Studebaker

Established 1892

SPECIFICATIONS--FOUR

The Studebaker Series "18" FOUR at \$1050.00 is one of the highest grade four-cylinder cars on the market.

The chassis is perfected from four years of study on one basic design, based on the experience of 250,000 Studebaker cars in service in all parts of the country.

The body work is as fine as the highest grade materials and best workmanship can produce. The finish is hand applied—twenty-five operations.

The upholstery is made of genuine leather on genuine long curled hair over the best coiled spring frame work.

The top is of high-grade mohair edged with leather.

The tonneau carpet is high-grade fabric, bound with leather.

The equipment throughout is distinctly high grade. Even an expensive Yale Tumbler Lock is provided for the ignition switch.

In short, the Studebaker FOUR is distinctly the greatest automobile value on the market today at any price. You CANNOT afford to pay LESS for a four-cylinder car when you can obtain this quality at \$1050.00—it is absolutely unnecessary to pay more.

-Shoes and Repairing-

We have a line of good Work Shoes from \$2.50 to \$4.00. All leathers. Shoe repairing a specialty. The best oak leather used.

C. SCHMID & SON, West Middle Street

Bluebirds. During the nesting season the bluebird may be found in the United States (west to Arizona, Colorado, Wyoming and Montana), southern Canada, Mexico and Guatemala. In the winter it is found in the southern half of the eastern United States and south to Guatemala.

MAT BLOSSER GIVES CHELSEA "ONCE OVER"

Veteran Manchester Journalist Writes of Impressions Gained in Recent Visit.

Passing through Chelsea Monday afternoon on our way home from Lansing, we decided to stop for a moment and call upon a few friends.

Farmers take advantage of like opportunities to enquire about the crops and ascertain what breed of hogs will take on fat the fastest when denied an expensive ration of corn or mill feed. Merchants cast a keen eye over stocks of dry goods, etc., and try to get a new idea as to proper display to win customers. Every auto driver knows how the garage man gets rich, so there's no need of his going out of town. But we printers are eager to catch onto the schemes employed by our neighbors which have brought so many shining dollars to their cash registers.

Our first call was on friend Hoover at the Standard office, which like the Enterprise, occupies a prominent location on one of the main streets. The Standard is the older paper in the young city and is in its 40th volume. It has always deserved the liberal patronage bestowed upon it by the enterprising business men, has a splendid outfit but lacks a linotype to be strictly up to the moment. Editor Hoover was postmaster for several years but his business was carefully attended to by Mr. Davis, who remains on the mechanical force.

We next called at the Tribune office which is ably presided over by the genial Ford Axtell with the able assistance of his father, a veteran newspaper man, and a young lady who manipulates the keyboard of the linotype. Ford has been on the job there about seven years and has made the *seventy-weekly Tribune* a paper worth taking and patronizing. Chelsea is the home of the Hollier. Eight and the factory where it is turned out makes a smoke that would be very welcome in Manchester or any other town. It is likewise the home of that fine musical organization fostered and maintained by the liberality of Mr. Lewis of the Hollier plant.

We regret that our time was so limited that we could not visit the plant as we had been invited to do when in town, but we had to listen to a few fish stories from the printer boys and then the ladies had been invited to dinner by our good friends, Mr. and Mrs. L. T. Freeman and we were included, by means of which we had the added pleasure of meeting one of Manchester's former druggists and residents, J. H. Hollis, Mrs. Freeman's father, also Hollis Freeman, son of Mr. and Mrs. Freeman, who has grown to manhood since we last saw him.

Mr. and Mrs. Freeman will be remembered as former residents of Manchester, both graduating from our high school in the class of '89. Mr. Freeman has been a successful merchant in Chelsea for many years but has retired and is getting some enjoyment from frequent auto rides with his family and friends. Mrs. Freeman is very popular in social and church circles, is an artist in china painting, a fine musician and possesses a sweet soprano voice. All in all, it was a pleasant hour and a half we spent there.—Manchester Enterprise.

OCTOBER TERM JURORS.

Following is the list of petit jurors drawn for the October term of the circuit court which convenes in Ann Arbor, October 4th:

E. F. Henne, Saline township; Peter Reider, Scio; Robert Lemm, Sharon; Edward A. Ward, Sylvan; Alfred Scheidinger, Webster; W. J. Lebaun, York; Herbert K. Burrell, Ypsilanti township; Arthur Ament, E. W. Campbell, Ypsilanti; Adam Schoen, George W. Mann, George H. Haupt, Elias Saddler, Fred Lemble, Charles Rosh, Wilbert Heinerdinger, Ann Arbor; A. F. Smith, Ann Arbor township; Corin Jones, Augusta; Frank E. Rawson, Bridgewater; Henry Gilbert, Dexter township; Henry Orbring, Freedom; Fred Seitz, Lima; George Bohnet, Lodi; Edward Doll, Lyndon; G. William Kramer, Manchester township; George Geiger, Northfield; Emanuel Rentchler, Pittsfield; Frank Murray, Salem; George Klagler, Saline township.

COUNCIL PROCEEDINGS.

(Official)
Council Rooms,
Chelsea, September 17, 1917
Council met in regular session. Meeting called to order by President Lehman. Roll call by the clerk.
Present—Trustees Dancer, Frymuth, Palmer, Meyer, Hirth. Absent—Trustee Eppler.
Minutes of the previous meeting read and approved.
The following bills were read by the clerk:

General Fund.

John Kelly, draying— 2.50
Chelsea Tribune, printing— 10.10

Street Fund.
G. Bockers, two weeks—\$20.00
Gil. Martin, two weeks— 13.50
A. J. Conlan, labor— 43.50

Moved by Frymuth, supported by Dancer, that the bills be allowed as read and that orders be drawn for same.
Yeas—Palmer, Hirth, Frymuth, Meyer, Dancer. Nays—None. Carried.

Moved by Frymuth, supported by Dancer, that we adjourn. Carried.
W. R. Daniels, Village Clerk.

REMARKABLE WAR PROPHECY FOUND

First Published in German Newspaper and Translated by Miss Julia Ball of Hamburg.

