SUNDAY FISHING TRIP ENDS FATALLY

Two Chelsea Men Are Drowned in Cedar Lake; Both Bodies Are Recovered.

Tony Greiza and Joe Banaak, the former employed by the Lewis Spring & Axle company and the latter by the Michigan Portland Cement company, were drowned Sunday evening about seven o'clock in Cedar Lake, three miles west of Chelsea. Both men were about 37 years of age.

The two men had gone to the lake for a day's fishing Sunday morning and used a small, canoe like boat. Friends had previously warned them that the unstable craft was not suitable for fishing but they laughed at the warnings.

Howard Brooks and his father were at the lake about six o'clock Sunday evening and Greiza and Banaak were fishing at that time.

It is presumed that the boat capsized when they attempted to pull up the anchor just as they were about to leave the lake.

Both men lived with John Greiza, a brother of one of the unfortunate men. When Tony and his friend failed to return home Sunday night, John feared something had happened and gave the alarm early the next morning.

Searching parties were organized and the overturned boat was found anchored in the same position as when seen by Howard Brooks the previous evening. Greiza's body was soon located about 30 feet from the boat, but Banaak's body was not located until late yesterday afternoon, about 130 feet from the boat. Both bodies were in about 20 to 25 feet of water. Banaak's watch had stopped at six minutes after seven. Howard Brooks located both bodies.

Tony Greiza's funeral will be held tomorrow morning at 8:30 o'clock from the church of Our Lady of the Sacred Heart. No definite arrangements have been made regarding Banaak's body.

The following coroner's jury was empaneled by Justice Withersell: Bert Conlan, J. W. VanRiper, G. W. Beckwith, T. G. Speers, Henry Mohrlok, George Staffan. The inquest will probably be held Saturday evening.

COUNTY CONSCRIPTION BOARD ORGANIZED

Registration Day of Men of Military Age Will Be Announced in About Two Weeks.

The county conscription board, which consists of Sheriff Herman G. Lindenschmitt, County Clerk Edwin Smith and Dr. R. G. MacKenzie, have appointed the registrars in the several townships and wards of the county as follows:

Lavern Cushing, Henry Paul, Martin A. Ryan, Jay C. Herrick, Charles A. Kapp, George Blaich, Charles Brooks; assistants, Mark Sugden, John Huss, William L. Henderson, C. T. Donnelly, John McGregor, George Lutz, Sr., Ann Arbor; Alexander Milan, George M. Gaudy, Charles Holmes, Frank Worden, George Cook, Ypsilanti; Charles F. Staebler, Ann Arbor township; John Dawson, Willis; William H. Every, Manchester; Gilbert Madden, Dexter; Barney Bertke, Freedom; Fred C. Haist, Lima; Herman Gensley, Ann Arbor; Charles Clark, Lyndon; Adam Shaible and B. C. Root, Manchester; James O'Brien, Rushton; Frank Tickner, Ann Arbor; Forest Roberts, Salem; Henry Bredernitz, Saline; Jacob Jedele, Dexter; John Dresselhouse, Manchester; George D. Crippen, Ypsilanti; Herman J. Dancer, F. G. Broesamle, Sylvan; Lewis Chamberlain, Webster; John Lawson and George Stoidle, Milan; Perry Watting, Ypsilanti.

CAUGHT IN CAVE-IN

A Brother of Mrs. William Hochrein Has Narrow Escape in Ann Arbor.

Emil Rothenbuecher of Ann Arbor, a brother of Mrs. William Hochrein of this place, narrowly escaped death Saturday when he was buried in a water main trench while caulking joints. No bones were broken, but he suffered severe and painful bruises, particularly about his legs. Regarding the accident the Times-News said:

Engulfed by a mass of soggy dirt which had loosened itself from the sides of a ditch being excavated on Brooks street this morning, Emil Rothenbuecher, Spring street resident, was severely bruised and came close to suffocation.

Rothenbuecher was employed in the excavating process and in some manner loosened a quantity of soil above him on the sides of the ditch. The falling dirt pinned the workman to the bottom of the hole so tightly that his circulation was badly impaired for a time.

Fellow workman dug Rothenbuecher out and called Dr. Edwin Ganzhorn, who stated that he will recover if internal injuries do not appear.

Buttered Parsnips.

Peel and slice thinly parsnips for the meal, cook in boiling salted water until tender, drain and season with butter and salt, mashing coarsely with a wire potato masher. Serve very hot. Parsnips are also most appetizing cooked without peeling, then cut in halves after removing the skin and brown in butter.

PREPARATIONS FOR MEMORIAL SERVICES

Committees Appointed to Arrange for Observance of Memorial and Decoration Days.

At a joint meeting of the W. R. C. and G. A. R., Friday evening, arrangements for Memorial and Decoration days were made as follows: Officer of the day—Warren K. Guerin, assisted by D. H. Wurster and Dr. H. M. Armour.

Flag committee—R. B. Waltrous, J. N. Dancer, Fred Gentner. School children—George Chapman, Frank Storms, E. B. Hammond, William Campbell.

Automobiles—A. B. Clark, J. S. Cummings, Frank Leach. Hall decorations—S. P. Foster, Ed. Gentner, A. E. Johnson.

