#### W. W. U. FARMERS' CLUB

Had a Bright and Well Attended  
May Meeting.

The May meeting of the Western Washtenaw Farmer's Club was held at the residence of Mr. and Mrs. T. E. Wood, on West Summit street, Chelsea, Friday, with about 60 people present. It was one of the pleasantest and most enjoyable meetings that the club has had this season. The dinner was bountiful and appetizing, the company brimful of good humor, and the host and hostess assiduous in their endeavors to make everybody comfortable and at home. During the dinner hour Miss Mamie Clark gave a number of bright selections on the piano.

President Everett and Vice President Lighthall were both unavoidably absent, so ex-President Geo. K. Chapman presided over the afternoon session. The meeting opened with prayer by Rev. P. M. McKay. A pretty selection of instrumental music by Miss Mamie Clark followed.

A well written and full report of a meeting of the Norvell Farmers' Club was read by Mrs. H. Lighthall. The farmers in that section evidently take a great interest in their club.

"Good neighbors and how to keep them" was opened by John F. Waltrous. He advocated the thorough application of the golden rule "Do unto others as you would be done by," the performance of little deeds of kindness, and not trying to pick a fuss over small matters as good ways to make good neighbors and keep them.

In the discussion that followed Mrs. Emma Boynton suggested the cultivation of the spirit of bear and forbear. The habit of disputing is not conducive to neighborly feelings. Men meet and dispute hotly over a thing and are just as good friends as ever the next time they meet, but women cannot do so. Rev. G. W. Gordon thought some people do not know what the golden rule is. If he owned half an acre of ground he would have a fence around it. Some neighbors are easier to get along with than others. Rev. E. E. Caster, N. H. Cook and T. E. Wood added their quota to the discussion, the latter in a humorous vein which provoked many smiles.

Mrs. Frank Stormis gave an excellent recitation and Miss Rena Roedel played a piano selection very prettily.

"Small fruits and gardens on the farm," was the topic assigned to A. W. Chapman. These were something everybody could have if they only took the time and trouble.

Rev. P. M. McKay thought there was too little attention given to the garden on the farm and that it was left to the women to take care of them. Train the boys to like the garden and thus create in them an interest in the farm. N. H. Cook disputed the statement that in this section the women of the farms did the work in the gardens. John F. Waltrous takes great pride in his garden and invited the members to come out and see it and partake of its contents next month. Rev. G. W. Gordon and T. E. Wood again took a hand in the discussion, but the latter was evidently willing that his neighbors should grow the garden crops and he would help "raise" them.

After a humorous reading by Mrs. H. Lighthall the meeting closed with the singing of "America."

The next meeting of the club will be held Saturday, June 11, place to be announced later.

#### Man's Unreasonableness

is often as great as woman's, but Thos. S. Austin, manager of the "Republican," of Leavenworth, Ind., was not unreasonable when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured and can now perform all her household duties." Guaranteed by Bank Drug Store; price 50c.

#### WHILE GOING FOR MAIL

Mrs. Godfrey Luick Was Killed by  
an Electric Car.

A sad accident occurred on the line of the D. Y. A. A. & J. in Lima Wednesday morning, May 23, by which Mrs. Godfrey Luick lost her life. She went over to the mail box which is placed at the corner of Dancer's road that runs just east of their home, where Luick's waiting room is located, to get the mail, having to cross the track to go to the box. As she was returning a large sun bonnet that she wore prevented her seeing the westbound limited car, due in Chelsea at 10:59 a. m., that was rapidly approaching her down the hill, and being rather deaf she did not hear the clanging of the bell.

Motorman Warren Bury tried to stop his car so it would not hit her, and did succeed in stopping it within half its length, but it was too late and the fender of the car struck Mrs. Luick on the left leg, breaking both bones midway between the knee and ankle. This threw her on the fender with such force that the base of the skull struck the car and was fractured just back of the left ear and her left collar bone was broken. Death must have been instantaneous. Her husband, who was sitting on the porch of the house, saw the whole sad occurrence.

Mrs. Luick was 72 years of age. Besides her husband she leaves one son, Henry Luick, and one daughter, Mrs. Staebler.

#### IS STILL ON THE LIST.

Chelsea High School Still Approved  
by the U. of M.

A rumor having been current that the Chelsea high school had been taken from the approved list of the University of Michigan, the Herald has been requested to publish the following letter, which shows that pupils from this school will still be admitted to the university on diplomas granted here.

Ann Arbor, May 17, 1905.

Mr. F. E. Wilcox,  
Chelsea, Michigan:

Dear Sir,—I take pleasure in informing you that the Committee on Diploma Schools has placed your high school on our approved list for this year and the two following years. Yours truly,

J. B. ANGELL.

#### Will Be a Fine Concert.

The University Orchestra will give a concert in the M. E. church Friday evening, May 26. The orchestra is composed of 40 fine musicians. It is conducted by Henri Ern, who received such a great ovation at the May Festival, and who will play three solos on the violin. Mr. Ern is one of America's greatest players and his performance alone will be worth the price of admission. Miss Lelia Farlin will sing several solos, including the celebrated "Jewel Song" from the opera "Faust." The orchestra will play several numbers and will present a program pleasing to everyone. They will perform Beethoven's First Symphony. The symphony is divided into four parts and is full of beautiful melody. This organization is about as large as the famous Theodore Thomas Orchestra, and our townspeople are fortunate in being able to hear them at such a low price. Admission: Adults, 25 cents; children, 15 cents.

#### School Report.

Report of school in District No. 11, Lyndon, for the month ending May 12. The following have an average standing of 95: Irene Clark; 90: Hattie Stoffer, Gertrude Clark, Bernice Barton, Gladys Ileen, Margaret and Lawrence Shanahan. Roland McKune, Irene and Gertrude Clark did not misspell a word in written spelling during the month, Hattie Stoffer and Raymond McKune missing but one.

MARGARET YOUNG, Teacher.

## NEWS OF MICHIGAN

### THE AD VALOREM LAW IS VALID AND THE RAILROADS MUST PAY TAXES.

### OVER FOUR MILLIONS OF DOLLARS MUST BE PAID IN TO STATE TREASURY.

### PERE MARQUETTE ROAD SUFFERS HEAVY LOSS AT MUSKOGON BY FIRE.

By an opinion handed down by Judge George P. Wandy, in the United States court this afternoon, the state of Michigan wins a sweeping victory over the twenty-eight railway companies which opposed in the courts the collection of taxes under the ad valorem act of 1901. Only one road, the Grand Trunk is excepted in the decision, and the exception is made under an old territorial act of 1834.

In mere money value up to date the cases involved \$4,400,000 and the precedent that is involved affects the railways of the whole country and every state and municipal government.

It was the claim of the railways that the ad valorem act was in violation of the federal constitution, and that they were being discriminated against because the general property of the state, under the general tax law, was undervalued.

In his opinion Judge Wandy places a negative answer to each and all of these principal claims of the railways. He gives negative answers to these questions even in the case of the Grand Trunk, but the Grand Trunk—or as it is given in the individual case, the Detroit, Grand Haven & Milwaukee—defense is also made on the basis of an act passed in 1834. It appears, according to the judge's finding, that the present Detroit, Grand Haven & Milwaukee company is a successor of the old Detroit & Pontiac Railway company, and that it succeeds therefore to the old act, by which the tax assessment is limited to an amount not in excess of 1 per cent of its capital stock. The court finds in this regard that the ad valorem act of 1901 does not impair the old act and the injunction against the auditor-general prayed for in the Grand Trunk bill is granted.

The cases will probably be carried to the United States supreme court. The following are the roads that took part in the fight to break the ad valorem tax law: Michigan Central; Detroit & Mackinac; Chicago & North-western; Toledo, Saginaw & Muskegon; St. Clair Tunnel Co.; Michigan Air Line Co.; Grand Trunk Western; Ann Arbor; Cincinnati, Saginaw & Mackinaw; Chicago, Detroit & Canada; Grand Trunk; Munising; Lake Superior & Ishpeming; Marquette & Southeastern; Chicago, Milwaukee & St. Paul; Sault Ste. Marie Bridge Co.; Mineral Range; Duluth, South Shore & Atlantic; Detroit, Grand Haven & Milwaukee; Pere Marquette; Pontiac, Oxford & Northern; Minneapolis, St. Paul & Sault Ste. Marie; Gogebic & Montreal River; Manistee & North-eastern; Copper Range; Escanaba & Lake Superior; Grand Rapids & Indiana; Wisconsin & Michigan; and Lake Shore & Michigan Southern.

**Eleven Locomotives Burned.**  
In a fierce fire Monday night lasting less than an hour, the large Pere Marquette roundhouse in Muskegon was completely destroyed, together with 11 engines. The fire when discovered by two switchmen was but a small blaze on the north side of the building. The building was old and of a nature to make excellent food for the flames, which spread with alarming rapidity, threatening that end of the city. It was soon found impossible to remove the engines and efforts were directed to getting passenger coaches and loaded freight cars out of reach. There were not enough engines with steam up to do the work, and volunteers with crowbars got many valuable cars out of danger. The fire will be a serious blow to the railroad, and cripple trade, as all engines are in use. It is not known definitely whether the roundhouse will be rebuilt, as Muskegon is far away from the main offices.

The loss is variously estimated from \$100,000 to \$200,000.

### New Tax Commission.

The attack of Rep. Benton, of Wayne, on the present tax commissioners last week has borne fruit. The Lovell bill provides that the commission is to remain as it is until March, 1906, but Benton argued for the immediate bouncing of the commissioners. A majority of the house stand with Benton on this proposition, and Lovell is now willing to consent to an amendment that the governor shall appoint immediately the three commissioners who are to be substituted for the existing board of five.

Ely Olgren now faces a murder charge, as Oscar Saari, of Palmesdale, is dead from the effects of a blow on the head with a beer bottle.

A \$600,000 chemical plant is to be established in Bay City. 27 acres of land on the river front having been selected for the site. The building will be commenced July 1 and will be 350x100 feet in size and 190 feet high.

