### LETTERS FROM FRANCE

#### Interesting Incidents in Life of Railway Engineers.

Mr. and Mrs. Charles Steinbach have recently received two letters from their son, P. A. M. Steinbach, Co. F. 16th Engineers (Ry.) A. E. F. France, via New York, and have kindly allowed the Tribune to make excerpts of the portions of general interest, as follows:

Under date of October 29th he wrote that he was well and sent regards to several of his fellow Masons. He spoke of the scarcity of sweets and was looking forward to the receipt of a box of figs from an aunt in California. He says, "The rain still continues almost every day and we are soaked clear up to our knees most of the time. Of course we all grumble, but why shouldn't a soldier have that privilege?"

"Am writing this sitting on my tamarack bunk and using my dresser of rough boards for a desk. It is a work of art, this dresser, and matches the bunk perfectly. Am going to paint a checker-board on top of the dresser. We have just built a door for our tent, but haven't any knob. We are trying to rig up some sort of a window."

"Yesterday (Sunday) we walked over to a nearby village to get tobacco and candles etc. Went to the hotel and played billiards on an atrocious table where we had to use common writing chalk on our cues. At 6:30 went into the dining room for 'eats.' All meals here are served in courses, starting with soup and running through to coffee or light wine. The butter is always unsalted and personally I prefer it to our own kind. But the coffee is N. G. I suppose it is difficult to get the real coffee berry here. Anyway, they spoil it by putting in a dash of cognac. I could as easily imagine sugar in my gravy."

Under date of November 10th, he wrote, "Just a line this morning as I am very busy sewing a gray patch on some white sock with black thread. I think that combination should wear well. Am staying in the tent for a few days as I got a cold out in the mud during the last few weeks. Nothing serious and I'll be out again Monday. We are looking forward to a jolly time and a big feed on Thanksgiving and hope you all enjoy it too."

Fred Mapes received a letter Friday from Jack Raleigh, formerly employed in Mr. Mapes' laundry and now with the 16th Engineers (Railway) corps in France. The letter was posted November 11th. He was well and said the only fault he had to find is with the French tobacco, which he doesn't like. Recent dispatches say that the railway engineers took part in the recent big drive, so that Mr. Raleigh may have seen fighting at close quarters since the letter was posted.

### TRAIN WRECKED AUTO

#### Carl Barth Narrowly Escaped Death Sunday Evening.

Carl Barth was painfully cut and bruised and the automobile in which he was riding was reduced to a pile of junk, Sunday evening about six o'clock, when a fast Michigan Central passenger train, No. 10, hit the automobile on the crossing in the western outskirts of town near the Methodist Old Peoples' home. Barth's injuries included a deep cut on the forehead, several cuts on his hands and severe bruises.

The machine was being towed into town, at the time of the accident, behind a team and waron. Jacob Brenner was driving the team and Barth was steering the machine. The machine belongs to John Brenner, an uncle of Jacob Brenner.

Sunday the two young men, Brenner and Barth, had borrowed the automobile to drive to the home of the former's parents, Mr. and Mrs. George Brenner of near Grass Lake. The machine broke down and so they borrowed a team to haul it home.

The same automobile was partially wrecked last June when it passed through the cyclone, and had been repaired, but is now probably so damaged that it will be worth only what a few undamaged parts will salvage.

### PRIZE BREAD STRICTLY SYLVAN MADE PRODUCT

Chelsea Made Graham Flour Used By Mrs. Laird in Making Prize Winning Loaf.

The prize winning loaf of brown bread at the recent Farmers' Thanksgiving Festival was a strictly "made in Sylvan" product. The graham flour used in making the bread was ground in the Chelsea Mills and presumably from grain grown nearby, and finally the bread was made on a Sylvan township farm by a Sylvan township farmwife.

We submit that such a combination deserves the label "Made in Sylvan."

KIDNEY TROUBLE NOT EASILY RECOGNIZED

Applicants for Insurance Often Rejected

An examining physician for one of the prominent life insurance companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

GOVERNMENT ABLE TO CRUSH TREASON

Has Ample Power to Handle Malcontents, Says Attorney General Gregory.

SACRIFICES MUST BE MADE

Some Called Upon to Break With Friends and Kindred As Those Did Who Secured Liberties Enjoyed Today.

By THOMAS W. GREGORY, Attorney General of the United States.

