Federal Reserve Board Looks to
Farmer for a Generous Support
of the Coming Victory
Liberty Loan.

The United States Congress has appropriated \$1,000,000,000 to guarantee the American farmer \$2.26 a bushel for his 1919 wheat crop, a price which is \$1 a bushel more than he might reasonably expect if American wheat was thrown on the market to compete with Argentine, Australian and Indian wheat. The American farmer has responded to the government's guarantee by pledging the production of millions of bushels more wheat than he has ever grown before, according to officials of the United States Food Administration's Grain Corporation.

The American farmer has never been in better financial condition, the officials say. The report of the Federal Reserve Board shows that the 1918 farm crop added \$17,000,000,000 to the wealth of the country. The crop alone put \$3,528,313,000 in the farmer's pocket. Hay added \$1,500,000,000 to the farmer's income. Apples brought him \$230,000,000. Oats sold on the farm for something over \$1,000,000,000.

The guaranteed price of wheat will not only assure the farmer a profit on wheat, but will also sustain the prices on other farm products. Food Administration officials point out. With the return of an abundance of labor, the farmer is assured a highly prosperous year.

"Sixty thousand American lads, many of them farmer boys, gave their lives for the freedom of democracy," said an official of the United States Food Administration. "Had the war continued throughout next summer, as our military chiefs believed it would, two hundred thousand Americans and many more hundreds of thousands of their compatriots would have been sleeping in Flanders' fields and beneath the soil of France and Lorraine."

"That these lives were spared was due in a large measure to the lavish expenditure of the United States government in assembling men and munitions to crush Germany. Most of the men and even less of the material of war was never used. Yet the mighty preparations of our government forced the Germans to cry 'Kamerad!'"

"The American farmer's sons are coming home for the most part unscathed. For this the American farmer is duly grateful. From his abundance from the past year and from his assured prosperity for the coming season, he should and will set a new record, a Thanksgiving record, in his subscription to the Victory Loan."

BIG TRACTOR DEMONSTRATION.

Under the supervision of the Washtenaw County Farm bureau a big tractor demonstration is being planned for Friday, April 25th. The demonstration will be held at the E. J. Wagner farm on the Ann Arbor-Dexter road, five and one-half miles west of Ann Arbor, and about ten miles east of Chelsea.

The field management of the demonstration will be in charge of Professor Musselman of the Farm Mechanics department of the Michigan Agriculture college. Each tractor will be given a definite area of land to plow and all the tractors entered will begin work at the same time. This will give an excellent opportunity for all farmers interested in tractors to see the different machines operating under the same field conditions. The forenoon will be given over to the different companies to demonstrate the merits of their machines. In the afternoon at 1:30 the competitive plowing contest will start. Each tractor will plow about two acres of sod land.

The following machines have signified their intention of taking part in the demonstration: Avery, Titan 10-20, I. H. C. 8-16, Cleveland, Fordson, Moline, Case, Emerson, Hart-Parr, and the Huber.

DEXTER—During the electric storm Sunday night lightning struck the barn of Patrick Fitzsimons, in the village. It stripped two rows of shingles about a foot wide and two or three feet apart from the ridge to the eaves, but no further damage was done.—Leader.

HILLSDALE—The school teachers of Hillsdale held a meeting this week and decided to sign no contracts for the coming year at the present salaries. A feeling of dissatisfaction has been felt for some time past, as the pay is said to be inadequate to meet the ever soaring cost of living. Investigation has shown Hillsdale pays less than sister cities of the same size. Even much smaller places, in fact, are readily agreeing to substantial increases for another year in both the high school and grades.

WASHTENAW CO. "Y" IS AMONG LEADERS

Secretary Reiman Has Been Engaged for Another Year; Budget of \$3,775 is Adopted.

