WE are here to serve YOU

LUXURY

These elements of luxury in a motor car are found in the Series 18 FOUR and SIX:

Long resilient springs of Studebaker secret process steel.

Deep cushions upholstered with genuine long curled hair—plenty of it—made carefully by hand over a coiled spring foundation, which is the best that money can buy.

Beautiful soft genuine leather form-fitting cushion backs, ample room even for the largest person.

Room between the front seat and the dash, room between the tonneau seats and the front seats—plenty of room for the large comfortable auxiliary seats, plenty of room for seven passengers.

Individual arm chair auxiliary seats.

Smooth vibrationless power, perfect balance of chassis. There is no car on the market that can give you the luxurious features of Studebakers under \$2,000.

Let us give you a demonstration.

40-H. P., 7-Passenger FOUR \$ 985

50-H. P., 7-Passenger SIX 1250

NEW BALL PLANT NEARING COMPLETION

Roof is All On and Window Sash Only Lacking to Complete the Inclosure.

Contractor J. W. Driscoll has the new building for the Chelsea Ball company nearly finished and the line shafting is already being put in place.

With the setting of the steel window sash, which are expected daily, the inclosure of the new building will be completed. The roof is practically done and all the cement work is finished. Contractor Driscoll has pushed the construction work through in record time, especially when it is remembered that it is unusually difficult to get structural steel of any kind, and that a large quantity of such steel was used in the new building.

Manager Callahan of the Chelsea Steel Ball company is already installing some of the line shafting and machinery and following up the completion of the building work just as fast as possible, so that the new plant should be in operation within the next two months.

The water and gas mains have been extended to the new plant and the Michigan Central is now putting in a new siding, coming in from the west. The floor of a freight car will stand only a little higher than the factory floor so that material can be unloaded directly into the building, saving considerable expense in handling rough steel stock.

The new plant will be strictly modern in every detail and will be a fine addition to industrial Chelsea.

MOTOR FEES VARY WIDELY

States Lack Uniform Basis for Registration and License Charges.

It cost motor-vehicle owners in the United States in 1916 an average of \$7.36 per car for registration and license fees, according to figures compiled by the Office of Public Roads, United States Department of Agriculture, in Circular 73, just issued, Automobile Registrations, Licenses, and Revenues in the United States, 1916. New Hampshire secured in 1916 a gross revenue of \$19.67 and Vermont \$19.02 for every motor car, while Minnesota, where the registration is for a 3-year period, received only about 50 cents annually for each car. In South Carolina and Texas no annual registration fees were required.

No well-developed and definite basis exists for determining in a logical manner the fees to which different cars shall be subject. In some states the fee is based on the net weight of the vehicle; in others the carrying capacity, the horse power, or some combination of these factors is used. Requirements for registration or licensing of chauffeurs, owner operators, and dealers vary widely. In most states motor cars are taxed also as personal property. In Idaho, Iowa, Michigan, New York, Oklahoma, Pennsylvania and Vermont the registration fees are in lieu of all other taxes.

The tendency recently is to increase the registration fees required for motor trucks, usually in proportion to weight, in view of the deteriorating effects of heavy truck traffic on roads.

DEXTER TOWNSHIP.

Haying has begun. Mrs. Henry Thurston had a birthday party last week.

Mr. and Mrs. William Dixon spent Sunday with friends in Pinckney.

A couple of automobile loads of Chelsea Masons visited Washtenaw lodge in Dexter, Tuesday night.

Ruth and Amelia Clark attended Mrs. Thurston's birthday party.

Elmer C. Glenn has planted 120 acres of beans.

Foster Wheeler spent Sunday with his parents.

Wallace Walsh landed two six pound pickerel in less than an hour Sunday afternoon.

Mrs. Michael Walsh was thrown out of the carriage Friday while returning from Dexter and quite seriously hurt.

Mr. and Mrs. C. Tremmel were in Ann Arbor, Friday, on business.

Friends of H. C. Ferris are watching his progress in the art of chiming building with increasing interest.

