

### FREE PATRIOTIC JUBILEE

Community Liberty Demonstration Will Be Held in Chelsea, Friday Evening, October Fourth.

A big patriotic demonstration and jubilee will be held in Chelsea, Friday evening, October 4th, when it is confidently expected that this Liberty Loan district will have completed its quota.

A mammoth moving picture screen will be erected on North Main street and Major W. H. Cressy of the Serbian army, who gave such an interesting lecture in the town hall recently, will give an illustrated address. An added attraction will be the big feature film, "The Unbeliever," one of the most popular "movie" successes of the year.

Everything is free and every good loyal American in this community should be in Chelsea next Friday evening and assist in making this the greatest patriotic demonstration of the year. Come out and help celebrate the recent Allied victories and boost the success of the Fourth Liberty Loan, which will mean more victories and VICTORY!!!

### MAKE SURE ABOUT YOUR SUBSCRIPTION

Take a Look at the Address Label And See How Your Account With Tribune Stands.

The Tribune's mailing list was corrected Saturday and a subscription paid previous to nine o'clock Saturday morning should show proper credit on the yellow address label on this issue of the paper. Look at the label on your paper right now and see if you have been properly credited; or, if you are one of the very few still in arrears see how your account stands and please arrange to pay up and in advance at once, as requested by the Federal War Board. We shall have to make a subscription report in a few days and we are anxious to report the Tribune 100% PAID IN ADVANCE.

If your label reads "oct19," you are paid in advance until next October; if it reads "oct18," your subscription expired today; if it reads anything previous to "oct18" you are in arrears. Thus if your label reads "april," your subscription expired April 1, 1918, and you are in arrears six months.

Some labels have a set of figures at the left hand side of the month, thus, "10april," which indicates that the subscription expired April 10th, 1918.

Take a look at the label on your paper right now; see if you have been properly credited. We may have made a mistake; perhaps we have overlooked your credit. Or, if you have not paid your subscription account recently, its time you did so and put yourself "right" with both the Federal War Board and us. Let's make the Tribune 100% In Advance.

### PRETTY DOUBLE WEDDING.

The ceremony was performed at the home of the brides' parents in the presence of about thirty-five near relatives and intimate friends. Mrs. A. A. Schoen played the wedding march and Miss Rosa Lucht and Mr. Leon Eschelbach were the attendants.

The brides were attired in white mesaline and georgette, trimmed with silver lace, and carried pink and white carnations.

After congratulations, the guests were ushered into the dining room, where an elaborate supper was served. The tables were decorated and arched with green and white, with white wedding bells, and the same color scheme was followed throughout the house.

Immediately after the wedding supper, the happy couples left for a wedding trip to Chicago and vicinity, after which they will both reside on the pleasant farm of John Lucht, Sr., near Four Mile lake.

### NEIGHBORHOOD ITEMS

Brevities of Interest From Nearby Towns and Localities.

MANCHESTER—That big white puff ball exhibited in the front window of the Enterprise office was brought in by Frank Dresselhouse, who picked it near a pile of stones beside a spring at his place. It measures 27 inches in circumference and weighs four pounds.

HAMBURG—Valdemir Grisson, a life-long resident of Hamburg village, died at his home Sunday evening after an illness extending over the greater part of the summer. He was 73 years of age, was a Civil war veteran and leaves a wife, but no children.

FOWLERVILLE—A few weeks ago the body of Herbert Horton was found in the woods where it had evidently lain for months and was decayed. A revolver lay beside the remains and the coroner's jury brought in a verdict of suicide. Later developments show that the revolver did not contain an empty chamber and some who saw the remains remember that the bullet wound was on the opposite side of the body from the revolver.—Review.

### INFLUENZA HELD WAR PROBLEM

STAMPING OUT THE DISEASE FROM ARMY CAMPS NOW UNDER WAY BY U. S.

### SPANISH GRIP DECREASING

At Great Lakes Training Station There Are 1,689 Men Afflicted With Epidemic.

