NUMBER OF BUILDINGS DESTROYED.

In Most Cases Property Partially Covered of the County.

The rain and electrical storms that passed over Chelsea early Tuesday morning, did considerable damage in portions of Washtenaw county, and the few days work for their adjusters.

In Sylvan the barn on the farm of Chris. Hinderer was struck by lightning and badly damaged. Insured in the German Mutual.

barm (46x144) was struck by lightning about 4:30 o'clock Tuesday morning and with contents was entirely consumed. Fred Lucht, who works the farm on shares, lost about 100 tons of hay, 500 bushels of wheat which was not yet threshed, all his farming tools, wagons, buggies, harnesses, and nine veal calves. Mr. Lucht's loss is said to be over \$2,-000, insured in the German Mutual for about \$1,500. The loss will be a hard one for Mr. Lucht, but in one respect he was fortunate, as the rainfall that accompanied the electric storm was the means of saving two stacks of oats that were near the barn. The barn which was owned by the Allen estate was fully insured in the Washtenaw Mutual.

East of Rogers' Corners, in Freedom, narrow strip of the township was the scene of a severe hail storm, and Rural Mail Carrier Ed. Weiss informs the Standard that considerable damage was done to the fruit and growing crops.

In Scio township the fine new barn

just completed by Jacob Laubengayer was struck and burned to the ground, entailing a loss of \$1,600 for building, which was insured in the German Mutual for \$1,100. The contents, a large amount of grain and farm implewere covered by a policy in the Washtenaw Mutual. Geo. Fiegel was afflicted by the loss of a hog, which recklessly exposed itself.

was struck by lightning at 3:45 Tuesday day morning, and slightly damaged.

The Ypsilanti high school was struck by lightning at 4 o'clock Tuesday morning, and the water pressure being low the cupola was entirely destroyed and the interior of the school badly damaged before the flames were extinguished. The tower clock, the only public clock in the city, was destroyed. This is the fourth time the school has been scorched One of the firemen was slightly injured by a falling beam.

The residence of John O'Brien in Northfield was struck but no serious results were occasioned beyond giving the family a fright which they will not soon forget.

TOOK AWAY THE TOOLS

Hirth's Blacksmith. Shop Entered Sometime Friday Night and a Valuable Set of Tools Stolen-No Trace of Thief.

Some time during Friday night thieves entered the blacksmith shop of Simon Hirth on Middle street west and stole a valuable set of tools known as the Little Giant lightning screw plates, consisting of eleven taps and nine screw plates.

When Mr. Hirth entered his shop Saturday morning he found the box that the tools were kept in on the floor and tools gone. He at once notified Marshal J. M. Woods and Deputy Sheriff Frank Leach, and they at once notified the sheriffs of this and adjoining counties, and a printed description of the suspected thief and tools was mailed to the local officers of nearby village, and offering a liberal reward for the recovery of the tools and the arrest and conviction of the thief. About two weeks ago one of the machine shops of Jackson was entered and tools similar to those taken here were stolen, and to the public at least, it would look as if an organized gang of some kind are operating through this part of the state.

BUSINESS CONDITIONS SATISFACTORY.

The Commercial and Industrial Situation f This Country in Better Shape than for Months Past,

Business conditions and prospects have not been so satisfactory for months as they are today. The commercial failures which showed such a decline in both May and June show a still further falling off for July, the liabilities of July, 1904, being only \$8,812,097 as compared with \$16,751,245 a year ago. Savings bank deposits are still increasing in industrial centers, there having

steadier tone in the dry goods market and the trading in the wool market is ADMITS THAT HE IS GUIL TV unprecedented.

The confidence felt in the success of the republican candidates and a republican house of representatives seems to prevade all industrial and commercial by Insurance in the Mutual Companies centers. This is seen particularly in the early fall buying and the orders for new equipment and extension of railroads and general construction. Railroads are showing increased earnings and the prospects for fall business both in moving of crops and general merchandise transportation is fully up to insurance companies will, at least, have last year's record. Added to this splendid outlook is the most satisfactory bulletin of the Bureau of Labor showing that the purchasing power of the masses is still increasing, wages having advanced in greater ratio than cost of On the Allen farm in Lima a large living. Many mills will soon start up after a few weeks of idlenesss and in spite of labor troubles in some centers there is an undertone of confidence throughout the country. This will increase from week to week as the time nears for harvesting the crops and entering upon the general fall business. In other words we seem to be on the threshold of another period of republican good times and prosperity.

HELD THEIR ANNUAL PICNIC.