The following weird war prophecy appeared in the Lincoln Free Press, a German newspaper published in Lincoln, Nebraska, May 30; the same has been translated into English by Miss Julia Ball of Hamburg, Livingston county, Michigan. All predictions contained therein up to the present time, have come true, and our hope is that the unfulfilled portion of it will be as true:

A sensational prophecy has just now been brought to light by the breaking of a wall in the monastery of the Holy Ghost in Wismar in Mecklenburg; in a Bible found there was a parchment upon which the following prophecy was written, and is now under glass, and in a frame in the court house; being written in the year 1801 by a fugitive monk and is as follows:

"Master, have mercy upon Thy people, who have wandered away from Thee, have demolished Thy monasteries, destroyed Thy holy ordinances and take unto themselves the power.
"A time will come to Europe, when the papal chair is abandoned, and a terrible chastisement follows; wickedness, dishonesty and hatred will stir up a small populace, and thru the killing of a prince is the torch lighted. Seven nations will go against a bird with one, and against a bird with two heads; the birds will with their wings protect, and with their claws defend themselves. A ruler from the middle mounts a horse from the wrong side and a wall is formed him by the enemy. The motto of the monarch will be: "With God, go forward."

"The Almighty God will stand by him from victory to victory; there will be attacked by great armies from the east and west and many men will be slaughtered. The wagons will go without horses, buzzing; kites will fly through the air and spit fire and brimstone, and destroy cities and villages. A great many people will look on helpless. The people will hear the warning of God, but God will turn away. Three years and five months will the conflict rage. Time will come when you can neither buy nor sell, and your bread will be cut out and apportioned. The ocean will be dyed red with blood; men will live on the ground of the ocean and lie in wait for their prey.

"The people of the seven nations will take part in the conflict and the bearded folk will fall in the rear and be turned away from the middle. The entire lower Rhine will shake and tremble, but not go under, but stand until the end of time. The land from the west will be the land of the destroyer; the ocean will be free from kings, and upon a deep wave will the exiles come; the bearded folk will continue to stand, and all the peoples will be brought together in sympathy, and a wave be found upon which all people can stand.

"The victor bears a cross, and between four cities with four similar steeples will peace be declared; there stands a cross between two linden trees; here will the victor kneel on bended knees and with outstretched arms thank God. The dance of the ungodly will with the war be done away with, and again will God's ordinances be upheld in church, state and family.
"The war will begin when the corn in the ear bends, will be at its height when the cherries bloom the third time, and peace be restored at the time of the first Christmas following."

MISJUDGED POLICE

STATION FOR DEPOT

Jackson Man, En Route to Chelsea, Surprised to See Cell Block Instead of Train Shed.

"I want to buy a ticket to Chelsea," said a stranger about 70 per cent "tight" as he walked into police headquarters Thursday and stepped up in front of the desk where Sergeant Fall was sitting.

"A ticket for Chelsea?" inquired the sergeant as he looked up from his book and beheld the half-intoxicated individual in front of him.
"Yep, here is the money," handing a badly soiled dollar bill which he drew from his trousers' pocket.
"Do you know where you are?"
"Sure. I want a ticket for Chelsea."

"Come here, let me show you where the trains come in," said the sergeant as he escorted him where he could get a look at the cell block.
"Well, what the h—; say where am I anyhow? I haven't done anything have I?"
"No, but you better take this money and get out of here quick. The depot is just around the corner."
"Hill go!"
"What's your name?"
"James Ryan, from Boston."

"You want to go to Chelsea, do you?"
"Yes, or anywhere," and he stepped as lively as he could out the door.—Jackson Patriot.

Great Faith in Chamberlain's Colic and Diarrhoea Remedy.

"Chamberlain's Colic and Diarrhoea Remedy was used by my father about a year ago when he had diarrhoea. It relieved him immediately and by taking three doses he was absolutely cured. He has great faith in this remedy," writes Mrs. W. H. Williams, Stanley, N. Y.—Adv.

GEDDES' EXHIBIT AT THE JACKSON FAIR

Big Showing of Pigeons and Chickens Attracted Much Attention and Many Premiums.

Following is a list of the premiums awarded the exhibits made by James Geddes at the Jackson fair:

Pigeons—One pair 1916 White Fan Tails, first; one pair 1917 White Fan Tails, first; one pair 1917 Black Fan Tails, first; one pair 1917 Black Fan Tails, first; one pair 1916 Red Carneaux, first; one pair 1917 Red Carneaux, first; one pair 1916 White Maltese hen pigeons, first; one pair 1917 Bald Head Tumblers, first; one pair 1917 Strawberry Albin Tumblers, first; one pair 1916 Black Albin Tumblers, first; one pair 1916 Splash Albin Tumblers, first; one pair 1916 Parlow Tumblers, first; one pair 1917 Black Wing Turbots, first; one pair 1917 Black Nuns, first; one pair 1916 Hamlets, first; one pair 1916 Black Swiss, first; one pair 1916 Crescents, first; one pair 1916 Yellow Dragons, first; one pair 1916 English Blue Pouters, first; one pair 1916 English Black Pouters, first; one pair 1917 Black English Pouters, first; one pair 1916 Red English Pouters, first; one pair 1916 Yellow English Pouters, first; one pair 1916 English Silver Pouters, first; one pair 1916 English Black Pouters, first; one pair 1917 Black English Pouters, first; one pair Black English Pouters, first; one pair 1917 White Jacobins, first; one pair 1915 Black Jacobins, first; one pair 1914 Red Jacobins, first; one pair 1914 White A. C., first; one cock bird Golden Pheasant, first; one hen Golden Pheasant, first.

Chickens—One cock, Partridge Cochon, first; one cock, Silver Bearded Polish, second; one pullet, Silver Bearded Polish, first; one cock, Silver Campine, second; one hen, Silver Campine, second. EAT SKINNER'S THE BEST MACARONI

W. N. U., DETROIT, NO. 38-1917.

Not Like Home.
The bright boy in khaki was dilating on the woes of army life.
"Yes," he said to his old mother, "we don't get much in the way of fancy foods, or anything like that. Our camp cook's all right on stew and soup, but he can't go beyond them. The other day you know, when I went back, I took a cucumber with me that I was going to share with one or two of the boys. I gave it to the cook and asked him to get it ready for us, and what do you think he did with it? Put it in the oven and baked it."
"Oh, poor boy!" said the fond mother. "A pity I couldn't have been there to look after you. I'd have boiled it lovely for you!"

