STRIKES AUTOMOBILE George Miller of Manchester Was Painfully Cut and Bruised

Painfully Cut and Bruised Monday Morning. An automobile owned and driven by George Miller of Manchester was

oadly wrecked. The accident occurred just west of the D. J. & C. station and the inter-

the D. J. & C. station and the inter-urban was slowing down for the regular stop. Both the crossing bell and the wig-wag signal were in operation, but Mr. Miller apparently did not see them. He drove directly into the path of the interurban, which struck the automobile about its middle and maked it into the its middle and pushed it into the gutter on the east side of the street and just south of the tracks. The automobile was overturned and both

No Knitted Articles Are Being Sold

Says General Manager.

A story is being circulated to the effect that sweaters, socks and other articles knitted for the Red Cross are being sold either to the public in tores or direct to the soldiers. Harvey D.º Gibson, General Manager, American Red Cross, has asked us to publish a notice denying this story vigorously. No articles whatever either knit-

ted or otherwise made by Red Cross workers turned in to any Red Cross chapter, branch, or to auxiliaries, or to any Red Cross supply warehouse are sold either to the soldiers or to Mr. Gibson warns that if any willful case of this sort should come to

the attention of Washington head-quarters, the charter of the Red Cross chapter or subsidiary organi-zation sanctioning it would be im-mediately withdrawn with full pub-licity. Should it transpire that any actual instance of the above character occurred wherein an individual sold articles after their having been turned in to the Red Cross, such action would be clearly in violation of the fundamental law of the Red Cross and he would take vigorous teps to prosecute the offender.

OF CONGRESS

During that time more than 10,000 army, navy and marine corps nominations sent to the senate were conirmed, among them the advancement of Major General Pershing, comman der in chief of the armies in France, and Major General Bliss, chief of staff, to the rank of full general, held only four times previously in American history. The only important appointment held up was that of Col. Carl Reichmann, to be a brigadier general. Ac-

tion was blocked until the December session because it was charged he ut tered pro-German sentiments. An unprecedented feature of the session was the reception of the spe-

cial missions sent to the United States by the allied governments, and the special representatives of Great Britain, France, Belgium, Italy, Russia and Japan addressed both houses. Invitations of the British and French governments to have the United States send a congressional mission across the Atlantic to see war conditions and co-operate with the interparliamentary congress were rejected.

Important Measures Passed, Following is a list of the most im-

portant measures passed by congress: Resolution declaring a state of war exists between the imperial German government and the government and

the people of the United States and making provision to prosecute the same. On April 2 the resolution for war against Germany was introduced in the house and on April 6, or four days after the assembling of congress, the president attached his signature to the measure. No delay was involved in the passage of this resolution, perhaps the most important ever offered either in this or any other congress.

## New Mark Again Set.

Act appropriating \$5,356,666,016.93 to supply deficiencies in appropriations for the fiscal year 1918 and prior years on account of war expenses and for other purposes, and authorizes contract obligations to be met by future congresses amounting to \$2,401,458,-393.50. This is the largest appropriation act passed by this or any other country. This act makes further appropriations of \$635,000,000 for the emergency shipping fund and raises the limit of cost to carry out the purposes of the shipping act to \$1,734,-000.000.

Act to define, regulate and punish trading with the enemy and for other purposes, and appropriates \$450,000 to enforce the provisions thereof.

Act to provide revenue to defray war expenses. This measure provides approximately \$2,500,000,000 of revenue with which to pay the expenses of the government.

Act to provide a military and naval family allowance, compensation and insurance fund for the benefit of soldiers and sailors and their families, and makes an appropriation therefor of \$176,250,000.

## 50,000 BELGIAN HOUSES GONE

### Germans' Record of Destruction Shown by New Gray Book Issued by Government.

Havre, Oct. 8 .- The Belgium government has issued a gray book to refute allegations against Belgium civilians contained in the German white book of May, 1915, in which it was said Belgian civilians savagely attacked German troops in the early days of the war and that the measures adopted by the Germans were necessary in the interest of preservation of the German army. According to the gray book, between 40,000 and 50,000 houses were destroyed by the Germans.

Altogether Satisfactory Desk for Her Typewriter. The important thing about it is the

fact that if she had not had to sell her conservative mahogany typewriter desk she never would have discovered what a satisfactory sort of typewriter Act appropriating \$162,500,000 to desk a packing box may be. The provide further for the national secur- packing hox must be, of course, of convenient size and of some stability. Then, with the open side toward you, the typewriter on top and your knees inside, you may be very comfortably fixed. It is plain to be seen, of course of bonds to meet expenditures for the that when you are done writing you remove your knees from within the box and put the typewriter in their place. It is the same idea as a type ditional credit to foreign governments, writer desk in which the machine is shut when not in use. The thing is in Itself a remarkable discovery, and, like most remarkable discoveries, it came ed States for foreign governments by in the nick of time. A trunk is no sort of place for a typewriter at all, and a chair is not any better. There are always possibilities in a diningroom table, but one can never feel that a dining-room table is all one's own, and then where would you be putting the typewriter at meal timesall provided, of course, that there was dining-room table and not just a white enamel sanitary restaurant af-

fair or a dairy-lunch chair? At any rate, the important thing about the discovery was, as has been said, the fact that it was the necessity of selling the mahogany desk that and cleverly arranged hinges exists made it possible. It is only by neces sarily having to do without a lot of things that we can discover the advantages of a lot of other things-a vague and ambiguous statement, but a comforting truth. The typewriter desk is only an example of the obvious fact that the value of mahogany and glue is largely in our magination, or perhaps, more truthfully, in our lack of imagination. We think we have to have them, but we only think so because others think so and because, as far as furniture and things like that are concerned, we are accustomed to think what other people think.

## A Hard Knock.

During the cross-examination of a young physician in a lawsuit the plain tiff's lawyer made disagreeable remarks about the witness' youth and inexperience.

"You claim to be acquainted with the various symptoms attending con-cussion of the brain?" asked the lawyer. "I do."

"We will take a concrete case," continued the lawyer. "If my learned friend, counsel for the defense, and myself were to bang our heads together, would we get concussion of the braip?"

The young physician smilled .- "The probabilities are," he replied, "that the counsel for the defense would."

## For Forty Years Lydia E. Pinkham's Vegetable Compound has Relieved the Sufferings of Women.

It hardly seems possible that there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.
