

## BEAN THRASHER LACERATES FOOT

Vern Beckwith Badly Injured Friday at Guinan Farm in Lyndon.

Vern Beckwith, whose home is five miles west of Munith, had his right foot badly lacerated Friday afternoon about three o'clock when he caught it in a bean thrashing machine.

Beckwith and a partner own the machine and were doing a job of thrashing for Mr. Guinan. Something went wrong with the machine and Beckwith climbed up on it to make the necessary adjustment and caught his right foot in the second cylinder.

Fortunately, his shoe was ripped off and he was able to jerk his foot out of the machine, but not until it had been cruelly cut and lacerated. Dr. J. T. Woods dressed the foot and says that it will be a number of weeks before Mr. Beckwith can use it again.

## FROM LAVERN YETTAH

Is In Hospital With Injured Foot, Result of an Accident While Setting Heavy Gun.

Private Lavern Yettah, B Battery, 5th Field Artillery, son of Mr. and Mrs. Titus Yettah of this place, is in a hospital in France on account of an injury to his foot. He was helping to place a heavy gun in a pit or trench, when a part of the supports gave away and his foot was caught, crushing his toes. His last letter, dated November 10th, the day before the signing of the armistice, follows in part:

Dear mother and father:  
I got to thinking of home this morning and I figure it is about a year and a half since I left, but it doesn't seem that long—it seems like ten years. But I expect to be home before many months. The papers talk peace pretty strong, and I really think we will have it within a month.

But if peace doesn't come, God help the Hun! Just watch the papers and see what the Americans do within the next two months. But I won't be with the boys to help, I am sorry to say, because the doctor has classified me as a "B" patient, which means six months behind the lines.

My big toe is fractured and is still swollen and stiff. The nail is off and the nail on my third toe is loose. I won't be able to hike for a couple of months.

I have my mouth-organ here and every time I come into the ward some

one wants me to play.

I have to go about three blocks for my meals. They have a fine Red Cross here and they give out hot chocolate and cakes in the afternoon, and they have a good library too, so I get lots of good books.

They have given us slips to send home for a Christmas package, but I didn't send mine because I don't want you to bother with it and besides I have everything that I need.

There is a fellow here in the same ward from near Grass Lake and we get to talking about Chelsea frequently.

Well, I don't suppose I'll get any mail for awhile until they find out where I am located.

With love from your son,

Lavern Yettah.

## INTERURBAN HITS AUTO

South Main Street Crossing D. J. & C. Stages Another Accident.

An Overland touring car, owned by J. P. Heim of Sylvan and driven by his son Louis, was badly wrecked Friday morning when it was struck by the 9:45 o'clock Detroit, Jackson & Chicago interurban car on the South Main street crossing. The interurban car was slowing down for the regular station stop at the time, or the accident might easily have resulted fatally.

The record of that crossing seems to prove it to be particularly dangerous as collisions between cars and automobiles are frequent, some of the most recent being as follows: October 15, 1917, Ford automobile belonging to George Miller of Manchester; November 27, 1917, automobile belonging to Herman Gross of Lima; December 29, 1917, truck owned by Chelsea Elevator Co., driven by Edwin Koebe; January 4, 1918, Ford car owned by Michael Mohriok.

## WHY FARMS ARE POSTED.

Some careless hunter shot and killed a good two-year-old heifer, due to freshen this fall, for W. J. Sawyer some time Saturday. It naturally makes Walter pretty wrathful. We pity the man who undertakes to hunt on his place from now on.—Brighton Argus.

Ypsilanti, Nov. 30.—Henry Platt had a valuable horse shot by hunters, according to a complaint made to the police Friday.

## GORMAN-THOMPSON REUNION OVERSEAS

Chelsea and Dexter Boys Meet Over in France and Have Regular Home Coming Visit.

