### MISFORTUNES OF A TRAVELER.

Rev. E. E. Caster's Railroad Experience During Monday Night's Extreme Cold.

Rev. E. E. Caster arrived home from Medina Tuesday morning, but had a hard time of it getting here. He left Addison Junction at 6 p. m. Monday evening, and although it is only 15 miles from that place to Jackson, he did not arrive at the prison city until 9:30 Tuesday morning.

When about half an hour out of Addison Junction the train ran into a snow drift and it took the combined force of two engines and a gang of men until 2 o'clock Tuesday morning to get the train out of the drift. Shortly after starting onward the train plunged into another drift and there it stuck until 9 a. m., by which time a force of men and three engines had managed to get the train started again and it reached Jackson half an hour later.

The passengers managed to keep comfortably warm until it became necessary to separate the cars in order to get them out of the drift and then for two hours they knew what it was to be cold, as the mercury in the thermometer was coquetting around 18 degrees below zero.

His troubles were not over yet, however, for he had a return ticket on the D. Y. A. & J. to Chelsea and found upon enquiry that the cars on that road were not running. He had just time to catch the Grand Rapids express on the Michigan Central and after boarding it reached home without further mishap.

### ADVANCE IN PRICE OF BEANS.

New York Dealer Figures Big Shortage in 1904 Crop—Prices to Go \$1 Higher.

A letter of interest to bean growers has been issued by a New York buyer, which puts the situation of the bean market in a light that indicates much higher prices, due to what he figures out as a shortage in the crop. C. J. Ferrin, jr., of New York, is the author of the letter received by the Herald, and he goes on to show that from the reports it would indicate a shortage of 22 per cent in the Michigan crop for 1904, 14 1/2 per cent in New York, 10 to 15 per cent in Wisconsin, 20 per cent in Canada, and over 33 1/2 in California, due largely to damaged condition. As the bean crop throughout Europe in 1904 was practically a failure there has been a consequent larger demand upon the crop of this country, and not less than 50 per cent of the entire yield for 1904 is said to have been already shipped for European ports.

The letter concludes: "Today's prices being 20 per cent lower than Feb. 1, 1904, with 45 per cent less beans, a total deficiency of 65 per cent and consumption equal to or greater than that of last year, the logical conclusion must be that an advance of \$1 per bushel or over is not improbable."

### Prohibition County Convention.

The Prohibitionists of Washtenaw county met in convention Monday evening at McMillan hall, Ann Arbor, and elected delegates to the state convention which will be held at Kalamazoo Feb. 28. The convention was addressed by W. A. Brubaker, of Chicago, who spoke on "Some phases of the saloon question." A large audience was present and contributed very liberally to the collection which was taken for the carrying on of the national and state prohibition work.

### Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medical tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair avenue, Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak from useless doctor's drugs that I could not eat. Soon after beginning to take Electric Bitters I obtained relief and in a short time I was entirely cured." Guaranteed at Glazier & Stimson's drug store; price 50c.

### BUSINESS CHANGE.

L. T. Freeman Has Bought Out the Bank Drug Store.

This week marks two important changes in the mercantile life of Chelsea, in one of which a progressive business man comes into possession of the store in which as a youth he started in life as a clerk, and by the other a capable young clerk starts out in business as a partner of his brother.

The first change is that which came on Saturday last when L. T. Freeman bought out the old established drug and grocery business of Glazier & Stimson, which was started by M. J. Noyes and Geo. P. Glazier in 1868, and for the 37 years since that time has been carried on in the same location under the familiar name of the Bank Drug Store.

Sixteen years ago come July 17, the new proprietor entered the store as a clerk and began what has since become a very active business career in Chelsea. Two years later he took his examination as a registered pharmacist before the state board of pharmacy, passed the examination successfully and has never since that time allowed his certificate to lapse. For five years in all Mr. Freeman clerked in the Bank Drug Store and then he left it to enter the employ of R. S. Armstrong & Co., with whom he remained until 1895 when he bought out the grocery business of George Blaich, since which time his career as a pushing, successful business man is so well known as to need no mention here.

It will be noticed in connection with this change that for the first time in 37 years the name of Glazier is not connected with the drug business in Chelsea, L. T. Freeman having become by his purchase last Saturday sole proprietor of the Bank Drug Store. Mr. Freeman will, however, retain the old name of the Bank Drug Store, which has been its designation so long a time, for distinctive advertising purposes.

The store is now in the hands of the carpenters, painters and decorators, and is to be overhauled, renovated, redecorated and thoroughly fixed up from top to bottom, and the store is to have a new steel ceiling. Its motto will be that of "Cleanliness and quality before everything else," which has characterized Mr. Freeman's store all through his business career. Before he gets through Mr. Freeman will make it a drug store second to none in Washtenaw county.

Saxe C. Stimson, who has been connected with the Bank Drug Store since he was a mere boy, will remain for a short time with Mr. Freeman and will then take a well earned rest. The other clerks Harvey G. Spiegelberg, Lee Foster and Lee Chandler will also remain in his employ.

The second change is that in Mr. Freeman's old store where his brother has bought a half interest in the business. The firm name will remain as heretofore Freeman Bros., and the store will be under the direct management of Ralph and Chauncey Freeman.

### Real Estate Transfers.

The following are recent real estate transfers in this vicinity:

Wm. C. Kellogg, York, to Charles A. Kellogg, Sylvan, n w 1/4 of s e 1/4 of sec. 16, town 2 south, range 3 east, \$600.

James L. Babcock, Ann Arbor, to John W. Dresselhouse, Sharon, n e 1/4 of sec. 17 and n w 1/4 of n e 1/4 of sec. 10, Sharon—200 acres—\$1,000.

Fanny E. Wines, Chelsea, to John J. Welhoff, Sylvan, lot 4, blk. 18, Eliza Congdon's 3d add to Chelsea, \$800.

George Watson, Detroit, to Harrison Hadley, Lyndon, 100 acres on s e 1/4 sec. 11, town 1 south, range 3 east, \$5,000.

The potato crop of 1904 was a record breaker, being 40,000,000 bushels more than the banner crop of 1896. The total number of bushels raised last year was 332,000,000 or 20 bushels for every family in this country. Potatoes brought a good price, too, and farmers made money by raising them.

## CONGRESS WILL BE BUSY WITH APPROPRIATION BILLS THIS WEEK.

THE WEST IN THE GRIP OF A VERY SERIOUS BLIZZARD.

AN UPROAR OCCURS IN THE HOUSE OF REPRESENTATIVES.

The Week in Congress.

The naval appropriation bill was taken up by the house on Monday, as soon as legislation for the District of Columbia had been disposed of. There will be a general discussion as to the naval policy and issue is to be taken with the committee in its provision for new ships. The topic of armor plate contracts is to fill its accustomed place on the program, while submarine boats and torpedo boats are to form the basis of offensive and defensive argument. The best estimate that can be made is that at least four days will be consumed in getting legislative action on this bill in the house.

The attention of the senate will be divided between the Swayne impeachment trial and the appropriation bills. The trial will be taken up each day at 2 o'clock and will continue to receive attention until 5 o'clock. Before and after the period between those hours the appropriation bills will be considered.

Hearst's Grave Charge.

Rep. Sullivan addressed the house Monday in reply to certain statements regarding himself alleged to have been printed in the New York American as an outcome of last week's debate on the railroad rate question, in the course of which he was frequently interrupted and stirred up by Rep. Hearst, who replied Hearst then sprang a sensation which threw the house in an uproar. He charged that John A. Sullivan was one of two brothers who had kept a saloon in Boston where a murder was committed and that the two Sullivans were indicted for manslaughter.

"I would like to ask the gentleman from Massachusetts," calmly inquired Hearst, "what he knows about that incident?"

Sullivan arose and facing Hearst said: "If the gentleman is asking that question of me I will be very glad to answer it."

Things became lively at this point and Mr. Butler shouted: "He has inferentially charged the gentleman with murder."

Butler was thoroughly enraged, and as he walked across the aisle exclaimed: "This is not fair to the country."

After the excitement had subsided Hearst said he recognized the justice of the remarks of Butler and that he greatly regretted it, but said he was compelled in defense of himself, "to defend the character of men who have made their attacks upon me."

Speaker Cannon's admonition caused Hearst to cut short his remarks with a statement that he was proud of the hostility of such as Sullivan, and that he would continue "to incur the hostility of that class of individuals," so long as he was in journalism or in congress.

Raging Blizzard.

Reports from Missouri, Minnesota, Kansas, Nebraska, Iowa, the Dakotas, northern Texas, Indian Territory, Arkansas and Oklahoma say that an unusually cold weather prevails. The thermometer ranged from 10 to 32 degrees below zero in places. Cattleman say that range stock will suffer the greatest loss in years, and some place the loss as high as 30 per cent. Great anxiety is felt for the Indian tribes, who are in no condition to withstand the storm.

Tanner Confesses.

