"PRIDE OF THE WORKROOM" Lesson in Humble Life of English

Seamstress Overtaken by Sudden Death.

Prosperity no more secures happiness and influence than June insures sunshine. Apart from that spiritual state which makes for peace, the actual contentment of men or women in our world is chiefly founded upon their relation to work. The idler is always wretched. The worker, as Ruskin and Carlyle persistently taught, is truly enviable when he has work, when he feels it fairly within his powers, and when he takes pride in his performance of it, and then only.

A story of victory in the face of apparent failure may be read by the student of human history in an obscure paragraph of an English newspaper, setting forth an inquiry by a coroner's court into the death of an old dressmaker who had been run over on a London street.

Mary Anne Bruce was seventy years old, and lived with her sister in Poplar. She left home daily at eight a small crowne pension, and earned eight or nine shillings week. Her entire income during her many years of sewing had probably been equal in its buying power in an American city

to less than \$5 a week.

But this slender dole of shillings, contrasting with the long hours of work, was not the whole story of the previously free from the dreaded disdressmaker's life. Witnesses further testified that she had been employed by one firm for 40 years, that she was "the pride of the workroom," and that all the employees were "much upset" on hearing of her death- So the quaint tribute runs.

· Forty years of toll, and then sudden death overtaking age and unguarded weakness! It is a grim and gloomy record in the newspaper history of an ambitious, money-loving age. But she was "the pride of the workroom," and her fellow workers loved her. That is surely writ large in the Great Book of Heroic Deeds. For this woman, as for another faithful soul, it may be said that as she passed over, the trumpets sounded a great blast upon the other side. Thus conquerors come home!-Youth's Companion.

Sensitive to Art.

Said the art gallery guide; "Just watch the crowd a while and see which of their antics impress you most.

Presently the visitor said is the queer attitudes so many of them strike."

"Exactly," said the guide. "They are imitating the poses of the figures in the portraits. Anybody who sits for a portrait is supposed to strike a graceful attitude. All these people who have never been painted realize head, the turn of the wrist, the slope of the shoulders. They wish they could look like that, and unconsclously they try it.

"The men are as bad as the women. They straighten up, they droop, they tilt their heads, they arrange their hands and feet in imitation of the figures they admire most. Sometimes their attempts are very clever, again Watson said this morning that they they are simply ridiculous"

Ancient Superstitions.

Mrs. Rheta Childe Dorr, writing in one of the magazines of the fighting chance of the city child, thinks that the foes of the child, poverty, disease and premature death, should be fought by an organized army rather than the amateur skirmishers that give their time to it. SEVENTY-FOUR CARS OF SISAL ON THE WAY FOR THE BINDER TWINE PLANT IN JACKSON.

Coroner's Jury Finds Brakeman Graham Guilty of Gross Negligence in the Durand Wreck.

Fruit Only Half Crop.

"The fruit harvest of Michigan will be less than half a full crop," said Prof. L. R. Taft, expert horticulturist at M. A. C., who has thoroughly looked into the conditions of the orchards in practically all parts of the state. "A strange feature of this year's condition is that in the counties where the largest numbers of trees are located, the fewest peaches are grown, while in counties where there are fewer orchards, very good crops will in many cases be harvested. The o'clock in the morning, and reached grape harvest will be far below average and not more than half a crop will be obtained. The apple harvest will be scarcely more than a quarter of a crop."

Prof. Taft stated that peach yellows had given considerable trouble this year. There is no remedy for this disease except as it can be checked by a concerted action in destroying infected trees. Some orchards, ease, were found this year to be badly infected. Some of the best orchards around Grand Rapids and in Oakland county have lost half of their trees because of the ravages of this

Sisal for Jackson Prison.

The Michigan state prison at Jackson is receiving a shipment of \$104,-000 worth of sisal to be used for the manufacture of twine. Forty-six carloads, enough to make a fair-size train, are on the way from Merida, Yucatan, Mexico, to the prison. There were 15 cars hauled into the prison yards Monday. Notice was received that two more shipments of 14 cars each had just started from the southern clime en route to Jackson, making 74 cars of sisal in all that are on the way here.