Mr. and Mrs. J. O. Thompson of Dexter received a letter from their son, Sergeant O. S. (Spike) Thompson, Wednesday. Sergeant Thompson was employed in the Tribune office several years ago and has many friends in Chelsea and vicinity, and he mentions meeting two other boys from this vicinity, one being Galbraith Gorman, son of Mr. and Mrs. J. S. Gorman of this place. The following extract from Sergeant Thompson's letter is reprinted from the Dexter Leader:

"The first day that I was there, (base hospital) when I went into the ward, some one called to me, and to my surprise there stood old 'Dusty' Litchfield. How glad I was to see him. He was the first man from home that I had seen since I saw Roy Howard, who was returned to duty some time ago. 'Dusty' was suffering from a wound in the head, that was about as near dangerous as they get. But he lost nothing out of it, I mean his sight or hearing are still all right, and the wound will not leave a scar. He sure is a lucky boy. While I was there at the base hospital, he and I put in an afternoon down town, and all of the time we were together as we were in the same ward. I'll bet that some of the ears in the old town did ring, as we talked of everybody from one end of the town to the other. All of the old times we had together came in for a lot of conversation, too. He was still there when we left for the seminary again, but was up and around helping around the ward. I have been over to see him once since I left.

"This evening after I came from mess, a fellow at the camp said there was a red haired guy looking for me, and in a little while who should pop into the office but 'Gob' Gorman. He is stationed in a town a little ways from here with some medical detachment. He and I sure talked it all over again, and he had a lot of up-to-date news that was of interest to me, as I have heard nothing from home since the letters I got in the hospital the first of August, or about then. He said his mail came to him all right, but then he is with his own outfit and that may make a little difference. Old 'Gob' sure looks fine and I was mighty glad to see him. He and I are going over to the other place and see 'Dusty' in a few days, and then we will have to talk it all over again. It will sure be a great home coming for us."

## HORTICULTURAL SOCIETY

Annual Meeting and Apple Show Will Be Held in Detroit, Dec. 10-13.

The annual meeting of the Michigan State Horticultural society will be held in the Board of Commerce, Detroit, December 10, 11, 12, and 13.

Dr. U. P. Hedrick of New York, a recognized authority on horticulture, will discuss the subject of soils. H. J. Eustace, M. A. C., who has spent more than a year with Mr. Hoover at Washington, will discuss "What recent events mean to horticulture."

Col. C. Ousley, Assistant Secretary of Agriculture, Washington, D. C., is the speaker for Wednesday evening.

The ladies part of the program has been given especial attention this year. "Rural Recreation," "Woman's Work in National Defense," and other topics will be discussed. Miss Perkins, of M. A. C., will give each day, actual canning demonstrations and show you many new uses for the famous Michigan apple.

The auction of apples of the show will be held the last day and record prices will be established for prize winning apples.

## FROM SERGEANT NORDMAN.

The Tribune received a card Friday from Sergeant George E. Nordman, son of Mr. and Mrs. George Nordman of Lima. The card is dated November 10th and follows in part:

Dear Mr. Axtell: I suppose you think I am a fine one not writing to you before. I have been going to for a long time but never got started. I received three copies of the Tribune the other day and believe me, I was glad to get them. It certainly did seem good to read of the people at home.

I am still located in Paris and am stationed at a Red Cross hospital. I have seen a few of the Chelsea boys here. Roland Kalmbach is stationed near me and I see him often. Saw Ernest Wagner once. He is stationed just outside of Paris.

## HOT WATER FOR FARMERS.

An economical system to heat soft water in the farm home has been designed by the farm mechanics department at the M. A. C. By this plan running hot and cold water is made available at the kitchen sink at all times, and at a very reasonable cost, according to the experiments carried on by the college experts.

The system consists chiefly of an ordinary range boiler, attached to the heating coil in the range fire-box, and a small hand force pump. Installation expense is very low, due to the fact that all piping is exposed. Only one hole need be bored in the floor and that the one for the cistern feed pipe.

Drawings and detailed information regarding the system may be obtained by writing to H. H. Musselman, Farm Mechanics Department, M. A. C., East Lansing, Michigan.