Judge A. H. Tanner, United States Senator Mitchell's law partner, confessed in Portland, Ore., court Saturday to perjury in his evidence given before the federal grand jury in connection with the investigation of the land frauds in this state, when testimony was being taken with a view to connecting United States Senator Mitchell with the conspiracy to defraud the government.

"Do you expect to testify against Senator Mitchell?" was asked.

"Yes, I expect to be called as a witness in the case against Senator Mitchell, and I will tell the whole truth regarding the business of the firm without regard to consequences."

Killing Railroad Legislation.

Everything indicates that the senate will win out in its determination not to pass any railroad rate legislation this session. The method to be followed is to keep the hearings before the committee on interstate commerce going as long as possible and just before adjournment Senator Keen's resolution providing for a congressional commission to sit during the recess will be passed.

The M. N. G.

Brig-Gen. W. T. McGurn announced that four companies of the Michigan National Guard will be mustered out, reducing the number from 40 to 36. A troop of cavalry, a company of artillery and a signal corps will be organized. The state military board will meet Feb. 22 when other important matters will also be taken up.

Twenty-seven Children.

The father and mother of twenty-seven children, Mr. and Mrs. George W. Dunville, of Yankton, S. D., will go to Washington, and the senators and representatives will take them to the White House to see President Roosevelt. Mr. Dunville is only 34 years old, while his wife is but 28. The twenty-seven children comprise nine sets of triplets. Twenty-four of them are boys.

A man who has the dough finds it a cause to complain that his friends don't stick to him.

George Stuart Nixon, elected United States senator by the Nevada legislature to succeed Senator Stewart, was born on a farm near New Castle, Cal., April 2, 1860. He earned his own living from the time he was thirteen years old. He went to Nevada in 1881 and was employed as telegraph operator until 1885, when he entered the First National bank at Reno, Nev. In 1886 he was instrumental in organizing the First National bank of Winnemucca, of which institution he is now president. He was elected a member of the assembly from Humboldt county in 1891.

## THE PRESIDENT WILL NOT ALLOW ARBITRATION TREATIES AMENDED.

President Roosevelt will not present the arbitration treaties, as amended by the senate, to the countries with which they were negotiated. Secretary Hay makes this explanation: "The president regards the matter of the general arbitration treaties as concluded by the action of the senate on Saturday. He recognizes the right of the senate to reject a treaty either by a direct vote in that sense, or indirectly by changes which are incompatible with its spirit and purpose. He considers that with the senate amendment the treaties not only cease to be a step forward in the cause of general arbitration, but are really a step backward, and therefore he is unable to present them in this altered form to the countries with which we have been in negotiation."

Senator Cullom, chairman of the committee on foreign relations, after reading Secretary Hay's comment on the action of the senate in amending the arbitration treaties, said: "The senate's position is right undoubtedly. If anything is done hereafter the president will have to take the senate into his confidence. It might require a little more time, but otherwise I can see nothing in the senate's course inharmonious with the president's interpretation of his treaty-making power."

## NO BILLS.

The Rivers and Harbors, and Public Buildings Bills Dropped.

There was a quiet meeting of the senate committee on appropriations Wednesday afternoon at which it was decided that Rivers and Harbors and Public Buildings bills should be dropped. Senator Allison, chairman of the committee, took the initiative and declared that a halt had to be called, or the party would lose the next house of representatives. He told his colleagues that the treasury deficit was daily growing greater and that if these two bills were not cut off it would put the administration in a position that would be hard to explain. Other members of the committee agreed with him and a decision was reached to scan all the appropriations very closely. The failure of the rivers and harbors bill will be a hard blow to the interests of the great lakes, where several big projects had been planned by the engineers.

## To the Prison.

The last scene in the famous letter box scandal, in which Fourth Assistant Postmaster-General Bristow gave prominent mention to several Detroit and other Michigan politicians when he made the report on his investigation into postoffice department frauds, was enacted in Washington Tuesday.

"Gus" Machen, whom both Detroit and Toledo claimed when he was superintendent of all letter carriers in the United States, and autocrat of the post-office department was herded in a car with some 20 other whites and blacks, convicted in Washington, and started for the contract prison in West Virginia, where he will spend the next two years less the good time he may make. Along with "Gus" were the Goff brothers, inventors of the mail box that was used to bilk the government so successfully. They also have two-year bits to serve. The fourth, George Lorenz, of Toledo, has pneumonia, and was temporarily left behind.

## Passed the Rate Bill.

After nearly four days of discussion, the house on Thursday by a vote of 326 to 17, passed the Esch-Townsend bill, providing for the regulation of freight rates. The negative vote was made up of eleven Republicans and six Democrats. The closing hours of the debate were occupied by Williams, of Mississippi, the minority leader, and Hepburn, of Iowa, chairman of the committee which reported the bill.

## Ex-Mayor Hanged.

Without a tremor, J. Samuel McCue, aged 46, ex-mayor of Charlottesville, Va., met death on the scaffold at 7:30 o'clock Friday morning for wife murder. Hardly had his struggles ceased when his confession was given out by his three spiritual advisers.

## Thomas Adams, Inventor and Manufacturer of Chewing Gum, is Dead.

Thomas Adams, inventor and manufacturer of chewing gum, is dead at his home in Brooklyn of pneumonia and old age.

## Joseph Bramwell, aged 89, who amassed a large fortune in the cotton trade by blockade running of southern ports during the civil war, is dead at his home in Flushing, N. Y.

Negotiations have been concluded between Gov. Davis, Minister Barrett and the government of Panama under which the canal zone officials will assume complete charge of the city's sanitation.

## Through the will of Frank H. Croker, killed in an automobile accident at Ormond Beach, Fla., his father, Richard Croker, Tammany ex-chief, inherits the entire estate of \$400,000.

Croker wants his son, Richard, Jr., to be administrator, \$25,500.

## Fire destroyed the home of George Reed in Mundy, with a loss of \$1,000.

Benjamin C. Dean, a heavy owner of timber and mineral lands in Michigan, is dead in Boston.

Court officials now say that Lunt K. Salisbury will be in Grand Rapids for the Conger trial on February 25.

John J. Harter, recently appointed deputy state treasurer, has resigned as assistant inspector-general of the M. N. G.

William Butler, who lived near Otisville, is dead of general debility, aged 78 years. His wife died thirty hours before he did.

The Muskegon division of the Pere Marquette railroad was still closed Saturday by the blizzard which has raged since Tuesday.

Bert Bartlett, the Ann Arbor man arrested in Detroit for the burglary of the saloon of James Burke at Whitmore Lake, has confessed.

Pontiac council has passed resolutions asking the city attorney to prepare an amendment to the charter, whereby the board of public works may be abolished.

Live stock throughout the state is reported in very good condition. The condition in the state of horses is 95 per cent; cattle, 93; sheep, 96, and swine, 94.

Two great breaks in Lansing city's water mains have reduced the pressure to such an extent that little fire protection could be furnished in case of danger.

The death of a dwarf named Van Dusen has revealed the fact that during his forty-five years' residence in Muskegon he had saved and left nearly \$50,000.

Axel G. Burman, whose wife and family live in Sweden, died in Cadillac after a three days' illness. He was a wealthy real estate dealer and a prominent politician.

Andrew Mylott, aged 25, single, lies at his home, paralyzed from injuries received to his spine during a scuffle with a fellow employee of the Ann Arbor railroad in Owosso.

Battle Creek has four new cases of smallpox. The epidemic which began October 7 had dwindled down to two cases. All the patients are in the city detention hospital.

Relatives of Edward Groell, of Jackson, who mysteriously disappeared from Napoleon, O., about three months ago, have heard rumors that he met with foul play.

Cornelius Bonning, aged 60, a farmer, living near Kalamazoo, was hooked in the right eye by a cow as he was putting hay in the manger. The eye was ruined.

Deputy Attorney General Chase has returned from Washington, where he went in the interests of the Michigan Spanish war claims. He hopes to secure \$46,000 for the state.

Following the closing of the Saginaw high school because of smallpox, the Hoyt grammar school was closed Wednesday, there being a dozen cases among the pupils.

Heavy realty purchases, big extensions and the opening of a southern route talked of by the Grand Trunk, awakens the hope that Battle Creek may soon be the third city of the state.

The Soo Milling Co. has closed down its plant, owing, it is claimed, to the discrimination of the upper peninsula railroads in favor of Minneapolis millers, so they could underbid in the local markets.

Receiving news that he had been granted the pension which he had tried to secure for many years, Christian Cook, a well-known farmer of Owosso township was deeply affected and died of heart failure.

The coldest weather of the season struck St. Joseph Saturday morning, the mercury dropping to six below. Tonight a heavy snow is falling. Fruit of all kinds is in good condition, being well protected by snow.

Mrs. Oliver Karnes widow of an old soldier and a former flagman, has since the death of her husband, recently been the "flagman" at the Maumee street crossing of the Detroit Southern in Adrian. She is 67 years of age.

