Seventieth Anniversary.

Tuesday evening about fifty Sir Knights and Lady Maccabees met at the home of Mr. and Mrs. Wesley Canfield to assist in celebrating the 70th birthday of Mr. Canfield.

Mr. Canfield became a member of the local tent August 12, 1882, and while not a charter member he is among the list who has seen the order grow from a very small one to one of the largest memberships of the fraternal organizations in this state.

The evening was a most enjoyable one. A lunch of ice cream, cake and fruit was served. After lunch Commander Jacob Hummel addressed Mr. Canfield and in a few well chosen remarks presented him on behalf of the Maccabees, with a gold piece as a memento of the occasion. Mr. Canfield made a fitting response.

Among those from out of town were Mr. and Mrs. W. E. Canfield and the two daughters of Mrs. Georgia Canfield of Detroit.

Rejected The Claim.

The Washtenaw Mutual Fire Insurance company denies that the policy issued to William Beach three years ago and continued after his death by his daughters, Mrs. Etta B. Dale and Mrs. Nellie B. Beadle, applied when the house on which it has been taken out was destroyed last December.

The policy contained a provision that it should no longer be effective after the closing up of Mr. Beach's estate. Mrs. Dale and Mrs. Beadle continued paying the premiums and they are now suing the company to recover \$1,100. They declare that the estate was closed up without their knowledge back in 1904, and that the mistake was mutual in their continuing to pay the premiums and the company's continuing to accept them. The company denies that the estate was settled without their knowledge, and avers that for any mistake that was made they have their remedy at law, not in chancery.

Mrs. Wm. J. Guthrie.

Word was received here Tuesday evening announcing the death of Mrs. Wm. J. Guthrie, who died in Bronson hospital, Kalamazoo, about 8 o'clock, Tuesday evening, September 5, 1911, aged 60 years.

Miss Julia Depew was a daughter of Mr. and Mrs. John C. Depew, and was born in Sylvan. She was united in marriage with Wm. J. Guthrie and for many years the couple have resided at Vicksburg.

About two months ago she was taken to the hospital, where she underwent two operations, and her demise followed the shock of the second one.

She is survived by her husband, three daughters, one son, two brothers, C. J. Depew, of Ann Arbor, and the other a resident in the west, and one sister, Miss Elizabeth Depew, of this place.

A Good Attendance.

The first annual picnic given under the auspices of the Chelsea Business Men's Association, at Vandercrook's Lake, last Thursday was attended by over four hundred from Chelsea and surrounding country. The Association arranged with the D. J. & C. electric line to carry the visitors and seven special cars left the local station for the lake at 8:40 o'clock in the morning and returned from the lake at 6 o'clock in the evening. The Chelsea band accompanied the visitors and furnished the music for the day.

All of the stores were closed for the day and the streets of Chelsea were practically deserted. At the lake various amusements assisted the visitors to pass a very delightful day.

Malicious Destruction.

Highway Commissioner McIntee, of Waterloo, reports that someone has been maliciously breaking tile in that township, and a reward of \$100 is offered for the party who committed the act. A sluice across the highway at the Andrew Reithmiller farm had been taken out and was to be replaced with tile. The tile had been delivered on the ground ready to be used, but when the men arrived to put them in they found them all broken. It was committing an offense for which the perpetrator might be sentenced to prison.

Eastern Star Officers.

Olive Chapter, No. 108, O. E. S., held its annual meeting Wednesday evening, at which time the following officers were elected:

W. M.—Mrs. Eliza Bacon.
W. P.—O. T. Hoover.
Associate Matron—Mrs. Effa Dancer.
Secretary—Mrs. Anna Hoag.
Treasurer—Miss Elizabeth Depew.
Conductress—Mrs. Carrie Palmer.
Associate Conductress—Mrs. Ethel Palmer.

Given Another Charge.

Rev. J. E. Beal, who has been pastor of the Salem German M. E. church for the last four years has been assigned to a new charge.

Mr. Beal attended the annual conference of the German M. E. church which met in Pittsburgh, Pa., last week and was assigned to the Galena street church in Toledo. Rev. George Noth-

durft, of Stover, Mo., was given charge of the Salem church.

Rev. Beal during his pastorate of Salem church has gained a large circle of friends, and it is with sincere regret that his parishioners part with him, and their good wishes will accompany him to his new charge. He will deliver his farewell sermon next Sunday.

Union Conference Meeting.

A union Sunday School Teacher Training Conference meeting will be held in the Chelsea Baptist church, Saturday, September 9th, at 3 p. m. Dr. McElfresh of Chicago, International Superintendent of Teacher Training will conduct the conference. Prof. F. S. Goodrich of Albion claims that Dr. McElfresh is the greatest living expert on the subject of Teacher Training.

Dr. McElfresh is in this state for eleven days. Union mass meetings are being held for him in the largest cities of the state and Chelsea can consider herself exceedingly fortunate in securing the services of such a remarkable man. It is an occasion of a life time on this important subject. It is hoped that the public and surrounding country will take advantage of this great opportunity, and come to the services.

A free will offering will be taken at the service to help defray his expenses.

New Bakery.

Edwards & Watkins, who are located in the Wilkinson-Rafferty building on east Middle street, expect to begin operating their new baking plant the last of this week. The new firm has installed all of the latest equipment for an establishment of this kind.

The oven has a capacity of 345 loaves of bread at each baking and has two compartments. The oven is heated with two hard coal furnaces. All of the mixing for both bread and cakes will be done by a dough mixer of the newest model.

Mr. Watkins is a practical baker and has had many years of experience in the large bakeries at Ann Arbor. The sales room and fixtures present an attractive appearance.

Must Be Improved.

For several years' past Uncle Sam's postal department at Washington has been notifying farmers and land owners along mud roads that unless the roads were made passable at all seasons of the year the rural free delivery would be discontinued over the same.

Farmers paid little attention to this warning sent out by the government and Uncle Sam is mad and will soon put in his threat into execution. In some instances rural routes will be abandoned while in others only that part of the routes which are impassible during bad weather will be cut out.

This will disarrange the postal service all over the country, but nobody will be to blame except the land owners along the routes, who are indifferent about the roads that pass their premises.

Discharged by the Court.

Friday afternoon at 3 o'clock in Detroit the postponed hearing of Conductor Fred Dresselhouse, and Motorman Woodin, who were charged with manslaughter in connection with the D. U. R. wreck which occurred at Dearborn July 30, was held and the two men were discharged with short formalities. Both have been out on bail since the occurrence.

Mr. Dresselhouse is at the home of his parents on William street Ann Arbor, and he is not exactly certain as to the reasons for the discharge. "I suppose they could not find sufficient evidence against us," he said. The justice simply told us that we were free, and we walked out.

Eucharistic Conference.

The fifth annual Eucharistic Conference for the priests of the diocese of Detroit will be held in the Church of Our Lady of the Sacred Heart of this place, on Tuesday, September 19th.

Preparations are being made to entertain 100 visiting clergymen. There are 147 members of the Priests' Eucharistic League. The ladies of the church will serve a dinner at one o'clock in the afternoon. The public is invited to attend the services.

The program will be as follows: 9:30 a. m.—Solemn high mass at St. Mary's church. The Blessed Sacrament will be exposed during mass, which will be followed by benediction. The visiting priests will assist in cassock and surplice.

OFFICERS OF THE MASS
Celebrant.....Rev. A. P. Ternes

Sylvan Theatre.

The engagement of "Tempest and Sunshine" a dramatization of Mary J. Holmes' popular novel, which is scheduled for Wednesday, September 13, at the Sylvan theatre on which date Brandon and Murray will present the Parker piece, is creating widespread interest among all classes of theatre goers in this city.

