Time for Fall House Cleaning

What's Needed?

You'll be getting the house cosy and "ship shape" for the winter; perhaps some of the rooms don't look just as cheerful as you'd like to have them. It may be the wall decorations are deficient in warmth of coloring and cheerfulness of design and right here is where

We Can Help You Out.

We've got such an array of bright, new and genius-made things in wall hangings to help one in such a contingency. You never saw a more fascinating lot of treasures for a small outlay than the new goods just opened. Look them over today. Our prices on broken patterns and remnants are but a fraction of the original price.

Here's Another Thought.

May be after papering there still remains something needed here and there to round out the scheme? Like as not you can solve the problem right here. New goods are piling in upon us every day in our crockery department. You're sure to find something here that will interest you. We can't finish our story without quoting a few BANK DRUG STORE PRICES on staple goods. We are selling:

A two-quart Hot Water Bottle, 34 cents.
A two-quart Fountain Syringe, 34 cents.
A three-quart Fountain Syringe, 58 cents.
A four-quart Fountain Syringe, 64 cents.
A three-quart Hot Water Bottle, extra, 67 cents.
Good Perfumes at 15, 20 and 30 cents per ounce.
Good Toilet Soap 3 cents cake.
Gibford's Razor Strops, warranted, 50 cents.

TRAINS COME TOGETHER

ON MICHIGAN CENTRAL.

Two Cars and Engine Wrecked Tuesday
Night Near the Residence of James
Guthrie—One Car Burned.

Tuesday evening about seven o'clock a wreck occurred on the Michigan Central between the Cavanaugh Lake road and the residence of James Guthrie. The crash of which was heard by a number of our citizens, and the illumination in the west set many of them wondering where the fire was located.

A freight train west bound, near the Hoppe crossing, parted and nine cars, consisting of seven box cars apparently loaded with merchandise, one Lehigh Valley car loaded with slack coal, and the way car, started down grade and crashed into a freight which was following. Conductor Ernest Gregg and the rear brakeman were on the section that broke loose from the first train and they jumped to save their lives just before the crash came.

The second train was in charge of Conductor Van Fleet, with Engineer Renchard at the throttle. Before the two came together the engine had been reversed and the train started back east, but the giving away of a knuckle on the air brake caused them to come to a stop, and the broken section of the first train, which had gained considerable speed, ran into the rear train. The front of the engine was badly broken up, the way car of the broken train reduced to kindling wood, and the car loaded with slack coal caught fire and burned up. The cars of merchandise escaped without injury. Fifty to seventy-five railroad ties burned, and several lengths of rails warped out of shape by the intense heat of the burning coal, is the result of the wreck.

The men on both Chelsea sections, and a wrecking crew, worked all night and the greater part of Wednesday to repair the damages.

West bound way freight, which was following the two trains, was run on the new side track and held here Tuesday night, and all west bound trains held the south track between Chelsea and Francisco. None of the crew of either train were injured.

A PIONEER RESIDENT.

Edward A. Nordman Who Settled in
Lima Township in 1835 Passed Away
Last Friday.

Edward A. Nordman was born in November, 1829, and died at his home in Lima township Friday morning, October 13, 1905, in the 77th year of his age.

Mr. Nordman came to Lima in 1835 and resided with his uncle, Gottlieb Nordman, until 1862, when he was united in marriage with Mrs. Irene C. Horne. Five children were born to them, two of whom died in infancy. For the past year the deceased has been in poor health, his final sickness being pneumonia.

The deceased was a prominent factor in the farmers' club and institute work in this part of the county, and always ready with any paper that was assigned to him when the time came for him to read it before his associates.

The surviving members of his family, the widow, one son, George A. Nordman, of Chelsea, two daughters, Mrs. W. J. Beach, of Lima, and Mrs. Jedele, of Dexter village, have the sympathy of many friends in their affliction.

The funeral services were held from the late home of the deceased last Sunday afternoon, where many of the old residents of that community gathered to pay their last tribute to their departed neighbor. Rev. E. E. Caster, D.D., of this place officiated. Interment in the Dexter village cemetery.

SURVEILLANCE OF JUVENILES.

Commissioner Sample Working Out Plan
Which Will Probably be Sanctioned by
Board of Supervisors.

Steps are being taken by Circuit Court Commissioner George W. Sample, judge of the juvenile court under the new law, to put the machinery of the recently established court into operation.

As one of the preliminary steps to this end, Commissioner Sample and County Agent Wm. K. Childs went before the board of supervisors Tuesday morning and asked them to provide a means and place for the custody of the juveniles while under the surveillance of the court. This means in cases where the children have parents that their parents may be deputized to carry out the orders of the court while they have custody or if it is not deemed wise to leave the children in the custody of their parents, some other suitable person may be given the power of juvenile deputy.

"One of the primary aims of the new

law," said Mr. Sample today, "is to avoid if possible the stigmatizing of children with the brand of crime and to do this, it prevents the officers from lodging juveniles in jail. One arrangement is being perfected for the purpose meeting the requirements of the statute which provides that each county may prescribe its own way of exercising custody, but it must be other than the regular county jail or city lockup."

Commissioner Sample says that he believes the new law to be constitutional and capable of practical enforcement and that aside from one or two minor particulars, he thinks the statute will work out exactly as planned.—Ann Arbor Times.

JACKSON CITIZEN AND PRESS MERGED.

News and Industrial News are Sold to the
Patriot, Leaving One Morning and One
Afternoon Paper.

James O'Donnell, proprietor and editor of the Jackson Daily Citizen, will retire November 1 from the editorial chair of his paper.

Ralph H. Booth, proprietor of the Grand Rapids Herald, has bought the Citizen and the Press, the two afternoon papers of that city and will consolidate them with as little loss of time as possible. Mr. Booth has further straightened out the newspaper situation in Jackson by the purchase of the News, the morning paper recently established there, and the Industrial News, a semi-weekly, and selling both to the Patriot. This will leave one morning and one afternoon paper in Jackson.

Mr. Booth holds the controlling interest in the consolidated Citizen and Press, and will have associated with him John George, Jr., who, as partowner, will act as general manager for the consolidated paper. Some years ago Mr. George was the owner of the Patriot, and subsequently operated the Citizen for Mr. O'Donnell. The consolidated afternoon paper will represent an investment of about \$100,000.

MAY BE BUILT.

The Commercial and Financial Chronicle of New York has the following to say regarding the re-organization of the Jackson & Ann Arbor Railway Co.

"W. A. Boland, who for the past three years has paid much attention to building and putting in operation electric railways in Southern Michigan, including the Jackson Consolidated Traction Co. and the Jackson & Battle Creek Traction Co. has now, as a large bond holder in the Jackson & Ann Arbor Ry. Co., re-organized that company. The \$850,000 of bonds have been exchanged for preferred stock, leaving the property free from encumbrance. The capital stock as re-adjusted is \$260,000 preferred and \$240,000 common stock; authorized bond issue, \$500,000. It is estimated that the road can be built from Grass Lake to Ann Arbor for \$150,000, with a bond issue of about \$5,500 per mile."

It was supposed that this property would be consolidated with the Detroit, Ypsilanti, Ann Arbor & Jackson Ry., as for quite a distance the two roads are parallel and serve the same territory; but Mr. Boland and his associates think it advisable to build their road through to Ann Arbor and Detroit either this fall or early next spring."

BAR WOMEN SINGERS.

The singing of women in Catholic church choirs during liturgical functions will probably soon be prohibited in the diocese of Detroit. In his encyclical on church music some time ago Pope Pius X. decreed the exclusion of female voices.

Bishop Richter, of Grand Rapids, has already sent circular letters to the clergy of his diocese calling attention to the pope's encyclical, and calling for its strict enforcement. He says that if men or boys have not yet been trained to sing at high mass, the congregations must be satisfied with low masses until due provision for proper singing is made.

The pope's prohibition of female singing in the churches is, of course, applicable all over the Catholic world, and inasmuch as ample time has been given since the encyclical to prepare men and boys to sing at all services, Bishop Foley will soon follow the course taken by Bishop Richter.—Detroit News.

Full of Tragic Meaning.

Are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me. Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At the Bank Drug Store, guaranteed; 50c and \$1.00. Trial bottle free.

COUNTY HOUSE REPORT.

THE COST IS \$2.25.

That is the Weekly Expense for Care of
Each Patient at the Poor Farm—\$2.050
Asked for Next Year.

The report of the superintendent of the poor of the county, which was read before the meeting of the county board of supervisors Monday shows that it cost the county last year just \$2.25 per week to care for each patient at the county house. This was exclusive of the farm produce and the labor of the inmates.

The report shows that the cash on hand last year was \$863.07. Cash from the county house amounted to \$350.26; from cities and townships, \$3,102.24; and from appropriation, \$2,500; making a total of \$6,825.57. The orders paid last year amounted to \$6,151.72, with outstanding orders of \$29.80; leaving a cash balance of \$644.05.

The superintendent asked for \$2,050 for next year, and the matter was referred to a committee consisting of Holmes, Landwehr and Schumacher.

FOUR HUNDRED DOLLARS.

Jacob Steinbach Advances that Amount
for Copper Stock—Has not Received the
Goods and Starts a Law Suit.