Washtenaw county stands among the first in Y. M. C. A. work although organized only eleven months, according to District Secretary Walter Gossill at the meeting of the County Executive committee. It stands third in the number of boys actively engaged in groups and clubs, among 32 other counties, most of which have had the work several years.

The work among the boys of the county promises to be even larger during the coming year. The County Committee met Thursday evening to outline what will be done during the next twelve months. Much optimism was expressed by the men in view of what had been done during the past eleven months.

L. C. Reiman was hired for the year by unanimous vote of the committee. A budget of \$3,775 was adopted to carry on the regular work and to provide for its extension to other parts of the county. A plan for county-wide membership of men as well as boys is being worked out, whereby benefits of the "Y" will be extended to all.

Demobilization Comedy.

Queer things happen in demobilization, remarks a writer in London Evening Standard. For example, here is the case of Smith and Brown. Brown is the head of the "one-man business." Smith is his employee. Brown applies, successfully, for the discharge of Smith as a "slip" man. But his own application, on the ground of "one-man" business, was disregarded. Thus Smith is at liberty without a job; Brown, who had a job to offer him, is still in khaki.

LEIPZIG STUDENTS TO BATTLE REDS

STUDENTS VOTED UNANIMOUSLY TO CLOSE UNIVERSITY AND JOIN DEFENSE FORCES.

BAVARIA TURNS AGAINST REDS

It Is Considered Probable That Saxony Will Be Next to Proclaim a Soviet Government.

Leipzig—The students have voted unanimously to close the university and enlist in the border defense forces. They urged all the German high institutions of learning to do likewise. The faculty of the university concurred. In the event that the situation quieted down the university will reopen May 15.

Leipzig is the largest city in Saxony and the university there, founded in 1409, is the third largest in Germany. In normal times being attended by more than 4,000 students.

Munich Soviet Dwindles. Berlin—Sentiment among a large proportion of the people of Munich and of almost the entire remainder of Bavaria is growing steadily against the alleged ruthlessness, incompetence and strange methods and decrees of the new Soviet regime.

Hatfield, Schwinfurt, Furth and Augsburg have capitulated to the old regime and disavowed the allures of the Soviet which led them temporarily from the fold.

Other towns are expected to return to the old alliance soon, leaving the communists to face the opposition of the bourgeoisie in Munich on the one hand and of the peasants on the other. Saxony Faces Red Peril.

Weimar—The Bavarian government has sent Deputy Vogel of Furth to Munich as its representative. He is charged with entire civil and military authority in Munich. All Soviet decrees have been annulled. The government at Munich was overthrown by the garrison. It is considered probable that Saxony will be the next section of Germany to proclaim a Soviet government. The independents are known to be planning such a move, though parliamentary circles do not believe the danger is acute. A general strike has been called in the coal sections of Zwettkau and Dugau.

WAR COST CANADA OVER BILLION

This Does Not Include Money Raised By People for Patriotic Funds.

Ottawa, Ont.—By the end of the present fiscal year the war will have cost the Dominion government \$1,500,000,000. This does not of course, include huge sums raised by the Canadian people of the provincial governments for the Patriotic fund and Red Cross organizations nor does it take into account the great contribution Canada made in the cause of Liberty namely the lives of 60,000 of the flower of her manhood.

Details of the war expenditures of the federal government were given in the house of commons by the minister of finance Sir Thomas White. The total expenditure for each year since the outbreak of hostilities was as follows:

1914-5	\$ 60,750,476.01
1915-6	166,197,755.47
1916-7	306,488,814.63
1917-8	343,336,801.98
1918-9	347,824,274.27
1919-20	256,696,514.00

Sir Thomas said that when the figures for 1918-19 were completed the total for that year would be approximately \$400,000,000. The grand total therefore for the six years, or up to the end of next March will exceed \$1,573,970,462.

He explained that the overseas minister of militia has asked for \$45,000,000 dollars to cover an increase in the allowance to the British government on account of rations, ammunition, forage, etc., furnished to the Canadian forces in the field.

