ESCAPED FROM THE JAIL

MADE THEIR WAY TO LIBERTY

(wo Criminals Escaped From Ann Arbor Jail --- Circus Followers, Said to Be Desperate Characters.

Two desperate criminals made their escape from the Washtenaw county jail Saturday night. They are recorded at the jail as Alexander Wilson and Henry J. Manning, of Grand Rapids, but those names and addresses, it is said, are assumed. They are the two men who looted six different homes in Ann Arbor things, says: on June 16 when the people were attending the Barnum's circus. The day after they were caught at Jackson with the goods and were brought back to the ounty jail. Their conduct on their appearance before Justice Doty showed they had had experience in police court department and procedure and they are evidently schooled crooks in following circuses.

They made their escape Saturday evening by sawing off two bars at one of the west windows, jumping four feet to the ground and then leaping a fivefoot fence. Said Turnkey Gauntlett, "I was out serving a summons but I know they were in jail at 6 o'clock. At ten minu es to eight I went in to lock them up and they were gone. They must have secured their saws from help outside and it is probable their old "pals" returned and passed saws in to them through the window. They have not sent out a letter or received a letter since they have been in jail and to my knowledge nobody has been to see them.'

Wilson is 48 years old, 5 feet 8 inches tall weighs 170 pounds, and has dark hair and dark eyes. Manning is 34 years old, six feet in hight brown hair and gray eyes.

Later Saturday night it was discovered that there had been a back window screen which had been pried open just enough to pass in saws. Sheriff Gauntett offers \$50 reward for either of the escaped prisoners.

Deputy sheriff Leach of this place was notified of the escape and spent several hours Saturday night and all day Sunday looking for any possible clue of the M. C. R. R. Co., freight..... D., Y., A. A. & J., freight..... G. H. Foster & Co., well points escaped crimnals without success.

THE LYNDON CHEESE FACTORY.

Manager Samuel Boyce Shows the Stand ard's Reporter Through the Plant Good Thing for the Lyndon Farmers.

One day the first of the week member of the Standard force took a day off and went over the hills through Lyndon, and as the route led by the cheese factory that institution at once became a source of investigation, and Manager Samuel Boyce being close at hand was the one who showed up the working and output of the plant.

The factory has on hand about 200 cheese that are in fine condition and will be placed on the market this week by the management.

The factory has about 40 patrons and receives daily between 30,000 and 40,000

The machinery is of the latest models and the plant is kept in a very neat and clean condition. There is also located in the same building a very commodious cold storage, where the cheese are placed to mature, and if all that the company manufacture are as good as the one the reporter sampled John Kelley, rubbish the manufacturers need not be ashamed of their product.

The wives of the patrons, at least, appreciate the factory, for they are relieved of a vast amount of hard work that is required of them when they make this product of the farm into

POSTAL CLERKS MUST GIVE BONDS The postoffice department Friday issued a general order directing that every railway postal clerk shall give \$1,000 bond to the United States. The order calls for "good security conditioned for the faithful discharge of all duties and trusts imposed upon them by law and the rules and regulations of the department and drawn in accordance with the form described by the department. Bonds of two or more clerks may be given on a blanket or schedule form. Each clerk shall pay the premium charageable to himself. Bonds will be filed with the second assistant postmaster general."

This order affects approximately 10,-000 employes, embracing all railway postal clerks except those who are assigned to clerical duties in which they do not have access to registered mail.

The Stars will play at Albion August 25, 26 and 27th. Mgr. McLaren says they have enough offers to play two months more if they could.

The Junior Stars are playing the Howell Independents at Pinckney today. The boys have a good team with them and will give Howell a close game. Large crowds were present from Grass Lake, Dexter, Ann Arbor, Stockbridge and Pinckney. They all seemed well pleased with the game. Come again.

The Nebraska Indians were as gentlemanly, well behaved lot of young men as has ever visited our town. Such players help the game. The people of Chelsea would welcome them for another game.

