SPECIAL MEETING OF COUNTY SUPERVISORS

Elected Chairman for Ensuing Year and Appropriated \$2,000 for County Home Furniture.

A special meeting of the board of supervisors of Washtenaw county was held yesterday in Ann Arbor. The board organized during the morning session and then adjourned to the afternoon.

George D. Crippen of Superior township was temporary chairman and Supervisor John Lawson of York was elected permanent chairman. Fred C. Haist of Lima was elected chairman pro tem.

The board appropriated the sum of \$2,000 for furnishings for the new county house. The contract for the wrecking of the old county house was let to Koch Bros. of Ann Arbor. They will raze the building, fill the cellar, take the material salvaged and pay the county \$100. The board then adjourned.

JUNE WEATHER FORECAST

Almanacs Predict Low Temperatures From First to Fifth.

Following is a weather forecast from four different almanacs:

1st to 5th, Cool Wave—Abrupt fall in temperature over Rocky Mountain region. Local frosts in Montana, the Dakotas and Minnesota. Temperature 30° at Helena, 32 at Bismarck, 23 at St. Paul, 35 at Detroit and 37 at Pittsburgh.

6th to 10th, Unsettled Wave—Local rains west. Cloudy and foggy over Lake region and New England. Damp and dull conditions along all Gulf and South Atlantic Coastal Waters.

11th to 15th, Dry Spell—Scant rainfall for the Southern half of the United States, being especially dry and dusty in New Mexico, Colorado, Oklahoma and Western Texas. Very warm in all states of the Pacific coast.

16th to 21st, Hot Wave—Advanced heat for all sections of the country. Temperature 102 at Phoenix, 100 at Wichita, 98 at St. Louis, 96 at Cleveland, 95 at Buffalo and 93 at Boston.

22nd to 26th, Storm Wave—Tornado storms from Kansas and Missouri northward to Minnesota. Heavy rainfall over Kentucky, Illinois, Indiana and Ohio. Severe lightning, hail and floods, locally over Dakotas and Minnesota.

26th to 30th, Warm Wave—Very warm, sultry weather in Eastern and Southern portions of the country. Heat prostration common to many large cities at about this time.

The temperature for the month will range generally above the average.

The rainfall will be heaviest in States of the Middle West, but will be deficient elsewhere.

CAUGHT BY CLOUD-BURST.

Mr. and Mrs. S. S. Gallagher and Mr. and Mrs. Percy McDaid had an exciting experience early Sunday morning about ten miles north of Lansing while enroute to Alma to visit relatives, when they were halted by floods, the result of a cloud-burst.

They left Chelsea about midnight and ran into a severe rain storm between Webberville and Lansing. Ten miles north of Lansing, the culverts were all washed out and all the low lands were flooded. They were obliged to await daylight and then tried to continue the trip by several different routes, but found all roads impassable so that they were obliged to abandon the trip and return to Chelsea.

MRS. WILLIAM MARTIN.

Mrs. Adelaide M. (Holmes) Martin, widow of the late William Martin, died Saturday, May 25, 1918, at the home of her daughter, Mrs. Charles Martin, following an illness of about 18 months, during which time she had been in gradually failing health and since the holidays in an almost helpless condition.

Adelaide M. Holmes was born in Scio, September 5, 1849, her parents being Samuel and Cornelia Holmes. She was married to John Wurster in Scio, December 24, 1868, and for a short time following their marriage, Mr. and Mrs. Wurster resided in Iowa, which was his native state, but within a few months they returned to Michigan and made their home on the Holmes farm in Scio until Mr. Wurster's death in November, 1875. The widow then moved to Dexter village, where she resided until her marriage to William Martin of Webster in 1885, following which they made their home on his farm in Webster township, moving to Chelsea about nine years ago. Mr. Martin died November 22, 1912.

The deceased is survived by four children, Dallas H. Wurster and Mrs. Cora (Wurster) Martin, of Chelsea, Frank Martin of Dexter, Leo Martin of Ecorse, and by one step-son, Charles Martin of Chelsea; also by three sisters, Mrs. R. P. Copeland of Dexter, Mrs. E. H. Tuomey of Detroit and Mrs. R. D. Walker of Chelsea, one brother, H. S. Holmes of Chelsea, and by seven grandchildren. She was a member of the Chelsea Congregational church and of Olive Chapter, Order of the Eastern Star.

The funeral was held from the home of Mr. and Mrs. Charles Martin this afternoon at two o'clock. Rev. P. W. Dieberger conducting the service. Interment at Dexter.

