

LETTER FROM PVT.

ALBERT STEINBACH

Recently Visited Masonic Temple and Dungeons in Nevers, France, Built About 1460.

Following in part is a letter written August 20th by Pvt. Albert M. Steinbach from Nevers, France, to his parents, Mr. and Mrs. Charles Steinbach of this place:

Just a few lines this time for it's too hot for undue exertion. I just happened to drop into the "Y" tent to get out of the sun, and to take one after dinner siesta. At the present time I'm one of a crew working at night on a big steam shovel, which accounts for my being "at ease" on Tuesday afternoon. After having been so long accustomed to "hitting the hay" at 9:30 p. m. we find it hard to keep awake through the night, but we have the big advantage of not having to work in the blistering sun.

I have received two letters from Emilie, written from Vermont. I hear a lot about Vermont nowadays as my present "bunkie," Leon Stanley, comes from there. His folks live on a farm. He is an enthusiastic sportsman and talks by the hour of the fine hunting and fishing near his home. I have an invitation to go on a hunting trip (deer) with him "Après le guerre," (after the war).

There are a lot of fine hikes for one to take around here on a Sunday. I very seldom go to Nevers on that day, for I've been taking in the meetings at the Masonic club there on Tuesday evenings. Up the street and about a block from the big cathedral is an ancient French Masonic temple which was built around 1460 and was originally used as a prison. A few of us had the pleasure of inspecting it one day. The caretaker very kindly showed us over the place. Of stone of course and some of the walls are six feet thick. We visited the different chambers up stairs; also the lodge room proper on the same floor. You may be sure I was very much interested in the interior decorations and symbols carved all over the place. We were also shown the dungeons below the ground, which must have been used extensively in the early prison period, judging by the many skulls and bones we saw lying around. The leg and neck chains on the floor and walls suggested anything but comfort in those dark cellars.

The balance of the letter is of an entirely personal nature.

NEIGHBORHOOD BREVITIES

Items of Interest From Our Nearby Towns and Localities.

GRASS LAKE—Mr. and Mrs. Edmund Robinson entered their baby son, Horace, 15 months old, in the baby contest at the state fair in Detroit and received a second prize.—News.

DEXTER—Zelma, the little daughter of Mr. and Mrs. Chauncey Coy, had the fingers of her left hand badly injured by getting them caught in a fanning mill Tuesday. No bones were broken and she is doing well.

MANCHESTER—Superintendent Smith received a call from the Plymouth school board to superintend their school the coming year at a salary of \$2,000, which by permission of our school board he has accepted.—Enterprise.

PINCKNEY—Word has been received from Casimir Clinton that he is now in a hospital and expects to be all right in about two weeks, and as it takes about that length of time to deliver mail from France it is thought he is again on duty. This is a great relief to his relatives and friends who had heard nothing from him except the telegram from the authorities which came some time ago saying he had been dangerously wounded.—Dispatch.

COVE—LINDSAY.

Miss Amanda Cove of Flint and Mr. Lorne Lindsay of Chelsea were quietly married on Saturday, August 31, 1918, in Flint. They are making their home in Chelsea and have rented apartments in the Eisen residence at 210 Washington street. Mr. Lindsay is employed in the plant of the Lewis Spring & Axle company.

WILLIAM A. BOLAND.

William A. Boland, widely known in railway and financial circles throughout the country, died Sunday at his home, Grey Tower, Grass Lake township. Mr. Boland was 70 years old and for many years was engaged in building and operating railway properties in various cities. His death was due to apoplexy.

PAY TAXES AT ONCE.

Village taxes are due and should be paid at once at my store on East Middle street. M. A. Shaver, treasurer.

TRIBUNE WILL FOLLOW GOVERNMENT REQUEST

Cuts Size of Paper To Six Columns In Order to Help Conserve Coal at Paper Mills.

Beginning with this issue and until further notice the Tribune will be issued in six column form instead of seven columns as heretofore, the change being made to comply with a recent war board request to cut the use of newsprint paper wherever possible in order to save coal at the paper mills. The Tribune is thus making a positive saving of nearly 15% in each regular issue, as requested.

We shall continue to publish all the local news as heretofore; there will be no cut in the amount of news features; but we shall condense news matter considerably and set it in as compact form as possible in order to make it fit the smaller space, and as the occasion demands we shall issue six instead of four pages.

Up until about a month ago the Tribune had contemplated enlarging its regular issue at about this time by increasing the length of the columns by two inches, but the war board's request TO CONSERVE PAPER is the more important and has resulted in a smaller instead of a larger paper.

The change in size is made on a birthday anniversary of the Tribune, this issue being the first in the twelfth year of its existence, and the beginning of the ninth year under the guidance of the present editor. Like every healthy youngster, the Tribune is getting stronger with each succeeding year and we trust that the year to come may be no exception to the past and that we shall continue to merit your best support and patronage.

Meanwhile, here's to the six column paper and WINNING THE WAR!!!

WORK OR FIGHT ORDER

War Board Will Scan Very Carefully Occupations of Registrants.

No registrant in this district will be permitted to remain in a deferred class and use his classification as a subterfuge to escape essential work, according to an official notice just issued by the district war board. That the "work or fight" order will be impartially enforced also is indicated by the following extracts from the notice:

The work or fight rules provide that registrants shall not be engaged: In the serving of food; as passenger elevator operators or attendants in clubs, hotels, etc.; as attendants in amusement enterprises; in domestic service; as clerks in stores or mercantile establishments.

In addition there is jurisdiction in the local and district boards to classify in class 1, those with dependants who are not usefully employed or are unemployed, where the support is not the result of the man's useful labor, he will be classified in class 1.

This district will scan very carefully the occupations of its registrants and will not permit any of them to be engaged in trifling or useless employments or in employments which it regards as mere subterfuges to escape from essential work.

Registrants of means (entitled to class 2 by reason of marriage status) should see to it that they are in useful occupations. Such occupations as attending to their funded interests or that of their estates or families or doing similar work which could be readily done in as competent a manner without loss by corporations or other individuals, will not be regarded as usefully employed unless a severe hardship would occur by their being withdrawn.