Walworth's general store and the postoffice and Odd Fellows' hall in the same building, Culbert's hardware store and Walworth's warehouse burned at Jerome, causing a total loss of \$4,000 Wednesday morning.

Engineer Stone, of Jackson, who was killed in the wreck at Raisin Center, had a premonition that something was going to happen, and expressed his fears to the telegrapher, A. H. Porter, while the two were taking supper together.

The Bromwell Brush & Ware Co., of Cincinnati, claiming to have lost \$10,000 in two years, paying 55 cents a day per man, has served notice on Warden Vincent that it desires to cancel its contract for 120 convicts at the prison.

A burglar escaping from the home of James McKnight, three miles from Memphis, with \$30, met Mrs. McKnight at the door and struck her over the head with his fist or a club. It is supposed he feared capture.

About a week ago Michael McAvoy, a Niles plumber, aged about 70, started to walk to South Bend. He was overtaken by a heavy snow storm, and has not since been heard from. He is supposed to have perished in the storm.

Carl Lohr, son of Albert Lohr, of Marshall township, who graduated last week from the United States naval academy at Annapolis, is home on a visit. He has been assigned to duty as junior officer on the new battleship Maine, the flagship of the north Atlantic squadron.

A fire which caused loss aggregating nearly \$50,000 started in the general store of J. B. Kessler & Son in Burr Oak early Wednesday morning and before it was brought under control six of the principal business buildings were in ruins. The total insurance is about \$20,000.

Battle Creek merchants and manufacturers claim that insurance rates are 40 per cent, higher than in other cities of the state, and they propose to organize a mutual insurance company of their own. They expect to effect a reduction of 55 per cent in the commercial insurance rates and 22 per cent in the resident rates.

## WAS OLIVE TEMPLETON ON A PERE MARQUETTE TRAIN?

MUSKEGON MOURNS THE DEATH OF PHILANTHROPIST HACKLEY.

A MANIAC MAKES HIS AGED FATHER RACE FOR LIFE.

Was She Miss Templeton.

Is Olive Templeton alive and keeping herself hidden? The latest theory regarding the missing girl from the Berrien Springs Adventist college is to that effect. Providing certain information now in the possession of Sheriff Tennant proves true, the accepted theory that Miss Templeton has either committed suicide or perished in a blizzard will be disproved.

Sheriff Tennant has learned that trapper on the Pere Marquette passenger train leaving Berrien Springs on the forenoon of Feb. 2 had said that a girl answering fully the description of Miss Templeton, boarded the train and came to St. Joseph. Following this clue the college authorities came to St. Joseph and Benton Harbor searching for the missing student, but never made known their mission to Berrien county authorities, claiming that they hoped at the time to locate Miss Templeton through their own efforts and avoid notoriety.

It is regarded as strange that the girl's father has not been here to assist in the search, or at least to investigate. It was understood that he is a well-to-do resident of Sawyer, Wis.

Muskegon Mourns.

The remains of Charles H. Hackley lay in state Monday in the assembly room of the Hackley library in Muskegon with members of the G. A. R. and Michigan National Guard on duty while the whole populace filed past the bier.

The funeral services at the residence on Tuesday were quiet and simple. The remains were escorted to the Hackley mausoleum at Evergreen cemetery by the civic and military societies and the school children in a body. A plan is being discussed of erecting a heroic statue of Mr. Hackley on the triangle fronting the federal building and the Hackley bank.

Mrs. Hackley is still confined to her home, but her condition is gradually improving.

Oppose Detroit.

The meeting of the executive committee of the Michigan State Agricultural Society, called to consider protests to the fair going to Detroit, was very stormy. Though it was finally voted that the previous action of the committee was regular, and the time allowed Detroit to complete its contract was extended to March 1, yet there was talk by Pontiac, Saginaw and Grand Rapids men of carrying the fight against Detroit into the courts on the ground that the committee's action is illegal. It is claimed that Detroit has four members on the executive committee, whereas the constitution provides that no one county shall have more than two members.

A Race for Life.

Converted into a maniac by strong drink, in which he had been indulging for two weeks, John Fitzgerald, a Long Rapids young man, nearly killed his father, Sheriff Peterson, who was called by telephone, was snowbound and could not get to the place for several hours. When he arrived he found that the old man was nearly exhausted from being chased around and around the house for eight hours. All of the furniture in the house was broken, and the old man had been severely cut about the head. The son is in jail and his father's recovery is doubtful.

Snowed In.

The continued storms have left Marcellus and vicinity snowbound. One doctor started out with snow shovel and wire clippers, prepared to cut barbed wire fences and dig out of drifts, but had to give it up and return without making professional visits, finding snow banks higher than his horses' heads within a mile of town. A liverman found in Volinia township drifts as large as a house, and the farmers had tunneled a road through, leaving it bridged overhead.

Lost All.

Fleeing with practically only their night clothes about them, 121 Agricultural college students reached safety in the burning of Wells hall at an early hour Saturday morning. The building was completely destroyed. Of the students driven out, nearly all of them lost all their clothing and other effects. To some of them this means all they have in the world, and President Snyder has taken up the matter of providing for the suffering temporarily.

Who Called?

"I had an inspiration from heaven," said Simeon Lewis, who was sentenced to serve a life term in Marquette prison for assaulting and robbing his former employer, Thomas Twamley, of \$28. "I was told to go forth and be a preacher to the convicts in the prison up there and I will spend the remainder of my life in that service."

In Sad Plight.

Helplessly ill and nearly frozen to death Mrs. Sarah Mackay, aged 60, and her son John, aged 25, were found in their rooms in an old frame building in Port Huron. For three days and nights they had been without fire—with the mercury near zero. A water pipe burst and they crawled into one room while ice formed a foot deep in the others. Mrs. Mackay is so crippled with rheumatism that she can scarcely move hand or foot. The son has a complication of diseases. Charitable persons are now looking after them.

# WASHINGTON IN YOUTH

In the year 1729 Rev. James Marye, a Huguenot refugee, and his bride landed on Virginia soil. This man was destined to fill a position of great trust and importance. He was to be the spiritual guide and adviser of Mary, the mother of Washington, and her family. After years of research it has lately been proved that it was he that gave to the young George those famous "Rules of Civility and Decent Behavior in Company and Conversation," which bore fruit in the production of that most consummate flower of American manhood, George Washington. That these "rules" played a most important part in the formation of Washington's character has been acknowledged by all of his biographers; in fact, the wisest and noblest of these "rules" are familiar in nearly every home in the country, but whence they came; whether they were the product of Washington's own brain, or whether they came from some outside and unknown source, and what this source was, has been for over a century a matter of dispute and conjecture.

This learned clergyman, Rev. James Marye, belonged to a prominent Catholic family of Rouen, France, and was educated for the priesthood in the Jesuit college of that city. In 1726 he renounced the Catholic faith, went to England and was ordained in the Church of England by the bishop of

their studies at some of the great universities. Washington's two elder brothers received this advantage, but the death of his father made a change in the family affairs. A large property was left to them, but there was little ready money and there were several children to educate and provide for. Hence the education of Washington, to his lifelong regret, was limited. It was under the care of this Huguenot that our great statesman received his most valued instruction.

Rev. Jonathan Boucher, teacher of Mrs. George Washington's son, John Curtis, says that George Washington had for his first teacher "a convict servant whom his father had bought for a schoolmaster." This convict was most probably one of a shipboard of convicts brought by Augustine Washington (George Washington's father) from England in 1737. After the death of his father (April 12, 1743), George, who was then 11 years old, was sent to live with his half-brother at the old homestead of Wakefield, in Westmoreland county, where he was born. Two years later he returned to live with his mother opposite Fredericksburg. It was then he became a pupil of Rev. James Marye.

John Fiske, in his "Old Virginia and Her Neighbors," states that at this time Washington attended an ex-

But these "Rules of Civility," as they are generally called, have been ascribed by the biographers to an absolutely apocryphal source. Washington Irving, Chief Justice Marshall and Henry Cabot Lodge knew not whence they came.

One of the latest of his biographers, Henry Cabot Lodge, has the following to say: "It was reserved for the storms of war to reveal the source of the 'rules.' A little volume was found in a Virginia library." On the flyleaf, he says, was the name of George Washington, written in a boyish hand. It was entitled "Young Man's Companion." It contained general truths and precepts, which, together with Hale's "Contemplations," so he says, may have furnished the basis of the "rules." This "Young Man's Companion" was by W. Mathew, written in a plain and easy style, and was printed in 1742, and seemed to contain much varied and useful information, such as lessons in arithmetic, surveying, the drawing up of legal documents, measuring land and lumber, gardening, etc.

But Mr. Lodge is in error. Moncure D. Conway has recently brought to light the true history of the "Rules of Civility." Mr. Conway, after an investigation extending through years, with the aid of Dr. Garnett, of the British museum, found in that great

## THE STATE LEGISLATURE.

No bill to pay the legislators a fixed salary instead of per diem has made its appearance in either house this year, though it has been the custom in former sessions to at least vote down any such proposition, chiefly because the salary proposed was not big enough, or if it were big enough it would look too big to observant constituents.

