THREE THOUSAND PIGEONS

Detroit Parties Released Big Flock "Homers" Sunday Morning.

A shipment of 50 coops of carrier pigeons, owned by members of the Detroit Pigeon club, were received here Saturday evening via American express and were released for the home flight Sunday morning.

There were about 3,000 birds in the lot. About half of them were released at eight o'clock and the remaining birds were allowed their freedom at 8:30 o'clock. As soon as a coop was opened the birds left it with a rush, rose quickly in the air and started a rapid flight eastward to their home lofts.

On May 5th about 1,300 pigeons were released here for the flight to Detroit. Only five birds failed to return and the first arrivals were reported in just 57 minutes after leaving Chelsea.

The birds are now in great demand for the use of the government signal service and it is said that they are worth about \$4.00 the pair. James Geddes of this place has a pair and is arranging to raise more.

JULY WEATHER FORECAST

Almanacs Predict Local Showers in Great Lakes Region, 1st to 4th.

Following is the Tribune's compiled weather forecast for the month of July:

1st to 4th, Thunder Storms—Severe storm energy manifest in Gulf and Middle Atlantic states. Lightning and destructive hail in Tennessee, Kentucky, Ohio and the Virginias. Local showers over states of the northwest and the Great Lakes.

4th to 10th, Pleasant Period—Cool fresh conditions in states of the Rocky Mountain highland, the northwest and middle west. Fine summer weather in all sections of the east and northeast.

11th to 17th, Warm Period—Very hot, sultry conditions in central and northern sections of the country. Dry, prostrating heat in all portions of the southwest. Temperature 105° at El Paso, 104 at Wichita, 102 at Omaha, 100 at Bismarck, 98 at Duluth and 99 at Chicago.

18th to 23rd—Very hot winds over states of the lower Rocky Mountain and Pacific highland. Dry and dusty in states of the North Pacific slope. Changeable to threatening weather in Gulf and South Atlantic states.

24th to 27th, Rain Wave—General rainfall over states of the south and east. Destructive wind and hail locally at many points in section extending northward from Florida to the Carolinas and Virginia.

28th to 31st, Cool Spell—Clear days and cool nights and mornings over states of the northwest, the Lake Region and New England. Damp, misty weather along all coastal waters.

The temperature will be in excess of the average at most points except in south and southeast portions where it will be at about the usual July average.

The rainfall will be below normal in all sections except in East Gulf and South Atlantic states, where it will be something above normal.

NEXT YEAR'S TEACHERS

All Positions Are Filled Excepting the Third Grade.

With the exception of the third grade, teachers have been engaged for the Chelsea schools for the ensuing year. Continuing the policy of last year when the eighth grade was combined with the high school, the school next year will be conducted on the 6-6 plan. The first six grades and the kindergarten will retain their identities, but the upper six grades will be combined and will receive their instruction under the guidance of the high school teachers. No provision has been made for a teacher of music and drawing. The teachers already engaged are as follows:

W. L. Walling, superintendent.
Miss Edith Taylor, principal.
Mrs. H. J. Falford, science.
Mrs. Albert Roepeke, mathematics.
Miss Lydia Resingue, English and French.
Mrs. Grace Roth, history and English.
Miss Harriet Stefer, commercial.
Mrs. Florence Howlett, sixth grade.
Mrs. Ford Axtell, fifth grade.
Miss Norma Turnbull, fourth grade.
Miss Ruth Spiegelberg, second grade.
Mrs. Nellie BeGore, first grade.
Miss Florence Spring, kindergarten.

CASHED LEFT HAND.

Fred C. Klinger had a bad gash in the palm of his left hand as the result of an accident in his meat market Friday evening. He was hurrying to wait upon several customers and reached for a knife on a meat block nearby the one at which he was working. He had seized the knife in his left hand when he slipped on the floor and struck his hand and the sharp knife on the meat block so that the blade cut a terrible gash in the palm. The wound was dressed and is doing as well as could be expected, but Mr. Klinger has lost the sense of touch in the little finger.

It is not enough to deplore what the Germans have done. That will not hurt the Germans; they don't care what you think of them. Help your government to fight them. That is the only thing that counts with a German. When you save and buy War Savings Stamps you attack a German in the place where it hurts.

OUR CASUALTY LIST.

Have you noticed our casualty list recently? Do you realize that nearly 8,300 of our boys have been killed or wounded or captured by the Huns? Deaths in action and from wounds and accidents amount to more than 3,300. The list grows with the days, and will grow the more quickly as the number of the boys in action increases.

The casualty list makes you more readily understand, perhaps, why the government and those humanitarian agencies connected with war work call incessantly for financial support. Funds are needed to keep our men equipped, to keep them properly fed, to keep them cheered up—to give them everything they should have and as quickly as possible, so that the casualty list may not be increased because of the lack of anything. And do not forget that the number of men who must be provided for increases each day, which means the need of more and more support from you.

DEFERRED MEN WILL PICNIC AT WHITMORE

Arrangements Made for Big Meeting on July Fourth.

A big picnic of the deferred classification men of Washtenaw county will be held on Thursday, July Fourth, at Whitmore Lake.

This will be a public affair, the deferred men and their families and the general public being invited. It will not be a money affair in any particular, but simply an opportunity for the deferred men to get better acquainted and to have a good time together. There will be no solicitation or collection of any kind, and there will be no cost to the men or anybody else except such personal expenses as they choose to incur.

A program including speeches and sports is being arranged and it is planned to hold also a consecration service in honor of the boys who have already entered service.

Kent Walworth is chairman of the picnic committee for this district and will gladly answer any questions regarding the proposed picnic. A meeting of the general committee will be held at the City Y. M. C. A., Ann Arbor, Friday evening.

NEIGHBORHOOD BREVITIES

Items of Interest From Our Nearby Towns and Localities.

ALBION—For illegally filing three applications for hard coal with Albion coal dealers, E. L. Moore, local druggist, was summoned to Lansing last week by telegraph by the state fuel administration. For violating the provisions of the application blanks necessary to secure coal, he was ordered to turn back the hard coal he had received to the local fuel administrator for distribution to the poor, and to pay to the Albion Red Cross the sum of \$200.

BRIGHTON—The Moran Construction Co. began work the fore part of the week on the Genoa road, commencing at the Benjamin corners. They are hiring teams of the farmers nearby and are paying \$7.00 a day for nine hours' work—Argus.

HOWELL—Harold, a son of Mr. and Mrs. William Gilbert of Hamburg township, went to the village last Tuesday, after some hardware. As he was returning, the auto just rounded a hill near some woods, when a shot rang out. The bullet passed just below the young man's arms, as he was driving the car, grazed his clothing, and buried itself in the side of the car. Officers believe the shot was fired by some careless hunter.—Reporter.

YPSILANTI—At the Grand Army of the Republic and allied patriotic conventions held last week in Saginaw, Mrs. Mary Deibel of this city was elected state chaplain of the W. R. C. and Mrs. Sarah Young was elected state chaplain of the Daughters of Veterans. M. B. Stadtmirer was elected delegate to the national convention of Sons of Veterans to be held the latter part of August at Niagara Falls. Past Commander W. W. Keyton was named on the committee of fraternal relations.

FIRST LIQUOR CONVICTION.

The first conviction in Washtenaw county under the prohibition law occurred Friday in Ypsilanti. J. S. Emerick, a traveling man rooming at 213 Ferris street, pleaded guilty to having liquor in his possession and was fined \$20 and \$3.50 costs, which he paid. Emerick and his three companions arrived in an auto from Toledo, O., early Friday morning. In some way the auto became unmanageable and ran into the lighting post of the new Ypsilanti postoffice. Citizens reported Emerick carrying suspicious-looking suit-cases and a prosecuting attorney Lehman issued a search warrant. Two large bottles of whiskey were found.

SERVE BEEF TWICE WEEKLY.

William Bacon, district food administrator, has received notice from the federal food administrator, Geo. A. Prescott, that eating places are not to serve beef more than twice weekly, beefsteak not more than one meal weekly and roast beef at not more than one meal weekly.

The order says: "In view of the necessity for this ruling, violation of its provisions will be sufficient cause for closing your place of business."

The people are called upon to substitute beans, fresh pork, bacon, ham and sausage for beef products, information being that we have enough increased pork for the summer to do this.

SCHOOL MEETING JULY 8th

Three Trustees Must Be Elected in Chelsea This Year.

