JUNIOR STARS WIN HARD BATTLE.

Eleven Inning Game Saturday to Decide Which Was The Best Team---Other Baseball News.

The Junior Stars and their old rivals the Detroit Everett Juniors met in their first game of the season at M. & B. park last Saturday afternoon, and contrary to expectations the locals were the victors by a score of 6 to 5 in an 11 inning contest, which was as fine a game as has been played on the local grounds this year. Beissel made his first appearance in the box for the Stars and pitched a fine ball throughout the entire 11 innings. It was the first in this year, and when the fact that he did not allow a man to walk, struck out 9, and gave only 7 hits, is taken into consideration, it will be clearly seen that he pitched a fine game. McCain who has been released was never missed, for the Stars won and did it with all home players. BeGole caught a good game, outside of throwing to bases, and not deny the relationship existing behe will no doubt improve in that department with practice. The outfield, McLaren, Plow and McGuinnes, played an errorless game, and the infield pulled off some good plays. Raftrey at second, especially, put up a good game. The score by innings:

Although Manager McLaren of the Junior Stars has been somewhat hampered in securing the players he wished to put in the field tomorrow against the Nebraska Indians, he says he will have a team of which the Chelsea people need not be ashamed. He has secured Turner, the catcher of the Ann Arbor city team and a U. of M. player, to catch the game. Turner weighs over 225 pounds and has been styled by his day. Ann Arbor friends "Little Eva." As a catcher he has no superior. Beissel will pitch as well as an outsider. Miller, initial bag, and Arthur Raftrey will be at second base. With these two boys stars covering the entire third of the will be at short stop, and Chelsea's favorite player, Jack Upson, will hold third base. In the outfield Bacon will be in left, and if some of the big Indians do not accidently step on him Die as Result and Owner, an Iowa before the game, he will take good care of his position. In outer Dorr Rogers will be seen, and in right Howard Holmes will try and show the people how to kill sure home runs off the bats of the Indians. With this line-up the people of Chelsea will undoubtedly see one of the best games of the year. As the admission to the "menagerie" and side show, the ball game, is only 25 cents to everyone, it is hoped that all who consider themselves gentlemen and ladies will step up and pay the price

This is less than the Indians play for at other places and it is up to you to show your appreciation of the efforts of the management to give the people of Chelsea a winning team and a chance to see some of the best teams in the country.

CHAPTER XIII.

Sentenced to Siberia

When the startling command: "Surrender, traitors, in the name of the Czar!" fell upon the ears of the inmates of the Nihilist rendezvous, it was as a death knell, and had the surprise been less instantaneous than it was, the conspirators would have made a desperate resistance. For they well knew, that captured as they were, red-handed with 'all the evidence of their guilt, that their doom was sealed, and that from that moment their days-perhaps even their very hours-were numbered.

It was too late to attempt escape by the unseen doors that formed part of the apparently solid walls, for a dozen rifles covered them, and the soldiers, with fingers on the triggers, were only waiting the order to fire. So the prisoners-some in defiance, some in sullen resignation, some in hopeless despair, stood still; while in obedience to the command of the officer, half a dozen soldiers speedily descended and with drawn revolvers pointed at the heads of the conspirators ordered them to throw up their hands. Five minutes later, the captured, men and women alike, were in irons, and were seated in silence waiting the arrival of the prison vans to bear them away.

Under the direction of the officers, a search was then made of the premises. The bombs, the wires, and the battery left no doubt as to the purpose of the prisoners; nor was there wanting still further proof of their guilt. For Kirshkin, weak from loss of blood, and paralyzed by terror, crawled on his knees to the officer and begging for his life offered to betray his companions. Without committing himself to promise anything. the officer induced Kirshkin to proceed, and the fear-stricken wretch revealed the hidden chambers on the other side of the wall. Here were found papers revealing the ramifications of the conspiracy and implicating thousands of Nihilists throughout the empire.

