WARNER NOW GOVERNOR.

Hon. Frank P. Glazier of This Place, Also Made Treasurer---Large Assembly From Over the State Present.

At Lansing, on Monday afternoon, bout four o'clock, Governor Warner, the other state officers and three justices of the Supreme Court were inducted into office in the presence of the largest concourse of people ever gathered at the state capital actuated by a like interest. Of particular interest to this vicinity and county was the assuming of the honors and responsibilities of state treasurer by Hon. Frank P. Glazier of this town.

It was apparent from the spontaneous expression of good will, from the large and representative gathering, which greeted each official as he concluded the taking of his oath, that the entire administration came to its honors and duties backed by the good will and confidence of the citizens throughout the

As the state increases in wealth and opulation the state offices become proportionally of more and more importance with increasing honor attaching to the incumbent and therefore on all sides has been expressed great satisfaction that so much pains has been taken to give to the occasion the impressiveness it deserves. The oath was administered in the house chamber. Former Governor John T. Rich occupied the speaker's chair and sitting near him were Chief Justice Moore and United States Senators Burrows and Alg r. Immediately in front of the presiding officers chair sat Gov. Elect Warner and at his side Gov. Bliss and on either side of them those about to be sworn into office. Both floor and galleries were so packed that none other could have gained admittance. Through the assembly were noted men prominent in public life and the wives, relatives and friends of those about to assume new honors.

Rev. Mr. French, of Lansing, offered an invocation, after which Chairman Rich delivered an address in which he said that the increasing dignity and importance of the state offices of the state of Michigan made it highly fitting that the inaugration should take place in public, and in the presence of the members of the legislature.

"The overwhelming vote given you," said the chairman, addressing the men about to assume their new duties, "means that the people have great confidence in you, but it also shows that they expect a great deal from you. They expect that you will meet your new duties with candor, integrity and

applauded and Chief Justice J. B. Moore then advanced to deliver an address Justice Moore's talk was able and difinified and filled with good advice. He gave a resume of the life of Goy. Warner and when the latter's name was mentioned, the spectators broke into loud applause. In mentioning important matters to be taken up by the legislatureand the governor, Justice Moore referred to primary reform. He said that but added that no matter what the law may be, much depends upon the citizens as to whether they secure good and competent officials. It is the duty of the citizen to act whether the voting is done directly on the candidate, or fore be it through convention.

"All citizens," said Justice Moore, "have duties to perform which cannot be safely ignored, and if they are igthe neglect. The people sometimes make mistakes, but their judgment may generally be accepted."

As to Warner, Justice Moore said: "His record gives promise that his administration will be at least as good as the best that Michigan has had."

Justice Moore then administered the formal oath of office to the various officials. When Gov. Warner had been sworn Justice Moore said to the spectators: "I introduce to you Gov. Warner." The latter simply bowed and sat down amidst applause. When all the new officials had held up their hands and promised to be good: Chairman Rich called on Gov. Warner for a speech. The latter made his short ad-

the capitol steps and took an oath as secretary of state. Twice before that I secretary of state. Twice before that I stood in the senate chamber and was made a member of that body. I tried to do my duty. I can only say that as the storms of Chikoot Pass, I'll cross the plains of frozen glass, I'd leave my wife and cross the sea, Rather than be without Rocky Mountain Tea. Glazier & Stimson.

When the governor sat down there was a yell of enthusiastic applause. Gov. Bliss being called upon, said he was making way for a younger man, and hoped he would give the people a better The First Time Since Present Court House administration than his own. "In any event,"said Gov. Bliss, "I know he will do his duty." Gov. Bliss then formally turned over the keys of the office to his successor, adding: "I wish you success. The people of Michigan are prosperous and happy. We do not owe a dollar and hope this excellent condition will con-

Gov. Bliss ended his speech by calling for three cheers for Gov. Warner, which. were given with a will.

The crowd was not yet ready to go and called for Senators Burrows and Alger, also Congressmen William Alden Smith and Denby all of which made brief and felicitous remarks.

In the evening a brilliant reception was tendered by the governor, the two United States Senators and all the other newly installed officials assisted by their wives. The affair was admirably conducted and hundreds for hours trooped past the receiving line tendering their wishes for a successful admin-

BARE WALLS REMAIN

Ann Arbor High School Burned Saturday-Fire Broke Out About 4 O'clock

The Ann Arbor high school building caught fire about 4 o'clock Saturday morning and the fire department, with the water supply at its command, was unable to check the flames until the building was ruined. Only the bare outside walls remain and these are in such a condition that they must be torn down in order to make the material available for any new building which may be constructed. The contents of the building were destroyed 8,000 volumes, the apparatus of the physical laboratory and some school records. A conservative estimate would probably place the loss at about \$75,000 with insurance of \$32,200 on the building and \$8,300 on the contents,

The fire undoubtedly started from a stove in the basement of the south-

By the time the fire department reached the scene the strong wind from the south was sweeping the flames northward through the building. Hose was attached to three hydrants but the streams could not play even into the second story and right here is where the people in general are indignant at the seemingly inadequate water supply

The library of 8,000 volumes and much valuable apparatus was saved and transferred to the Unitarian church and Hobart Guild hall.

It was just 50 years ago a semi-centennial-that the original central build-The chairman's address was liberally ing was completed at a cost of \$30,000. About thirty-five years ago and addition was put on the rear extending the enand to administer the oath of office. tire length. In 1889 the modern corner addition was built at a cost of \$27,000.

RESOLUTIONS.

At a meeting of Olive Lodge, No. 156, F. & A. M., held December 27, 1904, the following resolutions were unanimously adopted in memory of J. D. Schnaitman:

Whereas, Almighty God in His wisdom has again seen fit to remove from among the Masonic fraternity a brother befor obvious reasons, he would express loved and honored by all who knew fan. no opinion as to what ought to be done, him, and while we deeply deplore his demise, and knowing his loss to be irre- dition and has money in the treasury. parable, yet we find consolation in the belief that he has reached that beautiful shore, that house not made with hands, eternal in the heavens. There-

Resolved, that while we realize the loss this lodge has sustain, we tender to the bereaved family our earnest Milan, Hutzel, of Pittsfield, and Mcsympathy, and would unite with them Cullough, of Ypsilanti, were appointed nored, no law can remedy the result of in looking to Him who alone can assuage our grief and give that consolation that is only the gift of our Heavenly Father. Resolved, that the charter and great lights be appropriately draped for the

time of 60 days. Resolved, that these resolutions be spread upon the minutes of this lodge and a copy sent the brother's widow.

Resolved, that the Chelsea Herald publish the foregoing resolutions, J. A. PALMER, N. H. COOK, H. GORTON.

SPOILED HER REAUTY.

Harriet Howard, of 209 W. 84 St. New York, at one time had her beauty spolled with skin trouble. She writes: "I had dress with so much emotion that it seemed for a time that his voice would break.

"Four years ago," said he, "I stood on 25c at Glazier & Stimson drug store.