The declaration in the case of Jacob Steinbach vs. H. W. Schmidt has been filed by A. J. Sawyer & Son, the attorneys for Steinbach. He alleges that on February 20 Schmidt applied to him to advance \$400 to be invested by Schmidt in the stock of a copper mining company located in the Upper Peninsula. Schmidt said he had relatives located in the vicinity of the copper mine owned by the company, who knew all about the value of the capital stock of the copper mine, who would invest Steinbach's money without charge and that in six or eight months at the outside he would receive the certificates of stock amounting to the sum of \$400. Steinbach advanced the money, and now claims that he has not either the stock or the money and he wants his money and interest on the same.

CROPS HERE AND ELSEWHERE.

The year 1905 will have a record as an abundant crop year. The small grain crops are excellent, the yield of hay is large, while the corn crop is the largest ever known. The danger to corn from frost in the northwest has passed. In Kansas alone the corn crop is estimated at \$75,000,000. While the country is blessed with bountiful harvests, some sections of the world are not so fortunate. Spain is said to be suffering from the worst famine in her history. It is estimated that in Andalusia alone 200,000 men are out of work and that \$10,000,000 will not be sufficient to relieve the terrible situation. Immense throngs of emaciated men and women are encamped around towns, while in the former fertile valley of Andalusia children are living on fir cones and the fruit of the wild cactus. Riots caused by hunger are of daily occurrence. A large section of India is suffering the horrors of famine. In many parts there has been no rain for a year, the water sources have gone dry, the crops are a total failure and people and cattle are now starving. This same region was visited by a terrible famine five years ago. Crop shortages in some parts of Russia are also causing distress.—Jackson Citizen.

IMPORTANT ORDER.

The president Monday through the state department published an executive order of importance to every employee in the civil service of the United States. No explanation or underlying reason for the issue is given. The order is as follows: "No officer or employee of the government shall directly or indirectly instruct or be concerned in any manner in instruction of any person or class of persons with a view to their special preparation for the examination of the United States civil service commission. The fact that any officer or employee is found so engaged shall be considered sufficient cause for his removal from service."

Don't Borrow Trouble.

It is a bad habit to borrow anything but the worst thing you can possibly borrow, is trouble. When sick, sore, heavy, weary and worn-out by the pains and poisons of dyspepsia, biliousness, Bright's disease, and similar internal disorders, don't sit down and brood over your symptoms, but try for relief to Electric Bitters. Here you will find sure and permanent relief of all your troubles, and your body will not be burdened by a load of debt disease. At the Bank Drug Store, Price 50c. Guaranteed.

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

MICHIGAN HAPPENINGS

THE MEDICINE WOMAN'S STORY OF A GREAT DIAMOND.

ADRIAN'S "AVENGING ANGELS" FOUND GUILTY OF SIMPLE ASSAULT.

YOUNG LAD WHO KILLED A COMPANION SEEMS TO BE DEFIANT.

The Great Fire Stone.

Buried under the leaves somewhere in the woods of Chippewa county is a diamond as large as a walnut. This is the claim of Miss Clara Shaw, of Sault Ste. Marie. It was discovered by her father in 1866 and has not been disturbed since that date. Miss Shaw is known throughout the upper peninsula as the Indian medicine woman.

For years she has ministered to the sick, giving patients compounds of bark and berries and roots such as are known only to the Indians.

Her father, Thomas Shaw, lived in Sault Ste. Marie half a century ago, long before the settlement had reached the dignity of a village. He was prominent in the early Methodist church and a mixture of Scotch blood flowed in his veins.

In the summer of 1866, while wandering through the woods near what is now known as Brimley, he saw a brilliant light flashing in the sun. He beheld a ball of fire a foot in diameter, according to Miss Shaw, and when he investigated the find he learned that it was what the Indians called a fire stone. The rays of light that flashed in the sun were of all the colors of the rainbow and it was almost blinding in its brilliancy. He tossed it into the bushes and buried it under the leaves, so that no one would discover it.

"My father was afraid I would marry a white man and that he would desert me," said Miss Shaw when asked to tell her story. "He took me to the place in the woods where the fire stone was and pointed out the spot where I could find it if I ever needed the money it would bring. Then we came away and a few years after he died."

"What my father feared would happen did take place. I married a white man and he deserted me. Then I got a divorce. But I have never sold the diamond, for it seems sacred to me."

"Almost every year I go to the spot in the woods out of respect to the memory of my father, but I do not disturb the stone. It lies where he left it over fifty years ago. I do not intend to sell it, because I do not believe it would be right."

The woman will not tell the exact location of the spot, but says she will lead one to the place if they desire to make the trip.

"Avenging Angels."

After being out many hours, the jury in the Hudson "avenging angels" case late Friday night returned a verdict of guilty of assault and battery, and recommended leniency on the part of the court. Judge Chester accepted the recommendation of the four prisoners, John and Frank Dillon and Clifford and Alfred Barrett, and suspended sentence for the present.

The verdict was a big surprise, as it had been figured that the long deliberation meant a disagreement. One of the jurors stated that the jury did not doubt that the defendants did the things charged against them, but there was no evidence of it except the words of Mrs. Post and her former husband, and their testimony was not given much weight.

Needs Correction.

Fred Johnson, the 13-year-old slayer of Willie DeLong, aged 9, of Benton Harbor, who has been released after an investigation conducted by the coroner, is said to be defiant and to show no remorse for his careless act when he pointed a revolver at Willie's heart, asked whether it would go off, and snapped the trigger. He is said to be annoying Mrs. DeLong, and unless he is sent away from the city, she may take steps to have him committed to the reform school.

Judge Carpenter Ill.

Judge W. L. Carpenter, of Detroit, justice of the supreme court, has gone to Alma and will take a long course of treatment at the Alma sanitarium. He is suffering from a nervous breakdown and his health is very poor. He was told by his attending physician that he will have to give up Lansing duties, temporarily, to recuperate.

He has charge of a large number of cases which were to appear before the supreme court. His unusually low pulsed condition gave out completely, but it is hoped that after a long rest his health will be restored.

While out hunting about a mile from Coloma Saturday, Harvey Strong, son of Geo. Strong, accidentally shot and probably fatally wounded himself. He had laid his gun upon a stump of a tree and in some way it slipped from his resting place and was discharged. The shot entered Strong's breast, scattering and penetrating his lungs.

Child's Horrible Death.

Immersion in a caldron of boiling beans was the horrible fate of Peter Meyers, a 7-year-old boy, while playing in a slaughter house near his home in Jackson. He died in agony soon after being taken to his home. Little Peter, in company with another playmate, entered the slaughter house after school. The caldron with the boiling beans being cooked for hogs stood almost flush with the floor. In some manner Peter slipped and fell in. His companion ran quickly to his rescue and pulled him out. Carrying him on his back, he hurried to Peter's home, where a physician was summoned. The doctor expressed the belief that he would be able to save the boy's life, but the lad expired half an hour after the physician left the house.

The flesh on his lower limbs and the lower part of his body was found to be almost parboiled.

STATE BRIEFS.

Cadillac, Coldwater, Grand Rapids and other towns report snowstorms on Wednesday.

A barn belonging to Mrs. Brown, one mile west of Ubly, was destroyed by fire Saturday, with all its contents. Loss, \$4,000.

The sheriff has been ordered by the prosecuting attorney to put out of business all the slot machines in operation in Eaton county.

Lite Bailey, a farmer living north of Durand, missing since Saturday, was found digging in the earth with his bare hands. He said he was going to bury himself.

Upper peninsula people are sore on State Land Commissioner Rose and the state geologist, whom they accuse of knocking that part of the state to prospective purchasers of farms.

About 375,000 bushels of peaches were shipped from Grand Rapids during the season. The crop was about 50 per cent of the early estimate owing to rains at the ripening season.

M. J. Murphy, of Detroit, has accepted a position on the board of control of the Michigan Home for Feeble Minded and Epileptics at Lapeer, made vacant by the resignation of George Nester.

The main building of the Buchanan Cabinet Co.'s plant was destroyed by fire early Saturday morning, together with a large stock of hardware in the yards. The loss is about \$30,000. The factory will be rebuilt.

Because his attorney told the court, Robert Gardiner has an "ossified neck," he may escape the death penalty if convicted. It is claimed that hanging would not kill Gardiner, who is charged with murdering Agnes Morrison, of Chicago.

The adjourned examination of Margaret Switzer was held in Mt. Pleasant Monday. The defendant waived further examination and was bound over to the circuit court on the charge of murder of her husband, Dr. John Switzer, of Leaton.

The 6-year-old daughter of Andrew Orley, of Palestine, was fatally burned. Her dress caught fire at the kitchen stove. She ran from the house in terror, and before she could be caught and the flames extinguished she was burned beyond recovery.

Walking with her brother on the Michigan Central railway tracks near the Wayne county house Wednesday afternoon, Mrs. Maria Oliver, aged 70 years, was dashed to death by a west-bound train. Her brother, Patrick Lynch, barely escaped death with her.

Miss Mary Solenius, a Finnish domestic of Grand Rapids, who last spring tried to commit suicide, but failed, is now glad she is still alive. A sister has just come here with the news that a brother of theirs died in Alaska and left them \$100,000 apiece.

