Edward H. Chandler, d.....368 Sued D., J. & C. Ry. For Injuries.

The trial of a damage suit brought by Eugene B. Freer against the D., J. & C. Ry. was begun in the Jackson county circuit court Tuesday morning. Mr. Freer seeks to recover for injuries alleged to have been received by being hit by a car at the corner of Main and Mechanic streets, had gone to Jackson to visit a relative. He claims he told the conductor he wanted to go as near as he could to Blackstone street and that the conductor replied that the nearest point would be at the corner of Main and Mechanic streets, that be ing as far west as the car would go. He says that the conductor told him he would let him know when they reached that point and see that he got off there, which he did, but before Mr. Freer had stepped far enough away from the car to escape being hit by the rear end of the car as it swung around the curve from Main south on Mechanic, the car started on and struck him, knocking him to the pavement. It is claimed his right shoulder was broken, his back was hurt and that he sustained internal injuries from which he has not recovered.

Thank People For Their Kindness.

L. G. Palmer received the followng from W. G. Kerns and John Bohnet, of Lansing:

"We want to sincerely thank you for the kindness and sympathy shown us while in your city, and would ask that you convey our thanks to all Gaudy, r. others who so kindly assisted us. The people of Chelsea who proved they were friends indeed will ever be remembered by us with the deepest gratitude."

After his return to headquarters, been doing the same thing for twenty the commissioners met and ordered the railroad company to install bells For democratic national commit- with wig-wag attachment within teeman Wood received 92 votes and thirty days at both the west crossing and the Hayes street crossing.

The result on the township ticket | The order for the protection of the Hayes street crossing was made through the efforts of Prosecuting Attorney Lehman.

Autos Must Stop at Rail Crossings.

"It is the duty of motor car drivers approaching railroad tracks, where there is restricted vision, to stop, look and listen, and to do so at a time and place where stopping, and where looking and listening will be effective," said Justice Brooks of the supreme court in an opinion handed down

The "stop, look and listen" rule must be observed, the high court holds, Justice Brooks quoting from a federal dethat city.

Sanford sued the railroad company and got a verdict of \$650. At the trial t was shown that he had stopped, looked and listened some distance from the tracks, but had not exercised caution when close to the railroad. The Calhoun circuit refused to take the case away from the jury on the ground that Sanford had been cautious enough, frankly stating that the "stop, look if the stop was a dead one, the engine might be killed and a worse accident caused.

With this theory the supreme court, however, does not agree and reverses Bertke, William Curtis.

Election in Surrounding Towns. LYNDON.

The result of the election in Lyndon Monday was a regular landslide, the republicans electing every candidate on their ticket with majorities ranging from 12 to 44. The ticket is as follows: Supervisor, Charles E. Homer Stofer; commissioner highway, Grant Kimmel; justice of the peace peace fill vacancy, Squire G. Palmer; member board review, Ernest Rowe overseer highways, Willis Pickell; constables, Fred Hadley, Silas Young, George Goodwin, Ferd Wallace.

FREEDOM.

The election in Freedom resulted in the election of the republican candidates for supervisor and treasurer and the democrats elected the balance of the ticket. The successful candidates are as follows: Supervisor, Bernard Bertke; clerk, Emanuel Schenk; treasurer, Frederick L. Wagoner; commissioner highways, Michael P. Alber; justice of the peace, Henry Lutz; member board review, Otto Stierle; overseer highways, Gottlieb Horning; constables, Henry Niehaus, Gottfried Pfitzmaier, Louis Vogel, Calvin Koebbe.

LIMA. The democrats elected all of their ticket, except the member board review, which was captured by the republican candidate. Neither of the two parties nominated candidates for constables. The following are the officers for the coming year: Supervisor, Fred C. Haist; clerk, Emanuel cision and applying it to the case of M. Eisenmann; treasurer, Fred Bahn-John N. Sanford, of Battle Creek, who miller; commissioner highways, G was struck by a Grand Trunk train in Edward Gross; justice of the peace, Addison B. Shutes; member board review, Herman Fletcher.

SHARON.

At the annual township election the republicans elected their entire ticket, with the exception of commissioner of highways, the democratic candidate being elected. The result follows: Supervisor, J. W. Dresselhouse; clerk, George Alber; treasurer, and listen" rule should not be applied Ernest B. Raymond; commissioner of to automobilists for the reason that highways, August Kuhl; justice of the peace, P. A. MANCHESTER-There was a little nervousness over the fate of our mu-The following Sunday school officers nicipal power plant, when the high

By ELIZABETH SCHOEN COBB.

Just one accomplishment Roy Vastine brought with him when he started a post-graduate course at Lyndhurst college—this comprised being able to run faster and leap farther than any man in the institution. His record past and present was that of "a crack sprinter."

Roy had demonstrated and made good, and it placed him in a certain expert class. He was a frank, credulous young fellow, however, and his previous educational training had been of the home class. His uncle was a retired university professor and had taken pride in storing his mind with a store of profound knowledge, classic and erudite, and had now sent him off to put upon it a modern gloss.

One thing the worthy relative had added, was a thorough course of training in athletic exercise. Hence, the robust health of the new student, and hence also the readiness with which he was accepted in his inexperience by the college wolves as a veritable lamb for the slaughter.

They proceeded to play the usual amount of college hazing tricks upon him. Roy took it all in a good-natured way. Usually he turned the taridicule. For instance, they lured him to hire a horse and wagon, alleging that they knew a secluded orchard where there could be no visitors after midnight, and where they could get Mr. and Mrs. P. E. Noah spent Sun- enough luscious apples to last the fraternity for a whole term. They inveigled their ready "victim" into driving in the dark into the middle of a big swamp. There Roy was to wait until he got the "signal." They went home chuckling over the long and mo-

Behold, however, in the morning, bright and early, Roy drove past the fraternity house with a heaping load of ripe, tempting apples, smiled benignly as he halted in the midst of the juniors, distributed the fruit so

that none of the plotters got a bite, and informed them coolly that the only "quid pro nunc" they could hope for would be the discarded cores.

So his fellows were on the lookout Mrs. Orin Parker is ill with a severe for some suggestion or plan where they could get even. In the meantime an episode came to the front that brought a new interest into the life of

the "green" student. He and half a dozen of the more sporty of his set were passing down the road towards the town one bright afternoon, when a dainty phaeton with two ponies attached came into view. They were driven by the prettiest possible girl in the world, at once Roy decided. His companions doffed their caps and flourished about as though they were paying homage to some queen. They fancied themselves lady-killers, and showed it plainly. Miss Rose Jedele spent the week-end The young lady responded to their salutation with a dignified bow. Roy stood staring after her as though some new amazing element had come into his life, stunning him.

"Hello!" rallied one of the crowd; dead stuck, eh?"

"She is the most lovely creature I ing at the home of Mr. and Mrs. have ever seen, voiced Roy simply. "All the men are dying to win her," was the statement. "I can see your finish-moonstruck All right, gohas some of the richest fellows in the

> "I never bet where ladies are concerned," observed Roy, and that remark, respectful and dignified, was repeated to Miss Olive Mershon, later

> She was the daughter of a rich magnate, the belle of the district and courted by suitors innumerable. It never occurred to Roy that he would dare to do more than adore her at a distance. He did not know that from beneath those long eyelashes of Miss Mershon as she passed the group that day, a pair of bright orbs had taken in the foppish presentation of the others and noted the contrast with the simple, sensible attire and frank open face of the new student.

Then came the trump trick of the crowd. It appeared that at either exurer, Lavina Klose; organist, Frances ning by the gasoline engine.—Enter- in a clannish way as if enemies for all must be heated.

"Say! I've got the great idea," an-nounced the leader of the mischief- FAMOUS IN BIBLICAL TIMES makers to his cronies one day. college yell. We'll get him down nong the North squatters and get him to make the 'Maledetti Tedeschi!' cry of the South enders. Say! then

see how fast he can run." The plan was well conceived and carried out. They got Roy into the very center of the North district, Alexander the Great, and it appears in feigned a mission around the block and told him to hail them with the new college yell when he got tired of waiting for them.

that did Roy Vastine forget the startling spectacle that ensued, when he uttered the derisive cry which was a which stand in a wooden-domed buildscoff, a challenge, an insult to the com- ing in the center of the town. There munity whose precincts he had in- is no doubt that the two wooden sarvaded. As if by magic he became the cophagi shown there are ancient, but center of a surging mob. Men came rushing at him with huge fists clenched, women with uplifted mops and pans, children with cudgels and brickbats. Every store and house in the neighborhood poured out a stream of ravenous, incensed human beings.

As the true light dawned upon the mind of Roy, he realized that discre- end also. tion would be the better part of valor. As a big stone grazed his face, he knitted his arms to his side and bent his head and made a dive down a side

Roy described a tortuous course. One by one his pursuers dropped to the key that enabled the cuneiform inthe rear. Four or five determined men, however, seemed resolved to keep up with him. He had experienced no fear though betraying prudence against superior numbers. Now the zest of athletics directed and encouraged. At length he came to the

Roy braced mightily. In open admiration his pursuers stood rooted as he cleared the gap, landed on the other side and sank to the ground on the slant beyond to regain his breath.

A scream in feminine accents started him again to his feet. His quick eyes scanned the expanse about him. "There's danger," he uttered sharp-

A hundred feet away a team of ponies attached to a phaeton were dashing down the narrow road, the lines entangled in their feet-her phaeton, Miss Mershon and her ponies!

