Farewell Reception.

A pleasant event took place at the nome of Mr. and Mrs. C. Finkbeiner on Madison street, Tuesday evening of this week. The occasion was a farewell reception in honor of Mr. and Mrs. Earl Finkbeiner, of Dayton, ohio. About thirty relatives and friends were present. A supper was served and a very enjoyable evening was spent. Mr. and Mrs. Finkbeiner spent the past week with relatives in this vicinity and came here in their auto. They left here Wednesday afternoon for Detroit. Upon their reternoon for Detroit. Upon their re-turn to Dayton Mr. and Mrs. Finkbeiner will pack their household goods and go to Portland, Oregon, where the couple will make their home.

growers of this state who stand to suffer heavy losses this season be-cause of the ravages of anthracnose and blight, and a series of experi-

and blight, and a series of experiments will be conducted in a effort to combat the diseases.

The bean crop in Michigan is valued at \$8,000,000, and the growers realize the crop is a quick and good moneygetter when there is a large crop of good quality. Under the direction of botanical department, experiments will be made to determine how badly anthracnose and blight affect the seed bean. The former disease is a spore development and an effort will be made to find something that will kill the spores. kill the spores.

Hunters Cause Complaints.

Many complaints are being made by farmers in this vicinity of reckless trespassing upon their farms by hunters. They say stock is placed in jeopardy by the reckless shooting, fences left open, and in some cases injured or destroyed, and many other

A few days ago ago a party of hunt-ers visited a farm a short distance west of the village limits, and when the lady of the house forbid them hunting on the premises, one of the men deiberately shot a duck that was running in the door yard. As the men were strangers to the lady, she was unable to identify them and cause

their arrest. No person has the right to hunt on farm without first obtaining permission from the owner. Stick up signs, "No Hunting on This Farm," and then enforce the law. The legal right is yours to prevent hunting on

RUNAWAY ACCIDENT

the farm of Fred Gentner, of Lodi. The team and wagon were owned by Geo. H. Foster & Son of this place.

Eugene Foster and James Winters, who are in the employ of Foster & Son, and were doing some work at the Gentner farm and they were returning to the farm between 6 and 7 o'clock from Saline and when about halfway between the two places an automobile came behind them and the team became frightened and ran for nearly a mile before the driver could get them under control. Just as this was accomplished the auto party drove up again and the horses made a fresh start. As they were crossing a stream start. As they were crossing a stream of water one of the whiffletrees caught in the railing of the bridge and was broken, this caused the tongue of the vehicle to drop and it was broken. Messrs. Foster and Winters were thrown from the wagon. Mr. Foster had one of his legs injured and Mr. Winters had two of his ribs injured and received other slight bruises.

After the break down the auto party Rev. D. H. Glass Injures Foot.

The following was sent to the Detroit papers from Owosso last Saturday:

"Rev. D. H. Glass, former pastor of the Central M. E. church in Pontiac, who came here two weeks ago to take up his duties as pastor of the First M. E. church, may lose his right foot as the result of losing his sheet too tightly. E. church, may lose his right foot as the result of lacing his shoe too tightly a short time ago.

What shall the farmer do first, pay his debts or improve his farm? Ed. A.

General discussion.
Character song, Grange Choir.
Reading, Charles Young.
How can the wife aid her husband in paying his debts? Answered by the Song, Well-what? Grange Choir.

A Reasonable Favor of Motorists.

Some time ago there were a few paragraphs that went the rounds of the papers warning people driving horses how to turn etc. when meet-ing or passing automobiles or other

I think most every one knows or heeds the rules given and in turn it seems that people driving machines could blow their horns in driving through the country roads. There are many sharp turns, woods and other things, often buildings which hide the on coming machines from sight until it is very close to one, and there is no time to turn and perhaps a collision has occurred. Or adriver might have a fractious horse which he would not have time to get under In his crop bulletin for September Secretary of State Martindale says the estimated yield of wheat is 16.15 bushels per acre and he reports that 1,500,000 bushels of wheat have been marketed in this state during the past two months. The estimated average yield of barley is twenty-five bushels per acre pass, thirty: corn, drivers to do this slight act. It is a

To Aid State Bean Growers.

Michigan Agricultural college has come to the aid of the bean growers of this state, who stard to make the company to the aid of the bean growers of this state, who stard to make the distribution of Deputy Sheriff J.

E. McKune a warrant was issued in Justice Witherell's court on Wednesday charging Charles Todaro with an assault upon Mary Elizabeth Galardi, aged 14. The examination will be held next Saturday forenoon. His limited to make the conditions whom people enjoy listenting to more. It is indeed, a rare treat for patrons of Ann Arbor's concerts to have an opportunity of hearing this wonderful man under the favorable conditions which are offered by Hill Auditorium,

The soloists of the numbers on the pre-festival series are unusually at-

pre-festival series are unusually at-tractive this year. On November 12, Margarete Matezenauer, the German contralto, who has made such a sensation at the Metropolitan Opera during the past year, will be heard in song recital. She is a splendid example of the limited class of singers who are equally at home on the operatic and the concert platform.

On December 9, the Philadelphia Symphony Orchestra, under the lead-ership of Leopold Stokowski with its full quota of ninety-five men, will be heard in an orchestral concert. This organization ranks as one of the few great orchestras in the United States, or in the world for that matter and under its distinguished conductor, it

under its distinguished conductor, it has won an enviable position.

The fourth concert on the program will be given January 23, when a miscellaneous choral program will be given by the Choral Union under the direction of Mr. Stanley. Solo parts will be taken by Lucille Stevenson, the well known soprano, and Mr. Marion Creen baritone, who made so favor-Green, baritone, who made so favorable an impression at the 1912 May

The last of the pre-festival concerts will be given February 18, by the distinguished Hungarian violinist, Carl Flesch. This will be his first American tour and it is a significant 'fact that as soon as his proposed trip was announced, offers were received from all of the great American orchestras, which is the best compliment that can

be paid to any virtuoso.

No special statements will be made No special statements will be made at this time, regarding the twenty-first May Festival, but it is known that negotiations are pending with some of the greatest musicians obtainable and it is assured that the twenty-first May Festival will be such as will commend itself to music lovers through out the country for the board of

V. of M. Student Sights New Comet.

Paul T. Delavan, an engineering department graduate in the class of 1912, who is associated with Professor W. J. Hussey at the observatory of La Plata, Argentina, on September 28re-discovered a comet sighted only once before, according to a cablegram received by Professor Westfall Delavan comet, it having been first discovered by Professor Westfall in 1852. This is the first the observations as iginal discovery, and observations as to the nature of the comet are now being made so that its movements may be determined.

Delavan is one of a party of four former students of the university who are working with Prof. Hussel at the South America university, They will return to Ann Arbor next February.

Mr. Delavan is a grandson of Mrs. Jane Tuttle formerly of this place.

Don't forget to bid on the range at Belser's. Bids close at 12 noon, Saturday. Adv.

The explosion of twenty tons of dynamite, the most ever exploded at the canal, rent asunder the dyke that held the waters of the Pacific from the canal. The breach left by the explosion was 500 feet wide. A few hours after the explosion, when the tide crept slowly toward the shattered dyke, a workman seized a shovel and dug a little ditch through which the water trickled slowly. Soon this little stream was converted into a rushing torrent which enlarged the gap as it swept on, and for the first time the waters of the Pacific washed the solid masonry of the Miraflores locks, then rushing on flooded that part of the canal between the locks and Gamboa.

AGAIN RAISING THE POPPY

Chinese Backslide on Their Agreement Not to Boom Business in Opium.

London.-The report of Sir J. N. Jordan, British minister to China, on the opium question indicates that there has been some backsliding in the effort to suppress the cultivation of the poppy since the introduction of the republican regime.

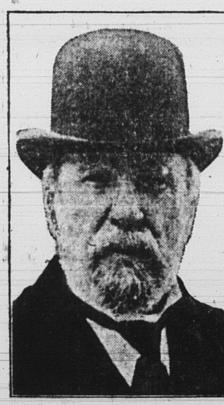

The report declares that since the fall of the Manchus the policy of suppression agreed upon between China and Great Britain has been weakened and that there has been an immense recrudenscence in the cultivation of the drug.

