### LIGHTNING FIRES BARN

#### Misfortune Causes Big Loss to George English.

Lightning struck one of the barns on the George English farm just south of town, Sunday afternoon about one o'clock, and it was soon in flames which later spread to an adjoining barn and both were destroyed with their contents.

The bolt struck the south barn at its southwest corner. Several calves and a number of sheep were in the basement and one head of each were killed. The remaining calves and sheep were driven to safety. All the other stock was already in the fields.

About 70 loads of new hay were in the barns and it was burned. Nearly all the tools and farm implements were saved.

Many neighbors and townspeople hurried to the scene of the fire and an attempt was made to save the north barn, but it was connected to the south barn by an alleyway and the flames soon spread so rapidly that the bucket brigade could not confine them to the one building. Attention was then turned to saving tools and to protecting the two houses from the fierce heat and flying cinders. A second storm about an hour after the fire broke out aided the fighters and also tended to quench the flames in the burning barns.

It was necessary to spread the alarm among the neighbors by automobile messengers as the telephone service failed in the emergency. Mrs. English drove their car east to the Pierce farm and a passing tourist kindly spread the alarm south along the Manchester road.

Mr. English carried \$1,800 insurance on the two barns in the Northwestern Washtenaw Mutual company. It will cost much more than that amount to replace the burned structures. The loss on the contents is amply covered by insurance.

### AS ONE MOTHER SEES IT

#### Brave Woman in Milford Writes Up-Lifting Letter to Mothers of Soldier Boys.

A woman in Milford, whose son will soon be "doing their bit" for Uncle Sam in the French trenches, recently contributed the following letter to the Milford Times, showing the splendid spirit with which she meets the sacrifice for the draft. She says in part:

May we say a word to induce the mothers of the chosen boys to see the bright side? The boys themselves are cheerful enough, willing to serve where needed, but the mother's friends console when they should congratulate.

The National Army of U. S. A. will be the deciding factor in the World's War. In all history war has been followed by great advances in civilization. This stupendous war will bring stupendous results and each American boy will have his share in the greatness and glory.

Then there are minor things on the bright side. The boys will be under military discipline, the best known way to correct mistakes made by parents, and we all make mistakes. They will live the simple life in the open among companions of their own age. One of the advantages of college life is the inspiration of living where all are young and looking forward.

These companions are all equal. The son of the millionaire and of the bricklayer, have the same equipment and the same privileges.

They will travel. Many of their friends will go through life with an unsatisfied longing to see other lands.

Opportunities come fast in war. Many a boy will have a chance to show the stuff in him that would never be his in civil life. When he returns he will be constantly favored because of his service.

True, some will not return. Equally true, some left at home will not outlive them. Death is met often in peaceful scenes. Howard Severance came home from the Philippines to be killed by lightning in a quiet pasture.

The only sadness of an early death is the unfinished work. If these boys die they will have helped to have accomplished a greater work than millions have done in centuries.

Stomach and Liver Troubles. No end of misery and actual suffering is caused by disorders of the stomach and liver, and may be avoided by the use of Chamberlain's Tablets. Give them a trial. They only cost a quarter.—Adv.

### MRS. JOHN JACOB STRIETER.

Mrs. John Jacob Strieter of Lima died Sunday morning at a hospital in Ann Arbor. She was 64 years and 29 days of age.

Mrs. Strieter was born in Germany, July 7, 1853. When she was about two years of age her parents came to this country and settled in Freedom township. She was married April 15, 1875, and settled with her husband in Lima township where she had since made her home.

Her husband; two sons, Emanuel and Henry, of Ann Arbor; two daughters, Mrs. William Poor of Ypsilanti and Mrs. John Seek of Chicago; one sister, Mrs. Joseph Wenk of Lima, and one brother, Henry Niehaus of Freedom, are left to mourn their loss.

The funeral was held this afternoon at three o'clock from the home of her son in Ann Arbor, Rev. A. A. Schoen officiating.

### PRIMARY SCHOOL MONEY

Sylvan Township Districts Receive \$4,557.60 As Their Share.

County Treasurer Leo Gruner has received from the state the sum of \$4,952.80 in primary school money for Washtenaw county. He has apportioned the funds to the different school districts and at the same time has sent to the school districts the share due each from fines collected for the support of their school libraries. This is the annual apportionment and has been paid out in checks as follows:

	Primary	Library
Ann Arbor, Twp.	\$ 1,169.20	\$ 25.76
Ann Arbor City	27,950.40	621.12
Augusta	3,211.20	71.36
Bridgewater	2,059.20	45.76
Dexter	1,159.20	25.76
Freedom	2,080.80	46.24
Lima	1,540.80	34.24
Lodi	1,548.80	34.40
Lyndon	1,015.20	17.28
Manchester	3,276.00	72.80
Northfield	2,131.20	47.36
Pittsfield	1,857.60	41.28
Salem	1,634.40	36.22
Saline	3,420.00	76.00
Scio	2,671.20	59.36
Sharon	1,627.20	36.16
Superior	1,915.20	42.56
Sylvan	4,557.40	101.28
Webster	1,058.40	19.68
York	5,464.80	121.44
Ypsilanti	1,749.60	38.88
Ypsilanti City	11,865.60	263.68
Totals	\$84,952.80	\$1,878.72

### NEIGHBORHOOD BREVITIES

Interesting Items Clipped and Culled From Our Exchanges.

HOWELL.—The fire alarm sounded Saturday about noon and everybody began to inquire where is the fire but it was soon discovered that the trouble was at Thompson Lake.

The dam had broken and the water was rushing through at a rapid rate. A crowd of men were soon on hand and by swift work with sand bags, brush, marsh hay, brick and anything else available soon checked the rushing waters. The sluice gates were opened and the lake was lowered two feet or more until the dam can be repaired. Since the Hutchins mill burned there some years ago the dam has not been used.—Republican.

STOCKBRIDGE.—Don't leave your disabled auto beside the road over night. C. J. Nott was obliged to leave his auto standing beside the road near Jackson one day last week, and returned to find tires, tubes, and practically everything which was not attached to the machine, stolen.—Brief-Sun.

GRASS LAKE.—The "boy with the blue bicycle" who several weeks ago robbed the Morgan millinery store on East Main street, Jackson, of \$6, and for whom the officers have been searching for some time, was captured here Wednesday afternoon, by Deputy Sheriff Harry Worden, after he had robbed one business place and attempting to rob others. The youthful burglar proved to be a 15 years old boy named Russell Gibson.—Patriot.

### RED CROSS BENEFIT.

The B Natural club of Dexter will give a home talent play, "Captain Dick," in Chelsea, Friday evening, August 10th, for the benefit of the Chelsea Red Cross society. The play was originally presented in Dexter, July 21st, and netted the Dexter Red Cross a substantial sum. It comes to Chelsea under special invitation of the local chapter of the Red Cross and should receive liberal support.

### MAYBE NEW POSTOFFICE

#### Government Has Asked Bids for New Equipment.

Bids for a complete new postoffice building, including furniture, fixtures, light, heat and water will be received up to September 1, 1917, by Inspector G. F. N. Birdseye, Detroit P. O., Detroit, Michigan. The building must be suitably located and include at least 1200 square feet of floor space. Detailed specifications are posted in the lobby of the Chelsea postoffice.

The government contemplates that bidders shall furnish and equip a suitable building as per specifications and rent complete for a period of years, the rental price to be included in the bid.

This means that Chelsea will soon have a complete new postoffice equipment and possibly in a new location.

