HOME GUARDS ORGANIZE

Captain and Drill Master Elected And First Drill Held.

At a meeting held Tuesday evening in the offices of the Michigan Portland Cement company, the Chelsea Home Guards organized with Max Wickersham as company captain and drill master and W. C. Boyd, company secretary. Other officers will be chosen later. The purpose of the organization is to study military drill and maneuvers. Following is a list of members already signed:

B. B. Turnbull, C. C. Heselschwerdt, Edward J. Nolan, Ed. Brown, Wm. Schatz, W. L. Walling, R. D. Walker, Herbert J. Kuhl, John K. Bacon, Ernest Mohrlock, Reid Lewis, P. W. Dierberger, H. D. Withers, J. N. Strieter, John H. Faber, Frank Moore, V. A. Combs, H. M. Armour, W. C. Boyd, Roy Harris, L. T. Freeman, D. H. Wurster, A. A. Schoen, T. K. Walworth, A. H. Traver, Wm. Hopburn, Chauncey Freeman, Max Wickersham, Howard S. Holmes, C. Lehman, J. G. Palmer, A. E. Griswold, Clinton Johnson, Ross Munroe, James Munroe, Louis Murphy, Warren Geddes, L. P. Vogel, D. L. Rogers, P. G. Schaible, N. S. Potter, Jr., Geo. P. Staffan, J. H. Boyd, Ford Axtell, J. P. McCarthy, Andros Gulde, J. L. Fletcher, W. A. Stout, C. H. Collins, H. R. Schoenhals, Fritz Schanz, George P. Smith.

Men wishing to join the organization may do so by calling upon the secretary, W. C. Boyd, at the office of the Michigan Portland Cement Co., and signing the organization agreement.

PAST MATRONS' NIGHT

Olive Chapter O. E. S. Celebrates Its 25th Anniversary.

Past matrons' night and the 25th anniversary of the organization of Olive Chapter Order Eastern Star were celebrated Wednesday evening.

Luncheon was served at six o'clock and four candidates were initiated, the following past officers officiating: W. M. Mrs. Mary L. Boyd; Roland B. Waltrous; A. M. Mrs. O. J. Waltrous; Con. Mrs. William Campbell; Ass. Con. Mrs. Charles Martin; Chaplain, Mrs. J. F. Waltrous; Adah, Mrs. S. A. Mapes; Ruth, Mrs. R. A. Sanborn; Esther, Mrs. George W. Palmer; Martha, Mrs. J. Bacon; Electa, Mrs. R. B. Waltrous. Mrs. Charles Martin, who has been worthy matron for the past two years, was presented with a past matron's pin, the presentation being made by Mrs. S. A. Mapes. Patriotic readings and music completed the program.

FIRE AT FRANCISCO

Residence Occupied by Ernest Welch is Completely Destroyed.

Fire, Wednesday afternoon in Francisco, about seven miles west of Chelsea, destroyed the residence occupied by Ernest Welch and family and for a time threatened to burn the entire town.

The fire started in a pile of old railroad ties in the rear of the Welch home and soon the house was in flames. All of the household goods on the first floor were saved. Several other buildings were set on fire by flying embers, but were fortunately extinguished with little damage resulting. Roy Harris and Harry Serviss, Michigan Central signal men who reside here, happened to be at work in Francisco and assisted in fighting the fire.

NEIGHBORHOOD BREVITIES

Items of Interest From Our Nearby Towns and Localities.

ANN ARBOR—The Ann Arbor Water Department received two carloads of 20-inch iron pipe for the Steere farm water supply system Tuesday, and also received notice of the shipment of three additional cars. This is the beginning of the supplies for the construction of the new water works. As the new pipe line will require a train of at least 65 cars to bring the pipe to the city.—Times-News.

MANCHESTER—Miss Marie Kirchofer has resigned the position of principal of the Manchester school after a service of 32 years. She will make her home with her brother in Hollywood, Cal.

ANN ARBOR—David Lovell is home from France, suffering from shell shock. He was a member of the first Canadian expeditionary force sent to France and has had three years service.

CLINTON—Mrs. Sarah V. Wastell celebrated her 104th anniversary last Thursday. She is in good health and thoroughly enjoyed the day.

ANN ARBOR—Birkett Newkirk of Great Lakes Training Station was home Sunday for a few hours, returning to his station in the afternoon, accompanied by his parents, Mr. and Mrs. H. W. Newkirk. Tuesday morning, he, with a hundred volunteers from Great Lakes, will leave for France to join the U. S. marines where they will enter the ammunition motor service, between the base of supplies and the battle lines.—Ann Arbor Times-News.

LEWIS CO. SUES M. C. RY.

The Lewis Spring & Axle company of this place has started suit against the Michigan Central railroad to recover damages to automobiles shipped to Murray, Utah, February, 5, 1917. The complaint filed in the circuit court alleges \$1,000 damages to the machines and equipment.

NEED 25,000 NURSES.

A call for more Red Cross nurses has been sent out by Surgeons General Gorgas, of the army, and Braisted, of the navy. To give proper care to the soldiers and sailors who are sure to be hurt in the fighting to come, they must have 25,000 registered nurses.

The call was sent to the Red Cross, and in its turn, the Red Cross is calling on the American people, who stand solidly behind it. All nurses are called on to offer themselves to the government at once. All who have training to fit them for the care of the sick, but who may not be available for war service, are urged to offer to help in hospitals and private homes, and so release registered nurses to the Red Cross.

And, finally, the people everywhere are urged to let all registered nurses go for war service, get along without nurses when possible, and when they must have care, to accept practical nurses who are not qualified for hospital work.

Will the army and navy get the nurses? They will! There is no more noble and self-sacrificing class than the registered nurses of America. With years of study and training and a rigid system of professional ethics back of them, they would no more hold back at such a time than did our boys when the call came for them to fight.

And the American people, imagine them trying to keep the nurses at home when "those kids of Pershing's" and the sailor lads under Sims are facing battles in which many are sure to need nursing!

Send the nurses! Our boys may have to put up with many things, but at least they must have the best of care when they get hurt. Send the nurses.

ENTHUSIASTIC WAR SAVING STAMP MEETING

Two Hundred Deferred Classification Men Get Selling Instructions.

Over 200 deferred classification men in this war preparedness district, who attended the W. S. S. meeting in Ann Arbor, Sunday, and who pledged themselves to either buy or sell \$200 worth of stamps, met Wednesday evening at the office of the Michigan Portland Cement company to receive instructions regarding the sale of their quotas.

Francis Bacon of Ann Arbor, chairman of Washtenaw County War board, was present and made an interesting address which aroused considerable enthusiasm. It was apparent that the men will all take care of their quotas and that the W. S. S. campaign in this district should "go over the top" with ease.