## MRS. MARION H. FYLER.

Mrs. Marion H. Fyler died Friday morning, November 29, 1918, at the home of her brother, Fred E. Richards aged 93 years and five months.

In pioneer days, the parents of the deceased came from New York state and settled on a farm in Waterloo township, where the daughter, Marion grew to womanhood and was united in marriage with Sheldon H. Fyler, October 29, 1845. Mr. Fyler died 26 years ago. Of the children born to this union, three grew to womanhood, but two have been called by death, leaving Mrs. Ellen Taylor the only surviving child. Mrs. Fyler is also survived by two brothers, Fred E. and George W. Richards, both of Chelsea.

The funeral service was held from the residence Sunday afternoon at two o'clock. Interment at Michigan City, Indiana, to which place the remains were taken Monday morning, accompanied by Mrs. Taylor and her son, F. C. Taylor, of St. Louis, Mo.

## DRAFT BOARD REPORTS

Interesting Facts and Statistics Are Recorded by Washtenaw County Military Registrars.

The Washtenaw county local selective service board has been required to make a detailed report, giving a summary of the registrations and classification of all men included in the army draft for this county, with the claims allowed and the reasons for allowing or refusing claims.

Some very interesting facts and figures are to be found in that report. For instance, for the registration of June 5, 1917:

In class two, 266 claims were allowed; 108 not allowed; 68 duplicate claims.

In class three, 324 claims allowed; 257 not allowed; 83 duplicate claims.

In class four, 1,679 claims allowed; 379 not allowed; 263 duplicate claims.

In class five, 1,265 claims allowed; 167 not allowed; 6 duplicates.

In this registration there were 1,900 married men and 2,835 single men.

Of this registration:

- 917 were physically examined;
- 753 were qualified for general military service;
- 147 for special limited service;
- 17 remediable defectives;
- 838 were ordered to train;
- 781 of which were accepted;
- 31 of this registration reported as delinquents;

1277 cases of this registration were decided by the district board. In the June 5th and August 24, 1918 registration, 461 men were registered; 165 were physically examined; 123 qualified for general military service; 33 for special or limited service, and 9 remediable defectives; 94 ordered to train; 93 accepted; 138 records were forwarded to the district board.

In class two, 71 claims were allowed; 20 not allowed; 3 duplicates.

In class three, 49 claims were allowed; 26 not allowed; 3 duplicates.

In class four, 39 claims were allowed; 39 not allowed; 1 duplicate.

In class five, 126 claims were allowed.

Andrew Carnegie

World Famous Captain of Industry  
Who, aided by Scotch thrift and almost uncanny judgment, built up the biggest business the world ever saw.

ANDREW CARNEGIE ROSE FROM COMPARATIVE POVERTY TO BE THE "IRON KING OF THE WORLD." THE REASONS FOR HIS MARVELOUS SUCCESS ARE NOT HARD TO FIND.

Mr. Carnegie, while he eclipsed all world's records in the volume of his philanthropic gifts, he is essentially thrifty. When he was a young man he knew how to save a dollar and he now has the ability to take care of millions.

He got his start with money saved just a little at a time. He put a dime away here, a dollar there; soon he had amassed enough for a start.

## THE JOY OF MOTHERHOOD

Came to this Woman after Taking Lydia E. Pinkham's Vegetable Compound to Restore Her Health

Ellensburg, Wash.—"After I was married I was not well for a long time and a good deal of the time was not able to go about. Our greatest desire was to have a child in our home and one day my husband came back from town with a bottle of Lydia E. Pinkham's Vegetable Compound and wanted me to try it. It brought relief from my troubles. I improved in health so I could do my housework; we now have a little one, all of which I owe to Lydia E. Pinkham's Vegetable Compound."—Mrs. O. S. JOHNSON, R. No. 3, Ellensburg, Wash.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years experience is at your service.

