### THREE CHELSEA BOYS AT FT. BEN. HARRISON

An Interesting Letter From Clayton Heselshwerdt Describes Their Trip From Custer.

The following letter was written Wednesday, August 21st, from Fort Benjamin Harrison, near Indianapolis, Indiana, by Clayton C. Heselshwerdt who, with Louis Faber and Cleon Wolff, was recently transferred from Camp Custer:

Just a few lines to let you know that we are feeling fine in our new home and sure like the place. There are three Chelsea men here, "Click" Wolff, "Mobiles" Faber and myself. We are all railroad men so we're the only ones moved here. About two hundred men came here from Camp Custer.

We left Custer on Tuesday morning at about 9:30 a. m. Moved over the main line of the M. C. Our first stop was at Kalamazoo. The Red Cross ladies distributed cigarettes and cards and gave us all a rousing send off. We then moved on west through Deatur, Dowagiac and stopped again at Niles. We arrived there at 11:30. Had our dinner there. The Red Cross and the Mich. State Troops served our meals. We left Niles at 1:30 southbound. At about 2:00 p. m. we left our native state, going into Indiana. The country is certainly fine. It is level and crops look very good.

We arrived at Elkhart at about 3:00 p. m. Here the Red Cross gave us cards, cigarettes and a few "cats." Then we continued our long tiresome ride. Our next stop was at Wabash. That town sure got a vote of thanks from us fellows. They found out that a troop train was coming only 15 minutes before we arrived. However they easily outdid any other town along the line. You can't see any of the town as you pull in so could not see what was coming. At the station was about as good looking girls as you see out of Chelsea. The station platform was one dense howling mob. They served us with ice cream and lemonade. We stopped there about a half hour. Our next food came at Anderson at about eight o'clock. The Red Cross gave us cigarettes and fruit. We then proceeded to Fort Benjamin Harrison, arriving there about 11:30 and finally got to quarters at 12:30.

They could lose this fort in Camp Custer. It is only a drop in the bucket compared to Custer. However, it is certainly a very pretty place. The barracks are most all brick, the drill grounds all grass and lots of shade trees, which is something rarely found at Custer. We are only eleven miles from Indianapolis.

Can't say exactly how long we will be here, but can assure you that it won't be long, as the few old men here say they only keep men here two or three weeks. We are in the army now and expect to move at almost any time.

Give my regards to all the Chelsea people. Sorry I could not see more of them while I was home Sunday but that was a short stay and for my own family and very close friends only.

### WALWORTH - BACON.

Miss Anna Leonore Walworth, daughter of Mr. and Mrs. O. J. Walworth, and Mr. George Samuel Bacon, son of Mr. and Mrs. Jabez Bacon, were married Saturday, August 24, 1918, in the presence of about 40 of the near relatives of the bride and groom.

The ceremony took place at noon at the home of the bride's parents, 160 East Middle street, Rev. M. Lee Grant of Detroit, a former pastor of the Chelsea Congregational church, officiating. Little Ruth Vogel was the ring bearer, while the little niece and nephew of the groom, Jean Phelps and Vincent Schultz of Coldwater, were attendants. The wedding march was played by Mrs. George Walworth.

Following the ceremony a luncheon was served by several of the young lady friends of the bride, after which Mr. and Mrs. Bacon drove to Jackson and there caught a fast train for Chicago and Beloit, Wisconsin, for a brief visit at the home of the groom's sister, Mrs. H. C. Schneider, of that place. They will be at home to their friends after September 1st in Ft. Wayne, Indiana, where Mr. Bacon has a responsible position with the S. F. Bowser company.

Among those from out of town who attended the wedding were: Dr. and Mrs. Samuel Schultz and children, and Dr. and Mrs. N. E. Phelps and children, of Coldwater, Ben Bacon of Jackson, Mr. and Mrs. Fred Dewey and Claude Hook of Detroit, Mr. and Mrs. George E. Walworth and son of Hillsdale, Miss Grace Bacon of Philadelphia, Mrs. L. D. Jenne of Eaton Rapids and Mrs. M. L. Grant of Detroit.