It is now an established fact that "Tempest and Sunshine" is the most successful production ever launched. The theme of the play deals with the direct opposites in temperament of two sisters and the complications in consequence. It is vivid and truthful in its portrayal and cannot fail to enlist the interest of all who see it.

The scenery is beautiful, everything used in the representation being carried by the company. The costuming is quaint and pretty, made in the fashion of 1850 which is the period of the play. The story is strong and interesting dealing principally with the southern aristocracy and is relieved with much comedy. Southern melodies are introduced throughout the play.

Arrested On Old Charge.

Henry Miller of Petersburg, Mich., was arrested by Deputies Sheriff Hipp and Ryan Tuesday night on a charge of arson.

Miller is accused of having set fire to a barn belonging to Henry Platt, north of Ypsilanti two years ago. The fire was discovered early enough to enable Mr. Platt and his neighbors to put it out, and incidentally to discover kerosene sprinkled all over the place. The authorities took it up quietly and the arrest Tuesday night is the result.

Miller was arraigned before Justice Doty of Ann Arbor, Wednesday afternoon and waived examination. He was bound over to the circuit court on \$1,000 bail and failing to give it was recommitted to jail.

Hard on the Fly.

Under a new ruling of the state dairy and food department, all grocers, butchers, bakers and dealers in fruit must exercise more care than ever covering vegetables, fruit and other foods they display. Hereafter none of it can be exposed to dirt and flies or unsanitary conditions.

This action is based on section 4978 on the compiled laws of Michigan amended in 1905. The law gives the department general supervision over all food products in so far as cleanliness and sanitation are concerned.

Meeting Cemetery Corporation.

The annual meeting of the Oak Grove Cemetery corporation will be held at 3 p. m. Thursday, September 14, 1911, in the town hall in Chelsea, for the purpose of electing officers and transacting other necessary business.

BUILT AN EIGHTY-TON SHIP

South Sea Missionary Who Wanted to Reach His Island Home Proved His Ingenuity.

A person engaged in missionary work in the South seas has told of the ingenuity of an American missionary in the Society Islands, who, though he knew next to nothing of ship carpentry and was, besides, almost destitute of tools, once accomplished the construction of a vessel of 80 tons' burden. It should be added, however, that in his youth this missionary had been apprenticed to an ironmaker.

It appears that, being desirous to reach more distant tribes, this missionary left his home in Raiatea and took passage on a trading vessel for Rarotonga, 300 miles distant. He learned soon after his arrival that ships rarely touched port at that island; and when his visit had extended over several months with no sight of a sail he began to wonder how he should ever get back. Finally, impelled by the stress of his situation, he determined to make a ship by which he could leave the island. The novelty and audacity of this plan amazed and fascinated the natives, who helped him with a will. Pieces of old metal from wrecks and an auger and carpenter's pliers, with several hatchets and knives, trophies of former bargainings by the islanders with white sailors, made up his whole outfit of iron and tools.

First he erected a stone forge and anvil and tried to equip his establishment with a goatskin bellows, but as it was impossible to protect the leather from the rats he substituted a kind of rude air pump, an apparatus that the natives greatly admired. He never lacked hands to blow it. He found plenty of timber—cocoanut and bamboo. Having no saw he made his planks by splitting trees and the islanders smoothed them after a fashion with the hatchets and knives. Wood with a natural crook supplied the knees, wooden pins served for nails and the calking of the seams was done with banana stumps and cocoanut fiber in place of oakum.

After long and patient toil the missionary and his native assistants launched a craft that rode the water. Somehow he contrived, with his amateur native crew, to navigate the vessel safely to his Raiatea home.

New Use for Sour Milk.
It is now pretty generally believed that sour milk has certain medicinal qualities not possessed by sweet milk. The lactic acid organisms which it contains seem to act as purifiers and disinfectants. It is therapeutic as well as nourishing, and, according to Elie Metchnikoff, promotes a healthy old age and long life.

The fact that the Iowa agricultural experiment station has recently developed a new sour milk food in the shape of lactic acid cream is of interest, therefore, to the hygienists as well as the confectioners and soda fountain folks. It is made just as is ordinary ice cream, except that sour milk is substituted for sweet milk. According to the inventors, lactic acid ice cream is very palatable and possesses a certain pungent tang which renders it peculiarly grateful in hot weather. They see "no reason why 'lacto' should not, within a reasonable time become just as popular as sherbet."

Making It All Right.
Marks: "I know your wife didn't like it because you took me home unexpectedly to dinner last night."

Parks—Nonsense! Why, you hadn't been gone two minutes before she remarked that she was glad it was no one else but you.

Another Blow at the Sex.
"Men," said the city salesman, "have a lot more sentiment than women. The photographs on the desks of people I visit on business prove that. In the course of a day I talk to about an equal number of men and women. Many of the men keep the picture of the only woman in the world standing in plain view on the desk, but not one woman in a thousand glances her soul with the photograph of the only man."

"It is owing to one of the unjust rules of men that they don't," said the stenographer. "If women office workers in a bunch ever turn suffragettes that photographic restriction will be partly to blame. It is stipulated in most office rules that no woman employee shall study the virgin purity of her desk with the picture of a man."

Reply Unexpected.
Wordsworth on one occasion, when talking to his wife, referred to a time when, "as you know, I was better looking."

"But, my dear," replied she, "you were always very ugly."—Scribner's Magazine.

Never Could See It Here.
The little Chicago girl had returned from her first vacation.

"You see lots of funny things when you're in the country," she said. "Out there when it's dark the sky's got a great white streak across it they call the milky way."—Chicago Record-Herald.

INCREASE SHOW IN URBAN POPULATION

Federal Census Statistics Are Made Public.

OVER HALF LIVE IN TOWNS

Wayne County, Which Contains the City of Detroit, Has the Highest Density, 857.4 Persons to the Square Mile.

Lansing.—Michigan's urban population increased nearly eighteen times as rapidly as the rural population gained in the decade preceding 1910, according to federal census statistics just made public. The percentage of the state's inhabitants classed as urban was 47.3 in 1910, compared with 39.3 in 1900. There were 35 counties in which the population living in rural territory decreased.

The population of the state classed as urban in 1910 is contained in 70 cities and nine villages. The rural territory of the state consists of 357 cities and villages of less than 2,500 inhabitants and the unincorporated territory.

Over one-half of the state's increase was in cities of 100,000 inhabitants or more. The gain in such cities was 9.8 per cent. in 1890, 11.8 per cent. in 1900 and 20.6 per cent. in 1910.

Detroit and Grand Rapids increased in population over three times as rapidly as the population of the state as a whole, and the cities having 25,000 to 100,000 inhabitants increased almost three times as rapidly, while the group of places having from 2,500 to 25,000 inhabitants increased but a little more rapidly than the population of the state as a whole.

Michigan has 106 cities. Of the nine largest Flint shows the highest percentage of increase during the last decade, 194.2 per cent., and Saginaw the lowest, 19.3 per cent.

Wayne county, containing Detroit, has the highest density, 857.4 persons per square mile, and Oscoda county the lowest, 3.5. Marquette county has the largest land area (1,870 square miles), while Benzie county has the smallest land area (114 square miles) of the counties in the state.

The following table shows the population of Michigan at each federal census from 1810 to 1910 inclusive, together with the increase and per cent. of increase during each decade, in comparison with the per cent. of increase for continental United States as a whole:

Year	Population	Increase	Per cent.
1810	2,010,173	289,191	14.4
1820	2,430,982	420,809	21.0
1830	2,963,590	532,608	21.9
1840	3,536,937	573,347	16.3
1850	4,184,659	647,722	15.5
1860	4,741,113	556,454	13.3
1870	5,287,654	546,541	11.5
1880	5,814,459	526,805	9.0
1890	6,377,654	563,195	9.5
1900	7,215,357	837,703	13.2
1910	8,139,239	923,882	12.8
1810-1910	4,129	6,129	14.8

Taft Requested to Open Fair.

