Following is the paper read by Rober

Gentlemen: It is with great pleasure that I again meet with your association, renew old friendships and refresh old nemories of by-gone days. I regard it as a privilege to stand up shoulder to shoulder with men who have spent the better part of a lifetime in the work of improving one of God's best gifts to nan—the animal that helps feed as well as clothe the people. In your success all the civilized world is benefited, and no one injured. It is a work whose end is beneficent, and whose success reaches down to the bottom and extends to the top of our social system. Let me say here, and state it as my firm conviction, after 40 years of observation, that no fabric ever produced has proved so healthful and so well fitted to meet the requirements of all seasons and all climates and all classes of society, as that manufactured from the fleece of the sheep. It meets the wants of the old, the middle aged and the young, the new born infant and the octeregarian whose weakened system craves its

THE CZAR'S ULTIMATUM MAKES IT JAPAN'S MOVE

ADJOURNMENT ASKED BY JAPAN'S REPRESENTA-TIVES GRANTED.

THERE SEEMS NOW SMALL HOPE OF PEACE UNLESS JA-PAN RECEDES.

Ambassador Meyer on Saturday communicated to President Roosevelt day. Last Saturday he was taken ill Emperor Nicholas's last word and his Burglars entered the Fife Lake post- ultimatum that Russia will not pay office in connection with the store of one penny of indemnity to Japan in Dr. Lewis Walter, postmaster and any guise whatsoever. Russia is merchant, and secured but \$12 in ready to agree to a division of Sakha lin, Japan retaining that portion previously belonging to her and Russia re-Adrian are resigning, the board has taining the northern portion. Russia been having a strenuous time getting will pay for the maintenance of her prisoners, but will make no other concession in addition to those already made. If Japan does not accede to these terms, peace is impossible and the war will continue.

Peace conference was in session an hour and a half, Saturday, approved the pretocol to date and adjourned until Monday.

Baron Komura made the request at race-suicide city. For the past three half-past four, "I would suggest," he years the school census shows a gain said, "that if M. Witte is willing we should like to take an adjournment until Monday afternoon at 3 o'clock."

"It will give me the greatest pleasure to comply," M. Witte replied, bow ing profoundly. Thus the adieus were postponed and

thus the fighting on the other side of the world was held back for a few days longer. The Russians were most anxious

to let the world know that it was the Japanese who asked for the adjournment. They went to great pains to impress all comers that they were ready to stop.

Witte thinks he has placed the onus on Japan. He insists that if the Japanese will hold out for money it will be blood money in the eyes of the world. He is banking heavily on the fact that Japan is anxious to have the approbation of the world. He does not pretend to solve the riddle of the adjournment. He is now waiting for the Japanese proposition on Monday, happy. Before Mosiman took the polrather angry, apparently, because he is not already on his way to New

It is possible that Witte had been fooling every one; that he had not been sincere in his claim that he wanted to pay no indemnity, but those who know him intimately insist he is sincere. It is possible, too, that the Japs

Frank Jerry Koepeck, who came re will forego an indemnity for the sake

centers on two things: The fact that every day's delay makes for peace, and the incessant effort of the president to bring about some sort of a compromise.

Reports from Oyster Bay indicate the extreme efforts the president is making. He is reported here to have said that if the world knew the extremely moderate and magnanimous terms of Japan, Russia would be compelled to sign a treaty. The Russian surmise that the president is working with the Japanese was also verified. The president has not confined his efforts solely to St. Petersburg.

The chances are that, now that the negotiations are at this critical stage, the president has determined to make one last effort to force the Russians news from Oyster Bay is in direct coasonance with the Japanese policy of adjournment. The Japanese evidently hope, by dragging along the conference, to force Russia to some sort of an agreement. The Russians may appreciate this or they may not. Their only expression is the parrot-like insistence that they will never pay an indemnity.

Asks Rockefeller to Help.

Owing to the reports from Portsmouth indicating that the question of peace between Russia and Japan hinges solely on Russia paying an indemnity to Japan, the Paris Matin has cabled a remarkable appeal to John D. Rockefeller, at Cleveland, O. The appeal, in part, follows:

"The question of money threatens to unloose afresh and with redoubled violence the scourge of war. President Roosevelt is making noble and heroic efforts to end a struggle between two nations whose populations amount to one-seventh of the entire population of the globe. His initiative honors America in the opinion of civi-

lized nations. "The que ion arises as to whether another American would not share the glory of President Roosevelt and complete his work by overcoming the sole obstacle now hindering peace. He would thus demonstrate the might of money in powerful and generous hands

"The Matin constituting itself spokesman for this sentiment, addresses the richest citizen in the world.

The appeal concludes with lengthy arguments showing the immense benefits such an act would confer upon civilization.

"Regenerator of the country," is the title bestowed on President Nord of Hayti by the Haytien parliament. A \$5,000 piece of property accompanies

and the East river, New York, a gang | read: pot containing 1,500 copper pennies of the reign of George II. The bookmakers got the \$40,000 he regrets to Baker by wire. stole from the D. P. Morgan estate,

CASE AT HOME.

YELLOW FEVER PATIENT IN OT-TAWA COUNTY.

Ottawa county has a genuine case of yellow fever. A young man named Godfrey Limburg, who arrived in Grand Haven from New Orleans last week, is very ill with the disease at his father's home in Crockery township, ten miles from the city.

Dr. Hughes, of Nuncia, who is attending the sick man, says he is positive that the case is genuine yellow fever. Dr. Hughes is a southerner, and has had experience with the disease in Mississippi and Louisiana. Yesterday Limburg's temperature was 105. His skin is apparently yellow and the patient vomits continuously Dr. Hughes says the case will reach the critical point by Saturday.

Limburg has been working as linesman for a telephone company in New Orleans. He became frightened over the yellow fever situation and left New Orleans a week ago Tuesbut a physician was not called for several days. Not until last night were the health officers notified.

The Detroit Murder Trial.

The trial of the two men charged with the murder of Pawnbroker Moyer in Detroit began on Thursday morning, the defense having used every challenge possible in the selection of the jury. The men and Mrs. Ellison, the woman in the case who had some of the plunder, have been fully identified. An important witness is City Marshal William E. Rice, of Independence. Mo., who knows both men well and identified them.