LIFT YOUR CORNS OFF WITH FINGERS

How to loosen a tender corn or callus so it lifts out without pain.

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.
He says that a few drops of a drug called freezeone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.
This drug dries at once and simply shrivels up the corn or callus without even irritating the surrounding skin.
A small bottle of freezeone obtained at any drug store will cost very little but will positively remove every hard or soft corn or callus from one's feet.
If your druggist hasn't stocked this new drug yet, tell him to get a small bottle of freezeone for you from his wholesale drug house.—adv.

On Writing Letters.
"I was told by Capt. Harry Light the other day," writes a Canadian major, "that there is a new style in trench letters. The censor's duties have been reduced by many per cent. The soldier now has the sense of the situation engrained in his thinking. He sees through the need of keeping quiet even on matters that call for some criticism. There is more humor and matter-of-factness about his letters. One of my men who can't write very well, was telling me the other day that one letter a week is all that he can summon up his courage to write, and he gave this as a reason: 'The people at home don't, can't understand life here. We have got to go through it. Why tense them with anxieties—they have enough to put up with in pacifists and political grumblers.' And I think he is right. Don't you?"

Easy to Remedy.
Jones was always complaining of his wife's memory.
"She can never remember anything," said he. "It's awful!"
"My wife was just as bad," said Brown, "till I found out a capital recipe."
"What is it?" asked Jones, eagerly.
"Why," said Brown, "whenever there's anything particular I want the missus to remember I write it on a slip of paper and put it on the looking glass."
Jones is now a contented man.

Chronic Indigestion.
"You can't eat your cake and have it."
"I have the consciousness of it longer than suits me," growled the dyspeptic.

POSTUM

A wholesome table beverage with winning flavor.
Used everywhere by folks who find that coffee disagrees.
"There's a Reason"

ALL DRAFT MEN TO BE EXAMINED NOW

BOARDS TO CONTINUE PHYSICAL TESTS SO ALL REGISTERED WILL KNOW STATUS.

WILL RELIEVE UNCERTAINTY

Many Will Welcome Tests So That Uncertainty of Physical Fitness Will Be Ended.

Lansing—Judging from the official telegrams and regulations which are now coming from the office of Provost Marshal General Crowder, the government is going to continue the physical examination of all men who registered June 5. To this end the present system of local boards will no doubt be continued indefinitely.

With the selection of this week's quota and that for Oct. 3, the work of the local boards for the first call will have been completed. The government estimates that this work will exhaust practically 3,000,000 names of registrants. This will leave 7,000,000 to be handled if there is need of a second call from the president. That a second call will come is certain, but the indications are that it will be several months before it does.

In the meantime, it is now the intention of the government to have the local boards leisurely examine the remaining men, with a view to having their eligibility lists ready for a second call when it comes. In many respects, too, it will relieve the minds of thousands of men, who, without completion of the list of registrants, would not know "where they are at."

They cannot enter any business with a reasonable security from draft, but if they should be examined and found physically unfit, they can be assured of no trouble hereafter.

The government, too, as indicated in word received here, is not unkind of the hard work that has already been done by the local boards. Many of the members of these boards have neglected their business for weeks, and a continuation of such force employment by the government might work a great hardship.

In the examination, however, beyond the quota limit as needed now, the boards will be told to take their time, either devoting only a couple of hours a day to the work, or else one or two days a week. In this way the work could be expeditiously done and at the same time neither the boards nor the registrants subjected to any great inconvenience.

14,400 GO TO CAMP THIS WEEK

Shipments Divided Over 5 Days and Can Be More Easily Handled.

Battle Creek—Approximately 14,400 young men of Michigan and Wisconsin started going "over the top" Wednesday into Camp Custer.

A war department suggestion has been sent out that selected men come to Camp Custer with a bundle containing toilet accessories, a suit of underclothing, etc., but no baggage. Those who've been through the mill don't agree to the wisdom of this program. They say to bring an old suitcase with as much comforts as can be conveniently carried, but with the understanding, of course that when uniforms are issued the extra clothing can be sent home in the suitcase.

Fortunately not all the 14,400 men will report in one day, as had been planned originally. Wednesday brought 4,195, Thursday 1,851, Friday 3,260, Saturday 2,037 and Sunday 766. The Sunday delegation is an exclusive Detroit shipment.

For several weeks Camp Custer will hold little of frolic for the selects and mothers at home need not stargaze "Where is My Wandering Boy Tonight?" with any morbid notion that he's hanging around a den of iniquity. The only wandering he will do will be toward his bunk, when tattoo sounds at 9 o'clock, and when the bugle blows at 9:15 chances are he will be asleep.

SENATE PASSES BIG BOND BILL

O. K.'s Biggest Money Bill in History of American Congress.

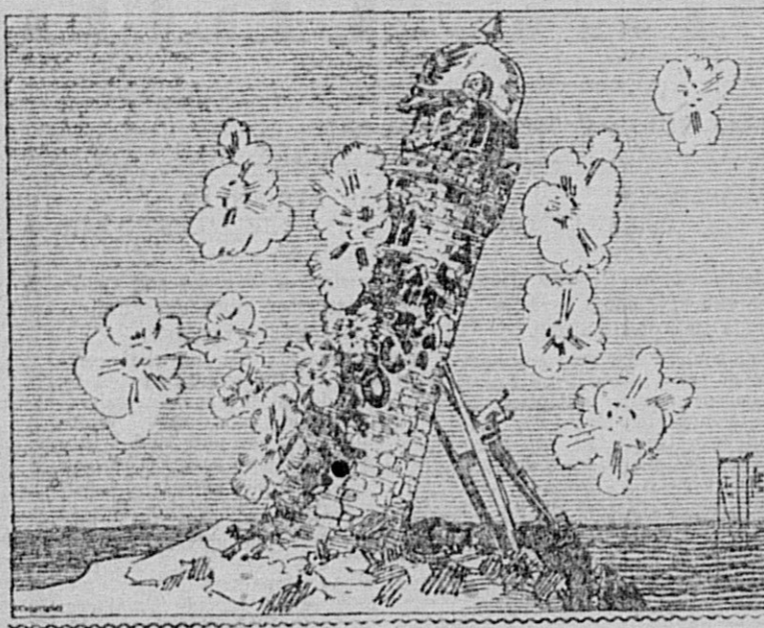

Washington—Without a roll call or a dissenting voice, the senate Saturday afternoon passed the \$11,538,000,000 war bond and certificate bill, the biggest money bill in the history of the American congress. It already has passed the house.