The deferred classification men were instructed to confer with the war committees in their several school districts, each man to cooperate with the committee in his district, when necessary, in order to complete the sale of his quota.

PARENT - TEACHERS OFFICERS.

At the final meeting last evening of the Parent-Teachers' association, for the current school year, the following officers were elected: President, Mrs. P. W. Dierberger; vice president, Mrs. W. F. Kanteleiner; secretary, Mrs. George Barth; treasurer, Mrs. Chauncey Freeman.

A motion was made and passed to draft a set of resolutions thanking Messrs. P. W. Dierberger, E. F. Steiner and Max Wickersham for their services in organizing and drilling the Boy Scouts, and Misses Livingston and Hamilton for similar work in organizing the Camp Fire girls.

RED CROSS NOTES.

M. L. Burkhardt has the thanks of the society for a recent donation.

In sending in knitted goods, be sure they bear some identifying mark. Alfred Gross is a recent new member. Six renewals are also reported.

The luncheon served last week during the L. O. T. M. convention netted the society \$27.

Any changes in instructions in any branch of the work are issued from headquarters. Workers should disregard rumors.

Shipments to Ann Arbor last week included: 11 hospital shirts, 17 handkerchiefs, 5 petticoats, 25 operating caps, 4 dresses, 10 pajama suits, 25 hospital masks, 1,300 surgical dressings.

The surgical dressing quota for June is unusually heavy. All members of the surgical dressing classes are requested to be present to help fill the June quota of 2,000 compresses and 1,000 drains for front line packets.

NORTH SHARON.

Miss Emma Frey is recovering from an attack of measles.

Ambrose Wilson of Jackson was an over-Sunday guest at the home of Mr. and Mrs. Albert Gardner.

Mr. and Mrs. E. W. Holden and Mrs. F. E. Ellis were in Ann Arbor Sunday as guests of Lewis and Jennie Rhoads.

Mr. and Mrs. George Merker and son Frank and Miss Marshall of Jackson spent Sunday with Mr. and Mrs. Paul Cooper.

Miss Lydia Koebbe, who has been attending school near Chicago the past year, came home Monday for the summer vacation.

Mrs. L. B. Lawrence, Robert and George Lawrence and Herbert Vogel of Chelsea were Sunday guests of Mr. and Mrs. John Thomas, at Toledo, Ohio.

COMMENCEMENT PROGRAM

Class of Twenty Will Graduate From Chelsea High School June 20th.

The annual commencement exercises of the Chelsea high school will be held Thursday evening, June 20th, at the Methodist church, when a class of 20 young people, whose names have been previously published, will graduate. The program follows:

March, McDowell quintette; invocation, Rev. G. H. Whitney; music, McDowell quintette; salutatory, Vivian Gorton; history and giftatory, Herbert Vogel and Esther Collins; music, McDowell quintette; prophecy and class will, Robert Lawrence and Gilbert Clark; valedictory, Helen Vogel; music, McDowell quintette; address, Rev. Lloyd C. Douglas, pastor of the Ann Arbor Congregational church; music, McDowell quintette; presentation of diplomas, Superintendent W. L. Walling; class song.

RESOLUTIONS

Adopted by Branch No. 410 Ladies' Catholic Benevolent Assn.

Whereas, The great and Supreme Ruler has in His infinite wisdom removed from among us one of our worthy and esteemed sisters, Amelia A. Miller.

Resolved, That the sudden removal of such a life from among our midst leaves a vacancy that will be deeply realized by all members and friends of the Branch.

Resolved, That we express our hope that even so great a loss to us all may be overruled for good by Him who doeth all things well.

Resolved, That a copy of these resolutions be spread on the records of this society, a copy printed in the local paper, and a copy forwarded to the bereaved family.

Mrs. Catherine Hummel,
Mrs. Alice Nordman,
Mrs. Hattie Raftery,
Committee.

DISLOYALTY.

One of the tendencies of war times is for some inflated egotists to get the idea that they have an absolute monopoly of all the loyalty and patriotism in the entire community. The prudent man, and the good and loyal patriot is very slow to accuse his neighbors of disloyalty or lack of patriotism. Moreover, frequently the man accused of disloyalty is more loyal than the man who accused him, and has done more to help his country win the war in which it is engaged than the man who yells disloyalty. If you do not think this is true, just write down the names of the men you know who are making complaints of disloyalty, and see how much they have done themselves to win this war. There are altogether too many lawless rumors abroad in every community in such times. Disloyalty is a most serious crime, and every man should weigh well his words before accusing another of this crime.

CHAPTER XIII.

A Rock or a Lighthouse.

THUS Captain Elisha entered another of New York's "circles," that which centered at Mrs. Hep-ton's boarding house. Within a week he was as much a part of it as if he had lived there for years. At lunch, on the day of his arrival, he made his appearance at the table in company with Pearson, and when the landlady exultantly announced that he was to be "one of our little party" thereafter he received and replied to the welcoming salutations of his fellow boarders with untroubled serenity.

The captain paid frequent visits to the offices of Sylvester, Kuhn & Graves in Pine street. Upon the senior partner, whom he esteemed and trusted not only as a business adviser but a friend, he depended for information concerning happenings at the Warren apartment.

Caroline sent him regular statements of her weekly expenditures, also bills for his approval, but she had written him but once, and then only a brief note. The note brought by a messenger accompanied a package containing the chain which he and Pearson selected with such deliberation and care at the Fifth Avenue jeweler's. Under the existing circumstances, the girl wrote, she felt that she did not wish to accept presents from him and therefore returned this one.

After Pearson had departed one morning Captain Elisha put on his hat and coat and started for his lawyer's office. Sylvester was glad to see him and invited him to lunch.

"No, thank you," replied the captain. "I just run down to ask if there was anything new in the office. Last time I see you, you hinted you and your mates had sighted something or other through the fog, and it might turn out to be a rock or a lighthouse, you couldn't tell which. Made up your mind yet?"

Sylvester shook his head. "No," he said slowly, "it is still foggy. We're busy investigating, but we're not ready to report."

"Humph! Well, what's the thing look like? You must be a little higher to it by now."

The lawyer tapped his desk with a pencil. "I don't know what it looks like," he answered. "That is to say, I don't—I can't believe it is what it appears at this distance to be. If it is it is the most!"

He paused. Captain Elisha waited for him to go on and when he did so asked another question.

"The most what?" he demanded. "Is it likely to be very bad? Ain't discovered any more of those Cut Short bonds, have you?"

The bonds to which he referred were those of a defunct Short Line railroad. A large number of these bonds had been discovered among A. Rodgers Warren's effects. Part of his "tangled assets," the captain had termed them, differentiating from the "tangle" variety.

