Studebaker

Established 1852

EXPERIENCE

The Series 18 Studebaker 4 and 6 are manufactured complete in the factories of Studebaker, a company whose great name for high quality and reliability has been developed through sixty-four years of successful business experience. Through its broad experience in manufacturing, through the elimination of parts makers' profits and through enormous quantity production of fine cars, Studebaker has been able to embody in its Series 18 cars all the essentials of quality that you would find in cars costing from \$2,000 to \$3,000.

Through concentrating on one basic design, Studebaker engineers have been able to constantly improve Studebaker Cars. They have observed the performances of over 250,000 Studebaker Cars in the hands of owners, and through this experience of actual service, the Studebaker Car has been refined, improved, perfected, until the Studebaker Series 18 is today one of the best cars in the world, regardless of price.

Come in and let us give you a demonstration.

C. SCHMID & SON, West Middle Street

AWFUL DEATH BENEATH LOCOMOTIVE WHEELS

Young Albanian Laborer Killed Sunday Morning By Mich. Cent. Switch Engine.

H. Rakep, 19 years of age, one of a gang of Albanian track laborers employed by the Michigan Central railroad, was instantly killed about 8:15 o'clock Sunday morning when he was struck by a westbound switch engine on the Hoppe curve, about five miles west of Chelsea.

The unfortunate young man was at work with the gang at the time and was watching a passing east-bound freight train when the light switch engine, on the westbound track, bore down upon him before he either saw or heard it.

He was terribly mutilated, the head being severed and the torso badly crushed. One arm was nearly severed.

Rakep had one cousin working in the gang and another cousin who had been working with another gang at Johnston, New York, is expected here today, when it will be decided what disposition will be made of the body.

Cleon Wolff, son of Mr. and Mrs. William Wolff of Chelsea, was fireman on the switch engine and was considerably unnerved by the accident, although the engine crew were in no way responsible for Rakep's death.

Justice H. D. Witherell viewed the body, but decided that an inquest was unnecessary as the unfortunate man was single and left no property.

SECOND COMMENCEMENT ST. MARY'S ACADEMY

Excellent Program and Pleasing Drama Complete Year's Work.

The second annual commencement exercises of St. Mary's academy, were held Tuesday evening, June 19, in St. Mary's auditorium. The hall was beautifully festooned in maroon and white. During the first orchestral number all the children of the school marched into the hall, across the stage, through an arch of red and white roses formed by the members of the high school. The three graduates, escorted by four little flower girls, passed to their places, and all having taken their position on tiers, joined in one grand festal chorus in honor of Reverend Father Considine. Greetings were then extended by Loretta C. Weber. As a tribute of gratitude a beautiful gift and a basket of roses were presented to the beloved pastor. The salutatory was admirably delivered by Raymond J. Steele after which the chorus, "Tis Morn," was beautifully rendered. Mary E. Hummel gave the valedictory in an excellent voice and pleasing manner. Reverend P. J. Howard of Assumption college, Sandwich, Ont., delivered an eloquent address on Christian Education, which was thoroughly appreciated by the graduates and their friends. Diplomas were conferred by Reverend W. P. Considine.

In the staging of the drama, Damon and Pythias, much talent, skill and effort were displayed by the members of the cast, but special credit is due Raymond Steele, Alvin Riedel, Alban Hoffman, Mary Hummel and Wilamina Burg, who represented Damon, Pythias, Dionysius, Calanthe and Hermion respectively.

The play showed the intensity of the love of Pythias for his friend Damon. The latter having incurred the displeasure of the newly chosen king of Syracuse, was condemned to death and in vain sought leave of absence to bid farewell to his wife, Hermion. On his way to execution he was met by Pythias who, although this was his wedding day, obtained permission from the king, Dionysius, to be imprisoned for six hours at the end of which time Damon was to return to ransom him. The king, marveling at such friendship, disguised himself and taking the bride of Pythias, Calanthe, visited Pythias in his dungeon and tried to persuade him to flee, but loyalty to his word triumphed even over the pleading of his betrothed. The last stroke of six was pealing from the temple, the executioner's axe was uplifted, when Damon, half crazed, rushed upon the scene; partly recovering himself, he related how, during the sad parting from his wife and child at his villa, four leagues from Syracuse, the horse upon which he was to return to redeem his pledge, was slain by a faithful servant who hoped by this means to save his master's life. Beside himself with grief and anger he was about to kill Lucullus when he beheld a traveler whose horse he forcibly seized and sped back to Syracuse. Clashed in each other's arms, Damon's face shone with joy at the thought that his friend's life had not been sacrificed. Dionysius, moved by such unselfish friendship, threw off his mask and pardoned Damon.

The large audience retained its enthusiasm until the finale, "The Star Spangled Banner," played by the orchestra. Every number on the program merited marked approval and all must have been the result of very competent training. St. Mary's academy in charge of Reverend W. P. Considine and the Sisters of St. Dominic has completed another very successful year.

We see by the papers that China is about to try some new Wu-tung-fangled ideas in popular government.

JOHN MESSNER.

John Andrew Messner, for many years a prosperous farmer of Freedom township and a resident of Chelsea for a number of years following his retirement from active farming in 1897, died at midnight Thursday, June 21, 1917, at the home of his son Charles, in Lima township. He was 79 years, six months and six days of age.

Mr. Messner was born in Hueffenthal, Baden, Germany, December 15, 1837, and came to this country when 17 years of age. He was married to Miss Christina Keegreiss, July 4, 1863, and they began house-keeping on the farm in Freedom which was their home until their removal to Chelsea in 1897. Mrs. Messner died about two years ago and since her death Mr. Messner resided with his children.

Two sons and three daughters survive him, Henry of Lyndon, Charles of Lima, Mrs. William Bahmiller of Lima, Mrs. G. Lesser of Dexter township and Mrs. Fred Wellhoff of Sylvan; also one sister in Nebraska and 12 grandchildren.

The funeral was held Sunday afternoon at one o'clock, sun time, from the home of his son Charles, at two o'clock from St. Paul's church, Rev. Albert A. Schoen officiating. Interment at Oak Grove cemetery.

MORE CYCLONE MAIL

Family of Michael Schiller Have a Second Postal Card Returned From Imlay City.

A few days following the recent cyclone, the family of Michael Schiller, whose home was among those destroyed, received a letter from a young man residing in Imlay City inclosing a postal card directed to Mr. Schiller's daughter, which had lain in the house previous to the awful storm. The card had been carried in the storm's grasp for over 90 miles and the incident was reported in the Tribune at the time.