Registrants employed in Red Cross patriotic or social work, without dependants will be regarded as not irreplaceable, as many men with dependants will patriotically undertake their work.

L. L. 4 1/4 PER CENT BONDS.

Secretary McAdoo has definitely announced that the Fourth Liberty Loan bonds will bear 4 1/4 per cent interest.

The secretary has been insistent that the government interest rate should be stated at 4 1/4 per cent. He points out that a raise in rate of interest of only one-fourth of 1 per cent on \$10,000,000,000 of government bonds would mean an annual increase of \$25,000,000 in interest charges, and that this money would have to be raised by increased taxation and paid by the people of the country. It would not be paid by one class only, because there are consumption as well as other kinds of taxes, and the consumption taxes reach every class of people.

"As an intelligent people," said Secretary McAdoo during the Third Liberty Loan campaign, "we should now make a stand for the financing of our government during the period of this war at a stabilized rate of interest, say at 4 1/4 per cent per annum, so that all business and all investments may be adjusted to that basis, and so that we ourselves may protect ourselves against successively increased rates of interest on government loans."

Neither our patriotism nor our support of Liberty Loans are measured in fractions of per cent.

SCHOOL ENROLLMENT 380.

Total enrollment up to date in the grades and high school in Chelsea is 380. The enrollment in the kindergarten and the first to the sixth grade inclusive is 197, and in the seventh and eighth grades and the high school 183.

Phone us your news items; 190-W.

ALTOGETHER NOW; LET'S TAKE A LOOK

Settle the Matter Now; Make Sure Your Subscription Is Paid Up and In Advance.

Since the last issue of the Tribune was published our mailing list has been carefully revised and corrected and should show all credits received up to four o'clock Friday afternoon, September 13th. Every subscriber should now examine the date following his name on the yellow address label of his paper and see if he has been properly credited—those who have recently paid should make sure that the time of their subscription has been correctly advanced and those who have not recently paid to ascertain just how they stand.

Altogether now; let's take a look! If the date on the label reads "Oct 19" you are "all to the good" and are paid up a year in advance; if it reads "Oct 18" your subscription expires the first of next month and if it reads anything previous to "Sept 18" you are in arrears. Some of the labels not recently changed have two sets of figures and read as follows, "20Sept 18." The first set of figures indicate the day of the month to which the subscription is paid and the second set the year. Thus, "20Sept 18" indicates that the subscriber's subscription expires September 20, 1918. In any case the figures following the month indicate the year to which the subscription is paid.

Have you looked at your label; the little yellow slip in the upper left hand margin of the first page, or, if your paper comes wrapped, on the outside of the wrapper?

MAY PAVE E. SUMMIT ST.

Rains of the past week have hindered the work of curbing, grading and graveling East Summit street and have made that street impassable on account of the mud. The street is very flat, there being only an inch fall in each 100 feet of length and the water does not drain readily. At the council meeting last evening it was generally agreed that the street should be paved instead of gravelled, but the federal government has requested that such improvements be curtailed as much as possible at this time and until after the war. It is possible that the street will be given a light, temporary top dressing of gravel with the idea of eventually paving it.

LEONA M. FROELICH Piano and Voice Instructor.

Miss Froelich is at present studying in the Detroit Conservatory of Music under the personal supervision of the president, Mr. York, for piano and Mr. A. C. Jackson for voice. She has had ample experience as a teacher and will receive pupils in piano and voice after September 15th. For information regarding dates and terms of tuition telephone 162-F13, Chelsea. Adv. 112

WANTED AND FOR SALE.

AUTO TRUCKING—For sure, reliable service call Crescent hotel, phone 75, Chelsea. 103tf

Jos. G. Cannon

The Dean of American Politics
A statesman who has made a wonderful record throughout a long life of public service.

Politician, Statesman, Sage, Philosopher, and an unqualified success as each—such is the somewhat unique record of "Uncle Joe" Cannon.

Mr. Cannon is one of that number of great Americans who have attained the height of prominence unaided, except for his own wonderful ability.

He is shrewd, deep-thinking, quick-acting and essentially THRIFTY, as all successful men and women must be.

THRIFT, after all is the primary requisite for success. With it all things are possible. Without it, no real progress can be made—no matter what other desirable qualities may be present.

A savings account in this bank would be a start in the right direction.

New Idea Manure Spreaders

Increase your Wheat and Rye yield by top dressing the soil, either before or after seeding, with barnyard manure.

The New Idea Spreader, because of its wide, even spread and light draft, is the best means of top dressing or handling manures under any condition. Let us show you the Best in spreader production at money saving prices.

Ontario Drills

For even, accurate sowing use the Ontario.
For convenience and simplicity use the Ontario.
For even balance and light draft use the Ontario.
For fertilizer and grass seeding use the Ontario.

A thorough inspection of the Ontario Drill will convince you that it is the drill to buy. Our stock is complete in both plain and fertilizer.

Osborne Corn Binders

The Osborne is a strong, simple, efficient Binder. Handles all size corn satisfactorily. Is free from side draft and is very easily controlled. Give us your order at once and avoid delay.

TEUTONS SENDING OUT PEACE FEELERS AS GEN. FOCH POUNDS GERMAN ARMIES

Belgium Gets Direct Offer From Kaiser, Proposal Contains No Word Respecting Reparation Or Indemnities, No Admission That Germany Wronged Belgium.

AMERICAN ARMY SMASH AHEAD ON THIRTY-THREE-MILE BATTLE FRONT

Germany Wants Invasion of Russia By Allied Troops Withdrawn By Renouncing Plan to Invade Karolia—Peace Views Insincere Say Allied Nations.

London—With the exception of the pacifist Daily News, which advocates acceptance of Austria's invitation, the London morning papers scornfully reject the note as a trick instigated by Germany to gain time to reorganize her shaken armies, while the offer to Belgium is denounced as a cynical insult. The German press comment thus far received in London indicates surprise at the action of Austria in sending the note.

Want Troops Withdrawn.

London—Germany, through her minister at Helsingfors, (capital of Finland,) has made a declaration to the effect Germans will not attack eastern Karolia, provided Allied troops are withdrawn from that district as well as from the whole Murman coast.

Belgium Peace Offer From Kaiser.

