## ROY HADLEY IS TERRIBLY BEATEN

### Alleged Savage Assault Made By Charles and Harrison West.

Charles and Harrison West of Sylvan were arrested Friday afternoon by Officers Roy Evans and Roy Billon upon warrants sworn out by Roy Hadley, charging assault and battery.

Hadley is a tenant upon the Bert West farm in Sylvan and as a result of a dispute the two were involved in a law suit which was scheduled for trial Friday in Ann Arbor. Hadley was going to Ann Arbor on the D. J. & C. car which is due in Chelsea at 8:30 and was awaiting it at the West Guthrie crossing.

Hard feelings had existed between the Wests and Hadley for some time past and it is said that in an altercation several weeks ago regarding a huckleberry swamp, Hadley struck and broke Charles West's arm. The latter is said to have repeatedly threatened that he would "get even," and Friday he made good the threat. It is said that Charles started to even up his score against Hadley when he found him awaiting the car and that Harrison West helped the job along.

At any rate, Hadley was roughly handled and might have suffered more serious injuries but for the timely interference of O. O. Floyd, son-in-law of Samuel Guthrie, armed with a gun.

The hearing of the case will be held Tuesday morning, November 13th, at 10 o'clock before Justice H. H. Avery.

## RESCUE OF PRINCE HAL

### Successful Amateur Play Given By High School Seniors.

The senior class of the Chelsea high school gave a successful play Friday evening, November 2d, in the Sylvan town hall. The parts were all well taken and the house was crowded to capacity. The cast of characters follows:

Mr. Sidney Parker, nominal head of the house, who has builded his house on Easy street.

Robert Lawrence, Mrs. Sidney Parker, reigning head of the house, who has social ambitions.

Charles Wright, Louise Parker, their daughter, whose desires can mostly be satisfied by money.

Helen Vogel, Wellington Parker, their son, a successful financier in the making.

Leonard Shepherd, Harry Henderson Hess, a vagrant nephew, who is going to school on the side.

Gilbert Clark, Mrs. Catherine Colvin, their richest aunt, who contemplates giving away her money before she dies.

Esther Collins, Mr. Andrews Martin, an elderly uncle, who views with alarm the family's growing social prestige.

Herbert Vogel, Madeline Tracey, of New York City, who is quite approachable in spite of her clothes.

Vivian Gorton, Emma, a ridiculously pretty housemaid.

Glady's Shepherd.

## JUDGE KINNE WILL RETIRE

### Veteran Jurist Will Complete Long Service With Close of Year.

Judge Edward D. Kinne tried what is probably his last civil case as judge of the Washtenaw county circuit court Friday, and made probably his last charge to a civil jury a little before half-past six o'clock Friday evening. The judge spoke with considerable feeling on this occasion, for it marked the beginning of the end of his service in that court which has extended over a period of 30 years.

With the end of the year Judge Kinne will retire from the Washtenaw county circuit court. In December he will preside over a criminal term, and during the remainder of the year will hear chancery cases.

## TOWNS MUST PROVE WORTH.

Every little village has an ambition to become a trade center and a boom city, with no special natural features or geographical advantages.

Under such conditions what is most needed is some enterprise on the part of its local capitalists. They must make the first advance in the uncertain field of development. They must capitalize small factories and see that they are kept employed. When the local business is finally developed and proves to the world that they are successful, then outside enterprises will be sure to step in and enjoy your prosperity with you. Just like a fellow who finds a favorite fishing hole and catches fish and all the other fishermen who see that he is catching fish, will drop their hooks right by the side of the lucky fisherman. The business men of any town should stop talking and hoping for others to do something for the town. They should get together themselves and prove to the world that they have a money-making to own. No outsider will want to fish in our swimming hole until we prove that that they can catch fish.

## NOTICE.

The parties who blocked my gate while stealing my chickens at one o'clock Saturday morning and who I chased across the fields and whose automobile I met and who I chased the license number and who I chased with my automobile as far as the Schanz farm, should call and settle or I shall prosecute to the full extent of the law.