On Monday evening, July 8th, will occur the annual meetings of the school districts of Michigan. In Chelsea three trustees are to be elected, one to succeed Mrs. G. A. Stimpson who is disqualified for office because she is no longer a taxpayer in this district and two to succeed J. S. Cummings and L. P. Vogel, whose terms of office expire this year.

The importance of the attendance of every parent and taxpayer at their school meeting is patent. This, however, does not discharge their full obligation toward the institutions that are and will continue to be the greatest factor in the molding of the young life of Michigan. These men and women should carefully weigh beforehand every matter that will have an influence on school life.

Is the corps of teachers and general management of the school satisfactory? Have you any suggestions to make regarding the courses of study? Do you favor retaining music and drawing in the school? Are the school grounds well drained and properly graded? Are the school buildings in good repair? Has fuel for the year been purchased?

These are some of the school matters we have heard discussed on the street corners during the past year, which might properly be taken up for discussion at the annual meeting.

SUGAR ALLOWANCE CUT

Town Dwellers Get Only Two Pounds Farmers Get Five Pounds.

New regulations governing sales of sugar to private consumers which became effective at once, were announced Wednesday by State Food Administrator Prescott.

The amount which the private consumer in the city or small town may purchase at any one time is reduced from five pounds to two pounds. The amount a farmer may purchase is cut from 10 pounds to 5 pounds.

For canning purposes the housewife may purchase 25 pounds by signing a sugar card obtained from her grocer, on which she must certify that the sugar will be used only for canning purposes. If she needs another 25 pounds for canning purposes, the housewife must obtain a sugar card signed by the county food administrator. Before she can obtain a third 25 pounds, the sanction of State Food Administrator Prescott must be obtained.

This change in sugar sales was authorized by Federal Food Administrator Hoover.

DRAFT DODGER CAUGHT.

The county selective service board received information Tuesday from United States Attorney John W. Preston of San Francisco that Maurice Focht, commonly known as Morris Fruit, of Ann Arbor, is still in custody, in that city awaiting orders from the Michigan department of justice or from the local board of Washtenaw county which has jurisdiction of Focht.

William H. Esslinger of the local board immediately sent a telegram to San Francisco instructing the United States Attorney there to comply with Section 51, of the selective service rules, which provide for the immediate induction into the service of a man held for the charge of desertion or delinquency.

Focht has been in custody ever since last March when the district attorney in San Francisco first communicated with the local board here. The case was referred to the department of justice, but up to the present time that department has not taken his case up.

ITALIANS PURSUE AUSTRIANS ACROSS PIAVE RIVER LINE

ENEMY ON RETREAT ALONG 50-MILE LINE AMID MUCH CONFUSION AS ITALIANS GAIN.

AUSTRIAN BRIDGES WASHED AWAY WHEN RIVER RISES

Austrians in Wild Panic On Western Bank of Piave River When Food Supply Was Cut Off.

Rome—"Come on, Americans; we have them on the run."

This was the message sent out from here Sunday night, following a celebration over the overwhelming success of the sons of Italy. Earlier in the day the populace went fairly wild over reports that Italian forces had distinguished themselves in frustrating the foe in an attempt to take Mount Bligny, southwest of Rheims.

Austrians Overwhelmed.

From Montello to the sea the Austrians, overwhelmed, are retreating in disorder.

The home war office thus sent out Sunday night the news of utter debacle of the Austrian attempt to reach the Venetian plains of Italy by crossing the Piave river.

The retreat is on a front of almost 50 miles and from the confusion which reigns in the enemy's ranks the losses have been large. The Piave has been swollen beyond all semblance of its former self during the last week and the hastily constructed bridges of the enemy over which he feared to bring his artillery have been washed away.

Information at hand does not record how many bridges the Austrians maintained across the river. Vienna admitted Sunday communication between forces on one shore and those on the other had been impossible for hours and the admission spelled the inevitable disaster which Rome flashed to the world only a few hours later.

Austrians in Panic.

Austrians who had succeeded in the initial rush in reaching the western bank of the river were thrown into panic when they saw their lines of communication and their food supplies cut off. The food had been brought by aeroplanes and the Allied aviators, including Americans, concentrated successfully in cutting the line.

Panic, at first small, soon became general when the Italian pressure on the Montello and all the way along the line to the Adriatic sea slowly but surely turned into victory. Before the retreat the Austrians were whipped and whipped well and the defeated and overwhelmed attackers, or rather defenders of small slices of terrain, broke and rushed back across the river as best they could. Many are believed to have been drowned in the precipitous attempt to reach safety. Already the enemy casualties were estimated at 180,000.

Bolshevik Troops Defeated.

Harbin, Manchuria—The Chinese have compelled the withdrawal of the Russian general Gromoff's troops on the Pogranitchnaya front to Echow, Manchuria.

It is estimated that the total force of the Bolsheviks at Nikolai is between 2,500 and 3,000 Red Guards, including Czech deserters and German prisoners armed with field and machine guns.

A belated story of the fighting of the Czechoslovaks and the Red Guard at Irkutsk early in June has reached here. A trainload of Czechs, armed with rifles and hand grenades, arrived in Irkutsk. It was immediately surrounded by 200 members of the Red Guard, who gave the Czechs 15 minutes to surrender.

Before the expiration of the time the train was fired on with machine guns from the windows of the station and 15 men were killed and 50 wounded. The Czechs then charged with hand grenades and disarmed the Bolsheviks, capturing six machine guns and 200 rifles. The Soviet government sent reinforcements of 600 Red Guards and more machine guns and also armored cars, which the Czechs defeated and captured.

Former German Chancellor Ill.

Amsterdam—Dr. von Bethmann-Hollweg, the former Imperial German chancellor, is gravely ill, according to the Cologne Volks Zeitung. He recently suffered a stroke of paralysis.

Allied Transport Sunk.

Paris—The transport Sant Anna, bound from Bizerta to Malta, carrying a large number of native troops, was torpedoed and sunk during the night, from June 10 to June 11. Out of a total of 2,150 aboard, only 1,513 were saved, making a total loss of 637.

The Sant Anna was a vessel of 9,250 tons, and was built in 1910. She hailed from Marseilles, and was owned by the French Steamship company (C. Fabre & Co.).

STATE NEWS

Baldwin.—Anne Feleh, 19 years old, drowned in Hamlin lake when she waded out beyond her depth.

Owosso.—An organization has been formed in Shiawassee county to oppose the beer and light wine amendment.

Eaton Rapids.—Sunday, June 23, to Sunday, June 30, will be dedication week for the new Methodist church in Eaton Rapids.

Pontiac.—A campaign will be started here to raise money to pay a full time boy scout commissioner to take charge of activities in the city.

Monroe.—Since May 1, when the state-wide prohibition law went into effect, fines and costs assessed against liquor violators in Monroe have totaled \$5,000.

Lansing.—Fire destroyed the old frame building formerly the First Pilgrim Congregational church, a landmark. The church was the first charge of the Rev. Ernest Bourner Allen, of Toledo.

Grand Rapids.—Business sessions of the twenty-second national synod of the Christian Reformed Church of America opened at Calvin college. The synod will be in session two weeks.

Ann Arbor.—Wallace Trabbe, three years old, was run over and seriously injured by an automobile while the lad, dressed in a "soldier suit," was watching the drills of the U. of M. auto mechanics unit.

Petoskey.—Wesley E. Herr, 24 years old, who was to go to Camp Custer with the next Emmet county contingent, has disappeared after notifying Sheriff Miller that he intended to take his own life to avoid the draft.

Ferndale.—The village government has exhausted its initial loan of \$1,500, from the First State Commercial bank of Royal Oak, and has passed a resolution asking for another \$1,500 pending the collection of this year's taxes.

Olivet.—Seventeen B. A. degrees were conferred upon seniors of Olivet college at the commencement exercises. Dr. Edwin W. Bishop, pastor of the Plymouth Congregational church of Lansing, delivered the address.

Port Huron.—Eighteen questionnaires in local draft board offices are now being revised, and men who were taken out of Class I and given deferred classifications, will be re-examined and many of them brought back to Class I.

Grand Rapids.—Oakley C. Johnson, principal of the Grant high school, near here, is being sought by federal agents as a supporter of the I. W. W. Police say Johnson had receipts for contributions for the defense of the I. W. W. members on trial in Chicago.