Tribune job printing pleases particular people.

COUNTY GETS \$7,233.

Within the next few days County Treasurer Leo Gruner will receive a check from the state of Michigan for \$7,233, which is the county's share of the apportionment of the auto tax money collected since April 1. These figures represent but one-half of the total amount collected in the county, the other portion of the tax going to the state. The total amount collected in this county was \$14,466.

The \$7,233 will be apportioned by the county officials to the various townships for use in road maintenance and construction.

TRAP FOOD RAIDERS

Persistent Efforts Against Rats and Mice in Households Will Succeed.

Rats and mice have too much their own way in some households. Their unhampered excursions into pantries and larders will menace food conservation efforts this year. Get a number of traps and fight them. Persistent trappings will put an end to these raiders. Poisons properly safeguarded are effective, but their use in dwellings usually is undesirable because none is known which, when eaten by a rat will prevent decomposition of the body.

For both rats and mice the common guillotine or "choke" traps with a wooden bait pan are recommended rather than those having metal base and pan. These traps should be set with a light trigger. Oatmeal usually is the most effective bait. A few grains of it should lie on the trigger pan and a few more be scattered near the trap. A change of bait is advisable from time to time. Pumpkin or sunflower seeds, corn meal, bits of fish or toasted cheese may be used. Baits will not be attractive while food is accessible. Remove supplies that are being damaged and, as far as possible, keep them in ratproof containers.

NEIGHBORHOOD BREVITIES

Interesting Items Clipped and Culled From Our Exchanges.

MILAN—Friday evening, in response to a request published in the Leader, there was a good turnout of citizens to practice military tactics, principally marching under direction of Allie Johnston. They fell in and fell out at various intervals, but there was nearly a hundred men in line during the evening. They exhibited an earnest desire to attain the art of moving together and worked energetically. Other drills are expected to follow at frequent intervals.—Leader.

YPSILANTI — Between July 15 and August 1, so local postoffice authorities state, the new postoffice building, corner of Michigan avenue and Adams street, will be ready for final inspection which will be made by Supervising Superintendent Packard of the U. S. treasury department. There remains to be laid the marble flooring in the lobby and the marble wainscoting. The building is being refitted throughout with all new furniture. Superintendent Packard has already made his semi-final inspection and some changes were recommended. These have already been made. It is anticipated the postoffice will be moved to the new building some time in August.—Record.

WHITMORE LAKE — Dexter Davenport, of Whitmore Lake, is the boy winner of the free trip to the State Fair at Detroit next fall, given as a prize for the one standing highest in the county eighth grade examinations and special agricultural tests recently held. He stood at the head of the list when the examination papers were marked.

I have had to have three new sets of batteries for my car in the last five months and cannot find the shortage. I do not run on the batteries and cannot start when they run down to five amperes or less, neither can I start on the magneto. After pressing the switch so that it will rub tighter I cannot start on the magneto. What is the cause of this?

Your trouble is in all likelihood with the adjustment of your vibrator. It is probably adjusted too stiff so that it consumes an excessive amount of current and will only act when your batteries are in good condition, the strength of a five ampere current being too little to overcome the resistance of the spring. The vibrator should be adjusted as soft as possible for economical running and easy starting. While adjusting this part it is always well to make sure of the condition of your platinum points. There may be a short circuit in the switch if the vibrator is not at fault.

ANNUAL SCHOOL MEETING

Mrs. G. A. Stimpson and John Kalmbach Elected Trustees for Three Years.

At the annual school meeting held last evening in the town hall, two trustees were elected for terms of three years, the successful candidates being Mrs. G. A. Stimpson and John Kalmbach, this being the first time a woman has been elected to serve on the school board. The women were also successful in securing the appropriation of \$109 to complete the payments on the playground apparatus installed some time ago. The annual financial report follows:

Table with Receipts and Disbursements columns. Receipts include Primary money, Library, Voted tax, Mill tax, Tuition, Laboratory fees, Sale books, papers, etc., Excess interest on bonds, Unpaid orders F. & M. bank, Back on library fund. Disbursements include Light and water, Text books, Repairs on grounds, Furniture, Minor repairs, Insurance, Fuel, Janitor, Necessary apparatus, Books, paper, etc., Tuition rebate, Officers salaries, Bonds Nos. 9 and 10, Teachers' salaries, Library, Outstanding orders F. & M. bank, Credit library fund, Incidentals, Freight, cartage, express, and postage.