The North Lake Reds and the Junior Stars will clash, Saturday at the farmers' picnic at North Lake. Beissel and Be-Gole will no doubt form the Stars battery while North Lake will have an Icosco battery.

The two women stood face to face -alone. Each measured the other with a glance, and as their eyes met there was exchanged a look which meant that henceforth and forever these two were enemies to the death.

For the moment, however, the feeling that controlled Ilda Barosky was one of deepest love for the exiled father whom she was to clasp to her heart after the long and bitter years of separation. She cast an anxious glance at the countess, who stood regarding her with a feeling of bitter- my power-punish her-I demand it: est hate. Katherine saw before her her deadliest foe. It was to this girl she owed all the humiliation she had felt, all the deep disappointment in store for her, if Alexis' marriage to Olga should not take place.

"My father-he is here?" said Ilda, "and I shall see him? I shall see him once again?"

"That depends upon yourself." Katherine spoke these words, looking at Ilda. There was something in the tone and in the look that placed Ilda instantly on her guard. She felt, she knew not why, that she was to be made the victim of a cruel lie. With an effort she suppressed her feelings and said: "I do not understand you, madame.

"I am the Countess Katherine Karsicheff, wife of the minister of police, and it was by my suggestion and at my desire that your father has been brought here to receive his pardon." "When was he brought here, madame?"

The question annoyed Katherine. Ilda noticed the effect and her suspicions became stronger. "That is not for you to know," said

the countess, after a momentary pause. "It is sufficient for you when I say he is here and that his pardon will be granted on one condition." Ilda's heart beat rapidly. "And that is?'

"That you leave Russia at once and forever-alone!" Ilda's lips became compressed. Her

states that my father is here. I demand to see the minister himself."

The countess drew herself up haughtily. "Insolent girl," she said, "you forget yourself, as you did last night. Remember that you are in the presence of the wife of the minister of police, Countess Katherine Karsicheff. I am not used to brook insolence from inferiors."

Ilda's eyes flashed with anger Meeting the malignant glance of the countess with a look of defiance, she replied: "I am not your inferior, madame. You are not my equal. You have taken advantage of my position to work upon the affection of a child for her father, for your own ends. Your trick is too transparent. It has failed. I can see the lie upon your -face-my father is not here!"

Katherine lost control of herself. "Daughter of the gutter," she hissed. "you are in my power here. When you leave this house it shall be for the prison. You are not now in the house of Count Nazimoff and Alexis

claimed Karsicheff. "Ilda Barosky, you have been found plotting the assassination of the czar. I sentence you to ten years' imprisonment in Siberia!" "Good God, man," cried Cobb, "you

are inhuman on such testimony to pass a sentence like that!" The baroness, overcome by excite insulted his father, and humiliated his

Damrosch Can Be Sarcastic.

Walter Damrosch, the musician, delights to talk music, but only with those who have a technical musical education. He has no sympathy with the amateurs who do not understand music, just as the painter Whistler had no sympathy with the amateurs who did not understand the technique of cofor harmonies and of brush work. Not long ago, at a dinner party in New York, a voluble man bored Mr. Damrosch with a long harangue position to vert his private spleen up- on music. This man said "Home, Sweet Home," would live longer than the bird music of "Siegfried," and that "After the Ball' had more depth than the melancholy Mark motive of "Tristan and Isolde."

Finally the man turned his attention to the sentimental song. "Once 1 Was Pure as Thou," which has of late grown popular in certain humble classes of society.

