

WASHTENAW COUNTY BOYS VICTIMS FLU

Four Soldiers Succumb to Pneumonia Following Spanish Influenza at Camp Custer.

Private George Balfanz, son of Mr. and Mrs. Charles Balfanz of Dexter township, died at Camp Custer, Sunday night, after a few days' illness from pneumonia, following Spanish influenza. He was about 28 years of age and left for Camp Custer on July 22nd.

Private Clay Arsky, son of Mrs. B. Arsky of Dexter, died Monday morning at Camp Custer from pneumonia following Spanish influenza. He was 27 years of age and is survived by his mother and two brothers.

Private Roy Dettling, son of George Dettling of Freedom township, died at Camp Custer, Sunday, of pneumonia, following Spanish influenza. He is survived by his father, one sister and four brothers.

Private William Kelley of Ann Arbor died at Camp Custer, Saturday, of pneumonia, following Spanish influenza. He is survived by his widow, his mother and two brothers.

DEXTER TOWNSHIP.

Mrs. Baker has re-shingled her house and built a portico.

Gilbert Madden filled his silo, Friday and Saturday.

Mr. and Mrs. James Doody visited the onion fields near Chelsea, Friday, to purchase their winter's supply of onions.

Emerson Howard's machine threshed six bushels of clover seed for K. H. Wheeler last Monday.

Amelia Clark of North Lake is attending the Red Cross home nursing class in Ann Arbor.

Mr. and Mrs. K. H. Wheeler were in Chelsea, Friday, on business.

Dexter township does not escape the Spanish influenza. George Balfanz died from it Saturday at Camp Custer.

Mrs. K. H. Wheeler saw the aeroplane that passed over last Friday, en route from Chicago to Detroit. It was so high it looked no larger than a large hawk.

The Republican county committee will meet at the Allen hotel in Ann Arbor, Tuesday evening, at seven o'clock.

"Cash" Valentine was at K. H. Wheeler's, Monday, looking at feeding lambs and pigs.

INFLUENZA CAPSULES FOUND.

Henry Phillips, son of Mrs. M. K. Phillips, who is attending Harvard university, writes his mother that last week they discovered two students who had capsules in their pockets containing Spanish influenza germs. Up to that date 200 men of the school had died.—Ypsi. Record.

NEW WATER PLANT IN A. ARBOR

The Ann Arbor water commissioners have awarded the contract for the construction of the Steere farm power house to A. R. Cole & Co., the work to be done on the commission plan. The cost is estimated to be between \$18,000 and \$20,000.

The power house will be built of brick, and will contain the engines and pumps for the work of pumping the water from the Steere farm wells into the city water mains. The building will undoubtedly be ready before the machinery is received, although it has been ordered for several weeks.

CELEBRATES 91ST BIRTHDAY.

The following is from a recent issue of a Lansing paper:

Jay Everett, who celebrated his ninety-first birthday anniversary Wednesday is honored by having seven grandsons and two grand-daughters in the service of Uncle Sam.

Mr. Everett, who has been visiting his daughter, Mrs. G. H. Gay, 305 North Butler street, and has returned to his home at Chelsea, is one of the oldest if not the oldest pioneer of Washtenaw county.

Three grandsons are in France, Clarence Everett and Merle Everett of Kalamazoo and G. Maurice Gay of Lansing; Dr. Herbert E. Coe with the U. S. Navy is stationed at Seattle, Wash.; Reuben E. Fenner is at Camp Lewis, Wash.; Lieut. Weland H. Gay, Camp Meade, Md.; Harry L. Coe, superintendent of munitions plant, Boston, Mass.; Marion Fenner, Government Nurses Training at Boston, Mass., and Mabel Everett, War Insurance department, Washington.

SPANISH FLU IN JACKSON.

Upon orders from the state board of health Saturday morning, all theaters, churches and billiard halls and every other place of public resort, with the exception of public schools, in Jackson county, were closed. Similar orders are in effect in Berrien county also.