The Memorial day service will be held Sunday morning, May 27th, at the Methodist church. The Decoration day exercises will be held Wednesday afternoon, May 30th, at the town hall. Rev. Dierberger will deliver the address.

A meeting of the several committees will be held tomorrow evening, May 16th, at Webster's tailor shop.

NEIGHBORHOOD BREVITIES

Interesting Items Clipped and Culled From Our Exchanges.

BRIGHTON—The Stockbridge high school base ball team came over here Wednesday afternoon and gave the M. M. A. nine an exhibition of the national game such as they had not come up against this year. The Stockbridge fellows are certainly fine players and a nice bunch of boys. They won the game here in the first four innings, score 9 to 3. This is the fifth game they have played this season and all have been victories.—Argus.

SALINE—Recently while Alonzo Deem and Nelson Norman, boys of three years of age, were playing in the yard at the home of the former's grandparents, Mr. and Mrs. Reuben Deem, the children removed a stone from the cistern cover, lifted the cover and the Norman boy fell in. The Deem child replaced the cover and then went to tell where his little playmate was, but when help came the boy was dead. It is thought he was killed instantly by striking his head on the curbstone, as the body was found floating having apparently not sunk at all.—Observer.

CLINTON—Lawrence Bailey and Miss Ruth Fisk were the victims of an automobile accident here Thursday evening at 8 o'clock. Lawrence was driving the car in from the west and when near the river bridges turned out to meet a rig. He turned out too far and the car went over the bank, turning turtle, pinning the occupants underneath. Miss Fisk managed to get out and after a struggle succeeded in getting Lawrence out from under the car. She then called for help and Lawrence was taken to the Fisk home. He was in an unconscious condition and badly bruised about the body. Miss Fisk was slightly injured. Mr. Bailey was later taken to his home where he passed a comfortable night but the nature of the internal injuries can not be determined as yet.

CALDWELL - BAILEY.

Mrs. Elvira Caldwell, formerly of Chelsea and Pinckney, and now a resident of Ann Arbor, and Mr. Myron F. Bailey were married Wednesday evening, May 9, 1917, at the bride's home, 715 East Ann street, Ann Arbor, Rev. A. W. Stalker performing the ceremony.

After a two week's honeymoon, spent in the east, they will make their home in Ann Arbor.

Mrs. Bailey is a sister to Mrs. J. W. Schenk and formerly resided with her sister here.

Minding His Business

"I wonder how much Archer is worth?" said a gentleman to his merchant friend.

"The commercial agencies rate him as A-1," was the quiet reply.

"Yes, I know," persisted his visitor.

"But what is he really worth—his private fortune, I mean?"

"I never had time to find out," said the merchant.

"Never had time?"

"No, sir. When I started in business," he continued, "I soon saw that it would take all my time to attend to my business. I discovered that if I undertook to attend to the business of other people my own business would suffer, and so I have never attempted it. By following that rule I know I have built up a large business, and I think anybody can do the same."

"You mean," said the visitor, flushing up, "that I ought to mind my own business?"

"You may do as you please," said the merchant calmly. "I mind my own business and have no time for attending others'."—Exchange.

Candied Sweet Potatoes.

Parboil the desired number of sweet potatoes ten minutes. Drain and slice into a baking dish. Season with salt, sprinkle over sugar and cinnamon and dot with bits of butter. Half fill the dish with hot water and bake until the potatoes are nicely browned, basting frequently.

START CONSTRUCTION NEW BALL PLANT

Modern Building 180x60 Feet to Be Completed Within Sixty Days.

Work on the foundations for the plant of the Chelsea Steel Ball company was started yesterday morning and the work is being rushed as rapidly as possible by the contractor, James Briscole of Ann Arbor, who has agreed to have the building ready for the machinery within sixty days.

The new plant is located at Hayes street and the Michigan Central railroad in the northwest part of town, the site including 2 1/2 acres of ground. The new building is to be 180x60 feet and will be of reinforced concrete and steel construction. The wall will be concrete for four feet above the ground and steel above that point. A separate building will be erected for the heating plant.

The Michigan Central will build a siding to the new plant and steel stock will be delivered in car lots directly to the stock racks. Coal pits will also be built and the coal for the heating plant will be dumped directly from hopper-bottom cars into the pits.

The entire plant will be strictly modern in every detail with the idea of cutting the cost of production to a minimum.

DEXTER TOWNSHIP.

Howard McCarthy is suffering with the rheumatism.

Joseph Walsh of Flint spent the week-end with his parents, Mr. and Mrs. Michael Walsh.

"Lon" Rodman has purchased one acre of land along the east side of his yards of Mr. Gridley. This will give him a chance to drive around his barn with a team while before the line touched the corner of his barn.

Mr. Gridley moved into his house, purchased of Charles Neeb last fall, Saturday.

Washnetan Lodge F. & A. M., to the number of fifty, accompanied the remains of Brother Northrope to Mason, Sunday, where the Masonic burial service was given him. Eleven automobiles were in the cortege.

Miss Mildred Walsh spent the week-end with her sister, Minnie, at Willis.

