DEATH OVERTAKES SPEEDY MOTORCYLIST

> Charles Foster Never Regained Consciousness Following Accident Sunday.

uffered a fractured skull and minor day morning about two o'clock, never regaining consciousness.

The unfortunate young man was riding at high speed, estimated by some at 60 miles per hour. As he neared the intersection of Main and Pierce streets he overtook an automobile and as he turned out to pass it the rear wheel of his machine skidded in a small patch of loose gravel, throwing him to the roadbed with terrible force, and fracturing the base of his skull.

Jack Willis, station agent for the D. J. & C. railway, was passing at the time and hurried to the aid of the injured man, who was bleeding profusely from the mouth and ears. Mr. Willis pulled the motorcycle away and Charles Neuberger, Mrs. Fred Hall and Mrs. Weinman lifted Foster to the grass inside the curb. Dr. J. T. Woods was called and had Mr. Foster moved to Mrs. Haab's home, where the young man's wounds were dressed. It was apparent that Foster's injuries would result in death and in the evening he was moved to the home of his cousin, Mrs. Guy Huice of Lima, where he died early Monday

Charles Gilbert Foster was born Ashtabula, Ohio, January 11, 1896, his parents being William and Julia (Gilbert) Foster, and was 21 years, seven months and 29 days of age. His parents now reside in Milwaukee, but the deceased had made his home in this vicinity for some time past and during this summer was employed by Archie Coe of Lima.

His parents; two sisters, Mrs. Irven Kalmbach of Francisco and Miss Emma Foster of Milwaukee; and two brothers, Frank of Milwaukee and Elmer of Chelsea, are left to mourn their loss.

Funeral arrangements have not een completed.

FIRST MEN TO LEAVE STATE MOBILIZATION CAMP GET ROUSING SENDOFF.

TIME OF DEPARTURE CENSORED

Expected That Entire Camp Will Be On Way to Southern Training Camp Before Next Monday.

Mobilization Camp, Grayling, Mich. .- To the tune of "Should Auld Acquaintance Be Forgot," coming from a dozen voices, the owners of which dangled their feet from an army truck winding its way toward the railroad station here, headquarters detachment, 15 men and two officers, headed by Major Edgar H. Campbell, left camp Saturday for Waco, Tex.

First to leave for the southern training grounds, the headquarters men got a rousing sendoff. This was due partially to the fact that before they left a message was received from the central department ordering the Thirtysecond infantry, the cavalry and the signal corps to prepare to leave also.

Time of departure of the Thirty-secand and other outfits is censored, but the best guess was that the railroad equipment would be ready about midweek. It is presumed also that the Thirty-first, the Second Michigan Ambulance company and the field hospifal will depart from Grayling at the General Crozier States British Have were killed and sixteen wounded, the week of the week end of the week or the first of the next

Distillers Rendy to Quit.

Big distillers appear ready to quit for all time. The food control act remains in effect only during the war. Afterward, providing national prohibition does not become a reality in the meantime, the distillers may reopen their plants. Washington-Copies of three brief dispatches, made public by the state department revealed another case of sinister German diplomacy, this time directed against Argentina and involving the Swedish foreign office in an apparent grave breach of neutrality and diplomatic propriety.

They were messages to Berlin from Count Luxburg, the German charge at Buenos Aires, forwarded by the Swedish legation there as its own communications. MEANS END OF ARMY MULE

Mechanical Substitute, It Is Said, Will Do Away With Need for the Animal's Services.

It has been said of the army mule that he absorbed more food, endured more blows, stood for more profanity and performed more work than any other creature that ever came in contact with man.

Now if we are to believe certain rumors in the newspapers, the time is at hand when there isn't going to be any army mule. He isn't even to be taken into the military service to maintain a tradition, to provide veterans with stories or to develop the art of cussing. If our troops, like Uncle Toby's comrades, swear terribly in Flanders it will not be because of the long-eared, long-legged, sure-shot kicker who, in previous wars, has worn men's tempers to a frazzle. It will have to be something else.

The substitute for the mule's thews is a mechanism that looks like a bass | said Edward Young, a well-known drum with a pair of wheels. It is said to be just iron and power, with street, Detroit, Michigan, a few days an incidental thirst for liquid fuel. It ago, is warranted to pull entire trains of wagons, to make armies hump to keep up with it. Tests with it have shown had no strength and felt bad and runthat by its sole efforts it will carry the provender and equipment of an entire regiment, and think nothing of carrying the regiment along too. This pos sibly is exaggeration. But it is plain enough that the army has become emancipated from the mule. The felow could do wonders, but this tractor affair will do miracles. And that is what army men pray for.