LIBERTY LOAN FIGURES

Subscriptions Which Have Passed Through the Banks Now
Total \$200,500.00.

The total sales in the Fourth Liberty Loan in this district up to Saturday night were \$200,500.00, which is \$74,500 short of the quota assigned to this district. These figures include only the actual sales, not pledges. When all of the pledges are fulfilled it is confidently expected that Chelsea and vicinity will "go over the top," but it will be by only a narrow margin and as the result of strenuous efforts by the committee in charge of the campaign.

Statistics of the actual sales reported up to Saturday night, exclusive of pledges, follow:

Total number of \$50 bonds.	1,194
Total number of \$100 bonds.	858
Total number of \$500 bonds.	80
Total number of \$1000 bonds.	15
Total number of subscribers.	1,492
Total amount of subscriptions.	\$200,500
Average amount of subscriptions is	\$134.38.

ANN ARBOR—Private George Hensel, son of Mr. and Mrs. John Hensel of Scio township, died Thursday night at Camp Custer of pneumonia, following an attack of Spanish influenza. His body was brought to Ann Arbor, Friday, under a military escort sent from Camp Custer.—News.

DEXTER—Mrs. Adam Spiegelberg has received word from her brother, George Kraushaar of Cleveland, O., stating that he met with a serious accident Sunday evening while returning home from church. As he was about to get on a street car he was struck by a motorcycle. He was taken to the hospital where they found that one of his legs was broken in two places between the knee and the ankle.—Leader.

ANN ARBOR—The claim of the city of Ann Arbor against the Detroit, Jackson and Chicago railway, on account of the damage to one of the fire trucks in a collision on William street last spring, has been settled by the payment of \$196.06 to City Attorney Frank B. DeVine.—Times-News.

TECUMSEH—Samuel Rottman of Tecumseh, who enlisted three days after war was declared, and went to France with the Rainbow division, has returned home on a short furlough to visit his parents, Mr. and Mrs. Meyer Rottman. He served 15 months in France and was in five engagements. At the battle of Soissons, July 19, a bullet from a machine gun caused a wound that will disable him for life. He was invalided home September 9.

POWELLVILLE—Wednesday forenoon, Rev. S. G. Hall, F. L. Oakley and son, Ferris, were walking on the side of the road about three miles west of this village when they were struck by an automobile coming from the west and knocked down. Mr. Hall was seriously injured, a gash cut in his scalp, one leg and his side very painfully hurt. Mr. Oakley and his son fortunately escaped with some painful bruises. The driver of the automobile did not stop to see whether he had killed any of the three, but kept on his way east. Another machine coming behind speeded up and caught the number on the automobile and then came back to render assistance to the injured men and another machine took them in and brought them to the office of Dr. Lamoreaux. The men all declare they were entirely out of the road and walking at the edge of the grass, where pedestrians would naturally walk.—Review.

OLD WINTER IS COMING.

Old Winter is coming—the village cow will let up eating the green grass now;

The bees and the birds and the crickets too,
Will bid us a long six-months adieu;
The baseball game and its croquet mate

Will leave the ground to the sled and skate;
The green-clothed tree of the summer's prime

Will be bare and cold in the winter time;
And the cold hoar frost will nip our nose

As we shiver round in our poor old clothes;
The Frost King Robber—he has no soul—

Will make us spend hard earnings for soft coal
And Gentle Spring, when it comes once more

Will find us as poor as it did before!
—

YES, WE GET OURS!

The man who handles the local department of a newspaper learns after due experience not to expect even briefly expressed thanks from a column of pleasant things, but he knoweth as surely as cometh the winter that a single line in which there is an unintentional misrepresentation will cause some one to be heard from as if from a house top. And we may add that when this same n. p. m. has made pleasant mention 999 times of some person, place or thing but on the thousandth time fails to do so, he must not expect to be forgotten. The omission may have been from accident, inadvertence or even an entire lack of knowledge. It matters not. The simple fact remains and the poor n. p. m. will be judged by that alone.