Among all the prisoners there were none who felt their fearful position more than did Ivan and Alexis, Olga and Ilda. With blanched faces they lcoked into each other's eyes, only to receive in return a sigh of hopeless despair. Alexis, at the first moment, had drawn the hood of his greatcoat over his head, and Olga had similarly concealed her features with the cape of her mantle. But these precautions were needless at the time, for when roughly ordered to show their faces neither of them were recognized by the officer or by any of his men. They judged by Alexis' uniform, and by the rich and elegant dress of Olga, that their prisoners were persons of no mean station; but, since it was known that Nihilists were to be found in all ranks of society, the only feeling of the soldiers was one of gratification that they had evidently catight some great fish in the net destined for small fry. Their reward, they felt sure, would be all the greater.

In a few hurried words Ivan begged Olga, who was almost fainting, to keep up her courage; that some means would be found to effect her release; but his words produced little comfort to the stricken girl, who, with her hands clasped in unspeakable anguish, sat gazing at her husband with a look of hopeless despair. It was not of herself that Olga thought. Ivan's fate; her father's grief; her mother's deadly anger; the blow to the prospects of Nicholasall these, as the result of her arrest. flashed in turn through her distracted

Alexis sat, his hands clasped in those of Ilda, a prey to the most conflicting emotions. He realized at once that no explanation, however true, could save him from the fate which he felt certain awaited him. Degradation from his high rank, social ostracism, exile, perhaps death itself-all these he felt were the inevitable result of his capture at such a time and in such a place. For Alexis had been one of the first to be searched and in the breast of his coat had been found Ivan's eigar case with the Red Rouble therein! He felt that this one fact had sealed his fate, and with such fortitude as he could command he resigned himself to the inevitable, and awaited the

About half the distance to the prison had been traversed when an officer of the secret police galloped up to the procession and, presenting a paper to the officer commanding the detachment with the prisoners, cailed a halt, and announcing his authority, demanded one of the prison-

ger, riding up to the commander and saluting as he presented a paper.

"That settles our difficulty," said the officer, turning to Radaloff; and he gave orders to change the direction of march. Half an hour later the prisoners with their escort had entered the courtyard of the official regidence of the minister of police, and Ilda Barosky was ordered to step down alone. WOOLLINESS IN THE EAST.

Quality Not Confined to Any One Sec. tion of the Country.

Why do the mockers call it the Woolly West"? This is a question that must go unanswered, for no answer is to be found in any mind. A woolly man is not unknown in any of the haunts of men and some professors have met him in the class room, asserts Henry Loomis Nelson in Harner's Magazine.

"Explain the pessimism of Ecclesiastes," said the professor of a not-fardistant university.

"I do not understand the question," answered the football giant. "What is the difficulty?"

"I don't know what the question means," know what Ecclesiastes "You means?

"Oh, yes:" said the captain of elevens; "it is a book in the Bible." "Then it must be pessimism that

troubles you," suggested the amazed (he was young) professor. "That's it; that's it," bubbled the

catapult. "Why, you must know that; you cannot be ignorant of that. You know the words pessimism and optimism, do you not? Pessimism and optimism.

optimism and pessimism; you certainly know what they mean?' "Oh, yes," replied he of the wellgreaved shins; "I know what they mean, but I can't tell them apart."

Too Hard a Task. Alighting from a train, I inquired of a little boy: "Can you tell me where the Rev. Mr. Blank lives?"

He said: "Do you know where the Baptist church is?" I said, "No, sir; I am a stranger in this town."

He inquired: "Do you know where the Mathodist church is?" I replied: "I do not; I don't know where anything is."

ers-"a girl," the paper said, "bearing thought is an enemy of mistakes. costly dirt. Amos R. Wells tells the following in

It was a tiny strip of land, and, in its widest part, it measured only seven-eighths of an inch. It-was forty feet long. It contained, in all, only seventeen and a half square inches. It couldn't be seen on the map except with a microscope.

Yet it was undoubtedly there. It ay alongside an expensive plot of ground that was to be used for a dwelling. By some error in calculation it had not been included in the purchase, and it had to be bought.

"Why must it be bought?" you ask. No one could do anything with so small a piece of land."