Washington—Stamping out of Spanish influenza, which has extended to more than a score of army camps and many sections of the country, has been recognized by the government as a war measure.

Medical and nursing units are mobilized under the general direction of a central committee representing the public health service, the army, the navy and the American Red Cross. Immediate relief for the localities where influenza has gone beyond control of the local authorities will be the main task of the committee.

Traveling medical units will be mobilized through the volunteer medical service corps. The Red Cross will provide compensation, traveling expenses and maintenance and the work will be kept up until normal conditions are restored.

Chicago—A future decrease in the number of cases of Spanish influenza at the Great Lakes Naval Training station was reported by Captain W. A. Moffett, commandant. Eighty new cases were reported. There are 1,689 men remaining on the sick list and 69 deaths have recently been reported.

New York—In announcing that nearly 400 new cases of Spanish influenza had been reported here the health department appealed for volunteers to relieve the shortage of nurses and orderlies in hospitals. Physicians and nurses were sent to railroad stations to treat travelers showing symptoms of the malady.

Camp Mills, N. Y.—Sixty-five soldiers in this camp have been stricken with influenza recently bringing the total number of cases reported in the last two weeks to 425.

Camp Dix, N. J.—Sixty-two soldiers died from influenza here recently, bringing the total number of deaths to 387. One of the victims was Lieutenant George Lang, of Minneapolis. Six hundred and forty-four new cases of influenza were reported, making the total amount 6,000.

### U. S. BATTLESHIP STRIKES MINE

No Lives Were Lost As Minnesota Strikes Off Delaware Breakwater.

Washington—The United States battleship Minnesota struck a mine off Delaware breakwater. This announcement was made by the navy department. There were no lives lost, according to the reports received by the department, and the Minnesota is proceeding to port under her own power.

Officials of the department are convinced that the Minnesota struck a mine left by the German submarines operating off the coast this summer.

The Minnesota, built in 1907, is 11 years old, a battleship of the third class. She was placed in the second line in 1916. With a displacement of only 15,000 tons, she is 250 feet long, with a beam of 76 feet, and carries four 12-inch guns, eight 8-inch, twelve 7-inch and four torpedo tubes. She has a complement of 75 officers and about 1,000 men.

### CARS LOADED TO CAPACITY

Decided Economics in Costs of Moving Traffic By Rail Officials.

Washington—Loading freight cars closer to capacity and increasing size of freight trains, required under government control of railroads, together with shortening of routes made possible by unified managements, has made possible decided economies in cost of moving traffic, a statement by the railroad administration said.

An increase of 1,897,376,211 in ton miles or 5.6 per cent in June, 1918, as against the same month of 1917, and a decrease of 279,248,170 non-revenue ton miles in the same period was reported.

This was accomplished while the number of train miles was decreased 661,139 or 1.2 per cent, and loaded freight car miles decreased 71,118,405, or 5.2 per cent.

### U. S. Lifts Ban On \$1,000 Buildings.

Lansing—Any farm building costing less than \$1,000 can be constructed without a permit from the war industries board, according to information received at the executive office from Washington. In the recent order restricting building operations it was specified that silos could not be built without special permission. On the other hand the national food administration has urged the farmers to build more silos. The new order is now in operation.

### VINY RIDGE DREW THOUSANDS

Reproduction of Battle "Over There" Seen By Over 100,000.

Detroit—More than 70,000 men, women and children, eager for a realistic idea of what America's boys are doing over there in their struggle against the Kaiser's hordes, crowded into the state fair grounds Sunday afternoon to watch the third performance of the second infantry brigade, Michigan State Troops, in a reproduction of the battle of Vimy Ridge.

This was the estimate of Police Inspector Kinney, who declared it was one of the greatest throngs Detroit's police ever had to handle. After the evening show it was estimated that the total attendance Saturday and Sunday afternoons and evenings crossed the 100,000 mark by a generous margin.