A few days ago Mr. Schiller received a second letter from Imlay City, inclosing a postal card which the writer had found and which he identified as coming from the Schiller home by the address.

Mr. Schiller says he lost all his legal papers, including deeds and insurance policies and he hopes they too may be found and returned.

WONDERFUL IF TRUE

California Baby Says Kaiser Will Die in July and War Will End in September.

A recent item in the Bancroft (Mich.) Commercial, taken from a letter written by Mrs. L. Douglas of Long Beach, California, to her cousin, Mrs. J. P. Terry of Bancroft, is wonderful if true, especially if the predictions made should prove true.

Mrs. Douglas wrote that a woman living in Long Beach had a child six months of age. A few weeks ago the mother was walking across the kitchen carrying an earthen jar, which she accidentally dropped and broke. The child noted the accident and said, "You have broken it!"

The incident frightened the mother and she sent for the family doctor, who found the child apparently normal in every way. Finally, as a test, he said to the baby, "What did you say?" The child repeated, "You have broken it!"

Surprised, the doctor then said to the child, "What else can you say?" The instant reply was, "The Kaiser will die in July and the war will end in September!"

The baby then lapsed into unconsciousness and soon after died, according to Mrs. Douglas.

The story gathers considerably more interest from an incident which is said to have occurred last week in Jeff Oak, Ingham county, and vouched for by several citizens of that hamlet.

It is said that a farm-wife living near Bell Oak read aloud the item in the Bancroft paper to her husband. The family dog, one of those long-eared German dachshunds, had been asleep on the floor, but as soon as the reading of the item regarding the California baby was completed, the brute awoke, stretched himself, and then reared upon its hind feet and humped its long body into the form of a question mark, thus giving the lie to the whole story.

PHONE GIRLS PATRIOTIC.

Employees of the Michigan State Telephone company have taken practically all of the \$250,000 Liberty bonds subscribed to for them by the company. With reports still incomplete, it is evident that the telephone employees fully come up to the estimate made by George M. Welch, General Manager, as to the part they would take in the Liberty loan.

The part taken by the girls of the operating department is especially gratifying. The young women responded liberally to the call of the government. Many decided to make some sort of sacrifice in order to enable them to spare the money for a Liberty bond. The total bond subscription of the telephone operators amounts to \$87,000.

The majority of subscriptions taken by employees were for bonds of the \$50 denomination, indicating the demand was largely from small investors.

CHELSEA HIGH ALUMNI BANQUET

Annual Reunion of Old "Grads" Tomorrow Evening at Maccabee Hall.

President George Naekel of the Chelsea High School Alumni association and his corps of assistants are planning big doings at the annual banquet which will be held tomorrow evening, June 27th, at Maccabee hall.

A fine menu has been prepared and the program will be as follows, George Bacon of Ft. Wayne, Indiana, officiating as toastmaster:

Selection - - - - - Orchestra
Welcome to the Freshmen -
- - - - - Gertrude Storms
Piano Solo - - - - - Josephine Miller
"Sparks" - - - - - Evert Benton
Vocal Solo - - - - - Hazel Speer
Our Class - - - - - Paul Wagner
Selection - - - - - Orchestra
Alumni Relations - - - - -

Prof. W. L. Walling
Vocal Solo - - - - - J. B. Barche
The officers and chairmen of committees in charge of this year's banquet are: President, George Naekel; vice president, Esther Chandler; secretary, Oscar Schettler; treasurer, Paul Niehaus; decorations, Harold Spaulding; punch, Gladys Schenk; menu, Ethel Kalmbach; music, Josephine Miller.

OPEN CAMP BIRKETT JULY THIRTIETH

About Fifty Boys Will Spend Two Weeks at Big Silver Lake in Dexter Township.

Camp Birkett, the Y. M. C. A. camp at Big Silver lake, about ten miles northeast of Chelsea in Dexter township, will be open this year from July 30 to August 10 according to plans now being perfected by Bernard Mason, boys' secretary of the Ann Arbor Y. M. C. A.

It is expected that a total of about 50 boys in this county will avail themselves of the opportunity of spending two happy, care-free weeks at one of the prettiest lakes in Washtenaw county.

JACOB HORNING.

Jacob Horning, a well known farmer of Freedom township died early Friday morning at the psychopathic ward of the University hospital in Ann Arbor, where he had been a patient for the past five weeks. He was about 63 years of age and is survived by his widow, three sons and three daughters. The funeral was held Sunday.

LIGHTNING RIPS PAVEMENT.

During the severe electrical storms which passed over this county Saturday, lightning struck the Ann street pavement in Ann Arbor, ripping a hole 30 inches long by a foot in width in the solid concrete. The bolt apparently divided before striking the pavement, for a second hole a few inches across was drilled in the concrete ten feet away from the first hole.

Whooping Cough.

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes, "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm."—Adv.

Sour Stomach.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.—Adv.

A toilet preparation of such help to the hair as to restore color and beauty to Gray or Faded Hair. 50c. and \$1.00 at Druggists.

FARM HANDS BIG PAY Write will send you a list of the best farm work.

The Wrong Place.
The traveling man who had struck the slowest town in the country on Memorial day, and had not made a sale of anything, was writing back home. (He had to pass the time away somehow, and there were no other traveling men near the place.)
This is the conclusion of his reply to the town:
"This is the rottenest town I have ever struck, and I have met some mighty rotten ones. Today is Memorial day. They are making a big noise in this town. They all go out to decorate the graves of the dead in the west half of the burgh, but in reality the ones they should have decorated were the homes of the living dead ones on the east side. Those people out there in this cemetery are the finest products this place has ever produced. Some town!"—Indianapolis News.

Wonderful.
The old soldier was again giving the younger accounts of the wonders he had experienced, especially in the way of climate. Said he:
"I remember when we were at Fyzardum we used to toast our bread in the sun and—"
Youngster (interrupting)—"Yes, I know, and you were supplied with corkscrews to draw your bread."

Has to Have.
"Has your friend high ambitions?"
"Sure. He's an aviator."—Baltimore American.

For Building Up Quickly

probably the very best food you can select is **Grape-Nuts.**

It contains the mineral salts and energy values—all the nutriment of whole wheat and barley—digests easily and quickly, and the flavor is delicious.

"There's a Reason" for Grape-Nuts

FOR LIBERTY

150,000 SOLDIERS IN FRANCE BY FALL

ACCORDING TO PRESENT PLANS MEN ARE TO BE SENT AS FAST AS TRAINED.

