HELD AT LIMA CENTER.

One of the Most Instructive Farmers' One Day Institutes Ever Held in This County---Good Attendance.

The one day Farmers' Institute held at the M. E. church, Lima Center, last Thursday afternoon and evening was one of the best and most instructive ever held in Washtenaw county. Every George Wing of Blackman township, paper called forth lively discussions James Gildart of Brookfield, Wm. Gil- time spent in attending the gathering. that were listened too with rapt at- dart of Albion and Charles Gildart of tention and those who participated in Colorado. the debates were well versed upon the subjects that they handled.

The gathering was presided over by Henry Wilson of Lima and L. W. Oviatt, At Opera House Friday Evening-Beneof Auburn, Bay county, was the state nstitute speaker.

Mr. Oviatt handled the subject of Maintaining Soil Fertility, in a very able manner showing with the aid of a large chart the elements of fertility contained in the various crops grown in Michigan and what it would cost to buy them in the form of commercial fertilizers. According to the chart, the elements of fertility contained in a ton of clover hay cost in the form of comnercial fertilizer \$7.15. Of all grasses grown in this vicinity alsike clover is the most valuable in this respect.

Mr. Oviatt explained how it would pe possible to feed the hay to dairy cows and return practically all the fertility contained in it to the land as one ton of butter contains but 36 cents worth. He did not give the value of 'oleo" in this respect.

Emil Zinke of Freedom, told how he added humus to soil which would not grow clover by plowing down rye. G T. English opened the subject of practical stock feeding by giving some personal experiences in which he said that he made a steer gain three pounds per day for 30 days at an expense of 15 cents per pound of gain and made a profit out of it by increasing the value of the entire weight.

Mr. Oviatt was very enthusiastic regarding the use of the silo, and explained the coustruction of those in use on his farm, which can be built by any farmer who is at all handy with tools at about one-half the expense of those which have been built in this vicinity. In answer to questions, Mr. Oviatt

said that he had tried soil inoculation on his farm without result presumably because the bacteria was already present in sufficient quantities. Messrs McDonald and Fenton of the

Mt. Clemens beet sugar factory gave short talks, promising to put in a weighing station here if 200 acres could be contracted for the growth of beets.

John Kalmbach of Chelsea gave his experience in raising beets and pointed out the mistakes which he made.

Mr. Oviatt considered the outlook for sugar beets in Michigan very bright but was very conservative on the subject advising the farmers to start with one or two acres instead of ten to

Mr. Oviatt's lecture on "The Bag with Holes" was certainly fine and was considered by those present fully the equal of anything in that line which they had ever heard.

The crowd that jostled and pushed her hither and yon was a goodnatured crowd, elated and cheered by some Divine thought of the approaching New Year.

Inhaling some of its spirit, the woman quickened her steps, and stopped mantingly at last in front of a decidedly squalid-looking house in a poverty-stricken quarter of the city.

"I'll get the things first," she smiled faintly, and when she ascended the stairs a little later her arms were filled with sundry mysterious packages, topped by one great paper parcel, from which protruded frivolously some toothsome chocolate eclairs and other daintles, interspersed here and there by New Year's candies of varicolored hues.

"Was she much trouble, Mrs. Mulligan?" she asked, as in response to her knock a door to the left of the dark hall was thrown open, and a frowsy, betousled head thrust forth.

"An' is that you, Mrs. Relevan? Shure I'm glad you kem home. No, ma'am she wasn't the shloightest thrubble-not the shloightest."

Question of Distribution That Has to Be Solved.

"That's not it at all," was the reply. "It's all a question of distribution. I made my money by handling just one of the world's many products-just one-but every item of waste was eliminated from the handling. This wasteful duplication in distributing is what picks our pockets and keeps the poor man down. Why, grapes that I raise on my farm in the West cost to produce just one cent a pound, but to put them on the table in New York makes the price soar to twelve cents a pound. In other words, God gives us grapes for one cent and our wasteful way of distributing them around makes them cost us eleven times more than they are actually worth.

"You will say that our method of handling products makes work for many men, but the high prices they are obliged to pay for everything makes it a game of taking in with one hand and paying out with the other. There's no doubt of it, much of the world's misery hinges on this one thing-the question of distribution.'

Senator Bate of Tennessee says he loves "Christmas times." The senator will never be a very old man, for his heart is young, and he loves all that is good and innocent. Said he:

"Christmas in the city is well enough for those who don't know any better, but if you want to get right down to genuine enjoyment just knock the dust of the city off your feet and get out in the country-preferably the mountains of my state-and there you'll find Christmas sure enough. Ships That Passed at Sea. Samuel J. Elder, the Boston lawyer,

relates this story of a dialogue between the skippers of two vessels which met at sea:

"What ship is that?" roared the skipper of a little Gloucester schooner, hailing a great full-rigged ship. "Reindeer, Calcutta to Boston!" was

the answer from the captain of the big ship. "Who are you?" "Schooner Dart, from Gloucester," answered the schooner's skipper.

