare to open their mouths."

(To be continued.)

## STATE LEGISLATURE

### Brief Chronicle of Matters of Importance

Jackson prison is not so expensive an institution as some of Michigan's other lock-ups, as is shown by the appropriations to be reported. The amounts to be allowed for prison maintenance being \$204,000, of which \$78,000 is for the prison at Marquette, while Jackson, with more than twice as many convicts, has cost the state \$20,000 less. The reformatory at Ionia has been more expensive than either, the amount allowed for that place being \$88,000. Altogether the prisons cost \$12,000 less in 1902 than 1901. There was a big jump, however, since 1899, the amounts for that year and 1900 being \$138,000, or \$60,000 less than in 1901 and 1902. Insane asylums are much more expensive than prisons, the amount spent for the care of mental unfortunates during these two years being \$1,293,122, an increase of \$120,084 over 1899 and 1900. The amounts spent for the various asylums for 1901 and 1902 are: Pontiac, \$323,641; Kalamazoo, \$386,311; Traverse City, \$338,133; Ionia, \$88,950; Newberry, \$123,850; Wayne, \$101,260.

T. J. Navin and other members of the Jackson prison board were given a hearing by the house and senate committees on the proposition to establish a department for the manufacture of binder twine in the state prison. Mr. Navin said that other states had tried with success the manufacture of binder twine by prison labor on state account. It is proposed to manufacture the twine for sale to the farmers of the state direct from the prison. Geo. Burns, president of the Detroit Trades Council, endorsed the plan, declaring it a step toward the abolishment of the prison contract labor system.

Senator Waterbury has taken from the table his bill providing for the interchange of freight between electric and steam railroads and had it referred to the committee on railroads. He also presented several petitions from his district asking for the passage of this bill. The measure provides for the interchange of freight between steam and electric railroads and the regulation thereof. In case matters of difference arise between the roads in the regulation of business the railroad commissioner determines all disputes.

It looks as if there would be no action on the Colby primary bill for some time. The senate could have ordered the bill printed much sooner, but nothing was done until Wednesday, when, on Senator Baird's motion, the bill was returned to the house that it be printed as amended. The house at once acceded to the request, but as the bill is a long one, it will probably be late before copies can be obtained. Some of the doubtful senators are beginning to be anxious that something should be done, as they are hearing from their constituents.

The legislature, having passed the bill for the regulation of tontine and debenture companies, Secretary of State Warner is preparing for a vigorous campaign against this class of companies. There is said to be no doubt whatever of the signing of the bill. Foreign companies engaged in selling mining or oil stock on the installment plan are said to come within the purview of the new law and that the business will not be permitted in Michigan.

The most interesting appointment matter now before the governor is that of Oil Inspector Wm. Judson, whose term will expire July 1 next. During the past week Judson has spent some time in Lansing, as have Gen. Green and some others of Judson's opponents. It is asserted, however, that Gov. Bliss has already offered Judson's job to Charles L. Benjamin, of Saginaw, whom the senate tried to land in the office of game warden.

The house has adopted a resolution providing that a committee of five from the house and three from the senate shall be appointed to go to Stillwater, Minn., penitentiary to investigate the binder twine industry in that institution. The junket, if the resolution goes through, will be one of the longest that ever went out of Lansing, and will give the junketers a nice bit for mileage and expenses.

Rep. Batchelder is not knocking the casino proposition for Belle Isle any more. He says the hard criticism he offered on the subject last week was inspired by a clause in the bill providing that the issue of bonds of \$150,000 should not be included in the bonding limit. Now that the bill has been amended to include the issue in the limit, he thinks the bill isn't so bad, after all.

A bill passed by the house allows embalmers, outside of cities, to issue burial permits in certain cases where the township clerk is not available within a reasonable time after a doctor has issued a certificate of death. But township clerks receive all fees, as usual. Township clerks are sometimes miles away from the embalmers.