NEW ARMY READY IN SPRING

First of Conscripts to Be Ready for Over-Seas Duty in Time for Spring Offensive.

Washington—According to present plans the United States will have 150,000 trained men in France in time for an autumn offensive and more than 750,000 by spring.

In addition to the division of regulars already ordered overseas, five more divisions, 125,000 men, are being prepared for service in the trenches. They are all regulars but many are only partly trained, having enlisted since war was declared.

Hold Half Here as "Teachers." At war strength the regular army will number 300,000 or more. At least 150,000 of these will be held in America to train the 625,000 recruits who will be brought in through the draft.

Meanwhile 125,000 national guardsmen also will be sent to Europe, swelling the number there to 300,000 by October, according to present plans. Large additional forces of regulars and national guardsmen will be available by autumn here for work in France in the spring.

By that time also the conscripts will have had sufficient training to be sent to France for the finishing touches before being thrown into the battle.

LUMBER YARD EMPLOYS WOMEN

Chicago Concern Gives Fair Sex Same Pay As Men.

Chicago—Women, dressed in the attire of men, went forth into the lumber yards of the Ryan car works Saturday and performed the labors of full fledged, full paid laborers. The little group of grinning, overalled, healthy women that trotted forth into the lumber yard of the car works, carried planks, piled timbers and performed the tasks of men.

Excitement in Hegwisch was intense. The newspaper advertisement calling for healthy women to do the work of men "brought 500 replies over night."

Christopher Davidson, general superintendent of the works, explained: "We have decided, on account of the war, to put women on. We have arranged rest rooms for them. We intend putting on a force of 200 before we are through. During the next week or two we will have 50 or 60 working."

WOODEN SHIPS BEING BUILT

Construction of First Vessels of New Fleet Has Begun.

New York—Actual work on the first of the vessels of the wooden fleet the government is constructing to offset the German submarine warfare has begun, it was announced here by the Foundation company, which has the contract for building 10 of these ships.

Ways for six of the vessels have been completed. Timber, machinery and other materials are receiving precedence among railroad shipments.

Date of delivery of the first ship has not been announced. The cost to the government will be \$3,000,000.

Iron Mountain—Halsard Person, 58 years old, prominent mining contractor was killed and four others seriously injured when their automobile plunged over a 30-foot embankment, and landed on a pile of steel rails.

Flint—A burglar entered a department store here and made off with a blue serge suit and a "pair" of shoes of different sizes. He overlooked \$100 in the open safe.

Grand Rapids—Property owners who have shrubs on corner lots that obscure the street view will have to remove them, according to Welfare Director Mills.

Imlay City—Thomas Anderson a rural carrier, was injured and his automobile wrecked when he drove on the P. O. & N. railroad tracks and was struck by a passenger train.

U. S. BOARD TO DO ACTUAL DRAFTING

POSSIBLE FAVORITISMS BY LOCAL BOARDS WILL BE MADE IMPOSSIBLE.

DRAWINGS MADE IN WASHINGTON

To Make Sure No Eligibles Escape Names and Numbers of Drafted Men Will Be Made Public.

Washington—Drafting of the 625,000 men for the new national army will be conducted by lot, according to the conscription regulations approved by President Wilson.

Federal government itself will conduct the drafting entirely in Washington, it is said, so there may be no opportunity for local favoritisms, political or otherwise.

When the drafting begins—and it is expected to begin not later than the second week in July—the numbers will be drawn from a jury wheel in Washington. There will be a separate draft for each state—so that each state may be called upon for its quota and one state may not be forced to supply more men proportionately than another.

The numbers drawn then will be telegraphed from Washington to the governors of the various states. They will notify the adjutant-general, who holds the corresponding numbered cards and the adjutant-general will notify the local boards under whose jurisdiction the drafted men are.

List to Be Published.

Plentiful provisions have been made for letting each man know whether he has been drafted. Four copies of the registration list and the number he bears are to be made public, one being placed at the office of the local board, and another being made available for the press.

The identity of the numbered men will be unknown to those in charge of the draft machinery and can be established only by comparing a number with a printed list in the man's home district.

It will be the duty of each man individually to ascertain whether he is selected. He will not be required to report until a general summons is issued for all drafted men to come forward for examination. At that time he will have opportunity, if he desires exemption, to present his case to the local exemption boards. It will have power to decide physical exemptions and excuses based on dependent families.

If a man is exempted the man bearing the number which was drawn next in order will take his place and so on.

Occupational exemption pleas must be heard by the appellate boards. If a drafted man desires, he may appeal to a National exemption board, which is the supreme court of exemptions.

To Catch "Slackers."

To make sure no eligibles escape the names and numbers of drafted men will be made public. Original registration lists are also being made public so "slackers" may be detected by their neighbors when their names fail to appear on the list.

In this way all those available for service out of the 10,000,000 who registered will be made ready for the country's call, and from them the first increment of 625,000 will be assembled. The others will be called as the need develops as the war goes on.

Plenty of time will be given for drafted men to arrange their personal affairs and report to the cantonment camps. It is hoped to have them all in training by September 1 or soon thereafter.

It finally forced to serve the conscript will be acquainted by presidential proclamation of the date he must report for service and will be told where to report by the local board.

REGISTRY TOTAL IS 9,649,938

Virtually Complete Figures Show Few Slackers in Country.

Washington—War registration returns, virtually completed Friday by reports from Wyoming and Kentucky, show 9,649,938 men between the ages of 21 and 31 years, inclusive, have been enrolled for the country's service.

In addition to the regularly tabulated total 6,001 Indians were enrolled.

Counting the 600,000 or more men in the federal service and not required to register the provost marshal general's office says that the census bureau estimate of 10,275,694 eligibles was approximately correct and that few slackers are to be sought.

Saginaw—Percy Lackner, 20, was drowned in the Saginaw river when his canoe turned over.

Detroit—"Detroit Military Day" will be observed Saturday, July 28, at Navin field. This is the conditional date decided upon by the committee on arrangements. In the event that the troops are ordered out previous to July 28 "Military Day" will be observed at an earlier date. A sham battle, in which Detroit troops will give civilians an impression of the war game, will be the predominating feature.

STATE NEWS

Ann Arbor—Immediate registration of all tuberculosis sufferers is urged by the state anti-tuberculosis society, which says the law providing for this is not being enforced rigidly.

Escanaba—William H. Graham, Lansing, county clerk of Ingham county, was elected state president of the Fraternal Order of Eagles and Lansing was given another honor when that city was named the convention city for 1918.