Just before the vote, the senate agreed to several of Senator LaFollette's minor amendments. One of them fixes the rate of interest on the \$2,000,000,000 war savings certificates at 4 per cent. Another authorizes the secretary of the treasury to prescribe rules and regulations for increasing or decreasing the allotments of bonds to individuals.

Fruit Must Be Properly Labeled.

East Lansing—Fruit grown and packed in Michigan this season will, under two new state laws which have recently become effective, be required to sell under its own colors and be all that its label proclaims it to be. Fruit growers will save themselves trouble if they will familiarize themselves with the laws, enforcement of which has been delegated to the state dairy and pure food commission, from which copies of the measures can be obtained.

Leaning-Tottering-Falling

ITALIANS SEIZE MOUNTAIN CREST

CAPTURE POSITIONS ON MONTE SAN GABRIELE AFTER THREE WEEKS' BITTER FIGHT.

THROWN BACK SEVERAL TIMES

Austrians Resist Desperately and Still Cling to Several Positions on Mountain Top.

Washington—The crest of Monte San Gabriele, commanding the plain of Gorizia to the south and southeast and the Frigido valley to the east, has been captured by the Italians after three weeks of the most bitter fighting, the Italian embassy at Washington announces.

This news of the victory, probably the greatest feat of the Italian arms thus far in the war, precedes the latest official report from Rome.

The Italian effort to capture San Gabriele began after the taking of Monte Santo, directly north, by General Cadorna's troops August 25. Several times the Italians had reached the summit of the great mountain, so important to their further progress east of Gorizia as well as on the Carso, only to be beaten back again.

On the slopes of the rugged rock in the last few weeks has occurred some of the heaviest and most sanguinary fighting of the war, with the Italians hurling themselves forward in desperate attacks and the Austrians holding to the crest as desperately.

San Gabriele's top was occupied by the Italians, the embassy reports, after the fortified hill or saddle of Dol and the Garagaro basin, the main bulk of San Gabriele, had been taken. The Austrians, however, still cling to some positions on the mountain. In the forest of Tarnovo, east of Monte San Gabriele, the Italians captured positions from the Austrians, after suffering heavy losses.

THIRTY-SECOND IN TEXAS CAMP

Long Step to France Taken By 1,800 Michigan Boys.

Grayling—Taking a long step toward France and the trenches, 1,800 Michigan boys in the Thirty-second infantry regiment and field hospital No. 1, left Grayling Sunday for Camp McArthur, Waco, Tex. "And we won't come back till it's over—over there," the band kept insisting.

The boys are carrying south a different spirit than they carried last year, when they went down to curb the unruly Mexicans. The sentiment of the band, "We won't come back till it's over—over there," seemed to be written on every face.

A magnificent tri-color of France was presented Sunday to the Thirty-first by Dr. Victory M. Seymour. He instructed the boys from Detroit to present the colors to France when they arrived there.

43 DIE ON TORPEDOED LINER

Big Atlantic Transport Minnehaha Sunk By Submarine.

New York—Confirmation of the destruction by a German submarine of the big Atlantic transport liner Minnehaha, with a loss of life, has been received by the line from its offices in England.

The cable said 43 of the crew perished and 110 were saved. Chief Officer Albany, C. A. Willis, purser, Dr. J. E. Barrett, surgeon, three other officers and three engineers, were among those who were lost. Captain Frank Claret, the Minnehaha's commander, and First Officer Pierce were saved.

Old Railroad Man Dies.

Hastings—T. Jefferson Bush, 74 years old, pioneer, one of the first passenger agents of the Grand River Valley division of the Michigan Central, is dead.

Brakeman Crushed Between Cars.

Flint—Crushed by the bumpers of two freight cars, George Newell, 23, a Pere Marquette switchman, died shortly afterward. His parents live in Paris, Ont.

ROBBERS MAKE \$9,000 HAUL

Bandits Blow Safe at Climax Bank Making Rich Strike.

Battle Creek—Six automobile bandits drove into the little town of Climax, 12 miles south of Battle Creek, in Kalamazoo county, early Saturday morning, cut all wires, held up the villagers and blowing open the safe at the Climax State bank, escaped with \$9,000.

The crime is one of the boldest ever perpetrated in this district. It took four charges of explosives and an hour's time to accomplish the work. It is believed the men escaped by way of Athens.

The robbery was carefully planned. The gang came in two automobiles, and about a mile out of town camped out and had a late supper. Just after midnight they entered the town, cut both the Bell and Independent telephone lines, and all the Grand Trunk telegraph wires. The operator, hearing them at work, put out his lights, and later flagged all trains. Several passenger and freight trains were soon tied up there.

Ten years ago the bank was entered by the same window that they thieves used this time. At that time they secured nothing.

Of the money taken, \$2,500 was in gold, and the rest in paper. A pile of silver dollars was left on the floor of the safe and paper money was scattered about the floor of the bank.

KAISER FAVORS POPE'S PEACE

Dispatch Says Teuton Reply Accords With Vatican's Proposal.

Amsterdam—The reply of the Central powers to the peace note of Pope Benedict, says a Vienna dispatch that they regard the Papal proposals as a suitable basis for peace negotiations.

Regarding the exchange of occupied territory, arbitration, disarmament and similar proposals, declarations are made, the dispatch adds, which testify to the idealism of the Central powers and their sincere desire for a peace that will insure happiness to all nations.

