#### Your Corn! Don't

Don't take chances on trimming a corn with a knife. There is a possibility of your losing your whole foot through blood poisoning. Now, the sensible thing to do is to get a bottle of NYAL'S CORN REMOVER. It will do wonders in the way of removing a corn or bunion, and you run not the least chance of blood poisoning. It is easy to apply and works quickly. A 15c bottle will satisfy you and banish every doubt.

### Grocery Department

It's not hard to keep the family in good humor if you have good wholesome things to eat. You can select a delightful lot of good things here. They are the nicest and best specialties of the season. The QUALITY makes them a pleasure-our PRICE makes them an economy,

# Royal Valley Coffees

Your old coffee may be giving you satisfaction, but if there is something better, and it is more economicalbecause you don't need to use so much of it-why, you want it, don't you?

### "SOMETHING BETTER"

is the demand of progressive people to day, and in the producing of Royal Valley Coffees, Peter Smith & Sons have that aim in view over and above everything else. A lot of people who are very particular about their coffee have tried Royal Valley.

#### Serious Accident.

Little Richard Sawyer, 6 year old, spine, the result of the accidental will be the program: discharge of an old revolver in the hands of his aunt, Mrs. Lorenzo Sawyer, Saturday afternoon.

As the little fellow, playing "burglar," crept up to scare his aunt, Mrs. pointed it at the boy and, believing Letters. that the weapon was not loaded, pulled the trigger. The bullet struck the child in the chin. It passed through his neck, on a downward course, and as the X-ray reveals, lodged in his spine. If he lives two or three days, an attempt will be made to remove the missile. The chances for his life are concededly slim. The aunt is herself in a serious condition from the shock. The injured boy is a grandson of A. J. Sawyer, dean of the Washtenaw county bar,

The injured boy was resting easier Wednesday. Both Doctors Darling and Belser expressed themselves as being extremely pleased over the child's showing so far.

There has been no sign of the feared infection in the wound, and if this can be avoided, there is a chance for the child's ultimate recovery. If the boy continues to improve for the next four days, as he has for the past two, the physicians will probably probe for the bullet, and try to get it out. The lad suffers very little pain, and every effort is made to keep him as quiet as

# Deserted by Husband.

Mrs. Fannie Crawford, of Owosso, formerly of Chelsea, has sworn out a warrant for the arrest of her husband on a charge of desertion. He has been in Portland, Oregon, for sometime, where he has been engaged as salesman for the Reliance Motor Truck Co. of Owosso. Word has been received that he is in the custody of the officers, and the sheriff of Shiawassee county is on his way to Port land with requisition papers. It developes that Crawford married a young lady at Portland last September, representing to her that he was a single man. It is but within the last few days that the facts in the case have been ferreted out.

# Missionary Meeting,

On Wednesday afternoon the Wo men's Home Missionary Society of the Methodist church was entertained at the home of Mrs. M. J. Noyes, the president. It was the annual mite box opening. Seventeen persons were present. The meeting was opened by singing. Scripture reading by Mrs. Noyes. Prayer by the pastor. Reading by Mrs. J. F. Hieber. Reading by Mrs. Fred Schultz on the self denial mite box. Mrs. J. W. Campbell was appointed delegate to the district convention. Mrs. Fannie Ward was elected mite box secretary. After the mite boxes were opened a supper was served by the hostess, and all enjoyed the occasion.

## Appointed Judge,

The following in regard to a former Chelsea boy, son of Mr. and Mrs. Walter H. Dancer, was taken from the Duluth Herald of April 20th, and is pleasing to his friends here:

Herbert A. Dancer, whose appointment as the fifth judge of this district Young People's meeting at 6 p. m. was announced yesterday afternoon Subject, "Bible Needs in America." by Governor Eberhart, is one of the (Conquest meeting.) youngest men ever appointed in this state to hold so responsible a posi-

tion. He is but 36 years of age. Mr. Dancer is a graduate of the Unit Junior meeting Folday at 3:15 p. m. department in 1897. He came directly ing.) to Duluth after his graduation and has been here continuously since that time, being associated with the law firm of Baldwin, Baldwin and Dancer,

Although Mr, Dancer is young there is general satisfaction expressed at his appointment. He is thought to be exceptionally well equipped to fill a place on the bench. He has what is characterized by the lawyers as a "legal mind" and has a thorough understanding of the law.