The sporadic activities of a few agitators who, led by good or bad motives, seek to hamper our work in the war justify me as the chief law officer of the executive branch of the government in calling attention to the duties, moral and legal, of all persons owing temporary or permanent allegiance to the United States.

The German government began this war by a contemptuous breach of its formally pledged faith made in solemn treaty and from the beginning until now has more than made good this ominous earnest of its intention and temper. The president has shown us how one by one, as opportunity offered, the safeguards which civilization has been able during the centuries to throw around neutrals and the nonfighting people of warring nations were ruthlessly torn down; how patient and long-suffering remonstrance and request were met by fair words, and fairer promises made only to be broken.

We all know as but sober fact, plainly stated, that the imperial government has allowed no rule of war, no principle of civilization, no consideration of humanity, no teaching of Christianity to stand between it and the working out of its illegal purposes. For half a century that government has schemed and prepared to dominate the world by "blood and iron."

They have bombarded undefended towns and bombed the unprotected homes of their foes, taking their toll of wounded and dead from the aged and infirm, the young and the helpless. They have made barren desert of the garden spots of the earth; they have needlessly pillaged and willfully burned towns; they have reduced to slavery men, women and children; they have wrecked and torn asunder families with a system diabolical in its efficiency.

As the war has gone on, the ultimate aim of the imperial government has become more and more clear. Drunk with the sense of its own power and its asserted superiority, it has proposed to secure a dominating position for itself and for its system over the entire world. Nowhere yielding to the people their rightful powers, and everywhere seeking to uphold autocracy and despotism, it has shown its intention to perpetuate absolute government of which it admittedly is the head and front. Its "kultur" is avowed to be the acme of human goodness and endeavor, and is to boast the rulership of the world, gained by force and arms.

The world must fight to preserve itself. Of this there can be no doubt. Kings Against Peoples. Heretofore, save in rare cases, war has been a fight between armies; but this war, because of the initial preparation for it by an autocracy which proscribed a whole mighty nation to its purpose is a contest between peoples themselves. It is correspondingly intense and relentless. The march of events shows that it is now a war of system—kings against peoples. If our enemy win, kings will dominate the world, because no democracy fights with or for them. The Prussian autocrat and the brutal Turk will impose upon us their wills, tell us what we may do, what we may not do, and the horrors and atrocities of Belgium and Armenia leave no doubt what this means.

Thus our own very life came to be bound up in the outcome of this war long before we entered it, and even years before the war broke. To the man of vision it is as clear as sunlight that the aim and the plan of the imperial government was and is to conquer the world, nation by nation. It was first to defeat France and Russia, next to dominate Great Britain, and with Europe at its feet to turn to America. "Kultur" and the German sword were to rule around the world.

Congress Gave Pledge. With all this before them congress,

the chosen representatives of the people, exercising their constitutional duty and with a realizing sense of their great responsibility, announced in joint resolution "that the state of war between the United States and the imperial German government which has been thrust upon the United States is hereby formally declared," and that "to bring the conflict to a successful termination all the resources of the country are hereby pledged."

This is our promise to those we help, our warning and threat to those we fight. Our own fair name is bound up in this pledge. Our honor demands that it be met to the full measure. From the time congress and the president thus spoke for us it became the duty, moral and legal, of each of us to abate nothing that lay within his power to make our pledge good. Whatever our views, whatever our sympathies heretofore had been, the quarrel was now our quarrel, and we must be true to it in order to be true to ourselves. That this meant that some of us must break with cherished memories, with friends, home, and kindred, cannot matter. So broke our fathers, who gave us our liberties; so must we break to preserve them. The man who is unwilling to make that sacrifice is unworthy the liberties he enjoys and is unwelcome in our midst. The sovereign people of the United States have willed that our every available resource of men and industry must play its part in winning this war, and no

Thomas W. Gregory.

head is too high or too low to wish to escape the heavy hand of our sovereign necessity.

No Half-Measures in Future. I have spoken thus far, not of the legal penalties which attach to obstruction and disloyalty to this government, but of the broad political and moral elements of our situation and of the considerations of integrity and honor which must impel us to loyalty to our cause and compel our active aid and support. I have done this because after all our safety lies not in penal statutes, but in a realizing sense of a righteous cause, a firm resolution to do our full duty, and understanding that we fight for the liberties of ourselves, our families and our posterity. I have purposely moved slowly and with caution in invoking the strong arm of the law for seeming disloyalty, believing that more mature consideration would show the occasional agitator that he was wrong and the rest of us were right. However, I shall not be half-measured in undertaking the control of those who persist in their disloyalty and schemings against the government and its purposes.