All Civil war veterans, Sons of Veterans and auxiliary and honorary members of the G. A. R. are requested to meet at the G. A. R. hall at 12:30 o'clock on Thursday to take part in the march to the town hall.

The order of march to the cemetery, following the exercises at the town hall will be as follows:
Members of G. A. R., speakers and W. R. C. in automobiles.
Fife and drum corp.
Boy scouts.
School children.
Flower wagon.
Citizens.

Immediately following the exercises in the town hall, the children of the public and parochial schools will give the flag salute. The program of the exercises at the town hall was published in Friday's issue of the Tribune.

INJURED AT CEMENT PLANT.

Charles Poppovich, an employee of the Michigan Portland Cement company, was seriously injured yesterday at the plant, three miles east of Chelsea and was taken to the hospital in Ann Arbor.

Poppovich was attempting to replace a large belt on a motor pulley, when the belt slipped off and struck him a terrific blow just beneath the chin. He was thrown with terrible force and is believed to have sustained serious injuries about the head.

SUFFRAGE CONVENTION.

The Washtenaw County Equal Suffrage association will hold a county convention Wednesday, June 12, at Ypsilanti. There will be both morning and afternoon sessions and a luncheon will be served. Mrs. Percy Sarrel, state president, will address the meeting. Delegates are expected from Ann Arbor, Chelsea, Ypsilanti, Dexter, Milan, Manchester, Saline and the townships throughout the county. The purpose of the convention is to discuss the present campaign plans and the association's war work.

SOLDIER REMEMBERS MOTHER.

Mrs. C. Steinbach received a letter from her son, Albert M. Steinbach, yesterday. Albert is with the "A. E. F." in France and is kept very busy with the 16th Engineers (Railway), but managed to find time to write in honor of Mother's day. He said he found two little cherry blossoms and wore them all day in remembrance of mother. He is well and pleasantly quartered, but is kept busy on railroad construction and similar work.

EAT NO WHEAT UNTIL AFTER NEXT HARVEST

Message of Food Administrator Asks People to Abstain From Use of All Wheat Products.

The United States food administration has appealed to the people of the country to curtail the use of meat and meat products and to abstain from the use of wheat or wheat products until after the next harvest. Following is a part of Food Administrator Hoover's latest message, which was read in many of the churches throughout the land on Sunday, May 26th:

"In the case of meat and meat products, the necessities for shipment abroad are very great. Whereas the allied consumption has been reduced to an average of about one and one-quarter pounds per person per week, we are today enjoying an average of about three and one-quarter pounds per person per week. This division is inequitable. An understanding of these facts will justify our request that the consumption of all meats, including poultry, as nearly as possible be reduced to two pounds per week per person over four years of age.

"In the case of sugar we are embarrassed by the necessity of using ships for carrying our soldiers and feeding the allies, and in consequence we must use sugar with great economy. We must emphasize the importance of canning and preserving on a large scale among our people this summer, and our available sugar must be conserved for this purpose.

"But the situation with regard to wheat is the most serious in the food supply of the allied world. If we are to satisfy the minimum wheat requirements of our armies and the allies and the suffering millions in the allied countries, our consumption of wheat in the United States until the next harvest must be reduced to approximately one-third of normal. It is inconceivable that we should fail in this crisis. For each of us who can personally contribute to the relief of human suffering it is a privilege, not a sacrifice. All elements of our population cannot bear this burden equally. Those engaged in physical labor need a larger bread ration than those in sedentary occupations. Because of the constant daily employment of women, and the lack of home baking facilities, many householders in large urban centers require a food ration already prepared, such as the bakers' standard victory bread loaf. Furthermore we must constantly safeguard the special requirements of children and invalids.

"To meet the situation abroad, and to prevent serious suffering at home, it is imperative that all those whose circumstances permit shall abstain from wheat and wheat products in any form until the next harvest."

TROOPS IN WEST BOILING UP FOR GREAT BATTLE

PERSHING'S UNITS ARE SQUARELY FACE TO FACE WITH THE GERMANS NEAR AMIENS.

POLISH TROOPS DRIVE 15,000 GERMANS BACK

Field Marshal Von Hindenburg, Chief of the German General Staff, Reported in Hospital With Fever.

London.—The outstanding piece of news in Sunday's official reports, all of which show the armies in the west as "boiling up" for the big battle, is the claim, contained in Berlin's communication, that Americans were captured "west of Montdidier."

It shows Pershing's units, which for some time have been known to be on the Picardy front, are squarely face to face with the spearhead of the German wedge, threatening Amiens, and that when the next blow is struck by Hindenburg toward that great Allied base, American troops will be in the thick of Armageddon's third—perhaps final—round.