"Abba, my housekeeper, has been writin' me," he went on, "about havin' the sewin' room papered. She wants my advice concernin' the style of paper. Says it ought to be pretty and out of the common, but not too expensive. I judge what she wants is something that looks like money but ain't really worth more than 10 cents a roll. I've been thinkin' I'd send her a bale or so of those bonds. They'd fill the bill in those respects, wouldn't they?"

Sylvester laughed. "They certainly would, captain," he replied. "No, we haven't unearthed any more of that sort. And, as for this mystery of ours, I'll give you the answer, if it's worth giving at all, in a very short time. Meanwhile you go home and forget it."

"Well, I'll try. But I guess it sticks out on my face like a four days' toothache. But I won't worry about that. You know best whether to tell me now or not, and—well, I'm carryin' about all the worry my tonnage'll stand as 'tis."

He drew a long breath. Sylvester regarded him sympathetically.

"You mustn't take your nephew's and niece's treatment too much to heart," he said.

"Oh, I don't—that is, I pretend I don't. And I do try not to. But I keep thinkin' and wonderin' if it would have been better if I hadn't gone there to live at all. Hi hoo! A man of my age hadn't ought to mind what a twenty-year-old girl says or does, specially when her kind, advisin' friends have shown her how she's been deceived and hypocritized. By the way, speakin' of hypocrites, I suppose there's just as much 'Dumlin' as ever goin' on up there."

"Yes, a little more, if anything, I'm afraid. Your niece and Mrs. Dunn and her precious son are together now so constantly that people are expectin'—well, you know what they expect."

"I can guess. I hope they'll be disappointed."

"So do I, but I must confess I'm fearful. Malcolm himself isn't so wise, but his mother is."

"A whole book of Proverbs, say? I know. She's an able old frigate. I did think I had her guns spiked, but she turned 'em on me unexpected. I thought I had her and her boy in a close hitch. I knew something that I was sure they wouldn't want."

Caroline to know, and she and Malcolm knew I knew it. Her tellin' Caroline of it, her story of it, when I wasn't there to contradict, was as smart a piece of maneuverin' as ever was. It took the wind out of my sails, because, though I'm just as right as I ever was, Caroline wouldn't listen to me nor believe me now."

"She'll learn by experience."

"I don't mind so much Caroline's bein' down on me," resumed the captain. "She'll know better some day. I hope, and if she don't—well, I'm only a side issue in her life, anyhow, have in by accident, like the section of dog collar in the sassage. But I do hope her learnin' by experience won't come too late to save her from what she'll be awful sorry for by and by."

"It must," declared the lawyer, with decision. "You must see to it, Captain Warren. You are her guardian. She is absolutely under your charge. She can do nothing of importance unless you consent."

"Yup; that's so, for one more year, just one, remember. Then she'll be of age, and I can't say 'Boo!' And her share of Bije's money'll be hers too. And don't you believe that that fact has slipped Sister Dunn's memory. I ain't on deck to head her off now. If she puts Malcolm up to gettin' Caroline to give her word and Caroline gives it—well, I know my niece. She's honorable, and she'll stick to her promise if it runs her on the rocks. And her majesty Dunn knows that too. Therefore, the cat bails away, she cal'lates now's the time to make sure of the cheese."

"But the cat can come back. The song says it did, you know."

"Um-hum! And got another kick, I shouldn't wonder! However, my claws'll stay sharp for a year or thereabouts, and if it comes to a shindy there'll be some tall scratchin' afore I climb a tree. Keep a weather eye on what goes on, won't you?"

"I will. You can depend on me."

"I do. And say, for goodness' sake, put me out of my misery regardin' that rock or lighthouse on Bije's chert soon's ever you settle with it!"

"Certainly! And, remember, don't worry. It may be a lighthouse or nothing at all. At all events, I'll report very soon."

But in spite of his promise Sylvester did not report during the following week or the next. Meanwhile his client tried his best to keep the new mystery from troubling his thoughts and succeeded only partially. The captain's days and evenings were quiet and monotonous. He borrowed a book or two from Mrs. Hep-ton's meager library, read, walked a good deal, and wrote daily letters to Miss Baker. He and Pearson were together for at least a portion of each day. The author, fighting down his dejection and discouragement, set himself resolutely to work once more on the novel, and his nautical adviser was called in for frequent consultation. The story, however, progressed but slowly. There was something lacking. Each knew what that something was, but neither named it.

One evening Pearson entered the room tenanted by his friend to find the latter seated beside the table, his shoes partially unstrapped and a pair of big slippers ready for putting on.

"Captain," said the visitor, "you look so comfortable I hate to disturb you."

Captain Elisha, red faced and panting, desisted from the unlacing and straightened in his chair.

"Whew!" he puffed. "Jim, your remarks prove that your experience of the world ain't as big as it ought to be. When you get to my age and

Captain Elisha, red faced and panting, desisted from the unlacing and straightened in his chair.

"Whew!" he puffed. "Jim, your remarks prove that your experience of the world ain't as big as it ought to be. When you get to my age and

One evening Pearson entered the room tenanted by his friend to find the latter seated beside the table, his shoes partially unstrapped and a pair of big slippers ready for putting on.

"Yes. You're fond of music; you told me so. And 'Aida' is beautiful. Come on. It will do us both good."

"Hum! Well, I don't know."

"I do. Get ready."

The captain looked at his caller's evening clothes.

"What do you mean by gettin' ready?" he asked. "You've got on your regimentals, open front and all. My uniform is the huntin' case kind; fits in better with church sociables and South Denboro notheasters. If I wore one of those vests like yours Abbie'd make me put on a red flannel lung protector to keep from catchin' pneumonia. And she'd think 'twas sinful waste besides, rummin' the risk of spillin' a clean billed shirt so quick. Won't I look like an undertaker sittin' along-side of you?"

"Not a bit. If it will ease your mind I'll change to a business suit."

"I don't care. You know how I feel. We had a little talk about hats a spell ago, you remember. If you're willin' to take me 'just as I am, without a plea,' as the hymn tune says, why, I cal'lates I'll say 'yes' and go. Set down and wait while I get on my cere-monials."

The pair walked over to Broadway, boarded a street car and alighted before the Metropolitan Opera House. Pearson's seats were good ones, well down in the orchestra. Captain Elisha turned and surveyed the great interior and the brilliantly garbed audience.

Pearson bought a copy of the libretto, and the captain followed the performance with interest.

"Say, Jim," he whispered, with a broad grin, "it's a good thing this opera idea ain't carried into real life. If you had to sing every word you said 'twould be sort of distressin', specially if you was in a hurry. A fast rate solo when you was orderin' the crew to shorten sail would be a high old brimstone anthem, I'll bet you."