REV. AUGUSTUS M. DONNER.

Rev. Augustus M. Donner, pastor of St. Thomas church in Freedom township, died suddenly Sunday morning just as he was preparing to open the Sunday school exercises. Death was due to heart failure. He was apparently in his usual health and had entered the vestry room to don his vestments. When he failed to reappear after an interval of about 10 minutes, the sexton investigated and found Rev. Donner dead.

Besides a widow, the deceased leaves six children; Frederick, Richard, Charles, Otto, Elise, Lillian and an adopted daughter, Mrs. Charles Finkbinder, to mourn their loss.

LEACH-BAGGE AUTOISTS

Reach Phoenix, Arizona, Where They Are Resting and Will Do A Little Hunting.

Following is a letter received Friday from the Leach-Bagge automobile party, which left Chelsea, September 1st, for Phoenix, Arizona, and California. Previous letters described the trip into Iowa:

After leaving Iowa we passed into Nebraska. The corn crop in the eastern part of that state was good, but poor in the middle and western parts, where it was spoiled by the wind and drought. Wheat and oats were about a half crop. In Wyoming the hay is good, but corn and wheat were a failure. Colorado had about a half crop and New Mexico has nothing excepting bad roads and plenty of Mexicans and Indians.

We drove to Grand Canyon and to the Painted Desert, and from there to Phoenix the roads are very poor. Frank blew out six tires and broke two front springs, and Lorenz blew out five tires. We came over mountains 7,000 feet high and were pretty busy looking for a place to alight.

Crops in the Salt river valley are fine. There are 35,000 acres of cotton and great loads of it are going by the house all the time. The price has not been set yet, will be soon by the U. S. government.

We arrived here feeling pretty tired after the 2,800 mile trip. We got separated in one place and Frank chased Lorenz 300 miles before he overhauled him. He says he never before had to chase a man so far. The weather is very warm during the middle of the day—100° in the shade, but the nights are fine and we are getting plenty of sleep.

There are lots of cattle, hogs and sheep here, but we haven't had time to look them over.

Ed. Gorman's daughter lives here; and Nellie Billingham, daughter of the late William Martin, is here also.

The wild game is plentiful here and the law opens October 15th. We are going out after some deer, duck and quail. Guess this all for this time so we will close hoping this will find you and all our friends well and happy. Mr. and Mrs. F. A. Leach, 43 West Portland avenue, Phoenix, Arizona.

Mark Hanna

A Politician of Remarkable Ability.
Mr. Hanna's advice to young men was: "Work—work—work. There is no better recipe for success."

Mark Hanna was, betimes, a man of real humor as well as a statesman of unequalled acumen.

He once told a young man who had asked him for advice as to how to succeed: "Get a good job—work like the dickens—save every cent."

Though spoken in jest, this advice was full of meat. Of course one can't save every cent, but almost everybody can and should save something.

Helpless as a Baby

Bent Like an Old Man and Suffered Terribly—Quickly Cured by Doan's.

Jno. Blumke, Jr., 2553 Courtland St., Chicago, Ill., says: "I was down with my back suffering from lumbago. I walked like an old man, all bent over. My back pained terribly and when I moved my arms my back hurt. I finally had to go to bed and just felt sick all over and was helpless as a baby. My kidneys acted too frequently, the secretions were scanty and highly colored. I had terrible pains in the back of my head and I felt drowsy all the time. I finally used Doan's Kidney Pills and soon felt one hundred per cent better. When I finished the one box I was entirely cured. The pains left my back and head and my kidneys acted normally. I am glad to recommend Doan's to other kidney sufferers."

HIS SUDDEN MOVE EXPLAINED

Razor Demonstrator Was Not Acted by Desire to Impress Maggie and Her Companions.