CARD OF THANKS.

I wish to thank the Lady Maccahees for remembering me during my recent illness.

Mrs. C. Carrier.

Sell the Champion Cream Saver

THE NEW DE LAVAL

THE worth of a separator depends very largely upon its bowl. A separator bowl must be scientifically designed, properly constructed and perfectly balanced or it will not only lose some cream to begin with, but will soon get out of balance and lose a great deal more cream, besides wearing out the bearings and gears in a short time. That is why the average life of a cheap separator is only two or three years.

The new De Laval bowl is so constructed and so balanced upon its detached spindle that it will run true and do perfect work even after the machine has been in use for a long time.

The De Laval bowl has always been noted for its close skimming under all conditions, but the new De Laval bowl patented by the new method of milk distribution device, together with the larger discs, makes the new De Laval bowl an even closer skimmer than the old one and gives considerably greater capacity into the bargain.

Come in and see one of the new machines.

If there's anything wrong with your car we'll fix it up QUICKER THAN YOU CAN SAY "JACK ROBINSON."

AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. MCGONIGAL, 3432 Hartville Street, Phila., Pa.

Safe Position.
"I heard the boys say, Sam, that you were bragging to them about going to the front."
"Yes, sir, I've just got a job as a hotel bellboy."

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You say to the drug store man, "Give me a small bottle of freezone." This will cost very little but will positively remove every hard or soft corn or callus from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn relieve the soreness instantly, and soon the entire corn or callus, root and all, dries up and can be lifted off with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that freezone dries in a moment, and simply shrivels up the corn or callus without irritating the surrounding skin.

For your druggist hasn't any freezone tell him to order a small bottle from his wholesale drug house for you.—adv.

Some Objection.

PLANS FOR RAISING NEW UNITED STATES ARMIES BY DRAFT

DETAILS OF THE UNIVERSAL SERVICE LAW AS DECIDED UPON BY CONGRESS.

CALLS MEN FROM 21 TO 30

Provisions Also Made for Volunteers Who Wish to Join the Military Forces of the Country—Prohibition Clause Is Made Drastic—Army Medical Officers Assigned to Duty in France.

Approximately ten million men between the ages of twenty-one and thirty inclusive will be required to register as available for military service in the war with Germany under the terms of the new national army bill passed by the conference committee of the house and senate.

From these ten million men there will be selected the first 500,000 recruits to the selective conscription army, the second 500,000 when the president decides to call for them, and recruits to bring the regular army and National Guard up to maximum war strength in the event that volunteers to these forces fail to come forward in sufficient numbers and the president exercises his power to draft.

But in order that men under twenty-one and over thirty may serve their country if they so desire, the measure provides for the acceptance of volunteers over eighteen years and under forty years.

The gigantic number of men subject to draft will not all be called to the colors by any means. The proposed law gives authority to the president to draft as many men as he deems necessary to fill up the regular army, the National Guard and the conscription force of 1,000,000 men.

2,001,000 Armed Men.
It is estimated by the war department that as a result of the authority conferred and the action to be taken 2,001,000 officers and men will compose the military establishment of the United States.

Under the new bill agreed to authority is given to fill up by draft the regular army and the National Guard to war strength, and to raise outside this 1,000,000 men, 500,000 to come as the first quota.

The war strength of the regular army is about 200,000 men. It has now about 135,000 men and is short about 65,000. The National Guard has a war strength of 825,000 men. It has now about 125,000 and is short about 700,000 men.

Therefore, on the first call there can be taken for war service about 655,000 men to fill up gaps in the regular army, and National Guard and in addition 500,000 as the first quota of the conscript army of 1,000,000 men.

In the first draft it is possible about 1,155,000 men will be taken for active service, leaving authorization under the present bill to call out immediately 500,000 more for another conscript army.

No Place for Roosevelt.
The action allowing Col. Theodore Roosevelt to enlist volunteers for foreign service has been eliminated.

What the colonel will do now that his pet project is incapable of realization is a question. It is generally understood that President Wilson is absolutely opposed to the idea of a volunteer organization under command of the colonel.

Pay for enlisted men and non-commissioned officers was agreed upon as follows:

Men now receiving less than \$21 per month are increased to \$31 per month; those who received \$24 are increased to \$32; men who receive \$30, \$36 or \$40 are increased \$6 each; men who receive \$45 are increased to \$50.

Army Officers Pleaced.

Army officers received notice of the age limit with pleasure. They had expected a higher maximum, though they would rather have had the original ages of nineteen to twenty-five.

A new section in the bill authorizes the president to organize and equip three machine-gun companies for each infantry and cavalry brigade and four machine-gun companies and an armored motorcar for each infantry and cavalry division. These will be additional to those already provided.

An interesting change is that the draft will not be based upon the number of persons "available for service," as first proposed, but upon the population.

A man may register by mail, if necessary. Fraud in registration, examination, etc., is punishable by the same imprisonment, "or, if subject to military law, the individual shall be tried by court-martial and suffer such punishment as a court-martial may direct."

Dry Clause Drastic.

The prohibition provision is exceedingly drastic. The president is au-

READY FOR SEPARATE PEACE

Russian Socialists Announce Willingness to Act With Germans in Plans to End the War.