His prodigies of valor in saving the occupant of the vehicle from injury formed the theme of social gossip for a week. In halting the horses his arm had suffered and Roy had to wear !t in a sling for some days.

Thus invalided and with ample leisure, each day he was an invited guest to the Mershon home. "We're going to give you a banquet

next Tuesday," announced one of the crowd one day. "Thanks," bowed Roy, with a quiz-

left the student to put what construction he liked on his reply. (Copyright, 1916, by W. G. Chapman.)

FOUNDED VILLAGE ON ROCK

Acoma Indians Have Probably the Strangest Settlement in the United States.

Perched on the top of a great rock in the neighborhood of 300 feet high stands. Acoma, in some respects the strangest village in this country. Acoma is an Indian settlement of some 600 people, and means "The People of the Rock." Though the founding of the village is lost in the mist of antiquity, it is supposed the Acoma Indians chose this site as a measure of safety against the warlike Apaches and Navajos of their day. Their selection was made with admirable judgment, for the walls of the rock are almost perpendicular. The earliest Spanish explorers found the tribe settled securely in their natural fortalice. Acoma has remained delightfully untouched by the influences of Spanish and American civilization. These Indians are quite well-to-do in sheep and cattle, which are pastured on the grazing lands of the valley, where summer villages are located, and where the minimum of effort is required to care for the flocks and herds. Although less than twenty miles from a railroad, the village is comparatively unknown. The natives do not care for curious visitors. They do not wish to be stared at and photographed. Nevertheless, the irrepressible tourist with his camera occasionally scales the steeps that baffled the Navajo. Nowadays, it is no longer practicable to suppress him with a tomahawk, so the Acoma are philosophically making the best of a after her. I'll bet she'll turn you down | bad job by collecting two dollars a day the minute you get gushy, just as she for a camera license. The gray adobe village peers from its eyrie over miles of gray plain, dancing in the glare of a burning sun, broken only by the sheer outlines of buttes and mesas.

New Method of Soldering. An electric soldering iron of radically new design has recently made its appearance in the United States. Instead of employing the usual form of electric heating unit to heat the soldering iron, two carbon or carborundum high-resistance points are mounted a fraction of an inch apart, and so placed that the article to be soldered is bridged across them. The two points become incandescent, and apply their heat at the spot desired. Whereas it and threw fresh life into the discusrequires from eight to twenty minutes to heat the usual form of electric iron, the new soldering device is instantly ready for use. It consumes current tremity of the town there was a for- only during actual use, and eliminates eign community of workmen. They all losses of heat through conduction hailed from the same nation in north-ern Europe, but were as much divided irons, in which a large mass of metal

We'll pretend to teach Roy a new Persian City of Hamadan Has Had a Prominent Place Throughout the Centuries.

Hamadan, in Persia, figures in Biblical as well as early Grecian history. It was the ancient Echatana, the treasure city captured and plundered by the Book of Esther as Shushan, where Ahasuerus, who "reigned from India even unto Ethiopia," gave way to the caprices of Vashti and was induced to Never for many a long day after relent by the attraction of Esther.

At Hamadan pious Jews still point out the tombs of Mordecai and Esther, there is considerable question of their bear Hebrew inscriptions, one said to be of A. D. 557 and the other 841 A: D. Near the city a large mound is pointed out as the site of the palace. of Ahasuerus. A crudely carved lion,

Five miles from Hamadan, in a mountain gorge, is a famous stone with inscriptions in the Persian, Median and Babylonian languages, which seems to have been placed there by Xerxes. These inscriptions supplied scriptions at Nineveh to be deciphered. The natives believe treasure lies buried under the stone.

on the site, is the subject of much leg-

Hamadan was once famous for its white wines, but now its chief business is leather, which is much in demand in Persia for harness and sadlimits of the district. A deep drainage dles. Residents say the stench from ditch fully twelve feet across was in the tanning pools prevents the clocks from keeping the correct time. Its population numbers 40;000, including 4,000 Jews, and its position 6,000 feet above the sea makes it a healthy place

GOOD THAT COMES OF WORK

Occupation Healthful to a Remarkable Degree if It Is Used in the Right Way.

Work is simply a means of making a living. It is that, of course, or ought to be. But it has other attributes that are quite as valuable, and maybe, in the ways of the spirit, more so.

The work you do is an equivalent to the world, for it gives you food, clothing, shelter, amusement, the material of this outer life. That's the debt side

But work has other sides, and the creative part of work is its effect on the worker. If you are getting mental training, intellectual development, and interesting occupation from your work, you are beginning to get out of it what it is really intended to give.

your character you are using it the right way.

Even in such minor things as punctuality, neatness, directness, ease of intercourse with others, temper control, and good manners, work offers big training. And there are greater things than that in which it should teach and help you.

You will usually find that the man or woman who works is more sympathetic to the troubles of others than he or she who does nothing. The girl who works finds time to help her sisters, finds money to give to charity, finds the right word to say when

the word is needed. Honor and honesty are taught by work. The business woman is not apt to tease and wheedle for what she wants, she is not likely to cheat in small or big matters, she is not given to lying. It doesn't pay in work, for one thing. And unconsciously this tends to character building.

Kitten Saves Girl's Life.

Out in California a kitten saved a little twelve-year-old girl from probable death. The girl and the kitten went for a walk. After a short time the kitten returned alone and kept walking up and down in front of the girl's mother crying pitifully. It was trying to attract the attention of the mother, and every time it thought it succeeded it would walk off and, not seeing the mother follow, would return and cry all the harder.

Finally the mother noticed the performance and decided to follow the little creature the next time it repeated the affair, as she thought it strange it should act so.

The kitten led the way to the end of a recreation pier, where the child was found hanging head downward from a large spike in a pile. She had fallen from the pier and her clothing had caught on the spike.

Her mother immediately rescued her, but she was barely conscious Had she remained in that position five minutes longer she would have been dead.—Our Dumb Animals.

Cousins and Economy.

"Should cousins marry?" was the ob ject of an animated discussion at a ladies' debating club the other night After a great many speakers had rigorously taken the negative side, prepossessing young lady, who was known to have crowds of cousins herself, spoke up boldly in the affirmative, sion by declaring that she always did

FRENCH MAKE GERMANS HALT

ATTACK ON FIRST LINE TRENCHES SOUTH OF DOUAU-MONT FAILS, SAYS PARIS.

GERMANS LOSE MANY MEN

Germans Have Failed in Their Latest Onslaught Against Verdun.

London-"Repulsed with heavy losses" is again the official word from Paris describing the new attack by the Germans on the French trenches south of the Douaumont section of the Verdun front.

The official statement says the German infantry made a powerful onslaught on the first lines of the French trenches and that in the fighting that followed the enemy was driven back in the direction of Chauffour wood, northwest of Douaumont.

The French artillery concentrated its fire on the retreating Germans, who suffered heavy losses. In the fighting northwest of Verdun

against Haucourt, but this was repulsed, according to Paris. This news, coupled with statements

from the Berlin and Paris war offices, o'clock. is regarded by military observers as ample evidence that the Germans have failed in their latest onslaught against Verdun, despite their success northwest of Verdun.

FUNERAL SERVICE BATTLE OF THE WETS AND DRYS

TWO WET COUNTIES CHANGE TO THE DRY SIDE, BUT LIBERALS HOLD TWO FIRMLY.

SMITH IS GAINING ON RIVAL

Many Counties Have to Be Heard From to Settle "Michigan's Favorite Son."

While the drys won but two new counties in Monday's election even the wets probably will concede after looking at the returns, that the drys show an appreciable accretion of strength. Of the 13 counties voting nine were wet. The two that were wet and will be dry after the first of May are Baraga and Clare. The first of these has a population of 6,217 and is equipped with 24 saloons. Clare has 9,240 people and four saloons. These are small counties. It re-

mains to be noticed, however, that one of them, Baraga, is in the upper peninsula, proverbially "wet" territory, and the drys have now added their second county to the list above the straits. The other is Iron, which went dry at the last election. The only other try the drys made this time above the straits was in Schoolcraft and Delta, in both of which they lost.

	Wet	Dry
Baraga, W		78
Clare, W		- 76
Delta, W	1.058	
Ingham, D		2,415
Iosco, W	89

KILLS 30 BANDITS

THE TENTH (NEGRO) CAVALRY SURPRISE A GROUP OF VILLA'S MEN.

ENEMIE'S HORSES CAPTURED

No Mention of American Loss Were Made-Battle Took Place at Aguas Callentes.

San Antonio, Tex.-Surprised during their siesta, one of the groups of Villa's force driven from Guerrero, last week was defeated by a squadron of the Tenth (negro) cavairy under Colonel W. C. Brown, according to information secured by General Pershing and forwarded by him to General Funston.

In this engagement, the second, the American troops have had with Villa's men, the bandits' loss was estimated at from 30 to 40 killed. No mention of American loss was made.

Colonel Brown's encounter with the Mexicans had not been reported to report to General Funston, his information being gained from friendly Mexicans who had arrived at a point near Rubio, where Major Evans, of the Tenth cavalry, halted.

Major Evans reported that Colonel Brown had encountered a band of Villa's men and was pursuing them through San Antonio, Chihuahua. Soon afterward, Mexicans who arrived from that vicinity declared that he had ov-A Michigan laborer who is injured ertaken the wandering bandits at the while doing some task not specifical- village of Aguas Calientes, 20 miles southeast of Bachinava.