## RAT IS FRIEND OF MINERS

Workers Warned of Coming Catastrophe When the Rodents Leave Tunnel—Are Fed by Men.

Investigators of mining conditions and the peculiar dangers to which miners are subjected recently have taken much interest in the practice of Western gold miners to make pets of the rats which commonly infest mines. On the mother lode of California it has been found that the miners invariably feed the rats and take care of them, believing that the rodents are a source of protection against accident, says Our Dumb Animals. This is due, the men say, to the instinct of the rats, which warns them when a tunnel is unsafe. And when the rats leave a tunnel it is almost impossible to get the miners to work there. This recalls the belief among sailors that rats will leave a doomed ship. The miners also have found that rats are much more susceptible than humans to the dangerous gases that so often cause loss of life in the mines. Long before the miners themselves are affected by these gases the rats become sick and show symptoms of distress. So the men keep close watch of the rats' good health.

Up to Date. Secretary Lane, speaking of the way in which the war has changed our viewpoint of life, tells the following: "They were to be married shortly and now they were sitting in the study meditating on the blissfulness of futurity."

"Aisy," said the girl suddenly, "every morn you bring me violets which at even you have culled, don't you?"

"I do," responded the ever faithful, "let them cost what they will."

"I've been thinking," continued the girl, "that if you would send beefsteaks and mutton chops instead it would make a lot bigger hit with father and mother, and be a lot cheaper for you, too."

Very Odd. He—Those boots look very shabby. She—They oughtn't to be. Don't they have a painter aboard?

## PRUSSIAN PLOT TO JAIL OFFICIALS NIPPED BY EBERT

WIRE TAPPING BY EBERTS SECRET SERVICE OPERATIVES LED TO DISCOVERY OF PLOT.

## PLANNED EX-KAISER'S RETURN

Agitation Was Well Financed Krupps and Other Munitions Barons Having Invested Sums of Money.

Amsterdam.—The German revolutionary government, according to estimates made by the Berlin correspondent of the Cologne Volks Zeitung, has spent \$200,000,000 in the last three weeks.

The newspaper declares a storm of renegeance has burst against corruption in Berlin which, "it is hoped, will sweep away the dishonest rabble." The newspaper continues:

"Unless resolute resistance is offered the country will be precipitated into terrible misfortune. All that can now be done for healthy regions is for them to take affairs in their own hands. On the Rhine and on the Danube there exists strong resolve to do this."

## Conspiracy Plot Nipped.

London.—A gigantic Prussian plot to jail the whole present German government and establish a provisional government under Field Marshal von Mackensen has been nipped in the bud by the Ebert government, the Daily Express learns from its Amsterdam correspondent.

"Wire tapping" by Ebert's secret service operatives led to discovery of the plot. It was this discovery that gave rise to report a few days ago a counter-revolution led by influential generals, including von Arnim, had broken out. It appears the conspiracy was frustrated in the eleventh hour.

## Would Set Stage For Wilhelm.

The plan was to urge the ex-kaiser to make a triumphal return to Berlin immediately after establishment of the "provisional government."

The chief figures behind the plot were von Mackensen, whose possible role as a "German Kornblott" was foreshadowed recently; General von Boehm, known as the German "retreat specialist," and General Slat von Arnim, who commanded the Flanders army.

One version is the coup was to be sprung immediately upon completion of demobilization. Agitation was well financed, Krupps and other munitions barons having invested large sums, since they are chiefly interested in seeing autocracy return to power.

## Autocrats Back Conspiracy.

The ex-kaiser, the whole former Prussian court, and practically all officials of the old regime, the navy league, and the pan-German league, and men like Prince von Buelow and ex-Chancellor Michaelis are said to have been in sympathy with the plot.

Field Marshal von Hindenburg refused to join the agitators, the Amsterdam dispatch says. Many arrests were made in connection with the plot.

## INVALID MEN ARRIVE AT U.S. PORT

Hospital Ship Northern Pacific Docked With 1,100 Wounded Soldiers.