Some new machinery, a special breaker and spreader, to be used in the twine plant has arrived. In order to supply the demand for the product of the factory it has been necessary to crowd or overwork some of the machinery, and it is to afford relief and also to provide for a greater capacity that these new machines were ordered.

Brakeman Blamed for Wreck.

That Brakeman George M. Graham, of the wrecked train on the Grand Trunk, was guilty of gross negligence n not taking the proper precautions the grace there is in the poise of the and going back the proper distance to flag the on-coming train on the night of August 24, was the verdict the coroner's jury, returned at Durand.

The jury also censured Engineer fire. Spencer for not seeing the lights of the train ahead of him. The direct responsibility for the wreck, however, is laid to Graham.

Both Prosecutor Hicks and Sheriff would not take the initiative in the prosecution of Graham for manslaughter. Wa son said that he would act in co-operation with the state railway commission if it decides to issue warrant for the brakeman's arrest.

100,000 March in Sacred Pageant.

A religious pageant as rich in devotional emotion as in sacred imagery, and as orderly in behavior as it was diverse in nationality, and huge size, closed in Montreal the twentyfirst International Eucharistic congress held this year for the first time in the Dominion of Canada.

Visitors from the United States were especially impressed with the magnitude, splendor and reverence of the procession, which marched four miles through the city streets, the Host at its head, to Mount Royal, above the city. A modest estimate is that there were 100,000 in line, and that 500,000 viewed it.

THE DEMOCRATS

ELECT GOVERNOR AND TWO CON-GRESSMEN; LEGISLATURE IS ALSO DEMOCRATIC.

NEW GOVERNOR IS SON OF THE LAST DEMOCRAT WHO HELD THAT OFFICE.

Legislature Will Elect a Man to Suc ceed United States Senator Hale; Leaders Are Amazed.

Maine, which has been solidly Republican for 30 years without a break in all that time, elected a Democratic governor by about 8,500 plurality, sent three Democratic representatives to congress, leaving but one Republican representative from the state, and also elected a Democratic legislature to fill the vacancy occasioned by the expi-

It was a landslide, sweeping every thing before it. Gov. Bert M. Fernold, the Republican candidate, who won his election two years ago by about 7,000 plurality and whose ad ministration has been one of progress, has gone down in defeat, the first Republican candidate for governor to be defeated since 1882. His the next governor of Maine, is Col Frederick W. Plaisted, mayor of Au-The quality as compared with an susta, son of the last Democratic govted, whose election was due to a fusion of the Greenback and Democratic vote in 1882.

The Republicans have on' saved one congressman out of the four rian of the national house, has apparently been elected in Tom Reed's old district, the first, by a narrow margin. His opponent, William M. Pennell, is likely to be named Democratic senator from Maine if he has failed of election to congress. He made a vigorous campaign, attacking the tariff policies of the Republican party and advocating reciprocity with Canada. The contest in the first district was the hottest it has ever known. The lowest plurality a Republican candidate ever received in this district was

He made his fight upon the tariff issue, severely criticizing Swasey for his attitude in supporting Speaker Cannon and supporting this their confidence revived, the palthe Payne-Aldrich bill, and Swasey's ic abated, and the bank was enabled defeat is attributed to the insurgent feeling in his district because of his ardent support of Speaker Cannon. In the third congressional district Edwin C. Burleigh, representing the district formerly represented by James G. Blaine and Seth L. Milliken, a district which has always been solidly Republican, has been defeated by a small plurality, his opponent being Samuel W. Gould, who has run against Mr. Burleigh for six consecutive times. In this district the issue was fought out on the tariff, and the cities and large towns, where the high cost of living argument had great weight, went solidly against the Re-

publican candidate. Legislature Important.

Control of the legislature is of more importance in Maine than in some of the other states, because under the constitution a number of the highest state officers are ap, inted by that body. These are treasurer, attorney general, secretary and commissioner of agriculture.