The state of Michigan, the county of Wayne, the city of Detroit, and other creditors of the defunct City Savings bank of Detroit, co-operating, are to contest the Union Trust Co.'s claim for \$200,000 expenses and fees as receiver of the City Savings bank.

Farmer Andrew Sugg, of Shepherd, had \$120 left from a deal in beans. He hung his trousers on the bedpost. Next morning they were on the kitchen floor and the roll was missing. Sugg had not locked his doors on retiring.

An aged "drunk" picked up in Saginaw giving the name of Pat Murphy, alias Frank Murphy, has been identified as a noted burglar who has served time in at least four state prisons, and is now out on parole from Michigan City, Ind. He has spent 20 years in jail.

At the inquest in the case of the child born to Miss Mary Van Tassel in Battle Creek the girl's mother, Mrs. William Van Tassel, admitted the child was born alive, saying it was drowned in a jar of water in which it fell and that she was too busy to remove it.

H. P. Mowry, the Brownson member of the state board of corrections and charities, has verified the statements of a tramp that the Eaton county jail is inhabited by bedbugs and other undesirable vermin. He says he found all the complaints true, and that the jail is badly ventilated and unsafe. He recommends that the supervisors rebuild the building.

An explosion of gas in the big lime kiln at the Menominee sugar factory severely burned Assistant Superintendent Weber and slightly injured several others. Weber's hair was nearly all burned off, his mustache and eyebrows entirely burned, and the skin burned from his hands. His clothing was blazing in 20 places when he was picked up.

Joseph Skidmore, of Muskegon, and his bride, Miss Mabel Girard, expect to start for Tennessee in a prairie schooner, and think the trip will take about six weeks. The trip is taken largely for the benefit of their health.

Clarence M. Welch, the former M. E. preacher of Nashville, who was held as the father of the child of Miss Mina Caven, who was a choir singer in his church, pleaded the poor debtor's act and was released by Circuit Court Commissioner Verkerke. He was at once re-arrested for non-support. He has been in jail because he refused to obey a court order and contribute to the child's support.

GENERAL NEWS

THE WAR IS OVER, PEACE TREATY NOW FORMALLY RATIFIED.

THE CZAR'S INVITATION TO A PEACE PARLEY ACCEPTED BY ROOSEVELT.

THE DISBANDMENT OF THE VATICAN GUARDS IS POPE'S DESIRE.

Peace Treaty Signed.

The emperor of Russia and the emperor of Japan Saturday morning signed their respective copies of the peace treaty, thus officially ending the war. A few minutes after noon Minister Takahira appeared at the state department with a message stating that the emperor of Japan had signed the treaty at Tokyo. A cablegram was immediately dispatched to Spencer Ed- dy, charge of the American embassy at St. Petersburg, who was instructed to inform the Russian foreign office that the emperor of Japan had performed his part, and so both copies of the treaty having been duly signed, and each of the great nations lately engaged in hostilities having been officially informed of the fact, the Russo-Japanese war which began February 8, 1904, with the attack by Togo's fleet upon the Russian ships at Port Arthur, terminated officially Saturday, October 14.

Those who left the grand stand last week were badly burned, as the big pile building went like tinder. Within three minutes after the fire was discovered the stand was wrapped in flames. The fire was caught up by a stiff breeze and was driven across the grounds, communicating from building to building.

A mass of flame from the building played upon an acre of implements, buggies and windmills, destroying them. Women in charge of exhibits in the halls had only time to seize their personal belongings and escape.

In less than an hour the entire fair was wiped out.

A Narrow Escape.

In a wild runaway dash an Illinois Central fast mail train that left Chicago for the south at 2:30 a. m. narrowly escaped wreck and destruction at Grand Crossing. The engineer, Frank A. Rugg, was struck by some projection while peering from the cab window, after passing Sixty-third street, and fell unconscious at his post. Not until the destruction of the train was imminent was his condition discovered, and the wild flight of the fast mail brought to an end by Rugg's fireman.

Tearing through darkness, the train approached a network of tracks at Grand Crossing with undiminished speed, contrary to all regulations. Realizing that something was wrong, Paul A. Wheeler, the fireman, leaped to Engineer Rugg's bench and found Rugg unconscious and bleeding from a jagged wound in the head. The fireman brought the train to a stop just at the danger point. The engineer's injuries are not considered fatal.

Does Not Like Display.

The vatican guards are to be disbanded owing to the pope's aversion to military display. The date of the disbanding has not yet been decided upon, but meanwhile for the first time in the history of the vatican furloughs have been granted, and Conte Camillo Pecci, commander of the guards, has for reasons of economy, decided to suppress the service entirely during the holidays.

Tired of Governing.

Luke E. Wright, governor general of the Philippines and president of the commission, will retire about December. He is expected to arrive in the United States during that month, and is entitled to six months' leave of absence prior to the formal relinquishment of his labors. It is understood that he expects to return to Nashville, Tenn., to resume the practice of law.

President Roosevelt and Secretary Taft, it is believed, practically have decided upon the successor to Gen. Wright, but no information has been permitted to become public as to his identity. It can be stated reasonably definitely that Gen. Wright's successor will not be a man now connected with the commission.

Against Cuba's Interests.

Information from Cuba that there is growing dissatisfaction there with the terms of the proposed Anglo-Cuban treaty has developed the fact that the Washington government thoroughly appreciates the reasons of the Cuban people for objecting to the treaty. The official view is that the treaty is distinctly disadvantageous to Cuba in that it prescribes that country from that time on shall be bound to the United States by a treaty which under the present arrangement is effective only for five years. The Anglo-Cuban treaty, it is pointed out, gives practically no benefits to Cuba and shuts her off from receiving advantageous treatment at the hands of the United States.

Peoria, Ill., Financiers.

The grand jury has returned a true bill against Oliver J. Bailey, chairman of the finance committee of the Peoria school board, holding him on the charge of malfeasance in office, in "permitting Newton C. Dougherty to misappropriate and unlawfully convert to his own use school moneys." The indictment has caused a big sensation in Peoria. Mr. Bailey is one of the wealthiest men in this city, president of the Dime Savings bank, a director in the Central National bank and an officer in many other financial institutions. Forty-three additional indictments were also returned against Dougherty for embezzlement and forgery.

Edwin S. Holmes, Jr., associate statistician in the department of agriculture, is alleged to have pocketed \$25,017 as his share of a \$200,000 cotton report leak, bribery plot.

Charles Robinson has tendered his resignation to the Morris council of the offices of street commissioner, city marshal, constable and treasurer, to become a rural mail carrier.

Admiral Dewey says disaster is bound to overtake the navy in event of war if younger men are not given command of warships.

It is reported in Tokio that Russia will station 300,000 troops on the Chinese frontier, after peace has been declared, partly because she is apprehensive of the soldiers joining the malcontents at home and partly intimidation of the Chinese.

INDICTED TWENTY.

The United States grand jury, sitting in Detroit, Thursday morning returned indictments against 20 persons, 10 of which indictments are suppressed by the federal authorities. The indictments which are given out are as follows:

Thomas H. Ferris, Bay City, making counterfeit coins. Ferris is now in jail at Bay City and his case will be taken up by the court next week.

James A. Dudley, postmaster at Harrison, Clare county, charged with embezzling postal revenue. He is in jail at Saginaw.

Richard H. Schmidt, a Detroit letter carrier who embezzled letters containing money.

John R. Johnson, a member of the notorious Johnson family of counterfeiters of Detroit, on the charge of breaking open and robbing a mail box. He is in the county jail.

Thomas Swaney of St. Johns, who is out on bail on a charge of mailing indecent letters.

Lee L. Baker and Henry G. Smith, Detroit boys who under the name of Baker & Smith, sold "love candles" through the mails. They are charged with fraudulent use of the mails.

Richard Thompson of Decker, Mich., charged with mailing indecent letters.

Joseph Freedman, aged 12, forged money order.

County Fair Wiped Out.

While the races at the Crawford county, Ohio, county fair this afternoon were on, the grand stand was discovered to be on fire. A panic followed the first announcement. Spectators in the grand stand rushed for the exit and soon blocked the only passage to safety. Excited women, children and men leaped over the front of the stand upon the track, 12 feet and many were injured.

Those who left the grand stand last week were badly burned, as the big pile building went like tinder. Within three minutes after the fire was discovered the stand was wrapped in flames. The fire was caught up by a stiff breeze and was driven across the grounds, communicating from building to building.

Army Desertions.

There were over 6,000 desertions from the United States army last year. A new plan of identifying recruits is to be adopted that will make it practically impossible for deserters to deceive recruiting officers. It is a combination of the Bertillon system and the sketch plan. By some it is proposed that every recruit for the army when finally sworn in be photographed. For purposes of identification of men who are wounded or killed in the Philippines or any other distant foreign service, such photographs would often be of value to the war department and to relatives of men about whom inquiries are made.

CONDENSED NEWS.

According to a dispatch from Dawson, the gold shipments of the Yukon territory for 1905, just closed, will amount approximately to \$6,000,000.

President Roosevelt has intimated that he would greatly prefer that the members of the cabinet engage in campaigning only in their own states.

