WHO WANTS FORD TRACTOR?

War Preparedness Board Says Ship-
ments Will Start April 1st.

The Michigan War Preparedness
board recently purchased 1,000 Ford
tractors, which will be distributed
among farmers throughout the state
for the purpose of increasing food
production. Special terms of pur-
chase have been arranged.

Regarding the distribution of these
tractors the Tribune yesterday re-
ceived the following telegram from
state headquarters in Lansing:
"Owing to the demand for Ford
tractors and the necessity of getting
them on the farms at the earliest
possible date, farmers who want to
purchase these machines are urged to
file their application at once with Mr.
Oeler, county farm agent, Ann Ar-
bor, Michigan, who has application
blanks and complete information re-
garding the terms of sale. The ship-
ment of tractors will start April 1st
and the machines will be sent direct
from Detroit to a central distribu-
tion point in each county."

MRS. HEDWIG KILMER.

Mrs. Hedwig Kilmer died Sunday,
March 24, 1918, at her home on Bu-
chanan street. She was 79 years of
age and had been a resident of Syl-
van township for over 50 years.

Mrs. Kilmer was born in Wurtten-
burg, Germany, November 1, 1838,
and accompanied her mother to
America when she was only nine
years old. For several years they
lived at Blissfield and there she grew
to womanhood and was married to
John F. Kilmer in 1862. A few years
later, Mr. and Mrs. Kilmer moved to
this vicinity and she had been a re-
sident of Sylvan township since 1866.
Mr. Kilmer died several years ago
and the widow had made her home in
Chelsea for the past 12 years.

She was the mother of nine chil-
dren, six of whom are living, as fol-
lows: Mrs. Katie Clark of near
Leoni; Charles of Telluride, Colo-
rado; Lewis of Sylvan, John of Shar-
on, Mrs. John Fehor and Miss Min-
nie Kilmer, of Chelsea. She is also
survived by a number of nephews
and nieces in Ann Arbor, Grass Lake
and Francisco.

The funeral will be held Wednes-
day afternoon at one o'clock from
the house, Rev. A. A. Schoen con-
ducting the service. Interment at
Oak Grove cemetery.

MRS. JOHN C. LEHMAN.

Mrs. John C. Lehman died Friday,
March 22, 1918, at her home in North
Sylvan, her death being due to an
affection of the throat from which
she had suffered for some time. She
was 23 years, seven months and
eleven days of age.

Mrs. Lehman's maiden name was
Mannie Sager and she had many
friends in Chelsea. She was born in
Grass Lake township, August 11,
1894, her father being Henry Sager,
who was killed by a Michigan Cen-
tral train near Francisco, December
4, 1910.

She was married on September 16,
1914, to John C. Lehman, who is left
with one son, Roland, to mourn their
loss. She is also survived by her
mother, Mrs. William Horning of
Grass Lake, five sisters, Mrs. Frank
Helle of Francisco, Misses Cleora,
Myrta, Vida and Irene Sage, and one
brother, Orrin, of Grass Lake.

The funeral was held this morning
at 9:30 o'clock from the Salem Ger-
man M. E. church of which she was a
member. Rev. G. C. Nothdurf con-
ducting the service. Interment at
Mt. Hope cemetery, Waterloo.

WILLIAM L. KEUSCH.

William L. Keusch died Sunday,
March 24, 1918, in Ann Arbor, where
he had been a patient in the Univer-
sity hospital for the past two weeks.
He was 69 years, five months and 17
days of age.

Mr. Keusch was born in Buffalo,
New York, October 7, 1848, and was
united in marriage to Miss Pauline
Bollinger in 1871, who is left with
seven children to mourn their loss.
The children are: Harry and Mrs.
William Townley of Jackson, Mrs. A.
A. Townley of Dunsmuir, California,
Mrs. Milton Betterly of Byron, Leon
of Ypsilanti, Mrs. J. F. Hieber and
Archie of Chelsea.

The funeral will be held Wednes-
day afternoon at two o'clock from the
house, Rev. G. H. Whitney con-
ducting the service. Interment at Oak
Grove cemetery.

SET CLOCKS MARCH 31.