The foyer had its usual animated crowd, and among them Pearson recognized a critic of his acquaintance. He offered to introduce the captain, but the latter declined the honor, saying that he "cal'lates" he wouldn't shove his bows in this time. "You heave ahead and see your friend, Jim," he added. "I'll come to anchor by this pillar and watch the fleet go by. I'll have to write Abbie about all this. She'll want to know how the female craft was rigged."

Left alone, he leaned against the pillar and watched the people pass and re-pass just behind him. Two young men paused just behind him. He could not help overhearing their conversation.

"I presume you've heard the news?" asked one casually.

"Yes," replied the other. "I have—that is, if you mean the news concernin' Mal Dunn. The matter learned it this afternoon and sprang it at dinner. No one was greatly surprised. Formal announcement made and all that sort of thing, I believe. Mal's to be congratulated."

"His mother is, you mean. She managed the campaign. The old lady is some strategist, and I'd back her to win under ordinary circumstances. But I understand these were not ordinary; wise owl of a guardian to be circumvented or something of that sort."

"From what I hear the Duns haven't won so much after all. There was a big shrinkage when papa died, so they say. Instead of three or four millions it panned out to be a good deal less than one. I don't know much about it because our family and theirs have drifted apart since they moved."

"Humph! I imagine whatever the payout it will be welcome. The Duns are dangerously close to the ragged edge; everybody has been on to that for some time. And it takes a few ducks to keep Mal going. He's no Uncle Russell when it comes to putting by for the rainy day."

"Well, on the whole, I'm rather sorry for the other party. Mal is a good enough fellow and he certainly is a game sport, but—"

They moved on and Captain Elisha heard no more. But what he had heard was quite sufficient. He sat through the remainder of the opera in silence and answered all his friend's questions and remarks curtly and absently.

As they stepped into the trolley Pearson bought an evening paper, not the Planet, but a dignified sheet which shunned sensationalism and devoted much space to the doings of the safe, sane and ultra respectable element. Perceiving that his companion for some reason did not care to talk, he read as the car moved downtown. Suddenly Captain Elisha was awakened from his reverie by hearing his friend utter an exclamation. Looking up, the captain saw that he was leaning back in the seat, the paper lying unheeded in his lap.

"What's the matter?" asked the older man anxiously.

Pearson started, glanced quickly at his friend, hesitated, and looked down again.

"There it is," he said. "Read it."

Captain Elisha took the paper, drew his spectacle case from his pocket, adjusted his glasses and read. The item was among those under the head of "Personal and Social." It was what he expected. The engagement is today announced of Miss Caroline Warren,

daughter of the late A. Rodgers Warren, the well known broker, to Mr. Malcolm Coreoran Dunn of Fifth Avenue. Miss Warren, it will be remembered, was one of the most charming of our season before last's debutantes and—etc.

The captain read the brief item through.

"Yes," he said slowly, "I see."

Pearson looked at him in amazement. "Are you going to permit her to marry that—that fellow?"

"Well, I ain't sartin that I can stop her."

"My God, man! Do you realize—and she—your niece—why?"

"There, there, Jim! I realize it all, I cal'lates. It's my business to realize it."

"And it isn't mine. No, of course, it isn't. You're right there."

"Hold on!" commanded the captain. "Hold on, Jim! Don't you go off half cocked. When I said 'twas my business to realize this thing I meant just that and nothin' more. I wa'n't hintin', and you ought to know it. You do know it, don't you?"

The young man paused. "Yes," he answered, after an instant's struggle with his feelings; "yes, I do. I beg your pardon, captain."

"Sort of knocked you on your beam ends, I understand. Well, Jim," with a sigh, "I ain't exactly on an even keel myself."

CHAPTER XIV.

"Now We're Comin' to the Rock"

NINE o'clock is an early hour for a New York lawyer of prominence to be at his place of business. Yet when Captain Elisha asked the office boy of Sylvester, Kuhn & Graves if the senior partner was in he received an affirmative answer. Sylvester welcomed him gravely.

He pushed an electric button on his desk. The office boy answered the ring.

"Have Mr. Kuhn and Mr. Graves arrived?" asked the lawyer.

"Yes, sir; both of them, sir."

"Tell them Captain Warren is here and ask them to join us in the inner room. Remind Mr. Graves to bring

As They Stepped Into the Trolley Pearson Bought an Evening Paper.

the papers. And, Tim, remember that none of us is to be disturbed. Do you understand?"

"Yes, sir," said Tim and departed.

Captain Elisha regarded his friend with some dismay.

"Say," he exclaimed, "this must be serious if it takes the skipper and both mates to handle it!"

Sylvester did not smile. "It is," he answered. "Come!"

He led the way into the room opening from the rear of his own. It was a large apartment with a long table in the center. Mr. Kuhn, brisk and businesslike, was already there. He shook hands with his client. As he did so Graves, dignified and precise as ever, entered, carrying a small portfolio filled with papers.

The four took chairs at the table. Graves untied and opened the portfolio. Captain Elisha looked at his solemn companions, and his lips twitched.

Sylvester took a card from his pocket and referred to a penciled memorandum on its back.

"Captain Warren," he began slowly, "as you know, and as directed by you, my partners here and I have been engaged for months in carefully going over your brother's effects, estimating values, tabulating and sorting his various properties and securities, separating the good from the worthless, and there was, as we saw at a glance a surprising amount of the latter!"

"Um-hum," interrupted the captain, "cut short bonds and the like of that I know. Excuse me. Go on."

(TO BE CONTINUED.)

Ever See a Dingonek?

The dingonek is a huge, unclassified aquatic monster, says the Wide World Magazine. It resembles in many of its characteristics the extinct dinosaur, a huge reptile of the Mesozoic period, fossils of which have been discovered by paleontologists in the sandstone strata both of the African and American continents. It lives in Lake Victoria Nyanza and its numerous tributaries and there is no record of the monster having been seen in any other part of the world. Whether it is a descendant of one of the huge prehistoric saurians that has by a process of adaptation—living as it does in impenetrable regions far away from the encroachments of civilized man—continued with but slight modifications through prodigious ages to the present time, or whether it is an unclassified reptile or amphibian, it is equally impossible to say, as no specimen exists either of its bones or of its skin. That this monster does exist, however, there can be no particle of doubt, as the testimony of authoritative eyewitnesses cannot be reasonably discredited.

PUBLIC ROADS

CARING FOR COUNTRY ROADS

Heavily Loaded Wagons With Narrow Tires Are Injurious—Place Harrows on a Drag.

(By E. B. HOUSE, Colorado Agricultural College, Fort Collins, Colo.)

Excessive loads placed on wagons with narrow tires are exceptionally bad for any road. Tractors using wheels upon which are cleats, or anything that will cut through or injure the road surface should never be allowed on country roads. Disk harrows and in fact any cultivating tool should be kept off the road. If it is necessary to move them along the road, place them upon a drag, stone boat, or haul them to the field on a wagon. If dragged over the road, they will scar the road badly, break through the surface and start disintegration. No road is in such poor condition as to warrant abuse of this kind.