Byron Ellison, husband of the wo man who is expected to be the star witness in the Moyer murder trial, paid a third visit to his wife at the Central police station Saturday night In the lower corridor he was introduced to Marshal Rice, of Independence, Mo., and the two had a conference lasting nearly half an hour.

Mr. Ellison asked Rice what he knew of Mrs. Ellison's connection with the case and later the two re tired to where Mrs. Ellison was confined. In the presence of Marshal Rice Ellison again urged his wife to tell the truth when it came time for her to testify

"Tell the truth, Kittie," said the hus band. "Tell all you know about this and I'll stay by you to the last."

An Unhappy Ending.

Fritz Mosiman, farmer, living in Blumfield township, committed suicide Saturday afternoon. About two years ago he married for a third wife a widow who owned the farm where they lived. Their married life was unson he put on the regalia of the Order of the Sons of Herman, and then

ON THE BOTTOM OF LONG ISLAND SOUND IN THE PLUNGER.

THE PRESIDENT TRIES LIFE ON A SUBMARINE FOR A TIME.

CABINET CHANGES MAY INCLUDE

MR. NEWBERRY, OF MICHI-

GAN.

President Roosevelt late Friday made a descent in Long Island sound on board the submarine torpedo boat Plunger, the crack submarine of the navy. He was aboard the vessel about three hours. At one time the little boat was submerged for 50 minutes and in that time was put through all of the submarine feats of which

she is capable. Soon after the vessel reached the necessary depth of water she was directed downward until she rested on the bottom of the sound. Then the mechanism of the craft was explained minutely to the president by Lieut. Nelson, so that he afterward experienced no difficulty in understanding the maneuvers.

While the president thus was resting on the bottom of the sound in a submarine boat, a storm 40 feet above him was raging unnoticed. The rain descended in torrents and the northeaster whipped the surface of the water into big rollers, but it was as quiet and peaceful where the president sat as an easy chair would be. Lieut. Nelson made his boat perform the remarkable feat of diving to from east to west. a depth of 20 feet, and, while going

at full speed at that depth, reversing her course. The complete turn occupied only one minute. Subsequently the engines were stopped and the vessel was submerged to

a depth of 40 feet. There she was kept motionless—a demonstration of her ability to remain in that position for hours while waiting an opportunity to launch one of her torpedoes at a vessel of a blockading squadron which might be passing or repassing a square lambs. \$7.25@7.50; fair. which might be passing or repassing a

HOCH WINS.

TO HAVE A NEW TRIAL-JUST EL CAPED HANGING.

Johann Hoch, the man of wives, convicted of the murder of one of them, and under sentence of them, and under sentence of death, has escaped the gallows a third time. He was to have been hanged in Chicago, Friday, but a supersedeas was issued Thursday on an order of Justice Magruder of the supreme court.

The justice said that he had carefully examined the record presented by Hoch's attorneys, and his study of it satisfied him that there was enough doubt to justify a review of the case by the supreme court. The case will come up at the Octob term.

Hoch has been confident that the sentence of hanging would not be inflicted. He had very little to say when informed of the action of the justice. Jailer Whitman asserted it was the first time in his experience that a prisoner has exhibited no concern about his fate the day previous to execution.

Shaken Up.

Illinois was shaken by an earthquake shortly after 11 o'clock last night, the most severe in recent years. The shock, in the southern part of the state, especially in the region surrounding East St. Louis, was severe enough to rattle dishes and furniture, cause dogs to bark as if in alarm and children to awaken and cry. Houses ereaked and in many instances their occupants rushed out in terror, fearing that the straining beams and joists would give away. As far north as Springfield the shock was distinctly felt. Farther north it grew less perceptible, until in the region of Chicago it was not noticed.

Not only Illinois, but western Kentucky and parts of Tennessee and ladiana were shaken. Messages from the different towns in those states say that three distinct shocks, in quick succession, were felt. The waves of earth motion seemed to be

I once lived in a valley
Where the flags of gain were furled,
And far beyond its borders
Throbbed the drum-beat of the world,
Through many a mist of morning
I heard the throstle call;
From many a cloud of passage
I saw the shadows fall.

One day I climbed the mountains.
That round the valley ring;
No more I saw my castles.
Or heard the throstle sing;
But in that mighty battle.
Where many a bolt is hurled,
I heard my fellows marching.
To the drum-beat of the world.

Here in the crowded city.

From dawn till close of day,
Whereon each human anvil
A thousand hammers play,
My shoulder to my fellow—
The flags of gain unfurled—
I march—O heart take courage I march-O heart take courage!-To the drum-beat of the world.

The winsome young girl looked very pretty, if petulant, as she came into the office of the commandant of the Home. There were some books and the commandant of the winsome young girl looked very at the tiny watch and named the hour. "It's the luncheon hour at the Home, or dinner, I believe they call it. We must return at once!" papers her father wanted to examine first of all.

"This will be very uninteresting for mark, as the lieutenant and Mayme rou," suggested the commandant to entered. "Dinner is just about to be Mayme. "Would you not like to go served." through the grounds and see the gar-

leaving the room. When he returned he was accompanied by a young man. "Miss Winslow let me introduce to eat with the other inmates in the Lieut. Loranger. He will be pleased big dining room," she thought. "I to show you about." Mayme glanced up, expecting to see

some grizzled veteran. A flush of surprise suffused her face as she beheld a tall, stalwart youth of fine command and appearance. As she walked beside him down the winding driveway leading to the gardens, she sustained her part of a light conversation, but she wondered the while what he was doing in this institution.

"I supposed," she ruminated, "that all the inmates were soldiers of the civil war, too old or too incapacitated to work. I never thought of the Spanish-American war soldiers, but of course they could come, but I didn't think they were in service long enough to get disabled. I should think he would be ashamed to loaf around a Home when he is young and active. Maybe he was wounded."

In pursuance of this train of thought, she said, aloud: "I suppose you were in Cuba, Lieut.