President Taft has been asked to open the Michigan state fair in Detroit the morning of September 18, the first day of his visit to the state. Mayor Thompson, Milton McRae, president of the board of commerce; Secretary of State of the Bankers' club, and Congressman Smith of Pontiac were in conference at the Detroit club arranging a program for the president's visit. At the conclusion Mr. McRae sent a wire to the White House outlining the following schedule:

The presidential special will arrive in Detroit at 6:55 a. m., and will be met at the Michigan Central station by the committee from the board of commerce. It is probable that there will be a dining car on the special for Mr. Taft and his party, but if there is not one will be attached here and at 7:05 the trip to Pontiac will begin. The local committee will accompany the president on this trip, arriving in Pontiac at 8:30. A stay of an hour and a half will be made there.

On the return to Detroit, if the president is willing to visit the state fair, the special will stop there about 10:45. Thirty minutes have been allowed for an address at the fair grounds, and the run to the city will be finished about 12 o'clock.

At 12:30 the board of commerce luncheon will be held either at the Light Guard armory or at the Wayne Casino. There will be about 1,500 members of the board of commerce at the affair, and Gov. Chase S. Osborn, Senators Smith and Townsend and several of Michigan's congressmen are expected to be present. In case the president intends to speak on reciprocity a number of prominent Canadian citizens from Windsor and vicinity will also be invited to attend. The luncheon and addresses will last until nearly 4:25, at which time the presidential party will leave for Bay City.

U. of M. Allowance Raised.

Washtenaw county property holders are rather pleased, for while there has been a 32.2 per cent. increase in the valuation of state property, which will mean an increase in the university income of \$208,462.50 each year, the state taxes in Washtenaw county will be ten per cent. less than they were last year. The university at present receives \$650,897.50 as its share of the state funds, but under the new valuation it will receive \$855,750.

Value of State Over Half Billion.

Apparently the poverty pleas of the various counties whose representatives appeared before the state board of equalization recently had little effect on that body, as the equalized value of the whole state has been tilted from \$1,734,100,000 to \$2,290,000,000, an increase of \$555,900,000 since the last meeting of the board in 1906.

However, this increase is \$673,553, \$22 less than the value placed on the state by the tax commission in its report filed with the board. It was the contention of practically every representative that the board of equalization should not follow the dictates of the tax commission in this regard, as it was the unanimous opinion of every one interested in taxation matters that the tax commission had gone slightly beyond the limit.

That the board of equalization reduced the values as placed by the tax commission is no surprise to those who have followed closely the proceedings of the last two weeks.

In 1906 the state board of equalization placed a valuation of \$356,000,000 on Wayne county, but the total has been increased to \$500,000,000 this year, an addition of \$144,000,000. In its return to the auditor general, the board of supervisors placed the valuation of Wayne county at \$468,553,399, but after reviewing the report of the Wayne county board the state tax commission tilted the amount to \$695,913,145.

Therefore the present equalization of the richest county in the state is \$31,440,611 more than the supervisors prayed for, and \$195,913,145 less than the valuation of the state tax commission.

Caldwell Heads State Golfers.

In the sixth annual tournament of the Michigan State Golf League, which began at Grand Rapids, J. T. Wylie of the Saginaw Country club won the gold medal in the low qualifying championship flight with a score of 75. This equals the amateur record of the local links.

At the annual business session of the league the following officers were elected:

President, A. B. Caldwell of Detroit; vice-president, John Duffy of Grand Rapids; secretary and treasurer, C. D. Bennett of Detroit. The next annual meeting will be held in Detroit on the Detroit Golf club's grounds.

During the year two clubs have been admitted to the league, Kalamazoo and the Bloomfield Hill club. The latter is near Pontiac, and is composed of Detroit golfers.

One of the features advanced at the annual session was the proposition to have public golf grounds in all municipalities, the same as the playground movement. The idea was launched by President Caldwell of Detroit and will probably take firm root throughout the state, as the league members are heartily in accord with it.

In the qualifying rounds the results were as follows: William Alden Smith, Jr., of Kent defeated Wylie Carhart of Detroit; T. S. Hanley of the Highlands defeated Tom McBride of Kent; W. J. Pention of Grand Rapids defeated R. Jackson, Jr., of Detroit; Phil Stanton of Grand Rapids won over George B. Morley of Saginaw; Howard Lee, the state champion of Detroit, won over W. N. Corl of the Highland club; J. D. Standish, Jr., of Detroit won from Frank Smith of Ann Arbor; Bertram Smith of Saginaw defeated J. T. McMillan of the Detroit Country club.

County Ought Be Good Roads Unit.

Philip T. Colgrove, president of the Michigan State Good Roads association, gave the opening address of the annual convention to several hundred members who gathered in Representative hall.

"Just as long as we remain under the township system and continue the patch-work road business," he said, "we will continue to squander the people's money and accomplish but little, if anything. If the time ever comes when we are to have permanent roads built by competent men to benefit the whole people, the sooner we adopt the county system the better."

"The appropriations made by the legislature are collected from the taxable property of the whole state. Every county pays its share according to its assessed valuation. In six years the state has paid out over \$600,000 in award money. Is there any reason why Saginaw county should receive \$72,508 and Genesee \$5,064? Saginaw is getting more than her share, but what of it, so long as the others stand back and do nothing?"

Over 1,000 motor car owners are members of the association. Motor car manufacturers of the state have placed \$1,150 at the disposal of the association. President Colgrove recommends that a paid representative be selected in each county in Michigan to push the good roads movement.

Makes \$80,000 Selling Tax Lands.

Selling tax lands seems to have been a pretty profitable business for the state according to a report showing that for the lands sold in the last 11 years the state secured \$80,000, more than the taxes assessed against the land. Under the law which authorizes the auditor general to deed to the land commissioner for sale, all delinquent tax lands which have been held for five years, the state has secured \$1,586,554.17 from the sale of such lands during the past 11 years.

15,000 CARLOADS OF FRUIT IN MICHIGAN

CROP TRANSPORTATION IS LIKELY TO REACH NEW HIGH LEVEL THIS YEAR.

PEACHES, APPLES AND GRAPES ARE MAIN CROP.

Railroads Have Big Task on Hand and Rush Will Continue Until the End of October.

Railway men have made preparations to handle from 13,000 to 15,000 cars of fruit before the new year; perhaps 75 per cent of this crop will have been moved by fall.

May Reach New High Level.
The Pere Marquette and the Michigan Central railways will haul the lion's share of the crop, which is said to be likely to reach a new high level this year, unless a blighting frost injures the grapes before they are gathered.

F. E. Wolcott, state agent of the Fruit Growers' Express, the company which supplies a great part of the refrigerator cars in use for the transportation of perishable fruit, whose headquarters are at Grand Rapids, is reported to have placed the estimate of carloads of fruit to be handled at 13,000.

The additional work to the railway men is no mean task.

The Pere Marquette railway has already made arrangements to move 5,000 cars of fruit for the season. The Armours control the Fruit Growers' Express and 700 of these cars are awaiting the growers' signal. True, some of these shipments are moving already. The present season is fully a fortnight earlier than last year.

The peach crop is the Pere Marquette railway's immediate problem. Muskegon, Pentwater, White Cloud and Fremont are the chief points from which the shipments are made. Some grapes are already moving out of the Traverse City region. The Grand Rapids & Indiana railway gets a portion of this traffic also.

The week ending August 21 saw 158 carloads of fruit pull out of Pere Marquette railway points. The rush will continue well on until the end of October, if 1910 is a criterion whereby the business of 1911 can be approximated. For the next few weeks the average will be 70 cars of fruit a day over the Pere Marquette.