Table with Receipts and Disbursements columns. Receipts include Primary money, Library, Voted tax, Mill tax, Tuition, Laboratory fees, Sale books, papers, etc., Excess interest on bonds, Unpaid orders F. & M. bank, Back on library fund. Disbursements include Light and water, Text books, Repairs on grounds, Furniture, Minor repairs, Insurance, Fuel, Janitor, Necessary apparatus, Books, paper, etc., Tuition rebate, Officers salaries, Bonds Nos. 9 and 10, Teachers' salaries, Library, Outstanding orders F. & M. bank, Credit library fund, Incidentals, Freight, cartage, express, and postage.

The report was accepted as read and following the reading of the estimated expenditures for the ensuing year, it was voted to raise \$10,789.50 by direct tax, as recommended by the board.

The personnel of the new board is as follows: Mrs. G. A. Stimpson, John Kalmbach, J. S. Cummings, L. P. Vogel and Dr. G. W. Palmer.

BE CANNY!

Get that canning impulse. Make your hoe this summer keep your can opener busy next winter.

Get ready for canning season now! Regrets are the only things ever canned in jars you forgot to order.

Can nothing that can be kept without canning. Dry such vegetables as corn, string beans, navy beans, mature Lima beans, okra, etc.

You can brag about your garden all winter if you have your canned evidence on the table.

Concentrate products, especially soup mixtures, so that each container will hold as much canned fruit and as little water as possible.

Really there is nothing to canning fruit and vegetables except care, cleanliness, fresh products, jars and heat.

# ALL EXPORTS UNDER FEDERAL CONTROL

GOVERNMENT IS DETERMINED TO STOP SUPPLIES REACHING CENTRAL POWERS.

## AMERICAN NEEDS FILLED FIRST

America and England Will Control All Neutral, As Well As Allied Tonnage.

Washington—Government control of American exports, authorized in a provision of the espionage act, was ordered put into operation July 15, by President Wilson, in a proclamation putting under license shipments to all countries of the most important export commodities.

In a statement accompanying the proclamation, the president declared the government's policy will be first to give consideration to American needs; next, to supply the neutral countries wherever practicable. It is made clear that every effort will be made to see that no supplies reach the central powers.

**Government Controls All Shipping.**  
Through control of coal and fuel, the government intends to take a firm grasp on shipping. An arrangement under negotiation will give the American and British governments control of not only all Allied tonnage, but of neutral vessels as well.

Primarily, the embargo was issued to check the export of foodstuffs to neutrals adjacent to Germany. The president is determined no more sustenance shall reach enemies of the United States through these mediums.

The proclamation does not mean that none of the commodities named may be exported. They may be exported only in such quantities as:

1. To relieve the stringency and high prices in our own country.
2. To effectually prevent neutrals from sending any possible surplus into Germany.
3. To provide, so far as possible, an equal distribution of the food, fuel and iron supplies among the allied nations.

The first effect of the proclamation will be the immediate organization in London of the buying council of the Allies. Once established, this council will proceed with the purchase of wheat through one central agency and its allotment to all the countries of the world outside the central powers. The council immediately will establish an agency in the United States for the purchase of our wheat. It is probable the federal food administration will be asked to perform this function under the direction of Herbert C. Hoover.

## CHINESE EMPEROR ABDICATES

Quits Throne After Defeat of Imperial Troops, By Republicans.

London—A dispatch from Peking announcing the abdication of Tsuan Tung the young emperor, who was put back on the throne by General Chang Hsun, is corroborated by a cablegram received Saturday from Reuter's correspondent there.