"Once I Was Pure as Thou!" he ex tured in the Nibilist headquarters this morning. The others are below claimed, almost smacking his lips. "An, that's a song. Whenever I hear Radaloff laid his hand on the shoul- that song it carries me away." "Will some one sing 'Once I Was

The First Division. Chiefly because of the elevation of the country, the absence of large lakes and rivers, and the operations of the "Chinook" or Pacific ocean winds, which readily cross the Rocky mountains in Southern Alberta through gaps and passes, the southwestern portion of the Canadian provinces is regarded as somewhat arid, and less fertile than other portions of ing in this district. While there are no large lakes or rivers in this whole country there are numerous fast running streams fed the year round by melting snows in the mountains, furnishing an abundance of the coolest and purest water, the best for beast as well as man. Englishmen and Americans in the

western territories are bringing in their herds as fast as they can and leasing or purchasing land in lots as the forest country. As wheat growfrom 1,000 to 20,000 acres from the Dominion government. These figures ran to 55,129 in 1900, and to 160,000 in 1903, averaging \$40 per head for the owners. But it takes a great many ranchers and a large number of cattle to cover an area of 200,000,000 acres, the area available for ranching in the Canadian Northwest.

It is not at all necessary that large investments should be made at the outset. Many men commenced with small capital and small herds, and Karsicheff became furious. "I shall have worked themselves into large find a way to make you speak, trai- herds and great wealth. There is still mixed farming are dairying and the those who desire to go and do likewise.

The Second Part.

The second part of the Canadian prairies embraces the great wheat growing belt of the country, which is easily a half larger than any other in the world. It includes about 150.-000,000 acres. As it is comparatively free of broken land, large lakes and rivers, about 125,000,000 acres of it can be brought under the plow. Placing a farmer on every half section (320 acres) it can comfortably locate 800,000 farmers, or 4,000,000 of an agricultural community. The territorial government's reports show that in 1903 there were raised 16,629,149 bushels of spring wheat off 837,234 acres, an average of 19.86 bushels per acre; off 440,662 acres of oats there were grown 14,179,705 bushels, an av erage of 32.17 bushels per acre;

69,667 acres produced 1,741,209 bushels of barley-24.65 to the acre. and 32,431 acres produced 292,853 bushels of flax seed, 9.03 to the acre. As but 1,383,434 acres, or a little better than one per cent of the entire wheat growing area of the territories was under crop, a little figuring shows that 13 per cent of the entire country nader wheat will raise the 200,000,000 that Great Britain annually requires from the outside countries. It is a fairly safe statement to make that in twelve or fifteen years the Canadian prairies will be supplying the entire demands of the mother country. Throughout this entire belt there is

Mrs. Hughson, of Chicago, whose letter follows, is another woman in high * * * * * * * * * * * * * position who owes her health to the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: - I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was fitful, and I would lie awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of your advertisements I decided to try the merits of Lydia. E Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl.

Mrs. Pinkham's medicines are certainly all they are claimed to be."— Mrs. M. E. Hughson, 347 East Ohio St., Chicago, Ill. Mrs. Pinkham Tells How Ordinary Tasks Produce Displacements.

Apparently trifling incidents in woman's daily life frequently produce acements of the womb. A slip on the stairs, lifting during menstruation, nding at a counter, running a sewing machine, or attending to the most ordinary tasks may result in displacement, and a train of serious evils is started. The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea

that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound. If the slightest trouble appears which you do not understand write to Mrs. Pinkham, at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This

AN EASTERN STORY.

A certain wise man, deeply versed In all the learning of the East, Grew tired in spirit, and athirst From life to be released.

So to Eliab, holy man
Of God, he came: "Ah, give me, friend,
The herb of death, that now the span
Of my vain life may end."

Eliab gently answered: "Ere
Thy soul may free itself indeed,
This herb of healing thou must bear To seven men in need.

When thou hast lightened each man' grief,
And brought him hope and joy again,
Return; nor shalt thou seek relief
At Allah's hands in vain."

The wise man sighed, but humbly said "As Allah willeth, so is best."
And with the healing herb he sped Away upon his quest.

And, as he journeyed on, intent To serve the sorrowing in the land, On deeds of love and mercy bent, The herb bloomed in his hand;

And through his pulses shot a fire Of strength and hope and happiness; His heart leaped with the glad desire To live and serve and bless.

* * * * * * * * NOIS UAN RICARDO bore the reputation of being the 6 most skilful lasso thrower in the Southwest, where it is conceded that the most wonderful manipulators of the lasso have their homes.