Manistee—Because he employed Miss Bessie Churchill, an operator at Bear Lake, for an average of 15 hours per day, Glen L. Williams, manager of the Benzle County Consolidated Telephone company, was sentenced to pay a \$36 fine and costs. He appealed to circuit court.

Owosso—Zella Smith, a Chesaning girl, lost the sight of an eye as the result of the first "Fourth of July" accident here. The child lit a big fire cracker and when it did not explode immediately, she picked it up, it exploded in her hand, flashing a jet of flame into her eye.

Reed City—C. M. Burkett, proprietor of a local garage, had a narrow escape from drowning when his automobile got beyond control and skidded down the main road to the Grand Rapids & Indiana tracks and tumbled down an embankment into 15 feet of water in Hersey river. Burkett was a good swimmer and reached shore. The car sank out of sight and it required 30 men to recover it.

St. Clair—Complaining that "something is sticking in my eye," Bruce Schleinkert ran to his mother for aid. Mrs. Schleinkert noticed that a large round object protruding from the eyeball and summoned a physician, who extracted a "B B" shot. About a month ago Bruce was accidentally shot in the eye and it was feared he would lose the sight of the eye. Physicians took X-rays but were unable to locate the shot. The lad's sight will not be affected, it is believed.

Lansing—Lansing has a population of 60,000, according to compilations based on the new school census just completed.

Detroit—Fire of undetermined origin is estimated to have done \$500,000 damage in the grocery warehouse of Wright & Parker.

Ann Arbor—One thousand two hundred and twenty-three seniors graduate at the University of Michigan during the week of July 24.

Adrian—Rev. Frederick Perry, of the Plymouth Congregational church has accepted a position as chaplain in the United States army.

Kalamazoo—Substitution of perfumes for liquors unobtainable in dry Kalamazoo proved fatal to Henry Van Den Heuvel, 56 years old, who was found dead in a North Burdick street rooming house.

Detroit—Spencer Marsh, 5 years old, was playing Indian around a bonfire, in the rear of his home, with a number of companions. He got too close to the fire, set his clothes aflame and died as a result of burns he received.

Muskegon—William Drensen was sent to jail for 30 days for stealing chickens from his brother.

Detroit—The fire commissioners have granted 21 men indefinite leaves of absence because of war enlistment.

Monroe—While James Gonsouls was sitting on his rear porch, a stranger walked into his residence from the front and helped himself to a valuable watch.

Ann Arbor—A postal card, blown by the cyclone from the hand of Michael Schiller and carried to Imlay City, 60 miles away, was returned to Schiller by mail.

Ann Arbor—An alarm clock, set as a joke on one of the members, saved the members of Delta Theta Phi from a serious loss to burglars. It went off at the "psychological moment."

Battle Creek—John Peasley, Sioux City, Ia., construction foreman of a 200-foot concrete chimney at the Consumers' Power company's plant here was fatally injured when a bucket of cement on which he was riding dumped and let him fall 80 feet. He struck the cement floor of the ash pit after hitting a dozen scaffolds in the shaft. Peasley's brother fell under similar circumstances, but recovered.

Irona—Judge Houghton, of Bay City, who heard the case of A. P. Loomis vs. State Highway Commissioner Rogers handed down a decision holding the Covert road law valid. The case has been taken to the supreme court to settle the question of selling bonds. Irona wants to build a road from Irona to Saranac and has three times offered the bonds for sale without success and this is a friendly case to eliminate the questionable points of the Covert law.

Flint—The Salvation army band here, 40 pieces, will tour northern Michigan this summer. The first stop will be in Traverse City, July 14.

Lansing—Sixty home guard companies have been accepted for service and 20 more companies are in the process of formation, according to Lieutenant M. J. Phillips, of the war preparedness board. The average strength of each company is 70 men. At the rate home guard companies are being organized, Major Phillips says there will be 100 companies in a few weeks.

SANTO DOMINGO RICH LAND

Is Without Modern Means of Transportation, However, Having Only One Short Railroad.

The Dominican republic is a good sized and very wealthy country which is almost entirely without modern means of transportation. It has only one short railroad in bad repair and only a few wagon roads reaching a short distance inland from the principal ports. The great rich interior is traversed only by very difficult trails, so that to travel from one city to another you must go on horseback and swim across rivers.

This state of affairs has greatly retarded the industrial development of the country, but it has been a great stimulus to the inventive genius of the Dominicans, who have to transport everything either on horseback or by boat.

The ability of these people to fasten all sorts of commodities upon the backs of ponies and burros is almost incredible. The typical Dominican saddle is a bulky affair made of woven grass, with short stirrups set very far forward, so that the rider sits in about the position of a man in a chair. This leaves the flanks of his animal clear for cargo. All the milk sold in the city is delivered by countrymen so mounted, with an immense milk can on either side of the mount. Eggs and chickens are brought to town in baskets the same way. Immense loads of hay are miraculously strapped to the backs of burros till they look like four-legged haystacks. Kindling is brought to town the same way and the valuable hardwoods of the forests come down to the water front in billets loaded on the backs of pack animals.

He Knew One. A representative of the Antislavery League was speaking to the juvenile Sunday school.

"I will now," he remarked, "place the letters of the alphabet upon the blackboard. As I write each letter I wish you to tell me the name of a bad drink that begins with the letter I put on the board." He then chalked the letter A, and one of the children called "Ale!" Next B, and a youth volunteered, "Beer."

A silence when he wrote the letter C caused the lecturer to ask, "Is there nobody here who can name a bad drink beginning with C?" He pointed his finger at a small boy in the front row and said, encouragingly: "There is a little man who I think can tell me the name of a bad drink that begins with C."

To which the youth replied: "Sure I can. Castor oil!"

Was Greek to Him.

The famous Non-Conformist divine, Doctor Jowett, who recently accepted the pastorate of Westminster chapel, London, recalls the following amusing episode of his student days.

It was during a lecture on Greek by an eminent professor, who, after a while, called upon one of Jowett's fellow students to read aloud a passage from a well-known Greek author.

The young man obeyed, but had not proceeded far when he was pulled up sharp.

"Stop!" cried the professor. "Stop for goodness' sake. Your pronunciation is terrible. How did you get such an accent? Where do you come from?"

In an accent almost as foreign to English as the language of the author, the student replied:

"From Athens, sir!"

How Large Birds Fly.

Large birds make only a couple of wing strokes a second when first taking to flight, but when under full momentum the strokes become more rapid. The principle is the same as that which applies to an oarsman in starting his boat; the quicker the craft is moving, the less resistance there is to the oar and the faster is the stroke. A swan cannot reach maximum speed in less than 150 yards after springing from the water; a goose requires nearly 100 yards, and a duck about fifty yards.