In the provinces of Anhui, Hunan and Shantung the campaign for the suppression of the cultivation of the plant his been successful, and in conopium into these provinces will cease. Italy. But investigation in other parts of the republic tells a different tale. In many class in sumptuous ocean hotels. They of the provinces the authorities are have discarded their wings and halfpowerless to prevent cultivation. It is Mr. Summer's idea that the fish were attracted to the spot by the cooler atmosphere and entered the building by some hole, which latei was stopped up. The river receded and the trout were left marooned be tween the ice cake

Fabulous Wealth Said to Be in the Ocean Off Coast of Gouberville, France,

Paris.-Two hunts for hidden treas are are in progress off the coast of

Three years ago M. Lesenechal, while dragging in the Bay of Gatremara, near Gouberville, on the Channel coast, found two silver ingots bearing a Spanish mark of the date 1692, and containing 9914 per cent, of pure silver. The inhabitants of the district told him the story of a Spanish galleon laden with gold and silver ingots, which was said to have sunk off the coast of Gouberville. Several attempts have been made to recover the treasure, but in vain.

M. Lesenechal obtained permission from the minister of marine to search for it, an is now doing so by means of the latest scientific apparatus.

The other treasure is said to lie off the Ile de Re, and the story of how it came to be there is full of romance. It consists of an immense strong box filled with gold and diamonds to the value, it is said, of several hundred

Rocky Coast of Gouberville.

millions of francs. It has reposed at the bottom of the ocean since 1820, when the Comte de St. Paul, an adventurer of the Vendee, banished during the revolution, was bringing it over from America on his return from

The vessel, a three-master called the Jeune Henri, was lost on the rocks of the Ile d'Oleron. Cases of gold and jewels were recoverey by fishermen of the island, but the strong box went down with the ship.

In 1898 a woman descendant of the comte, Mlle, Guillard de St. Paul, endeavored to locate the treasure, but without success. It is now believed that it has shifted toward the Ile de Re, and Mile, de St. Paul has resumed her search, with the help of divers and a "dowser," one of those mysterious individuals who say they are able to locate a water source or hidden minerals by a responsive tremor in a curved rod which they carry when they pass over the spot where the hidden treasure is.

NEARLY STARVES IN FIELD

Lay Helpless for Eight Days.

Los Angeles, Cal.—As a desert wanderer might perish in the wastes, so John Gramaz was slowly sinking from starvation and exhaustion in a field three rods from the main boulevard between Los Angeles and Venice. How many days he actually lay in the perilous plight is undetermined. He claims he was lost there for eight days, too

By the accidental arrival of telephone lineman stringing a wire across the field on Washington Hill; near the boulevard, Gramaz was saved from death. He was too weak and devitalized to talk, and a coherent report of his condition could not be obtained. Because of his starved condition he could hold no nourishment, and was sent to the County hospital for treat-

Stricken on the road to Venice, Gramaz stumbled to the side of the road, then into a field to lie down for a rest. He became dazed and partly unconscious of the passing of time.

Likely to Produce a Big Race of Cripples.

Philadelphia.-Mrs. Rebecca Kissick of this city is 195 years old. With her three children, nineteen grandchildren and eight great grandchildren she will celebrate the event in her home. She attributes her excellent health

and clear mentality to the fact that she has taken regular walks since she was a little girl.

"Anybody," she said, "can live to be 105 years old if they practice walking every day. In time, if our legs continue to be made lazy by new-fangled devices of transportation, we are going to have a race of cripples in this country. In fifty years' time people might just as well have their legs amputated, for they will be

at prices so much lower than others can, that it is best to buy the winter coat of a dealer. The cost of production is figured down to the lowest point, machinery working with great speed and the efficiency of experts in all departments combine to reduce the selling price of such garments. One is fairly certain of good style in them, too, for it is the life business of all who produce them to make them excellent in style and up to a high average in workmanship. Therefore the ready-made coat from a reliable manfacturer is to be recommended.

JULIA BOTTOMLEY.

Merry Thought Rings. Surely a more appropriate and happier idea than the merry thought napkin ring could not be imagined.

But it has its limitations, for never must it be broken, in order to follow out the old superstition of extorting the granting of a wish from Fortune. The ring is made of silver, and perched on the merry thought is a silver gilt grouse, while a dog, hot on the scent, is the decoration of an-

menu holder, with a slit cut down the middle of the back to hold the card. and there are also dogs, horses, stags and other objects which answer the same purpose. They are very pretty little ornaments, standing an inch or

The grouse is obtainable also as a desk seal or paper weight, so that as well as eating it, it can be looked on as an ornament.

Lingerie Cupboard.

The bride, to be up-to-date, should have a cupboard full of shelves as well as a bureau full of drawers to accommodate her lingerie. And these shelves must be fitted with an edging of ribbon and lace and chiffon, put on in the manner of pantry shelf paper.

This edging costs, according to the elaborateness of its pattern and the fineness of its material, a goodly price. But it can be made less expensively.

It consists of a strip of satin ribbon, or a hemmed strip of satin, about three inches wide. Over this lace is pleated, and the two are fastened totempting to make heavy outside gar- gether with chiffon roses or little satin ments, like these coats, at home. The flowers. The edging is tacked on the manufacturers have reduced their edge of the shelves under the little making to such a science and are able flowers. Thumb tacks can be used

Worms Know Her Song. Mrs. B. A. Hitchcock of Canaan, an officer of the Lifchfield County Equal Franchise league, has made the following statement in a letter to a local newspaper:

"I tamed half a dozen angle dogs or worms, and got them so that they would come up out of the earth and eat out of my hand. I fed them pumpkins and bran mash, but they thrive best on sauerkraut. It took me some time to tame them so that they knew my knock on the earth above them from the tap of an old hen's bill. I rap softly three times and whistle 'Oh, Promise Me,' and up come the angleworms. One day I discovered that the biggest, fattest angleworm was cross-eyed."-Winsted (Conn.) dispatch to New York World.

Turn About Is Fair Play. "A famous tenor," said Giulio Gattle Casazza, "was invited one night to dinner by a Chicago trust magnata The dinner was superb, but at its end the trust magnate asked the tenor to sing. This, of course, was as bad as inviting a doctor to dinner and then asking for a free prescription. So the tenor politely declined. The trust magnate, however, insisted. After five or ten minutes of this, the tenor said, with a laugh:

"'Oh, well, every one to his trade Let me see you pick a pocket. Then I'll sing."

A miser is one of the things that will keep in any climate.

Bill on Which Special Session of Congress Has Been Working.

REDUCTIONS IN MANY DUTIES

Average Ad Valorem Rate Is Lower Than in Either the Payne-Aldrich or the Wilson-Gorman Law-Income-Tax Measure Expected to Add Over \$82,000,000 to the Revenue-Measures for Collecting It Being Completed.

Washington.—The tariff revision bill, Democratic measure on which the congress has been at work, advanced to its last congressional stage when it came back to the house from the final conference committee with the unanimous indorsement of the Demo-

cratic conferees. The measure, of course, has both its friends and enemies. According to the administration, it carries out four of the party promises. Tariff reform, reduction in the high cost of living, campaign against the trusts, in many trust made article, and the in-

The measure, consequently, has a larger importance than that of a mere tariff reform bill, and its effect must be widespread, both on business and industry, and also in connection with politics. Democratic leaders are confident that business will suffer no untoward effect; that consumers will be

benefited. Changes in the Rates. The bill imposes an average ad average for the Wilson-Gorman act

was 39.45 per cent. Duties generally have been reduced on all of the articles that enter into products of the farm as well as manuactured products. Trust made products in many cases

have been transferred to the free list or the duties at present imposed have been substantially reduced.

will call for a tax on net incomes of unmarried persons of \$3,000 and upwards and on net incomes of married persons living together, where the wife or husband is dependent, of \$4, 000 and upwards.

Free after Dec. 1.

Free.

15 cents.

1 cent.

1 cent.

Experts' estimates indicate a surplus of \$16,000,000 over all expenditures at the end of the present fiscal

A rate of 40 per cent. is imposed on stockings and half hose valued at not more than 70 cents a dozen pairs. For stockings between 70 and \$1.20 a dozen pairs a duty of 40 per cent.

The conferees eliminated the provision inserted by the senate denying entry into the American market of goods manufactured by children under 14 years of age.