Mr. Dancer's home was at Chelsea, Mich., near Ann Arbor, where he was

The appointment takes effect at once, but Mr. Dancer stated this morning that the law states that no judge shall be engaged in the practice of the law, and that it would be necessary for him to dissolve his partnership with the present firm. "I want to begin the work as soon

as possible" he said this morning, "for I know the judges are pressed with work, and the fifth man is needed at once. It will take me a week or ten ing at 7 o'clock, followed by meeting days to wind up affairs here, and withdraw from the firm of Baldwin, Baldwin & Dancer. As soon as I can do that I will assume my new duties."

## It's Equal Don't Exist.

A Vitagraph life portrayal "The Light in the Window," occupies second position on the bill. The theme of this picture, is that a good daughter invariably makes a good wife, and this picture proves it, "Max is almost Married," a comedy by the Pathe Company, and "So Near but not Quite," a trick comedy are also on the bill.

Miss Fowler will sing "Who are you with Tonight," and two other songs.

### Mrs. Katherine Broesamle.

Mrs. Katherine Broesamle, nee lies at the point of death at the home the Washtenaw Baptist Association Riemenschneider, was born in Ober-Moellrich, Kreis Fritzlar, Germany, September 16, 1844 and died April 16, torney, with a bullet lodged in his day, May 3 and 4. The following 1911 reaching the age of 66 years and 7 months. She emigrated to America with her parents in 1861 doming to Washtenaw county, Michigan, where she has resided until her death. In 1864 she was united in marriage to Mr. John Broesamle. This union was broken by the death of the husband revolver that lay on the dresser, Letter. Reading of other Church in 1878. Six small children were left Through her heroic efforts Mrs. Broesamle preserved the unity of her family and home though adversities made this a hard task for her. She made many sacrifices in the care for her household but she accomplished her purpose with remarkable success.

Mrs. Broesamle was a member of the Salem German M. E. church since 1862 and has always proved herself one of its staunchest and most devoted members. Being a well-informed lady, a thorough student of the Bible and very conscientious in belief and practice she was an invaluable spiritual power in her church. She was an exact thinker and manifested a deep philosophical trend of mind. Her pleasant sunny disposition won her a very large number of friends and she possessed the love and esteem of all.

Among her immediate relatives are one sister, four brothers, one daughter, five sons and ten grandchildren.

# WHERE THIEVERY IS UNKNOWN

Localities in Europe Where Honesty Is Simply a Matter of Fact Fart of Life.

Where in Europe does one find really honest people? A traveler writing in an Italian magazine says that the Swiss canton of Ticino is inhabtted by the most honest folk it is possible to imagine.

In most of the Ticinese villages, the writer says, the oldest inhabitants do not remember any case of thieving, however petty, within a lifetime. Any family that produced a thief would not be tolerated in these Arcadian communities for a week.

Lost articles when found must never be taken aways they must be left where they were dropped or placed in a consepicuous position so that the rightful owner can find his property more easily. The case is in the Val Capriasca. The purse contained gold coin and a jeweled watch. Upon returning from her trip she found the purse with contents intact on a little heap of leaves, so placed that it could not fail to attract her attention.