Polish Troops Drive Germans Back. Moscow.—Attempts by the Germans to disarm the Polish troops in the Ukraine and Minsk governments are meeting with fierce resistance.

The second Polish corps under General Makovitch, stationed near Rowno, in the government of Kiev, defied the German ultimatum to disarm within 24 hours, whereupon the Germans apologized, saying that the order was a misunderstanding. At midnight, however, Germans attacked the corps, capturing one village.

The Poles entrenched and battled against 15,000 Germans, causing considerable losses among the enemy, but themselves suffering heavily.

The fight continued for several days, when the Germans were driven back, losing a few pieces of artillery.

Russian Prisoners Wrecks.

Moscow.—One million of 3,160,000 Russian war prisoners held in Germany and Austria-Hungary are total invalids. In Germany there are 1,500,000 and in Austria 1,200,000. Half of the invalids are tubercular, most of them in the last stages of that plague. Many of the remainder are suffering from other serious contagious diseases.

Their return to Russia under present conditions is a great problem on account of the lack of food, proper accommodations and medical assistance. The exchange of invalids has been going on for some time.

Hindenburg Ill With Fever.

Geneva, Switzerland.—Field Marshal von Hindenburg, chief of the German general staff, is in a hospital at Strassburg, suffering from typhoid fever, according to reports from that city.

These reports state that the report of von Hindenburg's death is incorrect, but that his condition is critical. Typhoid fever is said to be spreading rapidly in the German army.

Of late there have been various reports of the death of Field Marshal von Hindenburg. Some of these reports were given on authority of German prisoners on the western front.

Will Eliminate Red Tape.

Washington.—Elimination of red tape methods is the purpose of a survey of war department activities undertaken by Colonel Ira L. Reeves, of the inspector general's office, under supervision of Assistant Secretary Crowell. A department statement today explaining the investigation said no sweeping changes are contemplated.

Cutting Away Piers at Zebrugge.

London.—Having failed in attempts to blow the two concrete laden ships sunk in the entrance to the Bruges canal, at Zebrugge, the Germans now are engaged in cutting away the piers in an attempt to outflank the obstruction.

Photographs taken three days ago by British naval airmen show this and they also show how completely the canal entrance has been blocked. So the Germans have adopted the expedient of removing the piers on the west side of the canal, to make a large enough canal for torpedo craft and other vessels larger than submarines to pass out to sea.

Glass Found in Flour.

Adrian.—Another instance of ground glass being found in flour was reported May 24 to Sheriff Nutton by a Lenawee county farmer who found several pieces of broken substance in his bread. Samples of the flour and samples of the bread were brought to this city and put under a microscope and the glass could be plainly seen. At the suggestion of T. M. Joslin county food administrator, some of the flour will be sent to the state chemist at East Lansing for analysis.

FIGHT OR GET BUSY

SWEEPING EDICT TO IDLERS TO MAKE NATION EFFICIENT IN WAR.

IS TO BE IN EFFECT JULY 1

Order Takes Registrants Out of Deferred Class—Ball Players, Golfers, Clerks, Bartenders, and Others, Must Find "Useful" Employment.

THESE ARE HIT BY ORDER TO FIGHT OR WORK.

Idlers. Gamblers. Bucket shop employees. Race track attendants. Clairvoyants and the like. Professional golfers. Professional baseball players (probably). Elevator operators at clubs and stores. Club and hotel doormen. Waiters in hotels and clubs. Ushers in theaters. Attendants at sports. Persons in domestic service. Clerks in stores. Specially exempt. Actors.

Bulletin.

Washington, May 23.—General Crowder's new "work-or-fight" regulations may require professional baseball players either to engage in some useful occupation or to join the army. Baseball players, as well as jockeys, professional golfers and other professional sportsmen, General Crowder said today, will be affected by the regulations if strictly enforced. General Crowder said he did not desire to make specific rulings at this time and would make rulings only when cases came to him from local boards after July 1.

Bulletin.

Washington, May 23.—Theatrical performers have been exempted from the new draft regulations at the direction of Secretary Baker, who is said to feel that the people cannot do without all amusement in war time and that other amusements could be dispensed with more readily.

Washington, May 23.—Habitual idlers, ball players, gamblers, bartenders, and many others are included in an edict issued today by Provost Marshal General Crowder, providing that every man of draft age must work or fight after July 1, under a drastic amendment to the selective service regulations. All draft registrants engaged in what are held to be nonuseful occupations are to be haled before local boards and given their choice of a new job or the army.

