PRETTY AUTUMN WEDDING.

Which United the Lives of Mr. Adolph Eisen and Miss Lettie Wackenhut.

A very pretty autumn wedding took place Wednesday evening, Oct. 18, at 7:30 o'clock, at the home of the bride's parents Mr. and Mrs. J. G. Wackenhut, on South Main street, Chelsea. The contracting parties were Miss Lettie Marie Wackenhut and Mr. Adolph Eisen, of Detroit. The house was prettily decorated for the occasion in autumn tints and foliage.

The ceremony was performed, in the presence of a company of 75 of the immediate relatives and most intimate friends of the bride and groom, by Rev. A. Schoen, pastor of St. Paul's Evangelical church, assisted by Rev. G. Eisen, of Three Oaks, father of the groom.

During the ceremony the bridal couple stood in a wedding bower of green and white, under a wedding bell, also of green and white. The approach to the bower was made through an aisle formed with green garlands studded with red carnations and held by ten of the bride's most intimate friends. The maid of honor was the bride's sister Miss Lillian Wackenhut, and the ring was carried in the cup of a lily by Miss Lelia Buena Vista Fletcher, the bride's little cousin. The master of ceremonies was Mr. Arthur Easterle.

The bridal party marched to their station in the bower to the strains of the Lohengrin Bridal March played by Miss Helene Steinbach, the bride's cousin. Prior to this Miss Nellie Congdon sang in a sweet manner "Because God Made Me Thine." During the congratulations after the ceremony Miss Steinbach played the Mendelssohn Wedding March.

A dainty wedding supper was served in the dining room. Here the decorations were in autumn leaves and red carnations, lighted up with numerous candles. On the tables were wreaths of autumn leaves besprinkled with red carnations.

The wedding presents were numerous, handsome and useful, embracing cut glass, silverware, hand painted china and other pretty things.

Mr. and Mrs. Eisen went at once to their home at 40 Eighteenth street, Detroit, which was all ready for their reception, and where they will be at home to their friends after Nov. 8.

County W. C. T. U. Convention.

The Washtenaw county W. C. T. U. convention held in Ypsilanti Thursday and Friday was not very largely attended by delegates, some places where unions exist not being represented at all. The election of officers resulted as follows:

President—Mrs. H. C. Thompson, Saline.

Corresponding Secretary—Mrs. M. J. Warner, Ypsilanti.

Recording Secretary—Mrs. Allen Austin, Saline.

Treasurer—Mrs. Mary Russell, Willis. Committee on Local Option—Mrs. M. J. Taft and Dr. Yashti Garwood, Ann Arbor; Mrs. A. Callis and Mrs. Phoebe Campbell, Milan; Mrs. M. G. Hill and Mrs. Mary L. Boyd, Chelsea; Mrs. Judith Potter and Mrs. Mary Russell, Willis.

Mrs. Mary L. Boyd was appointed chairman of the evangelistic committee. The meeting next year will be held in Milan.

Lyndon Has a New Supervisor.

Geo. A. Runciman resigned the office of supervisor of the township of Lyndon Monday, the same to take effect Wednesday. John Clark was appointed to fill the vacancy and took his seat for the first time this morning with the board of supervisors. Mr. Clark will make a fine supervisor for his township, having all the requirements necessary for the position. He is level headed, cool and of strict integrity, and the Herald hopes to see him elected to the position at the election next April, hands down.

A RAILROAD WRECK.

In Which a Caboose and Car of Coal Burn Up.

The breaking in two of a train caused a small but rather expensive wreck for the Michigan Central on the hill about two miles west of town last Tuesday evening at 6:30 o'clock, when 10 cars of the train in charge of Conductor VanFleet broke loose from the rest of the train and started back down the hill.

Closely following VanFleet's train was another in charge of Conductor Spikerman and Engineer Renchard. When the latter saw the trouble ahead he hastily applied the air brakes and reversed his engine in order to get out of the way. He succeeded in stopping his train and had backed up but a short distance when the air brakes suddenly set and the caboose of VanFleet's train collided with the engine with sufficient force to break in the front of the extension box, smash the pilot and cause the front driving wheels to jump the track. The caboose was smashed to splinters and caught fire. A car of slack coal just ahead of it, which it was impossible to move on account of its being partially wrecked, was also burned. No one was injured, the crews escaping by jumping. Several lengths of new rails and about 100 new ties were a necessity and until the work was completed and the wreckage cleared away, all trains were run over the eastbound track between Chelsea and Francisco.

THE LATE E. A. NORDMAN.

In His Death a Well Known and Honored Citizen Passes Away.

Edward A. Nordman, one of the best known farmers of Lima and this vicinity, died in his home in that township Saturday, Oct. 14, aged 76 years. The deceased was born in November, 1829, and came with his father to Lima in 1835. From that time until 1862 he lived with his uncle Gottlieb Nordman in the southeast part of the township. He was married in 1862 to Miss Irene C. Smith, daughter of Henry Smith, of Freedom, who survives him. Four children, Emily, Lottie, George and Frank were born to them.

Mr. Nordman was one of the best known farmers in Washtenaw county. Of a bluff but kindly nature his honest, outspoken ways won for him the friendship of all. He was for many years prominent in the Grange and farmers' club meetings and generally took an active part in their debates and discussions. He had served his township as treasurer and justice of the peace, was president of the Washtenaw Mutual Fire Insurance Co. for two years and for the past 12 years had been one of its directors.

The funeral services were held Sunday afternoon and were largely attended.

Successful in Copper Mining.

The Morning Democrat, of Baker City, Oregon, recently had a long article in its columns descriptive of the many improvements that have been made by the Indiana Mining Company in its property east of that place. Dr. W. J. Stapish, of Anderson, Ind., a former Chelsea boy, is the treasurer of the company, and it is due to his untiring energy and that of Manager J. W. Messner that the new machinery has been put in the mine and the other improvements made.

It looks as if Dr. Stapish's future in copper mining will be a most satisfactory one as the ore in the company's mine that has been opened up and tested by the most approved methods shows 20 per cent copper and \$4 in gold and silver to the ton. Mr. Mesner is also a Michigan man, an ex-city treasurer of Saginaw and former government inspector of the copper mines of northern Michigan.

GAS PROPERTY TAXED LOW.

Real Value and Taxable Value of Gas Property Differ.

PRICES ARE DIFFERENT, TOO

Cases Before U. S. Court in Bay City.

Sunday Hunting in Oakland County to Be Stopped by Enforcing the Seelye Law—It Had Become a Great Annoyance to the People.

While the census of 1900 shows that the average net price of gas, both for light and fuel, in the United States was \$1.035, a canvass of the gas plants in Michigan shows that Wolverines are paying an average price of \$1.27 per thousand.