"Indeed, you are wrong. An evilminded man could do much mischief with it. That seventeen and a half square inches, you must remember, reaches up into the air as high as the sky. He could raise on it an iron plate that would cut off air and light and view from the forty feet on both sides of it, and utterly ruin the finest houses that might be built there. Just such abominable things have been done. So the land had to be bought. Fifty dollars was the price decided ipon as fair, and it was promptly paid.

The busy thoroughfare which we | skirt house of the suburbs that way.' know as "Piccadilly" is far removed from anything rural as it is possible to imagine, and it can hardly be realized that there was a time when merely one or two houses stood on what is now one of the finest and richest of the world's streets, says the Liverpool Post. Take Chance of Suicide

R. H. Plant, a Macon (Ga.) banker | who wrecked his health and his business by overwork, finally settled matters with his numerous creditors by committing suicide, the insurance on his life aggregating \$1,015,000. A dispatch says that the bitter feeling against him on the part of the public has subsided since his death, but it is safe to say that the insurance companies do not share in this symnathetic forgiveness.

However, insurance companies that take such great risks on a single life necessarily have to consider the possibility of suicide. Life insurance reverses the old injunction of the law. The seller, not the buyer, must beware, and singularly enough the ten-

Letter Written by Great French Author in Pessimistic Mood.

A letter written by Taine, the great French author, during the years that he struggled for recognition has been published recently. Arriving at a Verdict.

Kushequa, Pa., Aug. 1 .- (Special)-In this section of Pennsylvania there is a growing belief that for such kidney Diseases as Rheumatism and Lame Back there is only one sure cure and that is Dodd's Kidney Pills. This belief grows from such cases as that of Mrs. M. L. Davison of this place. She tells the story herself as follows:

"I have suffered from Rheumatism for thirty years and find that Dodd's Kidney Pills have done me more good than any medicine I have ever taken. I was also bothered with Lame Back and I can only say that my back hasn't bothered me since I took Dodd's Kidney Pills."

Considering that Mrs. Davison only took two boxes of Dodd's Kidney Pills, the result would be considered wonderful if it were not that others are reporting similar results daily. Kushequa is fast arriving at a verdict that "Dodd's Kidney Pills are the one sure cure for Kheumatism."

In New Britain a missionary, in translating, was seeking some native idiom to convey the idea of a binding oath, when a chief suggested that the desired phrase was, "I would rather speak to my wife's mother than do such and such a thing." In British Columbia a missionary wanted his catechist to translate "A crown of glory that fadeth not away." This was done to the satisfaction of all concerned, but ultimately the missionary found to his horror that it had been rendered, "A hat that never wears out!"

Miss Nellie Holmes, treasurer of the Young Woman's Temperance Association of Buffalo, N.Y., strongly advises all suffering women to rely, as she did, upon Lydia E. Pinkham's Vegetable Compound.

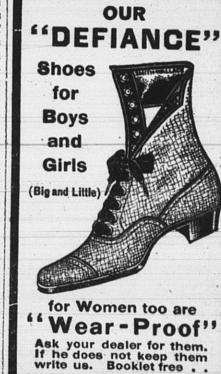

"DEAR MRS. PINKHAM: - Your medicine is indeed an ideal woman's medicine, and by far the best I know to restore lost health and strength. I suffered misery for several years, being troubled with menorrhagia. My back ached, I had bearing-down pains and frequent headaches. I would often wake from restful sleep, and in such pain that I suffered for hours before I could go to sleep again. I dreaded the long nights as much as the weary days. I consulted two different physicians, hoping to get relief, but, finding that their medicine did not seem to cure me I tried your Vegetable Compound on the recommendation of a friend from the East who was visiting me.

"I am glad that I followed her advice, for every ache and pain is gone, and not only this, but my general health is much improved. I have a fine appetite and have gained in flesh. My earnest advice to suffering women is to put aside all other medicines and to take Lydia E. Pinkham's Vegetable Compound." - MISS NELLIE HOLMES, 540 No. Division St., Buffalo, N.Y. — \$5000 forfeit if original of above letter pro-sing genuineness cannot be produced.

