## You Can't Get Medicine Too Good

Good medicines are more necessary than good food. When you're strong and well a little poor food won't have any lasting bad effects, but when you're weak and sick a little poor medicine will work untold harm.

Good medicines are the only kind we sell and our prices are right too.

### NEWS OF "OUR BOYS".

Mr. and Mrs. A. B. Shutes, of Lima, have received word from their son, Glenn, and it is certain that he is at the front, somewhere in France.

In his letter he says that he is feeling fine. He says: "It is a great war, alright. They are careless. A year ago I was home. Since then I have had some experiences, but I don't regret one minute I have spent in the army. It has educated me and helped me in many ways. I do not consider it as time wasted. I have seen some country since I left Michigan, and am still seeing more of it."

"When I get home I want know what to tell first, for with what I have seen, and what I imagine I am going to see, I am going to have some time. I can parley French and sprechen Deutsch, and possibly will have eight or ten more languages before I get home."

Two Chelsea boys have received commissions in the navy. Carl C. Chandler, son of Mr. and Mrs. E. H. Chandler, and Llewellyn Winans, son of Mr. and Mrs. C. S. Winans, who have been at the Great Lakes Training Station for the past year, have received commissions as ensigns, and have been sent to Annapolis for further training. Both young men were here for a short visit while on their way east.

Hollis W. Freeman, son of Mr. and Mrs. L. T. Freeman has been transferred from Kelly Field, S. San Antonio, Texas, to the army balloon school, at Arcadia, Calif.

Achie Willis, son of Mr. and Mrs. H. T. Willis, has been transferred from Camp Zachary Taylor, Ky., to Camp Sherman, Chillicothe, Ohio.

### No Men Called From Washtenaw.

The local selective draft board has received a copy of the orders for the induction of 7,000 Michigan men into the military service, to be sent to Camp Custer during the five days beginning June 24, but Washtenaw is not called upon to furnish any men for this quota.

This is the second time this year that Washtenaw county has escaped a call of men, being omitted in the last two calls.

The large number of men who have enlisted in the service from the county has given Washtenaw a credit for army service which the other parts of the state will need to equal before the county will be called upon to provide more men for selective induction.

Men are being inducted into the service and sent away to camp from the county almost every day, and the county's credit is rapidly being increased.

### Washtenaw Boys in Trenches

Ann Arbor Times News: Ann Arbor boys who were members of old Co. 1 in the Michigan National Guards are now fighting on the western front.

Some time ago the Times News published the fact that the 128th Infantry, of which the former Co. 1 is now a part, was taking its turn in the trenches, news having reached the country in a letter from Major Gansser of Bay City, and this news is corroborated in a letter from Clarence Schaller, circulation manager of the Times News.

In the letter, which was received a day or two ago, Schaller tells his father that he has taken his turn in the trenches, and as a major portion of the members of the old Co. 1 are now members of Co. E, to which Schaller is attached, it is safe to presume that a large number of Ann Arbor and Washtenaw county boys are now in the action.

## THE CHELSEA HOME GUARDS ORGANIZED

Friday evening the first meeting for the organization of the Home Guards was held at the office of the Michigan Portland Cement Co. At that time forty-five men signed the roll.

The second meeting was held at the same place Tuesday evening, at which time Max Wickersham was elected captain and Warren C. Boyd secretary. The captain had the boys out for drill after the election.

### Sleeper Asks Loyalty Pledge.

In proclaiming June 14 as Flag day, and requesting that the nation's emblem be displayed on public and private buildings and that appropriate exercises be held in the schools, Governor Sleeper asks that the day be made the occasion for a new demonstration of loyalty and allegiance by Michigan's citizens. He says:

"This year the flag has for us a deeper meaning than ever before. It means more to the world. It carries a message of universal hope and cheer. It has become the symbol of the world's freedom. The world looks to us to save it, and by this sign we shall conquer. Our glorious banner proclaims America the hope of the world."

"Let Flag day be a day on which those who have come to us from other lands and here found freedom and opportunity, shall reaffirm their loyalty to the United States and her institutions; and let us all on that day pledge anew our allegiance to our flag, and our faith in those principles of liberty and justice upon which the republic was founded."