Loranger?" "Yes, and later in the Philippines. I

have recently come from there." "Were you wounded?" "No," he said, smiling "I was in

numerous engagements, but couldn't "Were you ill?" she persisted.

"Yes, I had a fever in Manila." "That accounts for it," she thought.

"I'll bet he gets a pension, too. "Do you know," she continued aloud, "I had forgotten about any of the young soldiers being here. I thought it was just a home for old men-civil

war soldiers, you know." A slight flush came into his face. "There are a few of the Spanish-American war soldiers here," he said. "Of course none of us would be here

Among the numerous varieties of trees now in cultivation, there are some that do better on poor soils than on rich soils. On rich soils these trees grow so rapidly and form so much wood that it does not harden before winter comes. This is the case with the European larch. This tree is one of the most famous trees in Europe for the production of building material. Larch wood is found in European structures that are many centuries old. The trees from which those timbers were produced grew on the tops of mountains in poor soil. It was believed that the larch could be made a valuable tree for our western prairies. Many thousands of trees were planted in all sections of the prairie states. The rich soil of the prairies caused a rapid growth, and the wood produced lacked entirely the quality of the European larch. The tops of these trees frequently froze off in winter, and the wood when used for building material or for fence posts quickly decayed. Our tree growers have long since concluded that if the larch is to be grown at all, it must be grown on poor soils and under hard conditions What is true of the larch is true of many other trees.-Milton Knight, Cherry Co., Neb., in Farmers' Review.

Such trees are unsightly. the branches were kept thin, and pruning. When a deciduous tree, like There has long been a decidedly the maple, is allowed to form all the the grass below it. Where shade tries every known art to make grass grow under the tree. The only way for him to succeed is to keep the branches of the trees thinned out sufficiently to allow some light to get through. This will not disfigure the tree, and will save the grass. Thickness of branches does not add beauty to a tree, for it is obvious that limbs that cannot be seen do not increase the beauty of a tree, yet they prevent the passage of sunshine. By thinning out the inside branches the beauty of the tree can be saved and the grass at the same time.

Preparation of Orchard Soil. If an orchard is put out right, the soil will be prepared for it should be plowed for one or two years and crops grown on it that need cultivation. Such crops as corn, potatoes, The historic Mason and Dixon line and garden produce are especially well

#### THE JUDGE AND THE BOYS.

In the Court of Justice Wood Stevenso and Grant Pled Guilty-Sentenced to De troit House of Correction.

Last Saturday evening Deputy Sheriff Leach and Marshal Brooks placed Albert Stevenson, of Detroit, and Myron Grant a former resident of this place, under arrest on the charge of larceny. The officers took the boys to the county jail at Ann Arbor where they remained until their examination.

The examination was held in Justice Wood's court Tuesday and the culprits pled guilty to the charge. The complaint was made by Jacob Mast, who Only one-fifth of last year's 74,000 charged the defendants with stealing from his shoe shop, one pair of shoes valued at \$5.00, the same being the prop erty of Samuel Heselschwerdt.

> Justice Wood sentenced the boy the Detroit House of Correction to which place they were taken by Deputy Sheriff Leach Tuesday. Stevenson, was given a sentence of 65 days. Grant, who has been up before on a similar charge, was given 90 days. Both lads claimed to be over 16 years of aged and the proprty was taken by them last Friday.

#### TO ENFORCE TRUENCY LAW.

County School Commissioner C. E. Foster reports that the truancy law will be rigidly enforced throughout the county the coming year. A change was made in the truancy law at the last session of the legislature in which the truant officer will be a deputy sheriff who will work under the instruction of the commissioner of schools and he will peronally look after every case of truancy in the county. The director of each school district is required to furnish a ist of all pupils of school age in the district to the teacher at the beginning of the school year and at the end o the first week if there are any who have not been present she must endeavor t discover why they are out of school and f there should be any case of truancy liscovered they are to be reported at once to the commissioner, who will notify the officer.

Under the old law the chairman of the board of school inspectors acted as truant officer and pupils between the ages of 7 and 14 were required to atend school four months out of the year. The new law declares that they nustrattend school the full school year and although it will mean a very matrial addition to the work of the county ommissioner's office, Mr. Foster de lares that the matter will be given very areful attention and the law enforced as rigidly as possible.

Christian Influences.

The Parsee, or Zoroastrian, commu nity of Bombay, who number under 95,-000 in all, are threatened with disintegration by western and Christian influences. Their wealthy young men other European cities, where they frequently take to themselves European wives. Three cases have just occurred of Parsee thus marrying white women. one marrying a Jewess and one a French woman. There are great dissensions among the Parsees in India as to whether the non-Parsee wives should be received as proselytes.

Brings Deluge of Birds.

It is seldom that a hurricane and thunderstorm brings in its train a deluge of game birds. This singular spectacle, however, was witnessed in the Tarbes district recently. The storm broke over the district in the evening, and when the gale was at its height, about ten o'clock, large flocks of quail, which must have been migrating at an invisible height, were beaten to the ground, the plain around the city being thickly strewn with their bodies. In the grounds of the Hotel de Paris the birds were picked up in dozens.

"Great Medicine Man."

Dr. Robert Koch had a caravan consisting of 70 men when he visited Morogoro, in German East Africa, last month. The natives called him "the great medicine man," and were astonished at the size of his expedition, which had for its object the study of the plague and of a kind of fever which is communicated by the papasi, or bedbugs, and which has made one road almost impassable. It is not deadly, but makes invalids of the victims for weeks.

Is Keen Gardener.

Miss Frances Wolseley, the daughter of Lord Wolseley, sends most of her time at Farmhouse, Glynde, England. She is one of the keenest woman gardeners and thoroughly understands the scientific side of the subject. She has founded a school for gardening at Glynde and personally superintends the teaching. Miss Wolseley is heiress by special remainder to her father's vis-

Supply and Demand.

"I tell you," said the passenger with the skull cap, "there is something wrong with a country where a prizefighter can make more money in one night than a college professor can make in five years!'

"You're right, pard," said the passenger with the loud check suit. "There's too blamed many college professors and too blamed few great prizefighters."-Chicago Tribune.