Some other interesting facts are also shown, not the least of which is that the assessed valuation of the companies is less than half the valuation as represented by the stock and bonds outstanding. Of the fifty-one gas companies in the state one is a municipal plant and two are co-partnerships, with no stock or bonds. The total stock of the other forty-eight is \$12,355,000, and the total of bonds outstanding \$12,143,000. Against the total valuation of \$24,498,000 thus indicated stands the assessed valuation of \$2,789,020 real and \$9,044,491 personal, \$11,833,511 in all. A matter of \$12,614,489 between what the owners think the plants are worth and what the assessors think they are worth—or rather, what the owners make the assessors think they are worth.

In the matter of the price of the product there are wide variations. In Negaunee the rate is 75 cents per 1,000 feet net, while in St. Johns the user has to pay at the rate of \$1.50 per thousand. Consumers in other cities pay anywhere between these two figures, in most cases the price being between \$1 and \$1.35. In Escanaba the rate is from 52 1/2 to 67 1/2 cents per thousand, but there the plant is owned by the municipality. In Adrian the rate is a sliding one, from 60 cents to \$1. Detroit and Grand Rapids are tied for the lowest rate on illuminating gas, at 90 cents, with Holland a close second at 95, while Greenville is the highest, at \$2. Seven cities get it for \$1, but the prevailing rate is about \$1.25.

U. S. Court Cases.

The United States court opened its regular semi-annual session in Bay City Tuesday morning. F. H. Ferris, of Cheboygan, alleged counterfeiter; Jas. E. Dudley, former postmaster of Harrison, charged with embezzling postal funds, and A. W. Bennett, of Tawas, charged with timber trespass, will be tried.

Other cases are those against Chris Vashaw, of St. Louis, charged with making false affidavits in a land pension case; a case of alleged theft of money from letters against Daniel Abbey, formerly chief clerk in the post-office at Flint; and a civil case against Frank Marvin, postmaster at Turner, for the recovery of the value of stamps alleged by him to have been burned.

Arrest Sunday Hunters.

Prosecutor Covert announces that the provisions of the Seelye law regarding Sunday hunting in Oakland county will be enforced to the letter. Detroit sportsmen were as numerous as ever in the county, but no arrests were made.

The Seelye law provides that arrests can be made without warrant by any constable, deputy sheriff or other officer, or deputy game warden, upon the request of the owner of the property trespassed upon. No "John Doe" warrants are required, any trespasser found with a gun or dog being subject to arrest. The possession of a dog or gun is prima facie evidence of guilt. The prosecutor will instruct all officers of the county to enforce the law to the letter.

"Avenging Angels."

After being out many hours, the jury in the Hudson "avenging angels" case late Friday night returned a verdict of guilty of assault and battery, and recommended leniency on the part of the court. Judge Chester accepted the recommendation of the four prisoners, John and Frank Dillon and Clifford and Alfred Barrett, and suspended sentence for the present.

The verdict was a big surprise, as it had been figured that the long deliberation meant a disagreement. One of the jurors stated that the jury did not doubt that the defendants did the things charged against them, but there was no evidence of it except the words of Mrs. Post and her former husband, and their testimony was not given much weight.

Walking with her brother on the Michigan Central railway tracks near the Wayne county house Wednesday afternoon, Mrs. Maria Oliver, aged 70 years, was dashed to death by a west-bound train. Her brother, Patrick Lynch, barely escaped death with her.

Rat biscuit nearly killed the two youngest children of A. J. Dorrance, a druggist of Coldwater. Stomach pumps saved them. A week ago Mr. Dorrance's oldest boy, aged 14, died from injuries received by diving in shallow water.

H. P. Mowry, the Brownson member of the state board of corrections and charities, has verified the statements of a tramp that the Eaton county jail is inhabited by bedbugs and other undesirable vermin. He says he found all the complaints true, and that the jail is badly ventilated and unsafe. He recommends that the supervisors rebuild the bastille.

About 375,000 bushels of peaches were shipped from Grand Rapids during the season. The crop was about 50 per cent of the early estimate owing to rains at the ripening season.

Woodbridge N. Ferris, of Big Rapids, will not again be a candidate for governor. So asserts John F. Bible, ex-mayor of Ionia, who was a candidate for lieutenant-governor on the Ferris ticket.

A gun exploded in the hands of Jack-ris Turenimi while he was hunting in Keweenaw county. It blew off one of his hands, but his life was saved by a watch in his pocket which deflected the charge from his side.

For shooting Wm. Hale, who took the job of baker from which he had been discharged for drunkenness, Jacob Klotz was sentenced to 15 to 25 years at Jackson. Hale is recovering after being near death for weeks.

Farmer Andrew Sugg, of Shepherd, had \$120 left from a deal in beans. He hung his trousers on the bedpost. Next morning they were on the kitchen floor and the roll was missing. Sugg had not locked his doors on retiring.

Two years in Ionia or a fine of \$250 was what it cost Lewis R. Fox, a Brookfield farmer, in the Eaton county court, for peeping in his neighbor, Geo. Tulip, in the leg with a shotgun. It was the result of a neighborhood quarrel.

After a lapse of five years Vittorio Jaffi, a Paterson, N. J., anarchist, has been arrested in Marseilles, France, charged with being an accessory of Bresci, now serving a life sentence in solitary confinement. In the assassination of King Humbert of Italy.

Oil and gas have been discovered on Mountain Island, Lake Superior. One well is flowing 400 barrels a day with a gas pressure of 2,500 pounds. As the wells are about a mile from the lake at an elevation of 170 feet pipes will be laid to convey the oil to ships.

At the inquest in the case of the child born to Miss Mary Van Tassel in Battle Creek the girl's mother, Mrs. William Van Tassel, admitted the child was born alive, saying it was drowned in a jar of water in which it fell and that she was too busy to remove it.

An explosion of gas in the big line kiln at the Menominee sugar factory severely burned Assistant Superintendent Weber and slightly injured several others. Weber's hair was nearly all burned off, his mustache and eyebrows entirely burned, and the skin burned from his hands. His clothing was blazing in 20 places when he was picked up.

That No. 13 is a hoodoo Grant Wilson of Port Huron is now convinced, though he had deliberately dared it to do its worst for some time. No. 13 was the local license number of Grant's automobile, and No. 1313 was the state license, so what else could you expect but an explosion of gasoline which destroyed the auto and storage shed and gave Wilson the scare of his life.

The Grand Rapids council has decided to start the work of preventing a recurrence of the disastrous floods by removing this fall the rock obstructions in the river bed. For this purpose \$16,000 is appropriated. The flood prevention plans contemplate an expenditure of over \$100,000 in dikes along the river front and the straightening of small tributary streams in the city.

The main building of the Buchanan Cabinet Co.'s plant was destroyed by fire early Saturday morning, together with a large stock of hardware in the yards. The loss is about \$30,000. The factory will be rebuilt.