Business is like ore, dig for it. MORE GOOD THINGS.

A delicious sandwich to serve wita tea is this: Mix a fourth of a cupful of finely chopped Canton ginger with a third of a cupful of pecan meats. Add two table spoonfuls of finely cut candied ange peel, one ta-

blespoonful of the ginger sirup, one tablespoonful of vine gar and a few grains of salt. Spread between thin, unsweetened crackers. Arrange on a plate covered with a lace paper doily. Orange Cakes.—Roll out pie paste a

fourth of an inch thick and cut with any fancy cooky cutter. Arrange on a buttered sheet and bake in a hot oven until brown, split and fill them with orange marmalade, spread with orange frosting and sprinkle with chopped candied orange peel around the edges. To make the orange frosting add orange juice and orange rind for the flavor. Add confectioners' sugar until the mixture is of the right consistency.

Cherry Fritters.-Mix a fourth of a cupful of cornstarch, one fourth of a cupful of flour, one-half cupful of sugar and a fourth of a teaspoonful of salt. Add one-fourth of a cupful of cold milk and the yolks of three eggs, slightly beaten. Add the mixture gradually to two cupfuls of scalded milk, and cook in a double broiler fifteen minutes, stirring constantly until the mixture is well cooked. Add ohe-half cupful of cherries cut in halves and pour into a shallow pan to cool. Turn out on a board, cut in squares, dip in flour, egg crumbs and fry in deep fat.

Maraschino Sauce.-Mix thoroughly one cupful of sugar and two tablespoonfuls of cornstarch, add gradually while stirring constantly two-thirds of the boiling point and let simmer five Calves-Receipts, 900; strong; tops, minutes; then add one-fourth of a cup \$10.50; fair to good, \$9@9.50; grass- ful of the cherry sirup and a tablespoonful of butter bit by bit.

WAYS WITH VEGETABLES.

ease.

The need of vegetables in our diet is one which is well recognized by all who study the needs of the body. The elements we get from vegetables which they take from the soil keep the blood in good condition and help in the resistance of dis-

Cabbage should always be cooked uncovered to allow the elscape of the gases which cause intestinal trouble, and it also, when unconfined by cover, leaves a less objectionable odor in the house. Drop the slice cabbage into rapidly boiling water-and let it cook well until tonder, then drain and serve with but er and vinegar, salt

and pepper.

Parsnips — Cok parsnips until tender in boiling a ted water, then drain and cool. When it is time for the meal, cut in halves and fry in butter on both sides until brown. Sprinkle a very little sugar over them to insure a nice brown surface. Boiled parsnips, mashed and mixed with fritter batter, then fried in deep fat is an-

Onions With Apples.-Fried onions are so rich and indigestible, but withal so tasty, that one dislikes to eliminate them from the diet. When cooked with tart apples, using one part onion to two parts apples the dish is fully as delicious and more digestible. Put a small amount of drippings in the frying pan, add the sliced onion and brown a little, then add the apple and a small amount of boiling water, a sprinkling of sugar, salt and pepper and cook until all are well done. This dish may be baked in the oven and requires less care.

Potatoes a la Maitre d'Hotel.—Ust ally new potatoes are served in this manner, but freshly cooked diced potatoes are also good. Cook the pots toes until tender, drain them, then toss them in melted butter, well mixed with minced parsley, adding lemon inice to taste, season with sait and cayenne and serve hot.

A pot of parsley may be grown all the year around so that one may have the touch of flavor for various dishes as well as for garnishing.

SYNOPSIS. -13-

Alan Wayne is sent away from Red Hill, Alan Wayne is sent away from Red Hill, his home, by his uncle, J. Y., as a moral fallure. Clem drinks Alan's health on his birthday. Judge Healy defends Alan in his business with his employers. Alan and Alix, Gerry's wife, start a flirtation. Gerry, as he thinks, sees Alix and Alan eloping, drops everything, and goes to Pernambuco. Alix leaves Alan on the train and goes home. Gerry leaves Pernambuco and goes to Piranhas. On a canoe trip he meets a native girl. The judge falls to trace Gerry. A baby is born to Alix. The native girl takes Gerry to the ruined plantation she is mistress of. Gerry marries her. At Maple house Collinge. ruined plantation she is mistress of. Gerry marries her. At Maple house Collingeford tells how he met Alan—"Ten Per Cent Wayne"—building a bridge in Africa. Gerry begins to improve Margarita's plantation and builds an irrigating ditch. A baby comes to Margarita. Collingeford meets Alix in the city and finds her changed. Alan meets Alix, J. Y., and Clem, grown to beautiful womanhood, in the city and realizes that he has sold his birthright for a mess of pottage. Kemp and Gerry become friends. They visit Lieber, and the three exiles are drawn together by a common tie. Lieber tells his story. In South America Alan gets fever and his foreman sends him to er's. Alan tells Gerry the truth about Alix and Gerry tells him of Margarita and the baby. Alan wonders and is disgusted. A flood carries away Margarita and her aby, despite Gerry's attempt at rescue.

To be exiled 3,000 miles from home is as trying to an American's soul as serving a long term in prison. Consider Gerry's situation. He has lost Margarita and his boy. He longs to go back to Alix and Red Hill, but the shock of recent events have sapped the nerve he needs to make the start for home.

out. On the third day nature, assisted by his magnificent physique, finally routed the attack.

He called the old woman. He asked her if she remembered him. She peered at him. "No, master," she said, "I do not remember you. You are like the foreigner who was drowned, but he

Gerry shook his head. "Not dead." he said, "only disappeared."

"You are not her" said the old wom-an. "He dowld not talk words that one could understand." though wo

Gerry no ided gravely. He felt as ds could never make him smile again. "I have learned," he said. "Now tell e what became of the things I left here?" He went through me list.

The old wom'n checked off each item and then shrugged her shoulders. She led him to a little dark room whose only light came from the inter-stices of the tiled roof. As his pupils expanded he began to make out one after another of the bags that had made up his traveling kit.

"There is a letter," she said, and went off to fetch it. Gerry dragged the bags out into the light. Their locks were all sealed with the seal of the the litter lay Alan. He had refused to American consulate at Pernambuco. He started knocking off the brittle wax. The old woman came back with the letter and handed it to him. He tore it open. It was a note from the consul saying that by order of Gerry's wife his things had been sealed and left at the inn, telling him where to find the keys. The room, he learned from the old woman, had been paid for regularly, at first by the month, then by the year. She felt no resentment at his return, only resignation. You are the only guest I've had since you went away," she said quaintly and with a sigh.

"Fear nothing," said Gerry kindly. You have been faithful. You may consider the room engaged by me for the next ten years."

He carried his bags into the room overlooking the river and then lay bed. Gerry had never seen him look down. He was too tired after the fever to open them. He knew that the opening of those dust-covered bags with their rusted metal fittings was

going to be another ordeal. The next day Gerry sat before his anpacked bags. He had turned out all their contents. On the bed, the floor, the table and the chairs was piled such an array of linen and shoes and suits of various cut and weight as he had once deemed the minimum with which a man could decently travel. Now they seemed to him wasteful and futile. The clothes did not carry his mind back as he had expected. The starch in the linen had gone yellow. rita—she knew from the beginning. He had always hated yellow collars. The suits struck him as belonging to eone else—all except one. One sturdy suit of tweed had a cut that was different from the others. Of all the clothes it alone seemed to have a personal note—the note he had excted to find in the bars and had shrunk from.

Then he remembered. This suit had been made by his own tailor. He had worn it during a flying visit to Red Hill. He had had it on the day he left New York. He had worn it that morning in Alix' room. Red Hill came back to him, Alix stood before him. Through the suit he saw her room, the shimmering blue of her dressing gown, her crown of hair and her thin fingers busy with it. He felt again the nip

of the dear air as it had streamed in

stand?"

The worst of the flood was over. Gerry engaged a search party. All day long they sought for Margarita and her child. Towards night they found them, the little boy tight clasped in his mother's arms. Gerry laid them tenderly in the canoe and in silence the party crawled back up the river to Piranhas. No one looked curiously at the burden they carried up through the main street. Eyes were tired of the familiar sight. The hour of weeping, the allotted tears, were long since spent. They buried them that night. Gerry went back to his room. He sat for a long time looking out on the starry river. Then unconsciously he was a killing pace, but he knew the picked up the old tweed suit and hung | mettle of his mount. It fell naturally to the a firm step. lines of his body all except the waistback strap as close as it would go. Still the trousers were a little loose at retrospection. His mind lingered long the waist. At first he was puzzled, then he understood. He looked at himself in the broken glass with a gorgeous but sadly tarnished frame that hung on the wall. His shoulders seemed to carry the coat better than before. He could hear Jones & Jones say. "A splendid fit, sir. You can't

pick it up anywhere." Gerry turned from the glass with a sigh. He was restless. The heavy tweeds seemed to bind his limbs and chest, but he would not take them off. He sat at the window and watched the little stern-wheeler splash up to the bank. Luckily for her, she had been three days late in starting up the river, else that trip would have been her last, Gerry tried to exert himself to the trouble of packing and getting on board, but he felt listless. Why should he hurry back? Alix had waited, was waiting, but not for him. He had not walted for her. He must go back and tell her, of course, but what then?