The vote of Combs, of Lenawee county, stood alone when the house was tested as to the sincerity of the oft-expressed desire for an early adjournment. Combs himself was the only man in the house who voted for his resolution setting the date of final adjournment for May 14.

The house passed the Scripps bill creating an art commission for Detroit. The commission is to consist of the mayor, five commissioners without pay appointed by him, and the director of the Detroit Museum of Art.

During the four months, or fractions thereof, that the Michigan legislature has been in session it has passed 27 general laws and changed the names of 12 citizens, and 4 lakes. The laws passed are:

Establishing bureau for compiling histories of convicts.

Amending law for incorporation of mining companies. (Ferry.)

Prescribing terms on which foreign corporations may be admitted to do business in Michigan.

Joint resolution authorizing Auditor-General to deed certain lands to Lawton.

To provide for incorporation of slack water navigation companies.

To fix compensation of upper peninsula members of legislature.

Special appropriation for Industrial Home for Girls.

The senate committee on railroads gave a hearing on the Waterbury bill providing for an interchange for freight between steam and electric roads. A large delegation of farmers and merchants of Ortonville, Oakland county, appeared before the committee and urged the passage of the bill. The question arose whether all electric roads in the state have heavy enough equipment to transport a loaded steam freight car. The committee showed a disposition to favor the bill if this feature could be amended so as to give the commissioner of railroads discretionary powers. The delegation said that the electric roads in their locality are willing to transport steam freight cars over their road but the steam roads had refused to either deliver or take from them freight cars.

There have been two constitutional conventions since the original document was adopted in 1850. One in 1867, was made up of delegates selected from the various counties according to population, and one in 1873, was made up of two members from each congressional district, appointed by the governor. The first one ran for three months and the second for two months. Each of the proposed constitutions prepared by these bodies was rejected by the people, and there has thus been no general effective revision of the state's basic law since 1850, though it has been much amended in spots.

The senate on Tuesday considered the house joint resolution proposing to amend the constitution so that legislators should be paid a salary of \$500 a year. After holding the measure about a month, the senate committee on state affairs raised the figure to \$750 and the bill went through the committee of the whole. When it came up on third reading, however, only four senators voted for it—Canon, Jones, Weekes and Fuller, so \$3 per day remains.

Though Rep. Denby carried his whole point in passing through the house committee of the whole his bill to allow companies to incorporate without limit of capitalization, he will back water for the sake of insuring the passage of the measure. Instead of allowing the measure to go to the third reading he had it laid on the table.

### CONDENSED NEWS.

President Roosevelt's acceptance of the invitation of F. Aug. Heinze, the copper king, to dine with him at Butte, Mont., has aroused the jealousy of Senator W. A. Clark and the old-time enmity of the Clark and Heinze factions in Montana politics has been stirred up. Clark will resort to all kinds of tactics to have the president change his plans, as he feels that the visit will give prestige to Heinze.

"Take that bauble away!"

ment where Israel Swaffham, with a guard of soldiers, was in attendance. He then entered a lofty, royally furnished room, where the council were waiting his arrival—officers of the army, and members of Parliament.

Cromwell opened the discussion by reminding the members that he had already held more than a dozen meetings, in order to induce Parliament to issue an Act for the election of a new Parliament, and then discharge itself. "This is what the people want in every corner of the nation," he said, "and they are laying at our doors the non-performance of this duty and of their wishes."

Hazlerig reminded him that Parliament had determined to dissolve on the 3d of the ensuing November, after calling for a new election.

"It is now only the 19th of April," answered Cromwell, sharply. "Give me leave to tell you that the 3d of November will not do. Such a far-off promise is but words for children. I will better it. I will say to-morrow."

This speech had a marked effect. The Parliamentary members agreed to let the bill for perpetuating themselves live over until after another conference to be held the following day, and with this understanding, the members of the Council separated.

I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock.

J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cured by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it be possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.