The resignation of William F. Powell as United States minister to Haiti, has been submitted to the president and accepted. As his successor, the president has determined upon Dr. H. W. Furness, of Indianapolis, a prominent negro.

Compounds containing large quantities of alcohol known familiarly to grocers and used as "extracts" were ruled by Commissioner Yerkes as non-taxable. But when alcohol is slightly flavored with some extract and sold in prohibition states as a beverage called "intinctures" a whisky tax is imposed.

The horses attached to eight limbers of a field battery at Fort Riley, Kas., became frightened Friday afternoon, while the command was at target practice and stampeded over the brink of a bluff with all the accoutrements and many men. Private Albert Laste was killed and six others had broken limbs.

Workmen digging a drain near Shepherd found coal 14 feet below the surface and neighboring farmers are much excited.

The story printed all over the country a few days ago that Dr. John Alexander Dowie had been stricken with paralysis while en route to the new Zion city in Mexico made that eccentric star of the religious world furiously angry.

NEWS OF THE NATION

TEN MONTHS IN JAIL THE SENTENCE FOR CONGRESSMAN.

THE CHINESE EXCLUSION LAWS TO COME BEFORE CONGRESS FOR MODIFICATION.

RESULTS OF THE PEORIA SCANDAL ARE WORRY, WRECK AND DEATH.

Oregon Land Frauds.

John Newton Williamson, congressman from the second Oregon district, convicted of subornation of perjury in connection with land frauds in Oregon, was sentenced by Judge Hunt in the United States court Saturday to serve ten months' imprisonment and to pay a fine of \$500. He was also reprimanded by the court for his failure to set a good example in his exalted public position.

Marion R. Biggs, formerly United States commissioner, was given an equal penalty.

In the case of Dr. Van Gesner, convicted of being a fellow conspirator to suborn perjury, the term of imprisonment was, because of the defendant's age and feebleness, reduced one-half and the fine was doubled. Van Gesner was Williamson's partner in the above cases.

The appeals are pending and a stay of execution was made pending a further order of the court. Meanwhile Congressman Williamson will go free on his own recognizance, but a bond of \$4,000 was required of the other two defendants. As the term of imprisonment is less than one year, the sentence must be served in the county jail.

Chinese Exclusion Laws.

The first of the senators to voice the opinion that Chinese exclusion laws will be handled for modification at the next session of congress is Senator Elkins. He will urge more "liberal laws."

It is believed here that he will introduce a bill for the modification of the Chinese exclusion laws. Senator Elkins is now apparently beginning where the president and Secretaries Root and Taft stopped. The president and these two secretaries went as far as possible in amending "regulations," which amendments were a sop to the anti-Chinese sentiment in Canton and Shanghai. Further requests for modification were refused, it is understood, after a cabinet meeting was held on the subject. It is apparent to Senator Elkins that there can be no change, indirectly or directly, in Chinese exclusion, no matter what kind of treaty be made. The statute laws will be supreme.

Senator Elkins' attitude, however, for modification is interesting and shows where the fight is to be made.

Peoria's Scandal Results.

The Dougherty scandal has claimed another victim. Driven to desperation and nervous prostration by worry over the disclosures compromising his rank and fear of a disastrous run, Nelson Burnham, a venerable stockholder in the Peoria National bank, died suddenly Friday night. He was 79 years old.

Mr. Burnham owned 150 shares of stock and had been connected with the bank thirty years. He settled in Peoria fifty years ago. His wealth was estimated at \$500,000.

Following close on the death Thursday night of C. C. Lines, a former bank official, also caused by the shock of the scandal, the community is impressed by the far-reaching effect of the Dougherty affair.

Had Three Wives.

Accused of having had three young wives living simultaneously in the same flat building in New York, each of whom believed that she was the only wife, Robert Benicker was arrested and arraigned in court on a complaint made by two of them. He is 25 years old and a painter.

The woman who says she is the first wife, Norma Benicker, told the police that after her husband left her and went to housekeeping with a second wife in Eighteenth street, she herself moved to the same house without knowing that Benicker was maintaining another wife there.

Yellow Fever Spreads.

Eighteen new cases of yellow fever developed in Pensacola, Florida, Sunday, a large increase, attributed to the rigid inspection made by the citizens' committee. This inspection revealed many cases which had not been reported. All were among the lower classes. The prevailing opinion is that the fever is beyond control and that it will remain in Pensacola until frost.

After falling into a Big Four gravel pit near Lawrenceburg, Ind., and breaking his neck, an Italian laborer, assisted by a friend, walked nearly a mile to his tent, holding his head in position with his hands, the whole distance.

That people dying in agony should be killed by anesthetics, and the process legalized, was the proposition made at its Philadelphia session by Miss Anna S. Hall of Cincinnati. The association turned down the scheme, as being fraught with too many dangers.

ARE YOU INSURED?

Michigan people paid \$2,000,000 last year for new insurance issued by old line life companies. As shown by the testimony before the New York state legislative committee the first year's payments are spent in agents' commissions and expenses.

Of a policyholder's dollar paid the first year for ordinary life insurance nine or ten cents is practically all that is deposited with the funds of his company to his credit. The remainder is disbursed in the case of most all old line companies as follows:

THE CHELSEA STANDARD

An independent local newspaper published every Thursday afternoon from its office in the Standard building, Chelsea, Mich.

BY G. C. STIMSON.

Terms:—\$1.00 per year; 6 months, 50 cents; 3 months, 25 cents. Advertising rates reasonable and made known on application.

Entered at the postoffice at Chelsea, Mich., as second-class matter.

The city council of Grand Rapids is considering the adoption of an ordinance prohibiting the residents keeping fowls within the city limits.

The market seems to be advancing. A Missouri Judge recently fined a resident of that state \$300 for stealing a kiss. This is said to be the highest price on record.

In the state shoot at Grand Rapids, which closed Sunday, Ypsilanti's team won first place with a score of 331 out of a possible 400. Owosso was second with 315.

The total number of students at the U. of M. at the close of last week was 4,018. The secretary of the board of regents thinks that before the year ends the total number will reach 4,500.

Ypsilanti is chagrined to think that after being flimflammed on the price of the new Forest avenue bridge it was also "done" on its erection. Then to cap the climax the fact that eight of our city aldermen gave up \$5,000 of the city's money and in return received only a bond, makes us feel like the proverbial thirty cents.—Ypsilanti Daily Press.

The inventory in the N. W. Cheever estate was filed in the probate court Saturday morning. The estate is valued at \$40,520.49 and includes real estate in Ann Arbor, Detroit and Ogemaw county. Part of the estate is not included in this sum as it was previously willed to Mr. Cheever's sister-in-law, Miss Pamela Noble. She will also receive a large share of the amount covered by the inventory.

If all the mints in the United States began to coin today, and kept it up at the rate at which they have worked since 1792, making double eagles, eagles, half eagles, quarter eagles, silver dollars, halves, quarters, dimes, nickels, and pennies, they would complete \$1,000,000,000 on August 20, 2016, A. Secretary Shumway, of the state board of health, advises the erection of detention hospitals in all cities for the care of smallpox patients. It is admitted at the office of the state health board that at no time since the disease appeared in Michigan five years ago, has there been so few cases of smallpox as at the present time. The disease exists at not more than a dozen places in the state, whereas it has at times prevailed in fifty different places.

There was an increase in mortality in Michigan during September of 1905, compared to the number of deaths in September one year ago, according to a statement issued by the secretary of state Saturday. The total deaths last month were 3,050, the death rate being 11.6. There was a slight increase in mortality from typhoid fever and a large increase in intestinal diseases, 894 infants under 1 year of age having died during the month. There was only one death from smallpox.

WACKENHUT-EISEN.

A very pretty wedding occurred at the home of Mr. and Mrs. J. G. Wackenhut, of Chelsea, Wednesday evening, October 18, 1905, when their daughter, Lettie Marie, was united in marriage with Mr. Adolph Eisen of Detroit.

Preceding the ceremony the guests were entertained with a solo by Miss Nellie Congdon. Promptly at 7:30 o'clock to the sweet strains of Lohengrin, wedding march, played by Miss Lettie Marie, cousin of the bride, ten of the bride's friends formed an aisle through which the bridal party marched and took their places in the handsomely decorated parlor. Rev. Albert Schenck used the ring ceremony that united them in matrimony, assisted by Rev. G. Eisen, of Three Oaks, father of the groom.

Lella Fletcher, cousin of the bride was dressed in white silk and carried the ring in the cup of a lily. The maid of honor was Miss Lillian Wackenhut, sister of the bride, who was gown in white silk mull over pink and carried pink carnations. The bride was gown in white silk and carried a shower bouquet of bridal roses. Arthur Eastler, cousin of the bride acted as master of ceremonies. Immediately after the ceremony the guests were invited to the dining room where a dainty wedding supper was served. The contracting parties were the recipients of many handsome presents. The young couple left for a short wedding trip and will be at home after November 8th, at 40 Eighteen street, Detroit.

CAN CONTROL PLANT LIFE.

Prof. Setchell Makes Buds Grow Where They Had Not Grown Before.