Some of Juan's exploits sound incredible. He engaged in numerous contests at Albuquerque, Tombstone, Tucson, Phoenix and many of the frontier posts, and in every one he was the victor. Many a time he would dash forward at full speed, lean over from his saddle, scrape a match on a stone and light his cigarette, as he swung back, and then flirt the loop of his coiled rope under the heel of some galloping bull, and whirl over the latter in a flash on his side.

As is well known, the ranchmen in the Southwest used to suffer a great deal from the ravaging Apaches, but at the time referred to most of them were on their reservation and comparative air. prowling bucks, and occasionally shots were exchanged with them, but nothing took place to cause general alarm.

Twenty steps further and he found he had rushed into quicksand. At the same moment he caught sight of the three Apache horsemen, who seemed to have sprung from the ground.

They had halted several rods distant range. They must have known of the quicksand, and, skirting it, laid their

Sidney Justus, fruit dealer, of Mentor, Ohio. writes: "I was cured by Doan's Kidney Pills of a severe case of kidney trouble, of eight or ten years' standing. suffered the most severe backache and

other pains in the region of the kidneys. These were especially severe when stooping to lift anything and often I could hardly straighten my back. The aching was bad in the day time, but just as bad at night, and I was always lame in the morning. I was bothered with rheumatic pains and dropsical swelling of the teet. The urinary passages were colored and so free that often I had to rise at night. I felt tired all day. Half a box served to relieve me, and three boxes effected a permanent cure."

THE FIRE PICTURE TRICK One Is of Pitch, Another Is Rose-Col-

To Perform It One Need Not Be a Wizard, But Some Care Must Be Exercised.

This is a very pretty trick, especially if it is performed in a darkened room. You show your friends a blank sheet of paper (the room must be light enougn to let them see that it is blank). Then you strike a match, blow it out, and touch the paper with the glowing top of the match. A spark travels over the paper, following a very crooked course, and finally goes out. Then you open the shutters or turn up the lights, and, behold, you see on the sheet of paper a burnt picture or design, which has been traced by the spark.

The secret of the trick is that the paper, though it appears blank, has really had the picture drawn on it beforehand. It is not drawn with which are carted away. Mortar was made by the people of Tahiti when our ancestors were shivering in holes in the rocks. They lumps of coral, burned them in pits, using wood as fuel, and mixed the lime they got in this fashion with sharp sand and water. With this mixture the ingenious savage plastered the walls and floors of his house, and a better mortar could not

be obtained. Another purely savage invention which is perhaps the most familiar object of modern life is the tobacco pipe-not only the common clay, which the North American Indians molded centuries ago out of the red sandstone of Colorado, but the woodday briar. The bowl was hollowed out of any well-seasoned piece of hard savage pipes which have crooked piece hollowed separately and the a bow for the lad, two pieces spliced together again. THOMPSON & DUNDY'S NEW YOR HIPPODROME AND AMUSE-MENT INSTITUTION.

At last New York is to have

great amusement resort worthy its immense population. Messrs. Thompson and Dundy, owners of Luna Park, are now building on the east side of Sixth avenue, between Forty-third and Forty-fourth streets, a mammoth hippodrome and amusement institution that while retaining the general character of the great hippodrome of London will aim to surpass it in attractiveness. The New York Hippodrome will be thrown open to the public on December 15th. In interior design and general features the resort will be unlike anything ever seen in this country, or, for that matter, abroad. Two stupendous spectacular productions, each replete with surprises and presented with lavish disregard of cost will be features of every program. These great productions will have the advantage of casts greater in number than have ever before been seen anywhere. Each of the great productions will introduce merely as incidental diversions the world's greatest novelties gathered from all the corners of the earth, including the best circus acts, the most curious exhibits and the world's greatest vaudeville celebrities. These spectacular productions, as a rule, will have dramatic themes. They will be plays of stirring romance to be shown in life-like realism, plays of royal courts to be shown in opulent pageants and princely splendor, plays of everyday life and strange places in our own or some other country. In addition to the great host of fea-