### Lady Maccabee County Convention.

The Washtenaw County Association of the L. O. T. M. was held at the opera house, Chelsea, on Friday, June 7, with Dr. Emma E. Bower of Port Huron, as guest of honor.

The morning session was in charge of County Commander Minnie Snyder of Dexter. Ten hives responded to roll call with nearly one hundred present. Arbor Hive exemplified the work that was used when Miss Bower was initiated into Arbor Hive in 1892, and the Commander, Lydia Miller, at that time, filled the chair at this time.

A fine luncheon was served at noon by the Chelsea Branch of Red Cross to nearly a hundred at Maccabee hall.

The afternoon session was called to order at 2 o'clock and was in charge of Deputy Lila Campbell. The address of welcome was given by Rev. P. W. Dierberger, the response by Dr. Emma E. Bower. A service flag with twenty-seven stars was dedicated in honor of the husbands, sons and brothers of the members of Columbian Hive, and was in charge of Eliza C. Bacon.

A fine drill was given by twenty-five little girls, each girl representing one year of Miss Bower's service as Great Record Keeper. Master Richard Koons, dressed in khaki, crowned Miss Bower with a silver crown, in honor of her twenty-five years of service. Fay Nemethy, dressed as a Red Cross nurse, presented her with twenty-five carnations.

A fine address was given by Miss Bower, and a play entitled "One Happy Day," concluded the day's program.

Miss Nina Belle Wurster presided at the piano while Georgia Smith played the bells.

The meeting was a decided success in every way. Between three and four hundred people were present at the afternoon session, which was public.

### RED CROSS NOTES.

Many thanks for the donation from M. L. Burkhardt.

New members, Alfred Gross. There were six renewals.

In sending in knitted goods be sure that the articles bear an identification mark. Cards will be given to experienced knitters.

Any changes in the instructions or other branches of the work will be issued officially from headquarters. All rumors should be disregarded.

Eleven hospital shirts, 17 handkerchiefs, 5 peptic coats, 26 operating caps, 4 dresses, 10 pajama suits, 25 hospital masks, 1,300 surgical dressings were sent to Ann Arbor last week.

The surgical dressings quota for the month of June is unusually large. All members of the surgical dressings classes are requested to be present to help fill the June quota of 2,000 compresses and 1,000 drains for front line packets.

Many people were surprised at the splendid luncheon given by the Red Cross ladies for the L. O. T. M. convention last Friday. Mr. Hoover was with us all through the luncheon, and in spite of the high cost the Red Cross cleared \$27, which we assure you will be a great help to the Branch. We wish to thank all of the ladies who assisted and those who furnished for the luncheon.

### Commencement at the Academy.

St. Mary Academy announces its commencement for Wednesday evening, June 19, in Academy Hall, at 8 o'clock. Two young ladies will be graduates, Isabelle Irene Schanz and Vivian Mae Farrell. The following program will be presented: Processional—Orchestra. General Chorus—America. Salutatory—Vivian Mae Farrell. Chorus—Commencement Day. Valedictory—Isabelle I. Schanz. Address—Rev. John R. Hackett. Conferring of Honors—Rev. W. P. Considine.

Chorus—God Bless Our Boys. Ingomar—A four act drama. Finale—Orchestra.

The play Ingomar is most interesting throughout, and the boys and girls of the Academy give promise of presenting it in a most creditable manner. The successful presentation of Damon and Pythias last year will serve as a drawing card this year, since Ingomar is a play of the same standard and it is being presented by practically the same cast. Admission fifty cents.

### Eastern Star Meeting.

Wednesday evening was Past Matrons' night at Olive Chapter, O. E. S. Lunch was served at 6 o'clock, after which four candidates were initiated, these past officers taking the various chairs: W. Mapes; Ruth; Mrs. Blanche Sanborn; Eshter, Mrs. Geo. W. Palmer; Martha, Mrs. J. Bacon; Electa, Mrs. R. B. Waltrous. Grand Worthy Secretary Mrs. Eva Goodrich, of Ann Arbor, was present. Mrs. Charles Martin, Worthy Matron for the past two years, was presented with a Past Matrons' pin, Mrs. S. A. Mapes making the presentation. A patriotic program of readings and music was given. The occasion was also to celebrate the twenty-fifth anniversary of the organization of Olive Chapter.

