Field Day For Drunks.

Last Saturday seems to have been
a field day for the marshal as war-
rants were placed in his hands for the
arrest of eight men on the charge of
being drunk. Seven of them were
rounded up and taken before Justice
Wetherell. One of the men seems to
have got wise to the fact that he was
wanted and left town and it is hoped
that he will remain away for good.

The village authorities have in-
structed the marshal to arrest every
person found drunk on the streets of
Chelsea and they mean to have a
general housecleaning and remove
from the streets men who are in the
habit of getting intoxicated and mak-
ing a nuisance of themselves.

The following are the persons who
were placed under arrest Saturday
and had their hearings:

Frank Bird, fined \$10 and costs or
20 days in Ann Arbor jail. He was
committed to the jail and taken there
Saturday to serve his sentence.

Fred McClauskey was given 10 days
in the county jail without the option
of paying a fine.

Roy Leach was fined \$5.00 and cost
and given until Saturday, September
16, at which time he is supposed to
pay up or else he will be taken to
Ann Arbor to serve a sentence of 10
days.

Robert McGuinness of Dexter, drew
a fine of \$5.00 and cost or 10 days in
the county jail. He was given until
Saturday night of this week in which
to pay up. He went to Ann Arbor
after leaving the court here and got
drunk and the police judge of that
city committed him to jail for 10 days
when his time is up if he does not
pay his fine here he will have another
draw of 10 days.

James Kinney was fined \$5.00 and
costs or 10 days in the county jail
Kinney went to work Monday morn-
ing for the village digging the trench
for the water main extension on
Railroad street and will pay his stu-
pend in labor.

John McCover entered a plea of
not guilty and will have his exami-
nation today before Justice Wetherell.

Richard Gott left town before the
officer could locate him but the war-
rant is hanging over him, and if he
should ever show up he will have a
draw coming.

Henry Ford drew a fine of \$5.00 and
costs which he paid.

Captured at Wayne.

John Roberts, alias John Harrison,
made his escape from Jackson prison
last Saturday and was captured at
Wayne Junction Sunday evening by
Deputy Sheriff Edwin Brown of that
place.

Sunday Marshal Hepburn was at the
Main street crossing of the Michigan
Central, and noticed the man stand-
ing in the doorway of a freight car
on an eastbound through train. He
got the telegraph operator busy and
notified the officers along the line be-
tween here and Detroit, and the
Wayne officers stopped the train and
captured the convict. He was re-
turned to the prison Sunday night.

The prisoner was sent up from
Huron county October 24, 1910, on a
sentence of from two and one-half to
five years on a charge of larceny of
\$25.00. He is 21 years of age and has
a record of breaking from the jail at
Bad Axe, the prison at Kingston,
Ont., besides his last get away.

Deputy Sheriff Brown stopped in
Chelsea for a few hours Monday as
the guest of Marshal Hepburn.

Extending Water Mains.

The common council has men at
work digging trenches for the exten-
sion of the water mains in various
parts of the village.

On Railroad street the main will be
extended from McKinley street to
the west line of the Sears farm. The
McKinley street main will be con-
tinued from Dewey avenue to the
sub-division of R. B. Waltrous.

A new main will be laid the entire
length of Dewey avenue to Main
street, and from there carried along
north Main street to the residence of
Jacob Hummel.

The main on Washington street will
be extended from Madison street to
the houses on the addition of the
Chelsea Land Company.

Attacks School Principal.

A severe attack on school principal,
Chas. B. Allen, of Sylvania, Ga., is
thus told by him. "For more than
three years," he writes, "I suffered
indescribable torture from rheuma-
tism, liver and stomach trouble and
disseminated kidneys. All remedies failed
till I used Electric Bitters, but
four bottles of this wonderful remedy
cured me completely." Such results
are common. Thousands bless them
for curing stomach trouble, female
complaints, kidney disorders, bilious-
ness, and for new health and vigor.

Bank at Munith Closed.

People of Munith and vicinity are
aroused to a considerable pitch over
the closing of the village bank, which
has not done any business since Wed-
nesday, August 30th, when the presi-
dent, G. H. Sweet, and cashier, Harry
J. Mallen, closed the door and went
away, stating they would be back the
following Monday. Munith people
thought little of their leaving. They
supposed the bankers had left for a
brief vacation or matter of business
and would be back when they said
they would. As a matter of fact Mr.
Sweet did return the following Sun-
day, but went away again, and now
the whereabouts of neither Mr.
Sweet or Mr. Mallen are known.

Friday Deputy Sheriff Dixon, of
Munith, was in Jackson and took the
matter up with Prosecuting Attorney
Bailey. No one at Munith seems to
know, so far as can be learned, how
the bank was organized or know very
much about where Sweet and Mallen
came from. It was understood that
Sweet was a native of New York and
that Mallen hailed from somewhere
in New Jersey. It was only three
months ago that they began business
there. Up to that time the bank had
been owned and run by a Byron Rock-
well, who sold out to these parties.

Business men in Munith and farmers
for miles around had patronized this
bank. It is estimated that the
amount on deposit there was from
\$12,000 to \$20,000. One of the business
men, George Mayer, sold to these
bankers his automobile for something
like \$1,800, and then deposited the
money in the Munith bank. When
they went away they took the auto-
mobile with them, but Mr. Mayer
succeeded in locating it, and now has
it in his possession. He found where
they had left it in Jackson. Mr.
Mayer has succeeded in tying up
property of theirs to the amount of
\$2,500.

Two warrants were issued Friday
on complaints of William Dixon and
John Bacon, both of whom had money
on deposit in this bank. The warrants
charge both Sweet and Mallen with
grand larceny. Mr. Bacon, an im-
plement dealer at Munith, stated
that he had about \$1,200 on deposit
there himself, and he figures that
there are probably a hundred differ-
ent people who had all the way from
\$25 to \$2,500 in there.

Mr. Dixon stated it was understood
at Munith that Mr. Sweet was from
New York City and that Mr. Mallen
the cashier, was the son of a Phila-
delphia millionaire.

These same parties conducted a
bank at Whitmore lake for a couple
of weeks and closed that on Satur-
day before they left, with a shortage
of about \$1,200.

It is claimed that at Munith these
men represented they were associated
with the United Bankers' Corpora-
tion.

School Notes.

Miss Depew returned to her school
duties Monday morning.

Dean Hall has returned from his
home to take up his school work for
the ensuing year.

All children coming from homes in-
fected with whooping cough have
been excused from school until they
receive a permit from the health of-
ficer.

The athletic association will give a
party in the old high school room,
Friday, September 15, at 7:30 p. m.
admission 15 cents, proceeds for the
benefit of the association.

A shower-bath has been installed in
the boys' room of the new building.
The fixtures were donated by the
Flanders Co. The boys wish to ex-
press their sincere thanks for the
same.

Football games have already been
scheduled with Detroit Eastern, Ann
Arbor, and Mason. We have an un-
usually strong eleven this year and
the boys expect to win a majority of
the games played.

There is a great demand for courses
in the commercial branches and Supt.
Hendry is urging the board to make
provision for such courses in the en-
suing year. Over sixty students have
elected the subject of arithmetic.

The total enrollment to date is 425
the attendance in the high school,
fifth, third and first grades is very
large. The freshman class with a
total of fifty-four is the largest in
the history of the school. The non-
resident enrollment now numbers
sixty-six.

Waking Up.