Raspberry Jam. Boil the berries until thoroughly cooked; drain off everything possible of meat and juice and make jelly. William Duward and Miss Mami Riley, who have been spending the past four weeks at the home of Tim Drislane returned to their home in Bellows Falls, Vermont the first of the week.

The dove of peace has at length bee trapped. The Jap will have to stand or a barrel while he and the Russian fall on each others neck to weep and make

Mrs. John A. Greening and daughter, Nina left this morning for Saginaw where they will visit her brother, Thos. J. O'Connor and family. On their way they will visit friends at Whitmore Lake and Durand.

The Lansing State Republican of last Friday says: "B. Parker, who has recently moved here with his family from Chelsea, has purchased five lots on Main and Logan streets and will erect five houses, which he proposes to place on the market. Mr. Parker expects to establish a real estate office in this

The new 1905 state manuals for the schools in the county have arrived at the county school commissioner's office for distribution. There is a book for each school in the county and the teacher or director is requested to call and get a copy. The book contains much valuable information and no school should be without one.

The governor has appointed the following board of control for the proposed state hospital for consumptives: Dr. H. J. Hartz, F. B. Leland, Detroit; Collins H. Johnson, Grand Rapids; R. S. Copeland, Ann Arbor; Geo. W. Teeple. Pinckney; Frank P. Gray, Clare. F. B. friends. Leland and ex-Senator Teeple are the only members of the board who are not

The strolling musician has heard of John D. and has caught on. The little German band has been consolidated. An artist appeared on our streets Wednesday with a bass drum on his back, a snare drum, on top of that and the rest of the instruments draped over his person and he played the whole outfit unaided and took the whole proceeds found in the tambourine.

The board of directors of the Washte naw Mutual Fire Insurance Co., met in the secretary's office, Ann Arbor, on Tuesday for the purpose of declaring the annual assessment and adjusting the recent losses. The losses adjusted from September 1, 1904, to August 10, 1905, amounted to \$12,510.10. The losses adjusted Tuesday added to this sum will make the rate \$2.60 per thousand.

Philip Riemenschneider of Sylvan, will entertain the members of his family at his home on Friday of this week. this morning for Chicago. The occasion will be the celebration of his 90th birthday anniversary and the 55th anniversary of the birth of his nephew, W. F. Riemenschneider, of Chelsea. Mr. Riemenschneider has resided on his present farm for 60 years and is a highly respected farmer of this

There are now but five schools in the county which have not secured teachers for the coming year, so far as is known in the county commissioner's office. The number of teachers in the county who are University or Normal graduates is larger than ever before and the number who have had normal training is nearly doubled. This is a fact which will be much appreciated by patrons and is very encouraging to the com-

The great commander of the L.O.T. M. M. has granted to the members of the order at this place a special dispensation allowing them to take in new members from now until September 22 at reduced rates. The new order allows the local hive to take new application for the medical examination fee and one advance assessment. The present membership of the local hive ought to be doubled by the time dispensation expires.

From September 28 to October inclusive, the international R. R. Y. M. C. A. will hold a convention in Detroit, at which 2,000 delegates from all portions of the globe are expected. Day and night sessions will be held, the former at the First M. E. church, and the latter at the Light Guard armory. Many distinguished speakers will address the lelegates and it is possible that President Roosevelt will be one of these The first railroad Y. M. C. A. was established in Detroit in 1878.

C. L. Hill of the Forest Service of the United States Department of Agriculture, Washington D. C., made Chelsea a flying visit Sunday and Monday. He has been assigned by the department to an investigation of the problem of wood paving and the supply of timber for this ise, and is on a trip on which he is to visit nearly every city of over 50,000 population, east of the Mississippi river. Incidentally he insists that he is not the cotton "leak" man whom the department is after just now.

FOUR MILE LAKE.

A. Baldwin and family were Sylvan

visitors Tuesday.

Sugar beet agents are flying about looking up their crop.

Wm. Bahnmiller is drawing lumber and shingles for a new building. G. W. Coe's oat crop just threshed

averaged over 67 bushels to the acre. Dr. Eliza Mitchell of Kansas City visited at W. I. Terry's one day this

The neighbors around Four Mile Lake are entertained with a concert nearly every evening.

A black smoke from the big chimney at the cement plant makes it look more like business this morning.

#### WEST MANCHESTER.

Mrs. Claud Fielder visited in these parts Tuesday. Wm. Pease and wife returned from

Detroit last Thursday. Austin Yocum and wife visited their brother, Frank Herman Sunday.

Leonard Herman, sr., was somewhat overcome by the heat Wednesday after

Miss Florence Reno, who has been at Chas. McMahon's several weeks return ed home Saturday.

Mrs. Chas. Horning of Norvel town ship spent Monday with her parents. Mr. and Mrs. R. Green. Mrs. S. B. Decker accompanied her

sister, Mabel Robinson to their home in Pennsylvania, Wednesday. Herbert Lowe and wife of New York

City are guests at the homes of L. D Watkins and Richard Green. People from here who took in the Tecumseh carnival report a jubilant day.

The fire works were plainly seen from this place. Prof. A. Dorr and wife started for their home in Mt. Vernon, O. Saturday, They have been visiting relatives here

for some time. The intense heat Tuesday and Wednesday made it very disagreeable and even dangerous for the farmers thresh-

#### NORTH LAKE.

Still they come, load after load. fish, hunt and rusticate at the lake. Mrs. E. Cooke was taken sick Tuesday morning last, also Mrs. Rose Hinkley

men to get rested.

Claude Burkhart took bis uncle home to Fowlerville last week and stayed a few days.

Rev. G. W. Gorton missed a lot in not ittending our picule, yet there was no ack of ministers.

F. A. Glenn and wife and E. Daniels and family attended the last quarterly meeting at Unadilla Sunday.

Some men will walt half a day for a fish to pite, that couldn't spend half an hour tending a teething baby. It looks like a concerted agreement

that the threshing machine and picnic come at the same date here to a day. One week I got a card from E. C. Glenn in Portland, Ore., the next from San Francisco, Cal. There are no strings

Some of those summer girls fliting around the peace conference will be trying to capture a little Jap to take home for a pet.