## A QUARTER CENTURY AGO IN CHELSEA.

Ladies wore bustles. Operations were rare. Nobody swatted the fly. Nobody had seen a silo. Nobody had appendicitis. Nobody wore white shoes. Nobody sprayed orchards. Cream was five cents a pint. Most young men had "livery bills."

Cantaloupes were muskmelons. You never heard of a "tin Lizzie."

Doctors wanted to see your tongue.

Milk shake was a favorite drink.

## MRS. HUGH SHERRY:

The following obituary notice clipped from the Pasadena news of a Los Angeles paper will interest the many friends of the late Mrs. Hugh Sherry, for many years a resident of Chelsea:

After a lingering illness borne with characteristic patience and sweetness, and consoled by the last rites of the church to which she was so truly devoted, Mrs. Isabel Elizabeth Sherry passed to her eternal reward in the early morning hours of Friday, October 19, 1917.

Mrs. Sherry came to Pasadena from Chelsea, Michigan, early in January of the present year, making her home in an attractive little bungalow at 620 North Chester avenue, where she resided until the time of her death.

She was delighted with climatic conditions of the west, and for a time her health gave signs of improvement, but she was not destined long to enjoy her pleasant environment, where she formed many new and close friendships. Her charming personality and her lovable traits of character drew to her a large circle of friends. Fittingly might the words of the poet be applied to this gentle, kindly lady:

None named her but to love her, None named her but to praise."

Many beautiful floral tributes spoke silently but eloquently of the thoughts inspired by the memory of the departed one, and the room where the casket reposed prior to the funeral services was a veritable garden of beautiful blossoms of every variety.

On Saturday morning, at nine o'clock, the Requiem Mass was celebrated in St. Andrew's church, Rev. Daniel Neman officiating.

The following gentlemen acted as pall-bearers: Mr. H. L. Mout, Mr. Thomas Casey, Mr. A. C. Lee, Mr. Wm. McGrath, Mr. John Tierney, Mr. Thomas O'Callaghan.

Interment was made in Mountain View cemetery.

## SUPERVISORS MUGGED

### Have Pictures Taken and Adjourn to Tuesday, January 8th.

The board of supervisors completed their labors for the year Friday afternoon and adjourned to meet in special session on Tuesday, January 8th.

Friday morning the annual photograph was made. The picture was taken in front of the county court house immediately before dinner when the members were feeling particularly pleasant in anticipation of a good dinner, and provision was made for an extra copy of the picture to be hung in the supervisors' room.

## MY COUNTRY, ALWAYS.

Every American citizen should get this important fact: We are fighting for a principle of everlasting right and against a practice of everlasting wrong. That the German nation happens to be in the wrong is no reproach to the millions of that blood who are not only among us, but of us. On the other hand, if their loyalty is of the right brand they will recognize the faults of their kinsmen, and while possibly not disclaiming those kinsmen, they most certainly disclaim any sympathy with them or their ambitions, especially with their acts.

Lets get this thing right on the start. We have no apology to make for our actions. This country is in the right, and those who do not like her course are at liberty to take themselves and their objections to some other country—which would be the most decent thing they could do.

## SURPRISES BOLD CHICKEN THIEVES

### M. L. Burkhart Catches Gang Stealing His Poultry.

Roused from slumber by a burglar alarm early Saturday morning, M. L. Burkhart dressed hurriedly and surprised a gang of chicken thieves helping themselves to his flock of poultry.

The men fled across the fields to a waiting automobile and Mr. Burkhart got out his machine and followed the thieves, who drove north. Mr. Burkhart lost track of them near the Schanz farm, but not until after he had noted the license number on the car.

The next morning, following the tracks of their machine, he found that the thieves had turned into a lane at the Schanz farm and had probably turned off their lights and stopped the motor and so evaded the pursuing machine.

Mr. Burkhart says he knows who the parties are and he has a notice to them in another column.

## U. S. HOSPITAL IN ANN ARBOR

### Government Will Send Major King to Investigate Site.

It looks at this time very much as though Ann Arbor will get one of the reconstruction hospitals, which it is planned to erect in different parts of the United States, to care for the wounded soldiers that will be sent back to this country from European battlefields.

Major King of the surgeon general's office, in Washington, who has charge of the construction work, has written President H. B. Hutchins that he will visit the university in this connection, within a very short time.