Gamblers, race track and bucket shop attendants and fortune tellers head the list, but those who will be reached by the new regulation also include waiters and bartenders, theater ushers and attendants, passenger elevator operators and other attendants of clubs, hotels, stores, etc., domestics and clerks in stores.

Deferred classification granted on account of dependents will be disregarded entirely in applying the rule. A man may be at the bottom of class 1, or even in class 4, but if he fails within the regulation and refuses to take useful employment he will be given a new number in class 1 that will send him into the military service forthwith. Local boards are authorized to use discretion only where they find that enforced change of employment would result in disproportionate hardship upon his dependents.

May Solve the Labor Problem. The statement of the provost marshal general's office is as follows:

"Provost Marshal General Crowder today announced an amendment to the selective service regulations which deals with the great question of compelling men not engaged in a useful occupation immediately to apply themselves to some form of labor, contributing to the general good. The idler, too, will find himself confronted with the alternative of finding suitable employment or entering the army."

"This regulation provides that after July 1, any registrant who is found by a local board to be a habitual idler or not engaged in some useful occupation shall be summoned before the board, given a chance to explain and, in the absence of a satisfactory explanation, to be inducted into the military service of the United States."

"Any local board will be authorized to take action, whether it has an original jurisdiction of the registrant or not; in other words, any man loitering around a poolroom in Chicago may be held to answer to a Chicago board even though he may have been registered in New York and lived there most of his life."

"The regulations which apply to idle registrants will be deemed to apply also to gamblers of all description and employees and attendants of bucket shops and race tracks, fortune tellers, clairvoyants, palmists and the like, who for the purpose of the regulations shall be considered as idlers."

Work Must Be Respected.

Any painter will tell you that the sketch he begins carelessly, with a slovenly scamping of paints, ends by disgustingly him and is frequently left unfinished. Any embroiderer will admit the same experience. Work to be a pleasure must be respected. It must be approached as a dignified and an honorable affair.

For every ton of hay in the field, 500 tons of water have been used to bring it to maturity.

"The new regulation will also affect the following classes:

"(a) Persons engaged in the serving of food and drink, or either, in public places, including hotels and social clubs.

"(b) Passenger elevator operators and attendants, doormen, footmen and other attendants of clubs, hotels, stores, apartment houses, office buildings and bathhouses.

"(c) Persons, including ushers and other attendants, engaged and occupied in, and in connection with, games, sports and amusements, excepting actual performers in legitimate concerts, operas or theatrical domestic service."

"(d) Persons employed in domestic service."

"(e) Sales clerks and other clerks employed in stores and other mercantile establishments."

"Men who are engaged as above or who are idlers will not be permitted to seek relief because of the fact that they have drawn a later order number or because they have been placed in class II, III or IV on the grounds of dependency. The fact that he is not usefully employed will outweigh both of the above conditions."

To Extend Nonuseful List.

"It is expected that the list of non-useful occupations will be extended from time to time as necessity will require so as to include persons in other employments."

"Temporary absences from regular employment not to exceed one week, unless such temporary absences are habitual and frequent, shall not be considered as idleness. Regular vacations will not be considered as absences in this connection."

"The regulation further provides that where such a change of employment would compel the night employment of women under circumstances which a board might deem unsuitable for such employment of women the board may take such circumstances into consideration in making its decision."

General Crowder Explains Plan.

Explaining the new regulation and the necessity for it, General Crowder said:

"The war has so far disorganized the normal adjustment of industrial man power as to prevent the enormous industrial output and national organization necessary to success."

"There is a popular demand for organization of man power, but no direct draft could be imposed at present."

"Steps to prohibit idleness and non-effective occupation will be welcomed by our people."

"We shall give the idlers and men not effectively employed the choice between military service and effective employment. Every man, in the draft age at least, must work or fight."

"This is not alone a war or military maneuver. It is a deadly contest of industries and mechanics."

Must Copy German Machine.

"Germany must not be thought of as merely possessing an army, we must think of her as being an army—an army in which every factory and loom in the empire is a recognized part in a complete machine running night and day at terrific speed. We must make of ourselves the same sort of effective machine."

"It is not enough to ask what would happen if every man in the nation turned his hand to effective work. We must make ourselves effective. We must organize for the future. We must make vast withdrawals for the army and immediately close up the ranks of industry behind the gap with an accelerating production of every useful thing in necessary measure. How is this to be done?"

"The answer is plain. The first step toward the solution of the difficulty is to prohibit engagement by able-bodied men in the field of hurtful employment, idleness or ineffectual employment, and thus induce and persuade the vast wasted excess into useful fields."