On the night of March 31st all
clocks in the United States should be
set ahead exactly one hour in con-
formity with the new "daylight sav-
ing law" recently enacted by the fed-
eral government and which takes ef-
fect on April 1st. Careful compli-
ance with the above suggestion will
save much confusion. Railroad
trains, both steam and electric, will
run according to the regular printed
schedules and time-tables, but all the
clocks and watches on the railroad
systems will be moved ahead an
hour, so they will correspond to pri-
vate timepieces.

W. C. T. U. MEETING.

The W. C. T. U. will meet with the
ladies of the M. E. Home, Thursday
afternoon, March 28, at three o'clock.
The following will be the program:
Devotionals.
Roll Call—Mention one duty which,
if performed would help win the war.
Moral support in time of war—
Rev. G. H. Whitney.
Homest methods of business in
time of war—Mrs. H. J. Fulford.
Recitation—Doris Foster.

PAYMENT OF W. S. S.

If it is necessary before January
1, 1923, to have money for my War-
Savings Certificate, how can I get
it? If it is not registered, take it to
any money-order post office and it
will be refunded, after ten days' writ-
ten demand, as prescribed by the
rules of the Post Office department.
If registered take it to the postoffice
where registered.

What do I get in cash for each
War-Savings Stamp attached to my
War-Savings Certificate if I sur-
render it? The amount is indicated
on the table, which is printed on the
back of each War-Savings Certifi-
cate.

Can I surrender my Thrift Card
for cash? No.

If I must have money on my Thrift
Card and Thrift Stamps, how can I
obtain it? By filling the Thrift Card
and exchanging it for a War-Savings
Stamp, which has a redeemable
value.

Is the post office the only place
where I can surrender my War-Sav-
ings Certificate before its maturity
and get my money back? Yes.

How much notice must I give the
post office? Ten days' notice.

If I should find it necessary to sur-
render my War-Savings Certificate
for cash, what rate of interest would I
receive on my investment? A lit-
tle less than 3 per cent.

MARINE DIVER EXAMINED YPSILANTI BRIDGE

Big Crowd Watched Intrepid Under
Water Expert As He Sank
Into Quicksand Shoals.

A marine diver from Detroit ex-
amined the foundation of the Con-
gress street bridge, Saturday morn-
ing, and found that the big cement
structure was supported by only the
piling driven into the river bed. All
the concrete filling around the piles
had been washed away in the recent
flood which at one time threatened to
topple the bridge into the water.

It is thought that coffer dams can
be built about the piers and the cement
foundations replaced.

The diver and his suit and equip-
ment drew a big crowd of spectators
to the river bank near the bridge
and the intrepid marine worker was
the center of attraction in the Nor-
mal school town for several hours.
He stated he was able to stand up-
right among the piles beneath the
bridge piers and that in some places
he could not reach the cement piers
while standing on the bottom of the
caverns formed beneath them by the
cedding water.

The original cost of the bridge was
about \$38,000 and it is estimated
that it will cost \$10,000 and upwards
to put the bridge in safe condition
for heavy traffic.

DEXTER — Miss Leilia Bucklew
of this village and Paul Gates of
Howell were married Wednesday
morning at St. Joseph's church by
Rev. Fr. Machino. The bride is a
daughter of Mr. and Mrs. Wirt
Bucklew of this village. Neil Hoff-
meyer was the groom's best man, and
Miss Gertrude Scavin was the brides-
maid. Immediately after the wed-
ding they left for the east on a short
trip.

ANN ARBOR—Jediah Cornell, a
man about 50 years of age, dropped
dead Friday night about six o'clock,
while shaving himself in the wash-
room of the American hotel, where
he had been employed as porter for
the past two years. Heart failure
was the cause of his death.—Times-
News.

YPSILANTI — Wynona Austin,
four-year-old daughter of Roy Aus-
tin, of Ypsilanti township, was shot
beneath the left eye Sunday evening,
it is said by Bonner Waterman, aged
nine years. The little girl and her
father were driving along the street
in a buggy when, it is alleged, the
lad deliberately aimed an air gun at
the girl. The shot was removed with
difficulty.