The street railway employees of Bay City, at the instigation of National Union officers, have asked for an increase of pay from 19 and 21 cents an hour to 23 cents an hour all round. The company will probably refuse, as the expenses for paying this year will be heavy.

Notices have been posted to announce to the students of the university that the tuition fee will be increased in the professional departments to \$10 per year. As there is no surplus money, and expenses are constantly increasing, this has been deemed advisable, and will add \$25,000 to the funds of the treasury.

### Tunneling For Detroit.

Actual construction work on the Michigan Central tunnel under the Detroit river will begin within 90 days. The entrance to the tunnel on the Detroit side will be at a point between Seventeenth and Eighteenth streets, and the terminus on the Canadian side will be at Sandwich, near the Assumption Catholic church. There will be two tunnels, running parallel and having a space of either 30 or 35 feet between them. The line of the tunnels will be almost straight across the river. Topographically, it is 10 degrees south of east. The length from end to end, including the curves, will be two miles, and it will take two and a half years to complete the work, according to Chief Engineer W. S. Kinnear of the Michigan Central, who is in full charge of the tunnel work. The cost will be \$7,500,000, including the costly electrical equipment and extensive entrances.

### BRIEF STATE NEWS

Parties in Battle Creek are engaged in a novel but profitable industry. It is the shipping of water cress to Chicago, Detroit, Cincinnati, Toledo and Buffalo. Battle Creek promises to be as noted for cress as Kalamazoo is for celery.

Robert McDonald, aged 45 years, while fishing in the river with a seine, at St. Johns, stepped into a hole and was drowned. His two sons and a neighbor, who were with him, witnessed the disaster, but were unable to rescue him.

Lutie Gordon, aged 22, of Chase, with her babe in her arms and her little brother by her side, was struck by a Pere Marquette freight engine and instantly killed. She had stopped to pick up the little boy's cap. The baby was slightly injured.

In the libel case of the Pentwater Land and Improvement Co. vs. Rev. W. F. Jamieson, of Hart, for an attack made on the transactions of the company, the jury disagreed. The utterances of the minister attracted general attention throughout the state, and the company claimed their business had been injured.

Robert Mount, of Niles, went to his old home at Lockport, N. Y., last December and closed his visit with a dinner party which wound up in a grand carousal, during which time he was afterward told he had been married while intoxicated to Mrs. Hattie Rouch, a widow aged 47. He is now asking for a divorce from her.

Mrs. Rose Recktenwald Wilson and her four children, of Kalamazoo, left Snyder, Okla., the day before the cyclone that wrecked the village. As it was they were caught in a tornado and were obliged to take refuge in a farm house, from where they saw many things flying through the air, just being out of the edge of the storm.

Henry Wells, of San Francisco, crossed the continent to meet his old army comrades at Coldwater at the Loomis battery reunion, held Wednesday. A fund of \$100 was raised for a tablet in Military park, next to the famous Loomis gun. A feature of the reunion was the returning by Homer Brooks, a Confederate soldier, the sword he took from the body of Lieut. Van Pelt, who commanded the battery and was killed while defending the guns. Henry Norrington was elected president of the battery for the ensuing year.

One does not advance far who treads many paths.

## STRIKE IS ON AGAIN

### LABOR WAR IN CHICAGO TO BE RESUMED ON A LARGER SCALE.

### PLANS FOR PEACE WRECKED BY REFUSAL TO REINSTATE EXPRESS MEN.

### FEARS OF WILD SCENES OF DISORDER WILL CAUSE A CALL FOR TROOPS.

Instead of peaceful conditions so confidently predicted Saturday, Chicago will enter now on the most widespread strike of teamsters in its history, involving before the week is ended 10,000 additional drivers and resulting in disorders which Sheriff Barrett believes will make necessary the early calling out of state troops. The sudden change from probable peace to declared war came at the meeting Saturday night of the teamsters' joint council, where the proposed peace terms were discussed from 8 o'clock until nearly midnight, with the final decision to continue the strike, and spread it to all teaming industries in support of the express drivers. All peace negotiations were declared off and the teamsters determined to push the strike aggressively, continuing it until the express companies agreed to take back their drivers. All other stipulations of the employers were agreed to, but the peace program was cast aside rather than leave the express drivers to a lone fight, unsupported by the allied teaming organizations.

Sheriff Barrett said after being informed of the action of the teamsters' joint council: "It simply means that the troops will have to be called. We have found it difficult to maintain the peace with the force of police and deputies we have had, and now that there is a prospect of so much greater a body of men being on strike, with all the chances of rioting that entails, it will be out of the question for us to handle the trouble without aid from the military. As soon as the strike spreads, I will be compelled to ask the governor of the state for aid. I have done all that I am able to do and the prospect now is that the thing will go away beyond the powers of my office."

### Ready for Troops.

Despite peace conferences Tuesday, active preparations were under way in Chicago for the possible ordering out of troops to keep down a wave of rioting which it was feared might come, especially in the lumber district where labor disturbances have generally been of a savage character. Adj. Gen. Scott was in Chicago from Springfield under orders from Gov. Deneen and everything was in readiness to put soldiers on the streets in the shortest possible time.

### Hay's Retirement.

From a high source it is learned that there will be but two changes in the cabinet within the next few months. John Hay, according to this information, is to retire as secretary of state and Paul Morton as secretary of the navy. In spite of the repeated reports that Mr. Hay would relinquish the state department portfolio, considerable surprise is felt at this latest apparently authentic news, for the reason that the denials from his friends have been most positive. It is believed, however, that on the advice of his physicians he has determined to step out of public life in order to avert the serious consequences which continued activity might result in. That Mr. Hay, while improved in health, is by no means a well man, is admitted by his intimates. There is absolutely no intimation as to who is likely to succeed him.

### Secretary Morton Goes.

It is understood that the report of Messrs. Judson and Harmon, special counsel for the government in the Santa Fe rebate case, has been submitted to the president, and that he has approved it. The report, it is said, recommends that the United States district attorney at Albuquerque, N. M., be directed to lay the facts in the case before the grand jury with a view to the prosecution of officials of the road guilty of rate discrimination. Secretary Morton, having been the traffic manager of the road at the time the rebate is said to have been given to the Colorado Fuel & Iron Co., it is assumed that he is one of the officials aimed at. Mr. Morton's retirement from the cabinet, will be July 1, if the course of events does not hasten it.

### Philadelphians Furious.

The most infamous steal in the history of any municipality in the world was perpetrated in Philadelphia by the city councils voting to the United Gas Improvement Co. a 75-year lease of the city gas works.

The franchise is worth hundreds of millions of dollars. For it the city gets \$25,000,000. This is taken on the council plea that the city "needs the money." Under this lease the city pays \$1 for gas for 10 years. It originally provided for 90-cent gas the remaining 65 years, and the only result of the terrible public clamor against the steal was an amendment providing a graded price by which in the latter years of the franchise the city will get gas as low as 80 cents.

### King Edward is Reported Suffering from a Growth in his Throat.

English labor leaders are organizing a "Coxey's army," to march to London and make a demonstration for the unemployed bill. John Burns opposes the scheme.

More sleep for schoolboys was advocated by Dr. Dyke Acland in an address before the convention of the Parents' National Educational union in London. Eight hours was the minimum for adults and from nine and a half to ten for school boys, unless they wanted to court insomnia and serious nervous diseases, declared the doctor.

## THE LEGISLATURE.

The Michigan Central won a partial victory in the house Monday night in its fight against the Brown bill to authorize the attorney-general to examine books, papers and documents in the custody of the railroads when the state is in litigation with them. Last week, after Deputy Attorney-General Chase told the house judiciary committee that the state would dismiss the suit against the Michigan Central to collect \$4,400,000 in back taxes which are claimed by reason of alleged fraudulent reports of the road, if the legislature did not pass the bill, the committee decided to report favorably. When the report was presented in the house Rep. Heald, of Kent, moved that the rules be suspended and the bill placed on its immediate passage. But when it came to a line up there were 25 who stood with them, enough to defeat Heald's motion. Those who voted against the motion to suspend the rules were Bailie Byrns, Double, Dunstan, Elchhorn, Galbraith, Gordon, Hanlon, Herkimer, Higgins, Ivory, S. H. Kelley, J. B. Knight, McAnley, McCracken, Merritt, J. S. Monroe, Partlow, Prosser, Robinson, Stroud, Thomas, Turner, Walker, Speaker Master.

Two weeks more of legislative work. That is the way Speaker Master and President Pro Tem. Glasgow, of the senate, figured it out after a conference. This will bring the cessation of business June 2, and the final adjournment June 9, the additional week being for the speaker, the lieutenant-governor and the governor to sign bills.

The state printer is far behind in his work, but Speaker Master says an arrangement will be made to provide additional help in the printing office. Committees of both house and senate are still choked up with bills, and there is a wild scramble among members and senators to secure reports and action on pet measures. But it will be no great inconvenience to the public if several hundred of these measures are left to slumber in pigeon-holes.

The primary bill, such as it is, will be cleared out of the way this week, and the senate will dispose of the liberalized Holmes automobile bill. The house committee on liquor traffic will report no more measures, and very few liquor bills will find their way on the statute books. The Hudson local option liquor bill is practically dead.

Senator Mills introduced a bill increasing the state board of agriculture by adding one new member, who shall come from the upper peninsula.

The Duncan bill providing for the inspection of swinging scaffolds was killed in committee of the whole. All after the enacting clause was stricken out.

Senator Kane introduced a bill which extends the time in which claims for sheep killed by dogs in villages and townships can be collected from one to three years.

The senate and house passed under suspension of the rules Senator Francis's bill incorporating the village of Belleville, in Van Buren township, Wayne county.

The senate passed Senator Hayden's amendment giving the railroad commission power to order electric railways to erect fences along their right of way and to construct proper farm crossings. The measure was given immediate effect.