New York.—The men who helped to pay the invalid price of victory in the great war are coming home, but there will be no parades for them, no march down Fifth avenue or any other avenue between lanes of cheering hero worship crowds.

The hospital ship, Northern Pacific docked at Hoboken with 1,100 wounded soldiers and marines on board, including 40 officers. She steamed slowly through the Narrows after dark, hours late because of heavy head winds.

For returning heroes there was none of the martial pomp which sent them away. A few of the "walking wounded" lined the rail as the vessel came abreast the Statue of Liberty and there was a feeble cheer as Bartholdi's emblem of freedom welcomed them to the harbor.

On the way in they passed the giant Mauretania, at anchor in Gravesend bay, crowded with the troops returning from training camps in England.

Five hundred of those aboard the Northern Pacific are badly wounded, but most of the others were able to hobble about the ship on the voyage across.

## War Cemetery Is Given British.

London.—Vast stretches of land for cemeteries for victims of Ypres and Somme battles have just been accepted by Great Britain from Belgium and France. Similar arrangements have been made between Great Britain and Italy and Greece for the fallen British fighters on the Italian and Balkan theaters. The Imperial Graves commission is about to undertake the great task of exhumation and reburial of 400,000 bodies in France and Belgium.

## RECEIVING WAR CROSS

The patriotic spirit and devotion with which American women have so far performed war-service work and made sacrifices has never been equaled in the history of any country. Mothers, wives and sisters support this burden with strength and fortitude. But those who are already miserable

from the complaints and weaknesses which are so common to women, should take the right tonic for the womanly system.

If a woman is borne down by pain and sufferings at regular or irregular intervals, by nervousness or dizzy spells, by headache or backache, "Favorite Prescription" should be taken. "Favorite Prescription" can now be had in tablet form as well as liquid at most drug stores. Send to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., for a ten-cent trial package of tablets.

For fifty years Dr. Pierce's Pleasant Pellets have been most satisfactory in liver and bowel troubles.

Stanwood, Mich.—"I have taken Dr. Pierce's Favorite Prescription and find no other medicine has done me so much good. I was a total wreck, was not able to do any work and my nerves were in such condition that if anyone spoke to me I would jump and scream. I have taken five bottles and am feeling fine, can do all of my housework and not feel tired out. I owe all this to the 'Prescription.' I shall never forget to praise Dr. Pierce's medicine. Give it a trial sisters, and you will never be without it!"—Mrs. Vina Olin.

## HAVE NO USE FOR SHOES

Natural Antipathy Displayed by Natives of Africa to Any and All Kinds of Footwear.

Among native African men living near mission stations boots are often worn on Sundays to go to church in, or rather with, for the footwear is almost invariably carried slung over an arm or shoulder, this being more comfortable for the feet and less wearing on the boots. Still, on nearing the church, they are put on with much seriousness and importance; the more shuffling and noise they make the better, and should a pair creak badly the joy of the wearer and envy of his friends are beyond all description.

"This natural antipathy to wearing boots," says Professor Holloway in the Wide World, "does not apply to South Africa. In some colonies where native troops are supplied with boots when on the march, they will beg the officer's permission to walk barefoot and in comfort. I remember a cool-black Sudanese, a fine old soldier well over six feet, who was doorkeeper at a friend's house in Khartoum. Whenever I called after saluting he would solemnly put on his boots before taking my card and on his return immediately take them off, and in his deep voice rumble out whether or not his master was at home. He was quite under the impression that this was the correct thing to do."

## The Mental Urge.

What a man thinks sets the limits to his ability. Life is not so much a lottery as a proof of self-estimates. It's facing the facts that are, with confidence of what ought to be. When the world hollers "down" the man fit to lead crawls from under the scumline and scampers over the goal line. It's not the "sure thing," but the thing man makes sure who writes his name on fame's tablets and erects victory arches to his memory. Mental might is the reaction of self-discovery proved by conduct. A few mounting cycles reveal the bee line and nothing can hinder the resolute soul from winging toward its merited destination. Folks call it luck, good fortune and a thousand pet names when it's just right thought "kept again!"