### BELL - MULHOLLAND.

A simple wedding took place Wednesday when Miss Fernie Genevieve Bell, of Dexter, was united in marriage to Frank Mulholland, of Ypsilanti, at the parsonage of the Methodist church, in Ann Arbor, the ceremony being performed by the Rev. A. W. Stalker. The bride was attended by her sister, Miss Dorothy Bell, while the groom's attendant was Clyde Dixon, of Gregory.

### NEW HEAD WAR BOARD.

The county war board has selected H. E. Van de Walker, of Ypsilanti, as general manager of the Washtenaw county war preparedness board to succeed Roscoe O. Bonstedt, who has resigned to accept an appointment as first lieutenant in the air service production of the United States army, and who is to leave for Portland, Ore., next Tuesday.

### ANN ARBOR MEN WOUNDED.

News of injuries suffered by a number of Ann Arbor soldiers in the present battle in France was received Saturday by Mrs. Clark B. Potter from her husband, Lieutenant Potter of the old 31st Michigan Infantry.

Lieutenant Potter, who is in a Paris hospital, lost his right foot, Emil Schlenker lost his right hand and Corporal Carl Sweet, Ross Stofflet and Harris Russell and Privates Clarence Stipe and Bob McNeill were slightly wounded. Captain McGee, who received Captain Baclus of this city when the latter was sent home to act as instructor, was badly wounded in the head and neck. Lieutenant Potter states that the Ann Arbor boys have been in action ever since they were taken from the Vosges sector, and that they have proved themselves to be real men.—Times-News.

### CHELSEA BOY IN FLORIDA

Leo McQuillan Writes of Experiences in Key West Naval Camp.

Mrs. Thos. McQuillan has just received a letter from her son Leo, who is on duty at the U. S. Naval Air Station, Key West, Florida. The letter is dated August 19th and follows in part:

Dear Mother and all:  
I just finished a letter to the girls that I started yesterday morning before Mass. I intended to finish it in the afternoon, but went sailing instead.

I only had three pictures finished up and sent those to the girls. We had one of each printed and then divided them up. I expect to have some more printed and will send you some then. The sun was so bright that they were not much good. I think I will have some taken Saturday.

After dinner yesterday six of us went sailing. There was not much wind so we did not make very much progress, but managed to get out five or six miles. The water was not more than waist deep any of the way so we were out of the boat as much as I was to be on guard from ten to eleven. If we did not get any wind we were going to start pushing about five so we could get back for "chow" in the morning. Three of us laid down and one fellow watched for a stray breeze. The wind came up about 8:30 and we started for shore and were there before I knew it. But it took us quite a while to fix up the boat in shape to leave it and after that we had about a half mile to walk; we got in about 10:45.

I took a shower and covered my sunburned legs with camphor ice and went to sleep. In a few minutes some of the others came around and woke me up to eat a big piece of pumpkin pie which they had swiped out of the bake shop in the rear of our barracks. I sat up long enough to eat it and then was asleep again as soon as I laid down. We had a good time even if we did miss our supper.

I think you will need the woolen helmet before I do if I stay down here, as I am soaking wet now for there is not a bit of breeze here tonight.

We had a big smoker Friday night and had a grudge fight between a couple of niggers from the officers' mess. One of them had hit the other on the head with a flat iron and the doctor made them fight it out at the smoker. They only fought one round, but they sure did go to it for a while. I was in a sack fight. There were four of us in it and we had to get in sacks and hold it up with one hand and had a boxing glove on the other. I got a couple of nice wallops on the jaw. It did not hurt much at the time but my teeth did not seem to line up afterwards but they are all right now and the experience was worth a lot. I happened to land on the side of one guy's nose, and did not think I hit him hard, but he went down and that was the last I saw of him for the other two guys came at me and we had a few more rolls on the mat. I happened to win the fight and when I got down the other guy told me that I busted his nose and he went over to sick bay and the doctor set it. The next morning he had a big black and blue streak below his eye and his morning he has one over it. He says the whole side of his head aches so I must have landed pretty hard. He did not work today.

With lots of love for all, I remain as ever,  
Your son and brother,  
Leo McQuillan.

### JURY THIRTY-SIX MEN ON LOWE LAKE DRAIN

Circuit Court at Howell Sustained Probate Judge Stowe.