I'll brave the storms of Chilkoot Pass,

governor in every case I shall attempt to do my duty as I see it."

TOOK CHARGE MONDAY

Was Completed That All of the Offices Are Republicans.

Monday the new republican county officials, chosen by the voters at the election in November all assumed charge of the offices to which they had been selected to fill, most of the offices in the court house have been filled by gentlemen elected by the democratic party, since the fine structure was erected in 1877 and this is the first time that every office has been filled by gentleman of the republican belief, since the completion of the building.

Judge Emory Leland, the Northfield farmer, received from the retiring Judge Watkins the keys and records of the probate office, and four years hence he will have demonstrated to the peodle of Washtenaw county, that he has been as capable a judge as he has been a successful farmer.

Frank Newton, of Ypsilanti, will for the next two years have charge of the sheriff's office and the county bastile and will see to it that the splendid business reputation that he has won in the past is fully maintained, and the affairs of the office will be conducted along safe and sound lines.

Jas. E. Harkins, is the right man, in the right place, and the experience he has had as city clerk of Ann Arbor, will be of material assistance to him in the position that he now fills and his records of the court will without a single doubt be well and properly kept.

The office of prosecuting attorney will be filled by that promising young attorney, Andrew J. Sawyer, jr. and his many friends look for a vigorous prosewith the exception of the library of cution of all eases that come within his jurisdiction.

John Lawson, has filled with credit to himself and satisfaction, to his constituents the office of supervisor, and the records of the registers office could not have been placed in the hands of a better man.

Otto D. Luick, relieved the outgoing realm that he had on hand belonging to the county, and will handle the affairs of that office with the same carefulness and success that he has used in the successful management of his farm.

The gentlemen who fill the positions of circuit court, commissioners, coroners and surveyor are all well qualified for their positions and will fill them with fidelity and credit not only to themselves, but, to the people by whose votes they were chosen.

At a recent meeting of the members of St. Joseph's Sodality the following officers were chosen for the year 1905: Spiritual Director-Rev. William P.

Prefect-Charles Neuburger. First Assistant-John Kelly, Second Assistant-Peter Merkel. Secretary-Francis Kelly. Assistant Secretary-Leo Hindelang. Treasurer-Arthur Raftrey. Marshals-William Wheeler, jr., and

. Russel McGuinness. Consultors-John Walsh, Gottfried Weick, John Clark, Hubert Schwikerath, William Wheeler, sr., and Michal Staf-

A young woman entered.

alighted. Soon they were in a dainty little parlor, filled with pretty bits of inexpensive art, and a few pieces of world-famed art work, and a tall marble bust of Adonis, on a marble pedestal. Graham paced nervously up and down the small polished floor covered with rugs, while Percy sank languidly on an Oriental divan piled with silken cushions. Graham kept his eye on a doorway draped with a red and gold brocade portiere, while Percy let his eyes wander over the room, and summed up what pieces of art his wealthy friend had contributed and what pieces evidently belonged to the lady herself. He whistled softly every time he made a decision, and beat the "Blue Danube" with his fingers on his knee. Soon the portiere raised and a young woman entered. Graham almost ran to meet her, while Percy sat surprised, admiring and expectantly waiting.

The young woman was scarcely five feet high, exquisitely built, and hardly 22, with a nose and mouth like the chiseled bust of Adonis, and a mass of golden hair brushed back from her white temples. Her color was like the pink and white of a rose, and her eyes of the shade of the blue sky of Venice. She wore a simple gown of gray, belted in around her small waist, and falling in soft clinging folds about. her slender figure. On her breast was a red rose, that rivaled the red of her

She nodded to Percy and then put her little strong white hand in his as greeting, and he half heard a murmur "I'm so glad to see Walker's friend," while his head turned dizzy, and his heart beat light against his white waist coat. Then she sat down opposite him, and Graham drew a stool to her side, and the three talked and laughed together. She had a way of putting men at their ease and yet never letting them forget her beauty nor the fact that she was a frail, delicate little woman, whose cruel husband she had just been forced to divorce, and that she needed man's protection and friendship. And Percy felt his heart expand with sympathy for and began to dictate some letters of his friend Graham, and a sympathy no importance, holding his watch in also for the little thing who would his hand to note when the five minprobably be "cut off" with Graham. Then Graham ran down to get some fresh flowers for the vases, and Belle nt unburdened herself.

"You see, his parents do not fancy scause I am divorced," she said. An expression of admiration flitted for Belle Dumont."

for a moment over the elder man's face, only to pass away. He started to speak, but a messenger opened the goor and handed Walker a telegram. He tore it open and read:

"Percy Smith and I were married an hour ago. He has no parents. Forgive me. Belle Dumont Smith."

The young man's lips quivered, his face turned white, he read the tele-gram again, half dazed. The father held out his hand, and the young man passed him the telegram. The elder man read it. The expression on his face passed from indignation to scorn, to contempt, to rigid unfeeling. He passed it back.

"You made your decision," he said. He passed the will to the secretary.

BEST POSITION FOR WORK.

Facing the East Is Recommended by an Authority.

To test the truth of the assertions of many persons that they sleep better with their heads pointing to the north, work better facing the east, and so on, Dr. Charles Fere, who is well known for his studies in physiological psychology, has constructed a delicate machine which he calls an ergograph. with which he has achieved some interesting results. This machine registers the number, rapidity and quality of the movements of the index finger when writing or performing any accustomed work.

He announces that his experiments with it prove that work done by a person facing the west or east is better by 25 per cent than similar work done by a person facing the north or south, ment of the largest practical reflector and that when working facing the west it is about 25 per cent better than when facing the east.

This matter of orientation seems to have an influence upon the nervous system, due largely, it is believed, to the fact that the earth is a gigantic magnet. Many learned men have noticed that they sleep best with the head to the north and work better facing the west, while at least one famous pianist finds he plays with the greatest ease when the piano faces the east.

It may be that the great migrations of the human race, all of which have been from east to west, and the ob served tendency of trees to develop n the same general direction are in some way related to these phenomena

A Job in the Yukon.

When the Yukon was in the throes of a territorial election a couple of years ago, one of the closest observers of the rather turbulent politics which characterizes the far North was Chief Isaac, ruler of the Moosehide Indians, a tribe living near Dawson.

The chief, who is exceedingly shrewd, heard the words "job" and borhood that day. Sometimes in that gree for white blood. "jobbery" often used in the campaign al fresco luncheon room a hundred speeches, and endeavored to ascertain laborers rub knees and exchange gostheir meaning, but without much succonsiderable reflection called on one pain, and then swung his first into the the head officials of the territory.

'Me wantum job," he announced. in amazement.

day Magazine.

His Views for Sale.

The story is told by President Hadley of Yale university, who enjoys a view of things from his front wingood story none the less if he himself be the victim. Mr. Hadley was traveling in Yellowstone park when father, convulsed with laughter, but he chanced upon a young man whom every now and then recovering from his appearance he judged to be a student.