There was no quorum in the senate this morning and hardly enough votes in the house to do business. The representatives worked less than an hour and passed some minor measures.

Half a dozen bills were introduced, including one by Turner to allow an appeal to the circuit court from the order of a township board on the improvement of highways; by Brockway, to provide for the determination of the personal liability of defendants in suits of chancery to foreclose mortgages by the original decree in such suit; by Agens, to provide for the filing of all contract notes, title notes and notes of writings signed by the purchaser of personal property, retaining title to such property or a lien thereon in the seller for the purchase price thereof, and making the same subject to the statute relative to fraudulent conveyances.

The new primary bill for Wayne county was introduced Wednesday and within an hour had passed both houses. Senator Baird, of Saginaw, cast the only vote against it. There were some amendments made to meet the wishes of the townships.

Senator Yeomans has introduced a bill which would prevent all non-taxpayers from voting on any question involving the raising of taxes.

Rep. Ming has introduced a bill making it a misdemeanor for any dealer to give trading stamps. He says he thinks his measure is constitutional, though he has not consulted any attorney about it.

Gov. Warner says he favors the plan of having a state analyst pass upon the purity of all alcoholic drinks sold in Michigan. "We are examining all foods," said the governor, "to see that they contain no substance deleterious to health, and it is at least as important that the drinks consumed by so many of our people are what they are purported to be. It is quite likely that if all our drinks were pure there would be fewer crimes resulting from the drinking of 'squirrel' whiskey."

Senator Yeomans introduced a bill making an appropriation of \$34,000 for the Northern Michigan asylum.

Gov. Warner has signed the Kent and the Muskegon-Oceana primary election bills. The latter doesn't provide for numbering the ballots.

The legislative handbook, just edited by Journal Clerk King of the house, offers some interesting items on nationality. The nativity column of the 100 representatives shows that 41 were born in Michigan and 40 in other states. Canada produced 10 of the present members, England 4, Germany 2, Scotland 1, Ireland 1, and Norway 1. Of the 32 senators 14 were born in Michigan, 1 in other states, 4 in Canada, 1 in England, 1 in Scotland and 1 in Germany.

A bill to provide for a \$100,000 contagious disease hospital for Detroit, was introduced in the senate Wednesday by Senator John D. MacKay. The bill is in the form recommended by the board of estimates, an act enabling the common council to bond the city for such amount.

The state health board bill of Senator Doherty, which would result in the removal of Secretary Baker, is held in the house committee on public health.

Dr. Fairbanks, chairman of that committee, is disposed to favor Dr. Baker, and not disposed to hurry this bill before the house. He wished to allow a number of people to be heard on the bill before the committee before it is reported out.

Rep. Herkimer, of Monroe, has a bill to establish a binder twine plant at the state prison. The bill would abolish contract labor and change the prison from a place of contract to factory selling its produce in the market. There is \$750,000 worth of twine used yearly in Michigan.

Senator Crosey, of Kalamazoo, has a bill requiring that stationary engineers be examined and licensed. He will introduce the bill at the request of the National Association of Stationary Engineers.

## MUSKEGON'S LOSS.

Charles H. Hackley Has Passed Away.

Charles H. Hackley, the millionaire philanthropist who gave millions to Muskegon in public buildings, parks, etc., died Friday morning at 5:45, aged 88 years, after an illness of two days. Mr. Hackley had not been in the best of health for several years, but the end came suddenly. His gifts to the city were:

\$100,000 for site and building for public library.  
\$75,000 for endowment for same.  
\$25,000 more for furnishings and books.  
\$75,000 for new high school building to replace one burned and only partly insured.  
\$200,000 Hackley manual training school.  
\$100,000 endowment for same.  
\$300,000 Hackley hospital and endowment for same.  
\$75,000 Hackley park.  
\$71,000 soldiers' and sailors' monument and block of city land for same.  
\$28,000 statues of Lincoln, Grant, Sherman and Farragut to adorn Hackley park.

## ORGANIZE TO FIGHT TUBERCULOSIS

Committee of International Congress Plans Thorough Educational Campaign.

Early in October there was held in St. Louis, at the Hall of Congresses, in connection with the World's Fair, the American International Congress of Tuberculosis, which consisted of representatives gathered from all parts of the American continent, to discuss the best means of preventing and curing this dreadful disease. Special attention was given to the subject of prevention. The congress was in session three days. Many important questions were discussed and committees were appointed for the purpose of carrying forward an active campaign against this most terrible of all the foes of human life. The committee of publicity was charged with the duty of organizing a proper educational campaign in connection with Chautauquas, conventions, associations and fraternities of various sorts, for the purpose of placing in the hands of the public information relating to the best means of preventing and combating this scourge. Those who are especially interested in this phase of the question should address for further information the American Congress on Tuberculosis, Committee on Publicity, 28 Thirty-Third Place, Chicago, Ill.

## Movement to Suppress Tuberculosis.

Science has demonstrated beyond question that pulmonary tuberculosis or consumption of the lungs is both a preventable and a curable disease. This disease is produced by germs which find their way into the body through abrasions of the skin, through the mucous membrane of the mouth or the intestines and through the lungs. The germs of the disease are found in the sputum of persons suffering from tuberculosis. The germs are also found in the flesh and milk of animals suffering from the disease. The germs are found nearly everywhere. These germs cannot live in the tissues of a thoroughly healthy person, as the cells of the body are capable of destroying the germs, but when the body is weakened by indigestion, by the habits of breathing foul or bad air, by anything which impairs the health, the tissues lose their power to destroy germs so that when they enter the body they find lodgment, grow and develop and tuberculosis of the lungs, bowels or of some other part is the result.

Statistics show that at least 150,000 persons die of this disease in this country annually. Four or five times that number of persons are sick all the time with this disease. Tuberculosis kills more than any other malady. Experience has shown that the disease is not incurable, as has been generally supposed, but is a very curable malady if taken in time, and if the right treatment is applied. Not less than one hundred thousand lives could be saved every year by the application of proper means for preventing and curing this terrible disease.

## Danger in Alcohol in Cold Weather.

When the skin is warm it is red or pink in color. The cold air of winter causes the skin to become whiter in color. This is due to the contraction of the blood vessels of the skin. The amount of blood passing through the skin is decreased, and the amount of heat thrown off into the cold air is likewise decreased. If a glass of wine or brandy is taken the skin becomes red. The sensation of warmth produced is delusive. The victim imagines himself warmer. Indeed, the skin is warmer, but at the same time a great increase is observed in the heat thrown off from the skin. The result is an enormous loss of heat to the inside of the body.

Dr. Parkes, the eminent English sanitarian, says: "All observers condemn the use of spirits, and even of wine or beer, as a preventive against cold." The names of Dr. King, Dr. Kane, Capt. Kennedy and Dr. Hayes may also be cited as holding to this opinion. In the last expedition in search of Sir John Franklin the whole crew were tectotals.

Prof. Miller states that the Russian military authorities "interdict its use absolutely in the army when troops are about to move under extreme cold, part of the duty of the corporals being to smell carefully the breath of each man on the morning parade, and to turn back from the march those who have indulged in spirits, it having been found that such men are peculiarly subject to be frostbitten and otherwise injured."

Dr. Carpenter is authority for the statement that the Hudson Bay company has, for many years, entirely excluded spirits from the fur countries of the north, over which they have exclusive control, "to the great improvement," as Sir John Richardson observed, "of the health and morals of their Canadian servants and of the Indian tribes."

## Health By Training.

Health-getting, for the chronic invalid, is simply a matter of training, of health culture under favorable conditions, which include the discarding of all disease-producing habits, such as the use of tobacco, tea, coffee and all irritating, indigestible and disease-producing foods.

The free use of flesh foods is no doubt a cause of liver and kidney disease, as well as of stomach disorders. The uric acid of flesh food is also a cause of rheumatism and gout, as well as of nervousness and caliculus.

For substantial and permanent re-

covery, the best method is training. Weak muscles must be trained to act with energy. Weak nerves must be toned up and steadied. The weak stomach must be trained to normal activity and the whole body must be brought in harmony with the forces which make for health.

**Buttermilk for Consumptives.**  
Buttermilk is an excellent food for tubercular patients. It may be taken in the quantity of one to three quarts a day, according to the amount of other food taken. The patient may take two meals, three meals, or four meals a day, according to the quantity of food taken at each meal, and the kind of food. A safe rule is never to allow a consumptive to go hungry. He should eat whenever he has appetite, so that the full digestive power of the stomach may be utilized in furnishing the body with constructive material.

**Wanted—An Appetite.**  
Don't be without one. Why go to the dining room under protest. Don't try to buy appetite at a dollar a bottle. Earn it. One should enjoy eating and he will, if he has a natural appetite, such as comes to one who works for it.