## World's First Opera.

The world's first sinuous-pure opera was "Dafne," the libretto by Rinaucini and the music by Peri. The performance was given in Corsi's palace, Florence, and the production, which was private, was either in 1595 or 1597, authorities differing on this point. "Euridice," with the libretto by Rinaucini and music by Peri and Caccini, is generally supposed to have been the first serious Italian opera given a public performance. This was at the Pitti palace, October 6, 1600, and the occasion was the marriage of Maria de Medici to Henry IV of France.—San Antonio Express.

## Races Becoming Acquainted.

The old and immemorial dislike of one race for another had its birth in ignorance. It arose and continued because the races did not know one another well enough to be friends.

It is a pleasant thought that if the railroad, the steamship and the open door of the world has done no more for us than to bring us all closer together in a better understanding and a kinder and more sympathetic association, they were innovations in life that were destined to work a greater miracle than the mere mechanics of which they are constituted.

## Secret of Bird's Flight.

There are secrets in the flight of birds, which, when discovered, will probably revolutionize the airplane. How, for instance, does the seagull, to give a very familiar example, manage, after planting down on outstretched wings, to rise without any perceptible propelling motion? You can see this for yourself any day on the Thames embankment and you can ask the most expert aviator or the most learned professor of theoretical aerodynamics without obtaining any solution of the mystery.—London Chronicle.

## Many School Children are Sickly.

## MOTHER GRAY'S SWEET POWDERS FOR CHILDREN

Pleasant to take and give satisfaction. A certain Relief for Feverishness, Constipation, Headache, Teething and Stomach Disorders and remove Worms. They tend to break up a cold in 24 hours, act on the Stomach, Liver and Bowels and tend to correct intestinal disorders. Over 10,000 testimonials of relief.

Read a few extracts from the hundreds of unsolicited letters we receive every year, the originals of which are on file in our offices:

"I think MOTHER GRAY'S SWEET POWDERS FOR CHILDREN are grand. They were recommended to my sister by a doctor. I am giving them to my little three year old girl, who was very puny, and she is picking up wonderfully."

"I received a sample of MOTHER GRAY'S SWEET POWDERS FOR CHILDREN some time ago. I tried them for both my babies and found them to be a great cure for worms. The babies like to take them and cry for more."

"I am using MOTHER GRAY'S SWEET POWDERS as directed, and have no trouble in giving them to the children as they are much nicer to take than oils or syrups. I will always keep them on hand."

"We have used MOTHER GRAY'S SWEET POWDERS FOR CHILDREN at different times for past nine years, and always found them a perfect children's medicine and very satisfactory in every case."

"I think MOTHER GRAY'S SWEET POWDERS FOR CHILDREN are the best thing I have ever used, and my little boy has not had a sick spell since I have been giving him the Powders."

Used by Mothers for over thirty years.

Do Not Accept Any Substitute for MOTHER GRAY'S SWEET POWDERS.

## An International Service Built on Tiny Profits Per Pound

Some industries have been able to get in step with war demands more quickly than others.

In many cases mighty plants have sprung up—but at a prodigious cost.

The packing industry was able to adapt itself to unheard of demands more quickly, perhaps, than any other industry. And this was because the vast equipment of packing plants, refrigerator cars, branch houses, etc., had been gradually developed to its present state of efficiency, so that in the crucial hour it became a mighty international system for war service.

## And how had this development taken place?

Not by making vast inroads into the capital wealth of the country, but largely by using, from year to year, a portion of the profits, to provide for expansion.

Swift & Company's profits have always been so tiny, compared with sales, that they have had practically no effect on the price of meat (amounting to only a fraction of a cent per pound).

And yet the owners of the business have been content with reasonable returns on their capital, and have been able, year after year, to put part of the profits back into the business to provide for its expansion.

