To Relieve Fatigue.

When a woman is very tired she will find one of the best processes of refreshing herself is to wring out hot cloths and lay them over her eyes and forehead. A hot water bag does not act as a substitute for this, and the treatment is a little trouble. The simplest way is to have two cloths and a basin of hot water ready to wring out and replace the one that becomes cool on the head.

Women spoil Watches.

It is a notorious fact that watches owned by women are less accurate than those carried by men. The cause for this can be directly assigned to the irregularity with which women wind their watches and the frequency with which they allow them to run down.

Uses of Liquid Air.

Liquid air is poorly adapted to the uses which were suggested for it when it was first made in large quantities—that is, for refrigeration and for power. Its latent heat of evaporation is small and its specific heat is also small. It cannot compete with ammonia for refrigeration. It cannot be kept in a closed vessel, but must always have a vent to the air. For explosives many better materials are available. It is used to some extent to secure the oxygen of the air by first liquefying the air and then boiling off the nitrogen, which boils at a lower temperature than the oxygen.

Mexican Names.

Mexican names that are euphonic in Spanish are awkward when pronounced as in English. The vowels have the same sound as in German. J has the sound of a strongly aspirated H, and the H is mute. The double R is rolled, and the double I is followed by the consonant sound of Y. The accent is on the ultimate when the word ends in a consonant usually on the penultimate when ending in a vowel. Exceptions are indicated by use of the accent mark.

Testing Oil's Specific Gravity.

The specific gravity of oil may be ascertained by taking a glass vessel and weighing it; then weigh into it one ounce of water and mark the point where the water reaches; then fill to this mark with oil and weigh it. Express the weight of the oil as a decimal part of one ounce, which will be the specific gravity of the oil. That of grease may be obtained in the same manner, pouring the melted grease into the vessel.

Perseverance Wins.

Show me a young man who has not succeeded at first and has then gone on, and I will back that man to do better than those who succeed at the first trial.—Charles James Fox.

Village Taxes.

Village taxes are now due and may be paid at the office of the Boyd hotel on Tuesdays and Saturdays, including evenings, until further notice.

HAVE YOU A BAD BACK?

If You Have, the Statement of this Chelsea Resident Will Interest You.

Does your back ache, night and day? Hinder work, destroy your rest? Does it stab you through and through? When you stoop or lift or bend? Then your kidneys may be weak. Often backache is the clue. Just to give you further proof. The kidney action may be wrong. If attention is not paid. More distress will soon appear. Headaches, dizzy spells and nerves. Uric acid and its ills. Make the burden worse and worse. Liniments and plasters can't reach the inward cause at all. Help the kidneys—use the pills Chelsea folks have tried and proved. What they say you can believe. Read this Chelsea woman's statement.

See her, ask her, if you doubt. Mrs. William Taylor Chelsea, says: "Doan's Kidney Pills have been used in my home with beneficial results. One of my family had kidney trouble and suffered greatly from a weak back. One box of Doan's Kidney Pills procured at Penn's Drug Store, gave relief."

Price, 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same as Mrs. Taylor recommends. Foster-McMillan Co., Props., Buffalo, N. Y.—Adv.

For Prosecuting Attorney.

To the Republican voters of Washtenaw County:
I beg to announce myself as a candidate for the nomination as prosecuting attorney on the Republican ticket for Washtenaw County at the coming primary election, August 29th, 1916. Should you see fit to nominate me for this office I promise to conduct a clean and wholesome campaign, and should I be elected I shall give to the county of Washtenaw my best efforts in the administration of the affairs of the said office.

GEO. S. WRIGHT.

It is with pleasure that the Leader publishes the above announcement and places before the public the name of our well-known townsman, who will be a candidate for the nomination of prosecuting attorney on the Republican ticket at the coming primaries.

Mr. Wright is a man eminently qualified in every particular to give the work of the office the best of attention and if elected will no doubt render a good account of himself. He graduated from the University of Michigan in 1906, having been a successful educator for several years before taking up his law course. He came to Milan the same year, and has established a good business here. In 1908 he was appointed village attorney which position he has filled ever since.

Mr. Wright has been very active in political affairs in this town and the county and has always been a republican.

He has held no political office except that of representative for the second district of Washtenaw County in the state legislature of 1914 and 1916. The nomination came to him from the republican county committee absolutely unsolicited. In his work in the legislature he was painstaking and conscientious. He secured the \$110,000 appropriation for the Michigan State Normal College, at Ypsilanti; assisted in securing the \$350,000 appropriation for a new library for the University of Michigan, and was active in the important affairs concerning this district throughout the session of the legislature.

In introducing Mr. Wright we feel confident that he is the best man in the county available for the office of prosecutor, and if he is given the nomination by the party and elected, will give the affairs of the office the benefit of sound business judgment, the practical experience of many years and his best efforts in every way to administer the office to the best possible advantage of the public.—Milan Leader. They SATISFY!

How America's largest cigarette manufacturer has accomplished "the Impossible" by producing a MILD cigarette that SATISFIES. It is the CHESTERFIELD Cigarette.

ALMOST anybody can make a cup of coffee. But there are said to be not over a half-dozen restaurants in the United States where they know how to make it right.

Similarly, almost anyone can make a cigarette. Just roll up some tobacco in a piece of pure paper—and there you are.

There are, perhaps, over 800 brands of cigarettes sold in this country today. But not one of them does what Chesterfields do—for Chesterfields are MILD; and yet they SATISFY.

Some cigarettes may be mild, but they don't satisfy. Only one cigarette does BOTH—Chesterfield!

This truly unique cigarette has all of that refreshing taste—delicacy (or mildness) which any good cigarette must have. Yet, without sacrificing any of this delightful mildness, Chesterfields go one step further—they do more than merely "please your taste"—they let you know you've been smoking. They satisfy!

And yet they're mild!

A Step Forward in Cigarette-Making

WE are proud to be the firm that has brought about this important new development in cigarette enjoyment—for that is exactly what the Chesterfield Blend is.

This cigarette is an outgrowth of long, earnest effort on the part of this, the largest cigarette manufacturing concern in the United States.

The mild, yet satisfying Chesterfield blend is not the result of happy chance. It is one of the results of our many years of cigarette experience—of the heavy volume of our purchases of cigarette tobacco—of the prestige and advantage these enormous purchases give us in securing the choicest leaf from the tobacco fields of the world.

Chesterfields are an achievement.

A New Thing for a Cigarette to Do

CHESTERFIELDS do the one thing you have always wished a cigarette would do—they satisfy!

Smoke them and we believe you will find that ordinary cigarettes seem by comparison almost flat.

Give Chesterfields (20 for 10 cents) a trial. We believe you will be glad to learn what they can teach you about cigarette enjoyment.

You have been reading here some rather unusual, almost daring, statements about a cigarette. If Chesterfields were an untried cigarette—if we had not been observing their behavior in other cities—if we did not KNOW that they make good with smokers—we could not afford to make these statements to you over our signature.

But these statements, strong as they are, can mean little or nothing to you until you have actually smoked your first Chesterfield.

You will find that your own dealer has Chesterfields waiting for you.