State Guard Camp Finest in U. S.

Graying the beautiful camp ground of the Michigan National Guard, which will be occupied after July 15 by 7,000 Michigan troops, is declared by army officers to be the finest camp in the United States.

The Michigan troops will probably spend several months there before going south, and will live in frame cantonments. These buildings will be comfortable and roomy and much better than tents, as the nights are cool in northern Michigan even in summer.

The reservation, which is the gift of R. Hanson, a Graying millionaire lumberman, contains 15,000 acres, and 20,000 acres belonging to the state are nearby, and suitable for maneuvering. The soil is sandy, absorbs water rapidly, and is covered with a growth of jackpine, oak scrub, grass and underbrush. It is hilly and little cultivated.

On the reservation lies the picturesque Portage lake, part of which is a thriving summer resort. The lake is four miles long by three broad, has an ideal bathing beach for a distance of two miles near the camp, and contains many fine fish.

The camp has ample railroad facilities and good automobile roads, and thousands of visitors through the grounds every Sunday.

Inspectors Get Passports.

That the inspectors who are going to give food plants and food depots an insurance inspection may not fall into the hands of officers as German spies, the Michigan Conservation association, the organization of insurance men which is sending them out, is going to issue each inspector a card with the owner's picture on the back of it. Many of the food depots have been manned with guards.

MUCH EXPECTED OF NEW AERO MOTOR

DETROIT ENGINEER COMBINES GOOD FEATURES OF SEVERAL NEW MODELS BUILT.

DETAILS BEING KEPT SECRET

It is Expected That the Motor Will Be Accepted as the Standard for All U. S. Aeroplanes.

Lansing. A super-aeroplane-motor designed to conquer the skies for the allies, help to sweep the seas of German submarines and end the war more speedily is said to have been perfected by a prominent Detroit engineer.

Several aeroplane motors were recently designed by various Michigan engineers, and submitted to government experts. No one proved just what was wanted, but by combining the good features of each it was thought that a motor of remarkable climbing power and durability would result. The designer of one of the engines was selected for the task of building an entirely new model that would embody the strong points of all. This man has completed his wooden model and has taken it to Washington for final judgment.

The details of the mechanism are being kept secret, but it is known that its strength and durability are unsurpassed.

American aeroplanes, up to this time, have not successfully been used in the European war, because their engines have not enabled the machine to climb quickly to great heights.

It is expected the newly invented motor will be accepted as the United States standard for all aeroplanes.

July 1 to 7 Is "Wheat Week."

The week of July 1 to 7 will be wheat week in Michigan.

A proclamation from the Michigan Agricultural college announces that during the week every element of the state which is in any way identified with production will be asked to render some service, either in preparation for the approaching winter wheat harvest, or by making ready for putting in wheat in the fall.

All the organized agricultural forces in the state, county agents, field men and crop experts, will be used in the wheat drive. Its aim, according to Professor Joseph F. Cox, acting head of the department of farm crops, will be to awaken the public to the problems of the harvest and to lay the lines for an increased wheat acreage in 1918.

The "wheat week" proclamation also appeals to Fourth of July speakers to put emphasis upon production problems, particularly as they pertain to wheat.

Most of the effort by the county agents and field workers will be centered on calling to the attention of farmers the variety of wheat known as "red rock." This is a high yielding strain developed by Professor F. A. Spragg, M. A. C. plant breeder, which has a record of producing from five to 10 bushels more grain to the acre than any other Michigan wheat.

Between 75,000 and 100,000 bushels of it will be available for seed this fall, and if it is planted this fall, it will within two years put Michigan in the way of increasing its wheat production 33 to 50 per cent without the plowing of an acre more than is now devoted to wheat.

DEMAND FOR TANLAC BREAKS ALL RECORDS

OVER SEVEN MILLION BOTTLES SOLD AND DISTRIBUTED IN LESS THAN TWO YEARS' TIME.

SUCCESS PHENOMENAL

Fame of the Medicine Spreads Over Whole Nation—Now Sold From Coast to Coast.

NEVER before, perhaps, in all history has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results in all parts of the country.

From Coast to Coast and from the Gulf to the Great Lakes, Tanlac is known and honored. Millions have taken it and have pronounced it the greatest medicine ever given to the people, and the only explanation of Tanlac's triumph in the medical world is Tanlac's true worth. Back of Tanlac's triumph in the drug stores is Tanlac's triumph in the homes. It is the people's medicine and the people themselves have made Tanlac what it is.

No matter where you go, Tanlac is a household word and it is unquestionably the most widely talked-of medicine in the world today. One person invariably tells another about a medicine that helps him and in this way scores or even hundreds may hear of Tanlac as a direct result of one bottle in a single home.

The first bottle of Tanlac to reach the public was sold just a little over two years ago in the thriving little city of Lexington, Ky., where 20,000 bottles of the medicine were sold in only a few months. Since that time there have been sold throughout the United States something over seven and a quarter million bottles, and a romance which has no parallel in the modern business world has begun.

The instant and phenomenal success which Tanlac won in Lexington has been duplicated in practically every large town, small town, village and hamlet in North America, while Hawaii, Alaska, Cuba, Porto Rico and other American possessions have clamored for Tanlac.

Just a few months ago, it was announced in the Atlanta papers that twenty-two carloads, 265,476 bottles of Tanlac had been sold through the Atlanta office alone. Since that time, 1,406,448 bottles have been sold, and the grand total now stands at over a million and a half, or to be exact, 1,695,204 bottles.

These are actual figures, and the fact that one hundred and fifty-eight carloads of Tanlac have been sold and shipped into the South and West since the first day of October, 1915, is a matter of record and can easily be verified.

One retail firm alone, the Jacobs' Pharmacy Co., of Atlanta, has sold the astonishing total of 64,000 bottles within the past twelve months. What is true of Atlanta, is also true of practically every large city of the South and West, where the sales have been correspondingly large.

The greatest drug firms of the country have voluntarily come forward and

DETROIT FIRM BUYS A SOLID CARLOAD

MICHIGAN DRUG CO. AWARDED THE WHOLESALE DISTRIBUTING AGENCY FOR DETROIT.

THE wholesale distributing agency for Tanlac in the Detroit territory has been awarded to Michigan Drug Co., said E. C. Harris, representing the Southern and Western distributor of Tanlac, a few days ago. "This firm," continued Mr. Harris, "gave their order for an entire carload of Tanlac several weeks ago and have just received same. This car comprises 1,000 dozen, 12,720 bottles, and is without doubt, the largest order ever given by a Detroit dealer for a new preparation, but having heard through absolutely reliable sources of the remarkable and rapidly growing demand for Tanlac in other cities, this firm did not hesitate to place an order for the above amount.