A cavalcade came down the street. At its head was carried a litter and on ride in a hammock again. Behind him rode Lieber and Kemp. Gerry drew back from the window and watched them make their way down to the little stern-wheeler. She had brought little freight, there was none for her to take away. By three o'clock she gave a long shrick of warning, and half an hour later she warped out into the river and chugged away down stream. At the last moment Gerry had sent down to Alan a note addressed to Alix.

Lieber turned from watching the boat out of sight. It was bearing Alan away with Kemp installed as nurse as far as the coast. Lieber stumped heavily up the street, leading his horse. From his window Gerry called to him. Lieber took the reins from his arm and handed them to a boy. He climbed to Gerry's room and sat down on the

so tired. "So," said Lieber, "you escaped." Gerry nodded gravely. Lieber looked at him with dull eyes. "We passed Fazenda Flores. The house still stands. It's on a little island." Gerry nodded again. Lieber shrugged a shoulder impatiently. "Why aren't you up there?" Gerry braced himself and told him. In a dispassionate tone he told him the history of those terrible moments

of destruction and death. "I am not far-away and slightly luminous look there," he finished, "because there is nothing left. Three years—all my life here—have been wiped out. "Oh, no!" said the girl, sitting up very straight in her chair and fixing her eyes on his face. "How wrong you are! Missionarying, as you call it, is just another name for giving, and how can one give a great deal unless one has a great deal to give-strength and youth and vitality?"

"And you have given all?" asked Alan.

The girls eyes filled.

"No. you haven't given all," went on Alan quickly. "You are still giving. I must not borrow your last mite. But-your voice is like a nurse's hand."

When Alan went to bed he could not sleep. For a while the little missionary girl held his thoughts. He was filled with wonder, not at her, but at himself. For once in his life he had not been flippant before grave things.

From the girl his thoughts turned to Alix. He could have cabled to her about Gerry from Pernambuco, but he had not done so. The note that he was carrying for Gerry was light-only a half-sheet, probably. The lightness of it told Alan that the things Gerry had to say to his wife could not be put on paper. Alan had almost cabled. Now he was glad he had not done so. "Alix," he said to himself, "isn't waiting, she's trusting. A cable would have lengthened waiting by a month."

Then, without volition, his mind wandered from Alix and raced ahead to the goal of his journey. What was the goal of his journey? Whither was he bound? He reached for Clem's letter and held it in folded hands. He had no need to read it again. The words were nothing; the picture was all. It stretched before his mind, a living canvas.

Once when Alan was wandering with an Englishman in the hills above Granada, a faint odor had brought them to a sudden halt. It was the Englishman who made the surprising discovery first. "Blackberries, by Jove!" he had exclaimed. "Good old blackberries." And then they two had stood together, yet half a world apart, and stared at the berry-laden bush. What vision of a tangled, high-walled garden burst upon the Englishman Alan never knew, but to himself had come a memory of East mountain in autumn, so clear, so poignant, that it had brought his throbbing heart into his throat.

It was so now with Clem's letter. The words were but a hurried daub. but they touched his eyes with a magic wand. The daub became a scene, a picture, a world-his world.

a texture where the threads and colors of life were blended into a carpet soft but enduring. Men walked and little children played on it. Alan closed his eyes and sighed. What had he been doing with life? Making sacking? Sacking was commercial. It paid in cash. It was the national industry. But what could one do with sacking on Red Hill?

Then, almost suddenly, the full spirit of Clem's letter seized him. One did not take gifts to Red Hill. To every one of its children Red Hill was the source of all gifts-the source of life. On that thought he slept.

When he was back once more in his rooms, before Swithson had had time note to Alix to Red Hill and sent Swithson out to post it. He did not heart the protecting, brooding shelter try to temper the shock of the note with a covering letter. He was too weak and tired. Besides, he felt that the note carried its own antidote to

by hand to Alan's rooms. Alix had come to town and wished to see him at once. Would he please come around? He replied that he was too ill. Half for his product. If special milk is to other on his hip. an hour later Swithson answered a ring at the door and Alix slipped along his chosen line of endeavor. quickly past him into Alan's sitting room. There was a flush of anger in her cheeks, but Alan was pleased to see no trace of tears in her eyes. A woman's crying always touched him tity of special milk is handled, alon the raw and seldom awakened his though it seems that the trade de-

At sight of him Alix forgot her concern for herself. "Why, Alan!" she cried, "what is the matter?"

Alan laughed. There was a pleasant note in his laugh she had never heard before. "I'm all right, Alix. Don't make any mistake. I'm a resurrection in the bud. Doing fine. I don't have to ask how you are. You're well. You're looking just as well as a little slip like you can ever look. Sit down,

Alix' thoughts went back to hersel and immediately the flame burned again in her cheeks. She pulled Gerry's crumpled note from her glove and tossed it open on the table before Alan. He read the two or three lines in which Gerry told her he would arrive shortly. The brief note was intentionally colorless. "Well?" he asked.

Alix turned flashing eyes on him. "Well? Is that all you have to say? Alan, it is not well. I've come here because you must tell me-somebody must tell me-now-all the things that that note hides behind its wonderfully blank, weazened, little, hypocritical

How much of the truth of Gerry's life during the last three years will Alan tell Alix? And when Alix has heard it, will she ever want to see Gerry again. and be his wife?

(TO BE CONTINUED.)

SPECIAL MILK GAINS FAVOR

Trade Name That Should Be Applied Only to Clean, Safe Product of Highest Standard.

Orom the United States Department of Agriculture.) In many cities there is a tendency

to grade milk and sell it to the consumer upon its merits. Such a system is most desirable, as it enables dairymen who handle a high-grade product to obtain recognition for their care. It also enables the consumers to choose their supply on the absolute merits of the various grades. This is a sound commercial feature and one that is already recognized in nearly all other industries.

At the present time there are on the market numerous brands of special milks. The average consumer has only a hazy idea as to what is meant by special milk, but usually considers it to be in some way superior to the ordinary milk sold. Some milk dealers have considered that milk a little richer in fat should constitute special milk, while others have adhered to the

Sanitary Barns Which Have Much to Do With Production of Clean Milk.

principle that such a grade should be cleaner and safer than the ordinary

A special milk may or may not be richer in fat than ordinary grades, but and who was the man fit to escort it certainly should be produced and handled in such manner as to be cleaner and safer than the ordinary grades handled by the individual dealer or by his competitors. In this way public confidence can be maintained and an increased price warranted. Dairymen are learning that it is good business to stand squarely behind their goods to see that all claims are fully substantiated.

If a special milk is to be sold as such its standard should be high and permanent, so as to result in increased con- over and he had her by herself, fidence and increased demand from consumers. There is hardly any better way to create a demand than to to see me?" produce and maintain a high grade, and this grade is to be termed "special," it should by all means be as safe as possible, from a health point of view, and not a mere trade name, of her eyes at him. "Did you like the Business depends upon the demand, demand depends on quality, and quality on the inclination of the man bebe included, it must be his best effort and to this end every milk dealer should be able and willing to set and maintain a high standard. At present in most cities only a very small quanmands should warrant the sale of a great deal more.

FEEDING HINTS FOR A DAIRY

Change Calf's Ration Gradually-Silage is Safe Feed-Sunlight is Best Disinfectant.

(By H. P. HOSKINS, University of Minnesota.) Put the calf on a skim milk diet

when two to three weeks old. Make the change gradually, substituting a pint of skim milk for the same quantity of whole milk daily until the change is made. Increase the feed gradually until at four months old the calf gets 8 to 10 quarts a day, some grain and grass, clover or alfalfa hay. You safely can feed silage to calves

as soon as they are old enough to eat it. Be very careful not to give them moldy or decayed silage. Let them have all they will clean up. Yearlings will eat from 15 to 20 pounds a day. and if this is supplemented with some good clover or alfalfa hay very little grain is required to keep them in good. thriving condition.

Sunlight is one of the best and cheapest disinfectants. Ample provision should be made for letting plenty of sunlight into barns and heds. Southern exposure is desirable. The warmth of the sun is valuable in cold weather, while excessive heat in summer . may be avoided by using screens or curtains. Most disease germs are killed by direct sunlight.

By IZOLA FORRESTER. "I would not be going if it wasn't for Nora," Patsy said with a toss of her head. She stood before the bureau in the little front bedroom of the

RISH EYES

artistry. And the family admired and marveled likewise. Not a single St. Patrick's day dance had Patsy gone to in three years. Some said it was on account of Terry O'More.

flat, pinning a band of black velvet

around her hair as a final touch of

Terry had been born two years previous to the time when Patsy herself had arrived. The mothers of both had hung over friendly iron railings and chatted back and forth of a summer evening, tending their wee ones, and later the two had gone to the same public school, and had danced around street corners to the same

But as he grew older Terry developed a roving disposition. At seventeen he shipped on a coast steamer, and plied up and down as a cabin

"Go on with you, Terry," she told him. "I'll not be having you jaunt this way and that if you've a mind to keep along steady with me. You can go your own way."

"And I'd not be marrying a girl that wouldn't be proud of my seeing the world," said Terry valiantly.

But Patsy had felt hurt and sick at heart. She was twenty now, and her neighborhood wondered why Terry and she didn't marry and settle down.