North Lake Grange and Unadilla Farmers' Club Meet for Social Time Saturday-Good Addresses.

The annual picnic of the North Lake Grange and the Unadilla Farmers' Club was held in Stevenson's grove, North Lake, last Saturday. This event has usually called out a large attendance from the surrounding country, but this year there was considerable falling off in number, but those present report that all had a good time and look forward with pleasure for the renewal of their friendship a year hence.

Hon. H. W. Newkirk, Hon. W. W Wedemeyer, of Ann Arbor, Hon. A. A. Hall, of Stockbridgo, and W. F. Taylor, of Shelby, were on the ground and adments belonged to August Fittler, which dressed the assembly in an able manner on the theme they had chosen for the occasion.

THE SOAP CLUB SCHEME.

How Manufacturers Paim Off Cheap Grease Soap at Enormous Profits-The Customers Pay Good Prices for Gifts.

The following extract was taken from an article in the Grocery World, and gives an idea of the profits made by the cheap soap manufacturers:

"The Larkin soap has repeatedly been examined by experts and pronounced to be worth about \$1.75 per box. It is said to be what is known as grease soap. The concern's profits on the \$10 assortment is enormous. On each assortment, in fact, it amounts to just about \$2.85. The premiums given by the Larkin company are in most cases regions teem with tales of their lasting qualities. Couches that collapse before their time; chairs that come apart, with the crating; tables that the manufacturer refuses to sell to his friends are main incidents. The germ of premium schemes, once implanted, seems almost immortal."

SPLIT HIS NOSE

Fight Interrupts Munith Men's Trip West Both Men Arrested and the Trip Called Off For a Time.

Frank Fanning and Charles Braun, both living at Munith, started Saturday for Dakota to assist in harvesting the enormous wheat crops of that state.

When they arrived at Jackson they began to celebrate their departure by filling up on the wares of several dealers in wet goods, and during the latter end of their spree Sunday morning Fanning spoke disrespectfully of Braun's wife. Braun resented the imputation and pounded Fanning almost into insensibility, splitting his nose and smashing his face in a fearful manner. Both were arrested and the trip to Dakota is postponed, temporarily, at least.

MYSTERIOUS CIRCUMSTANCES.

FOR REVENGE ON HIS EMPLOYER

Farm Hand Set Fire to Barns in Scio---Buildings Belonged to Third Party, and Were Destroyed.

Because of a kick received from his mployer, Charles Lang, a farm hand named John Becker, aged 22 years, set fire to barns of an innocent party, but had revenge in seeing \$1,000 worth of hay, grain and implements belonging to Lang go up in smoke. But Becker's revenge will cost him dear, as he is now being held to answer to a charge of arson to which he has confessed, and his examination takes place today before Justice Doty, of Ann Arbor.

On Tuesday night of last week the large barns on the farm of Mrs. Nelson Osborn, of Scio, burned. Mrs. Osborn, who resides in Ann Arbor, leased her farm to Charles Lang. As Becker had had some trouble with his employer it was surmised that he set the barns on fire. At least when Lang announced Saturday morning that he was going to Ann Arbor to consult the sheriff, Becker said he would be there also to tell his side of the story. Lang drove and Becker walked until County Treasurer Charles Braun, with a carriage, overtook Becker who asked for a ride. To Mr. Braun he made the confession. In answer to questions, he

"I set fire to the barn to get even with Lang. He kicked me and would not pay me. I put a lighted match in a erack of the barn where the hay was and the whole thing went up."

Becker made the same confession to he prosecuting attorney.

The loss on the barns is about \$1,500. Mrs. Osborn is insured for \$750 on these buildings in the Washtenaw Mutual. Mr. Lang says his loss is \$1,000 on person property, including hay and farm implements which were in the barn. He was insured in the Mutual company until last fall, when he dropped out. He naturally feels the loss the more.

State Law-Ypsilantl Horse Thief Set Free at Ionia.

Through his attorney, Georgo E. Nichols, Charles Perrine, of Ypsilanti, an inmate at the Michigan reformatory, has been ordered released by Judge F. D. M. In December, Batteries-Filly and Steinbach; Mun- 1900, Perrine pleaded guilty in Washtenaw county circuit court to the theft of two horses at two different places and some corn from another and under three separate counts was given a seven year cumulative sentence by Judge Kinne, three years on the first, two years on the second and two years on the third charge, under a common law. The Michigan statutes do not provide for cumulative sentences and while Perrine might have been given a straight sentence of 10 years for one af these crimes, Judge Kinne's motive for imposing a sentence on the installment plan is not known. Perrine has served four previous sentences in Ionia.