Petrograd.—Twelve members of the council of soldiers' and workers' delegates, including the president, have gone to Schusselburg to cope with the situation created by the district committee in declaring itself an autonomous unit.

Explaining Workings of New Conscription Law

Washington.—Outstanding features of the universal service law are as follows:

Ages of Draft, 21 to 30 inclusive. Ages of Volunteers, 18 to 40 inclusive.

Number subject to draft, 11,000,000 To be Obtained by Draft or Volunteers:

Number to be drawn by selective conscription.....	1,000,000
(In two drafts of 500,000 each.)	
Regular army.....	300,000
National Guard.....	625,000
Special and technical troops.....	70,000
Total strength provided.....	2,001,000

Term of Service: Period of Emergency.

Exemptions:
Federal and state officers,
Ministers of religion and theological students.

Members of religious sects opposed to war.

Liable to Exemption:

County and municipal officers,
Customhouse clerks, mail employees.

Employees of armories, arsenals and navy yards.

Persons engaged in industries, including agriculture.

Those supporting dependents,
The physically and morally deficient.

Method for Draft:

Proclamation by the president for registration.

Immediate registration by those of draft age.

Selection from register of men for service.

Dispatch of men drafted to nearest training camp.

Provision for Pay:

Second-class private.....\$25

First-class private.....31

Corporal.....32

Sergeant of the line.....\$36 and 42

Quartermaster and hospital sergeants.....46

First sergeant.....50

Safeguards Thrown Around the Army:

Prohibition.

Suppression of the social evil.

Authorized to make regulations governing the prohibition of alcoholic liquors "in or near" military camps. Not only can liquor not be sold or supplied but it will be illegal for any person to have in his possession any intoxicating or spirituous liquors at any military station, cantonment, camp, fort, post or officers' or enlisted men's club.

It will be unlawful for anyone to sell intoxicating liquor, including beer, to any officer or member of the military forces while in uniform.

Likewise, the social evil is guarded against through the suppression and prevention of the setting up of any houses used for immoral purposes.

The fact that under the authority of congress the president is authorized to call 11,000,000 men to the colors is expected to have a great moral effect in Germany. It is quite true that the entire force he can command at this time will number two and a quarter million. But even this number would constitute a re-enforcement which British and French officers say would assure victory if employed in France.

Could Relieve British.

England to date has raised some 6,000,000 men. With the exception of a couple of million these men are at the front in France, Belgium, Egypt, the Balkans and Mesopotamia.

What the president and Secretary Baker desire first and above all is to train the officers and men. When they are ready to fight the drilled troops of Germany, then probably they will be sent abroad, and not before.

But Germany doubtless will watch with increasing anxiety the preparedness of the American people and will realize that peace will be most desirable and necessary, before they are ready for service in France.

Officers Go to France.

Three army medical officers—Maj. William L. Keller and Capt. Daniel P. Card and George M. Edwards—were assigned to duty at the French military hospital at Bis Orange, France.

Organization of two reserve air squadrons for the army was authorized by Major General Scott, chief of staff.

The first class at West Point will be graduated August 30, the war department announced, and immediately commissioned to supply 154 highly trained officers to aid in the instruction of the first 500,000 selective draft army to be called to the colors some time in September. Under normal conditions the cadets would have completed their course in June, 1918.

Women Form Committee.

The woman's liberty loan committee has been formed. Announcement to this effect is made by the treasury department.

The committee met in the office of the secretary of the treasury. The members present were Mrs. George Bass, Mrs. Antoinette Funk and Mrs. Kellogg Fairbanks of Chicago, Mrs. Clifford Dudley of Tennessee, Miss Pierce of Kansas City, representing Mrs. Gurnsey, and Mrs. John O. Miller of Pittsburgh.

the executive committee of the council concerning the proposed socialist conference at Stockholm, said that for the sake of restoring the international and stopping the war he was willing to meet not only Scheidemann but the devil and his grandmother.

The tone adopted by the Russian socialist pacifists is exemplified by Gorki's Novalia Zhizn, which declares that even if the British and French socialist refuse to participate in the conference the Russian socialist will, in any event, participate.

STEPPING STONES

ANARCHY STALKS THROUGH RUSSIA

NEWLY FORMED REPUBLIC IS SERIOUSLY THREATENED BY A CIVIL WAR.

HOLD PEACE MEET JUNE 10

Socialists Reported to Have Arranged for a Conference With German Delegates at Stockholm.

Petrograd.—The torch of revolt is aflame again. Anarchy stalks through Russia. There is no centralized government strong enough to control. Civil war looms and the counter revolutionists.

Schusselberg, a munitions district, virtually a suburb of Petrograd, took the lead. Workmen went on a strike and, backed by most of the population, started to establish a separate autonomous "state." The rebels "arrested" the provisional president of the district and set up a rule of their own.

News of the Schusselberg revolt came about the same time when the executive committee of the workmen's and soldiers' council voted to convene an international socialist council in a neutral country for the discussion of peace.

Peace Meet June 10.