So there had come a St. Patrick's day, and he was to have taken her to a dance that evening. During the whole day she had waited for him to show up. Then, when evening came and it was too late, she had laughed and gone to the dance with big Danny Sullivan.

Patsy never forgot Terry's face when he came into the hall and saw her in Danny's arms, fox-trotting. The next day he enlisted for three years in the army, and went away without a word to her, his best girl for five

She had heard of him from his sister. He was sent to the Philippines. Sometimes Molly told her they had received a box of things from him. He never sent anything to her.

Once, at a Hallowe'en party, he had found a silver ring in his slice of cake, and had slipped it on her finger behind the hall door as they were all going home. Patsy got it out and

But tonight it really was for Nora's sake that she was going up to the wanted to go, and she wouldn't be letting a girl like that trip off alone. Nora?

They were a little late, but still in time for the grand march. Someone on the reception committee caught Nora away to introduce her, and Patsy found herself handed over to a swiftly-procured partner.

"Here you are, Terry, my boy," said genial old Donovan, the floor chairman. "Take your places now quick

over there." The hand that Terry took was cold. It seemed a year before the march was

"And won't you say a word to me. Patsy?" he asked. "Aren't von glad

"If I'd been waiting with a welcome for you all this time, it might have grown a bit cold by now," said Patsy, with the old toss of her head and flash

climate, Mr. O'Mere?" Terry groaned in spirit, and a bit audibly, too. He leaned one hand on hind and the standard he wishes to set | the wall just above her, and put the

. "I've thought of you and dreamed of you every day for three years," he said, fervently. "And you haven't changed a bit, Patsy. My heart dropped in my boots and flew up to the stars when I saw you come into the hall." "It's quite lively, isn't it?" laughed

Patsy. "Have you brought it back in pieces?"

"You should be knowing, Patsy. I left it with you. Didn't you break it yourself dancing with that wall-eyed Dan Sullivan right under my nose in this very hall? Didn't he tell me himself he'd marry you in a month, and he knew you'd have him? Didn't you tell him I was a rolling stone?" Patsy's eyes twinkled at the mem-

"I did." she said happily, "and more of it. But he never married me in a month, or a year, either. Don't you think Nora's a beauty?"

"I'm not looking her way just now," said Terry. "I've served my time, and am in the reserves now, and I'm going to settle down. I've had enough seeing things. You'll find me changed. Patsy. I'm a quiet family man new. Sure I'll go back to the colors any time they need me, and you may be drawing a widow's pension on my bones yet, Patsy darling, if you say the word.

Patsy looked down at her hands. and she turned the little ring around her finger. Couples were going back to the hall to the next dance, but they two lingered.

"Patsy, treasure, can't you say something kind to your boy?" Terry

"Oh, go along with you, Terry," she laughed. "Can't you see I'm wearing your ring?

GEORGE ENGLE SETS VALUE ON TANLAC

Would Not Take \$100 And Be Back Where He Was Before Using Medi-

Declaring that Tanlac, the premier preparation, had completely relieved him of stomach trouble and also improved his general health, George Engle, of Union City, recently said thathe would not take \$100 for the medicine, provided he could get no more

it. This is the statement he made. "I think that Tanlac is the finest medicine in the world. I used it for stomach trouble and found complete relief in a short time. It is the first medicine I have ever found that would help me. My stomach got all out of the winter in Detroit and Ypsilanti. and I suffered from sour stomach, indigestion and other disorders.

"I began to use Tanlac and soon was in good condition again. I feel better in every way and am not troubled with stomach trouble any more at all. I eat well and sleep fine. I can't praise Tanlac enough."

Tanlac is proving of exceptional value in all cases of stomach and liver trouble, as well as being a powerful Tanlac may be obtained here at the store of H. H. Fenn Co.-Adv.

On Display

Combining every requisite of style and quality in truly American fashion. These new garments portray the latest and best style tendencies for spring, 1916. In this showing is what Dame Fashion has ordained correct in the new Coats, embodied with the added touch of quality which every woman demands.

Beautifully tailored Coats, designed on loose lines with fullness starting from the belt or shoulder; shown in checks, plain fabrics, poplins, gabardines, chuddah eloth and distinctive novelties, each garment enhanced with novelty collars.

SPRING SUITS

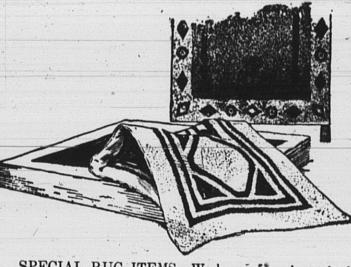

Black and white checked Suits, fancy silk lined, some with silk and some with white leather collars and belts.

Navy blue poplin or serge Suits, silk lined, at \$15.00 to \$25.00.

SPRING COATS

New lot of Coats for Misses and Children, made of fancy materials, at \$10.00 to \$17.50.

Home Furnishing Is Easily Solved Here

Spring with its demands for new furnishings finds this store ready with ample stocks from which you can meet every requirement. Everything you need to dress up the home or touch up any room can be selected here with the assurance that you are getting merchandise that will give satisfaction.

Buy Rugs now. Prices are right for stock on hand. Any rug we have to purchase from now on will cost us very materially more than those now in stock. New, bright, fast color, all-wool Ax-

minster Rugs now in stock. All sizes. SPECIAL RUG ITEMS-We have a number of slightly mismatched Rugs in our stock at

very materially lower prices than usual. Big stock of small Rugs. Big lot of the famous Farr and Bailey Linoleums just received. These linoleums are decidedly better than those usually offered. The colors and patterns are much better placed and they are especially heavy and well varnished. 2, 21, 3 and 4 yard wide in stock.

New Quaker Curtains

We have almost an entirely new stock of Quaker Lace Curtains. These makers certainly have made great strides to bring the lace curtains back into general use by offering entirely new and different designs. These new Quaker Lace Curtains will not be recognized as lace curtains as they are exact copies of the very expensive imported or hand-made curtains 50 pairs lace Curtains at 39c and 50c. per pair.

15 pairs lace Curtains, very special at \$1.00 per pair.

LEGAL PRINTING-The Standard

IN THE CLOUDS

By ESTHER BURR REYNOLDS.

"The profession has all gone to pieces!" mourned old Zekiel Brown. "Where is genius? Where is talent? Where is the dashing bareback rider who thrilled the thousands, and that big laugh of the universe, the clown, fairs. There were long jumps, how-

"Where, indeed?" murmured his petite and pretty daughter, Iola, sorrowfully, as she stitched away at a tinseled dress which she wore as a supernumerary in a cheap theatrical

"The day of the clown is over," mourned old Zekiel anew. "It's the day of 'the entertainer,' now! As to the child equestrienne act, I might as well have trained you for the opera. Poor child!-our glory is departed and they pay you, a star of the arena, six paltry dollars a week for standing on the stage with a dozen others in a village maiden scene!"

"Do I complain of it, father, dear?" cried Iola cheerily. "That keeps the pot boiling, and times have got to change, for Merrill says so, and he is a rock of strength and dependence. you know."

"Yes, poor Merrill!" continued the old circus favorite, determined to grumble out all his manifold troubles. "Look at that boy, the best triple somersault man in America-once. Nowwhy, the new-fangled 'equilibrist' has to invest two or three thousand dollars in his act outfit before he gets a vaudeville engagement. And the wedsettled position as advance agent for a show, and what does the show do? balloon and be married among the Bust! And the wedding put off till he clouds?" she submitted. sees his way clear to support you!"

was disappointed. Merrill Boyd had man. been a close friend of her father and a lover of her own for several years. Humble people, and honest, they were, finery and veil that well concealed her the sawdust grime and the tinsel glare face. As to the young man, Merrill never having hurt them one bit, for smilingly pasted a false mustache on the circus ring was a family proclivity his lips. Then Merrill went out and on both sides.

Iola, and sprang to her feet, all aglow loon and orders given to cut loose. with delight and suspense. The door | Just then a furious, red-faced old

Shook His Fist Aloft.

ous tramp of sturdy footsteps. Handsome, alert, kindly-eyed and manly looking, Merrill Boyd burst in upon the homely little room, brisk, stimulating and quite excited.

"Well, old friend," he cried to Zekiel, "I've made it!" "You don't say so-another engage-

ment?" questioned the old clown eagerly. "Not in the old line, though," replied Merrill. "You see, we are desperately driven, and I had to hustle for some-

thing now and ready. In the first place, my dear," beaming on Iola, "we've got to get married, you and I." "When?" voiced the astounded Iola. "Every day for a year to come,

maybe." "Why, Merrill!" began the old cir-

cus man, agape. "Where?" gasped Iola. "In a balloon," promptly explained Merrill, "Don't get the figgers, peo-

ple. It's a plain, practical proposition." Then he told what it was. He had

run across an old circus friend, whose business had been making show balloon ascensions. The man was crippled, could work no longer, but had some contracts with circuses for the season. He offered to lease the balloon to Merrill for ninety days on an income-sharing basis. A feature of the ascensions was to be a prize to the man and woman who would go up in

the balloon and be married. "You see," said Merrill to old Zekiel, "you are a licensed minister. Not many times will strangers go up in the balloon, so Iola and I must make the play, and you must marry us."