### Make It Easy For the Boy.

Michigan Business Farmer: Make it as easy as you can, friend farmer, for the boy who comes to help you with your farm work this summer. A year or so hence he may be the only help you will have left. Boys will learn, and quickly, if their employers are patient and considerate of their feelings and welfare. The ten thousand odd boys who will take the place of skilled laborers on Michigan farms this year have the makings of a strong labor reserve which farmers may be glad to call upon before the war is over. The success of the Boy's Working Reserve depends largely upon the farmers themselves. Let's not let our prejudices and our convictions that someone has blundered in draining the farms of their labor, blind us to the actualities which we must face before this and many seasons' crops are harvested.

You may not be able to fight, but you can save and buy War Savings Stamps.

Many are giving their lives; you are asked only to loan your money.

**Michigan's War Activities**By Hon. Albert E. Sleeper, Governor of Michigan.  
(In the American Review of Reviews for April 1918.)

(One of the effective and patriotic executives who direct the emergency work of our States in the war period is Governor Sleeper, of Michigan. What he tells our readers herewith of the efforts of that great commonwealth is most encouraging. Michigan's automobile industry and her many other manufacturing plants, as well as her agriculture, are going to make a great record for the year 1918.—The Editor.)

Hon. Albert E. Sleeper,  
(Governor of Michigan.)

Michigan factories are turning out huge supplies for the Government. Motor trucks are being built by the thousand, and Henry Ford is planning to construct U-boat chasers on a colossal scale. In fact the whole of the immense manufacturing power of the State is at the disposal of the President and his advisors.

Last April the Michigan State Legislature appropriated the sum of \$5,000,000 for war purposes. The State War Board, consisting of the elected State officers with the Governor as chairman, is charged with the administration of this fund; and while we have been careful in the use of our money, while we have tried to avoid useless or wasteful expenditure, we have used money, and used it freely, wherever we have felt we could help the cause of the nation by so doing.

We have contracted for the purchase of a thousand farm tractors and an equal number of tractor plows, and if more are needed they will be forthcoming. These tractors will be re-sold to individual farmers, under a guarantee from each purchaser that he will keep his machine constantly at work. Not only will he do his own plowing but he will take care of his neighbor. This arrangement will help to minimize the inevitable shortage of farm labor from which the State will suffer this coming season. The State, too, is making further arrangements to solve the farm labor problem.

We have also purchased a supply of seed corn and spring wheat which will be distributed through the various sections where the need is greatest.

We have, too, a large surplus of potatoes from last year's crop which have not been marketed, and, realizing that the growers would suffer heavy loss unless something could be done to bring relief, we have undertaken an experiment in dehydration, which, if successful—and we have little doubt about that—will take care of part of the big crop now on hand and next season will enable us to handle the whole crop.

Some months ago the War Board authorized the State Board of Health to deal with the subject of venereal disease not only in relation to the soldier but among the civilian population as well. This was done under the direction of Dr. R. M. Olin, Secretary of the Board of Health; and the Michigan plan has so commended itself to the War Department that they have recommended it for adoption in all the States of the Union.

The War Board, through the State Highway Department, has expended approximately \$300,000, in the construction and maintenance of military highways.

Last summer the "I. W. W.'s" started in to make trouble in the Iron Country, but the despatch of a detachment of our mounted State Constabulary to the scene nipped the trouble in the bud, and we are assured by those in closest touch with the situation that our prompt action in this matter avoided serious disturbance in the mining region of the State. As it is, everything has been quiet there and our men are still on guard. The Constabulary was organized since our entry into the war, and the general feeling seems to be that the service rendered in this part of the State alone has furnished ample justification for their establishment as a branch of the State Military organization. They have also done effective work in other parts of the State, guarding munitions plants, elevators, docks and the like.

We have been endeavoring also to take care of the boys who have gone to the training camps. We arranged to loan a maximum sum of \$400 to each young officer in need of financial assistance for the purchase of his equipment. We take their personal notes, and all these loans will be paid back, unless, and we do not like to think of that, the boys do not come back to us. We have been taking care of the dependents of our soldiers too, the wives and the babies and the mothers of both enlisted and drafted men. We have been paying from \$10 to \$50 a month to hundreds of families where the bread-winner has gone to war or into training. The national government has been necessarily slow in getting money to the many thousands of women and children dependent on the men who have been called into the service. In the meantime, we have done what we could to tide over the period of financial stringency. We are determined to do our best for the comfort of the boys themselves and of the dear ones they have left behind. I might say in passing that we also purchased 16,000 pairs of rubbers for the boys in Camp Custer.