The Scandinavians, too, have a great reputation for common honesty. in lonely parts of Sweden and Norway where medicines are not easily procurable, chests containing drugs. ointments, bandages and the like are fixed on trees. No one ever thinks of using these articles without leaving money in payment for them in the cash box attached to the medicine chest. Often the money is not collected for weeks, but it is never touched

Fruitless Literary Endeavor. It has been estimated that out of every 10,000 books written only 100 are accepted. Working on this basis and assuming that 1,000,000 books are printed in England in any one year, it follows that 99,000 books are doomed to remain hidden forever in their authors' locker or else be consumed by the flames. Each book has probably taken six months to write, and at this appropriation bills was so unusual rate nearly 50,000 years of combined that the representatives became inwork, for which not a penny is paid, has been spent in one year on fruit-Jess literary endeavor. Several Bills Rushed Through as the House and Senate Indulges in the Usual Horseplay in the Wind-Up.

It was nearly 5 o'clock Tuesday when both houses closed the business of the 1911 session. The whole number of working days was 71, making it the shortest regular session in a generation.

In the last 15 minutes a conference report was agreed to authorizing the governor to appoint a commission of cited of an American woman tourist live, two of whom shall be representwho lost her purse on an excursion atives of the working classes, to make a comprehensive investigation of the general subject of injured workingmen's compensation and employers' liability, and report in time for the 1913 legislature.

The final act was to adopt a resolution directing Speaker Baker to sign the payroll for all the employes up to May 2, that being the day when all bills must have been enrolled and signed or vetoed. There was a suspicion that the speaker was of the mind that employes who will have nothing to do for 10 days are not entitled to pay.

The Osborn Meat Ax.

An attempt to override the governor in the House of Representatives on his veto of several items of appropriation failed. The test came on a \$12,000 allotment "for the publication of collections of the Michigan Pioneer and Historical society," which the governor cut out in toto, as the work that could be done by the state librarian. Fifty-two representatives voted to pass the appropriation over the governor's veto and 34 against. Sixty-seven votes were required, and after a first failure the representatives let the governor's veto stand.

kind or another have been launched. First there is the gubernatorial situation. Governor Osborn will undoubtedly be a candidate for a second term and Secretary of State Fred C. Martindale has also announced his candidacy. It is probable, however, that if Governor Osborn makes the run as he probably will he will have no opposition in the primaries. In case he should not run these will be in the field for the place on the Republican side.: Fred C. Martindale, Detroit; A. E. Sleeper, state treasurer: C. L. Glasgow, state railroad commissioner; Amos Musselman, Grand Rapids; John Q. Ross, lieutenant governor, Muskegon; Patrick H. Kelley, Lansing, and possibly Truman H. Newberry of Detroit.

Two members of the legislature seek the office of secretary of state. They are Senator Frank Newton. Ypsilanti; Rep. George Lord, Detroit. For state land commissioner Rep. Chambers of Gratiot county is a candidate, and so is A. C. Carton, deputy land commissioner.

John M. Perry, representative from Osceola, and speaker pro tem of the House, is a candidate for state treasurer in case Sleeper does not run for the office again.

Auditor General O. B. Fuller is a candidate to succeed himself and Speaker Herbert F. Baker of Cheboygan and Doc Scidmore of Three Rivers are also after the place.

Rep. Samuel Odell of Oceana county has eyes on the senatorial nomination for that district and Rep. Fred L. Woodworth of Huron aspires to a seat in the upper chamber from his senatorial district. Reorganized the military and naval Osborn Slashes \$45,900 From Home at Lapeer.

Delegation From Petoskey Object to Measure Giving Supervisors Right to Fix Natural Level of Waters of Inland Lakes.

Lansing.-Governor Osborn continued cutting appropriations. This time the Lapeer Home for the Feeble-minded had to suffer for his slashing. The institution was given \$92,400 by the legislature for two new cottages, two additions, quarters for employes, a dining hall and a pump, and the governor compromised by cutting out one of the cottages and other items up to \$45,900.

