

## DATA FOR GOVERNMENT TOPOGRAPHIC MAPS

United States Geological Survey Has  
Party of Surveyors Working in  
Chelsea and Vicinity.

A party of three surveyors from the United States Geological Survey of Washington, D. C., is making a survey of the country in this vicinity preparatory to making a topographic map of this vicinity of quadrangle.

The United States Geological Survey has been engaged in making a topographic map of the country since 1892, and has already completed a considerable part of the work. The eastern part of the county about Ann Arbor and as far west as Four Mile lake was mapped several years ago, but for some reason the western part of the county was never surveyed until now.

The features shown on the maps are: Water, including seas, lakes, ponds, rivers and other streams, canals, swamps, etc.; relief, including mountains, hills, valleys, cliffs, etc.; culture, i. e., works of man, such as towns, cities, roads, railroads, boundaries.

Relief, or elevations or depressions, are indicated on the maps by contour lines printed in brown. The datum or zero of elevation is sea level. The nature of a country, whether flat or hilly, may be readily ascertained

from the maps by noting whether the contour lines are close together or far apart, the former, indicating steep slopes and the latter a gentle rise.

The surveyors are making their headquarters at the Crescent hotel and expect to be occupied in this quadrangle for a number of weeks, part of the time with a larger force.

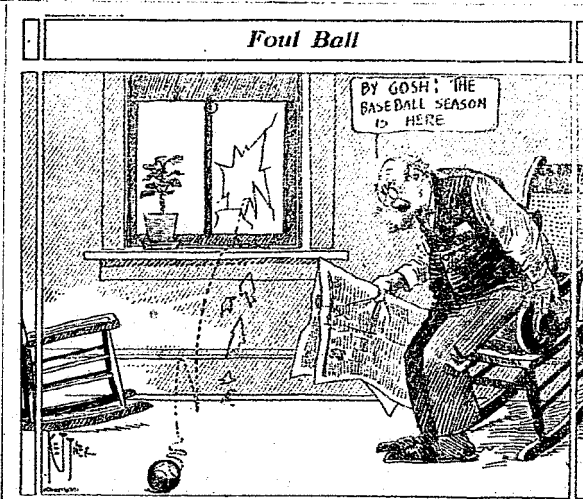

## SOLD VICTORY BONDS

Former Chelsea Girl Champion Bond Saleswoman in Detroit P. O.

Margaret Howe, daughter of Mrs. M. J. Howe of Detroit and granddaughter of Mr. and Mrs. James Wade of this place, has made an enviable record as a Victory bond saleswoman in Detroit during the past week. Regarding her achievements the News said in Thursday's issue:

"Miss Margaret Howe is the first woman to serve on a committee representing the employees of the Detroit postoffice. She is a Victory bond saleswoman competing with a number of men in selling bonds to postal employees at the main postoffice."

"When Postmaster William J. Nagel appointed a committee of postal employees to solicit bond subscriptions his attention was called to the large number of woman clerks and carriers now in the postal service due to the war. He decided on the appointment of Miss Howe, whose record as a let-

ter distributor equals that of veteran male clerks. She has succeeded in setting a pace in bond soliciting for the other committeemen.

"While women have been in the employ of the postoffice as clerks since the Civil war, men have monopolized the committees from that time."

## BOYS' CONFERENCE WAS BIG SUCCESS

Upwards of Forty-Five Visiting Lads Here; Next Year's Conference Will Be in Ypsilanti.

The Sixth Annual Conference of Washtenaw County boys, held here Friday and Saturday, was a big success in every way. Over 45 boy delegates were present from various parts of the county and there was nearly as many more from Chelsea and vicinity who registered and attended the conference meetings.

The big social event of the conference was the banquet Friday evening in Maccabee hall. About 115 boys and men were present to partake of the fine repast and to enjoy the following speeches, music by the Rotary Club Orchestra of Ypsilanti, and solos by Mr. Carl Lindgren of Ypsilanti.