Conciliatory declarations also are made respecting the settlement of the Balkan question, Poland and the restoration of Belgium, but emphasis is laid on the condition that the Allied powers must also give serious evidence of a desire for peace by a joint and benevolent discussion of the questions which now separate the nations.

The reply, it is said, will be published as soon as the consent of the papal nuncio at Vienna is obtained.

"SUFFS" GET 30 DAY SENTENCE

Sent to Work House for Flaunting Banners at White House.

Washington—Thirty days in the work house was the sentence meted out by Judge Mullooly to six militant suffragists who have been flaunting banners at the gates of the White House.

The women had been warned of a six months' sentence. The sentence was made short, Judge Mullooly said, because of the innocent nature of their banners.

U. S. SUBMARINE SUNK IN PORT

Cause Not Determined—No Lives Reported Lost.

Washington—A United States submarine sank at her dock at an Atlantic port Saturday morning, the navy department announced. There was no loss of life.

The announcement said it was expected that the submersible would be raised within a few days when a full report of the accident would be made to the department. For military reasons the name of the submarine and the port were withheld.

To Re-try Michigan Buggy Case.

Battle Creek—Final disposition of the Michigan buggy cases may be made here this month when the trials of F. B. Lay and George Lay, charged with misappropriating funds of the Kalamazoo company, will be heard by Judge Walter B. North in the Calhoun county court during the September term. The cases have appeared in the Kalamazoo circuit court three times and on each occasion the jury disagreed. They have been transferred to this city to obtain a speedy disposition.

Object to Grading Wheat.

Saginaw—Elevator men oppose the action of government in allowing discounts of two to four cents a bushel for mixed wheat when the millers are willing to pay the same price as for the clear.

\$45,000 in State Catastrophe Fund.

22,000 U. S. PLANES IN WAR BY SPRING

GOVERNMENT PLANS TO HAVE MAMMOTH AIR FLEET READY EARLY.

PERFECT NEW LIBERTY MOTOR

Bids Fair to Revolutionize Aeronautics On Account of Lightness and Power—210 Miles Speed Attained.

Washington—With the perfection of the Liberty motor for airplanes, official announcement of which is made by Secretary Baker, the work of carrying out the mammoth air program of this government is being pushed with the idea of having 22,000 planes ready for use before spring.

This airfleet which is expected to "put out the eyes of Germany" and turn the tide of the war for the allies, is in course of construction, and it is learned that the present board of the council of the national defense, can see no obstacle to its successful consummation by spring.

From unofficial but reliable sources, it is learned that the Liberty motor bids fair to revolutionize aeronautics and that the statement concerning it issued by Secretary Baker was most conservative. With the motor standardization manufacture in large quantities can proceed with speed. Power and minimum weight are the qualities which are expected to make it superior to any foreign motor.

The engineers have reduced the weight to one and three-quarters pounds per horsepower, which means that a 250-horsepower motor will weigh less than 500 pounds.

Details are held back, but it is learned that already American planes, equipped with the Liberty motor have reached a maximum speed of 210 miles an hour. By multiplying the motors used this speed can be increased indefinitely and the carrying power of the plane can be increased accordingly. Two, three and even more motors may be used in the big battle planes.

KAISER FAVORS POPE'S PEACE

Dispatch Says Teuton Reply Accords With Vatican's Proposal.

Amsterdam—The reply of the Central powers to the peace note of Pope Benedict, says a Vienna dispatch that they regard the Papal proposals as a suitable basis for peace negotiations.

Regarding the exchange of occupied territory, arbitration, disarmament and similar proposals, declarations are made, the dispatch adds, which testify to the idealism of the Central powers and their sincere desire for a peace that will insure happiness to all nations.

Conciliatory declarations also are made respecting the settlement of the Balkan question, Poland and the restoration of Belgium, but emphasis is laid on the condition that the Allied powers must also give serious evidence of a desire for peace by a joint and benevolent discussion of the questions which now separate the nations.

The reply, it is said, will be published as soon as the consent of the papal nuncio at Vienna is obtained.

Feed the Fighters! Win the War!!

Harvest the Crops—Save the Yields

On the battle fields of France and Flanders, the United States boys and the Canadian boys are fighting side by side to win for the world the freedom that Prussianism would destroy. While doing this they must be fed and every ounce of muscle that can be requisitioned must go into use to save this year's crop. A short harvest period requires the combined forces of the two countries to team work, such as the soldier boys in France and Flanders are demonstrating.

The Combined Fighters in France and Flanders and the Combined Harvesters in America Will Bring the Allied Victory Nearer.

A reciprocal arrangement for the use of farm workers has been perfected between the Department of the Interior of Canada and the Department of Labor and Agriculture of the United States, under which it is proposed to permit the harvesters that are now engaged in the wheat fields of Oklahoma, Kansas, Iowa, North Dakota, South Dakota, Nebraska, Minnesota and Wisconsin to move over into Canada, with the privilege of later returning to the United States, when the crops in the United States have been conserved, and help to save the enormous crops in Canada which by that time will be ready for harvesting.

HELP YOUR CANADIAN NEIGHBOURS WHEN YOUR OWN CROP IS HARVESTED!!!

Canada Wants 40 000 Harvest Hands to Take Care of its 13,000,000 ACRES WHEAT FIELD.

One cent a mile railway fare from the International boundary line to destination and the same rate returning to the International boundary.

High Wages, Good Board, Comfortable Lodgings.

An Identification Card issued at the boundary by a Canadian Immigration Officer will guarantee no trouble in returning to the United States.

AS SOON AS YOUR OWN HARVEST IS SAVED, move northward and assist your Canadian neighbours in harvesting his, in this way do your bit in helping "Win the War". For particulars as to routes, identification cards and places where employment may be had, apply to Superintendent of Immigration, Ottawa, Canada, or to

M. V. MacINNES, 176 Jefferson Ave., Detroit, Mich. Canadian Government Agent.

Sure. Husband—The agent said that this car was easy. Wife—He must have got you and the car mixed. Dipping in a strong solution of alum will give new life to old hair brushes. A new rapid-printing machine for photographers will make 10,000 prints in a day from negatives. DOAN'S KIDNEY PILLS

CHIEF ENGINEER IS ON THE JOB HE SAYS

Had Reached the Place Where He Feared He'd Have to Quit Work.