London—It is understood that the government has received the Austro-Hungarian peace note and also a proposal that all powers withdraw their troops from Murman territory. It is also learned that Germany has made a peace offer to Belgium. The terms of this proposal are as follows: "That Belgium shall remain neutral until the end of the war; that thereafter the entire economic and political independence of Belgium shall be reconstituted; that pre-war commercial treaties between Germany and Belgium shall be again put into operation after the war for an indefinite period; that Belgium shall use her good offices to secure the return of German colonies; that the Flemish question shall be considered, and the Flemish minority, which aided the German invaders, shall not be penalized." The proposal contains no word respecting reparation or indemnities, no admission that Germany wronged Belgium.

Emperor Charles Wants Peace.

London—Overshadowing in interest even Marshal Foch's hammer blows against the harried Germans, is the Tonicid bid for peace made through the imperial government of Austria-Hungary.

The formal idea of Emperor Charles to the belligerents for "a confidential and non-binding discussion on the basic principles for the conclusion of peace," comes as the first sensational move in the "peace offensive" which has been expected since German arms began to stagger back from the fierce thrusts of the British, French and Americans.

Washington and the Allied capitals hailed the call for a conference on neutral soil as another German ruse to get better terms than they might expect when the war has been carried to the Rhine. They were convinced that Austria, whose people long have been war weary, had been called on to bear the onus of making peace overtures, and thus save the face of Germany.

Not only in Washington but in London and Paris pacifists found cold comfort. None of the governments involved was inclined to take seriously the request that delegates be sent to such a conference as that proposed by the Austrian ruler. It was pointed out that the United States and Entente Allies have made their peace aims so clear there can be no mistaking them.

The assertion that "the Central Powers leave it in no doubt that they are waging a war of defense for the integrity and security of their territories," was greeted with added skepticism in the face of the Washington disclosures unmasking completely the intrigue which has wrecked Russia.

Publication of documents proving beyond all doubt that Germany had waited only for a plausible pretext to plunge the world into war, cast a sinister shadow over the benevolent protestations of Emperor William's closest ally.

It is accompanied also, by the announcement that a German submarine had sunk the British steamship Galway Castle with the loss of 159 lives. Ninety of those who perished were women and children. At the same time U-boats renewed their attacks upon shipping on this side of the Atlantic, shelling only 80 miles off the American coast, a transport carrying Canadian sick and wounded.

Railmen Get Deferred Classification.

Washington—Regional direction of the railroad administration were instructed to claim deferred draft classification for railroad general offices, shopmen, trainmen, skilled yardmen, road and maintenance of way foremen and skilled workers, telephone and telegraph operators and other essential employees. Railroad administration officials estimated that more than two-thirds of the 2,000,000 railway employees are included in the groups for which deferred classification is asked.

STATE NEWS

Bay City—Federal court convenes here October 1.

Utica—Eli Levin, of this village, is in an unknown German prison camp, the War Department has announced.

Ann Arbor—Instructors in radio operation are wanted by Prof. R. F. Bailey, of the U. of M. A class of 300 students will begin training October 15.

Mt. Clemens—Mrs. Charles Gean, 48 years old, was killed by a bicycle ridden on the sidewalk in Washington village. The rider's name is not known.

Elmhurst—Leon Lemons was killed while fighting with the Canadians in France, August 2, according to word just received by his father, Stephen Lemons.

Kalamazoo—Robert Riley and John Riley, not relatives, escaped from the Kalamazoo State Hospital. Robert's home is in Hillsdale and John lives at Grand Rapids.

Big Rapids—The band of the Tenth United States Infantry will furnish music at the county fair on Patriotic day, September 25, when Senator William Alden Smith will speak.

Big Rapids—Pere Marquette and Grand Rapids & Indiana trains will leave the station at lower Big Rapids under an arrangement of the United States railroad administration.

Gaylord—The Otsego County Co-operative Marketing association, at Gaylord, has purchased the potato warehouse, formerly owned and operated by the D. H. Hutchins & Sons company.

Grand Rapids—Maj. Leon R. Cole, of Sand Lake, has been made a lieutenant-colonel and recalled to the United States. He is now assigned to the 63rd Field Artillery at El Paso, Tex. He was at the front three times during the recent drive.

Port Huron—The fine farm home, barns and several head of cattle owned by A. E. Stevenson, chairman of the Democratic state committee, located in Kimball township, were destroyed by fire. Two automobiles were the only property saved. The loss will be heavy as the farm was one of the models of the county.

Harbor Springs—The Emmet county Republican convention has adopted resolutions praising the splendid record our county has made in all war activities, pledging loyal and undivided support to President Wilson in his great effort to banish autocracy and militarism and pledging hearty and undivided support to Truman H. Newberry for the senate.

Albion—Elliott Healey, 12-year-old son of Mrs. Torry Brandt, lies in a precarious condition at the Albion city hospital from a deep wound in the back. The injured boy says he was stabbed in the back by Sam Dalleo in a fight over the Dalleo dog. The Dalleo boy, aged 16 years, asserts the injured lad threw stones at the dog and that the latter bit Henley in the back.

Ann Arbor—The University of Michigan authorities received notification from the war department through Educational Director McLaughlin that the academic year of the university and of all universities and colleges maintaining student army training corps would begin October 1 and end July 1, each year being divided into three terms of three months each, fall, winter and spring.

Detroit—Pupils in the Wayne county schools have sold a total of \$37,468.50 of war saving stamps, according to the report of School Commissioner E. W. Vest. Thirty-five schools with an enrollment totaling nearly 10,000 are represented. The sales reported are for the last school year, ended June 21. Highland Park schools, with 4,500 pupils, lead with \$9,813.50. River Rouge, 322 pupils, is second, with \$1,121.25.

East Lansing—Notwithstanding a popular belief held by farmers that it is unprofitable to use fertilizers under existing conditions, the soils department of the agricultural college has learned from experiments in various parts of the state that it is more economical to use fertilizers now than it was in 1914. This is true, the results show, because the increased yields of wheat and other crops sell for more than they did four years ago.