"This is a wonderful scene, isn't t?" said the professor. The stranger smiled, nodded to his

questioner and turned without speakng to look at the view. "Do you think," asked President Hadley, now confirmed in his idea that he was talking to a student,

"Will I let that woman, divorced for that this chasm was caused by some no one knows what, enter my home, great upheaval of nature, or is it the meet your mother and sisters on equal result of erosion or glacial action? "She is a lady. She has merely What are your views-" been unfortunate. She had no father "My views," said the stranger to protect her," was what the son an-

Yet they are

panung reaching within four inches of the knee; but deep in the jungle they By the time they were nicely mixed are practically naked. Their single "You want work?" asked the official up another workman squealed, grab: implement is a long bladed, butcher-"No wantum work," declared the hind him whom he suspected. That weapon(together with a wood spear) chief haughtily. "Me wantum get rich was two fights under way, and in five, and industrially in fashioning out of quick. Me wantum gov'ment job- minutes there were seven, with a the ubiquitous bamboo their ornaments, their buckets, their rope, their string, their houses and the food receptacles which take the place of pots and pans and plates

Nearly all of the jungle folk on both sides of the Siam Burmah line tattoo the thigh, sometimes from knee to There, behind the shutters, stood hip, more often from the knee to only six inches above. The design may be a turtle, or the much-dreaded tiger done elaborately, but the one most frequently seen, and the simplest is a sort of a lace or fringe patterns in the middle of the thigh, or just below the knee, like a garter. The women do not tattoo, believing in beauty unadorned.

The Dirigible Torpedo. An invention which, if the weather

be in its favor is extremely deadly is the dirigible torpedo, controlled by wireless electricity from ship or shore. It is merely the ordinary torpedo. loaded with its big charge of gun cotton and a firing pin the head to explode the torpedo when it strikes, fitone platform at a public meeting. ted with double rudders, one horizon-There was a rough old fellow in the tal blade to steer up or down, one of vertical to steer right or left; a storage battery for ordinary use and propulsion, a wireless current transmitter and motor for dirigible propulsion, and an elevated tube to discharge a small jet of sea water forced through it by an electric pump.

An observer completely sheltered behind earthworks could send out such a torpedo from shore, make it go miles out to sea, wait for a battle ship of the enemy, swim around it, dive under I'd given \$10 if I hadn't seen him it, and with certainty ram its armored bottom with the firing-pin head. One such station could defend the Sandy Hook entrance to New York harbor if the weather were always good .-Everybody's Magazine.

Sad Bereavement.

At the time of Mrs. Cleveland's residence in Washington Leo Wheat was her pet pianist. She rarely gave an entertainment at which he did not play.

One day she met him on the street, and saw that he looked very sad. "What is it, Mr. Wheat?" she asked, in accents of concern. Leo drew his hand across his eyes.

"I am sad, Mrs. Cleveland," he replied. "Very, very sad. As a matter of fact, I have lost my wife." "I am sorry," said Mrs. Cleveland,

somewhat surprised that he was not in mourning. "When did it happen?" Mr. Wheat sighed heavily.

"My wife got a divorce a year ago Mich. from me," he explained, "and I have only just heard of it."—New York little book, "The Road to Wellville."

TRAVEL IN THE OLDEN TIME.

Louis Joliet Had Few Comforts on Long Voyage.

It was a clear September day in Montreal, 1672, that Louis Joliet, a young Canadian, in the dress of a first stated through our 'coureur du bois," ran down to the river and, placing his gun in a canoe, already provisioned with a bag of corn and a bag of tobacco, sprang lightly into the boat and was soon breasting the strong current of the St. Lawrence. The man carried a commission from the French government authorizing him to lead an expedition from Mackinac to discover and explore the great river of the West, conjectured to empty into the Gulf of California. He also bore a commission to Jacques Marquette, of the mission of St. Ignace, to be his assistant and companion in the proposed expedition. The prospect of a lonely voyage of

a thousand miles in a canoe caused Joliet no apprehension of discomfort; for a companion had he not his gun, for warmth and cheer his camp fire, from the weather. It will be hinged for solace his pipe? And for protecon a float which will be buoyed in a tion there was his inverted canoe, betank of water let into the earth. The neath which he could sleep unmindful tank will be of concrete and cement. of the elements. Work is now in progress, and when all is finished, observers operating this

Steel Fishing Rods.

Steel fishing rods have been brought to such a state of perfection that they are now being sold extensively in the place of those of bamboo. It is said that they are handier to carry, and the corpse of its fallen master. Lock are better balanced.

Shouting Their Praises.

Kirkland, Ill., Jan. 2nd .- (Special) -Cured of the terrible Rheumatic pains that made him a cripple for years, Mr. Richard R. Greenhon, an old and respected resident of this place is shouting the praises of the remedy that cured him, Dodd's Kidnev Pills

"I had the rheumatism in my left limb so that I could not walk over ten to fifteen rods at a time, and that by the use of two canes," Mr. Greenhon says. "I would have to sit or lie down on the ground when I was out trying to walk and the sweat would n down my face, with so much pain. could not sleep at night for about re or six weeks.

"I tried different doctors' medicines, but they were all no good. Then I sent for Dodd's Kidney Pills and almost from the first they brought relief. By the time I had taken fourteen boxes of them my rheumatism was all gone and I can truly say I spots, wherever they happen to tem- feel better than I have in the last

Port Orford's First Twins.

The population of Port Orford is increasing at a 2:40 gait. On the as he ever saw, and that all parties money was always mentioned in conbig Irishman suddenly clapped his jungle edge they go uncovered, men are doing nicely. They are said to be that?" asked Shofer. Grube explain nection with the two terms, and after hand to his cheek, let out a yelp of and women, above the waist, the the first twins born in Port Orford, and the whole town is delighted at their arrival. "Here's to your health and your family's, George; may you all live long and prosper," and may the example you set have many followers.-Port Orford (Ore.) Tribune.

Virtue in "Holy Wells." Practically all the ills to which the flesh is heir can be cured by one or another of the holy wells of England it is claimed. St. Ninan's, in Cornwall, is said to restore lunatics to sanity, but the patient must be immersed in the water and held there until the breath has nearly left his body. This seems a heroic measure. But even this is not so severe as the treatment which must be endured if a madman is to be cured at Llandegla Well, in Wales, for after the victim is nearly drowned he is trussed like a fowl and laid under the communion table of the neighboring church for the night.

Egyptians Used Fine Tools. When the pyramids were built the faborers did not work under such disadvantages as have long been attributed to them. Researches show that they had solid and tubular drills and lathe tools. The drills were set with jewels and cut into the rocks with keenness and accuracy.

HABIT'S CHAIN

Certain Habits Unconsciously Formed and Hard to Break.

An ingenious philosopher estimates that the amount of will power necessary to break a life-long habit would, if it could be transformed, lift a weight of many tons.

It sometimes requires a higher degree of heroism to break the chains of a pernicious habit than to lead a forlorn hope in a bloody battle. lady writes from an Indiana town:

"From my earliest childhood I was a lover of coffee. Before I was out of my teens I was a miserable dyspeptic, suffering terribly at times with my stomach.