It appears that General Chang Hsun, depressed by the failure of his attempt to restore the monarchy tendered his resignation to the emperor, who thereupon issued an edict announcing his abdication.

The abdication of Hsuan Tung, who was placed on the throne only a week ago, it is indicated by press dispatches received here from Peking, followed upon the defeat of the imperialistic forces by republican troops at Lang Fang, south of Peking, and the desertion of many of Chang Hsun's soldiers.

## TAX CLERK DEFAULTS \$16,000

Wayne County Treasury Employee Appropriates Mortgage Tax Funds.

Detroit—An amazing story of how a clerk in the county treasurer's office got away with more than \$16,000 of tax funds without even arousing suspicion against himself, and while on a salary of \$1,500 a year piled up a fortune of \$30,000, came to light Saturday night when the board of county auditors announced an agreement with Anthony J. Kloka, former mortgage tax deputy.

For the auditors, Charles A. Bahrer said that Kloka had acknowledged a shortage of \$16,402, and that he had put up in cash and securities \$20,347 to cover this, and any other shortages which may subsequently appear.

The auditor declared that neither the county nor the state, which shares equally the mortgage tax receipts, would lose a cent from Kloka's admitted speculations.

Peck—The Dayton Engineering Co. has been granted a franchise for lighting the streets.

Grand Rapids—To knit two pairs of socks each week for the soldier boys is the self-imposed task of Mrs. Louisa M. Conrad, 75 years old, who during four years of Civil War put in a large amount of time hemming bandages, knitting and scraping hats.

Sandusky—The police have been asked to keep people from stealing flags placed on graves of old soldiers July 4.

## FOR DISTINGUISHED SERVICE AT HOME

(Copyright)

## SENATE VOTE PUTS BAN ON WHISKEY

AMENDMENT TO FOOD CONTROL BILL STOPS MANUFACTURE OF ALL BOOZE.

## BEER AND WINE NOT AFFECTED

Final Disposal of Dry Legislation Will Come After Conference Between House and Senate.

Washington—The senate went on record in favor of "bone dry" national prohibition during the war so far as whiskey and other distilled beverages are concerned.

Liquor legislation was written into the food control bill in one of the senate's bitterest contests, which would strike at consumption of distilled intoxicants by commandeering stocks in bond in addition to prohibiting absolutely their manufacture or importation. The beer and wine industries would be left undisturbed.

In lieu of the section of the house bill to prohibit the manufacture of foodstuffs into beverages of any description, the senate substituted, 45 to 37, a provision prohibiting manufacture and importation of distilled beverages during the war, and added, 65 to 12, a further clause directing the president to take over all distilled spirits in government bonded warehouses and to pay for it on the basis of cost plus 10 per cent.

**Final Vote After Conference.**  
While the final prohibition legislation will be evolved in conference between the two houses, it is generally regarded as possible that the house will accept the senate's change after a fight in behalf of the original section.

The senate provision would limit consumption to stocks in retailers' hands or withdrawn before the law goes into effect.

## SOLDIERS HUNT GIRLS SLAYER

Sixth Engineers Aid in Search for Murderer of Hope Alexander.

Detroit—For the first time in the history of the state, United States troops were called out to help hunt a murderer, when Sheriff Green, of Oakland county, wired Governor Sleeper for military aid in finding the slayer of Hope Alexander, the 13-year-old girl who on the afternoon of July 4th was shot and killed by a degenerate. Ten-year-old Elizabeth Stiller was wounded by the same bullet that killed Hope Alexander.

The Sixth regiment of engineers encamped at the state fair grounds, commandeered 24 automobiles and drove to the scene of the murder in Sylvan Gardens.

Woods and fields in the vicinity have been literally combed by soldiers and police.

Numerous suspects have been arrested.

## 1,500,000 GERMANS KILLED

French Estimate That Teutons Have Lost 1 1/2 Million Men in War.

Paris—The total number of Germans killed since the beginning of the war to March, 1917, is not less than 1,500,000, according to an estimate reached by French general headquarters.