BROOKLYN — The large farm
house of Cyrus Cook, northeast of
Cement City, burned to the ground
at one o'clock p. m. Monday. It
caught in the rear of the house and
was burning furiously when discov-
ered by Mrs. Cook. She at once used
a fire extinguisher, but was badly
burned on her face and hands in the
attempt. It was necessary for her to
go to Brooklyn for medical care. Mr.
Cook's attention was called to the
fire by neighbors running by the
barn where he was at work. Much
of the furniture was saved, but the
insurance of \$12,000 on the house will
nowhere cover the loss.

DEXTER — Supt. D. C. Bowen has
resigned as superintendent of the
Dexter schools, his resignation to
take effect at the close of the present
school year, to accept the superin-
tendency of the schools at North-
ville.—Leader.

FOUND SOLDIER BOYS' HAT.

James Toomey of Delhi found a
soldier's hat at his gate Thursday
morning and Saturday reported the
matter to the county draft board in
Ann Arbor. The hat is a regulation
military hat and stains indicate that
at some time it had a red cord. How
the hat happened to be where it was
found is a mystery.

Strength Gave Out

Mrs. Schmitt Was Miserable From Kidney Trouble Until Doan's Came to Her Assistance. Now Well.

"My kidneys gave out during the change of life," says Mrs. Margaret Schmitt, 63, Alabama Ave., Brooklyn, N. Y. "My back ached and pained as if it were broken. When I moved in bed, sharp, darting pains caught me across my back and I couldn't turn. Mornings I was stiff and sore and it felt as if heavy weights were tied to me. I was so worn-out, I often came near falling from dizziness and flashes of fire would come before my eyes, blinding me."

"As soon as I began taking Doan's Kidney Pills, I improved and six boxes put me in better health than I had enjoyed for years."

Mrs. Schmitt gave the foregoing statement in 1916 and on April 6, 1917, she said: "My cure has been permanent. I keep Doan's on hand, however, and take a few doses occasionally."

Plumb Pudding.

"Charlie, dear," said Mrs. Newby, "this is my first plumb pudding."

"It looks rather nice," said Charlie, dubiously.

"Do you know, I was wondering while making it" went on Mrs. N., "why we call it plumb pudding when there isn't a plumb in it."

"I fancy, my dear," said Charlie, having eaten a little, "the word should be spelt 'plumb', which you will find by the dictionary, means 'a little mass or weight of lead'."

About \$500,000,000 a year is being spent on education in the United States.

IN THE SPRING

will be the great test of a life and death struggle on the Western front. In the everyday walks of life, it is the spring time that brings ill health. One of the chief reasons why the run-down man made himself in a bad state of health in March or April, is because he has spent nearly all his hours for the past four or five months penned up within the walls of house, factory or office. It is the reason for our diminished resistance—that is, lack of outdoor life, coupled with perhaps overeating, lack of good exercise, insufficient sleep, and constipation. In other words, we keep feeding the furnace with food but do not take out the "chinkers," and our fire does not burn brightly. Always keep the liver active.

There is nothing better for health than taking an occasional mild laxative, perhaps once a week; such a one as you can get at any drug store, made up of May-apple, jalap, aloes, (sugar-coated, tiny, easily taken), which has stood the test of fifty years of approval—namely, Dr. Pierce's Pleasant Pellets. But for the "Spring Fever," the general run-down condition, the lack of ambition, the "blues," one should take a course of treatment every spring; such a standard tonic as Dr. Pierce's Golden Medical Discovery, now to be had in tablet form in six-cent vials. Watch the people go plodding along the street. There's no spring, no vitality. A vitalizing tonic such as this vegetable extract of Dr. Pierce's gives you the power to force yourself into action. The brain responds to the new blood in circulation, and thus you're ready to make a fight against stagnation which holds you in bondage. "Try it now! Don't wait! Today is the day to begin. Gain a little 'pep,' and laugh and live. Vim and vitality are the natural outpouring of a healthy body. It does not come up in a night. Try this spring tonic, and you gain the courage that comes with good health."

ALLIES MUST BE SUPPLIED.