Latest development in the Lowe Lake drain controversy provide for a jury of thirty-six men, twelve each from Ingham, Livingston and Washtenaw counties through which the proposed drain will pass, to decide the necessity for the improvement. It is hardly probable that a jury of such proportions will ever be able to reach an agreement.

In a previous dispute regarding this drain the matter was taken to the supreme court and now it is said that interested parties will appeal it a second time.

### DRAFT LIST EXHAUSTED

County Selective Service Board May Have Difficulty in Filing the Next Quota.

The latest call for men for the military service includes 29 more men from Washtenaw county, and these, says County Clerk Edwin H. Smith, will take the last available man on our list, including every man of the 1918 class at present registered. "In fact," said Mr. Smith, "we hardly know where we are going to get enough to fill the quota."

These 29 men are to be men fully qualified for military service and white, and are to be sent to Camp Custer on September 3.

On September 3 also the local board is directed to send 22 men, qualified for limited or special service, to camp at Syracuse, N. Y. The orders received for this quota do not state for what sort of service the men are to be required, but the board is directed not to send any men who are qualified as stenographers. The last men sent to Syracuse were for the fire protection service at ports of embarkation.

### AUTOMOBILES COLLIDE.

Two automobiles were badly damaged Sunday in a collision at South Main and Orchard streets. One of the machines was an Overland touring car owned by Lewis Eppler and the other was a Chevrolet roadster owned by a Detroit man. Mr. Eppler was turning from Orchard street north onto Main street and the other car was being driven south on Main street. The front axle of the Eppler car was sprung and the fender twisted. The front axle on the other car was broken, the left-hand front wheel crushed and the left-hand front fender and the run-board and skirt torn off.

## BETTER BABIES AT STATE FAIR

Management Will Assist U. S. Government in Conducting National Survey During "Children's Year."

"Better Babies" has become a nation wide cry. Never before in the history of the country has as much attention been attended the younger children as is being given them at the present time. The U. S. government has styled this "Children's Year" and hundreds of federal employees are engaged in the work for the children.

The "Better Babies" movement is not new in Michigan, it having been instituted four years ago by G. W. Dickinson, Secretary-Manager of the Michigan State Fair, as a department of the annual exposition. Welfare of the children has been an obsession with the fair executive for years. The first year he organized the department it became popular and each season it has grown by leaps and bounds, until last year hundreds of mothers entered their babies in competition.

National authorities on baby welfare are in charge of the work. Invaluable information is given in daily lectures to the mothers on the care of the youngsters. Each entrant is given a special physical examination

and any ailments found are not only explained to the mother but means of rectification are prescribed.

### TWO MICHIGAN STATE FAIR PRIZE WINNERS.

Conforming to the policy of the fair association to assist the government in every possible manner during the war period, the fair management is giving added attention to the department at the 1918 exposition, to be held in Detroit, August 30—September 8. Better babies and better children means increased efficiency of the country. Child delinquency has shown an alarming increase since the entry of the country into the war.

## Packers' Profits Are Regulated

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

**Class 1** includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (including surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

**Class 2** includes the soap, glue, fertilizer, and other departments more or less associated with the meat business. Many of these departments are in competition with outside businesses whose profits are not limited. Profits in this class are restricted to 15 per cent of the capital employed.

**Class 3** includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit cannot possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1) are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.

Swift & Company, U. S. A.

Caroline was eating a green apple, and her mother said, "O, dearie, don't eat that. It will make you sick as a dog!" Caroline's reply was prompt and logical. "Our dog is the welliest one of the family."

**Editor Finally Turned.**  
"And this," said the alleged old soldier, peering a long-suffering editor who was an old soldier, "is where the Arabs were massed in front of us. Here"—pointing to another place on a dirty pocket map—"is where our division was drawn up in zebra."

**He Could, All Right.**  
"The sounds of battle are something terrifying," roared the lecturer. "Can you imagine the screaming of the shells, the roaring of the cannons, the yells of the men, the rattle of the rifles and machine guns?"  
"Yes, sir, I think I can," said the neck little man in the front row, who thought the question was meant for him. "We got three singers, two trombone players, eight pianos, fourteen talking machines, a violinist and a cornetist in our block, all trying to get back in, practice."