These fractions of tiny profits have been repaid to the public many fold in the form of better service, and better and cheaper meat, and made it possible for Swift & Company to meet, undaunted, the sudden cry for meat for overseas.

Could any other method of financing a vital industry involve less hardship to the people of the country? Could there be a better instance of true "profit-sharing" than this return in added usefulness and in national preparedness?

## Swift & Company, U. S. A.

## Boys Will Boast.

A boy was bragging to a playmate that his grandfather fought in the Civil war.

"What of it?" said the other.

"He has a hickory leg," rejoined the first.

"That ain't nothin'," said the other; "my sister has a cedar chest."

**ANN ARBOR**—One more Ann Arbor boy who has been wounded and sent to America is William Schable. He arrived Sunday at a debarkation hospital in Hampton, Va. The young man was badly injured in the back by machine gun fire and an operation became necessary. He expects to be well enough soon to be invalided to a hospital nearer his home.—Times-News.

**JACKSON**—Frank Hard, 33, paroled inmate from Jackson prison, died Monday of alcoholism, according to the doctor. It was said that Hard had consumed 26 gallons of hard cider in two weeks. He was paroled November 16, 1918, and went to work on the Ira Weinbeck farm in Spring Arbor township, the Weinbecks residing in the city. Mrs. Weinbeck found him ill Saturday night and a physician called Sunday morning and again in the afternoon. He was ordered removed to Mercy hospital, but died on the hospital elevator.—News.

### LINER ADS EFFECTIVE.

One of the most effective forms of advertising is in the "liner" or classified column where an investment of a few cents is certain to give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

### CARD OF THANKS.

### Few Escape.

There are few indeed who escape having at least one cold during the winter months, and they are fortunate who have but one and get through with it quickly and without any serious consequences. Take Chamberlain's Cough Remedy and observe the directions with each bottle, and you are likely to be one of the fortunate ones. The worth and merit of this remedy has been fully proven. There are many families who have always used it for years when troubled with a cough or cold, and with the very best results. Adv.

### TUBERCULOSIS FIGHTERS JOIN WITH RED CROSS

Fifteen hundred anti-tuberculosis associations in every state in the Union have set aside their ordinary work and are giving their time and attention during the next month to the Red Cross Christmas Roll Call, according to an announcement from the headquarters of the National Tuberculosis Association.

Instead of the usual sale of Red Cross Seals which has been conducted for the last ten years jointly by the National Tuberculosis Association and the American Red Cross, this coming year the tuberculosis movement will be supported by a direct appropriation of \$2,500,000 from the Red Cross, and in turn all of the machinery of the tuberculosis campaign will be turned into helping swell the membership of the American Red Cross in an effort to enroll every man and woman in the country.

In every state there is a well organized state organization, and under it there are strong local branches. These trained workers will co-operate with the Red Cross chapters in their community and will endeavor to organize their districts so that no one can escape solicitation. Universal membership in the Red Cross will be the aim.

### RED CROSS AIDS FARMING IN ITALY

Through efforts of the American Red Cross scientific farming is now being taught the younger generation of Italy, thus eliminating considerable waste and replacing old-fashioned implements with modern American-made machinery.

Schools of agriculture have been established, and the Department of Civil Affairs of the American Red Cross, co-operating with a similar Italian organization, known as the "Comitato per gli Orfani de Costadini Morti in Guerra," has opened a school of farming, conducted by Salesian Fathers, in fields just outside the Porta Furba, one of the historic gateways of Rome.

The boys of the school, all orphans of peasant soldiers, are given training in scientific and practical farming, the object being to strengthen their attachment to the soil, also to convert them into good and intelligent farmers. Lectures and classroom instruction are accompanied by field work with modern tools under the direct supervision of the younger Fathers of the Institution, who work side by side with the boys in the fields, teaching and demonstrating.

Do you remember when food control by voluntary action was deemed a daring adventure in democracy?