Washington—Announcement is made of a decision by the general staff of the army to effect changes in use, size and capacity of various training camps, the necessary construction to be begun at once. It is proposed to increase the number of men at Camp Custer 14,000, and the estimated cost of changes there is \$4,814,820. The war department also issued a call for white limited service men as stenographers and typists, 50 being needed from Michigan, all to go to Columbus Barracks, Ohio.

Monroe—Attorney Jesse H. Root, of Monroe, was named by Governor Sleeper as judge of the thirty-eighth judicial circuit, the Monroe circuit, succeeding the late Judge Edward Gidday, who died suddenly. He will hold office until a special election in the spring. Although only 36 years old, one of the youngest judges in the state, the new appointee ranks high in his profession. A native of Monroe, the product of the Monroe public schools, Judge Root was graduated from the law department of the University of Michigan in 1902.

Three Rivers—A tractor exposition will be held here September 25.

Bay City—J. R. Caswell resigned a position to accept appointment as assistant assessor.

Kalamazoo—Firewood for the barracks at Camp Custer will be furnished by former Ald. R. R. Brenner.

Flint—Flint physicians will place cars on gasless Sundays hereafter to avoid embarrassment while making professional calls.

Three Rivers—Chauncey Halbert of Sturgis has been appointed St. Joseph county food administrator to succeed William Van Ness, resigned.

Onaway—The Hotel Metropole was badly damaged by an early morning fire which necessitated the removal of several guests by ladders.

Rogers—Presque Isle county does not boast of much of a jail and has had difficulty in keeping prisoners in. This week Peter Wiesniewski broke jail and was at liberty three days before being recaptured by Sheriff Brudner.

Charlevoix—The Charlevoix Indian camp meeting, with Indian officers in charge, is in progress here with the guests housed in 100 tents. Religious services are held and are proving of interest to remnants of the Chippewa tribe.

Saginaw—Saginaw's third contribution to the bridge of ships to span the Atlantic slid into the water recently. Mrs. Wilson named the boat the Lake Winooski, a Polish name, particularly appropriate in view of the patriotism of Saginaw Poles.

Big Rapids—Confronted with the possibility that Mercy hospital might be closed this winter the board of trade has decided to get behind the deficit and endeavor to insure the continuance of the institution. A committee of five has been appointed to raise \$2,000.

Grand Rapids—James A. Robertson, Pere Marquette engineer killed in the Smyrna wreck, was the oldest driver on the Saginaw division. He has served since 1875. Claire Harbor, fireman, also of this city, is in the Belding Hospital with fractured arms and internal injuries.

Ann Arbor—Orders have been received from the War Department that the academic year of the U. of M. will begin October 1. Terms of all universities and colleges maintaining students' army training corps, will end in July and are divided into three periods of three months each.

Ann Arbor—First Lieutenant G. C. English, M. C. U. S., stationed here with the army mechanics since the first detachment was sent here, has been ordered back to Camp Custer for duty in the base hospital. Lieutenant English will be succeeded here by First Lieutenant George P. McCaskey, M. C., now at Camp Custer.

Manistee—Albert Palmer Olson is in the Manistee county jail facing trial for forgery as the result of his "trailing" money to pay bills incident to his wedding. Olson, who is 22 years old, is alleged to have cashed forged checks at Scottville stores on Manistee business men. He obtained in all nearly \$100. He pleaded guilty and was bound over.

Kalamazoo—An appeal to help find her father, Daniel Bondish, from whom she has been separated 48 years, was received by local police officials from Mrs. Florence Turner, of St. Paul, Minn. Mrs. Turner was adopted by another family when she was 2 years old because her parents were too poor to care for her. Bondish, she believes, is in Kalamazoo, or Highland, Mich.

Muskegon—That an audit of the Muskegon Traction company's books has shown only an increase of a six-cent fare will make the corporation a paying venture, despite its enormous business, was the statement of experts who have just completed their task. The council members, however, will refuse to take any action until a valuation of the company property shows its \$1,000,000 capitalization lacks water.

Grand Rapids—The same percentage system for figuring the Liberty loan quotas of Michigan counties will be used in the fourth campaign as that used for the third drive. As no national quota has yet been assigned no attempt was made to fix county quotas. The percentage for each county will be based on the total bank assets less the bills payable and the discounts. The volunteer system of carrying the campaign was endorsed.

Lansing—Regulations of rates, and control of motor truck express routes in Michigan will rest, for the time being, in the highway transport committee of the war preparedness board. This was decided by the attorney general that the railroad commission had absolutely no authority in the premises. It is the intention of the committee, to control the rates and operation of the express trucks until such time as legislation can be enacted giving some commission thorough power to control them.

Lansing—Increased control of capital and credit for war purposes is seen in action of the National Association of Securities Commissioners at Chicago recently in appointing a committee of which William R. Oates, executive officer of the Michigan securities commission, is chairman, to establish active co-operative relationship between the several state commissions and the national capital issues committee. It is intended to afford the government every opportunity possible to finance its own operations through more careful methods.

IMPRESSIVE IN ITS SILENCE

No Sound Disturbs Mosque Wherein Is Tomb of High-Placed Servant of Mohammed.

The white mosque of Djennat in the heat-baked, drowsy city of Karawan is a place of silent worship. Here is the tomb of a servant of the prophet, sleeping sound after the turmoil of battle that spread his faith from the Red sea to the Bay of Bengal—sleeping in the half dark and the quiet, to the muted drone of lowered voices as the dark-skinned acolytes of the monastery chant the laws laid down by his master.

All the thousands of pilgrims do not break his rest, he who lies with a hair from the beard of Mohammed over his stilled heart. Thick marble is over his head, and black velvet high piled, and the faithful have spread cunningly wrought rugs of Persia over the stone floor of the shrine so that even the whispering pad of bare feet on the marble is missing. The great domed tomb is lighted only by the jeweled rays of the sun that filter through the stained glass of tiny windows, and the uncertain yellow glow of lamp flames shielded by translucent shells of great, fragile ostrich eggs.

Voices sink to a hushed murmur in the vaulted, echoing emptiness of the arches. Whether in conscious ritual, or in fitness of things, priests, pilgrims, novices and servants unite in making the keynote of this rich old tomb one of silent awe and reverence. It is undeniably impressive. A loud noise, a full-chested laugh, would be as bad as a blasphemy. Stay a while in the tomb of this servant of Mohammed, and you will feel a curious illusion that he is not dead, but only sleeping, and that all the living about him step softly and speak low so that his slumbers may not be broken.