The board refused to stand for any more, as the institution now has 987 University of Michigan

The governor listened to a long protest from a delegation of citizens from Petoskey against Senator Newton's bill giving board of supervisors the right to fix the natural level of the waters of the inland lakes. The measure is aimed at a condition which has arisen at Walloon lake, a resort in Emmet county, where a dam was torn out, lowering the lake level so that the resorters cannot build boat docks. It was claimed that if a dam is built it will interfere with the Petoskey water supply, but the governor refused that in the provisions purchased for to assume that the supervisors would the institution and the dietary nothpermit anything to be done that would ing wrong was found, the patients beinjure the city, so he will sign the ing well fed and well taken care of. measure.

Governor Osborn will take up the matter of corporal punishment with the boards of control of the three prisons just as soon as he can get around to it.

"I shall go into the question thoroughly," he said, "and I will ask each board to adopt a rule prohibiting corporal punishment until each specific case is presented to and passed upon by the board. In this way every case will be heard upon its merits, and it will remove any chance of injustice These are but a few of the great being done. There are other matters

LIBERAL TERMS ARE OFFERED THE MEXICAN REBELS.

The Resignation of President Diaz Will Not Be Asked-Five-Day Armistice Will Be Extended if Necessary.

An extension of the armistice of five days will be granted by both federals and rebels if a longer time is needed to conclude peace. Liberal terms of peace are the prospect. The resignation of Diaz will not be asked.

The armistice was signed between Gen. Navarro, of the federal forces. and Gen. Madero. The five days agreed upon expire at noon Friday Negotiations for peace had extended just far enough to put each side in possession of the outlines of the other's demands. Gen. Madero has known and sacredly guarded for two weeks information as to what the government will grant. He telegraphed Maxico City the nature of his own basic demands. Following this a long telegram was received from the Mexican capital.

The truce provides that there shall be no movement of troops of either side during the next five days, and that provisions and medicines may be brought to either camp from the American side without payment of

# WILL LOOK TO CANADA FOR WHEAT

ONE REASON WHY AMERICANS GO TO CANADA.

In the Chicago Inter-Ocean of a few days since reference was made to the fact that in 1909 the United States raised 737,189,000 bushels of wheat, and last year grew only 695,443,000, a decrease of 41,746,000 bushels. The article went on to say: "True we raised last year more than eenough wheat for our own needs, but it is apparent that if production continues to decrease in that ratio we will soon be obliged to look to other countries for wheat to supply our rapidly in. creasing population." The purpose of the article was to

show that reciprocity was to be desired. This is a question that I do not propose to deal with, preferring to leave it to others who have made a greater study of that economic question than I have. The point to be considered is, with the high price of lands in the United States; and with the much lower priced lands of Canada, and their ability to produce probably more abundantly, is it not well for the United States farmer to take advantage of the opportunity Canada affords with its lower-priced lands and take a part in supplying the needs of the United States, which it is quiteapparent must come sooner or later? It is probable there are now about 300,000 American farmers in Western Canada, cultivating large farms, and becoming rich, in the growing of 25and 30-bushel-to-the-acre-wheat, in producing large yields of oats and barley, and in raising horses and cattle cheaply on the wild prairie grasses that are there, both succulent and abundant. All these find a ready market at good prices. Amongst the Americans who have made their homes in Canada are to be found colonies of Scandinavians, and all are doing well. I have before me a letter from an American Scandinavian, now a Canadian, an extract from which is interesting. Writing from Turtle Lake, Saskatchewan, he says:

"I came up here from Fergus Falls, Minn., October 24th, 1910, and thought I would let you know how I have been getting along. We had a very mild winter up to New Year's, but since then it has been quite cold and lots of snow, but not worse than that we could be out every day working, even though we had 65 below zero a few times, but we do not feel the cold here the same as we did in Minnesota as it is very still and the air is high cattle raising and mixed farming. There is some willow brush and small rolling and covered with splendid grass in the summer. Not far from here there is timber for building material. There are only 8 Norwegians here, 6 Scotchmen, 2 Germans. The lake is 20 miles long and full of very

fine fish. "There is a lot of land yet that has not been taken and room for many settlers, and we wish you would send some settlers up here, as there are fine prospects for them, especially for those who have a little money to start with. Send them here to Turtle Lake, and we will show them the land, if they have secured plats, showing the vacant lands, at the Dominion Lands office in Battleford. Send us up some good Scandinavians this spring." The Canadian government agents

will try to meet his wishes.