From April 15 to June 30, the France-British troops on the western front captured 63,222 prisoners, 505 guns, 503 trench mortars and 1,318 machine guns.

Pontiac—John Osman was sentenced to pay \$50 fine or go to jail for 45 days when he admitted in municipal court he drove an automobile while drunk. His companion, George Gamble, was sentenced to pay \$20 or spend 30 days in jail.

Muskegon—Dr. W. H. Smith, dentist, who managed Governor Sleeper's campaign in this county, has been appointed to take charge of the local branch of the Michigan Free Employment bureau. His salary will be \$1,200.

## LONDON RAIDED BY 20 GERMAN PLANES

THIRTY-SEVEN PERSONS KILLED AND 141 INJURED BY BOMBS DROPPED.

## TEUTONS LOSE THREE MACHINES

In Reprisal for German Air Raids, French Airplanes Bomb Towns in Interior of Germany.

London—A second descent upon London by a squadron of airplanes was made Saturday morning between 9 and 10 o'clock, when the business section was most crowded.

Although the German contingent was larger, more daring, more deliberate in its movement and descended much lower than on the visit of June 13, the number of killed and wounded was, according to the first official roll, roughly one-third the previous casualty list. Thirty-seven were killed and 141 injured. The destruction of property may have been greater, but that is impossible to estimate.

The flight of the Germans over London lasted about 20 minutes. British airmen engaged the 20 or more machines of the enemy for several minutes over the metropolis and anti-aircraft guns were going briskly, but without success.

The admiralty was able to report, however, that naval airmen, who followed them to sea, brought down three machines.

**East Ends Start Riots.**  
Rioting started in the East End of London when the people took into their own hands retaliation for the raid made on the city by German airplanes.

Great crowds, mostly women, paraded the streets attacking shops bearing German names. The fronts of these shops were demolished. Included in the crowds were men and women whose children had been maimed or killed by the German bombs.

At two places, the furniture was dragged from the shops after the doors had been burst in, piled high in the street and burned.

## German Towns Bombed.

In reprisal for German air raids on open British towns, 84 French airplanes made raids on towns situated far in the interior of German territory.

Eleven French airplanes flew over Treves, on which they showered 2,650 kilos of shells. Seven fires started, one of great violence in the central station. Six other machines bombarded Ludwigshafen.

Another airplane pushed as far as Essen and dropped projectiles on the buildings of the Krupp factory.

## DRAFT IN CANADA SEEMS SURE

House of Commons By Vote of 118 to 55 Favors Conscription.

Ottawa, Canada—The house of commons, by 118 to 55, adopted Premier R. L. Borden's resolution passing the draft bill to second reading.

The bill still has to run the gauntlet of detailed consideration in the committee stage, and final confirmation at third reading. Then it will go to the senate for final action.

With the majority sentiment prevailing in the two chambers the success of the bill at all future stages is regarded as assured, but it will be the end of the month before it becomes law.

Predictions that an attempt to apply conscription and take men for military service by compulsion, will result in resistance to the point of bloodshed in Quebec have given a decidedly serious aspect upon the situation.

English speaking Ontario representatives and many from Western Canada belonging to both parties insist that compulsion must be applied even if disturbances follow.

## SUFFRAGISTS SENT TO JAIL

Eleven "Martyrs" Choose Prison Rather Than Pay Fine.

Washington—Eleven of the 13 suffragists arrested in front of the White House Independence day were sent to the workhouse for three days. They chose imprisonment rather than pay a fine of \$25 each.

In imposing sentence, Judge Muldowney severely condemned the women for annoying the president at this time of stress. He threatened to give heavier sentences if the offense is repeated.

East Lansing—Basket willows have been grown extensively in this state the last three years. M. A. C. foresters report. An acre will bring \$50 in green rods.

Muskegon—A graduate of the Muskegon high school less than a fortnight ago, Miss Bertha Joyce Hudson, 18 years old, died at her home after a short illness.

Port Huron—Passenger coaches carrying several hundred naval recruits, en route from Chicago to "somewhere on the Atlantic coast," passed through this city. While the train was standing at the station several banners bearing various inscriptions were hoisted from the car windows. One banner read: "From Chicago to Berlin."