One estimate made for the Pere Marquette railway sometime ago was as follows: Peaches and plums—August, 205 carloads; September, 1,900 carloads; October, 45 carloads. Apples, pears and grapes—July, 479 carloads; August, 425 carloads; September, 1,600 carloads; October, 180 carloads.

The apple shipments, however, generally continue on this line until after the Christmas holidays.

M. C. Handles Grapes.

Michigan Central railway men are prepared to handle 5,000 cars of fruit this season. Grapes will form the principal part of this. Lawton, Decatur, Mattawan, South Haven and Grand Rapids are the chief shipping points for this great industry.

The fruit shipping season of the Michigan Central is a great deal shorter than is that of the Pere Marquette, for there are comparatively few apple orchards on the former line. The heavy season of this year, according to the Michigan Central car distributing office, will begin September 3 and will continue until October 7. The heaviest week is expected to be that of September 24, when it is estimated that 1,000 cars will be hauled.

The Michigan Central has a number of refrigerator cars of its own, but it, too, has to depend upon the rolling stock of the Fruit Growers' Express to handle part of the season's business.

Grand Trunk Gets Little.

Grand Trunk railway line gets but a small part of the fruit business of Michigan. Five hundred cars will be the outside amount of the first grade fruit on this line. This line will haul this fall, according to the estimate made by their traffic experts, five hundred carloads of apples is the outside approximation of the haulage of lower grade fruit of this kind which will be drawn into Holly to be ground into cider.

The Wabash railway which, as far as Michigan is concerned, may be considered a through road, gets very little fruit. Just now, however, it is handling four carloads of celery a day on an average from Kalamazoo. It is being shipped to St. Louis. This is not the celery season, either.

An idea of what the railroads receive on those perishable shipments may be gained from the charges of the Fruit Growers' Express which from the Michigan fruit sections to New York run to about \$40, inclusive of the icing. The average receipts of the Pere Marquette railway for the haulings is about \$50 a car, taking the long and short hauls into consideration. The railways, in addition, have to pay to the Fruit Growers' Express people three-quarters of a cent a car mile for the cars.

Gov. Osborn Named Following Delegates to the National Conservation Congress.

The quarterly conference of the Saginaw Board of Commerce was held at Winona beach on Saginaw bay. Those present were addressed by Bransford Hunt, of the United States engineering corps of Detroit, on plans for deepening the Saginaw river. The attention of the conference was directed to a discussion of transportation facilities. It was pointed out that reciprocity with Canada would solve the problem, as trade could be carried out with Canadian lake shore points.

EQUALIZED VALUE OF STATE RAISED

WAYNE IS PLACED AT \$500,000,000, A RAISE OF \$34,000,000 OVER PRESENT ASSESSED VALUE.

TOTAL FOR STATE IS ANNOUNCED AS \$2,290,000,000.

Houghton County Reduced and Most of the Iron Ore Counties Are Advanced by Large Amounts.

Apparently the poverty pleas of the various counties whose representatives appeared before the state board of equalization last week had little effect on that body, as the equalized value of the whole state has been tilted from \$1,734,100,000 to \$2,290,000,000, an increase of \$555,900,000 since the last meeting of the board in 1906.

However, this increase is \$673,553, \$22 less than the value placed on the state by the tax commission in its report filed with the board last week. It was the contention of practically every representative that the board of equalization should not follow the dictates of the tax commission in this regard, as it was the unanimous opinion of every one interested in taxation matters that the tax commission had gone slightly beyond the limit.

That the board of equalization reduced the values as placed by the tax commission is no surprise to those who have followed closely the proceedings of the last two weeks.

Miles Standish

In the Old Colony days, in Plymouth, the land of the Pilgrims, To and fro in a room of his simple and primitive dwelling, Clad in doublet and hose, and boots of Cordovan leather, Strode, with a martial air, Miles Standish, the Puritan Captain. Buried in thought he seemed, with his hands behind him, and pausing Ever and anon to behold his glittering weapons of warfare, Hanging in shining array along the walls of the chamber—Cutlass and corselet of steel, and his trusty sword of Damascus, Curved at the point and inscribed with its mystical Arabic sentence, While underneath, in a corner, were fowling-piece, musket, and match-lock.

Short of stature he was, but strongly built and athletic, Broad in the shoulders, deep-chested, with muscles and sinews of iron; Brown as a nut was his face, but his russet beard was already Flaked with patches of snow, as hedges sometimes in November. Near him was seated John Alden, his friend and household companion, Writing with diligent speed at a table of pine by the window; Fair-haired, azure-eyed, with delicate Saxon complexion, Having the dew of youth, and the beauty thereof, as the captives Whom Saint Gregory saw, and exclaimed, "Not Angles, but Angels." Youngest of all was he of the men who came in the Mayflower.

Suddenly breaking the silence, the diligent scribe interrupting, Spoke, in the pride of his heart, Miles Standish, the Captain of Plymouth. "Look at these arms," he said, "the warlike weapons that hang here Burnished and bright and clean, as if for parade or inspection! This is the sword of Damascus I fought with in Flanders; this breastplate, Well I remember the day! once saved my life in a skirmish; Here in front you can see the very dint of the bullet.

Fired point-blank at my heart by a Spanish arquebuser. Had it not been of sheer steel, the forgotten bones of Miles Standish Would at this moment be mold, in their grave in the Flemish morasses."

Thereupon answered John Alden, but looked not up from his writing: "Truly the breath of the Lord hath slackened the speed of the bullet; He in his mercy preserved you, to be our shield and our weapon!"

Still the Captain continued, unheeding the words of the stripling: "See, how bright they are burnished, as if in an arsenal hanging; That is because I have done it myself, and not left it to others."

The Puritan Maiden, Priscilla.

Serve yourself, would you be well served, is an excellent adage; So I take care of my arms, as you of your pens and your inkhorn. Then, too, there are my soldiers, my great invincible army, Twelve men, all equipped, having each his rest and his matchlock, Eighteen shilling a month, together with diet and pillage. And, like Caesar, I know the name of each of my soldiers!"

This he said with a smile, that danced in his eyes, as the sunbeams Dance on the waves of the sea, and vanish again in a moment. Alden laughed as he wrote, and still the Captain continued: "Look! you can see from this window my brazen howitzer planted.

High on the roof of the church, a preacher who speaks to the purpose, Steady, straightforward, and strong, with irresistible logic, Orthodox, flashing conviction right into the hearts of the heathen.

Now we are ready, I think, for any assault of the Indians; Let them come, if they like, and the sooner they try it the better—Let them come, if they like, be it sagemore, sachem, or powwow, Aspinet, Samoset, Corbitant, Squanto, or Tokamahamon!"

Long at the window he stood, and wistfully gazed on the landscape, Washed with a cold gray mist, the vapory breath of the east wind, Forest and meadow and hill, and the steel-blue rim of the ocean, Lying silent and sad, in the afternoon shadows and sunshine.

Over his countenance flitted a shadow like those on the landscape, Gloom intermingled with light; and his voice was subdued with emotion, Tenderness, pity, regret, as after a pause he proceeded:

Better to hide from the Indian scouts the graves of our people, Least they should count them and see how many already have perished! Sadly his face he averted, and strode up and down, and was thoughtful.

Fixed to the opposite wall was a shelf of books, and among them Prominent three, distinguished alike for bulk and for binding; Barlow's Artillery Guide, and the Commentaries of Caesar.

Out of the Latin translated by Arthur Golding of London, And, as if guarded by these, between them was standing the Bible.