Theodore J. Wool, representing the Jamestown, Va., tri-centennial exposition of 1907, made a lengthy appeal yesterday to Gov. Warner and a large number of legislators for an appropriation by Michigan for state representation at the exposition.

The senate under suspension of the rules passed a bill introduced by Senator Linsley authorizing the state board of agriculture to grant a site to the United States government on the grounds of the Agricultural College, on which to erect a postoffice and weather observatory.

Representative Baillie's bill, which would enable the city of Saginaw to compromise the payment of delinquent city taxes by persons whose land is on the delinquent list, in full payment for the return of their property, was passed by the senate by a vote of 22 to 8 on third reading.

The house elections committee decided unanimously, with the exception of Rep. Speer, who was absent, to report the Baird primary bill with the recommendation that it be passed. A few amendments were made, but not a word was said about the feature requiring candidates for governor and lieutenant-governor to receive a plurality and at least 40 per cent of the votes cast to be the nominees. It was understood well enough that the senate would not recede from the position it had taken on that feature and useless discussion was avoided. The principal change was to give more time for canvassing boards to make their returns between times of electing delegates and holding conventions, by providing that all state conventions shall be held within 60 days after the second Tuesday in June, instead of seven days after the third Tuesday in June, as passed by the senate. The conventions are to be called on or before the first day of July, instead of the first day of June, as the senate provided.

The convention will meet in New York next year and the association will be incorporated in New York state. B. T. Skinner was chosen vice-president from Michigan.

## WORTH REMEMBERING.

There are three entirely different kinds of ingredients used in making the three different varieties of baking powders on the market, viz:—(1) Mineral-Acid or Alum, (2) Bone-Acid or Phosphate, and (3) Cream of Tartar made from grapes. It is important, from the standpoint of health, to know something about these ingredients, and which kind is used in your baking powder.

(1) Mineral-Acid, or Alum, is made from a kind of clay. This is mixed with diluted oil of vitriol and from this solution a product is obtained which is alum. Alum is cheap; costs about two cents a pound, and baking powder made with this Mineral-Acid sells from 10 to 25c. a pound.

(2) Bone-Acid, or Phosphate, is the basis of phosphate baking powders and the process is fully described in the patents issued to a large manufacturer of a phosphate powder. The U. S. Patent Office Report gives a full and exact description, but the following extract is enough:

"Burned bones, after being ground, are put into freshly diluted oil of vitriol and with continual stirring and in the following proportion," etc.

From this Bone-Acid phosphate baking powders are made; such powders sell from 20 to 30 cents a pound.

(3) Cream of Tartar exists in all ripe grapes, and flows with the juice from the press in the manufacture of wine. After the wine is drawn off the tartar is scraped from the cask, boiled with water, and crystals of Cream of Tartar, white and very pure, separate and are collected. It differs in no respect from the form in which it originally existed in the grape. Cream of Tartar, then, while the most expensive, is the only ingredient that should be used in a baking powder to act upon the soda, as its wholesomeness is beyond question. Cream of Tartar baking powders sell at about 40 to 50 cents a pound.

Such are the facts, and every one careful of the health of the family should remember this rule:—Baking powders selling from 10 to 25 cents a pound are made of Mineral-Acid; those selling from 20 to 30 cents of Bone-Acid; and those from 40 to 50 cents of Cream of Tartar made from grapes.

### RICH REWARD FOR SAILORS.

Immense Treasures Captured by English From Spaniards.

Sea battles at the present time do not result in such great rewards of prize money as formerly. English sailors in times past have brought great fortunes home after their successful cruises. In the war with Holland, 1651-1654, English ships are said to have taken 1,700 prizes, worth \$300,000,000. In 1657 the Spaniards loaded British sailors with treasure. They seized two of the Spanish galleons so richly laden with gold and jewels that it took thirty-eight wagons to carry the treasure from Portsmouth to London. In 1761 came the historic capture of the Hermione, the Spanish treasure ship from Lima. The admiral and captains received as their share \$325,000 apiece, the lieutenants \$65,000, warrant officers about \$20,000, petty officers nearly \$10,000, and even the common seamen \$2,500 each. On arriving at Portsmouth the seamen bought up all the watches in the place and fried them over the galley fire.

### Too Much Meat.

Physicians insist that after reaching the age of 40 the majority of men and women eat much more meat than is good for them. This is hard upon those accustomed to eating too much of that staple article of diet, and of fond of it, but it is said that a little self-denial will prove that the effort is worth a trial. Do not stop it all at once—that would be bad for the general health, but gradually reduce the amount, taking care to substitute in its place a good menu, which will produce the necessary amount of sustenance.

### Languages of Australia.

Australia, by its reception of representatives of many lands, has an infinite of tongues; but your real Australian-born is proud of the fact that among the aborigines—the bushmen—there are relatively as many languages as there are in India. Many have a sort of relation to each other by means of which a man mastering one thoroughly would have a sort of key to several.

Buffalo, N. Y., May 22nd.—(Special)—Crippled by Kidney Disease he could not stand on his feet for the hours required at his trade, F. M. McLean, 90 East Ferry St., this city, had to quit work entirely. Now he is back at work again and he does not hesitate to give the credit to Dodd's Kidney Pills.

"Yes," Mr. McLean says "I was too bad, I had to quit. I could not stand on my feet for the necessary hours. It was Kidney Disease I had, and my friend advised me to try Dodd's Kidney Pills. I did so and after using six boxes am completely cured and am working as steadily as before. I was sick. I recommend Dodd's Pills to any one afflicted with Kidney trouble."

There is no form of Kidney Disease. Dodd's Kidney Pills will not cure them. They always cure Bright's Disease, the most most advanced and deadly stage of Kidney Disease.

# Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored.

We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longchiff hospital for the insane, at Loganport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 26, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family; could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he was not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."

"Doc" A. W. Smith, the well known Adrian politician, has been given a job as special agent in the U. S. treasury department at a salary of \$4 per day.

The annual report of the Michigan commissioner of insurance shows that only 46 per cent of the premiums collected in this state on fire risks was paid out for fire losses during the year. Therefore, the insurance companies had 54 per cent to pay its salaries and other expenses. Which is substantial proof that the rates of insurance are entirely too high, as we said last week. There is no wonder that some people kick. It is a wonder more do not kick at having to pay the excessive rates charged. Before the insurance companies went into a trust, so to speak, there was competition, the companies paid their losses and prospered and insurance rates were reasonable. Now, insurance rates are away up, the companies are making more money than they ever did before, yet they claim to be losing money and want to boost the rates still higher.

**HAD BLOOD POISON 12 YEARS**

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the new method, they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible. The bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases." CURE GUARANTEED OR NO PAY. Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment.

## Mortgage Sale.

WHEREAS, default having been made in the payment of the money secured by a mortgage dated the 7th day of February, in the year 1903, made and executed by Henry Moran and Viola Moran, his wife, and Frank D. Harrison and Marilla Harrison, his wife, all of the village of Chelsea, county of Washtenaw and state of Michigan, to the Kempt Commercial & Savings Bank, a corporation organized under the banking laws of the state of Michigan, with its banking office at Chelsea, Michigan, which said mortgage was recorded in the office of the register of deeds of the county of Washtenaw, in liber 1 of mortgages, on page 89, on the fifth day of October, in the year 1903, at 4:20 o'clock p. m., of said day, by reason of which default in the payment of the amount secured by said mortgage the power of sale contained therein has become operative, and no suit or proceedings at law having been instituted to recover the debt secured by said mortgage or any part thereof, and there is now claimed to be due upon said mortgage the sum of \$208.93 for principal and interest and a further sum of \$25.00 as attorney fee, stipulated in said mortgage as provided by law.

Now, therefore, notice is hereby given that by virtue of said power of sale and pursuant of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises there described, at public auction, to the highest bidder at the south front door of the courthouse in the city of Ann Arbor, in said county of Washtenaw (that being the place where the circuit court for the said county of Washtenaw is held), on the tenth day of August, 1905, at 10 o'clock in the forenoon of said day. Which said premises are described in said mortgage as follows:

Commencing at the south east corner of lot number four (4), block six (6), of the original recorded plat of the said village of Chelsea, and running thence south seven (7) degrees and thirty (30) minutes and on the north side of North street, eighty (81) links to an iron stake; thence north-west, two (2) chains and thirty-seven (37) links to an iron stake on the south side of Buchanan street; thence south eighty-four (84) degrees and thirty (30) minutes one (1) chain and thirty-five (35) links along south line of Buchanan street; west line of Main street; thence south along west line of Main street, three chains and seventy-eight (78) links to the place of beginning.

## Mortgage Sale.

DEFAULT having been made in the payment of the amount secured by and payable upon a certain mortgage made and executed by William Killam and J. Killam, his wife, of the township of Shiloh, county of Washtenaw and state of Michigan, to Harmon S. Holmes, of the village of Chelsea, in said county and state aforesaid, which said mortgage is dated April 22nd, 1890, and was recorded in the office of the register of deeds of Washtenaw county, Michigan, on the 24th day of April, 1890, in liber 76 of mortgages on page 28, by reason of which default in the payment of the amount secured by said mortgage the power of sale therein contained has become operative, and no suit or proceedings at law have been instituted to recover the debt secured by said mortgage or any part thereof, and there is now claimed to be due upon said mortgage the sum of \$428.60 for principal and interest thereon and a further sum of \$25.00 as attorney fee, stipulated in said mortgage as provided by law.

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage and in pursuance of the statute in such cases made and provided, such mortgage premises will be sold at public auction to the highest bidder at the south front door of the courthouse in the city of Ann Arbor, in said county of Washtenaw (that being the place where the circuit court for the said county of Washtenaw is held) on the 3d day of August, 1905, at 10 o'clock in the forenoon of said day. Which said premises are described in said mortgage as follows:

All those certain pieces or parcels of land situated in the township of Sharon, Lima, in the county of Washtenaw, state of Michigan, and described as follows: (1) Commencing on the township section (10) chains east of the north quarter section post of section number one (1) township three (3) south, range three (3) east, running thence east on the town line twelve (12) chains and sixty-three (63) links thence south twenty (20) chains and twenty (20) links, thence west on the half quarter (34) line nine (9) chains and twenty (20) links, thence north ten (10) chains and forty-six (46) links, thence west on the (3) chains and forty-seven (47) links, the north ten (10) chains to the place of beginning, containing twenty-one and nine-tenths (21 9/10) acres of land, or more or less.