The final agreement provided that any person employed to collect the income tax may be utilized by the secretary of the treasury in the general service of the internal revenue bu-

Agricultural Products and Provisions. Cattle, sheep and other domestic animals suitable for use as food, wheat and wheat products and eggs, have been transferred to the free list. Reductions have been made on oats, butter, beets, frozen eggs, peas, greenhouse stock, zante currants, chocolate and cocoa sweetened and extracts of meats from the rates provided by the house. The rates have been increased over those provided by the house on broken rice, fish packed in oil and ground spices. A rate of 20 per cent. ad valorem is placed on ground spices in addition to the specific rate provided by the house on unground. The senate receded from the reduced rate placed on flaxseed and its amendment placing a duty on bananas. The house classification on that duties have been taken off of lemons and other citrus fruits is accepted.

Papers and Books.

The house rates have been reduced on common paper, box, boards, papers partly covered with metal leaf or gelatine and plain basic papers for albumenizing for photographic printing. The rates provided by the house for surface-coated papers suitable for covering boxes has been increased from 35 to 40 per cent. The senate amendments placing specific rates graduated according to thickness and valorem rate of from 27 to 29 per size have been agreed to with several cent. The average for the present reductions in the rates provided. The Aldrich law is 40.12 per cent. The rates agreed to are approximately equivalent to the ad valorem rates provided in the house bill. A specific rate has been placed on lithographic views of scenes and buildings lothe necessaries of life, including the cated in the United States instead of house. This amendment results in an increase in the rate of duty.

Cotton Manufactures. The senate classification of cotton cloth, according to the average num-The income tax feature of the bill is ber of the yarns contained therein,

provision for the highest number. This slightly decreases the rate of some fancy weaves and novelty cloth, but on the greater bulk of cotton cloth the rate is not affected. The rates on bleached and dyed colored yarns are increased and on cotton yarns and cloth made of yarn, from numbers 79 to 99. The rates on handkerchiefs or mufflers, not hemmed, have been deduced from 30 per cent., as provided by the house, to 25 per cent.

READY FOR THE INCOME TAX

Measure Will Yield Large Revenue, According to Those Who Have Drawn the Bill Up.

Washington. - Treasury experts have made an estimate that 425,000 citizens will be affected by the provisions of the income tax bill and that the revenue derived therefrom will approximate \$82,298,000.

This is the schedule: \$20,000 to \$50,000.....2 per cent \$50,000 to \$75,000.....3 per cent \$75,000 to \$100,000..... 4 per cent \$100,000 to \$250,000.....5 per cent \$250,000 to \$500.000.....6 per cent More than \$500,000 7 per cent So far as the taxable American is

concerned, the income tax law is now practically in force against him. While the tariff law in which the law is embodied will not be signed until next. week, the first returns do not have to be made to the internal revenue collectors before March 1, 1914. But when the returns are made they will cover the income of citizens from March 1, 1913, to December 31, and the first payment of tax will be for money received during this period.

Every single person (citizen or foreign resident) whose annual income exceeds \$3,000, and every married person with an income above \$4,000, is expected to report his or her receipts in detail to the government agents March 1 of each year.

To Produce \$82,000,000.

The estimate completed indicates that the income tax will produce \$82,-298,000 from the 425,000 persons taxed. To this will be added the \$35,000,000 or more produced by the present corporation tax, which is continued as part of the law.

President Wilson, the federal judges of the Supreme court now holding office and employes "of a state or any political subdivision thereof," are the only persons specifically exempted from the tax by the new law. 'The president and judges now in office were made exempt to escape any questions of the constitutionality of the law, and their successors in office will be compelled to pay the tax.

First Burden is on Citizen.

The general public is expected to give close study to the new law in the next few months, as the first burden of the tax payment rests with the individual citizen, and his failure to report his income is punishable by a

It is admitted that when first returns are made many taxable persons probably will escape payments, but will notify him June 1 how much with each year the government's lists of persons with taxable incomes will be made more nearly complete.

Methods of Collecting Tax.

Two primary methods of collecting the tax are contained in the law, One is that the individual return made by the citizen; the other the returns by corporations and other employers who pay their employes' taxes "at the source." Under the law as it will be signed by President Wilson next week, every large company employing labor will be compelled to report any regular salaries it pays in excess of the \$3,000 figures, and will pay the taxes for its employes and deduct the tax

from their pay envelopes. This "payment at the source" will apply to salaries, rents, interests, royalties, partnership profits and some other sources of income, and persons receiving such incomes must be prepared to show that the money has paid its tax at its source.

In figuring up his net income for the taxpayer, the American business man, after deducting \$3,000 for himself, or \$4,000, if married, will have the right to claim the following additional exemptions:

Falls, jars, twists, sudden jerks, over lifting, involuntary muscular contraction etc., impairs the spine or back bone. The great trunk nerves

If your spine is perfect every organ and tissue will receive 100 per cent ot nerve stimuli and they will perform their functions perfectly. This sluggers for many seasons. These condition is known as health.

However if any of these great trunk nerves are whole or partially shut off the organ or tissue will not functionate correctly and this condition is known as disease.

The Chiropractor finds the shut off nerve which is tender to the touch of the expert.

By adjustment of the spine the nerve is released and nature cures. No matter what your disease or affection call and see me at the Boyd hotel. It costs you nothing to in- game he makes a sensational record vestigate this wonderful science. I and news of his fame reaches the will find your tender nerve and tell you your trouble without any information from you. Your spine tells me your trouble. Spinal analysis and consultation free.

Office hours: 8 to 12 a. m. Monday Wednesday and Friday mornines only.

School Notes.

Written examinations will be held in all departments of the high school

The average percentage of attendance for all grades of the public school for the month of September was 98 per cent.

It took the children of the lower grades just one minute to clear the

The shower bath has been installed in the athletic room. The boys great-ly appreciate the fact that they can have a hot shower after a strenuous hour on the football field.

The next game of football will be Meg, Beth, Jo, Amy, Laurie, Mr. and played at Ahnemiller park, Saturday, Mrs. March, the professor, old Han-October 11, at 3 p. m. between the Wayne and Chelsea high school teams. The price of admission will be 25 and 15 cents.

The Junior class of the high school will hold a carnival the latter part of October, at which time a beautiful assortment of Japanese work on silk and linen will be placed on sale. Watch these columns for further notice concerning this event.

Asks for an Injunction.

The city of Ann Arbor after repeated efforts to induce the D., J. & C. railroad to pave its share of west Huron street beyond Seventh street, in accordance with the franchise the company holds, the common council unanimously instructed the city attorney to file suit in the circuit court asking an injunction to prevent the company from further operating in Ann Arbor in violation of its franchise.

Previous requests on the part of the city authorities to the railway company to do its agreed share of the paving, while the city paves its part f west Huron street, have been met with the reply that the company's funds for this work have been exhansted for the present year.

Corrects Records.

"Little Women."

dramatized by Marian de Forest, will be at the Whitney theatre, Ann Arbor, Saturday, October 11th, matinee and night. Since the first announcement of the combine of the co nouncement of the coming of this play much interest has been shown and already many mail orders have been received from surrounding towns. The seats are in demands and building in a recent fire drill. The it is now an assured fact that crowd-drills are given monthly in both ed houses will be the rule at both performances.

William A. Brady, who is making the production, promises that the breeziness and charm of the familiar story have been faithfully maintain-He has been most careful in his selection of "types" to impersonate nah, Aunt March, and all the others over whose joys and struggle so many millions of readers have laughed and wept. Much attention has also been given to a taithful staging of scenes which are so well described in the book. Many of the identical costumes and properties used by the March girls in their home plays will be used in this production. As is well known the character of Jo is Miss Alcott herself, while Meg, Beth and Amy FOR SALE-Several Black Top rams. are her sisters, Anna, Elizabeth and May. It was from John Alcott, Miss Alcott's favorite nephew, that Mr. Brady secured many of the articles used throughout the play.

Probate Order

STATE OF MICHIGAN, County of Washtenaw, ss. At a session of the Probate Court for said County of Washtenaw, held at the Probate Office in the city of Ann Arbor, on the 6th day of October, in the year one thousand nine hundred and thirteen.

Present. William H. Murray, Judge of Probate. In the matter of the estate of Ebenezer Boyden, deceased.
On reading and filing the duly verified petition of Abba B. Carr, praying that administration of said estate may be granted to John Kalmbach or some other suitable person, and that appraisers and commissioners be appointed. It is ordered, that the 31st day of October next, at ten o'clock in the forenoon, at said Probate Office be appointed for hearing said petition.