Clarence M. Welch, the former M. E. preacher of Nashville, who was held as the father of the child of Miss Mina Caven, who was a choir singer in his church, pleaded the poor debtor's act and was released by Circuit Court Commissioner Verkerke. He was at once re-arrested for non-support. He has been in jail because he refused to obey a court order and contribute to the child's support.

The Pope's Aversion to Display Leads to the Disbandment of the Famous Swiss Guard—Norway Has Cut Loose.

Peace Treaty Signed.

The emperor of Russia and the emperor of Japan Saturday morning signed their respective copies of the peace treaty, thus officially ending the war. A few minutes after noon Minister Takahira appeared at the state department with a message stating that the emperor of Japan had signed the treaty at Tokio. A cablegram was immediately dispatched to Spencer Eddy, charge of the American embassy at St. Petersburg, who was instructed to inform the Russian foreign office that the emperor of Japan had performed his part, and so both copies of the treaty having been duly signed, and each of the great nations lately engaged in hostilities having been officially informed of the fact, the Russo-Japanese war which began February 8, 1904, with the attack by Togo's fleet upon the Russian ships at Port Arthur, terminated officially Saturday, October 14.

Another Peace Parley.

The state department has made public the invitation of the Russian government to a second conference at The Hague and the president's response. These take the shape of two memoranda. The first memorandum is a mere recital of the opportunity of another conference with the promise to submit a detailed program by Russia when the congress meets. The president's memorandum is a hearty acceptance of the invitation and directs attention to the fact that his previous circulars to the powers appear to be precisely in line with the Russian papers. The last memorandum was delivered to Baron Rosen Thursday night for transmission to St. Petersburg.

Does Not Like Display.

The vatican guards are to be disbanded owing to the pope's aversion to military display. The date of the disbanding has not yet been decided upon, but meanwhile for the first time in the history of the vatican furloughs have been granted, and Conte Camillo Pecci, commander of the guards, has for reasons of economy, decided to suppress the service entirely during the holidays.

Tired of Governing.

Luke E. Wright, governor general of the Philippines and president of the commission, will retire about December. He is expected to arrive in the United States during that month, and is entitled to six months' leave of absence prior to the formal relinquishment of his labors. It is understood that he expects to return to Nashville, Tenn., to resume the practice of law. President Roosevelt and Secretary Taft, it is believed, practically have decided upon the successor to Gen. Wright, but no intimation has been permitted to become public as to his identity. It can be stated reasonably definitely that Gen. Wright's successor will not be a man now connected with the commission.

Against Cuba's Interests.

Information from Cuba that there is growing dissatisfaction there with the terms of the proposed Anglo-Cuban treaty has developed the fact that the Washington government thoroughly appreciates the reasons of the Cuban people for objecting to the treaty. The official view is that the treaty is distinctly disadvantageous to Cuba in that it precludes that country from renewing with the United States her reciprocity treaty which under the present arrangement is effective only for five years. The Anglo-Cuban treaty, it is pointed out, gives practically no benefits to Cuba and shuts her off from receiving advantageous treatment at the hands of the United States.

Peoria, Ill., Financiers.

The grand jury has returned a true bill against Oliver J. Bailey, chairman of the finance committee of the Peoria school board, holding him on the charge of malfeasance in office, in "permitting Newton C. Dougherty to misappropriate and unlawfully convert to his own use school moneys." The indictment has caused a big sensation in Peoria. Mr. Bailey is one of the wealthiest men in this city, president of the Dime Savings bank, a director in the Central National bank and an officer in many other financial institutions. Forty-three additional indictments were also returned against Dougherty for embezzlement and forgery.

Edwin S. Holmes, Jr., associate statistician in the department of agriculture, is alleged to have pocketed \$25,017 as his share of a \$200,000 cotton report leak bribery plot.

Peter Porter, a Blackwood, Minn., pauper, was being given a real swell funeral when the horses attached to the hearse, en route to the cemetery, were scared by an automobile, ran away, upset the hearse and dumped Peter's remains on the ground. The supposed dead man was restored to consciousness by the shock, mounted the hearse and drove back to town himself. No affidavits

FAT SALARIES.

Richard A. McCurdy, president of the Mutual Life Insurance Co., was again the principal witness at the insurance investigation in New York on Tuesday. His complaints that the investigation is becoming an inquisition brought out some tart comment from Chief Counsel Hughes for the committee. Questions regarding dividends on a certain policy seemed too much for the witness.

Mr. Hughes read a letter from a Mutual policyholder who took out a policy in 1865 for \$3,000 on the ten-payment plan. In 1876 his dividend was \$55.75; in 1881 it was cut to \$39; in 1891 it was still reduced to \$20 and in 1904 to \$3. All this in spite of a big increase in reserve every year.

"How do you account for it?" queried Mr. Hughes of Mr. McCurdy. "I'm the wrong witness, sir. It is the actuary you want. He calculates dividends," was the reply.

"I am trying to find out what you know about your company," explained Mr. Hughes to the evident discomfort of witness. "You are president of the company and receive \$150,000 salary, more than three times as much as the combined salaries of the president's of the banks of England and Germany." "You put a witness on the rack, why should not he shut his mouth up?" said Mr. McCurdy. "When a witness comes here and tells frankly all he knows the committee should consider such testimony in executive session to see what further steps should be taken; but to attempt to drag from a witness any further than he knows makes him feel like a criminal."

Mr. Hughes then brought out that salaries had been slightly reduced in the reforms of clerical force and general agencies. "I have not reduced the salaries of the executive officers; they were never cut. They were none too fat, anyway," said Mr. McCurdy.

County Fair Wiped Out.

While the races at the Crawford county, Ohio, county fair this afternoon were on, the grand stand was discovered to be on fire. A panic followed the first announcement. Spectators in the grand stand rushed for the exit and soon blocked the only passage to safety. Excited women, children and men leaped over the front of the stand upon the track, 12 feet and many were injured.

Those who left the grand stand last were badly burned, as the big pine building went like tinder. Within three minutes after the fire was discovered the stand was wrapped in flames. The fire was caught up by a stiff breeze and was driven across the grounds, communicating from building to building.

A mass of flame from the building played upon an acre of implements, buggies and windmills, destroying them. Women in charge of exhibits in the halls had only time to seize their personal belongings and escape.

In less than an hour the entire fair was wiped out.

Komura's Return.

When Baron Komura returned to Tokio his reception at the railroad station was not enthusiastic, those present being principally government dignitaries. The streets were strongly guarded by troops, police and gendarmes.

The emperor showed exceptional honor to Komura by dispatching to Yokohama, where he landed from the Empress of India, Col. Inouye, his majesty's aide-de-camp, who went alongside the steamer in a dispatch boat and brought Komura ashore.