(2) Also seventy (70) acres of land of the south side of the south-west quarter (34) of section thirty-one (31), town two (2) south, range four (4) east.

The second described parcel of the above land will be sold first by reason of its being a separate parcel of land. This described parcel of land will be sold subject to a certain mortgage dated January 6th, 1887, recorded in the office of the register of deeds of said county of Washtenaw on the 6th day of January, 1887, and recorded in liber 66 of mortgages, on page 411, and mortgage dated January 6th, 1887, recorded in the office of the register of deeds of said county of Washtenaw on the 6th day of January, 1887, in liber 66 of mortgages, on page 414.

The first described parcel of land will be sold subject to a certain mortgage dated the 8th day of September, 1888, and recorded in the office of the register of deeds of said county on the 19th day of September, A. D. 1888, in liber 88 of mortgages, on page 510, also a certain mortgage dated the 2nd day of December, 1873, and recorded in the office of the register of deeds of said county on the 30th day of January, 1874, in liber 49 of mortgages, on page 210.

### Electric Railway Notes.

A system of interchangeable mileage between the D. Y. A. A. & J., the Jackson & Battle Creek Traction Co., and the Michigan Traction Co. is to be inaugurated about June 1.

Ann Arbor Argus: Officials of the D. Y. A. A. & J. say it is only a question of time when the fare for short trips through the rural districts will be raised from 5 cents to 10 cents.

Jackson Daily News: The D. Y. A. A. & J. will soon commence the erection of stations every half mile along its route. This will put an end to cars being stopped at every crossroad and enable the company to make better time.

The statement has been made repeatedly that the Detroit, Ypsilanti, Ann Arbor & Jackson is making more money than ever before in the history of the road. The statement of the earnings of the system for March and April show this to be true. It is as follows: March, 1904, \$23,661.16; for March, 1905, \$31,185.71; increase, \$7,524.55. For 1904, April, \$27,737.03; for 1905, \$33,312.93; increase, \$4,575.90.

Carload freight service has been inaugurated on the D. Y. A. A. & J., trains of four cars having been put into commission. Specially designed motors were designed for these cars, and the cars of the "flat" type are all equipped with air brakes. The number of cars in a train is limited to four, on account of the necessity of making speed and keeping out of the way of the passenger cars. The freight trains are said to be as easily controlled as one car and the men in charge of the train which made the initial trip Thursday pronounced the plan a complete success.

### ANN ARBOR RAILROAD.

#### Reduced Rates for Decoration Day.

The Ann Arbor Railroad will sell excursion tickets on May 29 and 30, limited to return May 31, to all points on its own line and connections within 150 miles of starting point, at one fare for the round trip.

#### Some Ann Arbor Railroad Excursions.

To Baltimore, Md., July 5 to 10.  
To Detroit, Mich., June 13 to 15.  
To Flint, Mich., June 7 and 8.  
To Milwaukee, Wis., June 19 to 24.  
To Niagara Falls, N. Y., May 25 to June 1.  
To Niagara Falls, N. Y., June 20 to 23.  
To St. Louis, Mo., May 16 to 24.  
To Toronto, Ont., June 20 to 27.  
To Traverse City, Mich., June 19 to 21.

And a great many other points too numerous to mention. If you contemplate a trip to any point consult the Ann Arbor Railroad agents before purchasing tickets. They can save you money.

A farmer over in Tuscola county on returning home from hunting the other day found his neighbor just leaving the house, and being of a jealous nature, he drew his gun and filled the man's leg with fine shot. A lawsuit followed and it was learned that the man was there to borrow the local paper. The lawsuit cost \$75 and the doctor bill \$25, and \$1 would have saved the trouble. Moral: Now is the time to subscribe for the Herald.

Adrian Press: Allison Knee, of Lansing, has secured letters patent for a block signal system for use on railroads. He should go into partnership with Charlie Legg, of Coldwater, and W. A. Foote, of Jackson. A stock company is now organizing and it looks as if Knee will soon be well "heeled." Now let him invent a block system for the legislature, that will work, and he will have earned two wings and a crown with seven jewels.

### COUNCIL PROCEEDINGS.

#### OFFICIAL

Chelsea, Mich., May 17, 1905.

Board met in regular session. Meeting called to order by the president.

Roll called by the clerk.  
Present—J. A. Palmer, president, and trustees Burkhart, Knapp, Eppler, Colton, Vogel and Sweetland. Absent—None.  
Minutes of previous meetings read and approved.

The following bills were then read:  
Central Electric Co., meter and supplies \$72 71  
Michigan State Telephone Co. 15  
G. C. Stimson, printing 2 23  
Sprague Electric Co., switch 63  
Moved and supported that the bills be allowed as read by the clerk and orders drawn on the treasurer for their amounts. Carried.

The following report was then presented by the electric light and water works committee:

Upon investigation of the Chelsea municipal electric light and water works plant the committee report the following for your approval:

1st. That the rate for water and lights shall be as below scheduled and that all consumers shall pay on an equal basis, viz:

HOUSE LIGHTING  
30 cents each per month for 16 candle power lamps, all other sizes in equal proportion. Fans, flatirons and motors shall be charged extra when not on a meter.

COMMERCIAL LIGHTING  
40 cents for 16 candle power lamps per month, all other sizes in equal proportion. Arc lights \$3.25 each.

We recommend for all consumers to use a meter and have therefore made the following rates: 8 cents per 1,000 watts for the first 50,000; after this amount a rate of 5 cents per 1,000 will be charged.

No rate for water charged less than 60 cents per month.

Water Motor	Water Wash	Hyd. Lift	Sink	Sink	Sink	Sink
1	5	5	60	60	10	5 ea

All accounts shall be settled the last day of each month at the office of the collector.

Those failing to settle their accounts by the 5th day of the following month will be cut off and receive no lights or water until satisfactory settlement is made.

A penalty of \$1.00 will be attached for turning on either the water or lights again.

JNO. A. PALMER,  
J. D. COLTON,  
L. P. VOGEL,  
Committee.

Moved by Knapp and seconded by Sweetland that the report of the electric light and water works committee be accepted and adopted as read by the clerk. Carried.

The finance committee recommended that the bill of Wm. Kelly be allowed at \$74.75.

Moved by Knapp and seconded by Burkhart that the report of the finance committee be accepted. Carried.

The finance committee recommended that the bills of Wm. Caspary and A. Eppler be allowed as read.

Moved by Knapp and seconded by Burkhart that the report of the finance committee in regard to the bills of Caspary and Eppler be accepted. Carried.

The bond of W. F. Riemschneider was then presented.

Moved by Burkhart and seconded by Eppler that the bond of W. F. Riemschneider of \$5,000 with W. J. Knapp and F. P. Glazier as sureties be accepted. Carried.

Moved by Knapp and seconded by Burkhart that the street committee and the sidewalk committee report at the next regular meeting the amount of money they expect to expend for building sidewalks and fixing up the streets. Carried.

On motion board adjourned.  
J. A. PALMER, President.  
W. H. HESELSCHWERDT, Clerk.

Concrete railroad ties have proved a failure, and 500 of them that were laid on the Lake Shore some time ago are to be taken up and replaced with wooden ones. It was found that the ties under the pressure of the heavy engines and jar of traffic, began to disintegrate and many almost went to pieces before they could be taken out. They also lack resiliency.

### AN ALBION LADY

Had Asthma 25 Years.

### A GRASS LAKE MAN.

Had Two Cancers on His Face.

I was a great sufferer from asthma for twenty-five years. For weeks at a time I could not lie down at night to sleep. Of course I doctored with every doctor in reach and used all the patent medicines on the market, but I got only temporary relief. I commenced to treat with Dr. Wilkinson, 25 Dwight building, Jackson, Mich., several months ago, and since then I have had but very little asthma and I have had no sign of the disease for two months. No one but asthmatics know how pleased I am to get cured.

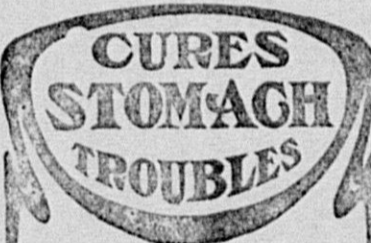

I think all people having asthma should go to Dr. Wilkinson, for he can cure the worst kind of cases. Mrs. WM. HARE, May 6, 1905. Albion, Mich.

### CANCER CURED.

R. F. D. No. 4,

Grass Lake, Mich., Feb. 28, 1904.

I had two cancers on my face—one on chin and one on left cheek—for 5 months. The one on my chin was as large as a silver dollar. I failed to get relief elsewhere so I called on Dr. Wilkinson, Jackson, Mich., Dec. 21, 1904. He removed two large cancers and today the wounds are healed up for the first time and the indications are now that I am permanently cured. GEORGE MAIN.

THE body gets its life from food properly digested. Healthy digestion means pure blood for the body, but stomach troubles arise from carelessness in eating and stomach disorders upset the entire system. Improperly masticated food sours on the stomach, causing distressing pains, belching and nausea. When over-eating is persisted in the stomach becomes weakened and worn out and dyspepsia claims the victim.

Thedford's Black-Draught cures dyspepsia. It frees the stomach and bowels of congested matter and gives the stomach new life. The stomach is quickly invigorated and the natural stimulation results in a good appetite, with the power to thoroughly digest food.

You can build up your stomach with this mild and natural remedy. Try Thedford's Black-Draught today. You can buy a package from your dealer for 25c. If he does not keep it, send the money to The Chattanooga Medicine Co., Chattanooga, Tenn., and a package will be mailed you.