The grandstands were unable to accommodate the thousands seeking seats and although hundreds found places on temporary structures, thousands more were forced to stand deep in many places around the rim of the half mile track while the mimic warfare raged in the infield.

The army of spectators had their greatest thrills in the spectacular feats of Selfridge field aviator. These birdmen were on the scene all afternoon and when they dipped to within 100 feet or so of the field while rockets and imitation shrapnel shells burst on all sides of them the cheering drowned all sound of "the roar of battle."

Although sham casualties were prominent in the battle, with stretcher-bearers and "Red Cross" workers scurrying to and fro and ambulances rushing off to the rear with their loads of wounded, the performances were not entirely free from genuine casualties.

### ONE DEAD, THREE ARE INJURED

Removing Wreckage From Steamer Curt Costs Life of Sailor.

Sault Ste. Marie, Mich.—One man dead and three others injured was the toll of an accident on the barge Maids, while removing the wrecking outfit which had been used in operations on the steamer Curt, recently raised in Detroit river.

In some manner one of the boilers being removed was precipitated into the hold, carrying with it the injured men. All were removed to the Soo hospital as rapidly as possible. John Kramer, of Buffalo, died of his injuries.

The condition of the others is favorable. They were Captain McDonald and Mate A. G. Olson and Fred Theiss, of Detroit; Captain Christoferson took charge of the Maids and proceeded with her to Two Harbors in tow of the steamer Poe.

### Bulgar Delegates Arrived at Saloniki.

Paris—Bulgarian delegates who are to discuss armistice and probable peace arrangements with the Allied governments arrived at Saloniki. The delegates are General Lamboff, commander of the Bulgarian second army; M. Latcheff, finance minister, and M. Radoff, a former member of the Bulgarian cabinet.

### Detroit Loses Tax Suit.

Lansing—Title by which the city of Detroit holds the property on South Lafayette boulevard occupied by Ladder Company No. 12, of the city fire department, is considerably clouded by a decision of the supreme court. In substance the court holds that the property is subject to a tax title sold by the state to Lillie Drempp and the Telasco Land Company for 2007 taxes delinquent to state and county. City fought Triangle Land Co., to whom Lillie Drempp sold her interest.

### PHYSICAL RECORD REACHED AT CAMP

SEPTEMBER SELECTS AT CAMP CUSTER STATED TO BE NOT OVER 10.5% OF 10,000 MEN.

### USUAL PER CENTAGE ABOUT 14

Many Men Have Been Retained For Limited Service Who Otherwise Would Be Discharged.

Battle Creek—With records practically complete on the September selects at Camp Custer, it is stated that not over 10.5 per cent of the 10,000 or more men received this month have been discharged for physical unfitness. This is the best record a draft increment has yet disclosed at the Michigan cantonment.

Usually the percentage of men discharged, after the final physical examination, is about 14. In July it was 14.21, for 10,772 men; in August it was 17 per cent, of Negro recruits, and only 11 per cent for white men.

One factor may have played a part in lowering the number of discharges—the retention of many men for limited service, who in the past would have been discharged. Det Michigan men, with the few from Indiana and Ohio, reported in exceptionally good condition. This is further shown by the fact that their induction led to no epidemics of mumps, measles, and such diseases as has so often been the case.

### LABOR SHORTAGE OF 1,000,000

More Than 50,000 to 100,000 Men Shifted to Fill War Needs.

Detroit—Though the United States Employment service in every state in the union has helped to divert labor where it is most needed, there is still a shortage of about 1,000,000 according to the reports made up to October 1 at Washington.

"The unskilled labor requirements up to October 1," says the official bulletin, "have dropped from a daily average of 29,000 to 30,000 men in the middle of August to about 3,000 a day."

"Whatever new needs may arise because of the action of the draft and the letting of further big war contracts, there is comfort in the fact that the worst is now known about present common labor shortage."

"Men are being drawn from non-essential industry and placed by the employment service in war work faster than the present shortage is increasing but not nearly so fast as is necessary to equalize war supply and demand by October 1."