Two middle-aged women and a skinny boy in knee pants stood in front of a show window to watch a demonstrator do things with a razor. His work failed to satisfy one of the women, who said:

"My soul and body, why don't he peart up and show what his pay-ment can do? I like to see people work like they took some interest in it."

As she spoke, the demonstrator gave an expert glide to the steel and held it toward to show the keenness of his edge. The suddenness of this victory was explained by the other woman:

"Let's Maggie, he must have heard you through the glass—you sure have got him going."

But Maggie had nothing to do with it. The young man's sudden spurt was entirely due to a clean-faced man who had passed to take in the demonstration.

You couldn't expect a mere earthly demonstrator to show off a razor edge to two middle-aged women and a skinny boy in knee pants.

DETROIT FIRST CITY OVER LOAN QUOTA

SECOND CANVASS OF CORPORATIONS BRINGS OUT DESIRED RESULTS.

WORKERS SUBSCRIBE LIBERALLY

Ford Interests and Dodge Brothers Instrumental in Putting Detroit Over Mark.

Detroit.—First of America's great cities to over-subscribe its quota of the Fourth Liberty Loan, Detroit has responded with \$73,806,980, which is \$418,120 more than its goal. With moneys still to be reported, the city is expected to over-subscribe by \$5,000,000 when the final meeting of the loan workers is held in the Board of Commerce auditorium.

An additional subscription of the Ford interests for \$5,000,000, and \$3,200,000 from Dodge Brothers and their employees were the principal items in the report of \$15,312,500, but the remainder of \$7,000,000 was made up in large measure from uniformly high subscriptions from factory workers and second purchases by the corporate interests to place them in the "double" lists.

The additional \$5,000,000 subscription of Henry Ford and interests was announced personally by Edsel Ford, \$4,000,000 of it added to the previous subscription of the Ford Motor company and \$1,000,000 to the purchase of Henry Ford & Son, of Dearborn. This divides the \$15,000,000 subscription of the Ford interests as follows:

The Ford subscription to the fourth loan is 150 per cent greater than to the third loan.

Dodge Brothers as a corporation subscribed to \$1,000,000 worth of bonds. The company's employees have taken an equal amount. John F. Dodge and Horace E. Dodge each subscribed to \$500,000, and Mrs. John F. Dodge and Mrs. Horace E. Dodge to \$100,000 each. The Dodge Brothers subscription was announced by A. L. McMeans, secretary of that corporation.

Another corporation that submitted its final report was the Cadillac Motor company, whose record in the fourth loan has not been surpassed. Its total for corporation and employees is \$1,487,285. This being increased \$377,000 by a "second blow" campaign.

SCHOOLS HELP PUT LOAN OVER

Average Subscription Was Slightly More Than \$100.

Detroit.—Detroit's 90,000 school children were one of the most potent factors in the city's Fourth Liberty Loan campaign, subscriptions taken by them totaling \$7,955,200, which is double their record in the Third Liberty loan. The average subscription was slightly more than \$100.

The highest record was made by the Detroit University school with an average sale of \$1,000 per pupil. The Doty school, grades 1 to 5, with a bond sale of \$201 per pupil, was leader in that division. In the division from grades 5 to 8, the Fairbanks school led with an average subscription of \$205. Northern high school was highest among the public high schools with \$279 per student, while the Joyce led the junior high schools with \$95.

ONLY TWO LINES RETREAT OPEN

Hirson and Mezleres Are the Only Places Left For Huns.

London.—Laon, the anchor of the whole German battle line on the west front, has been cast off by Ludendorff under Foch's terrific pressure from four sides and the whole German southern front is in precipitate retreat. The city is virtually in Allied hands. The French have entered its outskirts and the German are out of the town.

Only two lines of retreat are open to the huge German force in the Laon pocket—estimated at a quarter of a million—to Hirson and to Mezleres. The Germans cannot stop now until they have fled to the approaches of these places, which means their flight must continue for between 30 to 35 miles northeastward.