"Yes," replied Zekiel, "that is a fact. Years ago I had a license to preach for a sect out in Dakota, and it holds good. Am I to really marry you two?"

e inquired. "Once, for good. There is no other way, and every time the ceremony is repeated it will bind us closer togethrequests its patrons who have business with the Probate Office to ask the Judge of Probate to order the printing sent to this office.

way, and every time us closer togethere is will bind us closer togethere in the probate to order the printing sent to this office.

"Can you ask?" questioned Iola softly, her great faith in her lover shining in her beautiful eyes.

So it all came about that the trio entered a new and apparently promising field of business activity. And so they were married, and for a month married over and over again, and were making good headway when the circus people went bankrupt.

It was hard to find another permanent engagement. There was a month of idleness, and the profits were eaten up by expenses. Finally Merrill deever. The balloon constantly required repairs and new equipment, and the prospects were not alluring.

They had about decided to give up the balloon experiment, when, one afternoon at a bustling Illinois county seat where a fair was going on, something quite tremendous happened.

No genuine engaged couple appearing to go aloft and be wedded, Merrill and Iola were in a little tent ready to make up as bashful groom and blushing bride, when one side of the canvas was pressed in and then lifted, and a quick voice spoke:

"We'll hide here. I am sure your father is on our track." "Oh, Gerald, what shall we ever do

A handsome young man had pushed into the tent a bewitching little

beauty, and they stood daunted and fearful before the astounded Merrill Their story came out-they loved one another, but cruel papa was opposed, and they had eloped. He was

on their trail. He might arrive to trace them at any moment. Iola regarded the clear-eyed young man and the fluttering bird of a girl with moistened eyes. Love and symding! Here Merrill thought he had a pathy spoke in her rapid suggestion. "Would you be afraid to go up in the

"So long as we land again on terra Iola looked a little grave. Yes, there firma man and wife, float us to Mars was to have been a wedding, and she if you like!" cried the ardent young

So in a hurry the eloping young lady was arrayed in the tinsel wedding advised old Zekiel as to the plot. Then "There he is now!" suddenly cried the couple were hurried to the bal-

opened, succeeding to the quick, nerv- man dashed up in an automobile. Just then, too, the false hirsute appendange on the lip of his would-be son-in-law fell off and the old man shook his fist aloft with a yell of baffled de-

> When old Zekiel returned with the balloon-empty-three hours later, he

> "Well, people," he said to Merrill and Iola, "that happy young fellow, who is a junior Croesus, gave me a wedding fee-look!" "A check for five thousand dollars!"

cried the astounded Merrill. "Oh, rapture!" chirped Iola. They sent the balloon back to its owner, bought a growing little busi-

ness, and comfort and joy was the inevitable outcome. And often a lovely woman and her happy-faced husband came to visit them-at times, also, a contented old man - paterfamilias - entirely recon-

in the clouds. (Copyright, 1916, by W. G. Chapman.)

MOVEMENT FOR PURE EGGS.

Proposal Made That Peregrinations of Hens Be Investigated and Results Noted.

There is a general sort of feeling that one fresh egg is as good as anothweekly supply of eggs is fertilized or not? Most of us are particular to the accordance with our ideas restaurants even do up loaf sugar in sealed billets, and so on through the list without a lapse until we come to eggs.

not germ proof by any means. From the moment we realize how it happens that an egg can grow "stale" we must admit that contamination is possible.

A whole group of disquieting revelations follows upon this admission, not the least of which is the discovery that the garden or farmyard hen is at present allowed to saunter whither she listeth regardless of hygiene. Then we trustfully gather her product and feed it to our babies and invalids, forgetting that unless hens are healthful, unless their food is pure and clean, they cannot lay pure eggs.

When poultrymen realize this, and all scientific poultrymen do realize it. the chicken nuisance will be a thing of the past, and people who want to sell eggs will no more want their fowls to run free than the modern dairyman allows his kine to nibble by the road-

For Intending Builders. To avoid disappointment in the workmanship of the interior trim the homebuilder should familiarize himself with the terms "good" work, "extra good" work, "super-extra" or "cabi-

net" work. In houses of moderate cost it is not customary unless so specified to use cabinet finish in putting the interior trim in place. In "cabinet" work every joint is doweled and glued like furniture, and if this work is desired it must be called for in the specifi-

Effective Combination to Be Carried in Pocket.

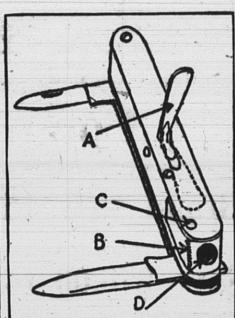

Discharges Small Cartridge, but One Capable of Inflicting Damage at Close Range-Useful Defense Against Burglars.

The smallest breech-loading cannon in the world is now being made for pocket use. It is not a toy, but takes a 22-caliber rim-fire cartridge.

Of course, it is not easy to hit any thing at a distance with it, on account of there being no sights and the barrel being only half an inch long and concealed, but a 22-caliber bullet is useless except at very close range. The special use of this "cannon" is for scaring off burglars, as when fired with a blank cartridge it makes a tremendous bang, and fires a bullet that would inflict a nasty wound at close

Its inventor is Edmund C. Moore of New York, who is also the patentee of a rifle grenade.

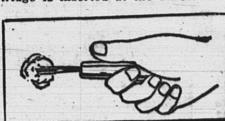

It is in the form of a pocket knife no larger than the usual knife and has

Knife which is a small pistol. A, trigger; B, barrel; C, pivot on which barrel swings to open; D, muzzle.

two blades of fine steel. But at one end is a hole. Anyone asked to examine the article and say what it is will be most likely to guess that it is some new-fangled pencil sharpener or cigar cutter.

In the end of the knife is a steel block that turns out on a swivel, being held by a spring that is released with the thumbnail and reveals a hole straight through the block. The cartridge is inserted at the base of this

Firing the Knife-Pistol.

hole, the block is swung back into place, the trigger on the side is opened, thus cocking the pistol, which is now ready to fire. It is held in the hand and the trigger pressed down with the ciled to that mad, exciting wedding thumb.-New York World Sunday Magazine.

Survival Among Birds. The struggle of life among the birds and other wild creatures is so severe that the feeble and malformed, or the handicapped in any way, quickly drop out, writes John Burroughs in Harper's Magazine. Probably none of them ever die from old age. They are cut off in their prime. A weeding out procer, says the Kansas City Star. Who is ess goes on from the time they leave it that is ready to ask whether her the nest. A full measure of life, the perfection of every quill and feather, and unerring instinct, carry them point of pettiness on the subject of along. They are always in the enpure bread, we will only buy our rolls | emy's country; they are always on the done up in waxed paper, we will not firing line; eternal vigilance and ceaselook at anything but grade A milk. In less activity are the price of life with them. The natural length of life of our smaller birds is calculated to be eight or ten years, but probably not one in a thousand reaches that age. As a matter of fact, egg shells are Not half a dozen times in my life have I found the body of a dead bird that did not show some marks of violence.

Mules Now Kerchoo-ing.

Even the mules in the mines here are suffering from the ravages of the grippe epidemic and stable horses and hostlers are kept busy caring for the sick animals. Many miners declare

War Unkind to the Lawyer. The war, while having a pretty depressing influence upon litigation, is having a still larger effect upon calls to the bar. Only 30 students have donned wig and gown this term, and half of them bear oriental names, indicating that they belong to distant parts of the empire.-London Mail.

The Most Cream Separator Value For Your Money

ON a Primrose separator there are no mechanical adjustments to make except the turning of one screw to bring the bowl to the correct height - once a year, perhaps. Every bearing is oiled with clean, fresh oil before the handle makes a quarter turn. There is no chance to injure the spindle or spindle bearings when replacing the bowl. These are three exclusive Primrose separator features.

The milk supply bowl is firmly set in one place - the right place. The milk float goes into just the right position, either side up. The gears are all rigidly fastened. The bowl has the cleanest, closest-skimming device and the largest skimming surface ever put into a cream separator.

The Primrose is worth more than any other separator built, and it sells for less than many of them. Drop in and let the dealer show you why. International Harvester Company of America

Primrose cream separators are sold by

TEACHING MORALS IN SCHOOL

Lessons Not Known in America Given in Japanese Educational Institutions.

In the American Magazine Ray Stannard Baker gave the following account of a curious feature of Japanese school

"Visiting the Japanese schools in Hawaii several years ago I was impressed with one feature unknown to American schools. This was an interesting series of colored pictures with texts in the Japanese language. illustrating the model conduct expected of Japanese children upon a great variety of occasions. These were distributed about on the walls of the When I expressed my appreciation of this work one of the teachers said: "How shall a child know how to act unless he is taught?" which seemed to be a soundly sensible remark. And yet in America (until recently), while religious teaching has been barred from the public schools, no substitute involving thorough instruction in conduct or morals has been developed. Charles Schmid, shoemaker, W. which character rests, has been left Middle St., Chelsea, says: "I had lum- to such incidental and indirect instructhose whose home life is poor or whose

SHOULD HE DEFEND GUILTY?

Attorney's Duty Has Been Made Plain by Some of the Highest British Authorities.

Ought a barrister to defend on a plea of not guilty a prisoner who has confessed to him privately that he has committed murder or some other ofnse with which he is charged?

The question was raised by the bar committee at Shanghai, and Sir Edcouncil of the bar sent, says the Lon-ment.-W. L. George in Atlantic.