The new conservation measures are made necessary by two conditions: First, it appears from recent surveys that there has been an over-estimate of approximately 75,000,000 bushels in the amount of wheat available in the United States. Secondly, our European allies have called for an additional supply of wheat in excess of the 135,000,000 bushels already promised, because of the failure of supplies to reach them from Argentina and India.

It is now planned to use the Dutch ships recently seized to move wheat to Europe and it is hoped that they will make possible the movement of a sufficient amount to meet the minimum European demand.

The administration has abandoned the idea of ration cards and will impose restrictions on mills, wholesalers and retailers which can be established inexpensively and done away with quickly.

Control of wheat at the mills probably will be tightened so that its distribution throughout the country will be based on an equitable scale and no dealer will have more flour than he can sell other than by strict apportionment, if he desires to take care of his trade.

LOYALISTS AIM TO BEAT BERGER

Milwaukee Legion Plans United Action to Defeat Socialist Candidate.

Milwaukee—Neither of the two candidates for the United States senate, Irvine L. Lenroot, Republican, nor Joseph E. Davies, Democrat, got an official O. K. from the Wisconsin Loyalty Legion here.

The legion met last Friday and shortly announced that they refused to endorse either of the candidates. Instead they stated they plan to call on the national committees of both parties to hold a conference and ask that one of the men be eliminated from the race.

This action is requested, it is said, in order to prevent Victor Berger, Socialist candidate, from profiting by a three cornered fight.

Peace Rumors Afloat Again.

London—Semi-official negotiations are under way between Germany and the Entente, in which Germany is displaying a strong inclination for peace, the Catholic newspaper, Nieuwsblad Van Hetbeuden, says it has learned, the Central News correspondent at Amsterdam reports. According to reports from Petrograd, a rumor is current at Moscow that Germany has offered important concessions to the Allies conditioned upon the recognition of the Brest-Litovsk treaty of peace.

Objects Get Non-Combatant Jobs.

Washington—An executive order issued by President Wilson provides that all conscientious objectors to the selective draft shall be given non-combatant service. The non-combatant branches outlined by the president include the medical corps, quartermaster corps, and the engineer service. The order provides that as far as may be feasible, assignments of objectors will be restricted to the medical department, unless request is made for assignment to other branches.

It Cost the Average Family Less Than 10c Per Week for Packer's Profit in 1917.

The Meat Bill is one of the
large items in the family
budget
but

less than 10 cents per week of it
goes to the packer in profits.

In converting live stock into
meat and getting it into the hands of
the retail dealer, the packer performs
a complex and essential service with
the maximum of efficiency.

The above statement is based on
Swift & Company's 1917 figures
and Federal Census data:

Swift & Company's total output (Meat and by-products)	- 5,570,000,000 Pounds
Swift & Company's total Profit	- \$34,650,000.00
Profit per pound	- .0062
U. S. Meat Consumption	- 170 pounds per person per year
170 pounds at .0062	= \$1.05 per person per year
The average family 4 1/2 persons	= \$4.72 per family per year

Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops Work in Joint Effort the Soil of the United States and Canada

CO-OPERATIVE FARMING IN MAN POWER NECESSARY
TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for
greater food production. Scarcely 100,000,000 bushels of wheat are available
to be sent to the allies overseas before the crop harvest. Upon the
efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute; Every Available
Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power
is short, and an appeal to the United States allies is for more men for seed-
ing operation.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the
Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs
the men. The Government of the United States wants every man who can
effectively help, to do farm work this year. It wants the land in the United
States developed first of course; but it also wants to help Canada. When-
ever we find a man we can spare to Canada's fields after ours are supplied,
we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve
the combined interests.

Western Canada's help will be required not later than April 5th. Wages to com-
petent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good
board and find comfortable homes. They will get a rate of one cent a mile from Canadian
boundary points to destination and return.

For particulars as to routes and places where employment may be had apply to:
U. S. EMPLOYMENT SERVICE, DEPARTMENT OF LABOR
DETROIT, MICH.; GRAND RAPIDS, MICH.; SAULT STE. MARIE, MICH.;
PORT HURON, MICH.