The following is quoted from an article by R. H. Piepolder, maintenance engineer, highway department, state of Illinois:

"There are three principal items of expense connected with road improvement which the engineer must impress upon the public mind before it will be possible for him to construct an economical system of roads. These factors are: The original cost of the improvement; the interest on the money invested in the improvement, and the total upkeep cost. When all of these factors are taken into consideration, it is evident that many of the cheaper types of roads, when properly maintained, will give the desired service and yet will be much more economical on account of their low first cost."

"When a type of road is selected, taking into consideration the three principles set forth above, it is very essential that provision be made for proper and efficient maintenance. If local conditions are such that maintenance may be delayed or prevented, preference should be given to a type of pavement that requires only a small amount of maintenance and which will be serviceable for a period of time even with no maintenance whatever."

ITEMS OF HIGHWAY EXPENSE

Interest on Investment and Cost of Maintenance All Have Vital Bearing on Road Plans.

The following is quoted from an article by R. H. Piepolder, maintenance engineer, highway department, state of Illinois:

"There are three principal items of expense connected with road improvement which the engineer must impress upon the public mind before it will be possible for him to construct an economical system of roads. These factors are: The original cost of the improvement; the interest on the money invested in the improvement, and the total upkeep cost. When all of these factors are taken into consideration, it is evident that many of the cheaper types of roads, when properly maintained, will give the desired service and yet will be much more economical on account of their low first cost."

"When a type of road is selected, taking into consideration the three principles set forth above, it is very essential that provision be made for proper and efficient maintenance. If local conditions are such that maintenance may be delayed or prevented, preference should be given to a type of pavement that requires only a small amount of maintenance and which will be serviceable for a period of time even with no maintenance whatever."

"When a type of road is selected, taking into consideration the three principles set forth above, it is very essential that provision be made for proper and efficient maintenance. If local conditions are such that maintenance may be delayed or prevented, preference should be given to a type of pavement that requires only a small amount of maintenance and which will be serviceable for a period of time even with no maintenance whatever."

CUTTING, SHOCKING, STACKING AND THRASHING OAT CROP AT PROPER TIME

Harvesting A Crop of Oats.

(Prepared by the United States Department of Agriculture.)

Oats usually are cut with a grain binder, though in the drier sections the header or the combined harvester and thrasher is used occasionally. When the straw is very short, due to drought, or when the crop is badly lodged, cutting with a mower may be necessary. The grain may then be

Strength of Governments.

An established government has an
infinite advantage by that very cir-
cumstance of its being established—
the bulk of mankind being governed by
authority, not reason, and never at-
tributing authority to anything that
has not the recommendation of an-
tiquity.—Hume.

Battles That Won Kingdoms.

In the early days of the empires of
Rome and Greece and Persia the win-
ning of a decisive battle usually meant
the establishment of a new king and
sometimes a new country. For when
Octavius defeated the combined fleets
of Antony and Cleopatra at Actium
in 31 B. C. he at once established im-
perialism, with all the power in his
own hands. Later, at Philippi, he won
a decisive battle against Brutus and
Cassius and tightened his hold upon
the empire.

Four Earthquakes in One Morning.

Four seismic disturbances occurred
in Japan on the morning of November
6. The first shock occurred at 9:58
and lasted for a minute and a half.
It was weak. At 11:23 a brief but violent
quiver was felt. Five minutes
later a strong but horizontal vibration
followed. The final shock, at 11:54,
was hardly noticeable. Scientists de-
clare the center of disturbance to have
been fifty miles from Tokyo.—East and
West News.

Soil Peculiarities.

A soil covered with gravel cools
much more slowly than a sandy soil,
so that the heat absorbed during the
day is retained farther into the night.
This knowledge is taken advantage of
in cases where, otherwise, late fruit-
ing crops would either be caught by
frosts or fail to mature through short-
ness of the high temperature season.
Bad or cover crops prevent warming
of the soil.

Phosphorus Light.

To make a night light with phospho-
rus, place a piece of phosphorus about
the size of a pea in a long glass bottle.
Fill the bottle about one-third full of
olive oil, heated to the boiling point,
and cork tightly. When light is need-
ed, take out the cork and allow the
air to enter—then recork the bottle.
The empty space in the bottle will be-
come luminous. When the light be-
comes dim, uncork the bottle for a few
seconds.

Where Courage is Valuable.

It takes courage to do that which is
unpopular, but which one feels is right.
Courage is a great asset in citizenship
because it impels us to do right for
right's sake and not because it pleases
some one else.WHAT CAN
WE DO?

The following, from "Important
Items," published by the Southwestern
division of the American Red Cross,
are facts that are interesting to all
the chapters:

Knitting.

"The president has called out another
army of men. This means hundreds
of thousands more sweaters—millions
of socks. Many knitters have slack-
ened their work with the coming of
spring. Fall seems so far off that it is
natural to think there is plenty of
time to get ready for it—but this train
of reasoning is perilous. The task is
a big one. Only the steady day-by-day
work will count—not the spurt of en-
thusiasm when the pressure comes.
Utilize every moment. Carry your
knitting bags on the street cars or the
farm wagons, or wherever you are.
There will be a greater need of knitted
articles next winter than there was
last. It is true that yarn has been
hard to get. But much of this short-
age can be overcome if none of it is
wasted for any purpose for which a
substitute can be found. Let everyone
who can get any of the yarn for socks
knit socks and let those who can only
get the heavy yarn knit sweaters with-
out charge. An arrangement is now
under consideration for the collecting
and refitting of worn socks in order
that there may be no waste.

"Chapters should knit in the follow-
ing proportions: For one pair wrist-
lets knit one muffler, ten helmets, 50
sweaters, 100 pair socks. Our men
abroad are in constant need of socks.
Knit socks.

"From now on the making of quilts

and afghans must positively be dis-
continued. No more of either of these
will be accepted at the bureau of sup-
plies."

Food.

Preserving, canning, drying and oth-
erwise conserving fruits and vegeta-
bles may not seem at all romantic, but
they are genuine and essential ways of
being of real service to our country,
and that is all that counts now. They
are among the duties that lie nearest
to many women. Tons of fruit go to
waste annually where no attempt is
made to gather wild berries or save
the excess of home-grown fruits. If
they cannot be given away for can-
ning, they ought to be dried or saved
in some way. It is up to the earnest
women in every community to help
solve food problems.

Straight and Draped Skirts.