UNIFORM COURSES.

It is not intended to make the adoption of these courses compulsory upon either the graded or high schools.

TWO GIRLS' INDIAN ANCESTRY. Basis of Claims that Secured Them Valuable Tracts of Land.

A romance that has come down through several centuries Las recently developed as the result of the Dawes commission awarding allotments of valuable land to two St. Louis young women, the Misses Jessie Mae and Blanche Hall.

It was necessary in the cases of the Misses Hall to trace their ancestry unmistakably to an Indian parent. The romance that has developed began when their great-great-grand- charge a dwelling site and an extendfather came to America as a French vovageur.

English University Students Evidently Are Not Literary.

At the English universities the libraries are so little used that they have become famous as places of unbroken solitude. JUST ONE DAY

Free From the Slugger Brought Out a Fact.

"During the time I was a coffee drinker," says an Iowa woman, "I was nervous, had spells with my heart, tne purpose of admitting the hot air. I would fre quently sink away as though my last as to form a kind of dresser or sofa, hour had come.

"For 27 years I suffered thus and used bottles of medicine enough to set up a drug store—capsules and pills and everything I heard of. Spent lots of money but I was sick nearly all the time. Sometimes I was so nervous I could not hold a plate in my hands! and other times I thought I would surely die sitting at the table.

"This went on until about two years ago when one day I did not use any coffee and I noticed I was not so nervous and told my husband about it He had been telling me that it might be the coffee but I said 'No, I have been drinking coffee all my life and it cannot be.' But after this I thought I would try and do without and drink hot water. I did this for several days. but got tired of the hot water and went to drinking coffee and as soon as I began coffee again I was nervou again. This proved that it was the coffee that caused my troubles.

"We had tried Postum but had not made it right and did not like it, bu now I decided to give it another trial so I read the directions on the pack age carefully and made it after thes directions and it was simply delicious so we quit coffee for good and the re sults are wonderful. Ancient Phases Corrupted.

Ancient Picts in England were called by the Celtic word "pehta" or fighters. This was Latinized into Picti. So, too, Barbary of the ancient maps is a monument to the miscalling of the Berber tribe by the Greek word signifying "barbarian." Even the legend of the victory of Guy of Warwick over the dun cow is assailed by ruthless etymologists, who insist upon its derivation from his conquest over the "Dena gau," or Danish settlement, at the champion's gates. The Celtic words 'alt maen" are responsible for many "old man" crags upon sea coasts in the gizzard that needs no repairing consent, and this Father Schell of and among mountains. "Speak, speak out! Oh, God, speak out!" cried the stricken count. "You, you, my boy here-here-charged with crime-with plotting the assassination of your sovereign! Speak, Alexis; say that it is false! Don't you see my heart is breaking?"

The Latest Type of Stein.

Ingenious manufacturers have in recent years brought out music boxes concealed in a variety of receptacles other than the prosaic case of fancy wood. Thus we have had alubums, clocks, jewel cases, etc., within which was secreted the necessary mechanism for the rendering of one or more familiar airs-some too familiar, as many a weary listener can testify. New comes the musical stein, for this favorite ornament of the grillroom or bachelor's den has been pressed into service by the enterprising manufacturer of the music box. There is nothing about the exterior of the musical stein to indicate that it is other than the ordinary variety and one is of heavy ware sort in green and russet tones with a windmill decoration on one side. Those who like music boxes and at the same time are partial to steins for decorative use will doubtless approve of this newest device .-Brooklyn Eagle.

"DEAR MRS. PINKHAM: - Lydia E. Pinkham's Vegetable Compound will make every mother well, strong, healthy and happy. I dragged through nine years of miserable existence, worn out with pain and weariness. I then noticed a statement of a woman troubled as I was; and the wonderful results she had had from your Vegetable Compound, and decided to try what it would do for me, and used it for three months. At the end of that time, I was a different woman, the neighbors remarked it, and my husband fell in love with me all over again. It seemed like a new existence. I had been suffering with inflammation and falling of the womb, but your medicine cured that, and built up my entire system, till I was indeed like a new woman. - Sincerely yours, Mrs. Springs, Ark., Vice President Mothers Clab. - \$5000 forfeit if original of above letter proving genuineness cannot be produced.

EARTHQUAKE ON TUMBLER.

Here Is a Funny Little Trick That Is Easy to Do and Requires No Apparatus.