James Wilson or Jimmy as he is called by his friends. Jimmy, was rotund and looked shorter than he really was. His ambition in life was to be taken seriously, but people steadily refused to do so, his art is considered a huge loke, except to himself, if he asked people to dinner everyone expected a frolle. Jimmy marries Bella Knowles: they live together a year and are divorced. Jimmy's friends arrange to celebrate the first anniversary of his divorce. The party is in full swing when Jimmy receives a telegram from his aunt Selina, who will arrive in four hours to visit him and his wife. He neglects to tell her of his divorce. Jimmy takes Kit into his confidence, he tries to devise some way so that his aunt will not learn that he has no longer a wife. He suggests that Kit niay the hostess for one night, he Mrs. Wilson pro tem. Jim's Jap servant is taken ill. Bella, Jimmy's divorced wife, enters the house and asks kit who is being taken away in the ambulance? Bella insists it is Jim. Kit tells her Jim is well and is in the house. Harbison steps out on the porch and discovers a man tacking a card on the door. He demands an explanation. The man points to the placard and Harbison sees the word "Smallpox" printed on it. He tells him the guests cannot leave the house until the quarantine is lifted. The guests suddenly realize their predicament, the women shed he their predicament, the women shed tears, the men consider it a good joke. The all important question arises as to The all important question arises as to who is to prepare the meals and perform the other household duties. Harbison finally solves the matter. After the lifting of the quarantine several letters are found in the mail box undelivered, one is addressed to Henry Liewellyn, Iquique, Chile which was written by Harbison. He describes minutely of their incarceration, also of his infatuation for Mrs. Wilson. Aunt Selina is taken ill with la srippe. Betty nots as nurse. Harbison finds Kit sulking on the roof. She tells him that Jim has been freating her outrageously. Herbison fully believing that she is Mrs. Wilson, tells her that she doesn't mean the things she, is saying about her husband. Kit starts downabout her husband. Kit starts downstairs, when suddenly she is grasped in
the arms of a man who kisses her several times. She believes that Harbison

"Kit is perfectly right. Anne." Lella diditand is humiliated. Aunt Selina tells Jimmy that her cameo breastpin and other articles of lewelry have been stolen. She accuses Betty of the theft. The following morning Jimmy was in a rage. The papers printed a story about the incarceration of the party, and that one of the guests had attempted to account by the guests had attempted to escape by to the adjoining house, but was frus-trated by a detective who fired a revolver at him. Jimmy tells Aunt Selina all about the strange happenings, but she ersists in suspecting Betty of the theft

## CHAPTER XIII. (Continued.)

But what the cook had told about Bella and Jimmy was not divulged, for the Harbison man caught him up with a jerk and sent Flannigan, grumbling, with his rugs to the roof.

It did not seem possible to carry on the deception much longer, but if things were bad now, what would they be when Aunt Selina learned she had been iled to, made ridiculous, generally deceived? And how would I be able to live in the house with her when she did know? Luckily, every one was so puzzled over the mystery y damning were never noticed at all. "You are-better today?" "Quite well, thank you."

"I am glad you find the tent useful.. Does it keep off the Wind?" "It is quite a shelter"-frigidly.

He still stood, struggling for something to say. Evidently nothing came to his mind, for he lifted the cap he was wearing, and, turning away, began to work with the wiring of the roof. He was clever with tools; one could see that. If he was a professional gentleman-burglar, no doubt he needed to be. After a bit, finding he took off his coat, without even a glance in my direction, and fell to work vigorously.