## BRITISH ARMY UNDER GEN. BYNG MARCH INTO BATTERED BAPAUME

Both Sides of Bapaume British Troops Stormed Ahead Breaking Violent Counter-Attacks By Fresh German Troops.

### THREE OF FIVE ALLIED ARMIES CAPTURE 30,000 HUN PRISONERS

British and French Armies Everywhere Have Beaten Off the Enemy and Continue Their Victorious Progress—Many Villages Taken By Allies.

London—Byng's Australians went forward into the battered town of Bapaume. On both sides troops of the British Third army stormed ahead, breaking violent counter attacks by fresh German troops as fast and as often as they were launched.

Byng's center crossed the Albert Bapaume road along its whole length—eleven and a half miles—and swept southeastward in the direction of Cambes, a keypoint in the German main line of defense.

The British are six miles west of it and a scarce five miles to the north-west, Mametz and Martinpuich having been taken by storm. At points advance ranged from three to four miles.

Down along the upper edge of the Picardy battlefield, southeast of Albert, Rawlinson's Fourth army smashed ahead with equal force and success, hurling Teutons from high grounds east of Bray-Sur-Somme.

The report of the entry of Bapaume by British patrols came from the staff correspondent at the statement, filed earlier, makes no mention of this, but this announcement of the smashing advance along the whole line of attack fully indicated Bapaume was doomed. Bitter fighting raged slightly northwest of the town, in Favreuil, and around Mory and Croisille, three and six and a half miles to the north, respectively.

British Make 19 Miles in 18 Days.  
Probably the greatest advance was scored due west of Bapaume, where Warlencourt was captured, the British were at Miraumont, more than three miles to the west.

British entry into Bapaume marks one of the most important achievements of the whole offensive. The town lies 17 miles southwest of Cambrai, 14 miles south of Arras and 11 1/2 miles northeast of Albert. From Bapaume to the French fortress of Maubeuge, just inside the Franco-Belgian frontier, it is 50 miles.

Moreover, at Bapaume, the British now stand a little less than 28 miles northwest of Amiens, August 8, when the Picardy offensive broke loose. Germans, just outside Verbie, stood a bare 10 miles east of that vital Allied base. Bapaume's fall, therefore, means a maximum British eastward penetration of 19 miles in 18 days.

British Bag 17,000.  
Since August 21 the British have taken more than 17,000 prisoners, large numbers of guns and great quantities of supplies. Some of the prisoners taken have been identified as coming from Austro-Hungarian units.

Germans are launching strong counter attacks against the French between the Oise and Ailette rivers, in an endeavor to hold back General Mangin's army, which is threatening the entire German front in this region.

Here also Germans have been reinforced by troops from the dual monarchy. North of Soissons in the region of Bagnoux the French have made further progress eastward and now the abateat the railroad line running from Soissons to Laon. A considerable number of additional prisoners have fallen into French hands.

As yet there has been no movement by Germans along the Vesle river to indicate retirement toward the Aisne in immediate prospect, Americans and French in this region continue to heavily shell the enemy's back areas.

Farther east, in the Vosges region, patrol activity against the enemy. Americans also are busily engaged in bombing German points behind the line. Thirty-eight bombs were dropped from aeroplanes on Conflans and 10 direct hits were scored. Considerable fighting in the air also is taking place, one American airman apparently having disposed of two German Fokkers and two other Americans each sending down one enemy plane.

**U. S. CAPTIVES TREATED WELL**  
Three Officers and 56 Men of Scorpion's Crew Interned April 11, 1917.

Washington—Officers and enlisted men of U. S. Scorpion, interned at Constantinople by the Turkish government since April 11, 1917, are being accorded excellent treatment, and all are in good health, the navy department announced, upon receipt of a report through the Swedish legation at Constantinople.

The report, which tells of conditions of living of three officers and 56 men of the Scorpion's crew, was the first detailed word received since the gunboat was interned for failure to leave Turkish waters before the 24-hour period had expired.