YOU NEED NOT SUFFER WITH BACKACHE AND RHEUMATISM

For centuries GOLD MEDAL Haarlum
Oil has been a standard household remedy
for kidney, liver, bladder and stomach
trouble, and all diseases connected with
the urinary organs. The kidneys and
bladder are the most important organs of
the body. They are the filters, the puri-
fiers of your blood. If the poisons which
enter your system through the blood and
stomach are not entirely thrown out by
the kidneys and bladder you are doomed.

Weakness, sleeplessness, nervousness,
depression, backache, stomach trouble,
headache, pain in loins, and lower abdo-
men, gallstones, gravel, difficulty with
urinating, cloudy and bloody urine, rheu-
matism, sciatica, lumbago, all warn you
to look after your kidneys and bladder.
GOLD MEDAL Haarlum Oil Capsules are
what you need.

They are not a "patent medicine" nor
a "new discovery." For 200 years they

have been a standard household remedy.
They are the pure, original imported
Haarlum Oil your great-grandmother
used, and are perfectly harmless. The
healing, soothing oil soaks into the cells
and lining of the kidneys and through
the bladder, driving out the poisonous
germs. New life, fresh strength and
health will come as you continue this
treatment. When completely restored to
your usual vigor, continue taking a cap-
sule or two each day. They will keep
you in condition and prevent a return of
the disease.

Do not delay a minute. Delays are
especially dangerous in kidney and blad-
der trouble. All reliable druggists sell
GOLD MEDAL Haarlum Oil Capsules.
They will refund the money if not as re-
presented. In three sizes, sealed packages.
Ask for the original imported GOLD
MEDAL. Accept no substitutes.

STATE NEWS

Reed City—Dighton postoffice, in
Oscoda county burned to ground with
all mail and contents. Only the money
and stamps in the safe were saved.
The origin of the fire is unknown.

Saginaw—John M. List, a resident
of Frankenthum since 1846, one year
after the founding of the village, has
again been unanimously nominated as
clerk, an office he has held for the past
45 years.

Kalamazoo—Boys' and girls' garden
clubs are being organized in the pub-
lic schools here as a means of beating
the Hun, practically the entire enroll-
ment of all the grade schools of the
city having enlisted.

Lansing—The state board of agricul-
ture, in session at the Michigan Agri-
cultural college, elected William H.
Wallace, of Saginaw, a member of the
public domain commission in place of
A. J. Doherty of Clare. Mr. Doherty
presented his resignation some months
ago.

Bay City—Efforts to release the ice
jam at the Henry street bridge with
dynamite resulted in wrecking the
24-inch water main from the west side
water works and as a result the west-
ern portion of the city was without
water, until temporary connections
could be made.

Camp Custer—Camp Custer is being
covered with a network of sidewalks.
In the machine gun battalion area ce-
ment walks are being built. The long-
est walk in camp is that constructed
by the 310th Engineers from division
headquarters to the home of Maj. Gen.
Kennedy, about a half mile.

Grand Rapids—George Willemssen,
son of Dirk Willemssen of Grand Rap-
ids, with a machine gun battalion in
France, is the first Grand Rapids boy
to be killed in France. Death was
accidental according to word received
by the parents. Willemssen enlisted
in 1916, in the South Dakota National
Guard and served through the Mexican
trouble.

Albion—After having tried the war
intensive program, with classes six
days each week to as to close school
in early May, the trustees and facul-
ty of Albion college have agreed that
the plan has serious drawbacks and
have voted to go back next year to the
former plan of classes only five days
a week. This will give more time to
athletics.

Ann Arbor—Professor J. C. Parker,
head of the electrical engineering facul-
ty of the college of engineering in
the University of Michigan, favors a
deliberate artificial tax burden on the
price of coal, based on the general ob-
servation that when things are cheap,
people use them carelessly, and that
as the price goes up the average citizen
economizes.

Detroit—Carpenters and unskilled
laborers are needed by the United
States government for construction
work at Washington. The government
will pay 62 1/2 cents an hour for car-
penters and 35 cents an hour for un-
skilled laborers, on a shift of eight
hours a day. Time and one-half will
be paid for overtime on a ten-hour
shift. Free transportation will be al-
lowed.