"How long you out?" "One hundred fourteen days," was the answer. "How long you out?" "All night!" returned the Gloucester man, and he put his helm to port and do, anwhow?"

Sinking Spells, Headaches, Rheumatism, All Caused by Poor Blood-Cured by Dr. Williams' Pink Pills.

When Mrs. Williams was asked for some details of the fearful illness from which she had so long suffered, she spoke as follows: "Ever since I had nervous prostration,

about thirteen years ago, I have had periodical spells of complete exhaustion. Any excitement or unusual activity would throw me into a state of lifelessness. At the beginning my strength would come back in a moderate time, but the period of weakness kept lengthening until at last I would lie helpless as many as three hours at a stretch." "You were under medical treatment, of course?' "Yes, when I became so bad that I

had to give up my housework, in May of 1903, I was being treated for kidney trouble, and later the doctor thought my difficulties came from change of life. I was not only weak, but I had dizzy feelings, palpitation of the heart, misery after eating, hot flashes, nervous headaches, rheumatic pains in the back and hips. The doctor did me so little good that I gave up his treatment, and really feared that my case was incurable." "What saved you from your state of hopelessness?"

"In July of 1903 I had a very bad spell, and my husband came in one day with a little book which told of remarkable cures effected by a remedy for the blood and the nerves, Dr. Williams' Pink Pills. He bought a box for me, and that was the beginning of my return to health. My appetite grew keen, my food no longer distressed me, my nerves were quieted, and my strength began to re-

When I got down into the lime country I found the road all logs mostly laying cross ways and that gave them the name of Crossways. Well, I was compelled to drive slow to make my breakfast hold out till dinner, and to make sure walked. and fell in with other lime haulers and natives of the country. It was early spring, to early for frogs, but now and then a turtle slid from the logs into the pussy willow blossom covered slime, In places the muskrats had undermined the logs and they floated about. It was before the rats had gained their culinary notoriety, and there were lots of them.

As this is not a rat story, I resume Let's see, I was speaking about mosquitoes. Well, they took all our spare time in keeping them off the horses and ourselves, as they were so large, Office in Hatch block. Residence on fat and lazy they were bound to ride. I spoke of their size, and a man who lived there said that later in the season they got to be much larger, and he had seen them that a good many weighed a pound. I thought by their perseverance that to throw in a few they would weigh an anchor. Now to the fact that called One night this week in order to air

Well about midnight when I had just begun my beauty sleep I was awakened by a sensation as If a crowbar was entering my head. I immediately shot out a right hand swing and luckily hit him with enough force to knock him off his pins and causing him to lift his drill and start for tall timber. Whether he had gone through the skull or the drill bent when it struck it, I can't say, but felt as if the top of my head was coming off. Whoknows where I would be now if the drill had stuck, as the window was yet open. He got away but must have had his fur overcoat on as it was a cold night. Next morning on looking out I saw the front leg of a large animal on the lawn, and I leave you to draw your own conclusions. I was all run down from nervousness and overwork and had to resign my position and take a rest. I found that I was not gaining my strength and health as fast as I could wish, and as your Wine of Cardui was recommended as such a good medicine for the ills of our sex, I bought a bottle and began using it. I was satisfied with the results from the use of the first bottle, and took three more and then found I was restored to good health and strength and able to take up my work with renewed vigor. I consider it a fine tonic and excellent for worn-out, nervous condition, and am pleased to endorse it.

Preserving the Teeth.

To preserve the teeth in health and beauty is a most important matter for thus one not only saves one's self pain and expense, but also actually prolongs one's life—the decay and loss of teeth being but the initial stages of the general break-up of the health. Artificial teeth are at their best vastly inferior to one's own teeth in good working order. To prevent decay of the latter, absolute cleanliness of the mouth is essential.

That Dodd's Kidney Pills will cure Bright's Disease. Remarkable case of George J. Barber-Quick recovery after years of suffering.

Estherville, Iowa, Jan. 23d .- (Special)-The experience of Mr. George J. Barber, a well known citizen of this place, justifies his friends in making the announcement to the world "Bright's Disease can be cured." Mr. Barber had kidney trouble and it developed into Bright's Disease. He treated it with Dodd's Kidney Pills and to-day he is a well man. In an interview he says:

"I can't say too much for Dodd's Kidney Pills. I had Kidney Disease for fifteen years and though I doctored for it with the best doctors here and in Chicago, it developed into Bright's Disease. Then I started to use Dodd's Kidney Pills and two boxes cured me completely. I think Dodd's Kidney Pills are the best in the world."

A remedy that will cure Bright's. Disease will cure any other form of Kidney Disease. Dodd's Kidney Pills never fail to cure Bright's Disease.