And it is further ordered, that a copy of this order be published three successive weeks previous to said time of hearing, in the Chelsea Standard a newspaper printed and circulating in said County of Washtenaw.

Black Silk Stove Polish ON'T imagine for a moment that all brands of stove polish are the same. Don't get the idea that to keep a nice glossy shine on your stove you mus black it every few days. It's not a question of oft-repeated application.

It's a question of the stove polish to use.

Black Silk Stove Polish is so much better than other stove polishes that there is absolutely no comparison—it's in a class all by itself.

It makes a brilliant glossy shine that does not rub or dust off. It anneals to

It makes a brilliant glossy shine that does not rub or dust off. It anneals to the iron—becomes a part of the stove. It makes old stoves look like new and lasts four times as long as any other shine.

Get a can and give it a trial. Try it on your parlor stove, your cook stove, or your gas range. If you do not find it the best stove polish you ever used, your dealer is authorized to refund your money. Black Silk Stove Polish has been made by the same formula and sold under one name for 30 years.

Here is what some of the ladies write us:

"I sent to you for a can of Black Silk Stove Polish and found it so much better than any I had ever used that I asked my hardware dealer to order a supply. He did so, and is now selling nearly everyone in the place your polish. I had no idea there could be such a difference in stove polishes."

"I was visiting friends and they used Black Silk Stove Polish on their stoves, made the best shine I ever saw, and after blacking, the polish did not rub or dust off, is way ahead of any polish I have ever used."

Ask Your Dealer for Black Silk Stove Polish and refuse a counterfeit brand not have the best. Made in liquid or paste—one quality. Black Silk Stove Polish Works, Sterling, Ill. Use Black Silk Air-Drying Iron Enamel for grates. fenders, registers, stove pipes, etc. Prevents rusting. Not affected by heat or cold. Produces a permanent glossy black surface. Can, with brush for applying enamel, only 25 cents. Ask your dealer.

Use Black Silk Metal Polish for nickel, braware or tinware. It has no equal for use on au STOVE POLISH "A Shine in Every Drop"

Paint Your Own Carriage

You can do it yourself and at little expense. It's easy to give it a beautiful, hard, brilliant, varnish-gloss finish in black or rich appropriate colors.

> (A) 12 0 1/ 8 8 8 CARRIAGE PAINT (Neal's)

is made especially to give to buggies, carriages and vehicles of all kinds, a tough, durable, glossy finish that will look well and wear well. An ideal finish for settees,

flower stands, porch furniture, garden tools and all surfaces that must withstand exposure and hard usage. Ready to brush on and the label tells how.

SLAYER OF TANGO TEACHER IN STATEMENT CLAIMS TO HAVE KILLED SCORE.

STORY IS NOT BELIEVED TO BE WHOLLY TRUE.

Criminal Does Not Know Real Name and Has Spent Nearly Half of His Life in Prisons and Jails.

Chicago-Henry Spencer, a criminal who has spent more than half of his life of 32 years in prison on charges of wholesale robberies, when arrested as the slaver of Mrs. Mildred Allison-Rexroat, a Chicago tango teacher, confesses he has killed 20 to 25 persons.

One of his victims, he says, was a former wife, whom he killed at Walkerville, Ont. He says he burned the body and clothes.

Spencer says he does not know his real name. He spent his childhood in an orphanage. Spencer used a hammer in more

than half of his crimes, because "the hammer didn't make any noise," he explained. a Mrs. Rexroat's suitcase was found

in Spencer's room and when he found that the evidence against him as the slaver of the dancing teacher was conclusive, he unfolded his story of death to the detective chief of the Chicago police force. The police records in Spencer made.

It is believed, however, that his statement that he is the murderer in each case is for the most part the result of an imagination diseased from opium smoking.

Will Abolish Commerce Court

Washington.-Abolition of the commerce court and legislation of its five judges out of existence was approved by a sub-committee of the senate appropriations committee, considering the urgent deficiency bill. The report of the sub-committee carries with it the assured support of the full appropriations committee, and practically had been found. seals the doom of the commerce court. Judge Mack, of the commerce court, was assigned by Chief Justice White to the United States district court of appeals at Chicago, because of congestion of litigation there. The assignment is for the months of October, November and December.

STATE CAPITO

SUPREME COURT HANDS DOWN RULINGS ON A NUMBER OF CASES.

ACCIDENT BOARD SAVES WORK FOR HIGH TRIBUNAL.

Superintendent of Public Instruction Wright Says That Text Book Law Will Save Eighty Thousand Per Year.

[By Gurd M. Hayes.]

Philip Koharski, of Detroit, who was convicted of murder in the second degree will be given a new trial as the supreme court reversed the decision of the Wayne circuit court and gave Koharski another opportunity to free himself of the charge. Koharski was charged with complicity in the death of Stanley Bartnitzki which took place on the night of July 3, 1912, near Willis avenue and Orleans street. The supreme court found reversible error in Judge Phelan's charge to the jury.

The Detroit United Railway company won a victory when the decision in the case of Harriet Colburn was amrmed. She was hit by a D. U. R. car in Detroit, but the Wayne circuit court decided that the accident was not due to negligence on the part of the company. William Wingert, of Detroit, who was hit by a D. U. R. car was not awarded any damages in the lower court, but the supreme court reserved the decision of the lower court and granted him a new trial

The decision of the lower court was reserved and a new trial granted in the case of Joseph Bellaire of Houghton, vs. The Worcester Lumber company. Bellaire secured damages of \$1,057 against the company on the ground that his land had been damaged while the company was driving logs down the Sturgeon river.

A case that has been pending in the courts of Ingham county for some when the case of Ellis Glassbrook tained a serious injury to his right hand whole working on a machine at the Wheelborrow company's plant in bureau of the Burns' detective agency 1909, and in the recent case before Judge Collingwood, was awarded \$6.- cent. 500. An error in the judge's charge to the jury, coupled with an excessive New Hampshire feeling is intensely verdict, are the reasons assigned by the supreme court for reversal.

The Order of Gleaners won a victory when the court reversed the decision of the St. Clair county court in the case against Larry O'Neill, administrator for the estate of Julia Breen, and refused to grant O'Neill a new trial. It appears from the records vestigation as to his age, and that he did not avail himself of the opportunity presented by the society to a member of good standing.

The judgment against the city of Mt. Pleasant obtained in the circuit court by Michael Keenan, who was injured in a cavein while laying water mains for the city, was affirmed.

William H. Burleston and the other directors of the Farmers' & Merchants' bank of Hanover, which closed in 1908, will have to pay Alfred Folks rendered by the supreme court, in which the judgment obtained by Folks in the circuit court of Jackson county was affirmed. In the proceedings against the directors of the defunct bank, Folks represented 100 other stockholders who assigned claims to him.

"We think it sufficient to state that in our opinion the plaintiff's proof were ample to establish against the bank, and without error so far as it was concerned, an indebtedness amounting to the sum for which judgharvest the potato crop. School the British steamer Cornwood. Four ment was recovered," says the court. Sustaining the decision of the circuit court of Kent county the supreme court awarded John Amanta of Grand Rapids damages to the amount of \$8,- eral Fellows says that a law passed 750 against the Michigan Central as is one of the largest awards in a personal injury case that has been affirm-

At the request of Prosecuting Attorney William H. Andrews of Berrien count, the supreme court granted an injunction to prevent Rupert Auer from continuing in the retail liquor business at Niles. Prosecuting Attorney Andrews attempted to secure the lature to bring the National Guard injunction in the Berrien circuit, but under the provisions of the act some failed. It appears that Auer took an provision would have been made to oath May 1, 1912, when he was grant- take care of an extra ordinary liabilied a saloon license, that he was a citizen of the United States, when in riot. reality he was still a subject of Emperor William, of Germany. Auer had failed to take out his second naturalization papers, and upon complaint of certain citizens of Niles, men were fatally injured in the mines who objected to Auer being in the saloon business, the prosecuting attor employe of a Saginaw coal mine and

ney took action to oust him. A decision in favor of the Kalama- mines of the upper peninsula. Eleczoo Lumber company was rendered in tricity, which is usually responsible the personal injury case of John C. for numerous deaths, caused only Welling. While working on a saw three fatal accidents last month. For Welling sustained an injury to his the first time since the inauguration right hand and was awarded a judg- of the compensation law the majority ment in the circuit court. when the supreme court reversed the decision of the Wayne circuit court in the case of Emily Lunds who was thrown to the pavement as she started to board a car. The woman brought suit against the company but was awarded no damages in the lower court. A new trial has been order-

Damages to the amount of \$1,200 against the village of Portland and the Citizens' Telephone company was affirmed. John Sykes, aged 18, was killed by coming in contact with a live wire which was hanging from a pole and the jury in the circuit held both the city and the telephone company liable. John Sykes, Sr., was awarded \$1,200 damages.