With the southern pivot gone, Lille, the northern hinge, practically "hangs in the air" and the retreat must presently extend over the entire 100-mile front between the north of Rheims and the North sea.

Donai, the "crutch" south of Lille on which that stronghold has been leaning for weeks, is falling. Unofficially, the British are reported fighting in its suburbs.

Fourth Honor Flag Raised.

Detroit.—With \$89,000,000 as the ultimate goal, an over-subscription of more than \$6,000,000, the city's hordes of Liberty Loan salesmen and saleswomen assembled in the auditorium of the Board of Commerce Saturday noon for the final meeting of the campaign and celebrated Detroit's achievement in going over the top. At 1 o'clock Friday the city's honor flag of the fourth Liberty loan was raised with a formal ceremony by Mayor Marx and others.

EARTHQUAKE TAKES 150 LIVES

Porto Rico Towns Damaged By Shocks, Casualties Growing.

San Juan, P. R.—One hundred and fifty lives were lost in an earthquake in Porto Rico, it was estimated by Governor Yager. Almost every town in the island reports damaged property and scattering fatalities.

There are unconfirmed reports here of great damage in Santo Domingo from the earthquake.

Reports from the interior are coming in slowly because of broken communications.

The greatest loss of life from the shock was at Mayaguez and Aguadilla, west coast cities, and in the intervening territory.

The known dead at Mayaguez are given as 40, and at Aguadilla, 30, with the numbers rapidly increasing.

At Mayaguez 70 per cent of the house of brick and cement construction are reported either destroyed or damaged beyond repair. The greater loss of life there was in the cigar factory of Infanzon and Rodriguez, a three-story, concrete building, where several hundred persons were at work at the time of the disaster. The front of virtually every building on the Mayaguez plaza crumbled into the street killing and injuring people who had rushed out of the buildings into the plaza for safety.

WAR SHOES IN STORES NOV. 1

Dealers Specializing In High Priced Goods must Liquidate Stock.

Washington.—Progress in establishing the new maximum and minimum price schedule for shoes from \$12 to \$3, was announced by Chairman Baruch of the war industries board. By November 1, it was stated, many stores will have on their shelves the new classified shoes in addition to present stocks at present prices.

"Orders now in the factory," the statement said, "are for spring delivery, so it follows that there will be a certain portion of the product offered for sale to the spring trade at a price in excess of \$12."

"To permit these articles to be cleaned out and also to permit the disposal of the present stocks priced above the top maximum, it has been agreed that those retailers specializing in high priced goods shall be given until June 1 to liquidate all their stocks above the class A (\$9-12) maximum."

There is no restriction placed by the war industries board on sale or purchase of the high priced shoes. On the contrary it was made plain that those who can afford to buy will be co-operating in liquidating these stocks now on hand. If these stocks are not disposed of, the announcement said, it will work a great hardship to the trade.

WHEAT CROP 918,920,000 BUS.

Corn Improved Greatly By Weather, Now Exceeds Estimate.

Washington.—General increase crop prospects October 1 more than a month ago was shown by the department of agriculture's monthly report.

Corn, which had such a big loss in prospective production as a result of July and August weather, improved to the extent of 46,000,000 bushels and now gives prospect of a 2,717,775,000 bushel crop, which would be 441,000,000 bushels smaller than last year's.

Springs wheat during the month improved to the extent of about 20,000,000 bushels, making a crop of 363,195,000 bushels, or 131,000,000 bushels more than produced last year.

With this addition to spring wheat, the total wheat crop, including winter wheat, now in prospect is 918,920,000 bushels. That comes close to the 1,000,000,000 bushel mark set by the government last fall to meet war needs of America and the Allies.

This year's tobacco crop will be the largest ever grown.

INFLUENZA TAKES 864 AT CAMP

Camp Travis, Tex., Showed the Largest Number of New Cases.