"In only a few weeks' time Tanlac will be placed on sale in practically every large city, town, village and hamlet in the state of Michigan.

"A number of agencies already have been established in a very limited time, but it is my desire that the distribution be made more complete and far-reaching.

"With this end in view, I take this means of notifying druggists and dealers who are interested to write or telegraph G. F. Willis, Fourth National Bank Bldg., Atlanta, Ga."

stated in plain, cold figures, the record breaking sales everywhere, as is evidenced by the startling sales records shown in the following figures:

Texas and Oklahoma dealers have sold in only five months time the astonishing total of approximately five hundred thousand bottles or an average of 100,000 bottles per month, smashing all world's records.

Memphis jobber and retailers have sold since April 3, 1915, 251,316 bottles.

Atlanta jobber and retailer have sold since October 16, 1915, 186,480 bottles.

Birmingham jobber and retailers have sold since August 18, 1915, 158,976 bottles.

Nashville jobber and retailer have sold since August 11, 1915, 165,766 bottles.

Macon jobber and retailer have sold since November 17, 1915, 107,736 bottles.

Jacksonville jobber and retailer have sold since January 22, 1916, 66,936 bottles.

Montgomery jobber and retailer have sold since January 19, 1916, 80,784 bottles.

"These enormous sales," said G. F. Willis, Distributor of Tanlac, "mean but one thing, and that is—merit. Tanlac is well advertised, it is true, but such a large and rapidly growing demand could not be brought about by advertising alone. It's what the neighbors say that counts. One bottle is sold in a neighborhood through advertising, but ten more are sold in that community after the first bottle produces results.—Adv.

Kin Hubbard Essays

OUR DWINDLIN' RESPECT FER TH' LAW

"Th' only time justice prevails in our courts 't' day is when th' defendant is both guilty an' penniless," declared Hon. ex-Editor Cale Fluhart, this mornin', after discussin' th' trial o' Ike Soles. Ike wuz arrested an' convicted o' alienatin' th' affections o' a ham. He wuz sentenced 't' six months in jail at 86 cents per day expense 't' th' taxpayers, an' his wife got th' custody o' th' seven children. Thus is society protected an' justice satisfied.

"Fer ever'thing we're liable 't' do ther's a penalty—some law or ordinance agin it," continued th' veteran journalist, "an' fer ever feller that gits in a muss ther's a skyscraper full

lawyer. When a feller crosses th' street he takes his life in one hand an' waives his rights with th' other. But it's in th' pursuit o' happiness that we're almost certain 't' strike a snag unless we're rich an' influential an' carry accident an' liability insurance. Most o' our laws seem 't' be written fer th' sole purpose o' curbin' happiness. Just as soon as somethin' comes along that's likely 't' take our minds off th' cold, mouse-colored problems o' life somebuddy frames an' ordinance 't' spoil it. Our great standin' army o' lawyers must have exercise. Society must be protected.

"But ther's a way around ever' law whereby those o' broad means may es-

"Th' Feller Who Used 't' Blow a Safe an' Git Away on a Handcar Now Escapes on a Technicality. He Prefers 't' Split With a Good Lawyer Rather Than Take Any Chances.

o' lawyers. An' yit with our great army o' lawyers an' our bulgin' library o' statutes ther's a flourishin' disrespect fer th' law that is only equalled by our thrivin' disregard fer th' rights o' others. We're overgoverned. We're sufferin' from an overproduction o' lawyers. A feller has 't' be a slack-wire performer 't' keep in th' straight an' narrow path. If you should chance 't' meet a policeman when he isn't feelin' jest right he's liable 't' arrest an' jug you. No matter how innocent you are th' prosecutor 'll dig up an ordinance 't' fit you. Maybe th' ordinance wuz passed last week, or maybe it wuz passed in 1776, but it's a cinch he's got your size if he wants 't' trim you.

"What's become o' our ole inalienable right 't' life, liberty an' pursuit o' happiness? Wherever ther's a dangerous crossin' ther's a contingent fee

cape th' smoke an' tunnels o' a long tortuous trial. But th' fare is steep. You kin git around th' law, but you can't evade your attorney.

"In this advanced age no profession has made more rapid progress than th' profession o' law. Th' feller who used 't' blow a safe an' git away on a handcar now escapes on a technicality. He prefers 't' split with a good lawyer rather than take any chances.

"But ther's no longer th' respect fer th' law that ther used 't' be. Ther's even less regard fer our unwritten laws. It's no uncommon thing 't' meet a feller wearin' tan shoes with impunity an' a Prince Albert coat.

"I see Newt Mapes, who murdered his wife an' three children an' wuz convicted fer manslaughter, has been granted a new trial as he still has another farm."

OUR FARMER FRIENDS

It takes a circus parade 't' stir up th' motley denizens of a city an' string 'em along th' down town curbs where they stand or squat fer hours waitin' fer th' "grand free glitterin' oriental pagant three miles long," with th' same ole mangy camels, th' same ole dusty elephants, th' same ole peeked-faced girls in spangled waists an' wilted plumes; th' same ole sour note bands with dented horns an' faded uniforms, th' same ole pantin' polar bears an' ole knock-kneed hyenas; th' same ole fat snake charmer with soiled pink stockin's in a hearse full o' asphyxiated dapple grays pullin' th' same ole toothy less lions; th' same ole goddess o' liberty with stringy hair an' red nose chewin' gum on th' same ole rumblin' chariot, an' th' same ole catarrhal callop with jest enough breath 't' play th' chorus o' "Too Much Mustard." But jest th' same th' city folks turn out year after year an' fill th' streets an'

ties stand about th' stock pavilions an' discuss th' Duroc or Poland China; round, comely-faced wives marvel at th' latest thing in churns; under a tree on th' edge o' th' crowd a farmer has removed his Sunday shoes fer a spell; th' country sport, with his Seeleyville bravado an' Terre Haute clothes, affords rich pickin' fer th' handbook makers; th' tired mother with her hair comin' down tries 't' soothe th' sticky-faced babe whose red balloon has escaped an' is floatin' among th' rafters o' th' art hall; th' starched belle, with wrinkled white stockin's an' grass-stained run-over white oxfords, leans well forward as she giggles an' tackles a wedge o' watermelon; th' tall awkward swain wearin' spectacles an' a bronze Adam's apple, pauses before "Th' Sultan's Harem" an' battles with his conscience as he sizes up th' sirens o' th' ballyho; beyond th' parkin' space fer vehicles an' fer from th' din o' th' poultry house an' megaphones o'

Th' City Folks Turn Out Year After Year an' Fill th' Streets an' Office Windows 't' Watch th' Weather-Beaten Caravan as It Rolls Along Main Street an' Doubles Back 't' th' Show Grounds by Way o' th' Planin' Mill.

office windows 't' watch th' weather-beaten caravan as it rolls along Main street an' doubles back 't' th' show grounds by way o' th' planin' mill.