"I was convinced that it was coffee that was causing the trouble and yet I could not deny myself a cup for breakfast. At the age of 36 I was in very poor health, indeed. My sister told me I was in danger of becoming a coffee drunkard.

"But I never could give up drinking coffee for breakfast although it kept me constantly ill, until I tried Postum. I learned to make it properly according to directions, and now we can hardly do without Postum for breakfast, and care nothing at all for coffee.

"I am no longer troubled with dyspersia, co not have spells of suffering with my stomach that used to trouble me so when I drank coffee." Name given by Postum Co., Battle Creek,

THREE YEARS AFTER.

Eugene E. Lario, of 751 Twentler avenue, ticket seller in the Union St tion, Denver, Col., says: "You are liberty to repeat what I Denver papers about Doan's Kidney Pills in the summer of 1899, for I have had no reason in the interim to change my opinion of that remedy. I was subject to severe attacks of backache, always aggravated if I sat long at a desk. Doan's Kidney Pills absolutely stopped my backache. I have never had a pain or

CAMEL IS AN OUTCAST.

Perfect Picture of Mental and Morr Depravity, Says Traveler. "Any ordinary horse on the stree

might feel insulted at being named in the same class as a domestic animal with that four-legged impassive ve hicle, the camel," writes a traveler "Fidelity in a camel does not exist." An artist might as well depict a devoted crocodile fondling a lost child as a faithful dromedary standing over wood Kipling touched the core of the matter when he avowed that a man might as reasonably lavish his affection on a baggage wagon. In short, the camel is an unredeemed boor more brutish than a mule, less sensible of endearment than even of extremes of temperature and weather. Its virtues are of the body, its great endurance compensating for a mental and moral depravity that must be labeled nothing sort of amazing."

CUTICURA SOAP

The World's Greatest Skin Soap-The Standard of Every Nation of the Earth.

Millions of the world's best people use Cuticura Soap, assisted by Cuticura Ointment, the purest and sweetest of emolient skin cures, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, and many sanative, antiseptic purposes which readily suggest themselves to women, especially mothers, as well as for all the purposes of the toilet, bath and nursery.

Friends in Affliction.

In one of our homes for aged, indigent and crippled old men are a blind contractor and a deaf mason, named respectively Shofer and Grube. An automobile snorted by. "What be ed. "It's a vast, noisy baste, for sure," commented the blind. "Noisy? didn't hear no noise," said Grube. "But I seen it right enough. You be sore afflicted, Shofer, not to have the use of your eyesight." "It don't trouble me, it don't," returned Shofer, "but I thanks the Lord every time I looks at ye I'm spared my hearing." Thus one man's affliction is another man's score.

Burmese Lack of "Grit." Mr. O'Connor thus sums up the Burceso character: "The real fault of the Burmese character lies in its lack of 'grit.' Continuity of purpose, steady determination, the faculty of depththese the Burman lacks. And the explanation simply lies in this-that he is racially still a child; a very clever and promising child with great aptitudes, with much latent power and singular sweetness of character, but with the faults, the passionate temper, the cruelty, the want of self-control of

Oldest Hackman Is Dead. Mackinac Island, Mich., dispatch: Owen Corrigan, for fifty-three years a resident of Mackinac Island, died, aged 85. He was known as the oldest hackman and a most original character.

Girl Escapes Death. Pottsville, Pa., special: Falling 406 feet down a mine breach, Harriet Jones, ten years old, of Heckschersville, landed on a bed of snow and escaped without a single injury, not even a scratch.

A New Langest Word. What is believed to be the longest word in the English language has just been discovered by an enterprising druggist. It is "ortho-ethoxy-anamono-benzoyl-amido-quinolin," and is the correct scientific name for a well known proprietary medicine.

DAD INFLUENCE OF DIRT. Undoubtedly Exercises a Deleterious

Moral Effect. Dirt is contagious. If anybody doubts it let him observe the streets. Littered with all sorts of rubbish, they effer a positive invitation to everybody to toss or sweep his surplus matter into them. If the streets were kept in a proper state of cleanliness no decent person at least would think of throwing anything upon the roadway or in the gutters. There is also a moral effect. Cleanly surroundings beget clean habits. Children going to and from school are unconsciously infuenced by what they see, and dirty streets being a standing example of mtidiness in those to whom they natstally look for leading, they grow inrent and careless Thus the tolerition of dirt on the streets becomes not only a menace to health, but an influence for evil. Considerations of this sort may have no place in the iverage alderman's mind, which seems to take its inspirations from medieval times when the public thoroughfares were the common sewers.-Chicago

Sir Arthur Sullivan's Error. Sir Arthur Sullivan was at one time greatly worried about what appeared to him to be a bad inconsistency in "The Lost Chord." Sir John Robinson tells the story: "The words are: 'I struck one chord of music like the sound of a great amen.' Now amen is a word of two syllables so that there must have been two chords. He the song had been sung in public, and he was terribly afraid he would get laughed at for it. Strange to say, no-

"I must have it" "It is yours," promptly replied Corot, "if you will agree to pay the butcher and baker bills of my illustrious but poor friend, John Francois Millet." "Agreed," said the patron, well pleased. The bills were presented to him, and they amounted to nearly \$6,000, neither butcher nor baker having been paid for twelve

The Baby Explains.

Some time ago, a day nursery gave its little ones an outing at the beach. As a group of them stood looking at the ocean, one of them said, in an awe-struck voice: "Say, God must be awful rich to be able to put so much salt in the water! I wonder where he gets all the water from, anyway?" "Why, he turns a hose into it from heaven, and lets the water run all night, of course," came the unhesitating answer from a wee maiden experi-

Tell them about the "little conqueror" The good deeds of Doan's Kidney

Are spreading o'er the city, Lafting burdens from aching backs, Curing the pains of kidney ills.

Read the proof in this woman's words.

Mrs. J. Mitten, residing on Regent street, Niles, Mich.: "I took several boxes of Doan's Kidney Pills, and they did me a world of good. I had nearly all the symptoms common to kidney complaint, but those which caused me the most trouble and suffering were backache and dizziness. My back was so sore and lame most of the time that I could hardly get around, and many a night it pained me so after I went to bed that I had to get up. When the dizzy spells came on, which was quite often, I had hard work to keep my balance and staggered when I tried to walk. After I got Doan's Kidney Pills at Dean & Son's drug store and took them they relieved me so much that I kept on using the remedy until my dizziness and backache and other symptoms had en-

tirely left me." Doan's Kidney Pills 50 cents a box; for sale by all dealers, sold by mail on receipt of price, Foster-Milburn Co., Buffalo, N. Y., sole agents for the United

ERNEST HAROLD BAYNES ERNEST HAROLD BAYNES.

WAR SECRETARY.

Sir Arnold Forster Favors Decrease of 8,761 Men Leaving Force of 227,-000-Would Begin on Cavalry Regiments.