In one way at least, the workingmen's compensation and employer's liability law has reduced the work of the supreme court, as there are comparatively few personal injury cases arising from accidents to empleyes. Some of the cases which are now being | Monday elected president of the Chideciding were started before the new nese republic for a term of five law went into effect.

Superintendent of public instruction L. L. Wright says the new text parliament on the third ballot. book law passed at the last session of the legislature, which is known as state approximately \$80,000 per year.

"In estimating the saving in money through the operation of the new text book law I am compelled to give estimates only," said Superintendent Wright. "I have not sufficiently exact information in the office to make an accurate statement.

"There were 555,137 school children ehrolled in the public schools of Michigan last year. The amount of money spent for school books in that year apabout the average yearly expense for school books in Michigan. Many of the books were sold directly to pupils by book dealers who charged an average of twenty-five per cent over the wholesale price. The usual discount allowed by the publishers to the dealers was twenty per cent from the list

"Under the workings of the new law which prohibits the dealers from charging more than fifteen per cent of the wholesale price as scheduled in this office by the various publishing companies, boards of education are buying the books with district money, turning them over to the dealer to sell and giving him the profit. I estimate the average discount now allowed, from the list price at least by the larger companies, as twenty-five per

"Under the new law books must be sold by publishers to Michigan people or dealers at the lowest wholesale price charged anywhere in the United States and if the district boardbuys the books with district money only ten per cent profit may be charged. I estimate that the discounts allowed by publishers to dealers and to districts is increased from twenty percent off to twenty-five per cent off in the case that Breen permitted his from the list price and that the perpolicy for \$1,000 to lapse during the centage of profits charged by districts period when the society started an in- and dealers is reduced from twentyfive per cent average to ten per cent. I estimate a saving to the people of the state annually of \$80,000."

Although Secretary Drake of the industrial accident board gave a verbal ruling several weeks ago to the effect that members of the Michigan National Guard are in reality state empleyes and as such are entitled to the protection afforded by the workingmen's compensation and employer's liability law, Attorney General Fellows has rendered an opinion to \$17,582.95 as the result of an opinion | the affect that the compensation law is not intended to protect members of the militia, but he points to another statute which enables the board of state auditors to compensate national

guardsmen in case of injury. The decision resulted from the death of Ora Green, the Lansing boy who died as the result of injuries received in the copper country while on duty with Battery A, First Michigan Field Artillery. It was thought that Green's widow would receive compensation from the state and that the case would be acted upon by the industrial accident board.

However, inasmuch as the compensation act makes no mention of protecting the militiamen, Attorney Genseveral years ago which authorizes the board of state auditors to compenfund of the state treasury. This section of the law provides that the auditors shall determine what shall constitute a just and reasonable settlement.

In Wisconsin the industrial accident toard held that members of the National Guard were covered by the state compensation law, but Attorney General Fellows points out that if it had heen the intent of the Michigan legisty which might result from a serious

The mines of the state reported less fatal accidents during the month of September than ordinarily. Only two of Michigan last month. One was an the other was employed in the iron ision was reversed and a new trial cans, 15 of the 27 being native born.

CHINA'S CHOICE

RECEIVES NECESSARY VOTES IN PARLIAMENT FOR PRESI-DENT.

FIRST ELECTION IN REPUBLIC SINCE FORMATION.

Successful Candidate Is Fifty-four Years of Age and Has Been in Public Life for Many

Peking, China-Yuan Shi Kai was vears.

He received the necessary twothirds vote of the united houses of

On the final-ballot, Yuan Shi Kai received 507 votes, only one more than the King bill, will in his opinion rethe necessary two-thirds. Li Yuen sult in a saving to the people of the Heng, provisional vice president, received 179 votes. The other ballots were scattered among 20 minor candi- \$2.75@3.25. to the people of the state of Michigan dates. The announcement of the result was received with enthusiasm. The proceedings lasted 12 hours.

In all parts of the country the greatest interest was manifested in the proceedings-the first presidential election in the history of the new republic. The new president will hold office for five years.

Yuan Shi Kai is 54 years old. He was born in the province of Ho-Nan proximated \$425,000. This has been in 1859. During most of his adult life he has been in official life. At the age of 23 he was sent with a Chinese detachment to Korea and three years afterward became Chinese imperial resident at Seoul. He remained there 12 years, until he was expelled during the Chinese-Japanese war.

On his return to China, he occupied various provincial posts until 1902, when he became consulting minister to the government.

May Revise Party Rules.

Washington-The republican national committee will meet in Washington Tuesday, December 16, to confer on party matters and to take any action which may be deemed advisable. The decision to call the national

committee results from the repeated requests of republican leaders that an opportunity be given to revise the rules of the republican party. The principal changes demanded are in the basis of representatiaon from the southern states at national conventions, and in the method of electing 5.00. mary laws covering that subject.

Another Quake at Panama

Panama-Another earthquake occurred on the Isthmus at 5:06 o'clock Saturday afternoon. It was almost equal in Intensity to the shock of 1-2c at 95 1-2c, declined to 95c and Wednesday night, its duration being from 10 to 15 seconds.

The recording instruments indicated that the shock covered practically the same area of that of Wednesday with the central point of the disturbance about 110 miles from Panama city.

Buildings were severely shaken, but apparently no damage was done beyond the falling of plaster and the opening of slight fissures in a few structures.

Reports from the canal zone officials indicate that neither the locks nor any part of the canal suffered in \$7.75; sample red, 80 bags at \$7, 15 any degree whatever.

Imprisoned Miner Is Freed.

Centralia, Pa.—Thomas Toshesky, who was imprisoned in a drift in a coal mine by a sudden rush of ore eight days ago was rescued Saturday by the men who had been laboring night and day since he was imprisoned to achieve that object.

Toshesky fainted when the walls of his prison were burst open and it was at first thought that the joy of being free had proved too much after his ordeal. He soon recovered, however, and was remeved to his home. The miner's haid is slightly tinged with gray as the result of his experience, but he is otherwise unhurt and physicians say he will be fully recovered in a few days.

Straus Named for Congress.

New York-Oscar S. Straus, who was the progressive candidate for governor last year, was designated by the progressives as their candidate for congress from the twentieth disthrict in the coming special election to fill the vacancy caused by the resignation of Francis Burton Harrison, the new governor general of the Phil

SYNOPSIS,

Cowboys of the Flying Heart ranch are heartbroken over the loss of their muchunder it. I'll consent to eat here, but I heartbroken over the loss of their indenprized phonograph by the defeat of their
champion in a foot-race with the cook of
the Centipede ranch. A house party is
on at the Flying Heart. J. Wallingford
Speed, cheer leader at Yale, and Cuiver
covington, inter-collegiate champion runner, are expected. Helen Blake, Speed's
sweetheart, becomes interested in the loss
of the phonograph. She suggests to Jean
Chapin, sister of the owner of the ranch,
that she induce Covington, her lover, to
win back the phonograph. Helen declares
that if Covington won't run, Speed will.
The Cowboys-are hilarious over the prospect. Speed and his valet, Larry Glass,
trainer at Yale, arrive, Helen Blake asks
speed, who has posed to her as an athlete, to race against the Centipede man,
lete, to race against the Centipede will,
and fearing that Helen will find him out,
he consents. He insists, however, that he
shall be entered as an unknown, figuring
that Covington will arrive in time to take
his place. Fresno, glee club singer from
Stanford university and in love with
Helen, tries to discredit. Speed with the
ladies and the cowboys. Speed and Glass
put in the time they are supposed to be
training playing cards in a secluded spot.
The cowboys explain to Speed how much
the race means to them. Speed assures
them he will do his best. The cowboys
tell Glass it is up to him to see that Speed
wins the race. Willie, the gunman, declares the trainer will go back east packed in ice, if Speed fails. A telegram comes
from Covington saying he is in jail at
Omaha for ten days. Glass in a panic
forces Speed to begin training in earnest.
Speed declares to Larry that the best way
out is for him (Speed) to injure himself.
Glass won't stand for it. Glass forces
Speed rized phonograph by the defeat of their won't turn cannibal, even to please vou."

ing and he bolted to the outside fence." Larry forced his employer to a seat, then, securing a firm hold of the flesh, said Larry. "In fact, I never saw not?" Even yet the youth could not such a—"

Glass glowered at the cause of the interruption. "It's a nerve-center, of buy you a new phonograph, and call course!" Then to the others, he ran the race off?" he inquired. on, glibly: "The treatment was simple, but it took time. You see, I had in hand; Willie stared as if bereft of to first trace his bedildo to its source, motion. Then the former spoke slowlike this." He thrust a finger into Wally's back and plowed a furrow up up this fat party, Will." ward, "You see?" He paused, triumphantly. "A fore-shortened bedildo! It ain't well yet."

them?" inquired Willie.