The federal government is not powerless to handle such malcontents. Amongst other offenses, it can prosecute those who willfully make or convey false reports or false statements, when the United States is at war, with intent to interfere with the operation or success of the military or naval forces of the federal government, or to promote the success of our country's enemies; also those who willfully cause, or attempt to cause, insubordination, disloyalty, mutiny, or refusal of duty, or willfully obstruct the recruiting or enlistment service of the United States; also those who impede, obstruct or prevent the execution of the laws of the United States; also those who undertake to overawe the officers of the United States in performing their duties either by direct intimidation or threats, or by injuring their persons or property; also those who engage in seditious conspiracies to overthrow or levy war against the government or forcibly oppose its authority.

New Laws Give Power. The recently enacted espionage act is designed, among other things, to punish spies, regulate the use of the mails, and punish those who abuse that use.

The provisions of the selective-draft act provide punishment for those who fail or refuse to register, or hinder or obstruct the enforcement of that act.

Treason (defined by the Constitution as consisting only in levying war against the United States, or in adhering to their enemies, giving them aid and comfort) is punishable by death, and the other offenses mentioned by severe and just penalties.

The federal government can find in existing statutes and others now pending before congress powers to handle any situation likely to arise because of the ill-advised activities of disloyal agitators.

Rectifying her Mistakes. In the midst of war England has discovered the absolute necessity of rebuilding her school system, of returning to a shorter workday in her factories and of encouraging the upbuilding of the child welfare agencies that gave up their activities earlier in the war, notes the Red Cross Magazine.

State of Ohio, City of Toledo, Lucas County—Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm was and is engaged in the sale of HALL'S CATARRH MEDICINE.

Why of Course. Though thoroughly patriotic, Johnny, aged nine, dining with his mother in one of the cafeterias on wheatless day, could not understand why he should eat corn bread instead of the usual white bread, relates the Indianapolis News.

In the argument that ensued his mother, losing her temper, ordered the young man "to get outside of his portion of bread right away."

Important to Mothers. Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of Dr. J. C. Fletchere. In Use for Over 30 Years. Children Cry for Fletcher's Castoria.

Panicky Times. "He is so terribly frugal." "Frugality, my dear, is a sign of aristocracy nowadays."

Natural Place. "So Bill dressed up his story?" "Yes, and then took it to a swallow tail party."

A WOMAN IS AS OLD AS SHE LOOKS

A wrinkled, careworn face can easily make a difference of twenty years in a woman's appearance. A wonderful preparation recently introduced into this country from Egypt, where it has been used for centuries, consists of a combination of nut-oils, which rubbed into the skin every night before retiring, soon drives away wrinkles and makes the skin soft and velvety. Usit is the name given to this preparation and a handsome opal bottle of Usit, delicately perfumed, will be sent to any address. For further distribution a bargain. Once only. Try Usit Face Powder de Luxe, which is no ordinary face powder, but a preparation appealing to the people of discriminating and refined taste. Four tints—flesh, white, pink and brunette. Delicately perfumed. One 50c bottle Usit and one 50c box Usit Face Powder de Luxe for 75c. Address Usit Mfg. Co., 885 Main street, Buffalo, N. Y.

One man may speak for another, but one woman can't talk for another with any degree of satisfaction.

Canadian Farmers Profit From Wheat

The war's devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and wheat near \$2 a bushel offers great profits to the farmer. Canada's invitation is therefore especially attractive. She wants settlers to make money and happy, prosperous homes for themselves by helping her raise immense wheat crops.

160 ACRE FARMS IN WESTERN CANADA FREE. You can get a Homestead of 160 acres FREE and other lands at remarkably low prices. During many years Canadian wheat fields have averaged 20 bushels to the acre many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Mixed farming as profitable an industry as grain raising. The excellent grasses full of nutrients are the only food required for beef or dairy purposes. Good schools, churches, markets convenient, climate excellent. There is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government is urging farmers to get extra acreage into grain. Write for literature and particulars as to reduced railway rates to Dept. of Immigration, Ottawa, Canada, or M. V. ### CARD OF THANKS.

We desire to express our most sincere thanks to our friends and neighbors, the A. O. G. and the L. A. S. for the kindness and sympathy shown us, and for the beautiful floral offerings, during the illness and death of our darling Oleta; also Rev. Rhodes and Mr. Carne for words of comfort and their sweet songs.