Berkeley, Cal.—That the process of regeneration may be controlled in plant life is the discovery made by William Albert Setchell, head of the botany department of the University of California. The results of Prof. Setchell's experiments have been published in a bulletin. The experiments, from which so much of value to science will come, were made on a seaweed known as kelp.

By controlling the direction of the flow of nutrition in the plant, Dr. Setchell made buds grow where they had not grown before and made the buds at the end of the plant, which had been the strongest under normal conditions, dwindle away. This is the first investigation along this line in the field of botany, and the results thus far obtained are of such widespread importance as to throw a new light on the regenerative process.

Prof. Setchell believes that the problem of polarization may be solved by experiments on the same line that his recent experiments have opened up.

MATRIMONY A NERVE CURE

Prof. E. W. Johnson Marries Upon Suggestion of Head of Institution—Wife Dead Seven Months.

Philadelphia.—Upon the suggestion of Henry G. Weston, president of the Crozier Theological seminary, Upland, Pa., Rev. Elias H. Johnson, professor of systematic theology in the institution, a wealthy preacher of the Baptist faith, author and lecturer, married Miss Lillian B. Morgan, about seven months after the death of his wife Dr. Johnson is 64 years old and his bride about 25 years younger.

ADDITIONAL LOCAL EVENTS.

A stock company is being organized in Grass Lake for the purpose of conducting a general mercantile business.

Rt. Rev. Bishop Foley, of Detroit, confirmed a large class at St. Joseph's church, Dexter, Monday afternoon at 2:30 o'clock.

The Washtenaw County Sunday school convention will be held at Milan Wednesday and Thursday, October 31 and November 1. A good program is being arranged and copies will be ready for distribution in a few days.

Dr. James Ackerson, of Manchester, was tried Tuesday of last week for horse-whipping an itinerant watch tinker, before Justice Hagaman, of that village. The jury's verdict was guilty and a fine and costs, amounting to \$45, was imposed.

Word was received in Manchester the first of this week that the Toledo Portland Cement Co., of that place has been successful in finding parties to take the bond issue of the company, and that the plant would be completed as soon as possible.

The board of supervisors at the afternoon session Tuesday awarded the contract for printing the proceedings to the Ann Arbor Argus, Chelsea Herald and the Ypsilanti and the German paper, The Washtenaw Post, was also awarded the contract for printing the proceedings in German.

Frank Fletcher and Michael Staebler were elected poor commissioners by the county board of supervisors Tuesday. Fletcher lives in Ypsilanti and Staebler is a resident of Ann Arbor. The reason that two commissioners were elected this fall was that the recent death of John Finnegan created a vacancy. H. B. Masten has been temporarily filling the vacancy.

Some of the teachers of the county apparently fail to realize that their negligence in complying with the new compulsory school law is liable to cost the county quite a sum of money. It is the duty of the teacher, after receiving a notice from Truant Officer Seymour that he has ordered a pupil to attend school on a certain day, to reply and let him know whether the child is attending or not, so that if the child is not sent prosecution can be commenced, and if the order is carried out the case can be dismissed.

Details for the Choral Union course at Ann Arbor, which always creates interest in Chelsea, are being arranged and several of the numbers have been announced. It is definitely announced that the chorus will give Dvorak's Stabat Mater and a repetition of Verdi's Aida, which was rendered two years ago so successfully. Other attractions for the course will be a recital by Pugno, the French pianist, a number by the Pittsburgh orchestra, a recital by Heerman, the violinist, and the Kneisel quartette, while an open date still remains, which will be filled later.

The hearing in the probate court to determine the lawful heirs of Fred Campbell, who died recently under an assumed name, has been adjourned to November 10. Mr. Campbell was the adopted son of Samuel Campbell of Jackson county. Mrs. Hiram Storms of Ann Arbor, who is the sister of the late Samuel Campbell, appeared in the probate court Friday and stated that Fred Campbell had sold the farm in Jackson county in which he had been willed or given only a life estate by his adopted father and desired that an effort be made to recover it for the heirs.

John Schaefele, sr., of this place, met with a very painful accident Wednesday of last week that will confine him to his home for some time to come. Mr. Schaefele went to his farm in Dexter township and when he was ready to return home he stepped to the head of his horse and started to back the animal out of the shed when it made a sudden start and he was thrown down dislocating his left shoulder and breaking the socket, Dr. S. G. Bush was called to treat the injured patient. As The Standard goes to press Mr. Schaefele is reported as doing as well as could be expected under the circumstances.

The attraction at the Chelsea opera house, all next week, beginning with next Monday night, will be the Hunt Stock Co., one of the most popular repertoire organizations on the road. The company will have a change of program every night and between the acts of the drama some excellent vaudeville will be introduced by members of the company. The company will open Monday night introducing Lincoln J. Kibbey's masterpiece "The Path of the Wicked," with the talented actress, Miss Kate Fitzgibbon playing the leading part. This company has long been a favorite with Chelsea theater patrons and the opera house will undoubtedly be filled to its capacity every night.

Paul's Evangelical church will hold a
business meeting at the home of Miss
Louise Hieber, Thursday evening, Oc-
tober 26.

At the session of the board of super-
visors Thursday forenoon Miss Josephine
Hype, of Sylvan, was re-elected as a
member of the Board of County School
Examiners.

P. D. Foster, the Chelsea station agent
of the "Ypsi-Ann" is a member of the
Ypsilanti Sharpshooters, who won all
of the honors at the Grand Rapids
shoot last week.

Clover seed is said to be turning out
a very satisfactory yield in this part of
the county, and the farmers are receiv-
ing a good price for all that has been
sold so far this fall.

There will be a box social and enter-
tainment at the Sylvan Center school
house, Friday evening, October 27, for
the benefit of the school library. Every-
one cordially invited.

The Methodist, St. Paul's and Baptist
churches will hold the morning services
at the usual hour next Sunday morning.
In the evening the societies will hold a
union service at the M. E. Church.

The members of the Chelsea M. E.
church will hold a reception for Rev.
Joseph Ryerson and family in the
church on Friday evening, October 27.
The public is invited to be present.

The Y. M. C. A. of Jackson has plans
and specification for a fine new home.
The building will be constructed of
Bedford stone and is to be three stories
high. The site is on Cortland street.

The Lady Maccabees of Chelsea will
give a penny social at their hall about
November 1st.

Mrs. A. McColgan was called to
Tavistock, Ont., last Friday by the
death of her brother-in-law.

The county funds are to be deposited
in the Ann Arbor Savings bank, who
will pay 1 1/2 per cent interest on daily
balances.

Miss Frances Caspary, of Ann Arbor,
has been appointed vocal teacher of St.
Thomas church choir of Ann Arbor.
Miss Caspary, is the daughter of Wm.
Caspary of Chelsea.

David Rockwell, of Sylvan, who has
been ill for a number of months past,
was in Chelsea Tuesday, and reported
to his many friends that he is slowly
recovering his health.

The hunters were out on masse Sun-
day, and it is doubtful if there is a
solitary game bird or small animal sur-
viving the slaughter, if the sound of
the gun reports is to be taken for guid-
ance.

Chelsea Tent, K. O. T. M. M. will give
a dancing party at Woodmen hall on
Friday evening, October 20. The music
will be furnished by Burg's orchestra.
The committee has placed the price at
40 cents per couple.

Henry Pullen, of Milan, a former con-
ductor on the "Ypsi-Ann" electric line,
Tuesday purchased the billiard room,
which has been conducted by Jas. Kilroy
in this place for the past year, and will
conduct it in the future.

The alterations on the building that
is to be used by one of the lower grades
of the Chelsea Union School is nearly
completed. When ready for occupancy
the new building will somewhat relieve
the crowded condition of the main
building.

The services of the mission festival
held in St. Paul's church last Sunday
were well attended. Several fine ad-
dresses were delivered by the visiting
clergymen, and the singing by the Jack-
son choir was highly appreciated. The
offering was \$112.

Capt. E. L. Negus, of Chelsea, and R.
S. Whallan, of North Lake, are in at-
tendance at the reunion of Gen. Custer's
Michigan Brigade of Cavalry that
is being held in Lansing. The veterans
met yesterday and will close their
session this evening.

L. Tichenor, the Chelsea manufacturer
of pleasure row boats, has just com-
pleted the finest model of a boat that
he has ever made in all of his experi-
ence as a boat builder in this com-
munity. The boat he has just completed
is for a Lansing lady and he has booked
orders for five other boats from resi-
dents of that city.

Oscar Schneider met with a rather
painful accident last Thursday night.
He was returning to his home here from
Ann Arbor via the electric line and the
window in the car was up in the section
where he was seated and in lowering it
his hand came in contact with the
broken window pane and a cord of one
of the fingers on his left hand was
severed.

Fred Wolff, who is in the employ of
the Glazier Stove Co. met with an ac-
cident last evening just before the
plant closed down for the day. He was
operating on one of the large presses in
the works and the second and third
fingers of his right hand were badly in-
jured. About one-half of the second
finger was taken off above the first joint
and the third finger at the first joint.
Drs. Palmer & Guilde dressed the
wounds.