The outdoor life creates appetite, and a cold morning bath awakens the brain, lungs, heart, liver, stomach and the appetite. An ice bag over the stomach for half an hour before meals is a good natural appetizer for a bed-ridden invalid.

Another method is a hot application over the abdomen for five minutes, followed by an ice rub over the same parts for one or two minutes. This not only produces an appetite but stimulates the flow of the digestive juices and thus furnishes the ability to digest.

## Diet for Tuberculosis.

The tubercular patient needs proteins, or tissue-building foods, but only just the amount which can be assimilated and utilized by the body. Any excess must be treated like poisons, and hence must be a burden to both liver and kidneys, and a waste of vital energy.

Proteids must be taken, not only in moderate quantity, but in the purest form possible. The vegetable kingdom presents proteids in combination with fats in great abundance, and in nuts, which can be made easily digestible by thorough chewing or by proper preparation.

The yolks of eggs afford also a combination of fats and proteids which is admirably suited to the tubercular patient. Milk, especially rich milk, is another food adapted to this class of patients when it does not produce "biliousness" through indigestion. Many tubercular patients have dilatation of the stomach. Such cases must avoid milk. Nearly all can take nuts if the right kind is selected and great care is taken with the mastication. Pecans, hickory nuts, almonds and filberts, pinons, or pine nuts are the best varieties. Half a pound of nuts may be taken daily by the consumptive, not only without harm, but with great benefit, if combined with other foods. A diet consisting of nuts, well-toasted bread and fruits is a perfect dietary for the tubercular patient. The yolks of a dozen eggs may be used in place of nuts.

## WHOLESAOME RECIPES.

**Lentil and Nut Loaf**—To one pint of rather dry lentil pulp add one cup of grated Brazil nuts and sufficient stale breadcrumbs to make a stiff mixture. Season with salt and sage if desired. Press into a bread tin and bake in a slow oven one hour or longer.

**Fruit Soup**—Into one cup of warm water put one rounding tablespoonful of sage and cook in a double boiler one-half hour. Then add two or three whole cooked prunes, one-fourth cup stewed raisins, two tablespoonfuls stewed cranberries, one teaspoonful lemon juice and sugar to suit the taste. Allow it to heat until the fruit is hot, and serve. Vermicelli or pearl barley may be substituted for sage, and dried cherries, with strawberry and lemon juice, used in place of the fruits mentioned.

**Snowballs with Prunes**—Steam rice one hour or until tender, then form into balls, with one large or two small prunes in the center. Serve with a hot sauce made by warming for a few minutes one-half cup of molasses, to which the juice of one lemon has been added and a little prune juice to make it of a consistency to pour easily.

**Banana and Nut Salad**—Peel three bananas and slice thin; add one-half cupful broken (not chopped) walnut meats. Pour over this two-thirds cup of the dressing and mix well. Serve on platters garnished with lettuce leaves.

**Peas Croquettes**—Boil until thoroughly done two cupfuls of Scotch peas. Rub through a colander and add two well-beaten eggs, a little minced parsley, a small grated onion, salt to taste and dry bread crumbs enough to make quite stiff. Form into croquettes, roll in beaten eggs and breadcrumbs and bake in oven about ten minutes. A cup of chopped walnuts will improve the croquettes.

**Savory Lentils**—Cook two cupfuls of lentils until well done. Rub through a colander and add salt and sage to taste. To serve, heap in the center of the dish and pour tomato sauce around it.

London. There, in 1728, he married Letitia Maria Anna Stalge, a sister of Rev. Theodosius Stalge, a famous minister in the early days of Virginia, and who was at that very time rector of a church in St. George's parish, a few miles from Fredericksburg.

On first coming to Virginia Rev. James Marye became the minister of a settlement of Huguenots at Manacan, or Manakinton, in Goochland (now Powhatan county), on the James river, above Richmond, and so excellent was his reputation that the good people of Fredericksburg desired him for a rector. Accordingly, in 1735, as shown by the early vestry book, the church wardens asked leave of Gov. Gooch, as was the colonial custom, to call Rev. James Marye to their pulpit. This request was granted, and in October of the same year he assumed charge of St. George's parish, the principal church of which was in Fredericksburg, succeeding Rev. Patrick Henry, uncle of the famous orator of that name. Thus began the long and eventful pastorate of the Marye family over this historic church, the first Rev. James Marye serving for thirty-four years, and being followed by his son, Rev. James Marye, Jr., who ministered until his death, in 1780. As was the custom of clergymen in those days, the first Rev. James Marye conducted an academy in connection with his church. It was this academy that Washington attended.

Except the tutors in families, the educational advantages in Virginia in 1745 were extremely limited. It was the custom of the wealthier families to send their sons to England to finish

cellent academy in Fredericksburg, of which Rev. James Marye was master. Paul Leicester Ford, in his "The True George Washington," page 63, gives the following interesting account: "On the death of his father, Washington went to live with his brother Augustine, in order, it is presumed, that he might take advantage of a good school near Wakefield, kept by one Williams, but after a time he returned to his mother and attended the school kept by Rev. James Marye, in Fredericksburg. It has been universally asserted by his biographers that he studied no foreign language, but direct proof to the contrary exists in a copy of Patrick's Latin translation of Homer, printed in 1742, the flyleaf of which bears in a schoolboy hand the inscription: "Hunc mihi quæso (bove Vir) Libellum Redde, si forsau tenues reperitum. Ut Seias qui sum sine fraude scriptum."

"Est mihi nomen "George Washington."

"It is thus evident that the reverend teacher gave Washington at least the first elements of Latin, but it is equally clear that the boy, like most others, forgot it with the greatest facility as soon as he ceased studying."

Among the manuscript copies of George Washington preserved in the State archives at Washington, the earliest of which bears the date of 1745, is a large manuscript book, in which a boyish handwriting are 110 "Rules of Civility and Decent Behavior in Company and Conversation."

institution a volume containing these self-same rules, written in French. One edition of this volume was printed in Rouen, and was among the textbooks studied by young James Marye when attending the Jesuit college of that city. This proves conclusively that it was he who translated these rules to his pupils in Fredericksburg, since he was the only man there who understood the French tongue, his native speech. The variations in the manuscript left by Washington are exactly such as a young boy would make in following the oral instruction of his teacher.

With these revelations it would seem that the dispute of historians and biographers over the history of these famous "rules" has at length been settled.

## Relics Worth Much Money.

Relics of Lord Nelson are worth a small fortune. An enameled gold telescope, once in the possession of the great admiral, was sold recently for £40; the wine flag of Admiral Bruyes, taken by Nelson, fetched 50 guineas; but a letter written by the gallant hero to Lady Hamilton just before he died realized the huge sum of £1,030.

## For Mutual Admiration.

"In general, we only praise heartily those who admire us." Just what was said the other day about the mutual admiration society of literary folk who write "Appreciations" of other literary folk. Moral: If you want Jones to give you a good word behind your back, give him a good word when he is standing just behind you."

According to the crop report issued by the secretary of state wheat on the ground suffered but very little during the month of January. The ground was well covered with snow during the month, affording ample protection to the wheat. Four-fifths of the correspondents reported no damage was done to the crop.

Michigan has been in the grasp of one of the greatest storms that has been experienced in years the past week. Reports from all sections show that the mercury is down from 15 to 20 degrees below zero. Trains have been stalled on nearly all lines of railroads, and much suffering has been experienced in rural communities.

The D. Y. A. A. & J. electric railway is experimenting with 7-inch and 9-inch compressed air whistles on some of its cars. Whichever size proves satisfactory will in the near future be adopted and all cars will be equipped with them. The whistle will be used for the same purpose as those on steam railroads, to signal road crossing, etc.

The Washtenaw Garden Co., which has been organized in Manchester, will have 368 acres of land under a high state of cultivation this year. The company will make a specialty of onion raising, but will also raise about 50 acres of potatoes and a small acreage of parsnips, celery, cabbage and horse radish. The company wants the farmers in the vicinity to plant potatoes and Holland seed cabbage, which it will buy at the highest market prices.

## WOMEN WHO CHARM

HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

Mrs. Chas. F. Brown

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular menstruation, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. Chas. F. Brown, Vice-President Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

"For nine years I dragged through a miserable existence, suffering with inflammation and falling of the womb, and worn out with pain and weariness. I one day noticed a statement by a woman suffering as I was, but who had been cured by Lydia E. Pinkham's Vegetable Compound, and I determined to try it. At the end of three months I was a different woman. Every one remarked about it, and my husband fell in love with me all over again. Lydia E. Pinkham's Vegetable Compound built up my entire system, cured the womb trouble, and I felt like a new woman. I am sure it will make every suffering woman strong, well and happy, as it has me."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhea, falling of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Lord Bacon on Tall Men.