In each of our eighty-three counties we have established a County War Board. The County Boards in turn have recommended a Township or Ward Board in each township and ward in the State. These boards have been chosen with great care. We have done our best to secure the men who do things, and we believe we have an effective organization covering every corner of the State. It will be the business of these men to take the lead in all patriotic endeavors in their several communities.

In this connection mention should be made of the splendid work which has been done by the women of Michigan. They have risen nobly to the occasion and their efforts have been most effective. They are now preparing for a State-wide registration of women for war service.

I am glad to be able to say that our State is united in its determination to do its full share toward winning the war. We realize the serious nature of the situation. We know that there is not only hard work ahead of us but suffering and sacrifice; but we have put our hand to the plow and we shall not look back.

(Permission to use Governor Sleeper's article granted the U. S. Food Administration, Michigan Division, by the Review of Reviews Co., Albert Shaw, President.)

**IF YOU ARE A PATRIOT YOU ARE OBSERVING THIS  
SCHEDULE OF FLOUR RATIONS IN YOUR OWN HOME.**

Flour rations for families doing their own baking; and those purchasing Victory bread from bakers, based on a maximum allowance of one and one-half pounds of flour per person per week:

Flour Rations Per Person Per Week.	Number in Family.				
	2	3	4	5	6
For families doing their own baking and using flour for all miscellaneous purposes; including crackers, macaroni, etc.	3 lbs.	4 1/2 lbs.	6 lbs.	7 1/2 lbs.	9 lbs.
Families not doing their own baking but buying Victory bread from bakers:					
BREAD .....	3 1/2 lbs.	5 1/4 lbs.	7 lbs.	8 3/4 lbs.	10 1/2 lbs.
Flour ration for all other purposes, including crackers, macaroni, etc.	1 lb.	1 1/2 lbs.	2 lbs.	2 1/2 lbs.	3 lbs.

In explanation of the seeming disparity between flour rations permitted families doing their own baking and those purchasing Victory bread, it is pointed out, that households depending on bakeries and buying Victory bread under the one and one-half pound flour ration are permitted to use one and three-quarters pounds of Victory bread per person per week, plus one-half pound flour for miscellaneous uses, such as macaroni, crackers, etc. This is the equivalent of one and one-half pounds of flour per person per week where the family does its own baking, for the reason that bakers' bread takes on 10 per cent of moisture content, and also contains 30 per cent of substitutes under the present baking rules. Therefore, one and three-quarters pounds of Victory bread contains one pound of wheat flour. This leaves one-half pound of wheat flour for all other uses, such as crackers, macaroni, etc.

**BREVITIES**

Manchester—Miss Marie Kirchofer principal of the Manchester high school, has resigned, after having taught in the schools here for thirty-two years. She expects to go to Hollywood, Cal., where she will reside with her brother.

Ann Arbor—David Lovell, of this city, who was in the thick of the fighting in France for three years, arrived home Monday, suffering from shell shock. He was a member of the first expeditionary force sent to France by Canada.

Brighton—Robert W. Hodge, son of Mr. and Mrs. W. E. Hodge of this township, now a member of Battery B, 120th Field Artillery, and doing active service on the battle lines in France, had the unique experience recently of guarding his own cousins as prisoners of war.—Argus.

Milan—The names of the streets in Milan are posted on all the corners now, the work being completed this week. This will prove a great help to strangers in helping locate places and we are informed that many townspeople are being surprised at the names of some of the streets.—Leader.

Bridgewater—A very serious accident befel Charles Scheurer of Bridge-water Station Saturday morning while he was greasing the machinery at the elevator. His clothing caught in a belt and he was whirled several times around the wheel. All of his clothing except his shoes and the wristbands of his shirt was torn from his body. He was badly bruised, but escaped with no serious injury.—Clinton Local.