The crew of the Scorpion receive wholesome and abundant food, the report states. Football games on the drill grounds of the Turkish minister of marine, visits under escort to Constantinople, daily newspapers and books are allowed the Americans.

A healthier anchorage for the Scorpion has been provided and men have been permitted to visit dentists in the city.

**U. S. Wants More Rye Acreage.**  
East Lansing—Not more wheat, but more rye is what the government is asking of the farmers of Michigan for next season, according to the department of farm crops of Michigan Agriculture suggests that Michigan grain growers increase their rye acreage about 20 per cent this fall and plant only the same amount of winter wheat. Other states can produce the wheat, it is explained, but that Michigan leads all other states as a producer of rye.

**France-Britain Flight in Half Hour.**  
London—A large British aeroplane carrying its crew and nine passengers has made the trip from France to England, it is announced here. The whole journey from an aerodrome in the interior of France to one in the interior of England occupied little more than a half hour. The test was made under routing conditions with an ordinary service aeroplane of the largest type. Passengers carried the normal amount of baggage as if traveling by train or boat.

### BRITISH WITHIN 1,000 YARDS OF OLD HINDENBURG LINE

With the British Army in France—On parts of the northern battle front the British have reached points 1,000 yards from the old Hindenburg line, which seems strongly held. In addition to crossing the Albert-Bapaume road at many places, the British have made progress southward a considerable distance, with the cavalry operating in front of the infantry. Resistance of a really strong nature seems to be diminishing at many places along the battle front. Never before, not even during the progress of this battle, have so many aeroplanes had such numerous targets for bullets and bombs.

Continuing to make slight gains daily in the process of Bapaume, which seemingly must soon be evacuated. Taking Le Sars and Le Barque appears to be a forerunner of this eventuality. Le Barque is only two and a half miles southwest of Bapaume.

Everywhere except directly south of Bapaume the British are well across the Bapaume-Albert road and north of the town they are fast pressing forward toward the Hindenburg line. Unofficial reports have placed the British in the outskirts of Bullecourt, which is just west of the old line.

Since August 21 the British have taken more than 17,000 prisoners, large numbers of guns and great quantities of supplies. Some of the prisoners taken have been identified as coming from Austro-Hungarian units.

London—A large British aeroplane carrying its crew and nine passengers has made the trip from France to England, it is announced here. The whole journey from an aerodrome in the interior of France to one in the interior of England occupied little more than a half hour. The test was made under routing conditions with an ordinary service aeroplane of the largest type. Passengers carried the normal amount of baggage as if traveling by train or boat.

### PUT IT SQUARELY UP TO DAD

Young Son of Famous Member of "Vigilantes" Frankly Considered His Father a Slacker.

Ellis Parker Butler, the author, who lives at Flushing, and is devoting his energy to aiding in the successful prosecution of the war, does not bear an enviable reputation for patriotism in his own household. Mr. Butler is now writing for the Thrift and War stamps campaign.

Mr. Butler is the father of twin sons of tender age. Several nights ago he returned home tired after a day's work for the Red Cross and took his seat at the head of the table. After they had finished their dinner, the twins produced their Thrift stamps and started to count them.

"Dad, look at all the stamps I have," said one of the youngsters. "I have 200. Look at brother's pile; he has more than I."

Mr. Butler nodded approvingly to Mrs. Butler and they both smiled. There was silence for a minute, then one of the twins looked up and exclaimed: "Dad, why don't you do something patriotic?"

### SHE GOT COMPOSERS MIXED

Queen Victoria's Error Must Have Caused Mascagni to Pass an Uncomfortable Few Minutes.

Sometimes when a great personage essays musical criticism embarrassing errors arise. Once Queen Victoria invited Mascagni, the composer of "Cavalleria Rusticana," to play for her at Windsor castle. When the musician was at the piano her majesty said: "I am passionately fond of one of the numbers of your opera."

Mascagni played the Intermezzo. "No," said the queen, "that is not the melody I mean."

Mascagni played the Prelude. "That's not it, either."

Mascagni played the dramatic Duet. The queen became almost impatient. "I'll help you to remember it," she said, and hummed a few measures.