"Certainly, cer-tain-ly-provided, of course, that the percentage of spelldiffer in the blood offsets it."

, "And-does it do-that?" they questioned, while Fresno suggested that it

was not easy to tell without bleeding the patient. "No, no! You can hear the spelldiffers." Glass motioned to Willie.

"Put your ear to his chest. Hear anything?" "Heart's poundin' like a calf's at a

brandin'. "Which proves it!" proudly asserted

the trainer. "Barrin' accidents, Mr. Speed will be in the pink of condition by Saturday."

The cowmen beamed benignantly.

"That's fine!" "We are sure pleased, and we've got something for you, Mr. Speed. Come on, Mr. Fresno, and give us a hand. We'll bring it in."

"It's a present!" exclaimed the athlete, brightly, when the three had gone out. "They seem more friendly this morning."

"Yes!" Glass laughed, mirthlessly. "They think you're going to win." "Well, how do you know I can't

win? You never saw this cook run." "I don't have to; I've seen you." "Just the same, I'm in pretty good shape. Maybe I could run if I really.

"Send yourself along, kid. It won't harm you none." The speaker fanned himself, and took a seat in the cosey-

"Ah! Here they come, bearing gifts." Speed rose in pleased expectancy. "I wonder what it can be?"

The three who had just left re-entered the room, carrying a trayload of thick railroad crockery. orbs were frozen upon Willie. It was

"We've brought your breakfast to you," explained Stover. "We'd like you to eat alone till after the race." Still Bill began to whittle what appeared to be a blood-rare piece of flesh, while Willie awkwardly arranged the dishes. "You want me to eat as well as sleep here?"

"Exactly." "Oh, I can't do that! I'm sorry, "Don't make us insist." Willie looked

up from his tray, and Glass raised a "Don't make 'em insist."

With fascinated stare Speed drew hearer to Stover and examined the "Why why, that's raw!" he es-

"Certainly not." "Oh, you fellows take it too seriously," Fresno offered carelessly. "He night have to."

Willie's upper lip drew back, showng his yellow feeth. "They don't sell no railroad tickets before Saturday, and the walkin' is

bad. There's your breakfast, Mr. Speed. When you've et your fill, you better rest. And don't talk to them ladies, neither; it spoils your train of thought!"

CHAPTER XIV.

cape from the Flying Heart was cut off, the young man felt agonizing regret that he had not yielded to his train-'er's earlier importunities and taken refuge in flight while there was yet time. Everything was too late now. Even if he made a clean breast of the whole affair to Jean, or to her brother

TOW that the possibility of es

when he arrived, what good would that do? De doubted Jack's ability to save him, in the light of what had just passed; for men like Willie cared nothing for the orders of the person whose pay roll they chanced to grace. And Willie was not alone, either; the rest of the crew were equally desperate. What heed would these nomads pay to Jack Chapin's commands, once they learned the truth?

There were still, however, two days of grace, and to youth two days is an Is, the Better I Like It." eternity. Therefore, he closed his eyes and trusted to the unexpected. How the unexpected could get past that ming."

But right here the teacher fainted

One Way to Gure Habit of Stuttering Recently a well-known woman phy sician wrote a pamphlet on "Stutter ing Children," and sent it to all her friends. In it she told the mothers of all children who are inclined v stutter that the way to aggravate the miction is to notice it.

"Pay no attention to it," she wrote "but when the child talks particularly clearly, praise him for it. Keep him in the open air as much as possible There are only a few cases that mus be sent to a school to evercome the

GENTLE HINT. INEXPERIENCED.

In a boarding house for bachelors, Amanda, typical "mammy," looked after the guests' comfort in true southern style so well that one of the men thought he would take her away with him in the summer in the capacity of housekeeper. Toward spring he waylaid her in the hall one day and

"Mandy, do you like the country?" Mandy reckoned she did. "Would you like to go away with me this summer and keep house for

Mandy was sure she would. "Suppose I get just a bungalow. Do you think you could take care of it

nicely by yourself?" Mandy gasped and rolled her eyes. "'Deed no, massa! Reckon you all better get somebody else; I don't know nothin' about taking care of any animals!"-Harper's Magazine.

STORY OF RELICS AT GHIZEH Prof. Flinders Petrie Reveals Secrets of Egyptian Tombs in Col-

lege Lecture. London.-Prof. Flinders Petrie, in a lecture at University college, Gower street, told a tragic story of the fate of a tomb plunderer. The famous Egyptologist was giving further details of his labors in the past season on behalf of the British School of Archaeology in Egypt and referred to the work which had been carried on at Ghizeh.

Excavations, said the professor, had been made on the site, and large cemeteries had been cleared, revealing immense stone tombs, with chambers, similar to those in the pyramids. One of these tombs had been attacked by a plunderer. The man had crawled through a small hole, had found jew-

Prof. Petrie's Headquarters Near Ghizeh.

elry and had been on the point of removing it when his death came. The roof fell and crushed his life out. He at right angles. was found lying dead over the body he had come to rob of its treasures. A pectoral with valuable stones was found by the excavators, who removed the two bodies and cleared the grave, "and," said the lecturer, "we have made arrangements whereby we shall have that beautiful piece of jewelry in England, and it will form one of the principal features of our exhibition in July."

One of the most interesting tombs was a painted one in rock, and it was gone down a shaft over twenty feet represented in pictures with offerings for the dead. The illustrations are made along the sides of a chamber ten "The jury has been out a long time." feet long, and the ceiling is painted with a peculiar pattern of crosses. Anone in which a life insurance solicitor finds. In it was a beautifully painted is suing a book agent, and I fancy the coffin of great size, on which were ments, tools, wigs and weapons of the period, but unfortunately the coffin was too far gone for any hope of its preservation to be entertained, and a sketch made by Mrs. Petrie was all that could be had

"Our work has proved," said Professor Petrie, "that the culture which was big apple I'd get the next nomination was higher than is popularly supfor congress from our district!—Puck. posed, and was very like the culture of the people of the present day. We have seen the difference between the forms of burial of the prehistoric people and the burial of the dynastic people, and we are forced to the conclusion that the district was invaded by a number of men belonging to a clan which must have been closely related.

MUSIC CAUSES DEER'S DEATH Animals in Oak Glen, Cal., Prove to

Be Strangely Susceptible to

Reed Organ Music. Redlands, Cal.—Now that the deer hunting season is open, it is possible, ney Pills for Heart Trouble from according to L. W. Clark of this city, which I had suffered for 5 years. I to lure the animals to death in the had dizzy spells, my eyes puffed, vicinity of Oak Glen, sixteen miles from this city, by playing sweet strains of music. Mr. Clark made the discovery unexpectedly while spending a few weeks at his summer cottage at Oak Glen.

"In the evenings up there my daughters frequently played a little organ which we have in our cottage," explained Mr. Clark, "and the deer got into the habit of coming up near the house to hear it. I won't attempt to say whether it was love for music or just ordinary feminine curiosity that I found Dodds Kidney Pills and you impelled the deer to come around as may publish this letter if you wish. I they did, and I don't wish anybody to am serving my third term as Probate understand that they came up close enough to shake hands, but they did come close enough so that a child could shoot them. I do not believe I would do so under the circumstances, even if the season were open. It would seem too much like murdering the beautiful creatures."