Blissfield—A citizen of Blissfield in comfortable circumstances and doing a thriving business, pinched out of his fat purse a measly dollar for the Red Cross when called upon and then informed the solicitor that he did not want again to be visited or bothered by Red Cross solicitors. A hard working woman of this place who is supporting a family and has a struggle to make both ends meet, opened her purse and took from her slender fund two dollars which she gave with a smile and a "God bless the Red Cross." A contrast in which selfishness stands out in disgusting relief.—Advance.

Clinton—Mrs. Sarah V. Wastell, Clinton's honored centenarian, celebrated her one hundred and fourth anniversary last Thursday by keeping open house to her many friends and relatives. Many presented her with flowers and post cards. She is enjoying good health and spent a delightful day in conversing. She has a remarkable memory and loves to relate incidents which occurred in her early days.

## FIRST OFFICIAL SUMMARY ISSUED

WAR DEPARTMENT GIVES OUT TOLL OF 7,315 IN CASUALTY LIST.

198 CASUALTIES FOR SUNDAY

The Largest Number of Casualties at Sea Given As 209 Men Lost From Transport Tuscania.

Washington.—Seven thousand, three hundred and fifteen men is the complete casualty toll of the American expeditionary forces, according to the first official summary issued by the war department.

The list shows that more men have died of disease, accident and other causes than were killed in action or have died of wounds. One thousand five hundred and eighty-four succumbed to disease and other causes, while 1,343 were killed in action or died of wounds.

The list includes 198 casualties announced Sunday the longest that has come from General Pershing. A summary with figures brought up to date will be issued weekly.

The list is divided as follows: Killed in action (including 291 at sea,) 1,033.

Died of wounds, 310.

Died of disease, 1,192.

Died of accident and other causes, 392.

Wounded in action, 4,045.

Missing in action (including prisoners,) 242.

Total, 7,315.

This list does not include the marines on navy ships, the men lost at sea being aboard transports.

The largest number were lost from the Tuscania, when 209 men went down.

While no official explanation was given for the decision of the department to advise the country weekly of the exact total of casualties since the landing of the first American forces in France last June, it is understood that it resulted largely from widespread reports that casualties had been very heavy and that total figures were being withheld from the public.

It has been explained at the department that the daily lists sent by General Pershing are issued with as little delay as possible. Casualties are so scattered in the lists that they will not give information of value to the enemy, but this does not mean that any appreciable numbers are held back. After heavy actions, such as that at Cantigny, it requires several days to check up the casualties and cable them to the department.

American troops have been in the trenches several months and now hold sectors at several points along the western front. In addition many American units are brigaded with the French and British and have been in heavy fighting since the German drive began in March.

General Pershing's men first went into the front line last November for training and soon afterwards they took of a trench sector permanently. Other units went into the trenches for final training with the French line and finally took over sectors so that the total frontage now held by the Americans rank second to that of the French and British armies.

## SIBERIA AWAITS ALLIED HELP

1,000 Russian Army Officials Waiting Allied Aid in Arms at Vladivostok.

Washington.—Siberia is ripe for Allied intervention of the right sort, President Wilson has been told. Men on whose judgment he has hitherto relied have laid before him a plan whereby the Allied armies are to be accompanied by economic missions to restore order in the country as the armies march ahead.

Those who favor intervention received remarkable support from statements of Ensign Alexander Petrenko, once a leading "ace" of the Russian army. He arrived in Washington from Vladivostok, whither he had fled across Siberia after the defeat of General Kaledin's Cossack army in the Don country.

He declares that 1,000 officers of the Russian army, among them many generals, are eagerly awaiting at Vladivostok the Allied aid in arms, which, they say, must be furnished their country, before Russia becomes a hopeless wreck of anarchy, and easy prey for Germany.

German Books to Be Burned. Boston.—A bonfire of German school books will form a feature of Boston's Fourth of July celebration.

Auto Accident, 3 Killed, 9 Injured. Wheeling, W. Va.—Three persons were killed and nine injured on the national road near St. Clairsville, Ohio, 12 miles east of here, when two automobiles crashed, and went over an embankment. The dead are: William H. Fellers, Bellair, Ohio, president of the Bellair Brewing company, Mrs. William H. Fellers, Bellair, and Miss Lillian Fellers, 18 years old, Martins Ferry, Ohio. The two cars came together in a cloud of dust. The injured probably will recover.

## AIDED BY KAISER, ESCAPES RUSSIA INTO SWITZERLAND

GRAND DUCHESS OLGA.