"The very situation we are now considering, however, offers great possibilities in improvement of the draft as well as great possibilities for the composition of the labor situation by effective administration of the draft. Considering the selective service law, we see two principal causes of detriment of the call to military service—exemption and the order numbers assigned by lot."

"The exemptions themselves fall into two conspicuous categories—dependency and industrial employment. One protects domestic relations, the other the economic interests of the nation. Between the two there is an inevitable hiatus, for it is demonstrably true that thousands, if not millions, of dependency exemptions have no effect of industrial protection whatever."

"One of the unanswerable criticisms of the draft has been that it takes men from the farms and from all useful employments and marches them past crowds of idlers and loafers to the army. The remedy is simple—to couple the industrial basis with other grounds for exemption and to require that any man pleading exemption on any ground shall also show that he is contributing effectively to the industrial welfare of the nation."

Bersey Requests Press Help.

Lansing.—Adjutant-General Colonel J. S. Bersey is sending to all local draft boards, regulations for the registration June 5, of men who have attained 21 since the registration one year ago. The local boards have been requested to exert every effort to obtain prominent and continuous publication in all papers until June 5 of vital parts of the registration regulations, particularly the time and place of registration, persons required to register.

Former Postmasters Admit Theft.

Ray City.—Lee R. Wallace, of Port Austin, and Andrew K. Burrows, of Detroit, both former postmasters at Port Austin, were indicted by the federal grand jury here May 24 on charge of embezzlement of postoffice funds, the former for \$259.50 and the latter for \$16,000. Both pleaded guilty when arraigned, but claim to have made the shortage good. There is a second indictment against each man. Carl Tausch of Flint who failed to register under draft law, pleaded not guilty.

What He Kin Do.

"Is there anything you can do better than anyone else?"

"Yes," replied the small boy; "I kin read my own writing."

BATTLE SINN FEIN TO DEATH--DILLON

DILLON IN SPEECH APPEALS TO IRISHMEN NOT TO NEGLECT U. S. PUBLIC OPINION.

NEVER BROKE WITH SINN FEIN

Says Sinn Fein Policy Is Calculated to Rob Ireland of Sympathy of All Democratic People.

Ballinborough, Ireland.—John Dillon, chairman of the Irish Nationalists, speaking here Sunday, declared war to the death on the Sinn Fein. The occasion for his speech was a meeting of delegates from East Cavan to decide whether the Nationalist party ought to withdraw its candidate and permit the Sinn Fein, Arthur Griffith, to be elected unopposed.

Mr. Dillon's speech bristled with references to America and appeals to Irishmen not to neglect American public opinion. He emphasized his denunciation of the Sinn Fein by quoting several phrases from his statement recently made to the Associated Press.

"Some English newspapers," he said, "have quoted the interview I gave to the Associated Press of America, as evidence that I have 'broken off' my alliance with the Sinn Fein. You cannot break off what has never existed."

"I am being denounced by the Sinn Feiners as an imperialist, which I never was, and as an enemy of the true principles of Irish nationality. And I have repeatedly explained that, while I was in favor of the Mansion House conference for the sake of presenting a united front on the single question of conscription, I was so far from believing that there was any other possible common platform with the Sinn Fein that I was more bitterly and more irremediably opposed to de Valera and Griffith than ever before in my life."

"I am more convinced than ever that the Sinn Fein policy is calculated to rob Ireland of the sympathy of America and of all democratic people throughout the world."

MUST PAY FREIGHT IN ADVANCE

McAdoo Issues Orders Abolishing Present System of Credit.

Washington.—Railroad transportation charges must be paid in advance after July 1, under an order issued Thursday by Director General McAdoo, abolishing the present system by which many large shippers and consignees are given credit on their freight bills for weeks or months, while small patrons are required to settle on a cash basis.

This means that under government management railroads will collect each day the charges on goods shipped or delivered that day, with the exception that credit for two days may be extended those who file surety bond covering payment.

Existing bonding arrangements are to be terminated July 1, or as soon thereafter as possible.

STATE DEATHS 46,036 IN 1917

Annual Reports Shows 85,414 Births Occurred in 1917.

Lansing.—According to the annual report of the vital statistic division of the secretary of state's department 85,414 births occurred in Michigan during 1917, and 46,036 deaths.

The increase of births over 1916 was 2,339, while the total number of deaths increased 1,268 over the previous year.

Tuberculosis in its various forms caused 3,203 deaths, typhoid fever 859, diphtheria 844, eroup 486, pneumonia 4,346, diarrhoea and enteritis among children under 2 years of age 1,536.