It is strange that a militant, strident creed like the Mussulman's should build and keep a shrine like this. Perhaps the explanation is to be found in the staring sunlight without, in the clamor of a thousand eastern market places, in all the raw color and rasping noise that distinguish the Orient, that have worn on the nerves of men until they must find a refuge somewhere, until they build shrines that are dim and cool and silent as the grave.—Chicago Daily News.

Copying Wasp Pottery.

The wasps of the family Eumecidae are known as potter-wasps, and store up caterpillars, saw-fly larvae, and the larvae of beetles. They form globular cells of clay or sand which are attached by a small pedestal to some twig. They are filled full of caterpillars in just the same way that the mud-daubers fill their cells with spiders, and a single egg is placed in each cell. Prof. O. T. Mason says that certain beautifully shaped Indian vessels and baskets have precisely the form of these cells, and he thinks the observant aborigines may have deliberately copied the insects design.

Work Savers.

Use plenty of newspapers about the kitchen, spreading them on the floor when anything is likely to splatter. It is easier to gather them up than to clean up. If there is a kitchen range not in use in the summer time it is well to burn these papers every few days to prevent dampness and rust. If the kitchen has but a gas range, then a good-sized waste basket should be kept and the papers disposed of in whatever way is best.

World's Hottest Places.

The Sahara desert, between parallel 10 and 0, is considered to be the hottest place in the world, but Hyderabad, in Sid desert in India, is even hotter. In summer months it is said the temperature there often rises above 125 degrees in the shade.

Cables Improve With Age.

It is found that the insulation resistance of telephone cables increases with the age of the cable, when it lies in the ground, because the moisture it possesses appears to be dried out.

PLANS GIVEN FOR TRAINING YOUTHS

FOUR HUNDRED COLLEGES, UNIVERSITIES AND TECHNICAL SCHOOLS ACCEPT U. S. OFFER.

ALL EXPENSES PAID BY U. S.

Government Will Assume These Obligations October 1st—Students May Number 100,000 to 150,000.

Washington—The war department announced the plans by which it will send from 100,000 to 150,000 youthful soldiers to college this winter, paying them as soldiers for the time they spend in study and classes.

Four hundred colleges, universities and technical schools have accepted the government's offer to use their plants for the student's army training corps. Their regular course will be given along with special courses in military training under supervision of army officers.

Students of 18 years or over entering college this fall become by voluntary induction soldiers in the United States army. They will be fed, sheltered, clothed and equipped at the government's expense, their tuition paid, and they will receive the pay of privates in the army.

Students not yet 18 may attend the colleges as usual by paying their own expenses and such proportion of their tuition as may become due before they arrive at the age of 18. Time will be appointed for their formal registration for selective service obligations as they arrive at 18, after which they will be inducted into the army, and continue their studies at the government's expense.

The government will assume these obligations October 1 and in colleges opening before that time, students must pay their expenses and the proportion of their tuition up to that time.

Members of the students' army training corps will not be subject to draft call during the first quarter of the college year, even though their order numbers might subject them to service, but at the end of the first quarter, the government may withdraw those students who are 20 years or more of age.

Michigan to Have 15 Schools.

Washington.—Fifteen Michigan schools and colleges will have students' army training corps units, according to formal announcement. The following are included: University of Michigan, Ann Arbor; Albion college, Albion; Central Normal, Mt. Pleasant; Hillsdale college, Hillsdale; Adrian college, Adrian; Olivet college, Olivet; Kalamazoo college, Kalamazoo; College of Mines, Houghton; St. Cyrillus seminary, Orchard Lake; Alma college, Alma.

No units of the training corps will be established at secondary schools for the present, but a similar system may be instituted for these younger men later. Young men of draft age of grammar school or equivalent education, may, however, offer to enter the vocational section of the corps through application of local boards. At present about 27,500 men are called for this section each month. Men in this section who show fitness may be assigned for further training in the collegiate section.

U. S. SHIP SHELLED NEAR COAST

Five Shots Were Fired By Submarine But Steamer Lands Safely in Port.

An Atlantic Port—Shelled by a German submarine in a fog 80 miles off the American coast, a British passenger steamer escaped by altering her course and outdistancing the U-boat. She arrived safely in port.

Five shots were fired by the submarine at the ship, which is in the transport service and was bringing home 95 wounded Canadian officers. None of the shells struck the vessel.

Though the ship was armed, the captain ordered the gun crew not to respond to the fire determining to rely on speed and low visibility for escape. As soon as the shells began to fall behind, he rang for full speed ahead and the liner leaped away into the murk. The U-boat then ceased firing.

During the shelling perfect discipline was maintained on the steamer. After the fog closed around her she continued her voyage with no further incident.

Autoless Sundays to Stay.

Washington.—Autoless Sundays will not be abandoned for awhile, the fuel administration announced. Automobile owners are still asked to keep their cars in the garages Sundays until the gasoline reserve is further built up at eastern seacoast points. Fuel Administrator Garfield's latest figures on gasoline supplies at Atlantic ports are 645,000 barrels August 21. This was the total amount available for export and for domestic use. 615,000 barrels being on hand.

Suffered For Years Back and Kidneys Were in Bad Shape, But Doan's Removed all the Trouble.

"My kidneys were so weak that the least cold I caught would affect them and start my back aching until I could hardly endure the misery," says Mrs. D. C. Ross, 975 Fulton St., Brooklyn, N. Y. "In the morning when I first got up, my back was so lame, I could hardly bend over and any move sent darts of pain through my kidneys. It was hard for me to walk up stairs or stoop, and to move while lying down sent darts of pain through me."

MRS. ROSS

"The kidney secretions were scanty and distressing and the water remained in my system, making my feet and hands swell. There were dark circles under my eyes and I became so dizzy I could hardly see. I had rheumatic pains in my knees and it was all I could do to get around. For years I was in that shape and I wore plasters and used all kinds of medicine to no avail until I tried Doan's Kidney Pills. They did me good and strengthened my back and kidneys. When I have taken Doan's since, they have always benefited me."