Musing a moment before them, Miles Standish paused, as if doubtful Which of the three he should choose for his consolation and comfort, Whether the wars of the Hebrews, the famous campaigns of the Romans, Or the Artillery practice, designed for belligerent Christians.

Finally down from its shelf he dragged the ponderous Roman, Seated himself at the window, and opened the book, and in silence Turned o'er the well-worn leaves, where thumb-marks thick on the margin, Like the trample of feet, proclaimed the battle was hottest.

Nothing was heard in the room but the hurrying pen of the stripling, Busily writing epistles important, to go by the Mayflower, Ready to sail on the morrow, or next

"Look at These Arms," He Said.

"Yonder there, on the hill by the sea, Lies buried Rose Standish; Beautiful rose of love, that bloomed for me by the wayside! She was the first to die of all who came in the Mayflower! Green above her is growing the field of wheat we have sown there."

day at latest, God willing! Homeward bound with the tidings of all that terrible winter, Letters written by Alden, and full of the name of Priscilla, Full of the name and the fame of the Puritan maiden Priscilla! (TO BE CONTINUED.)

High Degree of Devotion

Fidelity Shown by Virginia "Darky" That Annals of History May Be Searched to Match.

Dick was a nigger, just a Virginia slave nigger. When a little boy, he was scullion in the kitchen. He carried the wood and water for the cook, and scoured the pots and kettles, and scoured the spit when the turkey was turned the spit when the turkey was roasted, dipping and basting the gravy from the pan, and nodding in his work after the manner of all small darkeys.

When the war came the carriage rested in the carriage house, the horses were taken by the Yankees, and Dick became my servant in the army of the south—a gentleman's gentleman, as he called himself.

No man ever had a more faithful and devoted follower than I had in Dick. He was captured twice with me by Union forces, and each time refused the freedom which his capture gave him. "I don't want to be no freer than I always has been," he said on both of these occasions. Once I discharged him for being drunk. Think charged him for being drunk. Think of discharging a slave! It was at Chattanooga, and Dick hung around headquarters for several days and was very unhappy. Finally he came to me with a Bible in his hand and said: "I want to swear on this that if you will take me back I will not drink a drop during the war." He took the oath and kept it faithfully to the end, at Appomattox.

When I was captured at Rich Mountain I was ill, and was sent to a Federal hospital, an immense tent, I had not fully recovered when we evacuated our position, and wandering about the mountains in the rain for about two days and two nights without food had brought on a relapse. And he

sides enduring the exposure, we had forded the river nine times in the vain effort to avoid large bodies of the enemy's troops. The sand had got into my boots, and when my socks were taken off, the skin came off with them. I was a pitiable object. Dick stuck to me. He was free now to go where he pleased, but he never left me. He was by my cot all day, kept off the flies from my raw and skinned feet, and did what he could to alleviate my sufferings. At night he crept under my cot and took his only rest on the bare ground. When I was well enough to go north with Colonel Pegram, I asked Dick what he was going to do, now that he was free. He said that he would go with me. When I told him that was impossible, he said: "Well, if I can't go with you, I will go back to Miss Lizie" (my wife).

When he was leaving I gave him \$200 in Virginia Valley bank notes (it was before the days of Confederate money), and he walked 263 miles—by way of Staunton 150, and down the valley, a hundred and thirteen—to my home in the valley, and gave my wife 196 of the money.—Maj. A. R. H. Ransom, Late Major of Artillery, C. S. A., in Harper's Magazine.

Physical Limitations.

There was a very stupid play presented early in the New-York season, an "adaptation" it was called by the author. Even the best-natured critics went away in disgust. One newspaper representative turned to another and said: "If this jumble had been presented on the other side of the water it would have been hissed. As there were a lot of foreign visitors present I wonder that it was not."

"It really is a wonder," was the other's reply. "I would like to have hissed myself, but you can't rave and hiss at the same time."—Metro politan Magazine.

SEVEN PROMINENT
TOLEDO MEN DROWNTHIRTY-FIVE-FOOT LAUNCH SUNK
BY 500-FOOT FREIGHTER IN
THE MAUMEE RIVER.COUNCILMAN, SUPERINTENDENT
AND PROMINENT CITIZEN LOST.Toledo Party Bound for Kelley's Is-
land, Where They Expected to
Fish for Bass Over Labor
Day Holiday.

Seven men were drowned in the Maumee river about one-half mile north of the Red Can buoy, Toledo, when the 35-foot launch, Nemo, owned by Michael Mayer, was struck by the 500-foot freighter, Philip Minch, inbound for the C. H. & D. dock.

The party was bound for Kelley's island, where they expected to fish for bass over the Labor Day holiday. With the exception of Michael Mayer, owner of the launch, all were lost. Mayer was saved by members of the crew of the Minch. The members of the unfortunate party boarded the Nemo shortly after midnight. The crash came as the launch left the dock and crossed the channel in mid-river to straighten away on her course down stream.

Capt. L. B. Cummings of the Minch, his brother, F. H. Minch, the first mate, Abner Busler, the watchman and August Swan, the wheelman, were on the forward deck of the freighter and were eyewitnesses of the accident.

Capt. Cummings says that the wheelman was throwing the searchlight across the river channel, looking for fish net stakes, when they first espied the launch, which he thought was a mile and a half distant. The launch was then 150 feet out of the course of the channel to the westward.

The steamer hit the launch before it could slow up, and the eight occupants of the little boat were thrown into the river.

Gogebic County Enters Protest.

Consternation at the action of the state equalization board just closed at Lansing in raising the valuation of Gogebic county from its present figure of \$15,000,000 to \$40,000,000 has upset all prognostications pertaining to tax matters there. Under this new state equalization, and if local assessments as between mining and other property are not changed by the state tax commission, local taxpayers must face a tax rate this year of from 7 to 10 per cent of the value of their property, and it will mean a total abandonment of further local improvements. Taxpayers are already organizing to file formal demand upon the state tax commission to come up here and review local assessments in time for distributing the added valuation upon the miners.

Women Forced to Work 14 Hours a Day.

State Labor Commissioner Powers says his inspectors are finding many places in the state where the law regulating the hours of work of women is violated, and declares that as fast as possible these infractions of the law will be prosecuted. A letter from Harbor Springs received by the department tells that women clerks in some stores in that town are compelled to work from 8 o'clock in the morning until 10 o'clock at night. Miss Luella Burton, inspector, has reported that in Menominee she found a manufacturing firm which was requiring its women employees to work 10 hours a day six days in the week.

One Killed, Three Injured in P. M. Wreck.

Engineer Charles Lassfolk of Benton Harbor was killed; Fireman James Slater of St. Joseph was badly scalded, and two women passengers, one Mrs. Ann Wakefield, of Chicago, were injured, when Train No. 13, Pere Marquette local northward, jumped the track near Hand 13 miles north of Benton Harbor. Spreading rails is believed the cause of the accident. The engine went over a six-foot embankment and Lassfolk sticking to his post was buried beneath the great weight of steel; his body, hardly recognizable, was recovered two hours later. Fireman Slater saved his life by jumping.

Twenty Counties Pay Mortgage Taxes

Twenty counties have forwarded to Auditor General Fuller collections of specific taxes on mortgages which are now payable at the rate of one-half of 1 per cent on all mortgages now in force, relieving the owners from paying the general tax. The state receives one-half of the amount collected in each county, and Bay has remitted \$27, Genesee \$103, Ingham \$123, Jackson \$12, Lenawee \$136, St. Clair \$43 and Wayne \$436.

A new Ann Arbor freight depot will be erected in Cadillac, as the one at present interferes with the view of Cadillac lake from the new \$30,000 depot.

Sherburn Gates of Durand has received notice that his nephew, the late John W. Gates, left him and family \$14,000.