### NORMAL COLLEGE UNROOFED

Near Cyclone Works Havoc in Ypsilanti Sunday Afternoon.

A terrific wind storm, accompanied by lightning and rain, visited the city of Ypsilanti between two and three o'clock Sunday afternoon and did considerable damage in that place and surrounding territory.

Lightning struck the roof of the main building of the Normal college, and later the wind carried it from the building. The water tower and the sub-station of the Detroit Edison company were also struck by lightning, not much damage being done at either place.

The manager of the Bell Telephone company stated Monday morning that about 200 telephones were out of commission in that city and rural districts. A number of trolley and telephone poles were blown over between Ypsilanti and Ann Arbor, causing a delay of several hours in interurban traffic and telephone service.

Farmers in that vicinity report that their corn and oats were leveled and the damage would amount to considerable.

### IRON CREEK PICNIC

Organization Formed With Herbert D. Witherell, Sec.-Treas.

About 100 ex-teachers and pupils of Iron Creek district school, and residents of that section gathered at Wampler lake for a picnic Wednesday and enjoyed the day immensely.

After a bountiful dinner and the attractions about The Farm had claimed attention a business meeting was held at which it was voted to make the gathering an annual affair, and officers were elected as follows:

President—A. D. English.

Vice-president—Dr. A. G. Servis.

Sec'y-treas.—H. D. Witherell.

The program included an address of welcome by A. D. English and a response by H. D. Witherell of Chelsea. Mrs. Ellen Rushton-Clark of Brooklyn recited an original poem composed for the occasion, and Mrs. Samuel Palmer was called upon and made remarks of a reminiscent nature.

Letters from those who could not be present were read, including R. A. Maynard of Los Angeles, Cal., Mrs. Florence Kelly-Eddy of Riverside, Cal., Mrs. Minnie Hunt-Robinson of Newark, N. J., Miss Sophia East and Evan Essery.—Manchester Enterprise.

### A HERITAGE.

What more honorable heritage can you leave your children than a liberty loan bond? It will give them the right in after years to refer with pride to you as being one of those Americans who at their country's call honorably, willingly and patriotically supported their government in this great war and lent of their wealth, their savings or their earnings to help bring victory to our armies and a triumphant end to this war for freedom and humanity.

### STATE FAIR TICKETS.

This office has been granted the privilege of selling tickets for the State Fair at Detroit, to be held August 31-September 9, at 35 cents single admission or 3 for \$1. The regular price is 50 cents each.

September 8th has been set as Children's Day, and free tickets for all children between 5 and 12 years of age will be furnished parents who expect to take the children, and who will call at this office.

Sale of tickets from this office closes Wednesday, August 29th—positively none sold after that date. In buying tickets of us you save 15 cents on each ticket. 96tf

## KEMPF COMMERCIAL & SAVINGS BANK

ESTABLISHED

1876

Capital, Surplus and Profits - \$100,000.00

### Home Cookery

Macaroni With Sausage. Chop four or five sausages finely and cook half a package of macaroni, broken in short lengths, in actively boiling salted water until tender; then drain the macaroni, rinse quickly with cold water and drain again. Butter a baking dish, put in a layer of the macaroni and moisten slightly with a little thick tomato sauce. Cover this with a layer of the minced sausage and continue with alternate layers of the ingredients until the dish is nearly filled. Cover the top with browned, crushed breadcrumbs, dot with bits of butter and bake in a hot oven for twenty minutes.

DETROIT AUTO MAN SUFFERS 20 YEARS

Tried All Kinds of Medicines and Treatments Without Getting Results.

FINDS RELIEF AT LAST

Making Full Time at Work Since Tanlac Overcame Troubles, He Says—Has Gained Twelve Pounds.

"I have actually gained twelve pounds on three bottles of Tanlac and I now consider myself a well man for the first time in twenty years," said A. G. Strayer of 430 Kirby street west, Detroit, Mich., an expert wood worker in the Fisher Automobile Plant, a few days ago.

"I was a sufferer from stomach trouble and rheumatism all these years," he explained, "and had to be as careful about my diet as if I were feeding a baby. My head ached like it would burst and gas from undigested food swelled me up so I was in misery and could hardly button my clothes on me. My limbs would swell from rheumatism and would hurt so I felt like I couldn't stand it another minute. I tried all kinds of medicines and consulted specialists in different states, but nothing did me any good until I tried Tanlac.

"A friend in York, Pa., told me about it and I got a bottle and felt better almost from the first dose. I can now eat anything I want and it gives me no trouble. I sleep so sound I had to buy an alarm clock to wake me up in the morning. The rheumatism don't bother me now and I am making full time working every day at my trade. My wife is taking Tanlac, too, and she is as much of a Tanlac booster as I am. I think everybody here ought to know what a wonderful medicine it is."

WHERE SEASONS ARE MIXED

Caves Exist in United States in Which Ice Freezes in Summer and Thaws in Winter.

There are several caves in the United States where nature seems to have become confused as to the seasons, according to Popular Science Monthly. During the late spring and summer ice forms and a freezing temperature prevails, but as winter comes on the interior of the caves becomes milder, the ice gradually melts and a kind of sublimed summer sets in underground.

One of these peculiar caves is to be found at Coudersport, Pa., and one at Decatur, Ia. The superstitious among the residents of those localities give the caves a wide berth and look with suspicion upon any one daring enough to attend to investigate them.

Edwin S. Batch of Philadelphia, who has made a study of the subterranean ice caves, as they are called, states that according to the theory evolved by investigators the formation of the caverns is such that the cold air of winter does not penetrate and settle in them until late in the spring at the time when the water from spring thaws is seeping through the walls and roof. This water meeting the cold air freezes and stays frozen all summer until, as the fall season approaches, the warm summer air at last finds its way into the cave and melts the ice.

Quite Happy.

Through the wild way of her good-for-nothing husband, a hard-working charwoman had to remove to a little two-roomed cottage, where there was scarcely space to squeeze without shaking the ornaments from the mantel-piece.

"It's hard lines for you to be brought down like this, after what you've been accustomed to," said a sympathetic neighbor. "I don't doubt you feel very miserable, Mrs. Jones."

"No, I don't," the charwoman stoutly denied. "I'm happier here by a long way than I used to be in the old place. For one thing, when my husband comes home in a brute of a temper, he can't throw me down the cellar steps, as he used to, 'cos there ain't none now!"—Pearson's Weekly.

In Fat Berth.

Towne—No! Drafton doesn't work at all now.

Brownie—He doesn't? Why, when I knew him he seemed to be a young man with considerable push.

Towne—All that's changed now. He's a young man with considerable pull and doesn't have to work.—Catholic Standard and Times.

A mouse is afraid of a man. A man is afraid of a woman, and a woman is afraid of a mouse—sometimes.

Bobby says "Try a dish of Post Toasties with cream for lunch on hot days"

GOGEBIC MINERS STRIKE IS BROKEN

AFTER BEING OUT ONE WEEK STRIKERS VOTE TO RETURN TO WORK AGAIN.

OWNERS REFUSE ALL DEMANDS

Serious Tieups in Upper Peninsula, Threatened By I. W. W., Averted By Action of Men.

Bessemer, Mich.—The strike of the iron miners of the Gogebic range has been declared off. All men who participated in the walkout last week were ordered to return to work Monday morning by an unanimous vote of the members of the strike committee.

None of the demands of the miners was accepted by the mining companies.