Some weeks ago a few farmers of
Lyndon township might have been
observed inspecting an old bridge on
the road leading past the old Watts
homestead, now owned by Mr. Heat-
ley. They seemed exclusively en-
gaged by their business but at times
one or another of the group cast
glances up the road in the North
Lake direction. Then they adjourned
as by common consent, to the road-
side—sundry pipes were produced,
rustic seats were improvised and they
looked languidly on the ground, spoke
in an undertone monosyllabic mea-
sure or smoked their pipes in silence.
Directly, a Chelsea horse and buggy
hove in sight and bore down on the
Quaker-like assembly gathered on the
road-side. At its near approach some
of them rose and Dr. O'Reilly was as-
sisted from the vehicle. The group
now manifested a little more anima-
tion and its members gathered in
close around the newcomer. It was
observable that he was personally un-
known to some of them or they to
him by some hand shaking which did
not go all around the party. Obser-
vable amongst them were Eugene
Healy, the popular supervisor who is
now serving his third term for the
township. Henry Leek, who is serv-
ing the people about the same length
of time in the capacity of road com-
missioner, Luke Reilly, justice of the
peace, James Clark and others.
What appeared to be a close conver-
sation of some twenty minutes follow-
ed: the group came simultaneously to
its feet, Dr. O'Reilly was assisted to
his buggy and things assumed a defi-
nite and business-like aspect. With-
out speech or explanation, a meeting
was called to order, officers proposed
and elected and in five minutes by the
watch, the "Lyndon Good-Roads As-
sociation" took its place among the
corporations organized under the
general law of the State of Michigan,
with Henry Leek as president, Rev.
Dr. O'Reilly, vice president, Eugene
Healy, treasurer and James Clark,
secretary. The meeting was adjourn-
ed, the Doctor's horse moved off and
the members of the original group
went back and once more examined
the old bridge attentively as if that
was all they had been doing or there
was to be done sine die.

What did this mean? Has Lyndon
township, that never had a postoffice
within its borders 'got a tip'? It is a
significant fact that Lyndon was re-
presented for the first time at the
Good-Roads Convention held in Lan-
sing last week. Their delegates at-
tracted no little attention for their
personality and corporate make-up.
This aged church-man with half a
century's scholarship stamped upon
his features and with a political ex-
perience nearly as extensive. This
shrewd, long headed farmer, how
perfectly they understood each
other, how close they kept together.

It may be worth watching the pro-
ceedings of this new association that
professes to say but says not all it
means. One thing is certain, Wash-
tenaw county has to improve its
roads and it is not unlikely that Ly-
ndon means to anticipate any drastic
legislation that might be pointed in
its direction for the betterment of
its roads by bettering them itself and
thus remove any occasion for inter-
ference with its methods, its com-
missioners or its aims.

OBSERVER.

A Farewell Word of Appreciation.

Having been appointed to another
charge by Bishop Cranston, I hereby
wish to give expression to my grati-
tude and appreciation of the many
favors and courtesies tendered to me
during my four years pastorate at
the Salem M. E. church, by my dear-
ly beloved congregation, by the many
friends that I have met, by the busi-
ness and professional men of Chelsea
and by my brethren in the ministry.
I keenly regret that my appointment
calls me away from this community.
My wishes for all are that God may
pour out his choicest and richest
blessings upon all who have extended
the many kindnesses to me.

Very sincerely,

J. E. BEAL.

Struck by Lightning.

The barn on the farm owned by
Mrs. Clara Stapish of Dexter, known
as the Allyn place, was struck by
lightning and burned to the ground
Monday night.

Just what time in the night the
blaze started is unknown. Mrs.
Stapish discovered the loss on Tues-
day morning. The contents of the
building consisted of a quantity of
hay and a number of farming im-
plements that were also consumed by
the flames. The property was insured in
the German Mutual Insurance Co.

CORDIAL MANNERS IN SPAIN

Snobbery, so prevalent in most countries, is unknown in the Land of the Don.

The Spanish "fonda" has an atmosphere all its own. The waiters are universally courteous and universally quick and attentive. Their courtesy is much more genuine than that of the French waiter, much more agreeable than the fawning of the Japanese and a delightful novelty to the American who is used to the indifferent service for which the waiter in his "home" hotels expects a tip out of all proportion to his deserts. The agreeable relations existing between the Spanish waiter and those he serves is probably due in no small measure to the unique attitude of the classes toward one another in Spain. There is no equivalent in the Spanish language for the English word "snob."

Coexistent with a peculiar pride of race and position there exists in the heart of the Spanish "hidalgos" a perfectly friendly and cordial feeling toward persons in what are called for convenience the lower walks of life. Upon the other hand, the laborer, the artisan and the waiter maintain an attitude of the classes toward one another unaffected by the bitterness that is often felt in countries where snobishness causes the "lower classes" to be constantly conscious of the sentiment of the wealthy and socially prominent that men are not equal. The Spanish waiter is therefore polite, but not servile. He accepts a gratuity gratefully, but does not, by word or manner, hint that it should be larger if it seems to him to be inadequate.—Springfield Union.

Using Time.

It is always easier to wish that we had more time, than to use the time that we have, says a writer in the Sunday School Times. So, by wasting time in wishing, we still further reduce the precious asset of the actual and only time that is really ours. The person who is not capitalizing all the time he has at the rate of 60 seconds to the minute would not be much better off with 48 hours in his day. Those who turn out what is, to the rest of us, a discouragingly large amount of work, have simply learned the art of using all their time—particularly the nooks and corners, the odds and ends, of their time. They utilize a five or ten-minute scrap of time as eagerly as they do a half-day. And so things get done, and their year's output seems stupendous. With the average man, unless he can see several hours clear for a piece of work, he will attempt little out of the ordinary, and that is why he remains an average man.

In Crowded Quarters.

Elliot Woods, superintendent of the capitol, recently told a story about a new southern member of the house whose frugality he is commending to his congressional friends. The new member arrived in town and hunted Superintendent Woods up immediately. "I reckon I'd like to look at my quarters," said he to the superintendent. He was taken to the house office building and shown to one of the substantially furnished office rooms. "This is fine," said the new member, "but where are my other rooms?" "Oh, you can't have another room for several years, not until you have become chairman of a committee," replied Woods. "My God!" exclaimed the southerner, "how do you expect me to sleep, cook, eat and work in one room?"—New York World.

Circumventing Hoodoo.

A woman who sets particular store by the thirteen superstition surprised her friends by accepting an invitation to a luncheon where there were to be thirteen guests. "I will be safe," she said, "for I shall make it a point to be the thirteenth person to enter the room. That is a funny thing about thirteen. Many accidents have happened to companies thirteen in number, but investigation has shown that while the other twelve persons suffered more or less the thirteenth person who joined the company always escaped unharmed."

Less Monotonous.

The caller had laid his troubles before the lawyer. "What I want, as you readily understand," he said, "is a divorce. I realize that there will be attorney fees, necessary expenses and some delay. What will be the total cost?" The lawyer figured it all up and gave him his estimate. "Well," said the caller, rising, "I think I shall go to Reno. The cost will be just about the same, and I'll get more scenery. Good day."

\$1,500,000,000 Bond Sales Annually.

In round numbers \$1,500,000,000 of American bonds are marketed every year and almost all of them pass through the hands of American bond houses. Of this \$1,500,000,000 bonds one-third is absorbed by insurance companies, savings banks, trust companies and other banks (in approximately equal amounts) and the remaining two-thirds by corporations (for reserve, etc.) and by private investors in this country and abroad.—Moody's Magazine.

HAGGERTY FIRED FROM PRISON BOARD

COMMISSION IS MADE OUT FOR CLYDE WEBSTER, A DETROIT LAWYER, IN HIS STEAD.

HAGGERTY WILL PUT UP A FIGHT TO RETAIN POSITION.

Governor Sweeping Out More Warmer Appointees—It is Rumored in Lansing That He is After Warden Simpson.

An order from Gov. Osborn has come through to remove John S. Haggerty of Detroit from the board of control of Jackson state prison, and the appointment of Claude I. Webster of Detroit in his place is announced.

Haggerty was appointed by Gov. Warner to succeed the late Tom Navin, and his term would not have expired until February, 1913. The governor, however, removes him because he is a Warner appointee.

It is understood that the governor has as in the case of A. J. Phillips of Fenton, who was removed from the Ionia board, not filed any charges against Haggerty.

It is also understood that Haggerty claims the governor has no right to remove him and will fight through the supreme court to retain his place.

If Gov. Osborn succeeds in getting Webster on the Jackson board he will then have the majority Osborn men, and there is a rumor that the governor may then ask for Warden Simpson's resignation.

An order also went through Tuesday for the appointment of C. W. Hitchcock of Detroit as a member of the Pontiac hospital board, to succeed William G. Malcomson, removed for political reasons.