Manistee.—Howard Leonard, a former prominent Manistee business man was killed at his summer cottage near Portage Point, his widow was the only witness of his death, which was the result of a gun shot wound, self-inflicted. His friends maintain that the shooting was accidental.

Aldron.—E. L. Moore, druggist, paid to the local treasurer of the Red Cross a \$200 fine imposed on him by the Michigan state fuel administration for illegally filling out three applications for hard coal. He has turned back to O. H. Gale, local fuel administrator, all the hard coal he had on hand and this will be distributed to the poor.

Houghton.—The Greenwood Lumber company, operating in Ontonagon county, was ordered to sell 50 barrels of hoarded flour, by G. W. McCormick, upper peninsula food administrator, including one barrel found in the home of K. H. Bice, the manager, and one found in the home of his assistant. The company also was fined \$50 for the benefit of the Red Cross.

Ann Arbor.—In an effort to find stackers, between 350 and 400 men of draft age were rounded up recently in draft raids in Washtenaw county. But eight or nine of the men taken to the armory were unable to prove that they had classification cards at home. They were sent to the county jail. Members of the sheriff's and police forces, and One Hundred and Seventy-fourth company Michigan State troops made the raids.

Ann Arbor.—After the city aldermen voted to allow poolrooms to be operated on Sundays in this city, Circuit Judge George Sample called County Prosecuting Attorney Carl Lehman, and City Attorney Frank Devine to his chambers for a conference. The aldermen's edict will be ignored, and the state law against opening pool rooms on Sundays will be rigidly enforced. "I will take the responsibility for the strict enforcement of the state law into my own hands," said Judge Sample.

Pontiac.—Oakland county's five Covert law roads to be constructed this year have been approved by the capital issues committee at Washington. Word was received that the Elizabeth Lake and Royal Oak-Clawson highways are given governmental sanction. Three others had been approved earlier, making a total of nearly half a million dollars in bonds for roads this year authorized. The county commissioners won approval on the ground that Oakland roads are important in government transportation.

Ypsilanti.—Farmers report that the strawberry crop is a failure on account of the dry weather.

Grand Rapids.—Bishop M. J. Gallagher, this city, is the new state chaplain of the Ancient Order of Hibernians.

Kalamazoo.—A \$50 Liberty bond was presented to Kalamazoo college by the senior class at the commencement exercises.

Ypsilanti.—Ypsilanti's war saving stamp drive has reached \$65,000, leaving only \$35,000 to be subscribed to reach the quota.

Battle Creek.—Milburn Burns, of Coldwater, was fatally injured when a Michigan Central passenger train struck his motorcycle.

Inlay City.—John Zimmerman was tarred and feathered by a crowd which declared he had refused to subscribe to the Red Cross.

Monroe.—Twenty-four of the surviving 60 veterans of the Seventh Michigan Volunteer infantry held their thirty-second reunion here recently.

Royal Oak.—Former Supervisor Al. W. Wilson has resigned his position as a Royal Oak village commissioner. His successor has not been named.

Port Huron.—Port Huron high school students will be employed in making shells in Port Huron munition plants, according to arrangements recently made.

Beulah.—W. J. Peight, 36 years old, of Hart, was instantly killed when his automobile skidded and turned over an embankment. His wife, 6-year-old son and sister-in-law escaped injury.

Monroe.—Arjow DeGroot, 26 years old, of Detroit, a native of Holland, is held here charged with making disrespectful remarks about President Wilson and the uniform of the United States army.

Eaton Rapids.—The thirty-third annual 10 days' meeting of the Michigan State business Camp Meeting association will be held at Riverside park in this city Thursday, July 25, to Sunday, August 4, inclusive.

Eaton Rapids.—Because of the drought the past three weeks the strawberry crop has been shortened 50 per cent and other fruit, as well as the farm crops and war gardens, are suffering much for want of rain.

Port Huron.—The chamber of commerce has appointed a committee to investigate the possibilities of developing natural gas wells in this vicinity. Several wells have been sunk by private citizens and a good quality of gas secured.

Detroit.—Minnie Denton has been sent to the detention home by federal officials for aiding her son, William R. Denton, to escape the draft. She explains she is not pro-German but simply a "conscientious" objector. Her case is being investigated.

Lansing.—Walter B. Cady, Washtenaw county farmer, whose wheat was confiscated and sold by the food administration when Cady refused to sell it, has returned the administration's check for \$1,272 in payment for the grain. The case will be referred to Washington.

Flint.—Genesee county leads the entire central division of the Red Cross in the number of nurses recruited during last two weeks, according to message from headquarters. Forty nurses had been reported when the message was sent, but 10 more were enrolled making 50 in all.

Coldwater.—Crushed under a cylinder press in the Daily Reporter office when a roll of paper struck a lever and started the machinery, Frank L. Parker, 38 years old, 40 years old, was probably fatally injured. Parker's father, a civil war veteran, witnessed the accident.

Benton Harbor.—Thomas J. Rector, 60 years old, former street commissioner, was burned to death by fire starting from an open gas jet at night. The man was alone in the house. Neighbors heard the explosion and found Rector unconscious. He died soon after being taken to a hospital. The lower floor of the residence was wrecked.

Lansing.—The per capita for Lapeer and Wahjamega were fixed recently at meetings of the board of state auditors with the representatives of the board of control of the two institutions. The Lapeer per capita is fixed for the coming year at 75 cents, an increase from 65 cents. Wahjamega gets 55 cents, an increase from 51 cents. High cost of living is responsible for both increases.

Mt. Pleasant.—A carrier pigeon ended its journey from "Somewhere in America" when it persistently attempted to alight on James Sickles, a section hand at Weidman, 16 miles northwest of here. The bird was captured and brought to Mt. Pleasant. On the band on its left leg is "E. R. R. C. 25," and the number 17 enclosed in a circle. On the right leg is "683." The pigeon is now in the custody of Sheriff J. E. Coon.

Traverse City.—A system of selling farm produce has been devised here at a meeting of producers from northern Michigan counties. The scheme provides for local farmers' co-operative associations to be federated into larger ones taking in groups of counties geographically related. The plan of the Western Fruit exchange will be followed. The group of which Grand Traverse county will be the center includes the counties of Emmet, Cheboygan, Otsego, Antrim, Kalkasha, Wexford, Leelanau, Benzie, Manistee and Charlevoix.

HOUSE APPROVES "NO LIMIT" ARMY

PRESIDENT GIVEN POWER TO CALL ALL MEN OF DRAFT AGE TO THE COLORS.

\$1,229,731,295 FOR HEAVY GUNS

Bill Submitted for Heavy Artillery Carries An Expenditure of \$5,435,096,224.

Washington.—Approval was voted by the senate military committee Saturday of the provision in the \$12,000,000,000 army appropriation bill, as it passed the house, empowering the president to call to the colors all men of draft age who can be trained and equipped.

Plans of the war department for carrying warfare on the western front beyond the trench stage by a vast production of heavy mountain, siege and field guns were made known through the approval by the house appropriations committee of the largest fortifications program ever submitted by any government. The bill carries a total of \$5,435,096,224, the principal expenditures being for heavy artillery.

Based on the American army of 3,000,000 men, the plans which the measure supports have been approved by the inter-allied war council through General Pershing, it was stated by Representative Borland, of Missouri, chairman of the sub-committee which framed the bill. While the program provides for home defenses from possible German air raids and for coast defense, the chief concern is for the production of field artillery.

The total appropriation for heavy guns is \$1,229,731,295. The report shows that the new government plant for production of heavy artillery at Neville island, in the Ohio river, near Pittsburgh, is to equal the famous Krupp plant in Germany. For the Neville island plant \$40,000,000 is appropriated.

Manufacture of heavy pieces will be carried on also at plants of the Bethlehem and Midvale steel companies, the report discloses. Because of the length of time required for building large guns, the government is not yet giving extensive concern to manufacture of the projectiles although machinery has been or is being established by which ammunition can be supplied in short order.

100,000 MEN CROSS IN WEEK

Gen. Peyton C. March Revealed That More Than 900,000 Yanks in France

Washington.—Failure of Germany in her main purpose in transferring submarine operations to the American coast was disclosed Saturday when General Peyton C. March, chief of staff, revealed that more than 900,000 American soldiers are now in France, 100,000 of whom were sent across in the last week.

The undoubted purpose of the enemy in sending its undersea-boats to American waters, navy officials declare, was to slow up movement of American troops and supplies to Europe. The German action was at the same time a confession of the failure of submarine operations in European waters.