### Probate Order.

STATE OF MICHIGAN, County of Washtenaw.  
ss. At a session of the Probate Court for said county of Washtenaw held at the Probate Office in the city of Ann Arbor, on the 28th day of April, in the year one thousand nine hundred and five.

Present, Emory E. Leland, Judge of Probate.  
In the matter of the estate of Emma J. Hatch deceased.  
L. M. Skinner, executor of said estate, having filed in this court his annual account, and praying that the same may be heard and allowed.

It is ordered that the 31st day of May next, at ten o'clock in the forenoon, at said Probate Office, be appointed for the allowance of said account.

And it is further ordered, that a copy of this order be published three successive weeks previous to said time of hearing, in the CHELSEA HERALD, a newspaper printed and circulating in said county of Washtenaw.

EMORY E. LE LAND,  
Judge of Probate.

### The Rural Malls.

Rural free delivery is a luxury which comes high, but the people demand it. It is only a few years since the thing was an experiment, for which a few thousand dollars was voted. But the item in the new appropriation bill calls for \$12,619,000.

## AT FLINT'S JUBILEE

STATE OF MICHIGAN WILL BE WELL REPRESENTED.

## HOUSE OF REPRESENTATIVES

HAS ACCEPTED AN INVITATION TO ATTEND.

Governor and Other State Officers Will Be There—Battle Flags of Michigan Regiments.

The celebration of the Golden Jubilee of the city of Flint on June 7th and 8th has been accorded substantial recognition by the Michigan legislature and several of the state departments at Lansing. Following the acceptance of invitations extended to Governor Warner and his military staff, the justices of the supreme court and the members of the state military board, a memorial from the common council of Flint embodying an urgent request that the members of the legis-

lature attend the Jubilee celebration was presented to the house of representatives on April 25th by Representative Prosser. The memorial was received and accorded the unusual distinction of being read in full and ordered spread upon the journal of the house. Later in the day's session Representative McKay, of Tuscola, moved that the invitation be accepted by the house, and the motion went through without a dissenting vote. A similar invitation has been extended to the senate and there is every indication that it will be accepted also in that branch of the legislature. In the event that that body is still in session at the time of the celebration, it is proposed to take an adjournment for a day and hold a session in Flint on one of the two days of the Jubilee, when Vice President Fairbanks will be invited to address the legislators. In case the special session is held the circuit court room and the supervisors' room in the new court house will be used for that purpose.

There has for years been a standing rule in the state military department that no battle flags of Michigan regiments should be loaned from the state museum, but in view of the unique character and wide scope of the Flint celebration this rule was recently set aside by the state military board in the granting of a request for the loan of a number of Michigan battle flags for exhibition during the two days of the Jubilee. Among the flags included in loan order issued by the military board are those of the Tenth, Sixteenth and Twenty-Third Michigan infantry regiments, which were largely recruited from Genesee county. A custodian to be appointed by the military board will accompany the flags to Flint and have charge of them during the time they are on exhibition. Each flag has its own individual history, and the telling of these histories by the custodian will be an interesting as well as educational feature of the display of the torn and tattered standards that were followed to victory throughout the civil war by some of Uncle Sam's most loyal and valorous soldiers. The state military board will contribute another feature to the celebration by sending to Flint one of the state cannon, with a squad of artillerymen to man the big gun. Salutes will be fired at sunrise and sundown on both days of the Jubilee, and the cannon will also be used in firing salutes in honor of Vice President Fairbanks and other distinguished visitors on their arrival in the city.

Plans for the big celebration are now nearing completion and the different committees are hard at work arranging the details for an event that will be marked and memorable in the history of one of the prettiest, most prosperous, progressive and hospitable inland cities of the state. A time schedule is being prepared for carrying out the numerous features of the extensive program in a systematic and orderly manner, so that there may be no confusion and everything may be made to work out to the satisfaction of visitors and the complete success of the celebration. An official printed program will be issued for distribution among those participating in the celebration, who will thus be enabled to keep in close touch with what is going on and time their movements so as to be on hand to witness the features of the Jubilee in which they may be particularly interested.

In addition to the military companies from outside points which will be in attendance, Fairbanks Post, G. A. R., of Detroit, and Detroit Commandery No. 1, Knights Templar, have accepted invitations to be present. Detroit Commandery enjoys the reputation of being the finest drilled body of Knights Templar in the United States, and will give an exhibition drill with 150 swords as one of the notable features of the celebration. Drills will also be given by the Detroit Light Infantry and by the Detroit division of the United States Naval Reserves under their old commanding officer, Hon. Truman H. Newberry, recently appointed assistant secretary of the United States navy, who was with his command during the Spanish-American war.

Two of the biggest features of the celebration will be an industrial parade on the first day representing the Flint of fifty years ago and the Flint of today, and a floral parade on the second day that will be participated in by the children of the city and the county schools. Extensive preparations are being made for both parades and from a spectacular standpoint they will excel anything of the kind ever attempted in central Michigan. Professional designers are at work on floats for the different industrial institutions of Flint and many of the mercantile establishments of the city, and some very elaborate creations are being evolved in that direction. The floral parade is in charge of a committee of prominent ladies of the city who are working out plans for a magnificent and imposing spectacle.

Half fare will be granted by all railroads in Michigan to Flint's Golden Jubilee, June 7th and 8th. On sale June 6th, 7th and 8th, good to return up to the 10th.

Cleanse your system of all impurities this month. Now is the time to take Hollister's Rocky Mountain Tea. It will keep you well all summer. 35c, tea or tablets. At Bank Drug Store.

## SIMPLE WALL DECORATIONS.

New Material and New Ideas for the Decoration of Homes.

The styles of home decorations have completely changed in the last few years, and it is pleasant to say that they have changed for the better. Time was when we hung monstrous patterns printed on paper against our walls, and considered them more or less pleasant. But they were the vogue and were put on. The time has come when, with our better methods for interior decoration, better effects can be secured.

In wall coverings, whether they be of paint, or of kalsomine, or of Alabastine—whatever the material used to cover the wall—the thing desired is that which has the greatest covering power, as well as permanency and beauty of color. Alabastine, a wall covering ground from Alabaster rock—which means a hard white rock—is the ideal covering for a wall.

The most beautiful wall decorations in the world are those which are laid on with the brush. The mural designs in our large public buildings, and the frescoed designs in the large cathedrals and churches, have a permanency and an art of which wall paper is but a cheap imitation. These mural schemes and frescoed designs can be brought within the reach of the every day home. They can be done with Alabastine, which is permanent in its coloring. It does not rub off, and it has the soft effect of pastel.

A great many people defer the redecorating of their rooms not only because of the expense but because of the discomfort of it. With Alabastine there need be no discomfort and there can be no muss, for all that is needed is to lay a sheet or canvas on the floor, have your man come in with a pail, make the solution and simply brush it on the wall. That is all there is to it, and the room is perfectly clean and thoroughly renovated.

Just because a man is stilted, it doesn't necessarily follow that he is above reproach.

The fellow who succeeds in bottling up his wrath is a corker.

## Ruined Rhapsody.

"All for you!" the lover cried  
To the maid with eyes of blue;  
"All the world I lay aside—  
All for you!"  
"I will gain a heap of gold,  
Jewels rare of every hue;  
Earth's delights I will unfold—  
All for you!"  
"All my life I consecrate  
To your service—I will do  
Deeds that men shall reckon great,  
All for you!"  
"I shall—!" But, as if in doubt,  
She refused to hear him through,  
Murmuring, "That will be about  
All for you!"

## A DAUGHTER OF THE WORLD

BY LUCIUS DUNBAR

(Copyright, 1905, by Daily Story Pub. Co.)

When Florence declared she would rather go to the woods with Papa on his hunting and fishing trip, than to go abroad with Aunt Mary or to Saratoga with Mamma, they all thought she was crazy.

"What in the world one could do to pass the time, for the life of me, I can't see," remarked Mamma.

"No comforts, no luxuries, no balls, no tennis, no golf—nothing that I can see excepting mosquitoes and bugs and cheap hotels," added Irene, tossing her queenly head.

"And no men," concluded Myra, shrugging her shapely shoulders.

Florence laughed good-naturedly.

"Well, it will be different, at any rate," she responded. "I'm tired to death of Pullman cars and palatial steamers and stately hotel rooms and the eternal breakfasting and luncheoning and dining and supping. Yes, and I'm tired of golf and tennis and automobiles and balls. And the men in our set don't interest me. They're all alike. So I'm going with Papa and see how he has his fun. It must be pretty good fun; I notice he always escapes and goes on his outings alone when he gets a decent chance. Maybe I won't like it, but I'm going to try it this season anyway. You girls needn't complain. It will make one less girl to divide the men with."

And so to the woods went Florence with Papa. He demurred a bit at first at the idea of dragging a girl about with him, but Florence always had been his favorite and they were famous comrades. He would have rebelled had it been any other woman in the world, but he knew that Florence was sensible and would mind her own business and not get in the way. One of her good qualities—one which had appealed strongly to him since she was a very little girl, was a certain resourcefulness which enabled her to be happy and contented with her own thoughts and occupations without depending on others. For the rest, he knew he would enjoy her companionship and her bright wit.

Nor was he disappointed. She took pot luck such as the rough hotel offered without a murmur. He taught her to shoot and fish, but she declined to go with him on his fishing and hunting expeditions, realizing that she would spoil them. They had gone far into the Northern woods, many miles from a railroad, to one of these rare spots which the enthusiastic sportsman smells out, where all is yet wild and unbroken by the ravages of civilization save for a rough cabin or two and the crude log structure labeled "Hotel." Delamont's father was an enthusiastic hunter and fisherman, and each year sought some such spot and plunged into the hardy out-of-door life with enthusiasm for some weeks, recuperating his tired nerves for the long months of fierce professional work.