Mr. and Mrs. Ernest Moeckel and son Roland.

How to Prevent Croup.  
In a child that is subject to attacks of croup, the first indication of the disease is hoarseness. Give Chamberlain's Cough Remedy as soon as the child becomes hoarse and the attack may be warded off and all danger and anxiety avoided.—Adv.

### MISS OLETA MOECKEL.

Chamberlain's Cough Remedy.  
This is not only one of the best and most efficient medicine for coughs, colds and croup, but is also pleasant and safe to take, which is important when medicine must be given to children. Many mothers have given it their unqualified endorsement.—Adv.

### GERMAN PRISONERS

NUMBER NEARLY 2,800

Held in Three Principal Detention Camps and Army Posts.

Two classes of German prisoners are now detained in this country. One is comprised of sailors taken into custody when the United States entered the war; the other consists of "alien enemies," civilians who have been arrested and are now being held under governmental regulations for various reasons.

The principal detention camp is at Fort McPherson, Ga., where approximately 850 war prisoners are held; at Fort Oglethorpe, Ga., there are 165 alien enemies; at Fort Douglas, Utah, there are 517 prisoners of war and 80 interned Germans. Small detachments are now temporarily quartered at Army posts throughout the country, but their number is relatively small.

Altogether there are 2,364 actual prisoners of war in the custody of the War Department and about 400 interned aliens held at the request of the Department of Justice.

It is estimated that Germany is now holding 150 sailors taken from American ships by commerce raiders and other German vessels.

### NEIGHBORHOOD BREVITIES

#### Interesting Items Clipped and Culled From Our Exchanges.

#### MANCHESTER

Considerable excitement was occasioned Tuesday by a fire at Ben Matteson's. In some way the stock water heater set fire to a double corn crib in which corn and oats were stored. The crib, corn and pig pen were burned and a good many of the oats, and it was only by strenuous work the barn was saved, sparks continually lighting on and igniting the hay. The efficient and quick work of the neighbors prevented what might have been a heavy loss.

#### HOWELL

Fire caused apparently by defective wiring destroyed the bakery of Dickinson & Son, Saturday, causing a loss of \$10,000 and resulting in a bread-famine Saturday evening. A ton of flour and 500 loaves of bread were burned. Miss Ruby Dickinson, sister of the proprietor, Alva Dickinson, climbed to safety from the second story window on a ladder.

#### MASON

Feeling that the army in France needs every able-bodied young man, Ion Cortright, Mason boy and M. A. C. graduate, went over with the expeditionary forces as a Y. M. C. A. secretary, has enlisted. He has been assigned to the artillery as a lieutenant. The loss of one finger kept Cortright out of the army in this country, but at the front the absent digit was not counted against him.

### FESTIVAL NETTED \$2,136.85.

The Farmers' Festival netted a total of \$2,136.85 for the Red Cross. The total sales of produce amounted to \$2,223.35 and dinner receipts were \$63, making the total receipts \$2,286.35. Expenses were \$149.50, leaving a balance of \$2,136.85 which was turned over to the Red Cross.

One of the best exhibits was made by Lyndon township and John Youngs exhibited some unusually fine potatoes. Chelsea and vicinity furnished the largest amount of produce of any other community, and the trucks which carried the produce to Ann Arbor were all donated. The total here would have amounted to \$68 if it had not been donated by Chelsea truck owners.

### Farmers Attention.

Look over your old harness carefully and have all repairs made now before the rush of spring work. Remember with leather so high it pays to repair the old harness, if possible. If you must have a new harness, we have them in both light and heavy styles, also single harness and some extra good second-hand harness. C. Steinbach. 25tf

### END OF A HOOVERIZED DAY.

I have come to the end of a meatless day.  
And peacefully lying in bed,  
My thoughts revert in a musing way  
To the food which today I've been fed  
When I think of the cheese and the beans  
And oysters I've had to eat,  
I've no regrets for the "good old days"  
I didn't miss the meat !!!  
I have come to the end of a wheatless day.  
I have eaten no cookies or pie,  
I have had no bread that was made  
with wheat;  
It was made out of corn or rye;  
And I liked it so well that when war is past  
And glorious victory won,  
I'll keep on observing "wheatless" days  
And I'll eat "corn pone" for fun !!!  
And I'll eat "corn pone" for FUN !!!