With increasing consternation Mascagni listened as the queen sang the Prologue to Leoncavallo's "Pagliaccio!" Le Galois, in telling the story, does not say whether the musician informed the queen that she had made a mistake.—Youth's Companion.

**Limit in Snebery.**  
"Those society leaders who go about administering souls and insults," the late Barton Willing once said at the Philadelphia club, "remind me of Greens."

"Greens ran a little grocery in South Eleventh street. He was tremendously proud of it, though it was in reality a wretched hole. He used to stride up and down in front of it all day with his nose in the air and his chest puffed out."

"An humble huckster passing Greens one morning said affably: "How are you, Mr. Greens? It looks as if we'd have some rain, don't it?"

"We'd?" snorted Greens. "We'd? Since when, young man, have you and I been partners?"

**Three Million Spangles in Flag.**  
A flag of extraordinary beauty, composed entirely of spangles, was recently displayed in a Chicago store window. The brilliant emblem, flashing back the light from innumerable points, extended almost the full width of the panel at the back of the display area. Three and one-half million of the tiny metal disks, strung on threads, were used in fashioning this flag.—Popular Mechanics Magazine.

### Properly Indignant.

One of our neighbors was trying some of the late dance steps when his two small sons toddled out on to the floor to join in the exercise. In mock anger he commanded: "Get out of my way, boys! You can't dance!"

Little Melvin was much insulted, and after a moment's reflection indignantly exclaimed: "Daddy, I guess you link us little kids is just boneheads!"—Exchange.

### Danger.

"Your majesty, the enemy is pursuing our gallant forces relentlessly."

"How close are they to our splendid troops?"  
"Very close, your majesty, very close. They are in actual contact with our rear guards, and within three weeks of catching up to the place where the crown prince is."

### A Message to Mothers

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you; the doctors with souls and hearts; those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

### Joy for Archeologists.

I was at Carthage on the day the greatest Hitite find ever unearthed was revealed to the eye of man for the first time in three thousand years.

When the enthusiastic laborers had carefully uncovered the precious dolerite slab, and the overseer, bending over it like some near-sighted Silas Marner cursing his gold, had discovered that it bore the longest Hitite inscription ever found, ten shots from a big Colt revolver, fired as a back-sheesh to the stone, echoed and re-echoed across the Euphrates, and workmen and directors knew that a big find had been made.

Pandemonium was let loose. Laborers came running from all directions to share in the joy of discovery. I also shared in that joy. I shouted congratulations to Khalil, the giant pickman.

"Praise be to God!" I cried. He grinned so I could see all his teeth, and answered, "God's blessing return to you!"—Christian Herald.

## HAARLEM OIL CAPSULES IF YOUR BACK ACHES

Do you feel tired and "worn-out"? Are you nervous and irritable? Don't sleep well at night? Have a "dragged out," unrested feeling when you get up in the morning? Dizzy spells? Bilious? Bad taste in the mouth, backache, pain or soreness in the joints, and abdomen? Severe distress when urinating, bloody, cloudy urine or sediment? All these indicate gravel or stone in the bladder, or that the poisonous microbes, which are always in your system, have attacked your kidneys.

You should use GOLD MEDAL Haarlem Oil Capsules immediately. The oil soaks gently into the walls and lining of the kidneys, and the little poisonous animal germs, which are causing the inflammation, are immediately attacked and chased out of your system without inconvenience or pain.

Don't ignore the "little pains and aches," especially backaches. They may be little now but there is no telling how soon a dangerous or fatal disease of which they are the forerunners may show itself. Go after the cause of that backache at once, or you may find yourself in the grip of an incurable disease.

Do not delay a minute. Go to your druggist and insist on his supplying you with a box of GOLD MEDAL Haarlem Oil Capsules. In 24 hours you will feel renewed health and vigor. After you have cured yourself, continue to take one or two Capsules each day so as to keep in first-class condition, and ward off the danger of future attacks. Money refunded if they do not help you. Ask for the original imported GOLD MEDAL brand, and thus be sure of getting the genuine.—Adv.

await your inspection in our second floor salons. Dozens of distinctive styles in coats, suits and dresses are here from New York, where they were carefully selected by our buying staff.