Berne, Switzerland.—Arrival in Switzerland of Grand Duchess Olga, sister of former Emperor Nicholas of Russia, gives color to recent persistent reports that the former empress and others of the Romanoff family may take up residence here or at some other point outside Russia where their personal safety will be less endangered by disorders in that country.

The grand duchess journeyed from the interior of Russia to Petrograd and thence to Berlin, Zurich and Geneva. At Geneva she joined the family of former King Constantine of Greece.

It is regarded here as significant of the German attitude that Emperor William gave full permission for passage of the grand duchess through Germany to Switzerland, providing facilities on the way.

## 25% CUT IN FUEL FOR AUTOS

Ruling Starts August 1, Factories Making Passenger Cars Hit.

Washington.—Curtailment of coal supplies to manufacturers of passenger automobiles for the year beginning August 1 to 25 per cent of the quantity consumed in 1917-18 was announced Monday by the fuel administration.

This is one of the steps in a drastic program for restriction of fuel allowed non-war industries to meet the expected coal shortage next winter.

Just how other industries will be affected has not been disclosed, and it is said to be probable that there will be no publication of a list of so-called non-essentials. Instead an announcement may be made, as each order is given, applying to a particular industry.

There is understood to be before President Wilson now a report, upon which it is proposed to base concerted action by the fuel administration, the war industries board and the railroad administration in the matter of curtailment orders. The heads of these agencies have been in conference on the subject and early action to co-ordinate their efforts is looked for.

## 55,000 MICHIGAN MEN IN WAR

Nearly 20,000 Others Have Enlisted in the Regular Army and Navy.

Lansing.—How Michigan has responded to the call to arms and given of her youth to defeat the threat of Prussian world domination is shown in figures just made available detailing the work of the draft boards in the 12 months that have passed since the first registration under the selective service law.

Just a year ago 377,179 Michigan men of draft age registered under the law. Since that date approximately 55,000 of them have been inducted into service. Besides these approximately 20,000 men of all ages have enlisted in the regular army and a large number have entered the navy and marine corps.

Three months to a day after the registration—Sept. 5, 1917—Michigan's first contribution to the national army reached Camp Custer. It was a small beginning, officers outnumbering privates for a time. But the building up of the draft army went forward rapidly, and in another three months Michigan had called 24,000 of her youths into service.

Audit of School Books Ordered. Pontiac.—A statement issued by the Royal Oak township board Friday explains that the order for an audit of the school district books in the possession of former Supervisor A. W. Wilson, which is being opposed by Wilson, was made because tax payers complain of high school taxes. The resolution passed by the board says: "Believing that an assessment of \$7 per thousand of assessed valuation is excessive, be it resolved that an audit of the books of the district is ordered."

## 700,000 U. S. MEN OVER THERE--BAKER

SECRETARY OF WAR SAYS GOOD-BYE TO FRANCE'S BLUE DEVILS WHO SAIL FOR HOME.

U. S. ARMY IN FRANCE GROWING

Toured America to Assist in the Third Liberty Loan Drive; Many Attend Ceremonies.

Washington.—More than 700,000 American soldiers have gone overseas to carry back to France the encouragement and assistance which Lafayette and Rochambeau brought to America, Secretary Baker told the French Alpine chasseurs in bidding them farewell here Monday at the base of the Washington monument.

The war secretary's last announcement some weeks ago concerning the size of the American forces abroad was that 500,000 men had sailed for the battle front.

The Alpine chasseurs, better known as the "blue devils" of France, came to America last month to assist in the third Liberty loan campaign and since have toured the south and middle west.

They were reviewed and received by the secretary of war before leaving for Baltimore, Newark, New York and Boston, enroute to their native land. Attending the exercises were M. Jusserand, the French ambassador, representatives of the French high commission, Mr. Baker's staff and many government officials.

The secretary said: "You soldiers of France came to this country in order that the people of America might see with their own eyes in your persons the kind of men who have written a new page in the record of human heroism and success. You are welcomed in this country from one end of it to the other. The hearts of our people went out to you and your people. As the embodiment of the determination, the courageous and the heroism of France you have been accepted and received. And now you are about to go back to France."

## FOOD CHIEF URGES EAT NO WHEAT

Supply On Hand Not Enough to Carry Us Through Till Next August.