An array of between 50,000 and 100,000 unskilled employees were moved from their places of residence to states where their labor was needed in war work.

### GERMANY BARS SHOTGUNS USE

Sends Ultimatum to U. S. to Stop Use of Same.

Amsterdam—Germany, through the Swiss legation has sent an ultimatum to the government of the United States that if no satisfactory answer is forthcoming to the German protest about use of shot guns by American soldiers "reprisals will be taken."

A semi-official telegram from Berlin gives the following additional details of the note:

"Use of such weapons is forbidden by the Hague convention as causing unnecessary suffering. The German government protests energetically and expects from the United States government that steps will be taken immediately to discontinue employment of shot guns."

"It is pointed out to the government of the United States that a prisoner on whom a shot gun or shot gun ammunition is found forfeits his life."

### FORD RENTALS ANNOUNCED

Government Makes Known Price Per Square Foot for Floor Space.

Washington—The war department announced the rental price for seven buildings of the Ford Motor company in St. Louis, Atlanta, Long Island City, Cambridge, Louisville, San Francisco and Philadelphia, which have been taken over. The floor space in square feet and the annual rental per square foot are as follows:

St. Louis 215,000 at 31 1-2 cents, Atlanta 169,000 at 25 cents, Long Island City 447,000 at 31 cents, Cambridge 169,000 at 32 cents, Louisville 83,000 at 24 cents, San Francisco 38,000 at 24 cents.

### Patriotism Marks Polish Convention.

Detroit—Decisions to take \$50,000 of the fourth Liberty bond issued and send four ambulances to the Polish army fighting with the Allies in France are outstanding features of the annual convention of the Polish Women's Alliance of America, which came to an end in Dem Polski hall, East Forest avenue, recently. Patriotism has permeated the sessions. More than half of the 200 delegates have been busy with knitting needles and yarn in the hall.

### NOTHING BUT PROXY KISS

But Wounded Officer Appreciated Kiss That Came With War Cross That He Had Won.

An officer, writing from a hospital in France, tells how a French officer planned a war cross on his pajamas, and how, without any warning, one of the nurses hurried to his bedside and planted "a nice rosy kiss on the ugly mug of yours truly." There is no reason to believe that it is a love affair. Doubtless it was a proxy kiss—it represented the feminine members of his family.

Fiction nurses have been of one kind. In the illustrations they were strangely beautiful. Always their hands were cool and their uniforms fresh. Some young millionaire had been picked up and carried to the hospital where the nurse fought for his life—grim death stalling just behind the door. His identity was not known, but he was a man, wide of shoulder and small of girth. He had a flat back and his close-cropped hair was inclined to be curly. By and by he became rational. The first thing he realized was the cooling touch of the nurse's hand on his feverish brow. But why continue? He always married her, and they live happily ever after.

### Catarrial Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrial Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarrial Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a "rubbing sound" or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarrial Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 7c. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

### Stung Again.

He came into the office with a businesslike air that deceived the clerks, and they let him walk right into the private room of the head of the firm. "I have here," he said, diving into a capacious pocket, "a most valuable little book. It tells of the most lovely spots within a hundred-mile radius of Cleveland, and how to get to them. It contains road maps, etc. It—"

"It's no use to me," interrupted the boss, decisively. "Strange as it may appear to you, I do not own a car. I do not drive. I cannot use your book."

"And you think this worried the book agent? Think again. For the little book was all a bluff, and the pretended book agent was an automobile salesman. And he promptly took advantage of the best opening he had had in weeks.—Cleveland Plain Dealer.

### Breaking It Gently.

Askem—Where's the rich heiress you're engaged to?

Tellum—You see that lovely girl in pink at the other side of the room?

Askem—Yes, it's my old man, what a superb—

Tellum—Well, it isn't she. It's that grand old man in yellow sitting next to her.

**Worth Knowing How.**

Army life makes a man out of a fellow.

"So it seems."