EX-SOLDIERS The Devil's Lake Reservation Lands, North Bakota, soon open under homestead law. Right of entry determined by drawing, conducted by U. S. officials. Ex-soldiers may register and file by agent. One person can act as agent for but one soldier only. To meet the demand of soldiers for agents I have arranged with a number of citizens in North Dakota, near these lands, to act as agent for soldiers. To pay the agent and myself for trouble and expense, there will be a charge of \$10.00 for registration. Should the soldier draw a number entitling him to tract of land, the same agent will file for him, locate and select his land for a fee of \$25.00. If the soldier prefers he may, instead of paying this \$25.00, go and select his own land. Soldiers not required to pay \$1.0 an acre on their land until six months after their filing.

ACT PROMPTLY Registration begins Aug. Sth and ends Aug. 20th. No time for delay. Send ello and your discharge, or certified copy thereof, and I will send you proper legal papers for your execution. I will look after the entire matter and see that the agent does his duty. Should you not be registered the money will be p omptly returned. Local agents wanted to whom I will pay reasonable commission for services. Address. ROBT, F. BIRKETT, Devil's Lake, N. D.

In a moment all of these articles were out of the drawers and into a foot pan, together with all the soap and water that happened to be in my room, and the laundering began. He must have washed away with great vigor, for when I returned to my room after an absence of an hour or so, I found him busily spreading out to dry the torn and disfigured remnants of my lace, ribbons and handkerchiefs. He was well aware that he had done wrong. Without my speaking to him he made off the moment he saw me, going very quickly and hiding himself in the case of the kitchen clock in his own home."

Another time this same monkey saw the cook at work preparing partridges for dinner. This looked like an amusing and interesting operation, and he determined forthwith to put it to the test. Stevens Convicted of the Murder of Ralph Calkins.

A jury in the Recorder's Court of Detroit, on Thursday, pronounced a verdict of guilty which convicts Wm. Stevens of the murder of Bartender Calkins in Bowman Bros.' saloon on Gratiot avenue, on the night of May 19 last. The murder was one of the most cold-blooded ever committed in Wayne county.

Attorney McGinley had the jury polled and asked for a stay of judgment. This was denied. Then Steing at the automobile and settle down he had anything to say.

The prisoner arose. Perspiration had broken out all over his face. He was wiping his ashen face and his hands with a handkerchief. Quickly, however, he recovered himself and in a clear, audible voice, said:

Some employes of the Michigan Central found the decomposed body of a man hanging to a tree in the woods on the Michigan-Indiana state line. The clothing had rotted from the corpse and the flesh fallen off in places, disclosing the bones; the eyes had dropped out and the spectacle a most revolting one. The police and the coroner feared to touch the body and an undertaker was sent out to place it in a box and bury it.

The man had hanged himself with a handkerchief. Papers in the pockets of a coat lying near indicated that the vens was asked by the court whether spicide was John Arnold, who had been in London, Can., and Detroit, the papers including cards of the Cigarmakers' unions in both cities. unions which went on strike in sympathy with the packing house butchers are said by the packers to have made overtures for reinstatement. According to the packers, the emissaries from these four skilled trades sought to learn upon what terms the scrikers would be reinstated, should they re turn in a body. The answer the packers gave to these peace missionaries was that the strikers would be re-employed as fast as conditions might warrant, but only as individuals and not as members of any union. The strike leaders disclaimed any

Some parties tried to induce President Donnelly of the Butchers' union to appeal to President Roosevelt to offer his good offices and bring the strike to an end. Mr. Donnelly refused to consider the proposition. winning the strike and need no help from the president," said Donnelly.

The relief stations opened Saturday by the packing trades relief committee were besieged all day by men and women seeking food. By evening all the supplies in the stations had been given away. Several hundred persons who had failed to reach the counters until too late were turned away empty-handed. The strikers say the reason the supplies gave out so quickly was because hundreds of outsiders Until the presentation of the note to took advantage of the opportunity to secure free provisions.