The resolution adopted unanimously by nine of the 11 members of the committee is as follows:

"We, the strike committee, after having interviewed many of the striking miners, found that the sentiment among them was unanimously in favor of calling off the strike, do hereby resolve, that we urge all workmen who are out on strike to return to work Monday, August 6."

What disposition will be made of 36 of the men who were participants in the strike and who are now in jail or out on \$2,000 bonds awaiting trial on charges of conspiracy, has not been determined.

KERENSKY AGAIN LEADS RUSS

Resigned Premier Prevailed Upon to Withdraw Resignation.

Petrograd—Premier Kerensky has returned to Petrograd and withdrawn his resignation. He attended a ministerial meeting Saturday evening and afterwards conferred with various political leaders.

By a vote of 147 to 46 a joint meeting of the executives of the workmen's and soldiers' and peasants' councils confirmed the decision of the all-night political conference of continued confidence in Premier Kerensky.

The Maximists strongly protested abstained from voting.

The Duma committee also has confirmed the vote of confidence in M. Kerensky.

The premier has issued a manifesto in which he declares that he considers it impossible when the country is threatened with defeat without and disintegration within to refuse the heavy task again entrusted to him.

NINE HURT IN AUTO COLLISION

Cars Crash Near Monroe—Dust Clouds Obscure View.

Monroe, Mich.—Mrs. J. C. Miller, Detroit, was fatally injured; Danard Dewey, chauffeur for Mrs. H. Lee Rauch, Monroe, was knocked unconscious, and seven other persons were cut and bruised when two automobiles collided head-on in a cloud of dust on the La Plaisance road one mile south of Monroe Saturday night.

Mrs. Miller was in a small car driven by her husband and with them were Mr. and Mrs. R. M. Fritz, of Detroit.

A mile south of Monroe an automobile passed them at high speed, raising such a cloud of dust that Miller could not see the approach of the Rauch car. The two machines met at high speed in the blinding dust cloud. Mrs. Miller was thrown through the windshield and pinned under the auto which upset. Every member of her party was cut by flying glass.

The occupants of the Rauch car—Mrs. Rauch, her two children and Mrs. Shepherd and the chauffeur, were all hurled out. The chauffeur, Dewey, was rendered unconscious. One of Mrs. Rauch's children was cut by flying glass.

AUTO UPSETS; 2 DEAD, 5 HURT

Charlotte Men Victims in Early Morning Accident.

Charlotte, Mich.—C. L. Cooper and Jack Loop are dead, Walter Morgan and Frank Loop are seriously injured and three other local men badly bruised as the result of an automobile accident near Springport early Sunday morning.

The party was coming home from Jackson in a machine which overturned after wrecking a rig going in the opposite direction. The parties in the carriage were not injured.

Flint—While playing with two other boys in the basement of a store, Joseph Minardo, 8, was electrocuted. There was considerable water in the basement, and the boy grasped an electric wire with one hand and an electric light bulb with the other.

Grand Rapids—Three hundred police chiefs, sheriffs and prosecutors in convention here asked that more stringent prohibition laws be enacted to aid them in enforcing the constitutional amendment which will go into effect May 1 next.

SKYLINE OF 1917

DRAFT BOARDS CAN NOT RESIGN NOW

GOVERNMENT SENDS NOTICE THAT ALL MEMBERS MUST SERVE THROUGH WAR.

LACK OF ENTHUSIASM FEARED

Large Numbers in Various Parts of Country Wished to Resign When Tasks Proved Too Arduous.

Lansing—"Drafters drafted" might be chosen as the title of a little comedy drama staged Friday in all cities of the country, with Provost Marshal General Crowder in the "heavy" role.

Fearing that members of district exemption boards might lose some of their patriotic fervor and throw up their jobs, Uncle Sam took preventive measures.

A communication was received at all district boards from the war department notifying them that for the length of the war, no member of the board could resign. The communication, addressed to the members of each board, and signed by General Crowder, was briefly this:

"Having taken the oath of office as an official of the United States, you are to consider yourself virtually drafted for the duration of the war. Only under the most extraordinary circumstances will resignations be accepted, and then only when approved by the governor of your state."

The government's decision to draft the draft officials is believed to have been precipitated by efforts of a considerable number in various parts of the country to quit when they found that their tasks would prove more arduous than they at first supposed.

NEW COMMANDER FOR RUSS ARMY

Gen. Korniloff Made Chief—Rules With Iron Hand.

Petrograd—Gen. Alexis A. Brusiloff, commander-in-chief of the Russian armies, has resigned. Gen. Korniloff, commander-in-chief of the Russian armies on the southwestern front, has been appointed generalissimo. Gen. Tcheremissoff, commander of the eighth army, has been appointed to succeed Gen. Korniloff on the southwestern front.

General Korniloff inaugurated iron-handed discipline in assuming his place as commander-in-chief.

He issued formal orders prohibiting meetings of soldiers in the war zone and warning that disobedience would mean instant execution. He forbade any of the soldiers' committees from assembling to discuss this order.

TWO KILLED BY PLANE FALL

Charles Fleischmann, Heir to Millions, One of Victims.

New London, Conn.—Charles Fleischmann, son of Julius L. Fleischmann, former mayor of Cincinnati and heir to many millions, was killed when the hydro-airplane in which he was flying plunged into the waters of Great South bay.

Harry Witz, an exhibition flyer and pilot of the machine, also was killed. Witz owned the machine in which he and the young millionaire were riding.

The tragedy occurred, when the machine was about 100 feet in the air. It collapsed suddenly. Fleischmann was hurled out to his death and Witz, who was strapped to the seat, went down with the machine. As the machine struck the water there was a big explosion.

TANKER SUNK; 8 GUNNERS DIE

American Steamer Motano Torpedoed and Sunk by U-Boat.

London—Eight naval gunners were lost when the American tank steamer Motano was sunk by a submarine. Sixteen members of the crew also perished. The master, 4 gunners and 22 of the crew were saved.

Muskegon—Four sons of Mrs. Louis H. Kanitz have enlisted in the army or navy.

Iron River—After being idle more than a year, the Dober mine, operated by the United States Steel Corporation will be unwatered and placed in active mining operation. The mine was closed down on account of a sulphur fire between the fifth and seventh levels. In order to extinguish the fire 16,000 cubic yards of gravel have been dumped into the works affected.

TO COURT MARTIAL DRAFT RESISTERS

REGISTRANTS WHO FAIL TO REPORT WHEN CALLED FACE DESERTION CHARGE.

EXAMINATIONS NOW BEING MADE

Orders For Mobilization of Selected Men Will Be Given Some Time During Present Month.

Washington—Registered men who resist the selective draft law face military court martial for desertion and the possibility of execution for desertion in time of war. The whole military and civil power of the federal government and the civil power of the states, cities or counties will be employed to bring them to book.

This was announced in a formal statement Saturday by Brig-Gen. Enoch M. Crowder, provost marshal-general, in response to reports from North Carolina, Georgia and Oklahoma of anti-draft disturbances.

Gen. Crowder said failure of men called for examination under the draft law automatically induced them into the military service. Failure to report was equivalent to desertion, and the whole strength of the military is available to apprehend deserters, if it was necessary to use force.

In practice, under Gen. Crowder's construction of the law, registered men who do not appear for examination will be posted to the district boards as selected for military service as soon as the five-day period allowed them to put in an appearance after they have been summoned has elapsed. Two days more will elapse after their names reach the district board to await appeal action by the individual. They will then be posted to the adjutant general of the state as selected to fill the quotas of their district.