So day after day he went out with a guide or some chance companion and

died, as the magnificent scenery and the limpid water. She went on one or two hunting expeditions with her guide and learned how little she really knew of the secrets of nature. She began to have an awe of this young savage, untutored in the knowledge of men, but wise in everything pertaining to animals and growing things.

Jasper was an unusual man. The son of a political refugee who had fled from Europe and buried himself in the depths of the forest, he doubtless had in him better blood than he knew. Left an orphan at an early age, he had grown up practically alone and was

Jasper.

full of that great reserve power which belongs to men who live much alone. He had learned to read and write and cipher a little and this constituted his culture. But in every branch of woodcraft he was a master and physically he was a perfect young giant.

After he had conducted Miss Florence on a few expeditions and his reserve wore off, he began naturally to unfold the mysteries of nature to her, and she became deeply interested in exploring this great new world under his guidance. Nor was Jasper himself without interest to her. Never before had she seen a perfectly natural man, and as she came to know him better she realized that never before had she known so powerful a man mentally and spiritually as well as physically. The puppets of society, the dandies of the ball room, the boulevard and the opera became contemptible to her, and the hollowness of their lives loathsome.

As for Jasper Courrad, Florence was the first lady from the outer world he had ever seen and his wonder knew no bounds. All the women he had ever seen were Indian squaws and the few wives of the lumbermen and settlers—all old and of a very different sort than this dainty bit of Dresden China which had floated his way. Her daintiness, her beauty, her culture, her learning, her marvelous clothes all impressed him profoundly. As a whole, she was a mystery to him.

Now, what do you think happened? Of course, my romantic young woman readers will shout in chorus: "He fell in love with her." And my romantic young women readers are right. That is exactly what happened. He fell in love with her so deeply that all the sunshine in the world seemed absorbed in that one little bundle of femininity and all the rest of the world was dark.

One day just before the Delamonts were about to start home the woodsman took Florence upon a hill which commanded a view of his rough cabin, and here he told her of his love.

"I don't reckon you kin love a great rough Injun like me," said he. "And I don't reckon you could live happy up here in the woods—if ye could you'd make me the happiest man in the world—but I couldn't let you go without telling you of it. I want you always to know that up here in the woods in a rough little cabin there's a heart that's beatin' for you all the time. I don't know much of the world and I don't reckon I ever could do much out yonder, but if ever there is anythin' I kin do to make you happier, let me know an I'll do it if it can be done."

And all at once all the world faded away from Florence save only the woods and the lake and the little cabin

and the straight, quivering figure before her. And she knew that the world was well lost.

"And if I should stay?" she whispered.

"If you should stay?" he repeated, looking at her in bewilderment. Then catching the significance of her flushed cheeks and her drooping eyes, he exclaimed, "If you will stay I will build the biggest and finest cabin in all the woods, and it will be my thought all the day and my dream all the night to learn to make you happy. Will you—can you?" He clasped her tight to him, unreleasing.

And stay she did despite imperative Papa and hysterical Mamma and storming Aunt Mary and chattering sisters and an amazed world and a bed-pictured press and a busy Mrs. Grundy.

## RELIGION IN MANY TONGUES.

Thirty-Eight Languages Used in a Celebration at Rome.

A religious celebration took place at the college of the Propaganda, in Rome, recently, which was attended by students from all parts of the world, who spoke or chanted in thirty-eight different languages.

The first language on the list was Hebrew, says the New York Herald, in which a Maronite student spoke. Then followed poetic compositions in Greek and Latin, after which the languages of Asia were in evidence.

Sumaritan was spoken by Ephrem Haddad of Diarbeker, and in their turn there were heard Arabic Asforica, a dialect of Arabic; Syriac, Ethiopian, Coptic, Turkish, Kurdish Chinese, by John Inen, a Chinese; Malabaric, literary Armenian, Bacca, a dialect of Zulu, by a student from Natal; vulgar Armenian, literary Chaldeic, Caffre, a dialect; Zulu, Tamil and Vulgar Chaldeic.

Next came the languages of Europe—Portuguese, by a Brazilian student; German, by Franz Renner of the diocese of Columbus, O.; Hungarian, English, by Francis James from England; Latin, by a student from Zante; modern Greek, by a student from Santorin; German dialect poetry, by Friedrich Prieshoff of Cincinnati, O.; Rhetian Romantic, Irish, by William O'Brien, from Ireland; Scotch Gaelic, by John MacDonald of Nova Scotia; Roumanian, Norwegian, Albanian, French, by Samuel Lange, a Canadian; Polish and Dutch.

## Too Heavy to Handle.

Elliott S. Ranney, the well-known New York Athletic club automobilist, is constantly experimenting with new machines, and not long since had a car made to order from original designs with 150 horse power. This was quite a step forward in the size of automobiles, as the largest practicable car is now 100 horse power, and even that is considered by many experts to be too much.

As the giant machine approached completion Ranney's misgivings grew in proportion. Finally the new car was finished, trundled out into the roadway, and everything put in readiness for the start.

Ranney took hold of the crank, but the pressure was too great and he could not budge it, although he is a very muscular man. After two or three more ineffectual attempts he let go of the crank, and with a great sigh of relief, exclaimed:

"Thank God!"—New York Times.

## Professor Wentworth and John J.

The stories told at the expense of Prof. Wentworth, commonly known as "Bull" Wentworth, and for years connected with the Phillips Exeter academy, are legion. The following, however, is one of the best:

It was the custom on opening day for each instructor to take the names of pupils of his classes.

"Now," said Prof. Wentworth on one occasion, "I want every boy to give his full name. If your name is William Henry Smith say William Henry Smith, and not W. H. Smith nor William H. Smith."

The list was nearly completed satisfactorily when the name of John Jay Brown was given. The professor's chance had come, and he roared out: "John J. Brown; John J. Brown; will any one tell me how to spell J?"

"Yes, sir," said the boy, "J-A-Y," and Prof. Wentworth laughed with the rest.—Boston Herald.

## Some Garden Enemies.

How a plant can survive nowadays is a mystery, for almost everyone has some special enemy or enemies; in fact, their name is legion, says the Garden Magazine. There are biters, borers, suckers and cutters; there are mildews, rust, blight and scab. While there are wholesale methods of destroying most of them, there are about two dozen "critters" that have to be known by sight and fought by special methods. All insects may be divided into two classes, the biters and the suckers. The way to get rid of the pests that bite and chew is to poison their food, but the fellows that suck the juices and pay no attention whatever to poison on the outside surface of a plant have to be met and slain in open battle.

## Johnny on Twins.

When asked to write a short composition on some interesting experience, Johnny, after much labor, handed his teacher the following:

"Twins is a baby, only it's double. It usually arrives about 4.37 in the morn'g when a fellow is getting in his best sleep. Twins is accompanied by excitement and a doctor. When twins do ennything wrong, their mother can't tell which one to lick, so she gives it to both of 'em so as to make sure. We've got twins to our house, and I'd swap 'em enny day for a billy goat or mos' enny thing."—Success Magazine.

## THE MODERN FARMER.

How He Lives, as Compared With Fifty Years Ago.

he farming life of today, as contrasted with that of fifty years ago, is a paradise of comfort and convenience. The lonely loghouse, remote from market and devoid of advantages that a half cycle of time has made possible, would scarcely appeal to the present day farmer.

The twentieth-century soil tiller has practically all the modern comforts. His mail is delivered daily. He has telephonic connection with the buying and selling world, affording the best opportunities for marketing to advantage. His home is of recent architecture, constructed of wood, brick or stone, and well furnished. He has modern plumbing and modern heating, and with the advent of acetylene gas, he has modern lighting. At night his home is as attractively illuminated as that of his city brother, for it is a suggestive fact that "acetylene for country homes" has so appealed to the farmer, that of the 80,000 users of acetylene gas in the United States, the farmer is one of the largest of all classes. Ever seeking the best, he has not hesitated in availing himself of this new light.

The continued growth and progress of this great country, ever a cause of wonderment, has no greater exemplification than evolution on the farm. Already the farmer is becoming the most envied of men—the freest, the healthiest, the happiest!

## Spain's Iron-Bound Beach.

"Everywhere that I have seen it, the coast of Spain is an iron-bound beach with a rough sea breaking," writes a traveler. "Whether on the Atlantic or the Mediterranean shore, whether on the Biscayan or the Andalusian coast, there seems to be ever a heavy surf booming along the Spanish beach. Here on the extreme north there were the same somber mountains that we had once seen when coasting between Gibraltar and Mar-seilles; here we saw the same stern landscape and the same gaunt cliffs crowned with watch towers, sad-colored like the cliffs and seeming to be stony growths out of the rocks themselves."

## A Fable.

"The dangers of sensational journalism are many," observed the philosophical fly; "and yet it suits the taste of some persons to the extent that it becomes a positive appetite with them. Now, there's my brother," he continued, pointing to a struggling, buzzing unfortunate. "He's so badly stuck on that yellow sheet that he's all tangled up and doesn't know which end he's on!"—Cleveland Leader.

## Soy Bean Cheese.

The municipal laboratory of Paris has been examining the experiments made by Dr. Vogel, who has manufactured a very succulent cheese from the small Chinese beans known as "soy beans." The doctor finds that the pulp of these beans contains many of the caseine qualities, and that the resulting composition is both nourishing and pleasant to the taste.

## GREAT CHANGE

From Change in Food.

The brain depends much more on the stomach than we are apt to suppose until we take thought in the matter. Feed the stomach on proper food easy to digest and containing the proper amount of phosphates and the healthy brain will respond to all demands. A notable housewife in Buffalo writes:

"The doctor diagnosed my trouble as a nervous affection of the stomach. I was actually so nervous that I could not sit still for five minutes to read the newspaper, and to attend to my household duties was simply impossible. I doctored all the time with remedies, but medicine did no good."

"My physician put me on all sorts of diet, and I tried many kinds of cereal foods, but none of them agreed with me. I was, almost discouraged, and when I tried Grape-Nuts I did so with many misgivings—I had no faith that it would succeed where everything else had failed.