## STATE NEWS

Ann Arbor—Detroit public and private schools donated \$4,296 to the Michigan Dollar-a-Month club for the relief of Belgian children.

St. Clair—Palmer S. Carleton, 87, a resident of this vicinity since 1857, dropped dead of heart disease. Mr. Carleton's wife died about a week ago.

Bay City—The 8-year-old son of Lon Holly had one of his hands and an ear badly torn when a railroad torpedo exploded. The boy had the torpedo in his hand when he hit it with a hammer.

Marlette—Helen D. Hunter, 11 years old, has neither been tardy or absent from school for five years.

Richmond—Mrs. Charles S. Knight, 80 years old, escaped uninjured when lightning shattered the interior of the room in which she was sitting.

Traverse City—Charles Warren Fairbanks, former vice-president, told delegates at the Methodist conference here that the war would last 20 years.

Flint—Walter Fonger signaled with his left arm when he stopped his automobile in the street here. The arm was broken by a motor truck which passed.

Muskegon—A double funeral was held for Mrs. S. A. Fairbanks, wife of Capt. Fairbanks, of Fort Leavenworth, Kan., and Miss Genevieve Wilson, who met death in an auto accident.

East Lansing—The rush of preparation for the hay harvest and delays provoked in other work by the recent rains led the Michigan Agricultural college to call off the proposed tour of inspection by county agricultural agents.

Flint—Justice of the Peace James M. Torrey retired from office, after 16 years continuous service.

Hudson—Thaddeus Bush returned after being absent 40 years. His family had not heard from him for 20 years.

Hastings—Glenn Shupp, 33 years old, committed to the Kalamazoo state hospital when measles demented him, has died there.

Galesburg—Florence Edmunds, 2 years old, was instantly killed when struck by a Michigan Central flyer two miles west of this village. The mother saw the approaching train, but not in time to save her daughter.

Battle Creek—At least 12 Battle Creek boys are with the troops of General Pershing "somewhere in France," according to a letter received by Clarence F. Baldwin, from his son, Charles F. Baldwin. Charles F. Baldwin and his brother, Harold F., enlisted here May 7, and were sent to McAllen and Kingsville, Tex., after their preliminary training at Columbus, O.

Battle Creek—Information that Battle Creek's Red Cross company, now in an eastern camp, will not be assigned to general ambulance work, but will be made the nucleus of a base hospital unit for early sailing to France, was received here from First Sergeant Milton Seekins, temporarily in charge. It is believed Dr. James T. Case, captain of the company, now en route, will be made the head of this unit which will include 250 men and 50 women. Dr. Case was one of the chief surgeons of the local sanitarium.

Muskegon—To aid in the nationwide campaign to raise a fund among marksmen of America for the establishment of an entire ambulance unit at the front in France, the West End Gun club of Muskegon held a patriotic shoot with marksmen from Grand Rapids, Whitehall, Montague, Grand Haven, Shelby, Hart, Pentwater, Ludington and other western Michigan cities and towns taking part in the competition for honors. The proceeds of the entry fees from the event turned over to the national association, in order that an entire ambulance unit may be properly manned and equipped.

Grand Rapids—Elaborate preparations are under way here for the celebration of Navy Day on July 14. A detail of one hundred bluejackets, accompanied by the Great Lakes band of the United States Naval Training Station, of which Lieut. John Phillip Sousa is the director, under the personal command of Capt. W. A. Moffett, commandant of the Great Lakes station, will be the guests of the city. The entire city will be turned over to the Naval visitors on Navy Day and it is expected that Governor Albert E. Sleeper will be here to act as host. The bluejackets will cross Lake Michigan from the training station on a gunboat and land at Muskegon where it is planned to hold a parade and review. At night the party will go to Ottawa Beach, while during the day the gunboat will go to Black Lake and Holland. The "Invasion" is for the purpose of stimulating interest in the Navy and the Navy Relief Society in Michigan.