The order has also been made for the appointment of Philip T. Van Zile as circuit judge of Wayne county, to succeed Judge Murfin, resigned. Mr. Van Zile is the present prosecuting attorney of Wayne county.

\$700,000 Awarded to Soo Company.

Judge Denison in United States court Monday announced his findings in the Sault Ste. Marie water power condemnation suit. The chief controversy is over the Chandler-Dunbar Co.'s property which the company claimed is worth \$7,000,000 or \$8,000,000.

The total horsepower possible to be developed is fixed at 40,000. The value of unimproved power is placed at \$10 a horsepower for the first 3,000, \$7.50 for the second 3,000, and \$5 for all beyond. The government claimed the rate of capitalization should be 20 per cent, the company 5 per cent. The court fixes the rate at 10 per cent. The valuation of the 40,000 horsepower allowed would be \$2,225,000. The valuation of the 6,500 horsepower allowed to the company is fixed at \$550,000. This, with allowances for the upland, wharf, dam, head race, etc., makes a total award to the Chandler-Dunbar Co. of about \$700,000.

The rights claimed by the Michigan-Lake Superior Power Co. are held not involved, except with reference to one island in the rapids, for which \$10,000 is awarded.

The matter of the International Bridge Co. was adjourned previously. The Edison Sault Electric Co., question was settled at \$300,000 for its property and in connection with a lease of the water power necessary for its operation.

Gov. Osborn Will Welcome Taft at the "Soo."

Gov. Osborn has announced that it will be impossible for him to be in Detroit with President Taft at the opening of the state fair, owing to the wedding of his daughter, which takes place next week. He will receive President Taft upon his arrival at the Soo, but will not accompany the chief executive on his trip across the state.

Gov. Osborn announced that he will not attend the session of the house of governors this week, but will remain in Michigan and give his attention to local affairs.

New Au Sable-Oscoda.

An Sable-Oscoda is joyful over the completion of the fiftieth building on the site of the burned town.

The erstwhile homeless people are proving that they do not intend their home cities shall be of memory only. More buildings are in the course of construction. Not over 20 families still live in tents.

Optimists predict that in five years Au Sable-Oscoda will be one of the most prosperous cities on the Huron shore.

Rear-End Collision.

Ten persons were seriously injured and several others slightly hurt in a rear-end collision of cars on the G. R. G. & M. electric line at Grand Haven Junction, one mile east of Fruitport. The accident was caused by a heavy fog which hid the first car from view until the second was too close to stop.

Walter I. Woodman, receiver for the defunct National Boat & Engine Co. of Muskegon, states that holders of common and preferred stock will receive practically nothing. The assets and liabilities are placed at \$3,255,993.

M. C. Hubbard, who was paroled by the prison board from Jackson prison, where he was sentenced for a serious offense preferred by a Benton Harbor girl, has been returned to Ionia prison. It is stated the pardon board exceeded their authority, and that he must be pardoned by the governor if he gains his release.

MICHIGAN NEWS IN BRIEF

Bishop Schrems, Monday received from Rome a papal bull announcing officially his appointment as bishop of the diocese of Toledo. Immediately on receipt of the announcement the bishop decided on Oct. 4 as the date for his installation, and fixed St. Francis De Sales church, Toledo, as the place for the ceremony.

Bishop Henry Joseph Richter, of the diocese of western Michigan, whose aide, Father Schrems has been as auxiliary bishop, will preach the installation sermon.

Daniel Alford, 45, killed himself in jail rather than go to Marquette for about 20 years for abusing his 14-year-old step-daughter. Just 15 years ago his wife's stepfather killed himself under the same circumstances.

Word comes from Lansing that the special tax commission will not confine its report to advocating a partial separation of state and local taxes, but will submit two plans; one the complete separation of state and county taxes and the other the partial separation plan which was made public recently in a statement issued by Patrick H. Kelley, of the commission.

THREE ACCUSED BANKERS MISSING

GEORGE SWEET, OF DETROIT, HARRY MULLEN, OF PHILADELPHIA, ACCUSED OF LARCENY.

ASSISTANT IN BANK AT WHITMORE LAKE MISSING.

One of the Men Being Sought as the Result of Operations at Munith is the Son of a Detroit Minister.

The last seen of George Sweet, missing banker, was September 3. That day he entered the bank, accompanied by two or three strangers, and later left town. The Tuesday following Mullen packed things up in the bank and left also.

Deputy Sheriff William Dixon, of Munith, swore out warrants charging George Sweet, former proprietor of private banks, at Munith and Whitmore Lake village, with grand larceny. George Sweet is the son of Rev. John Sweet, of Detroit. A similar warrant was also issued for Harry Mullen, who acted as cashier of the Munith bank.

Sweet and Mullen came to Munith about three months ago and purchased the local bank, taking over the deposits. Sweet stated that he came from New York city, while Cashier Mullen stated he is the son of a Philadelphia millionaire.

They claimed to be members of the United Bankers' association. Sweet was known by some in the village, and they believed he was all right. They did not take their money from the bank at the time of the sale.

The Munith bank had about 100 creditors, mostly farmers. The amount of the deposits range from \$25 to \$2,500, and it is stated that the total amount will reach about \$25,000. Sweet purchased an automobile from a business man in Munith last week, paying him \$1,500. The man deposited the money in the bank just before the closing hour. He believed he was out both machine and money, but later found his automobile in Jackson, where it had been abandoned.

DENIES SALARY RAISE.

Attorney General Kuhn Blasts Hopes of Certain Township Officials.

Attorney General Kuhn in an opinion rendered blasted the hopes of certain township officials and county school commissioners, who expected to tilt their salaries as a result of a law passed at the last session of the legislature.

There is a provision in the act that salaries of these officials may be increased, in case the people approve, but Kuhn says that there is nothing in the bill which provides for the submission of the question, and therefore it is of little value.

In another opinion the attorney general holds that school commissioners who assumed office July 1 cannot secure increases in salaries under the new graded salary law, based on the number of schools in the counties.

The law makes it impossible for an elective or appointive officer to receive a decrease of increase of salary during his tenure of office, and the new law did not take effect until August 2.

Live Wire Kills Father of Eight.

Pushing aside an apparently harmless wire which hung over the sidewalk, Vincent Grzegorzewicz, aged 59, and father of eight children, was instantly killed, while on his way to work. The wire ran from a telephone line and hung across a highly charged electric line.

Vincent's hand was burned almost through by the current.

New Corporations.

Lansing, Mich., September 9.—New corporations: Hollister Mining Co., Crystal Falls, increase from \$25,000 to \$500,000; Laingsburg Opera House Co., Laingsburg, \$10,000; Litnyski Jakubowski Co., Detroit, \$9,000; stockholders Walidmir E. Litnyski, Wladislav Jakubowski, George Ebling; Thicome Oil Co., Detroit, increase from \$10,000 to \$15,000; State Bank of Carsonville, Carsonville, increase from \$20,000 to \$25,000; E. C. Slocum Mfg. Co., Fenton, \$5,000; Stewart Sanitary Feed Trough Co., Grand Rapids, \$25,000; Maul Co., Detroit, \$4,000; stockholders: Frank P. Maul, Peter J. Maul, Milo H. Crawford; Folding Scaffold Bracket Co., Detroit, \$10,000; stockholders: Edw. N. Hayes, William C. French, W. W. Morrison; Gilligham & Smith enterprises, Grand Rapids, increase from \$50,000 to \$60,000; Farmers Grain Co., Kinde, \$10,000; stockholders: Frederick Ward, A. Chester Jones, M. L. Brecker; White Cloud Oil & Gas Co., Newaygo county, \$10,000.

Grand Haven is chosen as the place for next year's state K. of P. convention.

Because 15 of the 1,000 men employed at the No. 10 colliery of the Lehigh Coal and Navigation Co. at Coaldale, Pa., refused to wear union buttons on their caps while at work, all of the other men went on strike.

The 2-year-old daughter of Mrs. George Grant, of Bay City, may die as the result of a button hook being pushed two inches in its brain. The child was being carried by its sister when she fell. The baby had the instrument in its mouth.