The total number of violent deaths increased from 2,914 in 1916 to 3,173 in 1917. The number of deaths of infants under one year of age decreased from 8,111 in 1916 to 7,360 last year.

CARFERRY BREAKS ALL RECORDS

7,331 Cars Ferried Across the Straits in Month.

Potoskey.—During the past month the ferry Chief Wawatam of the Mackinac Transportation company has broken all records for ferrying cars across the straits.

From April 25 to May 21, both inclusive, 7,331 cars were ferried across. In order to accomplish this, it was necessary at times to hold up passenger trains at St. Ignace and Mackinac City, freight traffic having the right of way during these strenuous times.

Bersey Requests Press Help.

Lansing.—Adjutant-General Colonel J. S. Bersey is sending to all local draft boards, regulations for the registration June 5, of men who have attained 21 since the registration one year ago. The local boards have been requested to exert every effort to obtain prominent and continuous publication in all papers until June 5 of vital parts of the registration regulations, particularly the time and place of registration, persons required to register.

Former Postmasters Admit Theft.

Ray City.—Lee R. Wallace, of Port Austin, and Andrew K. Burrows, of Detroit, both former postmasters at Port Austin, were indicted by the federal grand jury here May 24 on charge of embezzlement of postoffice funds, the former for \$259.50 and the latter for \$16,000. Both pleaded guilty when arraigned, but claim to have made the shortage good. There is a second indictment against each man. Carl Tausch of Flint who failed to register under draft law, pleaded not guilty.

SHIPYARDS AHEAD OF U-BOATS

America and Great Britain Constructed 40,000 Tons More Than Was Sunk in April.

Paris.—As proof that the Allies are rapidly overcoming the submarine menace, Georges Leygues, minister of marine, informed the army and navy war committees of the senate that Great Britain and the United States alone had constructed in April 40,000 tons more shipping than was sunk by the enemy.

The minister declared also that the means employed to rid the seas of submarines had become increasingly effective since January and had given decisive results.

The minister pointed out the tremendous strides recently made by the Allies in repairing ships damaged by torpedoes or mines and declared that co-ordination between the Allied nations had become so smooth during the last four months that the tonnage restored to the sea exceeded 500,000 tons weekly.

Great Britain, he said, had repaired 598,000 tons in one week recently while France had effected repairs up on 260,000 tons in one month.

The increased building and more efficient and speedier repair work was constantly bringing better results in the transport of troops and supplies.

As to the increasing destruction of submarines, which was constant, said the minister, the figures for April were excellent, showing an increase over the preceding months, but were far surpassed by the results known to have been attained thus far in May.

Jacques Dumesnil, under-secretary of aeronautics, announced to the committee that the program for the construction of naval machines prepared in 1917 had already been equalled in 1918, but that a new and more intensive effort was planned.

POWER TO DRAFT GIVEN WILSON

Bill Will Be Laid Before the House With an Actual Appropriation of \$9,569,129,000.

Washington.—The army appropriation bill giving President Wilson authority to call to the colors all men of draft age who can be equipped and trained stood completed Friday by the house military committee and ready for presentation to congress.

Perfection of the bill constituted one of two important steps toward putting the nation on a new basis, and the committee's action came soon after Provost Marshal General Crowder had promulgated a drastic amendment to selective draft regulations requiring every man of draft age to work or fight.

Secretary Baker appeared before the committee in executive session and recommended an increase in the army by empowering the president to call out draft registrants as fast as they can be handled by the war department.

The committee promptly voted such authorization into the bill and completed the measure to provide for the pay of 3,000,000 men and carrying ordinance appropriations on the bases 464,416,000 more.

The bill will be laid before the house with an actual total appropriation of \$9,569,129,000 and an authorization for contracts amounting to \$2,464,416,000 more.

With the law changed as the president desires, the man power of the country will be drawn upon for whatever force may be necessary to win the war.

Members said later it was estimated that an army of 5,000,000 could be raised without changing the draft ages.

MRS. STOKES FOUND GUILTY

Charged With Violation of Espionage Act, Convicted on Three Counts.

Kansas City, Mo.—Mrs. Rose Pastor Stokes, charged with violation of the espionage act, was convicted by a jury in federal court. Mrs. Stokes was convicted upon all three counts in the indictment against her.

After conferring with Francis M. Wilson, United States district attorney, and Seymour Stedman of Chicago, Mrs. Stokes's counsel, Judge Van Valkenburgh, announced that he would defer sentence pending a motion for a new trial.