The fact that the submarines cruised along the steamer lanes near the American coast for several days before the first vessel was reported sunk indicated that they were hoping to waylay an unconvoyed troop ship.

Joseph Daniels, secretary of the navy, pointed out that the submarines have failed to sink or even to engage in battle with a single troop ship and he declared there has been no diversion of American destroyers from convoy work and pursuit of U-boats on the other side of the Atlantic.

TO LAUNCH 89 SHIPS JULY 4

Will Have a Capacity of 439,886 Dead Weight Tons.

Washington.—Celebration of July 4 this year will be made notable for all time by the launching from American shipyards of the largest number of ships of the greatest total tonnage ever put into the water in one day.

Independence day's contribution to the merchant fleet on which the world is depending for victory over the Germans will be at least 89 vessels with a capacity of 439,886 dead-weight tons.

Three of these ships will take the water at the Ecorse, Mich., yard of the Great Lakes Engineering Works, on the Great Lakes Engineering Works, on the Detroit river. The three hulls total 8,900 dead-weight tons.

May Imports Set Record.

Washington.—Imports in May were the largest in the nation's history, and the total foreign commerce for the month, amounting to \$875,000,000, was second only to June 1917, when the total was \$879,000,000. Imports in May amounted to \$323,000,000, an increase of \$44,000,000 over April, according to figures issued recently by the bureau of foreign and domestic commerce. Exports were valued at \$552,000,000, which was \$57,000,000 more than April.

BRITISH PUBLISHER PAYS HIGH TRIBUTE TO AMERICA

LORD NORTHCLIFFE.

Paris—"I have lived both in Germany and the United States and I believe that America alone could beat the Germans."

Lord Northcliffe made this statement Sunday in an article in the Petit Parisien.

"I have absolute confidence in President Wilson," Northcliffe said. "It is he who must decide the Japanese intervention question."

"I remember the president said he had a one-track mind. Last month he sent 250,000 soldiers to Europe, although he had promised only half that number."

"Germany," the British publisher declared, "is beginning to weaken. The British, American and French blockade is now much firmer and is slowly strangling the enemy."

LEAGUE ASKS FEDERAL TROOP

Minnesota Non-Partisans Want Soldiers to Prevent Their Deportations.

St. Paul.—Officials of the national Non-partisan league, a political organization of 200,000 farmers in 15 states, will ask Washington for federal troops to prevent deportation of members of the organization from at least one county in Minnesota, according to officials of the league.

Three hundred and eighty-two known members of the league in Rock county, this state, were ordered to register with county authorities and renounce their league connections. Unless they did this, it was said in the order posted, the farmers and their families would be deported from the state and their property would be seized.

P. J. Connell, city marshal of Laverne, county seat of Rock county, and C. O. Wright, mayor of that city, confirmed issuance of the order. They say little trouble is being encountered.

Only 12 farmers, they said, had refused to repudiate the league. Others, when brought to Laverne by members of the home guard, renounced the league and said they were misled into joining it.

John McIntz, one of the farmers who refused to renounce the league, was taken to the Iowa state line and told not to return to this state. His property was seized. W. W. Latta, editor of the Laverne Leader, a weekly owned by a farmers' co-operative company, and his wife were escorted from the county after their property was seized.

DRAFT IN IRELAND DITCHED

Earl Curzon Said It Is Better to Get 50,000 Volunteers Than Civil War.

London.—Strong criticism of the government's Irish policy was heard in the house of lords when the Marquis of Londonderry initiated a debate with the view of ascertaining the government's intentions with regard to Ireland. Baron Wimborne and the Marquis of Lansdowne were critics of the government.

Baron Wimborne contended conscription was a physical impossibility and said he desired to know how the government hoped to carry on its plan of giving recruits land. The Marquis of Lansdowne said things in Ireland now were much worse than in 1916.

With regard to voluntary recruiting, Earl Curzon said the cabinet believed it better to get 50,000 volunteers in this way than to secure a larger number at the cost, perhaps, of civil war.

Haan's Forces Now in Alsace.

Washington.—The war department has authorized formally the announcement of the fact that the 32nd division (National Guard) is now fighting in Alsace, on German territory. Since the division has been identified by the Germans, permitting the fact to be disclosed. The 32nd division is composed of Michigan and Wisconsin troops, which left this country commanded by Major Gen. Willis G. Haan, under whom it was trained at Camp Mac Arthur, Waco, Texas.

RIOTS IN VIENNA BREAK OUT AGAIN

CROWDS PARADING STREETS TRYING TO REACH GERMAN EMBASSY VENT THEIR IRE.

FOUR KILLED AND MANY INJURED

Charles I, Emperor of Austrian Throne Next Candidate for the Ex-Monarchs' Society.

London.—Fresh conflicts broke out in Vienna Sunday night, according to an Exchange Telegraph dispatch received here. Crowds parading through the streets were intent upon reaching the German embassy to vent their ire against Germany, but they were dispersed by the police, cavalry and foot soldiers.

Police and soldiers have killed four persons and wounded 17 more in strike riots, Count M. Karolyi has announced in the Hungarian parliament, according to a dispatch from Copenhagen. These riots apparently refer to Hungarian cities.

Charles I Next Monarch to Fall.

Rome.—Charles I, emperor of Austria and king of Hungary, looms large upon the European horizon as the newest candidate for the ex-monarchs society. Unless unexpected events befall all present indications, his fate will be closely similar to that of Nicholas Romanoff.

There is one difference. The Czar of all the Russians was an open and sincere enemy of Germany, and his country fought her with all its giant strength and heroic sacrifice until the dragon of treachery and class war had sapped Russia clean of red life blood. Charles rules the chief ally nation of the empire, which may be about to topple him by means strikingly akin to those employed in bringing about the Russian ruler's downfall.

Austria's Fate Same As Russia.

But more important than the personal fate of rulers is the fate of their nations. Again, unless all signs deceive us, the dual monarchy is slated for the same political, economic and moral slaughter that befell Russia. Austria-Hungary, for four years, and still today Germany's "valiant ally," will lie prostrate at Potsdam's feet, not only ready but crying to be trampled upon, cut to pieces and swallowed up—if only she can have peace and bread.

To that abyss the Hapsburg empire is fast steering at this very hour; and Potsdam is the pilot.

SUGAR SHORTAGE HITS NATION

Food Administration Cuts Allowance to Three Pounds a Month Per Person.

Washington.—Drastic restrictions on sugar consumption were announced by the food administration Saturday night. They include:

Reduction of home consumption to three pounds a person a month.

Reduction of less essential manufactured products, including sweet drinks, to 50 per cent of their normal sugar requirements.

Cutting of ice cream manufacturers to 75 per cent of their normal amount of sugar.

Food administration officials are working on details of a ration card by which they will enforce the three-pounds-a-month rule.

This scheme follows a serious reduction in the available sugar supply for the United States and the allies. Shipping shortage, destruction of over 200 French sugar factories and losses of thousands of acres of French and Italian beet sugar lands combined to create the scarcity.

EIGHTY-FIFTH PHYSICALLY FIT

"Misfits" Are Weeded Out By the Medical Department.

Rattle Creek.—No soldiers of doubtful physical condition will be taken overseas with the Eighty-fifth division. Rigid and frequent examination by the medical department have weeded out every man whose physical make-up might cause him to collapse under the shock of actual battle.

Men confined to the base hospital will be transferred to the depot brigade will furnish a physically fit substitute. A few whose training has been along special lines will be allowed to join the division before it leaves the Atlantic coast, providing they have sufficiently recovered to stand the ocean trip. Whatever vacancies occur before the division goes aboard ship will be filled by men from replacement troops established at the port of embarkation for just such emergency.

Burned to a Crisp.

Lansing.—His 8-year-old son's body burned to a crisp, his little daughter dying at a local hospital and his wife badly burned about the face, this was the situation that greeted Ray Schoolcraft on his return to his tent home near Waverly Park after completing a few chores recently. The Schoolcrafts were living temporarily in a tent until better accommodations could be procured. The tent caught fire and before the occupants could get out burned to the ground.

JUDGE DECIDES STOMACH REMEDY A GREAT SUCCESS

Commissioner of Medication and Conciliation Board Tries EATONIO, the Wonderful Stomach Remedy, and Endorses It.

"EATONIO promotes appetite and aids digestion. I have used it with beneficial results."