58 SLAIN IN EGYPTIAN RIOTS

Armenians Were Chiefly the Object of the Mob's Attack.

Cairo, Egypt.—In two days of rioting here, 58 persons were killed and 100 wounded. It is announced in official communiques. Armenians were chiefly the objects of the mob's attacks, and seven of those killed were of that nationality. In rioting in Alexandria three persons were killed and six injured seriously and 17 killed. Five British soldiers, including two unarmed Indians, were murdered.

Jackson Prison Investigations.

Lausang.—The results of the Michigan State Prison investigation at Jackson were practically nullified by the Senate through a resolution introduced by Senator J. Mark Harvey, Constantinian, a member of the Joint investigating committee, substituting his recommendations for the plan prepared by the other four members. The Harvey report advised the Legislature to leave the system of managing the prisons of the state as it was before the disclosure of law violation.

HAIG TERMS 1914 VICTORY 'MIRACLE'

FIELD MARSHAL HAIG.

London.—Field Marshal Haig in a supplementary report on the military operations of the war says:

"The margin by which the German onrush in 1914 was stemmed was so narrow and the subsequent struggle so severe that the world 'miraculous' hardly is overstrong to describe the recovery and the ultimate victory of the Allies.

"There is no question that the British general unpreparedness was responsible for the loss of many thousands of brave men."

NATION WIDE CAMPAIGN FOR THE EMPLOYMENT OF SOLDIERS LAUNCHED

Pulpits of Methodist Churches To Be Occupied on May 4 By Minute Men to Start The Work Movement.

Detroit—More than 100,000 Minute Men of the Methodist Missionary Centenary movement May 4 will launch a nation-wide campaign for the employment of soldiers. More than 5,000 of the big force will campaign the state of Michigan alone.

The Minute Men force was organized to spread the Centenary idea. It has been offered to the government and eagerly accepted for the coming Victory Loan campaign and will combine efforts in selling bonds with obtaining positions and preaching the Centenary.

Bishop Theodore S. Henderson, head of the Detroit Area, is father of the idea of putting the big force of men to work in behalf of the returned soldiers out of employment. He has organized the Michigan campaign by placing A. J. Stock, well known Detroit business man, at the head and naming Lieut. O. G. Ragan, army chaplain, as field secretary.

Complete details for the plan has been worked out for Michigan by Bishop Henderson, Mr. Stock and Chaplain Ragan. Minute Men will talk from every Methodist pulpit in the state May 4. They will urge everyone who knows of any position that is vacant or has any employment himself to offer to make a report of it at once. Reports will be forwarded to United States, state, municipal or Y. M. C. A. employment agencies. Members of the churches then will obtain names of soldiers who are unemployed.

With 100,000 men making speeches simultaneously throughout the United States urging everyone within their hearing to go out and find work for soldiers, Bishop Henderson believes, immediate results will be obtained.

Chaplain Ragan believes a most conservative estimate of the average attendance in the 100,000 audiences would be 100. On this basis, he asserted, the Minute Men will talk to 10,000,000 persons in every part of the United States May 4 and they will continue talking every day during the employment campaign is on.

The Minute Men will put the question of giving work to soldiers squarely up to the people of the United States as a patriotic duty from which they cannot escape without shame. As a result it is expected that throughout the country the campaign will be taken up by others and carried on until an employer of labor who has work to be done and who doesn't go out eagerly searching for a soldier to do it will be a most unpopular person.

Bishop Henderson is of the opinion that thousands of soldiers will be put to work immediately as the result of the first broadcast of the Minute Men May 4. He believes that with the complete organization formed throughout the country for the Centenary \$105,000,000 financial drive, working for the soldiers right up to the time the drive starts May 18, the soldier unemployment problem will be solved.

Krupp Plant Seized.