While the baron was on his way to Tokio by train Col. Inouye constantly kept at Komura's side, and on arrival they drove together to the palace in an imperial carriage sent from the household stables. The emperor immediately received Baron Komura, and during the audience, which lasted over an hour, it is believed the baron made a full verbal report to the emperor of the course of the peace negotiations, emphasizing President Roosevelt's efforts in behalf of peace.

At the close of the audience the emperor honored the baron with a written personal message, highly prized by Japanese statesmen. The message expressed satisfaction at the fact that peace was concluded and commended Komura's services as shown during the negotiations.

Norway Stands Alone.

The union between Norway and Sweden existing since 1814 has been dissolved, both houses of the riksdag having passed the government bill repealing the act of union and recognizing Norway "as a state separate from the union with Sweden." The new flag of Sweden will be a yellow cross on a blue ground, the same as existed prior to 1814, the union mark, now showing in the upper left corner, being eliminated.

Fifty square inches of skin is appraised at \$10,000 in a suit brought by George A. Lovejoy, a Spokane, Wash., Elk, who furnished cuticle from his thighs to patch the face of Mrs. Fred B. Searies, wife of a brother Elk, who suffered from burns.

Compounds containing large quantities of alcohol known familiarly to grocers and used as "extracts" were ruled by Commissioner Yerkes as non-taxable. But when alcohol is slightly flavored with some extract and sold in prohibition states as a beverage called "infectures" a whisky tax is imposed.

LATE NEWS

The Oregon Land Frauds Are Up to Congressman Williamson.

CHINESE LAWS TO BE FIXED Senator Elkins Gives a Tip That's Interesting.

The Peoria Scandal Brings a Harvest of Disaster, Dishonor and Death Among Residents of the Illinois City.

Oregon Land Frauds.

John Newton Williamson, congressman from the second Oregon district, convicted of subornation of perjury in connection with land frauds in Oregon, was sentenced by Judge Hunt in the United States court Saturday to serve ten months' imprisonment and to pay a fine of \$500. He was also reprimanded by the court for his failure to set a good example in his exalted public position.

Marion R. Biggs, formerly United States commissioner, was given an equal penalty.

In the case of Dr. Van Gesner, convicted of being a fellow conspirator to suborn perjury, the term of imprisonment was, because of the defendant's age and feebleness, reduced one-half and the fine was doubled. Van Gesner was Williamson's partner in the sheep business.

Appeals are pending and a stay of execution was made pending a further order of the court. Meanwhile Congressman Williamson will go free on his own recognizance, but a bond of \$4,000 was required of the other two defendants. As the term of imprisonment is less than one year, the sentence must be served in the county jail.

Chinese Exclusion Laws.

The first of the senators to voice the opinion that Chinese exclusion laws will be handled for modification at the next session of congress is Senator Elkins. He will urge more "liberal laws."

It is believed here that he will introduce a bill for the modification of the Chinese exclusion laws. Senator Elkins is now apparently beginning where the president and Secretaries Root and Taft stopped. The president and these two secretaries went as far as possible in amending "regulations," which amendments were a sop to the anti-American sentiment in Canton and Shanghai. Further requests for modification were refused, it is understood, after a cabinet meeting was held on the subject. It is apparent to Senator Elkins that there can be no change, indirectly or directly, in Chinese exclusion, no matter what kind of treaty be made. The statute laws will be supreme.

Senator Elkins's attitude, however, for modification is interesting and shows where the fight is to be made.

Peoria's Scandal Results.

The Dougherty scandal has claimed another victim. Driven to desperation and nervous prostration by worry over the disclosures compromising his bank and fear of a disastrous run, Nelson Burnham, a venerable stockholder in the Peoria National, died suddenly Friday night. He was 79 years old.

Mr. Burnham owned 150 shares of stock and had been connected with the bank thirty years. He settled in Peoria fifty years ago. His wealth was estimated at \$500,000.

Following close on the death Thursday night of C. C. Lines, a former bank official, also caused by the shock of the scandal, the community is impressed by the far-reaching effect of the Dougherty affair.

Raises White Pine.

That white pine reforestation is a success is being demonstrated by Samuel H. Bridges, owner of one of the largest farms in Dickinson county. Inclosed in Mr. Bridges's 1,280 acres of land is a tract of 80 acres along the Sturgeon river, which were burned over 13 years ago, the fire killing every tree. There are now on this land about 5,000 young white pine trees. Some of them were trimmed up six years ago, and they have attained a height of 25 feet and are from 10 to 12 inches in diameter at the base. It is Mr. Bridges's intention to have the rest of them trimmed this fall, and he is satisfied that in 20 years more he will have a valuable tract of timber.

"The rigid requirements of women's colleges are working incalculable injury to girls," asserts Prof. John Tyler, of the biographical department of Amherst college.

Marquis Ito has arranged a reception, dinner and state function in honor of William J. Bryan, now in Japan, for October 17, in Tokio. The same day Mr. Bryan will address the Japan-American society, at which Count Okuma will preside.

That people dying in agony should be killed by anaesthetics, and the process legalized, was the proposition made to the American Humane society at its Philadelphia session by Miss Anna S. Hall of Cincinnati. The association turned down the scheme, as being fraught with too many dangers.

After falling into a Big Four gravel pit near Lawrenceburg, Ind., and breaking his neck, an Italian laborer, assisted by a friend, walked nearly a mile to his tent, holding his head in position with his hands the whole distance.

Passengers on the liner Caledonia, which has arrived at New York, tell of thrilling experiences with the same storm that caused a loss of five lives on the Campania. For 24 hours the liner struggled against the engulfing seas with the passengers locked in the cabin and the women praying all through the night.

How Is Your Heart?

Is your pulse weak, too slow, too fast, or does it skip a beat? Do you have shortness of breath, weak or hungry spells, fainting, smothering or choking spells, palpitation, fluttering, pains around the heart, in side and shoulder, or hurt when lying on left side?

If you have any of these symptoms your heart is weak or diseased, and cannot get better without assistance.

Dr. Miles' Heart Cure strengthens weak hearts, and rarely ever fails to cure heart disease. Try it, and see how quickly you will find relief.

"About January 1st, 1902, I took down with weakness and drowsy, and gradually grew worse. I was told by my family physician that my case was hopeless. My neighbors and family had given me up to die. My limbs and body were swollen to one-third larger than normal size, and water had collected around my heart. For at least three months I had to sit propped up in bed to keep from smothering. I sent for five bottles of Dr. Miles' Heart Cure, and by the time I had taken them all I was entirely cured. I feel better than I have for twenty years, and I am able to do any kind of work on my farm. My attending physician told me that if it hadn't been for Dr. Miles' Heart Cure I would now be in my grave."