Office workers and others who stomach are martyrs to dyspepsia, belching, bad breath, heartburn, poor appetite, bloating, and impairment of general health. Are you, yourself, a sufferer? EATONIO will relieve you just as surely as it has benefited Judge Chambers and thousands of others.

Here's the secret: EATONIO drives the gas out of the body—and the float goes with it! It is guaranteed to bring relief or you get your money back! Costs only a cent or two a day to use it. Get a box today from your druggist.

True Merit Revealed. "Don't you admire some of the German poets?"

"Yes," replied the uncompromising man, "after they are translated into English."

WOMEN SUFFERERS MAY NEED SWAMP-ROOT

Thousands upon thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper—Adv.

To Cure Sore Throat.

So many people have been troubled with sore throats this spring. It is most unwise to allow this condition to progress, since many serious forms of sickness start with "just a sore throat." When the throat feels raw, half-hour gargling periods, using warm salt water, are advised. This is an antiseptic and removes the irritation. Again equal parts of listerine, water and peroxide is even more effective. For an annoying tickling in the throat an application of hot glycerin rubbed thoroughly into the pores and covered with warm flannel gives relief.

Bee-Keeping in New Zealand.

At the late annual meeting of the Waikato Beekeepers' association at Hamilton, an assistant director of the horticultural division of the department of agriculture stated that there were 4,391 apiaries registered in New Zealand, representing 50,523 colonies of bees. One beekeeper last year returned 30 tons of honey, which he sold at \$487 per ton, while some was sold as high as \$780 per ton, thus making it a very prosperous industry.

High as Haman.

There is one religious rite that war correspondents would often take delight in—swinging the censor.

Compromising with sin only retards virtue.

Conservation means the use of foods requiring less sugar, less fuel, and the minimum of wheat.

Grape-Nuts

requires NO SUGAR

Concerning Coats for Summertime

Light summer frocks demand that their wearers shall provide themselves with summer wraps of some sort, to be carried along in case of need. The midsummer frocks accomplish their mission by looking pretty and comfortable when the thermometer registers high, and as the thermometer often backslides to the region of cold, when it hangs near the sun or in the mountains, the summer wrap must be responsible for comfort.

In wraps the choice lies between capes and coats and garments that combine the two. For there are many compromises that are part coat and part cape. With the vogue for sleeveless coats there comes about a two-in-one arrangement whereby a cape may be added to a coat and each of them worn separately.

There are not many of these but there are several good combinations

of coat and cape like the handsome example shown in the picture. Duxey and light weight wool velour, heavy wool poplin and other light-weight coatings are used for making them. Cape coats are shorter than either separate capes or coats, the length pictured being about the limit. In this coat a narrow girdle is provided made of the material and the coat is much like a sleeveless sweater coat. The buttons are covered with cloth and the design smart and elegant.

Always we have the dependable silk coat for wear over summer frocks. At the right of the picture there is shown a new model in black tulle with large white pearl buttons, proclaiming that it is a midsummer garment. It is long, with a panel down the back and front. No one need be told that it is of the all-round useful sort that is always popular.

For the Wedding Cortège

Wars and rumors of wars failed to divert June brides from their determination to have as lovely weddings as ever were staged upon this distracted but beauty-loving planet. The great war has hastened many a wedding, and brides have been more than ever inclined to make themselves and the wedding cortège something superlatively beautiful—a picture to linger in the memory of the groom, even though Mars snatches him away and flings him to the other side of the world.

Here are three hats from a wedding cortège. They prove that it takes more distractions than we have now to dampen the enthusiasm of designers of the most beautiful of all headwear. At the center of the group there is a stately hat for the matron of honor. It is made of sand-colored malines and pale gold lace and there is a mantle of the malines flowing from a collar

of the gold lace. This mantle is very full and is to be worn with a frock in the same color.

Below and at the left the small hat made of Val lace over pink crepe georgette may be worn by either bridesmaid or flower girl. It has a short veil of pink tulle and a cluster of small pink rose buds for trimming. At the right a hat is shown made of white malines and lilies of the valley. It has a huge bow at the back with a long hanging end of malines. This is swathed about the throat and face as shown in the picture. This hat may be worn by a bride who prefers it to a veil, or it may be made up in pale pink for a bridesmaid who is to attend a bride wearing a veil.

Julia Bottomley

Batiste Blouses.
Smart little blouses of fine batiste in white or delicate color, pink or blue or lavender, are made with contrasting collar and cuffs of washable satin.

The collar is narrow and is attached to the body of the blouse at the edges in a point, below which the collar extends in long sash ends, which are loosely knotted in cravat form. Some of the new models in satin or crepe de chine have overlapping collar and cuffs of georgette crepe in the same tone or contrasted color.

Waistcoats.
Waistcoats of checked gingham are reasonable accessories for the tailor or dress. They are liked in two-tone effects and some of them have fluted ribbons. It is frequently possible to pick up handkerchiefs with a border matching the pattern of the waistcoat, or one's initial may be embroidered in the predominating color of that adjunct.

Knitted Braid.
The vogue for knitted trimming such as collars and cuffs, pockets and belts, has gained such headway that now one comes upon a frock trimmed with knitted braid. Truly, it is a bright idea with capital letters. How easy it will be to make the new trimming for your jersey dress. You need not have it necessarily of wool, either, though a combination of wool and silk is lovely, especially if done in two colors.

Braids of silk, twine, cotton and even ribbon can be knitted on needles with the plain knitting stitch or a variation of purling and knitting to make fancy patterns. Twine braid for a linen suit will be very good looking and cheap, too.

Kerosene.

To remove paint from the hands or wearing apparel wet in kerosene and wash at once.

CAPONIZE MALES FOR CHOICE FOOD

One Way of Answering Call for Greatly Increased Supply of Poultry and Meats.

HAS CONTENTED DISPOSITION

Breeds Best Adapted for Purpose Are Plymouth Rock, Brahma, Cochinchina, Langshan and Wyandotte—Leghorn Too Small.

(Prepared by the United States Department of Agriculture.)

Caponizing the surplus cockerels is one way of answering the call made by the United States department of agriculture for a greatly increased production of poultry and meat. Capons, the name applied to unsexed male birds, are to the poultry dealer what fat steers are to the beef packer—the source of the choicest food product of their kind. Like the steer the capon has a contented disposition. It develops more uniformly than the cockerels, and, as it fattens more readily, is larger at the same age. This coupled with the fact that the flesh of capons retains the softness and tenderness of young birds and is, therefore, of superior quality, causes them to command a better price on the market.

Since capons must be held and grown until winter they take up some room which might be used to better advantage for laying hens. In such cases it may be advisable to fatten the surplus cockerels and sell them as broilers. Another consideration is the local market, which must show the demand for capons.

Best Breeds to Caponize.

Large capons bring the best prices, and it seldom pays to caponize males of the small breeds, such as Leghorns. Breeds best adapted for this purpose are the Plymouth Rock, Brahma, Cochinchina, Langshan, and Wyandotte.

Cockerels should be caponized as soon as they are large enough for the operation to be performed easily, usually when they weigh from 1½ to 2½ pounds, or when they are from two to four months old. Cockerels can be caponized when larger and older than this, but at such time there is more danger of loss of blood, and extreme care must be exercised to prevent the birds from bleeding to death. Caponizing is usually done in June, July and August.

Cockerels to be operated upon must be confined and given no feed or water for 24 to 36 hours. This serves to empty the intestines and enables the

Performing the Operation.

testicles to be located and removed more easily. The bird is laid upon its side on a box, head of a barrel or a table of convenient height, and held in a stretched-out position by means of cords passed about the wings and the legs and weighted with weights equivalent to that of half bricks. The operation must be performed out of doors in a sunlighted space, or else artificial light must be reflected into the body cavity in order to allow the operator to locate and remove the testicles.

Use Sharp Knife.