Among the appointments which rest with the new governor are: A judge of the Kennebec superior court, a state commissioner of industrial and labor statistics, a state commissioner of highways and a warden of the state prison. All these offices are now filled by Republicans.

The Democratic overturn extends even to minor state offices. Figures show that the Democrats elected 13 of the 16 sheriffs in the state. Republicans elected their shrievalty candidates *in Aroostook, Franklin and Washington counties only. In five of the counties Democratic sheriffs were re-elected, in eight other counties the Democrats gained the office.

Ethiopia was the name given by the Greeks to a country south of Egypt variously conceived as including only Nubia (Aethiopia Aegypti), or Nubia, Sonnar, Kordofan and Abyssinia, or a region extending indefinitely east and west from the Upper Nile, but applied after the fall of Meroe more particularly to Abyssinia. The name is said to have had its origin from the fact that it was alluded to by the Greeks as a country of sunburned faces.

Historically there were three distinct kingdoms known as Ethiopia, those of Napata, Meroe and Askum. There is no definite evidence that either of these included at any time all the territory between the southern border of Egypt and Bab el Mandeb.

Already in the time of the old empire the Egyptians had relations with their southern neighbors. From the forests of Nubia they obtained a large proportion of their timber, and the city of Abu (Elephantine) derived its name from the ivory which found its way to this place from the interior of Africa. King Uncas & 3290-3260 B. C.) employed warriors belonging to six Nubian tribes in his war upon the Bedouins. The early pictorial representations of Nubian archers do not suggest that they were negroes. A regular conquest of the country south of Syene apparently was not undertaken until the twelfth dynasty (c. 2522-2323). The most powerful Nubian people at this time was Kash or Kosh, the Hebrew Cush. It is probable that the stock was originally Hamitic, though in course of time it absorbed various Negritic tribes, Usertesen III (c. 2409-2372) established his frontier north of the second cataract and built for its protection two forts at Semneh and Kummeh on opposite sides of the river. Whether the Hyksos kings ever held possession of this territory is doubtful. At any Tate it had to be reorganized by Aahmes (1575-2553), the founder of the eighteenth dynasty and his successors. Napata probably had been the capital of the independent kingdom, since a was made the residence of the viceroy, enditled prince of Kosh, who governed the new Egyptian province. In the time of Rameses II there was an unsuccessful rebellion. Planchi I, who seems to have reigned in Napata since 777. evailed himself of the weakness of Egypt at the end of the reign of Uasarken III to make an invasion of Egypt. He defeated twenty petty rulers and forced a treaty. Shabaka, a grandson of Pianchi, united all Egypt with Ethiopia under one crown. Napata was destraved by

A new kingdom gradually arose in the south after the fall of Napata, with

Meroe as its capital. The kings, Arura, Hars'ot, Nastasen, who reigned in the fifth and fourth centuries, conquered considerable territory south of Meroe in Sennar and Kordofan, and possibly in Abyssinia. While the suzerainty of the Ptolemies seems to have been recognized for religious reasons, King Ergamones, by putting to death the priests who had demanded that he should abdicate in the time of Ptolemy IV Philopator (221-204), paved the way for independence. Ptolemy V. Epiphanes (204-181) was able to resist his attack upon Egypt, but not able to prevent his asserting of sovereignty in Ethiopia. Queen Candace seems to have extended her power in the north, and twenty-five provinces are said to have been tributary to her. But her invasion of Egypt was successfully resisted by Caius Petronius in B. C. 24. Napata, that had been rebuilt, was destroyed by the Romans. Another Queen Candace is mentioned in Acts viii. But gradually Meroe itself fell into ruins. To guard against invasion by the Blemmyans, a people akin to the Bugaitae, the modern Beja, Diocletian moved the Nobatae, negro tribes of the same stock as the population of Kordofan, from the oasis of Khargeh into the Nile valley.