Lansing.—"Help save flour," was the appeal of Food Administrator Prescott Monday.

"For the next two months this is imperative. Here are the facts: Our normal consumption in the United States is 44,000,000 bushels of wheat a month. May 1 the inventory of all wheat and flour in United States indicated a supply equivalent to only 14,500,000 bushels a month to August 1. Either you or the boys in the trenches, or our Allies, will go without flour. Which?"

"But you must do more: Help pass the word to eat less bread. Make the 12-ounce loaf do where you formerly used the 16-ounce loaf. All the bakers have been requested to make a three-quarters instead of a pound loaf. The food administration has requested the bakers to reduce their output. This industry has volunteered its hearty cooperation. You can help them greatly by lessening the demand for any and all products containing wheat flour. There is absolutely not enough flour (including the present schedule for substitutes) to go around on a 33-1-3 per cent basis. If the requirements of the Allies and our army and navy should be increased before August 1 our supply would be that much less."

## \$5,000,000,000 MARINE FLEET

By 1920 U. S. Will Have 25,000,000 Tons of Shipping; World's Largest.

South Bend, Ind.—America in 1920 will have a merchant marine of 250,000,000 deadweight tons, Chairman Hurley, of the shipping board, declared here Monday in an address giving the most complete statement of the nation's shipbuilding program which has yet been made public. He was speaking to graduates of Notre Dame university.

This great commerce fleet, Mr. Hurley said, the largest ever assembled in the history of the world, and involving the expenditure of more than \$5,000,000,000, will link the United States to South and Central America by weekly steamer service which will enable the Latin-American countries to utilize their unlimited natural resources in the freest competition with other nations. It also will bridge the Pacific for the transportation of the products of Japan, Russia, China, Australia and the Orient, and will continue to promote America's trade with Europe.

2,000,000,000 Due This Week. Washington.—The biggest outpouring of federal taxes in the history of the nation will occur this week. More than \$2,000,000,000 in income and excess profits taxes from individuals and corporations is due by next Saturday night, in addition to the \$600,000,000 which already has been paid in this year. Total receipts from these sources are expected to be about \$2,775,000,000. More than 6,000,000 separate payments of income taxes are to be made.

## Taffeta Coats, and Others

No matter what else in the way of wraps is offered for midsummer, we are always sure of the taffeta coat. It is so practical and so pretty that it cannot be banished entirely—it comes along as inevitably as the Fourth of July or the bathing suit. Here it is as interpreted for this summer in taffeta, with bandings of velvet. It is as graceful and easy as the popular cape and at least as little trouble to manage.

In colors these silk coats are best in dark shades—deep blue, brown and green proving full of style. There is always black, of course, depending upon smartness of the design to rescue it from being commonplace. The luster of taffeta makes it a wonderful medium for colors.

Very much less familiar are new summer coats of wool velours and silk jersey and of silk jersey with big sat-

in collars. In the combinations of silk and wool the body of the coat—that portion about the shoulder and sleeve—is of the silk, often extended below the waist, forming a long waist effect. Collars—which are ample—are of the velours and cuffs to match them. Those who are looking for something new, might consider the silk jersey of wool and jersey combinations.

Pongee, like taffeta, we have always with us in aristocratic coats. They are among those present this year. Very handsome models are entirely of pongee and others of pongee and black satin, the satin used in collars and cuffs and in wide borders at the bottom of the garment. Very handsome long capes of black satin lined with colored satin have scored a success, and some very dressy capes are in light colors finished with deep silk fringes.

## Lovely Extravagances of Wedding Pageants

June weddings make a bright parenthesis in the grave story of war times. Just as many lovely brides grace just as many beautiful bridal processions this June as in June gone by—and the joy the matter is more than ever welcome. No one expects the bride to curtail any of her privileges on her great day. It comes but once in a lifetime and she is entitled to make the most of it. The pomp and circumstance of war is not to be compared to it.

Society countenances the pretty extravagances of the wedding pageant and styles play into the hands of those who plan them. Matins and georgette crepe make the more than ever picturesque hats for bridesmaids. Some of these have veils of millinery extended into curls that swathe the throat and partly cover the face. Special thought has been bestowed on the matter of honor—the most dignified millinery featuring her position. In a procession where there were two flower girls, small soft hats of narrow, val lace, trimmed with little rose buds were allowed them. In this company the matron of honor wore a wide-brimmed hat of sand-colored millinery and pale-gold lace, with a full short mantle of millinery to match with collar of gold lace. The bridesmaids rejoiced in wide hats of pink georgette crepe with big, soft poppies made of the same material, set about the crown.