Flint—Laverne Herriman, aged 8,
who was run down by D. U. R. inter-
urban car while walking on track south
of Flint, died of fractured skull. The
boy is said to have boarded a car for
Detroit and when the conductor found
he had no money to pay his fare, he
was put off at Atlas, the first station
south of Flint. He started out to
walk and was struck by a car from
south.

Mason—Rev. Frank Gates Elliott,
of this city, has announced he will be
a candidate for the nomination for
United States senator. Mr. Elliott
says that the reconstruction work re-
quired after the war, politically, so-
cially, economically and industrially,
will cause bitter rivalry and that a
seat in the United States senate will
offer possibly the best opportunities
for unselfish service to the world.

Lansing—The license of E. Chapple
Co., operating a flour mill and elevator
at Belding, has been revoked for three
weeks, by Geo. A. Prescott, state food
administrator. H. L. Osterhout was
called here to answer charges that the
mill sold flour without substitutes,
sold wheat for chicken feed and took
higher prices than the government
has fixed. The announcement that the
license had been revoked was made
immediately after the close of the
conference.

Detroit—John Des Champs, cadet
aviator, the third Detroit flyer in the
service of the United States to lose
his life within a week, died at Wichita
Falls, Tex., as the result of internal
injuries suffered when his airplane
fell several hundred feet at Call field.
The other two men were killed over-
seas. Lieut. George O. Middleitch
died in an accident at a training
camp in England and Captain Philip
Collins was killed in an air duel with
a German flyer.

Grand Rapids—Farmers in the Me-
Cordis district of Kent county have
organized a shippers' association to
handle live stock and other shipments.
Petoskey—School Commissioner A.
L. Martin, of Cheboygan county, has
organized 37 Red Cross school auxilia-
ries in his county with a membership
of 1,500.

Standish—Milk producers of Arenac
and Bay counties have organized with
a membership of over 50. They will
demand better prices than are now
being paid by the local milk plant.

Flint—Twenty members of the state
constabulary from Lansing have arriv-
ed here under command of Captain
Child. They are assisting the local
police in guarding plants which are
manufacturing war supplies. The
state police brought 20 horses with
them.

Detroit—Detroit coal dealers believe
they are entitled to a gross margin of
at least \$3 a ton on all bituminous
coal that they sell for domestic con-
sumption during the spring and sum-
mer, although the margin permitted
dealers in other cities nearby is con-
siderably less.

Jackson—Mrs. Jane Penny last
week celebrated her one-hundredth
birthday anniversary at the home of
her daughter, Mrs. John Sargent, here.
The centenary of her birth found Mrs.
Penny's faculties unimpaired, she be-
ing able to assist much in the house-
hold duties.

Lansing—"Commercial devices for
mixing milk with butter to make the
latter go farther is camouflage, and
should be regarded with caution and
used only with the full knowledge that
the sale of the resulting product as
butter is unlawful," says Food Ad-
ministrator George A. Prescott.

Camp Custer—Charles White, of
Chicago, noted lightweight boxer, who
has been division boxing instructor at
Camp Custer, was summarily dis-
missed by Joseph Raycroft, of Wash-
ington. The dismissal comes, it is
said, as a result of friction between
White and Floyd A. Rowe, camp ath-
letic director, which has been brewing
for a month.

Benton Harbor—Gustav B. Gesler,
head of the Benton Fruit Products
company, one of the largest pickle in-
dustries of western Michigan, and
vice-president of the Farmers and
Merchants' bank, died here from typh-
oid pneumonia. He was known
throughout the state in business and
Masonic circles. He was born in Sag-
inaw 56 years ago.

St. Louis—Henry J. Tugger, 56
years old, proprietor of the oldest
merchandise firm in Gratiot county,
took his life by jumping into a cistern
with a weight tied around his neck.
The act is thought to have been caus-
ed by failing health and business wor-
ries. Mr. Tugger came to this city in
1866 and had served as mayor and in
other official capacities.

Detroit—Many drafted men, listed
as "evaders," have been vindicated by
the release of approximately 5,000 let-
ters from a mail chute in the county
building. The letters became clogged
several days ago and were discovered
by an inspector. There were many
draft questionnaires, as well as noti-
fication of classification and important
court papers in the tangle.