There is a strong struggle going on
this early in the season between the
straight and the draped skirt. Both
are leading fashions and neither one
is new, but the ultra-smart woman in-
sists that the draped skirt is better
than the straight one, and she is up-
held by many of the dressmakers. On
the other hand, there are hundreds of
women who say that the draped skirt
has been so featured in cheap materi-
als in low-priced gowns that it is
exceedingly commonplace. The strug-
gle makes skirts interesting and in-
cidentally adds to the confusion of
the season, which has turned out to
be an arena into which hundreds of
fashions have been indiscriminately
thrown.

Organdie for the Girl Graduate

There is a vogue for organdie—and
for net and other gossamer weaves—
but most of all for organdie. It is
used for frocks and for hats and in
all its long history never appeared in
lovelier conceits. It is made in flower-
like colors and seems to suggest
quaint styles to designers who make
the most of its sheer, crisp texture in
frocks that are as irresistible as
spring blossoms. Frills, narrow lace,
ruffles and insertions, ruchings and
sashes just naturally follow in the
path of organdie and everybody
wears this utterly feminine material
from the little three-year-old to her
grandmother.

So, in a summer when everything
that looks like extravagance is taboo,
we may expect that womanhood will
simply revel in organdie. It is made
in white and all the lovely light colors
—yellow, lavender, pale green, rose,
blue and pink and in plain and cross-
bar weaves. Plain skirts with knee-
deep or even deeper hems make place
for frills of lace or organdie, or are
left untrimmed to be worn over lace-
trimmed white petticoats. Older
women choose light green, lavender
and white, and younger ones include
these with yellow, blue and rose
shades. The effect of the pale colors
over white is particularly good when
frocks are made with tulle skirts like
that shown in the picture. The very
deep hems contribute something of
the same advantage in deepening pale
tints over white.

The lovely frock pictured in white
cross-bar organdie with a little trim-
ming in bands of thread lace on the
bodice is exactly right to please the
most exacting girl graduate and sim-
ple enough to belong to her. It has
a dash of wide taffeta ribbon, shirred

across the front with many short rows
of shirring. Very often sashes are
of organdie and narrow frills and
ruches of it take the place of lace for
trimming.

After a day in the front-line trenches
of war work, clad in overalls in the
garden, or overall aprons in Red
Cross rooms and the most matter-of-
fact street clothes for our goings and
comings, a decent regard for the op-
inion of mankind—with the accent on
the man—makes it a pleasant but im-
perative duty to get into a pretty
frocks. It is very restful to all con-
cerned.

Julia Bottomley

Capes Float From Waistcoats.

The designer who combined the
waistcoat with the cape offered a
choice morsel in costume. The one
gives the other grace and solidity.
The waistcoat keeps the cape from fly-
ing in the face of the public, and it
protects the chest and back from
whatever chill winds may blow. And,
further, in this day of conservation of
clothes as well as material, it gives
one a chance to go without a blouse.
There are waistcoats that are nothing
but corsets, sleeveless ones, to
which are attached short or long flow-
ing capes. These garments go on as
a bodice.

Collars of Organdie.

Organdie collars and cuffs are
shown in a variety of colors and de-
signs and tiny ruffles are very much
liked on the staple, straight bands,
which come in various widths.

SQUABS TO HELP
SUPPLY OF MEAT

Pigeons Produce Rapidly and Can
Be Made to Add Substan-
tially to Food Stock.

FLY IS IDEAL ARRANGEMENT

Good Pair of Breeders Will Raise Six
or Seven Pairs in Year—Confin-
ment to Prevent Any Ser-
ious Damage.

Prepared by the United States Depart-
ment of Agriculture.)

For food purposes pigeons are
usually classed with poultry. Cultural-
ly they are in a class by themselves,
producing meat only, producing it
very quickly, and able to produce
well under conditions that do not ad-
mit of growing any other creature
used for food.

While the ideal arrangement for
pigeons is to have their house on the
ground, and a small covered yard,
called a "fly" connecting with it,
pigeon keeping may be carried on
quite extensively in upper rooms, or
lofts, with or without open air fly-
s. Many flocks of pigeons are kept in
large cities in quarters provided for
them in the lofts or on the roofs of
buildings used for mercantile and
manufacturing purposes.

Space for Breeding.

A space six feet square, and high
enough for the attendant to stand
erect, will accommodate eight to ten
pairs of pigeons for squab breeding.
The birds mate and begin breeding
when six to seven months old. Two
eggs are laid by the hen. Then the
male shares with her the duty of in-
cubation. The young hatch in about
seventeen days. At four weeks old,
average good squabs will weigh about
three-quarters of a pound each. Some
of the larger ones will weigh over a
pound at that age.

A good pair of breeders will pro-
duce six or seven or more pairs of
squabs a year. As many as eleven
pairs of squabs have been produced
by one pair in a year. When produc-
tion is high the female lays and be-
gins incubation while she has young
still in the nest, leaving the care of
them to her mate.

Pigeons on Farms.

Raising squabs has greatly in-
creased in cities in recent years. On
farms the tendency has been the other
way. On a farm a flock of free
pigeons, if not kept down by killing
off the increase, soon becomes a
nuisance, destroying grain and doing

Runt Cross.

a great deal of damage, especially on
new-seeded ground.

The remedy for this is to keep the
pigeons under control, and use the
young birds, except the few needed
to keep up the flock, as fast as ready
for the table. By establishing the
flock of pigeons in an accessible place,
giving them a little food occasionally
in their loft, and keeping them shut
in and feeding them when they could
damage new-seeded ground, a farm
flock of pigeons can be made to con-
tribute substantially to the meat sup-
ply, and still be prevented from doing
any serious damage.

POINTS ON MARKETING EGGS

Refrigeration Maintains Quality,
Weight, Fresh Appearance and
Higher Food Value.

(Prepared by the United States Depart-
ment of Agriculture.)

A stale egg pleases no one. Heat is
the fresh egg's enemy. Cold is its
friend.

The shorter the time and the more
direct the route of the egg from the
nest to the packing house, the smaller
the opportunity for loss.

The sooner the egg is put under re-
frigeration and started to market, the
finer its quality when it reaches its
final destination and the higher its
value. Don't give the eggs a hot time
in the old car.

To make a good, marketable prod-
uct, cracked eggs, extremely small and
dirty, as well as turkey and duck
eggs, should be removed from the first
grade and packed separately as
seconds.

Keep eggs cool. Cool the egg and
cush the check. Coolness and cleanli-
ness mean more cash.
Refrigeration during transit main-
tains quality, weight, fresh appearance
and food value. It retards loss of
quality, shrinkage, "blood-rings" and
loss of food value. It enables the de-
livery of a high quality, uniform
product.

Seed Corn for an Acre.

Ten or twelve ears of corn will plant
an acre.

Never Before Have Bond's Clothes
Represented Such Great Values

We have ALWAYS given our patrons MORE for
their money than they could possibly get elsewhere; we
have ALWAYS had the reputation for greater value-
giving—but never before have we shown such RE-
MARKABLE values as right NOW.