Fined Possing as "September Morn." Harrisburg, Pa.-Miss Ida Deal, an actress, who posed as "September Morn" in the waters of the Susque hanna river recently was fined \$50 by Mayor Royal. An ordinance defined her action as "disorderly practice and offending the morals of the

DOCHMENT INDUSTRIES - DETROIT

impelled to just throw in a few words for good measure. Nobody will make duced useful and valuable inventions has acquired a vast fund of the necesare found in this big list. He will not be compelled to go outside of it for disposition of these products of the ancing inventions for exploitation in wanted. anything he wants, for he has a great variety to choose from.

Engraving, restoring of old heirlooms, candy, fire extinguishers, patents, doll hospitals, stamp and stencil work-in fact, everything imaginable one can be accommodated with in a great city like Detroit. This is an industrial center. It is the mecca of all the rest of the state. It is a great place for genuine bargains and, what is not least in importance, it is the home of amusements of all kinds. People go there to trade, because they have such a great variety to choose from, but, after shopping is over, they like to take in the attractions.

the practical affairs of life. It is a hospitable old town, too. It has often been remarked that, in some way, Detroit is more like an overgrown village than it is like a city. Yet it is commonly called "Little New York" by many of those who have come from the great metropolis. Take it as a whole, with its good and bad qualities balanced against each other, there are a whole lot of cities worse than the City of the Straits. Don't you think so?

Detroit's Leading Photo-Engravers.

That old saying that Opportunity never knocks at a man's door mere In presenting before our readers the list of business houses that we business men, those persons who have and universities. Mr. MacDonald, in than once is a "delusion and a snare." Opportunity is a most persistent an vouch for as to their reliability and honest business dealings, we are spent years of patient toll and pro- addition to patent practice and law, knocker. It pounds on the door until you let it in. There are people right here in the state of Michigan who make it a business to knock at their any mistake if he confines his patronage to those firms and companies that or written books are protected in the sary experience in promoting and fin-

But be sure, however, that the man who knocks at your door is a neightecting the man who makes it possible that these two gentlemen, working to- bor. We read every day of people who have been taken in by wildcat mining and other propositions, submitted to them by some fellow in Denver or San market than for protecting the article Just one instance where their work Francisco or some town in New Mexico. Those are the opportunities that itself, for the experienced business accomplished much for their client are not opportunities at all. But when a man or firm of local reputation man can take care of himself, but is more eloquent than a column of for honesty and integrity makes you a proposition, it is well to listen to the inventor is often a man of small dissertation on this important subject him, for, while he may benefit himself, he may benefit you also.

In this supplement appear the names of many reputable concerns whose the City of Detroit invented an arti- business is to get together persons who want to sell and persons who want to buy. Others devote their energies toward bringing people together who want to exchange merchandise. A man with a farm wants to buy a lot in the city. Another who owns a lot wants to get a farm. Get 'em together and they are both happy.

In our list the reader will find not a single concern that is not reliable and we are proud of the list. Now let us get together; patronize home talent; deal with the local business man; give and take, buy and sell; live and let live. Thus we shall all make an honest living and help our neighbor to make a living for himself and his family. Local pride is laudable not only from a sentimental point of view, but as a business proposition as well.

It is this spirit of co-operation which has done do much toward the growth of this community in which we live. Think of the rapid advance of Detroit. If everybody in the city had been pulling in different directions, the result would have been far different. Detroit's growth has been phenominal, and yet it has not grown alone. The extension of sub-divisions out into the suburbs has enhanced the value of farm property and, in many instances, has turned farm land into city lots.

Sub-division Property the Best Investment.

in the wonderful city of Detroit, where week and no interest. values are increasing so rapidly—it "When one stops to think how this would seem folly not to invest that city has grown, it seems to him like ents and copyrights, the other day Bureau, applied for his patent and, dollar and take advantage of such an a fairy tale," said Mr. Abbott. EDUCATIONAL ADVANTAGES DETROIT

Particularly So in Training For Stage—Musical and Art—Auto Schools Have No Equals.

Every normal person is born with a bent. By "bent" is meant a natural inclination for a certain kind of work in life. Some take naturally to literary pursuits and become authors, poets, teachers or literateurs in general. Others show a remarkable genius for art, such as painting, sculpture, drawing or architectural work. Still others are natural mechanics and become in after life either inventors themselves or perfectors of the inventions of other men and women. One might also mention those who follow their bent into the liberal professions and become physicians, or lawyers or preachers.

There is also another class which cannot be overlooked in this so-called commercial age-natural born business men. Now, in the steady gain of man in his progress toward a perfect civilization, nothing, probable, is more remarkable than his advance in the art of education. Today the educational institutions of this country cater to all tastes and predilictions. If a boy or girl wants to follow a literary career and chooses one of the liberal professions, the great universities of the country are opened to him or her. If the pupil shows a talent for the fine arts, the great schools of design are prepared to receive him and give him a splendid training in that line.

If a business career appeals to him, he has the opportunity right in his own or a neighboring city in the shape of a business university, where he is taught bookkeeping, stenography, accounting and what is most valuable, is given a practical business training, so that, when he graduates, he is prepared to assume a lucrative and responsible place in the business world.

It is no longer necessary to go East for an education, in any of the arts. Detroit today is an educational center. This is particularly true of music and the fine arts. The city is recognized today as a musical center and, as an authority on the drama, it has been so held for many years. This is certainly a cosmopolitan town. If there is anything you want and don't see, ask for it. For we have it in stock.

In this supplement will be found the names of a number of educational institutions that, through merit alone, have won their way to fame, each in its particular line. They have been investigated and tried and in no instance have they failed to live up to their promises.

Detroit School of Design One of the Best of Its Kind in the Country.

One of the best art exhibitions ever given in Michigan was that recently and mechanical drawing, modeling, shown in the well known Museum of Art by the students of Detroit School of Design. Composed of original drawings, color work and designs of all kinds it occupied a space of 3,000 square feet in the Museum. It attracted a great deal of attention and savorable comment from visitors both from this city and from the art centers of the east. The Detroit School of Design, which is located but a short distance from the Museum of Art, namely at Jefferson avenue and Riard street, is a semi-public institution and not intended to be self-sustaining. Tuitions, therefore, are very reasonable, as the school is supported chiefly by private and public dona-

Every teacher is a specialist of long experience and natural ability selected carefully from all parts of the country. Anyone interested in having his mind trained to accuracy and speed and along lines of beauty will find the Detroit School of Design, with its splendid equipment and its excellent corps of teachers an invaluable means to this end. Industries of all kinds today are in need of young men and women specially trained in design. It matters not whether the demand We have been informed by George comes from business life or T. Hamilton, who is director of the professional life, or from manufactur- school, that it will ultimately form one ers of automobiles, it is a persistent of the group of buildings in the \$3, demand. Young men and women of 000,000 art center, for which plans are artistic training are needed today for being laid. Any of our readers who illustrators, mural and decorative are interested in art are referred to

This institution teaches free hand woodcarving, interior decoration and mural decoration; in fact, every branch of art which equips the pupil for a chosen work in life.

Mr. Hamilton.

Homer Wiseman, Well Known Vocal Teacher, Adds High Class Singing Acts to His Curriculum.

culture during the 15 years that he be put into a position to earn \$3,000 has been in Detroit, has taken up instruction in vaudeville.

"I have realized for a long time that there is a great demand for such instruction," said Mr. Wiseman, "One can go to New York and be taught high class acts, but this school will be established in Detroit. Many a young man or woman living near Detroit, who has a desire to enter the vaudeville field, does not care to go such a long distance as that to New York for instruction. When that person goes to New York, he or she wants to feel confident of being accepted at once.

Now that is Mr. Wiseman's object: Frame up the very best acts possible and give the pupils thorough training in them. But, of course, this is not all that Mr. Wiseman does. He prepares pupils for all walks in the musical life of the world. He prepares them for the grand opera stage, light opera work, church choirs, and ora- a year, which is not such a very bad torio work. He was the organizer of sa'ary after all." valuable to pupils.