These hospitals are not alone for the care of the wounded and convalescent men, but also to fit those men physically handicapped through their participation in this war, from gaining a livelihood in their old vocation, to learn new vocations, suited to their present physical condition, through which they will become self-supporting. The university offers many advantages for the establishment of such a hospital there, and the wounded men, would, besides, have the advantage of the medical and surgical skill of the staff of the University hospitals.

## AUCTION SALE HOLSTEINS.

By Washtenaw County Holstein-Friesian Cattle Breeders Club at Ypsilanti Farms, 1 1/2 miles west of Ypsilanti, Michigan, on electric line, November 14, at 10 a. m.

The sale will comprise over 50 head from the herds of the members of this Breeder's club. Over half of the offerings are cows, a majority being either in the advanced registry (one or more over 25 pounds) or out of A. R. O. dams. They are fresh or bred to high class sires to freshen thru this fall and winter. The balance of the females are heifers under two years.

Fifteen grandmothers and six great granddaughters of King of the Pontiacs and Pontiac Korndyke are among the attractive offerings.

King Pontiac Jewel Korndyke No. 94184 will be offered, simply because the herd he has headed for four years finds it necessary to avoid inbreeding to dispose of him. He is a son of King of the Pontiacs, the greatest living dairy sire with more 30 pound daughters, more 40 pound daughters, and more A. R. O. daughters than any other living sire. His dam is a daughter of De Kol 2d's Butter Boy 3d, and his grandam a daughter of Pontiac Korndyke. He has 10 A. R. O. daughters to his credit and many more coming to test. This is an unusual opportunity for one or more breeders to procure a tested sire, gentle and all right in every way and right in his prime. Besides "King" will be offered three young sires.

Other sires represented in the offerings in this sale are: King Lunde Pontiac Korndyke 15th No. 142487, out of a son of King of the Pontiacs and a daughter of Pontiac Korndyke.

**HOLES IN OTHER STOCKING**

Aristocratic Customer Undone by Impatient Clerk, Who Pulled Off the Wrong Shoe.

The aristocratic and plutocratic looking young woman walked into the downtown shoe store, says the Indianapolis News, and demanded a fitting. (Demanded was the tone of voice.) Majestically she lowered herself into the regulation seat proffered her by the manager of the department and he assigned Classy Charles, the fiftiest matinee idol in the shop, to the customer.

The woman began by asking to see everything that was shown in the window outside. Classy C. started out to fill the order. He did, but none of the shoes were good enough for madam's dainty foot. As the day wore on and the customer stayed, C. C. began to perspire. The other clerks looked on and grinned. Not that they disliked Charles, but, well, there was a feeling among the fellows about him. All this did not change the expression on Charles' face. It remained, that same winning smile. But finally after about half the stock had been laid out for inspection, the manager whispered to Charles, "Are you that rotten?" Which made Charles as mad as could be. He forgot himself. He violated the first rule of etiquette of the shoe clerk. (No, it is the second; the first is to hand out the usual line about the quality, etc.) He yanked off her left shoe. Lo, and behold, the stocking on the left foot was full of holes! If the right was perfect, what a flaw in the woman's other piece of hosiery! The clerks gasped. The woman screamed. The other boys laughed.

Then with a sigh of it-can't-be-helped, she remarked: "But we won't mind the holes." She bought a pair of tennis shoes, high tops, ten minutes later.

Natural End.

KERENSKY SAYS SLAV STRENGTH IS WORN OUT BY THREE YEARS OF STRAIN.

**ALLY TROOPS GO TO ITALY'S AID**

French and British Soldiers Sent to Stem German Onrush—Italy Has Lost 180,000 Men.

Petrograd.—In view of the reports reaching Petrograd, that the Impression is spreading abroad that Russia virtually is out of the war, Premier Kerensky discussed the present condition of the country frankly last Friday with the Associated Press. He said Russia is worn out by the long strain, but that it is ridiculous to say the country is out of the war.

The premier referred to the years that Russia has fought her own campaigns alone, with no such assistance as has been extended to France by Great Britain and now by America. He said he felt help is needed urgently and that Russia asks it as her right. He urged that the United States give aid, in the form of money and supplies and appealed to the world not to lose faith in the Russian revolution.