The ountain region of Abyssinia was probbably inhabited in very early times by Semites as well as Hamites. Whether the original home of the former was in Africa or in Arabia the overflow population would naturally set in the direction of this Alpine country. As the native name shows, the Semitic Ethiopians were still in the nomadic state when they entered this territory, priding themselves on being wanderers, roaming freely wherever they liked. There were evidently successive waves of immigration. If the Egyptian Hbst is of Semitic origin, as can scarcely be doubted, they were apparently kinsmen of the Yemenites in Eretria and on the Somali coast c. 1500 B. C. Sebaean inscriptions found in Yeha, the ancient Awa, may be as old as the seventh century B. C.

As long as the Ptolemies domninate the Erythrean coast from Adulis, Berenice and Arsince, a strong Abyssinian kingdom could not well develop. But in the reign of Augustus, when the Romans suffered serious reverses in Arabia, and were occupied ir Afsica with Queen Candace, while the Arsacid conquests in eastern Arabia forced the Yencuite States to seek compensation for their losses elswhere, the Semitic element in Ethiopia seems to have been reinforced, and the kingdom of Askum founded. The "Periplus maris Erythroei," probably written by Basiles between A. D. 56 and 67, refers to a king of Askum by the name of Zoscales, who controlled the coast from Massowah to Bab el Mandeb, and was a friend of Greek culture. It is possible that some of the Greek coins with Greek legends that have been preserved should be assigned to the second

and third centuries A. D. On a marble throne in Adulis, Cosmos

Indicopleustes found and copied in the sixth century an inscription commemorating the power of a great king whose name is not given. He is supposed by some scholars to be the founder of the Askumite kingdom, but it is more probable that he reigned at the end of the third century A. D. King Aizana is known to have reigned in the year A. D. 356. In his time Frumentius preached Christianity in the country. The political relations that had long existed between Askum and Rome were such as to favor his mission. In 378 Askum was reduced to its African territory. In A. D. 525 Elesbaas, king of Askum, with the aid of the Sabaen and Hadramautian rulers, made an end to the Himyarite kingdom of Dhu Nuwas. and Ethiopia again controlled Arabian territory. Before the end of the century, however, the Askumites were driven back to Africa, and never again extended their conquests to Arabia According to a letter addressed to a king of Nubia in the time of the Patriarch Philotheus of Alexandria (980-1002), preserved in the four-

teenth century "Life of the Patriarchs" and in the "Ethiopic Synaxar," a woman who reigned over the Beni el Hamuna had recently invaded the country, burned the churches and monasteries, and driven him from place to place. Ma rianus Victor speaks of this woman as the founder of the Zague dynasty, and as having married a ruler of the province of Bugna, a name afterwards corrupted into Beni el Zague Eleven kings of the so-called Zague dynasty reigned until 1270.

VOTIVE ALTA? FOUND AT MEROE.

The earliest monuments of Semitic speech in Ethiopia are the inscriptions found at Yeba. These are written in the consonantal Sabaen script and indicate that the writers used the lesna Gees, the language of Semitic Ethiopia, as early as the seventh century B. C. Geez is today represented by two dialects, Tigre and Tigrai or Tigrina. The latter is spoken in Tigre, and the former is spoken in the districts north and northwest of Tigre, and shows great similarity to the old Geez.

Ways of Berlin Women

"I believe that the typical German hausfrau is a myth," said a New York woman who returned the other day from a year's residence in Germany. "I don't see how the average German woman finds any time to be a hausfrau. I sometimes wondered when the German woman found time to do anything at

"I spent eight nonths in Berlin with my daughter, who was studying music. From eleven to twelve in the morning the cafes were packed with German women, who go out to take their second breakfast in the public restaurants, a thing unknown in America.

"They take along their sewing or embroidery and sit an hour or two over their cup of coffee or glass of beer. At the concerts, too. they take their work and spend hours day after day listening to the music. You can spend an afternoon listening to beautiful music, a magnificent orchestra with fine vocal artists, for 16 cents. That is an illustration of some of the things that help to extle Americans.

"At three in the afternoon again you will see the cafe crowded with German women taking their afternoon tea. I think American women are more domestic than German, because I never heard of American women who left their homes in the evening to pass the

time at the club. A German friend took me one evening to the German women's club. The club has a magnificent suite of apartments, including auditorium, reading room, parlor, cafe and smoking room.