The inference left by the speeches at the stormy session in which this was decided was that the Russian Socialists will go to Stockholm, where international Socialists of Germany, Holland and Scandinavian countries are preparing for the peace congress to be held June 10.

All Europe is confronted by a grave crisis. A general rising of the masses is a possibility to be reckoned with in connection with the proposed international conference. Its avowed purpose, is social revolution for Europe, which entails first of all civil war for the new Russia.

TUETON NAVY BASE BURNS

Wilhelmshaven, on North Sea, Seriously Damaged by Fire.

Amsterdam, via London.—For seven hours a great fire raged on the Imperial wharves at Wilhelmshaven, according to advices received here. The submarine building department was seriously damaged. The entire district has been closed to the public.

Wilhelmshaven is the chief German naval station and war harbor in the North sea and is the second largest naval base of the empire. It is situated in the province of Hanover on the north side of Jade bay. The harbor contains numerous docks and slips capable of accommodating war vessels of every description and size.

TEN MILLION MUST REGISTER

One-Tenth of Population of U. S. Liable Under Draft.

Washington.—Ten million men—one-tenth of the entire population of the United States—will be required to register on a day to be set aside by the president under the selective draft bill.

Registration blanks for card-indexing every man in the country between the ages of 21 and 31 available for military service have been sent to the sheriffs and mayors of every city, town and hamlet in the country, and will be handed out registration day.

Each card contains 12 printed inquiries—the information Washington wants from applicants. One inquiry is whether exemption is claimed.

Plant.—One thousand garden hoses have been purchased by William Ling, of this city, to be distributed free to children planning to cultivate a garden during the summer.

Jackson.—General secretaries of the Y. M. C. A. from Kalamazoo, Grand Rapids, Detroit, Adrian and Ann Arbor were in Jackson to discuss war work which confronts the association. It is planned to establish "huts" for the direct benefit of recruits located in various training and concentration camps.

DETROIT BOARD OF COMMERCE READY TO SUPPLY FARM HELP

Detroit.—Farmers in Michigan may obtain the services of young men to aid in the cultivation of their land by writing A. R. Forbush, Detroit Board of Commerce.

Mr. Forbush has the application of many high school boys who are anxious to work on a farm during the summer and do their share toward increasing the nation's food production.

Most of the boys are between 15 and 18 years old and many of them have had experience on farms.

LIFE BOATS FOR ALL ABOARD

Ships Entering U-Boat Zones Must Be Equipped to Prevent Drownings.

Washington.—To further reduce submarine risk, changes have been ordered in lifeboat regulations. The modifications were made by the department of commerce on reports showing that only two Americans aboard torpedoed ships have lost their lives by gunfire or torpedo explosions, and that all others were drowned or died of exposure.

Hereafter all American steam vessels entering the war zone must carry enough lifeboats to accommodate every person on board, and in addition must have enough life rafts for 25 per cent.

Vessels must provide 15 cubic feet in lifeboats for each person instead of 10, as at present. All lifeboats must carry hand pumps of considerable size. Food must consist of hard bread and the United States army emergency ration instead of thirst creating foods, such as corned beef and salt fish now used.

American vessels built in the future must be equipped with double lifeboat space and must carry on each side lifeboats of sufficient capacity to accommodate all aboard.

U. S. FIXES MUNITIONS PRICE

Sets Figures at Which Manufacturers Must Fill Orders.

Washington.—The United States has set a flat price for munitions of all kinds and manufacturers must accept that figure. This is the result of more than a week of conferences between officials of the war and navy departments and munitions board and the principal munitions manufacturers of the country.

The only alternative to the government proposition is that contracts shall be awarded on a cost plus a fair percentage of profit basis. This is for the benefit of the smaller plants, which the government experts are taking care to see get a just percentage of the contracts.

In addition to supplying munitions for the government's own needs, on the basis announced, munition factories may be called upon to fill vast amounts of shell orders and other materials, which the United States in turn will send to Russia.

It was reported that the United States would take over practical direction of the entire munitions business and direct, or handle for the European allies, all shipments from this country.

ITEMS OF INTEREST

Kalamazoo.—The Rex Paper company, of this city, announced an increase of 12 1/2 to 20 per cent in its wage scale for the coming year. Girls and women employed in the factory will receive a minimum of \$11.16 a week.

Cadillac.—With her right arm torn by a saw at the Northern Chair Co. factory, Orpha Uptegraft, 18, ran to a first aid kit, wrapped up her wounds, and then walked steadily to the factory office and requested to be taken to a doctor.

Port Huron.—Word has been received from A. Ford Miller, a former official of the Summers Linen company, of this city, that he has lost the sight of one eye while attached to the French flying corps. He is out of the hospital and says that if he can fly again he will enter the service.

SENATE ADOPTS DRY AMENDMENT

FIRST STEP FOR NATION WIDE PROHIBITION TAKEN BY UPPER HOUSE.

IS NOW UP TO CONGRESS

If Resolution Passes Congress It Will Be Unlawful to Manufacture Liquor After Sept. 1.

Washington.—The first wedge looking to complete war time prohibition was inserted Saturday afternoon when the senate adopted an amendment to the espionage bill, forbidding the use after Sept. 1, 1917, of any grain, molasses or other food products in the manufacture of whiskey or beer.