Glenn Brooks of Chelsea presided at a brief business meeting immediately following the banquet. It was decided to hold next year's conference in Ypsilanti. Upon the recommendation of the nominating committee officers for the ensuing year were elected as follows: President, Glenn Brooks of Chelsea; first vice-president, James Orr of Ypsilanti; second vice-president, Walter Lawson of Milan; secretary, Hudson Morton of Ann Arbor.

## JARRED LOOSE OUR RESPECT.

The editor of the Tribune was raised in Howell and naturally takes considerable interest in his "old home" town, but we'll say right here and now that a whole lot of respect for the place was jarred loose from us Sunday afternoon when we drove over some of the frightful streets in that city, streets that in years past were good and smooth and over which we used to pump our bicycle in comparative ease. Now those same streets are the worst we have ever ridden over in any town, village or city. And really there is no excuse for the condition of the streets in Howell, except a spirit of indifference, as the same condition has been allowed to exist for several years past. Howell's commercial club might well give the matter some attention, we'll say!

## FINISH TRUNK ROADS.

Jackson county will complete its main east and west trunk line highway this summer. Only three comparatively short gaps remain to be built, or a total of 13.3 miles. These pieces of road lie between Jackson and Grass Lake, Jackson and Parma, and Parma and Albion. The gaps will be filled with some permanent type of road of either cement, brick or like material.

It will be Washtenaw's turn next to build through Sylvan township along the territorial road to join up with Jackson county.

## TRACTOR PLOWING CONTEST.

A tractor plowing contest will be held on the Burtless farm, one mile west of Manchester, next Saturday afternoon. Several makes of tractors will enter the contest and the "stunt" will be to plow a heavy alfalfa sod. A. G. Faust of this place expects to enter the Cleveland tractor in the contest.

## NEW HOLLIER "SOME" BAND.

Clearing weather last evening permitted the Hollier Concert band to give one of the best open-air entertainments ever heard in Chelsea. The old Hollier band, fathered in pre-war days by the Lewis Spring & Axle company, was considered by the critics one of the best musical organizations of its kind in the Midwest, but the new band, which has been organized and directed by Mr. Lewis personally, is even better.

In spite of the cold, raw evening, there was a good sized crowd out to hear the first band concert of the season, a large majority of the people of the surrounding country coming in to swell the crowd.

Mr. Lewis has had a new platform constructed, building it much higher than the one used in former years, making it both easier to see and hear the band.

Children last night thoughtlessly created considerable disturbance, annoying both the players and those who wished to hear the music. The band music seemed to inspire the "kids" with lots of "pep" and a desire to be up and doing every minute and they simply could not keep still, and of course they were just as close to the band stand as they could get. We like to see the boys and girls have a good time, but we believe that their enthusiasm should be curbed a bit when future concerts are given.

## NEIGHBORHOOD ITEMS

Brevities of Interest From Nearby Towns and Localities.

ANN ARBOR—A. G. Giffel's meat market was burglarized Monday morning and about \$4 in cash was secured from the money drawer.

DENTON—Rev. Patrick Dunigan of Denton, chaplain of the 126th regiment in France, was awarded the croix de guerre by Gen. Mangin of the French army, at Rengdorf, Germany. Fr. Dunigan was chaplain of the Michigan regiment of the national guard which included the Ann Arbor company before the war commenced, and has for a long time been very popular with the men. Recent information is to the effect that he had been promoted to a position as head chaplain of the entire army corps.

## Y. M. C. A. NO LONGER TO MAINTAIN ARMY POST EXCHANGES.

Paris.—The American Y. M. C. A., at its own request, has been relieved of its work of maintaining the post exchanges with the American army. Correspondence exchanged between General Pershing and E. C. Carter, in charge of Y. M. C. A. with the army, shows the reason for this arrangement was that the Y. M. C. A. now has "increased responsibilities in promoting educational, athletic and entertainment activities in the American expeditionary forces," thus placing a rapidly increasing burden on its personnel.