"But it did succeed, and you don't know how glad I am that I tried it. I feel like a new person. I have gained in weight and I don't have that terrible burning sensation in my stomach any more. I feel so strong again that I am surprised at myself. The street noises that used to irritate me so, I never notice now, and my mind is so clear that my household duties are a real pleasure."

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Now why was this great change made in this woman?

The stomach and the brain had not been supplied with the right kind of food to rebuild and strengthen the nerve centers in these organs. It is absolute folly to try to do this with medicine. There is but one sure way and that is to quit the old food that has failed and take on Grape-Nuts food which is more than half digested in the process of manufacture and is rich in the phosphate of potash contained in the natural grain, which unites with albumen and water—the only three substances that will make up the soft gray filling in the thousands of delicate nerve centers in the brain and body. Grape-Nuts food is a sure road back to health in all such cases.

## RAILROADS AND PROGRESS.

In his testimony before the senate committee on interstate commerce at Washington on May 4, Prof. Hugo H. Meyer of the Chicago university, an expert on railroad management, made this statement:

"Let us look at what might have happened if we had heeded the protests of the farmers of New York and Ohio and Pennsylvania (in the 70's, when grain from the west began pouring to the Atlantic seaboard), and acted upon the doctrine which the interstate commerce commission has enunciated time and again, that no man may be deprived of the advantages accruing to him by virtue of his geographical position. We could not have west of the Mississippi a population of millions of people who are prosperous and are great consumers. We never should have seen the years when we built 10,000 and 12,000 miles of railway, for there would have been no farmers west of the Mississippi river who could have used the land that would have been opened up by the building of those railways. And if we had not seen the years when we could build 10,000 and 12,000 miles of railway a year, we should not have to-day east of the Mississippi a steel and iron producing center, which is at once the marvel and the despair of Europe, because we could not have built up a steel and iron industry if there had been no market for its product.

We could not have in New England a great boot and shoe industry; we could not have in New England a great cotton milling industry; we could not have spread throughout New York and Pennsylvania and Ohio manufacturing industries of the most diversified kinds, because those industries would have no market among the farmers west of the Mississippi river.

And while the progress of the country, while the development of the agricultural west of this country, did mean the impairment of the agricultural value east of the Mississippi river, that ran up into hundreds of millions of dollars, it meant incidentally the building up of great manufacturing industries that added to the value of this land by thousands of millions of dollars. And, gentlemen, those things were not foreseen in the '70's. The statesmen and the public men of this country did not see what part the agricultural development of the west was going to play in the industrial development of the east. And you may read the decisions of the interstate commerce commission from the first to the last, and what is one of the greatest characteristics of those decisions? The continued inability to see the question in this large way.

The interstate commerce commission never can see anything more than that the farm land of some farmer is decreasing in value, or that some man who has a flour mill with a production of fifty barrels a day is being crowded out. It never can see that the destruction or impairment of farm values in this place means the building up of farm values in this place, and that that shifting of values is a necessary incident to the industrial and manufacturing development of this country. And if we shall give to the interstate commerce commission power to regulate rates, we shall no longer have our rates regulated on the statesmanlike basis on which they have been regulated in the past by the railway men, who really have been great statesmen, who really have been great builders of empires, who have had an imagination that rivals the imagination of the greatest poet, and of the greatest inventor, and who have operated with a courage and daring of the greatest military general. But we shall have our rates regulated by a body of civil servants, bureaucrats, whose besetting sin the world over is that they never can grasp a situation in a large way and with the grasp of the statesman; that they never can see the fact that they are confronted with a small evil; that that evil is relatively small, and that it cannot be corrected except by the creation of evils and abuses which are infinitely greater than the evil that is to be corrected."

## Danger in Painted Toys.

Do not buy painted wooden toys for the children. During our early years of life we closely resemble the lower animals in bringing everything to the test of taste. The writer distinctly remembers trying to swallow a marking ink. Some toy manufacturers state that the colors they use are harmless. Well, without being unkind, one may say that the insides of the little children can very well dispense with paint. White wood is capital. It cannot poison.

## Clean House To-day.

Don't wait till to-morrow, but clean house to-day, with Dr. Caldwell's (laxative) Syrup Pepsin. Of course you mean your house of flesh and bone—your body. This is the best house you own, and should get the most care. Yet most people neglect it in a dreadful manner. As a result, stomach, liver and bowels soon get out of order, and cause great pain, distress and dangerous internal diseases. The only safe, sure cure is Dr. Caldwell's Syrup Pepsin. It clears out all causes of sickness, cures constipation and indigestion, cleans house, and makes you well. Try it. Sold by all druggists at 50c and \$1.00. Money back if it fails.

## Cure for Consumption.

A six months' tour by bullock in South Africa is the latest cure for consumption, as advertised by a London doctor. Your own milch cow accompanies you, the pace is only two miles an hour, there are frequent outspans and vegetables, butter, butcher's meat, fowls and eggs are easily obtainable. It is said. The total cost is only \$50.

## CHAPTER II.

### A Green-Haired Woman.

Amos Talbert, the comfortable, genial landlord of the Essex House, had a wife and daughter; the latter unmarried, though not of uncertain age, as she had not the least objection to any one's knowing that she was forty-two. With her bright complexion, brighter eyes and manners, she was one of the most attractive ladies in Grovedale, and it was no task, therefore, for Mrs. Hamilton to chat with her for a few moments.

"Have you many guests in the house now?" she asked Miss Talbert.

"Very few steady boarders, but a good many 'transients'."

"I wonder if the green-haired lady is gone yet," said Miss Chase, looking up from her work with a smile.

"Yes, she went on the seven o'clock train."

"On the train with my husband," thought Mrs. Hamilton; but you may be sure she did not say this.

Instead she repeated wonderingly, as she looked at Miss Talbert with polite interest, "a green-haired lady?"

"I am not surprised at your surprise," said Miss Talbert, laughing. "You would wonder still more if you were to see her. She came on the train last night and went away this morning."

"But you don't mean to say her hair is actually green, do you?"

"Not a bright, vivid green, but a shabby emerald tint hard to describe. The sea takes on such a color sometimes in the shadow of an overhanging cliff. You should see it, Mrs. Hamilton. She is very pretty, has lovely features, and a sweet voice. I was quite charmed by her."

"I think she knows Mr. Hamilton," said the dressmaker, "for she ran out to meet him when he came down the street."

"Ah! perhaps you know her, too," said Miss Talbert, looking at Mrs.

old fogies, and lazy to boot. We put too much on his shoulders. I told him so this morning. 'Carter,' says I, 'Vane's been working too hard.' 'I know it,' says he. 'Vane has lost twenty pounds lately.' 'Is that so?' asked Constance, startled.

"So your uncle said. 'S'posed you knew it. Well, this will never do, stopping to talk to pretty women when business is booming at the mill,' and the jolly mill-owner passed on, leaving Constance to pursue her way homeward."

How hollow the house sounded! How still it was! What would life be without husband or children? Grim walls, staring pictures, lifeless furniture do not make home, she realized forcibly as she sank into a chair and folded her gloved hands on her lap.

"Two weeks pass so quickly," she murmured. "Sometimes I can scarcely realize they have passed. When he comes back I shall ask him all about it. I have never done it, but I will now. Secrets ought not to come between man and wife. I will tell him so. They might make trouble. They do sometimes. Mr. Henderson thinks it strange, I could see that, and so does Tony. I must tell Vane about it when he comes back."

As you may imagine, with such contradictory thoughts, and so much alone, Constance did not find the days very swift in passing. Indeed, they lagged terribly, though she made calls, practiced her music and did sundry odd jobs of sewing, the accumulation of the winter months.

To add to her anxiety she did not receive one word from her husband. Meanwhile, she had seen and talked with Mrs. Fry about the green-haired lady. Mrs. Fry brought to Mrs. Hamilton a basket of freshly ironed muslins the day after Mr. Hamilton's departure, and immediately launched forth in a description of the green-haired woman.

"I just want to see Mr. Hamilton."

Hamilton. "Her name was booked as Mrs. Anderson, Newark, N. J."

"No, I do not," she answered, "and I have never heard my husband speak of a green-haired acquaintance."

This statement in regard to the meeting of her husband and the green-haired lady coincided with the glimpse she had of it from her tower, though at that distance she had not noticed the color of her hair. An accidental meeting, evidently; but they went on in the same train together, perhaps in the same car. If friends, undoubtedly they rode together. Well, what of that? Friends meet each other at every turn. Her husband might in the past have done the woman a kindness or some little service. It would be like him. He would tell her all about it on his return.

And, with a pleasant adieu to Miss Chase, Mrs. Hamilton went away.

She called at the Savings Bank in passing, and Tony Osborn, with his pen behind his ear, came at once to speak to her.

"Good morning, Tony; very busy, I suppose."

"Awful, now Ham—Mr. Hamilton is away."

"Did he tell you just when to expect him back—what day, I mean?" asked Mrs. Hamilton.

"No. In a week or two, he said. But it's all a joke about my being busy, you know, for everything was put in shape before he went."

"I'm glad to hear you are not driven," said Mrs. Hamilton, reflecting that her husband always cleared the way for others, but took the roughest path himself. And then she went on her way. She met Mr. Henderson, who stopped to speak to her, and to ask when her husband would be back.

"Only been away six hours and we miss him already! No one can manage like Vane. In a week or two? Yes, that's what he told me. But, by George, he never told me where he was going. Strange! Always goes off in May. Of course you know."

She murmured something about Boston and rest.

"He needs it, by George! Hope he'll get it. I shall need a rest when he gets back. Our business grows, Mrs. Hamilton. It's double what it was two years ago. Didn't realize it while Vane was here."

"He works too hard, Mr. Henderson."

"I know it. Your uncle and I are

he didn't come to the bank. Perhaps he is at the mill."

"Without coming home, Tony?" Young Osborn bit his lips and thought deeply, but each moment grew more bewildered.

"Did you speak to him?" asked Mrs. Hamilton.