Air castles are cheap of construction and many build them, but it takes a man of determination, push and cash to to build a modest home.

The threshing engines pass up and down North Lake street with very little steam. Good roads are the best investment for the money used.

Mrs. E. C. Glenn has arrived at home n Albion after a long tour in Europe. In July she was snowballing on a mountain, and now will be hunting ice cream stands.

Wednesday Mrs. F. A. Burkhart resolved herself into a committee of one and helped Mrs. Rose Hinkley with the threshers. The day before she helped Mrs. Mina Cooke. The cream of Chelsea was at the pic

nic last week in good supply, furnished Dividends unpaid. 15 00 by M L. Burkhart, and dished out in 5 Commercial deand 10 cent dishes. All taken and more could have been put down. I once knew a young lady too delecate to wash a mess of dishes or churn,

that out-run me in a race where there and Miss Eliza Mitchel, of Kansas City, was two fences to cross." I fooled with were guests of Mr. and Mrs. O. C. the gates and she took the fences at a flying leap. Like all North Lake picules the one held Wednesday by the Sunday school was a most decided success. An ideal

day and an ideal company. The largest number to arrive in one wagon was numbered 45 lads and lasses, drawn by four horses. All reported a good time, Correct-Attest: Peculiar Disappearance.

J. D. Runyan, of Butlerville, O., late the peculiar disappearance of his painful symptons, of indigestion and billousness, to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at the Bank Drug Store, price 25c.

H. W. P. Schenk, V. D. Hindelang, H.

#### SHARON.

Miss Clara Reno was a guest at L. C. Hayes last week. B. Gillhouse and wife are visiting at

Maybee this week. Henry Hitchcock of South Lyons visited here part of last week.

Henry Mellencamp and wife of Jackson spent Sunday at H. J. Reno's.

Miss Diehl of Aun Arbor is the guest of her sister, Mrs. W. Kulenkamp. Miss Mary and Master Phil O'Neil of

Adrian are guests at H. P. O'Nell's.

Mrs. Jacob Schaible of Freedom spent Monday with her sister, Mrs. J. Lehman. Mrs. J. Kilmer spent Sunday with her parents, C. J. Heselschwernt and wife. Chester Scouten, wife and son of Niagara Falls are visiting relatives here. Miss Carrie Buss, who has been the

Don Smith, of Chicago, is the guest of ils grandparents, Mr. and Mrs. Frank

guest of her sister here has returned

Miss Homer, who has been Miss Hitchcock's companion has returned to her home in St. John.

Miss Lizzle Pohly, who has been visiting friends here returned to her home in Port Huron last week.

John Heselschwerdt and wife and Miss Dorothy of Clinton spent Sunday at C. J. Heselschwerdt's.

Miss Beatrice Lamming will teach the school in the Keeler district and Miss Mae Stark the Dorr district. The North Sharon Sunday school held

a picnic at Wolf Lake last Wednesday. An enjoyable time is reported. Miss Marie Haschle is acting in the capacity of "Hello girl" at Sharon central in the absence of Mr. and Mrs.

John Hay left an estate of \$250,000, according to Mrs. Hay's probate petiion, filed in Washington.

The time-worn expression "the poor farmer" has come to be one of the standing jokes. The fact is the farmer is no longer poor. Every town of 500 people or more in the country now has at least one bank and the bulk of the money on deposit belongs to the farmers. The deposits are large too. Few banks even of small capital carry less than \$50,000 on their daily balances, ing, some had to stop the engine for the and many have two and three times that amount.

> The agricultural department's foreign rop reports say that in the countries of largest production the crops of the principal bread grains cannot be called abundant, but that the harvest of 1905, on the whole, will not be a bad on The wheat area in Manitoba and the northwest is 10 per cent larger than ever before. The acreage there is placed at 4,000,000 and the crop at 70,000,000, or 80,000,000 bushels. Crop prospects in Russia are generally satisfactory.

There is no alcohol in Celery Kingmedicine fresh from natures hand. If you have never taken this great tonic chelsea Steam Laundry levelve, ask your friends about it. 25c. Chelsea Steam Laundry

Bodily pain loses its terror if you've a bottle of Dr. Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any

THE REPORT

PRESIDEN

Don't have a falling out with your hair. It might leave you! Then what? Better please it by giving it a good hair-food-Ayer's Hair Vigor. The hair stops coming out, becomes soft and smooth, and all the deep, rich color of youth comes back to gray hair.

"I was troubled greatly with dandruff until I used Ayer's Hair Vigor. It completely curst the dandruff and also stopped my hair from falling out. It serves me very nicely also in arranging my hair in any style I wish."—Miss MAGGIE COOK, Divide, W. Va.

Thomas Walsh's home is 1420 New there were no people more opposed to York avenue, Washington. He came from Tipperary, Ireland, in 1870, as a Hempstead. Both superb cross counpoor boy of 19 and settled at once in try riders, probably the very best in Colorado. All he touched turned to America, they not only were against riches. There are few wealthier mine owners than Walsh in the entire coun-Educated only in the public schools, he made a close study in his young manhood of metallurgy, mineralogy and geology, and to good purpose. He invented new methods of mining and his great property is the Camp Bird mines in Ouray, Col. Five tional commissioners to the Paris Exposition. He has taken a great inof the west and is president of the National Irrigation Association.

accident is one of the travesties of Blanche de Loosay.

ton, and both were still very young. fate. For over a long period of years the motor car than the Kernochans of the automobile, but they opposed it tooth and nail.