General Pershing in a letter to Mr. Carter approving the change, expressed his thanks "for the very valuable services and assistance which the Y. M. C. A. has rendered to the American expeditionary force in handling these exchanges. General Pershing added:

"Handicapped by the shortage of tonnage and land transportation, the Y. M. C. A. has by extra exertion served the army better than could have been expected, and you may be assured that its aid has been a large factor in the final great accomplishment of the American army."

## MAY WEATHER FORECAST

Generally Clear and Warm Weather is Predicted for Next Month.

The Tribune's weather forecast for May, compiled from several different sources, indicates generally clear and warm weather, with a few showers.

1st to 5th—Fair and mild, becoming cooler about the 5th.

6th to 10th—Fair, with rising temperatures about the 8th.

11th to 16th—Generally changeable, probably rain the 11th, followed by clearing and pleasant weather.

17th to 23d—Generally clear, and rising temperatures about the 23d.

24th to 27th—Continued fair, possibly a little rain about the 25th or 26th.

28th to 31st—Threatening, stormy, very warm; probably thunder storms.

## FIFTY-THREE TEACHERS TAKE EXAMINATIONS

School Commissioner Essery Predicts Big Shortage Qualified Teachers For The Next Year.

Fifty-three candidates for second and third grade teachers' certificates took the examinations in Ann Arbor the past week. Fifteen of the candidates were examined for second grade and 38 for third grade certificates. Examinations were conducted on Thursday and Friday at the Ann Arbor high school, and on Saturday in the supervisors' room in the county court house.

Of the 53 candidates, only 12 were taking the examination for the first time, a very much smaller number than usual. County School Commissioner Evan Essery said this small number indicates that there is very likely to be a marked scarcity of qualified teachers next year.

Those from Chelsea who took the examination were: Mrs. E. R. Dancer, Misses Emma Lewick, Flora Schanz, and Marion Schmidt.

## PRESIDENT WILSON TELLS POSITION ON ADRIATIC QUESTION

Declares Italy Not Entitled to Fiume; Latins Defiant.

### ROME CALLS CHIEFS HOME

Premier Orlando Says: "We Will Hold What We Have"—U. S. President Declares 14 Points Are Basis of Peace.

Paris, April 24.—The Italian vice admiral, Thonon Di Revel, former chief of staff, has left Paris for Rome. Gen. Armando Diaz, commander in chief of the Italian armies, it is announced, also is leaving.

"I have not yet decided whether to reply to President Wilson with a statement or with an act," was Premier Orlando's remark when the Wilson statement was translated to him.

The Italian peace headquarters is practically unanimous in the belief that the president's statement means that Italy must withdraw from the peace conference.

"We have no peace terms to make with Germany, except a trilling bill for reparations," an Italian diplomat said. "We can arrange that any time or let it go. We can't very well make peace with Austria, as the Austro-Hungarian empire doesn't exist. We can, however, return to Rome and keep what we have, which is all we demand."

### President's Statement.

In a statement issued by President Wilson explaining his position on the Adriatic question he declares that Fiume cannot become a part of Italy.

The text of the statement follows: "In view of the capital importance of the questions affected, and in order to throw all possible light upon what is involved in their settlement, I hope that the following statement will contribute to the final formation of opinion and to a satisfactory solution."

"When Italy entered the war she entered upon the basis of a definite private understanding with Great Britain and France, now known as the pact of London. Since that time the whole face of circumstances has been altered. Many other powers, great and small, have entered the struggle with no knowledge of that private understanding."

"The Austro-Hungarian empire, then the enemy of Europe, and at whose expense the pact of London was to be kept in the event of victory, has gone to pieces and no longer exists. Not only that, but the several parts of that empire, it is agreed now by Italy and her associates, are to be erected into independent states and associated in a league of nations, not with those who were recently our enemies, but with Italy herself and the powers that stood with Italy in the great war for liberty."