GAINED FORTY POUNDS

"It's Been Twenty-Five Years Since I've Felt as Well as I Do, Since Taking Tanlac," He Says.

"It's been twenty-five years since I felt as well and strong as I do now after taking this Tanlac," said O. H. Mahaffey, chief engineer of the Life & Casualty Building, Nashville, Tenn., in an interesting interview a short time ago.

"After I had suffered for two whole years with a serious stomach trouble and was told that only an operation would relieve me," he continued, "I grew so despondent over my hopeless suffering that I was just about to give up my job. I had gotten to the place where I couldn't eat a thing but oatmeal and sweet milk and even then the pains in my stomach and through the small of my back kept me in misery nearly all the time. I couldn't sleep at night and grew weaker and weaker until I didn't think I'd ever get any better.

"It's no wonder that I praise Tanlac now and am telling all my friends about it. After taking it a day or two I found that I could eat most anything I ever could, and from that time on I have improved. Those pains in my back and stomach left me shortly and I began to pick up. I have actually gained forty pounds in weight since I started taking Tanlac and I feel better than I have in twenty-five years. I can sleep all night like a healthy child and get up in the morning full of life and energy. I am glad to tell anybody who wants to know just what Tanlac did for me."

There is a Tanlac dealer in your town.—Adv.

Don't be blind to the virtues of an enemy or the shortcomings of a friend.

CLEAR YOUR COMPLEXION

While You Sleep With Cuticura Soap and Ointment—Trial Free.

On retiring, gently smear the face with Cuticura Ointment, wash off in five minutes with Cuticura Soap and hot water, and continue bathing a few minutes with the Soap. The influence of this treatment on the pores extends through the night.

After a woman reaches a certain age she never mentions it.

SMALL PERCENTAGE OF MEN REJECTED

ONLY FOUR PER CENT OF FIRST DRAFT REFUSED BECAUSE OF PHYSICAL DEFECTS.

BAD TEETH IS MAIN REASON

Serious Defects, in Most Cases, Were Discovered by Draft Boards Before Men Were Sent.

Lansing.

Less than 4 per cent of the men from Michigan and Wisconsin sent to Camp Custer on the first draft are in danger of being rejected.

The result of the rigid examinations has delighted the division surgeons, who had expected to lose 10 per cent of the men in the final culling.

Michigan sent 1,600 men to Camp Custer in the first increment, and only 52 men have been rejected. Bad teeth seems to have knocked out most of the half hundred—teeth so bad that dental work could not bring them up to the regular army requirement of at least two teeth on upper and lower jaws that come in contact to permit the grinding of food. Ear trouble is next in eliminating men. Colonel C. K. Bartlett is positive the men's ears went wrong before they left home or while they were on the way to Battle Creek.

Ordinary defects were generally discovered by the draft boards in time to save the government unnecessary expense—and yet a man was sent to Camp Custer from Detroit minus every finger on his right hand. He could scarcely carry a gun, let alone fire one, and Lieutenant-Colonel Duncan K. Major of the 33rd infantry, was astounded.

"I begged and begged the draft board to send me to Battle Creek," the man explained, "I'm healthy and strong and can use what's left of my right hand. I figured if they let me into camp they would find me something I could do for my country. Surely there is some department that can use me."

But the fingerless Detroitier was turned down, while another part of the camp they were considering what should be done with a drafted man who shot off his index finger to avoid service.

Camp Formally Opened Oct. 23.

Camp Custer will be thrown open formally to the relatives of the national army men at the cantonment and to the officials of Michigan and Wisconsin October 23.

The Battle Creek Chamber of Commerce, working in conjunction with Major-General J. T. Dickman, commandant of the camp, will prepare to entertain relatives of the men at camp. Governor Sleeper and his staff, the Michigan delegation in congress and the governor of Wisconsin and his staff and the Wisconsin congressmen have been invited.

Winter at Camp Is Prospect.

When the whole situation is analyzed one is sure to come to the conclusion that the boys now at Camp Custer will not be sent abroad as early as first reports indicated.

For example: You ask a brigadier how soon he could take his brigade to France. Being a soldier, he limits his answer to the question you ask. He says he could move his brigade to France as soon as it is organized, which would be about four months.

If you jump to the conclusion that he has announced that he would have his troops ready to enter the trenches in four months, you have jumped wrongly. He has only said that he would have his organization complete and ready to move as an organization in four months.

It would be desirable to send his brigade abroad for training in France it could be done. But you have to emphasize the "could" in that sentence. It "could" be done, just as Camp Custer "could" be torn down again and piled up as lumber. But what would be the use? Why take an American army across the sea merely to train and impose that vast and needless burden on the allies overseas' food supply.

They can't go until they learn to shoot and no one knows how long it will take to teach them. A company of men could be trained to the rifle in two or three weeks. But when you have 40,000 to train it is another matter. You don't have 1,000 ranges and you can't have 10,000 targets. The men might learn fast enough, but the work of teaching them all and giving each man the individual instruction he needs may be somewhat slow.

Coldwater Man On Education Board.

Governor Sleeper has appointed Thomas E. Johnson, of Coldwater, member of the state board of education to succeed Dr. T. W. Nadal, of Olivet, resigned.

Military Training at M. A. C.

The thousand or so young men who will become students at the Michigan Agricultural college when it opens for the fall term, October 10, will be given a thorough course in military training. It was feared when war was declared that the government's call would leave the college regiment without leaders, but arrangements have since been made which assure the maintenance of the department of military science and tactics under the direction of two regular army officers.

Soldiers to Come Home Healthy.

America will attempt to bring back her soldiers as healthy and wholesome as when they left their homes.

Frederick H. Holt of Detroit told the Camp Custer boys this at the first general meeting held at the camp under auspices of the war recreation commission.

Mr. Holt spoke from a wide experience and a familiarity with the subject gained by first hand associations with conditions in Europe.

Mr. Holt told briefly of the dangers of soldier life, declaring that one-third of the losses of the countries now at war were caused by social diseases contracted by the soldiers while in training camps. And he told of the effort this country is making now to avoid this evil.