"They were cosmopolitan in their dress and manners and did not present any striking points of difference from the American women except in the smoking. It made the occurrence of last summer, when our immigration officials detained a second class passenger, a woman art dealer, for inquiry into her sanity because she smoked cigarettes, appear very funny in retrospect.

"The German women's clubs, like those of the Englishwomen, are based on the same principle as men's clubs; these are places for so cial enjoyment and for the convenience of members in taking meals, entertaining friends and so on. They do not take up work in study, philanthropy, reform and so on, like the wom

The Injury Done to Gunn

It was the livery stable man who had Mr. Gunn arrested and taken before the magistrate upon a charge of hiring a vehicle and not paying for it. When Mr. Gunn was asked to give his version of the .natter, he said:

"You see, your honor, I was courting a girl named Emily-Emily Butterwick. And on Tuesday, as she seemed a little cold toward me, I thought I would please her maybe, by asking her to take a drive. She said she would go, and when I drove the wagon around from the livery stable she got in. We had gone about two blocks when she asked me to stop, and a young man came up and spoke to her. She said his name was Jones, and he was an old friend of her mother's, and would I mind giving him a lift as far as the depot, so that he could take the train for Chicago? I said I would, and that Jones might drive. But as Jones declared he didn't know how to manage horses, he got into the back seat by the side of Emily." "Seemed hard to you, did it?" asked

the judge. "Well, pretty hard. But I drove on, so's to catch the train, until I heard something that sounded like kissing; then I had suspicions, but when I looked around Jones said he had accidentally torn a ribbon in Miss Butterwick's hat. He saw that I noticed his arm kind of around Emily, so he said that he had to keep it there to prevent her from falling out."

"Considered it thin, did you?" in quired the judge.

"Well, you know, I didn't like it much; but I whipped up the horses. and Emily and Jones were sort of silent until I looked suddenly around and saw her head on Jones' shoulder. Jones was awful smart, and quick as a flash he said: 'She feels better now. Had a sudden fainting spell, and would have have dropped right over if I hadn't caught her. Her mother warned me to catch her whenever she was taken this way. Drive right on. I'll do what I can to make her comfortable.' That's what Jones said to me."

"Did she seem really comfortable?" asked the justice.

"Too thunderin' comfortable, it appeared to me. But I went ahead for a minute or two, and then took another glance, when it looked to me as if Emily had suddenly gotten better, and was kissing Jones."

"Revived, had she?" "But Jones said, says he: 'Gunn, Miss Butterwick here was just whisme to convey to a friend in Chicago. Don't mind us. That off horse there is acting a little skittish; probably you'd better keep your eye on him.'

"What did Emily say?" "Oh, nothing! Jones appeared to be running things although it was my entertainment. However, just then we reached the depot, and when I stopped to let Jones out, he said: 'You needn't stop, Gunn; I've changed my mind. I'll take the night train. I just re member that I have to see a man out here by the cemetery.' So then I told him I thought he ought to drive a while, and let me sit back; but he kind of smiled, and said that Miss Butterwick's life wouldn't be safe with him at the lines, or he'd be glad to oblige me, or words to that effect."

"Perfectly ignorant about horses was he?" asked the judge.

"Let on to be, anyway. And so I drove on, convinced that there was more hugging and kissing going on behind me than the law allowed, until we came in front of a drug store. Jones asked me to stop; and I did. Then he wanted me to get out and buy some camphor to help Emily's nerves. "'Why can't you go in and get it?" asked.

"'I can't leave this fainting invalid," he said.

"'And I can't leave the horses,' said. But Emily she chimed in with: 'Oh, do go, Mr. Gunn, for my sake!' And so I handed the lines to Jones, and I got out, and entered the drug store. When I came out of the store the vehicle was gone, and I never heard from it again until Emily dropped me a note a day or two later apologizing for running off with Jones, and saying that they had driven straight to a preacher and been married, because her father had refused to let her marry Jones openly at home. Jones brought the carriage to the stable after the ceremony but he was in such a state of happiness that he forgot to pay the bill. Now it doesn't seem exactly the square thing that I should pay for having Jones play it on me in that awful manner does it?"