One does not need to like a man to admire him physically, any more than one needs to like a racehorse or any other splendid animal. No one could deny that the man on the parapet was a splendid animal; he looked quite big enough and strong enough to have tossed his slender bridge across the gulf to the next roof, without any difficulty, and co-ordinate enough to have crossed it with a flourish to safety

Just then there was a rending, tearing sound from the corner and a muttered ejaculation. I looked up in time to see Mr. Harbison throw up his arms, make a futile attempt to regain edge of the roof. One instant he was standing there, splendid, superb; the next, the corner of the parapet was

I could not have moved at first; at least, it seemed hours before the full significance of the thing penetrated my dazed brain. When I got up I seemed to walk, to crawl, with leaden weights holding back my feet.

When I got to the corner I had to catch the post for support. I knew somebody was saying: "Oh, how terrible!" over and over. It was only afterward that I knew it had been myself. And then some other voice was saying: "Don't be alarmed. Please, don't be frightened. I'm all right."

I dared look over the parapet finally, and instead of a crushed and unspeakable body, there was Mr. Harbison, sitting about eight feet below me, with his feet swinging into space and a long red scratch from the corner of his eye across his cheek. There was a sort of mansard there, with windows, and just enough coping to keep him from rolling off.

"I thought you had fallen-all the way." I gasped, trying to keep my lips from trembling. "I-oh, don't dangle your feet like that!"

For the first time in the history of

able action. It is desirable to teach

an intelligent appreciation of the

pleasures and benefits to be derived

from birds. Almost all birds do

more good than harm. The balance

of value is clearly in favor of eyen

all the hawks, except two. It is much better to let a harmful bird

escape than to run the risk of kill-

ing a bird of value. Great care

should be exercised that birds are

not killed or molested in their nest-

ing places. A person who will put

up bird boxes and otherwise take an

interest in our feathered friends, will

be well repaid. Every farmer should

The binder twine plant in the prison which is the only industry in the three state penal institutions where the convicts work for the state and not for contractors, is reveling in prosperity this season. The plant is rushed with orders. The prison contractors and their allies, after three years of relentless warfare to discredit the plant and futile endeavors to demonstrate that the correct system is to farm convict labor to contractors so they can reap big profits while the state puts up tens of thousands of dollars annually for maintenance, have quit knocking in the open. ## Hospital In Quarantine.

Smallpox at the Homeopathic hospital in Ann Arbor resulted in the institution's being quarantined Monday morning by the board of health.

Some time ago servants were ill with a malady thought at the time to have been chickenpox. After an examination the health officer announced it to be smallpox. Officials of the hospital denied the presence of the more serious disease, but Mon-day forenoon admitted that not only had they come to the conclusion that the servants had the smallpox, but that three patients, two men and one woman, had contracted it. The smallpox victims are now quarantined on the third floor, which was quarantined last week.

Dean Hinsdale of the U. of M

states that there is no question but that the disease is smallpox. The health board says there is no epidemic in the town and that the cases are confined to this hospital.

## Averta Awful Tragedy.

Timely advice given Mrs. C. Willoughby, of Mareugo, Wis., (R. No. 1)-prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial

# The Rainy Day

Prepare for the Rainy Day for it will surely come and may catch you in circumstances that will prove a hardship to yourself and family. If you will take care of the pennies they will soon make dollars which will brighten the cloudy days of the future. Begin today and this bank will help you put a silver lining behind each dark cloud at the rate of three per cent on all your idle money. Do you know that just one dollar put in our bank at 3 per cent interest, compounded each year, will in two hundred years amount to three hundred and sixty-nine dollars and thirty-six cents (\$369.36.) Your money in our bank will grow just like corn does. Just put a dollar in today and then in two hundred years, if you do not happen to be here, your grandchild can call and get \$369.36.