"We are to establish their liberty as well as our own. They are to be among the smaller states whose interests are henceforth to be safeguarded as scrupulously as the interests of the most powerful states."

### How War Ended.

"The war was ended, moreover, by proposing to Germany an armistice and peace which should be founded on certain clearly defined principles which set up a new order of right and justice. Upon those principles the peace with Germany has been conceived, not only, but formulated. Upon those principles it will be effected."

"We cannot ask the great body of powers to propose and effect peace with Austria and establish a new basis of independence and right in the states which originally constituted the Austro-Hungarian empire and in the states of the Balkan group on principles of another kind. We must apply the same principles to the settlement of Europe in those quarters that we have applied in the peace with Germany."

"It was upon the explicit avowal of those principles that the initiative for peace was taken. It is upon them that the whole structure of peace must rest. If those principles are to be adhered to Fiume must serve as the outlet of the commerce, not of Italy, but of the land to the north and northeast of that port; Hungary, Rumania, Roumania and the states of the new Jugoslav group. To assign Fiume to Italy would be to create the feeling that we have deliberately put the port upon which all these countries chiefly depend for their access to the Mediterranean in the hands of a power of which it did not form an integral part and whose sovereignty, if set up there, must inevitably seem foreign, not domestic or identified with the commercial and industrial life of the regions which the port must serve. It is for that reason, no doubt, that Fiume was not included in the pact of London, but there definitely assigned to the Germans."

"And the reason why the line of the pact of London swept about many of the islands on the eastern coast of the Adriatic and around the portion of the Dalmatian coast which lies most open to the sea was not only that here and there on those islands, and here and there on that coast, there are bodies of people of Italian blood and connection, but also, and no doubt chiefly, because it was felt that it was necessary for Italy to have a foothold amidst the channels of the eastern Adriatic in order that she might make her own coast safe against the naval aggression of Austria-Hungary."

"But Austria-Hungary no longer exists. It is proposed that the fortifications which the Austrian government conspired there shall be razed and permanently destroyed."

"It is part also of the new plan of European order which centers in the league of nations that the new states erected there shall accept a limitation of armaments, which puts aggression out of the question. There can be no fear of the unfair treatment of groups of Italian people there, because adequate guarantees will be given, under international sanction, of the equal and equitable treatment of all racial or national minorities."

"In brief, every question associated with this settlement wears a new aspect—a new aspect given it by the very victory for right for which Italy has made the supreme sacrifice of blood and treasure. Italy, along with the four other great powers, has become one of the chief trustees of the new order which she has played so honorable a part in establishing."

"And on the north and northeast her natural frontiers are completely restored, along with the whole sweep of the Alps from northwest to southeast to the very end of the Italian peninsula, including all the great watershed within which Trieste and Pola lie, and all the fair regions whose face nature has turned towards the great peninsula upon which the historic life of the Latin people has been worked out through centuries of famous story ever since Rome was first set upon her seven hills."

"Her ancient unity is restored. Her lines are extended to the great walls which are her natural defense. It is within her choice to be surrounded by friends; to exhibit to the newly liberated peoples across the Adriatic that noblest quality of greatness, magnanimity, friendly generosity, the preference of justice over interest."

"The nations associated with her, the nations that know nothing of the pact of London or of any other special understanding that lies at the beginning of this great struggle, and who have made their supreme sacrifice also in the interest, not of national advantage or defense, but of the settled peace of the world, are now united with her other associates in urging her to assume a leadership which cannot be mistaken in the new order of Europe."

"U. S. Italy's Friend. America is Italy's friend. Her people are drawn, millions strong, from Italy's own fair countryside. She is linked in blood, as well as in affection, with the Italian people. Such ties can never be broken. And America is privileged, by the generous commission of her associates in the war, to initiate the peace we are about to consummate—to initiate it upon terms which she had herself formulated and in which I was her spokesman."