An Unusual Party for Children.

A mother of a twelve-year-old daughter issued invitations for this very pretty party. Remembering how children loved to dress up, she said: 'Please come in a costume representing a character from 'Alice in Wonderland." When all had arrived there was a pantomime showing the figures on a screen, the children guessing who was who as each little figure passed by. This made loads of fun, as it was done before they entered the big drawing room. I had better explain exactly how. I hate to lend eggs, We buy our eggs from a farmer in the country and he brings them in while they are fresh, and all his hens "Changed my mind?" she repeated are thoroughbreds, and he feeds them scientific rations, and of course, the eggs are superior. Well, I let Mrs Wagstaff have the six eggs. I just simply can't refuse to accommodate a protested. "I thought maybe you

She said when she got them that she'd return them the next morning. The days went by, and she was in our house a dozen times, and she never mentioned those eggs. I always brought the conversation around to eggs, but she didn't seem to take the hint, so finally I spoke right out and asked her why she didn't return the eggs she borrowed.

"'I have avoided that subject,' says she, as cool as you please, 'in order to spare your feelings. The fact is that they were all bad. Still, if you insist upon having good eggs for them,' says she. 'I'll send them over, but I thought it would be a kindness to drop the subject altogether.'

"Actually, Mrs. Witherspoon, I was so mad that I couldn't say a word. The idea of such an insult, in my own house! And we go to such trouble appoint Mr. Saunders at any cost and and expense to get the best eggs in the state!"

"That's always the way when you try to accommodate people," replied Mrs. Witherspoon, "When we were first married my husband set it down as a rule that I should never borrow anything from the neighbors unless it was a case of emergency. And Mrs. Gooseworthy telephoned for the police, and an officer came and arrested Mr. Witherspoon, just as if he were to blame, and it cost him \$14.

"We didn't speak for a long time after that, but finally Mrs. Gooseworthy began her borrowing again. She had borrowed so much at our place that I naturally went to her when I needed a saucepan, and she let me have it cheerfully enough. When I went home I didn't need to use it for an hour or so, and then when I poured some water into it I found that it leaked. Ellis Parker Butler was a clerk in a Muscatine spice mill when Bill Nye came across his horizon, says Judge. The night Mr. Nye showed at that town Butler occupied a seat in the first gallery-from the roof. The sadeyed humorist pleased him so that he decided to write for an autograph. He wanted it for the front page of his stamp album. A carefully worded epistle brought no reply. Whereupon the industrious youth wrote another and another. No answers. Undaunted, he got a line on the route of his celebrity and developed an inspiration somewhat as follows: "Edgar Wilson Nye, Esq., Planters Hotel, St. Louis, Mo.: Dear Mr. Nye-I have been writing to you rather persistently. The reason is that I have discovered a new corn cure. I want to name it after you and use your picture on the box. I know that you are a busy man. If I do not hear from you soon I will consider that you have given your consent." By return mail came: "E. P. Butler. Muscatine, Ia .: Sir-Don't you dare to put my picture on any corn salve box! I most certainly do not give my consent to have the stuff named after me. I am commonly considered a good-natured man, but have a care! Edgar Wilson Nye."

Young Man With Receding Chin Expatiates on Educational Advantages of Travel

The young man with the sloping forehead and receding chin had been boring the group on the porch of the country club for nearly an hour with accounts of the people he had met and the wonderful things he had done on his one trip abroad.

"After all." he said. "there is nothing like travel abroad to develop a man and complete his education, don't you know? I might say that the pera neighbor for a little acccommodation | son who has never traveled abroad is a perfect ignoramus. "My grandfather gave the stick to my uncle, who took it with him to Russia when engaged in surveying a projected railroad from Paris to St. Petersburg. My uncle at his death left the stick to my brother, who, as you know, was in the diplomatic corps. It was with him in every European country, and was constantly in the company of kings and queens.