The pressure of international competition is mainly responsible for the extensive improvement of waterways in the continental European countries that have the highest-degree of industrial development. Every manufacturing country, district or city, if it is to prosper, must be able to meet this competition and to assemble materials as cheaply as possible from all parts of the world, and be provided with facilities for placing its goods cheaply autry upon the chief domestic and foreign markets. The countries of the continent, recognizing this, have adopted the policy of providing with equal care for the development of both railroads and waterways. In Great Britain, on the contrary, with the exception of two canals in Scotland, the inland waterways, both rivers and canals, have been improved and are operated by corporations. The British government is considering the advisabilty of changing its policy toward waterways.

Of all the continental countries. France has spent the most on canal navigation. Her extensive plans for waterway development, adopted in 1879, provided for a system by which the waterways should be all connectad with each other, and with the chief centers of population and industry. They are mainly owned or controlled by the state, but when in 1903 a law as far as Basel, just across the Swisa was passed providing for the construct frontier, and small sea going steamtion of new waterways, it stipulated ers ascend it as far as Mannheim. So complete is the canal system that by means of it a resident of Rotterdam could breakfast at Delft or The Hague, dine at Leyden and sup at Amsterdam, or return to his home before nightfall. Since not only the surface but the beds of many of Holland's canals are above the level of land, the drainage is of the greatest importance. This is effected by means of pumps worked by the windmills that are such a characteristic feature of the Dutch landscape. The banks of the canal's are maintained by the families that live along them, each being assigned a portion to keep in repair. Emory R. The injury cause is due to the feeding habit of the larva which requires pollen for its development. The female beetle, therefore, lays its rather large, white, glistening egg into a well developed bud of a staminate variety and, in order to prevent further development, punctures the flower stalk just below it. In a day-or two the bud wilts, the stalk breaks at the point of puncture, and usually the bud drops to the ground, although it may hang on for some days by a few threads of tissue. This dropping to the ground favors the development of the larva which, exposed to the bot sun, might otherwise dry up, or the bud itself might become too hard and unfit for food.

There is no period in the life of this insect when it can be satisfactorily reached by insecticides. The adult for the beetles only, and the trap row eating holes into the well developed blossom buds. Whether the insect devours the tissue when it cuts through the flower stalks is not known. A nurse should not wear any rings for they are liable to catch on the clothing or the patient's hair and be annoying. The nurse's dress should be of some washable, cotton material, soft enough not to rustle when she walks. White aprons give a neat and tidy appearance. Her shoes should not be too heavy, permitting her to step noiselessly about the room.

During the twenty-four hours some provisions should be made for sufficient sleep and outdoor exercise for the nurse. She needs seven or eight hours' sleep and one or two hours for exercise, besides time in which to dress, attend to her toilet requirements and eat her meals without hurrying. A nurse who does not have sufficient time for sleep and rest becomes not only physically tired, but mentally so exhausted that she is incapable of giving proper care to the patient or of observing symptoms. For the sake of the patient, be sure that the nurse is not overworked. She can be relieved of her duties by some other person. At such times as she is away from her patient, written orders for the substitute should be left and she should make sure that the one left in charge understands the directions.

# WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally need-less, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unacrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

## LAME EVERY MORNING

A Bad Back is Always Worse in the Morning-Chelsea People are Finding Relief.

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

Can't cure a bad back until you cure the kidneys. Doan's Kidney Pills cure sick kidneys-make you feel better, work better, rest better and sleep better.

Permanent cures in Chelsea prove the merit of Doan's.

Mrs. Lewis Burg, Garfield street, Chelsea, Mich., says: "I have no hesitation in recommending Doan's Kidney Pills, for I know them to be a remedy of great merit. I suffered intensely from backache and in the morning upon arising I felt lame and weak A distressing kidney weakness clung to me persistently and these troubles made me very anxious to get relief. Finally I procured Doan's Kidney Pills and soon after beginning their use, I was free from my aches and pains. I have been feeling much better in every way since taking this remedy.