"The computation is upon her to square every decision she takes a part in with those principles. She can do nothing else. She trusts Italy, and in her trust believes that Italy will ask nothing of her that cannot be made unmistakably consistent with those sacred obligations."

"The interests are not now in question, but the rights of peoples, of states new and old, of liberated peoples and peoples whose rulers have never accounted them worthy of a right; above all, the right of the world to peace and to such settlements of interest as shall make peace secure."

"These, and these only, are the principles for which America has fought. These, and these only, are the principles upon which she can consent to make peace. Only upon these principles, she hopes and believes, will the people of Italy ask her to make peace."

"America's peace delegates are not alarmed over possible effects of the Italian situation at home. In other quarters anxiety is freely expressed lest Rome-inspired agitation might spread to the Italian colonies in the various big American cities, but it is generally believed this sort of threat will blow up in the same way as did the German-American scare immediately prior to America's entry into the war."

"As for Italy's threats of military action, they are not taken too seriously. The Italian money standards today are absolutely and solely maintained by the backing of the United States treasury, while her food situation also depends largely on American shipments. Application of economic pressure would be a very simple problem. Withdrawal by Italy from the peace conference would immediately result in her loss in the right to charter membership in the league of nations, in which case she might come at some future time as a new member, when the Adriatic question is settled."

Yanks Who Fought Huns With Shovels Reach New York—Other Arrivals.

New York, April 24.—Some of the famous Eleventh engineers, who used their picks and shovels as weapons in helping to stem the German advance near Cambrai, were among the 1,829 troops arriving on the steamship Santa Teresa from Bordeaux. Forty-six officers and 100 men of the army ambulance service, including quartermaster, hospitaliers, hospital and motor repair shop detachments, arrived on the steamship Duca d'Abruzzi from Marseilles. The vessel brought 33 Illinois cavalry.

## REVISED COVENANT LEAGUE OF NATIONS MADE PUBLIC IN U.S.

REDRAFT OF FIRST OUTLINE MADE AFTER CONSULTATION WITH 13 NEUTRAL NATIONS.

### SUMMARY OF ARTICLES GIVEN

Document Does Not Create a Super-State; League Must Depend On Free Consent of Its Component States.

Paris.—The revised covenant of the League of Nations went before a plenary session of the peace conference Monday for final action.

A semi-official analysis of the revised covenant says the redraft was made after consultation with 13 neutral nations, and examination of criticisms coming from both sides of the Atlantic. The resulting document, it is declared, does not create a super-state; the league must depend upon the free consent of its component states.

The preamble provides that all nations signing the covenant will adhere to its terms.

Article 1. Names the states which are to be members of the League. This list includes all the nations that were at war with Germany and such neutrals as are invited to become members.

Article 2. States that an assembly, a council and secretariat shall be named.

Article 3. Provides that the assembly shall consist of representatives of the members of the league. Each nation to have one vote.

Article 4. Provides that the council shall at the start consist of representatives of the United States, British Empire, France, Italy and Japan. Four other members are to be named later.

Articles 5. Provides for majority rule at council and assembly meetings.

Article 6. The permanent secretariat shall be established at the seat of the league, but the name of this official is not yet made public.

Article 7. Names the seat of the league as Geneva. Council may change this at any time.

Article 8. Provides for reduction of armaments.

Article 9. Establishes a permanent commission to report to the council.

Article 10. Binds members of the league to respect and protect other members from aggression.

Article 11. Any threat of war will concern all members of the league.

Article 12. All disputes must be submitted to the council. War must not be resorted to until 3 months after award of council.

Article 13. Members of League agree to adhere to decisions of award made by council.

Article 14. Permanent court of international justice to be established.

Article 15. The council, when unable to agree on disputes, may make public the whole facts in the case. Members of League may take action to uphold justice, if council cannot agree.