Russia, M. Kerensky added, was taking an enormous part in the struggle, and those who said she was out of it must have short memories.

"Russia has fought consistently since the beginning," he said. "She saved France and England from disaster early in the war. She is now worn out by the strain and claims as her right that the allies now shoulder the burden."

**Ally Soldiers Go to Italy's Aid.**

Washington.—British and French reinforcements arrived on the Italian front on November 1. Cabled word to this effect was announced in official circles here.

It was stated positively that Italy's third army had successfully extricated itself from the Isonzo front and had retreated in good order to the Tagliamento line. This army is commanded by the Duke of Aosta and thus has saved itself from the Teutonic purpose of cutting it off from General Cadorna's main line.

Italian cavalry has come furiously to the aid of the retreating armies and, according to the messages received at the Italian embassy, have driven in the greatest cavalry maneuver since the battle of Charleroi. They are reported as holding back the enemy and harassing them so that their advance has been checked.

Large detachments are still in the mountains. They have been surrounded, it is reported, but have sent out their carrier pigeons, announcing that they can hold out for ten days or two weeks.

Trapped between the sector due west of Udine and the sea, 60,000 Italians laid down their arms, according to Berlin. This brought the total taken by Mackensen up to November 1, to more than 180,000, Berlin announced.

Lansing.—Between 30 and 40 freight and passenger trains on the Pere Marquette system were discontinued temporarily on November 1, because of lack of coal. Officials distrust the action of the Pere Marquette. Ever since the reorganization of that road, state officials declare there have been attempts to get rid of profitless branches.

**Monroe Boy Returns From France.**

Monroe.—Enlisting in April, 1916, as a Canadian soldier under the name of L. Kelley, George Fleure, Jr., son of George Fleure, a rural mail carrier in Monroe county, has been discharged from overseas service and is now at Quebec. The son, who was 16 years old when he joined a Canadian regiment, left without his parents' consent. Mr. Fleure, Sr., appealed to Consul Conant for his son's rejection. The boy was wounded and taken to London before getting his discharge.

**OTSEGO SOLDIER SHOTS SELF**

Sent to Waco From Custer—Objected to Service in Army.

Camp MacArthur, Waco, Texas.—After making several threats to take his own life rather than have anything to do with a business that involved the killing of fellow men, Private Walter Liniger, a selective soldier from Otsego, Mich., turned a rifle on himself in his tent Sunday night and blew his head off.

Displaying the strategy of a general mapping out a campaign, Liniger waited until all his comrades in Company B, One-hundred and Twenty-sixth Infantry, had deserted the vicinity of his quarters. Hearing the report of his rifle, several soldiers rushed to his tent, but he was dead before their arrival.

Liniger has complained about serving in the United States army ever since he was selected, according to Private James Papis, who also comes from Otsego.

"Liniger tried to kill himself coming down on the train," said Papis. "He threatened that if he could find any ammunition along the way he never would reach Waco alive."

Liniger was 22 years old. He has a mother and several brothers and sisters living in Otsego, and at their request the body has been sent there.

**AMERICAN FRONT QUIET.**

The part of the front on which the Americans are undergoing their final training has been comparatively quiet for months. Raiding parties are out nightly in No Man's Land, however, and it is believed that it was on one of these exploits that the Sammies were taken.

The men in No-Man's land go creeping across the shell-torn ground up to the enemy's entanglements, crawling and listening, dropping flat when a flare breaks in the air above them, sometimes lying absolutely still for hours.

The patrol covers and stalks its foe stealthily. A time comes when a surprise attack can be made. It is swift, silent, hand-to-hand work, and rarely is a shot fired. The victor carries off his prisoners and when morning comes a report goes back on to the other side that a patrol of so many men is missing.

Officers here believed that this was what happened on the French-American front.

**FRONT NEAR GERMAN BORDER.**

The Rhine-Marne canal where the capture of the first Yankees is reported, runs through a section of north-eastern France in which there has been little fighting since the early days of the war. It crosses the French front near the German border, 20 miles northeast of Lunerville.