A vault in the Central high school, Traverse City, was opened for the first time in 11 years. When Superintendent C. H. Horn left the vault was locked and the combination lost. It was opened by tearing through the wall and unlocking it from the inside. When Superintendent Tyler arrived he found the present vault full and ordered the old vault opened. Many valuable records, the existence of which had been forgotten, were found.

60,000 Men May Strike.

Announcement was made in Chicago that a strike of mechanical workers on the Harriman railroads and two other systems was expected in the near future as a result of the final refusal of Julius Kruttschnitt, vice-president of the Union Pacific, to recognize the new Federation of Mechanical Trades in any way.

Kruttschnitt's stand was taken after a conference in San Francisco with the five international union presidents.

In event a strike is called, some 60,000 men will be called out, and every railroad in the west will suffer. Shops will have to be closed and traffic tied up completely. The strike, it was estimated, would cost \$90,000,000.

Roger Q. Mills Dead.

Roger Q. Mills, confederate soldier, able lawyer, Democratic statesman and one of the foremost men of the southwest, died in Corsicana, Tex., aged 79 years.

Since his retirement from the United States senate in 1897, Mr. Mills had devoted himself to the care of his estate and had come into a considerable fortune through the discovery of rich oil wells on the property. He had been in ill health for the past few years and had been rapidly failing of late.

After the Lumber "Trust."

On his last day at district attorney for the eastern Michigan district of the United States circuit court, Frank H. Watson began proceedings against the so-called lumber "trust." He seeks an injunction against the alleged unlawful activities of the lumbermen, charging a conspiracy to restrain trade and commerce.

FALL PICKLING.

In almost every household there are old and valued recipes which are handed down from mother to daughter, recipes so choice that it is an especial favor to have one given you. Here is a valued recipe for dill pickles: Take forty cucumbers three or four inches long, put into salt water strong enough to hold up an egg, a handful of dill seed or six large sprays of fresh dill, and a dozen grape leaves. Put a layer of grape leaves in the bottom of a jar and add the cucumbers and brine with the dill. Cover the top of the jar with several layers of grape leaves and let stand a week, when the pickles will be ready to use.

Tomatoes for Meats.—Chop fine sixteen ripe tomatoes, four small onions and a cupful of celery, add three tablespoonsful of salt, one cup of vinegar, a cup of sugar and cayenne pepper to taste. Place in a sterilized can and seal without cooking.

Chow-Chow.—Prepare the following vegetables and cut in small pieces: Two quarts of green tomatoes, twelve small cucumbers, three red peppers, one cauliflower, two bunches of celery, one pint of small onions, two quarts of string beans. Mix together a fourth of a pound of mustard, two ounces of tumeric, half an ounce each of allspice, pepper and cloves and a gallon of vinegar. Cover the vegetables with salt and let stand twenty-four hours. Heat the vinegar with the spices to the boiling point, add the drained vegetables, cook until soft.

Green Tomato Pickles.—To a peck of sliced green tomatoes add half a dozen onions and a cup of salt; let stand over night and drain; add two quarts of vinegar, two cups of brown sugar, half an ounce of cloves and one of cinnamon. Cook all together until the tomatoes are a little soft, not too tender, then put away in a stone jar after adding a freshly grated horseradish. These will keep a year or longer.

Chili Sauce.—Peel twelve medium-sized tomatoes very ripe, one finely chopped red pepper, one onion chopped, two cups of vinegar, three tablespoonsful of sugar, a tablespoonful of salt, two teaspoonfuls each of cloves, cinnamon, nutmeg, and allspice. Heat slowly to the boiling point and cook two and a half hours.

ARE is no cure, but rather corrosive. For things that are not to be remedied. —Shakespeare.

THE FALL MUSHROOMS.

During September and up to the time that the frost appears, mushrooms grow in abundance. "If you look you may find where they grow." The delicious field mushroom, by name agaricus campestris, is found in profusion in old pastures. If the mushrooms are gathered early in the day, and before they show their gills (while they are yet in the button stage). They may be kept for winter use by boiling in a strong salt brine and putting them in fruit jars; cover with the brine and add a tablespoonful of salt to each jar before sealing.

When wanted for use, soak in clear water until sufficiently freshened, then cook as desired. A few jars of this delicious vegetable would not only give variety to the winter table but save much in the purse to purchase delicacies not local.

There is no dish more delicious than creamed mushrooms, and to be able to serve a company with this appetizing dainty in midwinter and not suffer financially is worth while. Many amateurs are raising the mushroom in old cellars, but it takes great care to keep the temperature just right, so that few make a success at it.

Mushroom Salad.—Parboil the mushrooms in a little water five minutes, drain well and when chilled add an equal portion of celery and dress with mayonnaise.

Creamed Mushrooms.—Peel and trim a pint of mushroom caps and stems and put in a saucepan with a tablespoonful of butter; cook five minutes, dust with a tablespoonful of flour, pepper and salt, and pour over a cup of cream. When smooth and thick pour over well-buttered toast and serve at once.

Broiled Mushrooms.—Place the caps upside down on a broiler for the first half of the broiling, then reverse and fill the cap with butter, pepper and salt, and serve as soon as the butter is melted. They will need to be handled carefully, not to lose the juices.

Soft Water for Good Tea.

"New York water is too hard to make good tea," said the English matron. "The use of soft water is one secret of tea making that New York people seem never to have learned. Before we found that we could buy soft water bottled we softened the water for making tea with 'fish of soda'."

WHY BE WEAK?

Why suffer backache, headache, dizziness, weariness, urinary irregularities and other troubles that arise from disordered kidneys when relief is so near at hand? Doan's Kidney Pills have cured thousands. Mrs. George Earl, Madison, Neb., says: "For over a year I was afflicted with terrible kidney trouble. I was subject to hot flashes, became dizzy and felt tired and exhausted. Puffy spots appeared beneath my eyes and my feet were so swollen I could scarcely wear my shoes. I noticed improvement after I began taking Doan's Kidney Pills and was soon cured. The swelling and bloating disappeared. I can rest like a child and have gained ten pounds in weight."

Remember the name—Doan's. For sale by druggists and general storekeepers everywhere. Price 50c. Foster-Milburn Co., Buffalo, N. Y.

The Man in Front.

"Who is 'at funny man standing up in front of the band wavin' a stick'?" "That, my dear, is the conductor."

"Does he make the music go?" "Yes, my child."

"Well, then, why don't they call him the motorman?"—Judge.

Risked Punishment for Dog.

A pleasing story of a prisoner's love for his dog comes from North Yakima, Wash. Michael Short, sentenced to the street chain gang to work out his fine, escaped with two other men recently, but somewhat to the surprise of his overseers turned up again for work the next morning. Mike explained to the officer that acts as foreman that he had left his little dog tied beneath his bed at home and that he had stolen away to liberate it, as it had been three days without food or water.

FOUND RIGHT PATH After a False Start.

"In 1890 I began to drink coffee. "At that time I was healthy and enjoyed life. At first I noticed no bad effects from the indulgence but in course of time found that various troubles were coming upon me. "Palpitation of the heart took unto itself sick and nervous headaches, kidney troubles followed and eventually my stomach became so deranged that even a light meal caused me serious distress.

"Our physician's prescriptions failed to help me and then I dosed myself with patent medicines till I was thoroughly disgusted and hopeless.

"Finally I began to suspect that coffee was the cause of my troubles. I experimented by leaving it off, except for one small cup at breakfast. This helped some but did not altogether relieve my distress. It satisfied me, however, that I was on the right track.

"So I gave up coffee altogether and began to use Postum. In ten days I found myself greatly improved. My nerves steady, my head clear, my kidneys working better and better, my heart's action rapidly improving, my appetite improved and the ability to eat a hearty meal without subsequent suffering restored to me. And this condition remains.