He set June 1 as the date for hearing the motion.

Muskegon.—A. H. Hammond, who a few weeks ago had one of his hands amputated, the result of injuries in the rubber 'vire plant of the Brunswick-Balke-Clender company in Muskegon, is held at the county jail, pending an examination as to his sanity. The extreme physical shock of this recent injury is believed to have unbalanced Hammond's mind.

Peace With Justice.

For, while peace is not the first of blessings—justice occupying the premier place—it is an inestimable boon when it is the logical consequence of justice and not the sole end pursued along a pathway of lies, cowardice and baseness of every kind.—Emile Bontroux, in North American Review.

"Yes," replied the small boy; "I kin read my own writing."

SIDES OF FACE NOT ALIKE

Afford Proof of the Familiar Axiom There Are No Duplicates in Nature.

Most of us have heard the expression "two faced" applied to some one in scorn, says the Minneapolis Journal. It always has been taken to mean that the person so described was hypocritical.

Physiologists recently have undertaken to prove that all of us are two faced. That is to say, they maintain that the two sides of the human face differ. And the left side of the face is the more comely of the two. In proof of the assertion, it is said that in taking profile pictures photographers usually pose their subjects so as to expose the left side of the head.

Now for the scientific proof. The left side of the brain, as is well known, does practically all of the thinking and scheming, while the right side relates more closely to the physical and is the base of the senses. But, strangely enough, these two portions of the brain control opposite sides of the body, and as the left side of the brain does the hardest work it imposes the greatest strain upon the muscles and nerves on the right side of the body. Thus the muscles of the right cheek are more constantly in use and undergo greater stress than those of the left side, and this causes deeper wrinkles upon the right side of the face. But this condition has another result. As being in closer touch with the thinking half of the brain, the right side of the face has greater animation and the right eye is more expressive than the left. It is a familiar axiom that there are no duplicates in nature. The physiologists claim that this is one of the causes for differences in the features of the same person—that nature never models two eyes or ears in an exactly identical way.

Gleaning in England.

The gleaning bell may still be heard in some villages in England. Probably the nearest place to London where it is still rung is at Farham, in Essex. There the tenor bell of the church is rung at 9 a. m. and 5 p. m. as soon as the harvest is well advanced. A penny is paid to the bellringer by each family of the parish that goes gleaning.

BEAN GROWERS, ATTENTION!

The above illustration is only an ordinary stalk of the famous "One Thousand to One" bean as grown on the McManus bean ranch, Mecosta county, Mich.

They are of the running variety, and big yielders, and also the cheapest bean the farmer can plant, as one bushel will plant approximately six acres, or about three times the amount of any other bean.

The "One Thousand to One" bean root much deeper, and will stand more drouth, and are practically free from bean diseases.

You will make no mistake Mr. Farmer in trying out this new kind of bean, as experience has taught us that we must have the best in seed to produce the maximum in yield.

These beans sold last season for \$20.00 per bushel, but as I have only about thirty bushels left, I offer them at \$10.00 per bushel, all nicely hand picked, and of good hard stock, harvested in the dry.

Be the first to grow this new bean in your vicinity. Sample may be seen at the E. E. Shaver photograph studio, or call at 320 S. Main St., Chelsea.

Yours for a larger yield.

MASON—Tuesday afternoon deputies went to the home of Jasper Nichols in Williamston township and found 881 pint bottles of beer. Nichols gave a \$1,000 bond in the justice court in Williamston for his appearance at the preliminary hearing of his case.—News.

SALEM—The son of Gottlieb Waldemire of West Salem met with quite an accident Sunday morning. He had purchased a motorcycle from Frank Carry and was taking it home when he lost control of it. He was thrown off and his head badly cut and bruised. He was taken to a nearby house and Dr. Henry of Northville was called. Aside from being bruised and shaken no more serious injury than the cut on his head was discovered.

HAMBURG—A gang of workmen are making extensive repairs on the ice houses at Lakeland. Wednesday while Frank Wallace was at the top of an extension ladder a nail chisel slipped from his hand and struck one of the workmen standing below on the head, cutting it badly. It is not thought it will prove fatal.

ADRIAN—Another instance of ground glass being found in flour was reported Friday to Sheriff Nuten, by a Lenawee county farmer who found several pieces of broken substance in his bread. Samples of the flour and samples of the bread were brought to this city and put under a microscope and the glass could be plainly seen.

YPSILANTI—Postmaster J. F. McCann claims to have received the first letter here carried part way by the United States aeroplane service. The letter was mailed May 24, 1918, at Washington at 11:30 a. m., and was carried by air to New York. It arrived here Saturday at 1:30 p. m.