They're nothing short of WONDERFUL when one
stops to consider that really reliable woollens are so
scarce and that the ordinary retailer is RAISING his
prices to the consumer almost daily.

If You're Wise, You Too
Will Buy Bonds Clothes

We point with pardonable pride to our constantly growing number
of pleased patrons. We are proud of the fact that we are growing to
be classed among the biggest operators in the country. Our rapidly
growing chain of outlet stores is proof of the fact that Bond's Clothes
are as good as we claim they are. Yes, better.

Bond's Clothes at

\$20

are \$10 lower in price than you'd
pay a retailer for the same quality

We are manufacturers; we sell only through our own distributing
stations direct to the consumer, for cash. This system positively elimi-
nates all unnecessary selling expenses in marketing our product—and
because these expenses do not have to be added to our manufacturing
price, we undersell the ordinary retailer by at least \$10. If you consider
\$10 worth saving, you'll come to Bond's for your next suit.

JAMES G. GRANT, 601 Old Whitney Bldg.,

PHONE CADILLAC 2394

DETROIT, MICH.

Oh, Doctor!

A distinguished surgeon was mo-
mentarily dazed recently while mak-
ing his rounds through a hospital by a
wounded soldier who inquired ques-
tionously: "Say, doctor, when one doc-
tor doctors another doctor, does the
doctor doing the doctoring doctor the
other doctor like the doctor wants to be
'doctored' or does the doctor doing the
doctoring doctor the other doctor like
the doctor doing the doctoring
wants to doctor him?"—Safety Bul-
letin.

Highly Cultured Indians.

It is manifest that in prehistoric
times parts of Arizona, Utah, Colorado
and New Mexico were inhabited by
tribes of Indians representing a cul-
ture unlike any to be found elsewhere
in North America. Their skill in agri-
culture and expertness as builders of
elaborate structures of dressed stone—
such structures as existed nowhere
else north of Mexico—would alone suf-
fice to set them apart as a people whol-
ly distinct.

Deer Becomes Domesticated.

The efficient protection given them
by the state game commission and the
United States forest service in their
efforts to preserve the deer, elk, ante-
lope and mountain sheep that roam
the Colorado forests has resulted in
large herds. It is no unusual sight in
the towns bordering the Uncompagne
national forest to see many of these
wild animals grazing in the village
streets.

Water's Passage Through Wood.

Water passes through real wood
when ascending a tree, largely through
the last season's growth. With decid-
uous trees the great demand for water
comes in the spring when the young
leaves put forth. After that upward
sap movement is much less.

Don't Seem Right, Some Way.

"This law is a queer business." "How
so?" "They swear a man to tell the
truth." "What then?" "And every
time he shows signs of doing it, some
lawyer objects."—Louisville Courier-
Journal.

Commencing at 2:00 o'clock p. m.

The property consists of 2 iron bedsteads, 2 sets of springs, 1 davenport, 1 sideboard, 1 sewing rocker, 1 oak rocker with arms, 1 writing desk, 1 chiffonier, 1 reed baby cab, 1 folding cab, 1 folding cot, 1 kitchen table, 4 bedroom chairs, 1 small heating stove, 1 bookrack, 1 couch, 1 lawn-mower, 1 workbench, 1 child's rocking horse and other articles too numerous to mention. Terms—Cash.

G. A. STIMPSON

H. M. ARMOUR, Auctioneer

New Home Bakery

Is now open for business in the building on West Middle street formerly occupied by the Caspary and Youse bakeries.

Bread, Cakes, Pies, Cookies, made fresh daily. Try them.

H. J. SMITH

SUMMER SHIRTS HERE

THREE reasons for this—Quality, Price, Looks. Take our outing shirts, for instance. Made of strongest madras, serviceable percale, finest silk or lasting flannel.

Our special prices make them very good buys. These shirts are of up to date designs and colorings—snappy, dressy, comfortable. Everything else in shirts.

GREGORY.
Mrs. Joe Bowen is quite sick at the present time.

F. A. Worden was an over Sunday visitor at home.

Mrs. Mary May has gone to her home near Unadilla.

Rev. J. J. Schuler was at Jackson last week, Wednesday.

Mrs. F. A. Worden visited at Munith on Wednesday of last week.

Mrs. Ruth Chapman returned from her Unadilla visit last Wednesday.

The receipts of the Presbyterian Aid last week Wednesday were \$9.55.

M. E. Kuhn spent several days last week in Detroit on the traverse jury.

Mrs. James Livermore was a Jackson visitor Wednesday of last week.

Mrs. Henry and daughter visited her husband in Jackson for the week-end.

Mrs. George Marshall spent last

Thursday in Stockbridge and Jackson.

The Misses Lillian Buhl and Mary Howlett were week-end visitors in Howell.

Archie and Miss Vancie Arnold visited at Green's Corners, Saturday evening.

Mrs. F. Montague and Mrs. Wilmer Crossman were in Pinckney, Saturday evening.

Henry Howlett and family and Mrs. Charlotte Howlett were Howell visitors Tuesday of last week.

Fred Howlett returned from Detroit, Saturday, where he had been from Monday night on the grand jury.

Mrs. M. A. Cone and Belle Leach attended the state convention of the W. C. T. U. at Jackson last week.

O. B. Arnold and family entertained Mr. and Mrs. Thomas Lincoln and Clarence Tyler of Jackson last Saturday.

Mr. and Mrs. Will May and daughter, Lula, of Stockbridge, called on Mrs. Ruth Chapman on Wednesday of last week.

Mrs. W. J. Buhl and daughter, Lillian, Mrs. Fred Howlett and daughter, Mary, and son, Howard, spent Tuesday of last week in Jackson.

Mrs. Minnie Arnold, Vancie Arnold, Miss Frankie Placeway, Mrs. Agnes Arnold attended the state W. C. T. U. convention at Jackson last week.

Fred Howlett and family attended the baccalaureate services at Howell, Sunday night, their son Frank being one of the graduates this year, also Mr. Howlett's nephew, Harold Howlett.

The Red Cross meeting last Friday was fairly well attended. This branch sent to Howell on Friday the following garments: 12 suits of pajamas, 4 sweaters, 3 trench caps, 4 pair wristlets and 5 pair socks. Will the ladies who have the knitting send the garments to the rooms as soon as possible.

Henry Howlett, son Thomas and daughter, Miss Daisy, returned last Thursday to be present at the graduating exercises of Mr. Howlett's eldest daughter, Miss Daisy. They returned Sunday morning, reporting from Detroit. Miss Daisy returning with them and will spend the summer at home.