When King James asked Lord Keeper Bacon one day what he thought of the new French ambassador, Lord Bacon answered evasively that he was a tall and handsome man. "Yes," continued James, "but what do you think of the headpiece?" "Sire," was the answer, "tall men are like high houses, wherein commonly the uppermost rooms are worst furnished."

Recent Assistance.

A friendly fire brigade recently perceiving that a neighboring town was being swept by a big fire, hurried over and immediately began to assist in the attempt to stop the fury of the flames. Whereupon the local fire chief came up and haughtily asked the chief of the assisting brigade: "Come, now; is this your fire or is it ours?"

Irish Inscription.

In the old churchyard at Killeel, Ireland, is a tombstone with the following inscription: "Here lie the remains of Thomas Nichols, who died in Philadelphia, March, 1753. Had he lived he would have been buried here."

## WAS CURED RAPIDLY

RHEUMATISM IN TWO SEVERE CASES MASTERED IN FEW WEEKS.

The Remedy Used by Mr. Schroepel and by Captain Laffore in Great Demand in Vicinity of Their Homes.

In the winter of 1903-4 Mr. Schroepel was confined to his bed by a severe attack of rheumatism. His doctor's treatment proved unsuccessful, but he subsequently regained his health by means which he describes with great enthusiasm.

"After five or six weeks of helplessness and pain," said he, "during which I was receiving regular visits from the doctor, I felt as bad as ever. Just then my mother, a woman eighty years of age, paid me a visit. She had received great benefit from Dr. Williams' Pink Pills, and she was confident they would help me. At her solicitation I gave up the doctor's treatment and took the pills in its place."

"And were you cured as the result of taking her advice?"

"Yes, quickly and thoroughly. Before the second box was finished I felt very manifest improvement, and within two weeks I was able to leave my bed and take up my neglected farm work. I continued to use the pills, however, until eight boxes had been taken, although long before that I felt that every vestige of the disease had been eradicated."

"Are there no traces left?"

"Absolutely none. For a year and three months there has never been the slightest return of the old trouble. For this happy result I and my family freely praise Dr. Williams' Pink Pills."

Within the bounds of China township, St. Clair county, Mich., there is no better known farmer than Mr. Henry Schroepel. His cure has therefore naturally attracted a great deal of attention. One of Mr. Schroepel's neighbors, Captain George Balfour, after hearing of the salutary results in Mr. Schroepel's case, decided to try Dr. Williams' Pink Pills for an attack of rheumatism from which he was himself suffering. He took eight or ten boxes and now declares himself free from the painful ailment.

It is little wonder that Dr. Williams' Pink Pills are much in favor in the community where Mr. Schroepel and Captain Balfour are so well and favorably known. They are sold by all druggists and are equally successful in curing neuralgia, sciatica and partial paralysis.

## THE LAMENT

By PERCY BYSSHE SHELLEY

Swifter far than summer's flight,  
Swifter far than youth's delight,  
Swifter far than happy night,  
Art thou come and gone;  
As the earth when leaves are dead,  
As the night when sleep is sped,  
As the heart when joy is fled,  
I am left alone, alone.

The swallow, Summer, comes again;  
The owl, Night, resumes her reign;  
But the wild swan, Youth, is faint  
To fly with thee, false as thou.  
My heart each day desires the morrow;

Sleep itself is turned to sorrow;  
Vainly would my Winter borrow  
Sunny leaves from any bough.

Lilies for a bridal bed,  
Roses for a matron's head,  
Violets for a maiden dead—  
Pansies let my flowers be;  
On the living grave I bear,  
Scatter them without a tear,  
Let no friend, however dear,  
Waste one hope, one fear for me.

## OLD BOSTON WHIPPING POST

Instrument of Punishment Had Permanent Position Near Famous State House

Fresh impetus has been given to the discussion of President Roosevelt's recommendation of the establishment of a whipping post in the District of Columbia by the report of the Washington grand jury indorsing the president's recommendation, and in the action of prominent citizens of Boston favoring the re-establishment in that city of its famous whipping post.

The Boston whipping post used to stand near the present site of the old state house, not far from Thomas W.

"The ordinary forms of punishment, like imprisonment or fines, do not take hold of certain whiteheaters," declares Mr. Paine, "and where boys in pure devilry are guilty of malicious mischief, the courts should have discretion to whip them."

Judge Fallon of the South Boston District court; Max Mitchell, president of the Boston Federated Hebrew charities, and a number of other prominent citizens heartily indorse Mr. Paine's sentiments.

Boston's first whipping post was

Lawson's office. It might come in handy in spilling such encounters as it was feared might take place between Boston's copper magnate and the redoubtable Col. "Bill" Greene, should there ever be a renewal of hostilities.

Robert Treat Paine, an eminent citizen of Boston, says that not only whiteheaters, but mischievous boys, should be given a taste of the medicine so freely administered in the time of their great-grandfathers.

### LEARNED LESSON TOO WELL.

Customer of Book Agent Had Read Up on Etiquette.

Henry James, the novelist, who, after an absence of twenty years, has returned to the United States, tells of a book agent driving many miles to a farmhouse where on a previous occasion he had sold a book. He found the daughter at home and discoursed fluently and impressively on the merits of his book. For each chapter he had a word of commendation. The pictures received detailed explanations. When he had concluded his argument and stated the financial proposition, the girl opened her mouth reluctantly and said: "Papa brought that book home with him the day before yesterday." After the agent had exhausted his supply of polite yet emphatic words and condemned the girl for letting him discourse when his time was so valuable, the daughter ventured the following explanation: "Sir, last year you sold me a book on etiquette. That book says that the art of being agreeable consists in knowing how to be a good listener. I did not wish to be discourteous."

### The Woman and the Dog.

If the average Belgian farmer were deprived of the services of his wife and dog he would soon succumb. The women and dogs do very nearly a full half of all the work done on the farm. Here on chill days when an overcoat and gloves are very highly appreciated by a pedestrian taking a brisk walk, on all sides are seen women working like beavers in the fields, weeding turnip fields, hoeing out potatoes, doing all sorts of work. In some instances, the man is by her side, but she is generally alone, excepting for the companionship of from one to four or five little "tots," boys or girls, who gather up the potatoes or pile up the weeds.

### JOIN FOR MUTUAL DEFENSE.

Stratford Girls Will Stand No More of Yale Flirting.

Tired of the frivolous attentions of Yale students who are "rusticated" to their town, Stratford's young and pretty society girls have banded together in an organization known as the Bachelor Girls' club.

The chief object of the club, according to its president, Miss Dora Rogerson, is to repel the flirtatious advances of Yale students who come to their town. In college life students who fail to make satisfactory progress in their studies are "rusticated" to places outside of New Haven.

Milford and Stratford get most of the students who are subjected to this form of discipline, but instead of trying to catch up with their studies the students have been trying to win the hearts of Stratford's pretty girls. When they return to college, however, the students quickly forget their rural acquaintances.

It will now be an offense punishable by a fine for a member of the Bachelor Girls' club to be seen in the company of a Yale man.—New York World.

### Not Information to Her.

Senator Nelson W. Aldrich was traveling from Providence to his summer place at Warwick a while ago, and as the train was somewhat crowded he sat down beside a bright little girl of about eight years who went to and from school on the line five times a week. She was a pretty blue-eyed, fair-haired little thing and the senator, by way of pleasant conversation, remarked: "What pretty eyes you have."

The small damsel looked at him calmly and responded, "So I've been told before." The conversation stopped right there.—New York Times.

## SLOWEST OF ALL ANIMALS.

Scientists Unanimously Award Palm to the Loris.

Scientists say that the slowest-moving mammal in existence is the slow-paced loris, an animal more or less closely allied to the monkeys. Its technical name is "Nycticebus tardigradus," the last part of which might be translated "lazy-footed." One of them, when timed, took exactly thirty-two minutes and three seconds in moving across a space of four feet toward a roach that it was endeavoring to capture. The animal belonged to an Asiatic genus that extends from Java and Sumatra through Borneo and quite possibly some of the Philippine islands, through parts of Hindustan. When its progress was timed, it advanced "within ten or twelve inches of its quarry, rested upon its hands, drew its hind feet gradually forward until almost under its breast, very slowly and cautiously raised itself upright into a standing position, balancing awkwardly with uplifted arms, and then threw itself bodily—not upon the insect, which was off like an arrow from a Tartar's bow, but upon the spot the roach had occupied half a second before."

### Strengthening the Nerves.

Self-control or nerve force is the great lesson of health, and, therefore, of life itself. To understand how to relax is to understand how to strengthen nerves. Hearty laughter is a source of relaxation, as are also all high thoughts, as those of hope, beauty, trust or love. Relaxation is found in diversion. An occasional outing or holiday is necessary. As there are conscious and unconscious thoughts, there are conscious and unconscious nerve tension. Women, when shopping, do not know the very tight grip they give their parcels until, on reaching home, their hands fall relaxed in their laps and they say they are so tired.—Health Culture.