"Leaving off coffee and using Postum did this, with no help from drugs, as I abandoned the use of medicines when I began to use the food drink. Name given by Postum Co., Battle Creek, Mich.

WORK FOR EDUCATION

MANY STUDENTS SUPPORT THEMSELVES IN COLLEGE.

Statistics Gathered at Princeton University Showing the Varied Occupations That Were Taken Up by the Young Men.

Statistics recently gathered at Princeton, show that 40 per cent. of the students are working their way through college. This means that of the entire enrollment of 1,442 students 577 are helping themselves to gain an education. These figures include all those who are making money in small and large amounts, and do not mean that the men are not getting outside assistance of a substantial kind. Students paying half their expenses are included in 20 per cent. figures, and those paying their way through without any help from others could be put within the ten per cent. limit.

There are scores of ways of making money at Princeton, and the fact that so many students take advantage of them is sufficient evidence that to work a little on the side is considered highly honorable by the student body as a whole, and it explains the further fact, that among those working their way through are some of the most prominent men in college, both in athletics and in scholarship. One of the most popular ways of making enough money to help pay a term bill or keep the recipient in spending money is work on the college publications.

Agencies of various kinds—from laundry work to socks that won't tear out—give profitable employment. Three principal laundries doing student work have student representatives. These men are usually athletes, as are those who have clothing and athletic goods agencies. Calendars are sold by students at one dollar apiece and cigarettes, tobacco, steins, pennants, sofa pillows, pipes and the like are offered to the students, but to freshmen especially, at the beginning of every college year. Freshmen carry baskets around, well stocked with pretzels and chocolates. Soft hat men come through the dormitories in the fall and straw hat men in the spring. Shoes are sold by students, and orders for clothing of various kinds are taken. Program privileges on the occasion of athletic events are frequented, and the advertising thereon yields a good return.

Students are agents for typewriters, bicycles, kodaks, golf sticks, caps, canes and the like. The privilege of taking newspaper subscription on the campus is considered a good one. Magazines are represented in Princeton by the score. Pressing establishments yield some money—New York Times.

What She Wanted.

"I, for one, am in favor of the bill to abolish the use of aligrettes and paradise plumes in ladies' hats. I favor this bill not only for moral reasons, but for financial ones as well."

The speaker was Col. Lionel C. Harris, the well-known ornithologist of Memphis. He resumed:

"The cost of these aligrettes and paradise plumes is a dreadful thing for any husband to contemplate. I saw yesterday a Virot hat covered with aligrettes that was ticketed \$200. And that reminds me—

"A lady novelist wrote to a publisher last month:

"Please send a check in advance of royalties. I want to buy a new hat for a June wedding."

"The accommodating publisher sent the lady a check for \$50. She acknowledged it indignantly.

"I said," she wrote, "that I wanted a hat, not a veil."

Constitution Book of Tammany Society, 122 Years Old, Is Great Autograph Album.

In the possession of the Tammany Society, or Columbian Order, to give the full title of the organization, is a book now 122 years old. The autograph of every person who has joined the society since it was founded on May 13, 1789, can be found in this book, which is probably the largest collection of autographs in this city.

It is called the Constitution Book, because on its first pages, written out in faded ink, is the constitution drawn up by William Mooney, the founder of the society and its first grand sachem, at the original meeting held at Barden's old tavern in lower Broadway. It was ordered by Mooney at that meeting that every member upon joining should repeat this constitution and then affix his name to it. The constitution contains among other things the pledge that the person signing shall sustain the state institutions and resist a consolidation of power in the central government.

The first signature on the long list which follows the constitution in the old book is that of Mooney. Originally the book was a small volume, but in the century and a quarter that has passed new pages have been added until now it is a book of over 600 pages. The original covers have been kept, and the first part of the book is made up of pages now yellow with age and upon which the ink is fast fading.

The autographs of many famous men follow that of William Mooney on these pages. At the annual meeting on the society's anniversary, the book is taken out, and it plays a part in the ceremonies, particularly if new members are to be admitted to the society, which in a way is kept separate and distinct from the political organization.

Of the early records of the Tammany Society the Constitution Book alone survives, the others having been destroyed in the several fires which have visited the wigwag. The Constitution Book is now kept in a fire-proof safe and is only taken out on special occasions.

Wouldn't Stand for It.

Senator Crawford, says the New York World, can make more noise during the delivery of a speech than any other man in public life. He will walk to and fro, banging the desks until the screws come out and tossing forth his voice until it can be heard a mile away.

One of Senator Penrose's economical constituents heard the rumbling on the floor below and inquired what was transpiring.

"Oh, Mr. Crawford is taking a little exercise," answered Mr. Penrose. "Don't worry about it. The government is paying for it, and there will be no extra expense."

Vice President Sherman was holding his hands over his ears and looking at Mr. Crawford in amazement, when Secretary Bennett slowly and solemnly climbed up the steps to his desk and said:

"The boys up in the press gallery complain that they are unable to hear Mr. Crawford distinctly. They request that you ask him to speak a little louder."

"Tell the boys in the press gallery to go to thunder," yelled Mr. Sherman, pulling his mouth down at the corners.

Night Life of Berlin.

Berlin, the city which never sleeps, has long since outdistanced all its European rivals as a city of night life. In addition to its all-night cafes, day-break restaurants, and theaters which only open their doors at midnight, Berlin has now a magnificent bathing establishment which is open every hour in the 24. The newly-built "Admirals-Bad" in the Friedrichstrasse, which has recently been opened, is one of the finest bathing establishments in all Germany. Its swimming baths, both women's and men's, are resplendent in the finest majolica marble and bevelled glass, while the Roman and Turkish baths are more than Oriental in their luxury.

A small army of masseurs and attendants is constantly on duty, and the great doors of the establishment are never closed. Attached to the baths is a large and up-to-date restaurant, where Berlin night revellers, after enjoying a swim at three o'clock in the morning, may be seen eating an early breakfast in their bathing dress.

Wasn't Quite Sure.

At about 1:30 the other morning there came a furious ringing at the door bell of a quiet house on East Seventieth street. After a few minutes had elapsed a head was thrust out of the second-story window and the following conversation ensued:

"What do you want?"

"Is this where Mr. Tawker lives?"

"I am he."

"Did you deliver an address on 'Heroes of History' at the C. E. convention this evening?"

"I did."

"You spoke of a man who had done beautiful deeds for humanity. His name was Philip Moore. Was he a Catholic or a Protestant?"

"He was a Protestant. But what do you want?"

"Thank you, thank you, that's all I want. I'm the shorthand reporter that took down your speech, and I couldn't tell from my notes whether the hero entered the ministry or a nonentity. Much obliged for setting me right. Good night!"—Cleveland Plain Dealer.

Looking for New Potato Types.

The explorers have been looking up the potato plant in its native home in Central America and Mexico and have found about 40 species, all of which have leaves and tubers after the same general fashion as the ordinary market potato. The professors are not sure that any of the wild kinds are capable of producing varieties of any greater merit than our present commercial potatoes, although it is considered possible that good types of potatoes could be obtained from two or three other types quite different in appearance from common potatoes and which are already being taken up by the experiment stations.

For the Hostess

A Pendule Party.

Who originated this unusually clever party I know not, but I see its possibilities and I am sure our readers will appreciate the efforts of the one who worked it out. In the first place "Pendule" means clock. It is the French and adds a bit of mystery to the invitations which should bear the face of a clock. Have six tables, four players at each. I will now quote from the description given me:

Twenty minutes were allowed at each table, then the men progressed; in this way they met all the ladies. Places at the table were found by booklets in which was space to write the answers; a question and picture of a clock were on the cover of each. For table 1, couple 1, the hour hand pointed to one o'clock and the quotation was:

"One truth is clear."—Pope.