The other members of the party jr., is a son of Herbert Pell, who mar-James L. Kernochan. The Pells home the instances observed, that the vic- er, who stopped his team. son, is a nephew of the famous Heriam K. Vanderbilt, Jr., wedded the sonable. should be injured in an automobile avenue, Manhattan. Mrs. Oelrichs was

Vinson Walsh, son of Thomas F. Walsh, of Washington, was killed, and four other prominent young members of the Newport summer colony were injured in an automobile accident at Newport, R. I., Aug. 19. The injured include Mrs. James L. Kernochan, of Hempstead, L. I.; Harry Oelrichs, son of Charles M. Oelrichs, of Newport and New York; Herbert Pell, jr., son of Herbert Pell, of New York, and Miss Evelyn Walsh, sister of the man who was killed. It is believed that all the injured will recover. The automobile which

by young Walsh, struck the railing of a bridge spanning a creek near Eastern Point and plunged into the water. Whether Walsh lost control of it, or the machine became disabled has not been ascertained.

Never before in the history of American automobiling has a wrecked car carried so many persons known to society as the machine that plunged over the railing of the bridge at Newport. Aboard of it were the most noted horsewoman of society, the son and daughter of one of America's wealthiest mining kings and two youthful scions of foremost families in fashion-

The young Walshes, Vinson, who was killed, and his sister Evelyn have become within the past year or so somewhat important personalities in the younger Newport set. Simple Apparatus That Can Always Be Depended Upon.

There is still in use among the fire. The apparatus consists of a bamboo stick, a bit of china and tinder. The whole, connected with cords,

is worn at the belt of the owner. the bamboo firmly in the left hand and in his right hand holds the bit of china by the finger and thumb and on the thumb side he pinches a bit or tinder. The edge of the china is then struck sharply down and along the bamboo. A bit of the bamboo is scraped off, not much, because the wood is hard and the outside has quite a glaze, but enough to be made incandescent by the stroke, producing a bright and long spark. The tinder catches this spark and flame is the result. Very little practice is required to enable even a novice to light a fire by this means.

Use whatever color of paint you wish but try as far as possible to reproduce and soul. the natural color of the leaf you are working with, especially if it is a leaf with autumn tints.

Many beautiful effects will be gained by mixing the paint and if care is finer and more appealing nature than taken a leaf picture almost as perfect was ever attained by perfect features as one taken with the camera will be the result, with the additional attractiveness of a color true to nature.

This may be developed into more than a mere pastime and many beautiful little gifts may be made in this manner by using the painted leaves to enly soul hidden through the surface decorate blotter covers, bookmarks, match scratchers, satchet bags and other little knick-knacks .- Grace Ham-

### A Farming College for Girls

There is a growing surplus of girls who must fend for themselves, and who too often come face to face with want when their parents die. It was to provide a profitable and healthful means of livelihood for such girls that, nearly ten years ago, Lady Warwick started her hostel at Reading. The hostel consisted of a house, with twenty acres of land, on the outskirts of Reading, a town forty miles from London. Here a dozen students took up their residence, paying a small sum for board; for it was not Lady Warwick's idea to make her scheme a charitable one. The girls attended the classes at the Reading agricultural college, and what they learned in theory they applied in practical work in the dairy and the conservatories, in the market garden, the poultry run, and the beehives, of their own little

Early to rise, early to bed, was their motto-and no nonsense. They rolled their own lawn, and killed and trussed their fowls; they baked their own their quarters, and it was then that Lady Warwick, with princely gener-Studley, with its three hundred and room to expand that it needed. Women who suffer should learn a lesson from this, and that lesson is "cure the kidneys with Dodd's Kidney Pills and your suffering will cease." Woman's health depends almost entirely on her kidneys. Dodd's Kidney Pills have never yet failed to make healthy kidneys.

How Wine Is Colored.

Most people think white grapes make white wine and dark grapes make red wine; it is a popular error. Red wine is made by fermenting grape juice and grape skins together, and white wine is made by fermenting grape juice alone. The juice of white and dark grapes does not differ in hue. In each sort of grape the juice is almost as colorless as weak lemonade. Champagne is made of a grape so dark as to be nearly black, but the juice of that nearly black grape is quite as pale as that of the ordinary white grape.-London Tatler.

### STOP, WOMAN

THE ALL-

oles to a manbesides a man does not understand-simply because he is a man

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great. Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in As the time for jelly-making any woman, rich or poor, is very foolish at hand, a good telly if the days. She asks nothing in return except your good-will, and her advice has relieved thousands. Sarely any woman, rich or poor, is very foolish if she does not take advantage of this

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkflam's Vege Compound at once, and write Mrs. PinkWhose weake causin torpid weake causin torpid worn of the the control of the co

and laid his hand upon her arm.

me! For God's grace, let me go!"

"Help!" she cried, struggling.

aloof from her cries, seeing that Prince Louis himself was with her. Yet she cried out unceasingly in her land! The cossacks carry me off-I will not go! O, God, that Conrad were save me!"

But the people only shrugged their shoulders even when they heard-as did the guards and the gentlemen-inwaiting, the underlings and the very porters at the palace gates. For they "They are strange folk, these Courtland princes and princesses of ours, with their marriages and giving in marriage. They can neither wed nor bed like other people, but must be taken by force. Well, happily it is no business of ours!"

Then at the stair foot she sank down by the sundial, almost fainting with the sudden alarm and fear, crying for the last time and yet more piercingly, "Maurice! Maurice! Come to me, Maurice!" Then above them in the palace there began a mighty clamor, the noise of blows stricken and the roar of many voices. But Ivan of Muscovy was reither to be hurried jected, "the Princess Joan-she may nor flurried. Impassive and determined, he swung himself into the saddle. His black charger changed his feet to take his weight and looked about to welcome him-for he, too, knew his master

"Give the princess to me," he commanded. "Now assist Prince Louis into his saddle. To the cathedral, all of you!

FRANKLIN'S MEMORY.

Although the date, January 17, is still far off, the American Philosophical society has begun to shape its plans for the celebration of the two-hundredth anniversary of the birth of Benjamin Franklin, its founder,

The state of Pennsylvania has ready contributed \$20,000 for the cele- fabrics which the looms of the woolen bration, and wealthy members of the society have agreed to provide as muchmore as may be necessary to the carrying out of a suitable program.

It is probable that President Roose velt will be present. Governor Pennypacker will undoubtedly be there, and the republic of France will send a special commissioner to take part in the ceremonies. This act of courtesy will be especially fitting, because it was owing to Franklin's diplomacy that France gave the recognition to the young republic which enabled it to carry the Revolutionary war to a successful issue. Franklin's memory as the most versatile genius which America ever produced will be recognized by scientists, and delegations from many states and several European countries will be present.