"There's Reginald Grabcock, for instance. Before he was drafted he couldn't even dress without the assistance of his valet. His favorite exclamation was, 'Oh, mercy!' and his nickname was 'Elizabeth.'"

"Soft and effeminate, eh?"

"Exactly. He's been in the army only six months, yet he can eject a stream of profanity on short notice that is the envy of his top sergeant and he is commonly referred to by his associates as a 'hard guy.'"—Birmingham Age-Herald.

**His Peculiar Apology.**

Our son, Lincoln, five, was sent to throw papers in the waste basket. The landlord asked him to take his papers, too. John told him to empty his own papers. I told John to apologize. John said: "I got mischievous sometimes and say things I don't mean. I told you to empty your own papers, but you don't need it if you don't want to."—Chicago Examiner.

**JUST HOW PEDDLER GOT BY**

Short Conversation Enlightened Attorney as to Manner in Which Catter Evaded Office Force.

City Attorney Stephens was amazed the other day when a peddler invaded his private sanctum and began blabbing on the merits of an ash sifter.

"I don't want an ash sifter," snorted Stephens, "but I do want to know how you got in here."

"Everyone needs an ash sifter," persisted the peddler, ignoring the question.

"But I don't," snapped Stephens. "I burn gas."

"But you smoke, don't you?" demanded the peddler.

"You win," cried the attorney; "I know how you got in."

"How?" questioned the perplexed peddler.

"Just sifted," was the laconic reply.—Los Angeles Times.

## ATTENTION! Sick Women

To do your duty during these trying times your health should be your first consideration. These two women tell how they found health.

Hollam, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles and a displacement. I felt all run down and was very weak. I had been treated by a physician without results, so decided to give Lydia E. Pinkham's Vegetable Compound a trial, and felt better right away. I am keeping house since last April and doing all my housework, where before I was unable to do any work. Lydia E. Pinkham's Vegetable Compound is certainly the best medicine a woman can take when in this condition. I give you permission to publish this letter."—Mrs. E. R. CRUMLING, R. No. 1, Hollam, Pa.

Lowell, Mich.—"I suffered from cramps and dragging down pains, was irregular and had female weakness and displacement. I began to take Lydia E. Was Told He Couldn't Live Six Months

But Doan's Brought Mr. Clayton Health and Strength.

C. T. Clayton, 78 N. Broad St., Woodbury, N. J., says: "I had about the worst case of kidney complaint a man could have. My kidneys were in terrible shape. I had sharp, knife-like pains in the small of my back, and my back often gave out entirely. I couldn't stoop to lace my shoes. For two years I was in this helpless condition and didn't do a tap of work and no one thought I would ever be able to work again. In fact, I was told I couldn't live six months. But fortunately I began using Doan's Kidney Pills. They made me feel better from the first and after taking several boxes, I had a strength and health than ever before. I think Doan's are worth their weight in gold, and I recommend them whenever I hear anyone complaining of their kidneys."

Marines Want Luck. Instead of "tossing their hats in the ring," the United States marines now toss "em in the water. Tossing their hats in the ocean for luck was adopted as one of the marine customs when a gust of wind snatched the chapeau of a recruit while he was crossing the bay off Paris Island, S. C., the marines (training camp). The "lid" sailed gracefully out into space and was soon bobbing merrily on the dancing waves.

Taking the accident as a cue, "just for luck," the remainder of the recruits immediately saluted their hats out into the deep and the bay was soon cotted with hundreds of straggling hats.

POOR MATERIAL FOR WARMTH

Mother Evidently Did Not Entirely Approve of Apparel Which Adorned Her Daughter.

They were crossing Washington street at Meridian, after the theater, a few nights ago, and it seemed that mother and daughter were not perfectly agreed on the nature of daughter's apparel. At theater time the weather was balmy, but when they came out, it had been raining and though there was no shower at the moment there was much wind, and daughter's filmy white silk skirt was blowing about in dangerous fashion as she stepped off the curb. She stopped repeatedly and pulled the skirt down, then fairly ran to the shelter of the Merchants' Bank building, leaving mother, who was a bit plump, to roll along as best she could.