Make the incision with a sharp-pointed knife between last two ribs, but before making the incision pull the skin down toward the leg. Then when the operation is over and the bird is released, the skin slips over the wound and closes it. Insert the spreader and enlarge the cut sufficiently to allow the introduction of the testicle remover, but do not cut too far toward the backbone, or into the fleshy part of the body wall, as that will cause profuse bleeding. A thin membrane will be observed covering the intestines. This must be torn with the sharp-pointed hook. The intestines are then exposed and these are pushed aside, two small, white, yellow (sometimes dark colored) bodies will be observed, one on each side of the backbone, and close to it. These are the testicles. Remove these with the testicle remover, taking the lower one first. Persons not expert at caponizing find it impossible to locate the lower testicle. In this case, the upper can be removed, the bird turned over, and the other testicle removed through an incision on the other side, care must be observed in removing the testicles which run close to them. Should this occur, the bird will bleed to death. Be sure that the entire testicle is removed. If a piece is left, the bird will act and look like a cockerel instead of a capon, and will sell for less than capon prices. Such a bird is known as a slip. It is advisable for a beginner to practice this operation upon a dead fowl. The place to make the incision, the location of the testicles, etc., can be definitely learned in this way and confidence gained in caponizing live birds.

HOME-GROWN PROTEIN FEEDS

Stockmen Should Plan to Produce an Adequate Supply of Leguminous Crops This Year.

(Prepared by the United States Department of Agriculture.)

Clovers, alfalfa, soy beans, cowpeas and vetches can be profitably produced on every live stock farm in the country and it is of great importance that an adequate supply be grown this year to furnish feed for live stock. These leguminous crops are comparatively rich in protein. The recent prices of feeds which are rich in protein have been so high as to prey vitally on the net profits which otherwise would have accrued to the producers of live stock.

Varieties of seed of the crops mentioned have been acclimated and rendered practical for production in nearly every section. The man who is unable to raise clovers, vetch or alfalfa on his farm, can resort to soy beans and cowpeas. The latter crops can be grown for either concentrates or roughage use and as such enable the stockman to prepare a well-balanced ration of home-grown feeds which contain a sufficient supply of protein. They enable him to reduce his feeding cost very materially and do away to a large extent, with high-priced cottonseed, lin-

A Good Field of Alfalfa in Kentucky.

seed and peanut meals, which range in protein content from 36 to 50 per cent and cost at the present time from \$60 to \$85 a ton.

The crop of soy beans and cowpeas can be utilized in a number of ways. They can be used for grazing or silage purposes, be converted into hay or silage, or harvested and thrashed and used for feeding or seedling purposes. Every farm equipped with a gasoline engine and a small power grinding mill can readily convert any surplus cowpeas or soy beans into meal. It is essential that these grains be ground in combination with corn, usually one part of beans or peas to three or four parts of corn. When ground alone the excessive oil in the leguminous grains will cause the mill to gum up.

Solve the problem of high-priced feeds by growing crops rich in protein on your own farm.

CONSUMPTION OF CORN CROP

Urgent Reason for Increasing Production Is Absolute Need of More Grain for Food.

(Prepared by the United States Department of Agriculture.)

Approximately 85 per cent of the corn crop of the United States is consumed upon the farm. One and one-half to two per cent is exported and the remainder is used in manufacture or otherwise consumed. During the last ten years the demand for corn has increased and at times the supply has been inadequate to meet it. This has led to the importation of corn from Argentina. While the amount imported has reached in some years a total of something more than 7,000,000 bushels, it is so small in comparison with the production in this country that corn imports are not an important factor in the corn trade.

However, this importation does call attention to the need of increasing the corn production in this country. But a much more urgent reason for increasing production is the absolute need of more food-grains in the present world crisis. In 1917 the acreage planted to corn was the largest in the history of the country, nearly 120,000,000 acres, and exceeding the 1916 planting by about 15 per cent. The production is estimated at 3,150,494,000 bushels, the largest crop ever harvested. There seems to be every reason to believe that our own welfare and that of the allies in the world's war, as well as of neutral nations, will make desirable an even greater production of corn in 1918 on an acreage approximately equal to that planted in 1917.

NEED SELF-DEPENDENCE

(Prepared by the United States Department of Agriculture.)

We will not win this war unless states and communities rise to the emergency of solving local problems without dependence upon Washington. This is true state sovereignty and local self-government and is effective loyalty to the nation. —Assistant Secretary of Agriculture Clarence Owsley.

Alfalfa as Honey Crop.

In some of the western states alfalfa is the principal honey crop, and like the clover it produces a clear honey of fine quality and flavor.

KIND TO PRISONERS—GUILTY

German Women Warned That They Will Be Punished for "Lack of Self-Respect."

Women, even the miraculous German superwomen, are inexcusable, observes a writer in the Literary Digest. The German government has just discovered to its horror that Gretchen, in common with all the daughters of Eve, is not insensible to the charms of a well favored man, and, if given the opportunity, even she is disposed to flirt. The Frankfurter Zeitung indignantly writes: "Female inhabitants of houses adjacent to camps of officer prisoners of war have communication with the imprisoned officers, and even throw them things. Thanks, however, to the sharp lookout kept by the authorities, the attempts in each case were frustrated. The guilty persons, who belong to all classes of society and are of various ages, were discovered."

"While the police authorities have hitherto considered sharp reprisals as sufficient warnings, in the belief that such unconsidered acts were due to a foolish desire for sensation, in future such conduct will be visited by very severe legal penalties and public exposure. These penalties will furthermore be imposed without discrimination on all who render themselves guilty of such lack of self-respect."

TOO WEAK TO FIGHT

The "Come-back" man was really never down-and-out. His weakened condition because of overwork, lack of exercise, improper eating and living demands stimulation to satisfy the cry for a health-giving appetite and the refreshing sleep essential to strength. GOLD MEDAL Haarlem Oil Capsules, the National Remedy of Holland, will do the work. They are wonderful. Three of these capsules each day will put a man on his feet before he knows it; whether his trouble comes from uric acid poisoning, the kidneys, gravel or stone in the bladder, stomach derangement or other ailments that befall the overzealous American. The best known, most reliable remedy for these troubles is GOLD MEDAL Haarlem Oil Capsules. This remedy has stood the test for more than 200 years since its discovery in the ancient laboratories in Holland. It acts directly and gives relief at once. Don't wait until you are entirely down-and-out, but take them today. Your druggist will gladly refund your money if they do not help you. Accept no substitutes. Look for the name GOLD MEDAL on every box, three sizes. They are the pure, original, imported Haarlem Oil Capsules.—Adv.

Pennsylvania Women in Business.

More than 100 firms, partnerships and individuals doing business in Pennsylvania under assumed names have registered the real names of their owners, and in many cases it has been found that women were not only managers but owners of stores, factories and other industries.

Cuticura for Sore Hands.

Soak hands on retiring in the hot suds of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with soft tissue paper. For free samples address, "Cuticura, Dept. X, Boston." At druggists and by mail, Soap 25, Ointment 25 and 50.—Adv.

Over 400,000 Women Teachers.

More than 400,000 women are employed as teachers in the elementary schools of the United States.

Such Flavory Sliced Beef!

THE tenderness of Libby's Sliced Dried Beef, will delight you—but you will find the greatest difference in the flavor!

Have Libby's Sliced Beef with creamed sauce today. See how much more tender, more delicate it is than any other you have ever tried.

Libby, McNeill & Libby, Chicago

No Eats in Heaven.

Eugene, aged five, having been on a strict diet for a week, asked one night after getting in bed: "Mother, do they have places where you can get things to eat in Heaven?"

She shook her head. "No, Eugene, there are no restaurants in heaven; people do not eat there."

"Not even milk toast?"

"No," she answered.

Drawing a long sigh, Eugene said: "I hope I don't have to die tonight; I'd hate to go to heaven as hungry as I am."

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove those homely spots.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one course is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Searchlights in War.

Searchlights are playing a very important part in the present warfare. In one instance the Germans on the heights of the Italian front were blinded by the rays of many lights while the Italian engineers were building bridges below, working in the dark.

COUNCIL PROCEEDINGS.
(Official.)

June 17, 1918.
Council met in regular session. Meeting called to order by the president. Roll call by the clerk. Trustees present, Dancer, Hirth, Mayer, Palmer. Trustees absent, Holmes, Schoenhals. Minutes of previous meeting read and approved.

The following bills were read by the clerk:

General Fund.
Electric Light and Water Com.
Light, power and supplies
for May\$531.01
Howard F. Brooks, Holmes & Walker warehouse and Lewis Spring & Axle Co. fires... 27.00

Street Fund.
G. Bockres, salary week ending June 15..... 12.00
J. A. Conlan, labor and team week ending June 8..... 17.40
J. A. Conlan, labor and team week ending June 15..... 15.60

Electric Light Fund.
Electric Light & Water Works Com., their order No. 29.....1000.00
Moved by Dancer, seconded by Mayer, that the bills be allowed and orders drawn for the amounts. Carried.