It takes a state fair an' a couple o' clear days 't' divest th' rural districts o' ther choicest examples o' rustic simplicity. While th' good crops an' good prices o' th' last ten years have encouraged many o' our country friends 't' perk up an' take on new ways, ther' yit remains a goodly number which no amount o' prosperity kin beguile int' throwin' aside th' manners an' whiskers o' earlier days.

A state fair is allus th' scene o' many happy reunions. Friends an' relatives meet again fer th' first time in a year, an' th' hugs an' handshakes an' kisses an' laughs are true genuine. Men with stiff new suits an' no neck-

th' side shows Annie an' Steve walk hand in hand thro' th' dusty grass an' talk o' love an' th' time when Steve 'll inherit th' farm. In th' evenin' they go 't' th' "troupe" an' unwarp carmels durin' th' quiet moments o' th' play. After th' show he walks her two miles 't' th' home o' her town aunt.

But let us pray that progress on th' farm will stop with rural free delivery, th' interurban, th' telephone an' th' silo. Let us hope that no stretch o' time 'll destroy th' farmer's hearty open manner, indifference 't' style an' true genuineness o' character. In these high-tensioned days o' money makin', skimpy clothes an' general artificiality country folks are th' only real human bein's we meet.

(Copyright, Adams Newspaper Service.)

How Animals Feed.

The squirrel carries its food in its mouth by means of its paws, while the elephant uses its trunk. The giraffe, antelope and toad employ their tongues, but spiders masticate their food with horny jaws.

The caterpillar is provided with saw-edged jaws, and uses them so well that every day he consumes at least three times his own weight in food. Frogs, turtles and tortoises do not possess teeth.

Frogs have only an upper row of teeth, and lobsters and crabs have a set of teeth in their stomachs. The tiger and lion do not grind their food; as a matter of fact, their teeth only work with an up-and-down movement, much like chopping knives.—Minneapolis Tribune.

CUTICURA HEALS SORE HANDS

That Itch, Burn, Crack, Chap and Bleed—Trial Free.

In a wonderfully short time in most cases these fragrant, super-creamy emollients succeed. Soak hands on retiring in the hot sud of Cuticura Soap, dry and rub Cuticura Ointment into the hands for some time. Remove surplus Ointment with soft tissue paper.

Free sample each by mail with Book, Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

His Translation. A New Zealand cousin in Europe with the forces vouches for the truth of the following story:

Dick Seldon was of Lancashire origin and when he died the Lancashire society of New Zealand sent a wreath with the following inscription: "I have gone whom." The journalist who reported the funeral evidently did not come from Lancashire, and consequently was somewhat puzzled by the wording and, after thinking hard, concluded that someone had blundered. His report read:

"The Lancashire society sent a beautiful wreath bearing the inscription: 'I have gone. Who am I?'"

ANY CORN LIFTS OUT, DOESN'T HURT A BIT!

No foolishness! Lift your corns and calluses off with fingers—It's like magic!

Sore corns, hard corns, soft corns or any kind of a corn, can harmlessly be lifted right out with the fingers if you apply upon the corn a few drops of freezone, says a Cincinnati authority.

For little cost one can get a small bottle of freezone at any drug store, which will positively rid one's feet of every corn or callus without pain.

This simple drug dries the moment it is applied and does not even irritate the surrounding skin while applying it or afterwards.

This announcement will interest many of our readers. If your druggist hasn't any freezone tell him to surely get a small bottle for you from his wholesale drug house.—adv.

Studying Snow Depths.

The United States weather bureau at a number of points is making extensive studies of snow depths and densities in the higher mountain districts both to be able to anticipate flood conditions and also to give cities which get their water supplies from these sources advance knowledge of the volume they may expect from their watersheds.

His Kind.

"The old rooster over yonder wants a drink."

"All right; take him a cocktail."

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old." — Mrs. O. M. RHINES, Ridgway, Penn.

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga. — "I want to tell you how much I have benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have benefited." — Mrs. W. E. LINDSEY, R. R. 3, Tennille, Ga.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

GREAT FOR ECZEMA AND OLD SORES

I Guarantee My Ointment, Says Peterson.

"If you are responsible for the health of your family," says Peterson. "I want you to get a large box of Peterson's Ointment today.

"Remember, I stand back of every box. Every druggist guarantees to refund the purchase price if Peterson's Ointment doesn't do all I claim.

"I guarantee it for eczema, old sores, running sores, salt rheum, ulcers, sore nipples, broken breasts, itching skin, skin diseases, blind, bleeding, and itching piles as well as for burns, scalds, cuts, bruises and sunburn.

"I had 30 running sores on my leg for 11 years, was in three different hospitals. Amputation was advised. Skin grafting was tried. I was cured by using Peterson's Ointment."—Mrs. F. E. Root, 287 Michigan St., Buffalo, N. Y. Adv.

A Common Fear.

"Why don't you discharge your cook if she is so impudent?"

"I am afraid she would leave."

Many people when granted favors shy at gratitude as if it would bite them.

When Your Eyes Need Care Try Murine Eye Remedy. No Smarting—Just Eye Comfort. 40 cents at Druggists or mail. Write for Free Eye Book. MURINE EYE REMEDY CO., CHICAGO

WOOD ASHES FERTILIZER.

Farmers and others who burn wood should save the ashes to put on their gardens and fields. Ashes from hard wood contain, when dry, from five to seven per cent of potash and are worth from \$25 to \$35 per ton, or in other words, it would require \$25 to \$35 to purchase as much potash in the form of com-

mercial fertilizers as is contained in one ton of average hard wood ashes. Soft wood ashes usually contain less than five per cent of potash, but enough to make it profitable to carefully preserve them. Coal ashes contain only traces of potash and they possess very little if any value from the fertilizer standpoint. The war places a premium on potash and it is hard to get.

NEIGHBORHOOD BREVITIES

Interesting Items Clipped and Culled From Our Exchanges.