L. T. CURRY, Wilmore, Ky.
Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

A Manchester small boy described a dachshund as "one of those dogs that are a dog and a half long and only half a dog high."

Mark Lowry had the fore finger on his right hand badly bruised Wednesday of last week while working a press at the stove works.

It cost Dr. Jas. Ackerson, of Manchester, formerly of Chelsea, \$30 and costs, in all \$45, for horsewhipping an itinerant German watchmaker.

The stationing committee of the U. B. conference held in Ovid last week has again assigned Rev. B. F. Fowler to the church at Waterloo.

The board of supervisors made their annual visit to the county house last Thursday in great style—being driven there in a tallyho drawn by four horses.

The 21st annual commencement of the Cleary Business College, Ypsilanti, will be held Nov. 3. Congressman C. E. Townsend, of Jackson, will deliver the address.

There will be a box social and entertainment at the Sylvan Center school house Friday evening, Oct. 27, for the benefit of the school library. Everybody cordially invited.

Frank Forner is about to start a suit against the Michigan Central for personal damages on account of the injuries he received in Jackson last August. He has employed Stivers & Kalmbach as his attorneys.

The postoffice department has made a decision that in the appointment of rural mail carriers, hereafter, women applicants will not be considered except where there is no qualified male applicant for the position.

Michael Staebler, of Ann Arbor, and F. R. Fletcher, of Ypsilanti, were elected superintendents of the poor at the morning session of the board of supervisors Tuesday. The other member and chairman of the board is Jas. Taylor, of Chelsea.

Leigh G. Palmer is now connected with the War Department corps of engineers on the U. S. survey steamer "Search," with headquarters at Marinette, Wis. He expects to be transferred to the Detroit office of the engineering corps about Dec. 1.

The Lima Epworth League will have a Halloween social in the church parlors on Friday night, Oct. 27. Hot coffee, fried cakes and pumpkin pie, all for 10 cents. Bring some more money with you to buy popcorn balls and warm molasses candy. Everybody is invited to attend. Ghosts are especially invited.

Mr. Thos. J. Keech, of Ann Arbor, district manager of the Michigan Telephone Co., and Miss Jennie Moore, of Ypsilanti, were married Tuesday, Oct. 17, at the home of the bride, by Rev. S. C. McIntyre. Among those present at the wedding were Dr. and Mrs. H. A. Schmidt and Miss Anna Tichenor, of Chelsea. Mr. Keech's friends in Chelsea unite in wishing himself and wife a happy and prosperous future.

At the meeting of the grand chapter Order Eastern Star of Michigan in Grand Rapids last week, all the old officers were re-elected. Nine new chapters were organized in the state last year. Mrs. Margaret T. Moore, the grand worthy matron, recommended in her annual address that county associations be formed to maintain a lively interest in the work of the order. The O. E. S. is also considering the question of building a \$20,000 hospital in connection with the Masonic home at Grand Rapids.

Miss Rose Mullin is now clerking in the H. S. Holmes Mercantile Co.'s store.

Just before quitting time at the stove works last night, Fred Wolff had a portion of the first two fingers of his right hand taken off in one of the presses. The middle finger was cut off between the first and second joints and the forefinger in a slanting direction towards the tip.

The board of supervisors on Tuesday passed a resolution recommending the Birkett property at Dexter as a suitable site for the location of the proposed new state hospital for consumptives and asking the state board to give it favorable consideration.

A new daily paper is to be started in Ann Arbor shortly. Articles of incorporation of the News Publishing Co., with a capital stock of \$20,000 have been filed. It is understood that the immediate backer of the company is Frank P. Glazier, of this place. Other politicians in the county will, however, have stock in the company.

By a decree of the United States court in Detroit the White Portland Cement Co. was adjudicated a bankrupt this week upon petition of Attorneys Leete, Corliss & Jocelyn, who appeared for several of the creditors. A young man named Moody has been appointed receiver. He has already served notice that upon the filing of his bond with the court today he will come on here and take possession of the plant and belongings of the company.

Ralph W. Booth, formerly of the Detroit Tribune, has purchased the Jackson Daily Citizen and Jackson Daily Press and has amalgamated them as an evening daily. He also purchased the Jackson Daily News and the Industrial News, which he subsequently sold to the Jackson Daily Patriot, which will amalgamate them and publish a morning daily. There will thus be only two daily papers in Jackson—one morning and one evening. James O'Donnell, the veteran editor and proprietor of the Citizen, retires from newspaper life after 40 years' service.

Last Hope Vanished.

When leading physicians said that W. M. Smithart, of Pekin, Ill., had incurable consumption his last hope vanished, but Dr. King's New Discovery for Consumption, Coughs and Colds kept him out of his grave. He says, "This great specific completely cured me and saved my life. Since then I have used it for over 10 years and consider it a marvelous throat and lung cure." Strictly scientific cure for coughs, sore throats or colds; sure preventive of pneumonia. Price 50c and \$1.00, guaranteed at Bank Drug Store. Trial bottle free.

Precocious Children.

In Reouell de l'Academie des Sciences of 1668 there is recorded a child born in the Jura region who at 7 years of age had a beard and was the height of a man. The same journal refers to a boy of 6 years of age who was 5 feet tall, perfectly proportioned and had extraordinary strength. His beard and general appearance were those of a man of 30 years of age.

A Boy and the Lord's Supper.

When about 3 years old, Edward Potter attended, for the first time, a communion service. With childish curiosity he inquired why the table was set, and was informed that it was the Lord's supper. During the service he fell asleep. When he awoke he immediately glanced toward the table. "Mamma," he said, "has the Lord had his supper yet?"—Boston Herald.

Overcoming Tendency to Crime.

The assurance of science is that children born with a criminal nature can be trained out of it; they can be so educated that the selfish tendencies are overgrown by the cultivation of altruistic tendencies. A schoolmaster will never flog crime out of a boy. A wise man of science could create in such a boy the appetite for better things.

Design of Turkish Emblem.

The crescent, moon and stars were adopted by the Turks as their device on the capture of Constantinople by Mohammed II. in 1453.

Hospital Makes Its Ice.

The Middlesex hospital in London, has a plant producing three tons of ice in twenty-four hours, at a cost of \$2 a ton, against \$5.46 a ton when purchased.

It Sounded Just That Way.

During a recent examination in American history in one of Hartford's schools the question was put: "What was the Mayflower compact?" This is the thoroughly logical reply of one good little American:

"The Mayflower and the Speedwell started together from England, and the Speedwell went to pieces and sunk, and they put all the people into the Mayflower, and so the Mayflower came packed."

Boating on the Nile.

Besides the unique craft used by natives on the Nile, good weather sees hundreds of graceful white winged boats flitting over its surface. Sometimes there are so many sailboats that it is almost impossible to steer a safe course through the maze. The effect of seeing modern pleasure craft silhouetted against a background of ancient temples is one of the attractive features of a journey up the Nile.