Navy blue leads as a color. Nearly all models are belted, although in new and unusual ways, and are fashioned of velour, gahardine, serge, and broadcloth. Other fashionable shades are taupe and brown.

Luxurious bolivias, velours and mixtures make these handsome coats. Favored shades are blue, taupe, brown and green.

Dresses both of silk and wool show decidedly smart tendencies this fall. Fringe as a trimming is very good. Satin, taffeta, serge and wool jersey, are the preferred fabrics, in nearly every color.

**MANCHESTER**—Early Wednesday morning passers-by were startled to see hanging from the electric light on the corner near the Methodist church what appeared to be the body of a man, but which investigation revealed to be an effigy of the Kaiser bearing a placard which read: "Pro-Germans take warning." During the forenoon the effigy was removed to the town hall, and in the evening suspended from one of the mill windows with the lantern light focused upon it, in plain view of hundreds of people gathered for the Wednesday evening street entertainment.

**GRASS LAKE**—During the thunder storm between 4 and 5 o'clock Friday morning, the large barn on Will Zick's farm, one-half mile west of town, was struck by lightning and burned to the ground. They were filled with oats and hay. The stock was all gotten out excepting three calves. Some of the smaller machinery was also consumed. The house was saved by the wind blowing in the opposite direction, but it was scorched considerably.

**CANNED JACK RABBIT.**

Fully 200,000,000 wild rabbits are killed in the United States every year according to estimates made by the biological survey of the United States Department of Agriculture. Many of them are jack rabbits, the majority of which have not been utilized in the past. If all the rabbits killed were consumed, they would represent between 200,000 and 300,000 tons of valuable food, and if proper measures were taken to insure the collection of skins, these alone would have a value of \$20,000,000. The biological survey has frequently been called upon to help western farmers in coping with the rabbit pest. In view of the probable economic value of rabbit meat and fur in the coming few years, the energies of the farmers and ranchmen will be directed to the conservation of this important resource. Already a number of establishments for collecting, dressing, canning, and shipping rabbit meat are in operation in western centers. As in Australia the transition of the wild rabbit in this country from its status as a pest to source of profit is assured, it is believed.

**FAT AND KHAKI BREECHES.**

This is the story of the high resolve of Allan McGirr, a private, who decided to work that he might fight. McGirr, who lives in LeChine, Mich., enlisted and went to the University of Michigan for special training. But when the government came to hand him his uniform it was found no breeches were made of a sufficient size. McGirr's company commander offered the portly little patriot little comfort.

"If," said he, "the army does not have breeches to fit the man, the man should make himself fit the breeches."

McGirr's efforts to reduce would have moved a 200-pound matron to tears. But his labor was rewarded.

Today Private McGirr wears as snug a pair of khaki breeches as may be seen on the campus. —Times-News.

**Catarrhal Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

**MODEL RURAL SCHOOL.**

The Michigan State Fair association has erected and equipped a model rural school building on the state fair grounds at Detroit. The plans and specifications of the building were furnished by the Superintendent of Public Instruction. The building embraces all of the essentials of a modern school house. The dimensions of the schoolroom, interior arrangement, lighting, heating, ventilation, wardrobes, toilet facilities, seating, etc., are all correct. The equipment is complete.

Anyone interested in rural education from the standpoint of parent, pupil or officer should not fail to spend a half hour in this building sometime during the session August 30 to September 8, 1918.

This building is not a temporary structure but will be a permanent feature of the fair each year. It will be used as headquarters for the State Fair Boys' school, for evening demonstrations, for boys' and girls' state club work, and as a concrete example of the proper construction and equipment of a rural school building.

**Summer Complaint.**

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept at hand. Mrs. F. F. Scott, Scottville, N. Y., states, "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."—Adv.

# Foot-Arch Supports

A man or woman, whose every step brings a twinge of pain is a cripple. Rheumatism and gout wrongly receive most of the blame for this pain in the feet. But the cause of distress in ninety per cent of cases is Fallen Arch or Flat Foot. The trouble begins with a stinging pain in the arch of the foot; then it is felt in the heel, and also in the ball of the foot. The short ligaments connecting the heel-bone with the bones of the ball of the foot become unduly stretched from various causes. The short bones in the arch are pushed downward, inward and out of place by the weight of the body, and the pain becomes intense.