For table 1, couple 2, the hour hand pointed to two o'clock and the quotation was:

"Two heads are better than one."—Heywood.

An Airship Dinner.

Every one is more or less interested in the great experiments being made in aviation, so with this in mind a hostess used a lovely miniature airship gotten at the toy department, over her table at a dinner given for eight guests. The favors were diminutive airships and the place cards were painted with balloons and airships floating over the surface of the card. Each guest was asked to express his or her opinion upon the success of aeroplanes; as several of the guests had had actual experience this was a most interesting feature of the affair. One of the women had been "up" and another was about to accept an invitation, so it was all very exciting. Perhaps the time is not far distant when "sky" pilots will be as necessary as those on the sea.

IN VOGUE

Much pink linen in coarse weave is seen.

Beaded bags are in great favor again.

The tapestry bag is quite the rage.

We see white and black with everything.

Many of the new motor veils are as large as scarfs.

Large collars in pique are worn with serge suits.

Black satin trims some of the dainty pique collars.

White serge suits often show a touch of bright color.

Embroidery is the dominant note in summer dress decoration.

There are ribbon effects galore in present coiffure decoration.

Suede shoes, with tiny straps over the insteps, are popular.

Paris prophesies that the fall will see wide gowns.

The use of numerous small buttons as a trimming for waists, etc., is a feature of interest.

Children's Dresses

THE pretty little dress at the left is of white muslin made with fine tucks and valenciennes lace insertion. The yoke is of valenciennes lace bordered with a scroll embroidery through which a pale blue satin ribbon is run.

The elbow sleeves and the skirt are trimmed in the same way.

The sash is of pale blue satin ribbon drawn up high on one side, where it is fastened with a rosette, from which hangs a long end finished with a ball fringe.

The next dress is of fine white nainsook. The square yoke is composed of embroidery, valenciennes lace and bands of the nainsook embroidered with French knots.

Down the center of the front of the dress there is a band of embroidery with valenciennes lace and groups of fine tucks on either side.

Two bands of valenciennes insertion separated by a band of the nainsook with the French knots form the belt, while the skirt is finished at the bottom with tucks, valenciennes insertion and embroidery.

The third sketch, at the right, shows a charming little dress to be made up in white pique.

The skirt is so made that it gives the effect of a very deep hem turned back at the top at the left side to form tiny revers which are ornamented with buttons. Below these revers there are knots and loops of cord.

The blouse with short kimono sleeves, is made and trimmed to correspond, and is finished in front with a knot of pale blue satin ribbon, of which the giraffe is also made. The gimpes and undersleeves are of tucks and English embroidery.

Out of the Whaleback. Jonah joined the Vacation Liars club. "Yes," he remarked, "I enjoyed my ocean trip immensely."

Woman's Danger Periods Made Safe

By Lydia E. Pinkham's Vegetable Compound

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Here is proof:

Natick, Mass.—"I cannot express what I went through during the Change of Life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold. I had creepy sensations and could not sleep nights. I was finally told by two physicians that I had a tumor.

"I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish this letter."—Mrs. Nathan B. Groaton, 51 No. Main St., Natick, Mass.

ANOTHER SIMILAR CASE.

Cornwallville, N. Y.—"I have been taking Lydia E. Pinkham's Vegetable Compound for some time for Change of Life, nervousness, and a fibroid growth.

"Two doctors advised me to go to the hospital, but one day while I was away visiting, I met a woman who told me to take Lydia E. Pinkham's Vegetable Compound. I did so and I know it helped me wonderfully. I am very thankful that I was told to try Lydia E. Pinkham's Vegetable Compound."—Mrs. Wm. Boughton, Cornwallville, N. Y., Greene Co.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

A WORD WITH WOMEN

Valuable Advice For Chelsea Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." When the kidneys get congested and inflamed, there are many such aches and pains and the whole body suffers.

You can tell it is kidney if the secretions are dark colored, contain sediment; the passages are too frequent or scanty. Then help the weakened kidneys. They can't get well alone.

Doan's Kidney Pills have brought sound backs and new life and strength to thousands of suffering women. They are endorsed by thousands—endorsed at home—Read this Chelsea woman's convincing statement:

"Mrs. Cordelia Maroney, Railroad St., Chelsea, Mich., says: 'I was greatly benefited by Doan's Kidney Pills. I suffered from backache and pains through my kidneys and my bladder was also affected. The contents of two boxes of Doan's Kidney Pills helped me wonderfully, removing my aches and pains and correcting the kidney difficulty. I can praise this remedy highly.'

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Botanists in Alarm.
No little alarm is being felt among botanists at present at the rapid disappearance of the wild flowers of the Hawaiian islands. The flowers are beautiful beyond description, but many of them have become extinct already. Some of them have very strange properties or habits. For instance, the flower of the Hau tree lasts but a single day, opening at sunrise and closing at sunset. The Koala-Awahu is another beautiful flower and it changes from purple to pink during the day. Some of these flowers, such as the Poulahne, bloom only in April and May, but the greater number seem to bloom nearly the entire year. Some of the vines are very prolific, one of them spreads over an entire acre of ground. One curious plant is a fly catcher, and still another lures unsuspecting insects to destruction by a peculiar odor and light.

No Fear.

Robert W. Chambers has, as a novelist, a fertility that is only exceeded by his brilliance.

At the Century club, in New York the other day one of those elderly bachelors who are the bane of all clubs drew his chair up to Mr. Chambers' and said genially:

"Chambers, you are writing at the rate of two and sometimes three novels every year, to say nothing of your annual sheaf of short stories. Aren't you afraid that a time will come when you will have written yourself out?"

"My dear sir," Mr. Chambers replied, "I have no such fear. Just look at your own case. You have been talking for more than sixty years, and yet you haven't talked yourself out, have you?"

Mortgage Sale.

Default having been made in the payment of principal and interest due and payable under the terms and conditions of a certain mortgage executed and assigned by Henry P. Dodge of Whitefish Township, Michigan, of the County of Washtenaw, to the State of Michigan, and County of Washtenaw, on the 1st day of June, A. D. 1906, in Liber 112 of Mortgages at Page 55.

And which said mortgage was duly assigned by the said Henry P. Dodge to the State of Michigan, on the 24th day of November, A. D. 1906, and the said mortgage is now due and payable to the State of Michigan, County of Washtenaw, on the 1st day of June, A. D. 1910, in Liber 112 of Mortgages at Page 55.

By reason of the default in the payment of the amount due upon the said mortgage, the power of sale contained therein has become operative; and no suit or proceedings at law have been instituted to recover the debt secured thereby or any part thereof, and there is now due and owing upon the said mortgage the sum of Seven hundred and Forty-seven dollars and six cents (\$747.46) and the further sum of twenty dollars (\$20.00) as an attorney's fee as provided by law and stipulated in said mortgage.

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage and in pursuance of the statute in such behalf made and provided, said mortgage will be closed by a sale of the premises therein described at Public Auction to the highest bidder at the East front door of the Court House at the City of Ann Arbor, in said County of Washtenaw, on the 14th day of October, A. D. 1911, at nine o'clock the forenoon of said day.

Which said premises are described in said mortgage as follows:

One certain piece or parcel of land situated and being in the Township of Northfield, in the County of Washtenaw and State of Michigan, and described as follows:

That certain piece of land containing about 1.5 acres off from the north-east corner of the southeast corner of the quarter section 36, in town One, south of Range Six east, in the County of Washtenaw, Michigan, and being more particularly described in the plat of said land lying south-west of the Toledo, Ann Arbor and Northern Railroad tracks, donated to the State of Michigan by the Toledo, Ann Arbor and Northern Railroad Company, on July 6th, 1888. Dated, July 13th, 1911.