MOBILIZATION THIS MONTH

Orders for the mobilization of the selected men will be given some time during the present month. If the register fails to obey that order, he will be set down as absent without leave and the machinery of the army will be set in motion to bring him in. In addition, all state and municipal police authorities and United States marshals will be used to apprehend him. When it is clear that he is wilfully absenting himself with no intention of reporting to the army, a charge of desertion will be placed against him. From that time on any civil officer who arrests him will earn a reward of \$50.

If found guilty by court martial of desertion, the individual may be sentenced to death and only the president can save him from punishment.

CHICAGO STAGES DRAFT PARADE

8,000 Prospective Soldiers March in Line to Music of Bands.

Chicago—Chicago's answer to the call to the colors marched Saturday to the music of military bands and the cheers from thousands. With eyes front, and flag of their country steady at each shoulder, more than 8,000 young men swung through the streets.

Each division of the 86 companies of registrants, one for each of the exemption districts, was led by a student officer from the training camp at Fort Sheridan.

There were tears in many eyes as the procession of soon-to-be soldiers passed.

At the head of the procession marched the trim companies of the provisional officers' training camp, 4,000 strong, the Illinois, Wisconsin and Michigan men, who have been training at Fort Sheridan.

The parade, the first of its kind in the country, was reviewed by Maj.-Gen. Thomas H. Barry, commander of the central department of the army.

GOVERNMENT SEIZES NEW SHIPS

Shipping Board Commends Merchant Vessels Now Being Built.

Washington—The United States shipping board has decided to commandeer all ships of suitable tonnage now building in the shipyards of the United States.

This decision was reached, after consultation between members of the shipping board and Admiral Capps, general manager of the emergency fleet corporation.

The ships will be taken over at their present stage of construction. Work of rushing them to completion will be expedited.

Ships under charter will not be disturbed by the government at present, although that step is anticipated soon.

When it is necessary to obtain ships now under charter only those particular ships vitally needed will be taken, as the charter prices under which the ships are operating are too high for the government to take over except as a last resort.

STATE NEWS

Saginaw—William Ewald, 16 years old, was drowned in the Saginaw river when his canoe capsized.

Owosso—Farmers are short of help despite offers of manufacturing concerns that they would release men for farm work.

Kalamazoo—John Lewis stayed in the water at Myer's beach until after dark, when he sneaked home in his bathing suit. His clothes had been stolen.

Jackson—D. H. G. Glover, of this city, president of the Michigan State Homeopathic society, has called a meeting at Hotel Cadillac, Detroit, Aug. 11 to aid in getting medical officers for the army reserve corps.

Holland—Overcome by the heat while working in his fields, Henry Kraae, 42 years old, farmer, became insane and killed himself with a shotgun. His widow found his body in the barn. There are several small children.

Grand Rapids—Buelah Webb, 17 years old, of Allegan, lost her life attempting to save Leatha Gibson, 17 years old, of Monterey, whom she induced to jump into Telegraph lake, so she could teach her to swim. Both bodies were recovered.

Ann Arbor—Books from all over the state are beginning to come to the office of Librarian Bishop, of the University of Michigan general library, to be sent to the cantonment at Battle Creek. Mr. Bishop says these books may either be sent to him direct or to the state library at Lansing. They will be sorted, arranged and held until the library at Battle Creek is ready for them. He makes an appeal for interesting stories, also asks for instruction books in French.

Hillsdale—Farmers are reporting bumper crops of all kinds.

Adrian—Small silk flags, embossed with the seal of the city of Adrian, were presented by Mayor Baker to each member of Company B, Thirty-second Michigan National Guard, when the company left here.

Howard City—Four persons were injured when an automobile driven by James M. Donahue dropped 10 feet from the bridge into Handy creek, two miles north of here. The accident was caused by the breaking of the steering gear while the machine was traveling at 15 miles an hour.

Macatawa—With the aid of men on the training ship Wolverine and the life-savers from the Holland station, a skinning dish which capsized in Black lake was righted and towed to shore. The sailboat, with Mr. and Mrs. Paul Stewart, of Chicago, and James and Christian Ten Broek, of Grand Rapids, aboard, was skimming across the lake in a stiff breeze when a sudden puff of wind turned it over. All four were saved.

Owosso—The county selection board has been informed of various schemes on the part of young men and fathers seeking to save the boys from the national army. The reported case of a wealthy man in the southern part of the county shows he owns only 10 acres of farm land and four acres of that is swamp, but his three sons, until recently employed in the offices of Flint automobile factories, are devoting all their time to working the six acres.

Ontonagon—Forest fires five miles west of here have destroyed crops, stock and farm buildings.

Port Huron—The home guard unit here has received word from Lansing that 50 men will be armed and equipped to guard the tunnel and plants here.

Imlay City—Misses Grace Quirk and Susan Derk have notified their families here that they have reached France safely with the Harper hospital unit.

Port Huron—A. E. Stevenson, of the district appeal board, stated that those who prove themselves to be actively engaged in and essential to agricultural pursuits may expect leniency from the appeal board of the district.

Benton Harbor—According to a statement made by Captain Evers, commander of naval militia here the steamer Eastland, which toppled over in Chicago harbor two years ago causing scores to lose their lives, will soon be in United States service.

Kalamazoo—The 17-month-old daughter of Mr. and Mrs. Walter Wilson, of this place, was drowned in six inches of water on the shore of a small lake near here. The family was at the lake for an outing when the child wandered away from its parents.

Flint—Rev. Howard D. Borley, pastor of the First Presbyterian church for five years, will go to France in September to engage in Y. M. C. A. work among the soldiers. Although his congregation desired to release him on leave of absence Dr. Borley insisted that his resignation be accepted.

Port Huron—Racio De Lasio, 28 years old, Italian laborer, was killed in the tunnel yards when two electric locomotives passed over his body.

Adrian—Royden Switzer received a fracture of the jaw and Victor Pain had his shoulder and leg broken when an automobile in which six Morenci young men were returning from Devil's lake went into the ditch near Canandaigua. Switzer last winter tried to enlist, but because his feet had been frozen a short time before, was rejected. He was among the first drawn in the recent selective draft list.

Was Laid Up In Bed

Doan's, However, Restored Mrs. Vogt to Health and Strength. Hasn't Suffered Since.

"I had one of the worst cases of kidney complaint imaginable," says Mrs. Wm. Vogt, 615 Audrey Ave., Wollaton, Mo., "and I was laid up in bed for days at a time."

"My bladder was inflamed and the kidney secretions caused terrible pain. My back was in such bad shape that when I moved the pain was like a knife thrust. I got so dizzy I couldn't stoop and my head just throbbled with pain. Heads of perspiration would stand on my temples, then I would become cold and numb."

"My heart action was affected and I felt as if I couldn't take another breath. I got so nervous and run down, I felt life wasn't worth living and often wished that I might die so my suffering would be ended. Medicine failed to help me and I was discouraged."

"Doan's Kidney Pills were recommended to me and I could tell it was being helped after the first few doses. I kept getting better every day and continued use cured me. My health improved in every way and best of all, the cure has been permanent. I feel that Doan's saved my life."

Get Doan's at Any Store, 60c a Box. DOAN'S KIDNEY PILLS. FOSTER-MILBURN CO., BUFFALO, N. Y.

ASTHMA

DR. J. D. KELLOGG'S ASTHMA REMEDY for the prompt relief of Asthma and Hay Fever. Ask your druggist for the 25 cent and 50 cent bottles. Write for FREE SAMPLE. Kellogg & Lyman Co., Inc., Buffalo, N. Y.