Berlin.—Government troops are reported to have entered Essen and to have occupied the Krupp plant, which previous reports said had been seized by the Essen strikers. The troops posted artillery and machine guns at the plant entrances. The result of the intervention by the government forces, the advisers state, was that two-thirds of the workmen resumed their labors. The people of Essen, the messages add, became greatly excited when the troops threw grenades.

SUMMARY OF REVISED NATIONS' LEAGUE TEXT

(1) The League of Nations is founded in order to promote international co-operation and to secure peace. The League will include (A) The belligerent states named in a document annexed to the covenant, (B) All the neutral states so named and (C) in the future any self-governing country whose admission is approved by two-thirds of the states already members of the League.

A state may withdraw from the League providing it has kept its obligations to date, on giving two years' notice.

Acts Through Assembly. (2) The League will act through an assembly comprising not more than three representatives of each of the member states, each state having only one vote and a council comprising for the present one representative of each of the five great powers and each of four other powers as selected from time to time by the assembly.

The number of powers of each class represented on the council may be increased by the unanimous consent of the council and a majority of the assembly. Other powers have the right to sit as members of the council during the decision of matters in which they are especially interested.

In the council as in the assembly each state will have only one vote. Both these bodies are to meet at stated intervals (the council at least once a year) and at other times if required; both can deal with any matter that is of international interest or that threatens the peace of the world; the decision of both must be unanimous except in certain specified cases, matters of procedure, for instance, being decided by a majority vote.

The League will have a permanent secretariat under a general secretary. The secretariat and all other bodies under the League may include women equally with men. A permanent court of international justice and various permanent commissions and bureaus also are to be established.

(3) The member states agree (a) to reduce their armaments, plans for such reduction being drawn by the council, but only adopted by the consent of the states themselves and thereafter not to increase them without the concurrence of the council; (b) to exchange full information of their existing armaments and naval and military programs; (c) to respect each other's territory and personal independence and to guarantee them against foreign aggression, and (d) to submit all disputes either to arbitration or to inquiry by the council, which latter may not pronounce an opinion on any dispute whose subject matter falls solely within a state's domestic jurisdiction; in no case to go to war until three months after an award, or an unanimous recommendation has been made and even then not to go to war with a state which accepts the award or recommendation; (e) to regard a state which has broken the covenant as having committed an act of war against the League, to break off all economic and other relations with it and to allow free passage through their territories to the troops of those states which are contributing armed force on behalf of the League. The council is to recommend what amount of force, if any, should be supplied by the several governments concerned, but the approval of the latter is necessary. (States not members of the League will be invited to accept the obligations of the League for the purpose of particular disputes and if they fail to comply may be forced.); (f) not to consider any treaty binding until it has been communicated to the League, which then will proceed to publish it, to admit the right of the assembly to advise the reconsideration of treaties and international relations that do not accord with present needs and to be bound by no obligations inconsistent with the covenant.

Safeguards Monroe Doctrine.

(4) The covenant does not affect the validity of international engagements such as treaties of arbitration or regional understanding like the Monroe doctrine, for securing the maintenance of peace.

(5) The former German colonies and the territories of the Ottoman empire are to be administered in the interests of civilization by states which are willing to be mandatories of the League, which will exercise a general supervision.

(6) The member states accept certain responsibilities with regard to labor conditions, the treatment of natives, the white slave traffic, the opium traffic, the arms traffic with uncivilized and semi-civilized countries, transit and trade conditions, public health and Red Cross societies.

(7) The League is recognized as the central body interested in coordinating and assisting international activities generally.

Would Bar Dissenters.

(8) Amendments to the covenant require the approval of all the states on the council and a simple majority of those in the assembly. States which signify their dissent from amendments thus approved are not bound by them but in this case cease to be members of the League.

VICTORY ISSUE PUT AT 4 1-2 BILLION

SECRETARY GLASS SAYS THIS IS THE LAST LIBERTY LOAN TO BE FLOATED.