Enter Holmes.
Petition of Jacob Lehman and others that an electric street light be placed on South Main street near the city limits was read and on motion was referred to the Electric Light and Water Works Commission.

Moved by Dancer and seconded by Palmer, that the Electric Light and Water Works Commission be authorized to build two new six-inch wells at the village pumping station. Carried.

Enter Schoenhals.
Committee appointed to report on the matter of a motor truck for the fire department was granted another week in which to secure additional prices and information.

Moved by Mayer, seconded by Holmes, that L. G. Palmer be appointed engineer to establish the grade and do other engineering work in connection with the building of curb and gutter on East Summit street. Carried.

The finance committee submitted a budget of estimated expenses for the fiscal year of 1918, and recommended that a part of the floating indebtedness of the village to the amount of \$3,700 be paid this year.

Moved by Holmes and seconded by Hirth that the assessor be instructed to spread the tax roll at the rate of one and one-tenth cents (\$.011) per dollar on the assessed valuation of the village, Yeas, Holmes, Dancer, Mayer, Hirth, Schoenhals. Nays, Palmer. Carried.

On motion by Dancer, seconded by Holmes, meeting was adjourned.

LOCAL BREVITIES

Our Phone No. 190-W

Mr. and Mrs. W. W. Hendrick spent Sunday at Whitmore Lake.

Mrs. A. K. Marriott of Detroit visited relatives here the past week.

George Alber was home from Camp Custer, Sunday and Monday.

Mr. and Mrs. H. W. Hall of Detroit visited Chelsea relatives over Sunday.

Miss Carrie Krell of Battle Creek is visiting her sister, Mrs. LeRoy Brower.

Allen Crawford of Detroit has been visiting Chelsea relatives for a few days.

Lloyd Osborne of Omaha, Nebraska, is visiting his grandparents, Mr. and Mrs. M. J. Noyes.

Miss Grace Schenk will teach music and drawing in the Ford city schools the coming year.

Mr. and Mrs. W. B. Johnson and little daughter, of Howell, visited her brother, Verne Fordyce, Sunday.

Mr. and Mrs. John Greening and daughter Nina visited Grass Lake friends the last of the week.

A party of boy scouts from Ann Arbor passed through Chelsea, Friday, en route to Brain Lake, where they are camping.

Mr. and Mrs. Chris. Bauer and family, of Albion, were the guests of Mr. and Mrs. S. J. Guerin, Sunday, returning home Monday.

Crops planted on low grounds were cut by the frost Saturday night. Corn, beans and potatoes were badly damaged in many instances.

Walter Page caught a monster black bass Saturday afternoon at the lake on Dr. Palmer's farm. The fish weighed four pounds and five ounces.

Roy Maier returned Wednesday from Kansas City, Mo., for a few days' visit. He was accompanied by his friend, George Olsen of Portland, Oregon.

Workmen started yesterday to rebuild the roof and second floor of the Wilkinson building, which was badly damaged by fire a week ago last evening.

Mr. and Mrs. William Fahrner and two sons, and Mr. and Mrs. Joseph Kolb and son were Camp Custer visitors, Sunday, making the trip in Mr. Fahrner's auto.

Mrs. Evelyn Russell visited her parents, Mr. and Mrs. W. B. Ewing of Jonesville, over the week-end and also her brother Eugene at Camp Custer on Sunday.

Luman A. Bliss died Wednesday, June 19th, at his home in Bliss. He was the father of Roy Bliss of Holt, son-in-law of Mr. and Mrs. W. I. Wood of this place, and well known in Chelsea.

Cool weather prevailed Saturday and many households started fires to "take the chill off." We noticed that several Michigan Central trains had the steam hose connected and the heat turned on.

Dorothy Irene, the seven months old daughter of Mr. and Mrs. Henry Gilbert of North Lake, died Wednesday, June 19th, at the University hospital in Ann Arbor. The funeral was held Saturday.

Mr. and Mrs. Adna Barnett and daughters of Plymouth and Mr. and Mrs. Fred Schlosser and family of New Baltimore visited Mr. and Mrs. Walter Vicary of Waterloo over the week-end.

Mr. and Mrs. Clyde Holt of Detroit, well known to many Chelsea people, are making an automobile trip through New York. His parents, Mr. and Mrs. E. J. Holt of Fowlerville, accompanied them.

Among the bequests provided for in the will of the late Carrie A. Allen of Howell is over \$1,000 to the Methodist home in this place "to assist in giving a home to someone who would otherwise have none."

Miss Dorothy Bacon, who has been teaching in South Haven the past year, visited her parents, Mr. and Mrs. J. Bacon, several days last week and left Saturday on a vacation trip to Los Angeles and San Jose, California.

Home talent entertainment. Patriotic readings and songs. An evening of genuine enjoyment. The kind you like to hear. Nothing stirs us like the old time songs. Rev. J. Carmichael will give several selections. Everybody come to the Baptist church Wednesday evening, June 26, at 7:45 o'clock. A silver collection will be taken, half of the proceeds for thrift stamps and half for the Ladies' Aid society.

About 45 of the relatives and friends of Mr. and Mrs. Fred Prinzing surprised them at their home in Bridgewater, Sunday. Among those from this vicinity who were present were: Mr. and Mrs. Frank Leach, Mrs. Mary Bollinger, Miss Cora Bollinger, Mr. and Mrs. Ed. Fahrner and daughter, Emanuel Bristle and family, George Koengster and family, Mr. and Mrs. Ed. Koch, Fred Bollinger and family and Gottlob Bollinger and family.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Andrews, F. J. CHENEY, Toledo, Ohio. Sold by all Druggists, 75¢-Adv.

Misses Amanda Gross and Florence Fenn were in Jackson, Sunday.

Mr. and Mrs. E. P. Steiner and children were in Ann Arbor yesterday.

Mr. and Mrs. Paul Ober of Howell were Chelsea visitors Sunday evening.

M. J. Noyes is again able to be about town, following a severe illness.

John Foster has had a new cement porch built at his home on Lincoln street.

Mr. and Mrs. A. L. Steger and sons and Mr. and Mrs. H. H. Fenn visited Camp Custer, Sunday.

George Wills and sisters of Dexter and Mrs. John Foster and daughters were in Jackson yesterday.

Mr. and Mrs. Ed. Taylor and family of Romulus spent Sunday at the Storms cottage at Cavanaugh lake.

The Pythian Sisters will meet with Mrs. John Frymuth, Friday, to sew for the Red Cross. Serab lunch at six o'clock.

Mrs. John Spiegelberg and daughters, Misses Ruth and Gladys, and Mrs. H. G. Spiegelberg were in Dexter, Sunday.

The Home Guards drilled again last evening and hereafter will drill two evenings each week, Mondays and Fridays.

F. K. McDowney, John Robb and Russell Emmett, of Detroit, spent the week-end with Chelsea friends at Cavanaugh lake.

The W. C. T. U. will meet with Mrs. G. H. Whitney, Thursday afternoon at three o'clock. A program will be given. Everybody welcome.

Several of the friends and neighbors of Dr. and Mrs. H. M. Armour gave them a surprise last evening in honor of the anniversary of their marriage.

Flex Smith of Camp Custer, Frank Smith and daughter, Mr. and Mrs. Temple Smith and Ora Doy, of Fowlerville, spent Sunday with Mr. and Mrs. Frank Moore.

Mrs. H. H. Fenn received a letter this morning from her nephew, H. F. Foster, in which he makes mention of being located near Tours, France. He is with the 46th Aero Squadron.

Mr. and Mrs. Clyde Wimbles and Mr. and Mrs. Lennel Hedigan, of Fowlerville, and Mr. and Mrs. Stephen Hadley and son, of Lyndon, visited Mr. and Mrs. E. P. Steiner, Sunday.

Mr. and Mrs. Frank Storms are entertaining at Hoo-Hoo Inn, Cavanaugh lake. Mrs. F. K. McDowney and daughter, Miss Dorothy, Mrs. John Robb and daughters, Margaret and Helen, and Miss Bessie Potts, of Detroit, and Mrs. Kingsley of Romulus.

Threatening clouds yesterday afternoon and evening gave a promise of rain, but with the exception of a slight sprinkle some time during the night, neither threat nor promise have materialized, although the clouds are still with us and perhaps the rain is coming.