Pure Blood BEECHAM'S PILLS

Largest Sale of Any Medicine in the World. Sold everywhere. In boxes, 10c, 25c.

SWAMP-ROOT Is not recommended for everything, but if you have a liver or bladder trouble it may be found just the medicine you need. At druggists in fifty-cent and dollar sizes. You may receive a sample size bottle of this reliable medicine by Parcel Post, also pamphlet telling about it. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents, also mention this paper.

Mistivencer

A SCIENTIFIC CLEANER Cleans, polishes—applied with a sprayer—no hand rubbing. If your dealer cannot supply you, write us. Agents wanted. Qu. \$1.25 each—sprayer free. The Star Lubricating Oil Co., 8714 Broadway, Cleveland, O.

Kill All Flies!

THEY SPREAD DISEASE Killed anywhere, Delay Fly Killers at once! Kills flies, mosquitos, crickets, cockroaches, and chiggers. Lastallonses, Made in U.S.A. Buy in 50c and \$1.00 bottles. Write for FREE SAMPLE. Ask for Dally Fly Killer Sold by druggists, \$1.00 per bottle, 50c per 1/2 doz. HAROLD SOMERS, 150 DE KALE AVE., WOODLITH, N. Y.

PARKER'S HAIR BALSAM

A reliable preparation of merit. Restores color and beauty to gray or faded hair. 50c and 75c at druggists.

W. N. U., DETROIT, MO. 32-1917.

Sociable.

An orderly chosen from among the student officers at Ft. Harrison sits daily outside Brig. Gen. Edwin F. Glenn's office door. A different man is chosen each day, and the other day the post fell to the lot of Charles E. Shafe of Indianapolis, says the Indianapolis News. Shafe went on an errand for the general, and returned just after the general had wished to speak to an officer in one of the other rooms and there being no orderly to summon him, had gone after the man himself.

"By George," Shafe commented to the camp adjutant's orderly, a Tenth infantryman, fresh from five years in Panama, "the general did some of my work for me."

"Yeh, ain't that nice, now?" the adjutant's orderly returned. "Why don't you go in there now and do some of his work for him, just to be sociable?"

CARE FOR YOUR SKIN

And Keep It Clear by Daily Use of Cuticura—Trial Free. A hot bath with Cuticura Soap followed by a gentle anointing with Cuticura Ointment clears the skin or scalp in most cases of eczemas, rashes and itching of children and adults. Make Cuticura your every-day toilet preparations and prevent such troubles.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Wise Caddie.

Green Gopher (to caddie)—What are you looking there for? I must have driven it 50 yards further than that.

Diplomatic Caddie—Yes, sir; but sometimes they hit a stone and bounce back a terrible distance, sir.

When Your Eyes Need Care

Getting Out From Under.  
It is probably quite natural that there should be considerable rivalry at Ft. Harrison between the student officers of National Guard training and those with no previous military experience, and sometimes stories are told which might not be told if it were not for this rivalry, says the Indianapolis News.

A young student officer was putting a squad of fellow-students through squad formations the other day of a rather intricate nature and the process proved to be like climbing a roof. It is easy to climb into a perilous position astride the cone, but difficult to climb down to safety. The young student officer got along very well until he attempted to get his squad back into its original formation. Somehow it wouldn't work out right. Then he cut the knot of his difficulty with one command, delivered as sternly as possible: "As you were at first! March!"

This would not have been told if there had not been several former National Guardsmen in the squad.

Near a Storm Center.  
"I'm sorry I built right here."  
"Why?"  
"Because they do say that sound carries best southeast of a storm center."

"What has that got to do with it?"  
"Well, I've just discovered by hearing your wife's voice every night when you arrive home late that I live in a southeast direction from your house."

The Ambitious Bride.  
Bill—Hello! Home from your honeymoon trip already?  
Gill—Oh, yes.  
"Rather short, wasn't it?"  
"Oh, yes. My new wife seemed rather anxious to get home and try her cooking on me."

Temper, not trouble, makes the misery of most men's and women's lives.

**M. E. & W. RY. WANTS TO QUIT BUSINESS**

STARTS COURT PROCEEDINGS TO GET PERMISSION TO TEAR UP TRACKS.

WOULD ISOLATE DOZEN TOWNS

Road Now Operates 72 Miles Between Manistee and Marion, Connects With P. M. and G. R. & I.

Lansing.  
Another little Michigan railroad has snarled up the legal machinery of the state in its efforts to tear up its tracks and quit business.

The Manistee East & West Railway Co., operating 72 miles between Manistee and Marion, Oscoda county, did not bother to ask the railroad commission for permission to discontinue service. In the usual mode of procedure such a petition would have been granted or denied by the commission following public hearings for the affected district.

The railroad, however, went into Judge Witty's court, in the nineteenth circuit, and obtained an order against the commission to show cause why the road should not be permitted to tear up its tracks.

The case will come up during the October term.

The commission, which now has the burden of proof thrown against it, knew nothing of the matter until served with papers. The commission wants to force the road to make application in the usual way, in which case the burden of proof would rest with the road. The attorney-general's department, however, is inclined to doubt if this can be done and thinks the road has taken a legal stand which the state may be unable to upset.

The road connects with the Pere Marquette at Peacock, the G. R. & I. at Tustin and the Ann Arbor at Marion. If discontinued a dozen towns will be isolated from rail communication.

**Guard Mobilized at Grayling.**

Economy as much as forehandedness in regard to labor troubles on the Gogebic iron range actuated Major General Barry at Chicago in consenting to the mobilization of the Michigan National Guard at Grayling instead of Waco, Texas, as previously planned.

State officials asked permission of General Barry to send the troops to Grayling and authority was granted, with the provision that the state footed the bill for transportation from the home stations.

The expense to the state incurred in having the guard mobilize at Grayling instead of Waco will be between \$6,000 and \$8,000, according to Major Rogers. The government pays for food and transportation of equipment.

Major-General Barry advised that the Thirty-third regiment would not be sent to Grayling at present as that regiment was for the most part doing duty at several Michigan points, including the Soo and Port Huron.

Leaving this unit out of consideration the state now has approximately 6,000 khaki clad boys at the state mobilization camp.

Federal authorities expect the troops to remain at Grayling until October 1 at least, but a change in the program may come at any time.

**Sixty Planes at Aviation Field.**

With the advent of warm, dry weather, Selfridge aviation field near Mt. Clemens is fast being whipped into shape for sustained training of the 250 or more students for aerial service now at the camp.

The trench machine of the bath city has been drafted for service in completing about five miles of sewer and water piping, and from 50 to 70 carloads of material are arriving daily for the construction of roads.

At present 1,500 laborers are employed, 250 students are learning the rudiments of aerial navigation and 1,000 other students will arrive in the next two or three weeks.

Sixty planes are now on the ground and the air is full of them between the hours of 8 a. m. and 4 p. m. More than 120 acres of the field is to be cemented for practice purposes.

The first mishap to the aviators occurred a few days ago when one of them took a sudden and unexpected drop into Lake St. Clair. He was somewhat scratched but not seriously hurt. As a preliminary to the final dive the machine made a "tail spin" owing to its failure to "bank on a turn." The plane righted itself after this maneuver only to immediately follow it by a "nose dive" of some 400 feet into the lake. But for the water the accident would probably have proven fatal.

**Women to Be Factory Inspectors.**

Each county in the state is to have a woman factory inspector.