Gregory people are much interested in the graduating exercises at Howell and Stockbridge this year, as many of our young people are the graduates. At Howell, Frank Howlett and Russell Livermore; and at Stockbridge, Alpha Swarthout, Andrew Burgess, Nettie Whitaker, Laura Richmond and Mirnaeve Voegts.

AN EXCELLENT SUGGESTION

Take the interest from your Liberty Bonds and buy Thrift Stamps with the money. In this way you get interest at 4 per cent, compounded semi-annually, on the interest from your original investment. If you combine patriotism with good financing, you can't beat this.

Sour Stomach.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.—Adv.

LOCAL BREVITIES

Our Phone No. 190-W

N. H. Cook was in Lansing the first of the week.

Thomas Fleming of Ann Arbor was in Chelsea yesterday.

Sergeant William Kolb was home from Camp Custer over Sunday.

George Bacon was home from Fort Wayne, Indiana, over the week-end.

Miss Georgia Russell spent the week-end with relatives in Plymouth.

Mr. and Mrs. C. J. Chandler of Detroit were Chelsea visitors Tuesday.

Dr. A. L. Steger is having his residence, Main and Summit streets, repainted.

Mr. and Mrs. L. B. Lawrence and sons, of Sharon, visited relatives in Toledo, Sunday.

William Bacon is having the porch on the east side of his residence, 115 Orchard street, remodelled.

Mr. and Mrs. John Kalmbach have received word of the safe arrival in England of their son Roland.

Rev. W. S. Colegrove and wife, of Grand Rapids, spent Wednesday with Mr. and Mrs. Andrew Sawyer.

Roy Harris has erected a neat gas pipe flag pole, about 30 feet high, at his home on McKinley street.

Mrs. Byron Fortman is recovering nicely from a recent operation at the University hospital in Ann Arbor.

Miss Ninelle Wurster went to Fenton, Monday, to attend the wedding of her cousin, Miss Bertha Cox.

C. Hummel received cards yesterday afternoon from his son Walter, announcing his safe arrival "over-seas."

Mr. and Mrs. A. E. Fletcher and daughter, of Jackson, visited Mr. and Mrs. F. J. Sweetland, Tuesday evening.

Mr. and Mrs. R. C. Whitaker and Mr. and Mrs. Henry Lehman, of Sylvan, visited at Camp Custer, Wednesday.

Emerson Gildart of Westerville, Ohio, was a guest at the home of Andrew Sawyer and family the first of the week.

Charles Craig of Battle Creek has been visiting at the home of his daughter, Mrs. S. P. Foster, for several days.

Home Guards should remember to be on hand for regular drill practice at 7:30 o'clock this evening at the high school yard.

Miss Ruth Saylor is enjoying a two weeks' vacation from her duties as stenographer at the office of the Michigan Portland Cement Co.

Roland McKune, son of Mrs. H. T. McKune of Lyndon, has enlisted in the navy and left for the Great Lakes training station Saturday.

Mr. and Mrs. Harry Prudden and little daughter and the Misses Alma and Mary Pierce visited Mr. and Mrs. A. R. Congdon in Ypsilanti, Sunday.

Mrs. B. B. Turnbull and daughters, Jean and Florence, are spending today and Saturday in Detroit at the home of Mr. and Mrs. J. G. Nemethy.

E. H. Branch and wife, of Brooklyn, New York, are visiting relatives here for a few days. Mrs. Branch formerly lived in Chelsea and is well known here.

Ensign Carl C. Chandler visited his parents, Mr. and Mrs. E. H. Chandler, over Saturday night en route from Great Lakes, Illinois, to Annapolis, Maryland.

The Women's Missionary circle of the Congregational church will meet with Mrs. Dennis Spaulding, Thursday afternoon, June 20th. Mite boxes will be opened at this meeting.

High winds prevailed Wednesday and the weather was decidedly cool. A poplar tree in A. E. Winans' yard was blown down and the branches of several other trees about town were broken.

Mrs. J. A. Dancer broke her hip Tuesday evening as the result of a fall at her home on Park street. Serious results are feared on account of her previous ill health and advanced years.

A letter received yesterday and postmarked June 11th announced that "Jack" Willis was leaving Allentown, Penn., training camp, expecting to embark soon for "over-seas" duty.

Eighteen Dodge cars for the U. S. quartermasters corps passed through Chelsea yesterday, en route to Chicago. Some were equipped with touring bodies and winter tops and some had truck bodies.

Oscar Schettler, who had been accepted for the Ordnance Training school at Camp Hancock, Ga., has received notification that by order of the adjutant general the school had to be discontinued and all applicants rejected until further notice. He has enlisted in the U. S. Marines and expects to leave soon for Paris Island, S. C.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, P. J. CHENEY, Toledo, Ohio. Sold by all Druggists, 75¢—Adv.

Mrs. Anna Rademacher is reported seriously ill.

George Ewing of Addison was a Chelsea visitor today.

Mrs. Carrie Palmer has had her residence on Railroad street repainted.

Mr. and Mrs. Frank Nixon and family, of Dexter, visited Mrs. James Taylor, Sunday.

Mr. and Mrs. J. M. Wood of Lansing visited Chelsea friends yesterday, returning home today.

Mr. and Mrs. George Weeks of Ann Arbor were the guests of Mr. and Mrs. L. G. Palmer, Sunday.

Mrs. Wesley Smith and daughter Georgia will furnish the music for the Grass Lake alumni banquet this evening.

Mr. and Mrs. Walter Pielmeier of Manhattan, Kansas, are visiting her parents, Mr. and Mrs. William Davidson, for several weeks.

Mr. and Mrs. W. H. Hoeselwerdt are moving from Ann Arbor to Chelsea and will make their home with their daughter, Mrs. H. R. Roy.

Farmers who have any old potatoes for sale should read O. D. Schneider's advertisement in another column. He wants 500 bushels of good stock.

A new gas pipe flag pole has been erected at the M. C. freight depot, replacing the old tamarack pole which has been doing duty for several weeks past.

Mr. and Mrs. G. A. Stimpson are arranging to leave Chelsea and will sell their household goods at auction tomorrow afternoon, as announced elsewhere in this issue.

Ensign Llewellyn Winans visited his mother, Mrs. C. S. Winans, Sunday, en route from Great Lakes, Illinois, to Annapolis, Maryland, where he will complete his nautical studies.

Cholera morbus.

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Encycart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."—Adv.

Honest Work At Honest Prices

There are two highly important points for a man to consider before having his car overhauled.

The first point is to assure himself that the men who are going to work on his car are mechanics expert enough to locate and properly repair all the parts that need attention.

The second point is to convince himself that he can trust the shop to give him an honest accounting of the amount of work that was actually done on the car.

We gladly welcome an investigation on both of these points. We have the facilities, the workmen and the business methods that will more than satisfy all who investigate.