The railroad connecting Grand Marais and the D. S. S. A. railroad at Seney may not be torn up, as work has been suspended. The Escanaba Lumber Co. has an option on the property of the Manistigee Lumber Co., which owns the road, and may make Grand Marais their manufacturing center.

THE ASTOR WEDDING.

Ceremony Performed in Newport by a Congregational Minister.

Col. John Jacob Astor, divorced multi-millionaire, and head of the Astor family in America, was married Saturday to Miss Madeline Force, the 18-year-old daughter of Mr. and Mrs. Wm. H. Force, of New York, at Beechwood, his Newport residence. The officiating clergyman was Rev. Joseph Lambert, of the Elmwood Temple Congregational church of Providence, R. I. The bride was given away by her father, Wm. Force.

It had been reported that Rev. E. S. Straight, the carpenter-preacher of Providence, would perform the ceremony, but for some reason his services were not accepted. The officiating clergyman is reported to have received a \$1,000 fee.

The nuptials were brief and simple. The girl-bride was the coolest member of the party. She went through her part of the ceremony with an air that seemed to some of the bystanders to be slightly bored. The new mistress of the Astor millions stepped into her new position as though it were a matter of little importance.

BEATTIE GUILTY.

Virginian Must Die in Electric Chair; Crowded Court Room Hears Verdict.

The jury in the case of Henry Clay Beattie, Jr., charged with slaying his wife, returned a verdict of guilty Friday.

It required only 58 minutes for the jury to reach a decision.

The 12 men filed out of the courtroom at 5:28 p. m. and at 6:26 were back with the verdict.

Beattie's nerve was unshaken, there not even being a tremor of his face as the verdict was rendered.

Henry Beattie faced the men in the light of three little kerosene lights.

"Gentlemen of the jury, have you agreed upon a verdict?" asked Clerk Coghill.

"We have," said Foreman Farley. "What is it?"

Beattie stood and heard the verdict announced. He rested on his right hand which held to the desk before him. His left hand was placed on his hip. Not a trace of fear or emotion came to his face.

The lips of his father trembled and the old man settled back as far as he could in the chair.

A burst of approval of the verdict came from the people packing the courtroom. The judge rapped for order. The jurors were sent back to their room because they did not say in what degree they found Beattie guilty.

The foreman's verdict read: "We, the jury, find the accused guilty as charged in the indictment."

Mr. Wendenburg asked the court to have the charge amended to read guilty of murder in the first degree. The jury returned to the room and made the verdict guilty of murder in the first degree.

The defense immediately made a motion to set aside the verdict. The judge denied a motion for a new trial.

Judge Watson granted a stay of sentence of ninety days, as asked by the defense.

Members of the jury that convicted Henry Clay Beattie say that their minds were made up before the closing arguments of the lawyers on both sides were commenced. Beattie himself did the most to bring about his conviction when he took the stand on his own behalf at the end of the trial, according to several of the jurors.

All of the 12 men knew that he was lying; his whole testimony did not carry conviction of the truth of his evidence nor of his innocence of the crime charged against him.

Rev. Joseph Lambert, who married Col. John Jacob Astor and Miss Madeline Force, was formerly a weaver in the Wampanoag cotton mills in Fall River, Mass. Mr. Lambert was a worker in the Christian church before his conversion to Congregationalism.

The law providing for the participation of women in jury service, passed by the late legislature of Washington, was asserted to be unconstitutional in the superior court by attorneys in the case of the state against James Oliva for alleged attempted murder.

Workmen excavating for the Y. M. C. A. building in Kalamazoo unearthed a stone marked 1852. Old pioneers recognized it as the last cornerstone of the old St. Luke's church.

Negotiations practically are concluded for another great trust company merger in Wall street, this one to bring together the Equitable Trust Co., with deposits of \$44,000,000, and Knickerbocker Trust Co., having deposits of \$38,000,000. The Equitable probably will be the surviving corporation, and with total deposits of \$82,000,000 it will rank among the most powerful trust companies in the United States.

RUSSIA AND FRANCE AGAINST GERMANY

RUSSIA PROMISES TO THROW ARMY ON GERMAN'S FLANK AND INVADE AUSTRIA.

WILL TAKE ACTIVE PART IN WAR IF GERMANY ATTACKS.

France Holds Troops Whose Terms Have Expired and Are Gradually Massing Army Near Frontier.

Efforts of Germany and Austria to drive a wedge between France and Russia have utterly failed and if the Moroccan dispute results in war Russia will be found as an active ally of France.

M. Izvolsky, the Russian ambassador at Paris, has been authorized to tell France that her proposals to Germany are accepted by Russia as involving her full duties as an ally should Germany follow its rejection by a belligerent act.

It is understood that Russia's strategy in such an event will be to hold a sufficient force on Germany's eastern rear guard as to keep half the German army there while an expeditionary army invades Austria through the North Balkans.

Before the czar left for Kieff the German and Austrian ambassadors at St. Petersburg went aboard the royal yacht Standart and bade him a long leave. The farewells were ostensibly friendly but the ambassadors were hiding deep chagrin for they had been unable to carry out successfully a deep-laid and intricate intrigue which it was hoped to give Germany a free hand to deal with France alone on land in event of war.

England Ready for War.

British Preparations Reflect Seriousness of Moroccan Situation.

The gravity of the situation arising from France's refusal to grant Germany's demands as regards Morocco is reflected in England by the extraordinary precautions being taken throughout the United Kingdom.

The army and navy is held at its highest degree of efficiency. England is prepared for any eventuality.

Startling precautions are being taken at Sheerness. Mounted armed guards are stationed at all the approaches and everyone seeking admission is challenged.

The barricades recently erected around the two searchlights east of the Ravelin batteries are closed night and day despite the protests of the urban district council.

The steel observation tower further east, which commands extensive views of the North sea, has been strongly barricaded and at night is guarded by infantry with fixed bayonets and ball cartridges.

WIFE-SLAYER KILLS SELF.

George Reebe Found in Field Near Home With His Throat Cut.

The hunt for George Reebe, whose wife was found slain in the kitchen of their home seven miles northeast of Essex, Ont., ended when his brother and two sons found his body in a cornfield on his own farm, near the shed in which it is supposed he spent Sunday night. The man had done himself to death. His throat was cut and there were stab wounds in his neck and over his heart.

Beside the body were found two knives, one a large butcher knife, the other a Jack-knife, and the shotgun with which he was armed. No ammunition for the gun was found other than the charge with which it was loaded. Search was made for a revolver also, as it had been reported to the officers that he had both gun and revolver, but none was found.

Prowler Murders 7-Year-Old Girl.

The body of 7-year-old Annie Lemberger, of Madison, Wis., who was kidnapped, was found in Lake Monona. She had been murdered. The child was stolen from the bed in which she had been sleeping with a sister and her disappearance was not known to her family until morning. Examination of the body disclosed no evidence of violence beyond a slight laceration of one ear and a discoloration of the neck, the latter indicating that the child may have been strangled. The only motive for the murder seems to be revenge upon her parents by some enemy at present unknown.

Etna's Eruption Grows Serious.

The eruption of Mount Etna has become more intense. The showers of ashes and cinders are heavier and the rumbling of earth shocks at short intervals is heard for miles. The shocks are growing in violence, and a panic prevails. The fear of the people is augmented by the great heat and suffocating atmosphere. All the country round about is covered with ashes and seems under an immense funeral pall.

Founder of Red Cross is Dying.

Clara Barton, founder of the American Red Cross, is believed to be dying at her summer home. She is 90 years old. In poor health when she started early in the summer from her home at Glen Echo, Md., she has grown gradually worse. Her strength was greatly impaired by pneumonia some time ago and her extreme age left her without power of recuperation.

Was Soon Captured.