"Wherever you go, don't forget that besides being soldiers you are also citizens in the great republic and so conduct yourself that you will come back to your mothers and sisters with as fine a manhood as when you entered the army."

Road Construction Lags.

Camp officials are urging the construction of the concrete highway between Battle Creek and the camp be rushed.

While this work is now going on, the camp authorities complain that at the present rate of building the work cannot be finished before spring. They point with pride to the progress inside the camp where three miles of similar highway is open to traffic after three weeks' work.

The Battle Creek highway to the reservation is to be used for practically all of the heavy traffic and meanwhile other roads are being cut up so badly that ordinary motor cars make the trip with difficulty.

Lots of Good Seed Grain in State.

A review by the Michigan Agricultural college of the pedigree grain situation in the state has disclosed a fine condition of preparedness among farmers for the food campaign in 1918. No less than 400,000 bushels of Rosen rye, it has been found, are available for fall planting and will in all probability be used for seed. The danger has arisen, however, that Michigan may get but a small part of this rye, for outsiders are reported to be taking it up quickly.

U. S. Wants 900 Telegraphers.

Gov. Sleeper has been asked to obtain 900 telegraphers for service in the United States signal corps. Classes have been organized in many towns and villages throughout the state. Several public schools will teach telegraphy.

CAMP CUSTER NOTES

Double floors, with oil paper between the layers, will be laid in all barracks.

Eight 10-inch wells will be used to fill four tanks, each with a capacity of 200,000 gallons. The water now used in camp is being furnished from one of these tanks.

Every regiment in the division will have its own post exchange, where delicacies and soft drinks may be purchased. The profits go to the mess fund of the regiment.

Workmen at the camp say they are better fed at Custer than in any cantonment they have worked on, and many of them have been employed on several of the new camps.

Bookstores in Battle Creek will do a lively business in books relating to military life. Officers have numberless requests from men for information concerning books which will help them to master their work and prepare.

In the first of the Y. M. C. A. buildings to be finished is an immense fire-place, into which huge logs are fed. Aside from their heating qualities that corner of the room is proving a magnet because of its crackling cheer.

Magazines to contain the ammunition will be constructed in an isolated section of the camp and will be built of lath and cement. The architecture is so arranged that in case of an explosion the roof will blow off easily and leave the walls standing.

A Chicago firm has made a successful bid for camp garbage. It pays a stated sum per month for each man in camp and will treat the stuff in a gigantic incinerator now being constructed, after which it will be taken to a farm several miles away and fed to hogs. It is expected there will be 25 tons of refuse daily.

Because of the army regulation which forbids a soldier from having in his possession or wearing civilian clothes, there will be millions of suits to be disposed of. Probably realizing a sentiment which would preclude many men from sending them home, a New York firm has asked the privilege of sending representatives to the different cantonments to buy them. So far as Camp Custer is concerned their request was turned down.

One reason given by the medical department for the small number of rejections of the first unit of selected men on physical examination is that only a high type of men were selected and that having lived clean lives they are fitted to be soldiers.

A telephone exchange is to be established in camp, with 12 girl operators for the day shift and men for the night. The girls will be the only women employed in camp, will be taken out in an automobile in the morning and must leave camp immediately after their work is finished.

STATE NEWS

Rochester—The Rev. Carl Lempster, former Lutheran minister here, denies he is dead. He had been reported killed at Fort Leavenworth, Kan., but insists he still is rector of a church in New Hamilton, W. Va.

Pontiac—One hundred Christmas cheer bags, containing about a dozen small presents apiece for soldiers in France, were shipped by the Wednesday Sewing club. Later a bag will be sent to every Pontiac soldier in American camps.

Pontiac—Willis C. Ward, land owner of Orchard Lake, has agreed to provide about \$5,000 toward building a concrete road to the shore of Orchard lake if the route can be changed to occupy high land giving a view of both Cass and Orchard lakes.

Pontiac—Independence, Springfield, Groveland and Holly township farmers and residents of the village of Clarkston are more than enthusiastic over getting a portion of the Dixie trail laid with the assistance of the federal government through the northwestern part of the county on the Pontiac-Flint Indian trail.

Saginaw—W. J. Orr, president of the Michigan Bean Jobbers' association and chairman of the National Bean Supply committee, announced at a meeting of the Thumb Bean association he had died a protest against the government price of \$7.35 a bushel for Michigan beans. He had previously recommended \$7.80. He declared the prices for beans for the army and navy would ultimately become the prices for the civilian population and allies. At the planting season Mr. Orr guaranteed farmers \$5 a bushel.

Howell—Howell township has voted \$13,000 with which to improve the Detroit-Lansing highway in this township.

Escanaba—William J. Christie, 21 years old, seaman, was killed when he fell through a hatch into the hold of the steamer Hydus.

Flint—The city proposes to purchase Thread lake, adjoining the city park, which would be dredged and made into a bathing beach.

Ann Arbor—Leslie F. Merch, of Brooks, Me., is here to supervise instruction in army stores and ordnance and quartermasters' supplies at the university.

Morenci—Because her husband was selected for the army, Mrs. Earl Schoonover, 22 years old, killed herself. Mrs. Schoonover had frequently remarked that she could not bear to have her husband taken away from her.

Pontiac—Chin Poy won't have to go to war. Chin is a Chinese restaurant man and registered June 5. Later he claimed he was 32 years old, but the local board would not release him. He had been certified to entrain September 21, when the district board ordered his release.

Charlotte—Sweet potato flour is among the war possibilities. G. E. Field, of White House, Fla., who is visiting his old home here, has a sample of flour made from sweet potatoes. The flour looks like wheat flour except for a grayish color. A very palatable bread has been made from it.

Lansing—Of 2,600 nurses registered in Michigan, only 400 are members of the Michigan State Nurses' association. Members plan a campaign to show that credited nurses who fail to ally themselves with other members of their profession, cannot do their best work. A nurse in this state must belong to the association to enlist in Red Cross service.

Grand Haven—John Bosh, 17 years old, arrested for larceny, confessed to trying to set fire to the Ferrysburg school, by breaking into the superintendent's office late one night and igniting papers soaked in kerosene. The fire was extinguished by firemen. He also admitted that he placed a huge rail across the Grand Trunk tracks, but failed to wreck a train, because the engineer saw the rail and stopped.