"Yes, and he spoke to me. Banking hours are over at four, you know, and it was just after dark that I saw him going into the bank as I was passing. 'Hallo!' I said. It was the first thing I thought to say, for I was surprised to see him so soon. 'Hallo,' he said, and laughed a little. 'Didn't expect me back so soon, did you?' 'No,' I said, 'I didn't.' Then he went in and shut the door after him, and I went home."

"Tony, that couldn't have been Mr. Hamilton."

"It certainly was. It was his voice I heard, and his form, features, gait, everything. I couldn't have been mistaken."

"Tony," said Mrs. Hamilton, in a low, terrified voice, "I am afraid you have been deceived. It must have been a burglar."

"Oh, no, there isn't the least doubt in the world that it was Mr. Hamilton; tone at all."

"Was everything right this morning?"

"Yes."

"Nothing missing?"

"No, nothing at all. All that surprises me is that he isn't here."

"He would certainly have been if he had come home. That makes me think you have been deceived."

For answer Tony took from his vest pocket a small shirt-stud of unique design and handed it to Mrs. Hamilton.

"I found it on the desk just as it would have fallen if it had become loosened from his shirt front."

"Oh, Tony! What does it mean?" cried Mrs. Hamilton, with white lips.

"What can it mean? It is his. I gave him the set myself, and had them marked with his initials. See, this is V."

"I noticed it," said Tony, quietly, "and I was sure it was his. Now, how did it happen to be on his desk this morning, unless it dropped out last night?"

"Perhaps it was laid there, unnoticed, since he went away."

"Impossible. I have dusted and put everything in order daily."

Tony's habits of order were incontrovertible. "Cannot you recollect whether he spoke of missing one before he went away, Mrs. Hamilton?"

"No, he said nothing about missing one."

"Then you will find that I am right," said Tony. "Mr. Hamilton was at the bank last night at about eight o'clock. He must have been detained somewhere, and will, no doubt, be here shortly. You may expect to see him coming up the street at any moment," he concluded, reassuringly, for he saw that she was terribly shaken.

"I hope you are right, but I have felt worried ever since he went away."

"Oh, he's all right, sound as a trumpet. I wouldn't worry, if I were you," and Tony went down the stairs, but paused to ask, "Shall I go around to the mill and ask Mr. Carter if he has seen anything of him?"

"Yes, please do, and ask Uncle Carter to come up to see me, if Vane isn't there."

"All right," and he turned away. "I wish everything were all right, but I'm afraid it isn't," he muttered.

(To be continued.)

## COULD NOT BREAK AWAY.

Fascinations of Baseball Shown by New York Incident.

Baseball has a charm all its own. Last Saturday at noon a promoter started down Wall street to take a steamer for British Guiana. With him was an Englishman who had never seen a ball game, having lived all his life on his estate bordering the Essequibo river. The promoter was going down to buy from him for a syndicate a vast tract of forest land.

A pack of youngsters from Water street, chased by a policeman from their native heath, began to play baseball on narrow Hanover street, just when the promoter and his friend should have been increasing their pace. So they stopped along with hundreds of others, from bankers to push cart men.

The field was a narrow one; the eighty-year-old batter faced the City bank; right field was blocked by Brown Brothers, and left field by the Custom House. The catcher's backstop was the United States Lloyd's building.

The play was scientific. The Englishman was an apt student and joined in the roar as a three-bagger into an iron shutter of the Custom House cleared the bases. Then followed a home run into an apple cart on Wall street; those who chose to celebrate the play by picking up apples and eating them did so.

The promoter finally dragged the Britisher away. They missed their steamer at that, and it took a lot of persuasion plus a yellow note to get a busy tug boat captain to give chase. Off Bay Ridge they boarded their liner—talking baseball.—New York Sun.

## CHARACTER TOLD BY SHOES.

Wearers' Defects and Virtues Plainly Manifested.

A certain shoemaker is a firm believer in "shoology." He says: "Worn shoes go ahead of the art of fortune-telling from the lines of the hand. In one shoe, for instance, I see irresolution, changeableness, inclination to slovenliness and occasional fits of ill-humor."

"Show me any person's footgear after two months' wear and I will describe the character of the person."

"If the soles and heels are worn evenly, then the wearer is a resolute, able business man, with a clear head, a trustworthy official or an excellent trust and mother. If the sole is worn on the outside, the wearer is inclined to adventurous, uncertain, fitful deeds, or, if a woman, to bold, self-willed, capricious tricks."

"The sole being worn on the inner side shows hesitation and weakness in a man and modesty in a woman."

## BABY CAME NEAR DYING.

From an Awful Skin Humor—

—Scratched Till Blood Ran—

Wasted to a Skeleton—

Speedily Cured by

Cuticura.

"When three months old my boy broke out with an itching, watery rash all over his body, and he would scratch till the blood ran. We tried nearly everything, but he grew worse, wasting to a skeleton, and we feared he would die. He slept only when in our arms. The first application of Cuticura soothed him so that he slept in his cradle for the first time in many weeks. One set of Cuticura made a complete and permanent cure. (Signed) Mrs. M. C. ## Alabastine Your Walls

Alabastine produces exquisitely beautiful effects on walls and ceilings. Easy to apply, simply mix with cold water. Better than kalsomine, paint or wall paper. It is not a kalsomine, it is a sanitary, permanent, cement coating, which hardens on the walls, destroying disease germs and vermin, never rubbing or scaling. Kalsomines mixed with either hot or cold water soon rub and scale off, spoiling walls, clothing and furniture. They contain glue, which decays and nourishes the germs of deadly disease.

If your druggist or hardware dealer will not get Alabastine, refuse substitutes and imitations and order of us. Send for free sample of tins and information about decorating.

## LIVING TOO HASTILY

AMERICAN WOMEN BREAK DOWN

Irregularities and Female Derangements Result—Cured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the nervous haste of every woman to accomplish just so much each day, it is said that there is not

one woman in twenty-five but what suffers with some derangement of the female organism, and this is the secret of so many unhappy homes.

No woman can be amiable, light-hearted and happy, a joy to her husband and children, and perform the duties incumbent upon her, when she is suffering with backache, headache, nervousness, sleeplessness, bearing-down pains, displacement of the womb, spinal weakness or ovarian troubles.

Irritability and snappy retorts take the place of pleasantness, and all sunshine is driven out of the home, and lives are wrecked by woman's great enemy—womb trouble.

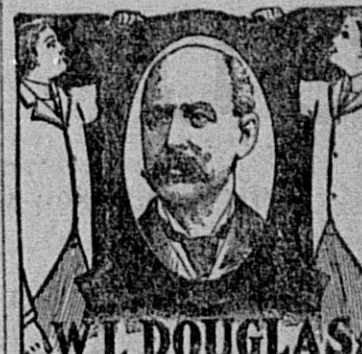

Read this letter:

Dear Mrs. Pinkham:— "I was troubled for eight years with irregularities which broke down my health and brought on extreme nervousness and despondency. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. Day by day I improved in health while taking it until I was entirely cured. I can attend to my social and household duties and thoroughly enjoy life once more, as Lydia E. Pinkham's Vegetable Compound has made me a well woman, without an ache or a pain."—Mrs. Chester Curry, 43 Saratoga Street, East Boston, Mass.

At the first indication of ill health, painful or irregular menstruation, pain in the side, headache, backache, bearing-down pains, nervousness or "the blues," secure at once a bottle of Lydia E. Pinkham's Vegetable Compound and begin its use.

We have on file many thousand testimonials like the above. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is receiving.

Only Half a Baby.

A man who has recently traveled in Ireland says that in a poor little cottage of two rooms he saw a married couple and seven children. Hearing a baby cry, he asked to see it, and explained that he took an interest in babies, having one at home. The infant was produced for inspection, and the mother asked, proudly: "Is yours as big as that, sir?" To which he replied, "I think it is a little bigger." Instantly the instincts of the mother were roused, and, tossing her head, she said, "So well it might be; that's only half of ours; the other half is with God. We had twins."

Gigantic Lily.

A gigantic lily, the phormium tenax, is a valuable plant peculiar to New Zealand. Its leaves are nine or ten feet long, and are so tough that, by splitting one into narrow ribbons and joining the ends, the New Zealander has a first-class rope ready to hand.

## GRIP'S UGLY SEQUEL

KNEES STIFF, HANDS HELPLESS. RHEUMATISM NEAR HEART.

Mrs. Van Scoy Experiences Dangerous After-Effects from Grip and Leurus. Value of a Blood Remedy.

The grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration, and even consumption.

The story told by scores of victims of the grip is substantially the same. One was tortured by terrible pains at the base of the skull; another was left tired, faint and in every way wretched from anemia or scantiness of blood; another had horrible headaches, was nervous and couldn't sleep; another was left with weak lungs, difficulty in breathing and acute catarrh. In every case relief was sought in vain until the great blood-builder and nerve-tonic, Dr. Williams' Pink Pills, was used. For quickness and thoroughness of action nothing is known that will approach it.

Mrs. Van Scoy makes a statement that supports this claim. She says:

"I had a severe attack of grip, and before I had fully recovered, rheumatism set in and tormented me for three months. I was in a badly run-down state. Soon after it began I was so lame for a week that I could hardly walk. It kept growing steadily worse and at last I had to give up completely and for three weeks I was obliged to keep my bed. My knees were so stiff I couldn't bend them, and my hands were perfectly helpless. Then the pains began to threaten my heart and thoroughly alarmed me."

"While I was suffering in this way I chanced to run across a little book that told about the merits of Dr. Williams' Pink Pills. The statements in it impressed me and led me to buy a box. These pills proved the very thing I needed. Improvement set in as soon as I began to take them, and it was very marked by the time I had finished the first box. Four boxes made me a well woman."

Mrs. Laura M. Van Scoy lives at No. 20 Thorpe street, Danbury, Conn. Dr. Williams' Pink Pills are equally well adapted for any other of the diseases that follow in the train of grip. They are sold by all druggists.