Jackson Patriot: Friday afternoon, Louis Lamirande aged 23, an inmate of Jackson prison, was stricken with an overwhelming desire to sever his connection with the institution and seek more satisfying pasture. He had only recently been made a trusty by reason of good conduct as a prisoner inside the walls. Additional help was needed on the farm to cut corn, and Lamirande was one of the prisoners assigned to the task. When the opportunity was right for him to run away without being seen he made the most of it, but he had not been gone long before he was missed and a posse of officers were soon scouring the country for him. It was learned he was in the vicinity of the tile works, and a search was made in that direction. Dr. Pray, prison physician, was out with his automobile, and noticed a man walking back of a hedge near the gravel road, and reporting the matter to Warden Simpson they decided to investigate and find out who the individual was. The warden and doctor proceeded in that direction and found Lamirande hiding at one side of the highway. He made no resistance and was taken back to the prison.

Lamirande swam a river to get where he was, and while Deputy Sheriff Herbst, one of the officers pursuing, did not exactly follow suit, he succeeded in falling into a creek while the search was being made. Sheriff Herbst and Deputy Mayette were also among the officers on the job.

The prisoner was sentenced here from Detroit about six years ago for ten years for rape. He has been a model prisoner and it was only because of his good conduct that he was treated outside.

Mortgage Sale.

Default having been made in the payment of principal and interest due and payable under the terms and conditions of a certain mortgage made and executed by Henry P. Dodge of Whitmore Lake, Washtenaw County, Michigan, of the first part to Herbert W. Wheeler then of said County and State of the second part; which said mortgage is dated May 31st, A. D. 1906, and was duly recorded in the office of the Register of Deeds of said County of Washtenaw on the 14th day of June, A. D. 1906, in Liber 112 of Mortgages at Page 222.

And which said mortgage was duly assigned by the said Herbert W. Wheeler to The State Savings Bank of Unionville in the State of Michigan, on the 24th day of November, A. D. 1909, the deed of assignment thereof having been duly recorded in the office of the Register of Deeds of said County of Washtenaw on the 14th day of April, A. D. 1910, in Liber 5 of Assignments of Mortgages at Page 43.

By reason of which default in the payment of the amount due upon the said mortgage the power of sale contained therein has become operative; and no suit or proceedings at law having been instituted to recover the debt secured thereby or any part thereof, and there is now claimed to be due and owing upon the said mortgage debt for principal and interest the sum of Seven Hundred and Forty-seven dollars and Six cents (\$747.66) and the further sum of twenty-five dollars (\$25.00) as an attorney fee as provided by law and stipulated in said mortgage.

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage and the statute of the state in such cases made and provided, said mortgage will be foreclosed by a sale of the premises therein described at Public Auction to the highest bidder at the East front door of the Court House at the City of Ann Arbor, in said County of Washtenaw, (that being the place where the Circuit Court for said County of Washtenaw is held) on Monday the 9th day of October, A. D. 1911, at nine o'clock in the forenoon of said day.

Which said premises are described in said mortgage as follows: All that certain piece or parcel of land situate and being in the Township of Northfield, in the County of Washtenaw and State of Michigan, and described as follows: To wit: A certain piece of land containing about 64 acres off from the north-east corner of the east half of the southeast quarter of Section Number 6, in Town One, south of Range Six east, in the County of Washtenaw aforesaid, and being north-east of the ditch running from Horse-Shoe Lake to Hamberg; excepting and reserving about one-fifth of an acre of land heretofore deeded to Frank Roper, and also, excepting and reserving about one-fifth of an acre of land heretofore deeded to Albert Stevens by Maria Stevens on July 6th, 1889.

Dated, July 13th, 1911.

Was Soon Captured.

Jackson Patriot: Friday afternoon, Louis Lamirande aged 23, an inmate of Jackson prison, was stricken with an overwhelming desire to sever his connection with the institution and seek more satisfying pasture. He had only recently been made a trusty by reason of good conduct as a prisoner inside the walls. Additional help was needed on the farm to cut corn, and Lamirande was one of the prisoners assigned to the task. When the opportunity was right for him to run away without being seen he made the most of it, but he had not been gone long before he was missed and a posse of officers were soon scouring the country for him. It was learned he was in the vicinity of the tile works, and a search was made in that direction. Dr. Pray, prison physician, was out with his automobile, and noticed a man walking back of a hedge near the gravel road, and reporting the matter to Warden Simpson they decided to investigate and find out who the individual was. The warden and doctor proceeded in that direction and found Lamirande hiding at one side of the highway. He made no resistance and was taken back to the prison.

Lamirande swam a river to get where he was, and while Deputy Sheriff Herbst, one of the officers pursuing, did not exactly follow suit, he succeeded in falling into a creek while the search was being made. Sheriff Wood and Deputy Mayette were also among the officers on the job.

The prisoner was sentenced here from Detroit about six years ago for ten years for rape. He has been a model prisoner and it was only because of his good conduct that he was trusted outside.

Your Fall Suit

It's here, ready to slip on, and it will fit you just as well as the suit the tailor has been taking a week to get ready.

There's a model here in just the size to fit you well enough to pass for a made-to-measure suit that would cost you at least one-third more. If you will come in and give us a chance to prove this claim you will admit the truth of it, whether you buy or not. Will you do this? That's a simple way to get at the facts.

Travelers should see our fine line of suit cases and bags.

New Suits for Boys.

Splendid qualities, finely tailored. Norfolk styles in sizes 5 to 10 years, \$3.00 to \$5.00. Regular cut styles in variety, sizes 8 to 18 years, \$3.00 to \$6.00.

New Investments Pays Better.

There are few investments that pay better than money in the bank at interest. When you have this you have no anxiety, no worry, no business complications, no error in judgement, no mis-calculation, no flaws in the title, no depreciation in value. You can start a savings account at this bank with one dollar. Many people without stopping to give it consideration, are inclined to delay in making a start along this line. When you stop to think about it there is really no good reason why you shouldn't have a growing bank account. This bank is ready and willing to help you save. You have the privilege of withdrawing your funds whenever you want to. Still with all these inducements and incentives to become a saver there are hundreds of people in our country who do not deposit their money in a bank. If you are among this number, do not wait any longer, bring your first deposit to this bank and get a bank book.

BARGAIN OF M. D. AND D. D.

Mutual Obligations Entered into That Surely Should Have Been Satisfactory.

Newell Dwight Hillis, the now famous New York preacher and author, some years ago took charge of the First Presbyterian church of Evansville, Ind. Shortly after going there he required the services of a physician, and on the advice of one of his parishioners called in a doctor noted for his ability properly to emphasize a good story, but who attended church very rarely. He proved very satisfactory to the young preacher, but for some reason could not be induced to render a bill. Finally Doctor Hillis, becoming alarmed at the inroads the bill might make in his modest stipend, went to the physician and said: "See here, doctor, I must know how much you owe you."

After some urging, the physician replied: "Well, I'll tell you what I'll do with you, Hillis. They say you're a pretty good preacher, and you seem to think I am a fair doctor, so I'll make this bargain with you. I'll do all I can to keep you out of heaven if you do all you can to keep me out of hell, and it won't cost either of us a cent. It is a go!"—Cosmopolitan Magazine.

Twice Convicted.
Another lawyer's story arrives. We are told that a man was charged with picking a pocket the other day and that when arraigned he pleaded guilty. The case went to the jury, however, and the verdict was "not guilty." And the court spoke as follows: "You don't leave this court without a stain on your character. By your confession you are a thief. By the verdict of the jury, you are a liar."—Cleveland Plain Dealer.

A NEW FACTOR IN FARMING

Use of Power Has Multiplied Man's Capacity a Hundredfold—Comparison of Power Furnished by Tractor With That Furnished by the Horse.

By H. H. MUSSELMAN, Instructor in Farm Engineering, Michigan Agricultural College

The history of agricultural machinery has been one of extremely rapid development within comparatively recent years. The trend of development has been toward the application of power to hand processes. The history of manufacturing shows the same course. We are told that the extended use of power has made the work of the world less arduous and shortened the hours of labor. Man's progress depends largely upon his capacity to do work, which is the result of the expenditure of energy. The use of power has multiplied his capacity a hundredfold. The man with the hoe, dull and uncomprehending, is passing, and in his stead we find the man with wits keen to direct and hands skilled to control the energy which doubles his own a score, whether it be the four-horse team, the steam engine, or the gasoline tractor. Through the agency of well adapted agricultural machines he has been able to direct this energy into useful work, the effectiveness and nicety of which the unaided hand of man could never equal.