East Lansing—Blight, frost and a relatively new disease known as "mosaic," have greatly damaged the bean crop throughout the state. M. A. C. field agents report after a personal inspection. Samples submitted to the laboratory here show that much of the seed used last spring was unfit for planting, considerable indicating the presence of blight. Growers are cautioned not to make this error next year.

Jackson—The Hooverized diet which Warden Disque has introduced in Jackson prison is pleasing to the inmates because they now get three warm meals a day. Formerly the evening meal was served in the cells. Now the men get a hot evening meal in the big dining room. This cuts waste on the daily meals from 1,100 to 1,200 pounds. It also increases the efficiency of the men, according to the warden. The prison is allowed 22½ cents a day for each of the 1,336 prisoners' meals.

Ann Arbor—Miss Amata G. Gray, who has been at the point of death since she was injured in the cyclone of June 6, will recover. Surgeons have grafted 28 pieces of skin on her leg.

Flint—Members of the Flint women's council, the Genesee County Federation of Women's clubs and the Manufacturers' association have laid plans for the launching of a campaign for a tuberculosis sanitarium in Genesee county. Petitions were prepared for circulation among the taxpayers asking the supervisors to submit a \$100,000 bond issue for the purpose.

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old."

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga. — "I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited."

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

For Unruly Window Shades.

When a roller window shade refuses suddenly to remain unrolled at a certain point, a handy kink is to insert a small wooden wedge, such as a match or toothpick, between the unrolled curtain and the roller. This is only an emergency device, and may injure the fabric if repeated often at the same point.

"Wife a Good Sport."

W. S. Desmond, a carpenter of Huntington Lake, Cal., is above the selective draft age limit, but he wanted to join the army.

They matched and talks won. Desmond enlisted in the field artillery. "My wife's a good sport," he told the recruiting officer.

IT NEVER FAILS TO END MISERY OF PILES

"Hundreds of people in this vicinity," says Peterson, "know of the mighty healing power of PETERSON'S OINTMENT in eczema, salt rheum, old sores, itching skin and ulcers. They know it cures these ailments—that it is guaranteed to cure them."

Now I want to say to every sufferer from piles, either blind, bleeding or itching, that I will guarantee that a 25-cent box of PETERSON'S OINTMENT will rid you of piles or your druggist will return your money.

"For years I suffered terribly with itching and bleeding piles. I tried everything and despaired of ever getting rid of them. It gives me great pleasure to state that Peterson's Ointment entirely cured me, and I sincerely recommend it to all sufferers."—Yours truly, David A. Seymour, Wupt. of Parks, Buffalo, N. Y. Adv.

An Illuminating Postcard.

A young girl of plebeian ancestry achieved fame as an actress in London. Feeling the necessity, however, of a rest from her labors, she wrote to her uncle, a police sergeant of a county village, asking him if she might come and stay with him to recuperate. She ended her note: "Please send a P. O. to say if I may come."

A few days later her landlady rushed upstairs with an avestricked countenance—a policeman wanted her! The girl descended with an ominous feeling at her heart, says London Tit-Bits.

"If you please, miss," said the stout being who confronted her, eyeing her with stern disapproval; "I'm the P. O. what you asked your uncle to send, but I may as well tell you straight away as I'm a respectable married man. Your uncle's prepared to take you in if you're willing to make yourself useful—feed the pig, clean his office, and the two cells."

The New-Fashioned Girl.

Oldboy—What's become of the old-fashioned girl who used to say: "Ask father?"

Newgirl—She now has a daughter who says: "Give it more gas, George; the old man is gaining on us."—The Lamb.

The knocker's chief joy in life seems to be to see somebody else fail.

Deliberation is a good thing that has broken few records.

THE CHELSEA TRIBUNE
Ford Axtell, Editor and Prop.

Entered at the Postoffice at Chelsea, Michigan, as second-class matter.

Published Every TUESDAY AND FRIDAY

Office, 102 Jackson street

The Chelsea Tribune is mailed to any address in the United States at \$1 the year, 50 cents for six months and 25 cents for three months.

Address all communications to the Tribune, Chelsea, Michigan.

LINER ADS EFFECTIVE.
One of the most effective forms of advertising is in the "liner" or classified column where an investment of a few cents is certain to give prompt results. Tribune liner ads are always run in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

Any policy of public regulation of railways that does not stimulate the production of transportation by attracting new capital savings is manifestly an uneconomic policy and opposed to the public interest.
Outlook, July 25, 1917

An Economic Necessity

THE country's business is growing faster than its railroads. It has been so for 15 years. This cannot continue without irreparable injury to commerce and industry.

The New York Central Lines
"America's Greatest Railway System"

are looking and planning ahead. Expenditures by these lines involving hundreds of millions of dollars will be necessary in the next few years to meet the demand for increased transportation facilities. The money may come partly from earnings; but most of it must come from public investment.

The public will invest only when assured a reasonable return. Governmental regulation must therefore be such as to attract new capital savings.

The railroads must be permitted to charge rates that will earn a return sufficient to cover the constantly mounting costs of operation, pay interest on bonds, reasonable dividends on stock and provide a surplus for equipment, improvements and extensions.

FALL OPENING THIS WEEK

Service in Coats a Wooltex Motto

Grand Opening Week in Smart Wooltex Models For Fall and Winter

Now is the time for you to think about your fall suit. You will be looking for something smart, of course, finely tailored, and as serviceable as it is smart.

Women are more than ever careful about value, too, since war conditions have raised prices and made qualities uncertain.

In spite of these conditions, our connection with the celebrated Wooltex house has stood us, and you, in good stead.

Here is a most notable showing of Wooltex Coats for fall—the new style ideas of the metropolitan fashion centers, with all-wool fabrics and the Wooltex standard of tailoring and finish.

You will be well pleased with these Wooltex styles and Wooltex values—exclusive with this store. You will not find their equal anywhere in town.

For neat, attractive, up-to-the-minute job printing try The Tribune—call us up.