INTEREST RATE 4 3-4 PERCENT

Maturity Set At Four Years, But May Be Three If Treasury Desires Says Secretary of Treasury.

Washington.—Terms of the Victory Liberty loan were announced by Secretary Glass. They are: Amount, \$4,500,000,000; over-subscriptions to be rejected.

Interest on Loan.

Interest, four and three-quarters per cent for partially tax exempt notes, convertible into three and three-quarters per cent notes wholly tax exempt. Maturity, four years, with the treasury reserving the privilege of redeeming the notes in three years.

The three and three-quarters per cent notes, to be issued later, also may be converted subsequently back to four and three-quarters per cent notes.

The four and three-quarters per cent securities are to be exempt from state and local taxation, excepting estate and inheritance taxes and from normal rates of federal income taxes. The three and three-quarters per cent securities are exempt from all federal, state and local taxes except estate and inheritance taxes.

Smaller Than Anticipated.

The size of the loan was much smaller than had been anticipated by most financial observers, who looked for an issue of about \$5,000,000,000 particularly in view of Secretary Glass's past statements that the loan would be \$5,000,000,000 or \$6,000,000,000.

This will be the last Liberty loan, Secretary Glass explained, although there will be other issues of government securities to finance belated war expenses. These will not be floated by popular campaigns.

None of the past issues of Liberty bonds is convertible into Victory Loan bonds, and there are no specific provisions in the terms of the Victory issue serving directly to maintain market prices of past issues.

Drive to Continue 3 Weeks.

In many communities the selling campaign already has begun actively, without formal acceptance of subscriptions, said reports today to the treasury, although the official opening date is April 21, one week from tomorrow. The drive will continue three weeks until May 10.

FRANCE GIVEN MINES OF SAAR

Premier Clemenceau Tells Radical Socialists They Will Win Their Aim.

Paris.—Premier Clemenceau told a deputation of the radical socialist group, which called upon him, that the question of reparation by Germany had been settled among the Allies a few hours previously on a basis that would satisfy the desires of the deputation as these had been presented to him, and that the same could be said for the negotiations concerning the Saar valley.

The deputation was headed by Deputy Rene Renoult, who set forth to the premier that the group considered it of great importance that the League of Nations should be organized, theoretically and practically, in such a way as to prevent in future any attempt against the security of the world and the independence of its people.

The group, said its spokesman, demanded no less hopefully the granting of immediate material guarantees that France should be protected as far as possible from any fresh aggression. To reach this end the group considered two things necessary—a strongly organized frontier and the disarmament of Germany, the permanency of which should be secured by continuing control.

Concerning reparations, the minimum requirements formulated by the group comprised placing the coal mines of the Saar basin at the disposal of France, while it contended that complete reparation must be obtained for all damage to persons and property and provision made for payment from enemy funds of all war pensions.

Premier Clemenceau replied that he agreed with M. Renoult. They were animated by the same feeling, the premier declared, and it gave him great joy to be able to announce that since the day previous the question of reparation had been settled among the Allies on the basis which the group considered necessary for France.

WHAT HE WANTED TO KNOW

Information, Not Money, Was the Thing That Farmer Required From Offending Automobilist.

"One day," said Representative Dutton of Bingham, Me., to the committee on ways and bridges the other day, when he was explaining to them how narrow the road was in certain parts of Caratunk plantation—"one day there was an old fellow driving into market with a load of stuff. As he came along to one of those narrow places, an automobile came up. His horse was frightened, shied and over the side went the rig, falling a distance of about 15 feet.

"It scratched the horse up considerably, smashed the wagon, made an omelet of the eggs and ruined the pumpkins and other stuff. It made a great mixup.

"The old fellow stood ruefully gazing at the wreck, after he had extricated himself from the mess.

"Being in a hurry, as most of those chaps are, and anxious to be on his way, the automobilist said: 'I'm in a hurry, and while I'd like to wait, I can't, so if you'll tell me how much you want me to give you, I'll pay and be on my way.'