This year at Winnipeg, Canada, was held a competition of motor tractors, steam, gasoline and kerosene. Here were met thirty-one outfits from half as many companies. For three weeks these machines were subjected to the severest tests on the brake and in the field under actual working conditions. Virgin prairie sod, the toughest task the plowman has ever encountered, was severed and upturned with a rapidity and ease amazing to the layman. What was the purpose of it all? Primarily to determine the adaptability of the various types of machines to the work for which they are intended, but in a larger sense to develop and perfect a machine which means the making of the northwest.

We are accustomed to the use of power on the farm in Michigan. The principal sources are the windmill, the gasoline engine, the steam engine, and the horse. The field has been divided and to the lighter duties have been assigned the windmill and the gasoline engine. The steam engine handles the heavier duties to which it is adapted, but to man's most faithful friend, the horse, falls the greater share. The steam engine has never been seriously considered as a field machine in Michigan on account of its weight and unwieldiness on the comparatively small fields and farms. There is light internal combustion tractor intended for general purpose work upon the farm. It has not

as yet proven its worth, but many are looking forward to its advent with the keenest interest. Can such a machine find a field of usefulness, and if so what would be the basis of its adoption?

Suppose we give the matter of the amount of power furnished some consideration and in so doing leave out all other factors. We will compare roughly the power furnished by the tractor with that furnished by the horse. At present the unit of power is the horse. This unit may be combined into the two, three and even the four-horse team. The latter is about the limit of power that one man can handle advantageously. The average horse is able to develop nearly a unit horsepower when used continuously. One horsepower here is intended to mean the unit used in measuring work. A man then driving a four-horse team would be able to control the energy equal to four-horsepower. If he were using a twenty horsepower tractor which should develop, roughly speaking, about fifty per cent. of the total horsepower at the draw bar, he should then have from 6-10 horsepower available for effective work with the engine working at somewhere near its full load. All other things being equal, the balance would be in favor of the tractor since it would enable one man to control a greater amount of power. Aside from the question of power furnished there is a question of adaptability which the manufacturer is assiduously working out. An example of what we mean by adaptability may be shown by the following: A four-horse team may be divided and each horse or unit used complete in itself, this adapting it to smaller yet important details of work. In the tractor this would manifestly be impossible, but on the other hand the tractor through its construction and efficiency would be found especially valuable for belt work where horses can be used to very little advantage. There are many questions of design such as types of engines, gears, clutches, height, weight and width of drivers, kind of lugs for effective traction, weight, etc., which time and experience together must determine. If, however, we can add to the size and adaptability of the now commonly understood and used gasoline or kerosene engine, obtain fuel at a reasonable cost, and shift a proportionately larger share of the work upon this unfeeling machine, then it will surely find favor. Old Dobbin will not be supplanted, but relieved of his heaviest burdens as he has relieved man of his.

CONTROL OF SQUASH BUGS

By R. H. PETTIT, Entomologist, Michigan Agricultural College

Everyone knows the large black stink-bug or squash-bug of the garden and field. All of us have tried to kill it by sprays, dust baths and what not, but still the stink-bug flourishes. There seems to be no wash or powder that will kill the bug without at the same time killing the plants.

The eggs of these marauders are red in color, and quite large; they are laid in patches on the leaves, for the most part, on the under side. The young bugs that come from these eggs resemble the adults very much except in their proportions and in size, although of course they lack the wings. Not only do the bugs attack the vines, piercing them with their

Squash-bug.

long beaks, and extracting the sap, which alone is enough to seriously injure the plants, but at the same time they carry the germs of disease from one plant to another, thus inoculating healthy plants with the wilt, and possibly with other diseases.

Remedial.

Plants grown under mosquito-netting of course escape the bugs, but such a measure is very expensive except in unusual cases.

Clean Culture.—In the autumn after the crop is secured, the bugs continue to feed on the old vines for some time before the vines dry up and die. The writer has collected large numbers in such situations. Young bugs, old bugs, and bugs half grown. It is

these young and vigorous bugs that hibernate and start new generations in the spring. The remedy is obvious—destroy all old vines, squash, pumpkin, cucumber and all vines of that family, just as soon as they have served their purpose, either plow or burn, and do it then.

On cool nights the bugs love to hide under shelters. Old shingles, placed on the ground near the vines, harbor dozens of the adults over night. The lesson is obvious—put out pieces of board and shingles and destroy the bugs early in the morning before they get to the vines. Jar the bugs off into pails of water having a little kerosene floating on it.

WEED CONTROL IN AUTUMN

By R. S. SHAW

Seedlings of clover and grass seed mixtures for hay and pasture are quite universally made along with winter wheat, rye, barley or oats. While these crops are growing the weeds are kept in subjection; but after harvest their competition in growth with the clover and timothy begins promptly and vigorously. The number and varieties of weeds will depend somewhat on the locality and care exercised in operating the farm. Canada thistles, ragweed, pigweed, foxtail, etc., are among the commonest kinds found. It is not uncommon for ragweed and foxtail to overtop the new seedling and mature their seeds perfectly. Most of these weeds can be prevented from seeding by clipping, with the cutter bar of the mower tilted up so as not to injure the new clover seedling. If the growth is heavy it may be permitted to cure and then raked up and stored for winter forage for sheep, otherwise destroyed. This work can usually be done during August or September at times when farm work is not pressing. Of the weeds which seed in this way at this time, the ragweed is probably most persistent and pernicious. The practice just advocated is pursued on the Michigan Agricultural College farm in case the seedlings are not pastured by sheep. A constant warfare has to be waged against weeds owing to their introduction in the purchase of hay, straw and grain for feeding, all the manure being returned to the farm.

Many promising clocks are ruined by being forced on long drives with their dams. This is not only a cruel practice, but a senseless one.

For the Hostess

Paper Costume Party.
A girl noted for her clever parties issued this invitation:

A Paper Gown—Red, white or blue, Or any shade Preferred by you, We ask you to wear Next Thursday night, And be present to witness A pretty sight. Judges will reign in majesty And award the prizes Of which there are three. First, beauty we seek, Originality, too. Or, if the most comical, We'll give to you A dainty little gift That you'd love to win—Now please don't be late For at eight we begin. So wear your paper gown And bring a heart full of cheer, And I'm certain this party Will be remembered all the year.

Crepes papers are so beautiful that the judges had a difficult time rendering their decisions. Tulle may be used as a foundation for the dresses.

One especially amusing costume was made from Fels Naphtha soap wrappers, the girl called herself "Auntie Dudge." "Aunt Jemima's Pancake Flour" was also represented and one girl made a decided hit as the "Local News," her costume being entirely of newspapers.

A Grown-Up Party for Children.

Children's parties for grown-ups have been very popular and now the youngsters from six to eight years of age are having loads of fun by giving imitations of mother's afternoon teas. Real grown-up names are chosen, written on cards which are presented to the youthful butler, and all the youthful guests are dressed in long skirts, hair done up and have all the accessories of the grand dame who go to "teas" and "bridges." If desired some of the guests may be asked to bring their children (dolls). Arrange a tea table, a small one, of course, with doll china, and have the little hostesses' friends assist in "pouring." Dainty sandwiches, cambric tea, peppermint bonbons, vanilla ice cream and angel food cake will make a satisfactory menu. A visit to the toy department will reveal some very interesting card games within the comprehension of the guests and prizes may be given. If this feature is not practical, the children will have a grand time in just being permitted to dress up and go to a party.

A Tree Bazar.

All the Ladies' Aids and Guilds are keen after ideas to add money to the treasury. I think the scheme outlined a delightful one for this season of the year. It calls for eight trees, which may be dead ones or live ones, as the case may be. Decorate entirely with large potted plants and autumn leaves with wild grape vine and woodbine if obtainable. The crepe papers that come in leaf design will work in beautifully with this decoration and an entire arbor or lattice may be made by cutting out paper leaves and pinning on the trellis. Oleanders and rubber plants help out, too.