NOT REALLY WAR ESSENTIAL

Authorities Think Shoppers Can Go Along Without Toy Wagons in Which to Carry Home Goods.

R. L. Flood of the quartermaster's corps of the United States army, assigned to work with the Indiana state fuel administration in establishing coal shipment priority for industries engaged in the manufacture of materials essential to the carrying on of the war, recently sent questionnaires to each factory owner in the state, asking information regarding the nature of work being done at the factories. He asked the owners to give their reasons for believing their output should be classed as essential and receive coal priority.

One company engaged in the manufacture of little "express wagons" in which small boys may be seen coasting in every city, presented the claim that it should be placed on the priority list.

"Since the cash-and-carry plan went into effect and merchants have stopped delivering goods, the toy wagons such as we make have become essential to the shopping public," was argued in the company's questionnaire.

The company's claim was rejected.

Failed.

4,000,000 ARMY SEEMS ASSURED

SUCCESSFUL REGISTRATION IS
TRIBUTE TO AMERICAN PEOPLE SAYS GENERAL
CROWDER.

IST CALL EXPECTED IN OCTOBER

Elaborate Machinery Organized to Record the Country's Manpower Worked Without a Hitch.

Washington.—"It is a superb demonstration of the will of the American people," was the elated comment of Provost Marshal General Crowder to his military associates upon the magnificent response of the nation's citizenship to call for military registration.

Telegraphic advices received from all sections of the country were so completely reassuring that by the time the registration boards had closed General Crowder and his aides had left their offices in absolute confidence that General March would have his list of 4,000,000, with a safe reserve, stipulated time.

The elaborate machinery organized to record the country's manpower had worked without a hitch. General Crowder believes the final count will verify his original estimate of 13,000,000 registrants.

The 5,000 local boards are under instructions to report directly to the adjutant-generals of their states who will report to their respective governors. Returns to Washington will be made by the governors.

It was announced that an order would go to the local boards to send out questionnaires to registrants of 19 to 20 and 32 to 36 years old and that the actual drawing of numbers would take place here within seven or eight days.

Local boards have been advised to stamp serial numbers on the cards. They were told to arrange the cards according to ages, so as to be in readiness to classify all registrants to be included in the first call.

There is nothing to prevent the drawing of numbers taking place probably the latter part of next week. Practically the only information required by the provost marshal's office for this purpose is the highest number of registrants of any of the local boards in the country.

Unless present plans miscarry members of class one under the present registration may expect the first call in October. It is understood this is to be followed by a second call some time in November.

MANY KILLED IN 126th INFANTRY

Casualties Ranging From 50 to 100 Per Cent Given Out By Gen. March.

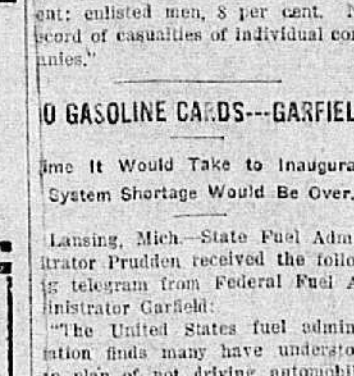

Kalamazoo, Mich.—Persistent reports that the One Hundred and Twenty-sixth Infantry, led by Colonel Joseph Westmeier, of Kalamazoo, has suffered casualties ranging from 50 to 100 per cent, were exploded by General P. C. March, chief of staff, in the following telegram to the Gazette.

"Washington.—Records of the war department show casualties of the One Hundred and Twenty-sixth Infantry from July 15 to present date, as 11 officers and 291 enlisted men. This includes killed, died or wounds, dangerously wounded and missing in action. Killed five officers and 82 enlisted men. Died of wounds, one officer and nine enlisted men. Casualties are approximately: Officers, 19 per cent; enlisted men, 8 per cent. No record of casualties of individual companies."

Failed.

MICHIGAN TO PUSH MOTOR EXPRESS USE

Highway Transport Committee of National Defense Organized to Strengthened Nations Transportation Resources.

Conforming with the plan of the National Highways Transport committee, at Washington, to completely organize the United States for rural motor express lines and return loads bureaus, district and county committees in Michigan are now being formed.

The Highways Transport committee, of the Council of National Defense was created to develop highway transportation through efficient and effective use of the roads by motor trucks, as one of the means of strengthening the nation's transportation resources.

The more important policies enunciated to date are:

(1) Increasing highways transport resources and avoiding waste by eliminating empty running of vehicles. Return loads bureaus are established for this purpose.

(2) Making more food available and saving farm labor for work on the farm by developing rural motor express routes from agricultural areas to consuming centers or shipping points.

(3) Making highway transportation more efficient by encouraging use of efficient power-driven vehicles, with resulting saving of manpower and increased transport capacity.

(4) Assisting the railroad administration to reduce terminal congestion by developing the store door delivery plan to promptly relieve terminals of freight as it is received.

The Highways Transport committee at Washington will work on the national problem, with the aid of state highways transport committees. These state committees are authorized and appointed by the state councils of defense. The national committee at Washington will develop, as necessary, campaigns of nationwide importance. Relieving the several states of this additional work and responsibility will free them for the necessary vigorous action looking toward the execution of national policies and accomplishing desired results.

The organization of each state and county committee will be uniform under the new plan and will provide the necessary link between the committee in Washington and those in the counties doing the work. The new plan of organization should result in great improvement in the work of the return loads bureaus, many of which have lapsed into periods of non-activity because supervision and urging for better results were not forthcoming from Washington.

In each state the first duty of the state highways transport committee under the new plan will be to make a preliminary analysis of the equipment already in the field and to determine what activity has already been established in the state to carry on the work. As soon as the preliminary analysis has been made it will be possible for the committee to organize the existing equipment and then proceed toward a greater development along the lines found most urgent.

WORK OR FIGHT LIST STANDS

No Additions to Non-Productive Occupations As First Named in List

Washington.—Provost Marshal General Crowder, announced that the work or fight order now being enforced by district boards would not affect all industries failing to obtain a place on the preference list recently established by the war industries board.