### Did She Still Approve?

A handsome English girl, recently returned from Spain, was recounting her experiences to a circle of friends, among whom was a Spaniard, says the London Chronicle. "The thing that delighted me most," she said, "was that charming practice they have in Spain of offering you instantly what you may chance to admire." "Do you approve of the custom?" asked the Spaniard. "Oh, yes!" was the reply. "Senorita, you have very beautiful lips," exclaimed the impulsive Andalusian.

The vicar of Burgess Hill, England, announces that when confetti is thrown on the occasion of weddings at his church an addition of \$1.25 will be made to the usual wedding fee, to pay for the trouble of cleaning the paper away.

### Twice-Told Tales.

Some tales never lose in the telling, and the tale of good that Dr. Caldwell's (Jaxative) Syrup Pepsin will, and does so, to all poor, dyspeptic, bilious sufferers, is one of them. It positively relieves and cures all forms of indigestion, starts up the languid liver, regulates the constipated bowels, and restores the entire system to a perfect condition of health. Try it. Sold by all druggists at 50c and \$1.00. Money back if it fails.

### Color and Sensibility.

Color and sensibility are closely allied, and one inattentive to clashing combinations is likely to be also a little blunt to the finer moral and intellectual distinctions, a little impervious to the more delicate tastes and acuter pains.—Harper's Weekly.

## DANGERS TO BE AVOIDED IN FEBRUARY.

Intense Cold Breeds Catarrh.

Sudden Changes Breed Catarrh.

WINTER SCENE IN THE NORTH

WINTER SCENE IN THE SOUTH

Severe Weather.

February is a month of severe storms and intense cold.

Even in the South where the prevailing temperature is much above wintry latitudes, February brings sudden changes of temperature.

Mercury sometimes drops 20 degrees in a single night.

Therefore, the following health hints are applicable to the whole of North America:

**Ventilation.**

The sleeping rooms should be well ventilated, but so as to avoid direct currents of air.

**Bathing.**

Those in vigorous health should take a cold water towel bath every morning before breakfast. Those in feeble health should take a brisk dry-towel-rub every morning.

**Diet.**

The diet should be a generous one, including meat, and occasionally fresh vegetables.

**Sunshine.**

The nights being long and the days short, as much sunshine as possible should be let into the house during the day.

**Clothing.**

The head should be kept cool at all times. The feet should be kept warm and dry, day and night.

**Precaution.**

When unavoidably exposed to cold or wet, a few doses of Peruna will avert bad consequences.

When seized with a chill, or even slight chilliness, a dose of Peruna should be taken at once.

As much sleep as possible should be obtained in the forepart of the night.

**Catarrh of Head.**

Mr. Frank Cobb, 175 Summit Street, Deering, Me., writes:

"I was troubled with catarrh in my head. I wrote to Dr. Hartman for advice and he prescribed Peruna."

"I took it and am happy to say it helped me at once. I feel better than I have for years."

**Branchial Trouble.**

Mr. J. Ed. O'Brien, Pres. American Pilot Ass'n, Pensacola, Fla., writes:

"I heartily give my endorsement to Peruna as an effective cure for catarrh and branchial trouble."

**Throat and Lungs.**

Frank Battle, Jr., 111 N. Market St., Nashville, Tenn., writes:

"Peruna has cured me of chronic bronchitis."

"It is the grandest discovery of the age for the throat and lungs."

**Pneumonia.**

Mr. A. C. Danforth, St. Joseph, Mich., writes:

"I contracted a severe cold which settled on my lungs. I was threatened with pneumonia."

"Peruna gave me relief within a couple of days. Three bottles saved me a large doctor bill and a great deal of suffering."

**Thousands of Testimonials.**

We have on file thousands of testimonials like the above. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is constantly receiving.

## A JACKSON WOMAN HAD ASTHMA 32 YEARS

Permanently Cured in One Week by  
a Prominent Jackson Physician,  
Who Says He Can Cure Any-  
one Who has Asthma.

509 Ten Eyck St., Jackson, Mich.  
Dr. E. L. Wilkinson, 25 Dwight Building,  
Jackson, Mich.

For the benefit of others suffering with  
asthma, I desire to make a statement. I  
have been troubled with asthma for over  
thirty years and the last four years I was  
very bad.

The last year I had to sit up in a chair  
every night one-half the time, and a part  
of the time the whole night. The month  
preceding my visit to you I had no rest at  
night and my heart acted so badly that I  
thought every night that I could not live  
until morning. I have been treated by  
several leading physicians of Jackson—on  
treated me two years and the others several  
months each—but I kept growing worse  
all the time. Some of them told me I  
could not get well and that I was likely to  
die soon.

I called on you May 21, 1903, and I have  
had no asthma whatever since the first  
week of treatment. You told me that you  
have never given me one dose of regular  
asthma medicine. I don't know as to that  
but I do know that it is entirely different  
from that of any of the doctors who have  
treated me. I am strong now and do more  
work than I have done for many years.  
Neither night exposure, any kind of work  
or anything I do brings on an attack of  
asthma. In fact, I feel perfectly well and  
don't think the asthma will return if I  
obey your instruction.

Mrs. CHARLES F. SALISBURY.

### LATER

Jan. 21, 1905.  
Since writing the above, more than a  
year since, I am still free from asthma and  
I have taken no medicine for many  
months. I still think that Dr. Wilkinson  
can cure any case of asthma.

Mrs. C. F. SALISBURY.

**THE GREAT FAMILY MEDICINE**  
Theodore's Black-Draught comes  
nearer regulating the entire system  
and keeping the body in health than  
any other medicine made. It is  
always ready in any emergency to  
treat ailments that are frequent in  
any family, such as indigestion,  
biliousness, colds, diarrhoea, and  
stomach aches.

Theodore's Black-Draught is the  
standard, never-failing remedy for  
stomach, bowel, liver and kidney  
troubles. It is a cure for the domestic  
ills which so frequently summon  
the doctor. It is as good for children  
as it is for grown persons. A dose of  
this medicine every day will soon  
cure the most obstinate case of dyspepsia  
or constipation, and when  
taken as directed brings quick relief.

DANVILLE, ILL., Dec. 23, 1902.  
Theodore's Black-Draught has been our  
family doctor for five years and we want  
to take a dose and are all right in twelve  
hours. We have spent lots of money for  
doctor bills, but get along just as well  
with Black-Draught. IRA H. RADER.

Ask your dealer for a package of  
Theodore's Black-Draught, and if he  
does not keep it send 25c. to The Chatta-  
nooga Medicine Co., Chattanooga, Tenn.,  
and a package will be mailed to you.

### Personal.

C. W. Maroney was an Ann Arbor  
visitor Thursday.

C. E. Babcock, of Grass Lake, was a  
Chelsea visitor Sunday.

Mrs. T. W. Mingay is visiting Ann  
Arbor friends for a couple of days.

Chas. W. Miller, of Jackson, spent  
Sunday here with his parents and  
sisters.

John B. Cole was home from Lan-  
sing and spent Sunday with his family  
here.

Ralph H. Holmes and wife, of Bat-  
tle Creek, spent Sunday here with  
their parents.

Miss Nellie Mingay was home  
from Clinton Saturday and Sunday  
to visit her parents.

Mrs. Jean M. Duke, who has been  
visiting Mrs. T. W. Mingay for the  
past month, returned to Ann Arbor  
today.

J. B. Marsteller, of the Marsteller  
Granite Co., Clinton, was a pleasant  
business caller at the Herald office  
Friday.

John B. Webster, of Florence,  
Ont., spent Tuesday with his brother  
J. George Webster, on his way home  
from Chicago.

The Misses Mary and Anna Miller  
went to Owosso Saturday, where  
they visited their sister, Sister Ignat-  
ius, over Sunday, returning home  
Monday.

The Misses Margaret and Anna  
Miller leave Saturday morning for  
Cleveland, Buffalo, Toledo and De-  
troit, on their annual spring trip to  
the wholesale millinery houses. They  
will be gone about two weeks.

### Peculiar Disappearance.

J. D. Runyan, of Butlerville, O., laid  
the peculiar disappearance of his painful  
symptoms of indigestion and biliousness to  
Dr. King's New Life Pills. He says:  
"They are a perfect remedy for dizziness,  
sour stomach, headache, constipation, etc."  
Guaranteed at Glazier & Stinson's drug  
store, price 25c.

### An Electric Road Suggestion.

The Manchester Enterprise of last  
week says: "Why don't someone  
build an electric line from Adrian to  
Chelsea, passing through Tecumseh,  
Clinton and Manchester? Such a  
line would be more practical than  
any of those that have been projected  
as it would pass through three  
good towns and the richest farming  
country in southern Michigan. It  
would connect at Chelsea with one  
of the best electric roads in the state,  
giving passengers close connection  
with cars east or west. It would be  
a trifle further for Adrian or Tecum-  
seh passengers than a line direct to  
Ann Arbor, but the advantage of the  
western connection would overcome  
that. We had the promise of the  
Boland company that they would  
build a line south, as a feeder to their  
road and the new or consolidated  
company will do well to look into  
this scheme at once for if they once  
get a line built as above mentioned  
the prospects for another line would  
be very slim."