This reply lays down that if the confession has been made before the proceedings have been commenced it is most undesirable that an advocate to whom it was made should undertake the defense, but if afterward, or in circumstances that the advocate cannot withdraw without seriously compromising the position of the accused, counsel's duty is to protect the client as far as possible.

The mere fact that the prisoner confessed to his counsel is no bar to that schoolrooms and frequently changed. advocate continuing to appear in his defense, nor does the confession release the advocate from his imperative duty to do all that he honorably can for his client.

Jealousy in Woman.

In ordinary times, when no worldmovements stimulate, the chief exasperation of woman resides in jealousy. The upbuilding of moral ideals, upon male is generally possessive, the fe-It differs from male jealousy, for the male competitive. > Skunk All Right at a Distance. The polecat, or skunk, is a playful, affectionate little creature, with beautiful black and white fur, an inquisi tive disposition and a superabundance of animal spirits. Its hide is valued for its fine fur; its fat for a kind of grease well known in rural districts, and its two glands secrete what is known as civet oil. Civet oil, in its cultivated state, is used as a "fixer" for delicate perfumes. In its natural state civet oil is a perfume that would scarcely be called delicate. In fact, it is about the most undelicate perfume imaginable, as anybody can testify who has encountered it unexpectedly at first hand.

Why Jupiter Is Wearing Belts.

It has been suggested by Lau that the reason Jupiter has belts instead of zones of spots is to be found in its rapid rotation, the material forced upward from the lower strata of the planet, bringing with it a smaller lineal velocity than that of the surface, streams eastward, assuming the look of elongated streaks.

If the centers of eruption are sufficiently numerous, belts are formed; and it is suggested that, were, the sun's rotation much more rapid than it is, the solar surface at spot maximum would also present dark streaks.

Prison Frankness. It was the dinner hour, and the prison inspectors were hurrying over

Stole Gum Machine

Three young fellows from Detroit drifted into Chelsea early Friday morning and formed an attachment for the gum machine that has adorned the front of the Vogel drug store for many years. The attachment and Sylvan townships to enter into bring themselves to leave the maproved so strong that they could not chine, so they took it along with them. The officers picked them up and took them before Justice Witherell, and they were sent to county jail pending trial April 6th. They changed their minds and decided to plead guilty, and were brought back to Chelsea Tuesday and were sentenced. They not only changed their pleas, but did the same with their names. Carl Hanson resumed the name of Miller, and will spend ten days with the sheriff. Lewis Ward said it should be Mero, and will stay fit started for Hudson. It is mighty in the university town for twenty days. Carl Holsten exchanged that name for Clement Schumacher, and being the oldest of the trio, will remain indoors for thirty days.

Announcements.

The Maccabees will hold a regular meeting on Friday evening of this

Regular meeting of the L. O. T. M. M., Tuesday evening, April 11. Ini-

The B. V. R. C. will meet with Mrs. O. J. Walworth on Monday evening, April 10.

"A disa reeable mission," he told ems that Mr. Thearle has at his son Rodney is in a young lady at Dayton-a Miss Ev yn Boice. He knows nothher, but assumes that she lew the fact that young Roda rich man's son. Not only ut Mr. Thearle is in sore trouncerning his business. I have fellow, as you know, all about it, his father hopes to escape the eatened embarrassment in his ousiness and refuses. Looking at the dark side of affairs further, he says

it would be a terrible thing for Rodney to marry and find himself penniless." "And what are you to do, dear?" submitted Mrs. Ashe.

"Brutally speaking, I am to tell the young lady that the Thearle family object to the match. If, as Mr. Thearle puts it, she is indeed a fortune hunter, I am to show her certain documents proving that Mr. Thearle may be a beggar in a month."

Mr. Ashe reached Dayton the next morning. He had the address of Miss Evelyn Boice. He found that she was light playing on the walls, listened to ily, had come from another city some months previous and was taking a she used to think, "how good life will

man. He does not understand how learly I love Rodney."

The last barrier of suspicions was broken down with the steadfast lawyer, but he had his duty to perform. "I am ordered," and he spoke with a meaning and a commiseration that even this artless experienced girl fully understood, "I am ordered to furnish you proof of the possibility of all his means being swept from him," and William Ashe produced a package of business documents. "These evidence the fact that if Mr. Thearle does not raise nearly fifty thousand dollars by the fifteenth of the month his creditors will take all he has."

"Oh dear! how sorrowful," fluttered Evelyn Boice. "No, no," she demurred, touching the documents as the lawyer was about to replace them in his pocket. "I am interested. Let You can command me, but speaking me know all, please. I can—perhaps I

The lawyer marveled at the sudden change in the girl, the expression of strength that came into her fair face. spoke at her enigmatical manner as she handed back the papers with the simple words.

"I thank you. Please tell Mr. Thearle that I sympathize with him and that I really will not be any added burden to his troubles."

William Ashe returned home to announce to his client that the young lady was reconciled to his stern flat. Then he partially forgot the lovely girl amid a hard, but a vain effort to secure an extension from his creditors. They had tied up one hundred thousand dollars in collateral that, under a forced sale, would ruin the old merchant.

"No arrangement can be made," reported the lawyer one morning. "The collateral was closed out yesterday ed him to tell Rodney, who is a and purchased by some outsider." "Then the creditors will be paid?"

asked his client "Dollar for dollar, but the holder of the collateral now holds you at his

Ashe left the broken merchant making his arrangements to close up his business and begin life all over again. Two hours later Ashe came rushing into the office of gloom, madly excited.

"Look!" he cried, flinging down a big envelope before his client. "The note canceled! the collateral released!" gasped Gregory Thearle. What marvel is this?"

Then his eye fell upon the name upon the note, that of the person to whom the bank had transferred it. "Evelyn Boice!" he fairly shouted, and then before the lawyer could make an explanation the old man collapsed under the shock completely.

But the full explanation came later and a happy chain of circumstances it involved, indeed. William Ashe surmised what had transpired as soon as saw that name. The "fortune hunter," the sweet girl at Dayton, had returned the stern treatment of "Rodney's dear father" by saving him from

rich, that you were an heiress," Rodney said to her a day later.

"Why should I have done so?" challenged Evelyn modestly. "It was so delightful to be loved just for my poor little humble self."

HER DREAM NOT FULFILLED

Cave Woman's Desires Were Good, But Humanity Seems Not Yet Ready to Adopt Them.

At night the cave woman lay awake the howling of the wolves.

Refinement, even luxury, were in where we will in the forest, and we famine!"

With such dreams she smiled and

Well, all the wolves are dead. But women do not yet walk freely with twining scarlet berries in their hair; and most women obey. And children still die from famine and sickness, for the world seeks more busily for more scarlet berries than for food and healing herbs.

The apple tree caterpillar which was (By ALVA BENTON, University Farm, of the year, and it will do much to reduce the number of the pests that come out next season.

Last year many orchards were nearly defoliated by the tent caterpillar and large apple trees were found which contained from two to fifteen tents. The growers often burned them out with torches before they had consumed all the foliage on the tree, but the difficult work in thickly infested orchards and where the egg masses can be destroyed, that is the surest way of reducing the number of the troublesome pest.

Get Good Seed.

Don't purchase the lowest-priced seed. In nine cases out of ten the highest-priced seed is by far the cheapest. The seed doesn't cost much, after all, in proportion to the labor put on plants, once they start. A full crop is important, and possible only with

IS MOST PROFITABLE

tion and for Maintenance of Fertility of the Soil.

Farm records show, and good farmers agree in general, that diversified farming is most profitable. Diversified farming means raising live stock and various kinds of crops. Diversified farming gives opportunity for crop rotation, for distribution of man and horse labor, and for the maintenance of soil fertility. All of these are essential to good farming. Crop rotation aids in maintaining crop yields and soil fertility; the distribution of labor reduces the cost of operation; the maintenance of soil fertility is the ba-

sis of all successful agriculture. Diversified farming is of great importance because it gives the farmer an opportunity to carry out all the best farm practices.

Is your farming properly diversified?

Aerial Mail Service for Isolated

WASHINGTON.—Aerial mail service to isolated points in Alaska and Massachusetts is contemplated by the post office department. Bids were asked for service on eight routes, seven of them in Alaka. October 1 is named as the date for their starting.

The routes will be established, the department announced, as much to stimulate development of aviation because of its relation to military preparedness as to improve the mail service. The department believes that efforts already begun to finance an aerial patrol of the Atlantic coast indicate ready capital will be found for the mail service undertakings. If the service is successful, it is

announced, a gradual expansion will follow the other routes where transportation is slow and inadequate. The Massachusetts route is from New Bedford to Nantucket, 56 miles and return, partly by land and partly by water. Trips would be made 13 times a week during the summer months and six times in the winter. An aeroplane would have to be able to carry a weight limit of 3,000 pounds. The present cost of the service is \$23,000 a year.

The Alaska route forms a connecting link from Seward to Nome, thence to Fairbanks and back to Valdez. Most of them call for a service twice a week throughout the year. On some of the routes the cost is as high as \$100,000 a year, and in winter six weeks is required to make the trip. The aeroplane contracts allow two days for most of the trips. The longest route, Valdez to Fairbanks, is 358 miles. The extreme time limit of six weeks on some of the routes is required because mail sometimes has to be routed via

Postmaster General Burleson has been assured, it was said, that capital already is considering bids and that estimates are being made.

Is Washington a City of Snobs and Snubs?