Recent dispatches from the American headquarters in France told of American shells landing in Germany territory. These statements and the announcement of the German war office give the first definite information on the location of the American forces at the front.

**U.S. FIXES SHIP BUILDERS WAGES**

Uniform Scale Set By Adjustment Board—Workers Not Satisfied.

San Francisco.—Uniform minimum wage scales for the Pacific coast shipbuilding yards, a guide for all shipyards in the country, have been fixed by the United States shipbuilding labor adjustment board.

The decision provides an increase of from 10 to 30 per cent over the old scale here.

The decision, the first to be handed down by the board, declares that employees "discrimination, interfering with the defense of the nation in time of war, against so-called 'unfair' materials, would be intolerable."

"There will not be many ships built under this scale," declared M. J. Maguire, a union conferee representing the metal trades craftsmen.

"I believe the entire shipbuilding crafts of the Pacific coast will appeal to Wilson against the decision. The representatives of labor will report to their unions which will vote on the new scale."

In view of the shortage of coal and the citizens are requested to do everything possible to conserve coal by indirect as well as direct means.

Municipal authorities in towns throughout the state are authorized to take action deemed advisable to conserve coal.

**NO DETAILS IN TEUTON REPORT**

Dispatch Merely States That "North American Soldiers" Were Taken in Reconnoitering Thrust.

Washington.—The Germans have captured the first American prisoners. Berlin's official statement says that on the Rhine-Marne canal, as a result of a reconnoitering thrust, "North American soldiers were brought in."

Thus the eagerness of the German command to capture Sammies has met success. Special money rewards the other inducements have been offered to the German soldiers who captured the first Americans.

It is assumed, a small scouting party was surprised by a German patrol in No Man's land and captured. Details never may be fully told, since only captors and captives would know what happened under cover of darkness.

Jackson.—Outlining the plan of the national war work council, Mrs. Emma F. Bryers, one of the national secretaries, spoke at a mass meeting held in connection with the two-day conference of the Michigan Young Women Christian association. It is planned by those in charge to raise \$120,000 in Michigan for the Young Women Christian association war work and subscriptions are already being solicited by the organization throughout the state.

**RELIABLE REMEDY RESTORES KIDNEYS**

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is a physician's prescription. Swamp-Root is a strengthening medicine. Dr. Kilmer used it for years in his private practice. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it will help you. No other remedy can successfully take its place.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

**METHOD IN THEIR PLAN.**

The lieutenant colonel tells the story of the "goat barrage," says a correspondent in France. A few of the old timers who have fought at his side in China and the Philippines and Mexico call him "Goat." No one else does.

"They were having machine gun practice up a draw," said he, "and a sentry was stationed at the bend to keep people from wandering out that draw and getting their heads shot off before the boys could stop squirting. But he did not challenge me.

"What are you here for?" I asked.

"Keep people from going up the canyon and getting hurt," said the boy.

"You didn't stop me," I said.

"They said to let you come," replied the sentry."

**WRINKLES**

Wrinkles disfigure, and a dry, sallow, rough skin spoils any woman's good looks. To those whose skin has reached this condition we suggest the application of Usit, a pure nut-oil, daintily perfumed liquid preparation (not a cream or paste). It is the only thing that will feed the hungry, dry skin back to youthful smoothness, freshness, and plumpness, and drive away disgusting wrinkles that come so quickly when the skin is not properly nourished.

Usit is fine for the treatment of skin blemishes such as freckles, blackheads and many forms of Eczema. A few applications of Usit proves its worth and in a reasonable time brings wonderful results. For further distribution a bargain. Once only. Try Usit Face Powder de Luxe, which is no ordinary face powder, but a preparation appealing to people of discriminating and refined taste. Four tints—flesh, white, pink and brunette. Delicately perfumed. One 50c bottle Usit and one 50c box Usit Face Powder de Luxe for 75c. Address Usit Mfg Co., 835 Main street, Buffalo, N. Y.

**AT BREAKFAST.**

"George, George, you mustn't act so when you are eating," said mamma at the breakfast table. "If you do, you will surely get something in your windpipe."

"Windpipe? H'm. What's my windpipe?"