Franklin was one of the earliest of he great men to be born on this continent. He first aspired to be a sailor. but soon gave up that ambition. At an early age he displayed extraordinary ability for original research, and one of his first ideas was a system of vegetable diet which met with favor from many people and was the beginning of vegetarianism in America.

While still a printer's errand boy, he wrote articles of so radical a nature that they stirred the commonwealth caused the editor's imprisonment, and left the young Benjamin temporarily in control of the paper.

Subsequently he went to London and became one of the most erudite scholars of the old world. After his return to Amreica, "Poor Richard's Almanack," fame, and was eventually translated into nearly all the languages of the family that reached this state. civilized world. His experiments in electricity at various periods were the wonder of the world, and there was, in fact, scarcely any field of endeavor into which his prodigious activity did not carry him

#### DECREASE IN BIRTH RATE.

The census bureau last Friday made ublic figures showing how the stork as been turning the cold shoulder toward Michigan. The decrease in the oirth rate in Michigan since 1850 is omething remarkable.

The proportion of children under five ears of age to one thousand females of child-bearing age (fifteen to fortynine) in Michigan at the various deci mal periods follows:

Year 1850, 652; 1860, 629; 1870, 569; decrease has been steady, aggregating trade in the finest woolen fabrics. hild-bearing females.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave , Columbus, O. writes: "For several months, I was given up to die. I had fever and ague, the pioneer and his flocks and herds in my nerves were wrecked; I could not the then wilderness that covered the sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Saxony was supplanted by the hardier nection. Austion bills and tin cups fur- Electric Bitters, I obtained relief, and in a short time I was entirely cured.' Guaranteed at the Bank Drug Store;

Annual ten-day northern Michigan excursion via M. C. to Petoskey, Traverse City and Charlevoix and return. Train leaves Chelsea Friday, September 1. Fare for round trip \$5.00. For further information call on local ticket agent.

### **GUARANTEED TO CURE** DISEASED KIDNEYS.

The guarantee we give to refund the money to any one using Cal-cura Solvent without benefit, is something hitherto unheard of in the treatment of serious and dangerous kidney and bladder dis-

Cal-cura Solvent's wonderful power to cure dis eases of the kidneys and bladder is the happy result of the efforts of that skilled physician and surgeon, Dr. David Kennedy, to make a medicine that would dissolve and expel from the system stone, gravel and uric acid. In this way, Cal-cura Solvent not only cures the disease but also removes all irritating causes. It is not a patent medicine, but a prescription used by Dr. Kennedy in his private practice with unfailing success.

Cal-cura Solvent has such a peculiarly beneficial effect that it almost invariably cures, and we run little risk in our generous offer. Try the remedy at our expense if it fails; at a small cost to you if it eures. Do not delay. All druggists, \$1.00. THE CAL-CURA COMPANY, Kingston, N. Y.

Continued from first page. will secure the health and pleasure of its wearer like the garments that are made from the enduring and handsome mills fashion for the people, and when we come to talk of wool, very naturally our minds turn to the merino-the wool grower par excellence-the sheep of the pioneer and the only breed that can sustain itself under the most primitive conditions, in all climates and in all lands where the sheep industry can

It maintains itself in the ranges the west, the rocky hills and sun browned grasses of the plains furnishing it subsistences where the great mutton breeds would perish from lack of food and water. In every land where such conditions exist it has been the pioneer of sheep husbandry, and formed the foundation upon which other breeds Journalists and printers throughout the have been engrafted so that their meat country will also take cognizance of the producing qualities could be added to affair, and will be properly represented, the wool-growing abilities of the merino when cultivated farms succeeded the wide expanse of new unsettled countries.

But, gentlemen, you will be thinking, "What has this to do with the introduction of delaine sheep in Michigan?' All in good time. I merely wish to bring back to your minds the great importance of sheep husbandry as whole, before taking up one of its principal divisions-the breeding and improvement of the delaine merino. The present status of the delaine merino in Michigan is known to you gentlemen much better than myself. You are in practical touch with it in all its ramifications. I can only observe it from distance and watch general results. which he published, attained world-wide As a matter of fact the delaine merino was one of the earliest divisions of the It is true, however, that the first

introduction of a purely delaine sheep was not a success. Several good and sufficient reasons account for the failure. When the merino first began coming westward to grow up with the country, some Saxony merinos, originating in southern Germany, were included in the number. These sheep had been brought into Pennsylvania, Virgina and southern Ohio, and had found favor with the farmers in those sections. Their fleeces were of good length, very fine, with great style and luster. Probably no finer wool or more beautiful were ever grown than those produced by high bred Saxony merinos, and the possession of these sheep gave the then 1880, 520; 1890, 455; 1900, 425. The kingdom of Saxony a very remunerative total of 227 children to each 1,000 These sheep, however, only produced which paid well enough when such wools were worth 60s to 75 cents per pound. But the Saxony merino had been so pampered and coddled in its native home that it was unfit to withstand the hardships which was a part of greater portion of the state and so the and heavier fleeced merino that had been developed in the New England states and New York. As this change was in progress an event occurred that however depend largely upon those resulted in giving the Saxony delaine a complete knock-out. That was the breaking out of the war of the rebellion. activity as breeders, and a wise system The necessity of woolens to clothe its of conducting, their business is a soldiers put the government into the wool market, and its value appreciated The M. C. will sell special round trip from year to year. This led farmers to done I believe you breeders are far pay great attent on to wool production, more capable of answering than myself. and in this state, where the merino was Detroit and New Buffalo, to all points largely in the ascendancy, the weight to which the journey in both directions of fleece grew by leaps and bounds, assumption, but to an earnest desire when a flock-master could get 85 cents for the success of yourselves individuscheduled to reach the selling point on to \$1.00 a pound for wool, it made a ally, and still more for the future of the return trip, at or before m lnight of great difference whether his flock sheared eight pounds or three or four pounds. with the sheep husbandry of the future Hence every thing was ignored but the in this and other states. The sugfleece, and the American merino, as it gestions are these: I would not attempt was beginning to be called, became the

the worst meat producer. The fleece of the American merino was shortened up as it gained in density I should regard these as outside weighter cine of great value. The "teas" are and the oil was greatly increased, giv- and they should be represented in coming very heavy shrinkage in the scour- pact, broad loined sheep, stand square ing process. The short staple, however, on their legs, with well filled quarters was not a disadvantage at that time. and good nank. In necessary, even if to Worsteds were practically unknown bring it I should have to allow a good and all woolens were pulled cloths.