Still further complications have
arisen in the affairs of the White Port-
land Cement Company of Four Mile
Lake. By a decree of the United States
court in Detroit the concern was adjud-
icated a bankrupt this week upon peti-
tion of Attorneys Leete, Corliss &
Jocelyn, of Detroit, who appeared for
the creditors, and a young man by the
name of Moody, said to be a clerk in
the offices of the above named attorneys
was appointed receiver.

The union revival meeting that was
started last week in the town hall is
being held, this week in the M. E.
church, and a good many of the resi-
dents of this place have been present
at all of the services. The meetings
will be continued the rest of this week.
Next Sunday afternoon at three o'clock
there will be a men's meeting in the M.
E. church, and the singing will be by
a choir composed of men. The address
will be delivered by U. V. Sillaway.

The latter part of the past week a
crowd of young boys gathered in the
vicinity of A. VanTyne's barn, and us-
ing the windows as a target, began
throwing mistles and succeeded in
breaking a number of panes of glass.
A night or two before one of the large
window glass in the residence of Dr.
W. S. Hamilton was broke by some boys
throwing stones. As the owners of
both places have a good description of
the lads their acts of thoughtlessness
or lawlessness may cause trouble both
for the boys and their parents.

You Risk Nothing.

Thousands of testimonials from those cured of
dangerous kidney diseases by Cal-cura Solvent
show that you risk nothing in using this wonder-
ful remedy, Dr. David Kennedy's latest medicine.
Cal-cura Solvent's wonderful power to cure dis-
eases of the kidneys and bladder is the happy re-
sult of the efforts of that skilled physician and
surgeon, Dr. David Kennedy, to make a medicine
that would dissolve and expel from the system
stones, gravel and uric acid. In this way Cal-cura
Solvent not only cures the disease but also re-
moves all the irritating causes. It is not a patent
medicine; it is a prescription used by Dr. Ken-
nedy in his large private practice with the great-
est of success.

But we go further than that: we agree to pay
for what Cal-cura Solvent you use if it does not
cure you. You risk nothing in using this pure
medicine, for we give you our word that the
remedy will not cost you a cent unless it helps
you. We know it will cure you or we could not
afford to make this remarkable offer. All drug-
gists, \$1.00.

Dr. Miles' Restorative Nerve-

most hopeless cases can be
benefited, if not fully restored.
We will be pleased to refer
any one thus afflicted to many
who now enjoy the blessing of
health, after years of hopeless
suffering.

"I have a son that had brain fever
when two years old, followed by fits of
the worst type, and he was pronounced
incurable. I spent hundreds of dollars
for him, without relief. After about
fifteen years he became so bad that we
sent him to Longcliff Hospital for the
insane, at Logansport, Ind. He was
there nearly three years, but he con-
tinued to grow worse, so we brought
him home July 29, 1902, in an awful
condition. He had lost his mind almost
entirely. He hardly knew one of the
family, could not even find his bed;
was a total wreck. He had from 5 to
10 fits a day. We were urged to try
Dr. Miles' Nerveine, and before the first
bottle was used, we could see a change
for the better. We have given it to
him ever since, and he has had but
two very light spells since last August,
1903, and then he was not well other
ways. We pronounce him cured, as he
can work and go anywhere. If any one
wishes to ask any questions concerning
this, they are at liberty to do so."
S. H. BUNNELL, Lincoln, Ind.

druggist, who will guarantee that the
first bottle will benefit. If it fails, he
will refund your money.

HOW A FRIENDSHIP GREW

The Story

Whether Hand Sapolio got a more enthusiastic welcome in homes where Sapolio was an old and tried friend, or where it was a stranger, is a question. Where women had come to rely on Sapolio for rapid, thorough cleaning in every part of the house except the laundry, they commenced without loss of time, to avail of this new prize. Grubby little hands, and stained, work-worn older ones, whitened, softened, and smoothed out as if by magic, callous spots disappeared, and complexion cleared. Children ceased their strenuous objections to the scrubbing up process, because it became a

pleasure. It freshened up the hands after dish-washing, removing the most disagreeable feature of that necessary task. It was found to keep delicate baby skins from chafing better than salve or powder, and the crowning note in the song of delight came when an adult member of the family used it in a full bath, and realized that a Turkish Bath at a cost of one dollar was outdone by a small fraction of the little, ten-cent, velvety cake.

But, strange though it may seem, there were people who had not learned to prize Sapolio. To those the advertising of Hand Sapolio came as a surprise. Sapolio, a scouring soap,

adapted for the hands, the face, the general toilet? Impossible, it would be horrid. Who ever heard of such a use? Finally a bold shopper carried home a cake. Does it look like kitchen Sapolio? No one is sure, and a cake of that is bought, and comparison made. Behold a family using both the Sapolios for every conceivable purpose, and comparing notes! After easily and quickly cleansing a greasy pan with Sapolio, Jane thought the other would be gritty, and was astonished at the smooth, dainty lather. Another was certain it would harden

the hands and could scarcely realize how soft and "comfy" they felt after the washing.

Then began the excitement of adventure; what would the new soap NOT do? A girl tried a shampoo. Her hair, pretty, soft and silky "went up" perfectly, with none of the unmanageableness that generally exists for a full week after the usual process. A man used the delightful lather for shaving, and felt no need for cold cream afterwards. A pimply face was treated to a daily bathing with the full suds, and promptly became clear. It is, indeed, "The Dainty Woman's Friend."

Wedding Rings of Old.
There are some heavy old wedding rings at Kirk Braddan, in the Isle of Man, such as might be handy when the flustered bridegroom loses the ring. Leaning against the north wall are some very ancient rings of stone, through which, in days of long ago, before the jewelers' windows glistened with wedding rings at all prices, the bride and bridegroom joined hands, it is said, and were wedded. The monster rings of stone were always there in readiness for any ceremony, and they are there to this day. Though whether the present day bride would consent to use these "rings" in place of the orthodox pledge is doubtful.

Rhine Not All German River.
A German geographer calls attention to the fact, known to few that the Rhine gets some of its water from Italy. Some miles above the Via Mala the Rhine is augmented by a turbulent mountain torrent whose chief tributary is a brook that comes from the Val di Lei, which politically belongs to Italy, though separated from the rest of that country by glacier-covered mountains over which there is a trail to Chiavenna.

An Honest Opinion.
Mineral, Idaho, Oct. 16th.—(Special).—That a sure cure has been discovered for those sciatic pains that make so many lives miserable is the firm opinion of Mr. D. S. Colson, a well-known resident of this place, and he does not hesitate to say that cure is Dodd's Kidney Pills. The reason Mr. Colson is so firm in his opinion is that he had those terrible pains and is cured. Speaking of the matter he says:

"I am only too happy to say Dodd's Kidney Pills have done me lots of good. I had awful pains in my hip so I could hardly walk. Dodd's Kidney Pills stopped it entirely. I think they are a grand medicine." All Sciatic and Rheumatic pains are caused by Uric Acid in the blood. Dodd's Kidney Pills make healthy kidneys and healthy kidneys strain all the Uric Acid out of the blood. With the cause removed there can be no Rheumatism or Sciatica.

Highest Tower in the World Soon to Be Built for Amusement of New Yorkers

Original always and in all things, New York is soon to have the oddest amusement enterprise on the face of the earth, in the shape of a tower taller than any structure in the world and equipped with a larger variety of combined entertainments and utilities than anything that has ever existed for the edification of the millions who are constantly and hungrily seeking new pleasures, says the Montreal Herald.

Called "The Weber Tower," after its designer, Carl Weber, one of the best known experts in the matter of tall steel concrete constructions, the building will be unique in many ways, and when it has been erected, either in one of the parks of Manhattan, or in some equally prominent spot, it will unquestionably be one of the foremost attractions of the metropolis.

In the first place, it will reach the enormous height of 1,250 feet, just 258 feet taller than the Eiffel tower in Paris, and more than twice as tall as the Washington monument, which, with 555 feet, is at present the highest permanent structure in the world. It will so far overtop everything in New York that comparison is idle, the Park Row building, which now holds pre-eminence being only 382 feet high, and the St. Paul building ranking second, having but 308 feet. In Europe, after the Eiffel tower, there is only the Ulm cathedral, with 528 feet, but this is excelled by the city hall in Philadelphia with 548 feet.

Height alone, however, will not be the chief recommendation of the Weber tower. It will be a skyscraper of universal invitation. If you are a business man you will be able to rent offices inside its lean but lofty stretches. If you want an evening's frolic you will be escorted to the highest roof garden in the world, eleven hundred feet above the sidewalk, which is so high that every other roof garden will look like a pigmy patch of light without form or substance. If you are an astronomer you will find all the paraphernalia for the study of the heavens at such close range that you will hardly need a telescope. And above all, there will be the necessary precautions to prevent you jumping off if you are one of those persons who get that impulse whenever they reach the top of a high place.

Although virtually nothing has been known of this remarkable project except by those most intimately associated with it, the plans have so far progressed that in all likelihood it will be an accomplished fact in a reasonably short time. Several of the most influential capitalists in New York have taken it up and have been so much impressed with it that the vast sum required for it is practically ready and actual work will probably begin before the winter sets in. So thoroughly has the scheme been worked out, that the whole structure can be completed and ready for use within a year after the beginning of the operation.