Making Castor Oil Palatable.

To take castor oil take two sweet oranges, squeeze the juice of one into a glass, add the oil, then squeeze on the juice of the other orange, stir briskly and swallow. If the oranges are sour use a little sugar.

Oscar Schneider was returning home from the Mast-Seitz wedding in Lima Thursday night on an electric car, when in some way he ran his hand through the window he was trying to raise. The tendon of his middle finger was cut in two, so that the finger hung down. Dr. Bush sewed the tendon together and hopes to save him the use of the finger.

Joe B. Lincoln was called to Canandaigua, N. Y., Friday by the death of his father Ira Wood Lincoln, at the age of 69 years. The deceased gentleman was a cousin of James P. and H. L. Wood, of this place, his mother and their father having been brother and sister. He was named Ira Wood Lincoln after the Wood brothers' father, and Henry Lincoln Wood was in turn named after his father.

John Schaufele, sr., met with quite a serious accident Wednesday afternoon of last week at his home in Dexter township. He was on the ground endeavoring to turn his horse around, having hold of the bridle at the bit, when the animal became unmanageable, reared up and threw Mr. Schaufele to the ground. He suffered a severe fracture and dislocation of his right shoulder, which will prevent him from doing much for some time.

The union revival meetings which are being held at the Methodist church this week are moving along in the right direction. The interest in the services seems to be growing and a number have announced their intention of leading christian lives. A mass meeting for men will be held in the Methodist church next Sunday afternoon at 3 o'clock. The music at this meeting will be furnished by a men's choir. U. V. Sil-loway will address the meeting.

The report of the superintendents of the poor of the county to the county board of supervisors shows that it cost the county last year \$2.25 per week to care for each patient at the county house, exclusive of the farm produce and the labor of the inmates. The report shows that the receipts last year were \$6,825.57. The orders paid amounted to \$6,151.72, with outstanding orders of \$29.80, leaving a cash balance of \$644.05. The superintendents asked for an appropriation of \$2,050 for next year, \$450 less than last year.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine E. H. Wolfe, of Bear Grove, Ia., cheated death. He says, "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find, they have no equal." Bank Drug Store guarantees them, price 50c a bottle.

Tired, Nervous Mothers

Make Unhappy Homes—Their Condition Irritates Both Husband and Children—How Thousands of Mothers Have Been Saved From Nervous Prostration and Made Strong and Well.

Mrs. Chester Curry

Mrs. Chas. F. Brown

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing children involves; it is impossible for her to do anything calmly.

The ills of women are like a firebrand upon the nerves, consequently nine-tenths of the nervous prostration, nervous despondency, "the blues," sleeplessness, and nervous irritability of women arise from some derangement of the female organism.

Do you experience fits of depression with restlessness, alternating with extreme irritability? Are your spirits easily affected, so that one minute you laugh, and the next minute you feel like crying?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; bearing down pains; nervous dyspepsia, and almost continually cross and snappy?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Proof is furnished that nothing in the world is better for nervous prostration than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women testify to this fact.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

LEFT-BRIDE AT CHURCH DOOR.

Unromantic End of Wedding Arranged by Parents.

There is an old story of the era when all marriages were contracted by parents as business affairs, without consultation of the tastes and affections of the two principals. The father and mother of one Count Kinski had arranged with some friends to marry him to their daughter. The young people had never met, and the count never lived until the wedding day, and as soon as the ceremony was over he saluted his bride with graceful respect, saying: "Madame, you and I have come in order to fulfill our parents' behests. You have the prettiest figure in the world and the most admirable stature I have ever seen on woman. But I must leave you. I cannot conceal from you that for a long time my heart has been captured by a love which I do not know how to stifle." His post chaise awaited him at the church door, the count quickly stepped into it, and the countess never saw him again.

Doctor in the School. The schools of the city of Brussels are divided into six groups, and each group has its medical officer. He must examine the pupils from the physical and intellectual point of view, and endeavor to foresee and to check any abnormal development or tendency to disease. What is qualified as "preventive medicine" (prophylactic), such as cod liver oil, may then be prescribed at the public expense. A remarkable feature of this medical service is that the medical officers have to give lessons on hygiene to the senior classes.

Collector of Bad Money. Birmingham (Eng.) boasts the only man who corners bad coins. This gentleman has a unique collection of false money. Some years ago he issued a notice to various tradespeople that he would give one-quarter of the nominal value for certain specimens of counterfeit coins which might have been passed upon them. He now possesses several thousand, some so like good money that the fraud is not perceptible, some so clumsily made that it is hard to understand how any tradesman could have been taken in.

A Hideous Deformity. The railway, whatever its virtues and uses, is a hideous deformity which scars the world with wounds in the world's fairest scenes and most majestic solitudes. Its noises, its stench, its worse crowding of the sexes even in their sleep, the frightful accidents and deaths which it causes, the tortures it entails on the animals it carries, can scarcely be exaggerated.—Motorist and Traveler.

Sure Way to Find the Sheriff. The Rev. Dr. Adams of Maine, is noted for his sentimentality both in and out of the pulpit. As he was coming down the street one day a man asked him: "Sir, can you tell me how to find the sheriff's office?" "Yes, sir," was the reply. "Every time you earn \$5 spend \$10." Saying this, the doctor walked on, leaving his questioner gaping upon the sidewalk.

What Makes a Diamond Sparkle? A diamond is the most lustrous of all known substances because it reflects all light which falls on its poster or surface at an angle of incidence of more than 24 degrees. It is so hard that its power of refraction is immense, and the cutting is demass of prisms, which sparkle the white light into the colors of which it is composed.

True Americans Left. This country still has many things to thank God for, among them being the fact that there are Americans so poor that they haven't the price of their own funerals, but who yet would not change places with rich men who acquired their wealth by thievery and dishonesty.—Los Angeles Times.

Storekeepers and Hotelkeepers Should investigate acetylene gas. Write "Acetylene Jones" to-day.

Requisites for Successful Visit. Always go to a house well equipped with little necessities and conveniences. A guest should have her own writing materials. Every member of the family may be asking for the library pen and ink just when you want to write your home letter. A miniature sewing outfit and shoe polish rags, etc., are essential also.

Athletics for Imbeciles. At a meeting of the Preston (England) board of guardians the chairman announced that the athletic field day for imbeciles had been held, and gracefully added: "I am sorry that not more members of the board were in attendance."