tures, strange and curious, to be introduced in these spectacular productions, will be found in the hippodrome, two circus rings, each operated simulteneously. Two great stages also will be in constant use for the productions. Besides these unusual attractions a great pool will be found in the hippodrome on which at intervals will be presented interesting, instructive and amusing water pantomines. Running either way from the center entrance of the hippodrome, on Sixth avenue, will be found menageries comprising earth in glass cages. The main stage of the hippodrome will be the largest in the world, so devised that a thousand people, including horses and other animals may be marched and countermarched. The hippodrome will be open daily from 10 a, m. to 12 midnight. Stage performances will be given afternoon and night. The auditorium of the hippodrome will seat 5,200 persons. The programs will be in two parts, each about an hour and a half long, with twenty minutes intermission. The building will cost \$1,-200,000. Built of marble, steel and iron it will be fire-proof throughout. Prices will range from 25c to \$1.

To prevent ticket speculation, Messrs. Thompson and Dundy will have their own ticket sellers stationed about the entrance of the hippodrome to sell the best seats always at regular box office rates. Remember the opening date, December 15th.

The general impression prevails that rubber is a product like wheat or corn to be obtained from a given tree. The idea is quite erroneous. It has been estimated that 1.000 different species contain rubber, though commercial quantities have been obtained from only forty or fifty.

The Monroe Doctrine never shrinks under a republican administration.

Every spoilsman deprived of power is convinced that President Roosevelt is unsafe.

The democrats are looking for campaign motto. "Parker and Plunks" ought to fit.

The people of the nation are hardly ready to invite disaster just to make democratic holiday.

The democratic party announces its good intentions. The republican party refers to its good deeds.

It requires a high grade of nerve for a party to ask the voters to support a Mystery and a Checkbook.

The republicans present a platform upon which every party member may stand without scowl or frown.

Western Democrats insist that Hill and Wall street nominated Parker and they propose to let Hill and Wall street see if they can elect him.

Telegrams announce that the Kansas floods have receded and the crops are not seriously damaged. The democrats have accordingly abandoned all hope of Detroit are guests at the home O. C. carrying Kansas this year.

We wonder if J.S. Sterns will try and induce the Social Labor party to nominate him for governor of this state after the defeat he has received at the hands of both republicans and democrats?

It is semi-officially reported that Vice Presidential Candidate Davis has refused to subscribe to the campaign fund. In that case, the democrats got two gold bricks at the convention instead of

A PLEASANT GATHERING.

On Thursday, Aug. 4, a very pleasant reunion of all the ad schoolmates who attended the Canfield school in Lyndon while Miss Kate Canfield was a scholar, gathered at the very pleasant home of Dick Clark and enjoyed a genuine old fashioned picnic dinner under the maples. Good fellowship teemed in every face, and many reminiscences of boyhood days were rehearsed to the pleasure of all. The omni-present photographer was there with his camera and soon all can see themselves in a picture. Every one went home pleased that they were there, and wishing Miss Canfield a safe journey to her future home in California. Lester Canfield, of Ann Arbor, and Howard Canfield and wife, of Onondago, were present. The enjoyableness of the occasion prompted those present to take steps to make the reunion an annual entertainment.

ESCAPED FROM JACKSON PRISON

Lake.

Three Desperadoes Took French Leave-Had Things Their Own Way, Led By a "Trusty."

At an early hour Tuesday morning as result of trusting Harry Foote, alias Slater, one of the three Richmond bank robbers, Slater, John Allison and William Spellman are now at liberty and there is good reason 'for congratulations that a large portion of the prison population is not now also at large. The three were members of "the Lake Shore gang" so-called, and are desperate men and among the best known bank robbers in the country. All were received at the prison in 1899. Slater and Allison for seventeen years and Spellman for eleven years. Slater had been allowed many privileges on account of model conduct.