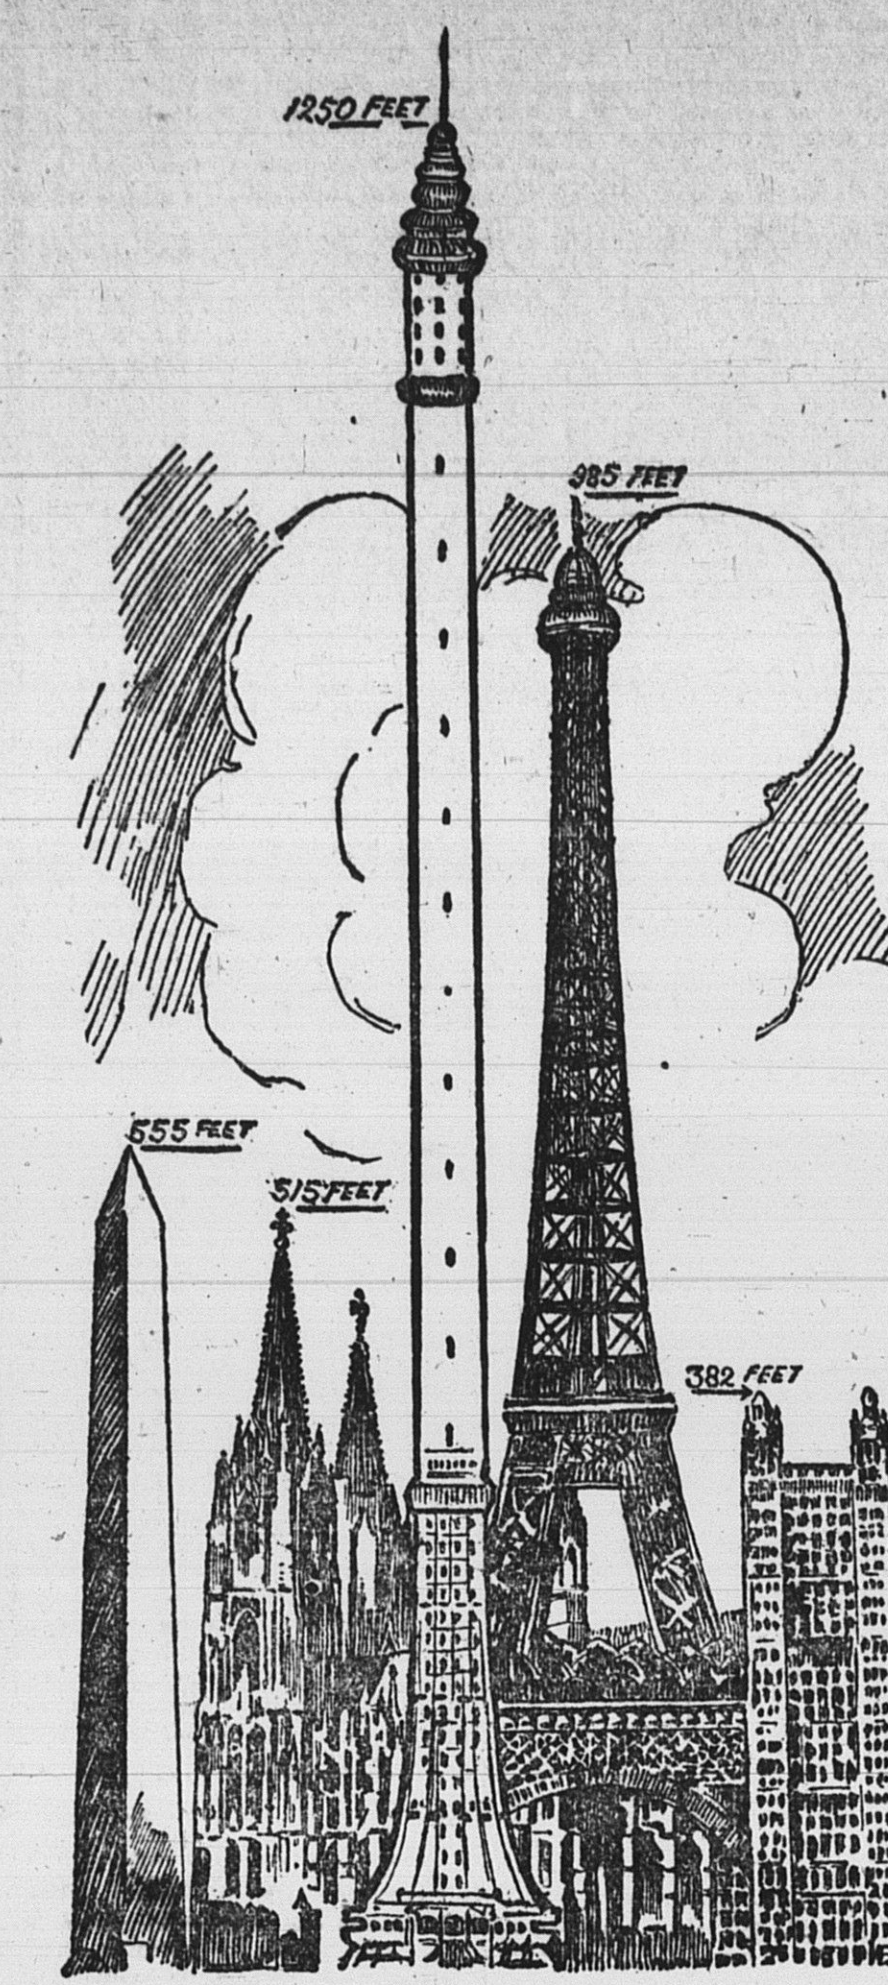

In design the tower will be entirely novel. Its main part is to be cylindrical, in the form of a shaft of thirty-five feet inside diameter, the lower 300 feet reinforced by a system of ribs, while the largest outside diameter will be 140 feet. Balconies for the accommodation of visitors will be provided at various heights, and the highest platform accessible to the public will be twelve hundred feet above the street level, where there will be space for as many as sixteen hundred persons at one time.

According to present plans, eight elevators will run in the main shaft, with a capacity of about 1,250 persons every hour. The main platform, however, where there will be a roof garden that can be inclosed when the necessity arises, will be eleven hundred feet high. Here there will be refreshment stands, a postoffice, telegraph office, public telephones, toilet rooms and about everything else that modern exigencies demand, while well informed guides will be in attendance to point out and explain the wonderful views from every side and to furnish "old glasses when required. Another novel feature will be provision for a United States weather observatory, which will be higher than any now in use, as well as several rooms applicable to private scientific research.

Mont Pelee Tower a Natural Wonder

Result of the Memorable Eruption of May, 1902.—Prof. Heilprin Deeply Impressed by Its Appearance.

Prof. Angelo Heilprin has written a monograph on that remarkable freak of nature, the "tower" which appeared on Mont Pelee after the famous eruption of that volcano. The outbreak of Mont Pelee and the obliteration of St. Pierre, Martinique, occurred in May 1902. In a little more than a year thereafter the volcano had formed a new cone through the apex of which it had pushed what Mr. Heilprin calls a tower. This was "a gigantic core of rock, nearly 1,000 feet in height at the time of its greatest development and 350 to 500 feet thick at its base." The cone and the tower were about 2,350 feet high and the apex of the latter was 5,020 feet above the sea. Of its appearance Mr. Heilprin writes: "None of the grand scenes of nature which I had seen before—the Matterhorn, the domes of the Yosemite, the colossal of Popocatepetl soaring above

From the base of the tower up to the 300 foot balcony there will be eight stories, some of which will be utilized for office purposes and some for entertainment. There will be ample room for a theater, as well as for a museum and other exhibitions. As a matter of fact, half a dozen distinct entertainment enterprises may be included in this great space without conflict. The second floor, however, will be reserved for a restaurant of the first class, with about ten thousand square feet of floor space and, of course, the most up-to-date improvements in the way of comfort and decorative effect.

On the lower floor there will be stores, but only such as will be in harmony with the purposes of the entire edifice, and here also will be located the electric machinery for the operation of the elevators and the power for the light, heat, ventilation, apparatus and so on, although this will be of such a magnitude that a part of it will go below the main stairway.

Although details of the architectural ornamentation have not yet been perfected, it is promised that the entrances especially will be extraordinarily elaborate, with marble columns, spacious stairways, promenades, reception rooms and other features of luxury and splendor. So far as may be possible this effect of richness will be striven for from the base of the building to the top of the tower.

Whatever other attractions the building may contain, the top of it will be the greatest, by reason of the immense height and the magnificent

the shoulder of Ixtaccihuatl, or the Grand canyon of the Colorado—impressed me to the extent that did the view of Pelee's tower from the crater rim."

The tower was first seen by Mr. Heilprin as simply a "needle" about Aug. 24, 1902; in May, 1903, it had grown until it reached 5,200 feet above the sea; but on May 31 it lost 180 feet of its summit. It grew up again at a rate of from twenty to thirty feet a day, but from time to time lost further portions of its apex. Mr. Heilprin believes that the tower was "merely the ancient core of the volcano that had been forced from the position of rest in which solidification had left it."