Ladington—Mason county may be
without a sheriff after January 1, 1919.
The job pays no salary and the fees
thus far this year wouldn't buy a bib
for a baby. Two drunks and two
hooboes were the only persons arrested
this winter. The board of supervisors
at the spring session may decide to
place the sheriff on a salary basis,
otherwise there may be no candidate
for election this fall.

Petoskey—News has been received
that the New York Central lines will
bring 9,000 sheep to graze on their
lands about Gaylord. It is expected
other companies interested in sheep
raising will bring in thousands of
sheep this spring. Emmet county
farmers and grazing land owners will
also import hundreds of sheep within
a few weeks. Orders are being re-
ceived daily from farmers who want
small flocks. One Elmira man asks
for 600.

Lansing—Michigan farmers that
want proved seed corn at \$5 a bushel
had better make that demand known
promptly. The committee of elevator
men appointed by the governor de-
cided to let options on 40,000 bushels
large. The state has purchased 85,
000 bushels. W. L. Biles, of Saginaw,
committee chairman, did not want the
state to get overloaded with seed corn.
He said additional supplies could be
purchased later at higher prices, if
necessary.

Grand Rapids—Grand Rapids coal
dealers are almost a unit in condemn-
ing the new government coal zoning
order as it applies to all of western
Michigan except Berrien county. This
section will get its coal from Indiana
mines and dealers say this product is
inferior. Hard coal, Pocahontas and
the best grades of soft coal will be
shut off from this market, they say.
This will result, according to dealers,
in Grand Rapids becoming the smoky
city of the middle west.

Bay City—Thousands of inundated
acres in the valley of the Keweenaw
river formed a huge lake and many
farmers were forced to move from
their homes in boats as a result of
floods. Several mines were forced to
close and in some of them the danger
became so threatening that it was
necessary to bring the mines to the
surface. These animals go into the
mines as colts, and few of them ever
see the light of day again. They were
either hard to handle when they reach
the city streets, but were quickly
sent to quiet places.

FIRST COUSIN WORTH HAVING

Would Be Grand if Every Nephew of
Uncle Sam Could Have One
Just Like Her.

The home-body on her way to mar-
ket had been buried in her shopping
list until the voices of her neighbors
reached her.

"What did you hear from Jack?"
"I had a nice letter yesterday from
him; so interesting. He told about
some girl—perfect stranger—who sent
him a box of home-made stuff. There
were socks and wristlets and a hel-
met and caudy."

"Why, the idea of sending all that
to a strange chap."

"But you see," Jack's mother went
on to explain "by way of apology for
taking the liberty—it seems she had
got his name out of a list of boys in
camp down there—she explained that
as Uncle Sam was her uncle, and
Jack's too, that made them first cou-
sins, and so he couldn't possibly be of-
fended with her. Wasn't that cute?"

"I should say so."

"Then she told him if he opened the
candy when he was on 'open' or 'neu-
tral seas he must divide with his other
cousins, and if there was any of the
candy left by the time he landed in
France he must give it to his second
cousins—the English and the French.
It was the cheeriest letter! And so
interesting! So much so that he sent
it to me to read. Canning little minx,
using that Uncle Sam gag."

"Sure," remarked her companion,
"but that's the girl of it."

Knows Mother Now as Heroine.

The woman who plows is not a new
woman, according to the Philadelphia
Public Ledger.
"My mother had 13 children," said
a prosperous shipbuilder. "She plowed
—and she didn't have one of these
12-horse-power, three-plow, ten-acre-
a-day tractor, either. She had to
cleave a straight furrow among the
rocks and stumps behind the horses."
"She never pretended it was easy
work, for it wasn't. But she was a
heroine, and she did not complain. I
know now, in the perspective of the
years, the woman that she was."

22 Million Families in the United States

4 CUPS OF WHEAT FLOUR TO THE POUND

If each family used 4 cups of flour less per week, the saving
would be 22 million pounds or 112,244 barrels every week.

The greatest help housekeepers can give to win the war is to
make this saving and it can be done by using this recipe in
place of white flour bread.