"My brother gave the stick to me; It has been my companion on several trips to Europe, besides making a trip to Australia, and one to South Africa, and here it is, still helping me to hobble about."

"Just fancy," said one of the young ladies, examining the stick curiously. "Really, it is very remarkable, isn't

"Very," responded the old gentleman. But the most remarkable thing about it, is this: In spite of all its travels and its association with royalty and the like, it is nothing but the same old stick that it was when it first started out."

The young man with the receding chin reffred into the solitude of the clubhouse.

Maxims Reveal Taste.

"By their proverbs you shall know them" says an ethnologist. "What I mean is that a people's maxims reveal that people's tastes.

"Thus the Frenchman is vain. Above all things, he wants to please the ladies. Hence he says of those fortunately situated that they were 'ne. failed. coiffe'-that is to say, born with their hair curled, dressed and scented,

"The Englishman's greatest delight is eating. To eat-he thinks there is nothing better than that. His fortynate person is one born with a silver spoon in his mouth.' "The Chinese, with their terrible

vice of opium smoking, say of the successful and happy man, 'Ah, he was born in a poppy field.' From the poppy, you know, opium is obtained.

TINY BABY'S PITIFUL CASE

"Our baby when two months old was suffering with terrible eczema from head to foot, all over her body. The baby looked just like a skinned rabbit. We were unable to put clothes on her. At first it seemed to be a few mattered pimples. They would break the skin and peel off leaving the underneath skin red as though it were scalds. Then a few more pimples would appear and spread all over the body, leaving the baby all raw without skin from head to foot. On top of her head there appeared a heavy scab a quarter of an inch thick. It was awful to see so small a baby look as she

did. Imagine! The doctor was afraid to put his hands to the child. We tried several doctors' remedies but all "Then we decided to try Cuticura. By using the Cuticura Ointment we softened the scab and it came off. Under this, where the real matter was, by washing with the Cuticura Soap

and applying the Cuticura Ointment, a new skin soon appeared. We also gave baby four drops of the Cuticura Resolvent three times daily. After three days you could see the baby gaining a little skin which would peel off and heal underneath. Now the baby is four months old. She is a fine picture of a fat little baby and all is well. We only used one cake of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent. If people would know what Cuticura is there would be few suffering with eczema. The play is the work of Edward Locke. Its theme vacillated between surgery and mental suggestion, but as both of these were applied to the human voice-a voice owned by a girl yearning to become a grand opera artist-they are not so ponder ous as they sound. In these Tetrazzinian days, in this made city of opera houses, where the public is Marygardened to the verge of mania, the theme seemed apt, interesting, and to have come at the phychological moment-and if you think I am going to tell you the end of the play, you are quite mistaken, for it is worth seeing, and it is not always fair to give away a plot, when it is a plot. "The Climax" will be a success and that success will be emphatic. "The

Other members were then called on for remarks, and the main thought expressed by every one of them was his loyalty to his regiment and the pleasure enjoyed at the reunions. The program was interspersed by the excellent singing of Mrs. A. G. Walker, who rendered "The Red, White and Blue." "Marching Through Georgia," and at the close, "Columbia, the Gem of the Ocean," was sung with feeling by all.

Regrets were read from comrades who were unable to attend, and the formal program concluded, the rest of the evening was spent in delighttul companionship with one another.

DO IT NOW.

Chelsea People Should Not Wait Until It Is Too Late.

The appaling death-rate from kidney disease is due in most cases to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms give place to chronic disorders and the sufferer goes gradually into the grasp of diabetes, dropsy, Bright's disease, gravel or some other serious

form of kidney complaint. If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders-they cure where others fail. Over one hundred thousand people have recommended them. Here's a case at home:

John Schieferstein, S. Main St., Chelsea, Mich., says: "I have used Doan's Kidney Pills for lame back and pains through my kidneys and have received great benefit. I can recommend this remedy highly, judging its merit from personal experience." For sale by all dealers. Price 50