British War Secretary Arnold-Forster has made his long-promised statement as to his proposed reform of the project several long brick chimneys, army when the house of commons W. T. Giauque, Agent. went into committee on the vote for ney swifts have made their home, as said he did not propose to touch the D., Y., A. A. & J. RAILWAY the war office recently. The secretary they or other swifts have done for militia, as public opinion was not ripe many years. Some time before the therefor, neither would the royal arnest-building began, three swifts ap- tillery be decreased nor the number of peared, flying back and forth above cavalry regiment be reduced. He prothe house and over the country round posed to reduce the regular infantry about, twittering shrilly, and pursuing forces by 14 battalions, leaving 40 or 50 one another without a pause, for battalions for home service, after prohours together. Now and then one viding for India and the colonies. The of them would wheel close above the army would be divided into two parts.

These would be reduced to 500 men, the three disappeared, and the remain- 400 of whom would be enlisted for two ing two, apparently mated, began to years' service and would afterward make themselves at home. Not far enter the reserve for six years. These

The volunteer establishment would be reduced to 180,000 men and much larger grants would be made, so as to had touched them. It was not for make the volunteers an effective force. From 15,000 to 16,000 regular troops would be kept at Aldershot, ready to Meinhold, deceased. take the field as a fighting force. Provision would be made for a permanent garrison of 21,500 men in south Africa.

It appears that Mr. Arnold-Morster's proposal would result in a decrease of 8,761 men, leaving a total force of 227,-000 and a decrease in expenditure of \$2,450,000.

The war secretary concluded with saying that the army was passing through a period of great danger. Sufficient remedy for the existing evils must be found and, while he was unable to provide any marked immediate reduction in the expenditures, he hoped that his scheme would enable his successors to effect progressive economy.

The British army as at present constituted was one of the costliest machines ever devised and quite unfit to supply the peculiar needs of the empire. In view of the progress made in submarine boats, he hoped to make a considerable reduction in the expenditure on the aquatic establishment. He discarded the conscription proposal, as it would cost an additional \$130,000,000 yearly for the same number of troops as now forthcoming.

"Young men and women wanted to learn telegraphy. Railroads need operators badly. Total cost six months course at our school, including tuition (telegraphy and typewritting) board and furnished room, \$89. This can be reduced. Catalogue free. Write today. Dodge's Institute, Monroe St., Valpar's

GREAT FAMILY MEDICINE

Thedford's Black-Draught comes nearer regulating the entire system and keeping the body in health than any other medicine made. It is always ready in any emergency to treat ailments that are frequent in any family, such as indigestion, biliousness, colds, diarrhea, and Thedford's Black-Draught is the

standard, never-failing remedy for stomach, bowel, liver and kidney troubles. It is a cure for the domes tic ills which so frequently summon the doctor. It is as good for children as it is for grown persons. A dose of this medicine every day will soon cure the most obstinate case of dyspepsia or constipation, and when taken as directed brings quick relief.

DANVILLE, ILL., Dec. 23, 1902. Thedford's Black-Draught has been our family doctor for five years and we want no other. When any of us feel badly we take a dose and are all right in twelve hours. We have spent lots of money for doctor bills, but get along just as well with Black-Draught. IRA H BADER.

Ask your dealer for a package of Thedford's Black-Draught and if he does not keep it send 25c. to The Chatta-nooga Medicine Co., Chattanooga, Tenn. and a package will be mailed to you.

Showing What's Doing In All Sections of the State

FOR LIFE.

Murder on Friday, Capture on Sunday, Sentence on Monday.

George Bearss, the murderer of Mrs. Abel Brown, of Berville, was on Monday morning started through the court in Port Huron from which he will ats on the dollar. Mrs. Chadwick's emerge into the state prison for life. Bearss pleaded guilty in both the jusice's court and the circuit, and at 9:30 Judge Law sentenced him to Marquette for life, and started the same evening for his life home

The explanation of the cold-blooded murder as told Judge Law follows: He said that he was in the hotel at Memphis Friday morning and became drunk. He then procured a bottle of whisky and started for the Brown place. He said that his purpose in going over there was to sell Brown some old rubber as Brown is accustomed to buy such stuff. When Brown for some cider and she took a pitcher and went down cellar for it. He keeping the fires going under the boiltook the lamp and followed, and at the er foot of the stairs he stumbled and fell against the woman, striking her with club and beat her to death.

Though Mrs. Chadwick is said to Bearss said that if the woman's throat had been cut he must have done it, but he does not remember anything about it. He said that he does not re-

They dashed along the railway, carried trench after trench, and succeeded in reaching the water course beneath Payuisean mounstrong Russian force, advancing eastward of Payauisean mountain, threatened the retreat of the Japanese who, after a desperate struggle, retired to the north, leaving several machine guns, 300 rifles and 80 prisoners. It is estimated that they lost 600 killed. The Sheriff Burgess, of Saginaw, received Japanese halted near the cemetery, and finding that both their flanks had carried all the works forming the outfire, which casued them heavy losses."

A Bishop's Trouble. Following the charges that Bishop vania, is guilty of criminal libel, conduct unbecoming a bishop, falsifying and misrepresenting in writing the now famous "Upjohn" letter making charges sensational counter charge is made that forgery or trickery was employed in getting the names of some men who ostensibly signed the presentment against the bishop. That questionable methods were resorted to by some one against the east and west faces of the is borne out by the statements of at least two signers of the document. Equally sensational is the announcement from Philadelphia that, if the

friends of Bishop Talbot succeed in quashing presentment against him on on a criminal charge will follow. This charge will be based on libel.

More Captures.

so great a distance upon our victories.

Gen. Kuroki is still alive. A Magnificent Horror. A report from the Jap army head quarters before Port Arthur says: Rihlung fort, captured Thursday, is the largest and strongest of the eastern fort ridge. Tunnels for mines were cut shown an inclination to brutal behavior through solid rock and two tons of dynamite were used to blow up the walls. The spectacle was magnificent and the work of the assaulters was splendid. lying range of the mountain forts, they plosion of the first charge. The remain-Half the garrison was killed by the ex- from advancement, entrenched on small hills near Etse mountain, under a severe enfilading resistance. Four heavy guns, seven rapid firing guns and two machine guns were captured, as well as 30 quick-fir-

ing guns which were stored in the fort.

Another Fierce Attack. It is understood that the Japanese dynamiting and paralleling against the eastern section of the main circle of forts around Port Arthur is progressing favorably. The right wing of the besiegers continues a heavy and effective shelling of the new town preparatory to operations which are nearing completion. It is probable that the next attack will be simultaneously directed fortress in an endeavor to divide and weaken the resistance of the defenders.

Bloody Excesses Feared.