Nearly fill a tumbler with water, wipe the edge dry if you happen to have wet it, lay on it a card which is large enough to project at least half an inch all around and let it stand undisturbed. In half an hour or so you will find that the card has become hollow, like a cup, and has sagged down inside of the glass. This is caused from the vapor rising from the water. The lower face of the card, being moist, has swollen or expanded, while the upper face has not, and therefore the flat card is warped into the shape of a cup. Take it off and replace it with the damp convex side on top. The rounded card represents the earth,

EARTHQUAKE ON A TUMBLER. or a portion of it, and in a minute you will see it quake.

But to make the earthquake more interesting your earth should have in habitants. You cannot make these small enough to be in the right proportion to your little earth, and if you could paper, stand them carefully on their feet term boaster, which is the same thing. or seat them on bits of cork on your the figures in pieces, with their bodies

You might also add a house built up of

on top of them for a roof. All your figures and buildings-there isn't room for many-must be in readiness before you turn the earth-I mean the damp card-over. Set them quickly but carefully on the convex surface and wait for the earthquake. Very soon the "earth" will sink in with a snap, and walls, heads, legs and bodies will go flying through the air. The reason is easy to guess. The upper surface of the card has been drying and contracting while the lower surface has become moist and swollen, so that presently the card has to bulge down instead of up.-Cincinnati Commercial Tribune.

Mouse Was Clever Engineer,

During the digging of holes for New York telegraph poles not long ago the workmen noticed a mouse which had fallen into one of the cavities. For hours the tiny prisoner raced frantically around the inclosure. Then he seemed to get over his hysterics and set his wits to work. Soon he began systematically to dig a spiral groove round and round the inner surface of the hole, which was several feet deep. Night and day the busy little captive worked away digging little pockets here and there as his improvised stairase got farther from the ground, so that he might rest from his hard labors. The workmen kept him supplied with food, and after the third day the indefatigable little creature reached the top, and enthusiastic cheering welcomed his freedom .- Our Dumb Ani-

KITTEN FOUND THE CATNIP.

After Rigel Had Discovered the Treasure He Wanted to Share It with His Playmates.

An Indiana physician tells this story of a bright kitten in Our Dumb Animals: The kitten was named "Rigel," was very playful, full of reasoning in all his play, and soon grew to be a large cat. Snow covered the ground most of the winter, and catnip could not easily be had by the cats. One day while sitting at the desk I noticed my cat climbing up a set of shelves which contained medicines and drugs in bottles and boxes. When he reached the fifth shelf from the floor he carefully reached with his paw a small packet, pulled it out and dropped it to the floor. Nothing else was touched. He jumped down, smelled of the paper, then came to me and mewed and ran to his find, which on picking up I found to be an unopened five-cent packet of catnip. I broke it and gave a part to him on a paper. He ate of it, then rolled in it and enjoyed a real feast. In the evening of the same day, while relating this to a friend, a mewing and and 17 .- Ex. scratching was heard at the door. I opened it and in came Rigel, and with him a large white cat. BETTER BE LOVED THAN LOVE.

Woman's Shrewd Advice to Her Sex About to Marry.

Don't pick out a man for a husband simply because you love him. The most important thing is whether he loves you. A woman who loves her husband better than he does her is good wishes, yours respectfully, a doormat on which he treads. If he loves her better than she does him, he looks up to her as a goddess and spends his life trying to win her favor. A too adoring wife bores a man with her affection, but no woman ever had enough love given her to satisfy her, and the more affection the man lavishes upon her the stronger the claim he establishes. After marriage a thousand things draw a woman's heart to her husband; a thousand things estrange him from her .- Woman's World.

Perfect Teeth of Savages.

Among savages anything save per fect sets of teeth is an extreme rarity, and the Eskimos, who live under the most unhygienic conditions of all people, have the most perfect teeth in the world. The reason for this is found in the fact that they eat tough foods, which require long mastication before they can be swallowed, and this long mastication cleans the teeth, polishes them, so that they offer few inducements to bacteria, and sweeps whatever germs may have found lodgment in the mouth into the stomach with the food, where they are speedily

That party seems, however, to be collectively able to harmonize only upon a plank that admits that revision may from time to time be necessary, but it is so phrased that it is expected to be satisfactory to those in favor of an increase of duty, to those who favor a reduction thereof and to those opposed to any change whatever.