Governor Sleeper has approved the plan of the woman's committee of the council of national defense for such volunteer workers who will be under orders of the state department of labor.

**Bean Crop Outlook Good.**

W. J. Orr, of Saginaw, president of the state bean jobbers, says the bean crop of western Michigan, except on low land, will be good.

**BANNER YEAR FOR MACKEREL**

Small Schools of the Fish Have Been Seen Even in New York Harbor, It Is Said.

This is a banner mackerel year, according to the fishermen who have already been at the Grand Banks and brought back huge catches, says a Boston dispatch. "Mackerel to the rescue" is one slogan of the food conservators.

Gloucester fishermen arriving at this port say that enormous schools of mackerel have been moving off Cape Shore, N. S., and a fleet of 40 sealing schooners has been making rich hauls. So tremendous has been the catch that it has been necessary to charter additional steamers at Yarmouth to get the fish to market.

According to Gloucester men the great cold storage plant on the fish pier at Boston has been filled by the mackerel pouring in and there is "no more room in the freezer." Hundreds of tons of frozen mackerel are waiting shipment to the allies.

Small schools of the fish have been seen even in New York harbor and there is likely to be a big harvest of them off the Jersey coast.

**Has Second Two-Cent Piece Coined.**

The second two-cent piece ever coined in the United States is owned by Henry F. Merrill of Albany, Ore. Mr. Merrill also has a one-cent piece, coined in 1793, said to be the first year pennies were coined by the United States.

Mr. Merrill received the historic two-cent piece from his grandfather, the late Joseph Failing of Portland. Mr. Failing was attending the Republican national convention which renominated President Lincoln, in 1864, and while on his eastern trip visited the Philadelphia mint. The new coins were being minted for the first time.

The first one made was preserved for the government's collection, according to custom, and the second was given to Mr. Failing by the director of the mint, who happened to be a friend of his.

**Grumblings of the Farmers.**

Farmers in Sussex county, Delaware, report that the caterpillars are killing the leaves on the apple trees, snails are damaging the roots of the cucumbers, moles are killing off the potato plants, wild garlic is spoiling the milk, cool nights are retarding the growth of vegetables, the grape-berry worm is boring into the grapes, cutworms are killing the tomato vines, wet weather has damaged the strawberries, the cultivation of the corn crop is being retarded by the wet fields and the rust is in the wheat. Outside of these few things, says the Philadelphia Ledger, Sussex county is all right and will raise big crops.

**From Out of the Skies.**

Joe Flaherty, the tallest prisoner who ever fell into the hands of the local authorities, was arrested by Policeman Tom Edmunds, the shortest man on the force, after Flaherty is alleged to have frightened a number of women with whom he came in contact while pursuing an alcoholic course along Park avenue.

Edmunds caught sight of the offender about a block away and gave chase. "You're pinched," he yelled up at his captive.

"Well, leave go of my knees and reach up and take my hand," hiccupped Flaherty.—Annconida Standard.

**Heavy Picture Frames Passing.**

Picture-framing in Great Britain has undergone many transformations in recent years. The building of smaller houses made obsolete the fashion of heavy frames which were the pride of Victorian dining rooms. There are patterns of the Charles II. and the Louis periods which by their merit in design have escaped destruction, and have served as models for frames made out of "composition." Old frames of baser design have been burned that gold in the old gilding might be salvaged.

**GOOD ROADS**

SYSTEM OF NATIONAL ROADS

President of National Highways Association Would Have Federal Government Take Charge.

Thanks to the pushful, pervasive automobile, American road building has "got a move on" at last. There is everywhere the cry for roads, for more roads and for better roads. The drawback has been that, as yet, there has been no co-ordination of these multitudinous enterprises. The president of the National Highways Association, Charles Henry Davis, C. E., in a recent paper, stated that we spent last year \$249,955,967, or more than two-thirds the total of money expended so

Good Road in England.

far on the construction of the Panama canal—for our road improvements throughout the country. Mr. Davis' contention is that good roads, roads that run for thousands of miles through state after state, are, properly, not the responsibility of the state, but of the nation. He would have the federal government build a system of national roads joining the West with the East, the North and South, connecting every part of the country, as is the case with the national highways of Europe, and, as history shows, such as was the essential equipment of every first-class power of the past. How would such an enormous construction be paid for and kept up? "Suppose," asks this eminent engineer, "the government built 100,000 miles of properly planned roads, and at the same time purchased, say, 300 feet of land on either side. This land would so continually increase in value, and in demand for leasing on long rental, that the cost of the road and the land purchase would soon be paid. A rental rate of \$6.66 per acre would pay the interest on the cost of construction. But much would rent at vastly higher rates, in cities and towns, high enough to give the nation an income equal to its total annual expenditures"—from these national highways alone!

President Rowe of the American Automobile association says that in ten years the United States will be covered with systems of national roads. By that time he says we will begin to see the necessity for separate systems for freight and passenger traffic. Present highways will be greatly multiplied and largely increased in width. The quality will be improved as the country begins to learn the art of road building. Good roads he believes, are the greatest practical step toward national preparedness.

At the Ringside.  
The Novice—Why does that pug crouch so?  
The Old Sport—He stoops to conquer.

Her Idea.  
Wife—James, make a little garden for me in the back yard.  
Hubby—Going into amateur gardening?

Wife—Yes; I got some bird seed and I'm going to try to raise canaries.

**SYSTEM OF NATIONAL ROADS**

We Will Soon See Necessity for Separate Systems for Freight and Passenger Traffic.

President Rowe of the American Automobile association says that in ten years the United States will be covered with systems of national roads. By that time he says we will begin to see the necessity for separate systems for freight and passenger traffic. Present highways will be greatly multiplied and largely increased in width. The quality will be improved as the country begins to learn the art of road building. Good roads he believes, are the greatest practical step toward national preparedness.

**BUILDING ROADS IN FORESTS**

In Past Fiscal Year There Were Constructed 227 Miles of New Highways—Other Improvements.

During the past fiscal year there were constructed on the national forests 227 miles of new road, 1,975 miles of trails, 2,124 miles of telephone line, 89 miles of fire lines, 81 lookout structures, 40 bridges, 222 miles of fence, 545 dwellings, barns and other structures, 17 corrals and 202 water improvements.

**IMPROVE ROAD BY DRAGGING**

Ordinarily It Is Best to Use Implement When Surface Is "Moist, But Not Sticky."

It is probable that you can improve the road by dragging it the moment the drag is purchased or constructed, no matter what is the condition of the earth. Ordinarily, however, it is best to drag when the surface is "moist, but not sticky."

Road Progress.  
Missouri and Kansas have both passed new road laws during the recent sessions of their legislatures, and work under them is already starting. Missouri has made longer steps forward toward good roads than ever in her history.

More Receipts for Roads.  
The receipts of the Pennsylvania highway department from motor car licenses were \$147,742 April 1, an increase of \$700,000 over last year. The entire fund is available now.

**HE WAS WAITING PATIENTLY**

Constant Attendant at Play Was Bound to Be on Hand When Erring Wife Was Caught by Husband.

A problem play was being produced in Chicago. One evening it was discovered that a certain man, evidently from the rural district, had attended the play six nights in succession and always sat well down in front. Each night he leaned forward eagerly in his seat and drank in the words of the drama.

These facts were communicated to the theater press agent, who scented a good story. Approaching the interested spectator between the acts, he apologized for his intrusion and said: "Would you mind telling me just why you are so interested in this play? Do you know some member of the cast?"