Automobile Fire Escape. The most important thing for a fireman to do in case of an alarm is to get his apparatus on the ground and was determined to put the matter to working just as soon as he can. No matter whether he has a chemical exdirect experiment in order to settle tinguisher, a hose cart, steamer, water tower or a hook and ladder, his parford, England, where there is a ticular apparatus may come into playstraight six-mile stretch of water. This apparatus is designed to be elevated to a considerable height and brought into contact with the windows to permit persons in the threatened building to step on any of the platforms and make their way in safety to the ground. At each corner of the carriage is a bracing post, which is dropped to the ground as soon as the truck is in position to prevent the apparatus from weaving about on the spring trucks.

A Unique Power Plant Location.

Cost of water-power development depends in large measure, on the lo-cation of the electric station that is to be operated. The form of such a station, its cost, and the type of generating apparatus to be employed are much influenced by the site selected. This site may be exactly at, or far removed from, the point where the water used is diverted from its natural course.

A unique example of a location of the former kind is to be found near Burlington, Vt., where the electric power house itself forms the dam, bebuilt entirely across the natural bed of one arm of the Winooski river at a point where an island divides the stream. The river at this point has cut its way down through solid rock. leaving perpendicular walls on either side. Up from the ledge that forms the bed of the stream, and into the rocky walls, the power station, about 110 feet long, is built. The up-stream wall of this station is built after the fashion of a dam, and is reinforced by Major James Harrison has just the down-stream wall, and the water flows directly through the power station by way of the water wheels. The Life of Machinery.

Although the rapid improvement in electrical devices makes apparatus apparently out of date in a very short time, a good deal of electrical machinery is still in use and giving a good account of itself after prolonged years of operation. COMMUNICATION.

To Democrats of Washtenaw County: On July 26, last, at a legally called caucus of the democrats of this town ship, three chronic kickers, and standing candidates for office, without any cause or provocation whatever, followed their previously announced intention of bolting the caucus if they were unable to organize it, after the officers who were fairly and honestly elected, were sworn in, did withdraw to the basement of the town hall, and there select another set of delegates, for no other purpose than to destroy the last vestige of decent democracy in the town, and insult the intelligence of self-respecting democrats of the county, by the shameful, dishonest and disreputable statements made about men heretofore recognized as respected citizens of the town. These statements coined by corrupt minds, and uttered as only foul mouths could do, will be trict. shown in their true light and spirit at the next county convention, and the more these sore heads strive to avoid their own perfidy and throw mud at some one else, the larger the republican majority will be in the county.

The regularly selected delegation is either right or wrong. The committee on credentials heard everything that was to be said on both sides, and then reported unanimously to seat the regular (Sweetland) delegation, and the convention, to its shame be it said, absolutely ignored the report and split the delegation. Query: What's the use of having a caucus if a few bolters can go by themselves and send a crowd of their own, thereby destroying the fundamental principle of democracy, majority rule? What's the use of a committee on credentials? I believe that if that convention could have heard the real truth of the matter it never would have stultified itself by the irreparable wrong it unwittingly

If the person in the chair had the waited and shown his personal hate some other place, and the convention would have been enabled to act intelligently. In no case should the tail wag the dog. Very respectfully,

J. S. GORMAN.

BOY KING OF SPAIN IS LOOKING FOR A WIFE.

Rumor Says Niece of King Edward, Princess Victoria, May Be His Queen - Sacrifices She Must Make.

King Alfonso, the boy king of Spain, is in search of a wife, or rather the Spanish ministry is in search of a consort for the youthful monarch. For royalty must take unto itself a mate, whether or not it be personally pleasing so to do; and the youth that sits upon the throne of Spain is now en-W. E. Stocking of Lansing is spend. gaged in the consideration of a spouse that will meet the requirements of the position; be of blood royal, add influential friends to the nation, be willing to adopt the Roman Catholic religion.