Tables may be placed in front of the trees, making booths, the top.

front and sides being covered with cheesecloth on which paper leaves are pasted or pinned. If a grape arbor can be constructed, tea and other beverages or light refreshments may be served from small tables underneath the enclosure thus made. Electric lights placed among the leaves adds to the effect if the affair is held over into the evening. At the end of the arbor, have grape juice, grape jelly and raisins for sale.

Here is the list of trees which may be arranged around the room as best suits the committee: "The Palm Tree;" on its boughs hang everything that comes in pairs, like scissors, tied with ribbons, slippers, (knitted or crocheted, or ribbon or leather), mittens, gloves, cups and saucers, twin bottles of perfume, combs and brushes, cuff links, etc., on the table have spiced pears, pear marmalade, canned pears, pear-shaped candy boxes.

The Peach Tree—Decorate with real peaches, which may be tied to the branches if a real bearing tree is not obtainable. On the table serve peach ice cream, peach shortcake, marmalade, spiced peaches, etc.

The Palm Tree has real palms donated by a florist, to be sold on commission, and back of the palms have a fortune teller.

The Orange Tree is literally covered with orange-colored paper fruit, each containing an article worth five or ten cents; this takes the place of the grab bag found at most church affairs. It may be presided over by quite a young girl and should prove a lucrative attraction, as its "fruit" will be all clear profit. The table next this should contain orange marmalade, candied orange peel, orange-colored bonbons and orange cake. Orange ice may be served, also orangeade.

For the Banana Tree have bunches of real bananas; in cities banana-shaped candy boxes are obtainable.

The Date Tree will have all sorts of calendars, engagement tablets, note books, telephone lists, diaries, in fact, everything with which to make or keep a date. Sell stuffed dates, plain dates, date cake, etc., on the table in front of the tree. Suspend small articles from its branches.

The Sugar Plum Tree will have candy canes hung on its branches, bags of candy, and all sorts of lollipops and sweetmeats for sale.

A lemon tree may be added, or any others at the discretion of those in charge.

For September.

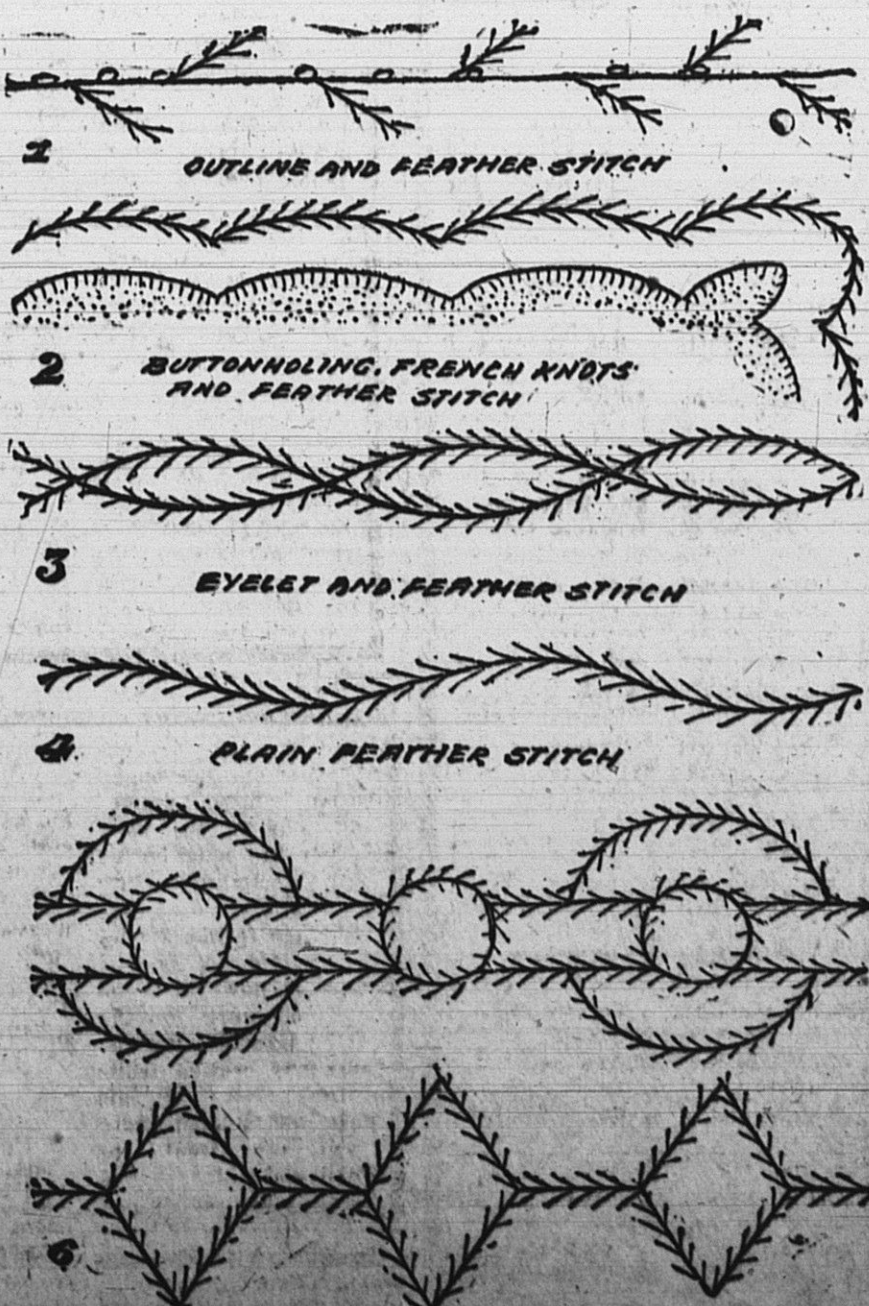

Remember that this month claims the sapphire for its stone, the morning glory for its flower and it is considered a most auspicious month for marriages. Here is a verselet for a maiden who has a birthday in September's thirty days:

"A maiden born when September leaves Are rustling in September breeze, A sapphire on her brow should bind; 'Twill cure diseases of the mind."

The 16th, 18th and 20th are considered especially happy wedding days; an old saying goes:

"Married in September's golden glow, Smooth and serene your life will flow." MADAME MERRI.

Feather Stitch

THESE illustrations I have used on dresses for children; 1 and 2 I used on flannel, 3 and 4 between tucks on waist, 5 and 6 on waist and skirt above the hem. Very pretty and dainty when even-ly worked.—Exchange.

Dust and Tuberculoes.
As a result of the dangers from consumption to those exposed to various forms of dust, and at the request of the National Association for the Study and Prevention of Tuberculosis, the United States government has recently appointed a commission to work in co-operation with state authorities in making an investigation into the conditions of the metal mining industries in the United States, with special reference to diseases of the lungs. The work of the commission engaged in this special task will follow lines somewhat similar to those worked out by the Royal Commission of Australia, whose report was recently received in this country.

A cold on the chest weakens your lungs. Tubercular germs attack the weak spots. Keep your lungs strong by curing colds quickly with Hamlin's Wizard Oil and you will not get Consumption.

ANN ARBOR—Forty-one teachers attended the institute held by County School Commissioner Evan Essery at Manchester last Saturday. In the two institutes that have now been held in Ann Arbor and Manchester, Commissioner Essery has conferred with all but ten of the teachers in the county.

JACKSON—Mark Moore, the young Concord farmhand who eloped with Cassie Broderick, the sixteen-year-old daughter of his employer, was released on probation in circuit court after he had pleaded guilty to a charge of abduction. There are a number of restrictions placed on his behavior, the time of same being two years.

JACKSON—Jacob Heydlauff, of Waterloo, was arraigned before Justice Russell on the charge of malicious destruction of property. It is alleged he broke some tile that were to be used in building a sluice across a public highway. Highway Commissioner McIntee made the complaint. Mr. Heydlauff pleaded not guilty and will have a trial.

YPSILANTI—Dr. Arthur G. Beach, pastor of the Congregational church of this city, has, within the past three weeks, received a call to the Olivet College faculty. The chair of biblical history has been established in the college and Dr. Beach was asked to be its first incumbent. Dr. Beach has definitely declined the offer, although Olivet College is growing in a way which makes a position on its faculty increasingly attractive.