To make Cheap Gas-light for Country Homes

TAKE a common Clay Pipe. Put a simple "Acetylene" Gasburner on its stem. Bind the two in position with a tight-fitting piece of Rubber Hose. Then fill the bowl of the pipe with fine-ground Calcium Carbide. Next tie a rag over head of the bowl to keep in the Carbide. Now put the pipe into a Glass of Water, as in picture. There you have a complete Gas-plant for 25 cents. Touch a match to the Burner—and you'll get a beautiful White Gas-light. Of course, this is only an experiment, but it shows the wonderful simplicity of Acetylene Lighting. That very simplicity gave Acetylene

Light a setback, at first. It seemed so simple to turn Calcium Carbide into Gas-light that over 600 different kinds of "tanks" and "Acetylene Machines" were invented, patented, and marketed for the purpose, by about as many different people.

Well, the thing to be expected certainly happened! About 530 of these "Acetylene Machines" had been invented and sold by people who knew more about *Timon* than they did about *Gas-making*. The "Calcium Carbide" was all right all the time, but 530 of the machines for turning it into Gas were all wrong all the time.

So Acetylene Gas "got a bad name," though it is clear enough now that it never deserved it at any time. It was like selling *Wood Stoves* to burn *Hard Coal* in, and then blaming the *Coal* for not burning.

Lots of things happened to grieve the Owners of these 530 makes of alleged "Acetylene Machines." But very few accidents occurred from them even in the days of rank experiment and dense ignorance, among, "Generator" Makers.

Of course, a gun will go off unexpectedly, now and then, if the trigger be pulled by a person who "didn't know it was loaded."

But, that's no fault of the Ammunition—is it? Well, finally the Insurance Companies got after these 530 odd makes of "Acetylene Machines" that wouldn't Acetylate, and the Insurance Board made an investigation of all Generators that were submitted to them.

Then, out of the 600 odd "Machines" patented, only about 70 were "permitted" by the Insurance Board to be used.

Oh, what a howl was there! By "permitted" I mean that the Insurance Board was willing that any building should be insured, with-

out extra charge, which used any one of these 70 Acetylene Generators it had found safe, and effective, just as it permitted houses to be piped for City Gas, or wired for Electricity, under proper conditions.

Now, the Insurance Companies *ought* to know whether or not these 70 different makes of Acetylene Generators were absolutely safe to use.

Because, they have to pay the bills, if Fire or Explosion occurs, from any one of the Acetylene Generators they authorize.

And, here's a proof of their good judgment. Though there are now Two Million people using Acetylene Light in America, there have only been four Fires from it in one year, against 8865 Fires from Kerosene and Gasoline.

There have also been 4601 Fires from Electricity, 1707 Fires from City Gas, and 520 Fires from Candles. Besides these there have been 26 Fires from the Sun's rays, But—only four Fires from Acetylene.

That shows how careful the Insurance Board was in its examination of Acetylene Generators, and in "permitting" only the 70 makes that were above suspicion, out of the 600 experiments that were once on the market.

Well,—it's boom in Acetylene Lighting made lower prices possible on the material it is derived from, viz., Calcium Carbide, a material that looks like Granite but acts like Magic.

Today, Acetylene Light is a full third cheaper than Kerosene Light, or Gasoline Light, per Candle Power. It is not more than half the price of Electric Light, nor three-fourths that of City Gas.

If I can't prove these statements to your full satisfaction my name is not "Acetylene Jones."

But Acetylene is more than the safest and cheapest Light of the year 1905.

It is also the *Whitest* Light—the nearest to natural Sunlight in health-giving Blue and Violet rays, and because of this, with its freedom from flicker, it is the easiest of all Artificial Light on the Eyes.

It is so much like *real* Sunlight that it has made plants grow 24 hours per day in dark cellars where no ray of Sunlight could reach them. It made them grow twice as fast as similar plants that had only the Sunlight of day-time, viz., half the time.

That was proven by Cornell University in a three-months' experiment made this very year.

Now, I've saved up for the last a point more important to you than all the others about Acetylene Light.

It consumes only *one-fourth* as much of the vital Oxygen from the Air of Living rooms or bed-rooms, as either Kerosene or City Gas-Light consumes.

That's a tremendous difference in a lifetime, mark you—three-fourths of a difference.

Because—*Oxygen is Life*. And every bit of Oxygen stolen from the lungs of Women, Children and Men, through Lighting, is a loss that can never be made good again.

A 24 Candle-Power Acetylene Light costs you only two-fifths of a cent per hour.

That's about \$5.85 per year, if burned every night in the year for four steady hours.

A Kerosene Lamp of equal capacity would cost you a third more, viz.: *three-fifths* of a cent per hour for Kerosene alone, or \$8.75 per year.

That's exclusive of broken lamp chimneys, new wicks, and the everlasting drudgery and danger of cleaning, filling and trimming daily.

I want to prove these figures to you, Reader, if you are a house-owner or storekeeper.

Tell me how many rooms you've got and I'll tell you what it will cost to light them with brilliant, beautiful, Sanitary, eye-saving Acetylene.

Write me today for my Free Book about "Sunlight on Tap."

CONSTIPATION AND STOMACH TROUBLE ABSOLUTELY CURED

"I consider Mull's Grape Tonic the very best medicine I have ever taken. My stomach was in such a bad condition that nothing tasted right and the small amount of food that I was able to eat didn't seem to do any good. I became so nervous that sleep was impossible. My strength gave out and I became exhausted and completely run down. I then commenced to take Mull's Grape Tonic and by the time I had finished two bottles my health returned. I now relish my food and can sleep as well as ever. THIS IS MY VOLUNTARY TESTIMONY."

MRS. D. GIANELLI, ex S. Joliet St., Joliet, Ill.

Continual constipation will inevitably result seriously for the sufferer. No one can let this affliction go unnoticed without losing his health. It brings on Blood Poison, Skin Disease, Sores, Pimples, Stomach Trouble, Dyspepsia, Indigestion, Sudden Bowel Trouble, Diarrhea, Cholera, Etc., Nervousness, Insomnia, and Kindred Diseases. You have no right to suffer from constipation or any of these diseases. There is no necessity or excuse for it. There is one positive, natural, harmless cure—and only one—for these troubles and we are going to give you enough free to prove it. Cut out the coupon below and we will give you absolutely free of charge a bottle of

MULL'S GRAPE TONIC

the only permanent, natural cure for constipation and all bowel troubles and indigestion and all stomach troubles. MULL'S GRAPE TONIC cures by strengthening and restoring the tissues and muscles of all the digestive organs, and by putting the whole digestive system in a perfect, strong, healthy condition. It does not shock and weaken the organs as purgatives and physics do and thus aggravate the trouble and make a bad matter worse. Its effect is to build up and restore, and not tear down and destroy. It cures the disease by putting the digestive organs in a condition to overcome it. Such a cure amounts to something—it is perfect and permanent. You feel better and stronger all the time you use it—not weakened and run down as in the case of drugs and physics. You feel the wonderful and beneficial effects of Mull's Grape Tonic at once. You will know that it will cure you as soon as you begin its use. That is why we let you try it free.