"Nope," said the man from the outlands. "That ain't it. But I'll tell you about it. You know the scene in the private room of the restaurant, where the dark man and the other man's wife get up and leave by the left-hand door just a moment before the woman's husband enters by the right-hand door?"

"Yes," said the press agent expectantly.  
"Well," said the interested spectator, "some night the husband's going to come in before they leave."

**THE TRUTH ABOUT ECZEMA AND PILES**

Thousands and thousands of people, says Peterson, are learning every week that one 2-cent box of Peterson's Ointment will abolish Eczema and hemorrhoids, and the grateful letters I receive every day are worth more to me than money.

I had Eczema for many years on my head and could not get anything to do it any good. I saw your ad and got one box and I owe you many thanks for the good it has done me. There isn't a blotch on my head now and I couldn't help but thank Peterson for the cure is great. Mrs. Mary Hill, 430 Third Ave., Pittsburgh, Pa.

I have had itching piles for 15 years and Peterson's is the only ointment that relieves me, besides the piles seem to have gone. A. B. Rieger, 1127 Washington Ave., Racine, Wis.

Use Peterson's Ointment for old sores, salt rheum and all skin diseases. Druggists recommend it. Adv.

Her Idea.  
Wife—James, make a little garden for me in the back yard.  
Hubby—Going into amateur gardening?  
Wife—Yes; I got some bird seed and I'm going to try to raise canaries.

At the Ringside.  
The Novice—Why does that pug crouch so?  
The Old Sport—He stoops to conquer.

**Didn't Seem to Be "Free" Seeds.**

An Indiana congressman recently made a liberal distribution of free seeds, sending them to his constituents in franked envelopes on which appeared the regular warning, "Penalty for private use, \$300," says the Indianapolis News. A few days later one of his supporters wrote:

"I don't know what to do about those garden seeds you sent me. I notice it is \$300 fine for private use. I don't want to use them for the public. I want to plant them in my private garden. I can't afford to pay \$300 for the privilege. Won't you see if you can fix it so I can use them privately? I am a law-abiding citizen, and do not want to commit a crime."

The Only Way.  
"Senior, can you handle any Villa money?"  
"That depends. Is it baited?"—Louisville Courier-Journal.

**A Turkish Love Story.**

A Turk knocked at his beloved's door, and a voice answered from within, "Whose there?"

Then the voice said, "This house will not hold thee and me."

And the door was not opened.

Then went the lover into the desert, where there is nothing but Allah, and fasted and prayed in solitude.

And after a year he returned and knocked again at the door.

And again the voice asked, "Who is there?"

And he said, "It is thyself."

And the door was opened to him.—Exchange.

The world's normal yield of the six great cereals ranges from 16,000,000,000 to 19,000,000,000 bushels.

To be witty at the expense of somebody else is sometimes positive cruelty.

**SAXON "SIX"**  
A BIG TOURING CAR FOR FIVE PEOPLE

**25.9 Miles Per Gal. of Gas**

234 stock model Saxon "Sixes" travel 70,200 miles July 18 and set grand average of 25.9 miles per gal. of gas

To give a national demonstration of the remarkable gasoline economy of Saxon "Six", 234 Saxon dealers joined in a 300 mile drive July 18.

That proves that this 25.9 miles per gallon of gasoline is the ordinary, the average performance of 234 Saxon "Sixes" taken right out of stock.

And it proves as nothing else would prove, the gasoline economy your Saxon "Six" will give you. No other car in its class can match this record.

Furthermore, these 234 Saxon "Sixes" averaged 175 miles per quart of oil.

And not a single instance of mechanical trouble occurred throughout the entire 70,200 miles.

There is the proof that Saxon "Six" is your kind of a car. Price f. o. b. Detroit, \$935.

A grand average of 25.9 miles per gallon of gasoline was registered for the 70,200 miles of travel.

Consider that this run took place in 234 different parts of the country, under 234 different sets of conditions, over 234 different kinds of roads.

Consider that these 234 cars were stock model Saxon "Sixes", not "tuned up" special cars, not cars with "doped" gasoline.

Saxon Motor Car Corporation, Detroit

**GREGORY.**

Henry Howlett was a Howell visitor last Saturday.

Mrs. Lillie Burden has returned from Fowlerville.

Mrs. Wm. Marsh was a Jackson visitor last Saturday.

Frank Worden was home from Jackson over Sunday.

Last Saturday, Glenn Marlott went to Detroit to enlist.

Will A. Douglas, son of Mrs. Lillian Douglas, has enlisted.

Mrs. Joe Bowen is slowly getting better but not able to work yet.

H. E. Marshall was in Detroit, Tuesday and Wednesday of last week.

W. D. Hill and family, of Muliken, are making an extended visit at E. Hill's.

Mr. and Mrs. Frank Macrone of Jackson visited his son the latter part of last week.

Mrs. Mabel Baron of Rochester, N. Y., came last Thursday to make an extended visit with her parents.

Mrs. Charlotte Rowlett left last Saturday to make an extended visit with her son, L. E. Howlett of Howell.

Mrs. W. J. Durkee and children of Jackson spent several days of last week with relatives and friends here.

Mrs. Rose Orr, who has been visiting her cousins, Minnie and Agnes Arnold, left for Linden, Tuesday of last week.

A number of different kinds of small fruit are in season now. Mr. Burl's huckleberry swamp is loaded with berries this year.

A number of our men were De-

troit visitors last Wednesday; among them were, Fred and Henry Howlett, M. E. Kuhn, W. H. Marsh, A. J. Brearley and E. Hill.

Mr. and Mrs. Sam Wilson and daughter, of Kansas City, and Miss Mollie Wilson of Staten Island, visited at the home of Charles and Arthur Bullis, last week.

Mr. and Mrs. Joe Biner of Detroit are visiting Mrs. Jane Wright. They are making their visit profitable by gathering fruit in this vicinity and canning same to take with them back to Detroit.

Our school board is greatly disappointed in not being able to secure Mr. Paul Lockwood as principal of our school. Word was received that he enlisted the past week. The board is in communication with another good teacher in the hope of securing him.

**Steaming Vegetables Retains Nutritive Salts**

The importance of avoiding loss occurring in cooking vegetables is emphasized by Miss Jane Cape, instructor in domestic science in the Kansas State Agricultural college.

The ordinary method of paring the potatoes and allowing them to soak in water before cooking results in a great loss in the nutritive value of the vegetables.

Such vegetables as peas, cabbage, spinach and carrots usually are boiled and the juices poured off. Many vegetables when served are consequently almost without nourishment. All of the minerals, soluble carbohydrates, calcium and phosphorus necessary to build up certain tissues of the body are wasted. The amount of nutrient depends upon the amount of water and the size of the pieces of vegetables.

It is advisable to use the juices extracted from vegetables by boiling in sauces to be served with the vegetables or in making soup.

Baking or steaming is an economical method of cooking vegetables. Experimental work has shown the relatively small losses from steaming and the great losses from boiling vegetables. Many root vegetables may be cooked in the jacket to preserve their nutrients.

Phone your news items to the Tribune; call 190-W.

Dr. S. G. Bush was in Detroit yesterday.

Herman Fletcher and family visited relatives in Dexter, Sunday.

Miss Charlotte Steinbach, visited relatives in Ann Arbor yesterday.

Miss Imogene Woods of Berlin visited Miss Alice Walz, Saturday.

W. W. Hendrick reports green corn for dinner Sunday, the product of his garden.

William Rademacher of Detroit has been visiting Chelsea relatives for few days.