By a vote of 38 to 32, the senate also accepted the Cummins amendment to making it illegal for anyone to engage in the liquor business in any form during the war.

The resolution passed by the senate and which, if it goes through the house and is signed by President Wilson, will mean a dry nation for the duration of the war, reads as follows:

That on and after Sept. 1, 1917, and during the period of the war with the imperial government of Germany, it shall be unlawful to use or employ, directly or indirectly, any cereals, grain, sugar or syrups in the production of intoxicating liquors in any form or of any kind; provided, however, that nothing in this section shall be construed to prohibit the use of such syrup for the manufacture of wine, as now provided under the law, and it is further provided that this section shall not be construed to make unlawful the manufacture of alcohol or intoxicating liquor for mechanical, medicinal, sacramental or scientific purposes under rules and regulations to be prescribed by the secretary of the treasury.

Violation of this section shall be punished by a fine of not more than \$5,000 or by imprisonment of not more than three years, or both.

PAN-AMERICA TO SEND FOOD

Promise to Double Production if U. S. Will Furnish Capital.

Washington.—Prospects of food exports totaling approximately \$1,000,000,000 from Latin-America for the United States and the Entente Allies are held out here by the Pan-American union. More than three-fourths of the food will be shipped to England and France.

John Barrett, director of the union, announced this government work had been extended to all Latin-America in an effort to obtain this stupendous supply of foodstuffs. The United States government is urged to furnish the Latin-American nations with capital, machinery and agricultural experts necessary to double the food production.

"The countries of Latin and South America can help decisively if not completely to solve the future food problem facing the United States and its European allies," Mr. Barrett said.

Data collected by the Pan-American union in a survey of the possibilities of increased food production in Latin America, as made public in a preliminary report, show the food exports of those nations could be more than doubled within one year by the United States co-operating with the Latin-American governments in a food producing campaign that would include practically the entire new world.

T. R. WINS FIGHT IN HOUSE

Congress Votes to Restore Roosevelt Amendment in Army Bill.

Washington.—Col. Theodore Roosevelt won a striking victory and assured himself of complete congressional backing in his request for permission to recruit a division of troops and lead the American vanguard on the French front when the house Saturday voted, 215 to 178, to send the army bill, 215 to conference committee.

The senate had already approved the Roosevelt contingent and the motion to recommit the bill in the house was coupled with instructions to return it, accompanied by a provision authorizing the Roosevelt force.

The war department and general army staff are unalterably opposed to the recruiting of a separate division of volunteers by Roosevelt or any one else, so the question whether Roosevelt will raise an army for service in France is still far from settled.

Cadillac.—No more city improvement work will be started here until peace is declared. City workers will be released for farm service.

Coruna.—Frank Streffo dropped his hat in his haste to get out of the chicken coop of Donald Warriner, a neighbor, last fall. Last week a jury found him guilty of stealing chickens.

Big Rapids.—Eighteen cars of coal are side tracked at Byres, six miles south of here, on the G. R. & I., while Big Rapids and many other cities are without fuel. Byers is merely a side track. It isn't even a hamlet, and passenger trains do not usually stop there. Nobody around here knows who owns the coal.

Fair to His Opponent.
One day in parliament a young member, one of John Redmond's political opponents, rose to make his maiden speech.

Although obviously suffering an agony of nervousness, he managed to say some bitter things about the Irish members.

Whereupon one of the Nationalists started to puncture his remarks with jeers, thereby intensifying the youthful member's nervousness to an almost pitiable degree. Redmond turned on his follower in fury.

"Give the lad a chance!" he snapped. The jeers ceased.

WAR REVENUE BILL PLANNED TO RAISE \$1,800,000,000 IN YEAR

Ten Per Cent Increase Added to All Existing Duties and Articles Now on Free List Are Taxed 10 Per Cent—Incomes Are Hit Hard—An Extra Tax of One-Third Added to All Individual Incomes for 1916.

Following are some of the articles in daily use which will be taxed under the new war revenue bill:

Stock Exchange Transactions—On each sale future delivery for each \$100 2 cents
 Capital stock on each original issue of \$100, 5 cents; on transfers on each \$100 face value 2 cents
 Bonds, debentures, etc., on each \$100 face value 5 cents
 Indemnity bonds, 50 cents; where premium is in excess of \$100 1 cent per cent of premium charge
 Drafts, checks, notes (and renewals or extensions) for each \$100 2 cents
 Deeds, conveying lands or realty, for the first \$100 to \$500, 50 cents; for each \$500 or additional or fraction 50 cents
 Life insurance policies (except industrial or weekly) 8 cents on each \$100 Marine, international and fire insurance premiums 1 per cent
 Casualty policy premiums 1 per cent
 Freight bills 3 per cent
 Passenger tickets 10 per cent
 Steamship tickets for foreign port, \$10 to \$30, \$1; \$30 to \$60, \$3; exceeding \$60, \$5.
 Seats, berths or staterooms, rail or water 10 per cent
 Express rates 10 per cent
 Automobiles and motorcycles 5 per cent on wholesale price
 Tires 5 per cent
 Light, heat and telephone bills 5 per cent
 Telephone (long distance) 5 cents on each toll message over 15c
 Musical instruments 5 per cent on those costing over \$10
 Talking machines 5 per cent on those costing over \$10
 Jewelry 5 per cent
 Cosmetics and proprietary medicines 5 per cent on wholesale price Amusement tickets (charity excepted) 1 cents for each 10 cents of admission price, except where maximum is 5 cents.