Its "burnt-out," "scraggy" and "slaggy" appearance makes the scientist doubt that it was a recent growth. After reaching its minimum recorded height in May, 1903, the tower, despite frequent regrowths, began to disappear in July, 1903; by the middle of that month it had lost permanently 400 feet and in August another 100 feet.

RAISED FROM A DEATH-BED.

Mr. Pitts, Once Pronounced Incurable, Has Been Well Three Years.

E. E. Pitts, 60 Hathaway st., Skowhegan, Me., says: "Seven years ago my back ached and I was so run down that I was laid up four months. I had night sweats and fainting spells and dropped to 90 pounds. The urine passed every few minutes with intense pain and looked like blood. Dropsy set in and the doctors decided I could not live. My wife got me using Doan's Kidney Pills, and they helped me. I took heart, kept on and was cured so thoroughly that I've been well three years."

Among the attractions of an old London fair in the year 1709 was advertised a boy "that within one of his eyes had 'Dues Meus' in capital letters, and round the other a Hebrew inscription." BABY'S AWFUL ECZEMA.

Face Like Raw Beef—Thought She Would Lose Her Ear—Healed Without a Blemish—Mother Thanks Cuticura.

"My little girl had eczema very bad when she was ten months old. I thought she would lose her right ear. It had turned black, and her face was like a piece of raw meat, and very sore. It would bleed when I washed her, and I had to keep cloths on it day and night. There was not a clear spot on her face when I began using Cuticura Soap and Ointment, and now it is completely healed, without scar or blemish, which is more than I had hoped for. Analysis of Medicines Open to All.

"There is no public demand and there is not the slightest public necessity for a law compelling the publication of the formula of proprietary medicines," says the Committee on Legislation of the Proprietary Association. "Every Health Commissioner and every Pure Food Commissioner in the country, as well as every private physician or chemist, if he pleases, has the right to make an analysis of any proprietary medicine and to publish the result and to tell the public what he thinks, and there is nothing in the world to prevent such action. But that is not what the agitators for such legislation want. Their object is to destroy the sale of such remedies entirely."

Had No Claim on Ex-Husband.

At Munich recently a woman sold her husband, a good-looking ne'er-do-well, to a neighbor for a small sum of money, and was pleased enough with her bargain until, on a distant relative's death, he came into considerable fortune. Then she attempted to resume her marital rights, but was so effectively resisted by her ex-husband's present possessor that she resolved to have recourse to the law's intervention. To this end she consulted a lawyer, only to find that, through some technical flaw, her own marriage was illegal and her claims on man and fortune consequently invalid.

COFFEE NEURALGIA.

Leaves When You Quit and Use Postum.

A lady who unconsciously drifted into nervous prostration brought on by coffee, says:

"I have been a coffee drinker all my life, and used it regularly, three times a day. 'A year or two ago I became subject to nervous neuralgia, attacks of nervous headache and general nervous prostration which not only incapacitated me for doing my housework, but frequently made it necessary for me to remain in a dark room for two or three days at a time. 'I employed several good doctors, one after the other, but none of them was able to give me permanent relief. 'Eight months ago a friend suggested that perhaps coffee was the cause of my troubles and that I try Postum Food Coffee and give up the old kind. I am glad I took her advice, for my health has been entirely restored. I have no more neuralgia, nor have I had one solitary headache in all these eight months. No more of my days are wasted in solitary confinement in a dark room. I do all my own work with ease. The flesh that I lost during the years of my nervous prostration has come back to me during these months, and I am once more a happy, healthy woman. I enclose a list of names of friends who can vouch for the truth of the statement.' Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Ten days' trial leaving off coffee and using Postum is sufficient. All grocers.

THIN BLOOD—WEAK NERVES.

One Follows the Other, but Dr. Williams' Pink Pills Quickly Cure Both.

The steady use of a particular set of muscles tends to chronic fatigue, which produces faulty or difficult motion, trembling, cramps and even paralysis. Writers, telegraphers, tailors and many others are among the classes who are thus exposed in this way with the loss of their power to earn a living. The following instances show that nerve power may be recovered after it seems entirely lost, if the right means are taken. O. S. Blacksten, of No. 884 North Main street, Mansfield, Ohio, says:

"For years my hands would become so numb at times that I would do nothing I attempted to lift. I became so bad that I could not do any longer, and at last I could scarcely do anything at all with my hands. One night the pricking sensations would come on worse than ever, and my hands and arms would pain so that I dreaded to go to bed. My family doctor gave me some nerve tablets. They helped a little, but only for a short time after I had taken them and if I happened to without them for a day or two I would be as bad as ever or even worse. Finally I got a box of Dr. Williams' Pink Pills and began to take them. 'The result was surprising. By the time I had taken the last pill in my box I could see a gain. Thanks to Dr. Williams' Pink Pills, I am now able to do my work as usual. I have been well for two years I have been as well as ever. Dr. Williams' Pink Pills feed the nerves by making new, rich blood in this way have cured nervous diseases of every description from simple nervousness to paralysis. They have lessened the torments of neuritis, the weakness of nervous prostration, the disability and awful pain of locomotor ataxia. They are sold by all druggists or direct by the Dr. Williams Medical Company, Schenectady, N. Y.

A Bad Back is Always Worse in the Morning.

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

Can't cure a bad back until you cure the kidneys. Doan's Kidney Pills cure sick kidneys—make you feel better, work better, rest better and sleep better. J. H. Sheap, proprietor of the City Dairy, living just outside of Sturgis, Mich., says: "I endorse the claims made for Doan's Kidney Pills, for I know they are an excellent remedy for kidney trouble. For five years there was a dull heavy pain in the small of my back about all the time. Often it was acute and piercing, particularly if I took cold, for it always settled in my back and I felt so lame and stiff in the morning I could hardly get around. The kidney secretions were affected very distressing at times, were of a murky nature and badly discolored. I tried a number of remedies but received no benefit. I heard about Doan's Kidney Pills, and I got a box. They did me more good than any other remedy I ever used. They positively relieved the aching in my back and stopped the annoyance from the kidney secretions. The treatment brought relief not given by any other medicine."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name Doan's and take no other.

BRIGHT PROSPECTS.

The Morning Democrat, of Baker City, Ore., is authority for the following: "The Indiana Mining company has developed a splendid property and added another producer to the list. The original property of the company consisted of thirteen claims, 220 acres, one mile in length and three claims in width. Recently the company purchased an additional tract of 280 acres adjoining the property on the north. This gives the company a property with one and one-half mile in length on the strike of the vein."

"For over a mile in length the vein can easily be traced by its prominent outcrop, being in places over 150 feet in width. The strike of the vein is north and south with dip to the east."

"The ore bodies of the Indiana have a porphyry foot wall and the hanging wall is of greenstone. The vein is opened along the surface for nearly a mile in length with prospect shafts showing commercial ore in all of them. The main, or big two-compartment working shaft is now down 130 feet, and considerable drifting has been done on the 100, 200 and 300 foot levels blocking out fine bodies of high grade commercial ore in all of the drifts. There is today

over 3,500 tons of good ore on the dump at the shaft. The ore so far as opened up and tested by the most approved methods shows from three to 20 per cent copper and \$4 in gold and silver to the ton."

"Nineteen months ago the company commenced to develop the property, and under the able management of President Messner have successfully brought it to a point where the mine can be classed as among the producers, but the management has repeatedly announced that no mills will be erected until sufficient ore has been blocked out so that a steady production of at least 100 tons a day can be maintained and the company expects to reach such a stage of development within the next six months."

"Few mines in this country have the distinction of having been so rapidly and systematically developed as the Indiana."

Dr. W. J. Stapish, of Anderson, Indiana, a former resident of this vicinity, is treasurer of the company, and quite a number of Chelsea residents are among the list of stockholders in this property."

Iron-Ox Tablets

The Awful Curse of Constipation

How Mr. Samuel Evans cured himself and his family

Some acquire the awful curse of constipation through neglect and some get this dread disease from constitutional weakness, wrong feeding, and lack of exercise. In either case, this distressing condition can be broken up and the bowels educated to healthy action by the use of Iron-Ox Tablets.

Mr. Samuel Evans struggled for years with Constipation and has at last found a way to break it up once and for all. He tells his story gladly, so that the whole world may know how to rid themselves of this disease which causes so much suffering and death.

"I find the Tablets a splendid help for Constipation. My three children aged 14, 9 and 3½ years get a Tablet every morning after their first meal of the day, and I myself use them twice a day. As long as I am around Iron-Ox Tablets will be part and parcel of our daily requisites." Mr. Samuel Evans, 373 W. 126th Street, New York, N. Y.

Do not forget for a moment that Constipation is a DISEASE, and a disease that grows on one, at first slowly, then rapidly, when allowed to go unchecked. The bowels must be

cleaned out once a day, or the poisons that accumulate will surely drag the body down to lingering sickness and death.

If you are occasionally constipated, act promptly. Iron-Ox Tablets will move the bowels easily and fully, without inconvenience or pain.

If you suffer from habitual or chronic Constipation, it will take a little more time and patience to affect a complete cure, but the cure will be none the less sure.

Act promptly if you are constipated; buy a box of Iron-Ox Tablets to-day.