> possible she is a niece of King Edward; the Princess Victoria, younger daughter of the duke of Connaught. Such an alliance would involve that the English girl give up any faintest hope of her children inheriting the English throne, for members of England's royal family forfeit all their rights to the British throne upon mar-

The lady rumor reports the not im-

riage with a Roman Catholic. And it is one of the stipulations of marriage with a member of the reigning houses of Spain, Italy, Austria, Bavaria, Portugal, or Saxony, that the religion of both parties be or become the Roman Catholic. Denmark and Sweden are the only countries of Europe that display little prejudice in this matter, R Hoppe and family are entertaining Prussia ruling that its princes are not

to marry Roman Catholics. Alfonso XIII. is only 18 years old, but his people are very anxious that he should marry early, hoping that a wife will help him to escape the pitfalls in the way of feminine intriguers that have tripped rulers of the house of Bourbon in the past. Alfonso has been a cause of general anxiety ever since his birth, six months after the death of his father, and has been a pathetic figure all his short life; fatherless, in delicate health, on an unsteady throne, heir to decaying glories.

The Spaniards were averse to giving the baby king the unlucky numeral 13, but his mother, desiring the son to bear the father's name, insisted on another Alfonso; and Alfonso XIII. is the title worn by the boy king. In support of the belief that bad luck Paul Weurfel of Detroit will be present. would follow, can be instanced the loss, while the king was yet in his mi-

PRINCESS

Miss Carrie and Mae Schroeder of nority, of the Spanish colonies, for so long her pride and source of much wealth. But to offset this is the fact that the baby has made conquests of no small worth; the delicate lad, of a frail physique inherited from his father, who died of consumption, has been able to overcome ill health to the extent of ascending the throne perhaps the best educated monarch in Europe, and thoroughly trained to an understanding of his responsibilities.

Some say that he is over-educated: hat he has led a life too artificial; that less Latin and Greek would have been for his bodily good. Be that as it may, Alfonso is a very cultured personage is a fine linguist is deeply versed in matters religious, in history and geography; in military matters; and has made a close study of music. And a hot-house life has been his by no means. He is very fond of riding and hunting, has a passion for horses, his Madrid stables being noted for their thoroughbreds. He rides well, and skillfully drives a four-in-hand.

As to his appearance, he is described as every inch a king. But it is probable modern democracy has had some influence upon him, for he is said to be averse to over-ceremoniousness above his years, as might be expected of one called to take up the burden of kingship while yet in the teens,

Two chief menaces there are to Alfonso's hold on the Spanish thronerepublicanism and Carlism, the former the more formidable. The republicans are in a majority in the country, and there is much discontent with the present government. The Carlist party has numerous followers in the north of Spain, clergy, aristocracy and peasantry espousing the cause of the legitimist pretender to the throne. Don Jaime, Don Carlos' son, is popular, and though, with his father an exile from Spain, has many admirers in the country.

Observers of the different parties in Spain say that such different goals are desired by the various elements, that success for one side would mean added discontent in the land, and that what Spain most needs is a strong man at the helm. Will Alfonso XIII. in time prove to be this? Perhaps, if he gets the right kind of woman for his wife. Perhaps, if his marriage obtains for him encouragement of a great power, if such an ally backs him up in efforts to realize his dream, the recovering of Spain's naval greatness.

Pet Rattlesnake Appears at Farmer Humphries' Door with Familiar Smile on Face.

Simon Humphries, of Goshen, N. Y., reports that the pet rattlesnake Satan, which joined his family circle two years ago, has returned for the summer of

In May, 1902, Mr. Humphries saw the rattler in his orchard about to eat a green apple. Knowing by long experience the effect of green apples on human beings, he waited to see what would

happen to the snake. After eating several green apples the rattler, sure enough, began to squirm with colic. Its contortions aroused Mr. Humphries' sympathy. He went to the house and returned with a saucerful of soothing sirup and politely tendered it to the sick serpent, which partook of it readily enough and appeared to be much relieved. The snake always hung around the place after that, and seemed

to think a good deal of the family. Last fall Satan vanished, and it was feared lately that he had been frozen during the hard winter. Bright and early the other morning Mr. Humphries heard a rattle at the door. He opened it quickly, and there upon the porch sat Satan with the old familiar smile upon his face.