Washington.—Total number of deaths from influenza and pneumonia in army camps at home, reported by the war department Sunday, was 864, which was 28 less than yesterday.

New cases of influenza were 11,734, or 300 less than yesterday. This brings the total reported since September 13 to 234,868, and total deaths from both diseases in the same period to 3,199. There were 2,780 new cases of pneumonia today, a decrease of 41 over yesterday.

Camp Travis, Texas, with 872, showed the largest number of new influenza cases in one day, while Camp Sheridan, Ala., reported 1,052 in two days.

Asks State Inquiry.

Camp Custer, Battle Creek, Mich.—Believing the people of Michigan are entitled to know everything about the present epidemics of pneumonia and Spanish influenza that is knowable, Brigadier-General Laubach, commandant at Camp Custer, will request Governor Sleeper to appoint a commission of civilian doctors to visit the cantonment and investigate every department of the base hospital, regimental infirmaries, and other sectors housing sick soldiers.

BECAME FATHERS IN OLD AGE

Amazing Paternity Records That Are Undoubtedly Authentic, Published by London Journal.

A father at eighty-four—such is the recent record of Mr. Jackson, a north country farmer, says London The-Bits.

Men more patriarchal still have figured in the ranks of fathers. Such a robust veteran was Sir William Nicholson of Glenhervy, a grand old Scotsman, who lived to nurse an infant daughter after he had passed his ninety-second birthday. Sir William then had a daughter alive of his first marriage, aged sixty-six. He married his last wife when he was eighty-two and had six children.

Sir Stephen Fox's last child was cradled when her father was within a few months of completing his hundredth year. Sir Stephen was born in 1627, and had by his first wife a daughter who died in infancy about 1655. The child of his old age survived to the year 1828 and was thus able to say, "I had a sister who was buried one hundred and seventy-three years ago."

When William Prest of Ripon was laid to rest in 1789, at the age of one hundred and eight, he was followed to his grave by his eldest son, a veteran of eighty-eight, and by his youngest boy, aged fifteen, who made his appearance when his father was within sight of his ninety-third birthday, and when his oldest brother was seventy-two.

Thomas Beatty of Drumcondra, near Dublin, celebrated his one hundred and second birthday on the very day on which his youngest born entered the world, and when his eldest son had already seen seventy-three years.

Thomas Parr made his first trip to the altar at eighty and became the father of two children; and he was so full of vigor that he made a second matrimonial venture 52 years later, when his years numbered one hundred and twenty-two!

Lesson for Pig Raisers.

Efficiency in pig raising was shown in Louisiana, where two men selected litter mates eight weeks old. At the end of the fattening season one pig weighed 520 pounds, the other only 61. The expenses were respectively, \$15.51 and \$5; and the one sold for \$88, the other for \$8. This means weight in the proportion of 1 to 8; expenses, 3.11 to 1; selling price, 7.25 to 1. Thus, scientific raising can combat the notorious "razorback" leg.

Ability of the Aged.

It has often been said that a man cannot learn a new trade after he is forty, but this statement has frequently been disproved. Peter S. Du Pont was eighty when he wrote his valuable treatise on the Cochiti Chinese language, and had only then recently taken up the study; and the late John Bigelow was still an author turning out a book when he passed his ninety-fifth birthday. — Philadelphia Public Ledger.

Effigies Thought to Bring Luck.

The scarab of the land of the Pyramids is the expression of the hope of resurrection and the desire to live long. As the beetle was supposed to be always born anew, so the carrying of the beetle or its image came into the customs of the ancients. The warriors of an elder day hung the images of gods about their necks, and many of the brooches and pins of the old fighters were the effigies of luck-bringing divinities.

Love Apples.

Love apples is what tomatoes were called years ago when it was told that, if sweethearts would divide one and eat it together, no adverse fate could part them. There was real bravery in this simple act; for, in early days, tomatoes were thought to be rank poison.