"The old fellow looked at him about a minute and then he exclaimed: 'How much had you ought to give me? Mister, if you'll just tell me how'n't I'm going to get that horse back in the road I'll give you \$5!'"

MUST PAY FOR OPPORTUNITY

Those to Whom Good Fortune Comes Usually Have to Make More or Less Sacrifice.

Lack of opportunity is the lack we most frequently bewail. Yet those at whose door opportunity seldom knocks and upon whom it bestows only the most grudging gifts may still cherish some consolatory reflections. Opportunity never presents itself to any one as a wholly munificent fairy; it always manages to exact some sacrifice for the benefits or advantages that it promises to confer. And usually the sacrifice is more or less commensurate with the opportunity. The man who laments the rut in which he must travel finds when the opportunity to struggle out of it occurs that disturbing consequences follow; breaking of ties that on being threatened take on a sudden new formidableness. The step upward means nearly always a step away from the old associates and the old associations. So many deferred considerations are suggested in the advances that opportunity makes that everyone can well appreciate the remark of a successful man: "I believe that some of my unhappiest times were those when I was given a chance to get ahead."—Exchange.

In the Spring-time

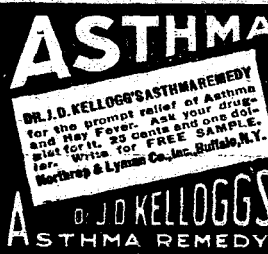

It's just at this time of the year that we need something taken from Nature to restore the vital forces.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill.

Dr. Pierce, of Buffalo, N. Y., long since found herbs and roots provided by Nature to overcome constipation, and of these he selected Mayapple, leaves of Aloe, root of Jalap, and from them made little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. When your intestines are stopped up, poisons and decayed matter are imprisoned in your system and these are carried by the blood through your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a dose of castor oil, or something which is more pleasant, a few of Dr. Pierce's Pleasant Pellets, which he has placed in almost every drug store in this country for your convenience and health. Try them by all means. They are probably the very thing you need.—right now.

Goodbye to that headache, tired or dizzy feeling, rheumatism, heart or liver trouble. Three D's in name—show shows here. At all drug stores.

"I dearly love rich and costly things," remarked Mrs. Gabriel, boastfully, to her friend in the street car. "They seem to satisfy my sense of the beautiful and the esthetic. For example, I am wearing my new hat, which cost me \$35. I find a keen delight in knowing that people have so far appreciated my taste as to turn around and gaze after me. I know they were inwardly commenting on how very becoming it was."

"Perhaps that is the reason," responded her friend, "but I am inclined to think it was because there is a \$2.98 price mark still hanging to it."

'Movie' Targets.

A new use for motion pictures is to provide a target for marksmen, with a pictured bird instead of a live one; or, for that matter, with big game moving in a jungle, and an airplane in the sky. The device, which seems to offer plenty of opportunity for innocently thrilling experiences, is said already to be in preparation to supplant the older type of shooting gallery at outdoor summer resorts in the United States, and the present interest in gunnery seems likely to carry it all over the country.

LET US STAND BY DEAR OLD UNCLE SAM.

Uncle Sam is asking for a Victory Liberty Loan to clinch the stupendous demonstration that moral force, not military force, is to rule the world. We must care for our army of occupation and bring it home; we must reconstruct and rehabilitate those who have been wounded and blinded in defense of the right. This is to be a Loan of Thanksgiving, and the response should be more hearty and joyous than the response to any of the preceding Loans. Uncle Sam has helped to save the world for Liberty and Civilization. Let us give him the wherewithal to complete the job.

HELP "FINISH THE JOB."

The proceeds of the Victory Liberty Loan are to be used to bring out soldiers and sailors back and restore them to the useful occupations of peace. Every true-blue 100 per cent American should have a part in this work.