Corn Meal Biscuits

1 cup scalded milk 1/2 teaspoon salt
1 cup corn meal 1/2 cup white flour
2 tablespoons shortening 4 teaspoons Royal Baking Powder

Save 1/2 cup of the measured flour for board. Pour milk over corn meal, add shortening and salt. When
cold, add sifted flour and baking powder. Roll out lightly on floured board. Cut with biscuit cutter and
bake in greased pan fifteen to twenty minutes.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

MORE AMERICAN EFFICIENCY.

Acting on orders from the German government, the officers and crews of the German ships interned in American waters inflicted such damage upon the machinery of the vessels as they deemed absolutely certain to keep the ships out of service for two years. By that time the Germans thought the war would be over.

But American efficiency and American invention effected the necessary repairs in from six to eight months and at a cost of \$273,000; the Germans had figured the cost of repairs at \$2,600,000 and the necessary time 24 months.

All of these ships, except one that has been sunk, are now bearing American commerce on the seas or transporting American soldiers to Europe. The navy department figures that the use of these ships between the time the ships were actually repaired and the time the Germans estimated they could be repaired will be worth \$240,000,000 to the government at the present rate of tonnage.

The Vaterland, one of these interned ships and the largest ship afloat, is now in the United States service, renamed the Leviathan. Americans are able to operate this ship at a higher rate of speed than the Germans were able to do and do this with 200 tons of coal less a day. The Leviathan has one American captain in place of five German captains of the Vaterland, and one American chief engineer instead of a chief engineer and five assistants that German efficiency required.

A Bilious Attack.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.—Adv.

To the Electors of Washtenaw County:

At the regular election to be held on the first Monday in April, A. D. 1918, the electors of this County will be required to vote upon the following proposition:

"Shall the Board of County Auditors for Washtenaw County be elected by the Board of Supervisors?"

The present Board of County Auditors and the method of choosing the same, became possible by reason of a Local Act applying to Washtenaw County only, passed in the year 1905 and was the direct result of a very heated controversy engaged in by certain political factions then present in this County. Being the outgrowth of a political fight, it is naturally inadequate and accomplishes only the purpose which was desired at that time, which was far from a public purpose.

We, the undersigned, members of the Board of Supervisors of Washtenaw County, are firmly of the opinion that a better administration of the affairs of the important office of County Auditor is possible if the election of the members of the said Board is left in the hands of the Board of Supervisors and the auditors made responsible to the Board of Supervisors and respectfully recommend to the electors of this County that they vote in the affirmative on the above proposition.

Mark your ballot as follows and insure more efficiency in the handling of Washtenaw County's funds. The old saying is that there is strength in numbers and under the new system a representative citizen of each township and ward in this County will have something to say as to how the amounts that you pay for taxes shall be expended.

"Shall the Board of County Auditors for Washtenaw County be elected by the Board of Supervisors?"

WHAT YOUR BOND WILL DO.

The following figures give one a definite idea of what his or her loan to the government by the purchase of liberty bonds will accomplish when used by the war department:

One \$50 bond will buy trench knives for a rifle company, or 23 hand grenades, or 14 rifle grenades, or 37 cases of surgical instruments for enlisted men's belts, or 10 cases of surgical instruments for officers' belts.

A \$100 bond will clothe a soldier, or feed a soldier for eight months, or purchase 5 rifles or 30 rifle grenades, or 43 hand grenades, or 25 pounds of ether, or 145 hot-water bags, or 2,000 surgical needles.

A \$100 bond and a \$50 bond will clothe and equip an infantry soldier for service overseas, or feed a soldier for a year.

Two \$100 bonds will purchase a horse or mule for cavalry, artillery, or other service.

Three \$100 bonds will clothe a soldier and feed him for one year in France, or buy a motorcycle for a machine-gun company.

Four \$100 bonds will buy an X-ray outfit.

One \$500 bond will supply bicycles for the headquarters company of an infantry regiment.

Visiting cards, wedding invitations and announcements, either printed or engraved, at the Tribune office.

Despondency Due to Constipation.

Women often become nervous and despondent. When this is due to constipation it is easily corrected by taking an occasional dose of Chamberlain's Tablets. These tablets are easy to take and pleasant in effect.—Adv.