An erroneous impression was current, he said, that the list of five non-productive occupations in which men of draft age cannot be employed if they wish to retain deferred classification, had been enlarged to include all industries which the preference list omitted.

"This idea," General Crowder said "calls for prompt repudiation. The 'non-productive' list of five classified occupations has not been enlarged, and it will not be enlarged without the amplest and most explicit notice."

The preference list of the war industries board, General Crowder said, strengthened the position of a limited number of industries most essential to the conduct of the war. On the other hand, the work or fight order, he said, strengthened the army by taking registrants who chose to stay in a small group of occupations in which they could be replaced by women or older men or boys.

The two groups, General Crowder explained, "are not identical and presumably never will become identical."

D. U. R. Denied Fare Petition.

Detroit.—Five cent fares on the street car lines of Detroit, provided for by the Kronk ordinance, will continue in effect as a result of a decision by United States Supreme Court Justice William R. Day, of Canton, O., denying the D. U. R.'s petition for an order to prevent the city's enforcement of the fare ordinance. Notification of Justice Day's decision in the case, which was argued before him in Canton recently, was received by Corporation Counsel Frazer.

FOR TRADE 40 acres timber land, near country seat, 1,000 Wm. Hill, Wisconsin, Indiana.

W. N. U., DETROIT, NO. 33-1918.

Her Letter.

"Dear George," she wrote, "I'm awfully glad to know you've gone to France. Now, don't get sore and misconstruct. I'm glad you got the chance. I'm true to you as I can be. I'm sure true blue's no name for me. I'm true—I'm blue. I hope that you feel just the same toward me. Oh, goodness, gracious, George, it seems that even though you haunt my dreams and fill my thoughts this very minute, each word I say I'm deeper in it. Therefore I'll close this missive dear. I'm sure I'll have to drop a tear. I'm much afraid you'll take offense, and won't take me at some time hence."

WHY WOMEN DREAD OLD AGE

Don't worry about old age. Don't worry about being in other people's way when you are getting on in years. Keep your body in good condition and you can be as hale and hearty in your old days as you were when a kid, and every one will be glad to see you.

The kidneys and bladder are the causes of senile afflictions. Keep them clean and in proper working condition. Drive the poisonous wastes from the system and avoid acid accumulations. Take GOLD MEDAL Haarlem Oil Capsules periodically and you will find that the system will always be in perfect working order. Your spirits will be enlivened, your muscles made strong and your face will once more be the look of youth and health.

New life, fresh strength and health will come as you continue this treatment. When your first vigor has been restored continue for awhile taking a capsule or two each day. They will keep you in condition and prevent a return of your troubles.

There is only one guaranteed brand of Haarlem Oil Capsules, GOLD MEDAL. There are many fakes on the market. Be sure you get the Original GOLD MEDAL Imported Haarlem Oil Capsules. They are the only reliable. For sale by all first-class druggists.—Adv.

Stopped.

She—I'll bet I can guess what it is!

He—Ah! You have divined! You know! You—er—

She—Yes; you want to ask me where I put your hat when you came in.—London Answers.

Until the worst has happened it may not.

Soft, Clear Skins.

Night and morning bathe the face with Cuticura Soap and hot water. If there are pimples first smear them with Cuticura Ointment. For free samples address, "Cuticura, Dept. X, Boston." Sold by druggists and by mail. Soap 25, Ointment 25 and 50.—Adv.

If a girl has a pretty face, no man on earth can tell you what kind of clothes she has on.

HARDLY WHAT YOU EXPECTED

Story Reads Like Opening Lines of an Elinor Glyn Novel, but You Will Find It Isn't.

It would have been the night before Christmas—had Christmas fallen on the following day. However, it didn't. But no matter. She was expectant that he would come that night to make her a proposal. Things must be talked over. She wondered how her husband would feel if the worst came to the worst.

He arrived. She led him into the parlor and bade him be seated. Not a word was exchanged for a moment. She looked toward the door expectantly, but in vain. Then she turned her gaze on the man. How old he looked; how careworn.

He met her gaze. He did not flinch. He opened his mouth as if to speak, but his lips closed again as he heard footsteps approaching the door. The husband entered the room.

"I have been thinking it over," said the man, as the husband took a seat near him, "and I don't see how I can possibly paper the dining room and kitchen for less than \$15."—Indianapolis News.

Record Dive Almost Caused Death.

A new world's record for high diving was made at Sydney, Australia, during a water carnival for the purpose of raising war relief funds, when a Solomon Islander, Allick Wickham, dived from a height of 205 feet. The man was able to retain both consciousness and equilibrium for the first 150 feet, after which all became blank. Wickham struck the water in a semi-prone position with such force that he was completely knocked out for more than ten minutes. When taken from the water he was bleeding from a dozen places about the body.

Catarhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be removed and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured, by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free. P. J. Cheney & Co., Toledo, Ohio.

Has a High Opinion of Chamberlain's Tablets.
"I have a high opinion of Chamberlain's Tablets for biliousness and as a laxative," writes Mrs. C. A. Barnes, Charleston, Ill. "I have never found anything so mild and pleasant to use. My brother has also used these tablets with satisfactory results."—Adv.

LOCAL BREVITIES

Our Phone No. 190-W

Mr. and Mrs. E. P. Steiner spent Friday in Jackson.

Hazen Leach was home from Camp Custer over the week-end.

A. J. Lane of Detroit visited his brother, Dr. C. C. Lane, Friday.

Mrs. Elizabeth Waltz of Ypsilanti visited Chelsea friends yesterday.

Mrs. George Staffan and Irving Stover were in Detroit, Saturday.

Miss Rhea Shane of Hamtramck spent the week-end with Miss Agnes Weber.

Regular meeting of Olive Chapter O. E. S., Wednesday evening, September 18th.

Mrs. J. D. Colton has been visiting relatives in Decatur and Sturgis the past week.

Mr. and Mrs. George Ward and daughter, Miss Florence, were in Jackson, Saturday.

Miss Charlotte Hutz of Ann Arbor spent the week-end at the home of her sister, Mrs. Charles Steinbach.

Dr. and Mrs. Henry Wood of Detroit visited at the home of his mother, Mrs. H. L. Wood, over the week-end.