Reports from the interior of Russia show that the fairly good impression technicalities, the arrest of the bishop produced by the imperial manifesto on the subject of reforms may be more than offset in many places by the effect of the government note of warning to the zemstvos. Private reports from From Tokio comes a report received Moscow especially indicate that much more captures. It says: "A body of est fears are expressed that the ancient capital of Russia may be the scene of

Hostelry in New York City Unique for There is rapidly approaching comeletion on Broadway a hotel building which has certain poculiarities of architecture which attract the attenion of many who pass. The most striking thing about it is the small number of large windows and the large number of small windows. The large windows are single, rather than double, and on either side of each

iarge window is a small one. One is at a loss to account for it, unless one happens to see a sign on the corner He used to hide behind the door, of the building, which says that the So-and-So hotel will be opened shortly with 300 rooms and 200 bath
He used to nide bening the door, and I can see the dancing eyes,
The golden hair, the cheeks of tan,
And hear the laughing challenge ring:
"Papa, come find your Little Man."

And I would search till, in surprise, Behind the door I'd find the prize, And hear the sweet, delighted cries Of Papa's Little Man.

man, as he studied the building from But now our hearts and homes are void His merry laugh we hear no more; Yet in the Festall Hall of Dreams the opposite corner. "It is the most impressive evidence I've yet seen of the American craze for bathing. I can remember the time, and it was not so many years ago at that, when hotels mere the restain Hall of Dreams the calls me still—yes, o'er, and o'er. Behind the door of things unseen. He hides so surely that I can Not find him, yet that voice still calls, "Papa, come find your Little Man."

> "Papa, come find your Little Man." And though I unsuccessfully grope, I am not wild or misanthrope, But sometime still I fondly hope To find my Little Man.
>
> —Charles Lincoln Phifer.

Rainy Day Game.

Tear a piece of paper into as many pieces as there are players, and on each piece write some number reprebaths,' and he'll find plenty of occasenting an hour in the day. As there are only twelve hours, there can be only twelve numbers, but if more than welve are playing, you can make some of the figures half-hours until there are the required number.

On one piece mark a cross and then ty stenographer, as the clerk, taking player drawing one out. The one who gets the slip with the cross on it is "It," or "wolf," while the other players are called the "sheep."

A ring is then formed by the sheep, the wolf standing in the middle. The sheep then call out, "What time will you dine to-night, old Wolf?" and Mr. there is a hoodoo in giving nails the Wolf calls out any hour he happens to think of. The sheep who holds the a nail on the street. I don't mean a slip corresponding to the number dozen or two of them, when you hap called by the wolf starts to run. If he can get around the ring three times before being caught by the wolf he is safe; if not, he must be "wolf." The game keeps up until all have had their turn at being "wolf," and this does not take long, for the wolf is not supfull of nails picked up at one time and posed to call the same number twice. —Exchange.

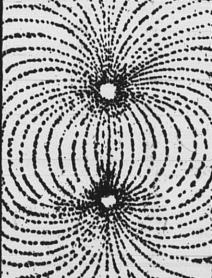

Magnetized Filings.

If you possess a magnet there are more ways of amusement and instrucyour way to answer an advertisement tion open to you than you have any it is a sure sign you'll get the place. idea of. For instance, the following Girls thing it is a particularly lucky experiment with iron filings will prove

Iron filings are procurable for the asking in any machine shop or place where there is an ironworker's lathe. They are the minute particles of iron that fall when the iron is being cut or ground into shape, and possess the same relation to iron as sawdust does to wood.

A bar magnet is necessary for what you are to show. Lay it on a table or any flat surface and then cover it over with apiece of stiff cardboard. Now sprinkle the iron filings over the surface of the cardboard, and then a very curious thing will happen.

The filings arrange themselves as shown in the accompanying illustration, each particle forming a part of

the various curves which radiate from the two magnetic centers, which indicate where the ends of the bar magnet are.

These lines have a scientific appellation, for you have made a very learned demonstration with the iron filings and the magnet-you have shown most clearly what is generally called in science "the lines of magnetic force."

Bewitched Penny.

Ten or twelve pennies are needed for this trick. Place them separately on the table, and have one of the coins chosen and marked by several persons. Get as many people to examine it as you can, so they will "all be sure to know it again." Have this coin dropped along with the other mixed. Placing your hand in the hat feel every coin, and you will at once detect which is the marked coin by its warmth. The coin has been warmed by the many hands through which it has passed. It is best to you won't shave my head," whispered have the coins originally placed on as cold a place as possible, but you must not turn back the table cloth, or give any other hint from which your audience can gather the secret of the puzzling trick. You can add to the wonder if you are blindfolded and allow some one of your audience to attend

Good Forfeit Game.

one who is chosen as leader says: "I fish for all kinds of fish. When I say, 'let go,' you must hold fast.

Then the leader begins to speak quickly, saying anything that comes into his head, until suddenly he says, "let go!" or "hold fast!" at a time when he imagines that he can catch the others off their guard. Those who are caught must pay a forfeit.

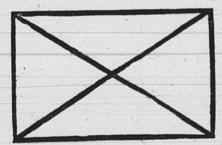

When I say 'hold fast,' you must let

One of the players takes a spoon and taps on the table with it, saying: Who can't do this, can't do a thing! Spoon, spoon, spoon-sping,

Then she passes the spoon on to the next one. But she does it in a certain manner by using the left hand, or by holding the spoon with a certain number of fingers, or by doing something else unusual. The one who receives the spoon must do it over again and again till she does it right, and if she cannot do it, she must pay a forfeit.

Here Is a Good Mirror Trick. Seat a person at a table and place before them a mirror.

Give him pencil and paper and ask him to draw the following design while looking in the glass:

And at the same time hold a piece of paper over his right hand so as to hide it entirely from his sight.

It is wonderful how difficult a task this will prove to be, simple though

Another good stunt is for him to try to write his own name while looking in the glass.

Hidden Names. In the following verses are hidden

the names of ten fishes and insects: When I'm a man I'll own a ship, No matter what my aunt may say; I'll be the captain, and many a trip We will take to far Bombay.

I'll carpet the decks and paper the sides. And paint all the perches and poles; And when we're near port we'll have

some sport In running aground on shoals.

Big Nat will be my mate, of course, He was purser once on a scow; And Jim will come-he was perfectly

glum Till I asked him-he's happy now. We'll blow a bugle and fly a flag, And if we come near Cape Cod, I'll flourish my sword and send home

That I'm ready to marry Maud.

Hidden Names.

In the following are to be found, first, the name of a continent; second, the name of a country in that continent, and, third, the name of the capital of that country:

"Did you lose a bird, sir?" Katie As I answered, "No," I happened to

catch a slight twinkle in her eye. "Kate," I laughed, throwing down my papers, "I am afraid you are jok-

"No; I found a bird," she replied. "Where."

"Never mind, sir; is it yours?" "No." "Then I'll keep it."

"All right; you may keep it; only tell me what the fun is about, Kate.' Her answer floated in through the win-

"It's a gold eagle. I found it in your pocket, but I'm so glad I may keep it."

The Egg and Card Trick. Stick an egg, the contents of which

have been blown out, onto the back of a card with a little wax. Now show the card to the audience in such a way that they do not see the egg. Now holding up the card with the right hand show the audience that your left hand is empty. Then swing it around and take the card in the palm of the hand, at the same time holding onto the egg with the right hand. With a quick movement drop the left hand, having the card in the palm, at the same time disengaging it from the egg, which remains in the right hand. The audience doesn't see what has become of the card, but sees in the coins into a hat, and the whole shaken | place of the card an egg. Instead of up so that the coins will be well an egg you may use a small bunch of flowers.