ANN ARBOR—Arrested as a deserter from a Canadian army camp near Toronto, William Zanloon, aged 35, a Hollander, arrested here, has been taken back. He admitted he left service after a difference with a corporal. He came to Ann Arbor from Detroit.

Proper Food for Weak Stomachs.

The proper food for one man may be all wrong for another. Every one should adopt a diet suited to his age and occupation. Those who have weak stomachs need to be especially careful and should eat slowly and masticate their food thoroughly. It is also important that they keep their bowels regular. When they become constipated or when they feel dull and stupid after eating, they should take Chamberlain's Tablets to strengthen the stomach and move the bowels. They are easy to take and pleasant in effect.—Adv.

MEMORIAL DAY.

Appropriate Memorial day exercises were held Sunday morning at a union service at the Congregational church. The members of the G. A. R. and W. R. C. and their auxiliaries attended in a body and there was a large general attendance.

Rev. Dierberger preached the memorial sermon and was assisted in the exercises by the pastors of several churches. Rev. Schoen read the scripture lesson, Rev. Whitney offered prayer, Rev. Carmichael read the announcements and Rev. Whitney pronounced the benediction. Special music also added much to the exercises and was greatly appreciated.

SCHOOL DISTRICT RALLIES.

Monday, July 8th, election day for school trustees, every school district in Washtenaw county will be the scene of a big patriotic rally, to be held simultaneously with similar rallies in every school district of Michigan. There are 8,500 districts and the events will constitute the greatest patriotic demonstration ever held in any state of the Union.

Fred L. Keeler, State Superintendent of Public Instruction, evolved the plan, and he and William A. Comstock, Chairman of the Educational Committee, are co-operating with the County War Boards of each county in arranging for these meetings.

Superintendent Keeler's idea is to give the people of the rural communities an opportunity to attend a patriotic demonstration in their home districts, and at the same time give their whole state rallies to further the cause of the United States. It is a greater effort in helping America's armies across the sea win the great war. The date of the annual school elections was chosen because on that day the farmers can combine their duties of citizenship with a display of patriotism without added loss of time, so valuable at that time of the year in the production of foodstuffs, which are as necessary as men and guns and ships.

In addition to the regular program of patriotic numbers, it is suggested that every school district hoist a new American emblem with fitting exercises.

ANTHRACNOSE NEAR END.

Anthracnose, a disease of the bean crop that in past years has been the source of immense loss to Michigan farmers, is on the run, in the opinion of Dr. G. H. Coons, plant pathologist at M. A. C. It can be kept that way, he adds, if Michigan bean growers will carefully pick their seed before planting this spring.

"As a result of the last two dry summers," Doctor Coons declares, "the percentage of anthracnose has been so reduced that not more than 2% of the 1,600 samples we have examined within the past winter showed heavy infestation."

"Anthracnose" is now in retreat, but if wet weather keeps up this year it can make a stand and re-trench itself unless the precaution is taken to plant clean seed beans. The seed stock should be free from weathered beans and as clean and dry as possible. All beans showing spots or stains should be thrown out.

KIND AND GENTLE.

An old farmer was laboriously filling out a claim-sheet against a railroad company that had killed one of his cows. He came down to the last item, which was, "Disposition of the carcass?"

After puzzling over it awhile he wrote: "Kind and gentle."

NEWBERRY for United States Senator

Truman H. Newberry is a candidate for United States Senator. He is an American in real earnest. His service in the Spanish-American War, his record as Secretary of the Navy under President Roosevelt, and his present work as commander in the Third Naval District, which includes the port of New York and the Brooklyn navy yard, mark him as a FIGHTER and DOER, capable and courageous.

Truman H. Newberry

continue to serve his country, standing for and by the government for the full prosecution of the war and leaving his campaign for Senator entirely in the hands of his friends. His two sons are enlisted in the country's service, too, one as a major in the army, the other as an ensign in the navy.

Truman Newberry is a worker. After he left college, he took hard knocks working with a construction gang on the old Detroit, Bay City & Alpena Railroad. He also sailed the Lakes and earned for himself a license as first-class pilot. HE IS A MAN'S MAN.

As Secretary of the Navy under President Roosevelt, he is credited with putting the navy in a state of preparedness, which has had much to do with its present efficiency.

"Fighting Bob" Evans said of him—"Truman H. Newberry is the greatest Secretary of the Navy the nation has ever had."

His ability and experience make him an ideal candidate for United States Senator.