Article 16. Any member declaring war contrary to terms of the covenant shall be an outlaw. Other members are to sever all trade relations. Provides military measures to be taken against such nation.

Article 17. In disputes between nonmembers of league, parties are to be invited to join league for the purpose of settlement of dispute. Council to take action to prevent hostilities.

Article 18. Treaties must be registered with secretariat and made public.

Article 19. Inapplicable treaties may be reconsidered.

Article 20. Covenant supercedes all other treaties.

Article 21. Nothing in covenant shall be deemed to affect the validity of the international engagements, such as treaties of arbitration or regional understandings like the Monroe doctrine for securing the maintenance of peace.

Article 22. For colonies to be ruled by "Advanced Nations" temporarily. Those sufficiently developed may become independent states. Permanent commission to examine reports of mandatories ruling colonies.

Article 23. League members to maintain fair conditions for labor.

Article 24. Bureaus already established by treaties now in force shall be under direction of league.

Article 25. Pledge development of Red Cross.

Article 26. Provides for amendments to covenant.

Article 27. Provides for amendments to covenant.

Article 28. Provides for amendments to covenant.

Article 29. Provides for amendments to covenant.

Article 30. Provides for amendments to covenant.

Article 31. Provides for amendments to covenant.

Article 32. Provides for amendments to covenant.

Article 33. Provides for amendments to covenant.

Article 34. Provides for amendments to covenant.

Article 35. Provides for amendments to covenant.

## Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and lasting influence of Dr. Kibner's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation read ten cents to Dr. Kibner & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adm.

### Robert and Germs.

Robert has been in kindergarten just one week. In that week he has learned of many things, the existence of which is new to him. Among them is the subject of germs. He looks for them in water, in milk, and in almost everything he eats.

But the other day he found a new hiding place for them. Grandfather had just come down the alley from the square above after a wheelbarrow. Robert eyed him with horror. "You can't go back home that way," he ordered. "Don't you know that alley's just full of germs!"

## FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There's no harder the slightest need of feeling ashamed of your freckles, as ordinary freckles are guaranteed to remove these blemishes.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adm.

## Physicians Recommend Castoria

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

## Children Cry For Fletcher's CASTORIA

### Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy: why you must insist on Fletcher's? For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes and counterfeits.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

**A SPECIAL LOT OF  
GEORGETTE WAISTS**  
AT \$4.95

These are waists which ordinarily would sell for from \$6.00 to \$10.00, but because our buyer was able to make a particularly advantageous purchase on his last New York trip, we are able to offer them at this ridiculously low figure.

The blouses are made from firm heavy Georgette in the most authentic springtime modes. One collarless model is heavily braided—another beautifully embroidered—and so on. Each shows some individual style touch which sets it apart from the ordinary.

Colors are white, flesh, sunset, league blue, peach, dove grey, henna, navy, black, and purple.

**A Carload**

of the finest Asphalt Shingles and Asphalt Prepared Roofing in Rolls you have ever seen has just arrived. We certainly consider ourselves very fortunate in obtaining such a splendid stock of roofing materials.

These goods were manufactured by the McHenry-Millhouse Mfg. Co., South Bend, Indiana, and Fulton, N. Y. As pioneers in the industry, these people certainly do make high grade materials. If you are interested in making your home and other buildings more beautiful, more practical, and more valuable from a financial standpoint, we want you to step in the next time you are in town and carefully inspect their Asphalt Shingles and Asphalt Prepared Roofing in rolls.

If you have any old shingle roofs that are leaking, why not consider the matter of putting them in first class condition. Use the shingles for your home. Use the prepared roofing for your other buildings.

Some of these materials in this carload are yours. When are you coming to get them?

**LINER ADS EFFECTIVE.**

One of the most effective forms of advertising is in the "liner" or classified column where an investment of a few cents is certain to give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.