The Herald has always advocated  
a line running through the country  
indicated in the above article and  
sees no reason to change its opinion  
at this time. Gentlemen of the elec-  
tric railroad companies, if you have  
not looked into this matter thor-  
oughly, do so; it is a good section, of  
the country to tie to.

### Teachers' Examinations.

School teachers in some parts of  
the state have been annoyed in the  
past at the present school law which  
provides that they shall be examined  
in May for certificates sometimes ex-  
piring before the end of the term,  
thus making them close their schools  
in order that they may be examined.  
Senator Doherty has introduced a  
bill providing that such examination  
be held on the third Tuesday in June  
and on the second Thursday in Au-  
gust, these dates coming during the  
vacation season. Special examina-  
tions may also be called.

### Sylvan Treasurer's Notice.

I will be at my office over the Kempf  
Commercial & Savings Bank every day  
to receive the taxes of the township of  
Sylvan for the year 1904.

W. F. RIEMENSCHNEIDER,  
Township Treasurer.

It makes no difference how many medi-  
cines have failed to cure you, if you are  
troubled with headache, constipation, kid-  
ney or liver troubles, Hollister's Rocky  
Mountain Tea will make you well. Glaz-  
ier and Stinson.

### MORE LOCAL.

W. W. Wedemeyer, of Ann Arbor,  
addressed 600 convicts of the Jack-  
son state prison Sunday morning on  
the subject, "Life of Lincoln."

Cardinal Satolli, formerly the  
apostolic delegate to Washington  
from the papal see at Rome, is near  
to death's door at his residence in  
Rome, suffering from bronchitis.

Rev. Mr. Milne, of the Dexter  
Baptist church, has accepted a call  
to the pastorate of the East Main  
street Baptist church of Jackson and  
will begin his new duties in March.

The state tax commission, acting  
as a board of railroad assessors, have  
fixed the average rate of railroad tax-  
ation at \$16.9229 per \$1,000 of as-  
sessed value, where the rate last year  
was \$16.9115.

Warren C. Boyd has gone into the  
lithography designing business and  
has already completed several excel-  
lent designs of letter heads and  
cards for local business firms, besides  
a check for the Kempf Commercial  
& Savings Bank.

The young people of the parish of  
Our Lady of the Sacred Heart will  
have a progressive pedro party at  
Woodman hall, Friday evening, Feb.  
17, from 8 to 11 o'clock. Admission  
10 cents. Prizes will be given to the  
winners of the most games.

Mrs. Joseph Seckinger, of Man-  
chester, died Feb. 10 of a complica-  
tion of diseases, aged 62 years. The  
deceased lady was the mother of Joseph  
Seckinger, who at one time  
clerked for L. T. Freeman and W. P.  
Schenk & Co., of this place.

Messrs. Schumacher, Beissel and  
Edwards, of Ann Arbor, were in  
Chelsea last Sunday in the in-  
terest of the Knights of Co-  
lumbus. They secured the names of  
several prospective members, who  
will be initiated into the order next  
Sunday, Feb. 19, at Ann Arbor.

Prof. Hicks says: The storm pe-  
riod is central on the 14th, extending  
from the 12th to the 16th. The pas-  
sage of regular winter storm con-  
ditions, from west to east in pro-  
gressive order, may be counted on at  
this period. First, February rains,  
turning to snow and sleet squalls,  
winding up with rising barometer  
and cold wave.

Peat has been used by artisans for  
ages in the manufacture of tools.  
By burning peat the old steel work-  
ers produced the finest grades of iron  
and steel, on account of the intensity  
of the heat produced and the absence  
of anything detrimental to the metal.  
The elastic and keen Damascus  
swords are believed to have been  
made by the use of peat.

The D. Y. A. & J. car which  
left Jackson Monday night at 11  
o'clock, got stalled just east of Chel-  
sea and the crew were unable to pro-  
ceed further or to get a relief crew  
until Tuesday morning. The pas-  
sengers took possession of the smok-  
ing room and put forth strenuous  
efforts to keep warm. Luckily the  
coal supply was ample and no one  
suffered actual freezing.

### A Chelsea Small Boy's Good Work.

The Jackson Press of Monday,  
Feb. 13, had the following highly  
complimentary notice of Master Gar-  
rett Conway's singing at the concert  
given by the Independent Battalion  
Band at the Athenaeum Sunday eve-  
ning:

Master Garrett Conway is a brother of  
Mortimer Conway, of this city, and has a  
number of relatives and friends residing in  
Jackson. Master Conway is a small youth  
in knee trousers, but charmed his auditors,  
and during the singing of his numbers the  
house remained absolutely quiet, showing  
more courtesy than many artists have re-  
ceived from some local audiences. Master  
Conway's voice possesses considerable  
power and is of a deep, rich beauty. The  
shading of different passages was delicate  
and fine. The middle tones are well mod-  
ulated, strong and flexible, and the upper  
and lower registers clear and resonant.  
Master Conway attains his higher notes  
easily and strikes them full and round. He  
displayed a rare knowledge of his music  
last evening, his enunciation being clearer  
than many expected and the expression al-  
most faultless. Master Conway uses his  
voice well and has no difficulty in making  
it penetrate every part of the theatre. He  
will continue his musical study indefin-  
itely. When the change comes it is thought  
it will develop into a pure tenor or rich  
baritone. Master Conway was repeatedly  
encored.

### Neighborhood Notes.

Howell business men have organ-  
ized a business men's association.

George Askew and family, of Shar-  
on, have moved to Grass Lake to  
live.

Andrew Harr, of Waterloo, is cut-  
ting the timber to build a small  
barn.

The Stockbridge soldiers' monu-  
ment fund now amounts to \$1,300  
cash on hand.

G. A. Koelz, of Waterloo, will  
build a large barn on his farm the  
coming summer.

W. H. Collins, of Stockbridge, has  
20 shoats that aggregate 6,000  
pounds in weight.

Stockbridge doctors are over-  
worked with the number of sick  
people in that vicinity.

The Munith school is closed on  
account of smallpox being prevalent  
in that neighborhood.

Charles Fisk, of Stockbridge, has  
caught and sold over \$200 worth of  
fur since Nov. 1, 1904.

The Dickinson Wagon Rack Co.,  
of Stockbridge, have orders on hand  
for 35 of their patent racks.

The Milan exchange of the Michi-  
gan Telephone Co., is rated third in  
the state for outside rentals.

The series of revival meetings held  
by Elder Fowler, of Waterloo, closed  
Friday night and were quite success-  
ful.

Contracts are being made with  
West Waterloo farmers by the D. M.  
Ferry Seed Co., of Detroit, to grow  
seeds for them.

There were no new cases of small-  
pox in Manchester last week and the  
excitement is subsiding. The school  
was reopened Monday.

Aaron Lammon, for several years  
baggage master at Grass Lake, has  
resigned and will move to his farm  
3 1/2 miles from Norvell village.

Inspector Fred Meechem was in  
Manchester week before last and laid  
out two new rural mail routes which  
will give a solid rural service out of  
that place.

A Whitmore Lake man says, "Oh,  
Lord! what have we done to deserve  
this? On February 2d the ground  
hog saw his shadow, and for six  
weeks more the coal trust will reap  
a harvest."

A handcar on the Michigan Cen-  
tral was struck Saturday morning by  
the blind baggage at Denton's and  
Julius Schlabatus, one of the three  
men on the car, was killed. The  
other two jumped to safety.

The Milan postoffice was burglar-  
ized Thursday morning. The safe  
was blown open and totally wrecked  
and \$3 was taken. The thieves were  
frightened away leaving \$100 that  
was in another part of the safe.

Samuel Porter Ballard, of Willis,  
known as "the bard of Willis," and  
his wife celebrated the 59th anni-  
versary of their wedded life at their  
home Friday, Feb. 10. Mr. Ballard  
is 81 years old and Mrs. Ballard is  
78.

Four people are sick with small-  
pox at the Jackson county house,  
two have died. The whole 50 in-  
mates of the house have been ex-  
posed as it was smallpox with which  
the patients were afflicted.

Bert Bartlett, of Ann Arbor, was  
arrested in Detroit Saturday for bur-  
glarizing Jas. E. Burke's saloon at  
Whitmore Lake Feb. 7. He con-  
fessed to the crime. Bartlett stole  
\$40 from a Waterloo woman last  
German day at Ann Arbor, and has  
an otherwise unenviable police re-  
cord.

Dexter Leader: Work on the in-  
terior of the new Savings Bank is  
progressing nicely. The mason work  
is all done, the steel ceiling is on and  
everything is ready for the carpen-  
ters. The steel shutters have also  
been put in place over the outside  
windows. The bank expects to oc-  
cupy the new building about March  
1st.