Crosswell—Earl E. Twestle, of this city, has been appointed instructor in chemistry in Lucknow university, Lucknow, India. He will leave for India soon with his wife, a former missionary there.

Sault Ste. Marie—About 75 prisoners are being brought here for the term of United States district court which starts July 17. Plans are made to house about 50 of these in the county jail. The remainder are out on bail. Practically all of the prisoners are charged with interfering with the registration or refusing to register.

## SUGGESTS STATE SELL FISH AT COST

COMMISSIONER BAIRD SAYS INLAND LAKES COULD PROVIDE FOOD AT LOW COST.

## WOULD HELP CUT LIVING COST

Whitefish Fry Has Been Planted in Inland Waters for 30 Years But None Ever Taken Out.

Lansing.  
John Baird, recently appointed state game and fish commissioner, proposes a plan, whereby, if carried out, Michigan citizens can buy whitefish at approximately 10 cents a pound.

Commissioner Baird says many inland lakes in the state abound with whitefish and other species that cannot be taken with hook and line, yet possess excellent food qualities and are allowed to remain uncaught. Not only is this true, but some species of fish eat smaller fry, reducing the supply of fish that can be caught by rod.

"For 30 years we have been planting whitefish fry in inland lakes and not taking any therefrom," said Commissioner Baird. "My plan is to have the public domain commission authorize this department to go into the fishing business; the state to supervise the work and sell the fish to the public at cost.

"The people could buy fish at a cost way below that of retailers. Not only will the cost of living be reduced, but it would mean a saving in the meat supply."

## 179,255 Whites Ask Exemption.

The majority of exemptions were because of dependent relatives.

A total of 70,099 aliens and 2,750 alien negroes were registered. Of the 3,865 Negro exemptions claimed, 3,710 were for dependents.

Only 250 in the entire state claimed exemption because they were legislative, judicial or executive officers.

Physical disability was pleaded by 3,282, while 161,501 claimed exemptions because of dependent relatives and 14,122 because of their occupations. Of the 8,213 Negro registrations, 2,348 claimed no exemptions.

Twenty-six thousand, seven hundred and fifty-three whites who were under 21 years of age registered.

It is indicated here that Detroit will furnish at least 24 per cent of the men drafted in Michigan.

## Auto Clubs Want Drivers Licensed.

Following the action of New York state in enacting a law which requires the registration and licensing of every driver of a motor car, agitation has been begun in Michigan, among automobile clubs and insurance men, for a similar law.

The New York statute requires the owner of a car, as well as any member of his family who drives it, to take out an operator's license. The law provides as quick means of identification for every motor vehicle driver, and confers on the secretary of state the power to suspend or revoke the license under certain conditions.

The present automobile law of Michigan does not provide for the registration of operators, and drivers frequently escape responsibility for accidents because the police have no way of finding the address of the offender.

Insurance men of the state would be the most active supporters of the proposed automobile amendment because insurance companies are most frequently interested in damage suits which arise over automobile accidents.

Automobile insurance companies, at present, do not take liability for any insured car while it is being driven by any person under 16 years old, because that has been settled as the minimum age at which the ordinary person is thought to be able to operate an automobile properly.

## Drill for Water at New Camp.

Tests are now being made for wells at the Battle Creek cantonment grounds, with a view to establishing a permanent water supply for the camp which will accommodate nearly 40,000 troops drafted from Michigan and Wisconsin. A sewer system is to be built that will empty into the Kalamazoo river, which flows along the northern boundary of the camp.

## Treasury Balance \$5,409,658.58.

There was a balance of \$5,409,658.58 in the general fund of the treasury July 2, according to the monthly report of the state treasurer. The primary school interest fund was \$6,223,318.61. Since the first of the year receipts for the general fund were \$13,531,922.42, while total expenditures from the fund for the past six months totaled \$14,119,410.33.