Jack-Knives.

The word "Jack" is applied to any contrivance which does the work of a boy or servant. In French the name "Jacques" is a term used for a youth of menial condition. The term "country jake" is of kindred sense.

Jack-lord, Jack-a-napes, Jack Tar, boy's knife. In early days the jack firal contest.

knife headed the list of a boy's toys, The players all seize a tablecloth or and with his skates, gave him the a similar sheet by the edges. The greatest pleasure. His skates were made of-what do you suppose? Beef bonts, fastened to the soles of his feet. The boys pushed themselves on the

ice by means of poles shod with sharp

iron points.

The Elephant as a Worker. Anyone who thinks the elephant a slow, clumsy beast would have cause to change his opinion on seeing him at work along the rivers of northern Siam. The rainy season, which begins in April, is the time when the teak logs, cut during the dry season in the forests about the upper waters of the Menam river, are floated down to Rahang, where they are caught and rafted to Bangkok. Instead of redshirted, spike-shoed "river drivers." such as handle the logs in their downstream journey to the sawmills on the Penobscot and Kennebec in Maine, the "lumber-driving" of the Siamese rivers is done by barefooted, halfnaked mon on elephants, and the "bone" labor and much of the thinking involved in the operation are done

Kindliness Among Birds.

by the elephants.

I have seen a little chirping sparrow make a business of feeding some half-fledged robins. She watched for her opportunity, and whenever both parent robins were away from the nest she rushed in with her morsels. The robins resented her officiousnes and hustled her out of the tree whenever they caught her there. I have heard of a wren that fed a brood of young robins in a similar way, and of male bluebird that fed some young birds that were in a nest near its own, -Outing.

Kindness in Japan.

Day by day something new in the training of the Japanese child comes to light to explain the exquisite gentleness that marks the nation as a whole. Kindness to dumb creatures of all kinds is a national trait, and it is hardly to be wondered at, when it is known that children are not permitted to eat cakes or cookies cut in the shape of animals, for fear they may learn to think of living beasts as having as little feeling as the confections

For the Boy Carpenter. Lots of boys have their own toolchests. Here is a simple contriv-

Take a piece of wood about seven and one-half inches by two and onefourth inches, and about the thickness of a cigar-box (in fact, a cigarbox is just the thing). Then get another little piece two and one-fourth inches square, and mark both of them out in the same way as is done in the accompanying diagrams (Figs. 1 and 2). Cut out the two pieces, then the groove marked A, the width being just the same as the thickness of the wood and the depth half of it. Now

sandpaper the two pieces until they

fig 1 HOLDER FOR

are perfectly smooth, and fit the little piece into the grooves, driving two or three small nails in through the back to keep it tight. The rack is then complete. (Fig. 3) .- Farm and

Pretty House Ornaments. Here is something children can

grow in their own windows. Get some raw peanuts and plant in a pot of good earth. They will sprout and very soon a pretty leaved vine will be running over the top of the pot. The saucer garden is a dainty thir g. Put in the middle of a saucer a single pine cone and place moss about it. Sprinkle the cone with mustard seed and then keep the whole very moist. The seed will sprout and soon the tiny plants will be covered with tiny yellow flowers. Canary seed and fine grass may also be planted.

Peanut Contest. Place peanuts across one side of the

room at intervals of about three feet. Give each contestant a toothpick. At a given word they all commence to roll the peanuts across the room with the toothpicks. COSTLY ROBES FOR WOMEN.

The Middle Ages a Period of Unbounded Extravagance. Say what you please about the extravagance in these days of women's dress, it cannot compare with the gowns of olden times, embroidered in genuine jewels and fashioned of costliest velvet. Of course, such gowns were not passing fancies or fashions, but once made, were worn throughout the owner's life on such occasions as

were appropriate. The women of the Middle Ages often had their own arms and those of their husbands embroidered in gold and jewels on their robes. Isabella de Valois had a robe and a mantle to match of red velvet worked with gold birds sitting on branches formed of emeralds and pearls. The railing robes were termed cottes-hardies or surcottes. and were heavy silk in red or blue tanne, and these were sometimes veined. Their arms were embroidered on them in silver and gold thread. The wearer's own arms were done on the left or sinister side, impaled by her husband's, the latter being on the dexter or right side. Sometimes the arms of the wife only appeared on her robe, and her husband's were embroidered on her mantle. The most costly material then known was used for these mantles, most of them being fashioned of samite or baudeskin, silk woven with an admixture of gold thread. Women of other than taintless character were forbidden to wear these mantles on

costly workmanship. He Made a Short Address.

The task of addressing a Sunday school was new to him, but when he was asked by the superintendent to make a short address to the young hopefuls he consented before he knew what he was doing.

The teachers noticed that he was ill at ease as he advanced to the front of the rostrum and began with a few platitudes about the weather and the "shining young faces." Then he conceived the idea that he should drive home a moral lesson, and he began the tale of a woman whose life was wrecked by the use of drugs. "Just think of it, children," he said

in his most dramatic manner. "That The necessary look of horror was not forthcoming and he realized that he had gone too deep for the brief wis-

"I suppose you do not know what narcotics are," he remarked in a pat-Well, children, narcotics are opiates." Even after this explanation the audi-

reign. As that hour does not suit everybody, it follows that the personages who are honored with invitations to dine with the emperor find it very difficult to muster an appetite for dinner at tea time. They suffer in silence for the most part, but it is said that a certain great lady resolved to act. She was invited to dine with the

emperor, but she sat at table and ate nothing. The kindly sovereign feared she was indisposed. No, she was quite well. Then why did she send every dish away? "Sire," she answered, "I never eat between meals." The repartee has had a success at Vienna. But the emperor still dines at half-past 5. without the society of that great lady.

Couldn't Bribe the Surgeon. BATTLE OF GETTYSBURG.