THE USED CAR AND MOTOR CYCLE INDUSTRY DETROIT IS ONE OF LARGEST CENTERS

The pampered boy who tires of last year's toys and wants new ones this year and the woman who refuses to wear her last year's hat this year have "nothing on" the rich man who insists that each Spring he must dispose of the motor car which he has had, perhaps, but a few months and buy a new model. Happy is the man who buys that used, or second-hand takes his breath away when he con- Michigan concern, devoted to the incar. For he has paid a price far below its original cost and has secured templates the wonderful advance made terests of Detroit and the common-

Some of these cars are abandoned by their original owners after they have run a few thousand miles simply to satisfy a whim and to get the newest model in the market. Every man's experience tells him the pair of shoes that have been broken in and are as good as new give better service than a new pair. So it is with automobiles. After a few months of use they run better than new cars. They are "broken in," as it were, just like those old shoes. The very minute that you have used a car, you cannot sell it looked like. Then came the slow-go- motorist. This company is the manubeck to the dealer, for he is under no obligations to accept it and his busi- ing bicycle, without the endless chain. facturer of the famous Economy bicyness is to sell more new cars.

Now what becomes of those used cars? Why, it is very simple. A man of a high front wheel. At last the so- ported roller chains and the Farber who deals in them, buys it at a great sacrifice, replaces the defective parts called "safety" was put upon the one-piece crank hanger. if there are any, and sells the machine to some lucky fellow who is wise market and the policemen of the var- The Economy Company sells the enough to buy it. Not only is the city itself When one looks back upon the his- is today without doubt the largest in a genial entertainer, in that her citizens take pride in making visitors feel tory of vehicles of the past, it almost the country. It is distinctively a at home, but the natural attractions are unusually great. Probably, if you asked the first person you met what he considered the greatest attraction in Detroit, he would mention the river. But there is another attraction, which should not be overlooked, and that is the hotel accommodations.

Among the hostelries of the city we can heartily recommend the Charlevoix, which is mentioned below as one of the best in the city.

Hotel Charlevoix, Detroit, Mich.

This most excellent hotel has commanded more than a passing notice during the last few years and has been rightfully termed one of Detroit's Really Good Hotels. With a most ideal location corner of Park and Elizabeth streets, it is away from all noises of street traffic, yet in the very center of all places of amusement, office buildings, etc. Woodward avenue car lines one block away and all northern interurban cars same dis-

The building is absolutely fire proof, there being no wood in the construction only the little used in the window and door sills and the doors. There is not a foot of wood flooring in this hotel; even the base boards are of concrete or marble, and all of the lower window sills are of marble.

The Hotel Charlevoix has 200 rooms; 150 have private individual baths. There are some 25 most desirable two room suites, particularly adapted for families and parties traveling together. Every room has outside exposure, all are completely furnished and the whole house completely equipped, circulating ice water, phones, electric lights, twin elevators, etc.

In short the Hotel Charlevoix is first class and meets the wants of those demanding reliable, desirable and refined accommodations at a moderate price. The room rates are \$1.50 up on single rooms with baths. The tworoom suites are \$4.00 to \$6.00, depending upon the number of people. The The Charlevoix Cafe is most moderate in price and the management asserts without fear of contradiction, all matters considered, quality, prices and services there is nothing that surpasses this popular cafe and it has few equals. The service is a la carte with ready to serve prepared luncheon and dinner dishes. Waitresses are employed.

DETROIT IS LEADING HEALTH CENTER WAVENLOCK HAIR

Many Thousands Are Annually Cured Through Wonderful Institutions.

It is a fact conceded by all medical practitioners of the present day that Nature is one of the greatest healers. Away back in the now dim past, physicians used to resort to blood-letting-actually trying to cure by depriving the patient of Nature's greatest gift—the life-fluid of the human body. Many it, for after all the care of the scalp years have elapsed since that ridiculous practice was discontinued, and the tendency from year to year ever since has been also to avoid all stomachupsetting drugs as much as possible, so that today the conscientious doctor prescribes medicine taken internally only as a last resort.

"You need a rest," the patient is told. "Take a vacation; go into the mountains where you can breathe into your lungs the fresh oxygen of the high altitude, or to the seashore and bathe in the life-giving salt water.' If a vacation is impossible, he is told to keep as much as possible in the open, sleep on the porch, or take the oxygen artificially.

Thousands of physicians who have received diplomas from the leading medical schools of this and the old country, cheerfully recommend to their patients some of the discoveries of the great thinkers that have been placed within the reach of all, no matter how little blessed with this world's goodsappliances and natural methods which restore all parts of the body to their normal conditions and once more make life worth living for these un-

The editor of this paper has gone to considerable pains to look into these various cures, and, after a careful investigation through interviews and independent research, is able to place before his readers the names of the most reliable concerns of the country, and to heartily recommend one and all to the consideration of all who read these lines.

Of course, we do not pretend to say that in all cases Nature must not is at work. be assisted by science in the form of medicine. Materia medica has not been thrown into the junk heap by any means, and in our list of reliable medical firms you will find some that are doing their share in curing physical ailments. Macbeth said "Throw physic to the dogs." But he probably meant bad physic. Therefore we believe thoroughly that there are some diseases that need medicine taken internally. That is a self-evident proposition. Each particular case must be thoroughly diagnosed and then the proper treatment given. Electricity won't answer the purposes of a stomach pump, nor will

TONIC

"The Household Treasure"

Foolish Neglect of the Hair.

What is more enviable than a fine head of hair and how we do neglect is a very simple matter. Some dread gray hair as being one of the worst calamities possible; however, people are outwearing that prejudice and as a result, dyeing is very seldom resorted to nowadays, as even among the young, gray hair is losing its fearsomeness being looked upon as evidence of an active life. Nature provides the dye at the beginning-a coloring matter which is supplied through the glands connecting with the hair base. When that coloring matter runs out, the hair turns gray.

Loss of hair, however, is an entirely different and more serious matter and here is where science steps in and assists nature in keeping up appearances. When the hair begins to fall out or the scalp itches, we may be sure there is something wrong as these are two positive signs that dandruff has made its appearance and

To preserve the hair is a duty both to yourself and to nature and in order to keep the hair and scalp in the very finest possible condition, only the purest hair tonic obtainable should ever be employed and the same care used in its selection, as is used in choosing a physician and we have no hesitancy whatever in stating that Wavenlock Hair Tonic and Dressing manufactured by The Wavenlock Company, of Detroit, Michigan, is the most perfect preparation of its kind on the market today. To begin with, Wavenlock contains the highest quality of alcohol made into which is dissolved seventeen other medicinal ingredients, all carefully selected and intelligently compounded. Every ingredioughly mixed, Wavenlock is then put ation allowed to age for two months before being filtered, bottled and ready for the market. We are firmly convinced that for falling hair, itching applied, it positively never fails to keep the hair and scalp in perfect condition. It is not greasy, will not dye, is very penetrating and proves by a stinging sensation when applied, particularly after a shampoo, that Wavenlock warms the scalp and promotes circulation, thereby feeding the hair follicles and inducing a growth of healthy, glossy hair. The odor of Wavenlock is very delicate and pleasant and disappears as the hair-dries. Wavenlock Hair Tonic receives its most effectice advertising from its users, people who after using it, recommend its use to others and we heartily recommend its use to our readers.

HARMLESS REMEDY WHICH HEALS

Did it ever occur to our readers how much injustice is done to those who are honest and genuine by those who are dishonest, and unscrupulous? We refer to the patent medicine advertisers. Fortunately, the United the sheep from the goats, for the Food and Drugs Act has done great good in eliminating frauds upon unsuspect who placed upon the market honest medicines, and medicines that do the work that is promised are not injured on the contrary, they are helped by the government law, for they are protected in their legitimate under taking of benefiting sufferers from the many ills of life.

Foremost among honest concerns is the Coonley Medicine Company, 209 Cass avenue, a Detroit corporation. Dr. Coonley and his famous Home Treatment need no introduction to the public. This physician's remedies for liver, kidney, bladder, catarrhal and other troubles are household words. They are known the world over. Es pecially are they famous for the wonderful results they produce in dealing ith all kinds of female diseases. What woman has not heard of the Orange Lily Treatment? It is as harmless as a poultice and it is a specific for all disturbances peculiar to the so-called weaker sex.

Dr. Coonley's Blood, Stomach and Liver Tablets, his justly Celebrated Cerate Massage, his Compound Iron Bi-Hydrogen Tablets, Catarrh Remedy ets., are equally a specific where indi-

Eppler & VanRiper

There are other ways to burn money than by simply touching a match to it. For instance, keeping it hid about the house or in the barn or tucked away somewhere out of sight. It may burn that way and your insurance policy will not cover the loss. Insurance companies are too smart to take such chances. Why should you?

The safe plan is to deposit your funds with a reliable bank like ours and avoid all risks.