Frank Leach's automobile caught fire beneath the hood Sunday near Bridgewater and for a few minutes Frank did some tall hustling with his patent road-dust fire extinguisher, which proved quite effective. The electrical equipment of the car was damaged, but otherwise it shows no effects of the fire.

Mr. and Mrs. John Foster entertained 22 relatives and friends at dinner Sunday. Those from out of town were: Mr. and Mrs. Ernest Burlew of Litchfield, Mr. and Mrs. B. S. Van-Corwin and children of Napoleon, Mrs. J. H. Friend of Jackson, George Wills and Adeline and Alice Wills of Dexter, L. D. Woods of Toledo, Ohio, and Glenn Winans of Napoleon.

Special feature of the service at the church of Our Lady of the Sacred Heart, Sunday evening, was the blessing of the service flag of this parish, which bears 35 stars. Rev. Father Conidine, the pastor, was assisted by Rev. Fathers Crove of Pinckney, Carlon of Manchester, Hayden of Assumption college, Sandwich, Ontario, and W. Witliffe of Brighton, the latter delivering the sermon, which was a stirring appeal for justice and patriotism. The G. A. R. and W. R. C. attended as organizations, and there was special music by the choir.

UNADILLA.

L. E. Hadley and Ralph Teachout were at Camp Custer, Saturday and Sunday.

Herbert Lane and wife of Howell visited at Watson Lane's, Sunday.

Clare and Lucile Barnum visited in Munith, Sunday. Esther returned home with them.

Friends from Detroit visited at Wm. Secor's Sunday.

Wm. Marshall, wife and daughter Lorna and Ed. Granna and wife were in Ann Arbor, Thursday.

Loney Lane of Lansing called on friends here the last of last week.

Frank Aseltine and Forest and Jessie Aseltine were in Lansing, Saturday, to attend the funeral of his brother-in-law.

LISLE ASSIST. PROSECUTOR.

Assistant County Prosecuting Attorney Leslie W. Lisle of Ann Arbor will be in charge of the prosecuting attorney's office in place of Carl A. Lehman, who has enlisted, according to an announcement made yesterday by Judge Sample of the circuit court.

Mr. Lehman has been assigned to the Knights Templar ambulance corps and left yesterday afternoon for Camp Sherman, Chillicothe, Ohio.

Secretary Baker says 800,000 of our boys have gone to the front. Help bring them back quickly by saving to the utmost of your ability and buying War Saving Stamps.

Has a Good Opinion of Chamberlain's Tablets.

"Chamberlain's Tablets are a wonder. I never sold anything that rich," writes F. B. Tressey, Richmond, Ky. When troubled with indigestion or constipation give them a trial.—Adv.

Better Service to You

We don't want you to think of the Kempf Commercial & Savings Bank just as a place to deposit your money although of course we are glad to have you keep as large a balance with us as is possible.

It is our desire to render our patrons every service and accommodation that can reasonably be expected of us.

The Burroughs Bookkeeping Machine, which we have just added to our equipment, makes it possible for us to give you better service than ever before in the handling of your account.

By the machine method, your account is kept in balance all the time. If, as sometimes happens, you want a statement of your balance in a hurry, we can give it to you, including today's checks and deposits, in less than five minutes.

A neatly printed statement made out on the Burroughs goes to each depositor every month. The statement shows all checks and deposits and gives the balance of your account to date, taking the place of the tedious and unsatisfactory plan of calling in and balancing pass books.

The machine affords absolute protection against errors in figure handling. It can't make a mistake. You can always be sure that your machine-figured balance is correct.

The increased speed, accuracy and protection of this mechanical bookkeeping system, added to our thorough knowledge of good consistent banking and business methods, make it possible for us to offer you an improved service that is equal to that furnished by the country's most progressive banks.

Kempf Commercial & Savings Bank

SUNFLOWERS FOR SILAGE.

Experiments with sunflowers to determine their suitability for silage are being conducted in the western United States by the Bureau of Plant Industry, in cooperation with State experiment stations. There are indications that this crop may be especially useful in regions where the growing season is too cool for the production of large yields of silage corn. The experiments were begun in 1917 at Huntley, Montana, and Scottsbluff, Nebraska, and the first year's results led the investigators to extend the work to other points this year. In 1917 the yields of sunflower silage exceeded those of corn silage in the same fields from 50 to 100%. Yields of more than 20 tons per acre were obtained under irrigation. Preliminary feeding tests have indicated that the sunflower silage may be substituted satisfactorily for corn silage, but directly comparable results have not yet been obtained in sufficient volume to justify a full statement as to the comparative values of the two feeds.

AEROPLANE IN ANN ARBOR.

A government scouting aeroplane from Wilbur Wright Field, Dayton, Ohio, landed on Ferry Field, Ann Arbor, Saturday evening, and spent the night and part of Sunday there under guard of the Seventy-fourth company of state troops.

Two government aviators, Lieutenants, J. C. Taylor and T. Hayden, drove the machine to Ann Arbor to visit friends, Lieut. Taylor being a former University student.

If you actually knew that by buying only those things you absolutely needed and by putting your savings into War Savings Stamps you could save lives, would you do it? Take the word of the President that you do save lives when you do this.

Whooping Cough.

In this disease it is important that the cough be kept loose and expectation easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes, "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm."—Adv.

POOLROOMS CLOSED.

The poolrooms in Ann Arbor were all closed Sunday. The police did not find it necessary even to caution the proprietors to observe the law. Assistant Prosecuting Attorney Leslie W. Lisle visited the places also and found them closed. Mr. Lisle said that one of the poolroom proprietors told him that after a few Sundays he would open up. The prosecutor advised him to keep closed, and save himself trouble.

Prof. T. N. Carver, of Harvard University, says: "Anyone who, in these days of impending doom, buys anything which he does not need for his health, strength, or efficiency is hiring someone to do something that is unnecessary. He is hiring someone to stay out of the essential industries. He is competing with the government for materials and man power which it needs to win the war and preserve the liberties of mankind."

Buy a War Savings Stamp today.

Commissioners' Notice.

(No. 15053.)

State of Michigan, County of Washtenaw, ss. The undersigned having been appointed by the Probate Court for said county, commissioners to receive, examine and adjust all claims and demands of all persons against the estate of Michael Staffan, late of said county, deceased, hereby give notice that four months from date are allowed, by order of said Probate Court, for creditors to present their claims against the estate of said deceased, and that they will meet at the office of H. D. Witherell, in the Village of Chelsea, in said county, on the 12th day of August and on the 12th day of October next, at ten o'clock, a. m. of each of said days, to receive, examine and adjust said claims.

Dated, June 11th, 1918.

J. E. McKune,
H. H. Fenn,
Commissioners.

Ten Reasons Why Michigan Should Send TRUMAN H. NEWBERRY to the United States Senate

First—Because of his marked ability. As a business man, as a member of Roosevelt's Cabinet and as a Commander in the Navy he has shown himself capable and efficient.

Second—Because of his broad experience in national affairs. As Secretary of the Navy he came into close touch with Congress and legislative action, knows how laws are made and is thoroughly familiar with legislative processes.

Third—Because he is a worker, "a man who does things."

Fourth—Because of his splendid record—Able seaman on the "Yankee" in the Naval Reserves—Lieutenant on the "Yosemite" in the Spanish-American war—Secretary of the Navy and now a Commander, he has always "made good."

Fifth—Because he is a Michigan man. Michigan born and bred and a part of its business and industrial life, he is in close touch with the affairs of our great state. He knows Michigan conditions and needs.

Sixth—Because of his integrity and high character. Truman H. Newberry stands always for a "square deal."

Seventh—Because he is genial, approachable and sympathetic. Much of his time is taken up with doing things to help, personally, the boys in the Navy and he delights to be of service to them.

Eighth—Because of his good judgment and balance. He is dependable and reliable.

Ninth—Because of his 100% Americanism. Not only in the service himself, but his two sons as well, he is doing all he can at his post of duty to help to win the war. He is the "Win-the-War" candidate.

Tenth—Because of his knowledge of the war, he is the best man we have in Michigan to help solve the problems arising and to arise out of this, the greatest conflict in history.

Ability—Experience—Industry—A Splendid Record—Integrity—Home Ties—Helpfulness—Good Judgment—Knowledge of War Conditions and Problems—all these are found in Truman H. Newberry.

HE IS THE BEST QUALIFIED MAN IN MICHIGAN FOR UNITED STATES SENATOR.