"Why didn't you wait for me?" demanded mother, on reaching the girl. "Well!" was the retort, "my ears are not cold, I wasn't going to poke along there and let my skirt get up around my ears, was I?" "If my ears were cold," said mother, surveying the filmy skirts, "I'd hate to try to get them warm with all you have on."—Indianapolis News.

Cheaper Than He Thought.

When a happy and care-free unmarried man decides to go over the top, his married friends chuck discouragingly, talk mottlingly of the price of ice, heativity of the cost of coal and with consuming anger of the flight of food charges.

When Green was preparing to justify his name as his associates said, he heard much about ever-flowing water bills, rushing gas costs and pressing laundry bills, to say nothing of relentless rent. But Green was an optimist. He did it yesterday. When he appeared at the office today a scant twelve hours following the ceremony, he asserted with conviction: "Say, I can't see that marriage is so all-fired expensive."

Saw Trouble Ahead.

It was Robert's first day at school, and because he was very mischievous the teacher had to call him to task immediately. When he arrived home his mother said: "Robert, how do you like school?"

He said: "I think I am going to have trouble with that teacher!" "Why, what is the trouble?" she asked. "She has sassied me three times already," he replied.—Chicago Examiner.

It's Acid-Stomach That Makes Millions Sick and Suffer

Life is rich—not worth much to the man or woman with an acid-stomach. Acid-stomach kills Hope, Ambition, Energy, Courage. It saps the strength of the strongest body—impoverishes the blood—causes untold suffering—makes millions weak, unfit and brings on premature old age. Millions of people are weak and unfit, suffering all the time, in one way or another, from superacidity or acid-stomach. They don't seem dangerously sick. Just ailing. Going through life weak, listless, dragging one foot after another. They're nervous and irritable, lack power and punch, frequently have severe attacks of bleeding, spitting blood, subject to fits of melancholia and mental depression. And every day they are out of order, even though they should get from their food—taking away their vigor and vitality—leaving them weak and inefficient. So, you see, it's just this—acid-stomach—that is holding so many people back—sapping up the strength they should get from their food—taking away their vigor and vitality—leaving them weak and inefficient. Get rid of the excess acid. That's the secret of good health and is the only way to obtain good digestion and assimilation. It is the right way to be well and keep strong. Ordinary medicine won't do any lasting good. The best they can do is to spur up your appetite for awhile. A modern remedy makes it possible to remove excess acid without the slightest discomfort. It is called RATONIC, in the form of pleasant tasting tablets. Their action in the stomach is a good deal like a piece of blotting paper taking up a drop of ink—they literally absorb the injurious excess acid and carry it away through the intestines. Begin using RATONIC right now—today—and get on the road to bounding, vigorous, vibrant health. Thousands upon thousands of people who have used RATONIC are enthusiastic in its praise. They say they never dreamed that anything could bring them such quick relief. RATONIC is fully guaranteed. Your druggist will give you a big box for only 50 cents with the distinct understanding that if you are not pleased in every way, you get your 50 cents back. If you can't get RATONIC where you live—send us your name and address; we will send you a fifty cent box and you can send us the 50c when you get it. Address: Eatons-Townsend Co., Gunther Bldg., Chicago, Ill.

An Irish Courtship.

An Irish sheriff got a writ to serve on a young widow and, on coming into her presence said: "Madam, I have an attachment for you." "My dear sir," she said blushing, "your attachment is reciprocated." "You don't understand me, you must proceed to court," said the sheriff. "Well, I know 'tis leap year, but I prefer to let you do the courting yourself. Men are much better at that than women." "Madam, this is no time for fooling. The justice is waiting." "The justice waiting? Well, I suppose I must go, but the thing is so sudden, and besides I'd prefer a priest to do it!"—Exchange.