Told by Member of First Michigan Cavatry, Who Was Present During the Entire Engagement

Captain E. L. Negus enterted the army May 1, 1861, as private, Company D, first three months infantry, mustered out August 7, 1861, re-enlisted in First Cavalry August 21, 1861, and was mustered out November 7, 1865, with a record of over one hundred and twenty-five battles and the rank of captain, and the honor of commanding on its last campaign on the enemy's soil the best regiment of cavalry the world ever

At an early hour on the morning of

July 3 the Michigan brigade of cavalry found itself on the pike leading from York to Gettysburg, which position formed the extreme right of the Union line of battle that day, the brigade was formed in line of battle facing Gettysburg. The brigade remained in that position until about 12 o'clock noon, when the enemy appeared on our right on the Oxford road, a road leading at right angles with the York pike, and connecting with the Emmetsburg pike running to Baltimore, and in rear of Union army. This is the road that Gen. Lee intended Gen. Stuart to sweep down over, at or about the time that den. Pickett made his grand charge in

At this time a position of the brigade was formed at right angles to our former line when the enemy opened on us with their guns. Pennington, with his battery, now took a position in our front and silenced the enemy's guns. With the Sixth Michigan Cavalry on the left facing Gettysburg, the Fifth was dismounted and sent up in front, and the Seventh was posted to the right. The First Cavalry was held in column of squadrons mounted to support the tle took the shape of the letter L. It was now reported to the commanding day at the home of H, Lehman of general by the Signal Corps that the Rebel General J. B. Stuart was moving down the York pike from Gettysburg

The enemy soon after commenced to sea visited Monday with his mother, advance on our front. The pickets on the Oxford road were driven in and the enemy's line of dismounted men could be seen coming over the crest of the hill. Here is where the Fifth Michigan Cavalry did splendid fighting. Col. Alger at the head of his regiment held in check and repelled the advance of five times his number, which no other regiment in the Cavalry Corps could have done, and I believe this was owing to the regiment being armed with Spencer repeating rifles. They only last round of ammunition. This movement was a signal for the enemy to charge, which they did at once, mountwith his regiment, the Seventh Michigan Cavalry, which they did in good style, but the great mistake they made was that they charged with raised carbines and revolvers, and when they came within range of the enemy they ared their revolvers and carbines which roke their columns into jelly, and with the fire of the enemy mixed them ap like a mass of pulp, and back they ame every man for himself and the Rebel's right after them. Only for Col. Alger, who had mounted part of his regiment, coming up and charging the C. Watts is planning to make 200 enemy in flank. This charge compelled

They charged in the close column of squadron. presented their teacher, Mary Whalian, lot of man. On they came, their sabers and carbines glistening in that July sun, they directed their course towards Elder Caster, of Chelsea preached Chester's two guns. All eyes were now of Chester's battery (two guns) in front on a rise of ground in an old orchard, which, with Pennington on our left, was ordered to open on the Rebels with solid shot and shell, which tore through their advancing ranks, closing up the great gaps that were made by the gists. terrific fire of the two batteries as if nothing had happened. On they came. As they drew nearer grape and canister was substituted for solid shot and shell. Horses and riders were mown down and great gaps were made in the head of that advancing column, but closing up the gaps as they came, until within seventy-five yards of Chester's guns. Now all eyes were turned toward the First Michigan as it came up on the head, Col. Towne, "Steady, steady, men!

HAS NO SUBSTITUTE

all along the line as the trot was sounded. "Steady, steady, men!" and now within thirty yards of the head of the enemy's column, and not more than fifty yards from Chester's two guns, the charge was sounded, and with a yell that was heard above the roar of battle the First Michigan Cavalry charged upon the front ranks of the enemy sabering all who came within reach, and on came the second squadron which delivered a heavier blow than the first and then the third squadron struck them a harder and more terrific blow than the first or second squadron did, and the enemy could not stand those terrible and rapid blows, and 'began to form out to the right and left, and was soon in headlong flight with the other squadrons of the First Michigan Cavalry in hot pursuit, cutting and slashing all who came in reach. For a moment, but only a moment, that long heavy column stood its ground, then unable to withstand those rapid blows it gave way into a disorderly rout, leaving vast numbers of their dead and wounded on the

While the First Michigan being master of the field had the satisfaction of seeng the much vaunted cavalry led by their favorite commander seek safety in headlong flight. The enemy was not only defeated but was driven from the field in great confusion, and this regiment held the ground until night.

The wounded of both sides was taken safely situated some distance in the

The Foster Vent Stop is something that every one with a windmill wants. There are times when your vent leaks out one half your mill pumps, especially when the leathers in your pump are worn some. The Foster Vent is the simplest vent ever made. Anyone with a small wrench can put them on. They are put on with clamps and two small bolts hold them firmly to their place and they can not get out of place. They are made to fit 34, 1, 114 and 2 inch pipes. Agents wanted everywhere. We sell them at 75c each. For terms to agents call on or write to

are worn as part of the ordinary night gear. But in the Seventeenth century a charming letter-writer, the Comtesse d'Aulnoy, gives an amusing description of the rigidity of Spanish women upon She was received by a great Spanish lady in the latter's bedroom. The hostess

was in bed, with her hair undressed, and, after exchanging a few preliminary compliments, she begged the visitors to excuse her if she got up and robed herself. As soon as it came to putting on her stockings, however, she insisted upon the door being locked and the key taken out and given to her. Asked why she barricaded herself in so laboriously, she replied that she knew the Comtesse had some Spanish gentlemen with her, and that she would rather die than have them see by any accident her bare feet;

The carriages in Spain at this period had special doors which took off, and which, when a lady got out, were lowered to the ground in some way, so that the foot could not be perceived as she de-

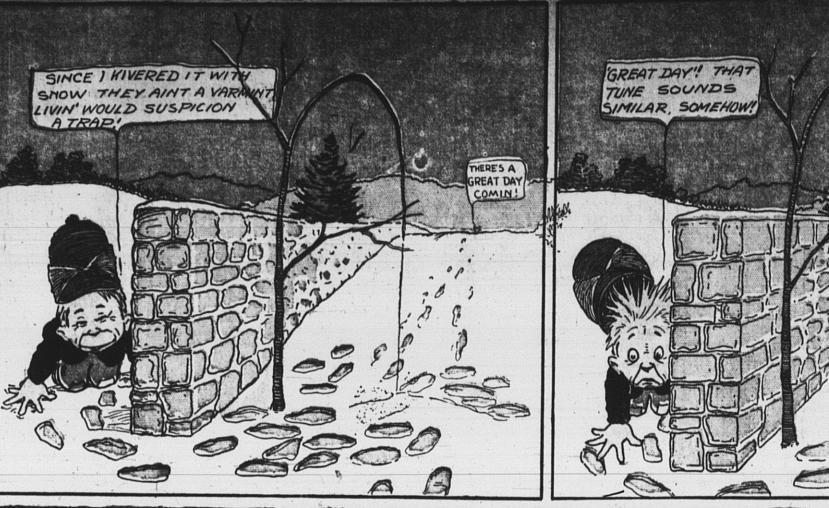

The skirt trouble became so pronounced at one time that Louise of Savoy, wife of Philip V., insisted upon a general shortening. The outcry of hus- ! bands was comic and exaggerated. Shorten their wives' skirts? Show the feet they themselves saw but rarely? Many of them declared they would rather see their spouses dead than permit such ; an outrage upon decency. However, the Queen was persistent, and the skirts became slightly less for the future. Nevertheless, the feeling against looking at women's feet continued, and Louise of Savoy herself was within an ace of losing her life because of it. She was riding a new horse in the courtyard of the palace, when the animal reared and flung her off. Her foot was entangled in the stirrup.

A number of people were present, but none dared expose, much less touch, the foot of a royal lady. Two courtiers at last dashed forward and extricated her, but so dire was the offense committed that they rode straight home to make preparations for instantly fleeing from the voy, however, looked at the matter from