"Don't you know what your windpipe is?" broke in the six-year-old brother. "Why, that's where your smoke comes from on cold days."

**Housekeepers Can Save \$200,000,000 on Food**

In these days when the high cost of living pinches nearly every home, no waste should be overlooked. One of the most flagrant and the most easily prevented, is the destruction of food by rats. One rat will often do a hundred dollars' damage of food and property in a single night, and a careful estimate gives over \$200,000,000 as the value of foodstuffs destroyed annually by these pests. Exterminate them with Stearns' Paste and save this enormous loss of food. A small box of Stearns' Paste costs only 35 cents and is usually enough to completely rid the house of rats and mice; also effective against cockroaches and waterbugs. Adv.

**DIFFERENT KIND OF PITCH.**

A woman who thought she was a singer was walking through a building where some workmen had left some pitch in such a position that she swept her dress against it and, of course, soiled the dress. "Oh, what shall I do to get it off?" she said to her workman friend. "Why don't you sing to it?" said her friend. "Why, what to good would that do?" said the singer. "You always get off the pitch when you sing."

**THE LAST EXAMINATION OF WAR'S DRAFT**

Many a man has fallen down because a test of his water showed unmistakably that he had kidney disease.

The kidneys are the scavengers and they work day and night in separating the poisons from the blood. Their signals of distress are easily recognized and include such symptoms as backache, depression, drowsiness, irritability, headaches, dizziness, rheumatic twinges, dropsy, gout.

"The very best way to restore the kidneys to their normal state, to cure such symptoms," says Dr. Pierce of Invalids' Hotel, Buffalo, N. Y., "is to drink plenty of water and obtain from your favorite pharmacy a 60-cent bottle of Anuric, double strength, which is dispensed by almost every druggist." You will find Anuric more potent than lithia, dissolves uric acid as water does sugar.

Send Dr. Pierce 10c for trial pkg. and ask for advice if there is need.

**RAISE HIGH PRICED WHEAT ON FERTILE CANADIAN SOIL**

Canada extends to you a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta. This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help feed the world by tilling some of her fertile soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think of the money you can make with wheat around \$2 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming in Western Canada is as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. There is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. ### Making Courtesy Pay

There is an article in the American Magazine that tells about William Ver-non Backus, who formed the Appreciation league. The writer says:

"Years ago," said Mr. Backus, "I acted like any ordinary citizen did when provoked by rudeness or discourtesy. I would report to headquarters the gross affronts offered by those whose public or semipublic position made it their special duty to be courteous."

"Then upon thinking about the problem I realized that when a man was reprimanded it made him bitter and angry with the public. And when he was discharged it did not cure the evil and only brought suffering upon his wife and children."

"Mr. Backus saw this system was all wrong. He questioned employees, and they told him they were not always courteous, because sometimes people were unreasonable, and anyway their efforts were not appreciated."

"What good does it do," said one man, "to be extra nice and cheerful when the impolite man gets the same pay and rating as those who make an effort to be courteous?"

"It was this remark which helped Mr. Backus to formulate his rules and his plan. The members of the Appreciation league travel to many places and always report courtesy and kindness to employers. For this purpose every member of the league is provided with a blank which permits the filling in the name and business address of a clerk, conductor, postman, usher, collector or any one at all who is especially attentive and deserving of commendation."

### Eskimos and Whales.

The Eskimos use every part of the whale. The oil is light, fuel and food for them; the flesh, food; the whalebone and true bone are used in making sledges, huts, boats, spears and harpoons; the sinews form thread and twine; the thin membranes, window glass.

For a Weak Stomach.

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets.—Adv.

NOTHING TO FIGHT FOR.

A Southern friend tells an anecdote about a husky colored boy who was being urged to enlist, at the public square recently.

"Whaffo' should Ah go an' be a soldier?" he asked.

"Strong fellows like you ought to fight for their country" said the recruiting sergeant.

"Yassah," responded the negro, "dat kind o' talk is all right for de fahmahs—let 'em fight foh dey country."

"But why shouldn't you fight for your own country?"

"Me? Ah ain't got no country—Ah was raised in de city."

### An Old Man's Stomach.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.—Adv.