Don't Live Up to Appellation.

"The trouble with lots of 'regular fellows,'" observed the almost philosophical, "is that they are oftentimes 'regular' in their habits."

TOO WEAK TO FIGHT

The "Come-back" man was really never down-and-out. His weakened condition seemed of overwork, lack of exercise, improper eating and living demands stimulation to satisfy the cry for a health-giving appetite and the refreshing sleep essential to strength. GOLD MEDAL Blandon Oil Capsules, the National Remedy of Holland, all do the work. They are wonderful. Three of these capsules each day will put a man on his feet before he knows it; whether his trouble comes from uric acid poisoning, the kidneys, gravel or stone in the bladder, stomach derangement or other ailments that bedevil the over-zealous American. The best known, most reliable remedy for these troubles is GOLD MEDAL Blandon Oil Capsules. This remedy has stood the test for more than 200 years since its discovery in the ancient laboratories in Holland. It acts directly and gives relief at once. Don't wait until you are entirely down and out, but take them now. Your druggist will gladly refund our money if they do not help you. Accept no substitutes. Look for the name GOLD MEDAL on every box, three sizes. They are the pure, original, imported Blandon Oil Capsules.—Adv.

Indigestion, Bloat, Heartburn, Caused by Acid-Stomach

What is the cause of indigestion, dyspepsia, bloating, heartburn, food-repelling, belching, gassy, sour stomach, and so many stomach ills? Just this—acid-stomach—superacidity as the doctors call it. It runs millions of their full strength, vitality and the power to enjoy life—to be real men and women.

It is well known that an acid mouth destroys the teeth. The acid is so powerful that it eats right through the hard enamel and causes the teeth to decay. This is fair warning of what excess acidity will do to the delicate organization of the stomach; as a matter of fact, excess acidity not only produces a great many painful and disagreeable symptoms that we generally name "stomach troubles," but it is the creator of a long train of very serious ailments. Acid stomach interferes with the digestion and causes the food to ferment. This mass of sour, fermented food passes into the intestines, where it becomes the breeding place for germs and toxic poisons, which in turn are absorbed into the blood and distributed throughout the entire body.

Wherever you go you see victims of acid-stomach—people who, while not actually down sick are always ailing—have no appetite, food doesn't digest, belching all the time, continually complaining of being weak and tired and worn out. It is this excess acidity that

takes the pep and punch out of them, leaves little or no vitality.

Strike at the very cause of all this trouble and clean this excess acid out of the stomach. This will give the stomach a chance to digest the food properly; nature will do the rest.

A wonderful new remedy removes excess acid without the slightest discomfort. It is called EATONIC, made in the form of tablets—they are good to eat—just like a bit of candy. EATONIC liberally absorbs the injurious excess acid and carries it away through the intestines. It drives the best out of the body—can fairly feel it work.

Try EATONIC and see how quickly it banishes bloat, heartburn, belching, food-repelling, indigestion, etc. See too, how quickly your general health improves—how much more of your food is digested—how nervousness and irritability disappear. Learn how easy it is to get back your physical and mental punch. Have the power and energy to work with vim. Enjoy the good things of life. Learn what it means to fairly bubble over with health.

So get a box of EATONIC from your druggist today. We authorize him to guarantee EATONIC to please you and you can trust your druggist to make this guarantee good. If it fails in any way, take it back—he will refund your money.

CHILDREN'S SERGE DRESSES

\$7.50 to \$9.50

Never have juvenile styles in dresses been so attractive, or so moderate in price, when the present high cost of wool is considered.

Navy blue and black and white checks are the colors, but each dress is set apart from its neighbor by a dash of scarlet, an unusual braid trimming, and the like.

Many have kilted skirts, and the juvenile charm of nearly all models is enhanced by crisp collars of white pique.

A few regulation middie dresses are included in this lot.

Sizes run from 6 to 14 years of age.