THIS is essentially the city of the social practitioner, of the climber, of snobs and of snubs. Everybody is trying, by hook or crook, to better his social position, which is as praiseworthy as an effort to better himself financially or physically. And yet the

AN INVITE -

BY CUM !

climber is always a joke. A woman whose husband has a I'M GOIN TO subcabinet job in the present administration and who takes herself very seriously in consequence, called up an EVEN IF I old resident the other day with a DIDN'T GET 'Good morning, Mrs. Jones. How can get people like the Danvers to come to my parties?"

The resident lady grinned a huge grin into the telephone.

"Why, I'm sure I don't know. If you aren't acquainted with Mrs. Danvers and she doesn't make any overtures

to you, I don't believe it would be possible to get her to come to your parties." The near cabinet woman uttered an exclamation of disgust. "I'd like to know what's the good of the position we've acquired in Washington if I can't work it to get in with the kind of people I want." A newly rich woman in town with a whole fleet of motor cars and no

need of a nerve tonic breaks into many of the smartest homes by a system

She finds out when a motorless friend, of assured social position, how is invited to a swagger reception or ball, to which she herself has received no

She coos softly over the telephone: "My dear Mrs. Jenkins, if you are going to the British embassy tonight won't you give me the pleasure of going with me in my car? I'll call for you at ten."

The motorless matron generally falls into the trap, all unsuspicious that she is making herself socially responsible for an arch schemer who has no

Excuses and Honeyed Words Fall on Deaf Ears traves and the inclosure wall support-

LIEREAFTER it will be a case of "Show Me" when society folk return from I the fashion centers of Europe with trunks packed with all sorts of the latest creations and jewels and laces and other things, and when they face the customs house officers in New

York and other ports. Excuses, honeyed words and other means of allaying the customs appraisers' doubts as to true valuations of articles subject to import duties, will fall on deaf ears after this.

It is the intention of the treasury department authorities to scrutinize closely every trunk and parcel, no matter how high in the social scale their owners may be, in order to prevent smuggling and undervalua-

tions. Every means will be used to put a stop for all time to practices particularly indulged in by wealthy society people to smuggle, or at least to bring in articles on a much lower than their true valuation.

The treasury department officials here and in New York have arrived at this decision as a result of the case of Mrs. Whitney Warren of New York, the wife of one of America's most noted architects, who is charged by customs officials with bringing in dutiable articles under "gross undervaluations," and whose case is being investigated by the New York federal grand

Whether an indictment against Mrs. Warren will be found or not, Federal Attorney H. Snowden Marshal of New York has been requested by the Washington authorities to institute civil suit against Mrs. Warren for the forfeiture of the alleged undervalued goods and for the collection from her of all penalties demanded by law. The department of justice and the treasury department are pushing the case vigorously and it is expected that the investigation will be completed in a short time.

Catch Question Baffles the License Dispenser

THE office of Col. William A. Kroll, marriage license clerk, is a favorite hunting ground for "copy" and, for this reason, there generally is a newshound nosing around. This was the case the other day when a couple

approached the counter and asked for two licenses, naming a different minister in each license to perform the ocremony. With the departure of the bride and bridegroom-to-be, the rebride and bridegroom-to-be, the re-porter walked over to take a look at the book. It is a common occurrence for persons desiring to be married to have two ceremonies performed, but the newspaper man determined to have some fun with the colo-

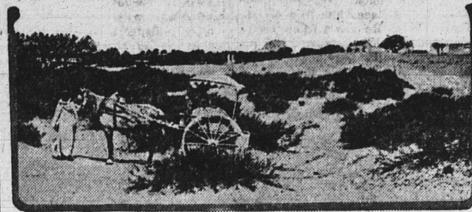

"Hey, colonel, you've made a mistake," he said. "Here are two licenses, calling for two marriage ceremonies, for the same couple. In each case you have the license issued to the same

"What's the matter with that?" It was explained that, no matter which ceremony was performed first. when the second ceremony was to be performed, the persons married would have been married once already, and that, therefore, the record of the license issued for the second ceremony was incorrect, in that it stated that both of the contracting parties had never been married before and that they were Miss — and Mr. —, where as the record should have read Mr. and

The colonel is still wondering whether or not he made a mistake. Others at the city hall have taken up the question, and as they are hopelessly divided over the facts in the case it is possible Chief Justice Covington may sked, in one of his few spare moments, to settle the argument.

DESERT CART AND MOSQUE

consists of a great pool with porches, called Strabo's well, and the so-called by Seti I, which has been the chief difficult to say. attraction of Abydos for travelers. It was entirely subterranean, at a depth istence.

The building, as described by is limestone rather roughly worked; the inner one is in beautiful masonry of red quartzite sandstone. The joints water. are very fine; there is only a very thin stratum of mortar, which is hardly perceptible. Here and there the thick knob has been left which was used for moving the stones. The father of Menephtah, who probably

Hopes Women Will **Adopt This Habit** As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert-vigorous and vivacious-a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of drinking phosphated hot water each morning, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks." "rundowns." "brain fags" and pessimists we should see a virile, optimistic throng of rosycheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds: and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate from any druggist or at the store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.-Adv.

To Prison for Making a Wish. At Portsmouth, John Christopher Green, fifty-four, a laborer, was sentenced to two months' imprisonment under the defense of the Realm act.

The prisoner, who said he was the son of a clergyman, but had become practically a dipsomaniac, pleaded that he had no recollection of the offense of stating in a public house that he hoped a certain British warship would

CLEAR RED PIMPLY FACES

Red Hands, Red Scalp With Cuticura Soap and Ointment. Trial Free,

The soap to cleanse and purify, the Ointment to soothe and heal. Nothing better, quicker, safer, surer at any price for skin troubles of young or old that itch, burn, crust, scale, torture or disfigure. Besides, they meet every want in toilet preparations.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L. Boston. Sold everywhere.-Adv.

A Beneficent Influence. "Why do you keep pestering me to go and have some more pictures taken?" Inquired Mr. Growcher.

"Because," replied his wife, "the photographer is the only person I know of who can get you to make an NEW TREATMENT effort to smile and look natural."

Public Officials' Bonds. We bond more people than any other company in the world. Maintain a special department for bonding public officials. Agents everywhere. Write for rates to Official Bond Department, National Surety Company, 90 West St., New York City. "America's Leading Surety Co." Adv.

Next Step. "If inventors ever do succeed in making rain, what do you suppose they will try next?" "To make the rain dear."

Caused by Disease of the Kidneys

The close connection between the heart and the kidneys is well known nowadays. When kidneys are diseased. arterial tension is increased and the the kidneys no longer pour forth waste, the blood is clogged and we suffer son dies, and the cause is often given as heart disease, or disease of brain

It is a good insurance against such a risk to send 10 cents for a large trial package of "Anuric"-the latest there, or that constant tired, worn-out feeling, get "Anuric" at the druggist It's 37 times more potent than lithia, dissolves uric acid as hot water does the blood-making glands, and enriches

Rotterdam's Trade Grows. The sea trade of Holland's g port, Rotterdam, was increased . mendously since the war broke or and it is now necessary to deepen th channel connecting the port with the North sea to a depth of 38 feet. which later will be continued to 41 feet at high tide, the operation involving removal of more than 10,000,000 cubic yards of earth by dredging.

SWAMP-ROOT SAVES **KIDNEY SUFFERERS**

You naturally feel secure when you know that Dr. Kilmer's Swamp-Root, the great kidney, fiver and bladder remedy, is absolutely pure and contains no harmful of habit producing drugs.

The same standard of purity, strength and excellence, prescribed by Dr. Kilmer many years ago, is maintained in every bottle of Swamp-Root.

Swamp-Root is scientifically from vegetable herbs. It is not a stimus lant and is taken in teaspoonful doses. It is not recommended for everything. According to verified testimony it is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

If you suffer, don't delay another day. Go to your nearest druggist now and get a bottle. All drug stores sell it in two sizes-fifty cents and one dollar.

However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for sample bottle. When writing be sure and mention this paper .- Adv.

Repartee.

"Beauty is only skin deep," she sneered.

"Yes, my dear," retorted the other, but wouldn't you like to change skins with me?"

FOR ASTHMA

Relief in Every Rub

To quickly ease the struggle for breath, stop the wheezing and bring-blessed relief, ask your druggist for an original yellow box of true Mustar-ine which costs about 25 cents. Apply plentifully night and morning, and remember to rub up and down only, over the entire chest from the throat to the stomach. True Mustarine is made by the Begy Medicine Co., Rochester, N. Y. It is also fine for Rheumatism, Lumbago and Neuralgia. Gest the genuine.

Uneasy rests the aching tooth that wears a crown.

Sudden Death After Grip Then-Spring Fever?

This is the time of year to look out for trouble! We feel weak-our blood seems hot-no appetite.-It's heart functions are attacked. When time to clean house! This is when uremic poisoning occurs and the per- from what is commonly called a cold.

Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eradicates the poisons that breed and feed disease. Pure blood is essential to good health. The weak, run-down. discovery of Dr. Pierce. When you debilitated condition which so many suffer from backache, frequent or people experience is commonly the efscanty urine, rheumatic pains here or fect of impure blood. "Medical Discovery" not only cleanses the blood of impurities, but increases the activity of the body with pure, rich blood.

WE PAY CASH FOR

MEDICINAL ROOTS, HERBS, LEAVES, BARKS, ETC.