GRASS LAKE—Lester Hatt was taken into custody Wednesday, charged with failing to register for military service. It is stated he was 21 years old May 8 last, instead of 20 as claimed.—Patriot.

STOCKBRIDGE—Mrs. M. Wasson and Mrs. K. Wasson were badly bruised Tuesday afternoon when a Maxwell runabout, which the latter was driving, turned turtle, pinning both ladies under the machine.—Brief-Sun.

TECUMSEH—A powerful touring car owned by Arthur Pocklington, proprietor of the Tecumseh "Smoke House" was wrecked Monday evening when it collided with a tree at the road side between Wampers lake and Manchester. A stretch of newly graded road was responsible for the accident. Henry Van Deuser, who was driving the machine was picked up unconscious, still grasping the steering wheel. Two other occupants of the car escaped injury but Pocklington received a sprained ankle and other injuries.

GRASS LAKE—The large farm house of Mrs. Jefferson Lemm, southeast of this village, caught fire Friday and burned to the ground. Most of the household goods were saved. The loss was about \$6,000 partially covered with insurance. It is thought it took fire from a defective flue.

TECUMSEH—Our sewer crock, which has adorned our four-corners for the past year, is doomed and the council has voted to erect a 60-ft. flag pole to take its place.—Herald.

SALINE—Martin Wheelock was the victim of an accident while at work on Frank Hollis' new barn Monday. In some way he lost his balance and fell to the ground, breaking both wrists and, it is feared, has broken the roof of his mouth. He was taken to the hospital in Ann Arbor.—Observer.

What kind of "international" socialism is it that works consistently for the interest of Prussianism?

LOCAL BREVITIES

Our Phone No. 190-W

Mrs. Russell Sage, nee Minnie Walsh, and husband and three friends of Flint, took dinner Sunday with her parents, Mr. and Mrs. Michael Walsh. They drove over in the afternoon by way of the cyclone district.

The shower Saturday was welcomed by the farmers who have beans to plant.

Emmet Farrel and his friend picked up Michael Walsh and his friend last Wednesday and they drove to Pinckney where they spent the evening with Irvin Kennedy.

Cornmeal Gems.

Two cupsful of flour, one cupful of cornmeal (bolled is best), two cupsful of milk, two teaspoonfuls of cream of tartar, one teaspoonful of baking soda, one-half cupful of sugar, one-half teaspoonful of salt. Stir the flour and meal together, adding cream of tartar, soda, salt and sugar. Beat an egg, add the milk to it and stir in the other ingredients. Bake in a gem pan twenty minutes.

BIDS WANTED.

Bids are hereby solicited for graveling where necessary the Territorial road in Sylvan township from Sylvan Center west to the Schenk school house; also for graveling West Middle street in the village of Chelsea from Hayes street to The Methodist Old People's home, and continuing westward on the same roadway, for gravel as specified by the highway commissioner, from the Michigan Central railroad to Guthrie's west crossing. Right is hereby reserved to reject any or all bids; bids to be filed in sealed envelopes on or before July 1, 1917.

Leonard Loveland, Highway Commissioner.

Address: R. F. D. 4, Grass Lake. 8213

Deafness Cannot be Cured

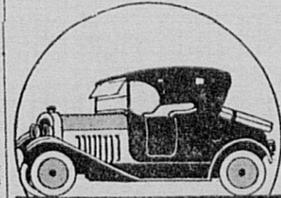

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

June Sale of Muslin Underwear Starts This Week

Heaps upon heaps of fresh, snowy new garments! Frilly, fluffy underthings in abundance.

TEDDY BEAR SUITS.

Splendidly full and wide. Plain models of fine nainsook. Fancier models of muslin organdie. Striped voiles, batiste and crepe de chine in flesh and white. Trimmings may be had as fancy as you wish; deep yokes (extending almost to waistline) of laces, of inserts and embroideries; high-waisted effects and hand-embroidery motifs. Altogether about 30 styles to choose from, ranging in price from 59c to \$3.98.

GOWNS.

Slipover styles which are beautiful beyond description. The plain models in crepe, in flowered crepe, or in good muslins with little trimming come in a big line at 59c and 75c. Handsome models are shown in dozens of styles in all sorts of materials with beautiful trimmings in a price range of from 98c to \$5.00.

COVERS AND CAMISOLES.

Plain models with embroidery edges. Fancy models with deep yokes of lace or embroidery, or with shadow lace inserts or with heavy embroidery tops and better models of crepe de chine or fine batiste with exquisite trimmings, range in price from 25c to \$2.25.

DRAWERS AND BLOOMERS.

Drawers—plain or fancy models—all in good muslins; many styles at 25c to 98c.
Bloomers of crepe, batiste or wash satin—59c to \$2.98.

PETTICOATS.

A big item for this season's wear will be the white petticoat. Here are just dozens of them ready for use. Tiny ruffles or deep flounces in lace or in embroidery are to be had at very reasonable prices in a range of from 75c to \$3.98.

OUTSIZE UNDERGARMENTS are shown in all assortments.

CHILDREN'S MUSLINS in sizes from 4 to 16 are here in a wide range of models at very low prices

Beginning Monday July 2, 1917 Our Annual July Clearance Sale

Twice each year (Mid-Summer and Mid-Winter) we gather together all odds and ends, discontinued lines, seasonable merchandise, broken sizes, etc., etc.—merchandise that we do not want to carry over—that we may always give our patrons new, fresh and crisp merchandise of only the highest quality.

Clearance Sale in this store means ECONOMY—ECONOMY that you will always remember, because of the radical reductions made in all Shops, reductions which we believe to be better than at any previous Clearance Sale—and prices that you will not find again for some time.

By constantly striving to satisfy every customer, we have built up an enviable reputation.

Today Our Reputation is Worth More Than Our STORE FULL of Merchandise

Our merchandise can be replaced, but our reputation is something money cannot buy. Our advertising is backed by our reputation, which guarantees its truthfulness.

The policy of this store is now as it has been since the beginning—to sell merchandise of reliable quality only, at the same fair price to all alike. Confident that customers who are satisfied with goods and service will remember the store and come again, until coming becomes a habit—thus does confidence beget confidence.

Included in this sale are Suits, Coats, Dresses, Skirts, Corsets, Undermuslins, Negligees, Blouses, Infants' and Children's Wear, Linens, Towling, Beddings, Hosiery, Gloves, Neckwear, Leatherwear, Toilet Goods, Embroideries, Laces, etc., etc., etc.

Detroit's Smartest Shopping Place 222-228 WOODWARD AVE.