ANN ARBOR—Love, with a little urging, finally came to the rescue in the case of Hattie Davis, aged 33, and Ed. VonValkenberg, a well-to-do Milan man. The woman charged that VonValkenberg had promised to marry her September 1. When the time came she alleged he refused. VonValkenberg was brought to the prosecutor's office on a capias Monday night. When the man and woman got together VonValkenberg decided that it might be best to get married, after all, and the couple went out satisfied, to look for a minister.

HOWELL—The Howell Gun Club will hold a general blue rock shoot Friday, September 15. The Gregory, Stockbridge, Oak Grove and Morrice Clubs have been invited to attend this shoot. There will be three prizes for a 25 bird race: Hunting coat, high; gun shooting vest, second high; hunting knife, third high. There will be no entrance fee. All blue rocks one cent each. Messrs. Foster, Cole and Reynolds of the Three Large Powder Mills will be here to take charge of the shoot. The shoot being general, everyone is welcome to shoot.—Democrat.

BLISSFIELD—Stockholders in the Peerless Fence Co. at Adrian are wondering where they're at. The stock was recently sold to a corporation at 70 cents on the dollar. Many of the stockholders have let go but those who are unwilling to sell at this price are wholly in the dark as to the intentions of the new owners. The stock has been a good investment in the past, paying an annual dividend of eight per cent and has at other times declared large special dividends. No annual dividend was declared this year. Several residents of Blissfield are large share holders.—Advance.

SALINE—While threshing at the farm of Wm. Westphal Friday afternoon, fire was discovered at the top of the straw stack near the carrier and in seemingly a moment's time the entire stack was ablaze and with it was burned all the buildings except the house, also 600 bushels of oats, 1000 pounds of wool, 15 tons of hay and a lot of tools owned by John Lutz, who is working the farm. While the cause of the fire is not known, it is believed that a jacket which hung by the grain and which had matches in a pocket went through the machine and were ignited. Light insurance.—Observer.

That serious kidney troubles follow; That Bright's disease may be the fatal end,

You will gladly profit by the following experience.

'Tis the statement of a Chelsea citizen.

John Kelley, W. Middle St., Chelsea, Mich., says: "I used Doan's Kidney Pills and they helped me wonderfully. My back was sore and lame and it was difficult for me to stoop on account of acute pains across my kidneys. I also had trouble from irregular passages of the kidney secretions. Seeing Doan's Kidney Pills advertised, I procured a box and commenced their use. I have had no trouble from my back or kidneys since taking this remedy and have felt better in every way."

Sylvan Theatre.

The Sylvan theatre, for the past five years a financial failure, seems to have become a real theatre if the indications thus far are any criterion of the balance of the year. The two plays "Camille" and "Tempest and Sunshine" given this season have both been as fine as any seen in the cities at popular prices and Messrs. Geddes and McLaren can rest assured that their efforts to give patrons of the Sylvan high class productions at popular prices will result in full houses provided the standard of shows is kept up during the balance of the season. Last evening the biggest house in years greeted "Tempest and Sunshine." The play was well presented by a capable cast and was well equipped in a scenic way. The audience were free with applause and the play was a big hit. The next attraction is "Sis Perkins" on Thursday, September 21.

Come around

and say 'Hello'

to me at the

State Fair

In am going to be out at the State Fair all week and every minute I will keep open house for the business men from the country.

I want you to come around and talk automobile with me.

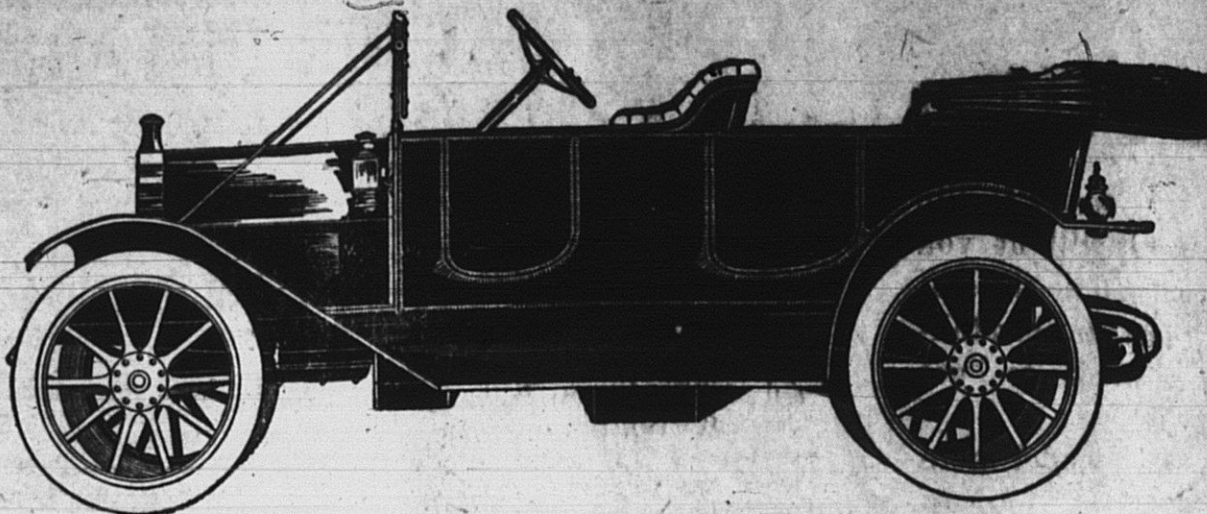

I will have a complete line of the excellent Cartercars with me and will gladly explain all their good features to you. It will do you good to get acquainted with the Cartercar, and you will then understand how logical is its slogan, "The Car Ahead."

You will clearly see why they are the very best cars for farmers and all other people.

Cartercars are designed and constructed for the men who want the highest quality at a fair price. They are not the "cheaper than walking" cars—neither are they for "millionaire clubs" only. Cartercars are practical cars for practical men—and such men have long appreciated them.

For several years I have made a close observation of the construction and the service given by the Cartercar Friction Transmission and I am firmly convinced that it is the only transmission that is suited absolutely to the needs of the farmer.

This transmission makes the Cartercar EXTREMELY EASY TO CONTROL. The

Cartercar

driver has any number of speeds always at his command, easily and noiselessly controlled by one lever. This adapts the car especially to hilly and sandy country roads, for there is always a sure, steady pull which will take you through.

The friction transmission has no gears—the power being transferred by means of a friction disc and wheel. Their relative positions govern the speed of the car either forward or reverse. There is no clutch to slip—no gears to strip—and no bevel gears to howl. I know that you will enjoy these features greatly when you are driving over a quiet country road.

The Cartercar requires but little attention. The driving unit is as nearly perfect as can be. The transmission is so simple and strong that it cannot get out of order and the chain-in-oil drive will run for years without any attention except oiling annually. The chain case is oil tight, keeping out all sand and grit, thus eliminating almost all wear on the chain.

There are no jars or jerks for the occupants of the Cartercar. The driver can stop the car—start it—change the speed from the highest to the lowest—or even reverse it without the occupants feeling the change.

In all kinds of tests, the hardest that could be imagined, the Cartercar has proven its worth and ability.

The Cartercar rolls along swiftly and noiselessly, brushing everything on the pike. It will take 50 per cent grade handily, and on account of the strong brakes is perfectly safe coming down the other side.

In addition to the strong hub brakes the driver has at all times the friction reverse. The car can be stopped very quickly, making it extremely safe for anyone to drive. My wife and eight-year-old son drive our Cartercar all around Detroit and out into the country, and they enjoy it fully as much as I do.

I know several men who bought some of the first cars we made six and seven years ago and THEY ARE STILL DRIVING THEM!

I am expecting to see you. Come around and shake hands with me whether you are thinking of buying a car or not. Maybe I can tell you some interesting things about automobiles—anyway it will be worth while to see the powerful, simple automobile.

Missed the Train?

Well not if you bought you watch at Winans & Son's. One might better go without a time-piece than carry a poor one. All is not gold that glitters and the poorest watch movement is often hidden beneath an attractive case. We recommend the South Bend Watch and give our guarantee with every one sold. Can't we show them to you.