Put a ring around Sunday, September 22. That's the day for the Home Fire Sing at the school house, at 3:30 p. m.

Mr. and Mrs. Leon Graham and little daughter, of Detroit, visited his parents, Mr. and Mrs. J. W. Graham, over Sunday.

Mr. and Mrs. William Hayes and son Earl and Miss Hazel Wealpine, of Grass Lake, spent Sunday with Miss Sophia Schatz.

Frank Shaver and sister-in-law, Mrs. Martha Shaver, left yesterday on a few days automobile trip to Perry and Owosso.

Leo Hindelang and family have moved back to Chelsea from Saginaw and are settling in the Howe residence at 113 Grant street.

W. A. BeGole of Detroit spent Sunday with his wife, who is making an extended visit at the home of her parents, Mr. and Mrs. J. B. Cole.

Mrs. R. A. Perkins of Buffalo, N. Y., and Mrs. Emma Phillips of Cheboygan were guests of Mr. and Mrs. Charles Hyzer the past week.

Glenn Barbour went to Grand Rapids, Sunday, where he is in charge of the exhibits of pet stock and rabbits at the West Michigan State fair.

Mrs. Mary Hughes, an aunt of Mrs. Ada Steinbach of this place and a sister of the late John Rowe, a former resident of Sylvan, died yesterday in Detroit from the infirmities of old age.

Mr. and Mrs. J. G. Webster spent the week-end in Florence, Ontario, where they visited their nephew, Charles Scurrell, who expects to leave soon for overseas with the Canadian army.

Erven Wolf has been visiting his mother, Mrs. Bertha Wolf, for a few days. He is now firing on the Grand Trunk railway, both east and west out of Battle Creek, and returned to that city Friday evening.

A letter received yesterday from G. A. Stimpson, formerly of Chelsea, advises that he and his family are now located at Harrison, Arkansas, a town of 5,000, and think they are going to like it there very much.

Robert Lawrence, Herbert Vogel, Leonard Shepherd and Paul and Reuben Wagner have registered for the army training corps, Wilbur Hinderer for a course in pharmacy and George Naekel for a special course in chemistry at the University of Michigan.

The funeral services for Mrs. Wm. H. Bahnmiller, Friday afternoon were held from the Congregational church instead of from St. Paul's church as Summit street, on which the latter is located, is being regraded and was almost impassable after the recent rains.

Sneak thieves entered the barn on Mrs. Charles Fish's place one night last week and helped themselves to several bushels of potatoes. It is said that they were seen and that it would be the part of wisdom to return the potatoes and settle and avoid prosecution.

Major W. H. Cressy, a former Grand Rapids physician who enlisted in the Russian medical corps in December, 1914, and who has since served in both the French and Serbian armies, will give an illustrated lecture in the town hall next Tuesday evening, September 24th. He has a stirring story to tell of his experiences.

In remitting for his Tribune, Chas. Kilmer of Telluride, Colorado, says they have had a fine season and excellent crops in that state. He spent the early part of the summer in Chelsea and vicinity and made the return trip to Colorado in a new Hupmobile car, accompanied by his sister, Miss Minnie Kilmer. He says that since leaving Chelsea he has driven the car over 4,100 miles. Recently, he and his sister drove to Silverton, going over a mountain pass 11,000 feet above sea level, a very trying altitude for a gasoline motor car as the rarefied atmosphere interferes with the working of the carburetor.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.
F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Hall's Family Pills for constipation.—Adv.

Rev. F. O. Jones went to Detroit today to attend the Methodist conference.

Miss Winifred Benton has accepted a position in the office of the Palmer Motor Sales company.

William Cassidy was in Ann Arbor today on business connected with the settlement of the estate of his father, the late J. W. Cassidy.

Mr. and Mrs. S. S. Gallagher and their guests, Mrs. Addie Wellman and Mrs. Martha Conklin, of Perry, N. Y., spent the week-end with relatives in Alma.

A meeting of the Ladies Altar society of the church of Our Lady of the Sacred Heart will be held Thursday afternoon at two o'clock in St. Mary auditorium. Any ladies of the parish who wish to join the society are invited.

'Tis a popular saying that a Ford car can go anywhere—nothing stops them. However, now that the Ford plant is 100% war production, we'll say that the Fords are stopped; they're not even making them! Our Uncle Samuel is some "obstacle" when it comes to making war and its necessary equipment. With the little Fords stopped it seems as though Kaiser Bill might be able to see his finish too.

RED CROSS ENRICHED \$300

The exercises Thursday afternoon attendant upon the unfurling of a new flag on the municipal flagpole, also a new community service flag with 129 stars, were carried out according to the previously published program excepting that the addresses were given in the town hall instead of on the stand erected at Main and Middle streets on account of the inclement weather.

The Red Cross festival in the evening added about \$290 to the funds of that society. The community dance, which was to have been held on the pavement, had to be transferred to the town hall because of rain, but in spite of the disagreeable weather conditions it netted \$103 for the Red Cross. The balance of the \$290 was realized from the several booths and the grab-bag.

Twelve Reasons Why Michigan Women Should Have the Vote

BECAUSE those who obey the laws should help to choose those who make the laws.

BECAUSE laws affect women as much as men.

BECAUSE laws which affect women are now passed without consulting them.

BECAUSE laws affecting children should include the woman's point of view as well as the man's.

BECAUSE laws affecting the home are voted on in every session of the legislature.

BECAUSE women have experience which would be helpful to legislation.

BECAUSE to deprive women of the vote is to lower their position in common estimation.

BECAUSE having the vote would increase the sense of responsibility among women toward questions of public importance.

BECAUSE public-spirited mothers make public-spirited sons.

BECAUSE more than 8,000,000 women in the United States are wage workers, and the conditions under which they work are controlled by law.

BECAUSE the objections against their having the vote are based on prejudice, not on reason.

BECAUSE, to sum up all reasons in one, it is for the common good of all.

Great Faith in Chamberlain's Colic and Diarrhoea Remedy.

"Chamberlain's Colic and Diarrhoea Remedy was used by my father about a year ago when he had diarrhoea. It relieved him immediately and by taking three doses he was absolutely cured." writes Mrs. W. H. Williams, Stanley, N. Y.—Adv.