The Gleaner society will meet Thursday evening, August 9th, at the home of Russell Wheelock of Lima.

Rev. and Mrs. F. A. Stiles of Lima, Ohio, are spending their vacation at the home of Mr. and Mrs. W. H. Laird.

Mr. and Mrs. Arthur Corwin and family, of Toledo, are spending the week with Chelsea relatives and at Cavanaugh lake.

The Chelsea Elevator Co. is making daily motor-truck shipments of huckleberries to the Detroit markets. About 25 bushels are taken each trip.

The Young Ladies chapter of the Congregational church will meet Friday afternoon at 3:30 o'clock at the home of Miss Clarice Wright. Scrub lunch.

John Foster and son, John, returned from Gagetown for over the week-end and left Sunday for Clara, where they will be located for three weeks erecting silos.

Rev. G. H. Whitney, pastor of the Chelsea M. E. church, has been elected second vice-president of the State Holiness Camp Meeting association, in session at Eaton Rapids.

The steel window sash for the new ball plant building have arrived and are being set. The new building will soon be entirely inclosed. A number of machines have already been set.

The A. A. Pureff Co., has a big well drilling machine on the cars in the Michigan Central yards and will drill a deep well for the Consumers Power Co., Main street and D. J. & C. tracks.

Mr. and Mrs. Appleton have shipped their household goods from Philadelphia and will locate in Chelsea. They have been visiting their daughter, Mrs. M. J. Dunkel, for several weeks past.

Rev. F. C. Berger of Cleveland, Ohio, general secretary of the Sunday school and Young People's Alliance, will preach at the Lima Center church, Sunday morning, August 12th, at 9:30 o'clock.

The Michigan Central is raising its tracks through Chelsea and yesterday raised the tracks crossing North Main street, blocking that crossing all day. The tracks are nearly a foot higher than before.

The Third Annual Six County grange rally will be held on the fair grounds in Jackson, Friday, August 10th. A fine program will be given with Chase S. Osborn as main speaker. Everybody is urged to attend.

The tie tamping machine, which the Michigan Central has been trying out at the track-pan, east of town, has been discarded on account of faulty design. The machine did the work successfully as long as it lasted, but excessive vibration of the motor soon shook it to pieces.

The Heininger family reunion was held Wednesday at Walbridge park, Toledo, Ohio. About 75 were present from Toledo, Napoleon, Mt. Cory, Findlay and Cleveland, Ohio; and from Grand Rapids, Adrian, Ida, Detroit and Chelsea, Michigan. H. J. Heininger of near Four Mile lake, Lima, attended.

Invitations have been issued for a Home-coming picnic to be given in Dexter, Monday, September 3d, by S. Joseph's parish. Chicken dinner at 11:30, addresses by Gov. Sleeper, Bishop Kelly and Brig. Gen. L. C. Covell; also band music, sports, ball game and dancing are among the announced features.

During the wind and rain storm, Wednesday, a barn on the Barney McEnany farm, south of Chelsea, in Sharon township, was considerably damaged by wind. The place is now occupied by Mr. and Mrs. Ben Marshall, whose own home a short distance north was completely destroyed in the cyclone on June 6th.

One dollar pays for the Twice-A-Week Chelsea Tribune for one year—less than a cent an issue.

**Ask Anyone Who Has Used It.**

There are families who always aim to keep a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house for use in case it is needed, and find that it is not only a good investment but saves them no end of suffering. As to its reliability, ask anyone who has used it.—Adv.

Charles Neff of Detroit is spending the week in Chelsea.

Mr. and Mrs. Paul Belser of Detroit are spending this week with Chelsea relatives.

**THE SALAD BOWL.**

**PERFECTION SALAD.**—One envelope of gelatin, one pint of boiling water, one cupful of finely shredded cabbage, the juice of one lemon, one-half cupful of sugar, two cupfuls of celery cut into small pieces, two sweet red peppers cut up finely, one teaspoonful of salt and one-half cupful each of cold water and mild vinegar. The method of making is as follows: The gelatin is soaked in the cold water for five minutes; then the vinegar, boiling water, salt, sugar and lemon juice are brought to a boil, poured over the soaked gelatin and the whole strained. When beginning to set, the other ingredients are added and the entire mixture put into a mold to chill. When ready to serve the salad is topped with mayonnaise.

**Banana Croquette Salad.**—A dainty way to serve the nutritious banana is to peel and cut in halves across the fruit. Take a fork and dip the bananas in mayonnaise dressing, then in equal parts of chopped walnuts and pecan nuts. Serve on lettuce leaves with a few of the nuts for garnish. Three-quarters of a cupful of chopped nuts will bread three bananas.

**Egg Lilies.**—Carefully cut the whites of hard boiled eggs down lengthwise and curve back to form petals. At the base of each petal put a drop of deep yellow mayonnaise, make a tiny indentation and fill with grapefruit cross ways; scoop out the hulls. Line the hulls with lettuce and fill with chicken salad; garnish with candied cherries and salmi rings. Serve in a bed of endive, with mayonnaise. Put the meat of the grapefruit in the refrigerator and serve next morning in glasses for breakfast.

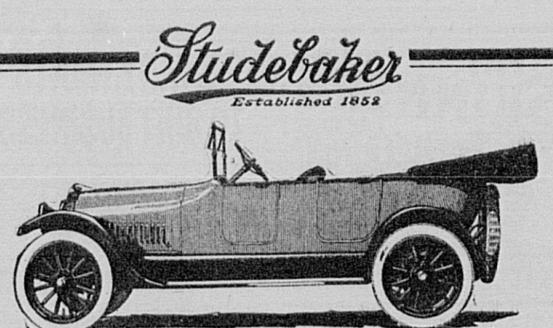

**Supreme Salad.**—One package lime gelatin, juice of one lemon, one small green pepper finely cut, one cupful finely shredded cabbage, two cupfuls celery chopped, one-fourth can pimentos, finely cut. Dissolve and add flavor according to directions on package. Mix ingredients and lemon juice together and add when gelatin is partly set. This to be molded and served with any salad dressing desired.

**Avocado and Tomato Salad.**—Cut an avocado pear lengthwise in half inch bars; make a square pen of these and fill with tomatoes cut in small pieces, mixed with an equal amount of chopped celery. Dress all with French dressing.

*Ana Thompson.*

**Chronic Constipation.**

It is by no means an easy matter to cure this disease, but it can be done in most instances by taking Chamberlain's Tablets and complying with the plain printed directions that accompany each package.—Adv.

**MORE POWER AT LESS COST**

Both Series "18" Studebaker FOUR and Series "18" Studebaker SIX are noted for their great power and especially their great power in ratio to their very low consumption of gasoline.

It has taken Studebaker four years to improve, refine and perfect the wonderful Studebaker motor. It has been solved through the experience of 250,000 cars in the hands of owners. It is only through an evolution like this, that perfection of power in ratio to fuel consumption can possibly be developed.

There are no secret processes; no basic patents; no features of design that are unknown or prohibited by patents. The Engineer can use what he wishes, but he can only know how to use the best features by continually improving, refining and perfecting—through the experience of a motor in actual service.

This is why Studebaker can truthfully claim that the design of its motor is unsurpassed in simplicity, accessibility and power. By the refinement of reciprocating parts, vibration has been reduced to an almost unobservable minimum.

The bearing areas of the motor have been enlarged and increased, giving greater durability, more strength, still further insuring smooth, vibrationless operation.

But you cannot appreciate the splendid POWER of the Studebaker car until you TRY it.