'Judged by the record of perform-

With absolute control of both the legislative and executive departments of the government since March 4, 1897, there has been neither reduction nor an attempt at reduction in tariff duties. It is not unreasonable to assume, in the light of that record, that a future congress of that party will not undertake a revision of the tariff downward in the event that it shall receive an indorsement of its past course on that subject by the people.

"It is a fact and should be frankly conceded that though our party be cure any modification in the tariff save that to which the Republican While, therefore, we are unable to our position to be in favor of a reasonable reduction of the tariff: that we believe it is demanded by the best interests of both manufacturer and complished as soon as both branches of Congress and an executive in favor of it are elected, without creating that its confidence and support clearly that has on other occasions manifested itself. monopolies. The fact that they have multiplied in number and increased in power has been due not to the failure of the courts to apply the law when properly moved by administrative officials or private individuals, but to the failure of officials charged with the duty of enforcing the law to take the necessary procedure to procure the judgments of the courts in the appropriate jurisdiction, coupled with the fact that the legislative departments of some of our state governments, as well as Congress in the manner already referred to, have, by legislation, encouraged their propagation.

"What is needed, in addition to the passage of a statute revising the tariff duties to a reasonable basis, is not so much other and different laws as officials having both the disposition and the courage to enforce existing law. While this is my view of the scope of the common law, if it should be made to appear that it is a mistaken one then I favor such further legislation within constitutional limitations as will give the people a just and full measure of protection.

Freedom for Filipinos.

"It is difficult to understand how any citizen of the United States, much less a descendant of revolutionary stock, can tolerate the thought of permanently denying the right of selfgovernment to the Filipinos. Can we hope for the respect of the civilized world, while proudly guaranteeing to every citizen of the United States that no law shall be made or enforced which shall abridge the privileges or immunities of citizens of the United States, or deny to any person the equal protection of the laws, and at the same time not only deny similar rights to the inhabitants of the Philippines, but take away from them the right of trial by jury, and place their lives and the disposition of their property in the keeping of those whom we send to them to be their governors? We shall certainly rue it as a nation if we make any such attempt.

Responsibility in Philippines. "Viewing the question even from the standpoint of national selfishness, there is no prospect that the \$20,000. 000 expended in the purchase of the islands and the \$650,000,000 said to have been since disbursed will ever come back to us. The accident of war brought the Philippines into our possession, and we are not at liberty to disregard the responsibility which thus came to us; but that responsibility will be best subserved by preparing the islanders as rapidly as possible for self-government and giving to them the assurances that it will come

I also protest against the erection of any such military establishment as would be required to maintain the country in that attitude. Backward glances into history bring

no joy to the democratic heart. The republican party meets live issues; the democratic party dodges

them. President Roosevelt has not felt it necessary to write an appendix to the

Chicago platform.

The democratic party will be remembered as the greatest self-reversing organization in history.

Every postoffice and public land grafter who is in prison or under indictment is certain that president Roosevelt is

"unsafe." Democrats assert that President Bauer. Roosevelt is "dangerous." He is, to the the extent that all brave men are dan-

gerous to their foes in an open fight. If Alton B. Parker's vote had decided the election in 1896 or in 1900 he would

have placed a party in power that was pledged to the free coinage of silver. Chairman Taggart of the democratic

committee is said to "dearly love an uphill fight." He has one cut out for him now, then, that ought to please him Sunday. hugely.

The republican party makes no promise of what it is going to do on the money question, but points to what it has done and declares that having started right it is natural to keep right. .

"Steady, Democrats, Steady," is the title of a political article by Mr. Cleveland. There is never any need of asking the republicans to be steady and true when the welfare of the people is

involved.

The first and greatest object of the tariff system is to build up American industries and make the American workman the king of his class. That issue alone assures the success of the republican ticket.

The anti-imperialists are lauding the democratic party. Before the campaign is over the democrats will be wishing their platform was as silent on some other subjects as it is on the money question.

Democrats insist that their platform is "just as good" as the republican on the money question, but it will be difficult to induce the voters to vote for an imitation or a substitute when they can get the real goods by supporting the republican ticket.

The democratic candidate for the vice presidency has always been a high protectionist. He collects several dollars for the delivery and then drives away before the swindled farmer realizes that the dead person named in the dispatch is a stranger to him.

> There is a postal regulation calling for the affixing of the name of the patron to every box in the rural routes, but this matter has been neglected in the majority of cases, making it a difficult matter for substitute carriers to handle the mail. Every farmer should have his name printed in plain letters. It is a great help to the carriers and it is also a good thing for the farmer and the people who pass his door. It is a short job to letter your mail box nicely, and it ought to be done on every route.