## 82 Killed By Explosions.

During the last six months 82 persons lost their lives and 100 were seriously burned or injured in Michigan from fires and explosions resulting from the careless use of gasoline and kerosene. Since the first of the year 95 public buildings were burned, or partially destroyed, with a property loss of \$23,781. The public buildings burned include 34 hotels, 20 schools, 15 churches, 11 theaters, 10 public halls, 4 infirmaries and 1 hospital.

Don't take chances this year! Use **GOOD LUCK** RED RUBBERS. They fit all standard Jan. Experts teaching "cold pack" canning use GOOD LUCK rubbers because they won't blow-out during acidulation nor harden, shrink or crack after the jar is sealed. Send 2c stamp for new book on preserving or 10c in stamps for 1 doz. rings if your dealer cannot supply you. Address Dept. 54 BOSTON WOVEN ROSE & RUBBER CO. Cambridge, Mass.

## ASTHMA

Free sample each by mail with Book. Address Postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

## Disproving a Theory.

The man who had a theory was expounding it.

"Everybody is more or less of a poet," he said. "There's not a person on earth, and there never has been a person who hadn't a spark of divine affluence. It's only a matter of degree of inspiration of power to express, that makes the difference."

"I disagree with you," put in an auditor, positively. "There was one man who couldn't have been a poet."

"Who was that, may I ask?"

"Adam."

"How do you make out that Adam couldn't have been a poet?"

"Why, that's simple. Poets are born and not made."—Cleveland Plain Dealer.

## It Sounded Ominous.

Bobby's grandmother arrived for a visit after he had been tucked away in bed.

She wanted to see him, however, so nurse said, "The switch is right outside the door."

His drowsy ear caught the one word, "switch," and he called out, "I'll be good!"

## A Chord of Wood.

"De Sapp has a voice of wonderful timber."

"It's not surprising—he's such a blockhead."

Women are not like men and it's a mighty good thing for the world that they aren't.

Always fresh and crisp! **Post Toasties** are real corn flakes! *SAYS BOBBY*

**Turn Over a New Leaf**

By subscribing for THIS PAPER

Which intake pipe will give the best gas for motorcar engines, a long or short intake?

Much diversity of opinion is expressed on this subject, it being generally conceded that there is a possibility of going to extremes in either direction. The prevailing preference among advanced engineers on this subject seems to be for short intake manifolds of large diameter and as direct and equalized passage as possible, as it has been found that long complicated passages present too much surface for radiation and possible freezing and are apt to cause the vapor to condense.

**Are You One of Them?**

There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach. Are you one of them? Mrs. M. R. Searl, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.—Adv.

**TERMS USED IN FEEDING**

Scientific Nomenclature Reduced to Every-Day Meanings.

(National Crop Improvement Service.)  
Stockfeed consists briefly of three chief parts or compounds, omitting the water and minerals. They are: Protein (containing nitrogen), a muscle former. Fat (not containing nitrogen), a fuel or fattening substance. Carbohydrates (meaning made of carbon, hydrogen and oxygen). These three substances are called organic matter, because they will burn. Mineral matter is called inorganic. An animal can live on protein alone, but would not under normal conditions, because protein (or albumen) is only found mixed with fat in the case of meat and with fat and carbohydrates in the case of plants and cereals. Familiar examples of protein are white of egg, lean meat and the gluten which can be chewed out of wheat. Fat or oil we all know. Carbohydrates include sugar, starch, cellulose, fibre, gums, etc. To keep alive and not lose weight an animal must have small amounts of protein and larger amounts of fat or carbohydrates. They serve as building material to replace worn-out tissue and flesh and also to furnish power (energy) to move, work, and do all the inside work of the body. The ash or mineral matter furnishes bone material and is also necessary but abundant in nature. A growing animal needs plenty of protein and ash (bone food) and of carbohydrates and fat. A grown-up animal needs less of either the first two, but plenty of the last two. A pregnant animal needs plenty of food for its unborn young. Another blow to the consumer impends. A Missouri pig has been born with only two legs.

Doing Good.  
Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Delmeny, Sask., says of it, "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as 'best.'—Adv.  
being an exceptionally fine preparation.

**GLASGOW BROTHERS**