We can imagine that some old soldiers will sorrow over the passing of the mule. They remember his virtues well and have forgotten his teeth and his hind feet. Man cherishes the pic turesque, lets time wipe out exasperation. But this is a new kind of war and its engines must live by petroleum and not by horse feed .- Toledo Blade.

Town Clerk Bears War Load. Wartime tasks have so hardened

some of the town clerks in England that one, at least, has protested, asserting that he now works from nine o'clock in the morning until 11 o'clock at night, and that if the authorities add to his already multifarious duties. he will have to go without sleep. In his protest he gives the following list of wartime duties to which he already was required to attend:

National registration, wartime cookery demonstration, war hospitals, food economy campaign, local flag days, national service, occasional baby weeks, communal kitchens, allotments, potato spraying, local coal supplies, maternity and child welfare, local distribution, and separation allowances. A proposal to require him to admin-

ister food supplies aroused his revolt.

Time, Please.

A few nights ago a man rang up the office of the Western Union Telegraph company at Evansville, and was angry because he could not get the office immediately, "I want you to understand," said the man to the night clerk, "that when I ring up there you are to answer promptly. I do not want to wait several minutes before you answer me the next time this happens I will report you to the manager." The clerk was polite and told the man that all lines had been busy, and that he had answered him at the earliest possible moment. The man at the other end grumbled again and said he wished to and did not even thank the clerk .- In-

Canadian Farmers **Profit From Wheat**

The war's devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and wheat near \$2 a bushel offers great profits to the farmer. Canada's invitation is therefore especially attractive. She wants settlers to make money and happy, prosperous homes for themselves by helping her raise immense wheat crops.

You can get a Homestead of 160 acres FREE and other lands at remarkably low prices. During many years Canadian wheat fields have averaged 20 bushels to the acre many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Wonderful crops also of Oats, Barley and Flax.

Mixed farming as profitable an industry as grain raising. The excellent grasses full of nutration are the only food required for beef or dairy purposes. Good schools, churches, markets convenient, chimate excellent.

There is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government is urging farmers to put extra acreage into grain. Write for literature and particulars as to reduced railway rates to Supt. of Immigration, Ottawa, Canada, or M. V. MacINNES

Story of a Dress Model

By ESTHER VANDEVEER

Something-I don't know what-always caused me to doubt that my mother was my real mother. Perhaps it was an indistinct memory of other scenes, when I was a tiny girl, than my shabby home that first put the idea into my head.

The fancy that I was born a lady was enhanced when I became seventeen years of age by being dressed like one. My mother had by this time forced me to earn money, and I did so by being a model for the showing off of clothes at a department store. The first costume I put on was a stylish morning dress. When I stepped be fore a mirror I was astonished.

But it was not until I put on a ball dress, decked out with paste jewelry, that I realized that I had been born a gentlewoman. A member of the firm on seeing me in this costume asked me about my antecedents, and when I told him that I had been lowly born he said that he didn't believe it. "Some ancestor of yours," he said, "was a shining light in an upper circle."

Of course all these matters tended to confirm me in the belief that I had been taken from my proper surroundings, but there was no one to give me any information about myself except my mother, and I could not bring my-self to ask any questions. Interesting Items Clipped and Culled

One day I was informed that the firm desired me to show an especially artistic creation in a full dress gown for the movies. I declined at first. I presume it was a repulsion against showing myself to the gaze of the crowds as a model, but I was offered so large an amount in payment that I Alber visited friends in Ann Arbor. consented. I was photographed in a garden amid a multitude of beautiful

My photographs had not been on exhibition long when one day while at my place of employment I was sent for, to go to the private office of the head of the firm. On reaching it I found beside my employer a young man apparently the same age as myself, and it seemed to me that he was myself dressed in men's clothes. At any rate his face was the very counterpart of mine. Taking from his pocket a photograph he showed it to my employer, who in turn passed it to me. It found it necessary to administer a was the reproduction of a full length portrait of myself in full dress, though I did not remember to have ever worn that particular costume.

"What is this?" I asked, puzzled. "I have never been photographed in this grange near Ypsilanti today. costume.