For them the short staple worked all right, as the numerous ends gave a close any way from the conformation of carand beautiful nap when dressed. The cass or the length of staple, and the felting properties of merino wools, one made it particularly adapted for the west. manufacture of the finest full-cloths, such as broadcloths, doeskins, cassimeres, beavers, etc., now nearly forgot-studied this problem much more thoroten. While they were fashionable the ughly and at closer range than I have delaine merino was not a paying propo- had the opportunity of doing. Speak

sition. However its time was coming. wool with a staple of two and a half to Black Top and the lines along which it three inches could be spun into yarh and then manufactured into worsted use in this way. This also led to importations of merino wools from Aus-

length of staple of their fleeces, and o rams from the several delaine families began to be used on the ordinary farm flocks with this end in view, as well as to increase the size of carcass and give it a conformation better suited to meat production. Mutton had become much more popular, was selling at higher prices, and as wool had declined in price a sheep that would combine mutton and wool production better than the American merino, was generally wanted by flockmasters in this and other states It was at this time that I became interested in delaine merinos, and the first man to call my attention to then so as to lead me to look up their history and characteristics was your worthy president, Mr. Harsh. For years I was in close touch with him and his associates, and the success

that has come to delaine breeders in Michigan is in no small part due to his untiring work, and that of his earlier associates. He believed in the delaine merino, and especially in the family of the Improved Black Top, and I must say that his enthusiasm early gave me strong leaning to the family whose merits he so thoroughly believed in and I have not yet recovered from the contagion. I have witnessed the gradual growth of sentiment towards a merino with delaine characteristics with the greatest interest. I saw that it was not a question of what style of merino should be kept in Michigan, but whether it should be bred along lines that should enable it to withstand the rivalry of the mutton breeds, or be driven out of the state entirely. Con ditions had become such that sheep could no longer be kept for wool alone, and that the value of the fleece could be added to by increasing its shrinkage. Another point that struck me favorably in the introduction of delaine sheep into the state was the fact that it wa kindred in blood to the American merino and that its blood would therefore mix kindly with that of the merino flocks in the state. There would be no such radical cross as with the American merino and the English mutton breeds and the flock would not become mongrel ized as by the introduction of the blood of those foreign breeds. That this view has been taken by many breeders is proven by the increase in the demand for merinos of the delaine type.

We see importers and breeders pay ing high prices for Rambouillet o French merinos to head their flocks and some are engaged in perfecting : breed of France-American merinos which are practically of the delained type. The trend in the trade is there fore towards a delaine sheep where ever the merino is kept, and this I be lieve is wise. American wool must meet in competition the wool of the world. In those characteristics which the present requirements of the market demand-lengthened staple, lessened shrinkage and an elastic fiber of good style-the American flock-master must

equal his foreign rival, whether in Australia, Argentine or South Africa. To make up for the lessened weight of fleece we should have an increased weight of meat, and in this way withstand the competition of all breeds and countries successfully. The delaine merino is now a prominent factor in the sheep husbandry of this state. It has engaged in breeding and keeping its records. Their endeavor to push the breed should not rest now. Continued necessity for future success. The Improved Black Top should be still further I am only a looker-on, but a very much interested one, and if I make a suggestion or two do not put it down to to breed an Improved Black Top ran that would weigh over 190 pounds in heaviest wool producer on earth, and full fieece, or about 170 to 175 pounds when shorn, neither would I care for a ewe that would weigh over 140 in full big fold on the neck, a heavier flank and a wide tail with a wrinkle.

These need not, I believe, detract in added weight of fleece would cut quite a figure when you are selling rams in

Now I may be all wrong in this and would like to hear from some of you veteran breeders who have probably frankly, and remember I am not to be The invention of machinery whereby but that the future of the Improved should be bred is the point at issue. I want you to succeed, as I want all those In closing let me again wish

Mr. Kelly states that their operators will do most of their packing this year in Virginia, Illinois and sermons from every pastor of the Presbyterian church in that place, since Missouri, where there are large crops of good quality.-Manchester Enterprise.

REGUES' GALLERY.

A "rogues' gallery" has been started at the county jul an . William Moore, incorporated under act eleven of the the embezzler from Ypsilanti and Fred Henne, a Chelseaite charged with a revolting crime by a young girl's father, were the first Washtenaw prisoners to be "mugged," A side and front view of the prisoners is taken and the pictures are mounted on cardboard and filed away. With each pair of pictures goes a short general description of the map. No attempt will be made to catalogue the prisoners by the Bertillion system of bushels of grain at J. Landwehr's near measurements the "mug" and a general Sharon, last week and reports it as the description being deemed sufficient.

#### GREAT GROWTH IN EXPORTS.

America not only helps feed and clothe a large part of the outside world, but supplies various articles of manufacture in rapidly increasing quantities In the fiscal year which ended with June, this country exported \$543,000,000 worth of manufactured goods. That was \$01,000,000 more than was exported during the previous year. In ten years he value of this class of exports has been multiplied by three.

The growth in exports far outruns the increase in population. In thirty years the number of people has grown from 45,000,000 to about 83,000,000, but during the same period the value of manufactured exports has risen nearly

The United States embraces the premier agricultural belt of the entire earth. Numberless rivers, coal beds that seem unlimited, whole mountain ranges of iron ore and great deposits of the richer metals are some of the has at his elbow. Added to these he to convert steel and timber into merchandise which other peoples of the world require. Best of all, this lucky cltizen lives under a government where the national keynote is a "square deal" for all.-Ex.