The Only Effective Relief that can be obtained is by wearing in the shoe a Foot-Arch. This holds up the arch of the instep, restores the natural position of the bones in the arch, and relieves the painful strain upon the numerous ligaments and membranes that hold them together.

We have a nice line of Arch-Supports for both Ladies and Gents at CUT RATE PRICES.

## RIGID SAVING IN FOOD ASKED

Allied Directors Say Situation Now Good But Must Plan For Future.

## LARGE RESERVE IS NEEDED

New York, Aug. 2.—The federal food board made public Thursday night the text of a joint resolution adopted by the food controllers of the United States, France, Italy and Great Britain and received from Hoover with the request that it be given "wide publicity." The text follows:

"Resolved, That while the increased production of the United States renders it possible to relax some of the restrictions which have borne with peculiar hardship on all people it is absolutely necessary that rigid economy and elimination of waste in the consumption and in the handling of foodstuffs as well as increased production should be maintained throughout the European allied countries and North America.

"But it is only by conservation and elimination of waste that the transportation of food supplies from North America to the European front can be accomplished and that stocks of foodstuffs can be built up in North America as an insurance against the ever present danger of harvest failure and the possible necessity for large and emergency drafts to Europe. We cannot judge the food problem on the basis of one year's war. We must be prepared for its continuance if we are to insure absolute prosperity."

## America Deeper In This War Than Any Other Nation

By President Ray Lyman Wilbur, of Stanford University.

We must realize that we are deeper in this war than any other nation, for we have said, through our President, that our peace is to be with the German people, not with the Hohenzollern. We have then the problem of providing the additional offensive strength needed to defeat the greatest war lord in history with millions of trained veterans under his control. To do this, we must see the issues clearly and back up those at the front by our actions each hour of each day. The morale of the fighting armies will settle this war. We must see that the morale of our men and that of those who fight with us is kept at high tide. We can do so if they can feel our support all of the time.

Now is the great opportunity of the American people to demonstrate that our form of government is a success. If we do not all of us, at once, voluntarily and willingly get behind those who fight and die for us, in every phase of our life, and now particularly realize that food is powder to win the war, then we are going to fall in this, our immediate pressing duty, and be a despised and humiliated nation. We must be a great united democracy fighting our way forward toward a final victory. There can be but one outcome of this war and we must steel ourselves for any misfortune, for any reverse, with our minds united and fixed upon the idea of a final victory.

## Stomach and Liver Troubles.

No end of misery and actual suffering is caused by disorders of the stomach and liver, and may be avoided by the use of Chamberlain's Tablets. Give them a trial. They only cost a quarter.—Adv.

## GENERAL SUGAR CONSERVATION

Is sugar necessary in the diet?

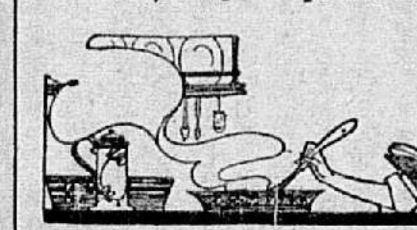

Neither cane nor beet sugar is necessary. In the average American diet all the sugar needed may ordinarily be supplied by using honey, sirups, fresh, preserved and dried fruits.

What are the general sugar saving rules?

Use all sugar sparingly and wherever possible use other sweeteners. Be sparing of confections and sweet cakes. The American people last year spent enough money for candy to feed all Belgium for two years. Supplement sugar with honey and sirups. Cultivate a taste for fruit in its natural sweetness. Sugar is a fuel food. Get fuel from potatoes and other starchy foods rather than from sugar. Sugar excels them as an energy-food only because it produces energy more quickly. They excel sugar since they supply more than merely the fuel need.

How may the sugar ration be expressed in quantities known to everyone?

Two pounds per month means about 8 ounces per week, or a little more than 1 ounce a day. This daily ration is a trifle more than 2 tablespoons level full. It should be remembered that this is to include all sugar used for any purpose whatsoever—for table use, cooking, in ice cream and desserts, on cereals or fruit, in sugar sirups used on griddle cakes, etc.