For brides who decide against the conventional white satin and long veil, pretty hats of white millinery and small white flowers have been provided with

long ends of millinery falling from the back to be wrapped about the neck and shoulders. For these simpler wedding gowns the bridesmaids every chance the joy the matter is more than ever welcome. No one expects the bride to curtail any of her privileges on her great day. It comes but once in a lifetime and she is entitled to make the most of it. The pomp and circumstance of war is not to be compared to it.

There are many ways of draping the veil. One very good way is to gather the tulle into a band of silver lace to form a close-fitting cap; another is arranged in a larger cap with double frill about the face—as shown in the picture, and a third presents the veil falling from a coronet of fine lace, wired to hold it in position.

## Shades Are Interesting.

It is interesting to note the different effects materials have in the various shades. Brilliant, clear colors are good looking for dull materials. By a dull material is meant one which does not show up in the high lights. Reds and bright blues look well, for instance, in crepe or homespun, and have a totally different effect when matched exactly in the same shade of satin or velvet. Quite the reverse is the case with browns or blacks, for satin or velvet is almost a necessity to keep these colors from looking dull and somber.

### Potato Soup

3 cups hot rice or mashed potatoes.  
1 quart milk.  
2 slices onion.  
2 tablespoons butter.  
2 tablespoons flour (rice flour or corn flour).  
1½ teaspoons salt.  
Celery salt.  
Pepper.  
Cayenne.  
1 teaspoon chopped parsley.

Melt butter, add to it the flour and seasoning, stirring the mixture until smooth. Add gradually to this, one cup of milk and boil for one minute. Add the potato, mix thoroughly, then add the rest of the milk and the slices of onion. Heat to boiling. Remove the onion, strain the soup if necessary, add the parsley and serve. Water saved from cooking celery is a good addition to potato soup. Two cups of tomato juice and 1-1½ teaspoon of soda may be substituted for two cups of milk.

### Potato Puff

Add beaten whites of eggs to mashed potatoes (2 eggs to 6 medium-sized potatoes). Pile the mixture lightly in a baking-dish and bake it in the oven until it puffs and browns. The yolks of eggs and one-fourth cup of grated cheese also may be added.

### Scalloped Potatoes and Cheese

Arrange a layer of sliced raw or boiled potatoes in a greased baking dish and sprinkle with grated cheese. Repeat until the dish is nearly full. Pour milk over the whole, about one-half cup to every three potatoes. Skim milk may be used. Bake in a moderate oven until done. The length of time required depends upon whether the potatoes are raw or boiled and whether the baking dish used is deep or shallow. Boiled potatoes baked in a shallow dish will take only 30 minutes. Raw potatoes in a deep dish may take as much as 1-2 hours.

**Ford**  
THE UNIVERSAL CAR

Like the regular Ford cars the Ford Model T One-Ton Truck is a real farm necessity, just as it is the necessity of manufacturer, contractor and merchant. There is no question about it proving a money-saver right from the start. It is flexible, turning in a 46-foot circle; has 124-inch wheel base; the regular Ford motor with worm drive—and has proven as economical in operation and maintenance as the Ford Touring Car. The price of the truck chassis is \$600 f. o. b. Detroit. We urge placing orders without delay in order to get reasonably fair delivery. The demand is big—come in and let us talk it over.

Numerous inquiries have been made by persons who believe that the letter following the number of a certain man's classification in the selective draft govern in some manner the time in which he will be called. For instance, many think that Class 1, Division A, must be exhausted before Division B will be called. This, however, is not the case, for the subdivisions in class 1 in no wise affect the order of liability or registrants but are employed only as a guide in the classification of selects. The order of military liability in Class 1 is determined solely by the registrant's order number.

America is through buying German made dolls. Already thousands of French dolls made by men whom the war has made invalids for life, are being made for the American trade. Many of these cripples can maintain themselves by the manufacture of these dolls. The doll industry is another monopoly that Germany has lost forever by her terrible war system.