Washington.—The administration war revenue bill as unanimously agreed upon by the house committee on ways and means and reported to the house Wednesday, is estimated to produce \$1,800,000,000 a year.

If the framers overlooked any tangible article upon which it is possible to levy a tax, it was not because of any desire to do so.

Incomes, inheritances, business profits, amusements, liquors, tobacco, automobiles, moving pictures, baseball games, medicines, letter postage, transportation and jewelry are among some of the things which will feel the burden of taxation.

Tariff Will Yield \$200,000,000.

The committee found it necessary to go to the tariff to make up a deficit of something like \$200,000,000. This was done by an agreement to a tax of 10 per cent upon all articles now on the free list and 10 per cent additional upon all articles now upon the dutiable list.

Income-tax increases as made public by Chairman Kitchin follow:
 Taxes for the year ending December 31, 1916, have been increased exactly one-third. These taxes are due in June.

Exemption limits have been reduced to \$1,000 for single men and \$2,000 for married men.

The normal tax on new classes of incomes to be taxed, those between \$1,000 and \$3,000 for single men and between \$2,000 and \$4,000 for married men, has been fixed at 2 per cent.

Normal taxes on all incomes formerly taxed, those above \$3,000 for single men and \$4,000 for married men, have been increased from 2 to 4 per cent.

The increased surtaxes are as follows:
 \$ 5,000 to \$ 7,500 1 per cent
 7,500 to 10,000 2 per cent
 10,000 to 12,500 3 per cent
 12,500 to 15,000 4 per cent
 15,000 to 20,000 5 per cent
 20,000 to 40,000 6 per cent
 40,000 to 60,000 8 per cent
 60,000 to 80,000 11 per cent
 80,000 to 100,000 14 per cent
 100,000 to 150,000 17 per cent
 150,000 to 200,000 20 per cent
 200,000 to 250,000 24 per cent
 250,000 to 300,000 27 per cent
 300,000 to 500,000 30 per cent
 500,000 and upwards 37 per cent

The inheritance tax starts with one-half of 1 per cent as the basic tax on all estates of \$50,000 or less. The remainder of the schedule is applied to the various excesses in graduation as follows:

Inheritance Tax Scale.
 On excess of more than \$50,000, but not exceeding \$150,000, 1 per cent.
 On excess of more than \$150,000, but not exceeding \$250,000, 1 1/2 per cent.
 On excess of more than \$250,000, but not exceeding \$500,000, 2 per cent.
 On excess of more than \$500,000, but not exceeding \$1,000,000, 2 1/2 per cent.
 On excess of more than \$1,000,000, but not exceeding \$2,000,000, 3 per cent.
 On excess of more than \$2,000,000, but not exceeding \$3,000,000, 3 1/2 per cent.
 On excess of more than \$3,000,000, but not exceeding \$4,000,000, 4 per cent.
 On excess of more than \$4,000,000, but not exceeding \$5,000,000, 4 1/2 per cent.

Lodging-House Geometry.
 Learning is one thing and wit is another, but that does not prevent them from meeting at times in the same brain. One of the most amusing of those jests, which it takes a certain amount of scholarship to make or enjoy, was the collection of Euclidean axioms that Prof. Stephen Leacock of McGill university wrote some years ago for Truth. Here is one of the cleverest of them: If there be two boarders on the same flat and the amount of side of the one be equal to the amount of side of the other, each to each, and the wrangle between one boarder and the landlady be equal to the wrangle between the landlady and the other boarder, then shall the weekly bills of the two boarders be equal, each to each. For, if not, let one bill be the greater. Then the other bill is less than it might have been, which is absurd.—Youth's Companion.

On the Job.
 The Sphinx knew how to keep her mouth shut and is still in business.

LARGEST PRIVATE EXCHANGE

Telephone System in New Gotham Hotel Will Be Greater Than in Whole Kingdom of Greece.

A contract was recently signed for the installation of the largest private-exchange telephone system in the world. This will be located in a new hotel which is to occupy an entire block in New York city and will take rank as the world's largest hostelry. It was necessary to plan the telephone system in advance, as the service to be rendered is greater than that in the whole kingdom of Greece, with its mainland and island territory and equal to the requirements of a progressive American city with 20,000 population. The main switchboard will be equipped to serve 2,400 extension stations, and is to be erected in a penthouse on the roof of the hotel. Four other switchboards will be needed.—Popular Mechanics Magazine.

Dollar, Please.
 Oswald Van Loenen, duke of Benjamin and Doge of Hizdora, is the name and full title of a canine curb broker sometimes vulgarly referred to as a "mere dog" that abides with a generous family on the North side. Oswald is wont to spend barless nights and drowsy days sleeping in the rear of the house. He is unobtrusive and is never in the way except when the family is unanimous that it would be best to have him out of sight.