Are you looking for some kind of power that you can use in your barn today, down in the woods tomorrow, over in your neighbors' woods next day? Something that costs nothing until started and all expense stops the instant the power stops? An engine that always goes no matter what the weather conditions may be? If so, let us tell you more about ideal engines, which are guaranteed for one year and sent out to respondible farmers on a 10 days' trial. We make a specialty of a 5 H. P. engine that is adapted to farm use. It costs but little more for gasoline to pump water with this engine than it does with a smaller one, which is of no practical use except for pumping. This engine will grind feed, buzz wood and do any work requiring power on the farm. Ideal engines will be on exhibition at the Fair this fall.

The Greening Bros. Nursery Company, Monroe, Mich., one of the leading nursery concerns in the United States, write us that they want a good live agent in this section to solicit orders for their nursery stock. Experience not necessary. They offer good pay weekly, and furnish cash vouching outfit free. Any man or woman in our community, who is in a position to take orders for the above firm, is requested to write to them for particulars immediately.

A Daredevil Ride

often ends in a sad accident. To heal accidental injuries use Bucklen's Arnica Salve. "A deep wound in my foot from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless but Bucklen's Arnica Salve quickly healed it." Soothes and heals like magic. 25c at Bank Drug Store.

10 Village Treasurer.

Frightful Suffering Relieved.

Suffering frightfully from the virulent poisons of indigestible food O. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel troubles give way to their tonic, laxative properties. 25c at Bank Drug Store.

Girls, if you want red lips, laughing eyes, sweet breath and good looks use Hollister's Rocky Mountain Tea. The greatest beautifier known. 35c, tea or tablets. Bank Drug Store.

NATURE'S WARNING.

People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously. But nature always warns you through the urine.

Notice the kidney secretions. See if the color is unhealthy—if there are settlements and sediment.

Passages too frequent and painful. It's time then to use Doan's Kidney Pills to ward off Bright's disease or diabetes.

Lawrence O'Toole, 1825 Hill street, Ann Arbor, Mich., says: "The pains across my back were almost constant, and were so severe at times that I was often obliged to get my back against the wall before I could straighten. I could hardly rest in any position and was as tired in the morning as the night before. I could not stoop to pick anything off the ground and was, generally speaking, used up. The kidney secretions deposited a heavy sediment and were too frequent, greatly disturbing my rest at night. I was bothered with much headache and spells of dizziness. I wore plasters until I was tired of them, and took a lot of medicine, but it did me no good. When I saw Doan's Kidney Pills advertised I felt confident they would help me, and I got a box. They helped me at once and in a short time thoroughly cured me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ON TONGUE IN LEAD.

Spoken by 130,000,000 of People and is Still Gaining Ground.

The United States are by far the largest of all the civilized nations except Russia, which has 130,000,000 inhabitants. The German empire has 56,000,000; Austria-Hungary, 47,000,000; Japan, 47,000,000; the United Kingdom, 42,000,000; France, 38,000,000; Italy, 32,000,000 and Spain, 18,000,000. China has 350,000,000, but she does not count in a calculation of this sort.

Owing to the rapid growth of the United States the English language is now spoken by more persons than any other civilized tongue. Charles V. said he spoke German to his horse, French to men, Italian to women friends and Spanish to God. In his days, three and a half centuries ago, Spain was a land on which the sun never set, England was only a small spot on the map and the English language held only a minor place in the civilized tongues. To-day 130,000,000 of people speak English, 100,000,000 speak German, 70,000,000 employ Spanish, including the inhabitants of the Latin American countries, and 40,000,000 speak French.

Moreover, the lead for English is rapidly lengthening. Nearly two-thirds of all the people who speak the English tongue are in the United States.

DOG INCAPABLE OF DECEIT.

Nature Such That He Cannot Hide His Emotions.

"There is one peculiar thing about dogs," remarked a well known local fancier and huntsman, "and that is you never saw one pant and wag his tail at the same time. A dog is not capable of a double emotion. He can't growl and wag his tail at the same time, for it is impossible for him to be mad at one end and glad at the other."

"If a dog is glad to see his master he will bark and wag his tail. If he wants to get into the house he will paw at the door, whine and wag his tail, but they are all symptoms of one and the same emotion. But if his master opens the door he will cease to show anxiety immediately by whining and will show pleasure only by the wagging of his tail."

"In order to get a man's temper one must watch his eyes, but for a dog's you have to watch his tail. The dog is likewise incapable of deceit, and hence he is nothing of a politician. He deceives no one, not even his master. If he is overjoyed every emotion is indicative of that fact, and his whole make-up gives ample testimony to it. If he is displeased or angered it is the same way."—Houston Post.

Bumble Bee Ballade.

About the tree,
From rose to rose,
The bumble bee
A humming goes;
And off he throws
This catch sublime:
While clover glows
'Tis summertime.
His tra la lee
Serenely flows
While whirling free;
And while he blows
His horn of rose
In notes that rhyme,
When well he throws
'Tis summertime.
Upon a spree
He gayer grows
A-d-d-ucker, care free,
'The garden hose,
Zh, by his pose
At noonday prime
And twilight's close
'Tis summertime.

ENVOI

While he tows
His pantomime
Most clearly shows
'Tis summertime.
—R. K. Munkittrick.

Diplomatist Was Not Worrying.

A story is told in Paris of a diplomatist who represented a South American republic a few years ago. There had been so many revolutions at home that the financiers there had no time to send him his salary. But he took this misfortune philosophically, sold all the furniture of the legation except a bed, a table and some chairs and occupied one room with his principal attaché, who cooked the meals. Anyone who called early on the minister would probably find him cleaning the boots. "What would you have?" he would say, waving a boot expressively. "My poor country is in another crisis and has forgotten us again. But when I go back I shall make a revolution and appoint myself president. Then we shall have our reward for all this self-denial."

Worried by False Teeth.

Sheikh Mohammed Ali Omar Or, head of the Genlab Arabs, who has arrived at Khartum, has been presented by the sirdar with a complete set of teeth. He is extremely proud of them and hopes to amaze the rest of his tribe when he arrives home. His only misgiving is the effect on his inside. He expressed his fears in this way: "God gave me teeth and took them away when I grew old. He knows best. Now man has put new ones in. Can the doctor of the teeth tell me what is good for my inside?"—Brooklyn Eagle.

Boomerang as Life Saver.

Attention is being devoted to the boomerang as a means of saving life at sea. The contrivance is simply a boomerang to which a swivel is attached to carry the line without twisting. With it a man can instantly throw a strong line 150 feet to 200 feet, and, as the boomerang floats it will sustain the cord on the water and give a person on the surface a chance to catch it, and be drawn to land or supported until a boat arrives. The device requires little skill to throw it accurately.