While the new cell block is being made it is necessary for hundreds of the prisoners to bunk in the corridors of the east block, and among these were Allison and Spellman. Slater slept in the tower at the east end of this eastern block. He was allowed to have in his possession the key to the tin shop, with access by a door to his tower. About 3 o'clock Tuesday morning Slater arose and unlocked the door to the tin shop, There was no guard in the tower. From the tin shop he made his way to the prison yard, deserted at this time of the night. Then he removed an iron staple and passed into the paint shop. This has an iron door leading to a carridor, giving entrance to an entry to the east wing in which hundreds of prisoners were sleeping Slater is skilled n this kind of business and juggled the combination box on this door which opened the whole east wing, after disengaging a simple wire fastening to a wooden door at the other end of the Mrs. T. E. Wood and Miss Ida Webb corridor. Allison and Spellman were undoubtedly waiting, for the three re-Jens Norgard of Detroit spent a few traced Slater's steps, first fastening the wooden door with a wire, and this gave opportunity for the wholesale escape of all the men in the block. The trio made a ladder with some gas pipe which they found in the yard and scaled the walls. The prison guards knew nothing of the escape until some time later, and the convicts got a good start. No word has been received of their wherabouts. -Free Press.

KEY TO THE BIBLE.

DR. CLARKE CLAIMS THAT HE two weeks she'll be ready for her trial HAS DISCOVERED IT.

Author and Theologian Says He Has Found Solution of Mysteries Concerning Millennium and End of All Things.

John C. C. Clarke, of Upper Alton, Ill. the author and theologian, has just announced that he has discovered the key that will unlock all the mysteries in the Bible concerning the millennium and the end of all things in this mundane sphere. Dr. Clarke claims that his discoveries are a revelation in many features of theology, and, were they published in book form, to many people would be like a new Bibleor a new discovery of the Bible,

On account of Dr. Clarke's prominence the claim of the unusual discovery is given additional interest. Dr. Clarke was formerly a professor in the University of Chicago, and has been the pastor of Baptist churches in Chicago, Cincinnati and St. Louis. After leaving the pastorate he occupied the Gove thair of Greek at Shurtleff coRege. Since retiring from the classroom Dr. Clarke has devoted himself almost exclusively to research work both in this country and abroad. A number of books latest publication a few months ago being a theological dissertation on "The Relation of Man and His Divine

Father." Dr. Clarke claims that his discovery of the key was made in studying the books of Daniel and the Revelations. On these two books the expectations of a Saviour by the Jews and a second coming of Jesus by Christians chiefly

have been founded. Dr. Clarke claims that both Daniel and the Revelations are largely versions of a system of belief that existed among Jews about 150 years before Christ, and which still exists in known books. The system being good, wise and true, was preached, continued and professed by Jesus and the apostles and raised to a higher grade with new

The Gleaners of Waterloo and vicinity held their annual picnic at Clear Lake last Saturday. There were about 400 present and the speakers of the day were Hon. Chas. E. Townsend of Jackson and Rev. E. A. Griffen. The Francisco band furnished the music. A ball game between the Black Hill Sluggers and the Tigers was one of the features of the day and resulted in a victory for the Sluggers by a score of seven to three. Those who were present pronounced it the best gathering of the order ever held in this community.

THE DETROIT TRIBUNE

The great independent and eminently fair newspaper, The Detroit Tribune has just completed a work of much historic value to the state of Michigan, The work is the official souvenir of the recent celebratiod at Jackson of the 50th anniversary of the monster mass meeting held under the Jackson oaks July 6, 1854, at which Michigan placed herself squarely against the extension of slavery and formed the republican party. The book contains the official proceedings of the celebration, a history of the republican party and portraits of many eminent citizens who took part in that great historic event of 50 years ago. It also contains engraving of the chief participants in the ceiebration. of many leading citizens of Michigan. Being bound in leather, the work will form a lasting memento and a valuable historical possession for those who are to receive it.