To Protect Worker's Eyes.
 The public health service of the state of New York has been making an investigation of the different systems of illumination installed in the steel plants of the state and their effects upon the eyes of workmen. Some of the forms of light are of great intensity, accompanied in many instances by marked contrasts, while others are suspected of being injurious on account of their spectral composition. Photometric readings have been taken of the various industrial lights employed in such plants during the various stages of manufacture, and data have been collected regarding the precautions now used to protect the eyes of the workers. The service proposes to issue recommendations with a view to mitigating these hazards.

Farmers Must Plant All Land.
 Full powers to deal with farmers in Great Britain who do not cultivate their land to the fullest capacity have been granted to the board of agriculture under the defense of the realm act. The new regulations provide that if a farmer has land, but does not cultivate it, he must terminate a farmer's tenancy and arrange for the cultivation of the land by some other person. It may also take possession of any farm machinery, produce, stock or animals which are required for the cultivation of the land, or the increase of the food supply.

The Proper Remedy.
 "My dear," said Mrs. Blindestacks, as she approached her lord and master, "our daughter doesn't seem to be able to sing in tune with the piano. What do you think we had better do?"
 "Have the piano tuned to her voice, by all means," suggested her husband.

Matter-O'-Money.
 "So Rich is going to marry that stunning girl, is he? Why the poor old fellow has one foot in the grave."
 "Yes, that's why he's going to marry her."

SAXON

Strength-Economy-Service

The Purchase of a Saxon Insures Riding Satisfaction

Saxon cars are today generally recognized as the best cars in their price classes.

Their greater value has been definitely and decisively established by their performance records in the hands of thousands of owners in all parts of the country.

The Saxon Motor Car Corporation has earned one of the biggest successes in the automobile industry. It owes its success to the policy of building good cars and building them in quantities. Its cars have won the respect of the motor buying public.

Such absolute satisfaction as is represented in the following testimonial is the big reason back of Saxon success:

"I want to say that Saxon 'Six' is an automobile that will do all the Saxon Motor Car Corporation claims it will do—and more. We have driven our car many thousand miles and can honestly say it is the easiest riding car we ever rode in."

AN INNOCENT PRANK

By ELINOR MARSH

Johnny Greer was an operator at Hinsdale, a way station on the R. W. and P. railroad, and Elizabeth Crofut was a woman operator at Warfield, a thriving town on the line. One day Bess had occasion to call Greer's station for some information about trains, and as they were using the phone John noticed that the person calling had a very sweet voice. He complimented her on it and thus made a beginning.

At this point there was a divergence from the frankness that had been displayed when both parties were projected by distance and an absence of identification. Greer being a man and having less at stake sent his own photograph. Miss Crofut sent a picture which, whether or not it was of herself, was that of a pretty girl. As soon as Greer saw it he pronounced it pretty enough to kiss, and he announced the fact to his auditor.

Johnny was in a quandary. He had no liking for speaking to an unknown woman in a public park and turned to leave. He was stopped by a "Heim" arrested him and which came unmistakably from the girl on the bench beside the bush. Supposing that he had not heard aright as to the first call, he turned his course to the girl who had given the last one.

WORDS OF LOVE. Many a heart is hungry, starving For a little word of love. Speak it, then, and as the sunshine Oilds the lofty peaks above So the joy of those who hear it Sends a radiance down life's way And the world is brighter, better, For the loving words we say.

Commissioners Notice. STATE OF MICHIGAN, County of Washtenaw, ss. The undersigned having been appointed by the Probate Court for said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of Mattie Christine Knoll, late of said county, deceased, hereby give notice that four months from date are allowed, by order of said Probate Court, for creditors to present their claims against the estate of said deceased, and that they will meet at H. D. Witherell's office, in the village of Chelsea in said county, on the 10th day of July and on the 10th day of September next, at ten o'clock, a. m., of each said days, to receive, examine and adjust said claims. Dated May 9th, 1917. H. D. Witherell, George Beckwith, Commissioners.

Wolf Wismdel, a junk buyer, drove his motor truck into a fire hydrant at North Main and North streets, yesterday morning, breaking the hydrant loose and damaging one of the front wheels on the car.

Referring to the backward season, James Little of Lyndon says that a time-honored Indian rule for corn planting was that corn should be in by the time the white-oak leaves are the size of squirrels paws, and that it was considered useless to plant corn after May 10th. This year the white-oak leaves haven't even started.

A fleet of 31 Republic trucks passed through Chelsea, Friday, en route from Alma to Harrisburg, Pennsylvania, overland. There were 20 drivers, many of them driving a chassis with a flat bed and loaded with another machine complete with body and top. The fleet stopped here nearly an hour, the drivers taking dinner at the New Crescent hotel.

The delivery car owned by the Chelsea Green House started on a rampage Saturday. Chris. Visel left it standing in front of the Chelsea laundry, with the motor running and headed down the North Main street hill. The vibration of the motor started the car and it coasted into a boulevard light post on the west side of the street near the Michigan Central tracks. The post was snapped off and the front axle of the Ford was badly bent.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
