During the voting 28 voters were challenged by Messrs. Bacon and Vogel. Inasmuch as some of those challenged have voted at school meetings for years and own taxable property, and others have children of school-age and going to school, the effort of the challengers to prevent them from voting and to deprive legal voters of the right to take part in the affairs of the school district, is nothing less than an outrage and is denounced and condemned by all fairminded people in the district.

State Fair Premium List.

The State Fair Premium List for 1907 has been received. The classification in several departments has been enlarged and the premiums increased. Classes have been added for Ayrshire Cattle, American Coach Horses and Hampshire Hogs. Also for Angora Goats.

The premiums for the classes of live stock owned in Michigan are the same as those open to all.

The premiums for exhibits from the northern counties have been increased also the premium on grains. The first premium on both white and red wheats is \$12 on each.

Altogether it is the most complete premium list, yet issued by the State society, and in extent of classification and variety of interest represented is not excelled by that of any fair in this

country.

THE HOUSE OF A THOUSAND CANDLES

By MEREDITH NICHOLSON Author of "THE MAIN CHANCE," ZELDA

CHAPTER XVII.-Continued. There was a sound of mirth and scampering feet in the hall above and then down the steps, between the line of guests arrested in their descent, came a dark laughing girl in the garb of Little Red Riding Hood, amid general applause and laughter.

"It's Olivia! She won the wager!" exclaimed the spectacled gentleman, and the girl, whose dark curls were sheken about her face, ran up to us and threw her arms about him and kissed him. It was a charming picture-the figures on the stairway, the pretty, graceful child, the eager, happy faces all about. I was too interested in the scene to be uncomfortable.

Then, at the top of the stair, her height accentuated by her gown of white, stood Marian Devereux, hesitating an instant, as a bird pauses before taking wing, and then laughingly running between the lines to where Olivia faced her in mock abjection. To the charm of the girl in the woodland was added now the dignity of beautiful womanhood, and my heart leaped at the thought that I had ever spoken to her, that I was there because she had taunted me with the risk of coming.

Above, on the stair landing, a deeptoned clock began to strike midnight and every one cried "Merry Christmas!" and "Olivia's won!" and there was more hand clapping, in which I joined with good will.

Some one behind me was explaining what had just occurred. Olivia, the youngest daughter of the house, had been denied a glimpse of the ball; Miss Devereux had made a wager with her host that Olivia would appear before midnight; and Olivia, defeating the plot against her, gained the main hall at the stroke of 12.

'Good night! Good night!" called Olivia-the real Olivia-in derision to the company, and turned and ran back through, the applauding, laughing throng.

The spectacled gentleman was Olivia's father, and he mockingly rebuked Marian Devereux for having encouraged an infraction of parentl discipline, while she was twitting him upor the loss of his wager. Then her eyes rested upon me for the first time. She lifted her brows slightly, but continued talking placidly to her host. The situation did not please me; I had not traveled so far and barglariously entered Doctor Armstrong's house in quest of a girl with blue eyes merely to stand by while she talked with another man.

I drew nearer, impatiently; and was conscious that four other young men in white waistcoats and gloves quite as-irreproachable as my own stood ready to claim her the instant she was free. I did not propose to be thwarted by the beaux of Cincinnati and I addressed my host boldly.

"I beg your pardon, Doctor-," I said with an assurance for which I blush to this hour. "All right, my boy; I, too, have been

TIRED AND SICK YET MUST WORK

"Man may work from sun to sun but woman's work is never done," In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

MRS. AUG. LYON

Lydia E. Pinkham's Vegetable Compound keeps the feminine organism in a strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:— Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly." Mrs. Pinkham's Invitation to Women Women suffering from any form of female weakness are invited to write Mrs Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

DO BEST WORK AT NIGHT.

Quiet Hours the Proper Time for It tellectual Labor.

Prof. Victor Hallopeau of the Paris Academy of Medicine declares that the best intellectual work can be ac complished between midnight and dawn. "The true secret of long continued, valuable brain work," he says, "is to cut the night in two. The scholar, the inventor, the financier, the literary creator should be asleep every night at ten o'clock, to wake again at, say two, in the morning. Three hours' work, from two to five, in the absolute dreamed of under the prevailing system. From eight to eight or 8:30 sleep again. Take up again the day's work; the brain will still be saturated with the mental fruits of the night vigil; there will be no effort in putting into practice or carrying further what was planned or begun those few hours before. The habit may be hard to acquire, but mechanical means of waking at first will induce the predisposition.'

Rheumatism Beyond Control The Only Hope to Rheumatie

Sufferers Is Uric-O Treatment

If rheumatism continues to spread as it has in the past few years, it would seem as though we would before long become a nation of cripples. The territile destructiveness of this disease is apparent on every side of us. Almost nine out of ten of the tripples one meets had their affliction brought on by rheumatism. How many thousands more there are that are hopelessly bed ridden and whom we never see. Kheumatism, from the very nature of the disease, can never cure itself and, if neglected, is bound to grow worse rather than better. If you ever have any twings of rheumatism, go to your druggist and get a bottle of Uric O, the wonderful new rheumatic specific. It will cure you, and it is the only treatment in the world that will cure you permanently and thoroughly. Reluctant Obedience.

"A wise puppy being told to lie down in a certain place will obey meekly at the moment, and then, waiting until his master's attention is diverted, will slip slowly away from his post. His reluctance to stay where he is told is not based on a dislike of the spot, for he will often select it for himself-but purely on his prejudice against obedience as such. So the child loves to assert his freedom by doing what he would consider a serious hardship if he were compelled to do it. A keen zest is added to play if it is close to the edge of the forbidden.
